Motif

Numaligarh Refinery Ltd.

Numaligarh Refinery Ltd. (NRL), popularly known as "Assam Accord Refinery" has been set up as a grass-root refinery at Numaligarh in the district of Golaghat (Assam) in fulfillment of the commitment made by the Government of India in the Historic "Assam Accord" signed in 1985. This refinery with a total capital investment of Rs 2724 crores is designed to process 3 MMTPA of indigenous crude oil adopting state-of-art with the configuration of 3 MMTPA capacity of Crude Oil Distillation Unit. Other major units of the refinery are Vacuum Distillation Unit (1.32 MMTPA), Delayed Coker Unit (0.306 MMTPA), Coke Calcination Unit (0.104 MMTPA), Hydrocracker Unit (1.1 MMTPA) etc. The capacity of the Refinery once fully commissioned is 84 TMT of LPG, 510 TMT of Naphtha, 85 TMT of ATF 1102 TMT of Superior Kerosene Oil, 1095 TMT of High speed Diesel, 71 TMT of Petroleum Coke and 4 TMT of Sulphar.

Occupied with about 1058 acres of land on the national highway and providing direct employment to about 600 persons, the Refinery has started commercial production from 1st October 2000. During 2001-02, about 2.13 million tones of petroleum products are sold.

Annexure IX	Distribution of Scheduld Castes and Scheduled Tribes in 1991 Census	577

****

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951Census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 Census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 Census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district Census Tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 Census DCHB was in two parts : Part A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA upto tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 Census DCHB, by and large, followed the pattern of presentation of 1981 Census, except the format of PCA was restructure of Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD block) level presentation of Village Directory and PCA Data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of Village Directory and PCA Data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 Census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of Gram Panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity and Child Welfare Centre and Primary Health

Centre), drinking water, Post and Telegraph (Post Office and Phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The *analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage* are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Shri P. Hazarika, Director of Census Operations, Assam. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 Census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and co-ordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agarwal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of Maps. Whereas, Shri Anil Kumar Arora, Deputy Director of data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and Town Directory Data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India.

New Delhi
Dated 17.10.2006.

Preface

The District Census Handbook is the only publication brought out by the Directorate of Census Operations on behalf of the State Government. The financial aspects of its publication are being taken care of by the State Government. This publication presents various demographic data down to the village level in rural area and to ward level of each town in urban locality. It depicts various amenities available in each village and town in the form of Village and Town Directory. Since the villages are the lowest units that constitute larger divisions like Revenue Circles, CD Blocks, Sub-divisions, Districts, the data both for Census as well as non Census are useful for micro planning and development at grass root level.

The analytical note included here in this publication has been improved by including many more information from than that of earlier publication. This publication is also made more attractive by inserting demographical aspect of 1991 Census in the form of annexures.

The Census Operations at Assam was initially conducted under the able guidance and supervision of Shri M. Das, IAS, Ex-Director of Census Operations, Assam. During my tenure, the Deputy Director, Shri Hiremath and Shri B.M. Talukdar, Asstt. Director,Assam were looking after Village Directory and Town Directory work. Now Shri B.L. Sarmah, DDCO and Shri N.C. Bhagabati, ADCO have been looking after all related works of DCHB and Shri B.M. Talukdar, Asstt. Director,Assam has also provided his valuable work in publication of this book. The Village Directory and Town Directory data were checked by a team of officials of which mention may be made of Mrs. P. Bhattacharjee, Sr. Compiler, Mrs. Khana Das, Asstt. Compiler, Mrs. P. Sonowal, Asstt. Compiler, Mrs. D. Sarmah, Asstt. Compiler and Mrs. D. Doley, Asstt. Compiler.

The DCHB is drafted by Shri B.M. Talukdar, Asstt Director and all Computer works were done by Shri S. Dutta Data Entry Operator , Smt. Rupam Gupta Stenographer. The map Section has provided maps which are included in this book. I offer my thanks to all of the officials who are closely associated with this noble work.

I am grateful to Shri J.K. Banthia, IAS, Registrar General and Census Commissioner of India for his constant valuable guidance. I much also record my gratitude to Dr. I.C. Aggarwal, Sr. Research officer for his sociological advice and Mr. S.L. Jain Deputy Director for his technical guidance

(P. Hazarika)
Director of Census Operations,
Assam, Guwahati.

DISTRICT HIGHLIGHTS - 2001 CENSUS

1 In Golaghat District, Golaghat Revenue Circle/ Tahsil is most populous having 382,957 persons while Khumtai Revenue Circle is the least populous circle having 77,098 persons.

2 Among the CD Blocks, Golaghat West CD Block has highest number of population with 209,756 whereas the lowest is found Gilaghat North CD Block with 42,349 persons.

3 In the district there are 5 Revenue Circles and 8 CD Blocks which comprise 1089 villages including 23 uninhabited villages.

4 The district comprises five towns. Golaghat MB is the most populous with 33,064 persons while Barpathar TC is the smallest in population with 7,079 souls.

5 While the highest number (416) inhabited villages is found in Golaghat South CD Block and the lowest(34) inhabited villages is found in Kakodonga CD Block.

6 The largest village by area is Kagiranga National Park with 18,952 hectares of land and situates in Golaghat West CD Block while in the district, Prajabasti is the smallest village in the area with 5 hectares of land. This village is under Morongi CD Block.

7 The largest village by population is Kaiborta Gaon (Rangamati T.E.) with 5,995 souls which is situated at Golaghat West CD Block and the smallest village is No. 2 Parghat with 13 persons only and is under Golaghat South CD Block.

8 The district is well known for her large number of Satras founded by Vaisnavitee reformer Shri Shri Sankar Dev and his followers time to time.

9 Kaziranga Wild Life Sanctuary is an important tourist place for its nature beauty along with various animals and birds. Kagiranga is famous for her one-horned rhino. .

10 Negheriting Siva Temple with the image of Siva is an important religious place in the district

11 Establishment of Numaligarh Oil Refinery at Golaghat district recently is a signed of industrial development which will naturally provide employment to local people.

STATEMENT-1

NAME OF THE HEADQUARTERS OF DISTRICT / TAHSIL, THEIR RURAL-URBAN STATUS AND DISTANCE FROM DISTRICT HEADQUARTERS, 2001

SL. No.	Name of District / Tahsil	Name of District / Tahsil headquarters	Whether Urban / Rural	Distance from tahsil headquarters to district headquarters by road (in km.)
1	2	3	4	5
1	Bokakhat	Bokakhat	U	35 Kms.
2	Khumtai	Khumtai	R	28 kms.
3	Dergaon	Dergaon	U	15 kms.
4	Golaghat	Golaghat	U	0 kms.
5	Sarupathar	Sarupathar	U	45 kms.

Statement-1 gives the information regarding the name of the headquarter of district/tahsil with their status and distance from Revenue Circle headquarter to district headquarter by road in kilometer. Except Khumtai Revenue Circle, all Revenue Circles are having the urban status. Golaghat Revenue Circle recorded 0 kilometer distance from its headquarter to district headquarter. However, the farthest distance of 40 kms. from Revenue Circle to district headquarter by road is recorded in Barpathar RC.

STATEMENT-2

NAME OF THE HEADQUARTERS OF DISTRICT / CD BLOCK THEIR RURAL - URBAN STATUS AND DISTANCE FROM DISTRICT HEADQUARTERS, 2001

Sl.No.	Name of District / C D Block	Name of District / CD Block headquarters	Whether Urban / Rural	Distance from CD Block headquarters to district headquarters by road (in km.)
1	2	3	4	5
1	Golaghat West	Golaghat	R	10 kms.
2	Golaghat North	Golaghat	R	12 kms.
3	Kakodonga	Golaghat	R	25 kms.
4	Golaghat Central	Golaghat	U	0 kms.
5	Golaghat East	Golaghat	R	7 kms.
6	Morongi	Golaghat	R	33 kms.
7	Gamariguri	Golaghat	R	28 kms.
8	Golaghat South	Golaghat	R	10 kms.

Statement-2 shows the CD Block wise and their status with distance from district headquarter. All eight CD Blocks are identified as rural except one CD Block and their locations vary from a distance of 10 kilometers to 33 kilometers from district headquarter. Morongi CD Block situated at the distance of 33 kilometers away from district headquarter and the nearest CD Block to the district headquarter is Golaghat Central CD Block with a distance of 0 kilometer.

STATEMENT -3

The statement indicates area, number of villages/ towns and population in the district The total area of the district is 3,786 sq. kms. In area, Silchar is the biggest Revenue Circle having 570 sq. kms. and the smallest is Udarbond Revenue Circle with 226 sq. kms. The density of population in the district is 382 persons per sq. km.

Out of total 1,048 villages in the district, 1,020 are inhabited and 28 are uninhabited villages. Silchar Revenue Circle is formed by highest number of villages and the lowest by Udarbond Revenue Circle The highest number 12 uninhabited villages are situated in Lakhipur Revenue Circle. The lowest number of uninhabited villages are situated in Silchar with 2 only. 1,444,921 persons live in 273,694 households in the district of which 743,042 and 701,879 are males and females respectively. There are two statutory towns and one Census town in the district.

STATEMENT-5

C D BLOCK WISE NUMBER OF VILLAGES AND RURAL POPULATION, 2001

Statement 9 gives the houseless and institutional population of Revenue Circles for rural and urban. The population and number of households of both houseless and institutional are more in rural than in urban. Among the Revenue Circles, Silchar Revenue Circle with 136 houseless populations is the highest and the lowest is noticed in Lakhipur Revenue Circle with 17 persons. Silchar Revenue Circle with 53 number of households having 538 persons stands in the highest position in the distribution of Institutional population among all Revenue Circles and the lowest is noticed in Lakhipur Revenue Circle with 423 persons.

ANALYTICAL NOTE

ANALYTICAL NOTE ON GOLAGHAT DISTRICT

(i) History and scope of District Census hand book

District Census Hand Book is an important and valuable publication brought out by the Census organization of each state after each decadal Census. This provides detailed information on some basic demographic and socio-economic aspects and availability of important civic amenities in each village and town of the district. It, thus, bears the proud privilege of being only informative source of every district of each state. It has, thus, proved to be of immense utility to the planners, administrators, academicians and researchers.

The District Census Handbook was first initiated during 1951 Census with the collaboration of respective state Governments. In 1951, only few demographic as well as some economic information in village and town level of the district along with some Census tables were published in District Census Handbooks. Since then, it had undergone radical changes during the subsequent decades. Incorporating more Census tables and also some basic statistics on land-use-pattern, agriculture, industry, administration, public health and medical etc. enhanced the scope and content of the publication. The DCHB of 1961 was, therefore, considered as a unique asset published by Census organization. In 1971 census, further improvements were made in the DCHB by enlisting many more information on village and towns in the form of Village & Town Directory. It has three parts. Part-A deals to Village and Town Directory. Part-B contains Villages and Town wise Primary Census Abstract and part C deals with administrative aspect and Census tables based on PCA etc. The 1981 census again widened the scope of DCHB to cover more data on literacy, health care etc. in addition to the information covered in 1971, DCHB. In 1981, the DCHB was divided into two parts. The part -A included data on Village & Town Directory and part-B covered only the village and town-wise Primary Census Abstract. This part of the DCHB was not brought to light in Assam as no census was conducted due to prevalence of disturb condition in the state. In 1991 Census, the DCHB was divided in two parts. The part- A divulged the Village and Town Directory and part-B indicated the Primary Census Abstract. The part -A had two sections. In section-I the alphabetical list of villages and note explaining the codes used in the Village Directory were presented. The Village Directory had four appendices. The section-II depicted note explaining the codes used in the Town Directory, the Town Directory statements (I to IV) and appendix to the Town Directory. The part-B revealed district Primary Census Abstract, circle-wise. CD Block wise, village and town wise Primary Census Abstract, Circle-wise, CD Block wise, village and town wise Primary Census Abstract. In addition, the PCA had and appendix as well as annexure to the appendix. The District Primary Census Abstract to scheduled caste and scheduled tribe at circle and town level was also incorporated in this part of the DCHB.

However as a tradition of the past in the present DCHB also some more information on availability of facilities, News Paper/Magazine are included for the first time. Further, information on income and expenditure, important commodities manufactured, exported and imported etc. are also included to give a fuller account to the scope of DCHB. Similarly, in Town Directory also few more information is included to increase its depth.

The process of collection and compilation of these data involved a lot of exercise. At first, Revenue Circle wise revenue authorities at district level have collected information on each village. These data are compared with 1991 Census data at district level and after their thorough scrutiny and cross check, these records are submitted to the Census Directorate. In case of Town Directory, data have been collected directly from the Commissioner of Municipal Corporation & Chairman of Municipal Board or Town Committee as the case may be. All these data received in the form of printed booklets are once again cross-examined with the figures of 1991 Census at Census Directorate. Thereafter, efforts are made to compare and crosscheck with similar data made available from other sources especially data published by different departments of state Government to verify the authenticity and correctness of figures received through Village and Town Directory booklets.

Then only compilation and computerization of these data have been made according to the instructions of the Registrar General and Census Commissioner, India. It is, therefore regarded that because of inclusion of various new information and external validation of data so collected, the 2001 DCHB is naturally be a superior publication to that of many publications brought out earlier. It will be a more useful book for all concerns. These endeavourers will perhaps, quince the thirst of needy people.

(ii) Brief history of Golaghat district :

It is believed that the name of Golaghat is originated from the words 'Gola' meaning a shop and 'Ghat' meaning a bathing and landing place or enclosure for boats etc. There was a Gola near the Ghat on the river Dhansiri.

The early history of Golaghat District is connected with the Bodos and Shans. Scholars are of the opinion that the great Bodo tribe of Sino – Tibetan origin that established over the Valley of Brahmaputra fairly early in the second millennium B.C. and some Austric and possibly also Dravidian tribes has preceded the Mongoloid Bodos in the tract. The area in Golaghat district formed part of this tract and covered by tribal settlement of Bodo tribe.

It is believed that area of Golaghat district formed part of the great kingdom of Pragjyotish. Kamrupa whole eastern boundary extended up to the river Dikhou especially during the time of various rulers of Assam in the end of 8th century. This political status seems to have continued till the decline of Hindu dynasty and thereafter the Brachyurans and the Bodo chiefs beginning since the 12th century A.D. or a little earlier established several small principalities. Before going to the modern history, we find a large part of the district up to Sibsagar was under the domination of the Kachari king of Dimapur. This Kacharies belong to the great Bodo tribe and are thought to be a section of Indo – Chinese race. Prior to the advent of Sukapha, the founder of Ahom dynasty, the whole of eastern Assam was under the tribal rule. A powerful section of the race locally called Chutiya established their capital at Sadia probably early in the 13th Century AD. The other side to the south of Golaghat district the Hedambial Kacharis of Dhansiri valley had their capital at Dimapur. The Dimasa King Bisarapatipha said to be the son of Mahadev was a contemporary of Sukapha.

Turning to the history of the Ahoms, the fierce and warliks tribes of Shans who call themselves Tai were a branch of the Tai race of East Asia. Ahom historians say that Sukapha, the first Ahom king entered Assam in 1228 AD crossing the high hills called Patkai. At that time, it appears that the area from Dimapur in the South of the Dilih river on the north was under the occupation of Kacharis. These tribes called as Hedambial Kacharis of Dhansiri Valley had their capital at Dimapur. Sukapha wrested Mahang, the Easter part of the territory of this Kachari King during him in the hills. The struggle between the Ahoms, Chutias and Kacharis started during the gradual movement of expansion towards the east and west by the Ahom. A major collision with Kacharis took place when the Dimasa (Timasa) Kacharis invaded the Ahom territory in 1490 AD. where the forced sent by the Ahom king Suhangpha (1488-1493) was defeated and driven across the river Dikhou. But it was not for long that they were to enjoy the pleasant sense of victory and Suhunang (1997- 1539) who was known as Dihingia Raja advanced up the valley of the river Dhansiri in 1536 AD. killed the Kachari Raja Detsung and sacked his capital Dimapur. The area of present Golaghat district become part of the Ahom territory since then.

On the death of Chakradhaj Sinha (1663- 1670) a short period of disturbance intervened and between 1670 and 1681 no less than seven princes were placed upon the Ahom throne only to come to a bloody and untimely end. However, Gadadhar Sinha came to the throne in 1681 restored the prestige, which Ahom had formerly enjoyed. Not content with consolidating his power in the plains, he dispatched expediters against the Muslims and Nagas. By this rigorous policy he reduced to order the hill tribes. It was the reign of Rudra Sinha (1696 – 1714), the zenith of the Ahom power was reached. He dispatched two large armies against the Rajaj of Cachar Jantiapur and brought both the princes captive to Ahom making them acknowledged sovereignty of the Ahom.

