"Kunkuri Church" Jashpur

A very large cathedral of Roman Catholic community is located in Kunkuri which is about 30 kms. from the district headquarter Jashpur. It is one of the largest churches of Asia.

This church has the capacity to accomodate 6000 persons for prayer. Constructed in the decade of nineties, the architecture and design of this church is very attractive and significant. This cathedral is the centre of attraction of the district and people from far off places belonging to different religions visit this place to see this cathedral.

Based upon Survey of India map with the permission of the Surveyor General of India.

Annexure-I : Number of villages under each Gram Panchayat (CD Blockwise) 400-433

Annexure-II : Note on Fertility, Mortality and Migration, 1991 Census 434

Annexure-III : Various measures of Fertility and mean age at marriage, 1991 Census 435-436

Annexure-IV : Percentage distribution of Migrants by place of birth/ place of last residence, 2001 Census 437-439

Annexure-V : Brief account of main religion in the district/tahsils as per 2001 Census 440

Annexure-VI : Marital status of population as per 2001 Census 441

Annexure-VII : Age, Sex and Education in the district, 2001 Census 442-443

Annexure-VIII : Distribution of different mother tongues returned in 2001 Census 443

Annexure-IX : Statement of SC and ST in the District, 2001 census 444

Annexure-X : Hamletwise population of villages, Census 2001 445-526

Annexure-XI : Statement of Disability in the District Census 2001 527

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centers, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the village Directory so as to give the details on number of inaccessible villages in each district. In the town Directory, a statement (IV-A) on slums introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In town Directory, the statement on slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education , and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digital permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, complied and computerised in prescribed record structure under the supervision of Shri Prabhakar Bansod, Director of Census Operations, Bhopal. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Divisions. Dr. R.P. Singh Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statement including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L.Jain, Deputy Director and Shri. R.K. Mehata, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi

Preface

The District Census Handbook (DCHB) compiled by the Census organization, Government of India is one of the most valuable and usable product of the Census. As its name suggests, it is brought out for each district in the State. This publication started from the 1951 Census, but prior to this, a similar publication was released in the earlier censuses. Those publications contained only village statistics, village names and total population thereof. The 1951 Census could, therefore be said to represent a significant step forward, in the process of making detailed census statistics available down to the village level. An important achievement, for the first time in 1991 Census, was that the village level data was presented Community Development Blockwise.

The scope of District Census Handbook has undergone considerable change since 1951. This is basically due to the growing demand for more information. For the purpose of convenience as well as with a view to make the basic statistics available to the data users, as early as possible, the District Census Handbooks of 1991 were brought out in a single volumes as against the earlier practice of bringing it out in two parts. The volume was however divided in two parts viz. part A and part B. Part A contained the Village/Town Directory while part B contained the Primary Census Data, based on the 1991 Census count. Continuing the practice of 1991 Census, the 2001 series of the District Census Handbooks is comprised of two parts but the present series is more informative in terms of coverage and contents. Part A contains Village Directory which provides information on infrastructure amenities and land use data at village level i.e. name and location of villages, area, population, number of households, important civic amenities/facilities available in villages like educational, medical, drinking water, post, telegraph, commercial and co-operative banks, agricultural and non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town and its distance, power supply, news papers/magazine and most important commodity manufactured in the villages. Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district. C.D. block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans.

Part B of the District Census Handbook contains Village and Town Primary Census Abstract. This provides information on area, occupied residential houses, number of households, sex-wise total population. child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and divisions of workers into four industrial categories i.e. cultivators, agricultural labourers, workers in household industries and other workers in respect of each village and town of the district. Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages relating to housing, assets available with households and demographic profile of population at tahsil/ C.D block level which are helpful for rural planning. Annexures giving information on religion, Scheduled Castes/Scheduled Tribes, migration, fertility, mother tongue have been included.

It has to be remembered that the villagewise area figures presented in the PCA are based on village information in the form of C-3 as furnished by the revenue authority and the "total" given for the administrative units viz, community development blocks, is the total of the area figures of village coming under it while in the case of the administrative unit viz, tahsil, the "total" area shown, is based on the information furnished by the Commissioner, Land Records, Government of Madhya Pradesh, Gwalior. In some cases the total area shown against the tahsil, may not tally with the total of the area figures of villages coming under it.

The District Census Handbook had been a joint venture of the Government of Chhattisgarh and the Government of India. The design of 2001 District Census Handbook has been evolved centrally by the Census Commissioner, India and accordingly these books have been prepared by my office. In earlier censuses, the cost of publication of these books were borne by the State Government but now these are being printed centrally by the Census organization. In accomplishing this task we have had the whole hearted cooperation of the staff at various levels of different departments of the State Government. The data supplied by the field level officers have been comparatively checked with 1991 DCHB and have been cross checked with the data obtained from various departments. An attempt had been made to reconcile the discrepancies by external validation to make it more reliable. I am grateful to all heads of departments of the State Government, officers and staff engaged in the conduct of 2001 Census for their cooperation to accomplish this task.

The compilation of such a huge amount of varied data in a single volume requires proper planning and close monitoring. We have the honour of having enlightened guidance and encouragement of Shri D.K.Sikri, IAS, Secretary (Registrar General and Census Commissioner, India). I owe special thanks to Shri. J.K.Banthia, then Registrar General and Census Commissioner, India. I am thankful to Dr. R.P. Singh, DRG (Map), Shri. R.G. Mitra DRG (C&T) and Dr. I.C. Agrawal, Sr. Research Officer (S.S.) and Shri.S.L. Jain, Dy. Director of S.S.Division for providing technical guidance.

In the directorate many officers/officials contributed in the Census 2001. First of all, I pay my gratitude to the then Director of Census Operations, Madhya Pradesh & Chhattisgarh, Shri Prabhakar Bansod under whose guidance, the Census 2001 was carried out successfully. I am also thankful to Shri Ram Singh then Joint Director, under whose supervision this District Census Handbook has been prepared.

The data presented in the District Census Handbook required a concerted work of team comprises Shri Jose T.Varghese, Assistant Director, Shri Deepak Rao, S.I.Grade-I, Shri R.Patel, S.I.Grade-I, Shri O.S.Shukla, Draftsman, Shri Santosh C.Mendhe, D.E.O.Grade-B and Shri Hirendra Kumar Sinha, Compilor of this Directorate who were involved with it at various stages of its planning, supervision, preparation of manuscript, field work, computerisation, prepration of CRC with the help of Adobe Pagemaking technique, maps and printing. I express my appreciation for the painstaking dedicated service rendered by all of them and staff of Data Centre, Bhopal for their untiring cooperation in finalizing the 2001 Census Data.

I shall feel greatly rewarded if the book comes to the expectation of the data users.

Definition of Census Town :-

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:-

i) A minimum population of 5,000;
ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and
iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook:

The District Census Handbook (DCHB), compiled by the Census Organisation, Government of India, on behalf of the State Government is one of the most valuable product of the Census. It is brought out for every district and is a very useful publication which is widely used by planners, administrators, academicians and researchers as it provides, among other things, the primary census data down to the village level.

History :

The history of the District Census Handbook could be traced from the "Village lists" brought out for every district in 1901 and "Village Statistics" for every district in 1911. This was discontinued in 1921 and 1931. In 1941, however, "Village Statistics" were brought out by the then Central Provinces and Berar Government. It was for the first time in 1951 that the practice of brining out a single volume known as District Census Handbook, giving village wise statistics and other Census tables for the districts, at the cost of the State Government, was initiated .

Scope :

The maiden publication of the District Census Handbook of 1951 contained village wise primary census data and census tables for the district. With the increasing utility and demand of statistical data for the planning process, the scope of the District Census Handbook was enhanced to a great extent in 1961 by including non-census data like climate, agriculture, animal husbandry, co-operative bank, industry, education, health, etc., apart from presenting the village wise primary census data and census tables. An introductory note giving information on historical background, physical features, soil, climate, civic administration, agriculture, industry, education, etc. together with detailed analysis on census tables was also a novel feature of the 1961 census. Maps of District and Tahsil were also included.

Publication of DCHB at the 1971 Census :

The desire to make the District Census Handbook more comprehensive in 1961, delayed the publication in some states. Therefore, in 1971, the Registrar General and Census Commissioner of India, decided to bring out DCHB in three parts viz. Part A, B and C, in order to release the maximum data as and when ready. Accordingly Part A was to contain the village wise Land Use data and the amenities and facilities available in the villages, these being part of the non-census statistics. Part B was to comprise the village wise primary census data, while in part C, the various non-census statistics at the district level and a few at tahsil level were to be presented.

Strategy at the 1981 Census :

In 1981 census with a view to avoid delay in the publication of DCHB series, part C containing the non-census statistics, as well as the census tables for the district were dropped. The scope of the District Census Handbook was, however, enlarged by the addition of tahsil wise list of villages where no amenities were available and tahsil wise list of the villages according to the proportion of Scheduled Caste/Tribes population by ranges in the form of Appendices III and IV respectively were added since Appendices I and II were already there.

Appendix III has been helpful for planning input in areas/villages where basic infrastructure is lacking, while Appendix IV has been helpful for planning welfare programmes for Scheduled Castes/Scheduled Tribes at micro level, particularly in relation to development oriented programmes.

In the town directory portion of DCHB Part A an additional Statement IV-A was also introduced in 1981. This statement was meant only for Class I and Class II towns and indicated the civic and other amenities in notified slums.

The inclusion of the Primary Census Abstract relating to the Scheduled Castes and Scheduled Tribes at the

tahsil/town level in Part B portion of the DCHB was another important feature of 1981 Census. An appendix containing Development Block wise totals of Primary Census Abstract was also presented in the DCHB series 1981 though it was not prescribed in the All India pattern.

The 1991 DCHB Series :

In the context of development planning the CD Block stays as an operational unit, the presentation of village-wise statistics at the CD Block level had been very helpful for the administrators and planners in formulating various development plans. The same had been presented CD Blockwise in 1991 Census.

The scope of the 1991 DCHB, particularly the village directory was enhanced by the inclusion of various inset tables on various subjects such as population density, area, towns by size class of population, etc.

Contents of the DCHB series 2001 :

The present series of District Census Handbook consisting of two parts viz. Part A and Part B is being published in a single Volume.

Part A Village Directory :

Village Directory contains information about the name of the village with location code number, assigned to it by the Census Organisation, geographical area of the village, total population and number of households in the village, amenities like education, medical, drinking water, post and telegraphs, communications, approach to village together with distance in Km, from the nearest town, power supply and land use data. In addition there are eight appendices to the Village Directory as under :

Appendix I : CD Block wise(rural) abstract of educational, medical and other amenities.

Appendix I-a : CD Blockwise abstract of villages by number of Primary schools.

Appendix I-b : CD Blockwise abstract of Villages with Primary, middle and secondary schools.

Appendix I-c : CD Blockwise abstract of Villages with different sources of drinking water facilities available.

Appendix II : Villages with 5000 and above Population, which do not have one or more amenities

Appendix II-a : Census Towns which do not have one or more amenities

Appendix III : Land Utilization data in respect of Census Towns/Non Municipal Towns.

Appendix IV : CD Blockwise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix V : Summary showing number of villages not having Scheduled Caste Population.

Appendix VI : Summary showing number of villages not having Scheduled Tribe Population.

Appendix VII A: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix VIII : Statement showing number of girls school in the villages.

Town Directory :

The Town Directory contains the following seven statements and one appendix.

Statement I : Status and Growth History

Statement II : Physical aspects and location of towns

Statement III : Municipal Finance

Statement IV : Civic and other amenities

Statement V : Medical,Educational, Recreational and cultural facilities

Statement VI : Trade, Commerce, Industry and Banking

Statement VII: Civic and other amenities in slums

Appendix to Town Directory – Towns showing their outgrowth with population.

Primary Census Abstract

Part B: -The Primary Census Abstract gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in tha age group 0-6, Literates, Main Workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels namely, Districts, CD blocks, Village, and UA/Towns. In addition, Ward/Enumeration blockwise population is given in the Appendix to District Primary Census Abstract.

Primary Census Abstracts for Scheduled castes and Scheduled Tribes:

The Primary Census Abstract relating to Scheduled Castes and Scheduled Tribes is also being presented separately at the CD Block-wise /Town wise. It will have the same characteristics as indicated in the Primary Census Abstract to the total population.

Publication of DCHB in Regional Language :

In 1981, part A and part B of DCHB were brought out separately for every district which were printed in diglot i.e. a mixed up Hindi and English versions while in 1971, both the parts i.e. part A and part B were brought out in a single volume with simultaneous Hindi and English versions. The 1961 DCHB were however published in a single volume in English version only for district, since there were no separate parts like DCHB of 1971 and 1981 censuses. The 1951 census DCHB series were published with a mix of both Hindi and English but with a difference. That is to say that the districts belonging to the erstwhile state of Madhya Pradesh comprising the Mahakoshal Region and 2 districts of erstwhile Bhopal state had the District Census Handbook in English version only, while in respect of 16 districts of Madhya Bharat region, the DCHBs were published in diglot. The DCHBs of 8 districts of Vindhya Pradesh region were however published in Hindi version only.

New Features of DCHB 2001 :

The main features of Village Directory of DCHB 2001 are :

(1) For the first time eight digit continuous location code is assigned to all the villages within the state. These are the Permanent Location Code Numbers (PLCN) and starts from the first village of first tahsil of first district of state and continue till the end of last village of last tahsil of the last district within a state.

(2) The State codes which were assigned alphabetically in 1991 census are given in serpentine order in 2001 census. As a result Chhattisgarh is assigned code 22 in Census 2001.

(3) As compared to earlier series of Village Directory additional and more useful information viz. number of Commercial/Co-operative banks and the nearest distance of availability of amenity, Agriculture and Non-Agriculture credit societies, Recreational and Cultural facilities, availability of Newspaper/ magazines and names of important commodities manufactured are included in Census 2001 for the first time in Village Directory.

(4) Annexures giving information on fertility, religion, migration, mother tongue, Scheduled Caste/Scheduled Tribe have been included in DCHB 2001.

Town Directory :

No major change has been made in Town Directory when compared to Town Directory of 1991. However, some improvement has been made in the data collection on slums of the towns having population 50,000 and more in which separate Enumeration Blocks were carved for slums during houselisting and population enumeration. In 2001 information in respect of slum areas have been collected for all towns.

The information of slums for Class I and II towns that is with population 50,000 or more was compiled in statement IV-A in Census 1991. In Census 2001, this information is compiled for all the towns irrespective of their size in statement VII.

Primary Census Abstract :

(1) Information on individuals has been collected in Household schedules and practice of collecting data on individual slip has been discontinued.

