Bongaigaon

Refinery-cum-Petro Chemical Complex

This is the third refinery in Assam, located by the side of National Highway No. 31C in Bongaigaon that was established on February 20, 1974 and named *BRPL*. The public sector undertaking completed in about four years times at a total cost of over Rs. 96 crores, is the biggest industrial project in the district. Present value of gross assets of the BRPL is about Rs. 750 crores. This heavy industry complex in an industrially backward district like Bongaigaon is expected to usher in an era of industrial prosperity.

Annexure VIII	Distribution of different mother tongues returned in 1991 and 2001 Census	513
Annexure IX	Distribution of Scheduld Castes and Scheduled Tribes in 1991 Census	514

****

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951Census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 Census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 Census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district Census Tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 Census DCHB was in two parts : Part A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA upto tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 Census DCHB, by and large, followed the pattern of presentation of 1981 Census, except the format of PCA was restructure of Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD block) level presentation of Village Directory and PCA Data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of Village Directory and PCA Data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 Census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of Gram Panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity and Child Welfare Centre and Primary Health

Centre), drinking water, Post and Telegraph (Post Office and Phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri P. Hazarika, Director of Census Operations, Assam. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 Census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and co-ordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agarwal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of Maps. Whereas, Shri Anil Kumar Arora, Deputy Director of data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and Town Directory Data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India.

New Delhi
Dated 17.10.2006.

Preface

The District Census Handbook is the only publication brought out by the Directorate of Census Operations on behalf of the State Government. The financial aspects of its publication are being taken care of by the State Government. This publication presents various demographic data down to the village level in rural area and to ward level of each town in urban locality. It depicts various amenities available in each village and town in the form of Village and Town Directory. Since the villages are the lowest units that constitute larger divisions like Revenue Circles, C.D. Blocks, Sub-divisions, Districts, the data both for Census as well as non Census are useful for micro planning and development at grass root level.

The analytical note included here in this publication has been improved by including many more information from than that of earlier publication. This publication is also made more attractive by inserting demographical aspect of 1991 Census in the form of annexures.

The Census Operations at Assam was initially conducted under the able guidance and supervision of Shri M. Das, IAS, Ex-Director of Census Operations, Assam. During my tenure, the Deputy Director, Shri Hiremath and Shri B.M. Talukdar, Asstt. Director,Assam were looking after Village Directory and Town Directory work. Now Shri B.L. Sarmah, DDCO and Shri N.C. Bhagabati, ADCO have been looking after all related works of DCHB and Shri B.M. Talukdar, Asstt. Director,Assam has also provided his valuable work in publication of this book. The Village Directory and Town Directory data were checked by a team of officials of which mention may be made of Mrs. P. Bhattacharjee, Sr. Compiler, Mrs. Khana Das, Asstt. Compiler, Mrs. P. Sonowal, Asstt. Compiler, Mrs. D. Sarmah, Asstt. Compiler and Mrs. D. Doley, Asstt. Compiler.

The DCHB is drafted by Shri B.M. Talukdar, Asstt Director and all Computer works were done by Shri S. Dutta Data Entry Operator , Shri J. Ghosh Junior Supervisor. The map Section has provided maps which are included in this book. I offer my thanks to all of the officials who are closely associated with this noble work.

I am grateful to Shri J.K. Banthia, IAS, Registrar General and Census Commissioner of India for his constant valuable guidance. I much also record my gratitude to Dr. I.C. Aggarwal, Sr. Research officer for his sociological advice and Mr. S.L. Jain Deputy Director for his technical guidance

(P. Hazarika)
Director of Census Operations,
Assam, Guwahati.

District Highlights – 2001 Census

1 In Bongaigaon District, Bijni Revenue Circle/ Tahsil is most populous having 316,813 persons while Sidli(Pt II) Revenue Circle is the least populous tahsil having 125,449 persons.

2 Among the CD Blocks, Manikpur CD Block has highest number of population with 169,098 whereas the lowest is found in Sidli-chirang pt. (68,105)

3 Out of five towns including Census towns, Bongaigaon MB is the most populous with 60,327 persons while Bongaigaon Refinery & Petro Chemical Ltd , Census Town is the smallest in population with 6,613 souls. New Bongaigaon Rly Colony is the biggest Census town in term of population having 15,601.

4 While the highest number (206) inhabited villages is found in Borobazar CD Block and the lowest (76) is found in Sidli-chirang pt. CD Block.

5 The largest village by area is Sipansila Hill Block (11,451 hectares) in Dangtola CD Block while in the district there are four smallest villages with the area of 3 hectars of land which are under Baitamari CD Block.

6 The largest village by population is Chatibor Gaon with 6,136 souls which is situated at Sidli-chirang pt. CD Block and the smallest village is Mahadevhill with one person only under Baitamari CD Block.

7 The district is wel known for its Oil Refinary cum Petro Chemical Complex at Dhali Gaon and Jogighopa Bridge (Naranarayan Setu) at Brahmaputra River.

8 The temple at Jogighopa with the images of Lord Shiva and Parvati is an important religious place of the district.

9 The District has 117 numbers of Char Villages.

		1991	71,922	38,652	33,270	26,993	+60.08
		2001	109,782	57,534	52,248	37,860	+52.64

Note : No Census was conducted in 1981.

In the district, there were 90,457 populations 1907. It had no urban area up to 195%. The growth rate of population from 1901 to 2001 has not followed only trend. Sometimes it goes and in next decade it comes down. The district shows a low growth rate in 1991-2001 also. It is lower than the state growth rate. The growth rate in urban in the last decade is much higher than rural areas of the district as well as from the state.

Decadal Growth Rate of Bongaigaon District from 1911-2001

The table shows houseless and institutinal population in total , rural and urban. In the district there are 80 Houseless and 200 Institutional households and these households cover 271 and 3,972 persons as well. The number of houseless households are 55 in rural and 25 in urban. Similarly, 167 Institutinal households are found in rural and 33 in urban. The highest number of houseless and institutinal households are found in Bijni tahsil. Except Bongaigaon Tahsil in all other tahsils the number of households in both cases are very small.

ANALYTICAL NOTE

ANALYTICAL NOTE ON BONGAIGAON DISTRICT

(i).History and Scope of District Census Handbook

District Census Hand-book is an important and valuable publication brought out by the Census Organization of each state after each decadal Census. This provides detailed information on some basic demographic and socio-economic aspects and availability of important civic amenities in each village and town of the district. It, thus, bears the proud privilege of being only informative source of every district of each state. It has, thus, proved to be of immense utility to the planners, administrators, academicians and researchers.

The District Census Hand-Book was first initiated during 1951 Census with the collaboration of respective State Governments. In 1951, only few demographic as well as some economic information in village and town level of the district along with some Census tables were incorporated in the publication. Since then, it had undergone tremendous changes during the subsequent Censuses. The scope and content of District Census Handbooks were further widened by addition of more Census tables and also some basic statistics on land-use pattern, agriculture, industry, administration, public health and medical etc. in 1961. The DCHB of 1961 was, therefore, considered as a unique asset of the Census Organization. Again in 1971 Census further improvements were made by enlisting many more tables on village and towns under the broad heads of Village and Town Directory. Thus DCHB is consisted of three parts. The Part A relates to the Village and Town Directory. The Part B contains village & town-wise Primary Census Abstract and Part C deals with administrative aspect and Census tables based on Primary Census Abstract (PCA) etc. The scope of DCHB got widened in 1981 with the inclusion of data on literacy, health care etc. The DCHB in 1981 was brought out with two parts i.e., Part - A & B. As Census could not be done in Assam only Part A portion was published. Again in 1991, DCHB made its appearance in two parts like the previous Census. Part A is fed with Village & Town Directory and Part B with PCA data. Again, the Part A had two sections. In Section-I the alphabetical list of villages with notes on codes in the Village Directory have been shown. The Village Directory had four appendices. The Section-II depicted note explaining the codes used in the Town Directory, the Town Directory statements (i to iv) and appendix to the Town Directory. The Part B revealed district PCA circle wise, CD Block-wise, village and town-wise PCA. The PCA had an appendix as well as annexure to the appendix. The District PCA to Scheduled Castes and Tribes at circle and town-level was also incorporated in this part of the DCHB.

In the present DCHB some more information on availability of facilities such as Credit Societies, Banks, Recreation and Cultural facilities, Newspaper/ Magazine are included for the first time. Information on income and expenditure, important commodities manufactured, exported and imported items etc are also included to embolden the scope of DCHB. Similar additions are also carried out in Town Directory.

The process of collection and compilation of relevant data take time and is a voluminous one. The process starts with the villages for each Revenue Circle for each district. Again the data so collected are compared with data of preceding the Census. These are sent to the Directorate of Census for further initiation. Likewise ,Town Directory data are collected directly from the Commissioner/Chairman of Municipal Corporation and the Town Committees as the case may be. In case of data relating to Town Directory scrutiny and cross-checking are done as a routine work. The agencies publishing such data are consulted upon to verify the authenticity and correctness of data. According to the instructions received from the Registrar General, India the work of compilation and then computerization are carried out. The incorporation of new information in 2001 DCHB and external validation of data so collected will definitely give a new dimension and importance. This will be an illustrative one to the data-users and researchers.

(ii). Brief History of the District :

The Bongaigaon district with its present area had never been an identify in the era of politic of its own. In the past, Bongaigaon district was a part of then Goalpara district. Thus the history of Bongaigaon district has to be taken in account alongwith Goalpara district. From the past records it can be believed that the Bongaigaon tract formed a part of the pristine kingdom of Kamrupa mentioned in the great epic, the Mahabharata. From the historical accounts, it could be assumed that thousand of years before Christ, Bongaigaon formed a part of a powerful kingdom ruled by line of non-Aryan. It is however ,believed that the area under present Bongaigaon district was conquered by the powerful and civilized kings of Bengal during the eleventh century after Christ, but no record is available in support of their rule in this territories. In the fifteenth century the district came under the dominion of the Khan princes whose capital Kamatapur was taken by the Muhammedans in 1498 AD under the leadership of Hussian Shad. In the midst of chaos and anarchy caused by the fall of Kamatapur a new family known as Koch rose to power in this area. The capital of Koch kings was at Koch Behar. Viswa Singha became the king of the Koch Behar and he rose to power about 1575 AD. He paid a friendly visit to the Ahom king. But he died about 1540. Viswa Singha was succeeded by his son Malladeva who assumed the name of Nara-Narayan. In 1580 AD the Koch kingdom was bifurcated and the region to the east of Sankosh River where the district of Bongaigaon fallen was surrendered to Raghu Rai, the nephew of Naranarayan. The region in the west of the river was kept aside for Naranarayan's son. However, the dispute between the two families was taken place soon and the rival camps sought the help from the Mohammedans and the Ahoms. The Mohammedans called for help by Naranarayan's son conquered the area of Bongaigaon. For a few years war dragged on between the Muslims and the Ahoms who were involved on the other side with different results. Raghu Rai was succeeded by his son Parikshit in about 1593 AD. Parikshit shifted his capital to North Guwahati as Indra Narayan son of Nara Narayan was making a plot to occupy the lost throne of his father. War was again started with Parikshit and his cousin Lakshmi Narayan. Out of the quarrel, the Mohammedans had caught the chances and Mukarram Khan advanced to Goalpara. The hostilities between the two powers were carried on up to1614 AD. But there were no further quarrel until 1615 when the Mohammedans, after being defeated in several occasions by the Ahom kings. In 1637 AD. peace was established and the present Barnadi was fixed as the boundary between the Mohammedans and the Ahom territories. The Ahoms again invaded the region which Bongaigaon formed a part and held it for three years. The Ahoms were retreated by Muslim General Mirjumala in 1661 A.D. and the defeated Pranya Narayan and marched up to the south bank of the Brahmaputra. From that time onwards, the area formed a part of the Muslim Dominion till 1765 when with the rest of Bengal, it passed into the possession of the East India Company.

Jurisdictional changes

The region, which Bongaigaon is a part, experienced several changes of jurisdiction since it first came under British rule. At the beginning the area covered by the jurisdiction of the three thanas, namely Goal para, Dhubri and Karaibari formed a part of the permanently settled district of Rangpur in Bengal.In1822 it was formed into separate district known as North East Rangpur which together with the Garo Hills frontier was administered by David Scott, Civil Commissioner when Assam was ceded to the British in 1826. Goalpara of which Bongaigaon formed a part was annexed to the Assam Valley Division and its civil administration was given in the hands of the Commissioner and the Judicial Commissioner of Assam. Goalpara district was separated from the province of Assam in 1866.and was placed under the Commissioner of Koch Behar Division. For administrative convenience the Civil and Criminal jurisdiction of Goalpara was again transferred to the Judicial Commissioner of Assam in1868.but the executive control kept in the hands of the Commissioner of Koch Behar. Goalpara was then finally included in the new province of Assam formed into a separate administrative unit in 1874. The headquarters of the district which formed a part of Bongaigaon was originally fixed at Goalpara but was transferred to Dhubri in 1879.

III. Administrative setup

The Bongaigaon district was created in 1989.The district is bounded by Barpeta district in the east Dhubri and Kokrajhar district towards the west, Goalpara district in the south and Bhutan in the north. The Headquarters of the district is located at Bongaigaon town situated at the lower part of the

Brahmaputra valley. In the district no any jurisdictional changes has taken place during 1991-2001. The total area of the district is2510.square kms. The rank of this district in comparison to other districts of Assam in terms of area is 17th . It is one of the smallest districts of Assam. Bongaigaon district possesses three sub divisions namely Bongaigaon, North Salmara and Bijni Subdivisions. Bongaigaon Subdivision consists of two Revenue Circles such as Sidhi (part II) and Bongaigaon Revenue circle. North Salmara sub division has also two-revenne circles viz Boitamari and Srijangram and Bijni Subdivision occupies only Bijni Revenue Circle. Thus the district has all together 5 revenue circles with 911 villages. At Bongaigaon district, there are 5 towns one town having Municipal Board namely Bongaigaon MB, two towns having Town Committee i.e. Abhayapuri TC and Bijni TC and two Census Towns namely BRPL town ship and New Bongaigaon Rly Colony. No area is carved out from the district to other district and similarly no area has been transferred to this district from other district also.