The reign of Rajeswar Sinha (1751-1769) appears to have some significance to Golaghat district, thought the signs of decay of the Ahom power all too clear. He dispatched two expediters to Manipur but no avail. In 1759, the peaceful tribe of Mikirs is said to have raided on the plains, but little difficulty was experienced in putting down this rising. Rajeswar

Sinha constructed Negheriting Siva Temple on a hillock known as Negheri near Dergaon. However, the reign of his successor, Laxmi Sinha (1769 – 1780) was signalized by the outbreak of the Maoarias insurrection. This was enhanced with the varying success with violence even during the reign of Gaurinath Sinha (1780 – 1795) who succeeded his father Laxmi Sinha. Only in 1794, the entire state of normalcy was restored by the British forces sent on request made by Gaurinath Sinha.But this was a temporary solution. Gaurinath Sinha was succeeded by Kamaleswar Sinha (1795 – 1811) and the country was still in a state of great disorder. After the death of Kamaleswar Sinha his brother Chandra Kanta Sinha succeeded the throne. By this time, it was clear that the Ahom had lost their vigor as a military race and nobles frittered away their energies in insecurely quarrels among themselves. Badan Chandra Barphukan had brought the Burmese army who retained their hold upon Assam by putting on the throne their own puppet, which resulted a reign of terror. Fortunately, the quarrel between British and Burmese made Burmese to renounce all claims or Assam by the treaty of Yandaboo on 24th February,1826. During the declining days of Ahoms, when their independent sovereignty had come to an end, Purandar Sinha was entrusted in 1833 with the administration of Upper Assam by the East India Company who had already won mastery over Assam. Even this artificial ornamentation by scion of Ahom Royal House was short lived, for in the year 1838 AD the whole area was resumed by the authorities of the East India Company and annexed to British territory; and on Sept, 16th of the same year Col Aham White was appointed its Political Agent. By a proclamation in 1839, the area was divided into two districts of Lakhimpur and Sibsagar. Purandar Sinha ruled with Jorhat as the capital of his territory, Upper Assam, but with formation of two other Sub divisions, one at Jaipur and the other at Golaghat. On 18th December 1846 Jorhat was declared as a subdivision comprising certain portions of Golaghat subdivision. In 1751 certain portions of Barpathar, Sarupathar Barangi mauzas of Golaghat circle and Duarbagari of Bokakhat circle transferred to the united Mikir and N.C. Hills district. Golaghat Subdivision was comprised of Golaghat, Dergaon and Golaghat circles. Golaghat circle was the largest among them and with only 150.10 Sq-miles of area Dergaon was the smallest.

(iii) Administrative Set-up :

The present Golaghat district came into existence vide Govt. of Assam Notification No. (B)/489/85/51 dated 5.10.1987 with area of Golaghat subdivision of erstwhile Jorhat district with its headquarter at Golaghat.

For the administrative purposes, the district is divided into three sub-divisions viz, Golaghat, Bokakhat and Sarupathar. Again each sub-division is divided into revenue circles and under revenue circles there are Mauzas comprising villages of all kinds. In the district there are only 5 revenue circles. Golaghat sub-division has 3 revenue circles and other two sub divisions have one revenue circle each. In the district there are- Community Development Blocks. The district consists of as many as 6 towns with one census town.

The Deputy Commissioner of the district is the over all in charge of the administration of the entire district. He also acts as the collector in case of revenue matters, as a District Magistrate in case of maintenance if Law and Order and General Administration, as a District Election officer in case of conduct of Election, as a Principal Census Officer while conducting Census and so on. A number officer, like Additional Deputy Commissioners, Sub-divisional officers, Extra Assistant Commissioners, and others assist the Deputy Commissioner in looking after the administration of the district.

At lower level each Sub-Division is headed by one sub-divisional officer whereas under him there will be Revenue Circle Officers for each revenue circles who are responsible for the entire administration of the area under their respective revenue circles.

(iv) Physical features :

The district lies between 26°41" and 27°17" N latitudes and 93°18" and 95°26" E longitudes. On the north it is boundary by the river Brahmaputra and on the south by Nagaland and Karbi Anglong district, on the east by Jorhat and on the west by Karbi Anglong and Nagaon district.

The district covers an area of 3,502 square kms and has a population of 946,279. The district occupies 8th rank in terms of area.

Topography :

The natural topography of the district Golaghat is a belt of flooded land situated in the north of Dergaon sub-division which is a wide, healthy and homogenous plain and low lying area along the Brahmaputra. It is the populous and important portion where cultivation brings in considerable prosperity and progress. On the lower land the staple crop is rice and in the higher levels have been planted out with tea. The entire landscape of the district is one of rural plenty/ the district is very rich in tea. The tea gardens themselves have enough to appeal to the lover of the picturesque. The rows of the bushes are premed down to one uniform level and the monotony of this expanse of green is only relieved by the labourer's lines, the factory and the manager's bungalows.

The Upper Valley of the Dhansiri and Kagiranga are covered with dense tree-forest. A wonderful view of forest can be obtained from one of the outer ranges of the Naga. The Diyong forest area is also covered with dense tree-forest, which makes the place beautiful and abode for many hinds of animals.

Hills :

The whole of the district is a level plain. One small hillock calls for special mention, but only on account of the associations with which it is connected and not from any intrinsic importance of its own. The Neghereting hill is a small imminence near the Brahmaputra on which stands a temple sacred to Mahadeva/Siva.

Drainage :

On the north of Golaghat district, the river mighty Brahmahputra starting its maiden journey through Assam meets the tributaries of the district. The tributaries are mainly Dhansiri, Disai, Diphlu, Kakodonga, Rengma, Dainurung etc. There are various jan and juri to flash out the water of the district. Among the jan and juri, the important of them are Thora jan, Langta jan, changa jan etc.

The whole drainage of the district ultimately finds its way to the river Brahmahputra. All the rivers and jan and juri of the district take the part to drain out its water to river Dhansiri which meets with the Brahmaputra.

Flood :

Flood is a common phenomenon of Assam, which cannot be avoided by Golaghat district also. The plains of Golaghat district lying in the basin areas of river Brahmaputra and Dhansiri suffer annually from the floods. The magnitude of the devastation and havoc caused frequently by floods have increased after the great earthquake that occupied in 1950. The lifes and property of the district have been losing every year due to recurring flood.

The causes of the increased flood hazard to which the plains have been subjected are complex. It is well known that the great earthquake of 1950 has changed the topography of the basins. The large-scale landslides caused by earthquake have denuded hills of forests and hill slopes have cracked and become unstable. The riverbed aggraded and the carrying capacitates of the river have been reduced. In search of required waterways the rivers overflow their already shortened banks and spread allover the plains. The causes of the flood havoc lie mostly in the conditions of river course and the rapid silting of riverbeds and sometimes due to heavy intensity of monsoon rainfall.

In spite of remedial measures taken by the government, still then the district has not been made-free from flood and its menaces.

Flora and Fauna :

Botanically the forest of Golaghat can roughly be divided into two divisions - the tropical and evergreen forests. The first category includes climatic climax vegetation such as Hollong, Nahor, Sam, Amri, Aunseroi, Makoi, Sopa etc. These are the best stocked stand of the district.

In the second category such species are included whose top canopies are deciduous and the middle and lower canopies are evergreen in nature. The evergreen forests are most picturesque to the eyes. The evergreen forests as the name suggests, are evergreen in character and are generally found in all reserve forests. The species of Kaziranga reserve represent Savannah type which contains various kinds of grass such as Ekara, Nal, Khagari (reed) etc. Patches of Koroi also occur here and there. Simalu grows profusely in these areas. A belt of mixed evergreen forest also occur along the bank of

Kaziranga. The belt generally harbours the wild elephants and rhinos of the sanctuary.

In Golaghat quite a large number of the denizens of the silvan world is conglomerated in the Kaziranga wild Life Sanctuary. The exhibit par excellence of the Sanctuary is the great Indian one-horned Rhinoceros to be found generally wallowing in the mud of the swamps. Another magnificent species, getting rare in the rest of India, which can be seen, is the wild buffalo's. Another important species is the swamp deer. Countless numbers of the hog deers are also there in the sanctuary and the number of wild pigs is ever greater. Tigers and leopards have been seen in the Sanctuary. The barking deer and sumbhur deer can also been seen. The bear, jungle cats and crab-eating mongoose are some other fauna of the sanctuary. Water birds such as the whistling teel, snipe, adjutant, cormorants, black-billed storks, and white-billed stork are found abundantly. It would be wrong to conclude that species found in Kaziranga are absent in other parts of the district. Barring a few, such as rhinoceros, wild buffalo, swamp deer, most of the species, more particularly elephants, tiger, deer abound in the rest of the district also. Over and above, species found in the district are Black Panther, Bear, Spotted Deer, Pig, Wild Dog, Monkey, Parkapien, Hares, Squirrel, Mongoose, Civer Cat etc. Among the reptiles found in the district mention may be made of crocodile, King cobra, Lizard, and Python. The birds found in the district are Pelican Cane, Fowl, Goose, Duck, Coot, Pigeon, Parrot, Partridge, Quall, Florican, Peacock, and Hornbill etc.

Climate and Rainfall :

Just like climate of Assam, this district has a climate, which is characterized by a highly humid atmosphere, abundant rains and general coolness. The cold season from December to February is followed by the season of severe thunderstorms from April to June. The southwest monsoon season is from June to about the beginning of October. October and November constitute the post monsoon season.

The average animal rainfall in the district is stated to the 1943.9 mm. The rainfall generally increases from the southwest to the northwest. The actual total rainfall in this district during December 1998 to November 1999 was 1943.9 mm. against a normal rainfall of 2244.5mm. The rainfall was highest 491.1mm. in the month of July, 1999 followed by May with 443.9mm. There was no rainfall in the months of December 1998 and February 1999.

Temperature :

There is a meteorological observation at Golaghat. The cold season starts about the end of November when both day and night temperatures begin to drop rapidly. January is the coldest month of the year with the mean daily minimum temperature at 9.8°C(49.6°F) and the mean daily maximum at 21.6°C(70.9°F). Temperatures begins to rise from about the beginning of March and by July, it attains the highest point, the mean daily maximum temperature being 31.8°C (89.3°F).

The monsoon season is the period of the year with the highest temperatures. Being also the high moisture in the air, the weather is often unpleasant with the damp heat particularly in between the spells of rain.

The highest maximum temperature recorded at Golaghat was 42.8°C(109.1°F) on May 23, 1945 and the lowest temperature was 28°C(37.0°F) on February 13th, 1905. The atmosphere is highly humid throughout the year.

Socio-cultural Features :

Land and people :

The populace of Golaghat is composed mainly of three religions Hindus, Muslims and Christians. In the order of importance, Buddhists, Jains and Sikhs are also in Golaghat but they form only little drops in a vest Hindu ocean. Further divisions of the population of the district can be made from caste and tribes, population of various caste and tribes compromised the Brahmins, Kalitas, Kayasthas, Baniyas, Barias, Ahoms, Chutias, Koches, Keots, Kaibarttas, Kumars, Katonis, Muslims, Naths, Suts, Savarnakars etcl. The plain tribal population comprises the Dcoris, Garos, Kacharis, Mikirs, Nagas etc. The tea garden and ex-tea garden population comprises the Bhumis, Garhs, Kurmis, Lohars, Mundas, Oriyas, Rahidases, Santals, Telungas etc. The other people comprise the Bengalis, Marwaris. Nepalis, Panjabis, Sikhs etc.

Hindus :

Most of the Hindus are followers of Sakati or worshippers of the reproductive powers as manifested in the female. Tantric rituals in their debased forms are known to have been practiced in Assam in the centuries preceding the Vaishnava revival. Ahom monarchs, when they were Hindus at first initiated into Vaishnabism, which was the predominant faith in Assam at that time, however, successive rulers showed learning towards Saktism and from the end of 17th

century that faith became the creed of the Ahom sovereign. Vaishnavism, the worship of Vishnu is also prevalent in Assam from early times. However, this faith slowly occupied a sub-ordinate position in subsequent centuries. Decay and degeneration in the religions field bed to revival of the Vaishnavite faith in the fifteen century under the leadership of Sankardeva (1449 – 1569).

There are numbers of Satras in Golaghat scattered all over the district. These Satras are the religions colleges of the Hindus resembling in some respects the medieval monasteries.

Muhammadans :

About 7.1%(1991) of the total population of the district are Mahammadans. The great majority of these people are Sunnis. In Golaghat Mahammadans like other Assamese people, actively participate in the observance of the Bihu festival in particular leading to harmony among different people.

Christians :

As per 1991 Census, Christians comprise only 6.3% of the district population who appears to be more native than any other district in the plains. There is a branch of American Baptist Mission in Golaghat and more than half of the native Christians profess themselves to be members of the mission.

Social system :

In the families of Hindus, the property is generally held by the head of the family who manages it as its custodians. Among the Hindus, after the death of the father his sons and daughters inherit the property. The Hindus in general perform a ceremony when girl attains puberty. The marriage ceremony is usually preceded by a ceremonious function known as Joran, which takes place one or two days before the appointed day of marriage.

In a rural family, the houses which are generally found are as follows—Charaghar(reception house), Gohaighar (house for worship), Bharalghar(store house) and Gohalighar(cow-shed). They build their houses with bamboo, ekra (reed) and thatch. But now, those who can afford, have constructed houses in modern lines with modern materials.

Dresses :

Female dresses consist of Riha Mekhela, Chadar and Blouse and ornaments include Keru, Jhangphai Keru, Dugdgu, Bela, Neckless, Chain, earning etc. Male dresses include Dhoti, Chadar, Shirt, trousers, and the modern pants and coats.

Food :

Rice is the main staple food of all people of the district. Vegetables, dal, fish, eggs, tea, meat, milk, curd, fruit etc. form the subsidiary items of food.

Communal Life :

Feasts, Singing parties, and bhaonas or simple theatrical performances are the principal amusements of the villagers. The Dol-Jatra or Holi has gained favour with Assamese during February or March in every year. The special festivals of the Assamese are the three Bihus and the anniversary ceremonies of Shankardeva and Madhavadeva, the founder of Mahapurusia sect of Vaishnavism. The Kartik Bihu is celebrated on the last day of Aswin (October) and is not an occasion or very much importance. The Magh Bihu or the Bhogali Bihu is the harvest home and begins on the last day of Pous (January 13th and 14th)

The Baisakh Bihu also called as Rongali Bihu, which begins on the last day of Chaitra (April 13th and 14th) is in honour of New Year. It is a spring festival and its origin is traced to the remote past. The Assamese people now observe this Bihu as national festival and it serves promote unity among different creeds and communities.

Every Assamese village of the district has a Namghar or community prayer hall, which also serves as a stage and auditorium. Assamese dramas are performed in the Namghar and in the Satras at a regular interval twice or thrice every year.

Resources in the district :

Geology and Mineral wealth :

The geology of almost the entire district is thus, concealed by alluvial deposits. Geological surveys, aided by drilling for oil have shown that under the recent deposits there are many thousands of feet Tertiary sediments which lie over on Nagaland basement complex. These Tertiary rocks represent the foreland facies. The Diyong of Naga Hills is composed mostly shale.

Oil is another mineral of considerable economic importance which has been discovered in Golaghat also. The oil and natural gas commission undertook exploration in Golaghat. The Numalighar Oil Refinery is now functioning in the district.

So far as clay is concerned, ordinary clay for pottery and brick making is found almost everywhere in the district. Fire clays have been found the district. Fine white clay also reported in the district.

Forests :

Out of 354,070 hectares areas in the district, about 152,294 hectares is under forests, which come to about 43.0% of the total areas.

There are two types of forests in the district, tropical evergreen forests and miscellaneous forests. Forestry has been played an important role in the economy of the district. A vast majority of the people of the district depends upon forest for firewood for cooking and timber, bamboo, ekra (reed), thatch, jengu, tokopat, cane etc. for house building purposes. A number of forest-based industries have been opened in the district.

Land and land –use- pattern :

The land put to different uses in the district may be classified as forests agriculture, wasteland etc. The following table gives a clear picture of the area land put to different uses in the district.

Table - 1

Land use pattern in Golaghat, 1997 – 1988

Sl. No.	Land put to different uses.	Area in hectares.	Percentages to total geographical area.
1	2	3	4
1	Total Geographical area	354,070*	100
2	Forest area	152,294	43
3	Land not available for cultivation	40,311	11.4
	a) Land put to non agricultural uses	29,510	8.3
	b) b) Barren and uncultured land	11,001	3.1
4	Other non-cultivated land excluding follow lands		
	a) Permanent pastures and other grazing land	27.864	7.9
	b) Land under mise, trees, grovess etc.		
	c) Cultivable waste land8.314	2.4	
		13,602	3.8
		5,948	1.7
5	Follow land	15,634	4.5
	a) Follow other than current fallow	6,810	1.9
	b) Current fallow	8.824	2.5
6	Net area sown	117,967	33.3
7	Total cropped area	154.495	43.6
8	Area sown more than once	36.528	10 3

Source: Directorate of Agriculture "Basic Agricultural Statistics Assam 1998 – 99"

Note: 1.* Area figures in respect of forest, which includes area under reserve forest and revenue forest relates to year 1996 – 97

2. The figures of total geographical area are as per village papers. However according professional survey it is 350,200 hectares.

From the above table it is clear that the net area sown in the district constitutes about 33.3% and forests about 43.0%. About 11.4% of land is not available for cultivation. Most of this is put to non-agricultural uses.

Economic Profile of the district :

Major characteristics of the district :

Agriculture and plantation :

According to 2001 Census 55.6 % population of the district is engaged in agriculture. The detail break-up of population under different activities is given in relevant tables.

Soil :

The arable soils of Golaghat district may broadly be grouped into —

1. Old alluvial soils.

2. New alluvial soils of riparian tracts and

3. Hilly soils. The major portions of the arable soils of the district are however, alluvial soils.

The textures of the soils of the district vary from sandy loams to sands. There are also some clayed loams or clayed soils. Both old alluvial soils and hills soil are acid in reaction and deficient in 'available' phosphate and potash also. As regards to total nitrogen, it varies from high to low in case of old alluvial soils, it is medium in most of new alluvial soils, while hill soils are usually comparatively rich in nitrogen apparently due to the virgin nature of the soils.

