Shivrinarayan, Janjgir-Champa

Shivrinarayan temple is situated about 65 kms. far from district headquarter on the bank of Mahanadi. It is believed that it is a place of meeting of Bhagwan Ram and Shabari of Ramayana. Shivrinarayan temple was built by Kalchuri kings and it has its archeological importance. It is a religious tourist centre. A great fair is conducted here during full moon of Magh for 15 days.

Primary Census Abstract for Scheduled Tribes 342-347

CD Block wise Village Primary Census Abstract 348-467

Urban Primary Census Abstract 468-485

Annexure-I : Number of villages under each Gram Panchayat (CD Blockwise) 486-529

Annexure-II : Note on Fertility, Mortality and Migration, 1991 Census 530

Annexure-III : Various measures of Fertility and mean age at marriage, 1991 Census 530-531

Annexure-IV : Percentage distribution of Migrants by place of birth/ place of last residence, 2001 Census 532-534

Annexure-V : Brief account of main religion in the district/tahsils as per 2001 Census 535

Annexure-VI : Marital status of population as per 2001 Census 536

Annexure-VII : Age, Sex and Education in the district, 2001 Census 537

Annexure-VIII : Distribution of different mother tongues returned in 2001 Census 538

Annexure-IX : Statement of five main SC and ST in the District, 1991 census 539

Annexure-X : Hamletwise population of villages 540-582

Annexure-XI : Statement of disability in the district 583

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centers, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the village Directory so as to give the details on number of inaccessible villages in each district. In the town Directory, a statement (IV-A) on slums introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In town Directory, the statement on slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education , and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digital permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, complied and computerised in prescribed record structure under the supervision of Shri Prabhakar Bansod, Director of Census Operations, Bhopal. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Divisions. Dr. R.P. Singh Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statement including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L.Jain, Deputy Director and Shri. R.K. Mehata, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi

Preface

The District Census Handbook (DCHB) compiled by the Census organization, Government of India is one of the most valuable and usable product of the Census. As its name suggests, it is brought out for each district in the State. This publication started from the 1951 Census, but prior to this, a similar publication was released in the earlier censuses. Those publications contained only village statistics, village names and total population thereof. The 1951 Census could, therefore be said to represent a significant step forward, in the process of making detailed census statistics available down to the village level. An important achievement, for the first time in 1991 Census, was that the village level data was presented Community Development Blockwise.

The scope of District Census Handbook has undergone considerable change since 1951. This is basically due to the growing demand for more information. For the purpose of convenience as well as with a view to make the basic statistics available to the data users, as early as possible, the District Census Handbooks of 1991 were brought out in a single volumes as against the earlier practice of bringing it out in two parts. The volume was however divided in two parts viz. part A and part B. Part A contained the Village/Town Directory while part B contained the Primary Census Data, based on the 1991 Census count. Continuing the practice of 1991 Census, the 2001 series of the District Census Handbooks is comprised of two parts but the present series is more informative in terms of coverage and contents. Part A contains Village Directory which provides information on infrastructure amenities and land use data at village level i.e. name and location of villages, area, population, number of households, important civic amenities/facilities available in villages like educational, medical, drinking water, post, telegraph, commercial and co-operative banks, agricultural and non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town and its distance, power supply, news papers/magazine and most important commodity manufactured in the villages. Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district. C.D. block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans.

Part B of the District Census Handbook contains Village and Town Primary Census Abstract. This provides information on area, occupied residential houses, number of households, sex-wise total population. child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and divisions of workers into four industrial categories i.e. cultivators, agricultural labourers, workers in household industries and other workers in respect of each village and town of the district. Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages relating to housing, assets available with households and demographic profile of population at tahsil/ C.D block level which are helpful for rural planning. Annexures giving information on religion, Scheduled Castes/Scheduled Tribes, migration, fertility, mother tongue have been included.

It has to be remembered that the villagewise area figures presented in the PCA are based on village information in the form of C-3 as furnished by the revenue authority and the "total" given for the administrative units viz, community development blocks, is the total of the area figures of village coming under it while in the case of the administrative unit viz, tahsil, the "total" area shown, is based on the information furnished by the Commissioner, Land Records, Government of Madhya Pradesh, Gwalior. In some cases the total area shown against the tahsil, may not tally with the total of the area figures of villages coming under it.

The District Census Handbook had been a joint venture of the Government of Chhattisgarh and the Government of India. The design of 2001 District Census Handbook has been evolved centrally by the Census Commissioner, India and accordingly these books have been prepared by my office. In earlier censuses, the cost of publication of these books were borne by the State Government but now these are being printed centrally by the Census organization. In accomplishing this task we have had the whole hearted cooperation of the staff at various levels of different departments of the State Government. The data supplied by the field level officers have been comparatively checked with 1991 DCHB and have been cross checked with the data obtained from various departments. An attempt had been made to reconcile the discrepancies by external validation to make it more reliable. I am grateful to all heads of departments of the State Government, officers and staff engaged in the conduct of 2001 Census for their cooperation to accomplish this task.

The compilation of such a huge amount of varied data in a single volume requires proper planning and close monitoring. We have the honour of having enlightened guidance and encouragement of Shri D.K.Sikri, IAS, Secretary (Registrar General and Census Commissioner, India). I owe special thanks to Shri. J.K.Banthia, then Registrar General and Census Commissioner, India. I am thankful to Dr. R.P. Singh, DRG (Map), Shri. R.G. Mitra DRG (C&T) and Dr. I.C. Agrawal, Sr. Research Officer (S.S.) and Shri.S.L. Jain, Dy. Director of S.S.Division for providing technical guidance.

In the directorate many officers/officials contributed in the Census 2001. First of all, I pay my gratitude to the then Director of Census Operations, Madhya Pradesh & Chhattisgarh, Shri Prabhakar Bansod under whose guidance, the Census 2001 was carried out successfully. I am also thankful to Shri Ram Singh then Joint Director, under whose supervision this District Census Handbook has been prepared.

The data presented in the District Census Handbook required a concerted work of team comprises Shri Jose T.Varghese, Assistant Director, Shri Deepak Rao, S.I.Grade-I, Shri R.Patel, S.I.Grade-I, Shri O.S.Shukla, Draftsman, Shri Santosh C.Mendhe, D.E.O.Grade-B and Shri Hirendra Kumar Sinha, Compilor of this Directorate who were involved with it at various stages of its planning, supervision, preparation of manuscript, field work, computerisation, prepration of CRC with the help of Adobe Pagemaking technique, maps and printing. I express my appreciation for the painstaking dedicated service rendered by all of them and staff of Data Centre, Bhopal for their untiring cooperation in finalizing the 2001 Census Data.

I shall feel greatly rewarded if the book comes to the expectation of the data users.

P.K.CHAUDHARY

District Highlights - 2001 Census

1. Janjgir-Champa district has been carved out from erstwhile district of Bilaspur by the Notification No.007 dated 22.5.1998.

2. The district occupies 5th place in the state according to population.

3. The district occupies 12th rank in the state in terms of area having 5838 sq.kms. which is 4.3 percent of the total area of state.

4. Literacy Rate of Janjgir-Champa district is 65.9 percent and it occupies 8th position within the state. The female literacy rate of the district is 50.1 percent .

5. Density wise the rank of the district is 5th within the state.

6. Ranking of the district according to the sex-ratio is 9th in the state.

7. Female work participation of the district is 37.9 percent of total female population. Rank of the district according to female work participation is 12th.

8. Population wise largest village is Seoni of Champa tahsil L.C.No.00567500 with 7999 population and smallest village is Dalhadamami of Janjgir tahsil L.C.No.0054030000 with population of only 2 persons.

9. Population wise largest town is Champa (M) having population 37,951 and smallest is Naya Baradwar (N.P) with 6231 population.

10. Economy of the district is mainly dependent on agriculture and the district is famous for Shivrinarayan Temple.

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook:

The District Census Handbook (DCHB), compiled by the Census Organisation, Government of India, on behalf of the State Government is one of the most valuable product of the Census. It is brought out for every district and is a very useful publication which is widely used by planners, administrators, academicians and researchers as it provides, among other things, the primary census data down to the village level.

History :

The history of the District Census Handbook could be traced from the "Village lists" brought out for every district in 1901 and "Village Statistics" for every district in 1911. This was discontinued in 1921 and 1931. In 1941, however, "Village Statistics" were brought out by the then Central Provinces and Berar Government. It was for the first time in 1951 that the practice of brining out a single volume known as District Census Handbook, giving villagewise statistics and other Census tables for the districts, at the cost of the State Government, was initiated.

Scope :

The maiden publication of the District Census Handbook of 1951 contained village wise primary census data and census tables for the district. With the increasing utility and demand of statistical data for the planning process, the scope of the District Census Handbook was enhanced to a great extent in 1961 by including non-census data like climate, agriculture, animal husbandry, co-operative bank, industry, education, health, etc., apart from presenting the village wise primary census data and census tables. An introductory note giving information on historical background, physical features, soil, climate, civic administration, agriculture, industry, education, etc. together with detailed analysis on census tables was also a novel feature of the 1961 census. Maps of District and Tahsils were also included.

Publication of DCHB at the 1971 Census :

The desire to make the District Census Handbook more comprehensive in 1961, delayed the publication in some states. Therefore, in 1971, the Registrar General and Census Commissioner of India, decided to bring out DCHB in three parts viz. Part A, B and C, in order to release the maximum data as and when ready. Accordingly Part A was to contain the village wise Land Use data and the amenities and facilities available in the villages, these being part of the non-census statistics. Part B was to comprise the village wise primary census data, while in part C, the various non-census statistics at the district level and a few at tahsil level were to be presented.

Strategy at the 1981 Census :

In 1981 census with a view to avoid delay in the publication of DCHB series, part C containing the non-census statistics, as well as the census tables for the district were dropped. The scope of the District Census Handbook was, however, enlarged by the addition of tahsil wise list of villages where no amenities were available and tahsil wise list of the villages according to the proportion of Scheduled Caste/Tribes population by ranges in the form of Appendices III and IV respectively were added since Appendices I and II were already there.

Appendix III has been helpful for planning input in areas/villages where basic infrastructure is lacking while Appendix IV has been helpful for planning welfare programmes for Scheduled Castes/Scheduled Tribes at micro level, particularly in relation to development oriented programmes.

In the town directory portion of DCHB Part A and additional Statement IV-A was also introduced in 1981. This statement was meant only for Class I and

Class II towns and indicated the civic and other amenities in notified slums.

The inclusion of the Primary Census Abstract relating to the Scheduled Castes and Scheduled Tribes at the tahsil/town level in Part B portion of the DCHB was another important feature of 1981 Census. An appendix containing Development Block wise totals of Primary Census Abstract was also presented in the DCHB series 1981 though it was not prescribed in the All India pattern.

The 1991 DCHB Series :

In the context of development planning the C.D.Block stay as an operational unit, the presentation of village wise statistics at the CD Block level had been very helpful for the administrators and planners in formulating various development plans. The same had been presented in 1991 Census.

The scope of the 1991 DCHB, particularly the village directory was enhanced by the inclusion of various inset tables on various subjects such as population, density, area, towns by size class of population, etc.

Contents of the DCHB series 2001 :

The present series of District Census Handbook consisting of two parts viz. Part A and Part B is being published in a single Volume.

Part A Village Directory :

Village Directory contains information about the name of the village with location code number assigned to it by the Census Organisation, geographical area of the village, total population and number of households in the village, amenities like education, medical, drinking water, post and telegraphs, communications, approach to village together with distance in Km. distance from the nearest town, power supply and land use data. In addition there are eight appendices to the Village Directory as under :

Appendix I : CD Blockwise(rural) abstract of educational, medical and other amenities.

Appendix I-a : CD Blockwise abstract of villages by number of Primary schools.

Appendixb I-b : CD Blockwise abstract of Villages of Primary, middle and secondary schools.

Appendix I-c : CD Blockwise abstract of Villages with different sources of drinking water facilities available.

Appendix II : Villages with 5,000 and above Population, which do not have one or more amenities

Appendix II-a : Census Towns which do not have one or more amenities

Appendix III : Land Utilization data in respect of Census Towns/Non Municipal Towns.

Appendix IV : CD Blockwise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix V : Summary showing number of villages not having Scheduled Caste Population.

Appendix VI : Summary showing number o villages not having Schedule Tribe Population.

Appendix VII A: List of villages according to th proportion of the Schedule Castes to the total population b ranges.

Appendix VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix VIII : Statement showing number of girls' school in the villages.

Town Directory :

The Town Directory contains the following seven statements and one appendix.

Statement I : Status and Growth History

Statement II : Physical aspects and location of towns

Statement III : Municipal Finance

Statement IV : Civic and other amenities

Statement V : Medical, Educational, Recreational and cultural facilities

Statement VI : Trade, Commerce, Industry and Banking

Statement VII: Civic and other amenities in slums

Appendix to Town Directory – Towns showing their outgrowth with population.

Primary Census Abstract

Part B: -The Primary Census Abstract gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in tha age group 0-6, Literates, Main Workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels namely, Districts, CD blocks, Village, and UA/Towns. In addition, Ward/Enumeration blockwise population is given in the Appendix to District Primary Census Abstract.

Primary Census Abstracts for Scheduled Castes and Scheduled Tribes:

The Primary Census Abstract relating to Scheduled Castes and Scheduled Tribes is also being presented separately at the CD Block wise /Town wise. It will have the same characteristics as indicated in the Primary Census Abstract to the total population.

Publication of DCHB in Regional Language :

In 1981, part A and part B of DCHB were brought out separately for every district which were printed in diglot i.e. a mix of Hindi and English versions while in 1971, both the parts i.e. part A and part B were brought out in a single volume with simultaneous Hindi and English versions. The 1961 DCHB were however published in a single volume in English version only for district since there were no separate parts like DCHB of 1971 and 1981 censuses. The 1951 census DCHB series were published with a mix of both Hindi and English but with a difference.

