Annexures - I To VIII

Annexure I	Number of villages under each Gram Panchayat	1577
Annexure II	Fertility and Mortality, 1991 Census	1577
Annexure III	Various measures of fertility and mean age at marriage, 1991 Census	1578
Annexure IV	Percentage distribution of Migrants by place of birth/place of last residence, 1991 and 2001 Census	1579
Annexure V	Brief account of main religions in the district/tahsil as per 1991 and 2001 Census	1581
Annexure VI	Marital status of Different Age-groups of Population as per 1991 and 2001 Census	1583
Annexure VII	Age, Sex and Education in the district, 1991 and 2001 Census	1587
Annexure VIII	Distribution of different mother tongues returned in 1991 and 2001 Census	1589

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCBH was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of

all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Dr. Ranvir Singh, Director of Census Operations, Uttar Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006.

Preface

The District Census Handbooks (DCHBs) are brought-out in two parts giving village and town wise data for each district. The first part contains non-census data for each village and town and is called Village and Town Directories Part A. The Part B provides Census data for rural area up to the village level and for urban areas up to ward level for each town or city in the shape of Primary Census Abstract (PCAs). The information contained in Primary Census Abstract and Village and Town Directory (VDs/TDs) has already been released for data users in soft copy. Data available in District Census Handbooks are very useful for policy planners, Administrators, Researchers and other socio-economic research centers. Till 1991 Census, all the inset tables included in District Census Handbooks were produced manually. But this time the software designed by the Data Processing Division of the Office of the Registrar General, India helped in the fast generations of tables.

I am deeply grateful to Shri J.K, Banthia, Ex-Registrar General and Census Commissioner of India for his guidance and support. I would like to thank Shri D.K. Sikri, Secretary, Registrar General and Census Commissioner of India for his sustained support and spontaneous, unfailing guidance through our endeavours. At the outset I thank to Shri R.C. Sethi. Additional Registrar General, India, who drove us to complete the District Census Handbooks within a specific timeframe and make it ready for printing.

I thank to Shri R.G. Mitra, Ex. Deputy Registrar General (C&T), Shri R.P. Singh, Ex. Deputy Registrar General (Map), Dr. I.C. Aggarwal, Ex. Assistant Registrar General (SS) of the office of Register General, India for their guidance at each steps in the preparation of District Census Handbook. Special thanks are due to Shri S.L. Jain, Deputy Director (Social Studies) and Shri Anil Kumar Arora, Deputy Director (EDP), without their untiring efforts and support we could not have completed the District Census Handbook within this time.

The Director of Census Operations, Uttar Pradesh, Dr. Ranbir Singh, under whose guidance, the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignments before the volume could be made available for the printing. I am also thankful to Shri R. K. Singh, Ex-Joint Director and Shri S.S.A. Jafri, Deputy Director for their valuable guidance and support to complete this project within specific time frame. The task of data collection in respect of both Census and non-census items was a gigantic on which officials in the State Government had to perform along with their normal duties. For their deep sense of devotion to duty and hard work in this regard, I am thankful to all of them.

The preparation of District Census Handbook was done under the supervision of Shri Mohd. Ahmad, Assistant Director. I am also thankful to Shri Shailendra Singh Negi, S.I. Grade-I, Shri S.K. Banerjee, S.I. Gr. II and Shri U.G. Jhingran, S.I. Gr. III, who assisted in the work for timely completion of the project. S.I.Gr.II, S.I.Gr.III, Sr.Compilers, Compilers, Data Entry Operators and Assistant Compilers who assisted in the work also did a tremendous job. Shri A.M. Ansari, Deputy Director (EDP) and his team of devoted workers deserve all praise for timely processing of Household Schedule through Image Based Data Capturing Technology i.e. Scanning. The members of the staff in the Map Section did a commendable job under the guidance of Shri Dashrath Singh, Research Officer (Map)and Shri J.P. Purohit, Research Officer (Map) in bringing out various maps.

Note:- Villages having NIL Scheduled Tribes Population have been excluded

APPENDIX VIII

NUMBER OF VILLAGES UNDER EACH GRAM PANCHYAT (C.D. BLOCK WISE)

Serial number	Name of gram panchayat and location code number	Area of gram panchayat in hectare	Number of villages with location code numbers		Number of households	Total population	Total SC population	Total ST population	Income and expenditure of Gram panchayat (in Rs.'000)	
			Number of villages with location code numbers	Location code					Total income	Total expenditure
1	2	3	4	5	6	7	8	9	10	11

The information is not being provided for districts of Uttaranchal due to certain reasons.