(2) For persons recorded as other workers, the information on distance of place of duty and the means of transport to place of duty are obtained in column 27 and 28 of the household schedule.

(3) The information on Disability is obtained for the first time in Census 2001 in column 15 of the household schedule.

(4) The household schedule is divided in three parts. The information on cultivation/ plantation is recorded in part III of the household schedule for the first time in census 2001.

(ii) Brief History of the District* :

Jashpur district came into existence on 22 May 1998 before the formation of Chhattisgarh state. It was formed by separating it from the Raigarh district of Bilaspur division. Jharkhand and Orissa on its north & east respectivily are on the borders of this newborn district. It has been named after Jashpur Nagar, which is the main township of the district, and the district head quarter is situated here. The tribal population mainly dominates this district as almost 65per cent of the inhabitants belong to the category of scheduled tribes.

There is no clear and authentic history of this newly formed district. According to the myths and stories narrated by the local people we come to know that before the 18th century the Dom dynasty ruled the area. The Dom Empire came to an end with the death of the Dom King Raibhan.

With the end of the rule of Dome Empire , Sujan Ray who was the eldest son of Suryavansi king of Sonpur, became the ruler of Jashpur. The ancestors of Sujan Ray are said to be the original inhabitantants of Banswada, a small state in old Rajputana . Later on they established their rule in Sonpur. After Sujan Ray his descendants Pratap Narayan Singdev and Bisen Prasad Singdev ruled over Jashpur.. The descendants of the king Sujan Ray had the administrative control over the kingdom in the pre-independence period. After the independence, it was merged with the Indian Union in 1948. However, Jashpur remained a part of Chotanagpur commissionery from 1948 to October 1956. On November 1, 1956 when Madhya Pradesh was organised as a new state under union of India, Jashpur became a part of it.

Till May 1998 this region remained a part of Raigarh district of undevided Madhya Pradesh. When 16 new distrcits were created in 1998, Jaspur was one of them. As a result of bifurcation of Raigarh district, the newly formed Jashpur district came into existence on 22nd May 1998.

(iii) Administrative Setup*:

As a result of the division of Raigarh district, there came some changes in the jurisdiction of the administrative units, and the same was notified by the M.P. Government notification No. 1006-F-20-8-90-7-Govt.-8. This was done in the mid of the census-decade 1991-2001 in accordance with Section 13 (2) of The Madhya Pradesh Land Revenue Code 1959. This newly constituted district comprises of four Tahsils, namely Jashpur, Bagicha, Kunkuri and Pathalgaon. Jashpur Nagar and Pathalgaon are the two towns of the district.

According to the census of 2001 the number of villages in different Tahsils are as follows: Jashpur Tahsil – 195, Kunkuri Tahsil – 255, Bagicha Tahsil – 207, and Pathalgaon Tahsil – 108. Thus altogether there are 765 villages in the district. The total number of both Development Blocks and Janpad Panchayats are 8. They are Jashpur, Manora, Bagicha, Kansabel, Kunkuri, Pharsabahar, Duldula and Pathalgaon. Further, the number of Revenue Circles and Patwari Halkas are 9 and 137 respectively. The total number of Gram Panchayats is 418.

The district is the basic territorial unit of administration in the state as well as in country. The Collector, as the head of district administration is the key-functionary of the Government, having vast powers and wide responsibilities. In many ways he is the link between the State Government and the people. He is the custodian of law and order and the pivot of local administration.

He is the Chief Executive Officer of the district and as such he exercises general supervision over various departments in regard to their non-technical work. Co-ordination of the activities of various Departments, control over local-self governing bodies, execution of Government schemes and miscellaneous functions, such as Panchayats, Census, election and relief measures in time of emergencies like floods, famine and epidemics, etc. also come within his preview.

The narrative on the organisational set-up of the collectorate may be divided into three main categories, viz.(i) land revenue, land-records including consolidation of land and other allied matters. (ii) law and order and (iii) Development.

The Collector is assisted by Deputy Collectors, Tahsildars, Naib Tahsildars, Revenue Inspectors and Patwaris. The Collector is also associated with a number of committees in the district. The most important among them is the District Advisory Committee. The Collector is also vested with statutory powers under excise act, so as to enable him to implement the excise and prohibition policy of the Government Superintendent of Police is the head of police department at the district level. In order to facilitate the smooth functioning of Law and Order there are 12 police station in the district.

The Judiciary is independent. At the district level, there is District Court headed by District and Session Judge. District and Session Judge is assisted by Civil Judges who are posted at tahsil level.

(iv) Physical Features* :

The newly formed Jashpur district is situated in the northeast of the state of Chhattisgarh. It is surrounded by Gumla district of Jharkhand in the east, Sarguja in the west, some parts of Jharkhand and Sarguja in the north and the districts of Raigarh and Sundergarh(Orissa) in the south.. It extends from 22° 17' to 23° 15' on northern hemisphere and from 83° 15' to 84°25' eastern hemispheres. As per the census of 2001 its area is 5838 sq. km. of the total area of Chhattisgarh state which is 1,35,191 sq. km. It ranks seventh in the state as far as area is concerned.

Khuriya plateau on the northwest of Jashpur is the highest place of the district.

The northern part of Jashpur district is situated on the high plateau of Khuriya and Jashpur which, in the local language, is called *Upper Ghat* (high plateau), and the same spreads over approximately in an area of 2,225 sq. km. Due to the geographical differences the height of these plateaus vary from 600 to 750 meters from the sea level.

The plateaus of Jashpur and Khuriya, from the east to west, are from 750 to 1,000 meters respectively from the sea level.

The heights of some of the important mountain peaks are as follows: Pandra Path – 1,105 meters, Bhurju Dih – 1,123 meters, Bhanwar Choti – 1,028 meters, Tendu Path – 1,038 meters and Jashpur 770.5 meters.

Kunkuri and Bagicha Tahsils and the entire nearby areas are called *Neech Ghat* (the lower area of the plateau). The Ib River and other rivers joining it cover a large area.

Drainage :

The Ib is the main river flowing in the district. Maini, Siri, Dondki, Kharun and Kokiya etc. are other small rivers. All of them flow down towards the south.

The Ib flows from the northeast of Khuriya mountain near Pandra Path. From there it turns towards southeast and meets the Mahanadi and proceeds towards Hirakund reservoir in Orissa.

The other small rivers flowing in the north of the district are Shankh, Suriya, Kanhar, Lawa, Gurdera etc. Shankh is a big river, which marks the northeast boarder of the district and flowing down southwards joins the Brahmani river of Orisa.

Climate :

Since the mountainous area of the district is covered with thick forest, the post monsoon depression has a great impact on the atmosphere of this region due to heavy rainfall and storms.

As the thick forest covers the hilly areas; the winds of monsoon coming from the Bay of Bengal affect the climate of the western part and the neighbouring areas, with heavy rain and storms. Generally, the climate of this district is hot and dry in

summer and in rainy season, the rain is well distributed. Winter from December to February is in its extreme and summer season continues until the first half of June. Form June to mid September, it is the rainy season affected by southwest monsoon. The period from October to November, is the period of post monsoon season.

In this district, the record shows that the average number of days of rain is 68 to73. This district received 1726.6 mm rainfall in the year 2000. District wise record of average rainfall in 2000 is as follows: Jashpur-1670.6 mm, Bagicha-1297 mm, Kunkuri-1935, and Pathalgaon-1559.4 mm. This district receives, rain which comes form the northwest and proceeds towards southwest. The maximum rain is recorded in the month of July and August. At times in the winter it rains with thunder and lightning.

With the change of climate and local conditions, the temperature rises and falls. There is gradual increase in temperature from February to May. The month of May is the hottest month of the year. Before the month of June the monsoon creeps in and temperature starts to fall. January is the coldest month of winter. During winter cold waves affect the temperature of the western part of the district and minimum temperature sometimes falls below the freezing point. The average maximum temperature of the district is recorded as 42.9°C and minimum 09.5°C.

Humidity goes upto 75 per cent during the rainy season affected by the southwest monsoon and gradually decreases later on.

During the season of southwest monsoon the wind, blows mainly form southwest or west. Nevertheless, sometimes in the northern part the Eastern wind blows. In monsoon and winter the wind blows from west to north and East to northwest and in summer it blows towards north from the middle of southwest and northwest.

Flora and Fauna :

The forest land spreads in 176,921 hectares in Jashpur district. In Kudiya section of Jashpur forestry the woods of high quality are found. In western part of the district like Narayanpur, Kunmurra and in the valleys and hilly areas of Tapkara, Shal forest is in plenty. Salai, Tendu, Achar, Anwala, Vilwan, Kasai, and Bhirra are the trees of dry category found in this district.

Dry and mixed forest are divided into two subdivisions. There are also Bamboo forest under Jashpur forest section . However, they have not developed much. There are various schemes for the preservation and expansion of the forests.

Minerals :

Bauxite, terelite and gold are the main minerals found in this district . The small particles of gold are found under the sand along the bank of the river Ib and its rivulets. But the amount of gold found here is not considered to be economically viable from the point of view of exploitation

Land use :

Matasi, Kanhar, Tikra, and Dorsa are the principal soil found in this district. The statistic report of 1999-2000 shows, that 531,015 hectares of land are suitable for cultivation. The Matasi soil is considered as the best soil for the cultivation of rice while Kanhar soil suits the cultivation wheat and gram. The land hanving the mixture of Kanhar and Matasi soil is called Tikari land which is very useful for the harvest. During 1999-2000, the non-agricultural land was 26,126 hectares, uncultivable fallow land of 103,787 hectares and Banjar land of 38,284 Hectares was found in the district. The main food crops sown are Paddy, Maize, Wheat and Jowar . The main cash crops are urad, gram and tur sown in 28,922 hectares of land. 5,744 hectares land is available for growing vegetables etc. The production of oil seed like groundnut, Soyabean etc is increasing day by day. Altogether 267,621 hectares of land is used for agricultual purposes.

Irrigation :

Government canal, tube wells, and government ponds are the main means of irrigation. There are 49 canals and 36 tube wells mentioned in the record. 4559 hectares of land is irrigated by canals and 960 hectares of land is irrigated by other means of irrigation. In total 7,286 hectares of land is irrigated by all the available means of irrigation .

Animal Husbandry :

In the district of Jashpur Cow and Buffaloes are the main species among animals. The record shows that at the end of the year 1999-2000, total number of

cows and buffaloes was 392,783 and 49,513 respectively. The number of sheep and goats in the district was 16,998 and 177,630 respectively.

The number of horses and donkeys was 1,548 and the number of pigs was 60,870 in the district.Among poultry stock the number of hens and ducks found in the district was 312,425 and 992 respectively. As per the records there were 318,063 number of different species of poultry found in this district.

There were 13 artificial breeding centers and 39 veterinary hospitals in the district.

Industry :

There are 223 industrial units in the district. The number of registered small industry units is 13 and cottage industry unit is 210. Specially the industries dependent on agriculture and forest are helped by different institutes. People are getting employment opportunities in Rice mill, Gudahkhoo factory and collection of gold particles. Mahuwan, turmeric, furniture, harra, bahedha, sarai fruit and char chiraungi are exported form the district.

Transport :

In the year 1999-2000 the length of pucca road is 1101.5 km and kutcha road is 320.0 km. Out of 765 villages 335 villages are connected by the roads. For the transportation and travel there are 759 registered vehicles.

Electricity and Power :

During the year 1999-2000, 10678 kw of electricity was consumed for the domestic and commercial purposes.The consumption of Electricity on water supply, agriculture and street lighting was 559 k w, 1739 k w, and 323 k w respectively. The total consumption of electricity including that of industrial use was 21,473 k w. In the district 559 villages have electricity.

Gram Panchayat :

Panchayat is the basic institution of local administration and is the foundation of decentralised administration. The Panchayati Raj System is mentioned in the Directive Principles of State Policy of the Constitution of India. After the 73rd Amendment in the Constitution of India , the Government of M.P. too passed M.P. Panchayat Adhiniyam. The Panchayat Notification 1993 provides Gram Panchayats for villages, Janpad Panchayats for Blocks and District Panchayat for district. As per M.P. Gram Sabha Notification 2001, Gram Sabha, is a body inclusive of all the major persons of a village. It is a constitutionally approved unit and gives voting rights to its members for the election of Panch, Sarpanch, members of Janpad and members of district Panchayat. The Gram Sabha has power to approve works under annual budget of the village. Constituted with the elected members, these institutions work for 5 years. At all level there is reservation for Scheduled Castes Scheduled Tribes and OBCs as per the proportion of their population in the total population.For women there is 1/3 reservation. Village Panchayat, Janpad Panchayat and District Panchayat have members ranging 10-20, 10-25, 10-35 respectively.

Gram Panchayat within its area and within its budget, can take up works such as cleanliness, water supply, public works(roads, buildings, wells, tanks) fixing market rates, providing Co-operation to Government works, Community health and development works. Janpad Panchayats within its budget take up works, in the nature of Community development, agriculture, social, commerce, animal husbandry, fisheries, adult-education, co-operatives, cottage industry, welfare and employment oriented programme. It is the duty of the district Panchayat to have control over Janpad Panchayats and village panchayats and to establish coordination between them, give directions to them and advise the Government regarding development works. All the development works of the villages are done by one district panchayat, 9 janapad panchayats, and 8 Development Blocks.

(v) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as

Source:

* District Statististics Book-2001.
* District Census Book.
* Chhattisgarh State Development Sanketank-2001.

shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like

one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria

simultaneously:

i) A minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams,

orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes. The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled Castes and Scheduled Tribes

Scheduled Castes :

1. Audhelia
2. Bagri, Bagdi
3. Bahna, Bahana
4. Balahi, Balai
5. Banchada
6. Barahar, Basod
7. Bargunda
8. Basor,Burud,Bansor, Bansodi, Bansphor, Basar
9. Bedia
10. Beldar, Sunkar
11. Bhangi,Mehtar,Balmik, Lalbegi,Dharkar
12. Bhanumati
13. Chadar
14. Chamar, Chamari, Bairwa, Bhambi, Jatav, Mochi, Regar, Nona, Rohidas, Ramnami,Satnami, Surjyabansi, Surjyaramnami, Ahirwar, Chamar Mangan, Raidas
15. Chidar
16. Chikwa, Chikvi
17. Chitar
18. Dahait, Dahayat, Dahat
19. Dewar
20. Dhanuk
21. Dhed, Dher
22. Dohor
23. Dom,Dumar, Dome, Domar, Doris
24. Ganda, Gandi
25. Ghasi, Ghasia
26. Holiya
27. Kanjar
28. Katia, Patharia
29. Khatik
30. Koli, Kori
31. Khangar, Kanera, Mirdha
32. Kuchbandhia
33. Mahar, Mehra, Mehar
34. Mang, Mang Garodi, Mang Garudi, Dankhni Mang, Mang Mahasi, Madari, Garudi, Radhemang

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is

considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years

Sex-Ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface *drain, box drain, sylk pattern drain, etc., in these* towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and *big towns. Where the streets sewer does not exist* these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is

impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid – year Population}} \times 1000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q_1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q_2 :

Probability of dying between birth and age 2.

q_5:

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group15-49 years per 1000 persons.