Crops :

Tea, paddy, sugar cane, vegetables and to some extent fruits are the main crops grown in old alluvial soils of the district as the soil conditions being suitable for these crops. Rice is the principal food crop of the district.

The following table presents data on different types of crops grown, area, yield etc. in the district 1999 (final forecast).

Table—2

Area, Population and Average yield of important crops in Golaghat district, 1998 – 99

Sl. No.	Type of crop	Area under cultivation	Production (Tones)	Average yield (Kg) per hectare
1	2	3	4	5
(A)	Cereals			
1	Autumn rice	4,057	5,896	1,477
2	Winter rice	48,460	82,483	1,728
3	Summer rice	267	532	1,992
4	Total rice	52,784	88,911	1,710
5	Maize	0.82	44	540
6	Wheat	865	715	827
7	Other cereals and Small millets	9	3	1
(B)	Pulses			
1	Tur	48	33	679
2	Gram	10	5	450
3	Black gram	1,085	651	600
4	Green gram	95	40	424
5	Lentil	1,260	781	620
6	Peas	740	643	869
7	Other pulses	115	49	425
8	Total pulses	3,353	2,202	657
(C)	Oil seeds			
1	Linseed	-	-	-
2	Castor	3	1	400
3	Niger	1	1	450
4	Sesamum	55	17	300
5	Rape and mustard	3,075	1,768	575
6	Total	3,134	1,787	570
(D)	Fiber crops			
1	Jute	348	3,039	1,572
2	Mesta	3	11	632
3	Cotton	5	2	72
(E)	Miscellaneous			
1	Sugar cane	3,772	172,369	45,697
2	Topical	2	8	3,917
3	Potato	810	4,841	5,977
4	Sweet potato	45	113	2,500
5	Tobacco	11	8	700
(F)	Species			
1	Chille	110	72	650
2	Onion	142	451	3,177
3	Turmeric	170	51	300

Source : Direction of Agriculture– " Basic Agricultural Statistics Assam 1998 - 99"

From above table it is clear that rice is the staple food in this district and in addition crop of pulses and oil seeds are gown.

It is also seen the production of rice is highest in the district. The next highest product is seen sugar cane followed by potato.

Horticultural crops :

Banana, papaya, pineapple etc. are important horticultural corps of the district. The following table gives a brief account of the horticultural crops grown during 1998-99 in the district.

Table—3

Area, Production, and Average Yield of horticultural in Golaghat district, 1998-99

Sl. No.	Type of crops	Area under cultivation (Hectare)	Production	Average yield (Kg. Per hectare)
1	2	3	4	5
1	Banana	1,570	21,760	3,860
2	Papaya	85	1,358	15,979
3	Orange	45	450	10,000
4	Pine-apple	160	2,032	12,700
5	Areca-nut	3,990	1,893*	104(a)
6	Coconut	380	3,439**	72(a)

Note : * Production of Areca-nut in terms of dry cured nuts.
** Production of coconut is in thousand numbers but in tones.
(a) Average yield of areca nut and coconut in nuts per bearing trees.

Tea industry :

The history of the tea industry in Assam dates back to the year 1826, when indigenous tea plants growing in the plains of Assam came to the notice of the East India Company. The cultivation of this plant was first introduced 1830 by the East India Company. It is mentioned in the Economic Development of Assam by P.C. Goswami that a tea garden was started by the Govt. in 1833 in the Lakhimpur district. On 1835 a few indigenous plants were taken from the forest at "Ningroo" bordering the Singphoe country and grown at "Koondilmukh"at Sadiya. A company was found in 1939 known as the Assam Company. This was the first Company in India to undertake the commercial production of tea and was the direct successor of the East India Company. The headquarters of this company was formed at Nazira and remained till the shifting to Calcutta in 1956.The Government garden was carried from 1840 to 1849. But due to certain difficulties, the garden was sold to a China man named "Among". This Chinaman failed to improve the garden. In 1851, through the instrumentality of Colonel Hannay who contributed much to the development of tea cultivation in the part of upper Assam. The early sixties of 19th century i.e. from 1859 to 1860 was a period pf steady boom. After this period the tea industry received a great setback. But this trend was cheeked by 1878. In 1881, the North India Tea Estate Owners formed the Indian Tea Association. The industry grew continuously till 1990 and thereafter it underwent through a depreciation for a short period but soon recovered from this state of affairs. The major improvements have been made in the yield of tea, in the grouping of gardens under a limited number of companies, in the progressive mechanization and rationalization of production and in increasing their efficiency of productivity of labour.

The Tokolai Reserve Station was set up at Jorhat in 1911 with a view to carrying on research on cultivation and manufacture of tea in Assam. This has been very useful in increase of yield rate of tea. In the year 1932-33, it is again met with severe crisis due to depression and over production of tea. This condition was tackled by enacting the Indian Tea Control Act, 1933 and by 1952 it reached an unprecedented prosperity. Recently the Tokolai Experimental centre had developed a machine known as Rotorvane. It is a continuous processing machine for use in a continuous processing machine for use in a continuous system of manufacture.

The Guwahati Tea Auction Centre :

Marketing of tea has always been a great problem for the industrialists. Before opening of tea Auction Centre, at Guwahati, Tea Auction Centre, at Guwahati, Tea Auction Centre in Calcutta arranged for sale of Assam Tea Auction Centre, third of its kind in India started functioning at Guwahati from Sept. 1970.

Tea, which is subject to direct traction by way of excise duty, export duty and a user under tea Act, the industry makes substantial direct contribution to central Revenues. Besides, these taxes, tea industry is also subject to central income tax, supper tax (corporation) and agricultural income tax. Income tax along with sales tax levied upon it inflates the income of the state Govt, to a great extent.

Tea is the mainstay of the plywood industry. Tea grown in different parts of Assam is packed in the garden factories in plywood chests for dispatch. Tea estates require huge quantity of fertilizers for healthy growth of tea. Thus it gives a strong support to fertilizer industry also.

The labour force that engaged in the industry is bought mainly from Bihar, Madhya Pradesh, Orissa and Madras. The industry provides ample scope for employment from higher grade to lower grade workers. The tea estate in Assam is in different geographical size. It varies from small garden to large tea estates. The administration is also generally same from each other. The cell responsibility of a tea estate is vested on the Manager. He is the head of the estate. He is assisted by 2/3 Assistant Manager. The Assistant Manager are given separate responsibility such as production and supervision of garden and labours, financial affairs, stock and factory etc. each garden has a office in which there is a head clerk called "Borobabu" and he is assisted by some clerks and peon. Social services provided to its employees by hospitals urn by qualified medical officer and staff. Most of gardens have their ambulances to carry serious patient to for better treatment outside the gardens.

A major part is playing in the economy of the district by tea. It provides ample employment to the people of the district. Golaghat district has many large size tea gardens with their factories. In addition to large gardens, there are 193 small growers with a registered area of about 566.53 hectares as on 31.10.1999.

Now a day, many youths of the district have come forward to grow tea in their own lands. Which provide job and also earn income.

Irrigation :

Golaghat receives heavy rainfall during the months May to July of the year. This is the wettest period of the year and these months account for more than 60% of the total annual rainfall. The cultivators of the district depend largely on rainwater for their agricultural fields. Agriculture suffers loss on year of expensive rains due to floods and fails in year of drought. In times of drought people are compelled to irrigate their fields by digging canals from various streams. Indigenous way of irrigation is still prevailing in the district. The channels and ponds are constructed to water the paddy as well as for other crops. Some minor irrigation projects are installed in the district by constructing bunds across the streams and rivulets, drainage channels and silt channels to obtain silt deposit in low lying areas. Lift irrigation with electric pump has also been used in some parts of the district. To meet the demands of the agriculturists for a regular supply of water irrigation schemes are initiated by the government of Assam.

The following table shows the data on irrigation potential utilized during different seasons, additional potential created and targets and achievements, additional irrigation potential etc

Table—4

Irrigation potential utilized and Targets and Achievements of additional potential created in Golaghat district

Sl. No.	Particular	Land areas in hectares
1	2	3
1	Irrigation potential utilized during 1997-98	789.45
	i) During Kharif	695.4
	ii) During Rabi and Kharif	94.05
2	Irrigation potential created up to 31.03.199	160.73
	1. i) Minor irrigation	160.7.
	2. ii) Major and Medium	-
3	Targets for additional irrigation potential created during 1998-99	
	1. i) Minor irrigation	50
	2. ii) Major and Medium irrigation	50

Source : Chief Engineer, Irrigation Dept. Assam quoted in " Statistical Handbook Assam, 2000" by the Director of Economics and Statistics Govt. of Assam.

Animal Husbandry and Veterinary :

Plenty of livestock are found in the district. Cattle and goats are main domestic animal for most of the households of the district. Moreover, buffaloes, sheep, pigs, hares, fowls and ducks are found in the district. People generally graze their domestic animals on the rice fields after harvesting of crops. In the night, the animals are kept in sheds by the owners and give them paddy straws for food, which are kept in stock in the courtyard. Besides, the village grazing reserves where the villagers can graze their animals.

For all round development of livestock, emphasis has been given on the cultivation of fodder crops to provide them with nutritious diet. Roots and seeds of improved grasses are freely distributed to the farmers from the Government farms. The department of Animal Husbandry and Veterinary has been constantly helping the farmers of their animals. In order to improve the breed of cattle, measures have been adopted by the above department. Contagious and infectious diseases are also prevalent in the district. To protect animals from various diseases preventive measures are taken by the department.

Livestock and poultry in Golaghat district as on 1997
Livestock Census

Sl. No.	Livestock and Poultry	Numbers
1	2	3
1	Cattle	256,582
2	Buffaloes	72,929
3	Sheep	226
4	Goats	120,030
5	Pigs	56,747
6	Horses	255
7	Fowls	449,649
8	Ducks	125,079

Source : Statistical Hand book of Assam, 2000 Director of Economics and Statistics, Govt. of Assam.

Fisheries :

Pisciculture is becoming popular among all sections of the people irrespective of caste and creed. Fisheries in Assam are of various types. There are beel, river, swamp, and forest dereliet and semi derelict, pond and tank fisheries. Beel and river can be either registered or unregistered. Various kinds of fishes are found in the beels, tanks, rivers, and anuas (died river). The bigger type of fish usually found in the beels and rivers are Rou, Barali, Bahu, Kaliajora, Chital, Bhakua etc. The smaller varieties of fishes like Puthi, Singara, Kaoi, Garoi, Darikana are very common. Generally fish businesses were confined to a section of the people who is known as Namasudra or Kaibarta or Dum in the past. But now a day it is no longer belonged to a particular section of people only. It is a profitable business particularly for the beels bidders who, through auction can exploit the beels for a definite period of time either from the government or from the local authority.

For the development of fisheries in the district a number of schemes were undertaken by the government after independence with a view to accelerating production of fish as well as to improve the economy of the people.

There are all together 15 registered beels in the district and one registered river fishery. In the district, the target of fish seed production was set on 10.00 million nos. in 1998-99 whereas it was achieved 9.19m. nos. and 4000 metric tones of fish was targeted to produce but it was achieved 4765.60m. tones in the same period (Source: Statistical Handbook Assam, 2000).

Industries :

Golaghat is not industrially developed district of Assam. There is no major public sector industry in the past except the age-old tea industry. Numaligarh Oil Refinery is set up in the district, the functioning of which is started recently. The existing industries can be classified mainly into-

1. Food and kindred product
2. Forest products
3. Manufacturing excluding transport equipment and
4. Cotton textile.

Golaghat has a number of factories engaged in manufacture of food products. There are few rice mills and sow mills in the district.

The district is however, rich in cottage industries like pottery, blacksmithy, gold and silver smithy, cane and bamboo works, sericulture and weaving. But there industries are facing acute financial crisis as well as paucity of modern technical-know-how. The government is taking keen interest to ameliorate the condition of these industries. The Industries

Development, under 20 points programme has provided technical know how, finance, training and machineries to young entrepreneurs in establishing small scale industries which have provided self-employment to a good number of youths of the district. As on 1998, there are 101 manufacturing of food products industries in Golaghat district. There are 26 manufacturing of wood products furniture and fixtures industries and 29 manufacturing of non Metallic Mineral products industries on 1998. The total numbers of small-scale industries registered under Industries Development in Golaghat district is 343 by 31st December 1998.

Sericulture is another cottage industry of the district. It is used during the agricultural off-season as a subsidiary occupation. Still industry had its period of crisis during the British rule. But after independence, the department of Sericulture and Weaving came into operation and provided a fresh lease of life to this industry. The Central Silk Board of India has also been of great help to the State by providing finance for development of sericulture. There are 140 sericultural villages in this district .7185, 495 and 665 families are engaged in production of Eri, Muga, and Mulberry respectively in 1998.

Pottery has lost much of its past glory and is now confined only to making common earthen wares such as jars and pitchers. To encourage the village potters the State Khandi and Village Industries Board, Assam has provided various assistances. The potters have switched over to the production of glazed pottery wares and bricks and tiles.

Tenancy :

In Golaghat district, the relationship between the landlord and the tenant was regulated under the Tenancy Act enforced since 1929. Zamindary System was abolished in Assam in 1951 with the enforcement of the Assam State Acquisition of Zamindary Act. Few more acts were enacted from time to time. The Assam (Temporarily settled Area) Tenancy Act 1971 is now in force in the district. The broad features of the Act are as follows.

1. Sharecroppers are treated as tenants.

2. Right of occupancy accrues on occupation of cropland for three years as against 12 years.

3. The Government has been given the power to acquire the right of ownership and intermediary right in favour of occupancy and non-occupancy tenants.

4. Illegally ejected tenants are restored through revenue courts.

5. A limited right to mortgage has been given to non- occupancy tenants to obtain credit from the recognized financial institutions for agriculture whereas the occupancy tenant has been given permanent heritable and transferable right of use and occupancy in the land of his holdings.

Trade and commerce :

In an ancient time good overland communication system was not developed and the scope for internal as well as external trade was very much limited in Golaghat district. But after lapse of time situation has gradually improved. Golaghat was connected by rail and road during the pre-independence period with the rest of Assam. It was only after independence that the district witnessed considerable improvement in rail and road.

A considerable amount of retail business was done in local market. The greater part of the total trade enters and leaves by rail and road. Jute, paddy, rice, timber, tea, oilseeds, vegetables are the important products dealt in and exported in and outside the district. The hats are important business centres where a great deal of retail business in transacted. These hats are held either weekly or biweekly on particular day. Middlemen and beparies purchase the village products and sell them to wholesale merchants. Golaghat town is the principal centre of trade and commerce in the district.

Economic and Infrastructure :

Banking and Finance :

The most important source from which credit could be obtained in the district is the private moneylenders. However, in the recent years, the modern banking system is gaining popularly between businessmen and traders. Various financial schemes and programmes have been undertaken by the government. As on December 1999 there were 47 Scheduled Commercial Banks in the district with Rs 17,354 lakhs of deposits and Rs 50.08 lakhs of credits. In addition, as on December 1999, there are 22 Scheduled Regional Banks with Rs 4,007 lakhs of deposits and Rs 922 lakhs of credit.

Transports and communication :

The main conveyances used on land in olden times were horses, elephants and palanquins. When

the British first came into possession of the province the difficulty or communications, however proved a most serious obstacle to its development. Now, the road transport is playing a vital part in moulding the economic structure of the country. There is a National Highway and Assam Truck Road, which run through the district. There are bus services on important roads for passengers and also Private and Public vehicles for carrying goods. Taxis and tourists buses are available at reasonable rates.

Table-6

Road length in Golaghat District, 1997-98

Sl. No.	Category	Road length (Kms.)
1	2	3
1	National Highway	126
2	State Highway	116
3	Other P. W. D. Roads	1,244
	Total road length	1,486
4	Road length per lakh of population	179
5	Road length per Sq. km of geographical area	42.4

Note : 1. Road length per lakh of population calculated on the basis of 1991 census population.
Source : Chief Engineer, P.W.D. (Roads) Govt. of Assam.

In Golaghat district, there are about 8,236 motor vehicles on the road during 1998-99 of which 1001 are registered in 1998-99 only. Out of total 8236 motors vehicles on the road 6254 were two wheelers, 807 were trucks, 302 light vehicle, 275 cars, 229 buses. The road distance from Golaghat town to Guwahati is 290 kms. and to Jorhat town is about 45 kms.

Waterways :

The great rover Brahmaputra which forms the northern boundary of the district together with its tributaries has offered ample scope for development of inland waterways transport. There are some Ghats in the northern part of the district with facility for crossing the river at important road points. The country boats are generally used to cross the river.

Power and Electricity :

The development of agriculture as well as industry cannot be thought of without the availability of power. In addition to it, the use of electricity has become indispensable in the modern times. Golaghat district does not possess power plant for generation of electricity. It has to depend entirely on supply from outside. Under the rural electrification scheme, electrification of the villages of the district started in a big way. Till 2000, most of the villages of the district are covered by rural electrification scheme. The total number of villages electrified is 658 as on 31st March 199 as against total 1046 villages of the district.

Economic Development :

From various accounts of information it is evident that Golaghat is mainly an agricultural district and the impact of an agricultural economy is explicitly revealed in all directions. As per the Census Report 1991 about 36.4% of males and 20.4% of females are engaged in primary sector as main workers where as the same in secondary sector is 2.40 and 0.3% and in tertiary 9.1% and 1.2% respectively for males and females.