APPENDIX IX

STATEMENT SHOWING NUMBER OF GIRLS SCHOOLS IN THE VILLAGES

Name of District	Name of C.D. Block	Location Code Number	Name of Village	No. of Girls School
1	2	3	4	5

Information not available for this district

SECTION II
TOWN DIRECTORY

Town Directory

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation /Nagan Nigam	M. Corp./NN
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board /Nagar Palika Parishad	MB/NPP
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Other columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded, respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as zero (0).

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns :

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

(i)	Ayurvedic	A
(ii)	Unani	U
(iii)	Homoeopathic	Hom.

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings, etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools:

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available, has been mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town, the name of nearest place with distance where the facility is available, has been recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee, etc.

TOWN DIRECTORY

APPENDIX TO TOWN DIRECTORY
TOWNS SHOWING THEIR OUTGROWTH WITH POPULATION

As no Towns having any outgrowth in the District was found, relevant information could not be compiled and therefore may be treated as 'NIL'.

PART B
PRIMARY CENSUS ABSTRACT

Brief Note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the *individual slip* had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in

respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important population of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991

also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural *table and to some extent in the series 'Special Tables* for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

The abbreviations used in Primary Census Abstract are same as used in Town Directory.

ANNEXURES
I TO VIII

ANNEXURE - I

NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT

Not provided for this district.

ANNEXURE-II

FERTILITY AND MORTALITY 1991 CENSUS

The three factors affecting the population size of the district are fertility, mortality and migration. These concepts are explained in detail under the caption Census and Non- Census Concepts and Definitions in the Analytical Note portion. The fertility is defined by various measures of fertility and mean- age at marriage and also by marital status of population. One major aspect of consideration under mortality is infant and child mortality. Migration may be perceived as percentage distribution of migrants by place of birth and/or place of last residence. At the 1991 Census the district was part of Uttar Pradesh, which in north –central India, is still the country's most populous state even after carving out of Uttaranchal in year 2000. The population of the UP state was 139 million at the 1991 Census, which accounted for 16 % of India's total population. It grew by 25% between 1981 and 1991 largely as a result of high fertility, the highest of any Indian state.

The child mortality indicators at the 1991 Census in the district and the State was as following:

Child Mortality Indicators in the State and the District

Indicator	Persons/Males/Females	UP*	Garhwal
q1	Persons	99	69
	Males	98	67
	Females	104	71
q2	Persons	117	80
	Males	117	81
	Females	118	79
q5	Persons	134	90
	Males	135	91
	Females	132	89

** Undivided Uttar Pradesh at 1991 Census.*

The child mortality by ages 1, 2 and 5 years, as shown by the indicators q1; q2 and q5, respectively, was lower in the district as against the State, which suggests that the children upto 5 years of age in the district were in the improved condition as compared to the State.

ANNEXURE–III

VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE - 1991

Serial Number	Fertility Measures	Uttar Pradesh	Garhwal
1	2	3	4
1	CBR	37.2	31.1
2	TFR	5.6	4.3
3	TMFR	6.3	5.5
4	GFR	172	128
5	GMFR	200	176
6	Mean age at marriage (1981-91)	17.3	17.8
7	Number of children ever born per ever married woman aged 15-49 years.	4.6	4.6
8	Child woman ratio 0-4	631	474
	" 5-9	752	624

Source: (i) Estimates of fertility indicators Uttar Pradesh Table # 2.23
(ii) District Profile Uttar Pradesh 1991.

Various measures of fertility as stated in the annexure reveals that the Crude Birth Rate (CBR), which indicates the ratio of number of the live births in a year to the mid year population was less for district Garhwal 31.1 per cent than the ratio of the state (37.2 per cent). In respect of Total Fertility Rate (TFR), Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR), General Marital Fertility Rate (GMFR), the district presented lower ratio than the state figures. From these figures a conclusion can be drawn that the district had lower fertility rates. The mean age at marriage was higher at 17.8 years in comparison to state average of 17.3 years. Thus inference can be drawn that higher age at marriage leads to lower fertility rate. Similar trend can be observed for number of children born per ever married women aged 15-49. State and district figures were placed as 4.6 and 4.6 respectively. Number of children in the age groups 0-4 and 5-9 per one thousand women had been calculated to 474 and 624 for district while in case of the state the corresponding figures were 631 and 752. All the fertility variables indicate that fertility levels were lower than the state.