Child woman ratio (0-4) :

Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/ relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

  (a) Migration within the district of enumeration (intra district migration)

  (b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international

migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration :

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 100,000 and above population are classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) and M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as

a) Areas where buildings are in any respect unfit for human habitation; or

b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings – Population, its distribution

According to Census 2001, Jashpur district comprises of 764. inhabited villages, 1 uninhabited vilages and total 765 villages distributed among 4 tahsils and 8 number of CD blocks. The district has 2 towns. The average household size of the district is 5. Total population of the district is 743,160 comprising 371,697 males and 371,463 females. Thus the sex ratio of the district works out to 999 which is better than the sex-ratio of the state. Density of the district is 90 persons per sq.km. and is lower than the density of the state which is 154 Literacy rate of the district 63.8 per cent is also lower than the State literacy rate 64.7 per cent. Scheduled Castes and Scheduled Tribes population of the district is respectively 4.9 per cent and 63.2 per cent of the total population of the district. Apart from these general findings, the analysis on various parameters like rural-urban distribution of population by sex, literacy, density, caste, tribe etc. has been covered in the Inset Tables from 1 to 52 based on PCA, Village Directory data, Town directory data and houselisting data pertaining to Census, 2001.

(viii) Brief analysis of the PCA data (Table 1 - 36)

Analysis of the PCA data based on Census 2001 is presented here in the form of tables from 1 - 36. Various demographic indicators such as density, literacy, Sex-ratio and distribution of population in different economic activity by rural/ urban, male/female and age classifications are presented in these tables. These analysis are presented for Tahsils and CD Block levels separately.

Analysis for Scheduled Castes and Scheduled Tribes is also covered in these tables.

TABLE 1: DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Bagicha	192,076	192,076	0	217,111	217,111	0	13.0	13.0	0.0	0.0	0.0
2	Jashpur	116,184	101,396	14,788	134,976	114,737	20,239	16.2	13.2	36.9	12.7	15.0
3	Kunkuri	201,862	201,862	0	226,283	226,283	0	12.1	12.1	0.0	0.0	0.0
4	Pathalgaon	146,230	135,313	10,917	164,790	150,834	13,956	12.7	11.5	27.8	7.5	8.5
	District Total:	656,352	630,647	25,705	743,160	708,965	34,195	13.2	12.4	33.0	3.9	4.6

The table indicates tahsilwise decadal variation for total, rural and urban population of the district. It is seen that the decadal Growth Rate between 1991 and 2001 is recorded as 13.2 per cent The decadal growth rate in rural and urban population of the district is 12.4 and 33.0 per cent respectively. Among the tahsils, Jashpur has the highest decadal growth rate of 16.2 per cent and the growth rate in rural and urban areas of Jashpur tahsil is also highest in the district i.e.13.2 and 36.9 per cent respectively.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females
1	2	3	4	5	6	7	8	9
1	Bagicha	145	147,901	74,319	73,582	5 (3.4)	343	356
2	Kansabel	62	69,210	34,234	34,976	3 (4.8)	222	251
3	Manora	95	53,727	26,693	27,034	9 (9.5)	603	603
4	Jashpurnagar	99	61,010	30,786	30,224	8 (8.1)	621	583
5	Kunkuri	90	82,455	41,605	40,850	4 (4.4)	281	274
6	Duldula	66	45,476	22,588	22,888	8 (12.1)	540	573
7	Pharsabahar(Tapkara)	99	98,352	48,674	49,678	5 (5.1)	397	447
8	Pathalgaon	108	150,834	74,978	75,856	4 (3.7)	256	240
	Districts (Rural) Total:	764	708,965	353,877	355,088	46 (6.0)	3,263	3,327

Serial number	District / C.D. block	Number and percentage of villages	Population 200-499		Number and percentage of villages	Population 500-999		Number and percentage of villages	Population 1000-1999	
			Males	Females		Males	Females		Males	Females
1	2	10	11	12	13	14	15	16	17	18
1	Bagicha	30 (20.7)	5,552	5,531	49 (33.8)	16,877	16,585	49 (33.8)	33,968	34,176
2	Kansabel	14 (22.6)	2,414	2,522	20 (32.3)	7,155	7,320	17 (27.4)	10,742	11,014

The above table gives CD Blockwise number and percentage of villages in each specified population range. along with the total male and female population of villages falling in that specific range.In the district, Out of the 764 inhabited villages 46 (6.0 per cent) villages belong to the smallest sized villages with population less than 200 persons.

In the size range of 200-499 persons, there are 215 villages forming 28.1 per cent of total villages while in the size range of 500–999 persons, there are maximum 247 villages in the district i.e. 32.3 per cent of the total villages. In the upper sized villages with population between 1,000-1,999 persons,there are 195 villages forming 25.5 per cent and 59 villages with 2,000 – 4,999 persons constitute 7.7 per cent . There is only 1 village each in the population range of 5,000-9,999 and 10,000 persons and above , each forming 0.1 per cent.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town

(a) New

(i) Statutory town — Nil

(ii) Census town — Nil

(b) Denotified

(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns. — Nil

(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria. — Nil

(iii) Census towns of 1991 census are notified as statutory town in 2001 census. — Nil

(c) Declassified — Nil

(d) Wholly merged with other town(s) — Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	3	0.4	412	0.1
11-20	1	0.1	140	0.0
21-50	36	4.7	13,338	1.9
51-100	201	26.3	126,497	17.8
101-200	396	51.8	384,982	54.3
201-300	101	13.2	128,205	18.1
301-500	18	2.4	28,319	4.0
501 +	8	1.0	27,072	3.8
Not known	0	0.0	0	0.0
District Total:	764	100.0	708,965	100.0
Density of Population (Rural) of the district: 135				

The above table represents the distribution of population in villages by density range grouped under 8 sub-ranges of density. The maximum number of villages i.e. 396 fall under the range of 101-200 constituting 51.8 per cent of the total inhabited villages in the district. The second highest number of villages i.e 201 is in the range of 51-100 population density constituting 26.3 per cent of total number of inhabited villages.The percentage of villages in the range of 201-300 population density is 13.2 per cent. The villages in the lower ranges of 0-10 and 11-20 persons per sq. km constitutes only 0.4 and 0.1 per cent of the total number of villages respectively. 18 villages are in the range of higher density i.e. 301-500 persons forming 2.4 per cent of total villages. The villages in the highest density range of 501+ constitutes only 1.0 per cent of total villages. In terms of population figures, 54.3 per cent of total population i.e 3,84,982 persons belong to the range of 101-200 persons per sq. km.

TABLE 5: SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	1,046	1,047	1,016	1,013	1,013	-
1911	1,039	1,040	1,013	1,014	1,014	-
1921	1,041	1,042	1,000	1,017	1,017	-
1931	1,043	1,046	957	1,020	10,216	-
1941	1,032	1,034	976	1,011	1,011	-
1951	1,024	1,028	951	966	968	885
1961	1,008	1,026	837	997	1,000	815
1971	998	1,011	888	1,004	1,007	804
1981	996	1,012	908	1,003	1,008	849
1991	985	1,000	917	1,001	1,007	863
2001	989	1,004	932	999	1,003	919

The above table reveals that from 1901 to 1961 the sex ratio of the district was lower than that of the state. Since 1971 Census, the total sex ratio of the district has been higher than the state sex ratio. During Census 2001, the sex ratio of the district was recorded as 999 which is 10 more than the sex ratio of the state i,e 989. Fugure for the district was higher than that of state for the sex ratios of both rural and urban areas.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Bagicha	1,000	1,000	-
2	Jashpur	980	996	891
3	Kunkuri	1,005	1,005	-
4	Pathalgaon	1,007	1,012	960
Sex ratio for the District		999	1,003	919

The above table shows tahsil wise rural urban sex ratio. It is observed that the sex ratio for the rural areas is higher than the sex ratio for the urban areas. Among rural areas highest (1,012) sex ratio is recorded in Tahsil Pathalgaon followed by Kunkuri (1,005). Urban part of Jashpur tahsil has the low sex ratio 891.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Bagicha	990
2	Kansabel	1,022
3	Manora	1,013
4	Jashpurnagar	982
5	Kunkuri	982
6	Duldula	1,013
7	Pharsabahar(Tapkara)	1,021
8	Pathalgaon	1,012
	District (Rural) Total:	1,003

The table 7 presents the CD Blockwise sex ratio for the rural population of the district. The sex ratio in rural areas of the district accounts to 1,003 females per 1,000 males. Among all the CD Blocks the highest sex ratio 1,022 is recorded in Kansabel CD Block followed by 1,021 by Pharsabhar (Tapkara) and the lowest of 982 is found in Jashpurnagar and Kunkuri CD Blocks.

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	1	0.1	695	0.1
700-749	2	0.3	1,576	0.2
750-799	7	0.9	5,858	0.8
800-849	12	1.6	4,764	0.7
850-899	30	3.9	14,531	2.0
900-949	109	14.3	110,584	15.6
950-999	191	25.0	197,374	27.8
1000-1099	335	43.8	320,794	45.2
1100+	77	10.1	52,789	7.4
District Total:	764	100.0	708,965	100.0
Sex ratio (Rural) for District:			1,003	

The above table represents the distribution of villages in 9 sub ranges by sex ratio based on 2001 Census. Out of 764 villages, 335 inhabited villages forming 43.8 per cent of total villages are in the sex ratio range of 1,000-1,099 followed by 191 villages accounting to 25.0 per cent of total villages fall in the range of sex ratio 950-999 and 109 villages come under range of 900-949. There are 77 villages which form 10.1 per cent of total villages having sex ratio of more than 1,100.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Urban status of town	Sex ratio
1	2	3	4
1	Jashpurnagar	N.P	891
2	Pathalgaon	N.P	960
Sex ratio (Urban) for the district:			919

The above tables gives the sex ratio of towns and urban agglomerations of the district. It comes to 919 females per 1,000 males in the district. Among the two towns of district, Pathalgaon (NP) has sex ratio of 960 while Jashpurnagar (NP) has sex ratio of 891.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Bagicha	Total	37,018	18,588	18,430	991
		Rural	37,018	18,588	18,430	991
		Urban	0	0	0	
2	Jashpur	Total	23,442	11,860	11,582	977
		Rural	20,594	10,326	10,268	994
		Urban	2,848	1,534	1,314	857
3	Kunkuri	Total	36,070	18,425	17,645	958
		Rural	36,070	18,425	17,645	958
		Urban	0	0	0	
4	Pathalgaon	Total	26,404	13,371	13,033	975
		Rural	24,431	12,351	12,080	978
		Urban	1,973	1,020	953	934
	District Total:	Total	122,934	62,244	60,690	975
		Rural	118,113	59,690	58,423	979
		Urban	4,821	2,554	2,267	888

The above table indicates sexratio of the population in the age group 0-6. The average sex ratio of this age group is 975. The sex ratio in rural and urban areas are 979 and 888 females per 1,000 males respectively. The Jashpur tahsil has the highest sex ratio of 994 while Kunkuri has the lowest sex ratio of 958. It is observed that in urban areas, Pathalgaon has the highest sex ratio 934 while Jashpur has the lowest sex ratio of 857 for the age group of 0-6.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Bagicha	26,277	13,172	13,105	995
2	Kansabel	10,741	5,416	5,325	983
3	Manora	9,976	5,003	4,973	994
4	Jashpurnagar	10,618	5,323	5,295	995
5	Kunkuri	12,800	6,607	6,193	937
6	Duldula	7,604	3,851	3,753	975
7	Pharsabahar (Tapkara)	15,666	7,967	7,699	966
8	Pathalgaon	24,431	12,351	12,080	978
	District (Rural) Total:	118,113	59,690	58,423	979

This table depicts the CD Blockwsie sex ratio of the population in the age group of 0-6 years . For the district , the sex ratio is 979, the highest 995 in Bageecha and Jashpurnagar CD Blocks and lowest 937 in Kunkuri CD Block during 2001 Census.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distri-bution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	51	6.7	3,885	3.3
700-749	24	3.1	2,656	2.2
750-799	45	5.9	5,073	4.3
800-849	59	7.7	8,263	7.0
850-899	74	9.7	13,117	11.1
900-949	70	9.2	15,285	12.9
950-999	79	10.3	15,063	12.8
1000-1099	160	20.9	30,385	25.7
1100+	202	26.4	24,386	20.6
District (Rural) Total	764	100.0	118,113	100.0
Sex ratio (Rural) :	979			

The above table presents the distribution of inhabited villages by sex ratio of rural population in the age group of 0-6 years by 9 ranges . The maximum number of 202 (26.4 per cent) inhabited villages are in the range of sex ratio 1100 and more constituting 20.6 per cent population while in the second highest range of 1,000-1,099 sex ratio, there are 160 inhabited villages forming 25.7 per cent population. The sex ratio range of 950-999 covers 79 villages (10.3 per cent) and 12.8 per cent population. In the range of 900-949 and 850-899, 70 and 74 villages are there having 12.9 and 11.1 per cent population respectively. The remaining villages come under the sex ratio ranges of less than 849.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATION INCLUDING CONSTITUENT UNITS/TOWNS, 2001

Serial number	Name of UA/Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Jashpurnagar	N.P	2,848	1,534	1,314	857
2	Pathalgaon	N.P	1,973	1,020	953	934
	District(Urban) Total		4,821	2,554	2,267	888

The table represents the sex ratio of population in the age group 0-6 years of urban agglomeration and town in the district. There are only two towns Jashpurnagar and Pathlagon having sex ratio 857 and 934 respectively. The district urban sex ratio is 888.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

Serial number	Name of Tahsils	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7	8
1	Bagicha	Total	217,111	9,291	148,970	4.3	68.6
		Rural	217,111	9,291	148,970	4.3	68.6
		Urban	0	0	0	0.0	0.0
2	Jashpur	Total	134,976	5,623	89,932	4.2	66.6
		Rural	114,737	3,844	82,347	3.4	71.8
		Urban	20,239	1,779	7,585	8.8	37.5

Serial number	Name of Tahsils	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7	8
3	Kunkuri	Total	226,283	7,645	125,070	3.4	55.3
		Rural	226,283	7,645	125,070	3.4	55.3
		Urban	0	0	0	0.0	0.0
4	Pathalgaon	Total	164,790	13,841	105,981	8.4	64.3
		Rural	150,834	12,266	100,877	8.1	66.9
		Urban	13,956	1,575	5,104	11.3	36.6
	District Total:	Total	743,160	36,400	469,953	4.9	63.2
		Rural	708,965	33,046	457,264	4.7	64.5
		Urban	34,195	3,354	12,689	9.8	37.1

This table presents the tahsilwise population and percentage of Scheduled Castes and Scheduled Tribes in the district. Out of total population (743,160)of the district, 4.9 per cent belong to Scheduled Castes and 63.2 per cent belong to Scheduled Tribes. The percentage of Scheduled castes population constitute 4.7 per cent of rural population and 9.8 per cent of urban population of the district . Similarly the percentage of Scheduled Tribe population is 64.5 per cent of total rura population and 37.1 per cent of total urbai population . The highest percentage of Schedule Caste population is recorded in Pathalgoan tahsil(8.4 per cent) and the lowest in Kunkuri tahsil(3.4 pe cent) . The highest percentage of Scheduled Trib population to total population is in Bagicha tahsi (68.6 per cent) and the lowest (55.3 per cent) i found in Kunkuri Tahsil.