The following table shows the district wise percentage of main worker of both males and females in different sectors of economy.

Table—7

Source : Census of India 1991, Primary Census Abstract.

The gross domestic product of factory cost during the year 1994-95 for the district is estimated about Rs.58,148 lakhs in which the share of primary sector is 55.5% and of secondary sector are 14.0% and the rest from the tertiary sector. The data on GDP from different sector of all districts and estimates of per capita GDP for males and females are presented in the following tables.

Table –8

Note : *Col No 7 and 8 are calculated on the basis sector – wise GDP in 1994-95 and sex-wise no. of persons employed in each sector in 1991 .Total GDP for males and females are estimated first on the basis of no. of males and females employed in each sector and this total GDP is distributed among all males and females to arrive at per capita GDP.

Source : 1. Directorate of Economics and Statistics, Govt. of Assam,
2.Census of India PCA 1991 Assam

As can be seen in the above table it appears that Golaghat is in a better position in terms of per capita GDP as compared to some districts of Assam. It stands in 7th position among the districts of Assam. The per capita GDP of Golaghat district is Rs.6,496, which is lower than the State average of Rs.6,816. However, gender disparity is also visible where one can see the large gap between per capita GDP between males and females, which is Rs 10,297 for males and Rs 3,461 for females.

Char area :

The char Area are those lands, which are generally formed in the banks of big rivers. In Assam such areas are usually found in low-lying flood-prone zone from Sadiya to Dhuburi inside the mighty Brahmaputra River. The river Brahmaputra carry sand during rainy season annually and get it deposited and settled in the middle or on the corner of the main stream which makes an island inside the river bed or on the bank of the river once the water level recedes. As a result of deposition of enormous load of sediments in the middle of the river course or by side of the banks, a large number of almonds shaped river islands called as chaparis or chars are formed. In formation of a char or chapari, the river takes five to six years. The soils or these areas are of new alluvial nature. These areas are less acidic and are moderately rich in plant nutrients. A particular section of people begin to reside in these areas and start cultivation too. But even though, these areas are not free from the menace of flood. During flood, when the water flows through the chars, the settlers of these areas used to shift themselves to some other high lands the to spend the period of flood and come back to their original place of abode after flood recedes. But sometimes, due to tremendous changes of river course and heavy erosion, some chars are vanished while some may remain free form the flood. But this phenomenon cannot be treated as a permanent nature.

Golaghat district is free form char or Chapari. Though the river Brahmaputra is following through

the north part of the district, no char settlement has been come up. Still then, some sorts of char dwellers are seen in north of the district near to the river Brahmaputra.

General Administration :

Revenue administration is historically been the primary responsibility of the district administration. This involves collection and fixing of land revenue registration, mutation, and overall management in regard to land, both private and public. Besides the revenue branch of the Deputy Commissions office, which is looked after by the Additional Deputy Commissioner (Revenue), there are 5 out lying revenue circles in the district headed bye Circle Officers. The Mauzadars under the Circle Officers are responsible for collecting land revenue (Khazana) from land owners (Pattadars). All the circle officers are required to submit 'doul' (demand of revenue) to the Deputy Commissioner, and after his approval, Mauzadars are to collect revenue as per the demand.

Development :

From the developmental angle, Golaghat district is divided into 8 Development Blocks. Below the block level set up, there are 102 Gaon Panchayats, each comprising a number of villages and governed by local self-bodies. From the point of police administration, the district area is divided among 8 police stations and 6 police-out posts.

Apart from revenue matters, the development of district is one of the prime objectives of the District Administration. As head of the District Administration, the Deputy Commissioners is responsible for overall development activities in the district under various programmes such as MP's Local Area Fund, MLA's fund, United Fund, Sub-Divisional Plan, Scheme Fund, Border Area Development Fund etc. For these works, the Deputy Commissioner assigns one ADC (Development) the specific task of looking after and co-coordinating various development activities undergoing in various sectors. The ADC (Development) is aided in this matter by the Decentralized-Planning cell of the DC's office. All departments, involved in the developmental activities of the district like P.W.D. Irrigation, Health, Education and many others work in coordination and a District Development Committee (DDC) headed by the Deputy Commissioner has been in place to ensure this coordination. Under the Government policy of rapid upliftment of rural population, a District Rural Development Agency (DRDA) is functioning in the district, which has the Deputy Commissioner as the Chairman and one Project Director as its functional head. All schemes for Rural Development are implemented by agencies in coordination with a Development Blocks situated in outlying rural areas of the district. These development Blocks are supervised by Block Development Officers (BDOs') and Senior BDOs'.

Local self Government :

The present system of local Self Government is a legacy of the British Administration and its origin may be traced to the principle of local taxation embodied in Regulation 13 of 1813 however, some form of local self government were in existence like Namghar, in pre-British period. It was a village court, trails of crime and disputes were held in. Initially Panchyats were constituted as local Boards in 1882. The Assam Panchyat Act 1959 which came into force in 1960, abolished the local Boards and under this Act a three-tire Panchyat Raj System was introduced in Assam. However, the Panchyat Act 1972, which came into operation from 5th May 1973 changed over to two tier system and the intermediary Anchalik Panchyat having been abolished.

As on 31.3.2000 there were 102 Gaon Panchyats and 3 Mahkuma Parishads in the rural area of Golaghat district.

For management and implementation of various development schemes, elected bodies are constituted at the level of Corporation, Municipality and Town Committees for urban areas and Panchayats bodies for the rural areas. Golaghat district has five urban local administration bodies which are as follows-

1. Golaghat Municipal Board.
2. Degaon Town Committee.
3. Bokakhat Town Committee.
4. Sarupathar Town Committee.
5. Barpathar Town Committee.

There is one chairman and a vice-chairman in municipality and the chairman is the head of the administration. He presides over meetings of the municipality. He is entrusted with the implementation of the schemes taken up by the municipality. The municipality has various source of revenue, it regularly receives annual grants from the Government. Besides, it levies taxes on holdings, rickshaws, carts, bicycle, stalls, open space, markets, cinema houses etc.

Some important duties of the municipality town committees are to maintain roads and bridges under their jurisdiction and look after the sanitation of public health laying out of parks, establishment of Veterinary Dispensaries, libraries, fire brigades, supply of protected water, road lighting etc.

Autonomous District Council :

In case of district having Autonomous District Council, most of the powers and functions of the Deputy Commissioner are transferred to the Autonomous District Council. The District Council has both executive as well as legislative powers, especially on the matters of administration of land, management of unreserved forests, utilization of water for the purpose of agriculture, regulation of Jhum or shifting cultivation. They are also empowered to take decision on matters relating to establishment of village or town committees or councils, matter relating to village and town administration, health and sanitation, appointment or succession of village chief or headman, inheritance of property, marriage, social customs etc.

The district council has also the powers to establish, construct or manage primary school, dispensaries, markets, roads and bridges etc. They are empowered to collect revenues by way of levies, taxes and royalty etc from various sections of societies and people.

In Golaghat district there is no Autonomous District Council.

Law and Order :

The incidence of crime was very meager from Ahom to British regime. Migration of people did not take place in the past as a scale as it has been in recent days and crimes against property were very less. With the lapse of time, the picture began to changing rapidly. Other factors that are associated with the increase of crimes are-

1. Urbanization and industrialization,
2. Rising of Standard of living
3. Growing unemployment
4. Better reporting of cases etc

Maintenance of law and order is another importance aspect of district administration and the Deputy Commissioner also being the District Magistrate is responsible for proper maintenance of law and order. The Additional District Magistrate and Sub-divisional Magistrates aid the Deputy Commissioner. The Circle Officers of the Circles also function as Executive Magistrate and are responsible for maintenance of law and order in their respective circles areas. The District Magistrate and other Magistrates take the necessary assistance from the police department for any necessity. The police Administration of the district is headed by the Superintendent of police. The police department has an intra-structure of 8 police stations, 6 out-posts and other auxiliary establishments in the district.

The incident of crime in the district is not less compared to other parts of the state. The number of different cases of crimes reported is presented in the table below.

Table –9
Cases of crime reported in Assam and Golaghat - 1998

Cases of crime	Number of cases		Percentage to total crimes in the state
	Assam	Golaghat dist.	
Murder	1,665	64	3.8
Rape	744	36	4.8
Kidnapping	1,471	50	3.4
Dacoity	928	32	3.5
Robbery	1,082	38	3.5
Burglary	3,696	94	2.5
Riots	3,548	41	1.2
Thief	7,664	294	3.8

Source - Additional Director General of Police (CID) Govt. of Assam

It is seen in the above table that the incidence of rape is relatively more compared to other types of crimes. The incidence of crimes for thief, murder, kidnapping, dacoity, robbery are almost equal with little variation to each other. The incidence of riots is less than all other crimes in the district. However, the rates of conviction are very less both in the district as well as in the state as a whole. Out of total 38140 crimes in the state, only 2874 are convicted and in the district, out of 1161 crimes, 36 are convicted.

Accidents :

In the year 1999, about 54 accidents on National Highways and 21 on other roads are reported of which 42 persons are killed and 33 are injured.

Health and Family Welfare :

During Ahom rule there were separate departments for public health and practice of Ayurvedic treatment. The Ayurvedic System, though based on the ancient system of Hindus, developed

along its lines in ancient Kamrupa with the result that many expert Ayurvedic physicians in Assam added something to it from their own knowledge and experience.

Important diseases prevalent in Golaghat district are fevers, dysentery, diarrhoea, pulmonic affection, reheumantism etc. Among this diarrhoea and dysentery, intestinal diseases and hookworms are generally common in the district. Malaria was also most common in the southern mountainous region bordering on the Nagaland and now with intensive activities of the National Malaria Eradication Project in the district, this terrific scourage has also been brought under control. Kalaazar, which used to claim heavy toll of lives in the past has been totally brought under control.

The Directorate of Health Services is the main department, which is responsible to look after the health of the public under this directorate, PHC's are established in important places and in addition to these there are some separate institutions like Maternity Homes, Family Planning Centers, Dispensary, Nursing Homes. There is a hospital in the Golaghat. There are dispensaries in most of the tea gardens of the district.

Vital Statistics:

In the past, the vital statistics at the lower level in the rural areas were submitted by the village headman to the Mouzadar who in turn complies his Mouza figures and summit them to the civil surgeon or the sub-divisional Medical Officer as the case may be. Before implementation of RBD Act 1969 in the state, the Registration or Births and Deaths was not compulsory except in tea estates. Only after 1978, the registration of births and deaths become compulsory under the RBD Acts 1969, that came into force by Assam registration of births and deaths rules 1978. Again in 1999, the Govt. of Assam formed registration of births and deaths rule 1999 under the revamped system of civil registration that initiated by the central Govt. which is now in operation.

In Golaghat district at present all the Primary Health centres are registration centres of births and deaths for rural areas and the Municipality Board and Town Committees are Registration centres for births and deaths in the respective urban areas. The registration of births and deaths register all the events of birth and death occurred in their presence or notified by the individuals/agencies nominated for that purpose by the Govt. They compile all the events and submit monthly reports to the Joint Director of Health Services of the district who is the Chief Register of births and deaths for Assam State. The Chief Registrar of births and deaths compile the figures for state as a whole and sends reports to the Register General, India, New Delhi, periodically.

The Officers In charge of tea estates collects the tea estate's, events of births and deaths and these are reported to their respective registration centres.

The data on Registration of births and deaths available during 1957 to 1921 reveal that the registration of births was not given much importance compared to death registration. However, the level of registration for both births and deaths were very low.

CENSUS & NON-CENSUS CONCEPT

CONCEPTS AND DEFINITIONS

(v) CENSUS CONCEPTS:

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete

Semi-permanent houses:

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

RoomDwelling Room:

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room. In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses. If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household. A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office, etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has

been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house Rural-Urban area

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.Only cases where a structure with roof and

38849

pillars has come up was treated as a building.The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows: a) All places with a municipality, corporation, cantonment board or notified town area committee, etc. b) A place satisfying the following three criteria simultaneously: i) A minimum population of 5,000;ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; andiii)a density of population of at least 400 per sq. km.(1,000 per sq.mile)For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/Urban area :

The following areas are treated as towns/ urban area

(a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.

(b) All other places which satisfy or are expected to satisfy the following criteria simultaneously

i) A minimum population of 5,000; ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits ; and iii)A density of population of at least 400 per square kilometre (1,000 per square mile).

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'houschold' is usually. A 'household' is usually a group of persons who normally live together and

take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste andScheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below: (Each Census Directorate will provide list(s) of the Scheduled Castes & the Scheduled Tribes as applicable in the State/Union territory. In this connection, the publication 'List of the Scheduled Castes and the Scheduled Tribes, Census of India, 2001' supplied by the ORGI is given below :

Scheduled Castes :

1 Bansphor
2 Bhuinmali,Mail
3 Brittial Bania,Bania
4 Dhupi,Dhobi
5 Dugla,Dholi
6 Hira
7 Jalkeot
8 Jhalo, Malo,Jalo-Malo
9 Kaibartta
10 Lalbagi
11 Mahara
12 Methar,Bhangi
13 Muchi, Rishi
14 Namasudra
15 Patni
16 Sutradhar

Scheduled Tribes :

I. In the autonomous district :

2 Boro, Borokachari

3 Deori

4 Hojai

5 Kachari, Sonwal

6 Lalung

7 Mech

8 Miri

9 Rabha

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have

a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker' .

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian

Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate :

Percentage of workers (main + marginal) to total population

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years

Sex -ratio :

Number of females per 1000 males in a population.

(vi) NON CENSUS CONCEPTS:

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine andMethod of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and

normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid -year Population}} \times 1000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1 Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 Probability of dying between birth and age 2.

q5 Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 daysDuring the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too

were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant. (iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types :

(i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration)

(ii) Migration from one state to another State of the country (inter-state migration)

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration:

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 100,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the

criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings – Population, its distribution

a) The total population of the district comes to 946,279 in 2001 Census. Male comprises 490,286 while female consists of 455,993. Out of the total population of the district, 865,141 fall under rural and 81,138 are under urban areas of the district. In rural areas 446,608 and 418,533 are males and female respectively. Accordingly 43,678 and 37,460 are males and females respectively in urban of the district. The percentage of urban population in the disrict Golaghat is only 8.57 . The district is a rural base place in which 91 persons out of each 100 persons live in villages.

b). The decadal growth rate of the district comes to +14.3 which is lower than the state rate. In the district, there are only 6 towns of which 1 (one) town is Census Town. Golaghat Town is only town with Municipal Board and 4 (four) towns are with Town Committee status. Numaligarh Refinary Township is only town with Census Town status. The density of the district is 270 persons per sq. kms. which is lower than the state density (340). The sex ratio in the district is 930 as against 935 in the State. Out of total population of the district, 41.1% is total workers of which 51.2% and 30.2 % are male and female respectively. The percentage of non- workers is 58.9 % in the district. The worker are categorised as Cultivators, Agricultural Labourers, Household Industry Workers and Other Workers. The percentages of these categories are 45.3 %, 10.3%, 2.8% and 41.6% respectively.

The literacy rate is 69.4% in the district of which 77.1% is for males and 61.0% is for females. The district literacy rate is above the state literacy rate (63.3)%.

Guwahati University. The district has no any kind of technical college such as Engineering, Medical, Agricultural etc. After getting graduation in the district's colleges students have to go outside the district for higher education.

(viii) Brief Analysis of Inset Tables prepared from Primary Census Abstract :

As in previous Census, a number of Inset Tables are prepared from data which are incorporated in primary Census Abstract 2001 ,Census also. Altogether 52 Inset Tables are presented in this volume from data of three sources namely Primary Census Abstract, Village and Town Directory and House and Household amenities of Houselisting operations. The Inset Tables 1 to 36 are based on Primary Census Abstract, Inset Tables 37 to 47 based on Village and Town Directory and Inset Tables 48 to 52 based on houses and household amenities of 2001 Census. The Inset Tables prepared are analysed properly for easy understand of data users. It is a first step taken in all states and union teritories for 2001 Census, District Census Hand Books.

Inset Tables Based on Primary Census Abstract :-

TABLE 1

DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Sl.No	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001

7	Diyong forest area	80,649	80,649	0	-	-	-	-	-	-	-	
District Total:		**828,096**	**779,258**	**48,838**	**946,279**	**865,141**	**81,138**	**14.27**	**11.02**	**66.14**	**5.90**	**8.60**

Indicates that as per Census of India 2001 the total population of Golaghat district is 946,279 with 81138 or 8.6% in urban and 865,141 or 91.4% in rural areas. Golaghat Revenue Circle is the biggest with 382,957 population and Khumtai Revenue Circle with 77,098 population is at the bottom. Decadal variation of population in 1991-2001 of the district is 14.3 which is lower than the state rate 18.9. There are two more forest Revenue Circles namely Naojan and Diyong forest areas in the district in 1991 but these two circles have been merged with Golaghat Revenue Circle in 2001.