IV. Physical feature

Longitudinally the district extends from 90°22'E to 90°54' E and 26°9' N to 26°42' N 30° N by latitude.

Topographically the district displays a combination of plain and low rugged topography having a beautiful spot on the flat alluvial plain of the mighty Brahmaputra. The monotony of the flatness has often been retired in the southern part by the presence of a few scattered small hills ranging from 1000ft to 1500 ft in average. The highest point of elevation in the district is about 1700 ft. located near Moligram. The topography of the district embrassed by the presence of intensive longitudinal rivers indicates a fair degree of tiltness towards south.

The presence of the rivers of the district and their frequent silt deposition over nearby areas make the soils fertile and give an evergreen look through out the year on agriculture fields and vegetation. Most of the parts of the district are linked with villages covered in groves of slender areca palms, broadleaved plantains and feathery bamboo and in all seasons of the year, the district looks fresh and green.

Drainage

The river Ai, the Kanamakra and the Manas are the important drainage of the district. The former two are the right bank tributaries of the later. Manas is not only important for its Himalayan origin and the volume of its water drainage but for its active link with the past history of the region. From the long past it was the western boundary of the state. The river Champabati is another river of the district for drainage of water, which determines the boundary of Bongaigaon. The whole drainage of the district ultimately finds its way to all big and small rivers.

Climate

The climate of the district is almost same with that of other districts of the state. The cold season starts in the district from the end of November when both the day and night temperature begin to fall sharply. The temperature generally goes down to the minimum points in the months of December and January. These two months are the coldest month of each year when the mean daily minimum temperature reaches between12° centigrade. From the end of February the mercury level slowly goes up and in July, August and September, the temperature reaches the maximum point. During these months, the mean maximum temperature does not come below 31° centigrade. These months can be treated as hottest months for the district in each year. The high percentage of moisture in the atmosphere makes the weather irritating. The percentage of relative humidity in these months is between 85° and 88° centigrade. In the month of October, the temperature generally comes down and the nights become more pleasant in the district.

Rainfall

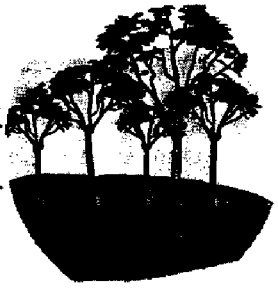

Most of the rainfall in a year causes due to the prevalence of south west monsoon while winter rains ,in scanty come from the north east monsoon, Occasionally associated with thunder showers due to westerly and local effect .The average monthly rainfall is the highest in the month of June / 99 with 773.8 m.m followed by 749.6 m.m in July / 99 and the lowest rainfall recorded as per Statistical Hand Book Assam , 2000 is 5.9 m.m during November / 98. The annual rainfall in Bongaigaon district was recorded 3164.9 m.m during 1998-99 The whole year is divided in four seasons and season wise actual rainfall in Bongaigaon during December 1998 to November, 1999 is 0.0 m.m in winter season, 751.5m.m in summer season 2148.8 m.m in monsoon season and 264.6 m.m in post monsoon season.

(source: Statistical Handbook Assam, 2000)

Soils

The soils of the district are not much different from those of other districts of the state. The district is characterized by an abundance of marshes and low lands, the soils of which contain a large percentage of organic matter. The solid geology of the district which mostly lies under the broad level plain, is covered by alluvium. The older alluvium composed of light terrace gravel stretches from the Bhutan border. The soil is composed of sand and clay in varying proposition ranging from pure sand near the rivers to stiff clay. The soils in Bongaigaon are generally fertile due to annual deposit of slit.

Forest

Thugh the small hills are found to be covered with patches of evergreen deciduous forests but the district has little areas under forest. The part of Burihar and Manas reserved forests of Kokrajhar district, which extend lilfle southward into the Bongaigaon district are located in the northern part of the district. The physical landscape makes the region a sight for unique beauty.

The forest plays a vital role in the economy of the people of the district. A large portion of the people of the district depends on forests for firewood to cook their meals and timber, bamboo, ekra, thatch etc. to build their houses. The forests of the district are the chief suppliers of raw–materials used in saw mills and ply wood factories ,According to the Statistical Hand Book Assam 2000, the total area under forest in Bongaigaon district is 55,809 hectares.

The forests areas of the district are divided into two classes the reserved forest and Unclassed reserved forest. The Unclassed reserved forest are mainly wastelands at the disposal of the Government where villagers are allowed to cultivate and live there. The forest of the district has various kinds of trees. These are small and big. The species mostly found are Sal, Simial, Segun, Gamers, Khakhun, Puma, Koori, Jam, and Mangoes. etc.

Minerals and Mining

The district has no minerals deposits or mines. Clay used for the manufacture of bricks and roofing tiles are available. The Archaeans, mostly Granites, Granite-gresis and the intrusive delerits are locally worked to be used as road metals.

Land and land use pattern

Land resource is one the most important and valuable free gift of the nature and its proper utilization by the inhabitants is of great value. Land should be fully used as per its capability. Lack of proper or profitable use means wastage of land resource and it results loss of productivity. It therefore ,requires proper and timely use of this kind of asset.

The following table indicates the pattern of land use under various classification of land in Bongaigaon district

TABLE – A

LAND-USE-PATTERN IN THE DISTRICT
(1997-1998 provisional)

Sl. No	Classification of land	Areas in Hactares
1	2	3
1	Total geographical area	251,000
2	Forest area	55,809
3	Land not available for cultivation	73,852
	(a)Land put to non agric uses	38,784
	(b)Barren and un cultured land	35,068
4	Other non cultivated land excluding fallow lands	14,159
	(a)Permanent past area and other grazing land	6,528
	(b)Land under masc. tree groves etc. not included in net area	2,516
	(c) Cultivable used land	5,115
5	Fallow land	12,610
	(a)Fallow other than current fallow	3,037
	(b)Current fallow.	9,573
6	Net area sown.	93,258
7	Total cropped area	147,983
8	Area sown most than once	54,725

Major characteristics of district :-

Agriculture and plantation

The economy of the district is primarilly agricultural in nature. The alluvial soil of the district is fertile and suitable for agricultural production. It is the main occupation of the people of the district.

The staple food of the district is rice. The other important crops are Mustard, Pulse, Cereals Wheat and Jute. Lahi rice is grown in higher fields which is an important product of the district. The Joha is the

finest variety of rice commonly grown by the people of the district. Boradhan is also sown particularly to prepare chira and pitha (cake). Ahu is another type of rice grown in the middle of July. Wheat is also gaining popularity and is supplementing rice in diet. Wheat is cultivated as a rabbi crop. The varities are Sonalika and Kalyan sona. Rape and Mustard are often grown along with Ahu rice. Pulses like Matikalai, Masur, Mug are also grown in the area to a certain extent.

The flood, rain fall and nature of the soil are the main factious that determine the quality and quantity of the crops produced in the district

Horticultural crops

The most important garden crop of the district is the plantain locally known as "kal". The different varieties of bananas are produced in the district. The common variety of Bananas are Malbhog, Chenikal, Cheni Champa, Athia, Porakal, Manohar, Jahaji, etc. Porakal/kachkal is used as vegetable. It is used in curry or can be used for dry curry. The bananas tree is useful because the whole plant from leaf to the root is used for different purposes. The tree and its fruits are commonly used for worship. Mangoes Jackfruits, Lemons Arecanut, Coconuts, Papaya, etc are also largely grown in the district. Various types of vegetables are grown in the district.

TABLE – C
AREA, PRODUCTION AND YIELD OF HORTICULTURAL CROPS IN BONGAIGAON DISTRICT

Sl. No	Type of Crops	Area Cultivation (hectares)	Production (in tones)	Average yield kg (per hectare)
1	2	3	4	5
1	Banana	882	10,713	12,147
2	Papaya	233	3,557	15,265

Irrigation

During monsoons season, the district gets heavy rainfall. The months May, June and July of each year are the wettest period of the year and these months account for more than 60% of the total annual rainfall. The agriculture of the district depends largely on rainwater for their cultivation. Agriculture suffers

TABLE – D
IRRIGATION POTENTIAL UTILIZED AND TARGET AND ADDITIONAL POTENTIAL CREATED IN BONGAIGAON DISTRICT

Sl. No.	Particulars	Area in hectors
1	2	3
1	Irrigation potential utilised during 1997 – 1998	1912.89

heavy loss in year of excessive rain due to the result of flood and fail in the years of drought. In time of drought cultivators are required to irrigate their fields by digging cannels from various streams and rivers. The old and outdated systems of irrigation are still prevailing in the district. The channels and ponds are constructed to water the agricultural field. Some minor irrigation projects are installed in the district by constructing bunds across the streams and rivulets, drainage channels and silt channels to obtain silt deposits in low lying areas have been used in some part of the district.

The Government has constructed some embankments and roads in the district to save agriculture from the floodwater. The Department of Irrigation is also helped the farmers by giving financial help for purchase of pump sets. The tube well and well are also provided to the farmers so as to enable them to water their fields.

Animal Husbandry

Agriculture and Animal Husbandry contribute maximum to the net stock of domestic product. Livestock is the main wealth next to agriculture of a large chunk of rural population. Livestock plays an important role in the economy of the state which is primarily agrarian. Agriculture economy is supplement by Animal Husbandry. Agriculture production depends very much on the livestock available. Agriculture is viable if adequate animal stock is there to feed it by way of manure. The activities allied to agriculture have significant rule in supplementing the income of the farmers.

The district is proud of being various kinds of livestock. Cattle and goats are main animals for most of the families of the district. A major porition of the families earns money by selling milk, cow and goats. The buffaloes, sheep, horses, fowels, ducks are also available. Some of the rich families have been started to keep Jersy Cows for business purposes. The different agencies have also distributed graded. Jerry cows among the farmers.

For the betterment of livestock, emphasis has been laid on the cultivation of fodder crops to provide them with nutritious diet. Roots and seeds of improved grasses are freely distributed to the farmers from the Government farms. The present Animal Husbandry and Veterinary Department which was known as Civil Veterinary Department has started functioning in Assam since 1953. This department has been constantly helping the farmers for their animals. In order to improve the breed cattle, measures have been adopted by the above department. Contagious and infectious diseases are also prevalent among the livestock in the district. To protect animals from such diseases measures are taken by the department. The Government has also established Hospital, Dispensaries, Farms, Training Centers etc for the benefit of the animal in the district.

TABLE – E
LIVESTOCK AND POULTRY IN BONGAIGAON DISTRICT AS ON 1997

Sl. No.	Livestock and Poultry	Nos.

Fisheries

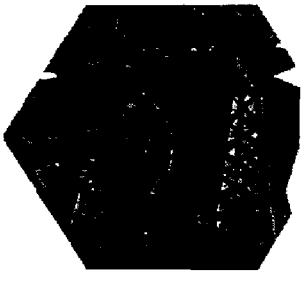

Pisciculture is becoming popular among all sections of the people. It is now-a-days become a source of income for village people. Most of the village people have their ponds where fish of various kinds are produced either for business or for own consumption. No social stigma is attached to this business as such commercial fishing has been taken place in big way.

Fisheries in Assam are of different kinds. These are beel, river, swamp and forest derelict and semi derelict, pond and tank fisheries. Beel and river fisheries may be either registered or Unregistered. Besides, there are good number of private tank, marshy areas, dead rivers and canals where pisciculture is done. The different kinds of fishes are available in beels and rivers of the district. The bigger type of fish generally found in the beels are Rou, Barali, Chital, Kalia jora, Sol etc. Among the smaller varieties Kawai, Magur, Puthi, Shingara, Khalihana, Garoi Chal kana etc. are very common in district.

The development of fisheries in the district was initiated only after independence. The scheme taken by the Government for the development of pisciculture are (I) seed collection and distribution (II) survey of fisheries and reclamation (III) renovation of ancient tanks (IV) fish farming (V) financial assistance and loan for promotion of fisheries (V) distribution of feeding for fishes etc.

In Bongaigaon district, according to the Statistical Handbook Assam.2000, the number of registered beel is only 6 (six) but there is no registered river fishery in the district. The production of fish seed and fish were targetted 15.00 million no.s and 51.00 metric tonnes in 1998-99 at the district but the achievement in respect of both were 1.90 million no.s and 58.08metric tones respectively.

Industries

Bongaigaon is not very much industrially developed district. She is lagging behind in the arena of industries than other plains districts of Assam. The district have made headway in respect of industries. The establishment of heavy industry "Bongaigaon Refinery Cum Petro Chemical Complex at Dhaligaon about 10 kms away from Bongaigaon town and " Ashok paper Mill" Jogighopa are the example of the development of the industries in the district. The Aluminum Utensil Factory is also set up at Bongaigaon. The Government of Assam has established an Industrial Estate at Bongaigaon which has given a phillip for the industrial growth in the district.

In the district, there are some registered factories relating to manufacture of food products. Cotton, Textiles, Wood and Wood products including. Furniture and textures etc. are available in the district. The district is rich in cottage industries like pottery, black smithy, gold and silver smithy, cane and bamboo works, sericulture and wearing etc. But due to various reasons these industries are not developed in the line of modern style and technique. How ever, the Industries Department, and Industries Development Corporation have constantly looking after these industries by providing assistance and help.

