Bordowa Namghar

This *Namghar* is situated in Nagaon *Sattra*, where Mahapurush Sankardev the great artist, author, founder of Vaisnava religion, of Assam was born. There are two *Sattras,* one is *Narowa Sattra* and the other is *Salaguri Sattras*. The mini Museum is there in *Narowa Sattras*. *Fagua* Festival and the Birth and Death Anniversaries of the *Vaishnava* saints are observed there with great grandeur

Annexures: **867-887**

Annexure I	Number of villages under each Gram Panchayat	869
Annexure II	Fertility and Mortality 1991 Census	869
Annexure III	Various measures of fertility and mean age at marriage,1991 Census	869
Annexure IV	Percentage distribution of migrants by place of birth/place of last residence, 1991 and 2001 Census	871
Annexure V	Brief account of main religions in the district / tehsil,1991 and 2001 Census	876
Annexure VI	Marital status of population as per 1991 and 2001 Census	878
Annexure VII	Age, sex and education in the district, 1991 and 2001 Census	880
Annexure VIII	Distribution of different mother tongues returned in 1991 and 2001 Census	884
Annexure IX	Distribution of Scheduld Castes and Scheduled Tribes in 1991 Census	885

Forword

The District Census Handbook (DCHB) published by Census Organisation since 1951Census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 Census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 Census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district Census Tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 Census DCHB was in two parts : Part A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA upto tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 Census DCHB, by and large, followed the pattern of presentation of 1981 Census, except the format of PCA was restructure of Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD block) level presentation of Village Directory and PCA Data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of Village Directory and PCA Data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 Census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of Gram Panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity and Child Welfare Centre and Primary Health

Centre), drinking water, Post and Telegraph (Post Office and Phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri P. Hazarika, Director of Census Operations, Assam. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 Census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and co-ordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agarwal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of Maps. Whereas, Shri Anil Kumar Arora, Deputy Director of data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and Town Directory Data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India.

New Delhi
Dated 17.10.2006.

Preface

The District Census Handbook is the only publication brought out by the Directorate of Census Operations on behalf of the State Government. The financial aspects of its publication are being taken care of by the State Government. This publication presents various demographic data down to the village level in rural area and to ward level of each town in urban locality. It depicts various amenities available in each village and town in the form of Village and Town Directory. Since the villages are the lowest units that constitute larger divisions like Revenue Circles, CD Blocks, Sub-divisions, Districts, the data both for Census as well as non Census are useful for micro planning and development at grass root level.

The analytical note included here in this publication has been improved by including many more information from than that of earlier publication. This publication is also made more attractive by inserting demographical aspect of 1991 Census in the form of annexures.

The Census Operations at Assam was initially conducted under the able guidance and supervision of Shri M. Das, IAS, Ex-Director of Census Operations, Assam. During my tenure, the Deputy Director, Shri Hiremath and Shri B.M. Talukdar, Asstt. Director,Assam were looking after Village Directory and Town Directory work. Now Shri B.L. Sarmah, DDCO and Shri N.C. Bhagabati, ADCO have been looking after all related works of DCHB and Shri B.M. Talukdar, Asstt. Director,Assam has also provided his valuable work in publication of this book. The Village Directory and Town Directory data were checked by a team of officials of which mention may be made of Mrs. P. Bhattacharjee, Sr. Compiler, Mrs. Khana Das, Asstt. Compiler, Mrs. P. Sonowal, Asstt. Compiler, Mrs. D. Sarmah, Asstt. Compiler and Mrs. D. Doley, Asstt. Compiler.

The DCHB is drafted by Shri B.M. Talukdar, Asstt Director and all Computer works were done by Shri S. Dutta Data Entry Operator , Smt. Rupam Gupta Stenographer. The map Section has provided maps which are included in this book. I offer my thanks to all of the officials who are closely associated with this noble work.

I am grateful to Shri J.K. Banthia, IAS, Registrar General and Census Commissioner of India for his constant valuable guidance. I much also record my gratitude to Dr. I.C. Aggarwal, Sr. Research officer for his sociological advice and Mr. S.L. Jain Deputy Director for his technical guidance

(P. Hazarika)
Director of Census Operations,
Assam, Guwahati.

District Highlights – 2001 Census

1 In Nagaon District, Lank Revenue Circle/ Tahsil is most populous having 397,164 persons while Raha Revenue Circle is the least populous circle having 148,670 persons.

2 Among the CD Blocks, Juria CD Block has the highest number of population with 196,954 whereas the lowest is found Pakkhimaria CD Block with 39,935

3 In the district there are 9 Revenue Circles and 20 CD Blocks which comprise 1,420 villages including 45 uninhabited villages.

4 The district comprises seven 10 towns. Nagaon (MB+OG) is the most populous with 108,786 persons while Chota Haibor (CT) is the smallest in population with 5,257 souls.

5 While the highest number (151) inhabited villages is found in Kathiatoli CD Block and the lowest (23) inhabited villages is found in Mairabari Pt. CD Block.

6 The largest village by area is Nakhuti PRF with 2,048 hectares of land and situates in Lumding CD Block while in the district, Kamakhaya NC is the smallest village in the area with 3 hectares of land. This village is under Kaliabor CD Block.

7 The largest village by population is Golaghatia Basti with 7,358 souls which is situated at Dhai pukhuri CD Block and the smallest village is Nahabari No 1 with one person only and is under Brahampur CD Blocks .

8 Shri Shri manta Sankardev was born at village Patekibari of Nagaon district but this village is now under present Marigaon district. Sankardeva , who influenced the whole Assamese community by his great creations in Assamese Culture.

9 The district is well known for her large number of Satras founded by followers of Vaisnavitee reformer Shri Shri Sankar Dev and Shri Madhavdev

10 Ahoms ruled Assam for more than 600 years having their capital at different places of Assam, once their capital was in Nagaon which was known as Khagarijan.

11 Bardowa is an important religious place founded by Shri Sankardev in the district where hundreds and hundreds devotees visit the place daily and bow down their heads before.

12 There are a few places like Silghat , Phulaguri etc. for tourist interest.

The statement 3 shows the population of the district from 1901 to 2001. The figures in the statement shows that in 1901 there were 194,534 persons in the district of which 99,059 were males and 95,475 females. The decadal population variation during 1901-1911 was (+) 15.8 percent. Since there was no Census in Assam in 1981 due to prevailing situation at that time, decadal change in distribution of population during 1981-1991 can not be presented. From the table, it is noticed that during the period of 20 years i.e. from 1971-1991 district has registered 51.3 percent increase of population. The decadal growth rate during 1991-2001 of the district is 22.3 percent which is above the state rate of 18.9 percent. There was no urban unit in the district in 1901. The decadal population growth during 1991-2001 in urban of the district is 35.3 percent as against the state urban decadal growth rate 38.2

The statement 5 gives the CD Block wise distribution of number of villages and rural population. The highest number of inhabited villages 156 with 188,915 persons are noticed in Kathiatoli CD Block. Likewise, the lowest number of inhabited villages is noticed in Dulongghat Pt CD Block with 26 villages while the lowest population is noticed in Pakhimaria with 39,935 persons.

STATEMENT-6

POPULATION OF URBAN AGGLOMERATIONS (INCLUDING CONSTITUENT UNITS) / TOWNS, 2001

District (Urban) total:				**278,287**	**145,552**	**132,735**

The statement presents the population of towns. There are ten towns in the district of which six towns are statutory towns and rest are Census towns Nagaon UA is recorded the highest 123,265 number of persons. Male and female population are 64,895 and 58,370 respectively. Out of Census Towns, Lumding Rly Colony CT records the highest 25,367 persons with 13,058 males and 12,133 females. From the statement it is noticed that the male population predominates females in both the towns.

The statement depicts the distribution of villages with population 5000 and above and the amenities available. Out of 1,375 inhabited villages in the district, there are 19 large size villages having 5000 and above population in 15 CD Blocks. Most of the villages shown in the statement, in spite of being the large size villages, have no accessibility to the important amenities like educational facility, Tap water, Primary Health Centre or sub-centre and bank. However, from the statement it is noticed that three villages, namely, Bajia Gaon, Niz Barapujia and Jammunamukh have one college each but at Jamunamukha village has two colleges Niz Barapujia has one Senior Secondary School and a Primary Health Centre. In three villages, there are one Primary Health sub-centre each. Only one village has one Railway station in its jurisdiction. Tap water is available in nine villages. Commercial Bank is available in one village only. There is no co operative bank in any village.

STATEMENT-8

The statement shows Houseless and Institutional population of district as well as Revenue Circles in rural and urban. From the table, it is noticed that in the district, there are 186 total number of houseless households having 714 houseless population during 2001 Census in which males and females are 380 and 334 respectively. Further, there are 781 number of institutional households comprising 10,476 persons with 7,742 males and 2,734 females. It is noted that the number of households and population both Houseless and Institutional are more in rural than in urban. Among Revenue Circles, the highest number of Houseless population is seen in Lank Revenue Circle and the highest number of Institutional population is noticed Nagaon Revenue Circle The former is recorded 241 persons and the later is 4,563 persons respectively.

ANALYTICAL NOTE

ANALYTICAL NOTE ON NAGAON DISTRICT

(i) History and Scope of District Census Handbooks.

District Census Hand Book is an important and valuable publication brought out by the Census organization of each state after each decadal Census. This provides detailed information on some basic demographic and socio-economic aspects and availability of important civic amenities in each village and town of the district. It, thus, bears the proud privilege of being only informative source of every district of each state. It has, thus, proved to be of immense utility to the planners, administrators, academicians and researchers.

The District Census Hand Book was first initiated during 1951 Census with the collaboration of respective state Governments. In 1951, only few demographic as well as some economic information in village and town level of the district along with some Census tables were incorporated in the publication. Since then, it had undergone tremendous changes during the subsequent Censuses. The scope and content of District Census Handbooks were further widened by addition of more Census tables and also some basic statistics on land-use pattern, agriculture, industry, administration, public health and medical etc. The DCH of 1961 was, therefore, considered as unique asset of the Census organization. Again in 1971 Census further improvements were made by enlisting many more tables on village and towns in under the broad heads of Village and Town Directory. Thus DCHB is consisted of three parts. The part A relates to the Village And Town Directory. The part-B contains village & town-wise Primary Census Abstract and part C deals with administrative aspect and Census tables based on PCA. etc. The scope of DCHB got widened in 1981 with the inclusion of data on literacy, health care etc. The DCHB in 1981 was brought out in two part, the Part-A & B. As Census could not be done in Assam only Part-A portion was published. Again in 1991 DCHB made its appearance in two parts like the previous Census, Part-A is fed with Village & Town Directory and Part-B with PCA data. Again, the Part-A had two sections. In Section-I the alphabetical list of villages with notes on codes in the Village Directory have been shown. The Village Directory had four appendices. The Section-II depicted note explaining the codes used in the Town Directory, the Town Directory statements (i to iv) and appendix to the Town Directory. The Part-B revealed district PCA circle wise, CD Block-wise, village & town-wise PCA. The PCA had an appendix as well as annexure to the appendix. The District PCA to Scheduled castes and Tribes at circle and town-level was also incorporated in this part of the DCHB.

In the present DCHB some more information on availability of facilities such as Credit Societies, Banks, Recreation and Cultural facilities, Newspaper/ Magazine are included for the first time. Information on income and expenditure, important commodities manufactured, exported & imported items etc are also included to embolden the scope of DCHB. Similar additions are also carried out in Town Directory.

The process of collection and compilation of relevant data take time and is a voluminous one. The process starts with the village per revenue circle for the districts. Again the data so collected are compared with data of previous Census data. These are sent to the Directories of Census for further initiation. Likewise Town Directory data are collected directly from the Commissioner/Chairman of Municipal Corporation and the town committees as the case may be. In case of data relating to Town Directory security and cross checking are done as a routine work. The agencies publishing such data are consulted upon to verify the authenticity and correctness of data. According to the instructions received from the RGI the work of compilation and then computerization are carried out. The incorporation of new information in 2001, DCHB and external validation of data so collected will definitely give a new dimension and importance. This will be an illustrative one to the data-users and researchers.

(ii) Brief History of the district :

The old Nagaon district with its headquarter at Puranigudam was known as Khargarijan in the past It is obtained that there was a canal in the middle of

the district which extended from north-east to south-west for several kilometers .This canal was surrounded by reeds which were locally know as khagaries and the district was named after these khagaries as Khargarijan. The Kacharis attacked the kingdom of Ahom king Pratap Sinha during his reign (1603- 1641 AD) and advanced up to Kaliabor . The people of Kaliabor and Raha fled in panic leaving hearth and home.Shortly after expulsion of the Kacharis from the Ahom kingdom, the king posted one officer named Momai Tamuli Barbaruah to rebuild this areas. He established new villages and settlement them in these new villages and resettled them in these new villages. This new settlement was therefore called Nagaon. The world 'NA' means new and 'Gaon' means village. From this time, the place was renamed as Nagaon in place of Khagarijan.

It can be said distinctly that the whole of the Nagoan district was a separate kingdom under its own rulers. The recent research activities show that the whole of Nagaon district consisted of different independent kingdoms ruled by different rulers at the sometimes such as the king of Kamrupa, the Jaintias, the Kacharis, the Bara-Bhuyans , the Koches, the Ahoms etc.

The Pragjyotishapur was the ancient name of Assam and Kamrupa in the Medieval period. The old Nagaon district was a part of the ancient kingdom of Pragjyotispur and was ruled by dynasties of Barman, Salastambha, the Palas of Pusya Varman constituted the first historical dynasty of the Bhauma Naraka family believed to have ruled in ancient Assam about 355 AD. From various sources like epigraphs and literary works the existence of two kingdoms of Davaka (Daboka) and Kadali within the present Nagaon district were traced. The remains of forts, temples and building are the example of existence. Some of these ruins are attributed the capital of a king named Hansadhaj during the fourth century A.D. It is evident from the Badganga inscription Davaka of Bhutivarman (553-554A.D) formed an integral part of his kingdom of Kamrupa. Like Davaka, Kadali was an independent kingdom of Nagaon district ruled by Kirata of Mongolian chiefs and was included in Kamrupa in the sixth century A.D. Though this kingdom lost its independence, it did not lose its entity as late as the eleventh century. A.D. when the Palas ruled in Kamrupa. By this time Kadali was ruled by a woman named Kamala with the help of her sister and ministers for this it was known as Narirajya. She was probably a Kachari or Jaintia queen. This kingdom is identified with Kadali of Nagaon .

The entire area of Nagaon district formed an integral part of Kamrupa during the reign of Bhutivarman (510-555A.D.) who was eight in descent from Pusyavarman of Bhauma dynasty. He was also known as Mahabhutavarman who ruled for forty-five years.

Bhaskarvarman, (594-650A.D.)who was the greatest monarch in the Bhaum family received the sunken fortunes of his family. He was well educated in Sastras. His alliance with Harsh that has been recorded in the Harsacharita by Bana, is a landmark in the history of Kamarupa. In 643A.D.Hiuen Tsiang , the Chinese pilgrim was invited by the king. He, in his travel account recorded highly of Bhaskar Varman.With the passage of time Bhaskar Barman's the dynasty who ruled over Kamrupa for many generations came to an end and the new family of Salastambha ascended the throne of Kamrupa.Salastambha was also a powerful king as surmised from the Bargaon grant which describes him as a tiger-like king. The Bargaon copper plate grant of Ratnapala states that there were as many as 21 rulers of Salastambha's family who rules Kamrupa between 970 to 990 A.D. the accession of Harsa (725-750 A.D) to the throne of Kamrupa, marked an era of prosperity and territorial expansion. He gave his daughter Rajyamati in marriage in the king of Nepal. The discovery of Hayunithal grant of Harijaravarman in the Kopili valley points to the fact that Nagoan was an integral part of his kingdom. Vanamala son of Harijaraj varman had a long period of reign. He was mighty monarch and extended his kingdom through conquests. His grand son Balavarman II was also as powerful king (885-910A.D). His two grants viz, the Nagaon grant found on the bank of the Kalang in Sutargaon near Puranigudam and the Uttar Barbil grant near Howraghat, in Mikir Hills (now Karbi Anglong) prove that Nagoan formed a major part of Kamrupa during 10th century A.D.

According to Bargaon grant of Ratnapal,Bramhmapala (990-1010A.D) succeeded Tyagasinha, the last of the twenty one rulers of the Satastambha dynasty and founded a new line. The king Tyagasinha was son less. After his death his officials elected Brahmapala of the line of Naraka and a kindred of the departed king to be the king of Kamrupa. He was a founder of the Palas dynasty. Brahmapala extended his territory over whole of the Nagaon district. He shifted his capital from Haruppeswar/Haruppesvara to a place on the bank

of the Lauhitya (Brahmaputra). He was succeeded by his son Ratnapala. The new capital after being fortified by Ratnapala came to know as Durjaya. The Durjaya continued to be the capital of the Palas kings till 1115A.D. The successors of Ratnapala were from Purandarapala, Indrapala, Gopala, Harsapala, Dharmpala and to Jayapala. The most important and powerful among them was Dharmapala. The lost territory of the kingdom during the region of Gopala and Harsapala were recaptured by Dharmapala and restarted the lost glory of Kamrupa. by increasing its territory to the west of the Karotoya.

