RIVER AND STREAM
TOWNS WITH POPULATION SIZE AND CLASS III, IV, V, VI
DEGREE COLLEGE , TECHNICAL INSTITUTION

Note:-Devprayag town spreads over in two districts namely Tehri Garhwal and Garhwal.

MOTIF

Tehri Dam

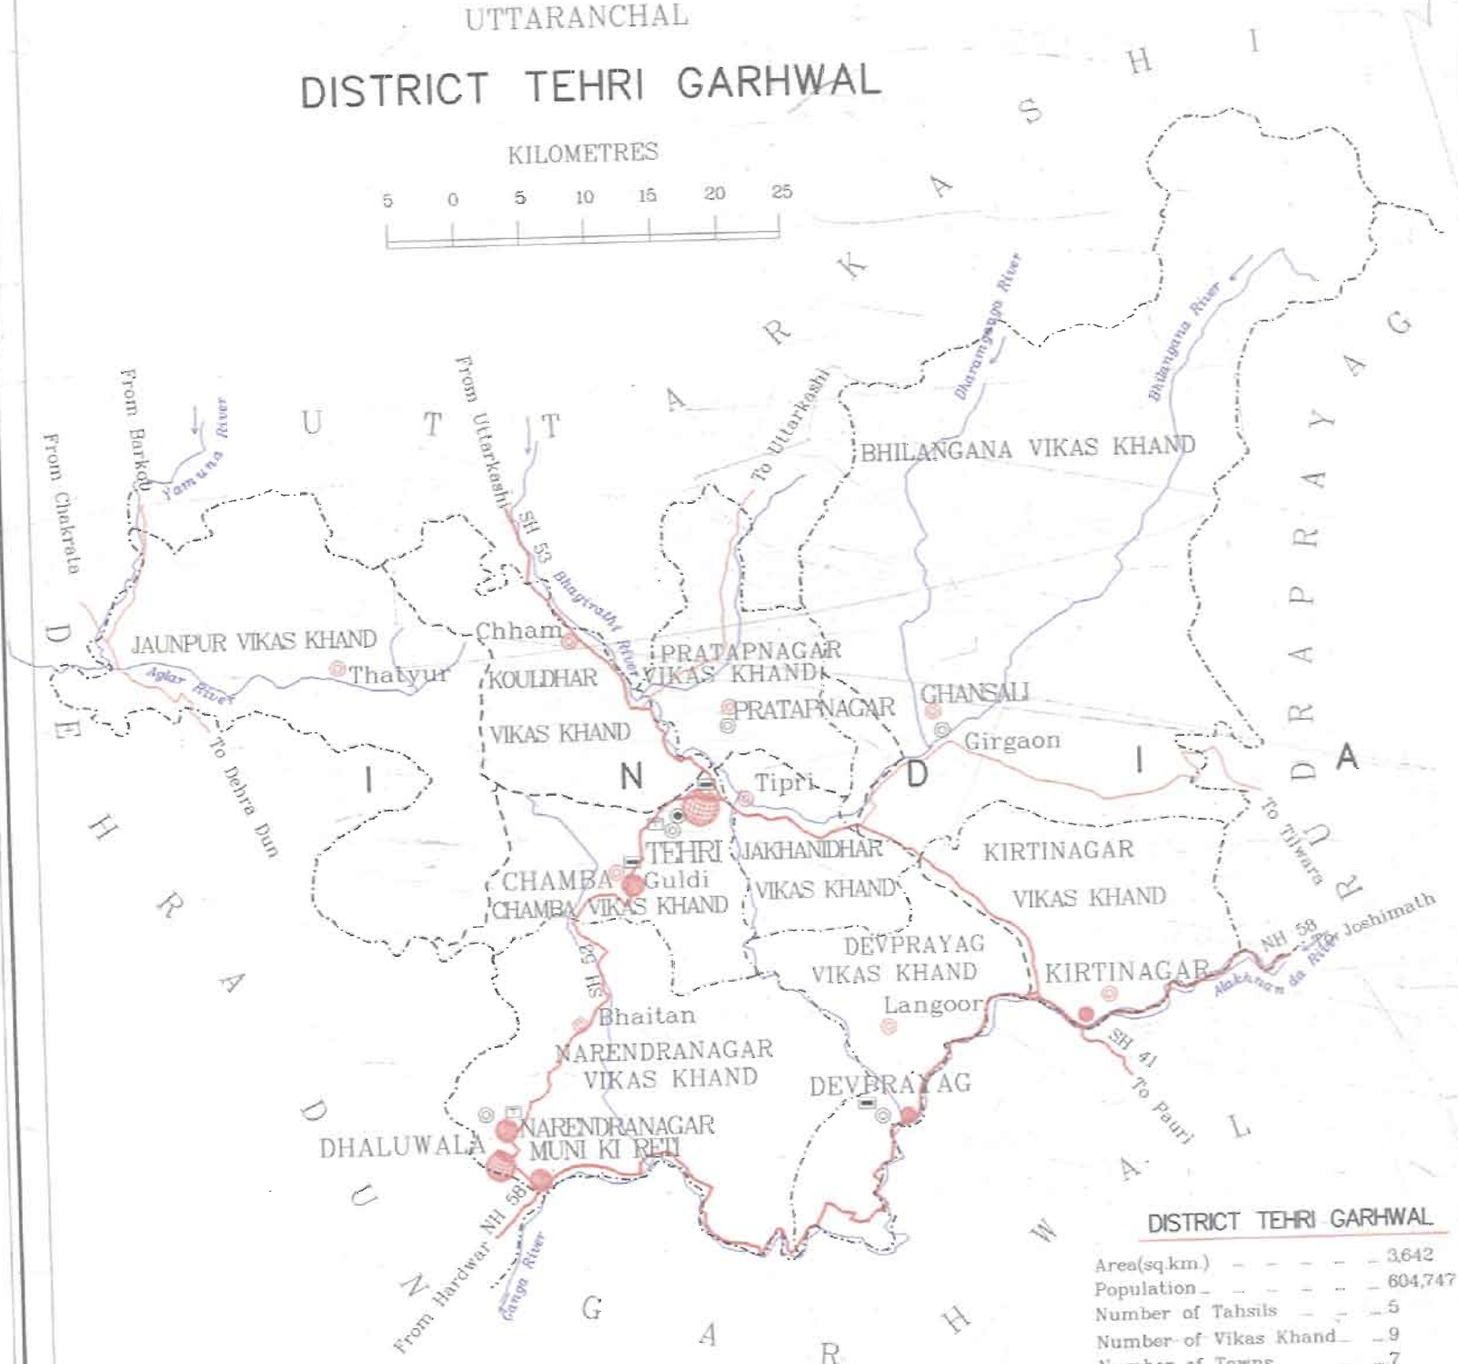

Tehri Dam is one of the tallest dam in the world, towering around 855 feet (261 m.). The dam project was approved in 1972 and construction was started in 1978. The Tehri Hydro Development Corporation (THDC) was constituted in 1989 to supervise the construction of the dam. The main dam of the project is built near the old Tehri town that lies at the confluence of the rivers Bhagirathi and Bhilangana. The dam's projected capabilities include a power generation capacity of 2400 MW, irrigation stabilisation to an area of 6,000 sq. m. and an additional area of 2,700 sq.m. of irrigation stabilisation and a supply of 270 million gallons of drinking water (per year) to industrialized cities in Delhi, Uttar Pradesh and Uttarakhand. However, only the Phase I with capacity of 1,000 MW is approved at present. The dam has been the object of intense protestation by environmental organisations and the local people of this region. But inspite of these concerns and protestation, operation of the Tehri Dam continued and the project generated its first unit of electricity in June, 2006.

Annexures - I To VIII

Annexure I	Number of villages under each Gram Panchayat	963
Annexure II	Fertility and Mortality, 1991 Census	963
Annexure III	Various measures of fertility and mean age at marriage, 1991 Census	964
Annexure IV	Percentage distribution of Migrants by place of birth/place of last residence, 1991 and 2001 Census	965
Annexure V	Brief account of main religions in the district/tahsil as per 1991 and 2001 Census	967
Annexure VI	Marital status of Different Age-groups of Population as per 1991 and 2001 Census	969
Annexure VII	Age, Sex and Education in the district, 1991 and 2001 Census	973
Annexure VIII	Distribution of different mother tongues returned in 1991 and 2001 Census	975

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCBH was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of

all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Dr. Ranvir Singh, Director of Census Operations, Uttar Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division,who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006.

Preface

The District Census Handbooks (DCHBs) are brought-out in two parts giving village and town wise data for each district. The first part contains non-census data for each village and town and is called Village and Town Directories Part A. The Part B provides Census data for rural area up to the village level and for urban areas up to ward level for each town or city in the shape of Primary Census Abstract (PCAs). The information contained in Primary Census Abstract and Village and Town Directory (VDs/TDs) has already been released for data users in soft copy. Data available in District Census Handbooks are very useful for policy planners, Administrators, Researchers and other socio-economic research centers. Till 1991 Census, all the inset tables included in District Census Handbooks were produced manually. But this time the software designed by the Data Processing Division of the Office of the Registrar General, India helped in the fast generations of tables.

I am deeply grateful to Shri J.K, Banthia, Ex-Registrar General and Census Commissioner of India for his guidance and support. I would like to thank Shri D.K. Sikri, Secretary, Registrar General and Census Commissioner of India for his sustained support and spontaneous, unfailing guidance through our endeavours. At the outset I thank to Shri R.C. Sethi. Additional Registrar General, India, who drove us to complete the District Census Handbooks within a specific timeframe and make it ready for printing.

I thank to Shri R.G. Mitra, Ex. Deputy Registrar General (C&T), Shri R.P. Singh, Ex. Deputy Registrar General (Map), Dr. I.C. Aggarwal, Ex. Assistant Registrar General (SS) of the office of Register General, India for their guidance at each steps in the preparation of District Census Handbook. Special thanks are due to Shri S.L. Jain, Deputy Director (Social Studies) and Shri Anil Kumar Arora, Deputy Director (EDP), without their untiring efforts and support we could not have completed the District Census Handbook within this time.

The Director of Census Operations, Uttar Pradesh, Dr. Ranbir Singh, under whose guidance, the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignments before the volume could be made available for the printing. I am also thankful to Shri R. K. Singh, Ex-Joint Director and Shri S.S.A. Jafri, Deputy Director for their valuable guidance and support to complete this project within specific time frame. The task of data collection in respect of both Census and non-census items was a gigantic on which officials in the State Government had to perform along with their normal duties. For their deep sense of devotion to duty and hard work in this regard, I am thankful to all of them.

The preparation of District Census Handbook was done under the supervision of Shri Mohd. Ahmad, Assistant Director. I am also thankful to Shri Shailendra Singh Negi, S.I. Grade-I, Shri S.K. Banerjee, S.I. Gr. II and Shri U.G. Jhingran, S.I. Gr. III who assisted in the work for timely completion of the project. S.I.Gr.II, S.I.Gr.III, Sr.Compilers, Compilers, Data Entry Operators and Assistant Compilers who assisted in the work also did a tremendous job. Shri A.M. Ansari, Deputy Director (EDP) and his team of devoted workers deserve all praise for timely processing of Household Schedule through Image Based Data Capturing Technology i.e. Scanning. The members of the staff in the Map Section did a commendable job under the guidance of Shri Dashrath Singh, Research Officer (Map)and Shri J.P. Purohit, Research Officer (Map) in bringing out various maps.

District Highlights - 2001 Census

1. Tehri Garhwal district ranks 7th in terms of population in the state.
2. Tehri Garhwal is one of the least urbanised districts in the state having less than one-tenth (9.9 per cent) of the population in urban areas.
3. Tehri Garhwal district has population density of 166 persons per sq.km.which is more than the state average 159 persons per sq. km.
4. Tehri Garhwal district ranks 5th in terms of sex ratio (1,049) which is higher than state average (962 females per one thousand males).
5. Tehri Garhwal district ranks 10th in literacy (66.7 per cent) and is below the state literacy (71.6 per cent).
6. There are only 66 uninhabited villages out of total 1,867 villages in the district.
7. Decadal growth rate of the district (16.2 per cent) is lower than the state average of (20.4 per cent).
8. Tehri tahsil has the highest number of inhabited villages (651) while Narendranagar tahsil has the lowest number (211).
9. The district has seven towns, out of them two are new towns added after 1991 census, but no town has been declassified.
10. There are 117,754 households in the district accounting for 7.3 per cent of the total households in the state.

Note: * These figures represent 'Geographical area' supplied by the Surveyor General of India. Figures for urban areas are those supplied by the local bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of tahsils will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Board of Revenue.

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of the District Census Handbook

The district census handbooks were first published after 1951 census. Since then after every decadal census the publication has remained a constant feature with some improvements. This publication has been traditionally brought out by the Census Organization on behalf of each State Government/ Union Territory. This publication provides data on demographic characteristics as well as information on the availability of basic amenities in each village and town of respective districts. The scope of the publication has been changing with the changing needs of the data users. The 1951 census series of the publication contained Primary Census Abstract, Village and Town Directories, administrative statistics and an account of the district. In 1961 the publication was in a single volume containing three parts covering Census tables, official statistics and Village Directories. The 1971 Census DCHBs were published in two parts. The Part A contained Village and Town Directories and Part B contained Village and Town PCA. The Part C could not be published in many States/UTs which contained administrative statistics and district census tables. The 1981 DCHBs were published on the restructured formats of Village and Town Directories. The DCHBs of 1981 Census were published in two parts for each district. The Village and Town Directories comprised Part 'A' and PCAs of Villages and Towns (ward-wise) including Scheduled Castes and Scheduled Tribes PCA up to Tahsil/Town level were provided in Part 'B'. If any amenity except electricity was not available in the referent village, the distance in broad ranges from the nearest place having such amenities was given. Information on some new items were also provided keeping in view of the needs of the Revised Minimum Needs Program. The 1991 DCHBs were almost same in scope as was at 1981. The new features included in 1991 DCHBs were the nine-fold industrial classification of main workers and the sex-wise population in the 0-6 age group. Yet other information at the 1991 census was the CD Block level presentation of data. The VD data was also made available through the magnetic tapes/floppies. Unfortunately in UP no DCHBs relating to 1991 Census were out of press till completion of 2001 Census defeating the very purpose of these publications apart from causing inconveniences to the data users.

The 2001 DCHBs contain more information such as details on greater number of facilities available to the Villages/Towns. The analysis of data with aid of inset tables and statements is more informative. The 2001 DCHBs are fully geared to meet the requirements of Gram Panchayats. At the 2001 Census the DCHBs are entirely available on electronic format and on CD-ROM, hence the word "Handbook" seems now to be a misnomer.