New Features of DCHB 2001 :

The main features of Village Directory of DCHB 2001 are :

(1) For the first time eight digit continuous location code is assigned to all the villages within the state. These are the Permanent Location Code Numbers (PLCN) and starts from the first village of first tahsil of first district of state and continue till the end of last village of last tahsil of the last district within a state.

(2) The State codes are given in serpentine order for the first time which were assigned alphabetically in Census 1991. As a result the State code of Chhattisgarh is assigned code 22 in Census 2001.

(3) As compared to earlier series of Village Directory additional and more useful information viz. number of Commercial/Co-operative banks and the nearest distance of availability of amenity, Agriculture and Non-Agriculture Credit societies, Recreational and Cultural facilities, availability of Newspaper/magazines and names of important commodities manufactured are included in Census 2001 for the first time in Village Directory.

(4) Annexures giving information on fertility, religion, migration, mother-tongue, Scheduled Caste/Sceduled Tribe have been included in DCHB 2001.

Town Directory :

No major change has been made in Town Directory when compared to Town Directory of 1991.

However, some improvement has been made in the data collection on slums of the towns having population 50,000 and more in which separate Enumeration Blocks were carved for slums during houselisting and population enumeration. In 2001 information in respect of slum areas have been collected for all towns.

The information of slums for Class I and II towns that is with population 50,000 or more was compiled in statement IV-A in Census 1991. In Census 2001,

this information is compiled for all the towns irrespective of their size in statement VII.

Primary Census Abstract :

(1) Information on individuals has been collected in Household schedules and practice of collecting data on individual slip has been discontinued.

(2) For persons recorded as other workers, the information on distance of place of duty and the means of transport to place of duty are obtained in column 27 and 28 of the household schedule.

(3) The information on Disability is obtained for the first time in Census 2001 in column 15 of the household schedule.

(4) The household schedule is divided in three parts. The information on cultivation/ plantation is recorded in part III of the household schedule for the first time in census 2001.

(ii) Brief History of the District* :

Bilaspur district has been divided and a new district of "Janjgir-Champa"has been curved out. Creation of the district has been made by M.P. Govt Gazette notification No. 249; dated 22.5.1998 on 25.5.1998. The history of newly created district - "Janjgir-Champa", is glorious and dignified. It was famous by different names as Mahakantar, Dandakaranya, South-Koushal etc. as narrated in Epic of Ramayan. It is believed that the city of Janjgir was earlier known as Jajall Nagar named after the ruler of Haihai Dynasty, Jajall Deo. The present Janjgir may be the cant phraseology of it.

The area of this district was ruled by Mourya, Satwahan, Wakatak, Gupta, Nalwansh, Sarabhpuri, Pandu, Shail, Som, Kalchuri and Marathas rulers for years. This area was brought in the political map by Samudragupta, in his expedition to conquest the world after conquering Chhattisgarh,.

The Mughals had besieged the whole of India by their attacks, but due to geographical conditions of Chhattisgarh alongwith this area, they could not leave their impact in this area.

Before Marathas, Haihai and Kalchuri dynasty had their rule for centuries. A branch of Tripuri State of Chedi dynasty came to Chhattisgarh and one of the 18 sons of king Kokalldeo (875 A.D.) of Contemporary Tripuri, made Tumman as Mandleshwar, as his homeland. A ruler belonging to this dynasty calle Ratnraj, made Ratanpur his capital.

Prithwideo - I(1068-1090 A.D.), the son of Ratnraj, expanded his kingdom and his son Jajwaldeo established the city of Janjgir in 12th Century, constructed a Vishnu temple and also dugged out a huge tank. Some educationists and historians have the view that city established by Jajalldeo is in fact village Jajallpur, which is very near Janjgir and is still known as Jawalpur.

In 1758, after the death of King Mohan Singh, the last ruler of Ratanpur of Kalchuri dynasty, it came under Maratha Rule. The first son, Bimbaji, Bhonsla, of Raghuji of Bhonsla ruler, was made the king and his rule lasted up to 1854. During 1818 to 1830 Britishers managed the administration as the representative of the Marathas. When Radhoji III attained adulthood again there was Maratha rule from 1818-1854. After the death of Radhoji in 1854, this state was absorbed in Nagpur state of the British Dominion.

The independent movement had started, after the Great Mutiny of 1857. Freedom-fighters took active part after the successful organization of 'flag-disobedience movement during independence movement. Later, as the movement intensified, the British Government at last gave independence on the midnight of 14th August 1947.

After the division of Bilaspur district, a separate district of Janjgir-Champa was created on 25th May 1998.

(iii) Administrative Setup*:

According to Census-2001, there are 900 villages in the district. Tehsilwise, number of villages are Janjgir (200), Nawagarh(72), Champa(87), Sakti(128), Pamgarh(73), Davra(126), Malkharouda(111) and Jai-Jaipur(103). Thus, total number of tahsils is 8. Development Block are 9, which are Aklatara, Baloda, Nawagarh, Bamhidih(Champa), Sakti, Jai-Jaipur, Malkharouda, Pamgarh and Davra. The district has 8 towns which are Baloda(NP), Sakti(NP), Champa (municipality), Naila-Janjgir (municipality), Akaltara (NP), Naya-Baradwar (NP), Kharoud (NP) and Sheori-Narayan(NP) .

There are 9 Janpad Panchayats in the district, whose head-quarters are at Development Blocks. there are 528 village panchayats which are notified. Under revenue machinery there are 12 revenue circles and 196 Patwari Halkas.

The district is the basic territorial unit of administration in the state as well as in India. The Collector, as the head of district administration is the key-functionary of the Government, having vast powers and wide responsibilities. In many ways he is the link between the State Government and the people. He is the custodian of law and order and the pivot of local administration.

He is the Chief Executive Officer of the district and as such he exercises general supervision over various departments in regard to their non-technical work. Co-ordination of the activities of various Departments, control over local-self governing bodies, execution of Government schemes and miscellaneous functions, such as Panchayats, Census, election and relief measures in time of emergencies like floods, famine and epidemics, etc. also come within his preview.

The narrative on the organisational set-up of the collectorate may be divided into three main, viz.(i) land revenue, land-records including consolidation of land and other allied matters. (ii) law and order and (iii) Development.

The Collector is assisted by Deputy Collectors, Tahsildars, Naib Tahsildars, Revenue Inspectors and Patwaris. The Collector is also associated with a number of other committees in the district. The most important among them is the District Advisory Committee. The Collector is also vested with statutory powers under excise act, so as to enable him to implement the excise and prohibition policy of the Government Superintendent of Police is the head of police department at the district headquarters, In order to facilitate proper and smooth judicial administration there are 12 police stations and 3 out posts in the district.

The Judiciary is independent. At the district level, there is District Court headed by District and Session Judge. District and Session Judge is assisted by Civil Judges who are posted at tahsil level.

Following administrative changes have occurred in between Census 1991-2001:

1) By dividing Bilaspur district, new district of JanjgirChampa was created on 25.5.1998.
2) Nawagarh tahsil was created on 31.3.1997.
3) Malkharouda tahsil was created on 27.5. 1995.
4) Jai-Jaipur tahsil was created on 6.6.1997.

(iv) Physical Features* :

Janjgir Champa district is situated between 21°41' North to 22°15' North latitudes and between 82°17' East to 83°18' East longitudes in Chhattisgarh state. It comes under Bilaspur Division. In the north of this district is Korba, in the West is Bilaspur, in the South is Raipur and in the south-east is Raigarh. In the Census-2001, the geographical area of the district is 5,838 sq.km as reported by the Surveyor General of India, which is 4.3 per cent of the total area of the state which is 135,191 sq.km. In respect of area, this ranks 12th in the state. The district is at an altitude of 2,833 ft from mean sea level.

Rivers:

Main rivers flowing through this district are Mahanadi, Hasdeo, Chourai, Sone and Sheonath. The great centrally water dividing line is from west to east. Sheonath river is the tributory of Mahanadi which meets at Khargani flowing from west. At many places between the ridges, Hasdeo river is comparitively deep. Hasdo river originates from a hill of Chhotanagpur plateau in Sarguja district and its flow is towards South. Mahanadi river originates from Sihawa mountain ranges which is situated to the east of Raipur city. Immediately after entering the boundary of the district, Sheonath river, which flows on south border falls into it. Mahanadi river flowing towards east enters Janjgir district. Sheonath river originates from south-west border of Durg district and is an important river of Chhattisgarh state. Its catchment area is also quite vast.

Climate :

The climate of the district is generally hot and dry. South-west monsoon gives good rain. The average rainfall is 1,248.9 m.m. annually. During 1998-1999, in 61 rainydays 1,343.2 mm rain was recorded while in

1999-2000, in 51 rainydays 1,121.5 mm was recorded. Winter season lasts from December to February after which, summer season starts and it is from March to June. The season of south-west monsoon extends from mid-June to September. October and November are the months of north-monsoon or retreating monsoon. There is an observatory in Champa. Most of the areas of the district rise to a temperature of about 49°C in summer and in winter minimum temperature drops down to 8°C. During south-west monsoon, humidity is high. Winds move gently but in early days of summer and beginning of monsoon, speed of wind intensifies. During south-west monsoon, the wind arriving from Bay of Bengal crosses the eastern coast and brings rain in the entire district. The climate of the district is sometimes affected by post monsoon cyclones arising from the Bay of Bengal.

Forest:

Forest play a very important role in strengthening the economy of the district. Forest have important role in maintaining ecological balance, conservation of soil erosion and forest based industries.

The district has generally mixed forests. Sagons and Sals forests are in abundance. There is vast store of forest products. Total area of the district is 5,838 km out of which 151.460 sq. km is reserved forest, protected forest area is 59.303 sq. km and unclassified forest area is 39.300 sq. km. Thus forest area of the district is 250.060 sq. km. Wild animals found are Cheetal, Kotri, wild boar langoor, monkeys with red mouth, bear, hyna, rabbit, peacock and wild cat. Forest produces are timber wood, tendu leaf, Mahaua, Anwla, Harra, Hoahera, lac, gond and many other medicinal plants.

Minerals :

Minerals have very important role in economy and industrial development of the district. There is dolomite and limestones in abundance. In 1998-99, 224,168 Metric tons of limestones was excavated. After the implementation of state mining policy in 2001, necessary system was introduced for better and planned way of mining and export. Apart from this in 2001, Chhattisgarh State Mining Corporation was created.

Land use :

Kanhar-Dorsa and Matasi type of soil is in the district. Most part of the landscape of the district is plain. The area of the district is 382,935 hectares out of which, 32,710 hectares is under non-agricultural use, wasteland and non-agricultural land is 37,931 hectares. Agricultural land is 10,406 hectares while barren land is 11,169 hectares as reported. Area of agricultural land is 261,143 hectares. In the Kharif year 1991, "Udaan-99" was introduced which gained unique success. In top-class land profitable crops of 'dalhan' and 'telhan' were taken instead of unprofitable crops and in medium and heavy soil, paddy was sown in technical and timely way, which recorded a unique increase in production of paddy.

Agriculture :

Main crop of the district is paddy which is a kharif crop. In 1999-2000, the net area sown was 262 thousand hectares and total area sown was 329 thousand hectares as reported. Food crops were sown in 324 thousand hectares and non-food crops in 5 thousand hectares which is 98.37 per cent of food crops area and 1.63 per cent of non-food crops respectively. In 1999-2000, grains worth 505 thousand metric tons were produced, 'pulses' 15 thousand metric tons and 'oilseeds' worth 03 thousand metric tons were produced. Actual production per hectare in kgs were rice 1,790, wheat 1,552, maize 1,725, grams 667, tur 1,419, rai(sarson) 1,054 were reported . To promote the production of agriculture 23,636 metric tons of fertilizers were distributed.

Irrigation :

Irrigation facilities have special importance because the economy of the district is based on agriculture. In 1999-2000 total area sown were 262 thousand hectares, in which a total of 120 thousand hectares was irrigated which was 45.8 per cent of the total area sown. Canal-irrigated area is 105 thousand hectares, tank irrigated area is 05 thousand hectares, irrigation by tubewells and wells were 09 thousand hectares and irrigation by other means 01 thousand hectares of land.To promote irrigation, irrigation facilities such as lift-irrigation from rivers and borewells and wells have to be utilized in large scales. Apart from multipurpose projects of Minimata and Hasdo-Bango, medium and small irrigation projects are being utilized at present.

Animal Husbandry :

To bring "Shwet Kranti" through cattle wealth development and culture centres, district panchayats and J.K.Trust development Projects have developed, 32 cattle-wealth development centres in 4 Development Blocks. There are 722 thousand cattle-wealth, in which 477 thousand belong to cow-breed, 161 thousand buffalo-breed and 84,000 other cattles. Number of Veterinary hospitals is 12. Number of Veterinary dispensaries is 33 as recorded. Number of Artificial breeding centres and sub-centres is 24. At the end of 2001, 111,951 cattle were treated and medicines for 73,150 cattle was served.

Fishery :

In rural sector, fish rearing is very popular because of small investment, minimum labour and acquiring as subsidiary business in little time. This is also a powerful medium to eradicate unemployment and to create employment. To supplement cheap proteins to weaker section of the society in villages special attention is being given to the development of fish-rearing. In rivers flowing in the district, tanks and water-logging areas, different types of fish like Parahin, Rohu, Redda Singhau, Katla, Murail and Mogris are formed.

Industry :

Although the district is based on agriculture, it is also rich and prominent in industry. Due to the production of paddy crops in abundance the traditional industry like, "Rice Mill industry" is in large scale. The district also leads in manufacture of gold ornaments, Kosa silk, bronze utensils. As timber is available in plenty the saw mill industries have increased rapidly. Apart from this there are several units related to material for building construction, lac, fire bricks and other forest produce. In the category of large scale industries, Arsameta (Gopal Nagar)-Cement Plant, Madhya Bharat Paper Mill- Champa, Spunj Iron and Steel and Prakash Industries Limited in area of power generation are established. Local people have been benefitted by these industries. There are adequate cottage industries in the district. People in rural area are employed in small enterprises in manufacturing of bricks, tiles, agricultural equipments and wooden furniture.