TABLE - F
DISTRIBUTION OF REGISTERED FACTORIES IN BONGAIGAON DISTRICT 1998

SL.No.	Name of Industry	No
1	2	3
1	Manufacture of food Product	5

Trade and Commerce

Before Independence, good overland communication system was not developed and the scope for external trade was very much limited in the Bongaigaon district, But after lapse of time, the situation has slowly improved. There has been expansion of road and rail communication considerably.

A big volume of retail business is at present carried out in the district. The internal and external business of the district is also done through road and railway. The important items of import of the district are pulses. onion, potato, garments and clothes, hardware's, consumer goods, electric equipments, wheat, edible oil, rice, medicine, machinery etc. agricultural products such as Jute, Mustard, Ginger and Vegetables are being exported out side the district. The petroleum and other products of Refinery are being exported to other parts of the state and to the neighboring states. Important trade centers are Bongaigaon town, New Bongaigaon Gogighopa, Abhoyapuri, Bijni, Dhaligaon, etc. The hats and markets are important centers of trade and commerce where a great deal of Business is transacted.

Banking

Bongaigaon district had no banking establishment in the long past. The moneylenders were the main source of getting loans. They played a vital role among the villages. But with the passage of time, the situation of credit source changed in a big way. There is a wide network of banks in the district at present. The progress in the respect banking has been made in the spread of branches of Commercial Banks since nationalisation of banks. At the time of nationalisation, the number of Banks were very limited. Some of the Commercial Banks of the nationalised bank have opened their branches in urban as well as rural areas of the district. There are some branch offices of Commercial scheduled Banks. The state Bank of India has also opened its branches at different places of the district. The functioning of various banks in the district has improved rapidly now-a-day. The Co-operative Societies have also come up in a big way to meet credit requirement in rural areas of the district. However the money lenders play a major role as a source of credit for rural people till to-day.

TABLE -G

Position of Deposits and Credits of Scheduled Commercial Banks and Regional Rural Banks on 1999 December in Bongaigaon District.

Sl. No.	Category of Bank	No of Ofices	Rs in lakhs deposits	Rs in lakhs credit
1	2	3	4	5
1	Scheduled Com. Banks	38	24,072	6,038
2	Scheduled Regiona Rural Banks	11	3,658	795
	Total	**49**	**27,730**	**3,833**

Weaving and Sericulture

Weaving is an important traditional occupation of the rural women folk of the district. In Assamese households the females are born weavers. Their artistic products have a high demand in the market and they are cherished from other parts of the country as well as those from abroad. Products on their traditional loom are low and time consuming. The Government of Assam, through the Department of Handloom and Textiles is taken various measures to develop this traditional occupation. To train the weavers on modernized looms, 3 Weavers Training Centers were established in the district during 1998-99. Besides 2 Weavers Extension Units were set up. There is 5 Handloom Demonstration Circles by which 324 villages are covered. 10,190 part-time and 1,600 whole time weavers were engaged in these circles.

Sericulture is one of the age-old part-time occupations of the rural people during their off agricultural season. Time has changed the situation. The importance of this type of cloth is gaining popularity day by day among the people of the state as well as out side the state. Hence it does not remain as a part-time occupation for the people today.

In Bongaigaon district according to the Statistic Handbook Assam, 2000 as many as 172 villages are declared as Seri cultural villages. The number of families engaged in Eri, Muga and Mulberry are 2217, 23 and 219 respectively at present. The total area under silkworm food plants for Eri, Muga and Mulberry are 54, 54 and 74 hectares. The total Eri cocoons and Mulberry Reeling cocoons yield 11,000 kgs and 6,000 kgs respectively and there were 476 nos of Spinninee Charkha in the district.

Transports and Communication

During pre-independence period the district Bongaigaon was connected with the rest of Assam only by a railway line and the North Trunk Road. As such transport facilities were very limited. It was only after independence that the district witnessed considerable improvement in rail and road transport. The meter-gauge railway line in existence connecting Assam with the rest of the country have been converted to Broad-gauge and extended to Bongaigaon and thereafter to Jogighopa was opened to goods traffic on June 15, 1965 and passenger traffic in January 1966 where in a new era in the rail transport opened in the district as well as to the entire state of Assam.

Regular bus service of Assam State Transport Corporation and privately managed organizations are available to and from all-important places of the district which are well connected with State Headquarters and important towns of Assam. Even night buses are regularly plying from Bongaigaon to important towns of Assam. This has undeniably facilitated the people of the district in getting better transportation and is a clear indication of road development of the district as mentioned in the Statistical Handbook Assam, 2000.

The total road length of Bongaigaon district is 859 Kms. Out of which 94 Kms of road is National Highway, 23 Kms is State High Way and 742 Kms of road fall under various other categories of P.W.D. roads

The total road length of the district is said to be insufficient in the sense that there are only 4.2 Kms of road per 1000 Kms of area. Only 106 Kms of road length is available per one-lakh persons on the average in the district against 148 Kms per one lakh population of the state.

As recorded in Statistical Handbook Assam, 2000, there are 9 trucks, 5 buses, 8 mini buses, 4 taxis, 18 auto rickshaws, 498 two wheelers, 99 cars, 6 jeeps, 6 tractors and 4 others.

Electricity and Power

The power supply is an important amenity which every village and town require. The development of these areas is largely depended on power supply as well as agricultural and industrial development also cannot accelerate without the availability of power. It is so important that every body needs power for their day-to-day lives.

Power supply in Bongaigaon district was not so much developed in the past. The National Power Supply Corporation has first supplied the power in the district. The State Electricity Board took over power supply in the district in the later stage through diesel generating machines.

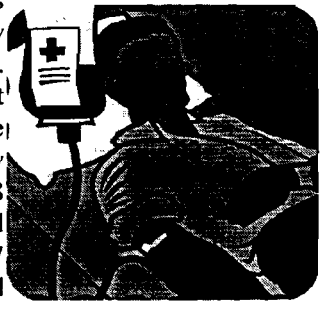

With the introduction of Rural Electrification Scheme, electrification of the villages of the district started in an expanded manner. As mentioned in Statistical Handbook Assam, 2000, the number of total village electrified in Bongaigaon district is 800 in 1999 out of its total 917 villages. Thus the electricity has facilitated 87 percent of total villages.

Health & Family Welfare :

Literary works of the mediaeval period referred to *Kaviraja* and *Ojhas* who attended to the ailments of the people and they were popular even during the early part of the British Rule. But preventive side did not receive much attention at that time.

Fever and bowel complaints used to take heavy tolls of life. Cholera, small-pox and kalazar were other deadly killer diseases. However due to modern scientific medical facilities in recent times, there is lot of improvement in the health conditions of people. At present Dysentery, Diarrhea, Influenza, Tuberculosis, Rheumatism, Typhoid, Bronchitis, Measles etc., are continued to be the most common diseases in the district but loss of life due to these diseases are kept minimum with adoption of a lot of precautionary measures. Number of Hospitals, Dispensaries, etc., available in the district are shown under relevant section.

Family Planning :

No good progress has been noticed in family planning in the district. During 1998-99, about fifty eight women have undergone Tubectomy operation. Further 548 women have adopted Copper 'T' besides 5,097 are using oral pills and

38,597 are using condom in the district.

Vital Statistics :

In the past vital statistics were compiled from the Hat-Chitas maintained by Gaonburas or village headmen. The Hat-Chitas were submitted monthly to the Mauzadars who in turn compiling these data on a monthly statement and submitting to the district Medical Officer.

With the enactment of Assam Panchayat Act, 1959, the collection of vital statistics was entrusted to the Secretary of the Gaon panchayat. He has to submit monthly return to the Block Development Officer who in turn submits a consolidated return to the district Medical Officer and Civil Surgeon at that time. In the urban areas, the vital statistics were received from the Chairman, Municipal Board or Town Committee. In the tea gardens where registration of vital statistics was compulsory prior to the above referred Act, tea garden Managers maintained a register of birth and deaths and bound to submit a report monthly to the District Health Officer. The District Health Officer submitted returns of the whole district to the Director of Health Services of the State. In case of areas of railway stations, the Station Masters were keeping register of births & deaths within their jurisdictions and were reporting to the Chief Medical Officer, North-East Frontier Railway who in turn was submitting the returns to the Director of Health Services. Before implementation of RBD Act, 1969 in the State the registration of births and deaths was not compulsory except in Teas Estates. Only after 1978, the registration of births & deaths became compulsory under the RBD Act, 1969, that came into force by Assam Registration of Births & Deaths Rules, 1978. Again in 1999, the Government of Assam framed Registration of Births & Deaths Rules, 1999 under the revamped system of Civil Registration that initiated by the Central Government which is now in operation. In Bongaigaon district, at present all Primary Health Centres are Registration centres of births & deaths for rural areas and the Municipal Board and Town Committees are registration centre for urban areas. Moreover, some other medical and non-medical institutions are also made as registration centres. The Registrars of birth and death register all the events of births and deaths occurred in their jurisdictions. They compiled all the events and submit monthly reports to the Joint Director of Health Services who is designated as District Registrar of Births & Deaths. The District Register in turn compiled all the events for the entire district and submitted the returns to the Director of Health Services who is the Chief Registrar of Births & Deaths for Assam. The Chief Registrar of Birth & Deaths compiles the figure for State as a whole and sends report to the Registrar General of India periodically.

In Tea Estates the events of births & deaths are collected by the In-Charge of the Tea Estates and these are reported to their respective registration centre. The data on registration of births and deaths available during 1957 to 1971 reveals that the level of registration for both births and deaths was very low in the district.

The collection and Registration of Vital Statistics are not upto the mark in the Bongaigaon district.

Local self Government

The present system of local self Government is a legacy of the British Administration and its origin may be traced to the principle of local taxation embodied in Regulation 13 of 1813. However, some forms of local self Government were in existence like Namghar in pre-British period. It was a village court where trials of crimes and disputes were held in.

The Assam Panchayat Act, 1959 which was operated in 1960, abolished the local Boards and under this Act a three-tire Panchayat Raj system was enforced in Assam. But the Panchayat Act, 1972, which was operated in 1973, changed over to two-tire system of Panchayat and the Intermediary Anchalik Panchaysts have been abolished.

As mentioned in the Statistical Handbook Assam, 2000, there are 93 gaon Panchaysts in rural areas and 3 Mahkuma Parishada in urban areas of the district. The urban centers are classified as Municipal Board, Town Committee and Municipal Corporation. In Bongaigaon district, there is one Municipal Board at Bongaigaon town itself and two town committees one for Abhayapuri town and other for Bijini town. Three is one Chairman and a Vice Chairman in Municipality Board and town committee. The Chairman is the head of administration. He is empowered to implement the schemes approved by the Board or committee. The Board or committee has some sources of income. It levies different taxes on holding, rickshaws, cars, bicycle, stalls, market, etc

Profile of Char areas :

In Assam, there are as many as 2,235 Chars of varying sizes as on 1993-94 in the districts. The

highest numbers of Chars are found in Dhubri district (480) followed by Barpeta district (310) and then Jorhat district (293). The lowest numbers of chars are found in Marigaon district (39). There is no char area in 9 districts of Assam. There are 117 Char Villages in Bongaigaon district. The Chars of Boingaigaon district cover an area of 11,367 hectares of land.

Socio-economic status :

The socio-economic status of the people of the char areas are infact said to be deplorable. The populace are mostly illiterates where only about 13 to 15 percent of the total population of entire char areas are literate. The standard of attainment of education is mostly primary level only a few percent has attained high school level. Nearly 55 percent souls are living below poverty line in all char areas of Assam. Out of total 239,000 hectares char areas of Assam only. 167,300 hectares are cultivable land. There are altogether 266,707 farming families in char areas of Assam. The economic activities of the inhabitants of chars are generally cultivation and fishing. The low-lying char areas are favourable for growing Ahu and Bao rice and also jute. The settlers of char areas are generally grown these kinds of rice and potato in large quantity. They grow various types of vegetable for sale. Whatever the amount of crops they grown are unable to meet their both ends mouth. The house types of the char areas are mostly kutcha structure made of thatch, bamboo, reed and mud. These houses are mostly huts. A very few families have their houses with C.I. sheets in roof. It will be a rare sight of pucca house with brick and cement.

The people of all Char villages are mostly used river water as their drinking water during rainy season. However, a very few villages have their hand-pump tube wells from where they collect their drinking water also. The villages are not connected by any roadway. The country boats are used for their communication during flood season. During winter season, the villagers come to nearest town by travelling on foot or bicycle.

Developmental Programme undertaken :

Some developmental programmes have been undertaken by the State Government for the development of the people of these areas. The save drinking water source, medical sub-centres were provided by the Government in some areas of different district. The school up to the level of lower primary schools, middle schools are also established in some char areas. For higher education, the children have to go to nearby towns. The Assam Government has set up a Char Development Authority at Guwahati for all round development of Char people. In the district level, office of the Project Officers are established to look into projects undertaken for these areas. Various kinds of loans and grant-in-aids are also provided to the villagers by this department.

Never-the-less, the people of Char areas are maintaining a wretch lives from all aspects. Though they are hard workers still then they are unable to overcome their poverty at any cost.

Source : Statistical figures quoted are supplied by the Director Char Areas Development, Assam, Dispur.

Char Area Development in Bongaigaon District :

Out of 2,235 Char villages in 14 districts of Assam, 117 Char villages are in Bongaigaon district. The total population of these 117 Chars is about 1,30,053 who are spread on the total area of 11,367 hectares of land. There are altogether 18,369 farming families in all Chars of the district.