(ii) Brief History of the District

Tehri Garhwal is a hill district, situated in the lap of Himalayas, in Uttaranchal state. Before 1948 it was ruled by a king. After amalgamation with the state of Uttar Pradesh in 1949 a district Tehri Garhwal was created. In the year 1960 some parts of this district were separated and Uttarkashi district was created. In the year 1997, 168 villages of this district were included in the newly created district of Rudraprayag. The headquarters of the district lies at New Tehri.

Hindu tradition associates Lord Brahma with this sacred land. Muni-ki-Reti and Tapoban of the district are the places associated with ancient times. Tehri and Garhwal are the two words combined for naming the district as Tehri Garhwal. While the prefix Tehri is the corrupted form of the word 'Trihari' which signifies a place that washes away all the three types of sins, namely sins born out of thought (Mansa), word (Vacha) and deed (Karmana); the other part 'Garh' means country fort. In fact, during olden days possession of number of forts was considered as a significant yardstick of the prosperity and power of their rulers. Prior to the year 888 AD, the whole of the Garhwal region was divided into small 'garhs' by separate independent kings known as Rana, Rai or Thakur. It is said that the prince Kanakpal who hailed from Malwa visited Badrinathji (presently in Chamoli district) where he met the mightiest king Bhanu Pratap. King Bhanu Pratap was impressed with the prince and got his only daughter married to him and also handed over his kingdom. Gradually Kanakpal and his descendents extended their sway by conquering all the 'garhs'. Thus up to 1803, i.e. for 915 years the whole of Garhwal region remained under their control.

During 1794-95 Garhwal was under the grip of severe famine and in 1883, it was terribly shaken by an earthquake. Later on Gorkhas started invading this territory. The people of the region being already affected by natural calamities were in deplorable condition, and, therefore, could not resist Gorakha's invasion. In 1803, Gorakhas invaded Garhwal region when king Pradumn Shah was the ruler. King Pradumn Shah was killed in the battle in Dehradun but his only son (Sudarhan Shah was minor at that time) was cleverly saved by the trusted courtiers. With the victory of Gorkhas their dominion was established in Garhwal region. Later on, their kingdom was extended up to Kangra and they ruled over this region continuously for 12 years before they were thrown away from Kangra by Maharaja Ranjit Singh. On the other hand Sudarshan Shah could manage help from East India Company and got his kingdom freed from Gorkha rulers. The East India Company merged Kumaon, Dehradun and east Garhwal in the British Empire and the West Garhwal was given to Sudarshan Shah which was then known as Tehri Riyasat.

King Sudarshan Shah established his capital at Tehri town and afterwards his successors Pratap Shah and Narendra Shah established their capitals at Pratapnagar, Kirtinagar and Narendranagar respectively. Their dynasty ruled over the region from 1815 to 1949. During the Quit India Movement people of this region actively participated for the independence of the country. Ultimately when the country was declared independent in 1947, the inhabitants of Tehri Riyasat started their movement for getting themselves freed from the clutches of Maharaja. Due to the movement the situation became out of his control and was difficult for him to rule over the region. Consequently the 60th king of Pawar Vansh, Manvendra Shah accepted the sovereignty of Indian government. Thus, in 1949 Tehri Riyasat was merged in Uttar Pradesh and was given the status of a new district. Being a large region it posed problems in expediting development. Resultantly on 24th February 1960 the U.P. Government separated its one tahsil which was given status of a separate district by name of Uttarkashi.

(iii) Administrative Setup

Tehri Garhwal is one of the western district of Uttaranchal located on the outer ranges of the mid Himalayas which comprise low line peaks rising contiguously with the planes of the north India. District headquarters is at New Tehri town. For administrative purposes, the district is divided into five tahsils – namely Tehri, Pratapnagar, Narendranagar, Devprayag and Ghansali. There are 9 Community Development Blocks, 762 Gram Sabhas, 1,867 villages and 7 towns in the district. Out of this Narendra Nagar and Tehri are M.B. and 4 towns are Nagar Panchayats and 1 is Census Town.

The following jurisdictional changes have taken place during the decade 1991-2001. A new tahsil Ghansali was created in 1997 by transferring 76 villages from tahsil Devprayag and 219 villages of tahsil Pratap Nagar. As much as 168 villages were transferred to tahsil Rudraprayag of newly formed district Rudraprayag in the year 1997. Tehri Garhwal and 12 other districts were separated from Uttar Pradesh and a new state of Uttaranchal came into existence since Nov. 2000.

District level officers include District Magistrate, Additional District Magistrate, Sub-Divisional Magistrate inclusive of District Judge, Superintendent of Police, Chief Development Officer, District Development Officer, Assistant District Development Officer, Chief Medical Officer, Treasury Officer, District Rural Development Authority, District Inspector of Schools, Regional Tourist Officer, District Employment Officer, District Horticulture

Statement showing territorial changes during 1991-2000

Serial number	Name of Tahsil	Notification No. and Date	Jurisdictional Changes: Added	Jurisdictional Changes: Subtracted
1	Pratapnagar	2542/I-5/97-264/97-R-5 Dt.30.08.1997		219 villages transferred to newly created Ghansali Tehsil
2	Devprayag			(1) 76 villages transferred to newly created Ghansali Tehsil (2) 168 villages transferred to Rudraprayag Tehsil
3	Ghansali		(1) 76 villages transferred from Dev Prayag Tehsil (2) 219 villages transferred from Pratapnagar Tehsil	

Officer, District Informatics Officer (NIC, Govt. of India), District Information Officer (State Govt.), General Manager (Distt. Industry Centre), District Election Officer, Distt. Public Relation Officer, Distt. Economic and Statistics Officer, Assistant Director Small Industries, District Forest Officer, Distt. Forest Officer Soil Conservation, DFO Logging, Additional Forest Conservator (Forest Division), Commandant (Home Guards), Executive Engineer, Jal Nigam, Executive Engineer, Electricity Distribution Division, Superintendent Engineer, Public Works Department, Executive Engineer, Public Works Department (Pauri division), Executive Engineer Rural Engineering Services, Executive Engineer Irrigation, Executive Engineer Mandi Parishad, SDO, Power House, etc. Despite them, the hierarchy shows the engagement of Tahsildars, Naib-tahsildars, Supervisor Kanoongo, Registrar Kanoongo and Lekhpal/Patwaries etc. too in the machinery.

(iv) Physical Features

Location and Size :

The district Tehri Garhwal is located between 30°-31' north latitude and 78°-79' east longitude. In the east lies district Rudraprayag west side is bounded by district Dehradun and in the north district Uttarkashi forms its boundary whereas southern boundary is demarcated by district Pauri Garhwal. Geographical area of the district is 3642 sq km. It is fifth largest district in terms of area in Uttaranchal. The highest peak in the district is Kantha at height of 5705 metres. This is the place from where river Bhilangana originates.

Physiography :

A major portion of the district consists of hilly tract and district Tehri Garhwal is a part of western Kumaon Himalaya, Siwalik and Doons. The district extends on outer ranges of mid – Himalayas which comprise low line peaks and rising continuous plateaus. The height in the valley area ranges from 335 metres to 1007 metres. More than half of the area of the district lies between the heights 7076 metres to 2206 metres. Community Development Block Jaunpur, Pratap Nagar and Bhilangana lies between the heights 2286 to 3044 metres. On the basis of geology, soil topography, climate and natural vegetation, the district is divided into following sub-micro regions.

Yamuna Basin

The region covers small segments of north-western part of Tehri tahsil. It is separated from the neighbouring region by the high ridge which is also the water dividing line. It's name is derived from the river Yamuna which flows along the boundary line of Dehradun and Tehri Garhwal districts. Badri-Gad is the main stream of Yamuna which flows through the centre of this tract. Although the region is very small yet physical characteristics are varied.The north-east has high ridges with steep slopes towards west which decreases gradually.

Lesser Himalaya-West

The region extends in the western part of the district, bounded by Yamuna Basin in the west and lower Bhagirathi Basin in the east. It is separated from other regions by the water dividing line of the Yamuna tributaries and Bhagirathi in the east. The area comprises crest of the ridges, scarps, gorges, steep slope zones and valleys. The height varies between 1500 and 2700 metres from the sea level.

Lower Bhagirathi Basin

The region extends in the central part of the district along with Bhagirathi river and its tributaries. This is also a mountainous zone which depicts high ridges, valleys and slope tracts. The height varies between 1000 and 2700 metres from the mean sea level. Pirhi Peak (2711 m.) near Pratapnagar and Koti Peak (2719 m.) have higher altitudes Narendranagar situated at a height of 1067 metres from the sea level is an important town of the region. Muni-ki-Reti is a small holy town, Devprayag is also a small holy town of this region.

Lesser Himalaya East

The region extends in the north-eastern part of the district. Topography of the region depicts mountains, river valleys and resultant land form like crests of the ridges, escarpments, gorges, spring and slope zones. Height varies between 2000 and 4000 metres from the mean sea level.

Greater Himalaya

This is a small region which extends in the north-east part of the district. This is high mountainous zone covered with snow cap. Height varies between near-about 4000 and 6900 metres from the mean sea level. Topography depicts ice-wall, ice pinnacles, Bamak Tal and falls. Northern part is formed by glacial topography. Adverse climate conditions restrict the human habitation in this region.

Mandakini Basin

This region extends in the eastern part of the district. Height varies between 1000 and 3000 metres from the mean sea level. General slope is towards south-east. Northern part has high altitude

while southern part is relatively low. Crests of the ridges, river valleys, falls and slope tracts are found everywhere in the region. A series of mountains Bangri Dhar (2769m.) is situated in the middle part of the region.

Alaknanda Basin

The region extends in the south-eastern part of the district. Alaknanda river forms southern boundary of this region. This is the low mountainous zone. Height gradually inclines towards the south and varies between 1000 and 2800 metres from the mean sea level. Crest of ridges, slopes and valleys are common topographic feature. Hills are mostly covered with open shrubs and reserved forests. Kirtinagar is a small town situated on the bank of Alaknanda.

Drainage

Bhagirathi, Bhilangana, Mandakini, Alaknanda and Balganga are the main rivers which flow in the territory of the district. Yamuna river forms the western boundary of the district and separates it from Dehradun. Bhagirathi from Uttarkashi and Alaknanda from Rudraprayag enter into the district and meet at Devprayag and acquire the prominent name, the Ganga. There are many other rivers, rivulets and streams that drain the area. The general tendency of flow of the rivers is towards south from north-east direction. The north east part of Yamuna basin has high ridges with steep slopes towards west which decreases slowly. Lower Bhagirathi basin has gentle slopes. The general slope in Mandakani basin is towards south east. Northern part has high altitude while southern part is relatively low.

Climate

The climate during the months of April to June is warm whereas winters are very cold. The northern portion i.e. hilly area is cooler than the valleys during the summer season. Valleys are very warm during summer. During the year 1998-99 the maximum temperature recorded in the district was 31.40°C while minimum was 0.50°C. Actual rainfall recorded during the year 1998-99 was 1024 mm which was very low in comparison to the average rainfall of the district being1395 mm. The monsoon current passes through the valleys and heavy rainfall occurs during the months of June to September. The period from October to middle of November constitutes the post- monsoon season after which the winter season sets in and lasts by the mid of March followed by summer or pre-monsoon season. During the winter season, the climate is severe. The height of the district varies between 1000 to 6900 metres from the sea level. During the winter snowfall occurs at high altitudes while valleys are covered under dense fog.

Natural Economic Resources

Forestry

Most of the district is covered under forests which form prominent economic activity of the district. The area covered under forests consists of vast range of species found in the Himalayas. Some of the forests of Chir, Oak, Conifers, Sal and Deodar found in the district are very valuable. Besides this, various types of fruit trees like comel, fig, kaiphal, mulberry, raspberry, kingora, blackberry, apple, pear and plum are found in the district. Apart from these alpine flowers are also found in the north eastern part of district. On the whole, the flora found in the district may be divided in six main botanical divisions, viz. (i) the tropical dry deciduous forests (ii) the sal forests (iii) the chir forests (iv) the oak forests (v) the deodar, fir and spruce forests and (vi) the alpine pastures. Most of the areas in Lesser Himalaya West are covered with dense mixed jungle mainly of pine. High altitude zones are covered with dense mixed jungles mainly of pine & banj. Hills are mostly covered with open scrubs and reserved forests.

According to land use statistics as given in Sankhikiya Patrika 1999-2000 as much as 359207 hectare land was under forest, which was about 67 percent of total land area. Forest department has planted trees of fuel value in 160 hectare during 1998-99 while species valuable from the economic and industrial use point of view were planted in 347 hectare. For better communication in the forest area 160 km. road renovated and 10 bridges are renewed. During 1999-2000, forest department earned revenue of Rs. 29,447 thousand. Various kinds of mammals, birds, reptiles and fish are found in the district. The district is famous for its black bears generally found in lower altitudes.

Minerals and mining

High grade limestone, a kind of rock used in the manufacture of cement and lime, occurs in the district and there are number of quarries. There are deposits of dolomite, zinc, phosphate, marble and magnetite.

Soil

Being a hilly district, most of the land is sloppy and rocky. Erosion of soil takes place due to sloppy land mass. This causes scarcity of cultivable land and also reduces fertility of the land. Finer soils are to be found only in river valley where they widen out. In the valley area soil is 'Domat' and red in colour. In upper ranges the soil found is light 'Domat'. Adverse topographic conditions reduce the

prospects of agriculture. Agricultural holdings are scattered and uneconomical. Specifically, the Yamuna basin has high base status soils of humid soils of humid region (udalfs) while in the Lesser Himalaya-west major part of the region formed of rocks which comes under Jaunsar series and Simla states of upper pre-Cambrian and lower Paleozoic periods and southern part of the region has the rocks of Jurassic period. The variety of soil in the Lower Bhagirathi basin is mainly high base status of humid region. Lesser Himalaya east present udalfs and ochrepts-orthents-udalfs. Glaciated soils are found in greater Himalaya and lastly the soil in the Alakhananda basin is udalfs sub-order association.

Land and land use pattern

Land in the district from agro climatic point of view depends upon height and is divided into three parts i.e. places with height up to 1219 metres, including river valleys and Bhabar, places with height up to 1828 metres and high mountainous above 1828 metres. The depths of the river valleys 1219 metres above from sea level and climatically not very hot or cold and receive adequate rain. The bhabar areas, the land is fertile and irrigation facilities through guls are also there. This is known as talaon land and it contains good fertile alluvial soil. The next is upraon land which lies at higher altitudes, also known as terraced land, it is inferior land is used for coarse grains as no irrigation facility exist. The land use statistics available as reported in the Sankhyakiya Patrika 1999-2000, out of the total 66.9 per cent covered under forest and 13.9 per cent land was cultivable waste. Total fallow land constitute 8674 hectare or (1.62 per cent) whereas 12550 hectare barren or not fit for cultivation. 2927 hectares or (0.54 per cent) of land was in use for permanent pastures and other grazing purpose and 11307 hectare or (2.10 per cent) for other use. Net area sown in the district accounted to 67095 hectare out of the area under multiple crop has been 40283 hectare. Due to heavy population pressure, the land holdings in the district are fragmented many times and percentage of smallest land holdings as reported in statistical bulletin 1999-2000 of the size of less than 1 hectare constitute 70.1 per cent while it covered 34.22 per cent of the cultivable land. Percentage of the number of land holdings of the size of 1-2 hectare has been 20.69 per cent, 2-4 hectare 7.61 per cent and 4 to 10 hectare are merely 1.99 per cent. This clearly shows that land holdings are very small in size and resultantly farmers are not in a position to make use of modern tools and implements. Consequently there are a very small percentage of farmers who can produce enough to meet their requirements for the whole year.