The darkness was descended on the history of Kamrupa including Nagaon after the expiry the last king Jayapala (1120-1138 A.D.). Rampala the king of Gauda, conquered Kamrupa during the region of Jayapala. Rampala conquered only the Bengal portion of Kamrupa and placed Tigyadeva as his vassal. After the death of Ramapala, Tingyadeva revolted but Vaidyadeva son of Rampala suppressed the revolt. Vaidyadeva defeated and killed Tigyadeva. He ruled Kamrupa till two other kings succeeded 1150 A.D. Vaidyadeva after his death came Bartu or Prithu. An important king of Kamrupa. Prithu repulsed two Muslim invasions Bakhtiyar (1202A.D) and Ghiasuddin Iwaz (1226 A.D.) and was finally over thrown by Nasiruddin. The next king was Sandhya after Prithu as mentioned in Gurucharita of Ramacharan Thaukur. He repulsed the invasion of Ikhtiyaruddin Yuzbak in 1256-57A.D.

At the time of 13th century a king named Arimatta of the Jitary family came from the north of Brahmaputra and conquered Nagaon and extended his kingdom up to Majuli of Jorhat district after Arimatta, his son Jangalbalahu became the king of a territory which formed the western part of Nagaon district. He constructed a fort near Raha known as Jangalbalahugarh, which is still in existence. The king was defeated by the Kacharis and drowned himself in the Kolong River. After that the Hindu families began to decline and many small principalities were founded by the Ahoms, the Kacharis, the Khasis, the Jayantias and the Bhuyans in the 13th century A.D.

In the 14th century A.D. the son-in-law of the Behali king established a kingdom at Barhmapur of Nagoan district that later on extended his territory upto Sonapur. The Kacharis and Ahoms had made several fights between each other. A battle was fought on the bank of the Dikhou in 1490A.D.with the Ahoms. Again in 1526 and 1531 A.D. the Ahom and Kacharis fought on the bank of the same River. The Kacharis were defeated and the king brother Detcha was killed. In 1536 A.D. Detsung the Kacharis kings quarreled with the Ahoms. And the Kacharis had to leave Dimapur and set up a new capital at Maibong. Here also they met reverses in the hands of Chilarai brother of Koch king Narnarayan. Upto 1603 A..D the Kacharis held a greater part of Nagoan. In the middle of the 16th century the Northern part of Nagaon began to pass into the hands of Ahoms king but from time to time it was over run by the Koches, Mohammdans and Kacharis.

To get rid of Bhutias, in the north, two descendants of Chandi, Bar-Bhuyan came to the south bank of the Brahmaputra and settled at Batadraba in Nagaon District. The story regarding Bara Bhuyans goes that Samudra administered the kingdom defeating all his rivals with his Bhuja or arms for which the name Bhuyan came. After Samudra, Manohar became the king at Vishwanath. After his death, his daughter Laksmi ruled for about 14th years. She gained the love of the Sun God and she gave birth to two sons, Santanu and Samanta. Santanu and his twelve sons came to Rampur in Nagaon district and their descendants came to be known as Bara Bhuyans. Samanta remained at Lakhimpur and from him sprang the branch of Saru Bara Bhuyan. Prior to the 15th century, the Bara Bhuyans maintained their independence against the Kacharis and Chutia kings. But with the entrance of the Ahoms, the glory of the Bhuyans started declining. From the middle of the 15th century the Ahom kingdom expended towards the west at the expense of the Bara Bhuyans, Kacharis and Chutias.In 1535 A.D.the Ahom king the Dihingia Raja defeated the Bara Bhuyans and ransacked the territory and made them feudatory chiefs. In 1623 during the region of Pratap Sinha(1603-41A.D.) one of the Bhuyan chiefs named Uday declared independence and his example was followed by many others.

The Bhuyans made distinct contributions to Assamese socio-cultural and religious life. Sankardeva, the great saint poet of Assam and the preceptor of the Vaisnavite movement in Assam was a member of the Bara Bhuyan family and was born at Bardowa in Nagaon district in 1449 A.D.

In 1685 A.D. the Ahom kingdom expelled the Muhammedans and extended their supremacy over five districts of the Brahmaputra valley. In the beginning, the district Nagaon was administered from

the Ahom capital Garhgaon by the representatives. But after wards one Barphukan was appointed with its headquarters at Guwahati who administered the area from Kaliabar of Nagaon district to Goalpara as the Ahom kings deputy. In the year 1803, the Ahom army marched to Raha and then to Jamunamukh of Nagaon district where they mounted an attack on the Kacharis and the Moamaries who had burnt and razed villages near Nagaon. The United troops could not easily defeat the royal army; as such Buragohain was compelled to send for replenishment to face the rebellion. Then a fight took place near Nagaon. The insurgents lost the battle and fled down the Kalong to Raha. The Ahom pursued them up to Dabaka and shattered them by burning their villages. Prior to this the Kacharis and the Moamaries disputed and quarreled over some matters where upon some of the Kacharies defeated to the Ahom camp. They received a reward of land grants near Bebejia from the Ahom king.

On the death of Kamaleswar Sinha, the brother Chandra Kanta Sinha ascended the throne assuming the Ahom name Sudinpa.. He saw the end of the Ahom ruled and the beginning of a new chapter in Assam's history. As he was a small boy in age, the Buragohain conducted all the administrative business. In his regime, the first Burmese army came to Assam in the end of 1816 A.D. at the invitation of Badan Chandra Barphokan. Chandra Kanta was made a nominal king by the Burmese while full powers were vested in the Burphokan but later on Chandra Kanta was over thrown and Purandar Sinha took the throne in 1818.A.D. The Burmese again defeated Purandar Sinha in 1819 and Chandra Kanta was made a nominal King but he was afraid of his safety and he fled away to the British territory in 1821. Chandra Kanta collecting some troops, made futile attempts to oust the Burmese.

The easy victories in Assam gained by the Burmese encouraged them to commit various wanton acts of aggression at the northern frontier of Bengal, on the border of Chittagong and Sylhet. Due to the British Governor General decided to resort to arms. But later on the Burmese were compelled to evacuate Nagaon and came to Jorhat. There also they were defeated by the British. Finally a treaty was concluded on February 24,1826 at Yandaboo between the Burmese and the British.

During the early period of British rule Nagaon district was first administered with Kamrup and Darrang districts. But in 1835 it was formed into a separate district with headquarters of Puranigudam. The headquarters was shifted to Rangagora in 1835. but in 1839 the headquarters was again transferred to Nagaon due to the unhealthy nature of the place. The later history of the district was uneventful.

Nagaon district played very important role in the Quit India Movement, some of the important episodes of the Nagaon district, during the struggle for independence mention may be made of Gandhi's visit to Nagaon in 1921, organization of Santi Sena, dislocation of railway lines in 1942, Bebejia firing, Jangalbalahu firing, Barpujia firing, Barhampur firing etc. In this firing many persons lost their lives for the cause of independence. The people of Nagaon continue to play a vital role in the freedom movement till India achieved independence on August 15th, 1947.

(iii) Administrative Set-up :

The history of the district as an administrative until can be tract out only from the time of its annexation by the British. During the British rule the district Nagaon included considerable portion of the Naga Hills, when North Cachar was formed a separate sub-division. Thereafter in 1867 the position of Naga Hills and Mikir Hills were separated and formed into a separate district. But in 1898 a large position Mikir Hills again transferred to Nagaon and combined with North Cachar Sub-division to form a new district to be known as Untied Mikir and North Cachar Hills district. In 1898 Marigoan Sub-division was separated from the district Nagaon and formed a new district known as Marigaon district.

At present the district Nagoan comprises three civil sub-divisions namely Kaliabor, Nagoan and Hojai. The districts consist of 9 revenue circles. All the Revenue circles comprise a total of 1420 villages. The name of Revenue Circles are Kaliabor, Samaguri (part-I), Rupahi (part-I) in Kaliabor sub-division; Dhing, Ruphi(part-II), Samaguri (part-II), Nagaon, Raha, Kampur in Nagaon sub-division and Hojai and Lanka in Hojai sub-division. The district possesses 20 Community Development Blocks. The district covers an area of 3,831 Kms out of the State total areas of 78,438 Kms. The rank of the district in term of area is 5th among the district of Assam. The district has 6 stationary towns.

(iv) Physical Features :

The district Nagaon is stood on the south bank of the might river Brahmaputra. It is in a central

geographical position in the State of Assam. The district lies between 25°45" and 26°45" North latitudes and 91°50" and 93°20" East longitudes. On the north the district is bounded by the river Brahmaputra, on the east by Golaghat and Karbi-Anglong district, on south by Karbi Anglong and North Cachar Hills districts and west by newly formed Marigaon district.

Topographically, the district Nagaon is a heterogeneous land composed of both high hills, low lands and level plains like that of other districts of Assam. Across the centre of the plain there are wide fields of cultivated land extending from Silghat on the North- East to Jaji on the south- west. There are wide expanses of grassland on the north- west and of forest and hills on the south and east. The general appearance of the district is extremely picturesque. On every side there are swamps and rivers, hills and woods, which depict variety of scene. The land bordering the south bank of the Brahmaputra is low-lying area and is deeply flooded in the rains. For the greater part of the year it covered with grasses and reeds such as Khagari, Ekra and Nal (reed) which grow from three to six meters high. The higher land produces Ulu and other kinds of shorter grasses used for thatching. Nepali grazers generally keep large herds of Buffaloes and Cows on the chars or sand banks, which are formed by the Brahmaputra. The South of the Kopili between Dharamatul and the hills is also low lying areas It is also subject to flood and is covered with high grasses.

The elevated tracts consist of a range of low hills. The major portion of the Mikir Hills district lies within the erstwhile Mikir & North Cachar Hills but the Western spurs from Kulthars to Dabaka lie in Nagoan. The hill is covered with dense forest. There are many other small hills and hillocks that can be seen in the Daboka reserved forest, Lumding reserved forest and near Silghat. The highest peak in the district is Bar Kandali. The hill people grow rice, potato, cotton and vegetables on the slope of the hills.

The principal river is the Brahamaputra, which flows along the north bourdering of the district. The main tributaries in the districts are the Diphlu, Kalang, Sonai, Leteri and Pakaria. The Brahmaputra river gets an another name Lauhitya which is evidently a Sanskrit zed form of a Tibeto-Burman name Luhit. The word Luhitya means blood. It is so called that the river takes this color during the rainy season when it cuts though the red soil. Myth- ologically, it is said that it connects the origin of the river with the sins of Parasuram. The saint washed off his bloody stains of matricide and regained his sainthood. The river, crimson with his mother's blood, came to be known as the Lauhitya. The other opinion is that name Brahamaputra means son of Bramha. The Ahoms called the river Nam-Dao-Phi. It means the river of the 'Star- God'.

The river Kalang takes off from the Brahmaputra about thirteen kms north-east of Silghat and after flowing a tortuous course though the middle of the district passes Kaliabor, Nagoan, Raha and Jagi. It regions the parent stream at Kajalimukh. In its upper reaches the Diju and the Missa join it. The Nanoi or Haria flows for some distance parallel to the Kalang river and finally falls at Raha, the Kopili after receiving the waters from Barapani and Umiam falls into the Kalang at Jagi.

The Kopili river rises in the Jaintia hill and passing through N.C.Hills it joined by a branch channel with the Kalong river and at Jagi it finally meets the main stream of the Kalang. This combined channel finds its way in to the mighty Brahmaputra near Kajalimukh. The principal tributaries on the right bank are the Doiang, Lankajan and the Jamuna. On the left bank the Kolanga, Barapani and the Umian join the Kopili.

The Jamuna river is the main tributary of the Kopili which originates from the Khanbamun Hills of N.C. Hills and falls in the Kopili near Jamunamukh. Several small tributaries led the River. The Barapani which originates at Meghalaya passing through N.C. Hills falls at the Kapili of Nagaon near Chaparmukh. The Nanoi river originates from the Chapanala Hills and flows through the plains of Nagaon district. It meets the Kalang near Raha. The Umian originates from Meghalaya andflows from South to north and meets the Kopili at Naldhara Noabeel. In addition to above rivers there are other important tributaries, many streams and stream lets locally called Jan and Juri in the district.

Beels and marshes are scattered throughout the district. There are more than hundred beels in the district most of which are public fisheries. Important among them are Mora Kalang and Kachudhara which have formed in the old bed of the Kalang. Other important beels is the Pota-Kalang in the town mauza, Lalung beel in the Namali mauz and Haribhanga beel near Laokhoa beel and marshes teem with fish and are the haunt of wild birds like the crane, pelican or fish eagle and the kingfisher. Beels and marshes dominate the economy of the district to a great extent. The district is rich in fish and is a source of income for the district as well as for the people.

Soil :

The characteristics of soils of the district are not deviated from that of the soils of the neighbouring districts. The district is characterized by an abundance of marshes and low lands, the soils of which contain a large percentage of organic matter. The solid geology of the district, which mostly lies under the broad level plain, is covered by alluvium. The alluvium soils is mostly loamy and consist of a mixture of clay and sand in varying proportion, ranging from pure sand on the banks of the Brahmaputra to a stiff clay which is quite unfit for cultivation. Marshy soil is mainly found in the low lying waterlogged areas. The red soil generally finds in the hill slopes and foot hills formed by the watering of the Pre-Cambrian rocks. The laterfic soil of recent age is also found near Lumding. The new alluvium soils are mostly found in the narrow flood-prone tracts of the district. They vary in texture, mostly from clay to sandy loams. The soils are less acidic. The percentage of nitrogen and organic matters are suitable propositioned for agricultural purpose. The soils in the district are mostly fertile due to annual deposit of silt carried by the rivers.

Earthquake and Flood :

The frequent occurrence of earthquakes in Assam is related to the geology of the region. Like other districts of Assam, Nagaon is a seismic area where earthquakes are by no means a rare phenomena. The earthquake occurred in 1869 had caused great damage to life and property of the district. The great earthquake which occurred on June 12,1897 had caused server damage to properties. In Nagaon most of the Government buildings and the Deputy Commissioner bungalow were rendered unfit for habitation. The part of the district jail wall collapsed and the metal road along the side of the Kalang was splint up. Loss of life in Nagaon was, however, less in number. The earthquake of August 15,1950 had also caused destruction of life and property in Nagaon district. The earthquakes that occurred time to time had no such effect on life and property of the district.

The floods that are so frequent in the Brahmaputra cause tremendous changes in the river courses, and raise the riverbed by depositing the detritus carried from the upper reaches. This is a common feature of floods in big rivers flowing across the alluvial soil of north-east India. The fluctuations in river levels begin towards the end of March or early part of April, when the Himalayan snow begins to melt and the annual phenomenon of north -westerly storms speeds across the plains and valleys of north east India. From this period onwards, the Brahmaputra river level records a series of 'Pumps' or rises of short duration till the end of April, when a more defined rise is felt in early May. By early June due to heave rain, the water level of the Brahmaputra raises up to the month of October causing a series of floods. This regular phenomenon of floods causes untold miseries. Villages situated on the river banks are submerged, paddy fields are turned into vast sheets of water, standing crops are destroyed, cattle are swept away and hundreds of cultivators, fishermen and other people living in low-lying areas are rendered homeless. All-important lines of communications are snapped and life hinges on the relief. When the flood subside pestilence causes havoc among men and cattle alike unless prompt preventive measures are undertaken. The area between Ahotguri and the railway line at Dharamtul is also inundated by every major flood.

The Embankment and Drainage Department, Nagaon constructed embankment bin different places of the district to prevent the menaces.

Drainage:

The district Nagaon is washed by a close network of drains which originate in the Brahmaputra river on the north. The whole drainage of the district generally gets its way to all rivers of the district. But ultimately, the whole water finds it's way through the river Brahmaputra. The Brahmaputra is drained by a large number of water courses forming a network of intricate channels which widen out into beels and swamps. The important tributaries, streams, streamlets, jan and juri carry off the damage of the hills into the large rivers which finally fall into the Brahmaputra.The north-east corner of the district is drained by the Diphlu, Gatanga, and Deopani, the latter being the tributary of the Gatanga.The area in between the Brahmaputra and the Kalang is drained by the Leteri and Sonari which fall into the Brahmaputra. On the extreme west at Hilaikunda, Pakaria channel drains out and falls into the Brahmaputra.

Climate and Rainfall :

The climate of the Brahmaputra valley is characterized by excessive humidity all through the year, the absence of dry hot summer season and plentiful rainfall. The climate is moderately cold and

foggy during winter with very much humidity in the air at the time of summer. Generally, the weather goes dry and moisture less from February to April. From May to September sufficient rain fall sweep over the district with heavy moisture in the atmosphere. In the month of October and November, the weather becomes pleasant and the atmosphere gets foggy. Fogginess remains in the atmosphere till the end of January. The real winter starts in the month of November and continues for about four months. The atmosphere is dusty during the month of February and March of each year. Skies are heavily clouded or overcast during April and May. In the period March to May, north-easterlies and easterlies winds are more common. Cyclonic storms and depressions which originate in the Bay of Bengal and move into Assam including Nagaon district during May and June. Thunderstorms also occur during the period March to October, their frequency being highest in April. Fog occurs on some days during the last part of December and the beginning of January.

The rainfall in the district generally increases from the south towards the north. A major portion of the annual rainfalls received during the period June to September, July being the rainiest month of the year. The highest rainfall recorded varies in months. The highest rainfall recorded in August in 1999 as 482.4 m.m. as against the State average of 544.6 m.m. followed by 340.8 m.m. in July 1999. The lowest rainfall was recorded in the month of December, 1998, and January and February 1999. The annual rainfall recorded as 1745.1 m.m. as against the State average of 2670.4 m.m.in 1999.

Note (Figures quoted from Statistical Handbook Assam,2000)

Mineral:

No major minerals of economic importance have so far been discovered in the district except some minor minerals as railway ballast, road metal. sands and brick clays. The granites and gneisses are also being quarried for railway ballast and road metal in many places of the district. The clay found extensively in the alluvial tract of the district is quite suitable fore manufacture of bricks and earthen ware. The various rocks found in the foothills use for building stones and road metal. Building materials are also available from the piedmont deposits and riverbeds near the foothills.