TABLE 2

NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Sl. No	District / CD Block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages	Population 200-499	
			Persons	Males	Females		Males	Females		Males	Females
1	2	3	4	5	6	7	8	9	10	11	12
1	Golaghat West	182	209,756	108,183	101,573	28 (15.4)	1,836	1,473	31 (17.0)	5,744	5,310
2	Golaghat North	38	42,349	21,933	20,416	2 (5.3)	132	137	6 (15.8)	1,211	1,083
3	Kakodonga	34	54,939	28,048	26,891	0 (0.0)	0	0	2 (5.9)	350	317
4	Golaghat Central	57	80,476	41,405	39,071	1 (1.8)	53	63	4 (7.0)	828	743
5	Golaghat East	99	88,563	45,795	42,768	9 (9.1)	617	558	25 (25.3)	4,599	4,237
6	Morongi	92	89,186	46,065	43,121	10 (10.9)	469	443	21 (22.8)	3,740	3,428
7	Gamariguri	163	104,020	53,693	50,327	26 (16.0)	1,686	1,596	67 (41.1)	11,331	10,394
8	Golaghat South	401	195,852	101,486	94,366	123 (30.7)	8,780	7,811	156 (38.9)	26,159	24,168
	Districts (Rural) Total:	**1,066**	**865,141**	**446,608**	**418,533**	**199 (18.7)**	**13,573**	**12,081**	**312 (29.3)**	**53,962**	**49,680**

Shows that out of 1,089 villages of the district, number of inhabited villages is 1,066 in 8 (eight) CD Blocks. In the district Golaghat West CD Block has the highest population 209,756. On population basis Golaghat north with 42,349 is the smallest CD Block in the district. The highest number of villages 401 are under Golaghat south CD Block. Kakodonga CD Block records lowest number of 34 inhabited villages. The highest number of inhabited village 312 or 29.3% are in population range 200-499. The number of villages having less than 200 population in each village are 199 or18.7%. In the range of 5000-9999 population there are 3 or 0.3% villages. No village is having more than 10,000 population in the district.

TABLE : 3

NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of town
	1
(a) New	
(i) Statutory town	Nil
1 Sarupathar	
2 Barpathar	

TABLE : 3
NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town
1
3 (ii) Census town
1 Numaligarh Refinery Township
2
3
(b) Denotified Nil
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns
1 Nil
2
3
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria
1 Nil
2
3
(iii) Census towns of 1991 census are notiified as statutory town in 2001 census
1 Nil
2
3
(c) Declassified
1 Nil
2
3
(d) Wholly merged with other town(s) Nil
1
2
3

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Represents that Sarupathar TC and Barpathar TC are two statutory new towns in the district and Numaligarh Refinery township is formed as a Census town in 2001.

TABLE 4
DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	152	14.3	75,384	8.7
11-20	2	0.2	184	0.0
21-50	17	1.6	1,823	0.2
51-100	32	3.0	9,606	1.1
101-200	109	10.2	48,321	5.6
201-300	150	14.1	95,192	11.0
301-500	351	32.9	341,273	39.4
501 +	253	23.7	293,358	33.9
Not known	0	0.0	0	0.0
District Total:	**1,066**	**100.0**	**865,141**	**100.0**
Population Density (Rural) of the district:			**371.8**	

Shows that out of 946,279 population of the district, 865,141 population (91.4%) hail from 1066 villages live in these villages. In the density range of 0-10 per sq. km. there are 152 villages covering 75,384 population and 253 villages covering 293,358 population with 501+ per sq. km. density. The population density of the rural population is 371.8 for the whole district.

TABLE- 5

SEX RATIO OF STATE AND DISTRICT, 1901 - 2001

Census Year	Assam			Golaghat		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	919	929	577	886	890	696
1911	915	923	627	897	900	644
1921	896	906	614	902	906	665
1931	874	886	575	873	879	593
1941	875	887	606	879	887	590
1951	868	879	664	865	871	684
1961	869	888	662	868	885	629
1971	896	913	745	883	893	720
1981	—	—	—	—	—	—
1991	923	934	838	920	930	767
2001	935	944	872	930	937	858

Note : Sex ratio has been defined here as the number of females per 1000 males.

Indicates that the sex ratio in the state has improved during the last decade from 923 in 1991 to 935 in 2001. But the Golaghat district has shown an increase of sex ratio from 920 in 1991 to 930 in 2001.

TABLE 6

SEX RATIO BY TAHSILS, 2001

Sl.No	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Bokakhat	930	935	864
2	Khumtai	946	946	-
3	Dergaon	927	944	792
4	Golaghat	932	938	889
5	Sarupathar	922	930	833
	District Total:	**930**	**937**	**858**

Gives that out of 5 Revenue Circles of the district, Khumtai revenue circle has the highest sex ratio with 946 females per 1000 males while Sarupathar shows the lowest sex ratio of 922. Rural/urban wise sex ratios of all revenue circles can be seen in the table. However, urban sex ratio is lower than rural in all Revenue Circles.

Table:7

SEX RATIO BY CD BLOCKS, 2001

Sl.No	Name of C D Block	Sex ratio
1	2	3
1	Golaghat West	939
2	Golaghat North	931
3	Kakodonga	959
4	Golaghat Central	944
5	Golaghat East	934
6	Morongi	936
7	Gamariguri	937
8	Golaghat South	930
	District (Rural) Total:	**937**

Indicates that at CD Block level, Kakodonga CD Block has the highest sex ratio of 959 among all the 8 CD Blocks and Golaghat South CD Block has the lowest sex ratio of 930 females per 1000 males and in 4 CD Blocks sex ratios are slightly lower than the district rural sex ratio.

TABLE 8
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	22	2.1	5,767	0.7
700-749	16	1.5	3,414	0.4

900-949	254	23.8	267,409	30.9
950-999	249	23.4	283,930	32.8
1000-1099	190	17.8	121,612	14.1
1100+	23	2.2	5,081	0.6
District Total:	**1,066**	**100.0**	**865,141**	**100.0**
Sex ratio (Rural) for District:		**937**		

Shows that if the sex ratio at village level is concerned, for 716 villages sex ratio is found to be 900+. Out of 1,066 villages in the district 350 villages have sex ratio below 900. 22 villages are found to be having sex ratio less than 700 in 2001 which covers 0.7% of the rural population of the district.

Table-9
SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl.No	Name of U.A / Town	Urban status of town	Sex ratio
1	2	3	4
1	Bokakhat (TC)	TC	864
2	Dergaon (TC)	TC	792
3	Golaghat (MB)	MB	900
4	Numaligarh Refinery Township (CT)	CT	849
5	Sarupathar (TC)	TC	795
6	Barpathar (TC)	TC	889
Sex ratio (Urban) for the district:			**858**

Indicates urban sex ratio of the district as per Census of India 2001. It is 858 for the district. Out of 6 towns of the district, Golaghat MB has shown highest urban sex ratio 900 while the lowest sex ratio 792 is seen in Dergaon TC. Three towns have sex ratio higher than the district sex ratio 858 females per 1,000 males.

Table-10
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS,2001

		Urban	**9,585**	**4,952**	**4,633**	**936**

Shows sex ratio in India which is found to be adverse to women in most cases. Same is the case in respect of children in the age group 0-6. The result of Census of India 2001 for Golaghat district also reflects the same situation though it is not much disproportionate. Sex ratio for 0-6 age group in the district is 963. Much variation of sex ratio for age group 0-6 among Revenue Circles is not found. The highest sex ratio 975 for children in the 0-6 age group has been recorded in Golaghat Revenue Circle and Bokakhat Circle with sex ratio 938 is at the bottom. Urban sex ratio 943 is the highest in Golaghat Revenue Circle and the lowest is in Sarupathar RC with 925.

TABLE 11

SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CD BLOCKS, 2001

Sl. No	Name of CD Block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females

6	Barpathar (TC)	7,079	386	240	5.5	3.4
	District(Urban) Total	**81,138**	**3,897**	**2,524**	**4.8**	**3.1**

Shows that the number of Scheduled Castes and Scheduled Tribes population in urban of Golaghat district is very small which is 4.8% in Scheduled Castes and 3.1% in Scheduled Tribes. Among six towns in the district Bokakhat TC has the highest percentage of Scheduled Castes population with 10.7% followed by Dergaon TC with 6.0% and Barpathar TC with 5.5%. The lowest percentage of Scheduled Tribes population recorded highest in Numaligarh Refinery Township CT. with 9.2% followed by Bokakhat TC with 7.4% and Sarupathar TC is the lowest with 78 or 0.8% population .

TABLE 19
SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C D BLOCKS, 2001

Sl.No	Name of C D Block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Golaghat West	943	953
2	Golaghat North	953	943
3	Kakodonga	976	932
4	Golaghat Central	992	944
5	Golaghat East	990	926
6	Morongi	924	908
7	Gamariguri	934	965
8	Golaghat South	962	950
	District (Rural) Total	**954**	**952**

Shows rural sex ratio among Scheduled Castes population in the district. There are 954 females in every 1000 males where as in scheduled tribes. There are 952 females in every 1000 males for Scheduled Castes whereas it is 952 for Scheduled Tribes. Among the CD Blocks, the highest sex ratio of Scheduled Castes is noticed in Golaghat Central CD Block with 992 and the lowest is in Morongi CD Block with 924. More than half of the CD Blocks in the district show the sex ratio above the district sex ratio. The sex ratio among Scheduled Tribes in CD Block level, Gamarigari CD recorded the highest with 965 sex ratio and Morongi CD Block recorded the lowest 908 sex ratio.

TABLE 20 :
SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Sl.No	Name of U.A. / Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio

Indicates that out of the district total population of 94,6279 there are 557,360 literates constituting 69.4% literate. The number of male literates recoded is 77.1 percent which is higher than the number female literates 60.1 percent. This same trend is noticed both in rural and urban areas of the district for males and females. The rural population of the district is 494,790 and the percentage of literates is 67.6%. However, in urban areas, the total population is 62,570 and the number of literates recorded is 876.5%. Among the Revenue Circles or tahsils in the district , Dergaon Revenue Circle recorded the highest literacy with 77.9% and lowest among RCs, Bokakhat Revenue Circle recorded 61.0%. In rural/urban break up Dergaon Revenue Circle recorded the highest number of literates with 76.2% in rural whereas Bokakhat Revenue Circle recorded the lowest with 59.2%. In urban area however, Dergaon Revenue Circle recorded the highest percentage of literacy with 92.3% and Golaghat Revenue Circle recorded 85.5 percent urban literacy.

TABLE 22

NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C D BLOCKS, 2001

Sl. No	Name of CD Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates

100	67	12.9	355	0.4
District Total:	**521**	**100.0**	**91,396**	**100.0**
Literacy rate for District (Rural):		**63.6**		

Gives the distribution of villages by literacy rate range for Scheduled Tribes population. Out of 1,066 total number of inhabited villages in the district, 521 villages or approximately 49.0 percent villages have a total of 91,396 Scheduled Tribes population. It is observed from the table that the population of highest number of 86 villages occupy the literacy rate between 81-90 percent. There are 67 villages with a total of 355 Scheduled Tribes population and the literacy rate for these persons is 100.0 percent. However, there are 11 villages where the literacy rate is recorded zero percent and in the range of literacy rate of 1-10 percent there is only one village having 216 Scheduled Tribes population. It is noticed that there is 6 villages with 741 Scheduled Tribes population whose literacy rate is in the range of 11-20 percent and so on.

TABLE 30 :

NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Sl. No	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

Indicates the CD Block wise distribution of number and percentage of Main workers, Marginal workers and Non- workers by sex. The percentage of total workers in rural of the district is 41.7 percent of which 28.2 percent are Main workers and 13.5 percent are Marginal workers. In the break up of male/female workers, male Main workers with 41.2 percent predominate the female workers. However, in Marginal workers, female Marginal workers with 17.5 percent is more than the male Marginal workers of 9.7 percent.

Among the CD Blocks, Golaghat East CD Block with 29.4 percent is the highest recorded in Main workers and in Marginal workers, Gamariguri CD Block recorded the highest percentage of 18.0. Further, the highest percentage of Non-workers is noticed in Golaghat North CD Block with 61.3 percent and the lowest proportion is noticed in Gamariguri CD Block with 54.4 percent.

Shows the town wise distribution of number and percentage of Main workers, Marginal workers and Non-workers by sex. The proportion of total workers in the urban of the district is 34.1 percent of which male workers are 54.2 percent and female workers are 10.7 percent. The percentage of male Main workers in urban of the district recorded 51.2 percent. But a very low percentage (8.4) is recorded against female Main workers. Both male and female Marginal workers recorded very low percentage in towns of the district. The highest 89.3 percentage of female non-workers is noticed in urban of the district.

Among the towns, the highest distribution of number of male Main workers is noticed in Goalghat MB with 10,563 workers and the lowest number of male Main workers is noticed in Barpathar TC with 2,112 workers. In case of non-workers, the female non-workers are more than male non-workers in all the towns of the district. The highest female non-workers among the towns is noticed in Golaghat MB with 14,236 and the lowest is noticed in Numaligarh Refinery Township CT with 2,994 females.

Note: Percent of Worker to total worker are given in brackets

Betokens the category wise distribution of workers by sex among the tahsils in the district. Out of 3.8 lakh total number of workers in the district 1.6 lakh or approximately 42.0 percent are Other workers, 45.3 percent are Cultivators, 10.3 percent are Agricultural Labourers and 2.8 percent are Household Industry workers. It is seen from the table that the number of male workers are more than female workers in all the categories of economic activity except in the category of Household Industry workers where number of female workers are more than male workers. In term of percentage, the female Cultivators and .female Agricultural labourers are recorded a higher percentage than male Cultivators and male Agricultural labourers. Among the Revenue Circles, the highest number of male Cultivators is noticed in Golaghat Revenue Circle with 69,375 and female Cultivators is observed in the same Revenue Circle with the total number of 26,521. In the category of Other workers, both for male and female, it is recorded the highest number in Golaghat Revenue Circle. The same situation is noticed in Agricultural Labourers also. A very few number of Household Industry workers are found in every Revenue Circles in the district.

Note: Percent of Worker to total worker are given in brackets

Shows the CD Block wise distribution of workers by sex in four categories of economic activity. Out of 3.6 lakh number of rural workers in the district, 1.3 lakh are engaged themselves as Other workers and 1.7 lakh are engaged as Cultivators and the rest Agricultural Labourers and Household Industry workers are 11.0 and 2.9 percent respectively. In the sex wise distribution of the four categories of workers in the district, the male workers are predominated the female workers except in Household Industry workers where female workers are more than male workers.

Among the CD Blocks, the highest male workers participated in Other works is noticed in Golaghat West CD Block with 31,182 workers and the highest female workers worked in Other works is noticed in the same CD Block with 17,596 number.The highest number of male cultivators is noticed in Golaghat South CD Block with 34,096 and followed by Khowang CD Block with 16,306. In case of female workers engaged as cultivators is the highest in Khowang CD Block with 11,927 followed by Golaghat South CD Block with 20,604 persons. Agricultural Labourers and Household Industry workers are very low in number in all CD Blocks of the district.

Indicates the town wise distribution of workers by sex in four categories. Out of 27,658 total urban workers in the district, 25,792 workers or 93.3 percent are engaged as Other Workers of which male workers constitute 95.0 percent and female workers from 83.0 percent. A small number of workers are engaged in Household Industry, Agricultural Labourers and Cultivators. Among towns, Dergaon TC constitutes the highest number of male workers engaged as Other Workers. Out of 23.665 total male workers in the town, 22,478 are found as Other Workers and out of 3,993 total female workers in the town, 3,314 are engaged as Other Workers. However, the lowest number of Other Workers is noticed in Barpathar TC with 1,822 males and 158 females.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Shows CD Block wise distribution of villages according to availability of different amenities during 2001 Census. Most of the villages in the district are having access to improved drinking water and education with a record of 91.2 percent and 72.6 percent respectively. It is followed by power supply in which out of total number of inhabited villages of 1,066 in the district 595 or approximately 55.8 percent villages are served by this facility. The facility of approach by pucca road is available to 501 villages. Other amenities like medical, transport communications, post office and telephone are available only in a few villages and very a few villages have banks and agricultural credit societies facilities..

Among the CD Blocks, the proportion of villages having access to improved drinking water is noticed very high percentage in all CD Blocks. Golaghat North and Kakodonga CD Blocks recorded 100 percent each. The cent percent of villages of Golaghat Central CD Block have power supply. Golaghat North and Kakodonga CD Blocks recorded 97.4 and 94.1 percent of villages having educational facility respectively. The percentage of villages having medical and other specified amenities is very low in all CD Blocks in the district.

		(100)	**(57.1)**	**(5.8)**	**(1.7)**	**(62.2)**	**(75.0)**

Shows the CD Block wise distribution of number and percentage of rural population served by different amenities. Out of 8.6 lakh rural population in the district, 8.4 lakh population are access to improved drinking water and approximately 7.3 lakh population are covered under education. It is followed by 6.5 lakhs population having power supply amenity. Approximately 5.4 lakh population are served by approach by pucca road, 4.9 lakh by transport communications, 3.9 lakh population by approach by pucca road, 3.0 lakh population by telephone, 2.1 lakh population by post office amenity and 1.2 lakh by medical amenity. Very less population are served by banks and agricultural credit societies.

Among the CD Blocks, the cent percent population of Golaghat and Kakodonga CD Blocks are access to improved drinking water and in Golaghat Central CD Block 100.0 percent population are served by power supply. In this case, the lowest proportion is noticed in Gamariguri CD Block where 22.2 percent of the total population are access to improved drinking water .