Tenancy

After the enforcement of the Kumaon and Uttarakhand Zamindari Abolition and Land Reforms Act, 1960, the old land tenures were abolished. This Act replaced the multiplicity of tenures existing in the region by three types: the bhumidhar, sirdar and asami. The intermediaries became bhumidhars in respect of groves held by them. Those who were hissedars (shareholders) and khaikars became bhumidhars in respect of lands in their actual possession. A sirdar has a permanent and heritable interest in his land holdings but can use his land only for agriculture, horticulture and animal husbandry, although he can acquire bhumidhari rights under the provisions of the Act. An asami's right is heritable but not transferable or permanent and he can be ejected from his holdings.

Agriculture and crop pattern

Although agriculture is not a remunerative occupation but the economy of the district is based on agriculture. From a study of the occupational structure of the economy of the district as per 1991 census, nearly 79 per cent of the working force is engaged in agriculture and allied activities. Being in the Himalayan region, the district of Tehri Garhwal contains little level ground. The slope of the hills is usually too steep to cultivate without terracing. Finer soils are to be found only in the river valleys where valleys are widen out. In order to reclaim some land, stones are built up into a wall at the lower part of the slope and excavation is done at the upper part to fill up the hollow, until a level stretch is formed. The walls are raised gradually in subsequent years to retain the silt. Level land being scarce, cultivation is generally practiced on terraced fields. Due to the increase in population and the resultant pressure on land, the need for more food grains has extended cultivation even to those hillsides which could not be utilized, terraced and cultivated in the past.

In the greater part of the district there are two harvests Kharif and Rabi, as in plains but in cooler climate of the hills the crops require a longer period to ripen and are therefore sown some what earlier and reaped later in the plains. The Kharif in reaped in September and Rabi are generally sown in Oct. – Nov. and harvested from the end of April to the middle of May or even later in the fields that are situated higher up. Wheat, barley, gram, pea and masoor are chief crops of Rabi whereas paddy, maize, sanwa,

mandua and soybean are grown during Kharif. Potatoes and tobacco are extensively produced in the district. For improvement of extensive and multi-crop cultivation, agriculture department of the State Government is providing improved variety of seeds, fertilizers and insecticides to the farmers. Cultivators of the district had the services of 10 seed godown/ fertilizer depots, 54 rural godowns, 10 insecticide depots and one seed farm up to year 1999-2000. For storage facilities, there were 34 warehousing go downs under state government during the same period. The area under different crops as reported in Samajik Patrika 1999-2000 out of the total area sown 40283 hectares wheat accounted 33740 hectare, (83.7 per cent) barley 3412 hectares and masoor 1167 hectares, during Rabi and out of the total 67095 hectares paddy was sown over 16706 hectares (24.9 per cent), maize 1978 hectares, and mandua 17449 hectares. Pulse accounted 3525 hectares and oil seeds covered 1649 hectares. Among vegetable, potato practice over 1464 hectares.

In the district mainly small and marginal farmers are there. To augment their income, government is promoting horticulture as supplementary occupation for them. After tests of soil, it has been found that it is suitable for horticulture, vegetable, spices and flowers. Various schemes are being implemented to promote the plantation of fruits, vegetables and flowers. Chamba-Mussoorie fruit belt is a rich fruit-producing region.

Irrigation

To a large extent cultivation depends on the availability of irrigation facilities. In the district rain is the main source of water for irrigation, but rain water hardly stays in the fields because of the sloping nature of the terrain and even the top soil can not retain moisture for long. Thus, though the abundant rain does not satisfy the irrigational requirements of the district, the cultivators have to depend largely on artificial means of irrigation. Irrigation is done in the district mainly with the help of minor irrigation channels. Due to mountainous nature of the terrain, big irrigation projects do not have much scope and so stress continues to be on minor irrigation projects. Generally, gul irrigation system is adopted. Canals also serve irrigation facilities but to very limited areas. According to statistical bulletin 1999-2000 up to March, 1999 the district had 1844.8 km. long guls, 6144 hauz and 145 high drum.

Animal husbandry

Animal husbandry supplements the income of farmers. The government is paying constant attention to improve the progeny and health of the animals. Up to March 1999 the district was provided with the services of 31 veterinary dispensaries, 67 livestock development centers, 10 artificial insemination centers, 8 sheep development centers and one Angora farm. Priority is being given to the dairy development schemes in the hill district. For coordination of milk production and marketing, Tehri Garhwal Milk Cooperative Federation was formed in the year 1989-90. Till March 1999 only 131 milk cooperative societies had been formed. Milk is collected by these societies from the rural areas and is sent to New Tehri and Srinagar of Garhwal district. After processing and packaging, the milk is marketed in urban areas. These societies also look after the health of cattle and their fodder needs.

Fishery

Being a hill district Tehri Garhwal is deprived of ponds and lakes. In remote areas there are few natural water heads. Fishery, therefore, can be developed only in Diggi and Hauz, artificially made for irrigation. To popularize fishery in the district, Fishery Development Authority was formed in 1990-91. Since then much attention is being paid for repairing Diggi/Hauz and grants are also being given for this purpose. Moreover, fishermen are being trained and fingerlings are being provided.

Industry

For development of industries, District Industry Office is functioning at Narendranagar. Information and training is provided at this centre. There is no large scale industry in the district. Up to March 2000, 35 medium level industries were registered under Factory Act, 1948, out of which 22 medium and 2428 small scale industries are functioning. Dhalwala area is an industrial area where 2 factories of steel/rods are in function.

Trade and Commerce

Tehri Garhwal is not a big trading centre. Yet few items like, potato, fruit and wood are traded and marketed in other parts of the country. Forest products, such as various herbs are also important trading items. Tourism is a big revenue earning trade. Tourists flock to some important places of tourist interest. People who love adventure, visit some inhospitable places and glaciers of this district. However, being a hilly district, it has to import much more things than it can export.

Transport

There is no railway station or railway line. The nearest railway station is in Rishikesh which is 73

km. from district headquarters. Transportation of district depends on roads and pathways. Being a hilly district covered with dense forest, the network of road links is not only unsystematic but also insufficient too. Up to March 1999, the district had 1788 km. long road including the roads controlled by P.W.D., local bodies, forest department, D.G.B.R. and other departments, besides hill tracks. More than eighty per cent of villages of the district are connected by all weather roads. Buses, jeeps, cars carry passengers whereas trucks solve commercial and household purposes.

Electricity and Power

The importance of electricity is growing in the field of economic development and improvement in the standard of living of the common man. Electricity is the basic infrastructure for industry, agriculture and irrigation. Although the district has the potential of producing enough electricity for itself and neighboring districts, the consumption level does not show very encouraging scene. Figures available for 1999-2000 indicate that commercial light and small power consume the lion's share with 54132 thousand kwh. followed by 39412 thousand kwh by industries whereas 33727 thousand kwh by domestic lights and small power distantly followed by 11288 thousand kwh by public water supply and sewage disposal sectors. Agriculture and public lighting system consumes very small amount of electricity (603 thousand kwh and 315 thousand kwh respectively).

A big hydro-electricity project has been commissioned at Tehri. It was planned in 1972 to construct a big dam at the confluence of Bhagirathi and Bhilangana rivers. It is a multipurpose dam which will provide electricity, drinking water and water for irrigation in the neighbouring states. It is projected that in the coming days electricity to the tune of 6533 million units can be produced at this dam. It will provide permanent irrigation facility to 2.7 lakh hectare land of Uttar Pradesh. 40 lakh residents of Delhi will be provided water. It is estimated that after completion of dam 2400 mega watt electricity will be produced at this place.

Gram Panchayats, its composition, jurisdiction and role in village development

Under Panchyati Raj System, Gram Panchyats play important role in the development of village economy. A total of 762 Gram Sabhas exists in the district. Gram Panchayats consists of Pradhan (Head), Up Pradhan (Deputy Head) and members. Elections are held periodically to elect members and Pradhan of Gram Sabhas. Every person aged 18 and above have right to vote. To ensure representation of all sections of society, seats are reserved for scheduled castes, scheduled tribes and women. Tenure of panchayats is of five years. Village panchayat meets once in a month and all the decisions are taken by majority vote which is presided by the Pradhan. As many as 17 departments have been attached to Gram Sabhas in order to ensure that the benefits of the government program must reach to the common people living in the villages. Gram Sabhas acts like a bridge between govt. program and public. Under civic and welfare facilities, it provides safe drinking water, better medical and health care, arrangement for primary and secondary education, maintenance of roads, drainage and other essential requirements. Developmental functions include minor irrigation, agriculture plan, rural electrification, vocational education, rural housing, poverty alleviation program. Its duties include, implementation of various developmental plans enforced by central and state governments from time to time.

(v) Census Concepts

Building :

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-Residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made

of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Room

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room. In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the

buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house.On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.
b) A place satisfying the following three criteria simultaneously:
   i) a minimum population of 5,000;
   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and
   iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomer-ation should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes :

1 Agariya
2 Badhik
3 Badi
4 Baheliya
5 Baiga
6 Baiswar
7 Bajaniya
8 Bajgi
9 Balahar
10 Balai
11 Balmiki
12 Bangali
13 Banmanus
14 Bansphor
15 Barwar
16 Basor
17 Bawariya
18 Beldar
19 Beriya
20 Bhantu
21 Bhuiya
22 Bhuyiar
23 Boria
24 Chamar, Dhusia, Jhusia, Jatawa
25 Chero
26 Dabgar
27 Majhbar
28 Mazhabi
29 Musahar
30 Nat
31 Pankha
32 Parahiya
33 Pasi, Tarmali
34 Patari
35 Rawat
36 Saharya
37 Dhangar
38 Dhanuk
39 Dharkar
40 Dhobi
41 Dom
42 Domar
43 Dusadh
44 Gharami
45 Ghasiya
46 Gond
47 Gual
48 Habura
49 Hari
50 Hela
51 Kalabaz
52 Kanjar
53 Kapariya
54 Karwal
55 Khairaha
56 Kharwar (excluding Banbasi)
57 Khatik
58 Khorot
59 Kol
60 Kori
61 Korwa
62 Lalbegi
63 Sanaurhiya
64 Sansiya
65 Shilpkar
66 Turaiha

Scheduled Tribes

1 Bhotia
2 Buksa
3 Jaunsari
4 Raji
5 Tharu

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money,

kind or share. Cultivation includes effective supervision or direction in cultivation.

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc. and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc. and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometer of the area.

Age

Age is measured in terms of the completed number of years.

Sex-ratio

Number of females per 1,000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of Sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii)sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic

tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filteration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid–year Population}} \times 1000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the agegroup 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1,000 Population)

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term

vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents / relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001, in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g. Muhicipal Corporation/Corporation, Municipal Committee/Municipal Council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7, depending on the population size of UA/City/Town. These are M7 (5,000,000 and above); M6 (2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3 (300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings

Population Distribution

The total population of the district is 604,747 divided into the 544,901 in rural and 59,846 in urban areas. The most populous tehsil is Tehri with 203,252 population followed by Ghansali tehsil a population of 117,913.The least populous tehsil is Narendranagar with a population of 85,791. The maximum urban population is at Tehri tehsil which is 32,003 followed by at Narendranagar with 24,625 urban population whereas the least urban population is in Devaprayag tahsil which is 3,215. At the 2001 Census the district

has about 10 per cent of its population living in towns. As compated to this in the State the same is abouy 25.7 per cent. The population of urban population is highest at about 29 per cent in Narendranagar tehsil followed by about 16 per cent in Tehri tehsil and least of about 3 per cent the Devaprayag tehsil. In two tehsils of Ghansali and Pratapnagar there are no urban population.

Size, Class and Status of Towns

There are 6 statutory and 1 Census Town in the district. Tehri with 25,423 population is Class III town. Devaprayag with 11,444 population is Class IV. There are three Class V towns in the district - Muni Ki Reti, Chamba and Narendranagar. Also in the district are town Class VI towns - Devaprayag (Part) and Kirtinagar. The two Municipal Boards in the district are Tehri and Narendranagar, apart from Nagar Panchayats, namely Muni-Ki-Reti, Chamba, Devaprayag (Part) and Kirtinagar. The sole Census Town of the district is Dhaluwala The town of Devaprayag is spread over into two district namely Tehri Garhwal and Garhwal.

Population Growth

The population of the district in 1991 adjusted to jurisdiction of 2001 was 520,256 in the district. The population of the district at 2001 Census is 604,747. There has been decadal wherein population since 1991 amounting to 84,491 in absolute term (16.2 per cent). The males who were 254,188 at 1991 Census increased to 295,168, and females increased from 266,068 to 309,579. As against to 16.2 per cnet decadal growth in the district, the growth rate has increased 20.4 per cent in the state of Uttaranchal.

Population Density

The area of the district is 3,642 square kilometre. The density of population in the district is 166 as compared to 159 in the state. In the rural areas of the district the population density is 152.

Sex ratio

The sex ratio in the district is 1,049, while it is 962 in the state of Uttaranchal. In the rural areas of the district the sex ratio is high at 1.109 while it is only 628 in urban areas. The rural sex ratio of the district is better to the state. The sex ratio among five tahsils varies between 942 in Tehri to 1,173 in Ghansali. Among C.D. blocks the sex ratio varies from 1,004 in Jaunpur to 1,180 in Devaprayag. The sex ration in rural population in the district comes to 1109. Among towns of the district the least sex ratio is found in Tehri and highest in Devaprayag (Part). The sex ratio of population in the age-group 0-6 is 927 in the district which is quite low to 1,049 from the general population. The sex ratio of population of the agr-group 0-6 the rural areas is 932 against 866 in urban areas. The sex ratio of population in the age-group 0-6 among 9 C.D. blocks varies from as low as 866 from Chamba to as high as 958 in Jaunpur. The sex ratio of rural population in the age-group 0-6 by ranges for about 23 per cent population in the range 1,100+. The sex ratio of population in the age-group 0-6. Among towns varies from 542 in Tehri MB to 906 in Deoprayag NP.