Flora and Fauna :

Botanically, the district Nagaon is very rich. The tropical evergreen forests consist of Amari, Gonsarai, Sapa, Sam, Bhomora,Sida, Jamu, Ajhar, Gomari, Sonaru etc. The undergrowths are mostly shrubs and grasses like thatch, reed and hay. The wet miscellaneous type of forest is characterized by ever green and semi-evergreen species. There are Bhelu, Sam, Hollock, Amari, Khokan, Hatipaila etc. Nagaon is rich in Khagari, Ekara, Nal, Ulu that are used in building thatch houses. These grasslands are subject to fire in the summer season.

Fauna of Nagaon district is represented by most of the animals and birds commonly found in other parts of Assam and the adjoining states. These are classified as vertebrata and invertebrate from the zoological point. Invertebrate includes different kinds of insets, spiders, scorpions and crabs. Vertebrates include mammals, birds, reptiles, amphibians and fishes.

The forests of this district were full of wild animals. But with the passage of time various kinds of animals have been disappeared from the forests due to cruelty of human and also spread of diseases and flood. Still then, there are Elephants, Tigers, Dears, Mithuns, Buffaloes, Bears, Pigs, and Monkeys etc. in the forest of the district. Mongooses, Otters, Squirrels, Weasels, various kinds of mice and rats are also found everywhere in the district.

Various kinds of colorful land and water birds are available in this district. Birds like fowls, Crow, Seven Sisters, Parakeets or Bhatau, Horn bills or Dhanesh, Maina Charai, Gray mynas, Pigeons, Doves or Kapon charai, Bulbuls, Wood-peckers, Salika etc are some of the various kinds of other jungle birds and hill birds. The birds who live in the neighbourhood or human habitation are Crows, Sparrow, Ghanchirika, Salika, Balimahi, Owls etc. There are Vultures or Sagun, Chalani, Kuruha in the district. Water birds or both indigenous and migratory nature are seen in the beels, swamps and rivers. Storks or Bartokola, Bagali, PaniKauri, Kam Charai, Ganga Chilani, Manihari (snake bird) are some of the water and marsh birds seen in the district. Ducks are generally found in the beels as winter visitors. Chakai chakua, Saralihanh, and Pintail ducks are some of the winter visitor birds which come to the district in winter season. There are some resident ducks found in the district.

Tortoises, crocodiles, lizards and sakes are grouped as reptilian. Tortoises of various kinds are found in the beels and Rivers of the district. Crocodiles are rarely seen in the Brahmaputra. The green lizards are found almost in every part of the district. Among the snakes the most common are king cobras, adders and water snakes of the district. Pythons are normally found in the forest areas of the district. Among the amphibians frogs and toads are found in all part of the district.

Fishes of various kinds are found in the beels and rivers. The bigger fishers are Rau, Barali, Chital, Bahu, Kalijara , Ari, Gagal, Bhakuwa, etc.

Char Area:

The Char/Chapari lands are those lands, which are generally formed by the mighty Brahmaputra river by depositing sand in its nearly areas particularly in the both banks of the River. The lands become plain and high. The people begin to reside in these areas and start cultivation also. Even though these areas are not free from menaces of flood. During flood the people shift to some other safe places and after occurrence of flood they come back their occupied land.

The district Nagaon has as many as 43 char villages. The people of a particular community mostly occupy these villages. The total population of all villages is 53,289. The populace is mostly illiterate. Only 8.4 percent of the total population is literate. Nearly 53.2 percent souls are living below poverty line in all villages. Altogether 3265.25 hectares lands are belonged to all char villages. Out of total char lands, 2285.67 hectares are cultivable land. There are 7526 numbers of farming families from all villages. The economic activities of the inhabitants are generally cultivation and fishing. In char or chapari land, Nepali grazers keep large herds or buffaloes, cows and goats for milking business.

The people of all villages are mostly used river water as their drinking water during rainy season. However, a very few households have hand-pump tube wells from where they collect their dinking water. The villages are not connect by any road. The country boats are used for their communication during rainy season. During winter season char dwellers use to travel a long distance on foot to reach a nearly place of bus stop from where they go to town. The medical sub-center is in some villages. In some villages there are lower primary schools and M.E schools. For higher education, the children of char dwellers have to go to nearby place where such facilities are available.

Never- the- less, the people of char areas are maintaining a very miserable lives from all aspect of life. Though they are hard workers still then they are unable to overcome their poverty at any cost.

Source: Statistical figures quoted are supplied by Director Char Areas Development, Assam.

Land and Land-Use-Pattern :

Agriculture is the pre-dominant occupation of the people of the district. The area of the government wasteland was very large in the past but with the inflow of immigrants a large char areas of the virgin soil has been upturned. At the same time, a large area of wasteland such as forest area has been taken up for habitation. A large tract of wastelands has also been brought under tea also.

Table - 1

Land-Use Pattern In Nagaon district 1997-98 (Provisional)

SL.No	Classification	Areas in hectares
1	2	3
1	Total geographical area (professional survey)	383,100
2	Forest area	90342
3	Land not available for cultivation	54,001
(a)	Land put to non-agricultural use	31,472
(b)	Barren and uncultured land	22529
4	Other cultivated land excluding fallow land	24,988
(a)	Permanent pastures and other grazing land	9,966
(b)	Land under Misc. trees groves, etc. (not including net area Cultivable	11,189
(c)	waste land	3,833
5	Fallow land	8,862
(a)	Fallow other than current fallow	2,057
(b)	Current fallow	6,805
6	Net area shown	232,837
7	Total cropped area	364,518
8	Area shown more than once	131,681

Tenancy:

The Tenancy Acts that have been enforced throughout the district are of relatively recent origin. The Government of Assam enacted the Assam (Temporarily Settled Districts) Tenancy Acts in 1935 with a view to regulating the rights and liabilities of the agricultural tenants and landlords. It seeks to confer

upon certain right over the land. The tenants enjoyed Lakharaj lands or Khiraj lands as riots under certain agreements, express or implied, on payment of rent. But this Act was replaced and a fresh Act known as the Assam (Temporarily Settled Areas) Tenancy Act of 1971 (Assam Act XX II OF 1971) which seeks to confer the right of use and occupancy of land on the tenant who is in continuous occupation of land for a period of three years. This Acts also abolishes the right of the tenants to sublet the land in their occupation.

In order to provide protection to the non-agricultural tenants in the urban areas, the Assam Non-agricultural Urban Areas Tenancy Acts was enacted in 1955. The sufficient protection has been rendered to the tenants again eviction by the landlords. The Acts also makes it obligatory on the part of the tenants to pay fair rent the landlords is regulated by the Assam Urban Areas Rent Control Act, 1966. The relationship between the landlord and the tenant who is in occupation of any house on payment of rent. It remains in force for a period of five years only.

In 1972, the Governor of Assam has promulgated an Ordinance known as the Assam Urban Areas Rent Control Ordinance, 1972 (Assam Ordinance III of 1972) regulating fair rent of houses situated within the limits of urban areas of Assam. The Acts provides adequate protection against ejectment of the tenants from rented house. This Acts is also obligatory on the part of the landlords.

The Assam Adhir Protection and Regulation Act was enacted in 1948 with a view to giving protection to the adhiars who cultivated land on the basis of crop sharing with the landlords. This Act also regulated the rent payable by the tenants. According to this Act, the tenants get three fourths to four-fifty of the total crops depending upon the supply of the plough and cattle by the landlords.

Besides the above Acts, various other Acts have also been implemental in the district to bring the land reforms in respect of conferring virtual owner-ship of the agricultural land on the actual cultivations. The Acts has also reduced the holding of the owners of vast estates. Some of the important legislations implemented in the district are-

(I) Ceiling on Agricultural Holding

The Assam Government has enacted an Act known as the Assam Fixation of Ceiling on Land Holding Act, 1956. The main objective of the Act is to make the actual tillers of the soil, the owners of the land. The ceiling of land for the owner was fixed at 150 bighas. The Act was amended in 1957, 1962 and in 1975. The ceiling was reduced to 75 bighas of agricultural land in 1963 and this was again reduced 50 bighas in 1975.

(II) The Assam Land (Requisition and Acquisition) Act, 1948 (Assam Act XXV of 1948):

This act provides for requisioning and acquiring surplus lands of grant holders to provide land to the landlords, flood affected or displaced persons or to co-operative societies formed for the purpose of cultivation.

Major characteristics of the district :

Irrigation:

Nagaon district receives heavy rainfall during the monsoons and about eight percent of the rainfall of the district is received during May to September. Rice and jut get sufficient rainwater but in the high lands of the district rainwater does not accumulate in the fields as most of it drains off. The cultivators generally raise bunds at certain points. Agriculture suffers loss in year of excessive rains due to floods and fails in the year of drought. The primitive way of irrigation is still running in the district. The channels, and ponds are constructed to water the paddy as well as for other crops. The water, which is abundantly available in various rivers and beels in the district, has not been properly irrigated to supply water to the agriculture fields. The insufficient irrigation facility has adversely affecting cultivation of the district. Some minor irrigation projects are installed in the district by constructing bunds across the streams, and rivulets, drainage channels and silt channels to obtain silt deposits in low-lying areas. Lift irrigation with electric pump has also been used in some parts of the district.

There are three main agencies in the State engaged in the implementation of irrigation projects. The Agriculture Department takes up small projects. The Flood Control and Irrigation Department executes bigger projects. The Embankment and Drainage Department takes up minor and medium projects. The lift Irrigation schemes are undertaken so far by this Department. The Jamuna Irrigation Project is a medium irrigation project described as the first of its kind executed in the district. The waters of the Jamuna river has been harnessed to irrigate the major areas of the district. It covers an area or 20,200 hectares. The Embankments have been constructed since the late fifties on an extensive scale as a means of protecting the riverine areas from the ravages of flood in the district.

Table - 2
Irrigation Potential Utilized and Targets for Additional Potential created in Nagaon district (1997-98)

Sl. No.	Particular	Land area in hectares
1	2	3
1	Irrigation potential utilized during 1997-98	25,194
	During Kharif	21,702
	During Rabi and pre Kharif	3.492
2	Irrigation Potential created up to 31.3.1999	86,605
	Minor	15,116
	Major	71,489
3	Target for additional irrigation potential created during 1998-99	220
	Minor irrigation	120
	Major and Medium irrigation	100

Agriculture and Plantation

Agriculture is the mainstay of the economy of the people of the district. About 70 percent of the people in the district depend on agriculture. The soil and climatic condition of the district are good enough for agriculture activities. The soil is of alluvial origin. It varies from pure sand near the Brahmaputra to clay so sticky has to render it utterly unfit for cultivation. The land best suited for the growth of rice is a clay loam. Atain, the most fertile variety of land is called Bherbheria and is particularly very soft. This type of soil is found in the areas from Silghat to Jagi. The rainfall is also sufficient to grow paddy, mustard, potatoes, jute, wheat, pulses and vegetables. The principle crops cultivated in the district are -

Crops

Paddy is the most important food crop of Nagaon district. The staple food of the district is rice. The cultivation of paddy falls under three heads Sali, Ahu and Bao. The cultivation of Boro paddy has been introduced lately in the district. There are various types of Sali Paddy which are grown in the district are Monohar Sali, Hati Sali, Lahi Sali, Prasad Bhog, Joha, Bora, Ijong and Basmati. The finest variety of Sali is called Lahi which is grown in higher fields. The Joha is the finest variety of rice cultivated in the dist. Baradhan which is a specie or Sali paddy is good for making chira and pitha (cakes).

Baodhan is grown in low-lying area of the district. The crop is subject to destroy in the flood. Ahudhan is another paddy grown in the district. It is sown relatively in higher area and it does not require much water. However it is liable to be destroyed by sudden rise of the river water. It is generally grown in chars or chaparis in conjunction with mustard. The high yielding varieties of paddy are becoming increasingly popular throughout the district.

Mustard

Mustard is normally grown in low-lying areas in conjunction with Ahu. Nagaon district grows a major share of mustard out of the state total production.

Pulse

Pulse is grown in alluvial flat land near the Brahmaputra of the district. The pulses grown in the district. are – Mati-Mah, Masur-Mah, Motor-Mah, Arahar, Magu-Mah etc. Pulses are grown sometimes conjunction with summer rice. A good amount of Pulses are grown annually in the district.

Jute

Jute is an important fiber crop grown in the low-lying plain areas of the district. This crop contributes largely to the economy of State. Since the beginning of the present century, area under jute has increased enormously in the district. Two varieties of jute such as Titamora and Mithamora are grown in the district. Various measures have been adopted to improve the quality and augment the production of jute in Assam including Nagaon district.

Sugarcane

Sugarcane is an important crop of the district. It is grown on high lands. Tiny patches of sugarcane fields are seen almost in every circle of the district. Areas under sugarcane cultivation increases in one decade to other. The Government is advancing loan and subsidy to the cane growers of the district.

Potato

A large quantities of potato is grown in the district. However, it ernables to meet the demand of the district A large portion of its demand meets from outside the state.

Plantation

Banana an important fruit of Assam locally known as Kal. As many as ten varieties of this garden crops are grown, but most important are Monohar, Chenichampa, Malbhog, Bhimkal, Purakal, Jahaji. Purakal is used as vegetables. The whole plant from leave to root is used for different purpose.

Areca nut is grown almost as universally as the banana. The pan is also grown side by side in the

district. The coconut is another important fruit plant of the district. The other varieties of fruits grown in the district are pineapples, Mango, Jack fruit, Papaya, Lemon etc. Almost in each compound of farmers some of these trees are usually found. The common vegetables grown in the district are Spinach, Lai, Radish, Lafa, Suka, Cabbage, Cauliflower, Brinjal and potato, Onion etc.

Tea

Tea is also produced in Nagaon but it is not so important a crop as in the district Sibsagar, Dibrugarh, Tinsukia and Darrang. However, there is a gradual expansion of area under tea in the district. Many small tea growers are come up recently in the district.

However, the climate, condition of soil, rainfall, flood etc are the most important factors upon which the quality and quantity of crops grown is mostly governed in the district.

Table - 3

Area, Production and Average Yield of important crops in Nagaon district. for the year

Sl. No.	Types of crops	Area under cultivation (in hectares)	Production (in tones)	Average Yield kg (per hectare)
1	2	3	4	5
A-Cereals				
1	Autumn rice	28,547	32,669	1,163

The Assam Agro-Industries Development Corporation Ltd, a private Company, and the Agriculture Department are the main departments of the State, which provide help of all kinds to farmers.

The Corporation is now distributing fertilizers to the agriculturists and also helping some tea gardens in procuring their requirements. The Corporation distributes all the agriculture inputs like fertilizers, pesticides; small equipments through retail agents in the district. It has also undertaken the task of issuing tractors, power pumps and power litters under hire purchase system.

The Agriculture Department is also providing necessary helps to the agriculturists in the district. This department has implemented the major irrigation schemes in the district. This Department has provided in recent years tractors and bulldozers with necessary implements at Nagaon district. It has also taken schemes to distribute compost and green manure in all parts of the district. Needy cultivations can also buy at moderate rates improved seeds of different crops produced in seed farms opened in Blocks of the district by the Department. This Department has taken up plant protection schemes. Samplings of fruit trees are also made available at horticultural nursery started at Kathiatoli near Kaliabor. The Assam Seeds Corporation was also set up in 1967 to produce and distribute quality seeds. All seed farms and the horticultural nursery have been handed over to the corporation by the Agriculture Department. This nursery of the district distributes the plants of Coconuts, Orange, Pineapple, Lemon and other fruit bearing trees in the district.

The opening of the Assam Agricultural University (Agricultural section) at Jorhat and at Guwahati. (Veterinary section) have entered a new era of agricultural education. More emphasis has now been laid on agricultural research, and its full benefits are being enjoyed by this district along with all other districts of the state.

Animal Husbandry and Veterinary :

Various kinds of livestock are found in Nagaon district. Livestock is the main wealth next to agriculture of a large chunk of populace of the district. It plays an important role in economy of the state which is supplement by Animal Husbandry.

Cattle and goats are main animals for most of the households of rural population. A major portion of the families of the district earn money by selling milk, cow and goat. More ever, Buffaloes, Sheep, Horses, Pigs, Fowls and Ducks are found in the district. Some of the families started to keep the Jersey cows for business purpose. The different agencies have come forward to help the farmers by providing graded Jersey cows under various schemes.

For the development of livestock emphasis has been laid on the cultivation of fodder crops to provide them with nutritious diet. Roots and seeds of improved grasses are freely distributed to the farmers from the Government farms. The present Animals Husbandry and Veterinary Department, which was known as Civil Veterinary Department has started functioning in Assam since 1953. This Department has been constantly helping the farmers for their animals. In order to improve the breed cattle, measures have been

adopted by the above Department. Contagious and infectious diseases are also prevalent among the livestock in the district. To protect animals from such diseases measures are taken by the Department. The Government has also established Hospital, Dispensaries, farms, training centres etc for the benefit of animals in the district. There are one hospital, 30 dispensaries,3 mobile dispensaries, 13 block dispensaries, 2 renal artificial insemination, 39 stockman centres, and 6 key village centres in the district in 1996-97.

Fisheries

Pisciculture is becoming popular among all section of the people. It is now- a- days become a source of income for village people. Most of the village people have their ponds where fish of various kinds are produced either for sale or for own consumption or for both purpose. No social stigma is attached to this business at present as such commercial fishing has been taken place in large scale.