TABLE 39 :
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total(Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	253	37	7	297
(b) Middle School	526	154	81	761
(c) Degree College	262	235	546	1,043
2. Medical:-				
(a) Hospital	169	139	731	1,039
(b) PHC	348	194	484	1026
3. Post Office	506	228	189	,923
4. Telephone	288	162	389	839
5. Bus Service	310	170	58	538
6. Banks				
(a) Commercial Bank	305	200	534	1,039
(b) Cooperative Bank	139	129	795	1,063
7. Agricultural Credit Societies	108	126	822	1,056

Shows the distribution of villages not having certain amenities and are arranged by distance ranges from the places where these are available. It is observed from the table that 297 villages are not having primary school in the village itself but 253 villages get the facility within the distance range of less than 5 kilometers, 37 villages in the distance range of 5-10 kilometers and 7 villages in the distance of 10+ kilometers. Similarly, in other educational institutions, the picture can be seen in the table itself. Large number of villages which have no amenity of medical hospitals and PHC are availed these amenities at places at a distance range of less than 5 kilometers, 5-10 kilometers and 10+ kilometers. The similar phenomenon is observed in the distribution of villages not having rest amenities like Post Office, telephone, bus service, banks and agricultural credit societies but can be seen in the table about the number of villages and the distance range at where from amenities are availed.

Shows the distribution of villages according to the distance from the nearest statutory town and availability of amenity. Out of 1,066 total number of inhabited villages in the district, 774 villages are having access to education of which the highest number of 369 villages is noticed in the distance range of 5-15 kilometers from the nearest statutory town. It is followed by 337 villages in the distance range in 16-50 kilometers. In less than 5 kilometers distance range from the nearest statutory town, there are 58 number of villages. The amenity of education is available for 10 villages in a distance of 51+ kilometers. In the amenity of transport communications, the highest number of villages is noticed 261 and 240 villages in distance ranges of 16-50 kilometers and 5-15 kilometers respectively. In the unspecified distance range, one village has been recorded in all the eight prescribed amenities.

TABLE 41:
DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES

Population range	Number of inhabited villages in each range	Type of amenity available

\# Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.
* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Indicates distribution of villages according to population range and amenities available,2001.Out of total villages of the district, 774 villages have educational amenity and of these 307 villages have population in population range of 1-499, 187 villages in population range of 500-999, 202 villages in 1000-1999 and so on. Similarly, 87 villages enjoy the benefit of medical in the periphery of each villages and of which 18 villages have population in the range of 1-499, 13 villages in the range of 500-999, 37 villages in the range of 1000-1999 population and so on. For other amenities the number of villages along with population range can be seen in the table itself.

TABLE 42
DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No	Name of C D Block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Golaghat West	182	74.690	51.8	14.6
2	Golaghat North	38	11.859	71.4	0
3	Kakodonga	34	10.737	80.8	0

TABLE 42
DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No	Name of C D Block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
4	Golaghat Central	57	19,676	84.5	0.4
5	Golaghat East	99	24,944	79.3	0
6	Morongi	92	26,272	87.6	0.1
7	Gamariguri	163	15,583	77.7	0.4
8	Golaghat South	401	48,903	90.8	25.8
	District Total:	**1,066**	**2,32,665**	**73.8**	**10.0**

Note : - Cultivable area = irrigated area + unirrigated area

Depicts total areas of each CD Blocks along with the district and also use of land. The district acquires 232,664.6 hectares of land in rural areas. Golaghat West CD Block possesses high amount of land followed by Golaghat South CD Block. The district has 73.8 % cultivable land and the highest percentage goes to Golaghat South CD Block. The irrigated areas in the district are very limited with 10.0 % only. However, Golaghat CD Block has 25.8 % irrigated land out of its total cultivable land. The CD Blocks namely Golaghat North, Kakodong and Golaghat East have no irrigated land.

TABLE 43 :
PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl.No	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	V Barpathar (TC)	6.8	0	6.8	6.8	0.8	0	4.0	0.1	1.8
2	V Bokakhat (TC)	21.6	4.0	17.5	20.5	8.2	0	10.7	0.9	0.7
3	IV Dergaon (TC)	23.8	9.1	14.7	19.5	3.1	0.2	1.7	0.7	13.8
4	III Golaghat (MB)	7.9	2.7	5.3	11.5	10.3	0	1.1	0	0.2
5	V Sarupathar (TC)	2.6	0	2.6	0	0	0	0	0	0
	District Total	**11.7**	**3.4**	**8.3**	**12.0**	**6.3**	**0**	**2.5**	**0.3**	**2.9**

Table shows hows per capita receipt and expenditure of statutory towns of the district. It is seen that per capita expenditure is marginally high than per capita income of the district. The per capita receipt comes more from all other sources of the district. The per capita expenditure is more in general administration. In case of town, the per capita receipt Rs.23.8 is more in Dergaon TC among all other towns followed by Bokakhat TC. Similarly, in respect of expenditure it is Rs 20.5 for Bokakhat TC which is higher than other towns.

TABLE 44 :
SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl.No	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Barpathar (TC)	7.1	4.2	4.2	1.4	1.4
2	Bokakhat (TC)	11.3	4.5	3.4	1.1	2.3
3	Dergaon (TC)	5.2	4.5	3.0	3.0	0.7
4	Golaghat (MB)	2.4	2.7	1.8	0.3	1.2
5	Sarupathar (TC)	5.0	4.0	2.0	1.0	1.0
	District Total	**4.8**	**3.6**	**2.5**	**1.1**	**1.2**

Displays the number of educational institutions per ten thousand population in statutory towns of the district. The Primary School is 4.8 numbers in per ten thousand population of the district whereas it is 11.3 number in Bokakhat TC. The Junior Secondary/ Middle and College are also more in the same town with 4.5 and 2.3 number among per ten thousand population respectively. The Secondary Schools are more in Barpathar TC with 4.2 number per ten thousand souls respectively.

TABLE 45 :
NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl.No	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Barpathar(TC)	42
2	Bokakhat(TC)	34
3	Dergaon(TC)	22
4	Golaghat(MB)	97
5	Numaligarh Refinery Township(CT)	57
6	Sarupathar(TC)	30
	District Total	**60**

Indicates number of beds in medical institutions in towns. The number of beds among every ten thousand persons is 60 in the district. In Golaghat TC, the number of beds is 97 which is the highest among all followed by Numalighar Refinery Township CT. However, all towns have facility of bed

TABLE 46 :
PROPORTION OF SLUM POPULATION IN STATUTORY TOWNS, 2001

Sl.No	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	BARPATHAR T.C.	7,079	99	1.4
2	BOKAKHAT T.C.	8,844	62	0.7
3	DERGAON T.C.	13,446	965	7.2
4	GOLAGHAT M.B.	33,064	1,200	3.6
5	SARUPATHAR T.C.	9,922	149	1.5
	District Total	**72,355**	**2,475**	**3.4**

Indicates that in the district, there are slum population in all towns. The highest number of slum population is seen in Golaghat MB followed by Dergaon TC with less than one thousand population. Other three towns have less number of slum population. Out of total urban population of the district , 2,475 or 3.4 % are slum population.

TABLE 47 :
MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl.No	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Barpathar (TC)	Nil	Rice
		Nil	Mustard Oil
		Nil	Nil
2	Bokakhat (TC)	Furniture	Atta
		Mustard Oil	Fish
		Milk Product	Furniture
3	Dergaon (TC)	Mustard Oil	Tea
		Atta	Nil
		Tea	Nil
4	Golaghat (MB)	Furniture	Tea
		Edible Oil	Rice
		Nil	Nil

TABLE 47 :
MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl.No	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
5	Numaligarh Refinery Township (CT)	Petroleum Products	Tea
		Tea	Bamboo
		Furniture	Petrolium Product
6	Sarupathar (TC)	Rice Product	Rice
		Tea	Vegetables
		Nil	Tea

Indicates most important commodity exported out of towns and manufactured in the towns. All towns except one town have manufactured a few items while all towns have exported out few commodities from each town. The name of items can be seen in the table itself.

Inset Tables Based on House Listing Data :-

TABLE : 48
HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table shows the number of households by tenure status and number of rooms occupied in the district. The number of households among the Scheduled Castes population have more owned houses with 2 rooms in rural followed by households having owned houses with 3 rooms. But in urban the households having own houses with 3 rooms are more. Similar phenomenon is also noticed in respect of Scheduled Tribes. In the remaining tenure status i.e. rented and others also, the households of both Scheduled Castes and Scheduled Tribes occupied two and three rooms houses but number of such households are very few.

TABLE 49
PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Sl.No	District/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary

Data source:Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."
Note:-
Permanent:- 1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof
Semi permanent:- 2 Semi-permanent houses refer to those houses made of other types of materials
Temporary:- 3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

Gives the percentage distribution of households living in permanent, semi permanent and temporary houses in Revenue Circle. The district has 179,208 total number of households out of which 163,299 are in rural and 15,909 are in urban. Among the Revenue Circles of rural area, Golaghat Revenue Circle shows the highest proportion of households lived in permanent houses and the lowest is in Sarupathar Revenue Circle with 5.4 percent. In semi permanent type of houses, the highest proportion is in Golaghat Revenue Circle with 44.8 percent and the lowest is noticed in Khumtai Revenue Circle with 9.2 percent. In temporary type of houses, Golaghat Revenue Circle recorded the highest proportion of households with 35.0 percent and Dergaon Revenue Circle recorded the lowest proportion of 9.2 percent. In urban area of the district, Golaghat Revenue Circle recorded the highest proportion 51.2 percent of households lived in permanent houses, 59.3 percent lived in semi permanent houses whereas the highest 53.1 percent of households of Sarupathar Revenue Circle lived in temporary houses.

Shows the percentage of households having improved drinking water source electricity, bathroom, toilet and drainage facility. Out of total number of households in rural in the district, 76.4 percent are having access to improved drinking water and 64.5 percent are having access to toilet services whereas the availability of electricity, drainage and bathroom are very less in proportion of the households in rural than urban of the district. However, in urban, a high percentage of households are recorded in each specified amenity except in the availability of bathroom and drainage facilities where these are recorded 45.8 and 42.5 percent respectively.

In Revenue Circle level, the percentage of households having improved drinking water source shows that all the five revenue circles are having high percentage of this facility where Bokakhat Revenue Circle recorded 90.5 percent being highest of having improved drinking water and the lowest 69.9 percent is noticed in Golaghat Revenue Circle. Among the revenue circles, Dergaon Revenue Circle recorded the highest proportion of 70.4 percent households having toilet facility and the lowest is in Bokajan Revenue Circle with 50.0 percent .The availability of other specified amenity are however comparatively low in all the revenue circles of the district.

Indicates the number of households availing banking services and number of households having each of the specified assets shown in the table. Out of total number of households, 36,858 are availing banking services. 28,775 and 8,083 households of rural and urban areas are availing banking services respectively in the district. Among the revenue circles, in Golaghat Revenue Circle the highest number households availed the banking services. Availability of all assets mentioned in the table among the households of revenue circles is noticed more in Golaghat Revenue Circle. The highest number of households who have none of the specified assets is noticed in Golaghat Revenue Circle with 20,408 households. The availability of Car, Jeep and Van is more in urban of Golaghat Revenue Circle than in any other area in the district.

(ix) Major social and cultural events, natural and administrative developments and significant activities during the decade.

Golaghat district which was a past of old Sibsagar district and Jorhat inherits it a sociable and festive way of life of the people of Assam. Festivals, whether religious or special festivals are celebrated with great enthusiasm and high spirit by faithfuls of different faiths. Among them, Hindus observed many festivals, ritualistic and other religious festivals. Earlier, Durga Puja which has of lesser importance in the district, has of late assumed increasingly popularity among the Hindus and is being celebrated throughout the district with devout and fervour. Durga Puja is usually observed in the month of September or October and lasted for four days. Prior to these days, about a week time, Mahalaya is performed ceremoniously to invoke the Goddess Durga. After this, the image of the Goddess is installed ceremoniously on the Puja pandal for the benefit of the faithfuls in different places of the towns and villages in the district with the main intention to invoke blessings from mother Durga. Some puja pandals hold some cultural programs theatrical act and Bhaonas depicting various stories of the Mahabharatra and Ramayana. Finally on the last day of the festival, the immersion of image of Goddess Durga is ceremoniously performed into a pool or river specially meant for this purpose. Other religious festivals observe by Hindus are Sivaratri, Doljatra, Kalipuja etc and are being celebrated with great joy and enthusiasm.

Faithfuls of different religions and sects are also observed their religious festivals with high spirit and joy. Among them, Muslim festivals mention must be made of the Id-Uz-Zuha, Muharram, Fatiha-I-Duazdahan and Id-Ul-Fitre.

The Miris, also known as Mishings, were originally a hill tribe living in the hills between Dafala and Abor territory in the present Arunachal Pradesh and came down to the plains in the region of the Ahom king in Assam. The Miris observe many festivals, most important of them being Ali-ai-Liagang, Parag and Dabur which are connected with the sowing and harvesting of crops, celebrated with dance and music.

The Dying forest was a forest reserve circle during 1991 but this revenue circle was declassified and merged with Golaghat Revenue Circle during the decade. Two new towns namely Borpathar and Sarupathar have been formed with town committee in the district during the decade. The district administrative machinery has taken up various plans and programmes for the development of the district.

(x) Brief description of places of religious, historical or archaeological importance and place of tourist interest in the district :

The centre of the administration of Assam was Sibsagar where the Ahoms ruled for nearly six hundred years. At the time, the present Golaghat district was a part of then Sibsagar district. The Ahoms look special care to build numerous temples dedicated to different deities and dig large tanks which till to-day stand out as memorials to their glory. From the point of view of architectural grandeur and beauty most temples in their designs and finish may be well compared with any contemporary architecture found in other parts of India. However, many of such temples and tanks are fallen in the present Sibsagar district.

Negheriting Siva Temple :

The place is situated on the north side of the National Highway No 37 near Dergaon of Golaghat district. The Ahom king Rajeswar Sinha constructed this temple in the middle of the 18th century on a hillock known as Negheri. This Siva temple differs in design from other Siva temples found in present Sibsagar district. Daily worship is still carried on in this temple.

Dergaon Temple :

old site of this temple was to the north of the Negheriting temple. The new temple at the present site was built by the king Susenpha through Momaitamuli Borbaruah in 1672 AD.

Burigosanir Devalaya :

It is situated at Dergaon. The temple is in ruins now.

Athgaon Than :

This old shrine stands at a distance of about 5 kms from Furkating Railway Junction towards Golaghat town. The history of this shrine is not known.

Deopani Shrine :

It stands insides Deopani Tea Estate. The old temple was destroyed; one Vishnu image of exquisite workmanship with an inscription in Devanagari Characters inscribed on it still lies there.

Numaligarh :

The great embankment known as Numaligarh was build by king Pratap Sinha. A bahar (town) known as Numali Bahar was also constructed with brick buildings, brick ghats, compound etc. on the south bank of the Dhansiri River near the fort. The two other forts—RajGarh and Lakhow Garh join this main fort.

By the side of this, near Numaligarh tea estate, there are ruins of an old temple on hill top.These ruins date to pre-Kachari and pre-Ahom period. The entire hill is full of temple, remains, gateways, pillar plinths and huge number of images with artistic designs. The antiquities of both Deopani and Numaligarh testify that stone edifices of great archaeological importance existed there.

Kacharipathar ruins :

On the bank of Doyang River near the Jamuguri Railway Station some ruins can be found in side a deep forest. The site was once the capital of powerful kachari kings. The city was forward by the kachari king Prasanthdhvaja Narayan or by king Chakradhvaja. The city was known as Bor-Dimapur. It was surrounded by an earthen fort of about half a mile of each side. Rows of stones and pillars are still lying there.

Kako Gosanir Than: Located at Kagiranga area it is an old Sakta shrine founded by Gadadhar Sinha. It is said that Gadadhar Sinha at the time of his exile worshipped this deity, which he kept concealed inside a kako bamboo chunga (pipe).

Garampani :

It is situated at a distance of about 20 kms from Goalghat town. There is big hot spring, where people take bath for the curative effect of the hot water. It is an ideal place for holidaymakers. To protect the wild birds and animals an area of about 5 kms on either side of the Nambor River has been turned into a Wild Life Sanctuary.

Game Sanctuaries :

Side by side with ancient monuments can be found various forest products and species of animals, some of which are rare and many of which are of interest to tourist as well as botanists and zoologists.

Kaziranga Wild Life Sanctuary :

Kaziranga Wild Life Sanctuary is the most important and it is known throughout the world for its one-horned rhino. At one time, Kaziranga used to be favourite hunting ground for sportsman and poachers. Rhinos were shot and trapped, chiefly for their horns reputed for their aphrodisiac value. But after 1904, it was realized that rhinos were becoming scarce and they will be no more. In 1908, the area was entirely closed to shooting and declared as forest reserve. In 1926, the name of Kaziranga reserve was altered to Kaziranga Game Sanctuary. Lately it has come to be known to as Kaziranga Wild Life Sanctuary. In 1953, the Govt. of Assam created a buffer zone all round the Sanctuary in which all shooting is prohibited. Now, the Sanctuary is treated as 'Kaziranga National Park'.

In side the Sanctuary, one can be see animals and birds of varied species. There are wild elephant bison, tiger, wild buffalo, chamber, deer, hog, swamp deer, barking deer, hog deer, wild pig, Himalayan deer, Indian jungle eat and many others Kaziranga abounds in a large variety of water and other birds.

The Sanctuary is easily accessible by air from Calcutta to Jorhat or Guwahati and thence by road, 96 kms from. Jorhat and 208 kms from Guwahati. There is a tourist Lodge at Kahara. The tourist lodge at Kaziranga is also well furnished with all modern amenities. There are some hotels in and round Kaziarnga. The hotel "Green Grass" is also a private lodge with good catering arrangement available for the tourist.