Work Participation Rate

In the district about 44 per cent in the (264715 persons) pertains to the catetory of working population. Average males the working population is about 45 per cent against about 43 per cent among females. Main workers constitute 30.0 per cent of population. Female workers predominate male among marginal workers. Non-workers contribute about 56 per cent of total population. Out of these about 62 per cent are from the urban population. In rural areas about 55 per cent females are Non-workers. Of the total worker population in the district 70 per cent are cultivators, 1.3 per cent engaged as agricultural labourers, 0.9 per cent in household industry and 27.8 per cent as other workers. Among male workers about 48 per cent are cultivators as compared to about 93 per cent among females. Similarly as against 49.5 per cent male other workers, the proportion of female is only 5.9 per cent. In rural areas of the district as much as about 70.0 per cent of working population is cultivators as against only 0.6 per cent in urban areas. In case of other workers, the composition of rural and urban proportion is 21.0 and 99.0 per cent of working population. It may be mentioned that the working population in the district is about 44 per cent as compared to about 37 per cent in the state.

Literacy

In the district about 67 per cent of the population is literate as against about 72 per cent in the state of Uttaranchal. In the district 85 per cent of the male population is literate as compared to 83 per cent in the state. However, among females the literacy in the district to about 49 per cent as compared to about 60 per cent at the state level. In the district literacy rate is about 86 per cent in urban areas as against about 65 per cent in rural areas. The literacy is 70 per cent in urban areas. The gap in male/female literacy rate is 37.6 per cent in rural areas as compared to 11.3 per cent in urban aras. The literacy rate among C.D. blocks varies between 59.8 per cent in Jaunpur to 73.9 per cent in Kirtinagar. Similarly, the literacy rate among towns varies from about 84 per cent in Muni Ki Reti to 88 per cent in Devaprayag (Part).

(viii) Brief Analysis of PCA Data

The district throws up an vivid picture of its population at the 2001 Census. A few of the peculiar characteristics of the population is being highlighted through the following inset tables.

TABLE - 1
DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population 1991 Total	1991 Rural	1991 Urban	Population 2001 Total	2001 Rural	2001 Urban	Percentage decadal variation 1991-2001 Total	Rural	Urban	Percentage urban population 1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Ghansali	100,951	100,951	0	117,913	117,913	0	16.8	16.8	0.0	0.0	0.0
2	Devprayag	93,058	89,836	3,222	100,824	97,609	3,215	8.3	606	0.2	3.1	3.2
3	Pratapnagar	88,849	88,849	0	96,967	96,967	0	9.1	9.0	0.0	0.0	0.0
4	Tehri	167,089	146,863	20,226	203,252	171,249	32,003	21.6	11.6	58.2	15.7	15.7
5	Narendranagar	70,309	60,862	9,447	85,791	61,163	24,628	22.0	0 4	160.6	28.7	28.7
	District Total:	**520,256**	**487,361**	**32,895**	**604,747**	**544,901**	**59,846**	**16.2**	**11.8**	**81.9**	**9.0**	**9.9**

The growth rates of each tahsil in the Tehri Garhwal district for total, rural and urban areas and percentage of urban population to total population is given in table. The decadal growth rate of the district is 16.2 per cent during 1991-2001. The growth rates for rural and urban areas of the district are 11.8 and 81.9 per cent respectively. Out of the total population of the district 90.1 per cent lives in rural areas while 9.9 per cent lives in urban areas of the district.

The highest growth of urban population is recorded in Narendranagar tahsil (28.7 per cent) and lowest is registered in Pratapnagar tahsil (Zero). Urban population is concentrated in Narendranagar, Tehri and Devprayag tahsils while other tahsils are entirely rural. Narendranagar has highest decadal growth rate of 22.0 per cent, while Devprayag has shown the lowest growth rate of 8.3 per cent for the total population.

TABLE - 2
NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial Number	District / C.D. block	Total number of inhabited villages	Total rural population Persons	Males	Females	Number and percentage of villages	Population less than 200 Males	Females	Number and percentage of villages	Population 200-499 Males	Females	Number and percentage of villages	Population 500-999 Males	Females

Table-2 gives C.D. block-wise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at C.D. block level in the district. Out of the 1801 inhabited villages, 813 (45.1 per cent) are small sized villages with population below 200 persons. In the size of 200 to 499 persons there are 671 villages having 37.3 per cent villages of the district while in the size class of 500-999 population claims 262 villages with 14.5 per cent of the total villages in the district 51 villages (2.8 per cent) are in the size class of 1,000-1,999 and 4 villages (0.2 per cent) are in the size class of 2,000-4,999. None of villages in the district fall in the range of 5,000 and above population. The biggest village in the district is Punar having population of 3170 persons.

TABLE - 3
NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

(a) New
  (i) Statutory town – NIL
  (ii) Census town - NIL
(b) Denotified - NIL
  (i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns - NIL
  (ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria - NIL
  (iii) Census towns of 1991 census are notified as statutory town in 2001 census - NIL
(c) Declassified - NIL
(d) Wholly merged with other town(s) - NIL

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

TABLE - 4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	19	1.1	150	0.0
11-20	8	0.4	535	0.1
21-50	23	1.3	1,658	0.3
51-100	114	6.3	13,845	2.5
101-200	320	17.8	62,458	11.5
201-300	355	19.7	96,066	17.6
301-500	496	27.5	164,490	30.2
501 +	466	25.9	205,699	37.7
Not known	0	0.0	0	0.0
District Total:	**1,801**	**100.0**	**544,901**	**100.0**

This table 4 shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of village i.e. 496 accounting for 27.5 per cent of the total inhabited villages of the district fall in the density range of 301-500 persons having 30.2 per cent population while the corresponding proportion in the lower range of 11 to 20 is 0.4 per cent of the total inhabited villages having 0.1 per cent population of the district. In the medium density ranges of 51 to 100 and 101-200 persons account for 2.5 and 11.5 per cent of inhabited villages respectively.

TABLE - 5
SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	918	943	668	1,015	1,015	-
1911	907	944	585	1,026	1,026	-
1921	915	902	547	1,034	1,034	-
1931	913	948	604	1,017	1,017	-
1941	907	953	570	976	976	-
1951	940	990	669	1,122	1,139	560
1961	947	995	695	1,202	1,225	567
1971	940	990	721	1,179	1,204	584
1981	939	987	767	1,081	1,116	555
1991	940	982	810	1,047	1,090	563
2001	962	1,007	845	1,049	1,109	628

Note : Sex ratio has been defined here as the number of females per 1000 males.

Table 5 shows the sex ratio in the state lie in the range of 907 to 962 during the census years 1901 to 2001. The highest sex ratio i.e. 962 is observed in the year 2001 whereas in the urban areas it varies from 547 in the year 1921 to 845 in the year 2001. At the district level a favourable sex ratio was formed from 1901 to 1931 and 1951 to 2001 except in 1941 when it declined to 976. The rural part of the district follows the trends of the total population up to the census year 1941 as there were no urban units in the district. Since 1951 the urban sex ratio lie in the range of 560 to 628 and sex ratio in the urban areas is less than in the rural areas.

TABLE - 6
SEX RATIO BY TAHSILS, 2001

Serial Number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Ghansali	1,173	1,173	
2	Devprayag	1,144	1,155	850
3	Pratapnagar	1,142	1,142	
4	Tehri	942	1,032	570
5	Narendranagar	951	1,086	682
	District Total:	**1,049**	**1,109**	**628**

The table-6 gives sex-ratios for total, rural and urban areas at tahsil/sub-tahsil level as per 2001 census. There are 1049 females for every thousand males in the district. It becomes clear from the table that sex-ratio in rural areas is higher than that of urban areas. The sex-ratio among rural and urban population is 1109 and 628 females respectively. The rural sex-ratio in the tahsils varies between 1,032 - 1,173. It is clear that the sex ratio in rural areas (1,109) of the district is higher than the urban areas (628). Among tahsils Gansali has highest sex ratio (1,173) as against lowest in tahsil Tehri (942). In urban areas the highest sex ratio is recorded in Devprayag (850) and the lowest is in Tehri urban (570). The sex ratio in Tehri and Narendranagar tahsils are below the district level.

TABLE - 7
SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Bhilangana	1,175
2	Jakhanidhar	1,167
3	Devprayag	1,180
4	Kirtinagar	1,126
5	Pratapnagar	1,124
6	Jaunpur	1,004
7	Kouldhar	1,045
8	Chamba	1,057
9	Narendranagar	1,089
10	Forest Villages	686
	District (Rural) Total:	**1,109**

The table-7 presents C.D. block-wise sex-ratio for rural population in the district. The sex-ratio in rural areas of the district comes 1,109 females per 1,000 males, as a whole. Among the C.D. blocks the highest sex-ratio of 1,180 females is found in Devprayag C.D. block and is followed by Bhilgana (1,175) while the lowest of 1,004 is recorded in Kouldhar C.D. block. The sex ratio of Bhilangana. Jakhanidhar, Dev Prayag, Kirtinagar and Pratapnagar C.D. blocks are higher than the district rural average of 1,109 females and in remaining blocks, this value is below the district average.

TABLE - 8
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	56	3.1	5,878	1.1
700-749	24	1.3	9,797	1.8
750-799	22	1.2	7,494	1.4
800-849	42	2.3	10,371	1.9
850-899	79	4.4	23,551	4.3
900-949	94	5.2	27,664	5.1
950-999	110	6.1	35,120	6.4
1000-1099	370	20.6	124,070	22.8
1100+	1,004	55.8	300,956	55.2
District Total:	1,801	100.0	544,901	**100.0**
Sex ratio (Rural) for District:			**1109**	

Table 8 presents the ranges of sex ratio for rural population based on 2001 Census. The maximum number of villages i.e. 1,004 accounting for 55.8 per cent of the total villages having largest population of 55.2 per cent in the district fall in the sex ratio range of 1,100+ (i.e. highest range) females per 1,000 males. It is followed by the sex ratio range of 1,000-1,099 which claims 370 villages (20.5 per cent) and 22.8 per cent population. The sex ratio range of 950-999, there are 110 villages (6.1 per cent). In remaining sex ratio ranges of 900-949, 850-899, 800-849, 750-799, 700-749 and less than 700, the number of villages are 94 (5.2 per cent), 79 (4.4 per cent), 42 (2.3 per cent), 22 (1.2 per cent), 24 (1.3 per cent) and 56 (3.1 per cent) respectively. In these ranges, the percentage of population is comparatively low. The maximum number of villages i.e. 1,004 having maximum population (55.8 per cent) fall in the higher sex ratio ranges of 1,100+ females and above showing that in majority of villages the sex ratio is significantly higher.

TABLE - 9
SEX RATIO OF URBAN AGGLOMERATION/TOWNS, 2001

Serial number	Name of U.A./ Town	Urban status of town	Sex ratio
1	2	3	4
1	Chamba	(NP)	685
2	Devprayag (Partly in Garhwal)	(NP)	906
3	Dhaluwala	(CT)	786
4	Kirtinagar	(NP)	742
5	Muni Ki Reti	(NP)	580
6	Narendranagar	(NPP)	634
7	Tehri	(NPP)	542
Sex ratio (Urban) for the district:			**628**

Table 9 gives the sex-ratio of towns. The sex ratio in urban areas of the district comes to 628 females per 1,000 males as a whole. Among the 7 towns of the district the sex ratio varies between 542 to 906. Deo Prayag has the highest sex ratio (906), while Tehri (NPP) has the lowest sex ratio of 542 females per 1,000 males.

TABLE - 10
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serianl Number	Name of Tahsil	Total/ Rural/ Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Male	Female	
1	2	3	4	5	6	7
1	Ghansali	Total	20,465	10,532	9,933	943
		Rural	20,465	10,532	9,933	943
		Urban	0	0	0	
2	Devprayag	Total	15,914	8,215	7,699	937
		Rural	15,516	8,016	7,500	936
		Urban	398	199	199	1,000
3	Pratapnagar	Total	16,244	8,326	7,918	951
		Rural	16,244	8,326	7,918	951
		Urban	0	0	0	
4	Tehri	Total	31,934	16,689	15,245	913
		Rural	28,535	14,892	13,643	916
		Urban	3,399	1,797	1,602	891
5	Narendra Nagar	Total	13,967	7,354	6,613	899
		Rural	10,740	5,585	5,155	923
		Urban	3,227	1,769	1,458	824
	District Total:	**Total**	**98,524**	**51,116**	**47,408**	**927**
		Rural	**91,500**	**47,351**	**44,149**	**932**
		Urban	**7,024**	**3,765**	**3,259**	**866**

The table 10 presents population of age-group 0-6 years and sex-ratio for total, rural and urban areas in respect of each tahsil of the district. Total population in age-group 0-6 is 98,524 persons comprising 51,116 males and 47,408 females. The total sex-ratio in this age-group works out 927 females for every thousand males in the district. The proportion of females in rural areas is higher than that of urban areas. The sex-ratio in rural and urban areas comes 932 and 866 females in this age-group respectively. The rural sex-ratio among tahsils varies between 916 to 951. The sex ratio of Ghansali (T), Deo Prayag, Pratapnagar tahsils are higher than district rural average (932). Pratapnagar has highest sex ratio of 951 females among the total population, as a whole also claims highest rank in the sex ratio of children. In urban areas (0-6 age group) the higher sex ratio is recorded in Devprayag (1,000) and the lowest is found in Narendrangar urban (824).

TABLE - 11
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Bhilangana	18,572	9,541	9,031	947
2	Jakhanidhar	8,165	4,216	3,949	937
3	Devprayag	8,421	4,335	4,086	943
4	Kirtinagar	7,095	3,681	3,414	927
5	Pratapnagar	9,969	5,100	4,869	955
6	Jaunpur	11,749	6,001	5,748	958
7	Kouldhar	8,490	4,449	4,041	908
8	Chamba	8,220	4,405	3,815	866
9	Narendra Nagar	10,719	5,574	5,145	923
10	Forest Villages	100	49	51	1,041
	District (Rural) Total:	**91,500**	**47,351**	**44,149**	**932**

Table 11 gives C.D. block-wise sex-ratio of rural child population in the age-group 0-6 years in the district. The sex-ratio is 932 for the district (rural). The sex-ratio of C.D. block (excluding forest villages) varies between 866 to 958. It is highest in Jaunpur C.D. block i.e. 958 followed by 955 in Pratapnagar C.D. block and lowest 866 females is found in Chamba C.D. block. The sex ratio of Jaunpur, Pratapnagar, Bhilangana, Jakhanidhar and Devprayag C.D. blocks are higher than the district rural (932) while in remaining blocks it is below the average of the district.

