Bhilai Steel Plant-Bhilai

Bhilai Steel Plant situated in Bhilai Nagar of Durg is the pride of the district. Bhilai Steel Plant is one of the three biggest steel plants in the country run by Hindustan Steel Company. This plant is situated on the South-Eastern Railway line about 12.8 km. from Durg.

Bhilai Steel Plant was founded with the technical and financial help of Soviet Russia in 1955. A large number of steel products are manufactured here. In addition to this some important chemicals are also produced here. For this purpose some small plants like Ammonia Sulphate plant, Bansal rectification plant and Tar distillation are situated inside the main factory.

Based upon Survey of India map with the permission of the Surveyor General of India.

(i) Appendix to Town Directory : Towns showing their outgrowth with Population 548

Part - B : Primary Census Abstract

(a) Brief note on Primary Census Abstract 551

(b) District Primary Census Abstract (General) 554

(c) Appendix to District Primary Census Abstract i.e. urban blockwise figures of Total, SC and ST population 566

Primary Census Abstract for Scheduled Castes 601

Primary Census Abstract for Scheduled Tribes 607

CD Block wise Village Primary Census Abstract 613

Urban Primary Census Abstract 835

Annexure-I	:	Number of villages under each Gram Panchayat (CD Blockwise)	871
Annexure-II	:	Note on Fertility, Mortality and Migration, 1991 Census	952
Annexure-III	:	Various measures of Fertility and mean age at marriage, 1991 Census	952
Annexure-IV	:	Percentage distribution of Migrants by place of birth/ place of last residence, 2001 Census	954
Annexure-V	:	Brief account of main religion in the district/tahsils as per 2001 Census	957
Annexure-VI	:	Marital status of population as per 2001Census	958
Annexure-VII	:	Age, Sex and Education in the district, 2001 Census	959
Annexure-VIII	:	Distribution of different mother tongues returned in Census 2001	960
Annexure-IX	:	Statement of SC and ST in the District, 1991 census	961
Annexure-X	:	Hamletwise total population of villages, Census 2001	962
Annexure-XI	:	Statement of Disability in the District, Census 2001	1036

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centers, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the village Directory so as to give the details on number of inaccessible villages in each district. In the town Directory, a statement (IV-A) on slums introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In town Directory, the statement on slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education , and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digital permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, complied and computerised in prescribed record structure under the supervision of Shri Prabhakar Bansod, Director of Census Operations, Bhopal. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Divisions. Dr. R.P. Singh Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statement including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L.Jain, Deputy Director and Shri. R.K. Mehata, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi

Preface

The District Census Handbook (DCHB) compiled by the Census organization, Government of India is one of the most valuable and usable product of the Census. As its name suggests, it is brought out for each district in the State. This publication started from the 1951 Census, but prior to this, a similar publication was released in the earlier censuses. Those publications contained only village statistics, village names and total population thereof. The 1951 Census could, therefore be said to represent a significant step forward, in the process of making detailed census statistics available down to the village level. An important achievement, for the first time in 1991 Census, was that the village level data was presented Community Development Blockwise.

The scope of District Census Handbook has undergone considerable change since 1951. This is basically due to the growing demand for more information. For the purpose of convenience as well as with a view to make the basic statistics available to the data users, as early as possible, the District Census Handbooks of 1991 were brought out in a single volumes as against the earlier practice of bringing it out in two parts. The volume was however divided in two parts viz. part A and part B. Part A contained the Village/Town Directory while part B contained the Primary Census Data, based on the 1991 Census count. Continuing the practice of 1991 Census, the 2001 series of the District Census Handbooks is comprised of two parts but the present series is more informative in terms of coverage and contents. Part A contains Village Directory which provides information on infrastructure amenities and land use data at village level i.e. name and location of villages, area, population, number of households, important civic amenities/facilities available in villages like educational, medical, drinking water, post, telegraph, commercial and co-operative banks, agricultural and non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town and its distance, power supply, news papers/magazine and most important commodity manufactured in the villages. Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district. C.D. block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans.

Part B of the District Census Handbook contains Village and Town Primary Census Abstract. This provides information on area, occupied residential houses, number of households, sex-wise total population. child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and divisions of workers into four industrial categories i.e. cultivators, agricultural labourers, workers in household industries and other workers in respect of each village and town of the district. Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages relating to housing, assets available with households and demographic profile of population at tahsil/ C.D block level which are helpful for rural planning. Annexures giving information on religion, Scheduled Castes/Scheduled Tribes, migration, fertility, mother tongue have been included.