TABLE 15: NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Bagicha	147,901	5,398	104,957	3.6	71.0
2	Kansabel	69,210	3,893	44,013	5.6	63.6
3	Manora	53,727	1,199	42,831	2.2	79.7
4	Jashpurnagar	61,010	2,645	39,516	4.3	64.8
5	Kunkuri	82,455	3,277	41,256	4.0	50.0
6	Duldula	45,476	1,557	23,166	3.4	50.9
7	Pharsabahar(Tapkara)	98,352	2,811	60,648	2.9	61.7
8	Pathalgaon	150,834	12,266	100,877	8.1	66.9
	District (Rural) Total:	708,965	33,046	457,264	4.7	64.5

The above table shows the number and percentage of Scheduled Castes and Scheduled Tribes population in each CD Block of the district. 4.7 per cent of rural population belongs to Scheduled Castes and 64.5 per cent to Scheduled Tribes. The Scheduled castes population is highest in Kansabel CD Block(5.6 pe cent) whereas it is lowest 2.2 per cent in Manor CD Block. The Scheduled Tribes population is highes in Manora CD block with 79.7 per cent and the lowes 50 per cent in Kunkuri CD Block.

TABLE 16:PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES 2001

Percentage Range of Scheduled Castes population to total population	Number of villages	Percent-age	Scheduled Castes Population	Percent-age
1	2	3	4	5
Nil	289	37.8	0	0.0
Less than 5	293	38.4	6,878	20.8
5-10	109	14.3	11,947	36.2
11-20	53	6.9	8,467	25.6
21-30	12	1.6	3,335	10.1
31-40	4	0.5	1,345	4.1
41-50	2	0.3	742	2.2

76 and above	306	40.1	192,650	42.1
District Total	764	100.0	457,264	100.0

The table 16 represents the number of villages and percentage of Scheduled Castes population in 9 different ranges at the district level . Out of 764 villages 289 (37.8 per cent) villages have no Scheduled Castes population. The proportion of Scheduled Castes population is less than 5 per cent in 293 villages (38.4 per cent). 109 villages (14.3 per cent) fall in the range of 5-10 per cent and in the next range 11-20 per cent, there are 53 villages(6.9 per cent) . In the range of 21-30 to 51-75 per cent there are only 20 villages and there is no village where the SC populaion is more than 76 per cent of total populaion of the village.

The table 17 shows that in 306 villages i.e 40.1 per cent of inhabited villages are having ST population which is above 76 per cent of the total village populaiton. In the following range of 51-75 per cent, there are 282 inhabited villages having 44.8 per cent Scheduled Tribes population. In the range of 41-50,31-40 and 21-30 per cent, there are 68,52 and 27 villages respectively. There are 3 villages in the district which have no scheduled tribe population.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/ Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Jashpurnagar (N.P)	20,239	1,779	7,585	8.8	37.5
2	Pathalgaon (N.P)	13,956	1,575	5,104	11.3	36.6
	District(Urban) Total	34,195	3,354	12,689	9.8	37.1

The table 18 throws light on population of Scheduled Caste and Schedules Tribe and the percentage of SC and ST population in both the towns of the district. 37.5 per cent of the population of Jashpur nagar (NP) is made of ST population while in Pathalgaon the per cent of ST population is 36.6 per centof total population .9.8 per cent of total urban population of district is made of schedule caste population. The proportion of schedule caste population in Pathalgaon (NP) is more than that of Jashpurnagar (NP).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN CD BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Bagicha	957	1,004
2	Kansabel	1,034	1,031
3	Manora	1,053	1,022
4	Jashpurnagar	945	988
5	Kunkuri	987	1,002
6	Duldula	958	1,036
7	Pharsabahar(Tapkara)	1,011	1,039
8	Pathalgaon	1,013	1,018
	District (Rural) Total	996	1,016

The table reveals that in rural areas, sex ratio among Scheduled Castes and Scheduled Tribes is 996 and 1,016 respectively. Among the CD Blocks, the highest SC sex-ratio of 1,053 is found in Manora and the lowest 945 is in Jashpurnagar CD Blocks

As far as the sex ratio of Scheduled Tribes population in CD Blocks of Jashpur district is concern the highest sex-ratio of 1,039 is found in Pharsabahar (Tapkara) and the lowest of 988 is recorded in Jashpurnagar C. D. Block.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Jashpurnagar (N.P)	905	925
2	Pathalgaon (N.P)	994	1,103
Sex ratio (Urban) for the district:		945	993

The above table indicates the sex-ratio among the Scheduled Castes and Scheduled Tribes in UA/Towns of the district. The urban sex-ratio of the district for Scheduled Castes is 945which is 48 less than the sex-ratio (993) for Scheduled Tribes.In both the Nagar Panchayats of the district, Jashpurnagar (N.P) and Pathalgaon (N.P) ,the sex ratio is comparatively higher among ST population.. Although in terms of both SC amd ST sex ratio Pathalgaon(NP) is ahead of Jashpur (NP).

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

Serial number	Name of Tahsils	Total / Rural / Urban	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate

		Urban	24,506	13,835	10,671	9,689	3,985	5,704	83.4	90.6	75.6	15.0

Table 21 shows the sexwise and tahsilwise number and percentage of literates and illiterates in total, rural and urban areas in the district. The literacy rate is worked out by excluding the population of 0-6 age group from the total population. As per 2001 Census, the percentage of literates accounts 63.8 per cent in the district. This proportion in rural areas is 62.8 per cent and in urban areas is 83.4 per cent .The literacy rate among males 75.2 per cent which is 22.8 per cent more than the female literacy (52.4 per cent).

Among the 4 tahsils, Kunkuri tahsil leads with 72.6 per cent literates and Bagicha with the least of 53.9 per cent literates in the district. The gap in male and female literacy rate of district is recorded 22.7 per cent, highest in Pathalgaon (25.8 per cent) and lowest in Kunkuri (19.2 per cent) tahsil.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Bagicha	64,136	39,915	24,221	83,765	34,404	49,361	52.7	65.3	40	25.2

3	Manora	25,910	15,314	10,596	27,817	11,379	16,438	59.2	70.6	48	22.6
4	Jashpurnagar	35,825	20,860	14,965	25,185	9,926	15,259	71.1	81.9	60	21.9
5	Kunkuri	55,590	30,686	24,904	26,865	10,919	15,946	79.8	87.7	71.9	15.8
6	Duldula	29,496	16,226	13,270	15,980	6,362	9,618	77.9	86.6	69.3	17.2
7	Pharsabahar (Tapkara)	52,982	30,786	22,196	45,370	17,888	27,482	64.1	75.6	52.9	22.8
8	Pathalgaon	74,187	45,170	29,017	76,647	29,808	46,839	58.7	72.1	45.5	26.6

The above table shows the CD Blockwise number and percentage of literates and illiterates by sex in the district. 62.8 per cent of the rural population in Jashpur are literates. The gap between male literacy (74.4 per cent) and female literacy rate (51.3 per cent),, comes to 23 per cent. Among the CD Blocks, Kunkuri has the highest literacy rate of 79.8 per cent while lowest of 52.7 per cent is found in Bagicha CD Block. If we observe male and female literacy rates, Kunkuri leads in both the categories i.e. 87.7 and 71.9 per cent respectively.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	0	0.0	0	* 0.0
1-10	1	0.1	163	*0.0
11-20	1	0.1	140	*0.0
21-30	8	1.0	3,368	0.5
31-40	38	5.0	34,070	4.8
41-50	103	13.5	100,061	14.1
51-60	160	20.9	185,058	26.1
61-70	197	25.8	169,176	23.9
71-80	156	20.4	128,521	18.1
81-90	93	12.2	84,271	11.9
91-99	7	0.9	4,137	0.6
100	0	0.0	0	0.0
District Total: 764		100.0	708,965	100.0
Literacy rate for District:		63.8		

* less than 0.1%

The above table gives the distribution of villages by 12 literacy rate ranges in the district. There is no village found in the first and last range. The highest number of villages i.e.197 villages fall in the literacy rate range of 61-70 per cent while range

of 51-60 per cent has 160 villages (26.1 per cent population) and the range of 71-80 per cent have 156 villages (18.1 per cent population). In the range of 91-99, there are 7 villages and 93 villages come under the next higher range of 81-90 per cent which cover 11.9 per cent population.

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name and urban status of UA/Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Jashpurnagar (N.P)	14,969	8,493	6,476	5,270	2,208	3,062	86.1	92.6	78.7	13.9
2	Pathalgaon (N.P)	9,537	5,342	4,195	4,419	1,777	2,642	79.6	87.6	71.3	16.3
District(Urban) Total		24,506	13,835	10,671	9,689	3,985	5,704	83.4	90.6	75.6	15.0

Table 24 expresses the number and percentage of literates and illiterates by sex in UA/towns of the district. It has been seen that among both the towns of Jashpur district, Jashpurnagar(N.P.) has literacy rate of 86.1 per cent while in Pathalgaon(N.P.) the rate of literacy is 79.6 per cent. If sexwise literacy rates are analysed, this table shows a high literacy rate for both the sexes. The total literacy rate of the district (urban) comes to 83.4 per cent and it is 90.6 per cent for males and 75.6 per cent for females with a gap of 15.0 per cent.

TABLE 25 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of CD Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Bagicha	2,131	1,409	722	3,267	1,350	1,917	48.1	62.4	33.2	29.1
2	Kansabel	1,610	977	633	2,283	937	1,346	48.5	59.9	37.4	22.5
3	Manora	517	306	211	682	278	404	54.9	66.4	43.9	22.5
4	Jashpurnagar	1,277	815	462	1,368	545	823	59.5	73.4	44.6	28.8
5	Kunkuri	1,857	1,073	784	1,420	576	844	68.8	79.2	58.3	20.9
6	Duldula	892	524	368	665	271	394	69.1	78.4	59.2	19.3
7	Pharsabahar(Tapkara)	1,340	779	561	1,471	619	852	56.5	67.0	46.4	20.6
8	Pathalgaon	6,215	3,844	2,371	6,051	2,250	3,801	60.2	75.2	45.5	29.7
	District (Rural) Total:	15,839	9,727	6,112	17,207	6,826	10,381	57.5	70.7	44.4	26.3

The above table shows the distribution of number and percentage of Scheduled Castes literates and Illiterates by sex and CD Blockwise population. It indicates that overall rural literacy rate of Scheduled Caste for the district is 57.5 per cent. The gap in male (70.7 per cent) and female (44.4 per cent) literacy is 26.3 per cent. The highest literacy rate falls in Duldula(69.1 per cent) CD Block and the lowest in Bagicha i.e. 48.1 per cent.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	17	3.6	73	0.2
1-10	3	0.6	49	0.1
11-20	13	2.7	443	1.3
21-30	19	4.0	969	2.9
31-40	46	9.7	2,676	8.1
41-50	84	17.7	6,101	18.5
51-60	87	18.3	9,370	28.4
61-70	74	15.6	6,625	20.0
71-80	47	9.9	4,404	13.3
81-90	34	7.2	1,769	5.4
91-99	8	1.7	371	1.1
100	43	9.1	196	0.6
District Total:	475	100.0	33,046	100.0
Literacy rate for District (Rural):			57.5	

Table 26 represents the distribution of villages by ranges of literacy rate for Scheduled Caste population. It may be noted that the literacy rate is worked out after excluding population in the age-group 0-6 from the total Scheduled Caste population. The overall literacy rate of Scheduled Caste population of the district is 57.5 per cent. The highest number i.e. 87 villages fall in the range of literacy rate 51-60 per cent. Similarly, 84 villages fall in the range of literacy rate of 41-50 per cent and on the upper range of 61-70 per cent, there are 74 villages. There are 43 villages falling under 100 per cent literacy rate while 17 villages have no literates.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Jashpurnagar (N.P)	1,150	701	449	629	233	396	75.7	87.5	62.5	25.0
2	Pathalgaon (N.P)	916	550	366	659	240	419	67.3	81.0	53.7	27.3
	Jashpur (Urban)	2,066	1,251	815	1,288	473	815	71.7	84.5	58.2	26.3

The table 27 exhibits the number and percentage of Scheduled Castes literates and illiterates by sex in the towns of the district. The total urban literacy rate of the district is 71.7 per cent. It is 84.5 per cent for males and 58.2 per cent for females. Jashpurnagar(N.P.) has 8.4 per cent more literacy than Pathalgaon(N.P.). The literacy gap between male (84.5 per cent) and female (58.2 per cent) is 26.3 per cent, maximum gap of 27.3 per cent is found in Pathalgaon(N.P.).

TABLE 28 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of CD Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	0	0.0	0	0.0
1-10	2	0.3	275	0.1
11-20	1	0.1	960	0.2
21-30	16	2.1	6,734	1.5
31-40	44	5.8	29,724	6.5

The distribution of villages by range of literacy rates for the tribal population of the district is produced in this table. The rural tribal literacy rate of this district is 61.4 per cent. The maximum number of villages 183 fall in the literacy rate range of 61-70 per cent covering 24.4 per cent tribal population. In the upper range i.e. 71-80, there are 160 villages covering 17.1 per cent population and in the lower range of 51-60 per cent, 142 villages cover 23.4 per cent tribal population of the district. No village has been recorded in the range of 0 per cent literacy and only 1 village has been found in the range of 100 per cent literacy rate of the Scheduled Tribe population in the district.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Jashpurnagar (N.P)	5,650	3,140	2,510	1,935	801	1,134	86.1	92.3	79.5	12.8
2	Pathalgaon (N.P)	3,140	1,673	1,467	1,964	754	1,210	71.6	79.7	64.2	15.5
	Jashpur (Urban)	8,790	4,813	3,977	3,899	1,555	2,344	80.3	87.5	73.1	14.4

The above table indicates that the literacy rates of the urban tribals for the district is worked out to be 80.3 per cent consisting 87.5 per cent males and 73.1 per cent female literates. Among these two towns of the district, Jashpurnagar (N.P.) has 86.1 per cent and Pathalgaon(N.P) has 71.6 per cent literates. It is observed that there is a gap of 14.4 per cent between male (87.5 per cent) and female (73.1 per cent) literacy among urban tribal population of the district.