ANNEXURE - IV

The annexure-IV shows percentage distribution of migrants as per 1991 (Annexure IV (a)) and 2001 Census (Annexure IV (b)) among total migrants in the state and district. For both the Censuses, the district figures are presented in comparison to state figures. The table is given in two parts. One is in-migrants by place of birth (in which a person is enumerated during the Census in other than the place of birth) and the other part is related to in-migrants by place of last residence (in which a person is enumerated during the Census in place other than the place of his immediate last residence). Since the state of Uttaranchal was created in 2000, the state figures for 1991 are given for Uttar Pradesh, whereas the state figures of Uttaranchal are given for 2001.

* *Undivided Uttar Pradesh at 1991 Census.*

Regarding in-migration by place of birth, it is evident from the tables that percentage of in-migrants from other districts of the state was much lower for the state of Uttaranchal (35.4 per cent) in Census 2001 as compared to state of Uttar Pradesh (81.3 per cent) during 1991. For the district Garhwal, the percentages declined in 2001 (38.3 per cent) as compared to 1991 Census (79.4 per cent). The proportion of in-migration from other states increased and recorded 57.8 per cent which was 16.2 per cent during 1991 Census at state level. Similar trends are visible at district level where a figure for 2001 is 54.7 per cent which was 14.8 per cent during 1991. In-migrants from other countries in the district were 5.8 per cent during 1991 which is 7.0 per cent in 2001.

Regarding in-migration by place of last residence for in-migration from other districts, again the figures are much lower for the state of Uttaranchal (34.9 per cent) in 2001 against 79.6 per cent for the state of Uttar Pradesh during 1991. Comparatively, the figures for the district in Census 2001 recorded as 39.8 per cent while it was 78.2 per cent in 1991 Census for Garhwal. The volume of migration from other states was 18.9 per cent in 1991 Census at the state level, which increased and recorded 60.1 per cent in 2001 Census. Figures for the district worked out to be 15.6 per cent in 1991 and 51.9 per cent in 2001 Census. The movement of population from other countries to the district was 6.2 per cent in the district, whereas the figure for the state Uttar Pradesh was 1.5 per cent during 1991. The corresponding figures recorded for the state Uttaranchal and district Garhwal, during 2001 are 5.0 percent and 8.4 percent, respectively.

ANNEXURE – V

Annexure – V presents the distribution of basic cultural characteristic of the population "Religion" at state, district and tahsil level. Six major religions have been dealt with separately. These are Buddhist, Christian, Hindu, Jain, Muslim and Sikh. Rests of the religions have been presented in the column titled 'other religions'. Distribution for 2001 and 1991 Censuses are presented in Annexure V (a) and Annexure V (b), respectively.

Note : - Percentages are given in brackets.

** Undivided Uttar Pradesh at 1991 Census.*

A brief account of the main religions as stated in the Annexure-V (a) for 2001 reveals that 85.0 percent population is Hindu in the state followed by 11.9 percent population of Muslims while the followers of other religions are negligible. At district level, there is a slight variation as 96.6 per cent population follows religion Hindu while only 2.9 per cent population follows religion Muslim. The population is almost negligible under the remaining religion including the categogory "Religion not stated".

Almost similar trend is observed from Annexure V(b) based on 1991 Census.

ANNEXURE - VI

Annexure-VI presents the classification of population according to marital status of different age groups for the state and district. Marital status has been classified as never married, married, widowed, divorced and separated and unspecified status. For comparative study, the figures of 2001 and 1991 Census have been shown in Annexure VI(a) and VI(b), respectively.

ANNEXURE - VI (a)

Marital Status Of Different Age Groups Of Population As Per 2001 Census

Source : Part - IV (a) table No. - C (I)

Note : - Percentages are given in brackets.

** Undivided Uttar Pradesh at 1991 Census.*

On perusal of Annexure VI (a), it is observed that male population in the category of never married is 57.9 per cent for the state and 59.6 per cent for the district Garhwal, while female population in the category of never married constitutes 48.3 per cent for the state and 45.8 per cent for the district in 2001 Census. Married population in the district is 38.1 per cent for males and 44.2 per cent for females as against 39.9 per cent for males and 44.5 per cent for females in the state. Widowed population is 2.2 per cent for males and 9.8 percent for females at district level as against 2.0 percent males and 7.0 females at state level. Population of Divorced, Separated and Unspecified status are negligible at state level as well as at district level. Age group wise study of marital status reveals that population and percentage of never married decreases with the increase in population while pyramidal shape is observed for married population. In the district, percentage of married population is highest (96.2 per cent) for males in the age-group 40-44 years and 95.4 per cent for females in the age-group 30-34 years, while widowed population is the highest in age group of 70 years an above (21.9 per cent for males and 71.6 per cent fo females). Almost similar trend can be seen for th state.