Fisheries in Assam are of different kinds. There are beel, river, swamp, forest derelict and semi derelict, pond and tank fisheries. Beel and river fisheries may be either registered or unregistered. Besides there are good number of private tank, marshy areas, dead river and canals where pisciculture is done. The different kinds of fishes are available in beels and river of the district. The bigger type of fish generally found in the beels and rivers are Rou, Barali, Chital, Kalia jira, Bhokuwa, Gagal etc. Among the small varieties Kawai, Magur, Puthi, Kalihana, Shiagra, Garoi, Chalkana etc are very common in the district.

The development of fisheries in the district was imitated only after in dependence. The scheme taken by the government for the development of pisciculture is—

a. Seed collection and distribution
b. Survey of ancient tanks.
c. Renovation of ancient tanks
d. Fish farming.
e. Financial assistance and loan for promotion of fisheries.
f. Distribution of feeding for fishes etc.

The main objective of the Fishery Department of the district is to increase fish production by demonstrating scientific methods of pisciculture with a view to popularizing them. Among the major achievements of the Fishery Department in the district is the setting up of Raha Fish Seed Production and Distribution Centre, Kathiatoli Fish Seed Raising and Distribution centre, Jangalbalahugarh Fish Farm ,Bhalukmari and Jorapukhuri Fish seed Raising and Distribution Centre and Hojai Borpukhuri Fish seed Raising and Distribution Centre.

The over-all position is that the available natural resources of Nagaon district have been boosted up by the various schemes undertaken by the Fishery Department in the district and the district is in a position to supply fish even to consumers of neighbouring districts after meeting its own demand. According to Statistical Handbook of Assam, 2000 Nagaon district possesses 40 Registered Rivers Fisheries. The production of fish seed was targeted on 1340.00million numbers in 1998-99 but the achievement was 645.58 million nos. Similarly, the production of fish was targeted on 13100 metric tones in 1998-99 but the same was achieved 12986.18 metric tones.

Forestry

Botanically the forests of Nagaon district can roughly be divided into two divisions-the Tropical evergreen forests and Miscellaneous forests. The first category includes vegetations like Amari, Gonsarai, Sapa and trees of similar varieties. In the second category such species are included the top canopies of which are deciduous and the middle and the lower canopies are evergreen in character. Besides these two major divisions, other types of forests include mixed type, wet miscellaneous type ,riverine type, savannah type and swamp type. These are also composed of many canopies such as top, middle and lower canopy. The mixed type of forests contain the top canopy species such as Sal, Bhamora, Sida, Jamu, Ajhar, Sam etc The middle canopy contain species like Kumbi,Gohara,Sonaru, Kuhir, Bandarkim etc. The

under growths are generally shrubs and grasses like Thatch and Hay which are fallen under lower canopy species.

Similarly the dry and wet miscellaneous type of Forests include the species like Gomari ,Ameri,Bola, Bagipoma ,Gonsarai, Sapa, Sam, SimulandBheluSam, Hollock, Ameri, Khokan, Karai, Jamu, Hatipaila etc respectively. In the riverine type of forests contain Korai, Ajhar, Urium, Outenga, Mukani, Poma, Gomari etc. The Savannah type includes species like Ulu, Khagri, Ekra, Nal (reed) etc. The swamp type contains Alpine species.

Forestry plays a significant role in the economy of the district .A considerable section of the people of the district depends upon forests for firewood and timber bamboo, ekra reed, thatch, tokopat, cane gravels etc for building their dwelling houses. A number of forest base industries like saw-mills, furniture workshops, bamboo and cane industry etc have also been set up in many parts of the district.

The Nagaon Forest Division supplies a considerable number of logs and match wood species to the Match Factory at Dhubri, Besides, boulders, gravels, sands and other forest products also earn a considerable revenue to the Government. Apart from other forest products the sale of timber is an important source of revenue of the Forest Department

The Forest Department has adopted the following measures for the development of forests in the district (a) afforestation, improvement and extension of forestry, (b) development of communication in the forest areas,(c) development of forest industries and (d) survey and demarcation. Further for better initiation of such measures, the forest personals are trained in the Assam Forest School, Jalukbari, Guwahati, and also in the forest institutions at Dura Dun and Coimbatore.

Table - 6
Area under Forest in Nagaon district as on 31-3-1999.(in hectares)

Industries

The old time industries that flourished in Nagaon district are Handloom Weaving Sericulture, Pottery, Bamboo and Cane works, Mat-Making, Brass and Bell-metal industry, Blacksmith, Gold and Silversmith. But the stiff competition which the indigenous industries aced from the mill made cheap goods imported from outside, quickened the decay of many above mentioned cottage industries. Although cottage industries still play a vital role in the economy of the district. Weaving and sericulture are improving a lot in present days due to establishment of various Boards and Departments. The Khadi and Village Industries Board, the All India Handicraft Board, the All India Handloom Board, the Central Silk Board, the Coir Board and the Small Industries Board, and the Directorate of Sericulture and Weaving and the Directorate of Industries of Assam are established and are looking after the development of village and cottage industries in the state as well as in the district.

Large Scale Industries

Tea Industry is one of the most important agriculture based industry of Assam. In some part of Nagaon district , tea industry is flourished but it is not like that of Upper Assam districts. The tea industry was first started in the district in 1859 in the area lying west of the Mikir Hills which formed a part of this district. During the next 10 years the tea industry made some expansion in Nagaon district There were only 12673 acres under tea in 1990 and gradually the area under tea industry is increasing in the district. This industry provides employment to a good number of people in the district. Now-a-days many small farmers have come up and take up for cultivation of tea plants and thereby they are earning income.

Another important public Sector Industry is the Jute Mill which is running in the district providing employment to local people Jute Mill was established in 1959 by the n Assam Co-operative Jute Mill at Silghat 54 kms from Nagaon town. The district is a major jute producing areas in Assam.

Besides these above mentioned two industries there is no major industry worth mentioning in the district. However, the district is still rich in having many small scale cottage industries scattered in the district. But due to various reasons, these industries are not developed in the line of modern style and techniques. However, the Industries Department, Industries Development Corporation and different Boards have been constantly looking after these industries by providing assistance help and guidance.

Table - 7
Distribution of registered Factories in Nagaon district- 1998.

Sl. No.	Name of industry	Nos.

Trade and Commerce

In early times a good overland communication system was not feasible and therefore the scope of external trade was very much limited. Trade with Bengal was generally taken place through the Brahmaputra river in the past. Internal trade was usually done in hats and melas, A considerable amount of retail business was done in local markets. The articles offered for retail sale in the markets were rice, other grains, fruits, vegetables, earthen pottery wares, tobacco, cotton cloths etc.

The position of trade and commerce in the district began to change rapidly. A vast net-work of road communication was developed which led to the growth of many trade centers in the district. A major volume of business both internal and external is carried by newly developed road and rail communication.

Nagaon town is the principal centre of wholesale business in the district Salana is the important wholesale centre for all exportable goods. Other important wholesale centre of the district are Raha, Hojai, Lanka, Lumding, Rupahi, Daboka, Dhing, Mairabari etc. Wholesale as well as retail business are growing fast in these centre. Guwahati is the main trade centre in the State where from many of the commodities are imported to Nagaon district. The wholesale purchase of some items such as sugar and pulses is done in the production centre located out side the state.

The Primary Co-operative Marketing Societies were organized in 1958 in each districts to carry on the trade. The Nagaon Wholesale Consumers Co-operative Society was registered on 1966. In 1966-67, there was one District Co-operative and 18 Primary Co-operative Marketing Societies in Nagaon. The Primary Co-operative Societies procures paddy directly from the farmers at a price fixed by the Government. The price is revised from time to time depending on market price.

Banking

Nagaon district had no banking establishment in the long past. The money lenders were the principal source of credit and loan. The Nagaon Central Co-Operative Bank was established in 1920. Commercial banking facilities became available after opening of branch offices at Guwahati in 1943 and the United Bank of India in 1940 in Nagaon town. In the meantime, the Co-operative Societies have come in a big way to meet the credit requirement of rural people. In addition to increasing Co-Operative credit facilities some of the commercial banks after bank nationalization have opened branches in the rural areas of the district to cater to the credit needs of the rural folk. The Kabuliwals and village Mahajans have also a dominant role in the matter of money lending business.

There is no Joint Stock Commercial Bank incorporated in the district. There are only a few branches of Commercial Banks. The Guwahati Bank Ltd. which is a non commercial bank has opened its branch office at Nagaon in 1943. It provides agricultural advances in the shape of loans. The Nagaon branch of the United Bank of India was opened at Nagaon town in 1940. This bank now undertakes agricultural advances in addition to advances for business and industry. The Nagaon branch of the State Bank of India was set up at Nagaon in 1954. This bank has also three pay offices at Raha, Hojai and Dhing. It now 'transacts all banking business in addition to the Government transactions.

Nagaon is now served by the Assam Co-operative Apex Band Ltd. shouldering the responsibility of rural credit finance from funds allotted by the RBI and also from its own resources. The

Transport

The mighty river Brahmaputra which runs along the entire northern boundary of the district Nagaon with main river ports at Silghat, Dhing and Laharighat served as the main trade route in the long past. There was no land routes at all during the Ahom days in Nagaon district. The present National Highway and some other roads were constructed during the Ahom rules. Some development of roads were come up during the British rule also.

At present Nagaon district is well connected with the other parts of the state by road, rail and also steamer. The State Transport buses as well as private buses ply regularly in the roads of the district carrying passengers to and from all important places with state and district headquarters. The National Highways No 36 covers an areas of 128 kms from Nagaon town to Parakhowa. The N.H No.37 covers a distance of 100 kms.

Assam State Transport Corporation has plied many buses from Nagaon to different places within and outside the district. But due to financial crisis, the most of the buses has temporarily suspended at present. Besides states buses, private buses are regularly enrouted in various routes of the district. The night buses also run from Nagaon to important places of other districts of Assam. Taxis and Auto rickshaws are available all towns of the district.

The Assam Bengal Railway was extended to Upper Assam connecting the province with rest of India. It enters present Marigaon district and passed through Jagiroad (Marigaon), Amguri, Dharamtal, Karaguri and Chaparmukh where it turns to the southeast and runs up the valley of the Kopilli and finally leaves the district after Lumding junction. A branch line in the district from Charamukh to Silghat was also constructed and another line is also constructed from Senchoa to Mairabari. The district is all served by about 255 kms of Railway.

As per Statistical Hand book Assam, 2000, there were 1895 trucks, 46 light commercial vehicles, 737 buses, 61 Omni buses, 28 taxis, 510 auto-rickshaws, 15495 two wheelers, 2062cars, 275 jeeps, 340 tractors, 295 trailers, 10 cranes, 365 Government. vehicles, and 181 other vehicles as on 1998-99.

Electricity and Power

Nagaon district was first electrified in the year 1940 by a private company. The company could generate power to a very limited capacity and it was mainly confined in the areas of Nagaon town only. A few years later a scheme was taken over by the State Electricity Board and a Diesel Power Station was also installed near Nagaon railway station. This has able to improve the position of power supply to a certain extend than the former till 1970.

In the year 1971 Nagaon district was connected to the Umium Hydel Project and then onwards, the position of power supply in the district has improved a lot in 1981, under the Rural Electrification Scheme, the power supply has also been extended to rural areas covering as many as 829 villages.

As per Statistical Hand book Assam 2000, the total number of villages electrified in the district were 1250 as on 31st March,1999.

Local Self-Government

The present system of local self-Government in Assam is a legacy of the British administration. However, some form of local self-Government was in existence even during the pre-British period. The Namghars established by Sankardeva were a form of village parliament. From the beginning, the Namghar formed the club of all village activities. It was the village club and theatre. It exercised a close spiritual control over all members of the community. It was the village court, trials of disputes and crimes were held in it and no one disregard the judgment given by the elders of the village. The difficult cases were referred to the superior of the satra.

The Khel (unit of people) system which prevailed in Assam during pre-British Government. There were two khels in Nagaon district. But the Local Self-Government Act, 1915 brought some changes on Local Self-Government in Assam. The Nagaon Local Board was reconstituted according to this Act. Again the

Local Self-Government Act 1926 was passed. In 1945, the strength and composition of Local Boards was further revised to accommodate Scheduled Castes and Scheduled Tribes. This Act was again revised on 1953. The Assam Panchayat Act which came into force in 1960 abolished the Local Boards.

The most important institution of Local self-government in the urban areas is the Municipality. Nagaon town Municipality is the oldest Municipality in the district which was formed in 1894. The district Nagaon has at present 3 Municipalities at Nagaon, Hojai and Lumding and 3 town committees at Dhing, Dobaka and Lanka. All the Municipalities and towns are run in accordance with the provisions laid down in Assam Municipal Act of 1956 and subsidiary rules framed there under by the Government from time to time. The chairman is the head of the administration and the presides over the meeting of the Board. The Board is entrusted with the maintenance of drainage system, street light, medical and public Health facilities and to keep the records of births and deaths. Besides, it maintains and established some schools, libraries, community halls and arranges the facilities for marketing etc. It also maintains a sanitary branch to ensure proper hygienic conditions in the towns.

The Municipality has various sources of revenue and receives annual grants from the Government. It levies taxes on holdings, rickshaws, carts, cycles, stalls, open spaces, markets, cinema houses besides receiving taxes on houses, land etc.

The Town Committee is generally formed with 6 or 7 members. The Town Committee has adopted various schemes for the improvement of road, street light, drainage etc. Taxes under different heads and Government grants are the main sources of income.

The Panchayats are also some forms of Local self Government. The Government of Assam passed the Assam Panchayat Act, 1959. The Act provided for three tiers of Panchayat at village level, the Anchalik Panchayat at the Block level and the Mahkuma parishad at the sub-division level. The Gaon Panchayats are entrusted with clearing and lighting of streets, sanitation and conservancy, burial and cremation grounds play grounds, public recreational centres control of public latrines, diseases, medical relief, construction of roads, land management, public radios, birth and deaths and many more.

The Anchalik Panchayats are also entrusted with similar jobs mentioned above but they are to supervise the Gaon Panchayats and to approve the budgets of Panchayats.

The Mahkuma parishad scrutinizes and approves the budgets submitted by Anachalik Panchayats. The decision of the Parishad is final. The Parishad advises the D.C/S.D.O in the distribution of rural development fund. It also advises the Government in drawing up of the district plans. All the Anchalik Panchayats in the district work as a unit of Local Self Government. The income of the Panchayats is derived from grants-in-aid, taxation and remunerative assets. There are 13 Anchalik Panchayats in Nagaon district. But the Panchayat Act 1972 which was operated in 5th May,1973 changed over to two tier system of Panchayats and the intermediary Anchalik Panchayats have been abolished.

As mentioned in the Statistical Hand book Assam,2002, there are 242 Gaon Panchayats and 3 Mahkuma Parisads in districts.

People and Social life:

People

Nagaon is a populous district of Assam having majority of Assamese people. The religious life of the people in Nagaon is mainly by two religions Hinduism and Islam. Other religious communities such as Christians, Buddhists, Sikhs and Jains have a little share in the total population of the district.

The Hindus are divided in to three main sects Saktism, Saivism and Vaisnavism.The Saktism people are followers of Sakti or worshippers of the reproductive power as manifested in the female. The Saktism was widespread in this district which is evidence by the existence of many sakti temples of Kamakhya, Mahamaya, Durga, Kali etc. The worship of Durga has gained ground due to patronage of Ahom kings who were inducted to saktist cult Vaisnavism relates to the worship of Lord Vishnu or Krishna. The leader of the Vaisnava renaissance in Assam was Sankardeva and his some great disciples, Nagaon district takes pride in the fact that Sankardeva, the great Vaisnavit saint was born at Bardowa, a village of this district. He was the founder of Vaisnavism in Assam. He did away with worship of images, the elaborate rituals and sacrifices and the esoteric rites practiced by the saktas. His religion is known as the Eka Sarana Nama Dharma or the religion of the worship of only one god Vishnu through recitation of his name, in hymns and prayers. The religion is also called Bhagawati Dharma. After the

death of Sankardeva, Madhavdeva took the charge of Vaisnavism.

Sankardeva was the founder of the Satras. "Asana (seat) Sinhasana (seat with lion motif), Guru-Asana(seat of the Guru, that is, Sankara or Madhava), or Mahapurusar Asana (the seat of the Guru identified with the supreme being), are a constant feature of the sattra or Kirtanghars". The satras are said to be religious colleges of the Hindus. Through the establishment of the satras, Sankardeva brought about a religious, social and cultural revolution in Assam. The satras has enriched Assamese life in various spheres besides religion. It has played a great role in moulding and remoulding Assamese society and culture.

Saivism is concerned with the worship of the procreative energy as manifested in the male in the form of Siva. There are only a very few Siva temples in Nagaon district from which it can be assumed that this form of Hindu religion was not widely practiced in Nagaon.

Muslims in Nagaon are of the Sunui sect. At the beginning, the Muslims formed a small community in the district but now they have increased to second largest community in the district. In case of other religions, it appears that the population impact in this district is not very much.

Nagaon has been a melting pot of tribes and races. There are Brahmins, Kayasths, Kalitas, Keots Barias, Suts, Jogis, Rajbansis or Koches, Kaibartas, Ahom, Lalung, Boro-Kacharis, Mikir etc in the district.

Social life

Among the Hindus, the property is generally held by he head of the family who manages it as its custodian. After the death of the father both sons and daughters inherit the property. The joint family system was common before a few decades. But now-a-days the joint family system is loosing its held day by day because of new socio-economic influence. But in case of Muslims, this system is still prevalent mostly in the rural areas.