There are a good number of trained elephant for going inside the park to see the animals and birds under the disposal at the forest department.

(xi) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

Forest plays a vital role in the economy of the district. They provide considerable necessities to people for their basic amenity such as construction of building making of furniture as well as for fuel and fodder. Forest of Golaghat district are of tropical evergreen forests where they form continuous belts around the river valley and are classified into two divisions – the Reserved forests and the unclassed state forests. The forests contains valuable trees and plants and are rich in variety of species such as Hollong, Nahar, Sam Koroi, Gunseroi, Makai, Sopa, bhelu, etc. Since environmental balance, the Forest department came up with the scheme to enrich the forest through conservation and social forestry. In Golaghat district, social forestry during the year 1998-99 has a tremendous achievement which cover an area of 300 hectares. To create an awareness against the destruction of forest, Vanamohotsava under which fruits and other trees are planted meets the situation to a considerable extent. With the view to protect the forests, the Supreme Court Judgment in 1996 has banned the export of raw timber from the northeast. Further, to study the basic services in the region, the Ministry of Environment and Forests formulated a forest policy for the northeast recently based on the 1997 recommendation of the Shukla Commission, in which various schemes are to be implemented in protecting the forests and also meet the bonafide livelihood needs of the people.

Agriculture plays a dominant role in economy of the district. The villagers mostly depends on cultivation of rice. The lands of the district are suitable for cultivation of rice. Tea is the world most widely used beverage which is produced largely at Golaghat district. There are a large number of tea gardens with their factories in the district. A Major portion of the total production of tea in Assam meets by Golaghat district's tea. It is a source of income for the people and the Government. It is the foreign exchange earner. Tea industry provides employment to a large number of persons of the district.

Numaligarh Petro Chemical Complex has established in Golaghat district as per Assam Accord made in 1985. The district can boost of for having such a big industry in its jurisdiction. It provides employment mostly to local people.

The district has give birth of many authors, scientists, saints, freedom fighters, sportsmen, artists and social workers. In 1943 the Quit India Movement of the Congress led to a tremendous up surge in Golaghat district. There were devout workers like Shri Shankar Chandra Barua and Ganga Ram Barmedhi who spread among the people the use of Khadi, boycott of foreign cloths. Prohibition of liquor etc. A strong Congress Organisation had been established in Golaghat district. The millary checked the Golaghat Congress office and Narrassed the people. Railway derailment at Barpathar led to the arrest of Kusal Konwar including others. He was hanged in 1943 in Jorhat Jail. The Government levied collective fines to the people of Golaghat. The martyrdom of many people of Assam including Golaghat had not been in vain. As result the country achieved independence in 15 August, 1947. The contributions given by the people of the district in all fields cannot forget by the present generation and remain ever grateful to them.

(xii) Scope of Village Directory and Town Directory – column heading wise explanatiand coverage of data.

The scope of Village Directory and Town Directory has already discussed in detail in earlier chapter of this volume.

Village Directory:

The Village Directory is depicted in the form of a statement containing 25 columns under various heads. The Village Directory provides for each C.D. block with the villages according to location code in col.No. 1. The name of village comes in col.No.2 and area in col.No.3. The col.No.4 and 5 represent total population of 2001 Census and households respectively. The column 6 to 25 relate to the following amenities and facilities.

AMENITIES AND FACILITIES	COLUMN
1. Education	6
2. Medical	7
3. Drinking water	8
4. Post, Telegraph and Telephone	9
5. Commercial and Co-operative Banks	10

6. Agricultural, Non agricultural and other Credit Societies	11
7. Recreational & Cultural facilities	12
8. Communications	13
9. Approach road to village	14
10. Nearest Town (in km.)	15
11. Power Supply	16
12. News paper/Magazine	17
13. Commodities manufactured	18
14. Land-use pattern of village	19 - 23
15. Name and Serial number of village	24 -25

Particulars of amenities and facilities available in the villages are shown by way of some abbreviation, which are explained in the beginning of the Village Directory. Amenity, which is not available in any village, the distance in term of the nearest place where it is available, is shown in ranges i.e. <5 kms., 5-10 kms. and 10+ kms. The non-census data presented in the Village Directory have been collected from various Departments of the State Government, Corporation, Boards etc. The 2001 Census Village Directory is almost in the pattern of 1991

Census Village Directory. However, in 2001 Census, some new items have incorporated and a few are deleted which were in 1991 Census. For example, the information on market/hat are deleted. Never the less, the innovation introduction of new items of information in the Village Directory, 2001 will be more useful and meaningful.

Town Directory:

The Town Directory is decorated with seven statements presenting useful data on socio-economic and administrative sides of each town of each district. These statements deal with (i) Status and growth history, (ii) Physical aspects and location of town, 1999, (iii) Municipal finance 1998-99, (iv) Civic and other amenities, 1999, (v) Medical, Educational and Cultural facilities, 1999, (vi) Trade and Commerce, industry and banking, 1999 and (vii) Civic and other amenities in slum, 1999.

Statement – I: Status and Growth history: -

This Statement deals with 22 columns which represent information serially from Serial Number, Class, Name and Civic Administration, Status of town and so on. Statement 1 is presented in the Town Directory in the same pattern that used in 1991.

Statement – II: Physical Aspects and Location of town, 1999.

The statement is formed with 13 columns. Various information such as rainfall, temperature (maximum and minimum), State Headquarters, nearest city with population one lacks and also 5 lacks, railway station, bus facility , navigable road etc.are presented in the columns. This statement is also similar to that of 1991 directory except the columns of nearest city introduced newly in 2001 Census.

Statement - III: Municipal Finance 1998-99

The statement deals with 17 columns and presents various data on Municipal finance of all statutory towns of each district. In the statement columns are divided into two parts such as receipt and expenditure.

Statement – IV: Civic and other Amenities, 1991.

The statement contains 21 columns and information on civic and other amenities are shown accordingly. However, Scheduled Castes and Scheduled Tribes population are also indicated in respective columns. Information on types of latrine used, methods of disposal of night soil, water supply, storage system, five fighting service, electrification etc. are presented in its respective columns.

Statement – V: Medical, Educational, recreational and cultural facilities, 1999.

The statement deals with 20 columns and presented data on medical, educational, recreational and cultural facilities in each town in the respective columns. It is on the same pattern that used in 1991 Census.

Statement –VI: Trade, Commerce, Industry and Banking,1999.

The statement consists of 11 columns and gives for each town information on trade, commerce, industry and Banking,1999. Columns 1 and 2 show serial number and class and name of town. Columns 3 to 5 shows the names of three most important commodities exported out from the town in order of preference. Columns 6 to 8 show the names of three most important commodities manufactured in the towns in order of their importance. The other columns represent the facilities of banks.

Statement – VII: Civic and Other Amenities in Slums,1999.

This statement contains 17 columns and gives information on Civic and other Amenities in Slums. Columns represent name of Slum, status of slum area, number of households, population, paved road (in limes), system of sewerage, types of latrine used, method of

disposal of night soil, number of tap, electric connection (domestic, road and others) in the statement.

The data on amenities and facilities presented in the Town Directory are collected from the respective Municipal Corporation, Municipal Board, and Town Committee in respect of statutory towns and for census towns from the revenue authorities of respective jurisdiction.

****

Part A - Village and Town Directory

Section I - Village Directory

Note explaining the abbreviations used in the village directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 25 columns and the details given under each column for the village are as follows :

Columns 1 & 25 : Serial Number

Self explanatory. All the villages within the C D block are presented serially in the ascending order of their location code number.

Columns 2 & 24 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz. <5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given.Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of

institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	H
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Path-shala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within

the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema / Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows :

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State / U.T. Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below :

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L

(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages CD Block wise of the district.

Appendix-I-A Indicates number of villages CD Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages CD Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages CD Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities. Since there is no such census town in Chandigarh, therefore, data in this appendix is not presented.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns. Since there is no such census town in Chandi-garh, therefore, data in this appendix is not presented.

Appendix-IV CD Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A, VII B

The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges. Since no Scheduled Tribe is notified in Chandigarh, therefore, data in appendix VII-B is not presented.

Appendix-VIII Indicates CD Block wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in a village. Since there is no girls school in the villages of Chandigarh, U.T. therefore Appendix-IX has not been presented.

List of villages merged in towns and outgrowths at 2001 Census

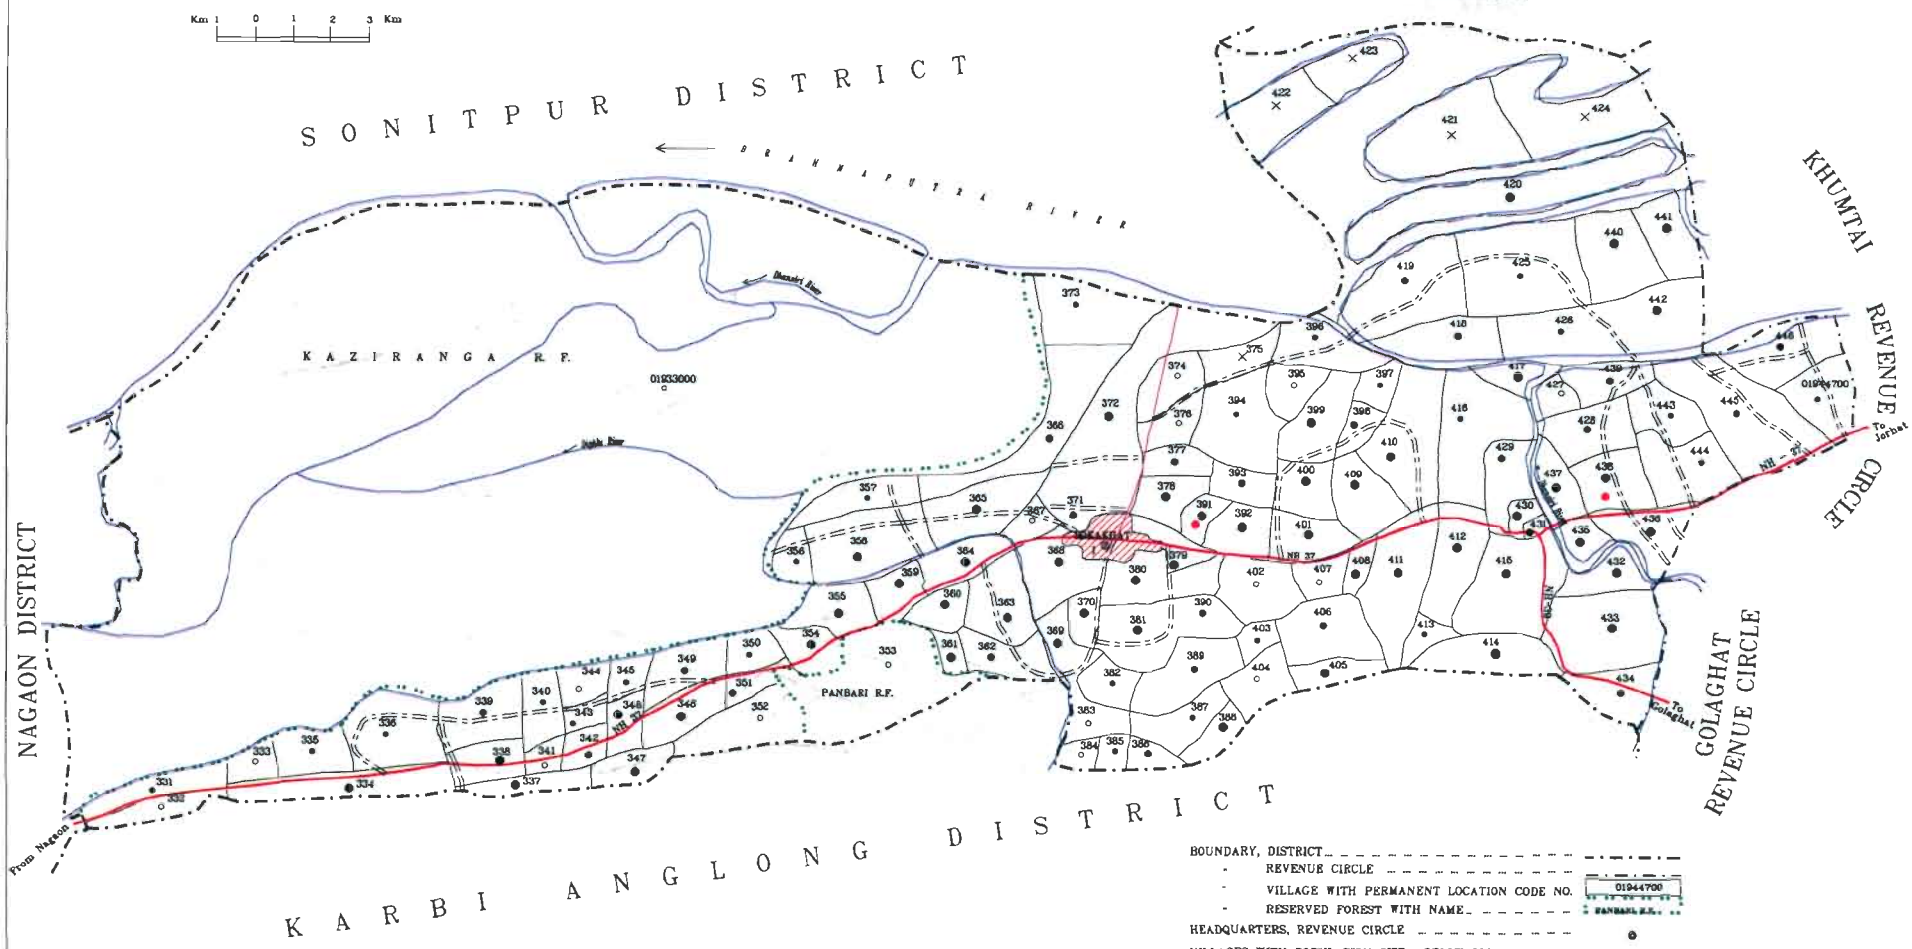

There is no above case in Golaghat district.

APPENDIX 1C - Village Directory

Villages with different sources of drinking water facilities available

Name of the District: GOLAGHAT

Sl.No.	Name of C D Block	Number of villages with different sources of drinking water available				
		Only tap	Only well	Only tube well	Only handpump	More than one source only from tap, well, tube well, handpump
1	2	3	4	5	6	7
1	Golaghat West	0	1	7	0	129
2	Golaghat North	0	0	7	0	20
3	Kakodonga	0	0	0	0	30
4	Golaghat Central	1	0	10	0	23
5	Golaghat East	0	1	27	1	37
6	Morongi	7	0	15	0	25
7	Gamariguri	0	5	107	3	24
8	Golaghat South	1	30	70	0	219
District Total:		**9**	**37**	**243**	**4**	**507**

APPENDIX II - Village Directory

Villages with 5,000 and above population which do not have one or more amenities

Name of the District : GOLAGHAT

Sl. No.	Name of village	Location code number	Name of C D block	Population	Amenities not available (indicate N. A. where amenity not available)						
					Senior Secondary School	College	Primary Health Sub Centre	Tap drinking water	Bus facility	Approach by Pucca road	Commercial Bank
1	2	3	4	5	6	7	8	9	10	11	12
1	Numaligarh Grant Bagicha	01941500	Golaghat West	5,238	N.A.	N.A.	N.A.	Available	Available	Available	Available
2	Kaiborta Gaon (Rangamati T.E.)	01947100	Golaghat West	5,995	N.A.	N.A.	N.A.	Available	Available	Available	Available
3	Murphulani T.E.	01982100	Morongi	5,039	N.A.	N.A.	N.A.	Available	N.A.	Available	N.A.

APPENDIX II - A Census Town

Census Towns which do not have one or more amenities

Name of the District : GOLAGHAT

Sl. No.	Name of census town	Location code number	Name of C D Block	Population	Amenities not available (indicate N. A. where amenity not available)						
					Senior Secondary School	College	Health Centre	Tap drinking water	Bus facility	Approach by Pucca road	Banks
1	2	3	4	5	6	7	8	9	10	11	12
1	Numaligarh Refinary Township	41804000	Morongi	8,783	N.A.	N.A.	N.A.	Available	Available	Available	Available

APPENDIX III - Village Directory

Land utilisation data in respect of Census Towns / non-municipal towns

Name of the District : Golaghat

Sl.No.	Name of Census town and CD Block within brackets	Land use (i.e., area under different types of land use in hectare)					
		Total area	Forest	Irrigated by source	Unirrigated	Culturable waste (including gauchar & groves)	Area not available for cultivation
1	2	3	4	5	6	7	8
1	Numaligarh Refinery Township (CT)	**Data is not Available for this Appendix**

(Data is not available for this apendix)

APPENDIX IX - Village Directory

Statement showing number of girls schools in the villages

Name of the District : Golaghat

Sl. No.	Name of CD Block	Village location code number	Name of village	Number of girls school			
				Primary School	Middle School	Matriculation / Secondary School	Higher Secondary / PUC / Intermediate / Junior college
1	2	3	4	5	6	7	8

(Data is not availlable for this apendix)

TOWN DIRECTORY

Section II - Town Directory

Note explaining the abbreviations used in the Town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic adminis-tration status of town

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998–1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha/pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D

(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

I case of more than one institutions of any type,it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories - Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Trainning Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the

town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

****

Statement-I gives the town wise by class, name, civic status with area in square kilometer, population and growth rate in each Census from 1901 to 2001. Density and sex ratio are indicated in each town. In the district there is no town of the status of class I and II. Golaghat MB is the only Class III town in the district with the total population of 0.3 lakh and the decadal growth rate is +14.6 percent. In the district, however, there is one class IV town and four towns class V towns. Golaghat MB is the oldest town in the district, it has registered 2,359 population in 1901 Census and has increased to 0.3 lakh in 2001 Census having an area of 7.3 sq. km. The density is recorded in Golaghat MB with 4,517 persons per sq km and the second highest density is seen in Dergaon TC 2,733 persons. The sex ratio in Golaghat MB has increased from 821 in 1991 Census to 900 in 2001 Census which is the highest among all towns in the district.