		Females	75,856	16,041	21.1	20,174	26.6	36,215	47.7	39,641	52.3
District (Rural) Total:		Persons	708,965	253,084	35.7	134,811	19.0	387,895	54.7	321,070	45.3
		Males	353,877	175,412	49.6	30,276	8.6	205,688	58.1	148,189	41.9
		Females	355,088	77,672	21.9	104,535	29.4	182,207	51.3	172,881	48.7

The above table gives that the proportion of the total workers is 54.7 per cent of the district rural population comprising 58.1 per cent male and 51.3 per cent female workers. Out of the total workforce 35.7 per cent workers engaged in main work and 19 per cent workers are engaged in marginal work. The remaining 45.3 per cent population is of non-workers. The male main work participation rate in the district is 49.6 per cent and 21.9 per cent of female main workers. While the male and female marginal workers account for 8.6 per cent and 29.4 per cent respectively out of 19 per cent total marginal workers in the district.

TABLE 33 : NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON-WORKERS BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of urban status of UA/Town	Persons / Males / Females	Total population	Main workers		Marginal workers		Total workers (Main and marginal workers)		Non workers	
				Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
1	2	3	4	5	6	7	8	9	10	11	12
1	Jashpurnagar	Persons	20,239	4,884	24.1	561	2.8	5,445	26.9	14,794	73.1
	(N.P)	Males	10,701	4,075	38.1	285	2.7	4,360	40.7	6,341	59.3
		Females	9,538	809	8.5	276	2.9	1,085	11.4	8,453	88.6
2	Pathalgaon	Persons	13,956	3,984	28.5	574	4.1	4,558	32.7	9,398	67.3
	(N.P)	Males	7,119	3,386	47.6	148	2.1	3,534	49.6	3,585	50.4
		Females	6,837	598	8.7	426	6.2	1,024	15.0	5,813	85.0
District (Urban) Total:		Persons	34,195	8,868	25.9	1135	3.3	10,003	29.3	24,192	70.7
		Males	17,820	7,461	41.9	433	2.4	7,894	44.3	9,926	55.7
		Females	16,375	1,407	8.6	702	4.3	2,109	12.9	14,266	87.1

The above table reveals that the total workers constitutes 29.3 per cent out of total district urban population and the proportion of non-workers is 70.7 per cent. Among the total urban main workers male workers is 41.9 per cent where as female main workers are only 8.6 per cent. The percentage of urban marginal workers is only 3.3 per cent.The marginal workers among male and female workers account 2.4 per cent and 4.3 per cent respectively.

Note: Percent of Worker to total worker are given in brackets

This table shows the distribution of workers by sex in four categories of economic activity in tahsils of the District Jashpur. The economy of the district is largely based on agriculture. Out of the total 53.5 per cent workers, cultivators are 62.9 per cent, agriculture labour constitute 25.1 per cent of workforce. 2.7 per cent of workers depend on household industries worl and 9.3 per cent are engaged in other works in th district. Among tahsils the highest (69.9 per cent proportion of cultivators are found in Jashpur tahsil and lowest (58.1 per cent) are in Kunkuri. From th given table it is observed that the percentage o

workers categorised as "other workers"is higher than that of engaged in " Household industries " in the entire district as well as in the individual tahsils. The proporion of agriculture labour to total workforce of the tahsil is nearly equal in Kunkuri and Pathalgaon tahsil.

TABLE 35 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN CD BLOCKS, 2001

				(51.3)	(60.8)	(32.9)	(2.4)	(3.9)

Note: Percent of Worker to total worker are given in brackets

The table above exhibits CD Blockwise distribution of workers by sex in four categories of economic activities in the rural areas of the district. As per table 35 above, total workers are 387,895 constituting 54.7 per cent of total population, out of which cultivators constitute 64.1 per cent, agricultural laborers 25.6 per cent household industry workers 2.7 per cent and other workers 7.6 per cent. The proportion of cultivators is highest 77.6 per cent in Manora CD Block and is lowest 54.4 per cent in Kunkuri CD block.The highest proportion of agricultural labourers is 32.9 per cent found in Pharsabahar (tapkara) CD block and 12.9 per cent lowest in Jashpurnagar CD block. It has been observed that in the category of agriculture labour the participation of females was more than their male counterparts in abosolute figures as well as in terms of percentage of total workers in their respective sex category.

TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name and urban status of UA/Town	Persons / Males / Females	Total Population	Total number of workers (Main + Marginal)	Category of workers			
					Cultivators	Agricultural Labourers	Household Industry workers	Other workers
1	2	3	4	5	6	7	8	9
1	Jashpurnagar (N.P)	Persons	20,239	5,445	253	221	105	4,866
				(26.9)	(4.6)	(4.1)	(1.9)	(89.4)
		Males	10,701	4,360	189	123	67	3,981
				(40.7)	(4.3)	(2.8)	(1.5)	(91.3)
		Females	9,538	1,085	64	98	38	885
				(11.4)	(5.9)	(9.0)	(3.5)	(81.6)

Serial number	Name and urban status of UA/Town	Persons / Males / Females	Total Population	Total number of workers (Main + Marginal)	Category of workers			
					Cultivators	Agricultural Labourers	Household Industry workers	Other workers
1	2	3	4	5	6	7	8	9
2	Pathalgaon (N.P)	Persons	13,956	4,558	1,177	381	115	2,885
				(32.7)	(25.8)	(8.4)	(2.5)	(63.3)
		Males	7,119	3,534	757	170	78	2,529
				(49.6)	(21.4)	(4.8)	(2.2)	(71.6)
		Females	6,837	1,024	420	211	37	356
				(15.0)	(41.0)	(20.6)	(3.6)	(34.8)
	District (Urban) Total:	Persons	34,195	10,003	1,430	602	220	7,751
				(29.3)	(14.3)	(6.0)	(2.2)	(77.5)
		Males	17,820	7,894	946	293	145	6,510
				(44.3)	(12.0)	(3.7)	(1.8)	(82.5)
		Females	16,375	2,109	484	309	75	1,241
				(12.9)	(22.9)	(14.7)	(3.6)	(58.8)

.Table above indicates the distribution of workers by sex in different categories of economic activity for the urban areas of the district. This shows that out of the 29.3 per cent total urban workers in the district, cultivators form 14.3 per cent, agricultural labourers 6.0 per cent, household industry workers 2.2 per cent and other workers form 77.5 per cent . It is also seen that proportion of male workers under other workers category is more than the female work participation in that category whereas work participation of female workers under agricultural labourer and household industry is more than that of male work participation in these two towns of Jashpur district.

(ix) Brief analysis of Village Directory and Town Directory data (table 37-47)

Analysis based on Village Directory and Town Directory data pertaining to census 2001 are presented in the form of Inset tables from 37-47. Alongwith the census data 'Non-Census' data such as village amenity and town amenity data was collected during census 2001. These tables give the total number of villages, proportion of population served by different amenities, availability of amenities by distance, proportion of slum population in towns etc. A short analytical note is also given below of each table.

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Type of amenity available									
			Education	Medical	Improved drinking water*	Post Office #	Telephone	Transport communications $	Banks	Agricultural Credit Societies	Approach by pucca road	Power supply

		(100.0)	(98.0)	(39.8)	(97.4)	(20.4)	(4.7)	(17.3)	(3.9)	(2.6)	(22.4)	(72.0)

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The table presents the CD Blockwise distribution of villages having availability of different amenities in the district. Among the essential amenities like education, medical, improved drinking water and post office, only educational and improved drinking facilities is available in almost all villages i.e. out of 764 inhabited villages, 749(98 per cent) and 744(97.4 per cent) villages have these facilities. Out of 764 villages 304 (39.4 per cent) and 156(20.4 per cent) villages have medical and post office facilities respectively. In view of other types of amenities, telephone is available only in 36(4.7 per cent) villages, transport communication is available in 132(17.3 per cent) villages, Bank facilities in 30(3.9 per cent) villages, 20 (2.6 per cent) villages have agricultural credit societies. From the point of view road connectivity , 171 (22.4 per cent) villages are connected with pucca road. Out of 764 villages, 550(72.0 per cent) villages are availing power supply. In most of the cases, only the principal segments of the villages have electricity lines. The distant hamlets of most of the villages are still not connected with power supply.

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Serial number	Name of C. D. block	Total population of inhabited villages	Type of amenity available									
			Education	Medical	Improved drinking water*	Post Office #	Telephone	Transport communications $	Banks	Agricultural Credit Societies	Approach by pucca road	Power supply

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table denotes the number and proportion of rural population served by different essential amenities. Out of the total 708,965 persons of the district, 99.5 per cent (705,281) population is getting educational facilities and 58.0 per cent(411,109) public has access to medical facilities while 695,518 or 98.1 per cent population is enjoying improved drinking water facility. Simultaneously, 40.5 per cent persons are using postal service, 11.6 per cent persons use telephone facility and 27.6 per cent persons are using bank service. The agricultural credit society facilities is less than that of banking facilities. Power supply is available to 552, 423 or 77.9 per cent population. The approach road facility is available only to 32.0 per cent population. Though roads and medical amenities are no less important than power supply yet the availability of these services is not as good as that of the electricity.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVIG CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	13	1	1	15
(b) Middle School	398	143	21	562
(c) Degree College	38	67	656	761
2. Medical:-				
(a) Hospital	66	127	559	752
(b) PHC	76	146	500	722
3. Post Office	361	185	62	608
4. Telephone	107	142	479	728
5. Bus Service	200	170	269	639
6. Banks				
(a) Commercial Bank	82	150	515	747
(b) Cooperative Bank	55	135	550	740
7. Agricultural Credit Societies	74	162	508	744

The table 39 points out that out of those 15 villages which do not have primary school children of 13 villages have to travel less than 5 kms to avail this facility.Out of 764 villages, 398 villages have no middle school facility but the same is available within the range of 5 kms from the village, Children of 143 villages have to travel 5-10 kms. and those of 21 villages have to cover a distance of more than 10 kms to attend a middle school. For the college level education ,the students of 38 villages travel less than 5 kms, students of 67 villages travel 5-10 kms and college going students of 656 villages travel more than 10 kms. Similarly,out of 752 villages, people of 559 villages have no hospital facility within 10 Kms from thier village, the people of 127 villages have to travel 5-10 kms and population of 66 villages have to travel less than 5 kms to have a hospital facility. There are 722 villages of the district which are deprived of PHC facilities. Of these 76 villages have the facility of PHC within 5 kms ,while in respect of 146 villages the inhabitants have to cover a distance of 5-10 kms and in remaining 500 villages the people have to cover more than 10 kms.

In respect of 608 villages, villagers have no post office facility and out of these 361 villages have this facility within the distance of 5 kms, 185 villages avail it at a distance of 5-10 kms, and the remaining 62 villages have to cover a distance of more than 10 kms.

Regarding telephone facility 728 villages of the district do not have this facility. Out of these 107 villages avail this facility at a distance of less than 5 kms, 142 within 5-10 kms and people 479 villages have this service available at a distance of 10 kms and more.

For the bus Service out of 764 villages 639 villages are without this facility, 200 villages avail it within 5 kms, 170 villages within a distance of 5-10 kms and 269 villages avail this facility after traveling a distance of 10 kms or more.

Amongst all villages of the district, 747 and 740 villages have no commercial and co–operative bank service facility respectively. 515 and 550 villages are getting the services of commercial and co-operative banking facilities respectively after covering a distance of 10 kms or more remaining villages are getting it within 5 or 5-10 kms.

744 villages do not have agricultural credit societies. 508 villages avail it at a distance of 10 or more kms . 162 villages avail within distance of 5-10 kms and 74 villages avail it at a distance of less than 5 kms.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDIG TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available							
		Education	Medical	Post Office	Telephone	Transport communica-tions	Banks	Agricultural Credit Societies	Approach by pucca road

	(100.0)	(100.0)	(28.6)	(28.6)	(14.3)	(14.3)	(14.3)	(14.3)	(14.3)
District total	764	749	304	156	36	132	30	20	171
	(100.0)	(98.0)	(39.8)	(20.4)	(4.7)	(17.3)	(3.9)	(2.6)	(22.4)

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

The table 40 denotes that out of 764 villages in the district 25 villages are nearest to the town and have different amenities are available to them with in a distance of 5 kms. There are 103 villages in the district which are situated within the radius of 5-15 kms:out of these 98 (95.1 per cent)villages are having different type of educational institutions 46 (44.7 per cent) have medical facilities , 16 (15.5 per cent) villages have postal services and 3(2.9 per cent) villages have telephone facility 24(23.3 per cent) villages are getting bus service,5 (4.9 per cent)villages are availing Bank service 3 villages have agriculture credit society and out of 131 villages 29 (28.2 per cent) are having pucca road communication facility 220 villages fall under the distance of 16-50 Kms. out of which 219 (99.5 per cent) villages have education institution facility, 103 (46.8 per cent) villages have medical facility,46 (20.9 per cent) villages avail postal service and 8(3.6 per cent) villages are connected with Telephone lines. There are 51(23.2 per cent) villages which have bus or Transport services , 6(2.7 per cent) villages have bank and 4(1.8 per cent) have agriculture credit society within this distance and 40 (18.2 per cent) villages are having pucca or approach road facility at a distance of 16-50 kms.

There are 409 Villages out of which 400 (97.8 per cent) are availing education facilities,141 (34.5 per cent)are availing medical facilities,86 (21.0 per cent) and 21 (5.1 per cent) villages are availing post office facilities and telephone facilities respectively at a distance of 51 or more kms. Looking to the other type of amenities transportation is available in 51(12.5 per cent) villages , bank Service available in 16 (3.9 per cent) villages agriculture credit societies in 11 (2.7 per cent) villages and approach by pucca road is in 95 (23.2 per cent) villages at a distance more than 51 Kms. There are 7 such unspecified villages which are situated beyond the rangewith all having educational facilities and one or two villages have all amenities available.

TABLE 41 : DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

The table 41 gives the distribution of villages according to population range and amenities available. In Jashpur district out of 764 villages, maximum villages have education, improved drinking water and power supply facility. There is only 1 village in the range of 5000-9999 population and most of the amenities are available in it.There is sigle village in the range of more than 10,000 population too, this village has got all the aforesaid facilities. In respect of villages falling in the range of 1000-1999 the availability of these facilities are better in comparision to villages falling in the range of 500-999.