Marriage

The marriage is an important function of the social life the child marriage among Hindus is practically unknown. The average age of marriage for boys and girls has been rising due to spread of education and change in the social out look. But in case of Muslims, early marriage is seen among illiterates of rural areas.

Monogamy is common among all sections of the people of the district, but it was not compulsory among the Hindus, The Muslims follow the practice of polo gamy in the manner prescribed by the Muslim law but they do not prefer it. The tribal people of the district are mostly monogamous. Polyandry is prohibited among all sections of people.

Marriage among the Hindus is generally performed in three days. The first day of marriage is called Joran. From the house of bridegroom some gifts such as ornaments, bridal dress, fish, betel-nuts, coconuts, cosmetic items take to the house of bride and presented to the bride. In the day of marriage, the bridegroom comes to the house of bride and the priests of both the houses performed the marriage. The bridegroom and bride take the oath in front of fire by moving round the Hom (Fire) 7 times. Generally, the father of the bride hands over his daughter to bridegroom. After completion of the marriage the bride has taken to the house of the bridegroom with the presents giving by the parents of bride. After performing the some customs the bride is allowed to enter in the house of bridegroom. After 3 to 4 days of marriage by offering a feast (Bhatdiya or Khoba Khobani)the bride and bridegroom start their conjugal life. The practise of dowry is not prevalent in the district among the Hindu people. Among the Hindus the caste distinction is not as rigid as it was a few decades ago.

The oral use of Opium, Ganja and Bhang has been in force in the district. Prohibition of liquor was in force from 1960 in the district. But before the prohibition, drinking of locally made liquor was very common among tea garden labourers and tribal people. The tribal people are still taking rice-beer liquor prepared by them selves, But now-a-days due to modernize way of life, a section of people from all religions other than laborers and tribal induces to take drinks.

The homestead in rural Assamese family generally consist by a few houses. The every family has their Choraghar (Receiption house),Borghar (living house), Bhoralghar (granary),Gohainghar (worship house), Gohalighar (cow shed), Pakghar (cookshed) etc. The houses are made of thatch, bamboo, reed, and mud. Wooden posts are also used. At present who can afford, has constructed his house on modern line

using C.I. sheet, brick and cement. The houses of Bengali and Muslim families are different from Assamese family. They do not have different number of houses for different uses.

All old type furniture used by Assamese family in the past have been replaced by modern furniture. Similarly, use of bell-metal and brass utensils have also been replaced by utensils made of china clay, glass, aluminum, Steel, plastic of modern products.

Male dress included dhoti, chadar, shirt, trouser, pant and coat. Female dress consists of riha, mekhela, chadar, and blouse and ornaments include necklace, earring, bracelet, keru, moni, kharu, benu, dudugi, chain, bala etc. The use of traditional and typical Assamese ornaments has also been replaced by modern products. Dresses for Assamese and Bengali male do not have any difference, But there is much difference in female dresses between Assamese and Bengali. The Bengali female puts only sari, Similarly, the Muslim male puts only Lungi.

Many colourful festivals observed in the district by the Hindus enliven the lives of the people. The district is mainly dominated by the Mahapurushia sect, the Durga puja and other idol worships are generally of lesser importance except in towns and tea garden areas. Brisk preparation for Durga puja are made in all puja centres. Doljatra is observed in the district with varying degree of enthusiasm. Sivaratri is also performed in the district Janmastami and Rasa utsava are also celebrated in the district in honour of Lord Krishna. Biswa Karma puja, Lakhimi puja, Saraswati puja, Kalipuja coincides with Diwali are also observed annually.

The special festivals of the Assamese are the three Bihus and Tithis or death anniversary ceremonies of Sankardeva and Madhabdeva. The people of the district performs three Bihus Rangali, Bhogali, and Kati Bihu with much merriment.

Muslims are also observed Id-uz-Zuha, Muharram, Fatiha-I-Duaz daham and Id-Ul-Fitre. The religious festivals of the Kacharis of the district are different from those observed by the Hindus. They believe in Bathau or Siju as the Futelary deity; of the house. Kherai puja, Habajanai, Nat puja, Bugrumba, and Maigainai are some of their traditional festivals.

Most of the indigenous games played in the district in the past have now been replaced by western games and sports. Football competitions are arranged in the towns and in semi urban centres Cricket and football are very popular among the youths of the district. Tennis and Hockey are Confined to Nagaon town only. Volley ball and Badminton are played even in rural areas also. Indoor games like caroms, cards, chess and table tennis are played in the clubs of the district.

****

CENSUS & NON-CENSUS CONCEPT

CONCEPTS AND DEFINITIONS

(v) CENSUS CONCEPTS:

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses:

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

RoomDwelling Room:

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room. In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses. If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household. A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office, etc., and the household also stays in it then the room is not

considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house Rural-Urban area

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house

number.Only cases where a structure with roof and pillars has come up was treated as a building.The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows: a) All places with a municipality, corporation, cantonment board or notified town area committee, etc. b) A place satisfying the following three criteria simultaneously: i) A minimum population of 5,000;ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; andiii)a density of population of at least 400 per sq. km.(1,000 per sq.mile)For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/Urban area :

The following areas are treated as towns/ urban area

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

i) A minimum population of 5,000; ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits ; and iii)A density of population of at least 400 per square kilometre (1,000 per square mile).

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually. A 'household' is usually

a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste andScheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below: (Each Census Directorate will provide list(s) of the Scheduled Castes & the Scheduled Tribes as applicable in the State/Union territory. In this connection, the publication 'List of the Scheduled Castes and the Scheduled Tribes, Census of India, 2001' supplied by the ORGI is given below :

Scheduled Castes :

1 Bansphor
2 Bhuinmali,Mail
3 Brittial Bania,Bania
4 Dhupi,Dhobi
5 Dugla,Dholi
6 Hira
7 Jalkeot
8 Jhalo, Malo,Jalo-Malo
9 Kaibartta
10 Lalbagi
11 Mahara
12 Methar,Bhangi
13 Muchi, Rishi
14 Namasudra
15 Patni
16 Sutradhar

Scheduled Tribes :

I. In the autonomous district :

1 Chakma

2 Dimasa,Kachari

3 Garo

4 Hajong

5 Hmar

6 Khasi, Jaintia, Synteng, Pnar, War, Bhoi, Lyngngam

7 Any Kuki Tribes Including:

(i) Biate,Biet

(ii) Changsan

(iii) Chongloi

(iv) Doungel

(v) Gamalhou

(vi) Gangte

(vii) Guite

(viii) Hanneng

(ix) Haokip, Haupit

(x) Haolai

(xi) Hengna

(xii) Hongsungh

(xiii) Hrangkhwal, Rangkhol

(xiv) Jongbe

(xv) Khawchung

(xvi) Khawathlang, Khotalong

(xxxvi) Uibuh

(xxxvii) Vaiphei

8 Lakher

9 Man(Tai Speaking)

10 Any Mizo(Lushi)Tribes

11 Mikir

12 Any Naga Tribes

13 Pawi

14 Syntheng

II. In the State of Assam excluding the Autonomous District

1 Barmans in Cacher

2 Boro, Borokachari

3 Deori

4 Hojai

5 Kachari, Sonwal

6 Lalung

7 Mech

8 Miri

9 Rabha

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that

the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker' .

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which

would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years

Sex -ratio :

Number of females per 1000 males in a population.

(vi) NON CENSUS CONCEPTS:

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine andMethod of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation

to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid -year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1 Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 Probability of dying between birth and age 2.

q5 Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 daysDuring the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects

concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant. (iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types :

(i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration)

(ii) Migration from one state to another State of the country (inter-state migration)

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 100,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent

phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings – Population, its distribution

a) The total population of the district comes to 2,314,629 in 2001 Census. Male comprises 1,190,950 while female consists of 1,123,679. Out of the total population of the district, 2,036,342 fall under rural and 278,287 are under urban areas of the district. In rural areas 1,045,398 and 990,944 are males and female respectively. Accordingly 145,552 and 132,735 are males and females respectively in urban of the district. The percentage of urban population in the disrict Nagaon is only 12.02 . The district is a rural base place in which 88 persons out of each 100 persons live in villages.

b). The decadal growth rate of the district comes to +22.3 which is higher than the state rate. In the district, there are only 10 towns . Nagaon, Hojai and Lumding Town are the towns with Municipal Board and Three towns are with Town Committee status and Four Census Town. The density of the district is 583 persons per sq. kms. which is higher than the state density (340). The sex ratio in the district is 944 as against 935 in the State. Out of total population of the district, 31.4% is total workers of which 49.3% and 12.5 % are male and female respectively. The percentage of non- workers is 68.6 % in the district. The worker are categorised as Cultivators, Agricultural Labourers, Household Industry Workers and Other Workers. The percentages of these categories are 38.4 %, 19.9%, 3.4% and 38.4% respectively.

The literacy rate is 61.7 % in the district of which 68.3 % is for males and 54.7 % is for females. The district literacy rate is below the state literacy rate (63.3)%.

(viii) Brief Analysis of Inset Tables prepared from Primary Census Abstract :

As in previous Census, a number of total Inset Tables are prepared from data which are incorporated in primary Census Abstract in 2001 ,Census also. Altogether 52 Inset Tables are presented in this volume , from data of three sources namely Primary Census Abstract, Village and Town Directory and House and Household amenities of Houselisting operations. The Inset Tables 1 to 36 are based on Primary Census Abstract, Inset Tables 37 to 47 based on Village and Town Directory and Inset Tables 48 to 52 based on houses and household amenties of 2001 Census. The Inset Tables prepared are analysed properly for easy understanding of data users. It is a first step given in 2001 Census, DCHB by all states and union teritories.

Inset tables based on Primary Census Abstract :-

TABLE :1

DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

SL No	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001

District Total:		**1,893,171**	**1,687,449**	**205,722**	**2,314,629**	**2,036,342**	**278,287**	**22.3**	**20.7**	**35.3**	**10.9**	**12.0**

The table gives Revenue Circle wise decadal change of population by resident in the Nagaon district. Total population of the district in 2001 is 2,324,629 of which 2036,342 are in rural and 278,287 are in urban. Among Revenue Circles, Lank Revenue Circle registered the highest population with 397,164 of which 186,464 persons are in rural and 17,177 persons in urban. The lowest in population is Raha Revenue Circle with 148,670 persons. The percentage decadal variation 1991-2001 of the district is 22.3 percent which is higher than the state growth rate.. In the district, there are five Revenue Circles where the growth rate are below the district growth rate. . In urban, Dhing Revenue Circle is recorded 55.5 percent decadal variation in 1991-2001 which is the highest among all Revenue Circles.

TABLE2:

NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

SL. No	District / CD Block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages	Population 200-499

Districts (Rural) Total:		**57,843**	**55,280**	**0 (0.0)**	**0**	**0**

The table gives the number and percentage of villages in specified population size range. Out of 1,375 total number of inhabited villages in the district, the highest number 396 0r 28.8 villages is noticed in the population range between 1000-1999 . It is followed by 359 0r 26.1 villages which are in the population range 2000-4999.The lowest proportion is noticed in the population range between 5000-9999 which is recorded 19 or 1.4 percent of the total number of villages. Among CD Blocks, the highest number of 46 villages is noticed in the population range 2000-4999. The detail in respect of CD Blocks with number of villages according to population range can be seen in the table.

TABLE : 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town	
1	
(a) New	
(i) Statutory town	
1 Doboka TC.	
2	
3	
(ii) Census town	
1 Dimaruguri	
2 Chota Haibar	
3 Kampur Town	
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns

2	
3	

The table-3 indicates that Doboka TC is newly formed in 2001. Three new Census town namely Dimaruguri, ChatoHaibor and Kampur town have been come up during in 2001 Census. No any changes in urban has taken placed in the district.

TABLE4 :
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	14	1.0	7,713	0.4
11-20	4	0.3	164	0.0
21-50	20	1.5	1,708	0.1
51-100	32	2.3	5,434	0.3
101-200	93	6.8	33,483	1.6
201-300	114	8.3	67,380	3.3
301-500	278	20.2	259,771	12.8
501 +	820	59.6	1,660,689	81.6
Not known	0	0.0	0	0.0
District Total:	**1,375**	**100.0**	**2,036,342**	**100.0**

Population Density (Rural) of the district: 674.9

The table-4 shows the distribution of villages by population density. The population density in the range of 501 + has the highest number of villages with 820 in number or 59.6 percent of the district total number of villages constituting population of 81.6 percent. It is followed by the range between 301-500 with 278 or 20.2 percent villages having 259,771 or 12.8 percent population . The least number of 4 villages is noticed in the density range between 11-20 population per square kilometer area of a village.

TABLE- 5
SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	Assam			Nagaon		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	919	929	576	964	972	666
1911	915	923	626	960	966	728
1921	895	906	613	907	919	600
1931	874	885	574	884	898	542
1941	875	886	605	865	876	593
1951	868	878	663	854	864	727
1961	869	887	661	870	888	706
1971	896	912	744	894	909	759
1981	--	--	--	-	-	-
1991	923	934	838	929	935	880
2001	935	944	872	944	948	912

Note : Sex ratio has been defined here as the number of females per 1000 males.

The table-5 indicates sex ratio of the district and the state from 1901 to 2001 in total rural and urban. The sex ratio of the district in total, rural and urban are higher than the sex ratios of respective categories of state The sex ratio in 1901 in the district was much higher from the sex-ratio upto 2001. After 1901 the sex ratio has gone down even to 854 in 1951 but it has taken a upward trend from 1961 to onward. The same is the situation in rural. The sex ratio in urban area in the district has increasing gradually from 1901 to present decade.

TABLE 6 :
SEX RATIO BY TAHSILS, 2001

SL.No	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Kaliabor	937	937	
2	Samaguri	959	959	
3	Rupahi	945	945	
4	Dhing	941	941	952
5	Nagaon	928	944	899
6	Raha	983	983	
7	Kampur	951	952	936
8	Hojai	941	947	905
9	Lanka	937	940	924
District Total:		**944**	**948**	**912**

The table shows Revenue Circle wise distribution of sex ratio. The number of female per 1000 males in the district are higher than the state sex ratio both in rural and urban. Among Revenue Circles, the highest total sex ratio of 983 is noticed in Raha Revenue Circle and the lowest is noticed in Nagaon Revenue Circle with the sex ratio of 928 In urban areas of Revenue Circles, the highest sex ratio is seen in Dhing with 952.

TABLE 7 :
SEX RATIO BY CD BLOCKS, 2001

SL.No	Name of C D Block	Sex ratio
1	2	3
1	Pachim-Kaliabor	949
2	Kaliabor	926
3	Bajiagaon	952
4	Laokhowa	935
5	Mairabari Pt.	943
6	Batadrawa	945
7	Juria	938

TABLE 7 :

SL.No	Name of C D Block	Sex ratio
1	2	3
8	Rupahi	964
9	Barhampur	945
10	Dulongghat Pt.	955
11	Khagarijan	950
12	Pakhimaria	950
13	Kathiatoli	950
14	Kapili Pt.	981
15	Raha	978
16	Binnakandi	961
17	Jugijan	942
18	Dhal Pukhuri	938
19	Udali	930
20	Lumding	944
District (Rural) Total:		**948**

The table gives the sex ratio by CD Block wise. The district sex ratio is 948. At CD CD Block level, Kapili Pt with 981 is the highest and Kaliabor CD Block with 926 is in the lowest position among all CD Blocks. It is noticed that sex ratio in 10 CD Blocks are higher than the district sex ratio while sex ratio of other 10 CD Blocks are lower than the district level sex ratio.

TABLE 8 :
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	22	1.6	4,917	0.2
700-749	6	0.4	700	0.0
750-799	16	1.2	8,794	0.4
800-849	45	3.3	25,029	1.2
850-899	162	11.8	183,762	9.0
900-949	429	31.2	784,107	38.5
950-999	443	32.2	788,739	38.7
1000-109'	217	15.8	228,187	11.2
1100+	35	2.5	12,107	0.6
District Total:	**1,375**	**100.0**	**2,036,342**	**100.0**
Sex ratio (Rural) for District:			**948**	

The table depicts the sex ratio of rural population by ranges. From the table it is seen that most of the villages have sex ratio in the range of 900+. In the district out of total 1,375 inhabited villages, 1,144 villages or 89.0 percent of the total villages having 81.7 percent of the total population have sex ratio between the range 900+ while for 251 villages sex ratio is below 900 of which 22 villages returned sex ratio in the range of below 700 The lowest number of 5 villages 5 with 700 persons have the sex ratio in the range between 700-749.

TABLE 9 :
SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

SL. NO	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Dhing (TC)		952
2	Nagaon UA		899
3	(a) Nagaon (MB+OG)		895
4	(i) Nagaon (MB)		895
5	(b) Dimaruguri (CT)		940
6	(c) Chota Haibor (CT)		928
7	Kampur Town (CT)		936
8	Hojai (MB)		905
9	Doboka (TC)		905
10	Lanka (TC)		926
11	Lumding UA		923
12	(a) Lumding (MB)		930
13	(b) Lumding Rly Colony (CT)		917
Sex ratio (Urban) for the district:			**912**

The table shows urban sex ratio in 2001 is 912 in the district. In the table it is revealed that out of 13 towns 8 towns have been recorded higher sex ratio than that of sex ratio of the district average while remaining 5 towns have recorded below the sex ratio of the district average of which again it is found two towns i.e. Hojai MB and Doboka TC both have shown the lowest sex ratio with 905. Dhing TC has the highest number of females 952 per 1,000 males.