The socio economic condition of Char dwellers as already explained above is very poor in the district in a sense that their earnings are very limited. They have no sufficient cultivable lands and whatever lands that have possessed are not fertile and moreover subject to flood. Generally all lands in Char areas are sandy. Out of total lands in the Char, 70% lands are cultivable. Only a few varieties of crops can be grown on such lands. Fish and other river products though available in rivers each and every household cannot exploit such river potentials because of lack of tools and equipments. However, some are engaged in fishing but not on commercial line but for their own consumption.

The Char dwellers are maintaining a very low standard of living with minimum amenities of civic life in this district as well. In all Char villages of Bongaigaon district, only a few lower primary schools, middle schools and High Schools are in existence. Majority of population of Chars of Bongaigaon district are illiterate. The children of Chars have to go to near by towns for their higher education. Only 11.0% person are literate in above Char villages. There is no communication facility. The inhabitants of the Chars have to travel through small country boats or raft during flood season and on other occasion they move on foots from residence to the nearest place where road communication is available. No Primary

Health Centre is available in the Chars except in a few villages. The people of Chars do not have any facility of post office. Very often, they use river water for drinking and cooking purpose. The drinking water facility in Char villages are mainly confined to hand-pump, tubewell and river water.

Prices and price Indices :

Records on economy of the district mention that in the past, the base necessities were locally produced except salt which was obtained from Bhutias in exchange of rice through barter system. However, many of the items of daily necessities as well as food stuff are brought from outside the district. It is therefore the price situation in Assam is though essentially a manifestation of all India phenomenon of rising prices, but the uprising of the price level here has been more pronounced due to certain factors like rapid growth of population, transport bottlenecks and virtual dependence on outside supply for essential consumer goods.

The figures of price indices of different categories can be seen in the following table.

TABLE - H
CONSUMER PRICE INDEX IN ASSAM
(BASE 1982 = 100)

Year	CPI for working		CPI for Industrial workers		
	Guwahati	Assam	Guwahati	Assam	All India
1	2	3	4	5	6
1997	357	333	357	335	350
1998	405	374	405	380	405
	(13.4)	(12.3)	(13.4)	(13.4)	(15.7)

Note : 1. Figures in brackets show percentage increase during 1997-98.

Source : 1. Labour Bureau, Govt. of India and Directorate of Economics and Statistics, Govt. of Assam.
2. Economic Survey of Assam, 1970 Department of Economics and Statistics, Government of Assam.

As can be seen in the above table the price indices for Guwahati Centre which is the representatives of Bongaigaon district is slightly more compared to Assam as a whole and equivalent with the all India level figures. However, the present increase in case of Industrial workers is less than in all India level.

Cross-sectional comparison of CPI between food and non-food items (wholesale prices) in Assam show that the prices of non-food items are increasing more faster than food items. The situation is almost same between agricultural and non-agricultural commodities which indicate that the farmers and poor people are in a disadvantage position than other classes of population in the district.

General Administration:

Tenancy :

The two acts namely the Assam Temporarily Settled Districts Tenancy Act, 1935 and the Assam Adhiar Protection and Regulation Act 1948, prevailing earlier are now replaced by the Assam (Temporarily Settled Areas) Tenancy Act 1971 which is in force in Bongaigaon district along with all plain districts of Assam.

The broad features of the Act are –

(I) Share coppers are treated as tenants.

(II) Right to occupancy acquire on occupation for 3 years against 12 years prescribed earlier.

(III) The Government is empowered to acquire the right of ownership and the intermediary right of ownership and the intermediary rights in favour of occupancy and non-occupancy tenants. Till the Government do so, a right is given to the tenant cultivating their own land to acquire such right by payment of compensation.

(IV) Illegally ejected tenants are restored possession of the land through circle court.

(V) A limited right to mortgage by non-occupancy tenants to obtain credit from financial institutions is provided. The occupancy tenants are given permanent heritable and transferable right of the land of his holding.

The Assam Urban Area Rent Control Act 1972 was enacted to regulate relation between the landlord and the tenant in so far as the tenancy relates to a house in urban areas i.e. areas covered by municipality and small towns constituted under the Municipal Act, 1956. The Act has two fold objectives.

(1)To give the tenant a security of tenure at a fair rent and

(2) To prevent the landlord from evicting the tenant except on specified grounds. 'Fair rent' mentioned in the Act is the amount not exceeding the figure of "standard rent" which is calculated under the procedure specified in the Act. The civil court will decide any dispute between the land-lord and the tenant in respect of the rent payable by the tenant to the land-lord and ejectment of the tenant by land-lord under certain circumstance.

Revenue Administration:

The revenue administration has historically been the primary responsibility of the District Administration. This involves collection and fixing of land revenue registration, mutation and overall management in regard to land, both private and public. The Revenue Branch of the Deputy Commissioner's office is looked after by the Additional Deputy Commissioner (Revenue). Besides, Revenue Circles in the district supervised by Circle Officers. The Mauzadars under the Circle Officers are responsible for collecting land revenue (Khazana) from land owners (Pattadars). All the Circle Officers are required to submit 'doul' (demand of revenue) to the Deputy Commissioner and after his approval, Mauzadars are to collect revenue as per the demand. In the year 1995-96, the total collection of land revenue in the district was Rs. 1,016,000 against the total demand both current and arrears of Rs. 4,665,000 which comes to about 21.8%.

Development :

The district development is one of the important objectives of the District Administration. The Deputy Commissioner being the head of the district is mainly responsible to look after over all developmental activities in the district undertaken on various schemes such as MP's Local Area Fund (MPLAD), MLA's Fund, United Fund, Sub-Divisional Plan Scheme Fund, Border Area Development Fund and etc. For these activities, the Deputy Commissioner assigns one Additional Deputy Commissioner (Development) the specific task or looking after and coordinating various developmental activities undergoing in various sectors. The Additional Deputy Commissioner (Development)is aided in this matter by the decentralized Planning Cell of the Deputy Commissioner's office. All departments involved in the developmental activities of the district, like PWD, Irrigation, Health, Education and many others work in co-ordination and a District Development Committee (DDC) headed by the Deputy Commissioner has been in place to ensure this co-ordination. Under the Government Policy of rapid upliftment of rural population, a District Rural Development Agency (DRDA) is functioning in the district which has the Deputy Commissioner as the Chairman and one Project Director as its functional head. All schemes for Rural Development are implemented by agencies in co-ordination with 14 Development Blocks situated in outlying rural areas of the district. These Development Blocks are supervised by Block Development Officers and Senior Block Development Officers.

Local Administration :

The elected bodies of Corporation, Municipality and Town Committee are responsible for management and implementation of various developmental programmes of urban areas and Panchayat Bodies for the rural areas. Bongaigaon district has three urban local administration bodies.

As for the rural areas in Bongaingaon district, a hierarchy of local administrative bodies is in place with Zila Parishad at the top (Sub-division level) followed by Anchalik and Gaon Panchayats which cover a total number of 881 inhabited villages in the district.

Autonomous District Council :

In case of districts which have Autonomous District Councils most of the powers and function of Deputy Commissioners are transferred to Autonomous District Council. Such District Council have both Executive and Legislative powers. The Committees are empowered to take decision to establishment of village, town committee and council. District council have also the powers to establish, construct or manage primary school, dispensaries, markets, roads, bridge, etc.

In Bongaigaon district, there is no Autonomous District Council.

Law and Order :

Maintenance of Law and Order is another important aspect of the district administration and the Deputy Commissioner also being the District Magistrate is responsible for proper maintenance of the same. The Deputy Commissioner is aided by the Additional District Magistrate and Sub-divisional Magistrate. The Circle Officers of the Circles also function as Executive Magistrate and are responsible for maintenance of Law and Order in their respective circle areas. The District Magistrate and other magistrate take the necessary assistant from the police department for any necessity. Police administration of the district is headed by the Superintendent of Police. The Police department has an infrastructure of 8(eight) police stations and 6(six) out post with other auxiliary establishment in the district alongwith 2 Government railway police station. In the district there are three river police out post. The incident of crime in the district is not less compare to the other

parts of the State. The number of different cases of the crimes reported are presented in the following table.

TABLE – H

CASES OF CRIME IN BONGAIGAON DISTRICT – 1998.

Cases of crime	No. of cases reported		Percentage to total crimes in State
	Assam	Bongaigaon	
1	2	3	4
1. Murder	1665	49	2.9
2. Rape	744	16	2.2
3. Kidnapping	1471	29	2.0
4. Docaity	928	32	3.4
5. Robbery	1082	23	2.1
6. Burglary	3696	66	1.8
7. Riots	3548	84	2.4

Source : Additional Director General of Police (CID) Government of Assam.

As may be seen in the above table, the incidents of docaity and murder are relatively more compared to the other type of crimes where as very few case of burglary are found reported. However, the rates of conviction are very less in the district as well as in the State as a whole.

Accidents:

In year 1999 about 66 road accidents are reported in the district in which 39persons are killed and 27 are injured. In national highways in the district there were 64 accidents. No accident is reported on state highways and PWD roads in the district respectively.

Social Life

The property is generally owned by the head of the family in Hindu religion. The sons and daughters inherit the father's properties after his death. The joint family system is now seldom seen which was very common in the past. The marriage by negotiation is common affair of all religions. The caste system is not rigid in the present days. Although inter caste marriage is not very frequent. The re-marriage of widow among Hindus is not seen in the district.

In every Assamese household of rural areas have their different types of houses for their different uses. But Bengali and Muslim family have no such type of houses to use. In most of rural folk households, their houses are made of thatch, bamboo and mud. At present who can afford more money has changed to construct his house in modern line using C.I. sheets, brick and cement and iron rod etc.

Male dress for Assamese and Bengali includes dhoti, chadar, shirt, kamij, trousers, and coats. In place of dhoti and pant the Muslim male generally uses lungi. Female dress for Assamese consists of Riha, Mekhela, Chaddar, sari and blouse but Bengali and Muslim females do not use Riha, Mekhela, and Chaddar. They use only Sari and Blouse. The ornaments like necklace, earring, bracelets, Kharu, Chain are common among all females of all religions.

Many colorful festivals observe in the district with much of joy and pleasure. The biggest festivals of the year which are performed in the district, are Rangali Bihu (Bahag Bihu), Magha Bihu, Durga Puja, Sivarati, Doljatra, Dipanita, Independence day etc. Muslims are also observed Id-ul-Zuha, Muharram, Id-ul-Fitre, etc.

The Namghar is the community prayer hall of the Assamese villages. Namkritan performs during religious festivals. Daily prayer is also held in Namghar in morning and evening times. The devotees from all ages particularly aged persons generally take part in such Nam kritan.

Footballs, Cricket, Volleyball are now very popular among the youths of all regions. Indoor games like caroms, cards, cheese, Ludo are played in the towns and villages.

****

CENSUS & NON-CENSUS CONCEPT

CONCEPTS AND DEFINITIONS

(v) CENSUS CONCEPTS:

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete

Semi-permanent houses:

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room:

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room. In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses. If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household. A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office, etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room

available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.Only cases where a structure with roof and pillars has come up was treated as a building.The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban

areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows: a) All places with a municipality, corporation, cantonment board or notified town area committee, etc. b) A place satisfying the following three criteria simultaneously: i) A minimum population of 5,000;ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; andiii)a density of population of at least 400 per sq. km.(1,000 per sq.mile)For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/Urban area :

The following areas are treated as towns/ urban area

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

i) A minimum population of 5,000; ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits ; and iii)A density of population of at least 400 per square kilometre (1,000 per square mile).

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually. A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the

exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste andScheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

Scheduled Castes :

1 Bansphor
2 Bhuinmali,Mail
3 Brittial Bania,Bania
4 Dhupi,Dhobi
5 Dugla,Dholi
6 Hira
7 Jalkeot
8 Jhalo, Malo,Jalo-Malo
9 Kaibartta
10 Lalbagi
11 Mahara
12 Methar,Bhangi
13 Muchi, Rishi
14 Namasudra
15 Patni
16 Sutradhar

Scheduled Tribes :

I. In the autonomous district :

1 Chakma
2 Dimasa,Kachari
3 Garo
4 Hajong
5 Hmar

6 Khasi, Jaintia, Synteng, Pnar, War, Bhoi, Lyngngam

7 Any Kuki Tribes Including:

(i) Biate,Biet
(ii) Changsan
(iii) Chongloi
(iv) Doungel
(v) Gamalhou
(vi) Gangte
(vii) Guite
(viii) Hanneng
(ix) Haokip, Haupit
(x) Haolai
(xi) Hengna
(xii) Hongsungh
(xiii) Hrangkhwal, Rangkhol
(xiv) Jongbe
(xv) Khawchung
(xvi) Khawathlang, Khotalong
(xvii) Khelma
(xviii) Kholhou
(xix) Kipgen
(xx) Kuki
(xxi) Lengthang
(xxii) Lhangum
(xxiii) Lhoujem
(xxiv) Lhouvun
(xxv) Lupheng
(xxvi) Mangiel
(xxvii) Misao
(xxviii) Ring
(xxix) Sairhem
(xxx) Selnam
(xxxi) Singson
(xxxii) Sitlhou
(xxxiii) Sukte
(xxxiv) Thado
(xxxv) Thangngeu
(xxxvi) Uibuh
(xxxvii) Vaiphei

8 Lakher
9 Man(Tai Speaking)
10 Any Mizo(Lushi)Tribes
11 Mikir
12 Any Naga Tribes
13 Pawi
14 Syntheng

II. In the State of Assam excluding the Autonomous District

1 Barmans in Cacher
2 Boro, Borokachari
3 Deori
4 Hojai
5 Kachari, Sonwal
6 Lalung
7 Mech
8 Miri
9 Rabha

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that

to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker' .