TABLE - 12
SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	393	21.8	9700	10.6
700-749	82	4.5	4994	5.5
750-799	116	6.4	7090	7.8
800-849	151	8.4	9406	10.3
850-899	120	6.7	8254	9.0
900-949	118	6.6	9540	10.4
950-999	56	3.1	5074	5.5
1000-1099	259	14.4	16326	17.8
1100+	506	28.1	21116	23.1
District (Rural) Total	**1801**	**100.0**	**91500**	**100.0**

Sex ratio (Rural) for District: 932

Table 12 shows the distribution of villages in 9 sex-ratio ranges of the age-group 0-6 years as well as percentage of villages, total population and percentage of population of this age-group falling in each range of sex-ratio in the district.

Maximum number of villages i.e. 506 (28.1 per cent) having largest population (23.1 per cent) in the district (rural) fall in the sex-ratio range of 1100 and above females per 1,000 males in age of 0-6 years. It is followed by the sex-ratio range of less than 700 which claims 393 villages (21.8 per cent) and 10.6 per cent population. Next to it, 259 villages (14.4 per cent) are in the range of 1,000-1,099 with 17.8 per cent population. 151 villages (8.4 per cent) having 10.3 per cent population fall in sex-ratio range of 800-849. In remaining sex-ratio ranges of 700-749, 750-799, 850-899, 900-949 and 950-999 claim less number of villages and these are distributed as 82 (4.6 per cent), 116 (6.4 per cent), 120 (6.7 per cent), 118 (6.6 per cent) and 56 (3.1 per cent) respectively. In these ranges, the percentage of population is also low. It becomes clear from the table that more than 28 per cent of villages i.e. 506 having population (23.1 per cent) fall in the higher sex-ratio ranges of 1100 and above.

TABLE - 13
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS/ TOWNS, 2001

Serial number	Name of UA/ Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Chamba	NP	785	411	374	910
2	Devprayag (Partly in Garhwal)	NP	282	143	139	972
3	Dhaluwala	CT	1,608	909	699	769
4	Kirtinagar	NP	116	56	60	1,071
5	Muni Ki Reti	NP	1,062	561	501	893
6	Narendranagar	NPP	557	299	258	863
7	Tehri	NPP	2,614	1,386	1,228	886
District(Urban) Total			**7,024**	**3,765**	**3,259**	**866**

Table 13 gives sex ratio of the population in the age-group 0-6 in the towns of district. The sex-ratio in two of the seven towns is below 866 i.e. the average sex ratio for 0-6 age group of the district. The sex ratio of general urban population is 628 as against 866 in the age group 0-6. But in case of rural, while sex ratio is 932 it is only 866 for 0-6 age-group.

TABLE - 14
NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSIL 2001

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at tahsil level in rural and urban areas of the district. Of the 604,747 total population of the district, 14.4 per cent of the total population belong to the Scheduled Castes and 0.1 per cent to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 15.1 per cent in rural population and 8.8 per cent in urban population of the district. The highest percentage of total Scheduled Castes population is recorded in Ghansali tahsil (17.6) while the lowest is found in Narendranagar tahsil (9.3). The proportion of Scheduled Tribes population is 0.1 and 0.7 per cent in rural and urban areas respectively. Scheduled Tribes population in the district is mainly concentrated in Tehri tahsil (0.3 per cent). The lowest percentage of Scheduled Tribes is recorded in Devprayag tahsil (0.0).

TABLE - 15
NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7

10	Forest Villages	981	113	16	11.5	1.6
	District (Rural)	544,901	82,044	273	15.1	0.1

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each C.D. block of the district. 15.1 per cent of rural population of the district belongs to Scheduled Castes and 0.1 per

cent to Scheduled Tribes. At C.D. block level, Scheduled Castes population varies between 9.8 per cent to 17.9 per cent of the total population. The Bhilangana C.D. block has the highest percentage (i.e. 17.9) of scheduled castes. The other C.D. blocks containing the highest percentage of scheduled castes are Jaunpur (17.6 per cent), Kirtinagar (17.3 per cent) and Kouldhar (16.7). The highest proportion of 0.2 per cent scheduled tribes population is counted in Jaunpur C.D. block and is followed by Chamba (0.1 per cent) C.D. block which is the lowest percentage of scheduled tribes in the district. The scheduled tribes population in the district is mainly concentrated in Jaunpur and Chamba C.D. blocks while the other C.D. blocks have negligible scheduled tribes population.

TABLE - 16
PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	616	34.2	0	0.0
Less than 5	231	12.8	2,427	3.0
5-10	244	13.5	7,658	9.3
11-20	294	16.3	19,599	23.9
21-30	168	9.3	17,217	21.0
31-40	105	5.8	16,140	19.7
41-50	54	3.0	7,137	8.7
51-75	48	2.7	7,311	8.9
76 and above	41	2.4	4,555	5.5
District Total	**1,801**	**100.0**	**82,044**	**100.0**

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of percentage at district level. 616 villages accounting for 34.2 per cent of total 1,801 inhabited villages in the district do not have any Scheduled castes population. The proportion of Scheduled Castes population is less than 5.0 per cent in 231 villages (12.8 per cent). In 244 villages (13.5 per cent), it varies between 5-10 per cent while the next range of 11-20 per cent accounts for 294 villages constituting 16.3 per cent of the total villages. The range of 21-30 and 31-40 per cent contains 168 and 105 villages respectively. Both these ranges together account for 15.2 per cent villages of the district. 54 villages fall in the range of 41-50 and 48 villages fall in the range of 51-75. 76 and above percentage range of scheduled castes population to total population constituting 41 villages (2.4 per cent). These villages contain 5.5 per cent Scheduled Castes population of the district. A maximum of the 16.3 per cent villages of the Scheduled Castes population is covered by range of 11-20 per cent.

TABLE - 17
PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	1,769	98.2	0	0.0
Less than 5	24	1.3	118	43.2

11-20	1	0.1	5	1.9
21-30	0	0.0	0	0.0
31-40	0	0.0	0	0.0
41-50	0	0.0	0	0.0
51-75	0	0.0	0	0.0
76 and above	0	0.0	0	0.0
District Total	**1,801**	**100.0**	**273**	**100.0**

Table 17 indicates the distribution of villages by percentage ranges of Scheduled Tribes population to total population in the villages. 0.1 per cent of rural population of the district belong to Scheduled

Tribes population. There are 1,769 (98.2 per cent) villages where none of Scheduled Tribes have been recorded in the district. 24 (1.3 per cent) villages have proportion of Scheduled Tribes population up to 43.2 per cent and remaining 8 (0.5 per cent) villages have above 56.9 percent Scheduled Tribes population. In 7 villages the proportion of Scheduled Tribes population ranges between 5-10 per cent accounting for 54.9 per cent of the total population of the district.

TABLE 18

NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA/ Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Chamba (NP)	6,580	502	20	7.6	0.3
2	Devprayag (Partly in Garhwal) (NP)	2,175	326	2	15	0.1

5	Muni Ki Reti (NP)	7,880	807	6	10.2	0.1
6	Narendranagar (NPP)	5,304	983	32	18.5	0.6
7	Tehri (NPP)	25,423	2,356	347	9.3	1.4
District(Urban) Total		**59,846**	**5,281**	**418**	**8.8**	**0.7**

Table 18 shows number and percentage of scheduled caste and scheduled tribe population recorded during 2001 census in district Tehri Garhwal. The table depicts that scheduled caste population in towns of the district varies between 1.3 per cent to 18.5 per cent. The Narendranagar (NPP) has the highest percentage i.e. (18.5) of scheduled castes. The other towns containing a higher percentage of scheduled castes are Devprayag (N.P.) 15 per cent and Kirtinagar (N.P.) 14.7 per cent. The lowest percentage of scheduled castes population is recorded in the Dhaluwala (CT) (1.3 per cent). Scheduled tribes population is negligible in the urban areas of the district. The scheduled tribes population in the district is mainly concentrated in Tehri (NPP) and Narendranagar (NPP). There are no scheduled tribes population in the Kritinagar (N.P.). Highest percentage (1.4) of scheduled tribe population was recorded in Tehri (NPP).

TABLE - 19

SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C.D. BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Bhilangana	1,036	1,429
2	Jakhanidhar	1,024	333
3	Devprayag	1,023	0
4	Kirtinagar	1,017	0
5	Pratapnagar	1,040	538
6	Jaunpur	988	721
7	Kouldhar	1,005	667
8	Chamba	989	484
9	Narendranagar	993	0
10	Forest Villages	948	0
	District (Rural) Total	**1,016**	**615**

Table 19 indicates sex-ratio among Scheduled Castes and Scheduled Tribes in each C.D. block of the district. The sex ratio for Scheduled Castes and Scheduled Tribes are 1,016 and 615 for district (rural) respectively. Among the C.D. blocks, the highest sex ratio of scheduled castes 1,040 females is found in Pratapnagar C.D. block and lowest of 988 females found in Jaunpur. However, if the forest villages are taken into account in totally, the sex ratio is further low to 948. Similarly, the highest sex ratio of scheduled tribes is found in Bhilangana C.D. block and lowest in Jakhanidhar C.D. block. No scheduled tribes population was recorded in C.D. block Kirtinagar, Devprayag and Nadrendranagar.

TABLE - 20
SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA / Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Chamba (NP)	673	111
2	Devprayag (Partly in Garhwal) (NP)	1,173	0
3	Dhaluwala (CT)	791	571
4	Kirtinagar (NP)	937	0
5	Muni Ki Reti (NP)	699	5,000
6	Narendranagar (NPP)	807	882
7	Tehri (NPP)	763	145
Sex ratio (Urban) for the district:		**778**	**201**

Table 20 indicates sex ratio among scheduled castes and scheduled tribes in each towns of the district. The scheduled castes and scheduled tribes sex ratios are 778 and 201 for district (Urban) respectively, which is less than that of the rural district sex ratio. Among the towns, the highest sex ratio of scheduled cstes 1,173 females is found in Deo Prayag (N.P.) and lowest of 673 females is found in Chamba (N.P.). Similarly the highest sex ratio of scheduled tribes is found in Muni Ki Reti and lowest in Chamba (N.P.). There is no scheduled tribes population in Kirtinagar (N.P.) and Deo Prayag (N.P.) towns.

District and tahsil-wise literacy rates besides the number of literates and illiterates for total, rural and urban areas are given in table-21. The literacy rates are worked out by excluding population of 0-6 years. As per 2001 Census, the proportion of literates to total population excluding 0-6 years comes to 66.7 per cent in the district. This proportion in rural area is 64.5 per cent against 86.1 per cent in urban areas. In the district the literacy rates of males (85.3 per cent) is much higher than that of females (49.4 per cent). Among the tahsils Narendranagar tahsil tops with 69.8 per cent literates followed by Devprayag tehsil (69.6 per cent). Ghansali tahsil with 61.3 per cent literates stands at the bottom in the district. Out of 5 tahsils, the literacy rates of 3 tehsils are higher than that of district average. It is observed that in

urban areas of district the literacy rates are higher than the rural areas. The gap between male and female literacy is very high which comes to 36.0 per cent in the district, as a whole. The situation at tahsil level is not much different. However, this gap in urban literacy is low which comes to 11 points against the rural areas, where the gap between male and female literacy is 38 points.

TABLE - 22

NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of CD block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates

10	Forest Villages	678	436	242	303	146	157	77.0	81.8	69.5	12
District (Rural) Total:		**292,352**	**178,444**	**113,908**	**252,549**	**79,957**	**172,592**	**64.5**	**84.6**	**47.0**	**38**

The table 22 reveals number of literates, illiterates and the literacy rates in rural areas at C.D. block level in the district.64.5 per cent of the total rural population, excluding the age-group of 0-6 years, are literates in the district. The corresponding proportion of male and female literates comes to 84.6 and 47.0 per cent respectively which shows very wide gap of 38.0 per cent points in male and female literacy. At C.D. block level, Kirtinagar C.D. block has the highest rural literacy rate of 73.9 per cent (excluding forest villages) while 88.5 per cent males and 61.5 per cent females are literates in this block. The lowest literacy rate in rural areas is noted in Jaunpur C.D. block (59.8 per cent). There are wide variations in male and female literacy in all the C.D. blocks of the district. The maximum difference of 49 per cent points is found in Pratapnagar C.D. block.

TABLE - 23

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	1	0.0	1	0.0
1-10	2	0.0	40	0.0
11-20	4	0.0	786	0.0
21-30	12	1.0	1,480	0.0
31-40	45	2.0	12,020	2.0
41-50	153	8.0	43,300	8.0
51-60	391	22.0	132,025	24.0
61-70	658	37.0	202,859	37.0
71-80	402	22.0	118,584	22.0
81-90	109	6.0	30,451	6.0
91-99	14	1.0	3,302	1.0
100	10	1.0	53	0.0
District Total:	**1,801**	**100.0**	**544,901**	**100.0**
Literacy rate for District:			**66.7**	

Table 23 gives the distribution of villages by literacy rate ranges in the district. There is no literate in one village of the district but the population of this village is only one person. 10 villages (1.0 per cent) have 100 per cent literacy rate. 402 villages accounting for 22.0 per cent of the total villages are in the literacy range of 71-80 per cent and 658 villages (37.0 per cent) fall in the literacy range of 61-70 per cent. The lower literacy rate of 1 to 50 per cent observed in 216 villages (11.0 per cent) of the district. The higher literacy rate of 71 to 100 per cent covers 535 villages (30.0 per cent). The range of 51-70 have the maximum number of 1,049 villages forming 59.0 per cent of the total inhabited villages.

TABLE - 24
NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATION/TOWNS, 2001

Serial number	Name and urban status of UA/Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate

Table 24 shows number and percentage of literates and illiterates by sex during 2001 in the urban areas of the district. Devprayag (NP) has the highest proportion of literate (87.7) among the seven towns of the district. The table reveals that literacy rate is pretty high in the urban areas of the district (86.1 per cent). The literacy rate is quite high (above 90 per cent in four towns) among males. Female literacy rate is not far behind in three towns (above 80 per cent). The gap in male-female literacy rate is about 11.3 per cent points.

TABLE - 25
NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate

The table 25 reveals number and percentage of scheduled castes of literate and illeterates by sex in C.D. blocks. The literacy rates of scheduled castes rural population excluding the age group of 0-6 years is 56.8 per cent. The corresponding proportion of male and female literates comes to 75.4 and 38.7 per cent. At C.D. block level Kirtinagar C.D. block has the highest rural literacy rate of 69.7 per cent while 84.0 per cent males and 56.0 per cent females are literates in this block. The lowest literacy rate of scheduled castes in rural areas is noted in Pratapnagar C.D. block (51.3 per cent). There are wide variations in males and females literacy in all the C.D. blocks of the district. The maximum difference of 43.2 per cent points is found in Pratapnagar C.D. block.