TABLE 10 :
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

		Urban	**32,716**	**16,650**	**16,066**	**965**

The table gives the sex ratio of population in the age group 0-6. From the table, it is noticed that the district sex ratio for the population 0-6 age group for total, rural and urban are 975, 976 and 965 respectively which are higher to the sex ratio for all population of the district for total, rural and urban with 944,948 and 912 respectively. Among Revenue Circles, the highest sex ratio for 0-6 age group is noticed in Samaguri Revenue Circle with 995 and the lowest is noticed in Rupahi Revenue Circle with 959.

TABLE 11 :
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CD BLOCKS, 2001

SL. No	Name of CD Block	Total population in 0-6 age group			Sex ratio for 0-6 age group

18	Dhal Pukhuri	23,059	11,714	11,345	968
19	Udali	18,010	9,161	8,849	966
20	Lumding	15,051	7,507	7,544	1,005
District (Rural) Total:		**393,564**	**199,175**	**194,389**	**976**

The table shows the CD Block wise sex ratio of population in the age group 0-6. The sex ratio for rural of the district for 0-6 group children is 976. At CD Block level it is seen that Rupahi CD Block has the highest sex ratio of 1,008 closely followed by 1,005 at Lumding CD Block. Among 20 CD Blocks in the district, Dulonggghat Pt CD Block recorded the lowest sex ratio of 922. Thus it is observed that there is a wide variation of sex ratio of children in the age group 0-6 in the rural areas of different CD Blocks in the district.

TABLE 12 :
SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	79	5.7	3,592	0.9
700-749	36	2.6	5,024	1.3
750-799	59	4.3	10,206	2.6
800-849	98	7.1	21,928	5.6
850-899	147	10.7	42,995	10.9
900-949	192	14.0	75,520	19.2
950-999	157	11.4	66,583	16.9
1000-1099	325	23.6	117,340	29.8
1100+	282	20.5	50,376	12.8
District (Rural) Total	**1375**	**100.0**	**393,564**	**100.0**
Sex ratio (Rural) for District:				**976**

The table presents the sex ratio of rural population in the age group 0-6 by ranges. From the table it is observed that the number of villages distributed are more in the higher ranges of sex ratio rather than those in the lower ranges. This indicates that the bigger the number of villages, the higher is the range of sex ratio. There are 282 villages having the sex

ratio in the range 1100+ and 325 villages have sex ratio in the range 1000-1099. It is also noticed that the lowest number of 36 villages have sex ratio in the range of 700-749. 79 villages occupy sex ratio in the range below 700.

TABLE13 :
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

SL.No	Name of UA / Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Dhing (TC)	TC	2,132	1,099	1,033	940
2	Nagaon UA	UA	13,930	7,023	6,907	983
3	(a) Nagaon (MB+OG)	MB+OG	11,976	6,062	5,914	976
4	(i) Nagaon (MB)	MB	11,842	5,991	5,851	977
5	(b) Dimaruguri (CT)	CT	1,238	592	646	1,091
6	(c) Chota Haibor (CT)	CT	716	369	347	940
7	Kampur Town (CT)	CT	583	302	281	930
8	Hojai (MB)	MB	4,327	2,218	2,109	951
9	Doboka (TC)	TC	2,097	1,077	1,020	947
10	Lanka (TC)	TC	4,617	2,409	2,208	917
11	Lumding UA	UA	5,030	2,522	2,508	994
12	(a) Lumding (MB)	MB	2,566	1,270	1,296	1,020
13	(b) Lumding Rly Colony (CT)	CT	2,464	1,252	1,212	968
District(Urban) Total			**32,716**	**16,650**	**16,066**	**965**

The table gives the sex ratio of population in the age-group 0-6 of towns in the district. Between towns, it is observed that Dimaruguri CT have the highest sex ratio of 1,091 and it thus, means that there females are more than males. Similarly, in Lumding MB females are more than males where the sex ratio is 1,020. However, the lowest sex ration is noticed in Lanka TC with 917 females.

TABLE 14 :
NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

SL. No	Name of Tahsil	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7	8
9	Lanka	Total	397,164	44,275	11,552	11.1	2.9
		Rural	312,171	34,805	10,922	11.1	3.5
		Urban	84,993	9,470	630	11.1	0.7
District Total:		**Total**	**2,314,629**	**215,209**	**89,394**	**9.3**	**3.9**
		Rural	**2,036,342**	**188,853**	**87,785**	**9.3**	**4.3**
		Urban	**278,287**	**26,356**	**1,609**	**9.5**	**0.6**

The table presents the number and percentage of Scheduled Castes and Scheduled Tribes population in Revenue Circles. The percentage of Scheduled Castes population in the district is 9.3 percent and Scheduled Tribes population is 3.9 percent of total population and the percentage Scheduled Castes is above the state percentage of 6.9 percent and the percentage of Scheduled Tribes is less than the state percentage of 12.4 percent. Among Revenue Circles, Raha has the unique distinction of having the highest percentage of both Scheduled Castes and Scheduled Tribes population. It noticed that the lowest percentage of Scheduled Castes population is found in Dhing Revenue Circle and Scheduled Tribes population is found in Hojai Revenue Circle .But in urban areas, the percentage of Scheduled Castes population is found more in the district .whereas the percentage of Scheduled Tribes population is depicted most negligible proportion of total population in urban areas of Revenue Circle.

TABLE 15 :
NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN CD BLOCKS, 2001

SL. No	Name of CD Block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

District (Rural) Total:		**2,036,342**	**188,853**	**87,785**	**9.3**	**4.3**

The table gives the number and percentage of Scheduled Castes and Scheduled Tribes population in CD Block. Out of 2,036,342 total rural population in the district, 9.3 percent belongs to Scheduled Castes and 4.3 percent to the Scheduled Tribes population. Among the CD Blocks, Laokhowa CD Block shows

the highest proportion with 22.1 percent in Scheduled Castes population and Kapili Pt CD Block with 20.0 percent records the highest proportion in Scheduled Tribes population. Batdrawa CD Block shows the lowest Scheduled Castes population with 1.3 percent and Scheduled Tribes population of 0.2 percent in Mairabari CD Block.

TABLE 16 :
PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES,

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	686	49.9	0	0.0
Less than 5	252	18.3	8,018	4.2
5-10	105	7.6	12,845	6.8
11-20	87	6.3	19,580	10.4
21-30	59	4.3	23,160	12.3
31-40	50	3.6	27,813	14.7
41-50	37	2.7	25,153	13.3
51-75	50	3.6	35,942	19.0
76 and above	49	3.6	36,342	19.2
District Total	**1,375**	**100.0**	**188,853**	**100.0**

The table presents the proportion of Scheduled Castes population to total population in villages. Out of 1,375 total number of inhabited villages, 686 number of villages or 49.9 percent about 50 percent have no Scheduled Castes population. The highest proportion of Scheduled Castes population is noticed in the range 76 and above percent with 36,342 or 19.2 percent population and closely followed by the population in the range of 51-75 percent with 35,942 or 19.0 percent of Scheduled Castes to total population. The lowest proportion is noticed in the range which is less than 5.0 percent with 8,018 or 4.2 percent of Scheduled Castes population distributed among 252 villages of the district.

TABLE 17 :
PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	928	67.5	0	0.0
Less than 5	200	14.5	3,647	4.2
5-10	45	3.3	5,862	6.7
11-20	45	3.3	9,046	10.3
21-30	31	2.3	10,533	12.0
31-40	26	1.9	11,476	13.1
41-50	18	1.3	8,915	10.2
51-75	36	2.6	18,975	21.6
76 and above	46	3.3	19,331	22.0
District Total	**1,375**	**100.0**	**87,785**	**100.0**

The table displays the proportion of Scheduled Tribes population to total population in villages. Out of 1,375 total number of inhabited villages, 928 or 67.5 percent of villages have no Scheduled Tribes population. The highest number of Scheduled Tribes population with 19,331 or 22.0 percent is noticed in the range of 76 and above percent distributed among the 46 villages of the district. The percentage range of less than 5 percent of Scheduled Tribes population in the villages indicates the less number of Scheduled Tribes population of 3.647 or 4.2 percent in 200 number of villages.

TABLE 18 :

18	Dhal Pukhuri	903	1,009
19	Udali	928	864
20	Lumding	935	876
	District (Rural) Total:	**946**	**975**

The table presents the rural sex ratio among the Scheduled Castes and Scheduled Tribes in CD Blocks. The rural sex ratio among Scheduled Castes at district level stands at 946 females per 1,000 males and Scheduled Tribes shows 975 females. However, it is interesting to note that Scheduled Tribes females out number males in as many as 10 CD Blocks among 20 CD Blocks in the district and Scheduled Castes by two CD Blocks Among the CD Blocks, Bajiagaon CD Block tops the list with 1,046 Scheduled Tribes females per 1,000 males closely followed by Pachim Kalibor CD Block with 1,041 females. Udali CD Block returned the lowest sex ratio of 864 among the Scheduled Tribes The highest sex ratio among the Scheduled Castes is noticed in Barhampur CD Block with 1,027 females per 1000 males and the lowest is seen in Juria CD Block with 858 females.

TABLE 20 :
SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

SLNo	Name of U.A / Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio

The table shows the number and percentage of literates and illiterates in Revenue Circles. Out of the total population of the district, 61.7 percent are literates and 38.3 percent are illiterates. The number and the proportion of male literates are more than the female literates in both rural and urban of the district. The urban literacy rate stands at 89.1 percent for males and 79.6 for females respectively whereas the literacy rate in rural, registers 65.1 percent for males and 51.1 percent for females. The gap in male-female literacy rate is 14.0 percent in rural and 9.5 percent in urban. Among the Revenue Circles, Nagaon Revenue Circle shows the highest literacy rate of 77.6 percent with males 82.6 percent and females 72.2 percent. The lowest literacy rate is noticed in Rupahi Revenue Circle with 45.9 percent.

TABLE 22 :

The table shows the number and percentage of literates and illiterates by sex in CD Blocks level. Out of 2,036,342 rural population in the district, 58.3 percent are literates of which 65.1 percent are male literates and 51.1 percent are female literates. The gap in male-female literacy rate is 14.0 percent. In 10 CD Blocks, the literacy rate stand below the literacy rate of the district and the literacy rate for remaining 10 CD Blocks in the district are above the district rate. Among CD Blocks, the highest literacy rate is noticed in Pakhimaria CD Block with 83.0 percent and the lowest is in Juria. CD Block with 44.2 percent. The gap in literacy rate among CD Blocks vary from 7.8 to 20.7 percent.

TABLE 23 :
DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	4	0.3	179	0.0
1-10	9	0.7	3,485	0.2
11-20	37	2.7	36,067	1.8
21-30	87	6.3	106,896	5.2

The table gives the distribution of number and percentage of Main workers, Marginal workers and Non-workers by sex in towns. The Main workers in urban are 28.9 percent, Marginal worker is only 2.2 percent. The Non-workers in urban is noticed 69.4 percent for females which is much higher than males. The detail in respect of CD Blocks can be seen in the table itself.

The table gives the distribution of workers by sex in four categories of worker in Revenue Circles. It is seen in the table that the percentage of cultivators and other workers are equal with 38.4 percent each followed by Agricultural Labourers with 19.9 percent The worker found in household industry is very low which forms only 3.4 percent Among Revenue Circles, the percentage of cultivators is found highest in Raha Revenue Circle with 57.1 percent. In Nagaon Revenue Circle, the highest 64.6 percentage is seen for other workers. The highest percentage in Agricultural labourers is seen in Rupahi Revenue Circle and Kampur Revenue Circle is recorded the highest percent in household industry workers.

The table shows the distribution of workers by sex in four categories in economic activity in CD Blocks. The percentage of cultivators being 43.2 percent is found high in rural areas of the district and as such it is high in all CD Blocks. The percentages for all CD Blocks in respect of other categories are lower than the cultivators. The percentage of Household Industry workers is very low in comparison to other categories of workers.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The table gives the distribution of villages according to availability of different amenity in CD Blocks. The district is considered most advance in having access to improve drinking water with 95.1 percent of the total inhabited village. The next educational facility is availed by 91.4 percent of the villages. 86.8 and 67.7 percent of villages have availed the benefit of power supply and approach by pucca road. The transport communication is the next to above amenities with 58.1 percent villages having access to this amenity.. Other amenities are not very much access by the villages in all CD Blocks.

TABLE : 38

NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Sl No	Name of C.D Block	Total population of inhabited villages	Type of amenity available									
			Education	Medical	Improved drinking water*	Post Office #	Tele-phone	Transport communi-cations $	Banks	Agri-cultural Credit Societies	Approach by pucca road	Power supply

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The table gives the number and percentage of rural population served by different amenities. It is seen that 97.5 percent rural population of the district are access to education followed by 97.4.percent of people in the district are having access to improve drinking water and 91.9 percent population are served by power supply facility. Similarly, 68.4 percent population are served by approach by pucca road. However, the portion of population in each CD Blocks provided with other amenities can be seen in the table itself.

TABLE : 39
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	107	7	3	117
(b) Middle School	557	77	60	694
(c) Degree College	466	448	443	1,357
2. Medical:-				
(a) Hospital	577	291	489	1,357
(b) PHC	471	364	499	1,334
3. Post Office	825	124	53	1,002
4. Telephone	434	280	388	1,102
5. Bus Service	463	85	39	587
6. Banks				
(a) Commercial Bank	492	342	466	1,300
(b) Cooperative Bank	356	351	656	1,363
7. Agricultural Credit Societies	174	202	967	1,343

The table shows the distribution of village not having certain amenities arranged by distance ranges from the places where these are available. It is seen in the table that there is no degree college and hospital in any of the villages due to obvious reason. In the table it is seen that a large number of villages have primary and middle schools but number of villages which have no such facilities is indicated in column no 5 and these villages get primary school and middle school facilities at different distance ranges of less than 5 kms, 5-10 kms and10+ kms. In 107 villages, there is no primary school but get this benefit at places situated at a distance of less than 5 kms and so on. For other amenities which are availed at different distances places can be seen in the table itself.

TABLE 40 :
DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

	(100.0)	**(91.4)**	**(34.9)**	**(27.1)**	**(19.8)**	**(58.1)**	**(6.2)**	**(2.3)**	**(67.7)**

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

The table shows the distribution of villages having different amenities according to the distance from the statutory town. Out of 1,375 total villages, 1,257 villages have education facilities and of these 154, 576, 500 and 27 villages are located at a distance range of less than 5, 5-15, 16-50, 51+ kms. from the nearest statutory town. It is also seen that the availability of other amenities, the highest number of village are located at a distance range of 16-50 kms from the statutory town.

TABLE 41:
DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

10000 +	0	0	0	0	0	0	0	0	0	0	0
	0	0	0	0	0	0	0	0	0	0	0
District total:	**1,375**	**1,257**	**480**	**1,307**	**372**	**272**	**799**	**85**	**31**	**931**	**1,190**
	(100.0)	**(91.4)**	**(34.9)**	**(95.1)**	**(27.1)**	**(19.8)**	**(58.1)**	**(6.2)**	**(2.3)**	**(67.7)**	**(86.5)**

The table gives the distribution of villages according to population range and amenities available. Out of 1,375 total number of inhabited villages in the district, the highest number of 1,257 villages having the population in the range of 1000-1999 get education in the villages itself. Out of 1,257 villages, the highest number of 383 villages are in population range of 1000-1999 and the next higher number of 354 villages are in population range of 2000-4999. Similarly, villages availed different amenities for which number and population range can be seen in the table which needs no explanation.

TABLE 42:
DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

SL.No	Name of C D Block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Pachim-Kaliabor	94	17005.1	70.2	0

6	Batadrawa	42	10331	82.0	0
7	Juria	77	15715	79.8	0
8	Rupahi	37	10238	79.6	3.0
9	Barhampur	70	13427	79.7	4.6
10	Dulongghat Pt.	25	6276	74.7	0
11	Khagarijan	45	10519	71.5	0
12	Pakhimaria	35	7016	55.2	0
13	Kathiatoli	151	33270	71.0	6.0
14	Kapili Pt.	35	9363	80.2	7.3
15	Raha	108	26610	71.4	0.4
16	Binnakandi	66	16825	81.8	25.4
17	Jugijan	113	25938	85.6	11.0
18	Dhal Pukhuri	81	17048	85.9	1.9
19	Udali	59	16445	80.3	14.5
20	Lumding	82	15591.1	68.4	2.9
	District Total:	**1,375**	**301738.76**	**76.3**	**5.0**

The table presents the distribution of villages according to land use. The percentage of cultivable area to total area of the district is 76.3 percent and percentage of irrigated area to total cultivable area is 5.0 percent only. Kathiatoli CD Block covers the biggest area among all CD Blocks followed by Raha CD Block. However, the highest proportion of irrigated area to total cultivable area is noticed in Binnakandi CD Block with 25.4 percent and the lowest is in Raha CD Block with 0.4 percent.

TABLE 43 :
PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl. No	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	IV Dhing (TC)	7.2	0.5	6.7	9	6.4	0	2.1	0	0.4
2	IV Doboka (TC)	9.5	4.2	5.4	2.9	2.8	0.1	0	0	0
3	III Hojai (MB)	5.7	2	3.7	37.7	4.4	3.3	3.8	0	26.2
4	III Lanka (TC)	7.3	0.2	7.1	7.1	5.6	0	1.3	0	0.1
5	III Lumding (MB)	4.4	1.4	3	4.9	3.4	0	1.4	0	0
6	I Nagaon (MB+OG)	8.6	4.6	4	7.7	2.1	1.9	2.4	0	1.3
	District Total:	**7.4**	**2.9**	**4.6**	**11.8**	**3.5**	**1.4**	**2.2**	**0**	**4.7**

The table gives the per capita receipt and expenditure in statutory towns. There are six towns in the district of which Nagaon is in the status of Class I town. It is noticed that the per capita receipts of the district is Rs 11.8 which are generated from various sources. The per capita expenditure of the district is Rs 4.7 which are spent on different heads more particularly on public works, general administration and public health. nThe town wise receipt and expenditure can be noted in the table.