The telephone, bank and agriculture credit societies are available in 36(4.7 per cent),30(3.9 per cent) and20(2.6 per cent) villages respectively in the district. In respect of Jashpur district specified facilities are less due to topographical situations.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Bagicha	145	140,574	41.5	2.6
2	Kansabel	62	44,091	57.5	1.3
3	Manora	95	68,605	36.1	1.8
4	Jashpurnagar	99	51,909	49.4	2.0
5	Kunkuri	90	45,202	55.9	11.0
6	Duldula	66	42,537	42.9	3.4
7	Pharsabahar(Tapkara)	99	61,252	55.2	2.6
8	Pathalgaon	108	72,439	68.2	1.7
	District Total:	764	526,609	49.5	3.0

Note : - Cultivable area = irrigated area + unirrigated area

The table above 42 represents CD Blockwise distribution of villages according to land use area available for cultivation with irrigated or un-irrigated land in the district. Altogether there are 8 CD Blocks consisting of 764 Villages in the district having total area of 526,609 hectares. Of this 49.5 per cent area is cultivable and 3 per cent of total cultivable area has got the irrigation facility.

It has been seen that percentage of cultivable area to total are is highest 68.2 per cent in Pathalgoan CD Block and is lowest 36.1 per cent in Manora CD Block. The percentage of irrigated area to cultivable area is highest 11 per cent in Kunkuri CD Block and lowest 1.3 per cent in Kansabel CD Block.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita expenditure								
		Total	Through taxes	From all other sources	Total	General Adminis-tration	Public health and convenicnces	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	III Jashpurnagar (NP)	248	39	209	291	67	22	11	0	191
2	IV Pathalgoan (NP)	256	116	139	256	109	41	41	0	65
	District Total	251	71	181	277	84	29	23	0	140

The table above shows that the average per capita receipts for towns of the district Jashpur is Rs. 251 of which Rs. 181 is derived from all other sources and the remaining Rs. 71 is received through taxes. The average of total expenditure incurred per capita is Rs. 277 from which Rs. 84 is spent on general administrative expenditure , Rs. 29 on public health and conveniences, Rs. 23 on public works and Rs. 140 is spent on other items.

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Jashpurnagar (N.P.)	5.9	4	2	1.5	1
2	Pathalgoan (N.P.)	10.7	6.4	5	2.9	0.7
	District Total	7.9	5	3.2	2	0.9

As per the above table, in urban area of Jashpur district the average number of primary schools per 10,000 population is 7.9, Junior Secondary or middle schools is 5. The number of Secondary Schools per 10,000 population is 3.2. The townwise availability(per 10000 population) of educational institutions of the district can be seen above.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Jashpurnagar(NP)	99
2	Pathalgoan (NP)	21
	Distrct Total	67

The above table represents the number of beds available in medical institutions per 10,000 persons in each town of Jashpur district. On an average there are 67 beds per 10,000 persons in urban areas of two towns of the district , the highest 99 beds, available in Jashpurnagar (NP) While 21 beds available in Pathalgaon (NP) town.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Jashpurnagar	20,239	4,400	21.7
2	Pathalgaon	13,956	4,860	34.8
	District Total	34,195	9,260	27.1

The table 46 exhibits the proportion of slum, population in each town of the district. Out of the total 34,195 urban population, 9,260 i.e. (27.1 per cent) persons living in the slum areas of district. Pathalgaon has a slum population which is 34.8 per cent of its total population, while 21.7 per cent population in Jashpurnagar (NP) town is living in slums.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Jashpurnagar (NP)	Soap	Timber Wood
		Bricks	Mahua
		Carpet	Jack Fruit
2	Pathalgoan (NP)	Rice	Rice
		Biscuit	Iron Baket
		Iron,Bucket	Biscuit

Aforesaid table shows that Rice is the main item of export from the Pathalgaon(NP) town. Among the two towns, Jashpurnagar (NP) mainly manufactures soap, bricks and local carpets whereas Pathalgaon (NP) produces rice, biscuits and Iron buckets. Being an area covered with thick forest, Jashpurnagar exports timber wood, mahua and Jack fruits.

(x) Brief analysis of the data on houses and household amenities,Inset tables 48-52 based on Houselisting Operations, Census of India 2001.

Inset tables 48-52 are based on Houselisting operation to Census 2001. These tables reflect the tenure status, distribution of households living in permanent, semi-permanent and temporary houses, percentage of households having different amenities and percentage of households by type of fuel used for cooking.

TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

Tenure status	Number of dwelling rooms	Number of households								
		Total			Scheduled Castes			Scheduled Tribes		
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8	9	10	11

	3+ rooms	639	314	325	53	29	24	230	135	95
	Median number of rooms	2	2	2	2	2	2	2	2	2
Others	No exclusive room	119	118	1	9	9	0	71	70	1
	One room	1,424	1,301	123	135	132	3	752	683	69
	Two rooms	539	483	56	66	65	1	242	226	16
	Three rooms	227	215	12	21	17	4	110	110	0
	3+ rooms	197	174	23	19	17	2	105	92	13
	Median number of rooms	1	1	1	1	1	3	1	1	1

The data produced in the table 48 above shows the number of households by tenure status and number of rooms occupied in the district during 2001 The total number of households recorded in the district is 148,715 comprising 142,899 rural and 5,816 urban households . Out of the total households 11,496 households belong to Scheduled Castes and 94,282 Households belong to Scheduled tribes. The average median of 2 rooms per households live in their own houses and 2 rooms per households live in rented houses and others who have no specific rooms live in single room houses. Among households having own houses the number of two roomed households is 48,973 and number of one roomed household is 48,310 and next to it three roomed households are 22,279 whereas more than three roomed household are 18,302 in number.

The households dwelling into rented houses are 2,300 having single living room, 2,301 have double living rooms, 1,247 households live into three roomed houses and in more than three roomed rented house there are 639 households who have been of high status and higher income group households.

Altogether there are 1,977 households in the district which have no exclusive living rooms of which 1,769 households owned their house, 89 households live in rented house and 119 other households whose houses were neither owned nor rented..

Total number of households in the district is 148,715 of which 11,496(8 per cent) households are scheduled castes households and 94,282 (63 per cent) households belong to Scheduled Tribes. Out 11,496 Scheduled Castes households 10,638 (93 per cent) households

have their own houses 608(5 per cent) have rented and 250(2 per cent) neither have owned nor have rented houses but living in those houses by other means..

In respect of scheduled Tribes households 89,924 (95 per cent) households have their own houses, 3,078(3 per cent) households are staying in rented houses and 1,280(1 per cent) households are somehow managing to live in their house even without owning or paying any rent for the same. In general the scheduled castes and scheduled tribe households of rural areas prefer not to live in rented or other tenural houses.

TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI-PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	District/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary
1	2	3	4	5	6	7	8	9	10	11
1	Bagicha	2.7	97.1	0.2	2.7	97.1	0.2	0.0	0.0	0.0
2	Jashpur	9.1	90.7	0.2	3.6	96.2	0.2	44.3	55.7	0.1
3	Kunkuri	4.2	95.4	0.4	4.2	95.4	0.4	0.0	0.0	0.0
4	Pathalgaon	4.9	94.9	0.2	2.3	97.4	0.2	38.0	61.8	0.2
	District Total:	4.7	95.0	0.3	3.2	96.5	0.3	41.6	58.2	0.1

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The table 49 points out that 4.7 per cent of households of the district are in the houses of permanent nature, 95.0 per cent households in semi permanent and 0.3 per cent households are living in temporary houses. At district level, in urban areas 41.6 per cent households have cemented houses, 58.2 per cent have their semi-permanent houses and 0.1 per cent households are in temporary structured houses. The highest proportion of Semi-permanent houses in rural areas of Pathalgoan is 97.4 per cent and lowest 95.4 per cent in Kunkuri tahsil. The proportion of temporary houses is quite low in all tahsil in respect of both rural and urban.

TABLE 50 : PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Number of households	Number and percentage of households having

				(44.7)	(76.8)	(35.8)	(41.6)	(37.4)

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note: Percentage is given in brackets below the number of households.Bathroom means bathroom within the house. Toilet means toilet within the house. Drainage menas closed and open drainage.

The above table reveals that 39.6 per cent households in the district are provided with improved drinking water sources i.e. by tap, hand pump and tube well. 20 per cent households are provided with electricity in their houses. The bathroom facility is available only to 3.3 per cent households within the premises. As regards rural areas only 2 per cent households are having bathroom facility whereas this facility in urban areas come to 35.8 per cent The facility of electricity is available in 17.7 per cent households in rural and 76.8 per cent households in urban areas. Toilet and drainage facilities in the district are available in 4.7 per cent and 9.1 per cent households. This figure is higher in urban areas as compared to rural areas because all possible means of transportation are accessible in urban areas. The trend and pattern of these amenities at tahsil level is almost all the same as in the district.

TABLE 51 : NUMBER AND PER CENT OF HOUSEHOLDS BY TYPE OF FUEL USED FOR COOKING, 2001

Percentage in brackets
Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The pattern and percentage distribution of households by nine types of fuel used for cooking is given in table 51 . It has been seen that wood is used mostly for cooking in both rural (96.1 per cent) and urban (70.8 per cent) areas in the district . Among the tahsils the proportion varies between 88.0 per cent in Pathalgoan and 98.5 per cent in Bagicha tahsil. In rural areas, use of wood as fuel is very high while in urban areas, it is less in use but in urban areas of Jashpur tahsil the percentage of wooden fuel is 73.5 per cent highest in the district. The next most widely used fuel by households is cow dung cake (1.6 per cent) in rural areas of district and cooking gas (16.2 per cent)in urban areas. The kerosene oil appears to be very much in use by the urban households (6.6 per cent) The other fuels are not much in use due to non availability.

TABLE 52 : NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Data source: Census of India 2001, H-series: Table on Houses, Household amenities and Assets.

This table presents data for total, rural and urban at district/Tahsil level, of households availing banking services and movable assets. In the district there are 148,715 households out of whom 272,06 households are availing bank services,40,742 households have either transistor or radio 8,473 have television and households who are possessing telephone are 2,111, Bicycle 86,798, either scooter , motor cycle or moped are 7,629 having car, jeep or van are 806 and there are 53,475 such households having none of the specifiec assets available in the district.

(xi) Major Social and cultural events, natural anc administrative developments and significan activities during the decade.

In the last decade the Jashpur district came to it existence under the notification of M.P. Governmen No. 1006/F/20-08-92/VIII/Govt.-8 dated 22nd May 1998

(xii) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district.

(1) Bene: - Bene is a small village on the bank of river Ib and is 16 km away from the district hedquarters to the north west. It was the old capital of Dom kings.Besides this, there are beautiful water falls called kings and 'Beneghat'.

(2) Bagicha: Bagicha is the headquarters of the administrative subdivision"PANDRAPAT". The highest mountain range of the district is famous for its climate.

(3) Bataikela: Bataikela village which is in the southwest of the district and comes under Jashpur tahshil has been famous for the collection of gold.

(4) Jashpur: It is the headquarter of the district. It is situated 211 km from Raigarh and 144 km form Ranchi the capital of Jharkand. "Gahiragru" ashram is a few km away from the city Jashpur.

(5) Kunkuri: It is the headquarter of Kunkuri *Tahsil*. It is famous for the Roman catholic church situated here. In the month of February a fair is held here every year.

(6) Pathalgaon:- Eleven km away form Pathalgaon there is a famous Shiv temple. Here a fair is organised every year for four days on the occasion of "Shiv-ratri" festival.

(7) Sanna: Sanna, 51 km away form the district headquarters in the northwest is more enjoyable and cold place than that of Panchmarhi of Madhya Pradesh. On the view point of archeology and art there lies a old temple which is constructed by cutting stone. In this temple the "Budha" temple is very famous.

A fair is arranged every year in the month of November and December for five days.

(xiii) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

Jashpur district is comparatively a backward district of Chhattishgarh state. The tribals are in majority in this area. The tribes such as Korwa, Korku, Uraon, Gond,Kanwar and people of other tribal community live here.

In the district the Christians have a sizeable population. Many dispensaries and schools are run by the Christian missionaries.

(xiv) Scope of Village Directory and Town Directory

Village Directory :

The Village Directory is one of the traditional compilations of the census organisation and provides the consolidated picture of each village as revealed by the availability of existing amenities, land use pattern, composition of its population and other infrastructural details. This will be of immense help to identify the areas of surplus and deficit requiring the attention of planners and administrators for rescheduling the development process in appropriate direction. The format of village directory has 25 columns providing village-wise data of location, area, population, land use pattern and amenities etc.

The details of each column of village directory are explained as below :

Column-1 Serial number of the village is indicated in this column.

Column-2 gives the name of the village and permanent location code number (PLCN) assigned to each village in serpentine manner from north-west to south direction and is essential for identification of village. The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tahsil of first district of the state to the last village of last tahsil of the last district. In the state of Chhattisgarh first PLCN 00000100 has been assigned to village 'BADWAHI' in Bharatpur tahsil of Koria district which happens to be first village, tahsil and district while the last PLCN of 02030700 has been assigned to the last village 'BUJUGPAD' of the state in Konta tahsil of Dantewara district which happen to be last as per procedure adopted for assigning location code number. The district census handbook of 1991 Census as well as updated district and tahsil maps and services of local revenue officers/ officials have been used to assign the PLCN to the villages. The last two zeros will be used if new villages are created out of existing villages in subsequent

census. Before 2001 census, village location code number used to change from one census to other due to change in jurisdictions or creation of villages or merger of villages in urban areas. The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective Tehsildar of each tahsil.

Column-3 shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns – 4 and 5 gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in the village.

Columns 6 to 9 deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure the accuracy of information provided. In such cases where no facility is available within a village, a dash (-) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, so as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained separately in the subsequent section. The list of colleges, senior secondary schools, hospitals, post and telegraph offices in the district as obtained from the concerned departments are also added in the form of annexures at the end.

Column-10 shows the number of banks – Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11 relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12 shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/auditorium facility available in the villages.

Column-13 Indicates the type of communications amenities such as by bus, railway or navigable waterway available to the village.

Column-14 refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15 gives the information of the nearest town and its distance in Kms. from the village in brackets from the referent village. In case, the nearest town is located in another state, the name of the state has also been furnished.

Column-16 relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17 gives the information as to whether newspapers/magazines are received in the village.

Column-18 gives the information of most important commodities manufactured in the village.