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but

not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years

Sex -ratio :

Number of females per 1000 males in a population.

(vi) NON CENSUS CONCEPTS:

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine andMethod of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000

population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid -year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1 Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 Probability of dying between birth and age 2.

q5 Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 100000$$

Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 daysDuring the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another

purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant. (iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types :

(i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration)

(ii) Migration from one state to another State of the country (inter-state migration)

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 100,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated

as Mega cities.

(vii) 2001 Census findings – Population, its distribution

a) The total population of the district comes to 904,835 in 2001 Census. Male comprises 465,240 while female consists of 439,595. Out of the total population of the district, 795,053 fall under rural and 109,782 are under urban areas of the district. In rural areas , 407,706 and 387,347 are males and female respectively. Accordingly 57,534 and 52,248 are males and females respectively in urban of the district. The percentage of urban population in the district Bongaigaon is only 12.1 . The district is a rural base place of which 87.9 percent of population out of each 100 persons live in villages.

b). The decadal growth rate of the district comes to +12.1 which is lower than the state rate. In the district, there are as many as 5 towns of which 2 towns are Census Towns. Bongaigaon town is only town with *Municipal Board and 2 towns are with Town* Committee status. The density of the district is 360 *persons per sq. kms. which is higher than the state* density (340). The sex ratio in the district is 945 as against 935 in the State. Out of total population of the district, 32.4% is total workers of which 48.4% and 15.5 % are male and female respectively. The percentage of non- workers is 67.6 % in the district. The worker are categorised as Cultivators, Agricultural Labourers, Household Industry Workers and Other Workers. The Percentages of these categorised are 38.8 %, 17.7%, 3.0% and 40.4% respectively.

The literacy rate is 59.3% in the district of which 67.7% is for males and 50.4% is for females. The district literacy rate is above the state literacy rate (63.3)%.

The district has no any kind of University in its place. The nearest University from the district is Guwahati University. The district has no any kind of technical college such as Engineering, Medical, Agricultural etc. After getting graduation in the district's colleges students have to go outside the district for higher education.

(viii) Brief Analysis of Primary Census Abstract data :

As in previous Census, a number of total Inset Tables are prepared from data which are incorporated in primary Census Abstract in 2001 ,Census also. Altogether 52 Inset Tables are presented in this volume , from data of three sources namely Primary Census Abstract, Village and Town Directory and House and Household amenities of Houselisting operations. The Inset Tables 1 to 36 are based on Primary Census Abstract, Inset Tables 37 to 47 based on Village and Town Directory and Inset Tables 48 to 52 based on houses and household amenties of 2001 Census. The Inset Tables prepared are analysed properly for easy understand of data users. It is a first step given in 2001 Census, DCHB by all states and union teritories.

Inset Tables Based on Primary Census Abstract :-

TABLE 1

DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001

INSET TABLES

As per Census of India, 2001 the total population of Bongaigaon district is 904,835 with 109,782 (12.1%) in urban and 795,053(81.9%) population in rural areas. Bijni Revenue Circle is the biggest with 316,813 population and Boitamari with 98,731 population is at the bottom. Decadal variation 1991 – 2001 of population of the District is +12.1 which is slightly lower than the State rate 18.9. During the decade, the urban growth rate of 12.1% in the District is not encouraging. From Boitamari Revenue Circle, Jogighopa Paper Mill CT of 1991 Census has been declassified in 2001.

TABLE 2

NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District / CD Block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females

The villages under each C-D Blocks are divided according to population ranges. The highest number of villages (285) where people ranging from 500-999 reside in each village. There after higher the population ranges less is the number of village. There is no village in all CD Blocks with 10 thousand population.

TABLE 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of town
	1
(a) New	
(i) Statutory town	Nil
1	
2	
3	
(ii) Census town	BRPL Town Ship
1	
2	
3	
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	
1	Nil
2	
3	
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	
1	Nil
2	
3	
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	
1	Nil
2	
3	
(c) Declassified	Jogighopa Paper Mill
1	
2	
3	
(d) Wholly merged with other town(s)	Nil
1	
2	
3	

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria

In the district no new statutory town has existed during 1991-01. No change has taken place other categories except in declassified. Joghighopa Paper Mill has been declassified in 2001 Census.

TABLE - 4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	10	1.1	1,129	0.1
11-20	3	0.3	284	0.0
21-50	15	1.7	1,802	0.2
51-100	27	3.1	5,862	0.7
101-200	102	11.6	33,114	4.2
201-300	119	13.5	58,370	7.3
301-500	212	24.1	160,956	20.2
501 +	393	44.6	533,536	67.1
Not known	0	0.0	0	0.0
District Total:	**881**	**100.0**	**795,053**	**100.0**
Population Density (Rural) of the district:				**452.7**

The more density of population (501+) per sqr. Kms is seen in 393 villages with 67% of total population of the District. There are 10 villages with 1,129 total persons where density is only 0-10 persons with only1129 persons. The second's highest density (301-500) goes to 212 villages with 20.2% of the total population.

TABLE- 5
SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	Assam			Bongaigaon		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	919	929	577	904	904	-
1911	915	923	627	886	886	-
1921	896	906	614	875	875	-
1931	874	886	575	877	877	-
1941	875	887	606	880	880	-
1951	868	879	664	869	869	-
1961	869	888	662	899	910	665
1971	896	913	745	926	941	772
1981	--	--	--	--	--	--
1991	923	934	838	940	949	860
2001	935	944	872	945	950	908

Note : Sex ratio has been defined here as the number of females per 1000 males.

The state sex ratio was 919 in 1901 as against 904 in Bongaigoan district. It was 929 in the state in rural whereas it was 904 in the district. There was no urban area in the district. In 1901 the sex ratio up to 1961 were below the sex ratio of 1901 in the state as well as in district. In 1971 it had gone up to 926 in the district and gradually it increases up to 945 in 2001. The sex ratio as a whole is high in the district in 2001 than the state. The urban sex ratio has come up during 1951-61 in the district and it is 908 in 2001.

TABLE - 6
SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Bongaigaon	928	961	897
2	Boitamari	944	944	-
3	Srijangram	939	940	936
4	Bijni	954	956	918
5	Sidli (Part-II)	953	952	954
	District Total:	**945**	**950**	**908**

The District Bongaigoan has the sex ratio of 945 in average where as 950 and 908 reflect in rural and urban areas. Out of 5 tahsils, the sex ratios of two tahsils have crossed the district sex ratio.But in case of rural, it crosses the district rural sex ratio by three tahsils.Similar is the case in urban also but not in the same three tahsil

TABLE 7
SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D Block	Sex ratio
1	2	3
1	Sidli-Chirang Pt.	944
2	Dangtola	966
3	Borobazar	959
4	Baitamari	944
5	Srijangram	942
6	Tapatari	935
7	Manikpur	952
	District (Rural) Total:	**950**

The CD Blocks wise sex ratio is presented in the table. Here it is seen that Danglota, Boro Bazar and Manikpur CD Blocks have crossed the District sex ratio. However, the sex ratio for remaining 3 CD Blocks are not much lower than district sex ratio.

TABLE 8
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	8	0.9	5,238	0.7
700-749	4	0.5	1,357	0.2
750-799	16	1.8	5,375	0.7
800-849	39	4.4	24,105	3.0
850-899	118	13.4	110,984	14.0
900-949	230	26.1	239,739	30.2
950-999	211	24.0	234,290	29.5
1000-1099	197	22.4	152,894	19.2
1100+	58	6.6	21,071	2.7
District Total:	**881**	**100.0**	**795,053**	**100.0**
Sex ratio (Rural) for District:			**950**	

The sex ratio of 1100+ females over males is found in 58 or 6.6% villages with 21,071 or 2.7% population of the total district rural population. Less the sex ratio, less is the number villages and population. The highest number 230 villages have sex ratio of 900-949 having highest population in these villages. As whole 255 villages have sex ratio of 1000+.

TABLE 9
SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA / Town	Urban status of town	Sex ratio
1	2	3	4
1	Bongaigaon UA	UA	897
2	(a) Bongaigaon (MB)	MB	910
3	(b) New Bongaigaon Rly. Colony (CT)	CT	849
4	Abhayapuri (TC)	TC	936
5	Bijni (TC)	TC	918
6	Bongaigaon Refinery & Petro-Chemical Ltd Township (CT)	CT	954
Sex ratio (Urban) for the district:			**908**

Note: UA = Urban Agglomeration CT = Census Town , TC = Town Comitee , MB = Municipal Board.

The district urban population sex ratio is calculated 908. All towns of the district except two towns have sex ratio more than the district. But the highest is in Bongaigoan Refinery and Petrol-Chemical Ltd township which is a Census Town.

TABLE 10
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serial No.	Name of Tahsil	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females

850-899	106	12.0	19,840	13.1
900-949	102	11.6	23,237	15.4
950-999	84	9.5	23,086	15.3
1000-1099	176	20.0	36,116	23.9
1100+	224	25.4	27,934	18.5
District (Rural)Total	**881**	**100.0**	**151,044**	**100.0**

In the rural areas of the district, the sex ratio for children of age group 0-6 is 975 which is found higher than that seen in two CD Blocks namely Srijangram (965) and Manikpur (962). The highest sex ratio (999) is indicated in Baitamari CD Block.

The sex ratio for 0-6 age group children in 390 villages is 1000+ which cover 64,050 or 42.4% population of the district. 66 villages have the sex ratio in the range of less than 700.106 villages fall under the sex ratio of 850-899.

TABLE-13
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial No.	Name of UA / Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Bongaigaon UA	UA	8,559	4,422	4,137	936
2	(a) Bongaigaon (MB)	MB	6,976	3,562	3,414	958
3	(b) New Bongaigaon Rly.Colony (CT)	CT	1,583	860	723	841
4	Abhayapuri (TC)	TC	1,560	810	750	926
5	Bijni (TC)	TC	1,364	693	671	968
6	Bongaigaon Refinery & Petro-Chemical Ltd Township (CT)	CT	874	451	423	938
District(Urban) Total			**12,357**	**6,376**	**5,981**	**938**

Note: CT = Census Town , TC = Town Comitee , MB = Municipal Board

In urban areas of the district, sex ratio for 0-6 age group is 938.The same is higher in Bongaigoan MB and Bijni TC than the district urban sex ratio. It is lower than the district ratio in three urban localities. It is equal in Bongaigoan Refinery and Petrol-Chemical Ltd. town.

TABLE 14
NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

		Rural	118,836	5,987	26,939	5	22.7
		Urban	6,613	275	861	4.2	13
	District Total:	**Total**	**904,835**	**92,770**	**110,696**	**10.3**	**12.2**
		Rural	**795,053**	**79,625**	**106,618**	**10.0**	**13.4**
		Urban	**109,782**	**13,145**	**4,078**	**12.0**	**3.7**

In the district there are 10.3% and 12.2% Scheduled Castes and Scheduled Tribes population of which 10.0% and 13.4% live in rural areas respectively. Similarly 12.0% and 3.7% population of these two categories live in urban areas of the districts. Bongaigoan tahsil has 13.2% Scheduled Castes population which is higher than all other tahsils. Likewise, Sidli (Part-II) has the credit of having more Scheduled Tribes population in term of percentage. But Bijni tahsil has more (69,882) Scheduled Tribes people. In the other hand Bijni tahsil has the proud privilege of having more Scheduled Castes people than other tahsils.

TABLE 15
NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN CD BLOCKS, 2001

Serial number	Name of CD block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Sidli-Chirang Pt.	68,105	2,087	21,480	3.1	31.5
2	Dangtola	99,558	6,740	9,087	6.8	9.1
3	Borobazar	144,354	15,361	62,640	10.6	43.4
4	Baitamari	111,739	16,998	2,782	15.2	2.5

11-20	38	4.3	6,474	6.1
21-30	28	3.2	6,999	6.6
31-40	22	2.5	5,837	5.5
41-50	29	3.3	12,342	11.6
51-75	48	5.4	17,393	16.3
76 and above	112	12.7	53,893	50.5
District Total	**881**	**100.0**	**106,618**	**100.0**

In 499 or (56.6%) villages, there is no Scheduled Tribes population. In 112 villages, there are 76+ percentage of Scheduled Tribes population in each villages. Like Scheduled Castes, the concentration of Scheduled Tribe population in each village of the district is very limited. Only in 189 villages there are more than 40% of Scheduled Tribes population.

TABLE 18
NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA / Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Bongaigaon UA	75,928	9,034	2,229	11.9	2.9
2	(a) Bongaigaon (MB)	60,327	7,288	1,272	12.1	2.1
3	(b) New Bongaigaon Rly. Colony (CT)	15,601	1,746	957	11.2	6.1
4	Abhayapuri (TC)	14,673	2,411	158	16.4	1.1
5	Bijni (TC)	12,568	1,425	830	11.3	6.6
6	Bongaigaon Refinery & Petro-Chemical Ltd Township (CT)	6,613	275	861	4.2	13
District (Urban) Total		**109,782**	**13,145**	**4,078**	**12**	**3.7**

In urban areas of the district, concentration of Scheduled Castes population is more than Scheduled Tribes. The highest number of Scheduled Castes and Schedule Tribes are lived in the same town i.e. Bongaigoan. But in terms of the highest percentage it goes Abhayapuri TC for Scheduled Caste and Bijni TC for Scheduled Tribes. As a whole concentration of Scheduled Castes population is more in urban than Scheduled Tribes population.