Transport and Communication :

Janjgir-champa is the district head-quarter which is on the Mumbai-Howrah main railway line. Total length of rail-line is 69 kms. in the district. Length of Pucca roads is 1296 kms. and Katcha roads is 1625 kms. In 1999-2000, according to Chhattisgarh State Socio-Economic Indicators-2001, the number of total registered vehicles was 30408 as reported. Private registered vehicles, such as two wheelers, cars, jeep etc. number 24247.

Electricity :

Energy is most important for industrial development and agriculture. Out of total 900 villages in the district 890 villages are electrified which is 99.89 per cent. Number of consumers of electricity is 1,36,387 as reported, out of which 123,153 are domestic consumers, 7,223 are non-domestic consumers and industrial consumers are 1,414.

Consumers related to water supply and agriculture are 117 and 4,231 respectively. Street-light consumers are 249 in number. Under use of electricity, domestic-consumers are 65,030, non-domestic consumers 5,736, industry consumers 124,793, for water supply 1,238, for agriculture 62,520 and for street-lights 998 thousand kilowatt are consumed.

Panchayatiraj System :

Panchayat is the basic institution of local administration and the foundation of decentralized administration. Under the Directive Principles of State Policy of the Constitution, M.P. Government has passed Panchayat Adhinium 1962 in which there is provision for three-staged Panchayat system. Under 73rd amendment of the Constitution, M.P. Panchayatiraj Adhinium 1993 was passed in which panchayat for village, Janpad Panchayat for Development Blocks and for district Panchayat for the district has been introduced. Under Gram Sabha Adhinium 2001, Gram Sabha in which all the adults are included has been adopted as a constitutional unit and has been given adult franchise for voting for Panch, Sarpanch, members of Janpad and members of District

Source:
* District Statistics Book-2001.
* District Census Book.
* Chhattisgarh State Development Sanketank-2001.

Panchayat . Power of approval to village budget and works has been given to Gram Sabha. These institutions formed by elected members work for 5 years. At all stages, there is reservation for scheduled castes and scheduled tribes according to the population. There is 1/3 reservation for women. Members in gram panchayat, Janpad panchayat and district panchayat are10-20, 10-25, 10-35 respectively.

Gram panchayat from its budget spends for prohibition of left-overs, water supply, public works(roads, buildings, wells, tanks) bazar rate exchange, Cooperation to Governmental works and community health and development works. Janpad Panchayt from its budget and within its power will do community development and unified village, agriculture, social, trade, cattle-rearing, fish-rearing, adult education, co-operative works, cottage industry, welfare works and employment oriented programme. The duty of district panchayat is to have control on village and janpad panchayat, to have coordination between them, guide them and advise the state government for development works. Administration and development of the villages has been done by one district panchayat, 9 Janpad panchayats and 528 gram panchayats.

(v) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has

been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates

structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) A minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

   iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City :

Towns with population of 100,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration

should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths;

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes. The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled Castes and Scheduled Tribes

Scheduled Castes :

1. Audhelia
2. Bagri, Bagdi
3. Bahna, Bahana
4. Balahi, Balai
5. Banchada
6. Barahar, Basod
7. Bargunda
8. Basor,Burud,Bansor, Bansodi, Bansphor, Basar
9. Bedia
10. Beldar, Sunkar
11. Bhangi,Mehtar,Balmik, Lalbegi,Dharkar
12. Bhanumati
13. Chadar
14. Chamar, Chamari, Bairwa, Bhambi, Jatav, Mochi, Regar, Nona, Rohidas, Ramnami,Satnami, Surjyabansi, Surjyaramnami, Ahirwar, Chamar Mangan, Raidas
15. Chidar
16. Chikwa, Chikvi
17. Chitar
18. Dahait, Dahayat, Dahat
19. Dewar
20. Dhanuk
21. Dhed, Dher
22. Dohor
23. Dom,Dumar, Dome, Domar, Doris
24. Ganda, Gandi
25. Ghasi, Ghasia
26. Holiya
27. Kanjar
28. Katia, Patharia
29. Khatik
30. Koli, Kori
31. Khangar, Kanera, Mirdha
32. Kuchbandhia
33. Mahar, Mehra, Mehar
34. Mang, Mang Garodi, Mang Garudi, Dankhni Mang, Mang Mahasi, Madari, Garudi, Radhemang
35. Meghwal
36. Moghia
37. Muskhan
38. Nat, Kalbelia, Sapera, Navdigar, Kubutar
39. Pasi
40. Rujjhar
41. Sansi, Sansia
42. Silawat
43. Zamral

Scheduled Tribes :

1. Agariya
2. Andh
3. Baiga
4. Bhaina
5. Bharia Bhumia, Bhuinhar Bhumia, Bhumiya, Bharia, Paliha, Pando
6. Bhattra
7. Bhil, Bhilala, Barela, Patelia
8. Bhil Mina
9. Bhunjia
10. Biar, Biyar
11. Binjhwar
12. Birhul, Birhor
13. Damor, Damaria
14. Dhanwar
15. Gadaba, Gadba
16. Gond, Arakh, Arrakh,Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimma, Bhuta, Koilabhuta, Koliabhuti, Bhar, Bisonhorn Maria, Chota Maria, Dandami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti,Gaita, Gond Gowari, Hill Maria, Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha, Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Nagwanshi, Ojha, Raj Gond, Sonjhari Jhareka, Thatia,Thotya, Wade Maria , Vade Maria, Daroi
17. Halba, Halbi
18. Kamar
19. Karku
20. Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri
21. Khairwar, Kondar

22. Kharia
23. Kondh, Khond, Kandh
24. Kol
25. Kolam
26. Korku, Bopchi, Mouasi, Nihal, Nahul, Bondhi,Bondeya
27. Korwa, Kodaku
28. Majhi
29. Majhwar
30. Mawasi
31. Munda
32. Nagesia, Nagasia
33. Oraon, Dhanka, Dhangad
34. Pao
35. Pardhan, Pathari, Saroti
36. Pardhi,Bahelia,Bahellia, Chita Pardhi, Langoli Pardhi, Phans Pardhi, Shikari, Takankar, Takia
    (i) Bastar, Kanker,Dantewara, Raigarh, Jashpur, Korba, Mahasamund, Koriya and Surguja district
    (ii) Bilaspur, Bilha, Masturi, Takhatpur, Pendra Road and Kota tahsils of Bilaspur district
    (iii) Durg, Dhamdha, Patan, Gunderdehi, Balod, Dondilohara and Gurur tahsils of Durg district
    (iv) Mohala, Manpur and Ambagarh tahsils of Rajnandgaon district
    (v) Bindra-nawagarh, Rajim and Deobhog tahsils of Raipur district
    (vi) Dhamtari, Kurud tahsils and Sihawa CD Block in Dhamtari district
37. Parja
38. Sahariya, Saharia, Seharia, Seria, Sosia, Sor
39. Saonta, Saunta
40. Saur
41. Sawar, Sawara
42. Sonr

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate :

Literacy rate of the population is defined as the per centage of literates in the age group seven years and above. For different age groups the per centage of literates in that age group gives the literacy rate.

Educational level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons

engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops — tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer :

A person who works on another person's lanc for wages in money or kind or share is regarded a an agricultural labourer. She/he has no risk in th cultivation, but merely works on another person's lanc for wages. An agricultural labourer has no right o lease or contract on land on which she/he works

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himsel and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion o workers in household industry should consist o members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work Participation Rate :

Per centage of workers (main + marginal) to total population

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years.

Sex-Ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows.These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid – year Population}} \times 1000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q_1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q_2 :

Probability of dying between birth and age 2.

q_5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per *1,000 births in a year.*

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group 15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4) :

Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9) :

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth

if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/ relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

  (a) Migration within the district of enumeration (intra district migration)

  (b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration :

Rural or Urban status in respect of migrants have

been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 100,000 and above population are classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) and M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as

a) Areas where buildings are in any respect unfit for human habitation; or

b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings – Population, its distribution

According to Census 2001, Janjgir district comprises of 889 inhabited villages, 11 uninhabited villages and total 900 villages distributed among 8 tahsils and 9 CD blocks. The district has 8 towns. There are no urban outgrowths (OGs) in the district. The average household size of the district is 5.2. Total population of the district is 1,317,431 comprising 659,388 males and 658,043 females. Thus the sex ratio of the district works out to 998 which is better than the sex-ratio of the state which is 989. Density of the district is 226 persons per sq.km. and is higher than the density of the state which is 154. Literacy rate of the district 65.9 per cent is also higher than the State literacy rate 64.7 per cent. Scheduled Castes and Scheduled Tribes population of the district is respectively 22.5 per cent and 11.6 per cent of the total population of the district. Apart from these general findings, the analysis on various parameters like rural-urban distribution of population by sex, literacy, density, caste, tribe etc. has been covered in the Inset Tables from 1 to 52 based on PCA, Village Directory data, Town directory data and *houselisting data pertaining to Census, 2001.*

(viii) Brief analysis of the PCA data(Table1-36)

Analysis of the PCA data based on Census 2001 is presented here in the form of tables from 1 to 36. Various demographic indicators such as density, literacy, Sex-ratio and distribution of population in different economic activity by rural/urban, male/female and age classifications are presented in these tables. These analysis are presented for Tahsils and CD Block levels separately.

Analysis for Scheduled Castes and Scheduled Tribes is also covered in these tables.

TABLE 1: DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Janjgir	301,794	243,335	58,459	361,190	288,872	72,318	19.7	18.7	23.7	19.4	20.0
2	Nawagarh	106,047	106,047	0	129,044	129,044	0	21.7	21.7	0.0	0.0	0.0
3	Champa	137,508	107,422	30,086	169,786	131,835	37,951	23.5	22.7	26.1	21.9	22.4
4	Sakti	123,252	100,891	22,361	142,247	115,803	26,444	15.4	14.8	18.3	18.1	18.6
5	Pamgarh	112,345	104,608	7,737	137,651	129,045	8,606	22.5	23.4	11.2	6.9	6.3
6	Dabhara	117,476	117,476	0	136,969	136,969	0	16.6	16.6	0.0	0.0	0.0

8	Jaijaipur	111,152	111,152	0	125,885	125,885	0	13.3	13.3	0.0	0.0	0.0
District Total:		1,110,200	991,557	118,643	1,317,431	1,172,112	145,319	18.7	18.2	22.5	10.7	11.0

The table indicates tahsilwise decadal variation for total, rural and urban population of the district. An overall 18.7 per cent decadal growth rate has been recorded in the district. This variation in rural and urban area is 18.2 and 22.5 per cent respectively during the decade 1991-2001. The tahsilwise data reveals that Champa has the highest 23.5 per cent growth rate. In case of rural areas, the highest growth rate 23.4 per cent is recorded in Pamgarh tahsil and among urban areas, again Champa has the highest 26.1 per cent and the lowest 11.2 per cent in Pamgarh. The per centage of urban population to total population of the district is 11 per cent in 2001 which was 10.7 per cent in 1991 Census.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females
1	2	3	4	5	6	7	8	9

7	Dabhra	9 (7.1)	12,145	12,388	2 (1.6)	6,651	6,625	0 (0.0)	0	0
8	Malkharoda	12 (10.9)	14,260	14,578	1 (0.9)	2,694	2,776	0 (0.0)	0	0
9	Jaijaipur	15 (14.7)	20,498	20,802	1 (1.0)	2,996	3,038	0 (0.0)	0	0
	Districts (Rural) Total:	15 (14.7)	20,498	20,802	1 (1.0)	2,996	3,038	0 (0.0)	0	0

The above table gives CD Blockwise, number and per centage of villages, number of males and females in each range of population size in the district. Out of the 889 inhabited villages, 130 villages i.e. 14.6 per cent are the smallest sized villages with population range of 200-499 persons, 302 villages (34.0 per cent)

are covered in the size of 500-999 persons. There are 268 villages consisting 30.1 per cent of total falling in the size of population 1,000-1,999, persons 15 villages fall in the population range of 2,000-4,999 constituting 14.7 per cent of total villages. There is no village in the range of 10,000 population and above.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town	
(a) New	
(i) Statutory town	Nil
(ii) Census town	Nil
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treate as census towns	Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 1991 census are notiified as statutory town in 2001 census	Nil
(c) Declassified	Nil
(d) Wholly merged with other town(s)	Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	2	0.2	13	0.0
11-20	1	0.1	22	0.0
21-50	2	0.2	74	0.0
51-100	10	1.1	1,981	0.2
101-200	85	9.6	40,564	3.5
201-300	304	34.2	330,573	28.2
301-500	433	48.7	688,526	58.7
501 +	52	5.8	110,359	9.4
Not known	0	0.0	0	0.0
District Total:	889	100.0	1,172,112	100.0
Density of Population (Rural) of the district:			329.5	

Table No.4 presents the distribution of villages by population density range grouped under 8 ranges of density. The maximum number of villages i.e. 433 fall under the density range of 301-500 constituting 48.7 per cent of the total inhabited villages in the district. The next range of 201-300 population density consists of 34.2 per cent villages. The lowest range of 0-10 and 11-20 persons per sq.km. cover the proportion of total villages

such as 0.2 per cent and 0.1 per cent respectively. 52 villages (5.8 per cent) have very high density with more than 501 persons per sq.km.