Columns- 19 to 23 give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories. These are as follows :

i) Forests
ii) Irrigated
iii) Unirrigated
iv) Culturable waste (including Gauchar and Groves)
v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or private and whether wooded or maintained as potential forest land. The crops raised in the forests and grazing

lands or areas open for grazing within the forest is also included under the forest area.

Column 20 and 21 shows area irrigated by different sources of irrigation and un-irrigated area. These two columns cover all agricultural land which equals to net cropped area sown with crops and orchards including current and other fallow lands. In case of irrigated land, the source of irrigation has also been indicated.

Column-22 Culturable waste : This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Lands under thatching grasses, bamboo bushes and other groves for fuel etc., which are not included under orchards or forests come under this column. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column.

Column- 23 Area not available for cultivation : This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water etc. Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost.

Town Directory :

Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information.

Statement-I Status and Growth History :

The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001. Civic administration status of each town is shown under column 2 and Location Code number in column 3 whereas column 4 indicates the name of tahsil/sub-tahsil to which town belongs. While column 5 shows the name of CD block, area of each town in sq. kms. is depicted under column 6 column 7 deals with the number of households including houseless households as per the 2001 Census. Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001. Column 19 of the statement shows density of towns as per the 2001 Census. Columns 20 to 22 depict the sex ratio from 1981 to 2001 Census.

Statement-II Physical Aspects and Location of Towns 1999 :

In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5. Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tahsil/sub-tahsil headquarters. Column 9 shows the name of nearest city with population of one lakh or more and columns 10 to 12 give information regarding name and road distance of the nearest railway station, bus route, navigable river/ canal (if within 10 Kms.)

Statement-III Municipal Finance 1998-99:

This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads. There are in all 16 columns in the statement showing receipt and expenditure under different heads.

Statement IV Civic and Other Amenities 1999:

The statement displays the information under 20 columns. The amenities about which information has

been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage and other related matters such as water supply, fire fighting services and electrification etc.

Statement-V Medical, Educational, Recreational and Cultural Facilities 1999 :

This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution. Educational facilities by level/ type of courses and recreational and cultural facilities.

Statement-VI Trade, Commerce, Industry and Banking 1999 :

This statement presents the information under 11 columns in respect of each town. Columns 3 to 8 indicate three most important commodities imported, exported and manufactured in the town. Information on number of banks available in the town appears under column 9. Columns 10 and 11 shows number of agricultural and non-agricultural credit societies operating in each town respectively.

Statement-VII Civic and other amenities in Slums 1999 :

This Statement gives the information relationg to civic and other amenities in respect of slum areas of towns, where the population exceeds 50,000 as per 2001 census. The codes used in col. 8 and 13 are the same as for statement IV.

PART A - VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a) Notes explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post office, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK

(viii) River	R
(ix) Lake	L
(x) Waterfall	WF
(xi) Others	O
(xii) Total	

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A, VII B The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.

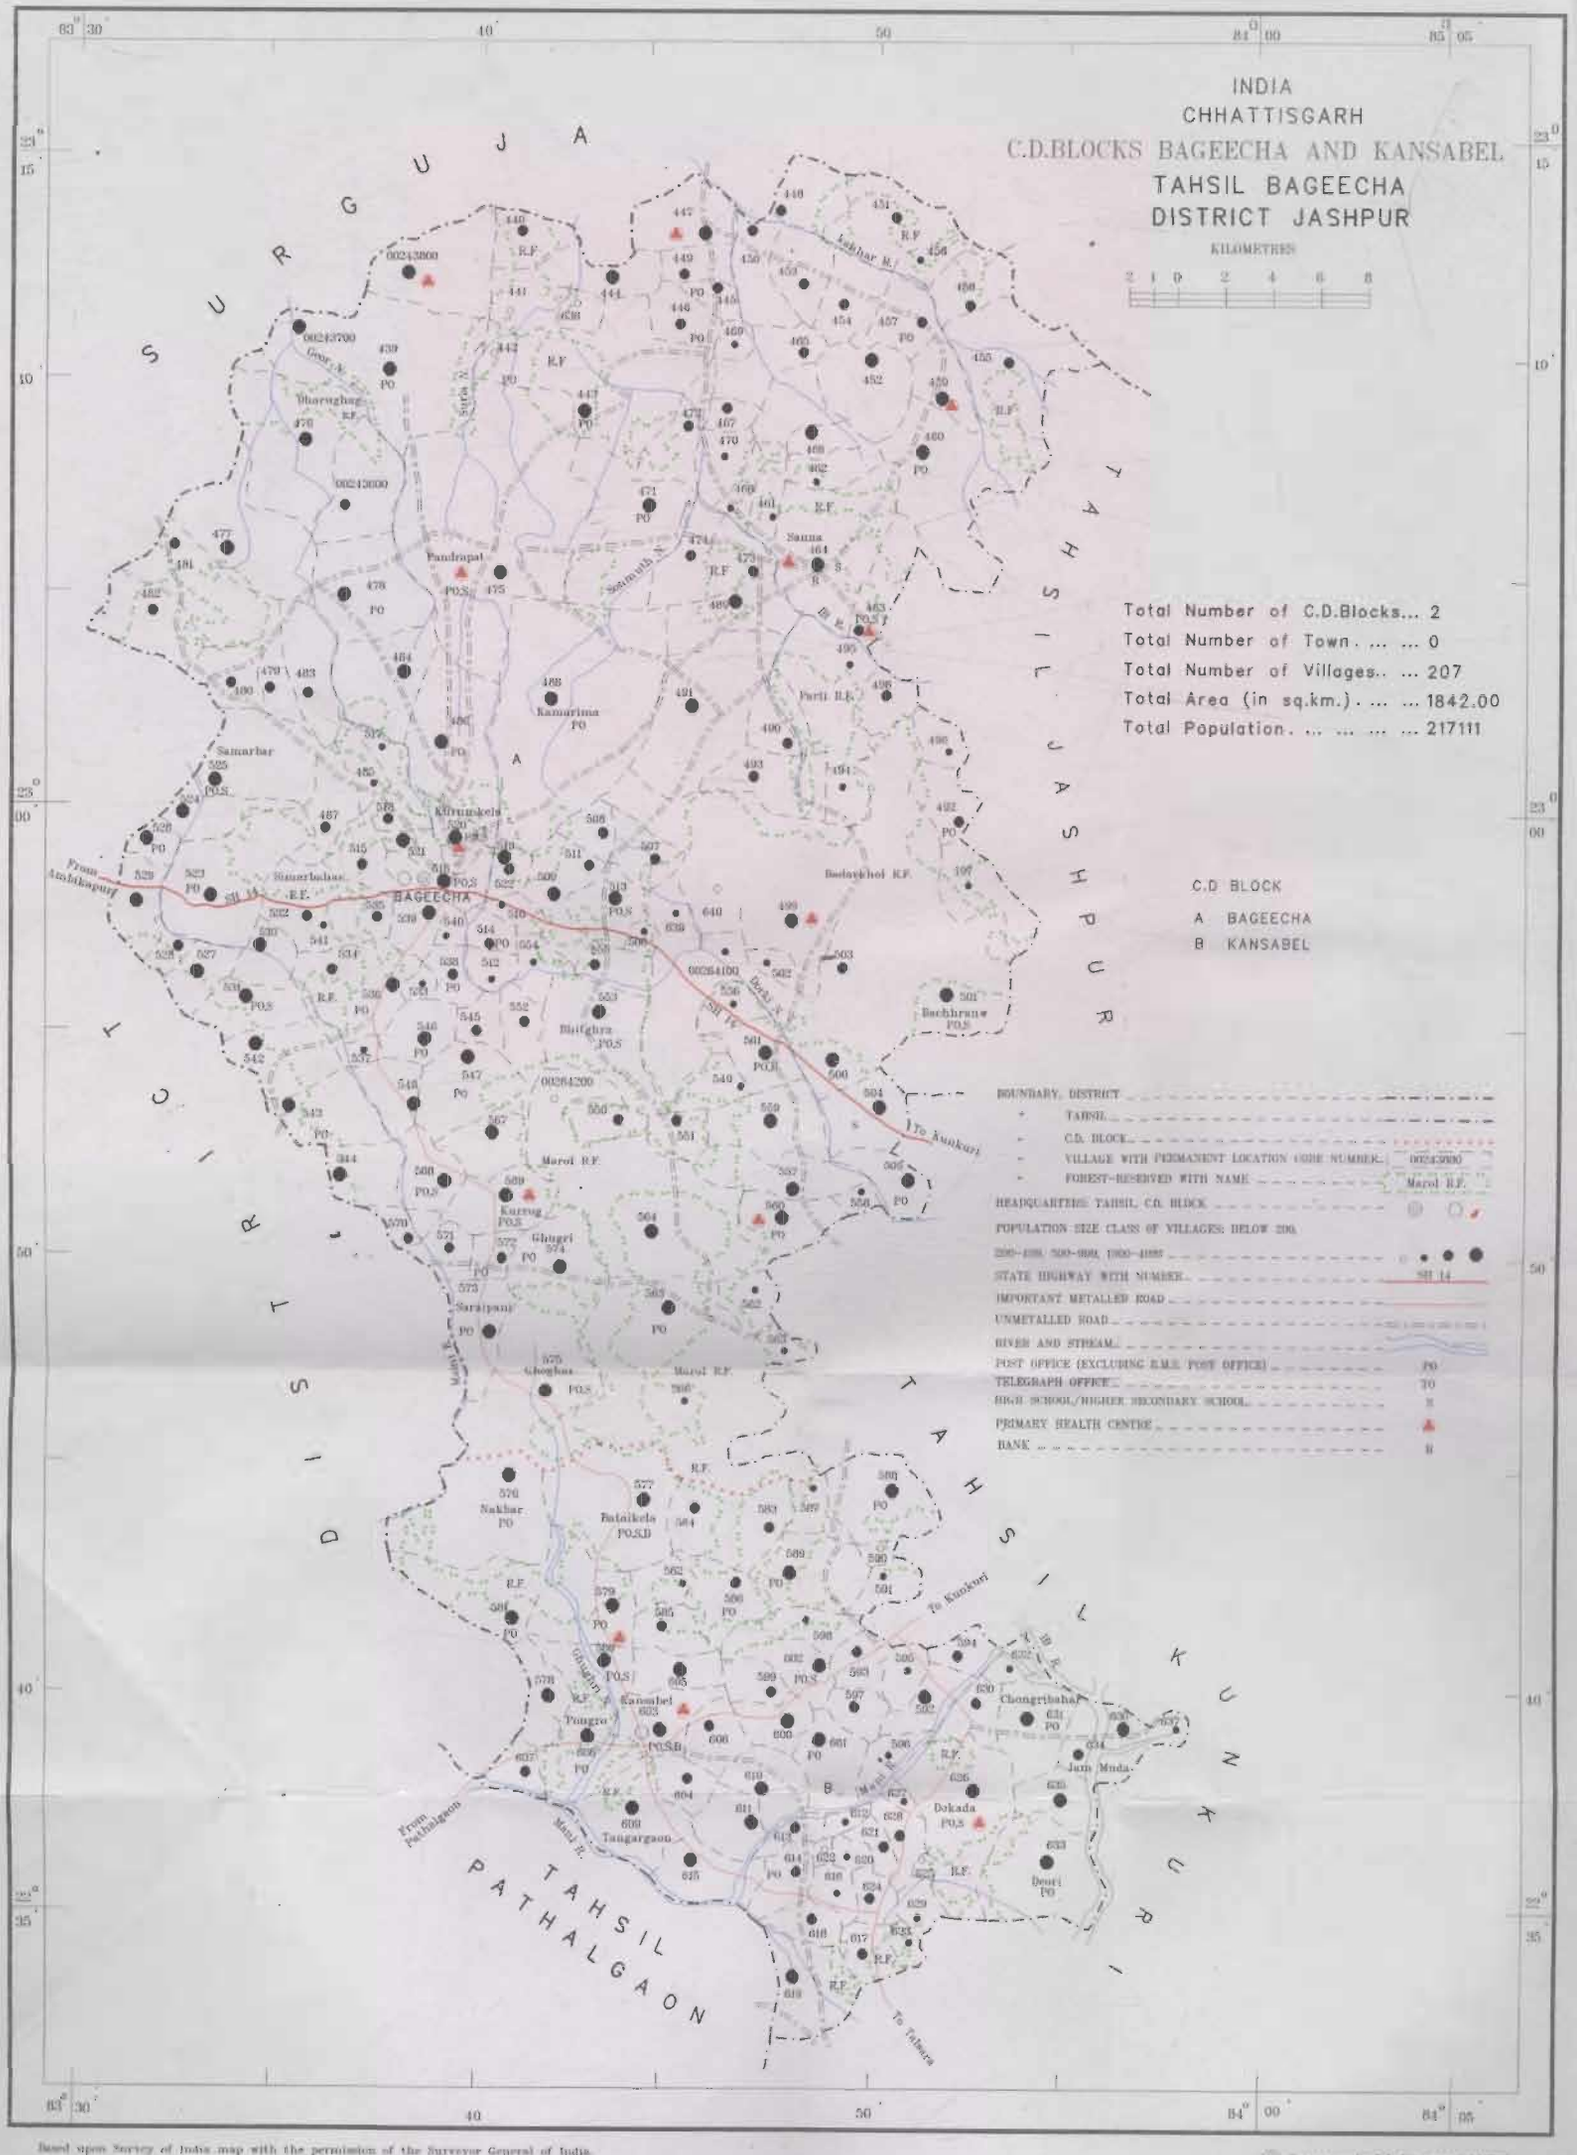

Appendix-VIII Shows number of different types of girls school in a village.

(b) List of Villages merged in towns and outgrowths at 2001 Census

Name of the District	Name of Town	Name of Villages merged in towns	Fully/Partly Merged
Jashpur		Nil	

(c) CD blockwise presentation of Village Directory Data

(i) CD Block Maps showing Tahsil Boundary :

SECTION II TOWN DIRECTORY

Notes Explaining the Codes Used in the town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14: Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT-I

PART B - PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preli-minary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts

(PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled *Castes, Scheduled Tribes, Institu-tional and Houseless* population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial

classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE-II

NOTE ON FERTILITY, MORTALITY AND MIGRATION - 1991 CENSUS

Fertility Levels :

Births, deaths, and migration are three components of population change in any geographical unit. Fertility is a major component of population growth. In the 1991 Census, questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were canvassed to generate the table of fertility. The first three questions were asked to all ever-married women and the last question related to currently married women. The various measures of fertility worked out are based on the district level estimates of fertility and child mortality for 1991.

Mortality analysis is one of the most important branches of demographic studies. This branch deals with the demographic event of death. Since death is a biological phenomenon that occurs just once to each individual, the analysis is simpler than, say, the study of fertility wherein the event of birth can occur with varying frequency among women.