TABLE 19
SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C D BLOCKS, 2001

Serial number	Name of C D Block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Sidli-Chirang Pt.	954	1002
2	Dangtola	962	994
3	Borobazar	916	1002
4	Baitamari	950	990
5	Srijangram	897	1109
6	Tapatari	912	1085
7	Manikpur	907	1027
District (Rural) Total		**923**	**1005**

In CD Blocks, the sex ratio is found high in three blocks than that of district sex ratio for Scheduled Castes. The highest sex ratio is found in Dangtola than all other CD Blocks for Scheduled Castes. The district sex ratio for Scheduled Tribes is 1005 and in CD Block level, the females are found more than males in 5 CD Blocks. It thus indicates that females from Scheduled Tribe are out numbered the males in the District.

TABLE 20
SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA / Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Bongaigaon UA	940	875
2	(a) Bongaigaon (MB)	958	913
3	(b) New Bongaigaon Rly. Colony (CT)	871	826
4	Abhayapuri (TC)	920	775
5	Bijni (TC)	910	840
6	Bongaigaon Refinery & Petro-Chemical Ltd Township (CT)	923	993
Sex ratio (Urban) for the district:		**933**	**887**

Note: CT = Census Town , TC = Town Comitee , MB = Municipal Board, UA = Urban Aglomeration

In the case of urban, sex ratio for Scheduled Castes is higher than rural areas of the district. It is higher in Bongaigoan town than the District and lower in all other towns.

In respect of Scheduled Tribes population, the sex ratio is much lower in urban than rural areas. It is high in Bongaigoan Refinery CT than all other towns. It is must lower (775) in Bijni TC than the District urban sex ratio.

TABLE 21
NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN TAHSILS, 2001

		Urban	**83,649**	**46,698**	**36,951**	**26,133**	**10,836**	**15,297**	**85.9**	**91.3**	**79.9**	**11.4**

The above table indicates literates and illiterates persons by sex including percentage and gap between two sexes in tahsil. The total literates of the district is 439,861 and 464,974 are illiterates. The percentage

of literates is 67.7% for males and 50.4% for female with a gap of 17.2%. The gap between the two is less in urban areas. The literacy is found higher in Bongaigoan tahsil than all other tahsils and the lowest in Bijni (54.3%). It is seen that Siddli part-II has the highest percentage of literate in urban (96.8%). In term of gap between the two sexes, Baitamari tahsil has a better position than that of other tahsils.

TABLE 22
NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C D BLOCKS, 2001

Serial number	Name of CD Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12

The total workers in the district are 293,243 or 32.4% of which 233,087 or 25.8% and 60,156 or 6.6% are Main and Marginal workers respectively. The percentage of total worker is high in Sidli Part II (36.2%) followed by 33.5% at Bijni. The percentage of Marginal workers in all tahsils are more or less same having a few differences in decimal point. The female Marginal worker's percentage in all tahsil except Baitamari tahsil is higher than males. The non-worker percentage in the district is 67.6%.In two tahsils the percewntage of non workers is less than that of of the district and in all other tahsils its percentages are high than the district.

Workers are divided into cultivators, Agricultural Labourers, Household Industry worker and Other workers. The percentage of cultivators is more than other categories of workers in the district. The cultivators are found more in percentage in Bijni (46.3%) whereas it is the lowest in Bongaigoan tahsil and same is a case in respect of Agriculture labourers. The percentage of Household Industry workers is less in all tahsils in comparison to other categories of workers. The Other workers are found high in Bongaigoan tahsil whereas it is found low in Bijni tahsil.

Note: Percent of Worker to total worker are given in brackets

Table above shows CD Block wise distribution of workers in 4 categories. In the table it is seen that the percentage of Other workers are higher than cultivators. It is such in case of Sidli Chirang Pt., Dangtola, Baitamari and Manikpur CD Blocks and in other 3 CD Blocks, the same is higher in respect of cultivators. It is also seen that the percentage of Agricultural Labourers are high in females in all CD Blocks except Manikpur CD Block.The percentages of Household Industry workers in all CD Blocks are very low than all other categories of workers.

TABLE 36

DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS / TOWNS , 2001

				(8.0)	**(0.3)**	**(0.5)**	**(4.1)**	**(95.2)**

It is obvious that Cultivators and Agriculture Labours are always found low in urban areas and hence same is the case in urban areas of Bongaigoan district. The percentage of Other workers in all towns is exceptionally high ranging 95.0% to 99.0%. In Bongaigoan Refinery town, the female Other workers percentage is 99.7%. However, the percentage of Household Industry workers in all urban areas is very low.

Inset Table based on Village Directory and Town Directory Data : -

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Out of inhabited total 881 villages maximum number, 805,781 and 607 villages have the facility of education, improved drinking water and power supply respectively in the district. The other facilities are availed by less number of villages in the district as well as in all CD Blocks. Among all facilities, the facility of telephone, Bank and Agricultural credit societies are very limited in all CD Blocks.

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.
* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

The villages having 1-499 population in each has the educational facility for 80.5% villages only. Similarly the out of 285villages having 500-999 population, 272 or 95.4% villages have received education facility. Similarly it is shown in the table for other population ranges and other amenities also.

TABLE 42
DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C D Block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Sidli-Chirang Pt.	76	16,056.0	72.5	35.7
2	Dangtola	112	33,556.0	31.4	41.1
3	Borobazar	206	38,651.0	59.7	11.7
4	Baitamari	140	26,450.5	56.9	0.8
5	Srijangram	124	20,944.0	80.2	1.5
6	Tapatari	85	12,254.0	66.7	0.9
7	Manikpur	138	27,709.0	64.2	4.4
	District Total:	**881**	**175,620.5**	**58.7**	**12**

Note : - Cultivable area = irrigated area + unirrigated area
Areas: Not included River, Hill, Beel, Road, and Railway etc.

Out of total areas of the district, 58.7% is cultivable of which 12% is irrigated in the district. In terms of area, Borobazar CD Block is the biggest among all CD Blocks. The highest percentage of land is cultivable in Srijangram CD Block and the lowest is (31.4%) at Dangtola CD Block. In Baitamari CD Block, the irrigated land is very low.

TABLE 43
PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	IV Abhayapuri (TC)	16.5	0.8	15.7	13.5	1.4	0.3	0.0	0.0	11.8
2	IV Bijni (TC)	16	1.4	14.7	16.0	9.6	0.1	4.3	0.1	1.9
3	II Bongaigaon (MB)	7.7	0.9	6.8	5.5	3.6	0.1	0.5	0.0	1.3
	District Total	**10.4**	**1**	**9.4**	**8.4**	**4.1**	**0.1**	**1**	**0**	**3.2**

TC = Town Comitee , MB = Municipal Board

The total per capita receipt for the district is Rs. 10.4. It is the highest in Abhayapuri TC with Rs. 16.5. The receipt through taxes is only Re.1 in the District but receipt from all other sources is higher which is Rs.9.4%. It is seen high in Abhayapuri TC as Rs.15.7. In expenditure side, it is Rs.8.4 for the District. It is high in Bijni TC.

TABLE: 44
SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Abhayapuri (TC)	4.8	2	2	0.7	0.7
2	Bijni (TC)	5.6	6.4	4.8	0	0.8
3	Bongaigaon (MB)	1.7	1.2	0.8	0.3	0.3
District Total		**2.7**	**2.1**	**1.6**	**0.3**	**0.5**

TC = Town Comitee , MB = Municipal Board

Per 10,000 population there is 2.7 number primary, 2.1 number Junior Secondary ,1.6 middle Schools, 1.6 Secondary/Matriculation Schools, 0.3 number Senior Secondary and 0.5 number colleges in the district . From primary to Secondary/ Matriculation, Bijni TC have more educational institutions per 10,000 population

TABLE: 45
NUMBER OF BEDS IN MEDICAL

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Abhayapuri(TC)	61
2	B.R.P.L. Township(CT)	45
3	Bijni(TC)	26
4	Bongaigaon(MB)	30
5	New Bongaigaon Rly. Col.(CT)	38
Distrct Total		**36**

TC = Town Comitee , MB = Municipal Board, CT = Census Town

In the district 36 beds are available per 10,000 population. In Abhayapuri TC however, it is the highest (61 beds) than the District. The lowest is 26 beds in Bijni TC.

TABLE 46
PROPORTION OF SLUM POPULATION IN

Sl No.	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Abhayapuri TC	14,673	0	0
2	Bijni TC	12,568	0	0
3	Bongaigaon MB	60,327	1,200	2
District Total		**87,568**	**1,200**	**1.4**

TC = Town Comitee , MB = Municipal Board

In the district only one town has slum area where 1,200 people live in. The percentage of slum people to the total population is 2% only.

TABLE 47
MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial No.	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Abhayapuri (TC)	Pottery	Jute
		Bamboo Products	Nil
		Steel	Nil
2	B.R.P.L.	Nil	Nil
	Township (CT)	Nil	Nil
		Nil	Nil
3	Bijni (TC)	Supari	Betel-Nut
		Bidi	*Jute*
		Furniture	Vegetables
4	Bongaigaon (MB)	Aluminium Product	Tea
		Steel	Jute
		Plastics	Mustard Oil
5	New Bongaigaon	Nil	Nil
	Rly. Col. (CT)	Nil	Nil
		Nil	Nil

CT = Census Town , TC = Town Comitee , MB = Municipal Board

Only some commodities are manufactured in three towns. Similarly, from same 3 towns some commodities are exported out.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note:-

Permanent:-1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e.,burnt bricks, GI. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shinglewhere, corrugated iron, zinc or other metal heets asbestos sheets, bricks, lime and stone and RBC / RCC concreate are used for roof.

Semi permanent:-2 Semi-permanent houses refer to those houses made of other types of materials.

Temporary:-3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds,bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

In Bongaigaon district, out of total houses, 22,929 and 22,030 are for SC and ST.The house owned by SC and ST which have no. exclusive room for 224 SC households and 231 for ST households. The one room house owned by SC households is more followed by two rooms owned houses. The number of households houses with 3 and 4+ room houses are less in comparison to households having one and two rooms houses.But for ST households it is more for two rooms owned houses followed by one room owned houses. The same situation is seen in rural areas also for SC and ST households. The rented and other occupied houses both for SC and ST households are less in comparison to owned house. In urban areas, more houses are seen for SC and these are mostly owned houses with one and two rooms houses. For ST households in urban areas having 2 room houses are more for owned and other houses.

TABLE 49

PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

In the district, Srijangram Revenue Circle has occupied the heighest percentage of households which have enjoyed the benifit of having improved drinking water and in this respect Bijni Revenue Circle possesses the second position. The facility of electricity is availled by the highest percentage of households from Bijni Revenue Circle (94.9%) followed by Bongaigaon Revenue Circle. The first position goes to Srijangram Revenue Circle in which the Heighest percentage of households enjoy the facility of bathroom. The facility of toilet is availed by highest percentage of households in Srijangram Revenue Circle and drainage facility by Bongaigaon Revenue Circle. Generally existence of all facilities in the households is high in urban areas of all Revenue Circles excepts low for improved drinking water in Srijangram Revenue Circle and drainage facility in Bijni.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

The table indicates number and percentage of households in the district as well as in Revenue Circles by type of fuel used for cooking , 2001. It is seen in the table that fire wood is the main source of cooking for the heighest number of households in the district followed by crop residue and then by gas. The use other type of cooking fuels are very limited. In urban areas however, the use of gas is more than fire wood. In Revenue Circles also, the same picture is noticed. In Bijni Revenue Circle , 92.0% households have used fire wood for cookingfollowed by Boitamari Revenue Circle (83.9%).In Sidli Revenue Circle, 98.8%households of urban areas used gas (LPG) for cooking. In the district 692 households have no arrangement of cooking in their residence.

TABLE 52

NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

The table indicates the number of households who have availed banking services along with the households having some specified assets as shown in the table. Out of total households of the district a total of 35,086 households have availed banking services. The banking services availed in urban areas of the district by the house holds is only 15,674 which is less than that of rural areas. In Revenue Circle (tahsil) level, the number of households who have availed banking services is more in Bongaigaon Revenue Circle followed byBijni Revenue Circle. This services for rural areas is more in all Revenue Circles than urban areas of the district except Bongaigaon Revenue Circle.

Availability of Telephone, Television and Scooter etc are more for the households of Bongaigaon Revenue Circle whereas radio/transistors and bicycle are availed by more households in Bijni Revenue Circle. Likewise car, jeep, van,are more for the households of Sidli (PT-II) Revenue Circle. All assets are more in the households of urban areas of Bongaigaon Revenue Circle,but all assets are more in the households of rural areas of Bijni Revenue Circle.

ix.Major social and cultural events, natural and administrative developments and significant activities during the decade

Assam has a large number of festivals replete with mirth and music so also such festivals are observed in Bongaigaon district also. Different race and communities who inhabit in the district have their distinctive fairs, festivals and folk dance.

Bihu is a social and cultural festival of Assam. The Assamese observe three Bihu festivals during the year. It is observed in all over Bongaigaon district. The Rangali Bihu or Bohag is a spring festival of dance and music. It is celebrated at a time when nature comes out a fresh, Beauty and green colour. Bihu dances are a superb expression of a vigorous art. Bihu festivities and dances are the expression of genuine holy joy. Bihu relates with agriculture also. Torrential rains caused by monsoon bring the earth to a State of fertility. In this season, the earth is ready to receive seeds sown for cultivation. The Bihu dances are therefore, a kind of fertility ritual having as their main import amorous and emotional instincts of the heart. The dances express mostly the exuberance of youth. The dances exhibit the preponderance of romance and sex. The Bhogali and Kati Bihu are also observed in the district but not as like as Rangali Bihu. This popular social event performs in Bongaigaon district in much pomp and joyfully.