TABLE 5: SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	1,046	1,047	1,016	1,056	1,007	-
1911	1,039	1,040	1,013	1,051	998	-
1921	1,041	1,042	1,000	1,046	1,046	-
1931	1,043	1,046	957	1,046	1,047	-
1941	1,032	1,034	976	1,035	1,035	1,011
1951	1,024	1,028	951	1,034	1,036	991
1961	1,008	1,026	837	1,041	1,046	934
1971	998	1,011	888	1,029	1,035	946
1981	996	1,012	908	1,028	1,035	955
1991	985	1,000	917	1,007	1,012	961
2001	989	1,004	932	998	1,005	941

The above table reveals that the sex ratio(total) of the district in 2001 is higher than the state average since 1901. The same trend is found in the rural/urban areas in the district.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Janjgir	977	988	936
2	Nawagarh	989	989	-
3	Champa	987	1,003	934
4	Sakti	1,003	1,015	952
5	Pamgarh	993	994	981
6	Dabhara	1,016	1,016	-
7	Malkharoda	1,031	1,031	-
8	Jaijaipur	1,034	1,034	-
	Sex Ratio of the district:	998	1,005	941

The above table reveals that the sex ratio of the rural area is higher than that of the urban area according to the tahsilwise rural /urban sex ratio of the district. The sex ratio is recorded highest (1,034) in Jaijaipur followed by Malkharoda (1,031) in rural area and Pamgarh is having the highest 981 females per 1,000 males in the urban area of the tahsil.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Akaltara	981
2	Baloda	991
3	Nawagarh	991
4	Bamhnidih(Champa)	1,008
5	Sakti	1,014
6	Pamgarh	994
7	Dabhra	1,016
8	Malkharoda	1,031
9	Jaijaipur	1,034
	District (Rural) Total:	1,005

The above table presents the CD Blockwise sex ratio for the rural population of the district. The sex ratio in rural areas of the district is recorded as 1,005 females per 1,000 males. Among the CD Blocks, the highest sex ratio is 1,034, recorded in Jaijaipur CD Block followed by Malkharoda 1,031 and the lowest of 981 is recorded in Akaltara CD Block.

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	1	0.1	2	0.0
700-749	1	0.1	598	0.1
750-799	2	0.2	870	0.1
800-849	7	0.8	2,029	0.2
850-899	26	2.9	19,740	1.7
900-949	81	9.1	89,458	7.6
950-999	266	29.9	436,138	37.2
1000-1099	424	47.7	564,532	48.2
1100+	81	9.1	58,745	5.0
District Total:	889	100.0	1,172,112	100.0
Sex ratio (Rural) for District:			1,005	

The above table reveals the distribution of villages in 9 ranges of sex ratio based on 2001 Census. Out of 889 villages, 424 inhabited villages (47.7 per cent) have sex ratio in the range 1,000-1,099 followed by 266 villages (29.9 per cent) in the range of 950-999. The per centage distribution of population is also higher in these two ranges.

REGISTRAR GENERAL 38552 LIBRARY INDIA

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Urban status of town	Sex ratio
1	2	3	4
1	Akaltara	N.P	931
2	Baloda	N.P	963
3	Champa	M	934

		Urban	-	-	-	-
	District Total:	Total	224,792	114,349	110,443	966
		Rural	203,640	103,362	100,278	970
		Urban	21,152	10,987	10,165	925

The above table presents the population of 0-6 years age group and its sex-ratio. The average sex ratio of this age group is 966. The sex ratio is recorded 970 and 925 in rural and urban areas respectively. Jaijaipur (984) ranks the highest in sex ratio while Pamgarh records the lowest sex ratio (962). It is observed that among urban areas Pamgarh has the highest sex ratio (950) whereas Sakti records the lowest sex ratio (897).

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Akaltara	22,371	11,406	10,965	961
2	Baloda	21,431	10,832	10,599	978
3	Nawagarh	36,333	18,416	17,917	973
4	Bamhnidih (Champa)	19,671	10,031	9,640	961
5	Sakti	18,033	9,164	8,869	968
6	Pamgarh	23,846	12,156	11,690	962
7	Dabhra	21,222	10,749	10,473	974
8	Malkharoda	19,066	9,685	9,381	969
9	Jaijaipur	21,667	10,923	10,744	984
District (Rural) Total:		203,640	103,362	100,278	970

Table 11 represents the sex ratio of the age group 0-6 years according to CD Blockwise population in the district. The district level sex ratio is 970 , the highest sex ratio (984) is recorded in Jaijaipur C.D.Block and the lowest sex ratio (961) in Akaltara and Bamnidih (Champa) CD Blocks each.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distri-bution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	35	3.9	2,624	1.3
700-749	24	2.7	2,819	1.4
750-799	42	4.7	6,391	3.1
800-849	77	8.7	14,635	7.2
850-899	109	12.3	26,267	12.9
900-949	118	13.3	34,503	16.9
950-999	113	12.7	34,843	17.1
1,000-1,099	192	21.6	51,827	25.5
1,100+	179	20.1	29,731	14.6
District (Rural)	889	100.0	203,640	100.0
Total Sex ratio (Rural) for District:				970

The above table represents the distribution of inhabited villages grouped into 9 ranges of sex ratio of rural population in the age group of 0-6 years. The maximum number of 192 (21.6 per cent) inhabited villages are in the sex ratio range of 1,000-1,099 covering 25.5 per cent population while 179 inhabited villages i.e. 20.1 per cent come under the highest sex ratio range of 1,100+ size covering 14.6 per cent population. The sex ratio range of 900-949 comprises of 118 villages (13.3 per cent) and 16.9 per cent population. Next to this range, 113 villages (12.7 per cent) having 17.1 per cent population are in the range of 950-999 sex ratio.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATION INCLUDING CONSTITUENT UNITS/TOWNS, 2001

Serial number	Name of UA/Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Akaltara	N.P	2,848	1,429	1,419	993
2	Baloda	N.P	1,695	851	844	992
3	Champa	M	5,537	2,914	2,623	900
4	Kharod	N.P	1,492	765	727	950
5	Naila Janjgir	M	4,570	2,388	2,182	914
6	Naya Baradwar	N.P	957	483	474	981
7	Sakti	N.P	2,747	1,470	1,277	869
8	Shivrinarayan	N.P	1,306	687	619	901
	District(Urban) Total		21,152	10,987	10,165	925

Table No.13 represents the sex ratio of population in the age group 0-6 years of urban agglomeration and towns within the district. Akaltara (NP) has the highest sex ratio i.e. 993 and Sakti (NP) has the lowest sex ratio of 869 females per 1,000 males.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

Serial number	Name of Tahsils	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

8	Jaijaipur	Total	125,885	32,017	13,222	25.4	10.5
		Rural	125,885	32,017	13,222	25.4	10.5
		Urban	-	-	-	-	-
	District Total:	Total	1,317,431	296,199	153,069	22.5	11.6
		Rural	1,172,112	274,390	146,270	23.4	12.5
		Urban	145,319	21,809	6,799	15.0	4.7

This table presents the tahsilwise number and per centage of Scheduled Castes and Scheduled Tribes population in the district. Out of (1,317,431) total population of the district 22.5 per cent population belongs to the Scheduled Castes and 11.6 per cent belong to the Scheduled Tribes. The per centage of Scheduled Castes population constitute 23.4 per cent in rural area and 15 per cent in urban area of the district. The highest per centage (33.9 per cent) of Scheduled Caste population is recorded in Pamgarh tahsil and the lowest (13.9 per cent) in Sakti tahsil. The proportion of Scheduled Tribes population is 12.5 per cent and 4.7 per cent rural and urban areas respectively. In the district, Scheduled Tribes population is concentrated mostly in Sakti (23.2 per cent) and Dabhara tahsil (20.8 per cent) and minimum population is recorded in Nawagarh (2.2 per cent) tahsil.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Akaltara	123,885	28,803	16,884	23.2	13.6
2	Baloda	121,373	25,833	18,760	21.3	15.5
3	Nawagarh	201,694	487,98	6,652	24.2	3.3
4	Bamhnidih(Champa)	108,083	182,64	10,833	16.9	10.0
5	Sakti	110,519	15,508	31,151	14.0	28.2

District Total	889	100.0	274,390	100.0

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES 2001

Percentage Range of Scheduled Tribes population to total population	Number of villages	Percent-age	Scheduled Tribes Population	Percent-age
1	2	3	4	5
Nil	159	17.9	0	0.0
Less than 5	182	20.5	6,173	4.2
5-10	146	16.4	17,675	12.1
11-20	121	13.6	28,842	19.7
21-30	79	8.9	23,023	15.7
31-40	70	7.9	21,105	14.4
41-50	43	4.8	16,403	11.2
51-75	65	7.3	24,409	16.7
76 and above	24	2.7	8,640	5.9
District Total	889	100.0	146,270	100.0

The above table represents the number of villages and per centage of Scheduled Castes population in nine different ranges at the district level. Out of 889 villages, there are 63 villages having no Scheduled Castes population. The proportion of Scheduled Castes population is less than 5 per cent in 128 villages (14.4 per cent). 156 villages (17.5 per cent) fall in the range of 5-10 per cent and 167 villages(18.8 per cent) in the range 11-20 per cent. per cent contains 132 villages and 78 villages come under the range of 21-30 and 31-40 respectively. In the last three ranges there are 165 villages, which fall in the range of 41-50, 51-75 and 76 and above per cent of population.

The above table reveals out of 889 inhabited villages 159 villages constituting 17.9 per cent have no Scheduled Tribes population. There are 182, 146 and 121 villages having proportionately higher Scheduled Tribes population in the range of less than 5 per cent 5-10 per cent and 11-20 per cent respectively. 79 villages are in the range of 21-30 per cent and 70 villages in the range of 31-40 per cent of Scheduled Tribes population. In the higher range of 41-50 and 51-75 per cent, 43 and 65 villages have Scheduled Tribes population. There are only 24 villages in the range of 76 per cent and above.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/ Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Akaltara (NP)	20,367	3,585	912	17.6	4.5
2	Baloda (NP)	11,331	2,007	777	17.7	6.9
3	Champa (M)	37,951	3,957	1,924	10.4	5.1
4	Kharod (NP)	8,606	1,512	438	17.6	5.1
5	Naila Janjgir (M)	32,513	6,588	1,026	20.3	3.2
6	Naya Baradwar (NP)	6,231	1,316	396	21.1	6.4
7	Sakti (NP)	20,213	2,325	1,129	11.5	5.6
8	Shivrinarayan (NP)	8,107	519	197	6.4	2.4
	District(Urban) Total	145.319	21,809	6.799	15.0	4.7

The above table reveals that out of 8 towns, the highest population 21.1 per cent Scheduled Castes population has been found in Naya Baradwar (N.P.) and the lowest proportion (6.4 per cent) in Shivrinarayan (N.P.). According to the proportion of per centage of Scheduled Tribes population to total population of district, the highest 6.9 per cent is found in Baloda(N.P.) and the lowest 2.4 per cent in Shivrinarayan (N.P.) town.

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN CD BLOCKS, 2001

Serial number	Name of C. D. block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Akaltara	961	1,015
2	Baloda	981	1,012
3	Nawagarh	990	1,029
4	Bamhnidih(Champa)	998	1,056
5	Sakti	1,004	1,036
6	Pamgarh	995	1,026
7	Dabhra	1,034	1,023
8	Malkharoda	1,044	1,070
9	Jaijaipur	1,020	1,053
	District (Rural) Total	1,002	1,033

Table No.19 reveals that the sex ratio of Scheduled Castes and Scheduled Tribes is 1,002 and 1,033 respectively. Among the 9 CD Blocks, the highest sex ratio of Scheduled Caste population 1,044 is found in Malkharoda and the lowest 961 is in Akaltara CD Block.

The highest sex ratio 1,070 of Scheduled Tribes population is found in Malkharoda CD Block and the lowest of 1,012 is recorded in Baloda CD Block. The sex ratio of Scheduled Tribes population in every CD Block is higher than 1,000.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Akaltara (NP)	985	880
2	Baloda (NP)	972	895
3	Champa (M)	960	975
4	Kharod (NP)	989	991
5	Naila Janjgir (M)	967	784
6	Naya Baradwar (NP)	1,018	932
7	Sakti (NP)	980	1,053
8	Shivrinarayan (NP)	1,012	1,052
Sex ratio (Urban) for the district:		976	934

Table No.20 gives the sex ratio of the Scheduled Castes and Scheduled Tribes in UA/Towns of the district. The urban sex ratio for the district of Scheduled Castes is 976 which is more than the sex ratio (934) of Scheduled Tribes. Among all the 8 Municipal Committees and Nagar Panchayats of the district, Naya Baradwar (N.P) has the highest sex ratio 1,018 of Scheduled Castes and Sakti (N.P) with 1,053 has the highest sex ratio of Scheduled Tribes. In Shivrinarayan (N.P), the sex ratios are higher than 1,000.

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

		Urban	97,517	57,499	40,018	47,802	17,369	30,433	78.5	90	66.4	23.6

The above table exhibits tahsilwise number and per centage of literates and illiterates for total, rural and urban with persons, males and females in the district. The literacy rate is worked out by subtracting the population in the range of 0-6 years. As per 2001 Census the proportion of literates comes to 65.9 per cent in the district. The total literacy rate is 64.3 per cent in rural areas and 78.5 per cent in urban area. The literacy rate of males is 81.8 per cent which is 31.7 per cent higher than female literacy rate. Among the 8 tahsils, Janjgir and Sakti ranks the highest with 68.8 per cent literates each and Jaijaipur with the lowest of 61 per cent literates

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate

District(Urban) Total		97,517	57,499	40,018	47,802	17,369	30,433	78.5	90.0	66.4	23.6

Table 24 expresses the number and per centage of literates and illiterates by sex in UA/Towns of the district. It is seen that the highest literacy rate of 81.3 per cent is recorded in Naila Janjgir (M) whereas the lowest literacy rate is recorded in Kharod (NP) 72.4 per cent. If sex wise literacy rates are analysed, the highest male literacy rate is in Naila Janjgir (M) and the lowest is in Baloda (NP). The gap in male to female literacy rate is maximum in Kharod (NP). The total literacy rate of the district (urban) is 78.5 per cent and it is 90 per cent for males and 66.4 per cent for females .