TABLE 44 :
SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

SL. No	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Dhing (TC)	12.9	3.4	2.2	1.1	0.6
2	Doboka (TC)	9.9	4.5	1.8	1.8	0.9
3	Hojai (MB)	7.3	4.8	3.4	1.1	0.6
4	Lanka (TC)	3.8	2.6	1.5	0.9	0.6
5	Lumding (MB)	4.0	2.4	2.0	0.8	0.4
6	Nagaon (MB+OG)	3.9	1.6	1.7	0.1	0.6
	District Total	**5.4**	**2.6**	**2.0**	**0.6**	**0.5**

The table gives the number of schools/colleges per 10,000 population in statutory towns. In Nagaon district, the number of primary school is 5.4 per 10,000 population, middle school is 2.6, secondary is 2.0, senior secondary 0.6 and college 0.5 in number per 10,00 population. The proportion of primary school 12.9 among each 10,000 population is the highest in Dhing TC followed by Doboka TC. The proportion of Secondary/Matriculation is the highest in Hojai MB. The proportion of Junior Secondary / Middle Schools is the highest in Doboka TC with 4.8 number per 10,000 population while Senior Secondary School is also more in Doboka TC in each 10 thousand population. Very few college level institution per 10,000 population is noticed in all towns.

TABLE 45 :
NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

SL. No	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Chota Haibor(CT)	0
2	Dhing(TC)	22
3	Dimaruguri(CT)	0
4	Doboka(TC)	27
5	Hojai(MB)	35
6	Kampur Town(CT)	55
7	Lanka(TC)	10
8	Lumding(MB)	8
9	Lumding Rly. Col.(CT)	39
10	Nagaon(MB+OG)	58
	Distrct Total	**36**

The table shows the number of beds in medical institutions in towns among 10,000 population. In Nagaon district, the number of beds in Medical institutions per 10,000 population is noticed 36. Among all towns, Lumding Rly Colony CT with the provision of 58 number of beds in medical institution per10,000 population is the highest among all towns followed by Kumpur Town CT with 55 beds. The lowest number of beds is seen in Lumding MB with 8 beds for each 10,000 population. In two towns there is no beds facility.

TABLE 46 :
PROPORTION OF SLUM POPULATION IN STATUTORY TOWNS, 2001

SL. No	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Dhing TC	17,844	1,870	10.5
2	Doboka TC	11,058	720	6.5
3	Hojai MB	35,718	1,215	3.4
4	Lanka TC	34,423	1,280	3.7
5	Lumding MB	25,203	950	3.8
6	Nagaon MB	108,786	0	0
	District Total	**233,032**	**6,035**	**2.6**

The table shows the proportion of slum population in statutory towns. In Nagaon district, there are slum population in five towns. More slum population is seen in Dhing town. The percentage of slum population in the district is 2.6 percent

TABLE : 47

MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl No.	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Chota Haibor (CT)	Soap	Jute
		Biscuits	Vegetables
		Nil	Timber
2	Dhing (TC)	Nil	Rice
		Nil	Nil
		Nil	Nil
3	Dimaruguri (CT)	Soap	Jute
		Biscuits	Vegetables
		Nil	Timber
4	Doboka (TC)	Rice Product	Rice
		Spice	Furniture
		Furniture	Nil
5	Hojai (MB)	Agar Oil	Agar Oil
		Soap	Nil
		Handloom	Nil
6	Kampur Town (CT)	Nil	Rice
		Nil	Nil
		Nil	Nil
7	Lanka (TC)	Furniture	Molasses
		Nil	Jute
		Nil	Furniture
8	Lumding (MB)	Nil	Vegetables
		Nil	Wooden Furniture
		Nil	Molasses
9	Lumding Rly. Col. (CT)	Nil	Vegetables
		Nil	Wood
		Nil	Nil
10	Nagaon (MB+OG)	Soap	Jute
		Biscuits	Vegetables
		Ice Cream	Timber

The table shows most important commodity exported out of the town and manufactured in the town. In the district, most of the towns have no any important commodity manufactured. A few of these are soap, biscuit, rice products, furniture, agar oil, ice cream etc. However, all towns of the district have exported the most important commodities like- rice, jute, vegetable, timber, furniture, agar oil, molasses, wood etc.

Inset tables based on Houselisting data :-

The table indicates that fire wood is the prominent cooking fuel for almost all households of the district following by crop residue and gas. The use of other fuels in the district is very limited.

At Revenue Circle level, the highest percentage of households use fire wood for cooking in Raha followed by Kampur Revenue Circle. In urban areas of the Revenue Circle, the cooking gas is the main source of fuel. It is highest in Nagaon Revenue Circle. The crop residue is used by the highest percentage of households in Dhing Revenue Circle than other Revenue Circles. The cow dung cake is also used by a few households in each Revenue Circles. It is seen that the use of electricity as cooking fuel is almost nil only 255 households use electricity as fuel in entire district. There is no cooking arrangement in 1,529 households in the district.

The table indicates the number of households who have availed banking services along with the households having some specified assets as mentioned in the table. Out of total households of the district, a total of 68,222 households have availed banking services. The banking services availed in urban areas of the district by the households is 24,557 whereas it is 43,665 in rural areas of the district. In Revenue Circle level, the number of households who have availed banking service is more in Nagaon Revenue Circle followed by Kampur Revenue Circle. This service for rural areas is more in all Revenue Circles. Availability of all assets mentioned in the table is more for the households of Nagaon Revenue Circle. The highest number of households who have none of the specified assets is found in Kampur Revenue Circle. It is seen that number of households having car, jeep and van are less in all Revenue Circles of the district.

IX- Major social and cultural events, natural and administrative developments and significant activities during the decade.

The past history of Kamrupa reveals that Nagaon area was a place for capital of kingdom of many kings. The Ahom king once established their capital at Nagaon which was known as Khagarijan. It was a birth place of Shri Shri Sankardeva who was a member of Bara Bhuyans family. The Bara Bhuyans ruled over certain areas which form part of Nagaon district on the south of the Brahmaputra. But the Bara Bhuyans were petty rulers who setup numerous kingdom on the north of the Brahmaputra. The Bhuyans were held in high esteem in those days as is evident from the royal patronage they received at various times. Shri Sankardeva,the great saint poet of Assam who stepped up the epoch making Neo-Vaisnavism movement in Assam was the main reformer of Assam culture. His doctrine of only God(Krishna) was established before the masses through his various writing of religious epics, performation of Nat/Bhaona,Bargeets and establishment of Satra. Bardowa is a famous satra of Nagaon where the saint has used to stay for a longer period of his life time. He was born in 1449A.D. at Alipukhuri / Petekibari of present Marigaon district near Mairabari. His culture is still continuing in Nagaon district and observes various festivals. Socially, Nagaon is a cultural centre of Assam.

Festivities are part of the social life of the people of Assam in general and Nagaon district in particular. Many festivals are observed in this district with varying degree of enthusiasm by faithfuls of different faiths at different times of the year. Among them, Hindus observe many festivals, ritualistic and other religious festivals. Earlier, Durga puja which has of lesser importance in the district except in town and tea garden areas ,has of late assumed increasing popularity among the Hindu and is being celebrated throughout the district with great enthusiasm .Durga puja,the biggest festival observed in the district is usually held in the month of September or October every year and lasted for four days. The preparation of the puja starts with the work of erecting the pandal at the places selected for the convenience of the people. The image of Goddess Durga is installed ceremoniously on the puja pandal for the benefit of the faithfuls and worshippers. The priest along with member of the puja committee guide and help the devotees who visited the pandal to invoke the blessing of the Goddess Durga. Thousands and thousands of people thronged the puja pandals in different places of the towns and villages in the district. In these four festive days, some puja pandals held a few cultural programs and theatrical act depicting the Sakti(strength) of mother Durga. On the last day of the festival, the devotees perform ceremoniously the rite of immersion of image of Goddess Durga into pool or river with great enthusiasm.

Doljatra is another religious festival which is celebrated with great enthusiasm in honour of Lord Krishna. It is usually held in the month of February or March. During the ceremony, the image of Lord Krishna is moved out of ritual place and keeps in a puja pandal constructed specially for the purpose. The priest performs rituals and after this Nam Kirtan is held for a certain period which is then followed by Bhaona. The image of Lord Krishna is taken in a procession with joy and gaiety throught the streets and sprinkling and throwing red powder or coloured water on one another which is commonly known as "Phaku". This ceremony reminds us of the occasion where the milk maid of Brindaban is being amorously intimadate by Lord Krishna. Doljatra is an occasion of jubilant which is mostly celebrated by Hindus. In addition to the above religious festivals, Hindus also observe few religious festivals annually like Sivaratri, Janmastami, Biswa-Karma, Lakhmi pujs, Saraswati puja and Kali puja.

Like in other part of the state, Bihus and Tithis or death anniversary ceremonies of Sri Sri Sankardev , Sri Sri Madhavdeva, and Shri Mathura Das Bura Ata, the founders of the Mahapurshia sect of Vaishnavism are celebrated in the district. Assamese people observes three Bihus in a year which are associated with the period of cycle of cultivation, Kati Bihu is observed in honour of Goddess near Tulasi plant in last part of October. People sing hymns and praises God and usually change their food habits, instead of rice and curry they take curds, molasses, bananas chira and pitha (cake)

According to Assamese calendar year, Magh Bihu or the Bhogali Bihu begins in Puh which is the last day of the month i.e. 13th or 14th January. Preceeding the Bihu day, villagers construct a tall heap of rice straw piled around a central pole. Feast are being held together during the night and at dawn the villagers bathe themselves and lit the straw to warm their chilled bodies at the bonfires. Youths and children enjoy the festival with songs and dances. Assamese New Year's Day

or commonly known as Rangali Bihu or Bohag Bihu is usually celebrated during the spring season with great joy and pomp. Dance and music are being performed and villagers go from house to house singing hymns, chorus songs and exchange greetings.Bihu festival is not only an annual festival but it is also the festival to promote unity for love among different creeds and communities hence it is observed as national festival. Apart from the main theme of this festival which is an expressing of love in its different moods, there is also a special bathing of cattle in the river and tanks, soon after the bath, garlanding the cattle with brinjal and bottle gourd in their necks take place followed by songs to invoke blessings from God upon them.

As pointed out earlier, faithful of different religious and sects are also observed their religious festivals with enthusiasm and high spirit. Among them, Muslim festivals mention must be made of the Id-Uz-Zuha,Muharram,Fatiha-I-Duazdoham and Id-Ul-fitre.Among Christans festivals, Christmas which is the festival of peace and joy is celebrated in a state of rejoicing on 25th.December every year. The Kacharis living in the district,however,have many religions festivals which are known as Kherai puja, Hapajanai, Nat puja, Bagrumba and Maigainai. These are some of their traditional festivals performed in a great joy and pompously.

The administrative development in the district has come up in big way only after independence. Being a district all administrative offices are established in the district. However, some new buildings are constructed in modern line. No much important development has been noticed during the last decade. From the natural development point of view nothing has been observed in the district during the decade.

(X) Brief description of places of religious, historical or archeological importance and places of tourist interest in the district

There is no historical or any special importance place worth mentioning in the district. However, a few ancient temples and ruins are found scattered in the district. Some of the important places are mentioned below.

Bardowa or Batadrava :

Bardowa or Batadrava is the birth place of Shri Shri Sankardeva, the great Vaisnavite reformer of Assam in fifteen and sixteen century. Bardowa is situated at a distance of about 14 kms from Nagaon district Bardowa is famous as a religious centre mainly because of its satra or than which was originally constructed by the great apostle and later re-constructed by Damodardeva, the son of his grand daughter Sreemati Govinda Priya Ai.

The newly constructed Kirtanghar (Prayer hall) with the Manikut is the central building of the satra. In front of Kirtanghar, there is a Silikha (terminalia) tree under which Shri Sankardeva composed his immortal works. On the north of the than there is "Akashiganga" a scared pool which is believed to have been brought down by Shri Shri Sankardeva through his prayer. On the south of the Kirtanghar, there is "Doul" where people offer workship. Bardowa is held in high veneration by the Assamese people particularly by the Mahapurushia sect.

Chapanalla

Chapanalla is about 22 kms from Nagaon town. Chapanalla can boast of waterfall. It is a favourite picnic place. Some remains of old temples and forts have been found at Chapanalla hill. It was the capital of a certain King Hamsadhvaj in old days.

Dabaka

Dabaka is situated at a distance of about 34 kms south east of Nagaon town. The present Daboka area was the Daboka kingdom mentioned in the Allahabad inscription of Samudra Gupta. There are many ruins of ancient temples dedicated mostly to Vishnu and Siva.

Near Daboka at Akashiganga some ruins of Siva temple, a few architectural remains of the 10th century A.D. and fine stone images have been discovered. At Gachtal, a pillar containing inscription of a King of 1149 A.D. has also been found. At Mathabari village 16 kms from Daboka ruins of an old tank and temple have been discovered. More ruins of temples may be seen at Gosainguri, Mikirati, Devas than and Burhagosain than near Daboka.

Jugijan

Recently, the remnants of a fort and three stone temples decorated with carvings and bas-reliefs have been discovered at Jugijan. The temples are dedicated to Siva. The Siva lingas discovered are preserved at Jugijan Na-nath than. About two kms from these remnants, there is a village named Navanga, where an idol of the goddess Chamunda with six hands and elevated belly wearing a garland of human beads has been discovered. The idol is dated to the 11th or 12th century.

Kaliabor

Kaliabor is a historic place by the side of the Kalang river of the district. It was initially the headquarters of Barphukan during the Ahom days and was the scene of several battles against Muslims. There are a few ancient temples in Kaliabor area such as Sanbhagya Madhab, (built about 1730 A.D. by Kadamba Sarma), Dulal Madhab (built about 1730 A.D. by Kalia Thakur) and Gopal Madhab. These temples were built by the Ahom king Siva Singha. There is another temple named Basudev Bari Devalaya near Kaliabor but the year of construction of it is not known.

Kuwaritol

The place is about 45 kms from Nagaon town. The name Kuwaritol was derived from Kamala Konwari,the name of wife no.7 of Bharali Barua, Konwari means princess and toll means abode. There is a tank which is known as Bharali Barua Pukhuri (tank). It was dugged by Jayadhwaj Barali Barua, a religious man. The story goes that Bharali Barua was told in his dream that water would come up in the tank only if the youngest wife no.7 (seven), Kamala konwari was offered to Jal konwar (God of water). Accordingly, the was offered to Jal konwar and the tank was filled up with water.

Mahadeosal

It is a small village about thirty kms west of Nagaon town. In the village, there are some ancient ruins of sculptured stones believed to be the remnants of a Siva temple. At the village Namghar is preserved a door frame depicting Basudev, a female worshipper, a dancing girl and a gate keeper armed with bows and arrows. There is a historical fort of Jangalbalahu.

Silghat

Silghat presents a panoramic view and its tourist attraction includes the Kamakhya temple, Dui Muni Sila and the surrounding tea-gardens. The Kamakhya temple situated at the top of the Samantagiri about 244 meters above sea level was constructed in 1745 during the reign of the Ahom king Pramatta Sinha, It is dedicated to goddess Durga, Dui Muni Sila, two big rocks lying near Silghat is said to be two munis (hermits) viz Kumud and Koustuva which have turned into stone by a curse of Lord Siva.

XI- Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Nagaon district is very rich in agricultural and to some extent in tea also. The majority of population depend upon cultivation of rice. Hence agriculture is the mainstay of the economy of the people of the district. Rice is grown both in the plains and in the hills. Jute is an important fiber crop grown in the low-lying plains area of Nagaon district under monsoon climate. Similarly, Sugar cane is also produced in the district .Tea being an agriculture based industries occupies an important place in Nagaon district .It provides employment to a large chunk of the people. Forests occupy a large area of Nagaon district. Forest abounds in commercial timber which is a big revenue earning commodity of the district as well as the State. Forest also account for a flourishing agro-based industry in the district. Plywood and various kinds of woods are manufactured mainly to cater to the needs of the tea industry. Nagaon has its so many forests with various valuable spices which provide earning for people and also the State Government.

Nagaon district has provided many authors, scientists, saints, freedom fighters sportsmen, artists, and social workers Shri Sankardeva laid solid foundation of the Assamese literature by his unique contribution in poetry and drama. His rich treasure of devotional songs "Bargeets" and "Ankia Nats" based on the eulogy of Lord Krishna is the distinctive mark of Assamese Vaisnavite literature. Nagaon district can boost for giving birth of a great saint and reformer to the State/Nation. Some eminent writers from Nagaon district provide their valuable contribution to modern Assamese liturature.

Many people of Nagaon district courted arrest and suffered humiliation during the struggle for independence Because of military atrocities, Nagaon earned the sobriquet of the "Midnapore of Assam". Mention may be made about Bebejia firing, Jogalbalahu firing,Barpujia firing and Barhampur firing where hundreds of Congress man and many other were arrested and many others were killed. Nagaon was at the forefront of the Quit India Movement. At last Nation achieved Independence in 15th August1947. The sacrifice and contribution that offered by the sons of the soil of Nagaon district for nation can never forget by the people of the district in time to come.

(xii) Scope of Village Directory and Town Directory - Column heading wise explaination and coverage of data.