Among the Bodos, Kherai, Hebajanai, Bugrumba, Maigainai, Natpuja are observed. Kherai and Bagrumba have become popular with non-tribals of the district. It is celebrated very joyously in district from few years back. Habajanai, Natpuja, Bugrumba and Maiganai of the Bodo-Kacharis are picturesque folk dances performed to the accompaniment of local musical instruments called 'Mandal' 'Chifung' etc. All these social and cultural events has geared to the extent possible develop by giving more and more attractive performances in the recent years.

No remarkable natural and administrative developments have made in the district during the decade.

x. Brief description of Places of religious, historical and archaeological importance and places of tourist interest in the district.

The district Bongaigaon is not very important from the point of religious, historical and archaeological importance. However, in the district, some religious temples of ancient days and of recent origin are found in some places. Near North Salmara, there are the remains of extensive earthworks, about one and half Kms in circumference which are known as Ram Raja's garh. At Jogighopa there are small caves in the rocky cliffs ever hanging the Brahmaputra which are said to have been sanctified by the various ascetics who from time to time lived there. There is a temple at Jogighopa where in images of Lord Siva and Siva-Parvati carved together on stone. The images of various Gods and Goddesses have been found in different places of the district, the antiquity of which are to be ascertained.

The district has no much places with special features, which can attract tourist into the district. The second Oil Refinery-Cum-Petro-Chemical Complex, at Dhaligaon near Bongaigaon town can attract tourist in a limited scale. Moreover, the Aluminum Utensil factory is also drawn the eye of the tourists to some extent. Jogighopa, a place of historic and religious importance and Jogighopa bridge at the Brahmaputra is now become a choice of place of tourists of different places.

xi. Major characteristics of the district, contribution of the district in the form of any historical figures associated with the district.

Importance of the district Bongaigaon in the life of the State of Assam needs no emphasis. The district of Bongaigaon has certain unique features which distinguish it from the other parts of the State of Assam. It has a very important historical past. The district can boast of certain fine as well as old architectural species of Ahom fort, Eurocan colony and relics of Dudhnath temple.

Jogighopa of Bongaigaon situated at a distance of 35 kms from the Headquaters is an impotant historical place. The history associated with Jogighopa is that it was the site of an Ahom fort and Euroean colony. The religious importance of Jogighopa ,where caves were sanctified by different asceties, is enhanced by the Duhnath tepple with its rock cut images of Siva and Parbati.

Self sufficiency has been the key note of Assam's economy in early mediaeval time and various cottage industries formed, therefore, an inalienable part of the culture. To a large number of people, the cottage industries had been as it were, a way of life rather than mere source of living. Jean Baptist Tavernier, Baron of Auborne who came to India from France in the fourties of the seventeenth century describes

Assam – "the kingdom of Assam is one of the best centres in Asia, it produces all that is necessary to the life of men and there is no need to go for anything to the neighbouring States. There are mines of gold, silver, steel, bad and iron and much silk but is coarse". The industries were highly developed in the Ahom period. There are references to weavers, spinners, goldsmith, potters, ivory works, bamboo, wood, hides and cane in several accounts. The art of Sericulture and the rearing of co-coons for the manufacture of various silk cloth were known to the Assamese from long past. Bongaigaon district being a part of Assam has proud privilege of having same glorious past for its college industries. Still recent days, some of age old industries are in existence in the district. But are suffering from various factors.

In the recent years quite a good number of cottage industries, small scale industries, medium scale industries and large scale industries have grown up both in public and private sectors in the different parts of the district.

The state's second public sector Refinery and Petro-Chemical Complex, Dhaligaon of Bongaigaon district was established in 1962. It produces naphtha aviation turbine fuel, kerosene, diesel fuel oil etc. It has given further fillip of district's industrial growth. The Ashok Paper Mill located in the district is one of the State's major industries. The Nara Narayan Setu over the Brahmaputra connects Jogighopa with south bank of Pancharatna, Goalpara district. Bongaigaon town is one of the biggest railway junctions besides being an important trade centre of the State. It is an important river port and a vital trade centre.

(xii) Scope of Village Directory and Town Directory - Column heading wise explaination and coverage of data.

The scope of Village Directory and Town Directory has already discussed in detail in earlier chapter of this volume.

Village Directory:

The Village Directory is depicted in the form of a statement containing 25 columns under various heads. The Village Directory provides for each C.D. block with the villages according to location code. In col.No. 1.serial number is given. The name of village and location code come in col.No.2 and area in col.No.3. The col.No.4 and 5 represent total population of 2001 Census and households respectively. The column 6 to 25 relate to the following amenities and facilities.

AMENITIES AND FACILITIES	COLUMN
1 Education	6
2. Medical	7
3. Drinking water	8
4. Post, Telegraph and Telephone	9
5. Commercial and Co-operative Banks	10
6. Agricultural, Non agricultural and other Credit Societies	11
7. Recreational & Cultural facilities	12
8. Communications	13
9. Approach road to village	14
10. Nearest Town (in km.)	15
11. Power Supply	16
12. News Paper/Magazine	17
13. Commodities manufactured	18
14. Land-use pattern of village	19-23
15. Name and Serial number of village	24-25

Particulars of amenities and facilities available in the villages are shown by way of some abbreviation, which are explained in the beginning of the Village Directory. Amenity, which is not available in any village, the distance in term of the nearest place where it is available, is shown in ranges i.e. <5 kms., 5-10 kms. and 10+ kms. The non-census data presented in the Village Directory have been collected from various Departments of the State Government, Corporation, Boards etc. The 2001 Census Village Directory is almost in the pattern of 1991 Census Village Directory However, in 2001 Census, some new items have incorporated and a few are deleted which were in 1991 Census. For example, the information on market / hat are deleted. Never-the-less, the innovation and introduction of new items of information in the Village Directory, 2001 will be more useful and meaningful.

Town Directory:

The Town Directory is decorated with seven statements presenting useful data on socio-economic and administrative sides of each town of each district. These statements deal with (i) Status and growth history, (ii) Physical aspects and location of town, 1999, (iii) Municipal finance 1998-99, (iv) Civic and other amenities, 1999, (v) Medical, Educational and Cultural facilities, 1999, (vi) Trade and Commerce,

industry and banking, 1999 and (vii) Civic and other amenities in slum, 1999.

Statement I- Status and Growth history: -

This Statement deals with 22 columns which represent information serially from Serial Number, Class, Name and Civic Administration, Status of town and so on. Statement 1 is presented in the Town Directory in the same pattern that used in 1991.

Statement II- Physical Aspects and Location of town, 1999.

The statement is formed with 13 columns. Various information such as rainfall, temperature (maximum and minimum), State Headquarters, nearest city with population one lakh and also five lakhs, railway station, bus facility , navigable road etc.are presented in the columns. This statement is also similar to that of 1991 directory except the columns of nearest city introduced newly in 2001 Census.

Statement III- Municipal Finance 1998-99

The statement deals with 17 columns and presents various data on Municipal finance of all statutory towns of each district. In the statement columns are divided into two parts such as receipt and expenditure.

Statement IV- Civic and other Amenities, 1999.

The statement contains 21 columns and information on civic and other amenities are shown accordingly. However, Scheduled Castes and Scheduled Tribes population are also indicated in respective columns. Information on types of latrine used, methods of disposal of night soil, water supply, storage system, fire fighting service, electrification etc. are presented in its respective columns.

Statement V- Medical, Educational, recreational and cultural facilities, 1999.

The statement deals with 20 columns and presented data on medical, educational, recreational and cultural facilities in each town in the respective columns. It is on the same pattern that used in 1991 Census.

Statement VI- Trade, Commerce, Industry and Banking,1999.

The statement consists of 11 columns and gives information for each town on trade, commerce, industry and Banking,1999. Columns 1 and 2 show serial number and class and name of town. Columns 3 to 5 show the names of three most important commodities exported out from the town in order of preference. Columns 6 to 8 show the names of three most important commodities manufactured in the towns in order of their importance. The other columns represent the facilities of banks.

Statement VII- Civic and Other Amenities in Slums,1999.

This statement contains 17 columns and gives information on Civic and other Amenities in Slums. Columns represent name of Slum, status of slum area, number of households, population, paved road (in kms), system of sewerage, types of latrine used, method of disposal of night soil, number of tap, electric connection (domestic, road and others) in the statement.

The data on amenities and facilities presented in the Town Directory are collected from the respective Municipal Councils, Municipal Board, and Town Committee in respect of statutory towns and for Census Towns from the revenue authorities of respective jurisdiction.

****

Part A - Village and Town Directory

Section I - Village Directory

Note explaining the abbreviations used in the village directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column for the village are as follows :

Columns 1 & 23 : Serial Number

Self explanatory. All the villages within the C D block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz. <5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given.Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Path-shala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema / Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows :

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities *manufactured*

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State / U.T. Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below :

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available *in villages CD Block wise of the* district.

Appendix-I-A *Indicates number of villages* CD Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages CD Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages CD Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities. Since there is no such census town in Chandigarh, therefore, data in this appendix is not presented.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns. Since there is no such census town in Chandi-garh, therefore, data in this appendix is *not presented.*

Appendix-IV CD Block wise list of inhabited *villages where no amenity other than* drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A, VII B
The appendix shows the list of villages according to proportion of the *Scheduled Castes and Scheduled* Tribes to the total population by ranges. Since no Scheduled Tribe is notified in Chandigarh, therefore, data in appendix VII-B is not presented.

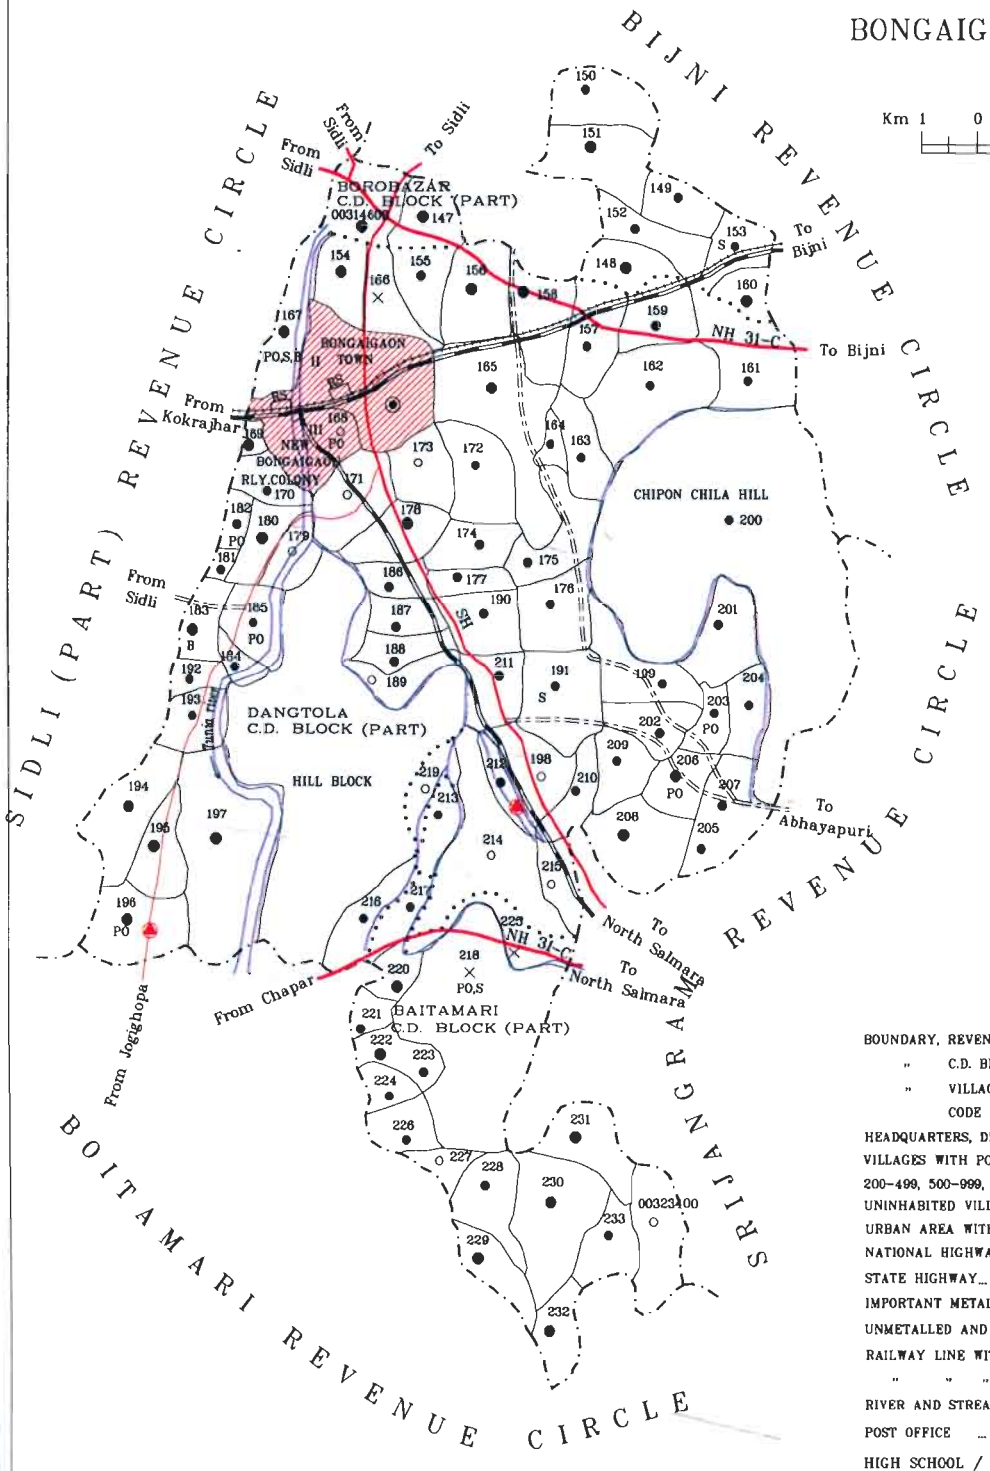

Appendix-VIII Indicates CD Block wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in a village. Since there *is no girls school in the villages of* Chandigarh, U.T. therefore Appendix-IX has not been presented.