TABLE 25 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of CD Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates

		Females	63,997	13,932	21.8	13,089	20.5	27,021	42.2	36,976	57.8
District (Rural) Total:		Persons	1,172,112	370,466	31.6	157,995	13.5	528,461	45.1	643,651	54.9
		Males	584,520	239,737	41.0	50,161	8.6	289,898	49.6	294,622	50.4
		Females	587,592	130,729	22.2	107,834	18.4	238,563	40.6	349,029	59.4

The above table shows the proportion of the total workers which is estimated to be 45.1 per cent of the district. Out of the total workers 31.6 per cent workers are main workers and 13.5 per cent are marginal workers. The remaining 54.9 per cent are non-workers. The participation rate of main male and female workers in the district is 41 per cent and 22.2 per cent respectively. The per centage of male marginal workers is 8.6 and that of female marginal workers 18.4 per cent in the district.

Note: Percent of Worker to total worker are given in brackets

This table presents the distribution of workers by sex in four categories of economic activity in tahsils. The economy of the district is mainly dependent on agriculture. Out of the total workers, 45.8 per cent are cultivators , 37.3 per cent workers are engaged in agricultural labour, 2.3 per cent as household industry workers and 14.6 per cent workers are engaged in other works in the district. The highest per centage of cultivators are found in Nawagarh tahsil and the lowest 36.4 per cent in Dabhra tahsil. The male work participation in cultivation is 67.1 per cent in Nawagarh tahsil which is very high as compared to 29.9 per cent of female cultivators in Dabhra tahsil. The per centage of agricultural labourers and household industry workers is very low in the district. The agricultural workers occupy second position in the district followed by the per centage of other workers in the district as well as in each tahsil.

Note: Percent of Worker to total worker are given in brackets

The above table exhibits CD Blockwise distribution of workers by sex in four categories of economic activities in the rural areas of the district. As per the table 35 above, out of total population 45.1 per cent are workers form the total population. Among the four categories cultivators constitute 49.0 per cent, agricultural labourers 39.7 per cent , household industry 1.7 per cent and other workers constitute 9.8 per cent. The proportion of cultivators is highest 59.8 per cent in Nawagarh CD Block and is lowest 36.4 per cent in Dabhra CD Block. The highest proportion of agricultural labour is 50.1 per cent in Dabhra and 31.7 per cent in Nawagarh CD Block. It has also been observed that the proportion of female workers is less than male workers under the category of cultivators while in agriculture labour the proportion of female workers is higher than male workers.

		Females	3,933	522	40	139	77	266
				(13.3)	(7.7)	(26.6)	(14.8)	(51.0)
District (Urban) Total:		Persons	145,319	47,462	5,150	5,795	4,256	32,261
				(32.7)	(10.9)	(12.2)	(9.0)	(68.0)
		Males	74,868	36,543	3,565	2,629	2,856	27,493
				(48.8)	(9.8)	(7.2)	(7.8)	(75.2)
		Females	70,451	10,919	1,585	3,166	1,400	4,768
				(15.5)	(14.5)	(29.0)	(12.8)	(43.7)

The above table indicates the distribution of workers by sex in different categories of economic activity for the urban areas of the district. This shows that out of 32.7 per cent of total workers, cultivators constitute 10.9 per cent, agricultural labourers 12.2 per cent, household industry 9.0 per cent and the highest proportion is covered by other workers which is 68 per cent. It is also seen that proportion of male workers under category of other workers is more than the female workers whereas proportion of female workers under agricultural labourer and household industry is more than the male proportion. Townwise analysis shows that the proportion of cultivators as well as agricultural labourers is highest 43.1 per cent and 29.5 per cent in Kharod (N.P.) household industry workers is highest 18 per cent in Champa (M) and other workers is highest 84.3 per cent in Akaltara (N.P.) town.

(ix) Brief analysis of Village Directory and Town Directory data (table 37-47)

Analysis based on Village Directory and Town Directory data pertaining to census 2001 are presented in the form of Inset tables from 37-47. Alongwith the census data 'Non-Census' data such as village amenity and town amenity data was collected during census 2001. These tables give the number of total villages, proportion of population served by different amenities, availability of amenities by distance, proportion of slum population in towns etc. A short analytical note is also given below of each table.

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table No.37 presents the CD Blockwise distribution of villages having availability of different amenities within the village. Out of 889 villages 871 (98.0 per cent) village have with educational facilities, 308 (34.6 per cent) villages have with medical facilities, 876 (98.5 per cent) villages have available improved drinking water facilities and 226 (25.4 per cent) villages have postal facilities. If communicational facilities are analysed 67 villages(7.5 per cent) have telephone, 257 (28.9 per cent) villages have transportation facility, 53 (6.0 per cent) villages availing bank facility and 129 (14.5 per cent) villages have agricultural credit societies. Similarly 342(38.5 per cent) villages are linked by either pucca or kuchha approach road and excluding 5 village, there are 882 (99.2 per cent) villages which are provided with power supply. . The per centage distribution of telephone facilities in Nawagarh and Malkharoda CD blocks is comparatively less than the other CD Blocks. Bamnidih (Champa) CD block has highest 65.5 per cent villages where medical amenities are available and Dabhra CD block with the lowest of 15.9 per cent villages. Improved drinking water and power supply facilities is available in almost all villages in the district .

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table indicates the number and proportion of rural population served by different essential amenities. Out of 1,172,112 persons in the districts 99.7 per cent (1,169,086) population is availing educational facilities and 52.1 per cent (610,935) public has access to medical facilities while 1,147,941 or 97.9 per cent population have got improved drinking water facility. Simultaneously, 47.8 per cent persons are availing postal service, 15.8 per cent persons have telephone service and 16.3 per cent persons are availing bank service facility. The agricultural credit society facility is available much more than the bank facility. Power supply is available to 1,166,777 (99.5 per cent) rural population in the district where as approach roads and medical facilities are available almost in the same proportion i.e. 53.2 per cent and 52.2 per cent to the rural part of the district.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of		Distance range of place from the villages where the amenity is available			
		Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
	1	2	3	4	5
1.	Education :-				
	(a) Primary School	18	0	0	18
	(b) Middle School	528	68	1	597
	(c) Degree College	123	253	506	882

Village not having the amenity of		Distance range of place from the villages where the amenity is available			
		Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1		2	3	4	5
2.	Medical:-				
	(a) Hospital	112	286	482	880
	(b) PHC	137	288	433	858
3.	Post Office	563	88	12	663
4.	Telephone	202	253	367	822
5.	Bus Service	409	190	57	656
6.	Banks				
	(a) Commercial Bank	245	321	280	846
	(b) Cooperative Bank	58	81	722	861
7.	Agricultural Credit Societies	388	254	118	760

The above table indicates that there is no primary school facilities in 18 villages and children have to travel less than 5 kms. schooling. Out of 889 inhabited villages, 597 villages have no middle school facility within the village and 882 villages have no graduation colleges. Children of 528 villages have to travel less than 5 kms for middle school and college going students of 123 to 506 villages have to travel less than 5 kms. to more than 10 kms.. Similarly 880 and 858 villages lack hospital and public health center facilities respectively of which people of 574 villages have to travel 5 to 10 kms. and 915 villages have to travel more than 10 kms to avail this facility.

663 villages do not have post office facility within the village. Out of 663 villages, maximum i.e. 563 villages avail this facility within the distance of 5 kms. 88 villages avail this facility at a distance of 5 to 10 kms. and the remaining 12 villages have to travel a distance of more than 10 kms.

Telephone facilities are also lacking in 822 villages of the district. Out of these villages, 202 villages avail it at a distance of less than 5 kms. , 253 villages at a distance of 5 to 10 kms. and 367 villages have this service available at a distance of 10 kms. or more.

Out of 889 villages ,656 villages are lacking in bus service facilities, 409 villages avail it within 5 kms., 190 villages within a distance of 5 to 10 kms. and remaining 57 villages have to travel a distance of 10+ kms to avail this facility.

846 villages of the district are not provided with commercial banks and 861 villages have no co-operative banks. Out of them, 245 villages avail commercial bank service at a distance of less than 5 kms., 321 villages within 5 to 10 kms. and 280 villages have to travel a distance of more than 10 kms for this facility. Out of 861 villages, 58 villages are provided with co-operative banks at a distance of less than 5 kms., 81 villages within 5 to 10 kms., and remaining 722 villages at a distance of 10+ kms.

760 villages do not have agricultural credit societies. In 388 villages, this facility is available at a distance of less than 5 kms., in 254 villages, at a distance of 5-10 kms. and people of remaining 118 villages have to travel more than 10 kms to avail this facility.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDIG TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory	Number of inhabited villages in each range	Type of amenity available							
		Education	Medical	Post Office	Telephone	Transport communica-tions	Banks	Agricultural Credit Societies	Approach by pucca road
1	2	3	4	5	6	7	8	9	10
less than 5	62	58	19	17	7	23	2	8	36

	(100.0)	(100.0)	(0.0)	(0.0)	(0.0)	(0.0)	(0.0)	(100.0)	(0.0)
District total	889	871	308	226	67	257	53	129	342
	(100.0)	(98.0)	(34.6)	(25.4)	(7.5)	(28.9)	(6.0)	(14.5)	(38.5)

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table reveals that out of 889 inhabited villages in the district, 62 villages are nearest to the town within a distance of less than 5 kms, out of which 58 (93.8 per cent) villages are having different type of educational facilities, 19(30.6 per cent) villages have Hospital or Public Health Centre facilities, 17 (27.4 per cent) villages are having postal facilities and 7 (11.3 per cent) are having telephone facilities, 23 (37.1 per cent)villages are linked with transport facilities. Two villages constituting 3.2 per cent have been provided with bank facilities, while 8 villages constituting (12.9 per cent) avail agricultural society facilities and 36 villages i.e 58.1 per cent avail Pucca approach road.

There are 394 inhabited villages in the district which are situated within the radius of 5 to 15 kms. Out of these villages ,Educational facilities are available in 384 (97.5 per cent) villages. Medical facility in 52 (38.6 per cent)villages, postal service in 104 (26.4 per cent) villages , telephone facility available to 38 (9.6 per cent) villages , bus or transport services available to 122 (31.0 per cent) villages ,bank service facility available to 22 (5.6 per cent) villages ,agricultural credit society facilities available to 63 (16.0 per cent) villages and the remaining 173 (43.9 per cent) villages are having pucca roads.

431 villages fall within the distance of 16 to 50 kms. out of which 427 (99.1 per cent) villages are provided with educational facility, 137 (31.8 per cent) with medical facility, 104 (24.1 per cent) with post office facility and 22 (5.1 per cent) villages with telephone connections. There are 112 (26.0 per cent) villages with transport communication facility, 29(6.7 per cent) with bank facilities, 57 (13.2 per cent) with agricultural credit societies and 132 (30.6 per cent) villages are availing pucca road facilities.

There is only one village situated beyond the range of more than 51 kms. in the district and is availing educational, postal and pucca approach road facilities and there is one unspecified village which is availing education and agricultural credit society facilities.

TABLE 41 : DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Population range	Number of inhabited villages in each range	Type of amenity available

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table No.41 gives the distribution of villages according to population range and amenities available in the district. Out of 889 villages, most of the villages avail education, improved drinking water and power supply facility in all ranges of population and even in the range of 5,000-9,999 population, almost all villages have all type of amenities available though there is no village in the range of 10,000 and above population.

In respect of other amenities like medical, post office, telephone, transport and approach road facilities, they are found much in the range of 2,000-4,999 as compared to the population range of 1,000-1,999. The telephone, bank and agricultural credit society facilities are available in 67 (7.5 per cent), 53 (6.0 per cent) and 129 (14.5 per cent) villages respectively in the district. The above table shows the number of villages availing these facilities .

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Akaltara	79	37,526	62.6	79.7
2	Baloda	91	35,407	65.2	50.3
3	Nawagarh	108	57,448	71.7	92.0
4	Bamhnidih(Champa)	79	31.833	71.4	36.1
5	Shakti	123	30.980	69.8	4.4
6	Pamgarh	71	42.610	69.8	90.7
7	Dabhra	126	41.964	76.2	17.4
8	Malkharoda	110	34.035	77.4	18.5
9	Jaijaipur	102	43,954	79.6	18.1
District Total:		889	355,757	71.7	47.5

Note : - Cultivable area = irrigated area + unirrigated area

The above table represents CD Blockwise distribution of villages according to land use area available for cultivation with irrigated or unirrigated land in the district. There are 9 CD Blocks consisting 889 villages in the district having total area of 355,757 hectares. Of this 71.7 per cent area is cultivable and 47.5 per cent of total cultivable area avails the irrigation facility.

It has been seen that per centage of cultivable area to total area is highest 79.6 per cent in Jaijaipur CD Block and is lowest 62.6 per cent in Akaltara CD Block. The per centage of irrigated area to cultivable area is highest 92 per cent in Nawagarh CD Block and lowest 4.4 per cent in Sakti CD Block.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita expenditure								
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1 III	Akaltara (NP)	195	37	158	212	73	41	0	43	55
2 IV	Baloda (NP)	355	18	337	303	50	67	31	9	146
3 III	Champa (M)	368	112	256	226	53	112	38	0	24
4 V	Kharod (NP)	95	7	88	116	73	6	23	1	13
5 III	Naila Janjgir(M)	168	19	149	161	93	1	16	4	48
6 V	Naya Baradwar (NP)	459	255	204	437	63	80	64	42	188
7 III	Sakti (NP)	333	112	221	326	159	30	40	10	87
8 V	Shivrinarayan (NP)	416	207	209	274	41	2	7	0	223
	District Total	284	79	205	235	80	48	26	11	69

Table No.43 shows that the average per capita receipts for towns of the district Janjgir is 284, out of which 79 rupees are earned through local taxes and the remaining 205 rupees from all other sources. The average of total expenditure incurred per capita is Rs.235,out of which Rs.80 is spent on general expenditure, Rs.48 on public health and conveniences and Rs. 26 on public works, Rs.11 on public institutions and Rs. 69 is spent on other items.