It is observed on perusal of Annexure VI (b) tha the scenario has not changed much since 1991 as fa as the district figures are concerned. Percentages o never married in 1991 was 58.9 per cent for male and 47.7 per cent for females. Similarly, marrie population constituted 38.4 per cent for males and 43.(per cent for females in 1991. Widowed population wa 2.1 per cent in case of males and 8.3 per cent in cas of females. No person was reported in the categor "Unspecified Status" in the state as well as in th district in 2001. However, during 1991, some person were reported under this category. State figures o 1991 Census reveals identical trend with sligh variation in percentage although state figures of 199 Census covered undivided Uttar Pradesh included present state of Uttaranchal.

ANNEXURE - VII

Age and sex wise education in the state and district for 2001 and 1991 censuses have been presented in the Annexure – VII (a) and (b), respectivcly.

Source:- Social & Cultural Table Pt IV A (Table # C-2)

* *Undivided Uttar Pradesh at 1991 Census.*

Above annexures show that percentage of illiterates has declined from 55.3 per cent for males and 80.0 per cent for females in 1991 to 30.4 per cent for males and 49.6 per cent for females in 2001, respectively at the state level. Consequently, percentage of literates has increased in all educational levels. Percentage of literates without educational level was 2.0 per cent among males and 0.7 per cent among females in 1991 at state level, which is 1.4 per cent and 1.2 per cent in case of males and females, respectively in 2001. Similarly, primary level education was 10.7 per cent for males and 6.0 per cent for females in 1991 which rose to 16.1 and 13.9 for males and females, respectively in 2001. Middle level education was 9.7 per cent in case of males and 3.7 per cent in case of females in 1991 which increased to 14.2 per cent for males and 8.8 per cent for females in 2001. Matriculation and above level was 13.5 percent for males and 4.4 percent for females in 1991 which rose to 23.4 per cent for males and 13.8 per cent for females in 2001.

Similar trend can be observed in the district also. In 1991, 31.8 per cent males and 58.5 per cent females were recorded as illiterates in the district, which declined to 23.5 per cent males and 43.1 per cent females in 2001. Primary level education was 17.3 per cent in case of males and 14.8 per cent in case of females in 1991, which is almost same at 17.1 per cent for males and increased upto 16.7 per cent in case of females in 2001. Middle level educated males and females were 15.3 per cent and 8.1 per cent, respectively in 1991 while 16.2 per cent males and 11.9 per cent females were recorded in this category in 2001. Matriculation and above level of education was achieved by 20.8 per cent of males and 6.8 per cent females in 1991 which is observed 27.8 per cent for males and 15.3 per cent for females in 2001. Primary level of education is found highest in the age-group of 7-14 years in 2001, while middle level education was the highest in age group 15-19 years and the age group that had highest percentage of matriculation and above level of education was 20-24 years in respect of both the sexes.

ANNEXURE – VIII

Distribution of different mother tongues according to population with percentage as returned in 2001 and 1991 for the state of Uttaranchal and district Garhwal has been depicted through Annexure-VIII (a) and (b), respectively.

** Undivided Uttar Pradesh at 1991 Census.*

It shows from Annexure-VIII (a) that mother tongue for largest population in the district is Garhwali with 86.1 per cent which is 24.8 per cent for the state in 2001. Annexure VIII (b) shows that during 1991 also, Garhwali was the mother tongue spoken by the largest portion (78.2 per cent) of the district. Hindi as mother tongue is reported by just 10.7 per cent population in the district in 2001 Census. Other mother languages such as Nepali, Kumauni, Urdu, Punjabi, Bhojpuri, Dogri, etc., are spoken by less than one percent each in the district. On the other hand, at the state level during 2001 besides Hindi and Garhwali, other important languages adopted as mother tongue are Kumauni (22.9 per cent), Urdu (5.9 per cent), Punjabi (2.8 per cent), Bengali (1.5 per cent), Jaunsari (1.3 per cent) and Nepali (1.1 per cent). Rests of the languages such as Bhojpuri, Pahari, Tibetan, Bhotia, Sindhi etc. mother tongues are of less than one percent. Since state of Uttaranchal was not separated from Uttar Pradesh in 1991, distribution of mother tongues is entirely different in comparison to 2001, where dominant mother tongue was Hindi with 82.1 per cent population followed by Urdu with 9.0 per cent, Bhojpuri 5.0 per cent, Garhwali 1.3 percent and Kumauni 1.2 per cent.