TABLE - 26

DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	21	1.8	42	0.1
1-10	1	0.0	12	0.0
11-20	16	1.4	354	0.4
21-30	33	2.8	1,654	2.0
31-40	93	7.8	5,381	6.6
41-50	221	18.6	15,266	18.6

District Total:	**1,185**	**100.0**	**82,044**	**100.0**

Literacy rate for District (Rural): 56.8

The table 26 presents the distribution of villages by literacy rate range for scheduled castes population at the 2001 census. There is no literate in 21 villages (2.0 per cent) of the district and population of these villages is only 0.1 per cent in the district. In majority of inhabited villages which form 36.0 per cent of total rural scheduled castes population the literacy range is 51-60 per centages. In the district there are 48 inhabited villages with scheduled castes population with about 100 per cent of literacy rate

TABLE - 27

NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Chamba (NP)	350	234	116	152	66	86	81.2	88	70.3	18
2	Devprayag (Partly in Garhwal) (NP)	206	108	98	120	42	78	75.5	86.4	66.2	20
3	Dhaluwala (CT)	98	63	35	56	23	33	76.6	86.3	63.6	23
4	Kirtinagar (NP)	100	60	40	53	19	34	76.3	89.6	62.5	27

6	Narendranagar (NPP)	654	404	250	329	140	189	77.1	86.1	66	20
7	Tehri (NPP)	1,556	980	576	800	356	444	77.7	84.8	67.9	17
District (Urban)		**3,407**	**2,153**	**1,254**	**1,874**	**817**	**1,057**	**76.2**	**84.2**	**65.6**	**19**

The table 27 brings out the number and percentage of scheduled castes literates and illiterates by sex in urban agglomerations/towns population at the 2001 census. The number of illiterates is less than literates in the district (urban) and towns.The percentage of literates is least in Muni Ki Reti NP among towns but the gap in male/female literacy rate is highest in case of Kirtinagar NP town. The males in all the towns enjoy higher literacy rate than females. The gap in male/female literacy rate is least in case of Tehri NPP, while the female literacy rate is highest at 70.3 percent in Chamba NP.

TABLE - 28
NUMBER AND PERCENTAGE OF SCHEDULEDTRIBES LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of CD block	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

3	Devprayag	1	0	1	0	0	0	100.0	0.0	100.0	100.0
4	Pratapnagar	16	12	4	4	1	3	88.9	100.0	66.7	33.3
5	Jaunpur	110	70	40	38	16	22	89.4	98.6	76.9	21.7
6	Kouldhar	13	9	4	7	3	4	81.3	90.0	66.7	23.3
7	Chamba	25	19	6	21	12	9	75.8	82.6	60.0	22.6
8	Narendranagar	1	1	0	0	0	0	100.0	100.0	0.0	100.0
9	Forest Villages	5	5	0	11	11	0	31.3	31.3	0.0	31.3
District (Rural) Total:		**185**	**123**	**62**	**88**	**46**	**42**	**82.2**	**87.9**	**72.9**	**14.9**

The table 28 brings out the number and percentage of scheduled tribes literates and illiterates by sex in CD blocks at the 2001 census. The number of illiterates is less than literates in the district and CD blocks except Forest Villages, while in CD block Jakhanidhar the no. of literates and illiterates is equal. The literacy rate of the scheduled tribes population 82.2 per cent is higher than the corresponding rate of 56.8 per cent in case of scheduled castes community. The gap in male and female literacy rates at about 15.0 per cent is also lesser than what it is in case of the scheduled castes community (about 36.7 per cent). The literacy rate is highest in two CD blocks namely Devprayag and Narendranagar, however there is only one scheduled tribe person in each of abovesaid C.D. blocks.

TABLE - 29
DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	2	6.3	7	2.6
1-10	0	0.0	0	0.0
11-20	0	0.0	0	0.0
21-30	1	3.1	15	5.5
31-40	1	3.1	5	1.8
41-50	2	6.3	9	3.3
51-60	0	0.0	0	0.0
61-70	1	3.1	4	1.5
71-80	2	6.3	42	15.4
81-90	5	15.5	144	52.7
91-99	0	0.0	0	0.0
100	18	56.3	47	17.2
District Total:	**32**	**100.0**	**273**	**100.0**
Literacy rate for District (Rural):		**82.2**		

Table 29 gives the distribution of villages by literacy rate range for the scheduled tribes population at the 2001 census. In the district the scheduled tribes population is found in 32 villages, out of which, in 18 villages the literacy rate is 100 per cent. However, the maximum percentage of scheduled tribe population (52.7 per cent) is found in only 5 villages with literacy range of 81-90 percent.

TABLE - 30
NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS/TOWN POPULATION, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Chamba (NP)	19	18	1	1	0	1	100.0	100.0	100.0	0.0
2	Devprayag (Partly in Garhwal) (NP)	2	2	0	0	0	0	100.0	100.0	0.0	100.0
3	Dhaluwala (CT)	7	5	2	4	2	2	87.5	100.0	66.7	33.3
4	Muni Ki Reti (NP)	4	1	3	2	0	2	80.0	100.0	75.0	25.0
5	Narendranagar (NPP)	25	14	11	7	3	4	89.3	100.0	78.6	21.4
6	Tehri (NPP)	183	155	28	164	148	16	55.1	52.0	82.4	30.3
Tehri Garhwal (Urban)		**240**	**195**	**45**	**178**	**153**	**25**	**60.9**	**57.7**	**80.4**	**22.7**

The table 30 gives number and percentage of scheduled tribes literates and illiterates by sex in urban agglomerations/town at the 2001 census.There is small scheduled tribe population in the towns of the district. In towns which have scheduled tribe population, the percentage of literates is 60.9 and 57.7 per cent of males and 80.4 per cent of females are literates.Thus, female literacy rate is higher than male literacy and the gap between the two rates is 22.7 per cent points.

TABLE - 31
NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON-WORKERS BY SEX IN TAHSILS, 2001

The table 31 gives number and percentage of main, marginal and non-workers by sex in tahsils of the district at the 2001 Census. In the district 43.8 per cent of the total population is the extent of workers in which 30.0 per cent are main workers and rest are marginal workers. Among main workers, majority is of males. In all tahsils of the district females outnumber males among the marginal workers.The maximum number of non-workers are in Narendranagar tahsil (about 60%) while minimum in Pratapnagar (about 55%).

Table 32 shows C.D. block-wise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of the 544,901 total rural population of the district, 29.3 per cent has been categorised as main workers and the marginal workers constitute 15.1 per cent and the remaining 55.6 per cent fall in the category of non-workers. The sex-wise break up at the district level shows that 33.3 per cent males and 25.8 per cent females are in the category of main workers. Male and female marginal workers account for 10.1 and 19.6 per cent respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible at C.D. block level except in the Forest Villages.

The table 33 gives number and percentage of main workers, marginal workers and non workers by sex in urban areas of the district. Total workers constitute 37.8 per cent (56.8 per cent male and 7.6 per cent female) of the total poupulation of the district. The percentage of total workers is highest in Tehri NPP (45.5 per cent) followed by Narendranagar NPP (39.4 per cent) and lowest in Dhaluwala C.T. (27.6 per cent). Out of total workers, as much as 35.6 per cent are main workers with breakup of 53.7 per cent males and 6.9 per cent females. Only 2.2 per cent workers fall in the category of marginal workers with 3.1 per cent males and 0.7 per cent females. Among non workers, the district level proportion is 62.2 per cent (43.2 per cent males and 92.4 per cent females) with maximum at 72.4 per cent in Dhaluwala C.T. and minimum of 54.5 per cent in Tehri NPP.

Note: Percentage of workers to total workers are given in brackets for category of workers.

It can be seen from the table 34, the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 70 per cent of the total workers (main + marginal) and remaining 30 per cent of total workers are engaged as agricultural labourers (1.3 per cent), Household industry workers (0.9 per cent) and other workers (27.8 per cent) in this district. The distribution of workers by four categories of economic activity at tahsil level shows very high dependence of population on agriculture sector absorbing large number of workers. The proportion of cultivators varies between 82.6 per cent in Ghansali tahsil and 58.9 per cent in Narendranagar tahsil. These variations within the district may be due to cropping and land holding patterns. The percentage of female cultivators is 92.5 per cent which is very high as compared to 47.7 per cent of male cultivators in the district. The percentage of agricultural labourers and household industry workers is very low in the district as stated above. The workers in other activities occupy the second position next to agriculture in the district as well as in each tahsil. The highest proportion of 38.9 per cent of other workers is recorded in Narendranagar tahsil while the lowest proportion of 16.4 per cent is found in Ghansali tahsil.

				(45.4)	**(93.7)**	**(1.2)**	**(0.4)**	**(4.7)**

Note: Percentage of workers to total workers are given in brackets.

Table 35 presents C.D. block-wise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers (main+marginal) 44.4 per cent of total population. Among these workers, cultivators constitute 76.5 per cent, 1.4 per cent agricultural labourers, 0.9 per cent household industry workers and 21.2 per cent other workers. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercially viable. Household industries also could not make much progress in rural areas as reflected in the data and these household industries employ only 0.9 per cent workers of the total working force. Therefore, surplus working force has to depend on primary activities. Among cultivators, the percentage of females (93.7 per cent) is higher than males (56.6 per cent) in the rural areas of the district. The females play a main role in rural economy of the district. The proportion of cultivators and other workers differ considerably from one C.D. block to other. The proportion of cultivators varies between 82.3 per cent in Bhilangana C.D. block to 68.9 per cent in Chamba C.D. block except Forest Villages. Similarly for other workers, the lowest proportion is 16.7 per cent in Bhilangana C.D. block while 29.1 per cent is the highest in Chamba C.D. block except Forest Villages. The percentage of agricultural labourers and household industry workers together is quite low i.e. only 2.3 per cent in the district. The percentage of agricultural labourers is highest in Jaunpur (4.7) and is followed by Narendranagar (1.9). In other C.D. blocks, this proportion is quite insignificant. Similarly, household industry worker varies in C.D. blocks between 0.5 per cent in Bhilangana C.D. block to 1.3 per cent in Jaunpur C.D. block.

TABLE - 36

DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS / TOWNS, 2001

Note: Percentages are given in brackets.

Table 36 presents distribution of workers by sex in four categories of economic activity in urban areas of the district Tehri Garhwal. It can be observed from the table that the four categories of economic activity are cultivators, agricultural labourers, household industry workers and other workers. Figures in the table have been given for total number of workers including main and marginal workers. At the district level, urban areas recorded highest percentage of other workers (98.6), followed by Household Industry Workers with 0.7 per cent (0.5 per cent male and 2.6 per cent female). If we observe each town, the table reveals that highest percentage of Household Industry Workers (2.5) is recorded in Kirtinagar (NP). In the agricultural labourers category Muni Ki Reti (NP) and Tehri (NPP) both recorded very low percentage (0.1 per cent apiece), while the two towns namely Devprayag NP and Kirtinagar NP do not have any person under this category. The percnetage of cultivators is also very low (0.1 per cent) in Tehri (NPP). As the usual trend recorded in the urban areas, other workers are in higher side of percentage; 99.7 per cent in Devprayag, 99.2 per cent each in Tehri (NPP) and Muni Ke Reti (NP) towns.

(ix) Brief analysis of the Village Directory and Town Directory data :

One of the major part of the District Census Handbook is Village and Town Directories. These are non-census data incorporated showing educational, medical, drinking water, banking facilities, communication facilities and other such developmental indicators in the towns and villages. From this non-census data certain inset tables have been generated and reproduced below, showing major trends in the availability of above amenities.

TABLE - 37

DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Note: Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

Table 37 deals with the C.D. block-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village.

Out of 1801 inhabited villages in the district 1123 villages or 62.4 per cent have been provided with the education facilities of one type or the other. Similarly 202 villages in the district constituting 11.2 per cent have medical facilities of one type or the other. Improved drinking water facility is available in 1501 or 83.3 per cent villages. As regards, post office facility which includes facilities like telegraph office and post & telegraph, 213 villages constituting 11.8 per cent of villages have been provided with this facility within the village. 232 or 12.9 per cent villages have been provided with the telephone facility, 302 or 16.8 per cent with transport facility, 43 or 2.4 per cent villages with bank facility and 53 or 2.9 per cent with agricultural credit societies. Similarly there are 246 or 13.7 per cent villages which have been linked with the pucca road. Total 1275 or 70.8 per cent of villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at C.D. block has been found with slight variation. Pratapnagar C.D. block has the highest 84.7 per cent villages where educational facility is available and lowest 50.5 per cent is found in Chamba. Medical facility is highest Jakhanidhar (23.0 per cent) and lowest (5.6 per cent) in Devprayag C.D. blocks. Improved drinking water is available to more than 80 per cent in all the C.D. blocks except Bhilangana (41.9 per cent) and Forest Villages (6.7). Jakhanidhar block has the highest percentage of villages (97.3) which has improved drinking water facility. Telephone facility is highest in Pratapnagar (26.6 per cent) while only nine villages of Bhilangana C.D. block enjoy this facility. Transport and communications is less developed in Devaprayag where only 7.3 per cent villages are covered by this facility whereas 23.6 per cent villages of Bhilangana C.D. block are availing this facility. In the field of power supply 70.8 per cent of the villages are electrified with a maximum of 82.2 per cent in Chamba C.D. block and lowest of 53.6 per cent in CD block Devprayag 53.6 per cent. However, only 20.0 per cent of forest villages enjoy this facility.

TABLE - 38

NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Note: Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different kind of amenities. Out of total rural population of 544,901 a total of 433,144 persons in the district, or 79.5 per cent have educational facility of one or the other type. Similarly 99,105 or 18.2 per cent population has medical facilities while 83.8 per cent have got improved drinking water facility. Post office facilities are available to 21.8 per cent population. Telephone facility is available to 97,861 or 18.0 per cent. Transport communications facility is available to 24.1 per cent. Bank facility is available to 30,411 or 5.6 per cent. 32,115 or 5.9 per cent have been provided with the facility of agricultural credit societies. 93,151 or 17.1 per cent have been provided with the facility of approach by pucca road. Power supply is available to 73.1 per cent rural population in the district. Similar pattern of availability of facilities is visible to the rural population at C.D. block level except in case of Forest Villages.

TABLE - 39

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available

7 Agricultural Credit Societies	448	623	677	1,748

Table 39 presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented according to various distance ranges in this table. 686 villages do not have primary school in their villages and out of these villages, children of 514 villages have to travel less than 5 kms. for schooling. Out of 1801 inhabited villages as many as 1420 are deprived of middle school and 1,794 of degree college. Of these 905 avail the facility of middle school at a distance of less than 5 kms., 391 at a distance 5-10 kms. and the remaining 124 at a distance of 10+ kms. In respect of degree college 114 avail this facility at a distance of less than 5 kms., 231 between 5 to 10 kms. and rest 1,449 villages at a distance of 10+ kms.