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Akaltara (NP)	7.4	2.5	2.5	2	0.5
2	Baloda (NP)	7.9	4.4	2.6	1.8	0.9
3	Champa (M)	6.1	2.9	1.6	1.3	0.3
4	Kharod (NP)	5.8	2.3	1.2	1.2	1.2
5	Naila Janjgir (M)	10.5	4.6	3.4	2.8	0.6
6	Naya Baradwar (NP)	6.4	3.2	3.2	3.2	0
7	Sakti (NP)	4.9	3.0	2.0	2.0	0.5
8	Shivrinarayan (NP)	7.4	3.7	2.5	1.2	0
	District Total	7.3	3.4	2.3	1.9	0.5

The above table shows that among the urban area of Janjgir district, there are 7.3 primary schools,3.4 Junior Secondary/middle schools , 2.3 higher secondary or matriculation schools, 1.9 Senior Secondary schools and the ratio of colleges is only 0.5 colleges per 10,000 persons. Among the towns, the ratio of primary and other institutions is highest in Naila Janjgir (M) (10.5 per cent) while lowest (4.9 per cent) is found in Sakti (NP).

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Akaltara (NP)	3
2	Baloda(NP)	26
3	Champa(M)	40
4	Kharod(NP)	35
5	Naila Janjgir(M)	14
6	Naya Baradwar(NP)	10
7	Sakti (NP)	15
8	Shivrinarayan(NP)	12
	District Total	21

Table No.45 represents the townwise number of beds available in medical institutions per 10,000 persons. On an average, there are 21 beds per 10,000 persons in urban areas of the district, whereas it is the highest 40 in Champa(M) while lowest with 3 beds is recorded in Akaltara (NP) town.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Akaltara	20,367	3,235	15.9
2	Baloda	11,331	4,331	38.2
3	Champa	37,951	9,526	25.1
4	Kharod	8,606	8,478	98.5
5	Naila Janjgir	32,513	5,445	16.7
6	Naya Baradwar	6,231	2,110	33.9
7	Sakti	20,213	4,335	21.4
8	Shivrinarayan	8,107	3,428	42.3
	District Total	145,319	40,940	28.2

Table No.46 exhibits the proportion of townwise slum population of the district. Out of 145,319 urban population, 40,940 i.e. 28.2 per cent persons are residing in slum areas of the district. Kharod town has the highest 98.5 per cent of slum population and Akaltara has lowest 15.9 per cent of slum population.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Akaltara (N.P.)	Rice	Rice
		Bricks	Cement
		Cement	Stone
2	Baloda (N.P.)	Gold Ornaments	Rice
		Kosa Cloth	Handloom Cloth
		Earthen Pots	Lakh
3	Champa (M.)	Kosa Cloth	Kosa Cloth
		Bronze Utensils	Bronze Utensils
		Gold, Silver	Gold,Silver
		Jewellery	Jewellery
4	Kharod (N.P.)	Wooden Furniture	Stone Bolder
		Jewellery	Stone Slipper
		Cloth	Crusher Dust
5	Naila Janjgir (M.)	Rice	Rice
		Tiles	Tiles
		Wooden	Wooden
		Furniture	Furniture
6	Naya Baradwar (N.P.)	Rice	Rice
		Dolomite	Dolomite
		Pulses	Pulses
7	Sakti (N.P.)	Utencils	Rice
		Handloom Cloth	Utencils
		Bidi	Handloom Cloth
8	Shivrinarayan (N.P.)	Earthenpots	Paddy
		Gold,Silver,Jwellery	Bricks
		Tiles	Sand

The above table reveals that the district is a part of a state known as the 'rice bowl' which is well known for rice production , mainly exported from Akaltara (NP), Baloda (NP), Naila Janjgir (M), Naya Baradwar (NP) and Sakti (NP) towns. Regarding other commodities ,Akaltara is famous for cement manufacture, Champa (M) for Kosa cloths and Sakti (NP) for manufacture of bronze and copper utensils. The district as a whole has rich cement and dolomite mines concentrated much in Akaltara and Naya Baradwar town areas.

(x) Brief analysis of the data on houses and household amenities, Houselisting Operations (Census), Census of India 2001 based of Inset tables 48-52

Inset tables 48-52 are based on Houselisting data pertaining to Census 2001. These tables reflect the tenure status, distribution of households living in permanent, semi-permanent and temporary houses, per centage of households having different amenities and per centage of households by type of fuel used for cooking.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

This table shows the number of households by tenure status and number of rooms occupied in the district. The total number of households in the district is recorded as 265,792 comprising 238,840 rural and 26,952 urban households. Out of the total households, 66,077 households belong to Scheduled Castes and 33,498 to Scheduled Tribes. 250,189 households are living in average median of 2 rooms per household in their owned houses. Out of these, the largest number of households (94,332) occupies (38 per cent) single roomed houses followed by 91768 households with two roomed houses, 34,347 households with three roomed houses and households having more than three rooms are 28,102.

Out of total number of households in the district, the households dwelling in rented houses are 8,782 (4 per cent). The largest number of 3,229 (1 per cent) households are dwelling in two roomed houses followed by two single room houses with 3,223 (1 per cent). Households dwelling in three roomed houses are 1698 while 562 households are having more than three roomed houses which might be of high status household and are high salaried service class households.

Households which have no exclusive rooms are 2,097 forming one per cent of which 1,640 households are owned but no exclusive living room, 70 households are living on rented houses and 387 households are others who are compeled to live without exclusive living room.

The total number of households in the district is 265,792 of which 6,607 (25 per cent) households are Scheduled Castes and 33,498 (13 per cent) households belong to Scheduled Tribe households. Out of 66,077 Scheduled Caste households, 63,995 (97 per cent) households have their own houses, 854 (1 per cent) have rented and 1,228 (2 per cent) have not owned and rented but availing free or sharing the houses.

In respect of Scheduled Tribe households 31,748 (95 per cent) households have their own houses, 763 (2 per cent) are accommodating in rented houses and 200 (1 per cent) households have not owned/rented but free or sharing with dwelling houses. In view of the Scheduled Caste and Scheduled Tribe households, they prefer not to live in rented or other tenural houses excluding households who live in urban areas.

TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI-PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	Name of Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note:-

Permanent : 1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e. where, burnt briks. G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugaed iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concrete are used for roof.

Semi permanent : 2 Semi-permanent houses refer to those houses made of other types of materials.

Temporary : 3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks wood etc. are used for roofs.

Table No.49 reveals that 30.1 per cent of households of the district are in permanent houses, 69.0 per cent households are in semi-permanent houses and 0.9 per cent households are living in temporary houses.

At the district level, most of the urban households i.e. 59.6 per cent are living in the concrete houses, 40.0 per cent in semi-permanent houses and 0.4 per cent households are in temporary structural houses.

At tahsil level, the lowest per centage of 21.8 per cent households occupy permanent structure in rural area in Pamgarh tahsil while highest per centage of 30.8 per cent is seen in Jaijaipur tahsil. The proportion of semi-permanent houses in rural area of Pamgarh tahsil is high (77.9 per cent) and low in Jaijaipur (68.7 per cent) tahsil. The proportion of temporary houses is quite low in all tahsils in respect of rural and urban areas.

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

*Based on the improved drinding water source, drinking water source, drinding water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is comsidered as having access to 'Inproved drinking water source'.However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note: Percentage is to be given in brackets after the number of households. Bathroom means bathroom within the house Toilet means toilet within the house. Drainage menas closed and open drainage.

Table No.50 indicates that 66.5 per cent households in the district are provided with improved drinking water sources supplied by tap, hand pump and tube well, 64.9 per cent households are obtaining electricity in their houses. The bathroom facility is available only to 5.8 per cent households within the premises. As regards rural areas, only 2.7 per cent households are having bathroom facility whereas this proportion in urban areas comes to 32.9 per cent

The facility of electricity is 62.9 per cent in rural and 82.9 per cent in urban areas. Toilet and drainage facility in the district are available in 8.8 and 13.0 per cent households. The per centage is higher in urban areas as compared to rural areas because transportation facilities are accessible in urban areas. The trend and pattern of these amenities at tahsil level is almost the same as at the district level.

The pattern and per centage distribution of households by nine types of fuel used for cooking is given in table 51. It has been observed that wood is used much for cooking in both rural (81.1 per cent) and urban areas (65.1 per cent) of the district. Among the tahsils the proportion varies between 81 per cent in Pamgarh and 93 per cent highest in Jaijaipur tahsil. In rural areas, use of wooden fuel is very high while in urban areas, it is less in use except Pamgarh tahsilwhich is though an urban area, the per centages of wooden fuel usage (90 per cent) is highest in the district. The next highest fuel used by households is cow dung cake (7.3 per cent) and cooking gas(17.1 per cent)in urban areas of the district. Kerosene oil stands third that appears much in use by the urban households (10.4 per cent). The other fuels are not used much due to their less availability.

		Urban	269,52	9,249	6,990	13,271	2,605	16,454	5,251	579	6,938

This table presents data for total, rural and urban at district/tahsil level households availing banking services and movable assets. In the district there 265,792 households out of whom 50,525 households are availing bank service, 45,141 households have either transistor or radio, 52,693 have television. The households possessing telephone are 4,984, bicycle with 158,848 and households possessing either scooter, motor cycle or moped are 19,528, 2012 household are having car, jeep/van and there are 90,039 such households who have none of these specified assets available in the district.

(xi) Major social and cultural events, natural and administrative developments and significant activities during the decade :

Bilaspur district was reorganized by dividing and creating a separate district of Janjgir-Champa on 25.5. 1998. Nawagarh, Malkharouda and Jaijaipur tahsils were created.

In social and cultural field on 4-5 January 2000, state-level agriculture mela "AGRITECH" was organized. As natural calamity on 14th September 1997, Howrah-Ahmedabad express met with an accident in which hundreds of passengers died on the spot.

On February 2000, three-tier Panchayati Raj system was introduced in the district.

(xii) Brief description of places of religious, historical or archaeological importance in villages and places or tourist interest in the towns of the district.

(1) Sheorinarayan : According to public version, during the Ramayan Period, God Shri Ram had eaten the refused 'ber' of Shabri there. Perhaps for this reason the place is named Sheorinarayan. This famous religious tourist spot earns a great respect from Hindus of Chhattisgarh, Orissa, Madhya Pradesh and Bihar. From the archaeological view point also Nar-Narayan Temple built by Kalchuri rulers is very important. According to ancient books the significance of this temple is equivalent to Prayagraj and Jaganathpuri.

(2) Kharod : This place had been the centre-point of many historical dynasties and is very important ever since prehistoric time and archaeological point of view. Remains of ancient buildings and temples built in 1000 A.D. can be seen here. Famous "Laxmaneshwar" temple is situated here.

(3) Janjgir : This city which was built by Kalchuri king , Jajwaldeo, the grandson of Prithvideo, is the head-quarter of the district. In the centre of the city, there is an incomplete Vishnu Mandir situated on the western coast of ancient Bhima Talab and is a unique piece of Indian archaeological art. This architecture of this temple is similar to Khajuraho, which was its contemporary and is excellent and beautiful.

(4) Adbhar : This place holds an important position in Indian archaeology which was the centre of meditation (Sadhna) and power of Aghor panth. The ancient ruins of archeology is a unique piece of art and creates curosity. Built between 10th and 12th centuries "Ashtbhuji Mandir" is the centre of faith and is worth-seeing.

(5) Rishabhtirth : About 20 km north of Sakti tahsil Rishabhtirth is situated which is a natural tourist place and in ancient times it was the land of meditation for sages.. In the rock-inscriptions, it is mentioned, that Satwahan kings used to perform "Yagyan"and "Godan" in this place.

(6) Chandarpur : There is ancient place of pilgrimage called 'Chandrahasini Devi' situated on the hills on the bank of Mahanadi and is 120 km south-east of Janjgir, the district head-quarter, Chandarpur is famous for its unique manufacturing skills and skilful craftmanship of the weavers.

(7) Kuleshwar Mahadeo(Champa) : This temple is situated on the junction of river Mahanadi, Sondhur and Pairy, which is built on "Nagar Shaily". There are two 'Garbhgrih' in this mandir. In the first, there is 'Linga' of Kuleshwar Mahadeo and in the second there is beautiful statue of Bhagwati Ma Durga. At the junction place there is Ashram of Maharsi Lomous Rishi. Every year 'Panchkoshi' Parikrama(Yatra) is done and numberless devotees and believers come and pay respect to Kuleshwar Pateshwar, Champeshwar, Brahmishwar, Phanikeshwar, Karpureshwar and Soneshwar Mahadeo. This 'yatra' is done in the months of Aghan and Magh.

(8) Laxmaneshwar Mahadeo (Kharod-Janjgir-Champa) : This Mandir built during Kalchuri Rule is grand and artistic. According to hearsay, Laxman, the brother of God Rama had established Shivlinga and had done penance, that is how it is known as "Laxlinga" or Laxneshwar Mahadeo. Pores in eight-angled Shivlinga number more than a lac. On its side there is the statue of Ganga-Jamuna which is worth seeing.

Important Fairs:

Notable fairs of the District are Sheorinarayan, Pithampur and Admar. Nawagarh fair of Lingeshwar-Mahadeo lasts for 8 days. A small fair is organised at

Sidh-peeth, Ma Chandi Kaira. Every year on Nagpanchmi, Sheorinarayan fair runs for 15-20 days each year on Magh-Purnima. There is a fair in Chanderpur on the bank of Mahanadi on top of the hill, on Quanr of Navratri for Chandrahasini Devi.

(xiii) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

Champa was famous for Gold, Kosa and bell-metallic art from the beginning. The district is known for its folk dance and folk culture. In the great festival of "Rout-Nacha" of Yadu-dynasties, a deep emotion of public welfare is seen. Every year, a technical fair "Agritec" is organized in which sale and demonstration of improved agricultural machinaries, improved seeds, and modern technical knowledge is giving profitable knowledge to farmers. It has vast store of protected ancient wealth.

The district is known for its Amar Shaheed Memorial, the work of Rashtra-bhakht and contribution of learned literary figures. The contribution of Thakur Chhedilal, barrister in making the Constitution of India, in 1946, he was the only member from Madhya Pradesh for making the draft of Constitution Sabha. Apart from this, Thakur Jwala Prasad, Bhuvan Bhasker, Amarsingh Saigal, Jadunandan Prasad, Ramgopal Tiwari etc. were historical legends, of the past. The contribution of Kuldeep Sahay, Thakur Rajendra Kumar Singh, Bishahu Das Mahaut and present Member of Parliament charan Das Mahant cannot be forgotten.