The scope of Village Directory and Town Directory has already discussed in detail in earlier chapter of this volume.

Village Directory:

The Village Directory is depicted in the form of a statement containing 25 columns under various heads. The Village Directory provides for each C.D. block with the villages according to location code. In col.No. 1.serial number is given. The name of village and location code come in col.No.2 and area in col.No.3. The col.No.4 and 5 represent total population of 2001 Census and households respectively. The column 6 to 25 relate to the following amenities and facilities.

AMENITIES AND FACILITIES	COLUMN
1 Education	6
2. Medical	7
3. Drinking water	8
4. Post, Telegraph and Telephone	9
5. Commercial and Co-operative Banks	10
6. Agricultural, Non agricultural and other Credit Societies	11
7. Recreational & Cultural facilities	12
8. Communications	13
9. Approach road to village	14
10. Nearest Town (in km.)	15
11. Power Supply	16
12. News Paper/Magazine	17
13. Commodities manufactured	18
14. Land-use pattern of village	19-23
15. Name and Serial number of village	24-25

Particulars of amenities and facilities available in the villages are shown by way of some abbreviation, which are explained in the beginning of the Village Directory. Amenity, which is not available in any village, the distance in term of the nearest place where it is available, is shown in ranges i.e. <5 kms., 5-10 kms. and 10+ kms. The non-census data presented in the Village Directory have been collected from various Departments of the State Government, Corporation, Boards etc. The 2001 Census Village Directory is almost in the pattern of 1991 Census Village Directory However, in 2001 Census, some new items have incorporated and a few are deleted which were in 1991 Census. For example, the information on market / hat are deleted. Never-the-less, the innovation and introduction of new items of information in the Village Directory, 2001 will be more useful and meaningful.

Town Directory:

The Town Directory is decorated with seven statements presenting useful data on socio-economic and administrative sides of each town of each district. These statements deal with (i) Status and growth history, (ii) Physical aspects and location of town, 1999, (iii) Municipal finance 1998-99, (iv) Civic and other amenities, 1999, (v) Medical, Educational and Cultural facilities, 1999, (vi) Trade and Commerce, industry and banking, 1999 and (vii) Civic and other amenities in slum, 1999.

Statement I- Status and Growth history: -

This Statement deals with 22 columns which represent information serially from Serial Number, Class, Name and Civic Administration, Status of town and so on. Statement 1 is presented in the Town Directory in the same pattern that used in 1991.

Statement II- Physical Aspects and Location of town, 1999.

The statement is formed with 13 columns. Various information such as rainfall, temperature (maximum and minimum), State Headquarters, nearest city with population one lakh and also five lakhs, railway station, bus facility , navigable road etc.are presented in the columns. This statement is also similar to that of 1991 directory except the columns of nearest city introduced newly in 2001 Census.

Statement III- Municipal Finance 1998-99

The statement deals with 17 columns and presents various data on Municipal finance of all statutory towns of each district. In the statement columns are divided into two parts such as receipt and expenditure.

Statement IV- Civic and other Amenities, 1999.

The statement contains 21 columns and information on civic and other amenities are shown accordingly. However, Scheduled Castes and Scheduled Tribes population are also indicated in respective columns. Information on types of latrine used, methods of disposal of night soil, water supply, storage system, fire fighting service, electrification etc. are presented in its respective columns.

Statement V- Medical, Educational, recreational and cultural facilities, 1999.

The statement deals with 20 columns and presented data on medical, educational, recreational and cultural facilities in each town in the respective columns. It is on the same pattern that used in 1991 Census.

Statement VI- Trade, Commerce, Industry and Banking,1999.

The statement consists of 11 columns and gives information for each town on trade, commerce, industry and Banking,1999. Columns 1 and 2 show serial number and class and name of town. Columns 3 to 5 show the names of three most important commodities exported out from the town in order of preference. Columns 6 to 8 show the names of three most important commodities manufactured in the towns in order of their importance. The other columns represent the facilities of banks.

Statement VII- Civic and Other Amenities in Slums,1999.

This statement contains 17 columns and gives information on Civic and other Amenities in Slums. Columns represent name of Slum, status of slum area, number of households, population, paved road (in kms), system of sewerage, types of latrine used, method of disposal of night soil, number of tap, electric connection (domestic, road and others) in the statement.

The data on amenities and facilities presented in the Town Directory are collected from the respective Municipal Councils, Municipal Board, and Town Committee in respect of statutory towns and for Census Towns from the revenue authorities of respective jurisdiction.

****

Part A - Village and Town Directory

Section I - Village Directory

Note explaining the abbreviations used in the village directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 25 columns and the details given under each column for the village are as follows :

Columns 1 & 25 : Serial Number

Self explanatory. All the villages within the C D block are presented serially in the ascending order of their location code number.

Columns 2 & 24 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz. <5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given.Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of

institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	H
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Path-shala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS

(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema / Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows :

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State / U.T. Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below :

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages CD Block wise of the district.

Appendix-I-A Indicates number of villages CD Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages CD Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages CD Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities. Since there is no such census town in Chandigarh, therefore, data in this appendix is not presented.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns. Since there is no such census town in Chandi-garh, therefore, data in this appendix is not presented.

Appendix-IV CD Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A, VII B

The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges. Since no Scheduled Tribe is notified in Chandigarh, therefore, data in appendix VII-B is not presented.

Appendix-VIII Indicates CD Block wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in a village. Since there is no girls school in the villages of Chandigarh, U.T. therefore Appendix-IX has not been presented.

List of villages merged in towns and outgrowths at 2001 Census

Sl. No.	Name of Towns	Status	Population
1	Dimaruguri	CT	9,222
2	Chota Haibor	CT	5,257
3	Kampur Town	CT	5,409
4	Doboka	TC	11,058

Section II - Town Directory

Section II - Town Directory

Note explaining the abbreviations used in the Town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic adminis-tration status of town

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998–1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha/pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D

(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

I case of more than one institutions of any type,it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories - Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Trainning Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the

town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

The Municipal finance for the year 1998-99 is indicated for statutory town. As the Census town does fall under preview of any kind of town authority hence cols against this town is kept blank. Nagaon town receives a major share of income from receipt through taxes and the government grant. It has a total receipt of Rs.9,319,000 as against a total expenditure of Rs.8,384,000. The town has a surplus budget in the above year. The detail against other towns can be seen in the statement.

STATEMENT - IV

In this statement, civic and amenities have been shown clearly. Nagaon MB+OG has the highest population. The same town has highest number of Scheduled Castes and Tribes population. The road length both kutcha and pucca for all towns are shown in the statement. The system of sewerage OSD is same for all towns but in two towns BSD is also available in addition to OSD. All three types of latrines are in all towns. The methods disposal of night soil St are common for towns except Doboka town. Pt is also common for all towns except three towns. The source of water TW is common for all towns but in Lanka town it is T only. The source of storage is OHT for five towns and in some towns the system of storage is not available. The fire fighting service is available in some towns. The electricity connections are available for all purposes in towns of the district. The road lighting (points) is not in Dimaruguri Census town.

In this statement, various amenities that availed by the towns of the district are indicated. The column no 3 indicates population of towns. The medical facilities available in towns can be seen in the statement itself The of beds are shown in bracket. The T.B. center and Nursing Home are available in Nagaon town for all towns. The Medical College, Engineering College and Poly technical facilities are not available in all towns. Some towns have recognized shorthand and typewriting institutions. All towns have higher secondary, secondary, junior and primary schools but where no such facilities available are indicated the name of places with distance. There is no adult literacy center in three towns. There is no working women's hostel in the towns of the district except Nagaon town. All other amenities mentioned in cols no 17 to 20 availed and not availed in towns of the district are shown in the statement.

STATEMENT - VI

Trade, Commerce, Industry and Banking, 1999

In Nagaon district, there are six statutory towns and five of them have slum population also. All slum areas are not notified. Some towns have no pocket. The highest slum population is seen in Lanka town with 1,280 having 230 households. No paved road is available in all slum areas. The sewerage system which is available are indicated in the statement. The number of water borne and service latrines are more in all slum pockets of towns. Only in one slum pocket of Lumding town, there is community latrine also. The method for disposal of night soil pt and St are available in some pockets of a few towns. The tap points also are available in three pockets of three towns. The number of electricity connections for domestic purpose as well as road lighting in slum pockets are indicated in the statement.

Part B - PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preli-minary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001

from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet onother important publication of 2001 Census gives basic information on Area, Total Households, Total Population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification

of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexures

ANNEXURE OF THE DISTRICT, NAGAON

Annexure – I : Number and villages under each Gram Panchayat

(Data not collected on Panchayat Level)

Annexure – II : Fertility and Mortality, 1991 Census.

Note on Fertility and Mortality :

Fertility, mortality, and migration are the most important tools of indicators of population growth. Growth of population in any area is always determined by these three demographic variables on the basis of which one can project the population for any year in future. All the models of population growth and tools of analysis of demographic data are generally based on these three indicators.

Considering the importance of these indicators an attempt has been made here to present the rates of fertility, mortality and migration along with other dependent variables for each district as well as for the State of Assam as a whole.

In the 1991 Census, questions on fertility such as age at marriage, number of children ever born alive and children born alive during the last year were asked. The first three questions were asked to all ever-married women and the last question was to only currently married women. The measures of fertility worked out are based on the F – Series. Tables of 1991 Census pertaining to the Assam State and are defined in earlier chapter in non Census concepts.

Annexure III : Various measures of fertility and mean age at Marriage,1991 Census.

Fertility

As seen through various indicators of fertility in the district, it may be seen that GFR of 152,GMFR of 215, TFR of 4.8 and TMFR 6.9 against the respective figures at state level are at 135,190,4.2 and 6.0.Various measures of fertility and other fertility related data are presented between in the following Table.

Table - I
Various measures of Fertility and Mean age at marriage 199 Census

Fertility measures	Nagaon district	Assam state
1	2	3
1 G.F.R	152	135
2 G.M.F.R	215	190
3 T.F.R	4.8	4.2
4 T.M.F.R	6.9	6.0
5 Crude Birth Rate	33.9	31.5
6 No.ChildrenEver born / Woman in age group (45 to 49)	5.6	5.2
7 MeanAge at Marriage	17.9	18.3
8 Child Woman Ratio(0 to 4)	622	575
9 Child Woman Ratio(5 to 9)	772	735

The levels of fertility for all measures are found high in Nagaon except Mean age at marriage than that of the state. The child woman ratio for both ages groups are higher than the state averages.

Table-II

District wise various measures of Fertility and Mean age At marriage, 1991Census

State/District	GFR	GMFR	TFR	TMFR	CBR	No. of children ever born/ever married woman in age-group 45-49	Mean Age at marriage of currently married women
1	2	3	4	5	6	7	8
Assam	135	190	4.2	6.0	31.5	5.2	18.3

18 Tinsukia	165	225	5.1	6.9	37.5	4.7	18.6
19 Karbi Anglong	140	207	4.4	6.8	33.1	5.2	18.8
20 North Cachar Hills	127	187	3.8	6.4	29.7	5.5	19.2
21 Karimganj	196	291	7.1	9.3	48.5	4.8	18.2
22 Hailakandi	136	196	4.2	6.4	32.1	5.0	18.2
23 Cachar	137	190	4.1	6.1	32.6	4.5	18.5

Mortality :

The Mortality figures in the district confirms the general theory of relation between fertility and mortality .The mortality rates are shown in the following Table.

Table - III

Age Specific Marital Fertility levels in Assam in Assam and Nagaon district 1991 Census

Age Group	Nagaon			Assam		
Group	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.153	0.149	0.194	0.151	0.152	0.133
20-24	0.225	0.227	0.204	0.214	0.219	0.165
25-29	0.207	0.212	0.168	0.183	0.192	0.120
30-34	0.156	0.165	0.097	0.134	0.140	0.093
35-39	0.108	0.116	0.044	0.087	0.094	0.042
40-44	0.059	0.065	0.009	0.049	0.052	0.022
45-49	0.040	0.043	0.017	0.033	0.034	0.025

The Age Specific Marital Fertility levels are found higher than that of the state in all age groups in total. But in rural, it is found low in age group 15-19 than the state, Similarly it is seen low in urban age groups 40-44 and 45-49 than the state.

Table - IV

Estimates of Child Mortality, 1991 Census

Mortality measures		Nagaon	Assam
1		2	3
Q -1	Person	97	92
	Male	104	96
	Female	89	87
Q -2	Person	101	101
	Male	102	104
	Female	97	98
Q. -3	Person	105	104
	Male	107	106
	Female	104	101
Q. -5	Person	117	116
	Male	120	118
	Female	114	115

Q -1 of the above table shows the infant mortality rates and Q (2), (3) and (5) indicate the size of child mortality in age groups below 2,3 and 5 years respectably. It is seen in the table that the mortality rate in Nagaon are marginally higher except male at Q2 and female at Q (5) than that of the state averages. It can therefore said that the health status in the district is not satisfactory in comparison of the state.

Annexure IV : Percentage distribution of migrants by place of birth / place of last residence, 1991 and 2001 Census.

The detailed data may be seen below in the following table.

Table - I

Percentage distribution of migrants by place of birth - 1991 Census, Assam

State/District	Total migrants			From other district			From other state			From other countries		
	Persons	Male	Female	Persons	Male	Female	Persons	Male	Female	Persons	Male	Female

Compared to the state level total share of migrants from other districts of the state in the total migrants is relatively higher whereas the share of migrants from other countries is 32.5percent in the against 14.6 percent in case of overall state. Migration from other district reveal that the female in migration is more than male in migration from other districts but it is more for males in case of in migration from outside in the state.

Table-II

Percentage distribution of migrants by place of birth- 2001 Assam

State/ District	Total migrants			From elsewhere in the district outside the place of enumeration			From other districts

From the above table it is seen that migrants from elsewhere in the district out side the place of enumeration consists of 80.4% of the total migrants. The migrants from other districts are 12.3 percent, from other state it is 4.0% and from other countries it is 3.3 percent.

Annexure V : Brief account of main religions in the district/tahsil as per 1991 and 2001 Census.

Religion:

A brief account of religious composition of the population in the district alongwith state is presented in the following tables.

Table - I

Main Religions in the Nagaon district and Assam state- 1991 Census

District/State	Religion	Number of followers	Percent to total population	Percentage	
				Rural	Urban
1	2	3	4	5	6
Assam	Total population	22,414,322	100.0	88.9	11.1
	Hindu	15,047,293	67.1	86.2	13.8
	Muslim	6,373,204	28.4	94.7	5.3
	Christian	744,367	3.3	96.0	4.0
	Buddhist	64,008	0.3	93.0	7.0
	Jain	20,645	0.1	21.9	78.1
	Sikh	16,492	0.1	31.3	68.8
Nagoan	Total population	1,893,171	100.0	89.1	10.9
	Hindu	979,395	51.7	82.6	17.4
	Muslim	893,322	47.2	96.4	3.6
	Christian	15,704	0.8	95.5	4.5
	Buddhist	754	0.0	78.0	22.0
	Jain	1,245	0.1	27.6	72.4
	Sikh	2,305	0.1	46.4	53.6

The figures in the above table show that compared to the state as whole the proportion of Hindus is less in the district. The Muslims who constitute about 28.4 percent of total population at State level but in the district their percentage is 47.2 percent Christian consists 0.8 percent as against 3.3 percent at State level, which is also on lower side. However, Buddhist, Jain and Sikh are negligible in number in the district.

Table - II

Main religions in the Nagaon district and Assam State - 2001 Census

District :-Nagaon (10)

District / State	Religion	Number of followers	Percent to total population	Percentage			
				Rural	Rural_%	Urban	Urban_%
1	2	3	4	5		6	
Assam	All Religions	26,655,528	100.0	23,216,288	87.1	3,439,240	12.9
	Hindus	17,296,455	64.9	14,477,966	83.7	2,818,489	16.3
	Muslims	8,240,611	30.9	7,714,619	93.6	525,992	6.4

A comparison of the district level figure of marital status with that of the State averages reveals that the percentage of never married males and females is slightly higher than the state average. In case of married males and females the percentage is slightly lower than the state average. In case of widowed males percentage is slightly lower than and females percentage is slightly higher than the State percentage. Again in case of Divorced/ Separated males percentage is slightly lower and females percentage is higher than the State percentage.

The highest percentage of married males are recorded in the age group of 45-49 and females in the age group of 35-39 in the district being 95.7 and 89.8 percent respectively. The corresponding figures in the State level for males and females are recorded in the same age group. Never married males and females being 22.4 and 5.5 percent respectively in the district. Never married males percentage is slightly higher and females percentage is slightly lower than the State percentage of 22.1 and 6.3 percent respectively.

Annexure VII : Age, Sex and Education in the district, 1991 and 2001 Census.

Education and Literacy rate

Age-group wise literacy rates for male and female in respect of both at state and district levels are presented below in the following Tables.

Table - I

Age, Sex and Education in Assam, 1991 – Census

In the district, the literacy rate for males and females in all age group are low as compared to the state rates. It is also seen that percentage of literates is high in age group of 15-19 than in all other age group both male and female though it is lower than the state percentage. Literate population are seen high up to middle level in all age groups excepting in the age group 20-49. In the higher educational level it is found to be low as compared to the state literacy.

Annexure VIII : Distribution of different mother tongues returned in 1991 and 2001 Census Languages and Dialects :

The detail information on number of population and their percentages speaking different languages are presented below in the following Tables.

Table - I
Distribution of population by different Mother Tongues – 1991 Census

Mother tongue		No. Persons classified by their tongue			
		Assam		Nagaon	
		Total No.	percentage to total	Total No.	percentage to total
1		2	3	4	5