Similarly there are 1,768 villages in the district which have been devoid of Hospital facility and 1,791 villages which are deprived of PHC facilities. Of these 289 villages have the facility of Hospital availability within 5 kms. while in respect of 482 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number i.e. 997 villages have this facility at a distance of 10+ kms. As regards PHC 145 avail this facility at a distance of less than 5 kms., 342 at a distance of 5-10 kms. and the remaining 1,304 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 1,588 villages do not have this facility in the village itself. Of these majority i.e. 820 have this facility at a distance of less than 5 kms., another 519 villages avail it at a distance of 5-10 kms. In the remaining 249 villages inhabitants have to travel a distance of 10+ kms.

As regards Telephone, there are 1,569 villages in the district which are without telephone facilitiy. Of these 360 avail this facility at a distance of less than 5 kms., 391 at a distance of 5-10 kms. and remaining 818 have to traverse a distance of 10+ kms.

For bus service, out of 1,506 villages which do not have facility, 598 villages avail this facility at a

distance of less than 5 kms., 584 at a distance between 5-10 kms. and 324 at a distance of 10+ kms.

In the entire district 1,767 villages are deprived of Commercial Bank and 1,784 from Co-operative Banks. Of these 1,767 villages which are deprived of Commercial Banks, 338 villages avail this facility at a distance of less than 5 kms., 592 between 5-10 kms. & the remaining 837 at a distance of 10+ kms. Regarding Co-operative Banks out of 1,784 villages 199 villages avail this facility at a distance of less than 5 kms., 409 at a distance of 5-10 kms. and remaining 1,176 at a distance of 10+ kms. 1,748 villages do not have agricultural credit societies. In respect of Agricultural Credit Societies 448 villages avail it at a distance of less than 5 kms., 623 at a distance of 5-10 kms. and the remaining 677 at a distance of 10+ kms.

\# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 1,801 inhabited villages in the district, there are 56 villages which have nearest town upto a distance of 5 kms. Of these only 29 villages forming 51.8 per cent of these total villages, are having the educational facilities of one type or the other and 5 villages, constituting 8.9 per cent, have the medical facilities within the village, 7 villages forming 12.5 per cent have the facility of post office within the village and 18 or 32.1 per cent have the facility of telephone. 13 villages constituting 23.2. per cent have been linked by transport service.

In these villages, there are no banking facilities, while 2 villages constituting only 3.6 per cent have been provided by agricultural credit societies and 20 villages comprising 35.7 per cent have been provided with pucca roads.

There are 391 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 220 villages constituting 56.3 per cent have been provided with the educational facilities. 48 villages comprising 12.3 per cent have been provided with medical facilities. 43 villages constituting 11 per cent enjoy the post office facility. 64 villages comprising 16.4 per cent have been provided the telephone facility. 64 villages constituting 16.4 per cent have been linked with transport communications. 9 villages comprising 2.3 per cent have bank facility. 10 villages constituting 2.6 per cent are having agricultural credit societies, while 65 villages or 16.6 per cent are approachable by pucca roads. 975 villages fall in the distance range of 16-50 kms. Of these, 62.3 per cent villages have educational facility, 12.1 per cent with medical, 10.8 per cent with post office, 12.1 per cent with telephone and transport and communications available to 14.9 per cent villages. Banks and agricultural credit societies facilities are available to 2.3 and 2.8 per cent of villages.

There are 378 villages in the district which are situated beyond 50 kms.from the nearest town and out of these 266 or 70.4 per cent enjoy the education facility in the village itself whereas 31 villages comprising 8.2 per cent have been provided with medical facility of one type or the other. 58 such villages comprising 15.3 per cent have the post office facility. 32 villages comprising 8.5 per cent have been provided with telephone facility. 80 villages constituting 21.2 per cent have been linked by bus service whereas 12 villages comprising 3.2 per cent have been provided with the bank facilities. Only 14 villages comprising 3.7 per cent are having agricultural credit societies while 24 villages comprising 6.3 per cent have been linked by pucca roads. There is only one village, whose distance ranges from the nearest statutory town have not been given. Such village has been grouped under the unspecified category. This village has one educational facility of one or other type.

TABLE - 41

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump /.tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In Tehri Garhwal district out of a total 1,801 inhabited villages, overwhelming 1,484 have a population of less than 500 persons. Of these, 836 villages (56.3 per cent) have education facility, 119 (8.0 per cent) have medical facility, 1,239 (83.5 per cent) have improved drinking water facility. 113 villages (7.6 per cent) have post office facility. 161 (10.8 per cent) have telephone facility. 200 (13.5 per cent) have been linked by bus service. 18 (1.2 per cent) have bank facility. 26 villages (1.8.per cent) have been provided with the agricultural credit societies, 178 villages (12.0 per cent) have been linked by pucca road. 1035 villages (69.7 per cent) have been provided with electricity.

Out of 262 villages, which fall in the population range of 500-999 persons. 241 villages 92.0 per cent) have been provided with the education facility, 67 (25.6 per cent) with medical facility. 217 villages (82.8 per cent) have improved drinking water facility. 78 villages (29.8 per cent) have been provided with post office facilities, 54 villages (20.6 per cent) with telephone facility. 81 vilages (30.9 per cent) with

transport facility. 16 villages (6.1 per cent) with bank facility. 17 villages (6.5 per cent) with agricultural credit societies and 52 villages (19.8 per cent) have approach by pucca road. 202 villages (77.1) in this range have electricity.

Out of 51 villages, which fall in the population range of 1,000-1,999 persons, 44 villages (86.3 per cent) have education facility, 14 (27.5 per cent) have medical facility. 41 (80.4 per cent) have improved drinking water facility. 20 villages (39.2 per cent) have post office and transport communication facility. 15 villages (29.4 per cent) have telephone and 7 villages (13.7 per cent) have bank facility. 9 villages (17.6 per cent) have been provided with agricultural credit societies, 14 villages (27.5 per cent) have been linked with pucca road. 35 villages (68.6 per cent) have been provided with electricity.

There are 4 villages in the district which are covered under 2,000-4,999 population range. In this range only 2 villages enjoy the facility of education, medical, post office, bank and telephone and approach by pucca road.

All the 4 villages enjoy the facility of improved drinking water facility. One village has transport, communications and agricultural credit societies facility, 3 villages in the population range of 2000-4999 have power supply facility in the district.

TABLE - 42

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of CD block	Number of inhabited villages	Total area (in hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Bhilangana	258	26,649.08	27.8	50.6
2	Jakhanidhar	148	15,114.90	48.9	14.7
3	Devprayag	248	25,154.97	41.0	3.5
4	Kirtinagar	154	12,960.76	32.2	14.6
5	Pratapnagar	124	10,253.28	32.6	18.5
6	Jaunpur	253	30,412.60	27.9	11.4
7	Kouldhar	178	17,076.22	44.6	7.4
8	Chamba	214	15,890.46	15.2	7.1
9	Narendranagar	209	22,279.79	37.7	11.8
10	Forest Villages	15	54,701.00	100.0	0.0
	District Total:	**1,801**	**230,493.06**	**49.6**	**8.0**

Table 42 presents C.D blockwise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 1,801 inhabited villages in the district having a total area of 230,493.06 hectares. Of this, 49.6 per cent is cultivable and 8 per cent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State Government.

A look at the land use pattern at C.D. block level shows that Bhilangana block with 258 villages have total area of 26,649.06 hectares, of this 27.8 per cent of land is cultivable and of the aforesaid area 50.6 per cent is irrigated. In Jakhanidhar block, all the 148 villages have a total land area of 15,114.9 hectares, of this 48.9 per cent of land is cultivable and of the aforesaid area 14.7 per cent is irrigated. In Deo Prayag block, all the 248 villages have a total area of 25,154.97 hectares, of this cultivable area is 41 per cent and 3.5 per cent is irrigated. In Kirtinagar block, all the 154 villages have a total area of 12,960.76 hectares. Of this, cultivable area is 32.2 per cent and 14.6 hectares is irrigated area. Pratapnagar with 124 villages has an area of 10,253.28 hectares, of this 32.6 per cent is cultivable area and out of this cultivable area 18.5 per cent is irrigated. Jaunpur block with 253 villages has a total land area of 30,412.6 hectares. Of this, 27.9 per cent is cultivated area, out of which 11.4 per cent is irrigated. Kouldhar block with a total of 178 villages have an area of 17,076.22 hectares. Of this, 44.6 per cent is cultivable area, out of which 7.4 per cent is irrigated. Chamba block with a total of 214 villages have an area of 15,890.46 hectares, Of this 15.2 per cent is cultivable area and of this, 7.1 per cent is irrigated. Similarly, Narendranagar block with a total of 209 villages have an area of 22,279.79 hectares of this, 37.7 per cent is cultivable area and of this 11.8 per cent is irrigated. There are also 15 Forest Villages with an area of 54,701 hectares which is 100 per cent cultivable.

TABLE - 43
PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita receipt (in Rs.)			Per capita expenditure (in Rs.)					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)

6	III Tehri (NPP)	274	NA	NA	246	NA	NA	NA	NA	NA
District Average		**465**	**30**	**642**	**410**	**103**	**80**	**283**	**3**	**119**

Note: 1. The town for which the corresponding figure is not available has not been taken into account while calculating Distt. average.
2. Expenditure break up is not available for Tehri (NPP).

The table 43 gives the per capita receipts and expenditure (in rupees) for each town in the district. The average per capita receipt works out to be Rs. 465 and the expenditure Rs. 410 in urban area of the district, while among the towns, per capita receipt and per capita expenditure both are highest in Devprayag N.P. followed by Kirtinagar N.P. Per capita expenditure is highest in public works, while it is negligible iin Public institutions.

TABLE - 44
SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary/	Secondary / Matriculation	Senior Secondar	College
1	2	3	4	5	6	7
1	Chamba (NP)	6	NA	NA	3	3
2	Devprayag (Partly In Garhwal) (NP)	14	7	0	7	4
3	Kirtinagar (NP)	19	10	10	10	10
4	Muni Ki Reti (NP)	10	4	3	4	1
5	Narendranagar (NPP)	6	4	4	4	2
6	Tehri (NPP)	6	4	2	5	1
District Average		**8**	**4**	**2**	**5**	**2**

Note: The town for which the corresponding figure is not available has not been taken into account while calculating Distt. average.

Table 44 shows schools/colleges per 10,000 population in urban areas of the district. The average number of primary school per 10,000 population comes to 8 primary, 4 junior secondary/middle, 2 secondary/matriculation, 5 senior secondary schools and the ratio of colleges is only 2 college per 10,000 population. The ratio of all the types of educational institutions is highest in Kirtinagar (N.P.).

TABLE -45
NUMBER OF BEDS IN MEDICAL INSTITUTIONSIN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Chamba (NP)	40

1	Chamba (NP)	NA	NA
2	Devpray ag (Partly In Garhwal) (NP)	Wood	Wooden Goods
3	Dhaluwala (CT)	Iron	Iron
		Bulb	Tyre
		Bread	Medicines
4	Kirtinagar (NP)	Wood	Wooden Goods
5	Muni Ki Reti (NP)	Tarpeen Oil	Tarpeen Oil
		Woolen Goods	Woolen Garments
		Iron Kiln	Iron Goods
6	Narendranagar (NPP)	NA	NA
7	Tehri (NPP)	NA	Sariya (Steel Bar)
			Tyre
			Medicines

Table 47 indicates most important articles exported out of and manufactured in towns of the district. The chief items exported out of the district are iron, tyre and medicines which are manufactured in Dhaluwala (CT) and Tehri (NPP) town, while tarpeen oil and woolen goods are the main items manufactured in the district (in Muni Ki Reti NPP).

(x) Brief Analysis of the Data on Houses and Household Amenities, Houselisting Operations, Census of India 2001 :

Data on houses and household amenities have traditionally been undertaken a few months before each census.Based upon data collected in the houselist, a few tables on the use of census house, materials of wall, floor and roof etc. are prepared.In 1991 census, the houselist was considerably expanded with 22 items of information. Again in 2001 census many new items on household assets like radio/transistor, television, telephone, cycle, scooter/motorcycle/moped, car/jeep and banking facility availed by household etc. for the first time has been added in the schedule. The district wise tables have been prepared and these are placed in the subsequent tables. The following is the distribution of households by number of rooms occupied.

TABLE - 48
HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

Tenure Status	Number of dwelling households	Number of households								
		Total			Scheduled Caste			Scheduled Tribe		
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8	9	10	11
Owned	No exclusive room	926	894	32	198	195	3	3	3	0
	One room	12,819	12,027	792	3,674	3,545	129	51	26	25
	Two rooms	33,761	32,510	1,251	6,562	6,402	160	71	64	7
	Three rooms	15,685	14,908	777	2,161	2,109	52	33	24	9
	3+ rooms	42,304	41,369	935	3,957	3,904	53	75	69	6
	Median number of rooms	3	3	2	2	2	2	2	3	1
Rented	No exclusive room	121	73	48	21	16	5	6	1	5
	One room	7,210	3,267	3,943	904	554	350	174	59	115
	Two rooms	3,930	1,611	2,319	370	186	184	46	16	30
	Three rooms	809	201	608	49	24	25	2	0	2
	3+ rooms	387	194	193	33	18	15	8	5	3
	Median number of rooms	1	1	1	1	1	1	1	1	1
Others	No exclusive room	180	168	12	40	39	1	2	1	1
	One room	1,627	699	928	203	130	73	34	23	11
	Two rooms	2,615	1,948	667	298	257	41	27	7	20
	Three rooms	534	332	202	35	21	14	3	0	3
	3+ rooms	268	213	55	22	17	5	2	2	0
	Median number of rooms	2	2	1	1	2	1	1	1	2

Data source: Census of India 2001, H-series: "Tables on Houses, Household Amenities and Assets."

The above table 48 shows that households having owned tenure status occupy highest place among the total households. The number of households with one room accounted to 12819. Out of the total 123446 households in the district. 33761 households had two rooms, 15685 households had three rooms and 42304 households had more than 3 rooms. More than 85 per cent of the households had owned tenure status. Among scheduled caste one room and two rooms dwelling households figures 3674 and 6562. Similarly scheduled tribe households number only 51 and 71. The median number of rooms for total households was calculated to 3 and for scheduled caste and scheduled tribe it was 2. In case of tenure status rented, the number of one room, two rooms and three rooms, figured 7210, 3930 and 809 households in the district, whereas the corresponding figure for scheduled caste and scheduled tribe came to 904, 370, 49 and 174, 46 and 2 respectively. However, the median number of rooms per household in total households, scheduled castes and scheduled tribes calculated to be one room.

In case, of tenure status of other, one room comprised 1627, two rooms 2615, three room 534 and more than three rooms 268 households. Among scheduled caste households, the corresponding figures comprised 203, 298, 35, 22. For scheduled tribe households the number of dwelling households for one, two, three and more than 3 rooms were 34, 27, 3 and 2. Number of dwelling households with no exclusive room share very little proportion.