It has to be remembered that the villagewise area figures presented in the PCA are based on village information in the form of C-3 as furnished by the revenue authority and the "total" given for the administrative units viz, community development blocks, is the total of the area figures of village coming under it while in the case of the administrative unit viz, tahsil, the "total" area shown, is based on the information furnished

by the Commissioner, Land Records, Government of Madhya Pradesh, Gwalior. In some cases the total area shown against the tahsil, may not tally with the total of the area figures of villages coming under it.

The District Census Handbook had been a joint venture of the Government of Chhattisgarh and the Government of India. The design of 2001 District Census Handbook has been evolved centrally by the Census Commissioner, India and accordingly these books have been prepared by my office. In earlier censuses, the cost of publication of these books were borne by the State Government but now these are being printed centrally by the Census organization. In accomplishing this task we have had the whole hearted cooperation of the staff at various levels of different departments of the State Government. The data supplied by the field level officers have been comparatively checked with 1991 DCHB and have been cross checked with the data obtained from various departments. An attempt had been made to reconcile the discrepancies by external validation to make it more reliable. I am grateful to all heads of departments of the State Government, officers and staff engaged in the conduct of 2001 Census for their cooperation to accomplish this task.

The compilation of such a huge amount of varied data in a single volume requires proper planning and close monitoring. We have the honour of having enlightened guidance and encouragement of Shri D.K.Sikri, IAS, Secretary (Registrar General and Census Commissioner, India). I owe special thanks to Shri. J.K.Banthia, then Registrar General and Census Commissioner, India. I am thankful to Dr. R.P. Singh, DRG (Map), Shri. R.G. Mitra DRG (C&T) and Dr. I.C. Agrawal, Sr. Research Officer (S.S.) and Shri.S.L. Jain, Dy. Director of S.S.Division for providing technical guidance.

In the directorate many officers/officials contributed in the Census 2001. First of all, I pay my gratitude to the then Director of Census Operations, Madhya Pradesh & Chhattisgarh, Shri Prabhakar Bansod under whose guidance, the Census 2001 was carried out successfully. I am also thankful to Shri Ram Singh then Joint Director, under whose supervision this District Census Handbook has been prepared.

The data presented in the District Census Handbook required a concerted work of team comprises Shri Jose T.Varghese, Assistant Director, Shri Deepak Rao, S.I.Grade-I, Shri R.Patel, S.I.Grade-I, Shri O.S.Shukla, Draftsman, Shri Santosh C.Mendhe, D.E.O.Grade-B and Shri Hirendra Kumar Sinha, Compilor of this Directorate who were involved with it at various stages of its planning, supervision, preparation of manuscript, field work, computerisation, prepration of CRC with the help of Adobe Pagemaking technique, maps and printing. I express my appreciation for the painstaking dedicated service rendered by all of them and staff of Data Centre, Bhopal for their untiring cooperation in finalizing the 2001 Census Data.

I shall feel greatly rewarded if the book comes to the expectation of the data users.

P.K.CHAUDHARY

District Highlights - 2001 Census

1. The district occupies 5th rank in the state in terms of area having 8549 sq.kms. which is 6.3 percent of the total area of state.

2. The district occupies 2nd place in the state according to population.

3. Literacy Rate of Durg district is 75.6 percent and it occupies 2nd position within the state. The female literacy rate of the district is 64.6 percent.

4. Density wise the rank of the district is 1st within the state.

5. Ranking of the district according to the sex-ratio is 11th in the state.

6. Female work participation of the district is 33.4 percent of total female population. Rank of the district according to female work participation is 15th.

7. Population wise largest village is Utai of Nawagarh tahsil L.C.No.01148900 with 8847 population and smallest village Bhainsbod of Gurur tahsil L.C.No.01123800 with population of only 7 persons.

8. Population wise largest town is Bhilai Nagar (M.Corp) having population 556,366 and smallest is Jamul with 2,627 population.

9. Economy of the district is dependent both on agriculture and industry. India's one of the largest Steel Plant "Bhilai Steel Plant" is in the district.