On 13.12.2001, when terrorists had attacked the Parliament Building, the son of the soil of Janjgir, a young commando named Kamlesh Yadav, with his exemplary valour and mental ability, had forced to surrender the terrorists and thus the name of Janjgir was recorded in history with golden letters.

Pandit Ramrakshit, well known psychiatrist, Sheshnath Sharma "Sheel", a lyricist, Pandit Yognidhi Shastri, Pandit Jagdish Chandra Tiwari, a wonderful personality, Superintendent Engineer Ratna Nalinendra Singh etc., the great personalities have done unmatehead and memorable work for the upliftment of Janjgir-Champa.

(xiv)Scope of Village Directory and Town Directory

Village Directory :

The Village Directory is one of the traditional compilations of the census organisation and provides the consolidated picture of each village as revealed by the availability of existing amenities, land use pattern, composition of its population and other infrastructural details. This will be of immense help to identify the areas of surplus and deficit requiring the attention of planners and administrators for rescheduling the development process in appropriate direction. The format of village directory has 25 columns providing village-wise data of location, area, population, land use pattern and amenities etc.

The details of each column of village directory are explained as below :

Column-1 Serial number of the village is indicated in this column.

Column-2 gives the name of the village and permanent location code number (PLCN) assigned to each village in serpentine manner from north-west to south direction and is essential for identification of village. The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tahsil of first district of the state to the last village of last tahsil of the last district. In the state of Chhattisgarh first PLCN 00000100 has been assigned to village 'BADWAHI' in Bharatpur tahsil of Koria district which happens to be first village, tahsil and district while the last PLCN of 02030800 has been assigned to the last village 'SINKAWAYA' of the state in Konta tahsil of Dantewara district which happen to be last as per procedure adopted for assigning location code number. The district census handbook of 1991 Census as well as updated district and tahsil maps and services of local revenue officers/officials have been used to assign the PLCN to the villages. The last two zeros will be used if new villages are created out of existing villages in subsequent census. Before 2001 census, village location code number used to change from one census to other due to change in jurisdictions or

creation of villages or merger of villages in urban areas. The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective Tehsildar of each tahsil.

Column-3 shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns – 4 and 5 gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in village.

Columns 6 to 9 deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure the accuracy of information provided. In such cases where no facility is available within a village, a dash (-) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, so as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained separately in the subsequent section. The list of colleges, senior secondary schools, hospitals, post and telegraph offices in the district as obtained from the concerned departments are also added in the form of annexures at the end.

Column-10 shows the number of banks – Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11 relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12 shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/auditorium facility available in the villages.

Column-13 Indicates the type of communications amenities such as by bus, railway or navigable waterway available to the village.

Column-14 refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15 gives the information of the nearest town and its distance in Kms. from the village in brackets from the referent village. In case, the nearest town is located in another state, the name of the state has also been furnished.

Column-16 relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17 gives the information as to whether newspapers/magazines are received in the village.

Column-18 gives the information of most important commodities manufactured in the village.

Columns- 19 to 23 give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories. These are as follows :

i) Forests

ii) Irrigated

iii) Unirrigated

iv) Culturable waste (including Gauchar and Groves)

v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or private and whether wooded or maintained as potential forest land. The crops raised in the forests and grazing lands or areas open for grazing within the forest is

also included under the forest area.

Column 20 and 21 show area irrigated by different sources of irrigation and un-irrigated area. These two columns cover all agricultural land which equals to net cropped area sown with crops and orchards including current and other fallow lands. In case of irrigated land, the source of irrigation has also been indicated.

Column-22 Culturable waste : This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Lands under thatching grasses, bamboo bushes and other groves for fuel etc., which are not included under orchards or forests come under this column. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column.

Column- 23 Area not available for cultivation : This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water etc. Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost.

Town Directory :

The Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information.

Statement-I Status and Growth History :

The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001. Civic administration status of each town is shown under column 2 and Location Code number in column 3 whereas column 4 indicates the name of tahsil/sub-tahsil to which town belongs. While column 5 shows the name of CD Block, area of each town in sq. kms. is depicted under column 6 column 7 deals with the number of households including houseless households as per the 2001 Census. Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001. Column 19 of the statement shows density of towns as per the 2001 Census. Columns 20 to 22 depict the sex ratio from 1981 to 2001 Census.

Statement-II Physical Aspects and Location of Towns, 1999

In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5. Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tahsil/sub-tahsil headquarters. Column 9 shows the name of nearest city with population of one lakh or more and columns 10 to 12 give information regarding name and road distance of the nearest railway station, bus route, navigable river/ canal (if within 10 Kms.)

Statement-III Municipal Finance, 1998-99

This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads. There are in all 16 columns in the statement showing receipt and expenditure under different heads.

Statement IV Civic and Other Amenities, 1999

The statement displays the information under 20 columns. The amenities about which information has been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage

and other related matters such as water supply, fire fighting services and electrification etc.

Statement-V Medical, Educational, Recreational and Cultural Facilities, 1999

This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution. Educational facilities by level/type of courses and recreational and cultural facilities.

Statement-VI Trade, Commerce, Industry and Banking, 1999

This statement presents the information under 11 columns in respect of each town. Columns 3 to 8 indicate three most important commodities imported, exported and manufactured in the town. Information on number of banks available in the town appears under column 9 Columns 10 and 11 shows number of agricultural and non-agricultural credit societies operating in each town respectively.

Statement-VII Civic and other amenities in Slums, 1999

This statement gives the information relating to civic and other amenity in respect of slum areas of towns, where the population exeeds 50,000 as per 2001 census. The codes used in col. 8 and 13 are the same as for statement IV.

PART A - VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a) Notes explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post office, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6: Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,	O etc.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Sorce	SS-

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agicultural Credit Societies, Non Agricultural Credit Sd in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i) Agricultural Credit Society	ACS
(ii) Non-Agricultural Credit Society	NCS
(iii) Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i) Cinema / Video Hall	CV
(ii) Sports Club	SP
(iii)Stdium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i) Electricity for domestic use	ED
(ii) Electricity for agricultural use	EAG
(iii) Electricity for other purposes	EO
(iv) Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A,VII B The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Shows number of different types of girls school in a village.

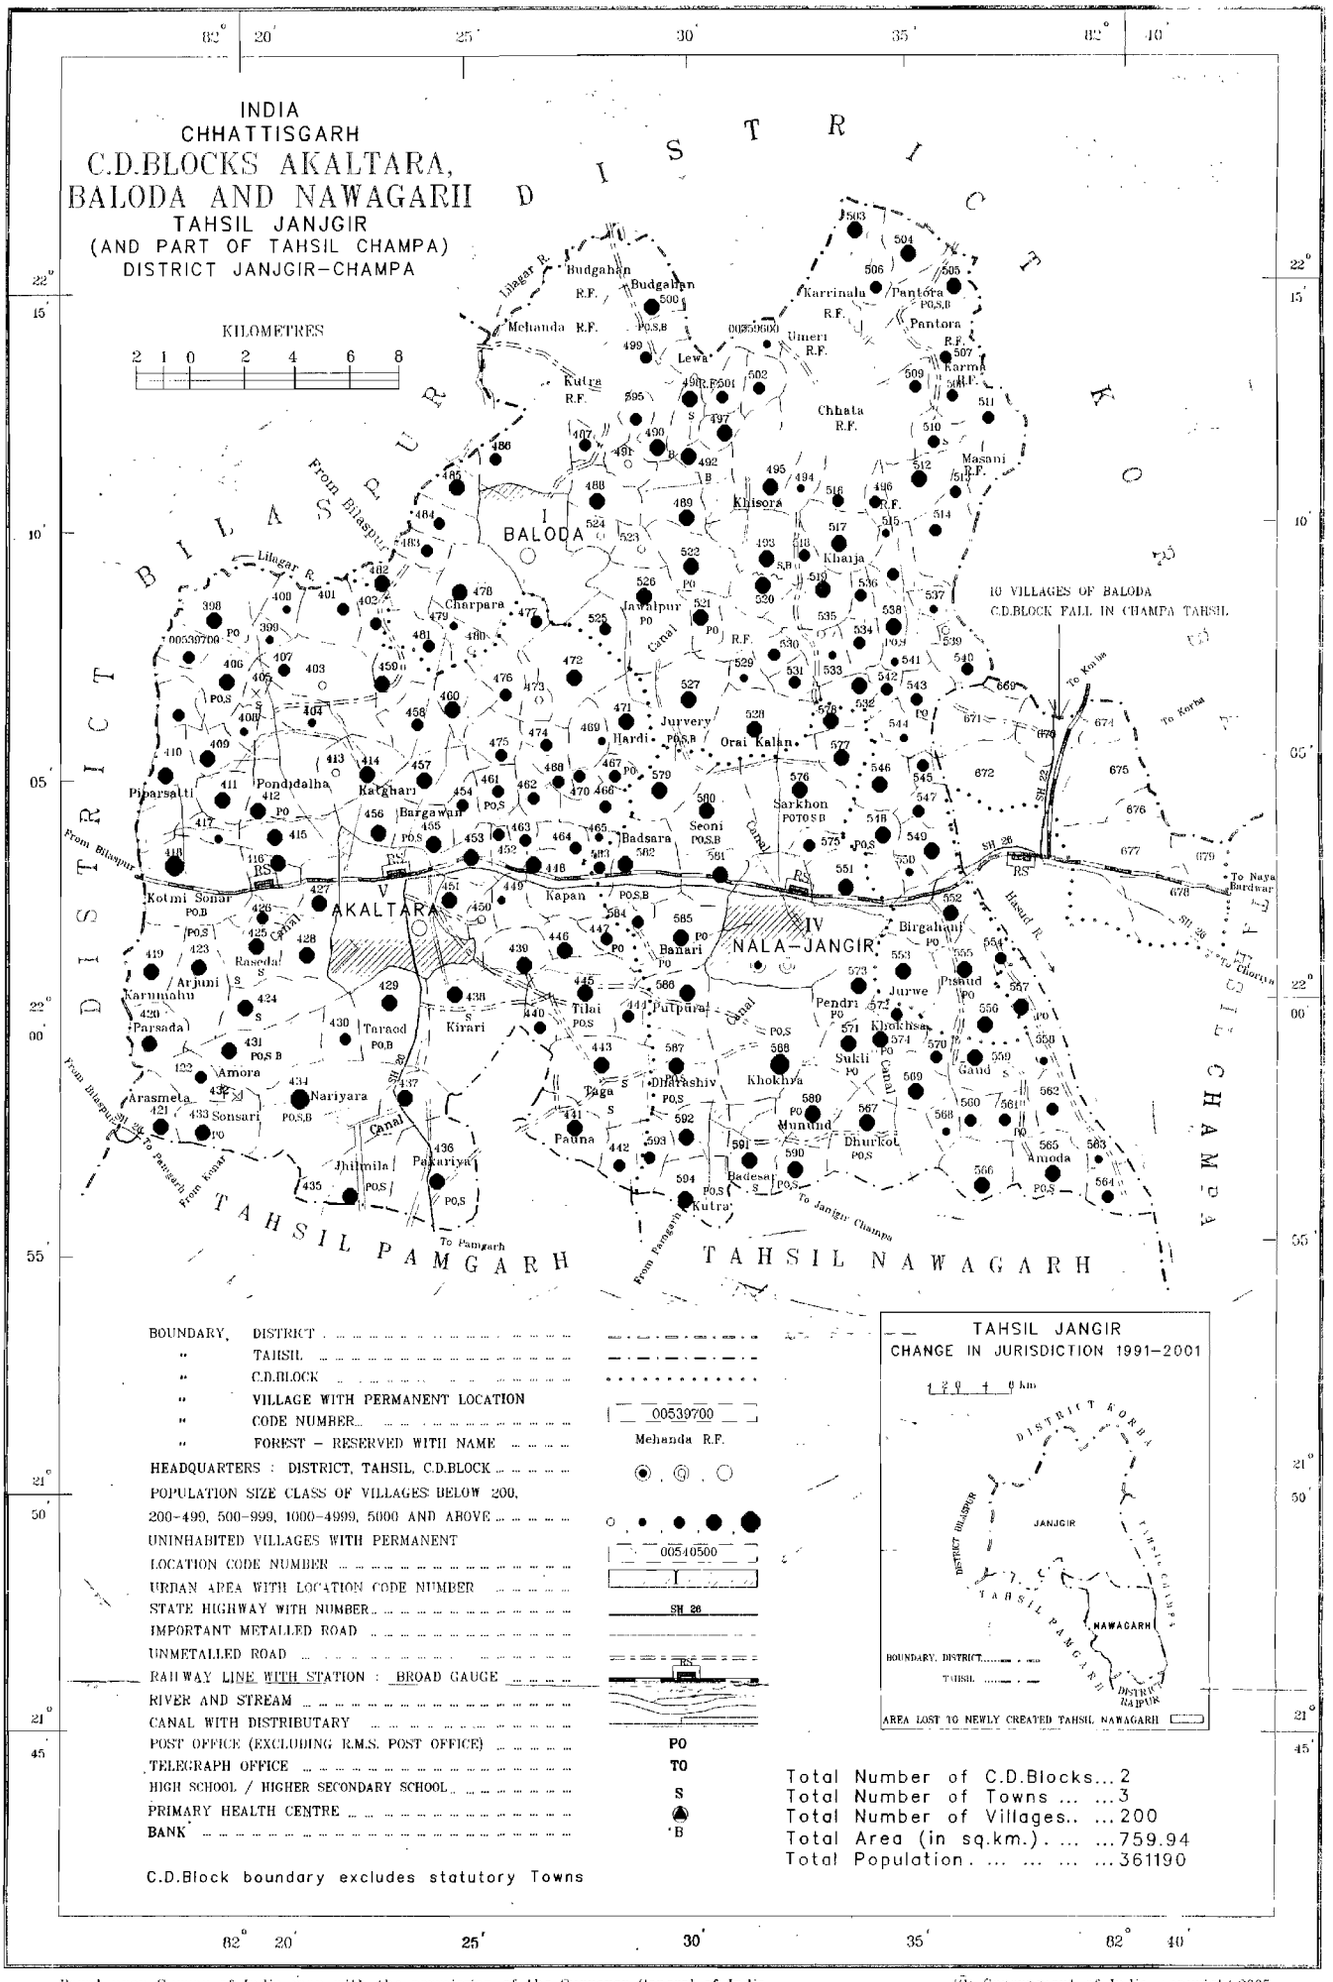

(b) List of Villages merged in towns and outgrowths at 2001 Census

Name of the District	Name of Town	Name of Villages merged in towns	Fully/Partly Merged
Janjgir		Nil	

(c) CD blockwise presentation of Village Directory Data

(i) CD Block Maps showing Tahsil Boundary :

SECTION II TOWN DIRECTORY

Notes Explaining the Codes Used in the town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column (14).