During 1991 census among total households 87.75 per cent had ownership tenure, 11.8 per cent lived in rented house and 1.5 per cent were other than owned or rented. Among scheduled caste and scheduled tribe, the tenure status of owned, rented and others had a proportion of 90.3, 6.6, 3.0 and 20.6, 71.4 and 8.0 per cent respectively.

TABLE - 49
PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Serial Number	District/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanen	Tempo-rary	Permanent	Semi-permane	Tempo-rary	Permanent	Semi-permane	Tempo-rary
1	2	3	4	5	6	7	8	9	10	11
	Tahsil Garhwal	96.6	3.2	0.2	96.5	3.3	0.1	97.5	1.8	0.5
1	Ghansali	95.4	4.2	0.1	95.6	4.2	0.1	0.0	0.0	0.0
2	Deo Prayag	99.3	0.9	0.1	99.9	0.8	0.0	99.1	0.8	0.0
3	Pratapnagar	98.9	1.0	0.0	98.9	1.0	0.0	0.0	0.0	0.0
4	Tehri	94.7	4.8	0.3	94.2	5.4	0.3	97.3	2.4	0.2
5	Narendra Nagar	96.4	3.0	0.4	96.0	3.7	0.2	97.6	1.1	1.1

Data source: Census of India 2001, H-series: "Tables on Houses, Household amenities and Assets."

Note: Permanent : Permanent houses refer to those houses whose walls & roof are made of permanent materials i.e. where burnt bricks, G.I. sheets or other metal sheets, asbestos sheets, stone or concrete is used for wall and tiles slate, corrugated iron, zinc or other metal sheets, asbestos sheets, bricks lime and stone and RBC/RCC concreate are used for roof.

Temporary : Temporary houses refer to those houses whose walls and roof are made of temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood.

Semi Permanent : Semi permanent houses refer to those houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Table 49 show percentage distribution of households as shown in the above table reveals that more than 96.6 per cent of the households in the district had permanent houses. The trend is almost similar in the rural (96.5 per cent) and urban area (97.5 per cent). Among tahsils, highest proportion of permanent houses was accounted in tahsil Deo Prayag (99.3 per cent), followed by Pratapnagar (98.9 per cent), Narendranagar (96.4per cent), Ghansali (95.4 per cent) and lowest in tahsil Tehri (94.7 per cent). In respect of the semi-permanent houses, the returns were 3.2 per cent at district level whereas among tahsils, the highest being in tahsil Tehri (4.8 per cent) and lowest in tahsil Devprayag (0.9 per cent). Rural areas represented a similar ratio at district and tahsil level but semi-permanent houses in the urban areas were in the proportion range of 0.8 to 2.4 per cent. Temporary houses in the district lie at insignificant proportion.

Data source: Census of India 2001, H-series: "Tables on Houses, Household amenities and Assets."
Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If th household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Bathroom means bathroom within the house

$ Toilet means toilet within the house

@ Drainage means colsed and open drainage

The above table 50 reveals figures with percentage of availability of certain amenities at district and tahsil level. Facility of improved drinking water through tap handpump and tubewells, was reported to be available in 21.4 per cent households in the district (14.1 per cent rural and 84.8 per cent in urban). Tahsil Narendranagar was best served with 36.8 per cent among all tahsils. Electrictiy was available to 48.8 per cent households. The rural and urban break-up was 43.2 per cent and 97.0 per cent. Narendranagar tahsil was best served with 64.6 per cent households (51.6 per cent rural and 97.48 per cent urban). Bathroom and toilet facility was available to 29.2 per cent and 31.2 per cent households in the district. Narendranagar tahsil had highest percentage of households i.e. 37.4 per cent and 42.3 per cent respectively having bathroom and toilet facility. Drainage facility was available to 28.4 per cent

households in the district. Tehri tahsil with 40.3 per cent households was best served in this aspect followed by Narendranagar tahsil while other tahsils are poorly served.

During 1991 Census among 117,470 households, 11,974 households could avail electricity and 11,935 households had access to improved drinking water.

TABLE - 51

Data source: Census of India 2001, H-series: "Tables on Houses, Household amenities and Assets."

Note : - Percentages are given in brackets.

It is observed from Table 51 that 63.9 per cent of the households in the district use firewood as fuel for cooking, the proportion in the rural area is 70.9 and in urban area it comes to 3.0 percent of households. LPG (cooking gas) has been reported as one of the fuel for cooking in 29.7 per cent of the households. The composition of rural and urban comes to 24.5 and 74.8 per cent, respectively. Kerosene is used for cooking in as many as 3.8 per cent of the households (2.1 per cent rural and 18.2 per cent urban households). The other methods like crop residue, cow dung cake, coal lignite, charcoal, electricity and biogas etc. ranges between 0.0 per cent to 1.6 per cent of the households of the district. The pattern of fuel used for cooking follows the same trend in tahsils (rural areas), where predominant fuel is firewood, while in urban parts of the district the predominant fuel is LPG, used by 74.8 percent of the urban population of the district. The table shows that firewood, LPG (cooking gas) and kerosene are the predominant fuel for cooking in the district.

During 1991 census predominant type of fuel used for cooking was firewood. Among 117,470 households, 98,180 households used firewood, 5,845 households used LPG and 9,430 households used kerosene oil.

The Table 52 reveals that 59.9 per cent households in the district availed banking services. All the tahsils are almost equally served with. In Tehri and Narendranagar tahsil, the proportion being 63.9 per cent and 62.0 per cent and lowest in tahsil Pratapnagar (54.3 per cent). Radio and transistor was possessed by 51.0 per cent households in the district. The highest number of 54.6 per cent households was in Tehri tahsil and the lowest of 44.6 per cent was in Pratapnagar tahsil. The network of television was available amongst 28.8 per cent households. Tehri tahsil was at the top with 38.9 per cent households and Ghansali tahsil was at the bottom with 11.6 per cent. Telephone, bicycle, scooter/motor cycle/moped, car/jeep/van were available to less than ten per cent households in the district, the proportion of availability being 4.5, 2.5, 3.3 and 1.0 per cent respectively. In the light of above analysis, it is obvious that none of the specified assets is much high in the district (40.9 per cent), the highest in this aspect is Pratapnagar with 50.5 per cent. Tahsil Ghansali and Pratapnagar were poorly served in respect of availability of assets, the reason may be because there are no urban units in these tahsils.

(xi) Major Social and Cultural Events, Natural and Administrative Developments and Significant Activities during the Decade

During the year 1997 Jakholi sub-tehsil of the district was transferred to the newly carved district of Rudraprayag. Few agitations took place against construction of Tehri Dam and for rehabilitation of displaced person. Due to Tehri dam, the residents of Tehri town and surrounding villages are being rehabilitated at New Tehri town and Bhagirathipuram. It is apprehended that after the completion of Tehri dam, Tehri town and nearby villages will be submerged and nearly 74 villages will be partially affected.

Tehri Garhwal faces other problems too. Landslides take place every year in rainy season causing damage to the roads, drinking water sources and electric lines. Erosion of soil plays havoc to the economic conditions of farmers. Many families in the district are rehabilitated. Forest fire causes loss of natural resources worth crores of rupees.

(xii) Brief Description of Places of Religions, Historical or Archaeological Importance in Villages and Places of Tourist Interest in the Towns of the District

District Tehri Garhwal is very rich in natural beauty and resources. It's rivers, falls and other scenic beauty attract tourists. Dhanolti, situated at 24 km. from Mussoorie on Mussoorie-Chamba road is a beautiful place and has been developed as a tourist spot. Other important places of the district are Bhaironala, Kathukhal, Kanatal and Chamba. New Tehri, which has been developed as the district headquarters is also a hill station. Khattaling Glacier, from where Bhilangana, a tributary of Ganga arises, also attracts tourists. Nagtibba which is situated at a height of 10,000 from sea level is a beautiful place. There are two natural lakes near this place. Khait Parwat, where there is a magnificent temple of Goddess Durga attracts thousands of pilgrims. Kempty Fall, situated at 8 km. from Mussoorie, attracts thousands of tourists, flocking here from Mussoorie for picnic. Pawanli Kanda is famous for flowers. A beautiful flower called Brahma Kamal is found here.

The district abounds in sacred places that are not only revered but are worth visiting for their beauteous natural settings. The detailed description of some of such places of interest is given below.

Tehri

Known as Ganesh Prayag, it is situated at the height of 700 meter at the meeting point of Bhagirathi and Bhilangana. At the time of Maharaja Sudarshan Shah, it was capital of his kingdom. With the construction of Tehri Dam, this beautiful town is on the verge of extinction.

Pratapnagar

This is one of the most fascinating place located barely 15 km. away from Tehri at an altitude of 2011 meters. It is surrounded by dense forests of bamboo and bushes. The hills of Badrinath, Kedarnath, Gangotri and Yamunotri, covered with white snow present a beautiful spectacle and can be seen vividly from this place.

Devprayag

Famous for its Raghunathji temple, this place lies at the confluence of Bhagirathi and Alakhnanda.

Narendrnagar

This place is located on Rishikesh – Tehri road at an altitude of 1150 meter from the sea level. From this place during the night, the Ganga river filled with glittering stars looks most fascinating. The climate of this place is very healthful.

Muni-ki-Reti

This place is adjacent to town Rishikesh, situated on the bank of Ganga river. Swami Sivanand Ashram and Kailash Ashram are the famous religious temples

located here.

(xiii) Major characteristics and contribution of the district

The major characteristics of the district are that the brave sons of this district are serving in Indian Army and protecting the motherland. The inclination of the young generation of this district to join army is exemplary.

(xiv) Scope of Village Directory & Town Directory

Village Directory

The village directory as the title connotes presents information pertaining to rural areas of the district at C.D block/ village level. For each C.D. block a list of villages serialized by English alphabetical order along with their location code numbers of 2001 and 1991 census has been presented. The rational of giving 2001 location code along with 1991 location code is to facilitate the identification of villages for matching information collected at each Census. The villages which have been wholly merged in Nagar Nigam, Nagar Palika Parishad and Nagar Panchayat are not included in the list. In case of partly merged villages, the remaining rural part of the villages has been treated as independent revenue village and the data have been presented for such villages in the village directory.

However, the villages treated as outgrowth of an Urban Agglomeration or Nagar Panchayat is listed in the village directory but no data are presented against the name of such villages. All these villages are listed in the Primary Census Abstract (rural) without presenting their data for providing cross references. Uninhabited or depopulated villages are listed but only area of the village and land use pattern is given. A note against such a village indicates the state of its being depopulated or uninhabited.

The village directory brings out some basic information about a village. These data can broadly be classified into the following categories:

1.	Population and households	Cols.4 & 5
2.	Amenities.	Cols.6 to 13
3.	Other infrastructural facilities etc.	Cols.14 to 16
4.	Availability of news paper/ magazine	Column 17
5.	Commodities manufacture	Column 18
6.	Total area of village and land use pattern	Column 3 & 19-23

Town Directory :

The Town Directory covers all the towns in a district. The towns are arranged by English alphabetical order. The data are presented in seven statements serially numbered (I) to (VII).

The following mode of listing of towns has been followed:-

(i) All the towns having statutory status which are not part of an Urban Agglomeration are listed once in the alphabetical arrangement of the towns.

(ii) All the towns which are part of an Urban Agglomeration and enjoy independent status of a statutory town are listed twice in the alphabetical arrangement of the towns as well as under the main town of an Urban Agglomeration. However, the data are presented separately only once under the main UA. In alphabetical arrangement a note is given against such towns that they are part of such and such Urban Agglomeration.

(iii) The outgrowth(s) of a town which do not qualify themselves for being treated as independent town are not listed in the main body of the Directory. Against name/names of the town having outgrowth(s) an asterisk (*) has been placed to indicate that the town has outgrowth(s).

(iv) Census towns are also listed in the body of Directory. These are the towns which do not enjoy statutory status but are declared towns for the purpose of population Census.

Town Directories of the districts give an account of status and growth history of towns, location and physical aspects of the towns, municipal finances during 1998-1999, civic and other amenities up to 1999 (as well in notified slums), medical, educational, recreational and cultural facilities by year 1999, and trade, commerce, industry and banking activities in year 1999. In this way population and growth rates of towns from 1901 to 2001, density in 2001, sex-ratio during 1981, 1991 and 2001 censuses, rainfall and temperature of the towns, receipts and expenditures in the towns of the district, road length, system of sewerage, number of latrines, method of disposal of night soil, water supply position and fire fighting services, number of electric connections, number of hospitals, colleges, cinemas etc. and number of banks as well as commodities of manufactured and exports are enumerated vividly in various statements relating to the town directories of the districts.

PART A
VILLAGE AND TOWN DIRECTORY
(section I and II)

SECTION I
VILLAGE DIRECTORY

Section - I : Village Directory

Note Explaining the Abbreviations used in the Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc., in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash(-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	HHom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	DHom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WWE
(v)	Tubewell (with electricity)	TW
(vi)	Tubewell(without electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.
Appendix-I-A	Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages C D Block wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages having or not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages having or not having Scheduled Tribes population.
Appendix-VII A	List of villages according to proportion of Scheduled Castes to the total population by ranges.
Appendix-VII B	List of villages according to proportion of Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates C D Block wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

STATEMENT
LIST OF VILLAGES MERGED IN TOWNS AND OUT-GROWTH AT 2001 CENSUS

Serial Number	Name of Village	Location Code number	Merged in Town and Outgrowth
1	2	3	4
Not applicable as there are no merged villages and outgrowths in the district.

APPENDIX VIII

NUMBER OF VILLAGES UNDER EACH GRAM PANCHYAT (C.D. BLOCK WISE)

Serial number	Name of gram panchayat and location code number	Area of gram panchayat in hectare	Number of villages with location code numbers	Location code	Number of households	Total population	Total SC population	Total ST population	Income and expenditure of Gram panchayat (in Rs.'000) Total income	Total expenditure
1	2	3	4	5	6	7	8	9	10	11

The information is not being provided for districts of Uttaranchal due to certain reasons.

APPENDIX IX

STATEMENT SHOWING NUMBER OF GIRLS SCHOOLS IN THE VILLAGES

Name of District	Name of C.D. Block	Location Code Number	Name of Village	No. of Girls School
1	2	3	4	5

Information not available for this district

SECTION II
TOWN DIRECTORY

Town Directory

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation /Nagan Nigam	M. Corp./NN
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board /Nagar Palika Parishad	MB/NPP
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Other columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded, respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns :

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has benn recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres. may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

(i)	Ayurvedic	A
(ii)	Unani	U
(iii)	Homoeopathic	Hom.

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings, etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available, has been mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town, the name of nearest place with distance where the facility is available, has been recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 ,: Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee, etc.