Section II - Town Directory

Note explaining the abbreviations used in the Town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic adminis-tration status of town

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	*Municipality*	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998–1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha/pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D

(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

I case of more than one institutions of any type,it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani U	
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories - Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Trainning Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with

number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

****

All towns have availed the benefit of medical facility from different kind of institutions with beds. Three towns have degree level college but two of the towns have no such facility. The medical and engineering college facility are availed by all towns in Guwahati. The polytechnics facility is only in one town. Only two towns have recognized shorthand, typewriting etc. All towns have all types of educational facilities except in Bijni T.C. where there is no senior secondary school. Two towns have no adult literacy center. There is no working women's hostel in all towns. The recreational and cultural facilities are enjoyed almost by all towns but New Bongaigaon CT. has no such facility except public library.

STATEMENT - VI
TRADE, COMMERCE, INDUSTRY AND BANKING, 1999

Serial No.	Class, name and civic status of town	Name of three most important commodities exported			Name of three most important commodities manufactured			Number of banks	Number of agricultural credit societies	Number of non-agricultural credit societies
		1st	2nd	3rd	1st	2nd	3rd			
1	2	3	4	5	6	7	8	9	10	11

3	No Slum	-	-	-	-	-	-	-	-	-

In Bongaigaon M.B there is slum population which forms 200 households out of 1200 population. The slum area is covered by 2 kms paved roads. OSD is the sewerage system of slum population. The latrines are mostly service. The method of disposal by night is 0 for slum population. No tap point is available in slum area. There is 48 electricity connections in the households of slum and there is 9 road lighting points with 8 other connections.

Appendix to Town Directory

Towns showing their outgrowths with population

District : Bongaigaon

Serial number	Name of the town with location code	Population of core town	Name of outgrowth	Population of outgrowth
1	2	3	4	5

Appendix to Town Directory is not applicable as there is no Out Growth in Bongaigaon District

Part B - Primary Census Abstract

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preli-minary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001

from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet onother important publication of 2001 Census gives basic information on Area, Total Households, Total Population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification

of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE

Annexure - I : Number of villages under each Gram Panchayat

(Data is not available on panchayat Level)

Annexure - II: Note on Fertility , Mortality and Migration.

Fertility, mortality, and migration are the most important tools of indicators of population growth. Growth of population in any area is always determined by these three demographic variables on the basis of which one can project the population for any year in future. All the models of population growth and tools of analysis of demographic data are generally based on these three indicators.

Considering the importance of these indicators an attempt has been made here to present the rates of fertility, mortality and migration along with other dependent variables for each district as well as for the State of Assam as a whole.

In the 1991 Census, questions on fertility such as age at marriage, number of children ever born alive and children born alive during the last year were asked. The first three questions were asked to all ever-married women and the last question was to only currently married women. The measures of fertility worked out are based on the F – Series Tables of 1991 Census pertaining to the Assam State. The defination of all measures are explained in non census concept in earlier chapter.

Annexure - III: Various measures of fertility and mean age at marriage, 1991 Census

Fertility:

As seen through various indicators of fertility in the district, it may be seen that the GFR of 124, GMFR of 178, TFR 4.0 and TMFR 5.8 against the respective figures at state level are at 135, 190, 4.2 and 6.1. Various measures of fertility and other fertility related data are presented in the following table.

Table -I

VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE 1991 CENSUS

Sl.No	Fertility Measure	Bongaigaon district	Assam State
1	2	3	4
1	G.F.R.	124	135
2	G.M.F.R.	178	190
3	T.F.R.	4	4.2
4	T.M.F.R.	5.8	6
5	Crude Birth Rate	29.3	31.5
6	No. Of Children ever born per woman in age group 45 - 49	5.6	5.2
7	Mean age at Marriage	17.6	18.4
8	Child-Woman Ratio (0-4)	634	575
9	Child-Woman Ratio (5-9)	801	737

In all fertility measures, the levels are found low except a few measures in Bongaigaon district than state averages. The mean age of marriage at the district is also low than that of state mean. The child woman ratios in both age groups are found high in the district than the state averages.

Table -II

DISTRICT WISE VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE, 1991

Sl.no.	State/District	GFR	GMFR	TFR	TMFR	CBR	No.Of childre never born per ever married woman in age group 45-49	Mean age at marriage of currently married woman

19	Karbi Anglong	140	207	4.4	6.8	33.1	5.2	18.8
20	N.C. Hills	127	187	3.8	6.4	29.7	5.5	19.2
21	Karimganj	196	291	7.1	9.3	48.5	4.8	18.2
22	Hailakandi	136	196	4.2	6.4	32.1	5.0	18.2
23	Cachar	137	190	4.1	6.1	32.6	4.5	18.5

Mortality:

The mortality figures in the district confirms to the general theory of relation between fertility and mortality. The mortality rates are shown in the following table.

Table - III

AGE SPECIFIC MARTIAL FERTILITY LEVELS - 1991

Age Group	Bongaigaon District			Assam state		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.15	0.16	0.05	0.15	0.15	0.13
20-24	0.22	0.22	0.23	0.21	0.22	0.17
25-29	0.19	0.20	0.12	0.18	0.19	0.12
30-34	0.14	0.15	0.13	0.13	0.14	0.09
35-39	0.09	0.10	0.03	0.09	0.09	0.04
40-44	0.07	0.08	0.03	0.05	0.05	0.02
45-49	0.04	0.04	0.03	0.03	0.03	0.03

The Age Specific Marital Fertility levels are found high in all age groups of total in Bongaigaon district than the state. In case of rural in age group 20-24, it is low than state level. Similarly in case of urban also in all age groups, Age Specific Marital Fertility Rate (ASMFR) are found low than the state levels. More particularly ASMFR found equal in Bongaigaon district as well as in the state. The age Specific Marital Fertility Rate (ASMFR) in age group 30- 34 in urban is much lower in Bongaigaon district than the State level.

Table –IV
ESTIMATES OF CHILD MORTALITY, 1991

Mortality Measure	Bongaigaon District	Assam State
1	2	3
Q-1		
Persons	122	92
Male	93	96
Female	124	87
Q-2		
Persons	128	101
Male	113	104
Female	129	98
Q-3		
Persons	131	104
Male	113	106
Female	134	101
Q-5		
Persons	142	116
Male	135	118

Q.1. of the above table shows the infant mortality rates and Q.2., Q.3. and Q.5. reveal the size of child mortality in age group below 2, 3 and 5 years respectively. It is seen in the table that the mortality rates in Bongaigaon district are higher than that or the state rates. Only in case of Q.1 Male mortality rate is slightly lower than the state average. The child mortality rate in case of Q.5 is much higher in the district than the state rate. In case of female child mortality the rate is found high than the state in all age groups. However, the health status in the district can not be said as good from the picture depicted in the table.

Annexure - IV: Percentage Distribution of Migrants by Place of Birth/Place of last residence, 1991 and 2001 Census.

Migration:

The detail data may be seen below the following tables.

Table - I

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH - 1991 ASSAM

From the above table it is seen that migrants from elsewhere the district outside the place of enumeration consists 59.1 percent of the total migrants. The migrants from other districts consists of 29.6 percent,from the other states 7.9 percent and from other countries it is 3.4 percent.

Annexure V : Brief account of main religion in the district / tahsil as per 1991 Census.

Religion :

A brief account of religious composition of the population in the district along with the state is presented in the following table

Table - I

MAIN RELIGIONS IN THE BONGAIGAON DISTRICT AND ASSAM STATE – 1991

District / State	Religion	Number of Followers	Percentage of total population	Percentage	
				Rural	Urban
1	2	3	4	5	6
Assam	Total population	22,414,322	100.0	88.9	11.1
	Hindu	15,047,293	67.1	86.2	13.8
	Muslim	6,373,204	28.4	94.7	5.3
	Christian	744,367	3.3	96.0	4.0
	Buddhist	64,008	0.3	93.0	7.0
	Jain	20,645	0.1	21.9	78.1
	Sikh	16,492	0.1	31.3	68.8
Bongaigaon	Total population	807,523	100.0	90.9	9.2
	Hindu	516,830	64.0	87.1	12.9
	Muslim	264,393	32.7	97.9	2.1
	Christian	17,890	2.2	98.5	1.5
	Jain	991	0.1	18.5	81.5
	Sikh	479	0.1	30.3	69.7
	Buddhist	211	0.0	34.1	65.9

The figures in the above table show that compared to the state as whole the proportion of Hindus is more in the district. The Muslims who constitute about 28.43 % of total population at State level but in the district their percentage is only 32.74. Christian consists 2.22% as against 3.32 at State Level, which is also on lower side. However Buddhists, Jain and Sikhs though are negligible in number.

Table-II

MAIN RELIGIONS IN THE BGAIGAON DISTRICT AND ASSAM STATE - 2001 CENSUS

District :-Bongaigaon (04)

District/State	Religion	Number of followers	Percent to total population	Percent	
				Rural_%	Urban_%
1	2	3	4	5	6
Assam	All Religions	26,655,528	100.0	87.1	12.9
	Hindus	17,296,455	64.9	83.7	16.3
	Muslims	8,240,611	30.9	93.6	6.4
	Christians	986,589	3.7	94.9	5.1
	Sikhs	22,519	0.1	33.9	66.1
	Buddhists	51,029	0.2	87.3	12.7
	Jains	23,957	0.1	15.0	85.0
	Others	22,999	0.1	94.0	6.0
	Religion not stated	11,369	0.0	90.6	9.4
Bongaigaon	All Religions	904,835	100.0	87.9	12.1
	Hindus	535,464	59.2	81.6	18.4
	Muslims	348,573	38.5	97.5	2.5
	Christians	18,728	2.1	96.2	3.8
	Sikhs	512	0.1	22.1	77.9
	Buddhists	330	0.0	44.5	55.5
	Jains	882	0.1	6.3	93.7
	Others	8	0.0	100.0	0.0
	Religion not stated	338	0.0	96.4	3.6

The figures in the above table shows that the Hindus in the district constitute 59.2 percent which is lower than the state percentage followed by Muslims 38.5 percentage,Christians population 2.1 percent and Sikhs and Jains population 0.1 percent each.

Annexure VI: Marital Status of population as per 1991 and 2001 Census

Marital Status:

The data on marital status of population in Assam as well as in Bongaigaon district for each age-group for male and female are presented below in the following table .

Table - I

AGE , SEX AND MARITAL STATUS OF POPULATION IN ASSAM – 1991 CENSUS

Age group	Total population		Percentage of population in each age-group							
			Never married		Married		Widowed		Divorced/ Separated

80 +	2,950	2,170	7.1	3.2	74.2	25.8	18.0	70.1	0.7	0.9
Age not Stated	1,750	1,320	86.9	91.7	12.0	6.1	0.0	0.8	0.0	0.8

Note: Data on unspecified marital status are not taken into account but they are included in the figures shown in Col No. 2 and 3

A comparison of district level figures of marital status with that of state averages reveals that the percentage of never married for both sexes is slightly high than state averages and in case of married person for both males and females, the percentages are lower than the state percentages. In respect of widowed males, the percentage is low and in case of females it is higher than the state. Similarly in divorced / separated, the percentages for both males and females are high in the district.

The highest percentage of males and females married are found in age - group 45-49 and 30-34 in the district respectively and the same is found in the same age-group in the state for males and 35-39 for females.

A comparison of the district level figure of marital status with that of the state avearge reveals that the percentage of never married males are slightly higher than the state average while the percentage of females are the same. In case of of married males and females the percentage is slightly lower than the state average. In case of widowed male the percentage is low and in case of females it is higher than the state percentage. Again in case of divorced/ separeated male percentage is lower and females are the same with he state percentage.

The highest percentage of married male are recorded in the age group 45-49 and females in the age group 30-34 in the district and the respective figures in the state for males are recorded in the same age group and for females in the age group of 35-39. 20.2 prcentof males and 5.7 percent of females are still unmarried in the district which is below the state percentage.

Annexure VII : Age , Sex and Education in the district , 1991 and 2001 Census

Education and Literacy rate:

Age-group wise Literacy rates for male and female in respect of both at state and district level are presented below in the following tables .

In the district the literacy rates for males and females in all age-groups except males in 50-59 are lower than that of the state rates . It is seen that the literacy is high for males in age-group 15-19 but it is high for females in age-group 7- 14 . But these are lower than the state averages. Literacy rates are seen high upto middle level both for males and females .

In the district, the literacy rate for male and female in all groups are low as compared to the state literacy. It is also seen that percentage of literate is high in the age group of 15-19, both male and fe-

male than in all other age group through it is lower than the state percentage. The table also shows that literate population up to middle level is high in all age group excepting in the age group 20-49. In the higher education level it is found to be low excepting graduate and above in the age group 20-49.

Annexure VIII: Distribution of different mother tongues returned in 1991 & 2001 Census.

Languages and dialects:

The detail information on number of population and their percentages speaking different languages are presented below in the following tables.

Table - I