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14: Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as

three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT-I

PART B - PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual

Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In

1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE-II

NOTE ON FERTILITY, MORTALITY AND MIGRATION - 1991 CENSUS

Fertility Levels :

Births, deaths, and migration are three components of population change in any geographical unit. Fertility is a major component of population growth. In the 1991 Census, questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were canvassed to generate the table of fertility. The first three questions were asked to all ever-married women and the last question related to currently married women. The various measures of fertility worked out are based on the district level estimates of fertility and child mortality for 1991.

Mortality analysis is one of the most important branches of demographic studies. This branch deals with the demographic event of death. Since death is a biological phenomenon that occurs just once to each individual, the analysis is simpler than, say, the study of fertility wherein the event of birth can occur with varying frequency among women.

Migration is an important aspect in the area of Population Studies. There is an increase in population of any community or country due to births or in-migration, whereas there is a decrease in the population of its residents due to deaths or migration. In other words, migration is an important reason for the change in size and composition of population. Those areas are affected by migration from where migrants go or where they have gone.

The migration tables of the 1991 Census are mainly based on the questions on place of birth, place of last residence, duration of residence at the place of enumeration and reason for migration included in the individual slip. These tables generated on computer provide the distribution of population by place of birth, distribution of migrants by place of last residence, duration of residence and reason for migration. The data on intra-district, intra-state and inter-state migration streams and in-migration from abroad are presented in these tables.

ANNEXURE III (i)

MEASURES OF FERTILITY IN THE STATE AND DISTRICT - CENSUS 1991

State : Undivided Madhya Pradesh District :Janjgir-Champa(Newly formed from Bilaspur)

Fertility Measures	District : Un-divided Bilaspur		State : Un-divided Madhya Pradesh	
	1981	1991	1981	1991
General Fertility Rate (G.F.R.)	147	153	167	161
General Marital Fertility Rate (G.M.F.R.)	169	179	192	188
Total Fertility Rate (T.F.R.)	4.70	4.71	5.30	4.92
Total Marital Fertility Rate (T.M.F.R.)	5.30	5.58	5.90	5.73
Crude Birth Rate (C.B.R.)	34.14	35.33	37.96	32.79

(Source - Estimate of Fertility Indicators at District Level - M.P.1991)

Since Chhattisgarh was a part of Madhya Pradesh in 1991, the data of undivided Madhya Pradesh is presented in respect of Chattisgarh State.

According to the table, all the measures of fertility of the district except CBR are lower than the corresponding state average. The GFR, TFR of the district shows decline in 1991 over 1981figures whereas GMFR, TMFR and CBR have increased in 1991 over 1981. All the measures of the state shows decline in 1991 when compared with 1981 measures.

ANNEXURE III (ii)

MEASURES OF FERTILITY AND MEANAGE AT MARRIAGE IN THE STATE AND DISTRICT - CENSUS 1991

State : Un-divided Madhya Pradesh District :Janjgir-Champa(Newly formed from Bilaspur)

Fertility Measures	District : Un-divided Bilaspur			State : Un-divided Madhya Pradesh		
	Total	Rural	Urban	Total	Rural	Urban
No. of children ever born to each married woman in the age group 45-49	4.52	4.57	4.24	4.83	4.93	4.46
Mean age at marriage	16.53	16.37	17.38	16.62	16.39	17.48
Child Woman Ratio (0-4 years)	596	619	492	599	629	507

(Source:- District Profile of Madhya Pradesh 1991)

Chhattisgarh was a part of Madhya Pradesh state during Census 1991. As such the data pertaining to undivided Madhya Pradesh is presented in respect of Chhattisgarh state.

The average number of children born to each married woman in the age group 45-49 of district 4.52 is lower than the state average 4.83. This measure of the district in the Rural and Urban segment is also lower as compared to the corresponding figures of the state.

The average mean age at marriage of women for district is 16.53 which is close to state average 16.62. The child woman ratio of women in the age group 15-49 for children 0-4 years of the district is 596 which is also very close to state average 599. This measure is higher in rural area as compared to urban area in case of both the district and the state.

ANNEXURE III (iii)

CHILD MORTALITY RATE IN THE STATE AND DISTRICT : CENSUS 1981-1991

State : Chhattisgarh District : Janjgir-Champa(Newly formed from Bilaspur)

		Persons				Male				Female

(Source - Estimate of Mortality Indicators by sex at district level-M.P.1991)

Chhattisgarh was a part of Madhya Pradesh state during Census 1991. As such the data pertaining to undivided Madhya Pradesh is presented in respect of Chhattisgarh state.

The table reveals that there has been remarkable decline in the child mortality rate in 1991 as compared to 1981 and these are lower than state averages in 1991 for all age classification.The decrease in child mortality rates of females under q(1), q(2) and q(3) has been more when compared with the corresponding figures of state.

The decrease in child mortality rates of females under q(1), q(2) and q(3) has been more when compared with the corresponding figures of state.

ANNEXURE IV(I)

POPULATION OF INMIGRANTS IN THE DISTRICT BY PLACE OF BIRTH : CENSUS 2001

State- Chhattisgarh | District : Janjgir - Champa

Birth Place	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	368,441	53,086	315,355
	(95.7)	(14.4)	(85.6)
(A)Within the district but outside Enumeration place	268,734	33,928	234,806
	(69.8)	(12.6)	(87.4)
(B)Birth place in other district of State	99,707	19,158	80,549
	(25.9)	(19.2)	(80.8)
(ii) Place of Birth in other states of India than the state of Enumeration	16,261	8,063	8,198
	(4.2)	(49.6)	(50.4)
(iii) Birth place in Foreign	248	140	108
	(0.1)	(56.5)	(43.5)
(iv) Unclassified	0	0	0
	(0.0)	(0.0)	(0.0)
Total Immigrants	384,950	61,289	323,661
Persons born in the place of enumeration	932,481	598,099	334,382
Total population	1,317,431	659,388	658,043

(Source- Migration Table D-1)

Note: Percentages are given in brackets.

Janjgir and Chhattisgarh were a part of District Bilaspur and State Madhya Pradesh respectively in Census 1991. As such, the figures pertaining to undivided Bilaspur and state Madhya Pradesh is presented in respect of district Janjgir and state Chhattisgarh.

The table reveals that there has been remarkable decline in the child mortality rate in 1991 as compared to 1981 and these are lower than state averages in 1991 for all age classification.The decrease in child mortality rates of females under q(1), q(2) and q(3) has been more when compared with the corresponding figures of state.

Janjgir and Chhattisgarh were a part of District Bilaspur and State Madhya Pradesh respectively in Census 1991. As such, the figures pertaining to undivided Bilaspur and state Madhya Pradesh is presented in respect of district Janjgir and state Chhattisgarh.

The percentage of in-migrants by place of birth to total population of the district is 35.5, 92.2 percent of in-migrants by place of birth are from within the state. The migration of women is more than the men which is due to the migration of women due to marriage. The migration from other states of India is 7.3 percent.

Migration of people born outside India and unclassified is 0.5 and 0.2 percent respectively. There is no substantial difference in the proportion of men and women who have migrated from other states of India.

ANNEXURE IV(II)

POPULATION OF INMIGRANTS BY PLACE OF LAST RESIDENCE : CENSUS 2001

State- Chhattisgarh **District : Janjgir - Champa**

Last Residence	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	378,006	56,348	321,658
	(95.7)	(14.9)	(85.1)
(A)Within the district but outside Enumeration place	280,820	36,831	243,989
	(71.1)	(13.1)	(86.9)
(B)From other district of State	97,186	19,517	77,669
	(24.6)	(20.1)	(79.9)
(ii) From other states of India outside enumeration state	16,972	8,497	8,475
	(4.3)	(50.1)	(49.9)
(iii) Place of residence outside India	187	110	77
	(0.0)	(58.8)	(41.2)
(iv) Unclassified	0	0	0
	(0.0)	(0.0)	(0.0)
Total Immigrants	395,165	64,955	330,210
Population of Non-inmigrants	922,266	594,433	327,833
Total population	1,317,431	659,388	658,043

Source- Migration Table D-2

Note: Percentages are given in brackets.

Migration of population by place of last residence distributed in four classifications is presented in this table. It is seen that the migration by usual place of last residence from within the state is highest 95.7 per cent of total migrated population. Within this classification, the migration from within the district is 71.1 per cent and only 24.6 per cent migration is from other districts of the state. Migration from other states of India outside enumeration state works out to 4.3 per cent of total migration and it is only 0.0 per cent from outside India. Mostly, sexwise anlysis reveals much higher migration of females which is obviously due to the movement of females after marriage.

ANNEXURE IV(III)

POSITION IN-MIGRANTS FROM OTHER STATES - AS PER CENSUS 2001

State- Chhattisgarh **District: Janjgir - Champa**

Birth Place	Census 2001	
	Migrant Popultion	Percentage of total In-migrants
Madhya Pradesh	3,464	21.3
Orissa	2,719	16.7
Uttar Pradesh	2,430	14.9
Bihar	1,644	10.1
Jharkhand	1,482	9.1
West Bengal	1,044	6.4
Total of 6 States	12,783	78.6
Total of other States	3,478	21.4
Total	16,261	100.0

Source- Migration Table D-1

In-migration from other states is classified in this table. 78.6 per cent of total in-migrants are from Madhya Pradesh, Orissa, Uttar Pradesh, Bihar, Jharkhand and West Bengal whereas the remaining in-migrants from all other states together constitute only 21.4 per cent.

Total 3,464 persons have migrated from Madhya Pradesh which alone accounts for 21.3 per cent of total in-migrants. Janjgir - Champa is located at the neighbouring state border of Madhya Pradesh as such the Migration from Madhya Pradesh is very high and the culture and language is homogeneous.

(Source :- Religion Table - Census 1991/2001)

This annexure presents the distribution of population at district and state level pertaining to Census 1991 and Census 2001 in respect of six religions. It is observed that the proportion of Hindu population in the district is comparatively higher than that of state. As against this the proportion of Muslim and Jain population is lower in the district as compared to state average. The proportionate distribution of population belonging to other religions in the district is lower than the corresponding state proportions.

ANNEXURE VI

MARITAL STATUS OF POPULATION IN THE STATE AND DISTRICT : CENSUS 2001

State- Chhattisgarh **District- Janjgir - Champa**

State / District	Total/ Rural / Urban	Total Population	Marital Status				
			Never married	Married	Widowed	Divorced/Separated	Unspecified
Chhattisgarh							
	Total	20,833,803	10,267,526	9,440,561	993,835	131,881	0
			(49.3)	(45.3)	(4.8)	(0.6)	(0.0)
	Rural	16,648,056	8,123,500	7,576,395	837,185	110,976	0
			(48.8)	(45.5)	(5.0)	(0.7)	(0.0)
	Urban	4,185,747	2,144,026	1,864,166	156,650	20,905	0
			(51.2)	(44.5)	(3.7)	(0.5)	(0.0)

			(52.3)	(42.6)	(4.6)	(0.5)	(0.0)

(Source- Socio Cultural Table C-2)

Note: Percentages are given in brackets.

The above table reflects that the population (51 per cent) of the district comes under the unmarried class. When compared to state the percentage of unmarried population of the district is higher than the state. Contrary to this the percentage of married population of the district is marginally less than the state. The state average is lower than the district in respect of widowed and it is higher in case of divorced population. The proportion of unmarried persons is higher in urban areas than rural but married persons are lower in the urban areas as compared to the rural areas of the district.

Janjgir and Chattisgarh were a part of District Bilaspur and State Madhya Pradesh respectively in Census 1991. As such, the figures pertaining to undivided Bilaspur and state Madhya Pradesh is presented in respect of district Janjgir and state Chattisgarh.

(Source- Migration Table C-8)

Note: Percentages are given in brackets.

This annexure presents the proportionate distribution of literates by different educaional levels in specific age groups. As the population in the age group 0-6 do not come within the purview of literates, it has been shown separately.

It is seen that out of 1,092,639 persons belonging to the age 7 and above 720,507 are literates and thus, the literacy rate of the district works out to 65.9 per cent. Similarly the male and female literacy works out to 61.9 and 38.1 per cent respectively.

227,713 persons have been recorded to attain education up to primary level in the age group 7-14 which is only 82.8 per cent of population in this age group. In the age group 15-34; 80,747 persons (19.7 per cent) are found educated up to middle, 92,561 person (22.6 per cent) upto the level of Matriculate/ Higher Secondary/ Intermediate/ Diploma Tech. and 18,850 persons (4.6 per cent) upto Graduate and above level. It may be noted that this is the group having maximum class interval and thus it has the maximum population as well. The analysis also reveals that the percentage of literates at all levels decreases with increasing age groups which explains the gradual increase in literacy rates over past ten years.

ANNEXURE VIII

DETAILS OF VARIOUS MOTHER TONGUES PREVALENT IN THE DISTRICT : CENSUS 1991

State : Chhattisgarh **District : Janjgir-Champa**