Migration is an important aspect in the area of Population Studies. There is an increase in population of any community or country due to births or in-migration, whereas there is a decrease in the population of its residents due to deaths or migration. In other words, migration is an important reason for the change in size and composition of population. Those areas are affected by migration from where migrants go or where they have gone.

The migration tables of the 1991 Census are mainly based on the questions on place of birth, place of last residence, duration of residence at the place of enumeration and reason for migration included in the individual slip. These tables generated on computer provide the distribution of population by place of birth, distribution of migrants by place of last residence, duration of residence and reason for migration. The data on intra-district, intra-state and inter-state migration streams and in-migration from abroad are presented in these tables.

ANNEXURE III(i)

MEASURES OF FERTILITY IN THE STATE AND DISTRICT - CENSUS 1991

State : Undivided Madhya Pradesh **District : Raigarh**

Fertility Measures	District : Raigarh		State : Un-divided Madhya Pradesh	
	1981	1991	1981	1991
General Fertility Rate (G.F.R.)	121	130	167	161
General Marital Fertility Rate (G.M.F.R.)	149	158	192	188
Total Fertility Rate (T.F.R.)	3.80	4.03	5.30	4.92
Total Marital Fertility Rate (T.M.F.R.)	4.80	5.15	5.90	5.73
Crude Birth Rate (C.B.R.)	37.22	32.10	37.96	32.79

(Source - Estimate of Fertility Indicators at District Level - M.P.1991)

Newly formed district Jashpur and Chhattisgarh State were part of district Raigarh and State Madhya Pradesh in Census 1991. As such the data of undivided Raigarh and Madhya Pradesh are presented in respect of Jashpur and Chhattisgarh.

The table reveals that all the measures of the district are lower than corresponding state average in 1981 as well as 1991. However the GFR, GMFR, TFR and TMFR of the district is higher in 1991 as compared to 1981 which is unusual. The CBR of the district has decreased to 32.10 in 1991 from 37.22 in 1981.

ANNEXURE III (ii)

MEASURES OF FERTILITY AND MEANAGE AT MARRIAGE IN THE STATE AND DISTRICT - CENSUS 1991

State : Undivided Madhya Pradesh **District : Raigarh**

Fertility Measures	District : Raigarh			State : Un-divided Madhya Pradesh		
	Total	Rural	Urban	Total	Rural	Urban
No. of children ever born to each married woman in the age group 45-49	3.79	3.75	4.21	4.83	4.93	4.46
Mean age at marriage	17.87	17.86	18.03	16.62	16.39	17.48
Child Woman Ratio (0-4 years)	505	508	474	599	629	507

(Source - Estimate of Fertility Indicators at District Level)

Newly formed district Jashpur and Chhattisgarh State were part of district Raigarh and State Madhya Pradesh in Census 1991. As such the data of undivided Raigarh and Madhya Pradesh are presented in respect of Jashpur and Chhattisgarh.

The average number of children born to each married woman in the age group 44-49 of the district 3.79 happens to be lower than State average 4.83. This measure is higher in Urban sector 4.21compared to rural sector where it is 3.75 of the district. This is different than State where rural measure is higher than the urban measure.

Mean age at marriage of the district 17.87 is higher than the state average. The child woman ratio of the district 505 is also less than the state average 599. The rural-urban distribution of this measure in the district is in accordance to the state.

ANNEXURE III (iii)
CHILD MORTALITY RATE IN THE STATE AND DISTRICT : CENSUS 1981-1991

State : Undivided Madhya Pradesh **District : Raigarh**

State / District	Year	Persons				Male				Female			
		(q1)	(q2)	(q3)	(q5)	(q1)	(q2)	(q3)	(q5)	(q1)	(q2)	(q3)	(q5)
State :													
Undivided M.P.	**1991**	133	139	143	147	131	134	138	142	136	143	149	151
	1981	150	162	171	197	158	165	170	193	140	159	173	201
District :

	1981	156	147	154	178	167	155	160	186	143	139	147	170

(Source - Estimate of Mortality Indicators by sex at district level-M.P.1991)

Newly formed district Jashpur and Chhattisgarh state were part of district Raigarh and state Madhya Pradesh in Census 1991. As such the data of undivided Raigarh and Madhya Pradesh are presented in respect of Jashpur and Chhattisgarh.

The table shows that the mortality rates for all classifications of the district is in general lower than the corresponding state figures in 1991. The chil mortality q(1) of the district was more than stat average in 1981, but it has gone down to 112 agains state average 133 in 1991. It indicates better contro in child mortality of the district. Contrary to the state the table also reveals that the male mortality rate o the district is higher than the female mortality rate.

ANNEXURE IV(I)

POPULATION OF INMIGRANTS IN THE DISTRICT BY PLACE OF BIRTH: CENSUS 2001

State- Chhattisgarh **District : Jashpur**

Birth Place	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	186,459	29,438	157,021
	(87.6)	(15.8)	(84.2)
(A)Within the district but outside Enumeration place	159,088	23,249	135,839
	(74.8)	(14.6)	(85.4)
(B)Birth place in other district of State	27,371	6,189	21,182
	(12.9)	(22.6)	(77.4)
(ii) Place of Birth in other states of India than the state of Enumeration	26,277	7,466	18,811
	(12.3)	(28.4)	(71.6)
(iii) Birth place in Foreign	74	48	26
	(0.0)	(64.9)	(35.1)
(iv) Unclassified	0	0	0
	(0.0)	(0.0)	(0.0)
Total Immigrants	212,810	36,952	175,858
Persons born in the place of enumeration	530,350	334,745	195,605
Total population	743,160	371,697	371,463

(Source- Migration Table D-1)

Note: Percentages are given in brackets.

This table presents the number of in migrants by place of birth of enumeration within the district distributed in four classifications i.e. (i) Migration from within the state, (ii) Migration from other states of India,(iii) Migration from foreign place and (iv) Unclassified.

It is observed that the migration by birth from within the state is maximum 87.6 per cent of total migration. The migration from within the district but outside the enumeration place is 74.8 per cent whereas migration from other districts of the state is 12.9 per cent. Migration from other states is 12.3 per cent and the migration from outside India is 0.0 per cent of the total migration. It is also seen that the female migration is much higher than the male migration in first two classifications which is due to the migration of females after marriage.

ANNEXURE IV(II)

POPULATION OF INMIGRANTS BY PLACE OF LAST RESIDENCE : CENSUS 2001

State- Chhattisgarh **District : Jashpur**

Last Residence	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	190,319	30,727	159,592
	(88.2)	(16.1)	(83.9)
(A)Within the district but outside Enumeration place	162,899	24,400	138,499
	(75.5)	(15.0)	(85.0)
(B)From other district of State	27,420	6,327	21,093
	(12.7)	(23.1)	(76.9)
(ii) From other states of India outside enumeration state	25,510	7,200	18,310
	(11.8)	(28.2)	(71.8)
(iii) Place of residence outside India	60	38	22
	(0.0)	(63.3)	(36.7)
(iv) Unclassified	0	0	0
	(0.0)	(0.0)	(0.0)
Total Immigrants	215,889	37,965	177,924
Population of Non-inmigrants	527,271	333,732	193,539
Total population	743,160	371,697	371,463

Source- Migration Table D-2

Note: Percentages are given in brackets.

Migration of population by place of last residence distributed in four classifications is presented in this table. It is seen that the migration by usual place of last residence from within the state is highest 88.2 per cent of total migrated population. Within this classification, the migration from within the district is 75.5 per cent and only 12.7 per cent migration is from other districts of the state. Migration from other states of India outside enumeration state works out to 11.8 per cent of total migration and it is only 0.0 per cent from outside India. Mostly, sexwise anlysis reveals much higher migration of females which is obviously due to the movement of females after marriage.

ANNEXURE IV(III)

POSITION IN-MIGRANTS FROM OTHER STATES - AS PER CENSUS 2001

State- Chhattisgarh **District: Jashpur**

Birth Place	Census 2001	
	Migrant Popultion	Percentage of total In-migrants
Jharkhand	15,650	59.6
Orissa	4,836	18.4
Bihar	1,659	6.3
Madhya Pradesh	1,132	4.3
Uttar Pradesh	880	3.3
West Bengal	477	1.8
Total of 6 States	24,634	93.7
Total of other States	1,643	6.3
Total	26,277	100.0

Source- Migration Table D-1

In-migration from other states is classified in this table. 93.7 per cent of total in-migrants are from Jharkhand, Orissa, Bihar, Madhya Pradesh, Uttar Pradesh and West Bengal whereas the remaining in-migrants from all other states together constitute only 6.3 per cent.

Total 15,650 persons have migrated from Jharkhand which alone accounts for 59.6 per cent of total in-migrants. Jashpur is located at the neighbouring state border of Jharkhand as such the Migration from Jharkhand is very high and the culture and language is homogeneous.

ANNEXURE V

DISTRIBUTION OF POPULATION BY MAIN RELIGIONS

State : Chhattisgarh **District - Jashpur**

State/District	Population	Hindu	Muslim	Jain	Christian	Buddhist	Sikhs	Others	Unclassified
1	2	3	4	5	6	7	8	9	10
Chhattisgarh 1991	17,614,928	16,817,294	299,673	43,213	302,637	48,651	50,605	17,370	35,485
		95.47	1.70	0.25	1.72	0.28	0.29	0.10	0.20
Chhattisgarh 2001	20,833,803	19,729,670	409,615	56,103	401,035	65,267	69,621	95,187	7,305
		94.70	1.97	0.27	1.92	0.31	0.33	0.46	0.04
Jashpur 1991	656,352	498,730	7,425	597	148,612	26	394	146	422
		75.99	1.13	0.09	22.64	0.00	0.06	0.02	0.06
Jashpur 2001	743,160	559,984	11,720	635	169,609	148	577	253	234
		75.35	1.58	0.09	22.82	0.02	0.08	0.03	0.03

(Source :- Religion Table - Census 1991/2001.

This annexure presents the distribution of population at district and state level pertaining to Census 1991 and Census 2001 in respect of six religions. It is observed that the proportion of Hindu population in the district is comparatively lower than that of state. As against this the proportion of Christian population is higher in the district as compared to state proportion.The proprtionate distribution of population belonging to other religions in the district is lower than the corresponding state proportions.

ANNEXURE VI

MARITAL STATUS OF POPULATION IN THE STATE AND DISTRICT: CENSUS 2001

State- Chhattisgarh **District- Jashpur**

State / District	Total/ Rural / Urban	Total Population	Marital Status				
			Never married	Married	Widowed	Divorced/Separated	Unspecified
Chhattisgarh							
	Total	20,833,803	10,267,526	9,440,561	993,835	131,881	0
			(49.3)	(45.3)	(4.8)	(0.6)	(0.0)
	Rural	16,648,056	8,123,500	7,576,395	837,185	110,976	0
			(48.8)	(45.5)	(5.0)	(0.7)	(0.0)
	Urban	4,185,747	2,144,026	1,864,166	156,650	20,905	0
			(51.2)	(44.5)	(3.7)	(0.5)	(0.0)
Jashpur							
	Total	743,160	365,006	335,533	38,916	3,705	0
			(49.1)	(45.1)	(5.2)	(0.5)	(0.0)
	Rural	708,965	345,588	322,098	37,678	3,601	0
			(48.7)	(45.4)	(5.3)	(0.5)	(0.0)
	Urban	34,195	19,418	13,435	1,238	104	0
			(56.8)	(39.3)	(3.6)	(0.3)	(0.0)

(Source- Socio Cultural Table C-2)

Note: Percentages are given in brackets.

The above table reflects that the population (49.1%) of the district comes under the unmarried class. When compared to state the percentage of unmarried population of the district is marginally lower than the state. Contrary to this the percentage of married population of the district is marginally less than the state. The state average is lower than the district in respect of widowed and it is higher in case of divorced population. The proportion of unmarried persons is higher in urban areas than rural but married persons are lower in the urban areas as compared to the rural areas of the district.

ANNEXURE - VII

AGE, SEX AND EDUCATIONAL LEVELS AS PER 2001 CENSUS

State: Chhattisgarh **District: Jashpur**

Age Group	Total Population			Total Literates			Literates (Without educational level) and below primary			Primary

(Source- Socio Cultural Table C-8)

Note: Percentages are given in brackets.

This annexure presents the proportionate distribution of literates by different educaional levels in specific age groups. As the population in the age group 0-6 do not come within the purview of literates, it has been shown separately.

It is seen that out of 620,226 persons belonging to the age 7 and above 395,548 are literates and thus, the literacy rate of the district works out to 63.8 per cent. Similarly the male and female literacy works out to 58.8 and 41.2 per cent respectively.

117,762 persons have been recorded to attain education up to primary level in the age group 7-14 which is only 81.6 per cent of population in this age group. In the age group 15-34; 43,273 persons (19.3 per cent) are found educated up to middle, 36,136 person (16.1 per cent) upto the level of Matriculate/Higher Secondary/ Intermediate/ Diploma Tech. and 8,848 persons (3.9 per cent) upto Graduate and above level. It may be noted that this is the group having maximum class interval and thus it has the maximum population as well. The analysis also reveals that the percentage of literates at all levels decreases with increasing age groups which explains the gradual increase in literacy rates over past ten years.

Source :- Mother Tongue Table C-16 (Census-2001)

As revealed by the above table the most prevalent mother tongue in District - Jashpur is Sadan/Sadri which is returned by 42.7 per cent population. Kurukh/Oraon as mother tongue has second place after Sadan/Sadri returned by 29.7 per cent population. Chhattisgarhi as mother tongue has third rank and it shows a per cent of 12.1 over to its next prevalent mother tongue. The other prevalent mother tongues are Oriya,Hindi,Bhojpuri and Laria. On analysis of rural/urban sector it becomes clear that, the mother tongue such as Laria, Banjari, Korku and Pahari has its speakers settled in rural area only, as returned by (100) per cent. Kharia language occupies second rug with speakers as (99.1), followed by Munda,Mundari and Sadan/Sadari for their respective places, in the numeral order. Similary, Banjari,Marwari and Marathi, are the language spoken in the urban areas.It is apparent that mother tongue of local people of the district is Sadan/Sadri.

ANNEXURE-IX

STATEMENT OF SCHEDULED CASTES AND SCHEDULED TRIBES IN THE DISTRICT-CENSUS 1991

State:- Undivided Madhya Pradesh **District:-Raigarh**

	State:- Undivided Madhya Pradesh				District :- Raigarh		
		Population	Percentage			Population	Percentage
(A) Scheduled Castes Population							
		9,626,679	(14.6)			195,913	(11.4)
	Five Main Castes						
1.	Chamar	5,035,835	(52.3)	1.	Chamar	67,087	(34.2)