STATEMENT-II

6	V Barpathar (TC)	Barpathar (0)	Yes (0)	-

Statement- II indicates the physical aspects and location of towns as on 1999. Prior to Census of India, 2001 data of physical aspects like rainfall, temperature are collected from different offices in the district. From the statement, it is observed that uniform rainfall of 2711 mm is received in all the three towns in the district. In the measurement of temperature in three towns of the district, it is noticed that the maximum temperature is 37.0 centigrade and minimum of 6.0 centigrade. The highest maximum temperature is noticed in Numalighar Refinery Township CT with 38.0 centigrade. Barpathar TC is far from the state headquarters with distance of 360 kilometers and the nearest town to the state headquarter is Bokakhat CT with 245 kilometers. The distance range from district headquarter to all the towns within the district varies from 0 kilometer to 62 kilometers respectively. All towns have Bus facilities connected which make easier for transport.

STATEMENT - III
Municipal Finance, 1998-99

Sl. No.	Class, name and civic status of town	Receipt (in Rs.'000)						
		Receipt through taxes, etc.	Revenue derived from municipal properties and power apart from taxation	Government grant	Loan	Advance	Other sources (specify)	Total receipt
1	2	3	4	5	6	7	8	9
1	V Bokakhat (TC)	356	539	584	427	-	-	1,906
2	IV Dergaon (TC)	1,227	-	748	-	-	1,227	3,201
3	III Golaghat (MB)	882	1,172	224	-	-	342	2,620
4	V Numaligarh Refinery Township (CT)	-	-	-	-	-	-	-
5	V Sarupathar (TC)	-	187	75	-	-	-	262
6	V Barpathar (TC)	-	190	288	-	-	-	478

Sl. No.	Class, name and civic status of town	Expenditure (in Rs.'000)						
		General administration	Public safety	Public health and conveniences	Public works	Public institutions	Others (specify)	Total expenditure
1	2	10	11	12	13	14	15	16
1	V Bokakhat (TC)	724	65	-	945	80	-	1,814
2	IV Dergaon (TC)	412	-	26	223	100	1,855	2,615
3	III Golaghat (MB)	3,391	60	5	350	-	-	3,806

5	V Sarupathar (TC)	-	-	-	-	-	-	-
6	V Barpathar (TC)	60	125	-	286	7	-	478

Statement-III shows the Municipal finance for the period during 1998-99 for statutory towns only. Dergaon MB indicates a total Rs.3,201 thousand as receipt which is highest among all towns and a total expenditure of Rs 3,806 thousand in Golaghat MB is the highest among towns in the district. The Government grant, taxes, revenue from municipal properties and other sources form the sources of receipt in Golaghat MB. The general administration, public works etc. are the main heads where the expenditure is mostly spent. The receipts shown against Bokakhat TC are from the taxes, government grant, other sources, loan etc. and the expenditures are mostly in others, general administration and public works. Golaghat MB shows that the amount of receipt is less than the amount in expenditure side. In other towns there is no deficit budget.

STATEMENT - IV
Civic and other Amenities, 1999

Therre are no outgrowth in Golaghat District

Primary Census Abstract

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preli-minary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001

from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet onother important publication of 2001 Census gives basic information on Area, Total Households, Total Population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification

of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexures

Annexure of the District Golaghat

Annexure – I : Number of villages under each Gram Panchayat

(Data has not been collected on Panchayat level)

Annexure – II : Note on Fertility , Mortality and Migration, 1991 Census

Fertility, mortality, and migration are the most important tools of indicators of population growth. Growth of population in any area is always determined by these three demographic variables on the basis of which one can project the population for any year in future. All the models of population growth and tools of analysis of demographic data are generally based on these three indicators.

Considering the importance of these indicators an attempt has been made here to present the rates of fertility, mortality and migration along with other dependent variables for each district as well as for the State of Assam as a whole.

In the 1991 Census, questions on fertility such as age at marriage, number of children ever born alive and children born alive during the last year were asked. The first three questions were asked to all ever-married women and the last question was to only currently married women. The measures of fertility worked out are based on the F – Series. Tables of 1991 Census pertaining to Assam and definition of various concepts are already explained in earlier chapter .

Annexure – III : Various measures of Fertility and mean age at Marriage 1991 Census

Fertility :

As seen through various indicators of fertility in the district it may be seen that the GFR of 138, GMFR of 196, TFR of 4.4 and TMFR of 6.3 against the respective figures at state level are at 135, 190, 4:2 and 6.0. Various measures of fertility related data are presented in the following tables-

Table-1

Various Measures of Fertility and mean age at Marriage, 1991 Census

Sl. No.	Fertility Measure	Golaghat	Assam
1	2	3	4
1	G. F. R.	138	135
2	G. M. F. R.	196	190
3	T. F. R.	4.4	4.2
4	T. M. F. R.	6.3	6
5	Crude Birth Rate	32.1	31.5
6	No. Of Children ever born woman in age group 45 –49	4.8	5.2
7	Mean age at Marriage	18.8	18.3
8	Child – Woman Ratio (0 – 4)	535	575
9	Child – Woman Ratio (5 – 9)	731	735

The levels of fertility are found high in the district than the state but the some fertility related data such as no. of children ever born per woman and Child - Woman ratio for both age-groups are found low in the District then the state averages. The Crude Birth rate is on the other hand found higher than the state

Table-2

District – Wise various measures of Fertility and Mean Age at Marriage, 1991 Census

Sl. No	State/District	GFR	GMFR	TER	TMFR	CBR	No. of children ever born per ever married women in age-group 45-49	Mean Age at Marriage of currently married women
1	2	3	4	5	6	7	8	9
1	Dhubri	135	190	4.2	6	31.5	5.2	18.3

Table-3

Age Specific Marital Fertility levels , 1991 Census

Age Group	Golaghat			Assam		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.17	0.17	0.13	0.15	0.15	0.13
20-24	0.23	0.23	0.13	0.21	0.22	0.17
25-29	0.19	0.20	0.08	0.18	0.19	0.12
30-34	0.12	0.12	0.13	0.13	0.14	0.09
35-39	0.08	0.08	0.03	0.09	0.09	0.04
40-44	0.05	0.05	0.02	0.05	0.05	0.02
45-49	0.03	0.03	0.00	0.03	0.03	0.03

The age specific Marital Fertility levels one found high in Age-Groups 15-19 to 25-29 and Low in 30-34 to 45-49 in the district than the state in total Similar trend is found in rural also but in Urban it is somewhat different.

Mortality :

The mortality figures in the district confirms to the general theory of relation between fertility and mortality. The mortality data are shown in the following annexure:

Table-4

Estimates of Child Mortality , 1991 Census

	Mortality Measure	Golaghat	Assam
	1	2	3
Q. 1	Person	61	92
	Male	66	96
	Female	56	87

Table-4
Estimates of Child Mortality , 1991 Census

Mortality Measure		Golaghat	Assam
1		2	3
Q. 2	Person	76	101
	Male	78	104
	Female	74	98
Q. 3	Person	81	104
	Male	87	106
	Female	84	101
Q. 4	Person	94	116
	Male	97	118
	Female	91	115

Q. (1) in the above annexure shows the infant Mortality rates whereas Q. (2), (3) and (4) indicate the size of Child Mortality in the Age Group below 2,3, & 4 years respectively. It is seen in the table that the Mortality Rate in Golaghat district is quite lower then the state averages. It can be said that the health status in Golaghat is satisfactory than the state as a whole.

Annexure - IV : Percentage distribution of migrants by place of birth/ place of last residence, 1991 and 2001 Census

Migration :

Data relating to Migration of population to the District classified by their place of birth and place of last resident are presented at the following tables.

Table-1
Percentage distribution of Migrants by place of birth, 1991 Assam

State/District	Total migrants			From other Districts			From other States			From other countries		
	Persons	Male	Female	Person	Male	Female	Persons	Male	Female	Person	Male	Female
1	2	3	4	5	6	7	8	9	10	11	12	13

Compared to the state level totals, the share of migration from other district of the state in the total migrants is relatively higher whereas the share of migrants from other countries is 3.0% in the district

against 14.6% in case of over all State. Migration from other districts reveal that the female inmigration is more than male inmigration from other districts but it is more for males in case of inmigration from outside the State.

Similar data on migration in respect of migration classified by their place of last residence are presented in the following table- 2.

Table-2

Percentage distribution of migrants by place of birth- 2001 Assam

	100.0	100.0	100.0	4.1	7.7	2.8	2.0	3.8	1.4

From the above table it is seen that migrants from elsewhere in the district out side the place of enumeration consists of 76.8%, from other district it is 17.4 %, from other state consists of 5.4 % and from other countries it is 0.4 % of the total migrants

Annexure – V : Brief account of main religions in the district/ tahsil as per 1991 and 2001 Census

Religion :

A brief account of religious composition in the district along with state is presented in the following tables.

Table-1

Main Religions in the Golaghat District and Assam state, 1991 Census

District/State	Religion	Number of Followers	Percent to total population	Percentage	
				Rural	Urban
1	2	3	4	5	6
Assam	Total population	22,414,322	100	88.9	11.1
	Hindu	15,047,293	67.1	86.2	13.8
	Muslim	6,373,204	28.4	94.7	5.3

Table-1
Main Religions in the Golaghat District and Assam state, 1991 Census

District/State	Religion	Number of Followers	Percent to total population	Percentage	
				Rural	Urban
1	2	3	4	5	6
	Christian	744,367	3.3	96	4
	Buddhist	64,008	0.3	93	7
	Jain	20,645	0.1	21.9	78 1
	Sikh	16,492	0.1	31.3	68 8
Golaghat	Total population	828,096	100	94.1	5.9
	Hindu	713,131	86.1	94.5	5.5
	Muslim	58,859	7.1	86.5	13.5
	Christian	51,897	6.3	98.7	1.3
	Buddhist	2,480	0.3	99	1
	Jain	308	0	49	51
	Sikh	818	0.1	34.1	65.9

The figures in the above annexure show that compared to the state as whole the proportion of Hindus is more in the district. The Muslims who constitute about 28.4% of total population at State level but in the district their percentage is only 7.11%. Christian consists 6.3% as against 3.3% at State level, which is on higher side. However Jain, Buddhists and Sikhs though are negligible in number but in the district their share except Jain is relatively more compared to the state averages.

Table-2
Main Religions in the Golaghat District and Assam State-2001 Census

District/State	Religion	Number of followers	Percent to total population	Percentage			
				Rural	Rural-%	Urban	Urban-%
1	2	3	4	5			6
Assam	All Religions	26,655,528	100.0	23,216,288	87.1	3,439,240	12.9
	Hindus	17,296,455	64.9	14,477,966	83.7	2,818,489	16.3
	Muslims	8,240,611	30.9	7,714,619	93.6	525,992	6.4
	Christians	986,589	3.7	936,008	94.9	50,581	5.1
	Sikhs	22,519	0.1	7,634	33.9	14,885	66.1
	Buddhists	51,029	0.2	44,546	87.3	6,483	12.7
	Jains	23,957	0.1	3,603	15.0	20,354	85.0
	Others	22,999	0.1	21,608	94.0	1,391	6.0
	Religion not stated	11,369	0.0	10,304	90.6	1,065	9.4
Golaghat	All Religions	946,279	100.0	865,141	91.4	81,138	8.6
	Hindus	813,263	85.9	746,070	91.7	67,193	8.3
	Muslims	74,808	7.9	63,073	84.3	11,735	15.7
	Christians	52,277	5.5	50,898	97.4	1,379	2.6
	Sikhs	1,063	0.1	501	47.1	562	52.9
	Buddhists	3,230	0.3	3,170	98.1	60	1.9
	Jains	403	0.0	196	48.6	207	51.4
	Others	1,010	0.1	1,009	99.9	1	0.1
	Religion not stated	225	0.0	224	99.6	1	0.4

The figure in the above table shows that compared to state as a whole the proportion of Hindu is more in the district. The Hindus, which constitute 64.9 percent of the total population at the state level, is 85.9 percent in the district, followed by Muslims 7.9 percent, Christians 5.5 percent, Buddhists 0.3 percent and Shikhs and others 0.1 percent each.

Annexure - VI : Marital status of population as per 1991 and 2001 Census.

Marital Status :

The data on marital status of population Assam as well as in Golaghat district for each age group for males and females are presented below in the following tables.

Table-1

Age, Sex and Marital Status of population in Assam, 1991 Census

Age group	Total population		Percentage of population in each age-group							
			Never Married		Married		Widowed		Divorced/Separated

60-64	288,977	288,107	1.5	1.4	89.2	49.5	8.9	48.4	0.4	0.7
65-69	191,204	190,879	1.5	1.4	87.6	44.6	10.5	53.4	0.4	0.6
70-74	157,066	138,963	1.6	1.6	83.8	31.6	14.2	66.3	0.4	0.6
75-79	75,158	60,373	2.3	1.9	80.6	31.1	16.7	66.4	0.4	0.5
80+	88,180	81,459	3.4	3.2	73.3	24.6	22.8	71.7	0.5	0.5
Age not stated	17,208	11,766	62.9	63.3	35.4	30.4	1.4	6.0	0.2	0.3
Less than 18	5,920,190	5,607,460	99.7	98.1	0.3	1.8	0.0	0.1	0.0	0.0
Less than 21	6,836,042	6,503,581	98.6	92.3	1.3	7.5	0.0	0.1	0.0	0.1

A comparison of the district level figures of marital status with that of the State averages reveals that the percentage of never married males is lower than the state average while the females is higher. In case of married males and females the percentage is higher than the state average. In case of widowed males percentage is higher and female percentage is lower then the state percentage. Again in case of Divorced / Separated males the percentage is the same with the state percentage while the females percentage is lower.

The highest percentage of married males and females are recorded in the age group of 45-49 and 35-39 in the district being 93.1 percent and 89.9 percent respectively. The corresponding figures in the State level for males and females are recorded in the same age group. Never married males and females being 21.7 percent and 7.1 percent respectively. Never married males percentage is lower and females percentage is higher than the state percentage of 22.1 and 6.3 percent respectively.

Annexure - VII : Age, Sex and Education in district, 1991 and 2001 Census

Education and literacy rate :

Age-group wise literacy rates for males and females in respect of both at state and district level are presented in the following tables-

Table-1

Age, sex and Education in Assam, 1991 Census

Educational Level	Percentage of population by age-group sex									
	Jul-14		15-19		20-49		50-59		60+	
	Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
1	2	3	4	5	6	7	8	9	10	11
A. Total population	2,340,647	2,252,721	1,138,194	1,090,133	4,601,294	4,147,077	633,874	510,521	659,221	535,239

Table-2

Age, Sex and Education in Golaghat district, 1991 Census

Educational Level	Percentage of population by age-group sex									
	Jul-14		15 - 19		20 - 49		50 - 59		60+	
	Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
1	2	3	4	5	6	7	8	9	10	11
6. Metric/Sec	380	340	7,070	6,220	21,090	10,809	1,690	140	1,080	70
	0.6	0.6	21.2	21.9	19.3	16.2	12.3	3.7	10.8	3.1
7. HS/Int.med./PUC/Sr.sec	10	50	1,130	1,030	6,830	3,120	310	30	90	10
	0	0.1	3.4	3.6	6.3	4.7	2.3	0.8	0.9	0.5
8. Non-tech. Dip or Certificate not equivalent to degree	0	10	10	0	110	10	0	0	10	0
	0	0	0	0	0.1	0	0	0	0.1	0
9. Tech. Dip or certificate not equivalent to degree	0	0	20	0	430	30	10	0	0	0
	0	0	0.1	0	0.4	0.1	0.1	0	0	0
10. Graduate &above	0	0	110	120	7686	2900	550	50	100	10
	0	0	0.3	0.4	7	4	4	1.3	1	0.5

Note: -1. Percentage of literates is to total population.
2. All other percentage is proportion of literate population.

The literacy rates both for males and female in all age groups in the district are found higher than the state percentages It is also seen that the literacy rate is highest for male and female in age groups 15-19 and females in 7-14 respectively in the district. Literacy rates are found high up to matric/ secondary level. In other educational levels, literacy percentages are not high in the district.

In the district, the literacy rate for males and females in all age group are very high as compared to the state rates. It also seen that percentage of literate is high in the age group 15-19 than in all other age group both male and female. Literate population are seen high up to middle level in the age group 7-14, 15-19 and also seen high up to matric level in the other age group. In the higher educational level it is found to be low excepting graduate and above in the age group 20-49 though it is lower then the state literacy.

Annexure - VIII : Distribution of different mother tongues returned in 1991 and 2001Census.

Languages and Dialects :

The detail information on number of population and their percentages speaking different language are presented below in the following tables-

Table-1

Distribution of population by different Mother Tongues, 1991 Census

Mother tongue	No. persons classified by their tongue			
	Assam State		Golaghat District	
	Total population	percentage to total	Total population	Percentage to total
1	2	3	4	5