	Females	391,728	9.4	61,826	13.3

Note :- One number of villages is fully covered as out growths (OGs) and therefore not included under the item, "Number of villages".

Definition of Census Town :-

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:-

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and

iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook:

The District Census Handbook (DCHB), compiled by the Census Organisation, Government of India, on behalf of the State Government is one of the most valuable product of the Census. It is brought out for every district and is a very useful publication which is widely used by planners, administrators, academicians and researchers as it provides, among other things, the primary census data down to the village level.

History :

The history of the District Census Handbook could be traced from the "Village lists" brought out for every district in 1901 and "Village Statistics" for every district in 1911. This was discontinued in 1921 and 1931. In 1941, however, "Village Statistics" were brought out by the then Central Provinces and Berar Government. It was for the first time in 1951 that the practice of brining out a single volume known as District Census Handbook, giving village wise statistics and other Census tables for the districts, at the cost of the State Government, was initiated and is continuing since then.

Scope :

The maiden publication of the District Census Handbook of 1951 contained village wise primary census data and census tables for the district. With the increasing utility and demand of statistical data for the planning process, the scope of the District Census Handbook was enhanced to a great extent in 1961 by including non-census data like climate, agriculture, animal husbandry, co-operative, industry, education, health, etc., apart from presenting the village wise primary census data and census tables. An introductory note giving information on historical background, physical features, soil, climate, civic administration, agriculture, industry, education, etc. together with detailed analysis on census tables was also a novel feature of the 1961 census DCHB. Maps of District and CD Block were also included.

Publication of DCHB at the 1971 Census :

The desire to make the District Census Handbook more comprehensive in 1961, delayed the publication in some states. Therefore, in 1971, the Registrar General and Census Commissioner of India, decided to bring out DCHB in three parts viz. Part A, B and C, in order to release the maximum data as and when ready. Accordingly Part A was to contain the village wise Land Use data and the amenities and facilities available in the villages, these being part of the non-census statistics. Part B was to comprise the village wise primary census data, while in part C, the various non-census statistics at the district level and a few at tahsil level were to be presented.

Strategy at the 1981 Census :

In 1981 census with a view to avoid delay in the publication of DCHB series, part C containing the non-census statistics, as well as the census tables for the district were dropped. The scope of the District Census Handbook was, however, enlarged by the addition of tahsil wise list of villages where no amenities were available and tahsil wise list of the villages according to the proportion of Scheduled Caste/Tribes population by ranges in the form of Appendices III and IV respectively were added since Appendices I and II were already there.

Appendix III has been helpful for planning input in areas/villages where basic infrastructure is lacking while Appendix IV has been helpful for planning welfare programmes for Scheduled Castes/Scheduled Tribes at micro level, particularly in relation to area development oriented programmes.

In the town directory portion of DCHB Part A and additional Statement IV-A was also introduced in 1981. This statement was meant only for Class I and Class II towns and indicated the cure and other amenities in notified slums.

The inclusion of the Primary Census Abstract relating to the Scheduled Castes and Scheduled Tribes

at the tahsil/town level in Part B portion of the DCHB was another important feature of 1981 DCHB. An addition, an appendix containing Development Block wise totals of Primary Census Abstract was also presented in the DCHB series 1981 though it was not prescribed in the All India pattern.

The 1991 DCHB Series :

In the context of development planning the CD Block stay as an operational unit, the presentation of village-wise statistics at the CD Block level had been very helpful for the administrators and planners in formulating various development plans. The same had been presented CD Blockwise in 1991 Census.

The scope of the 1991 DCHB, particularly the village directory was enhanced to a great extent by the inclusion of additional information on various subjects such as intset tables on area, population and density in the districts, tahsils and towns, jurisdictional changes 1981-91 etc.

Contents of the DCHB series 2001 :

The present series of District Census Handbook consisting of two parts viz. Part A and Part B is being published in a single Volume.

Part A Village Directory :

Village Directory confirms information about the name of the village with location code number assigned to it by the Census Organisation, geographical area of the village, total population and number of households in the village, amenities like education, medical, drinking water, post and telegraphs, communications, approach to village together with distance in Km. distance from the nearest town, power supply, land use In addition there are eight appendices to the Village Directory as under :

Appendix I : CD Blockwise(rural) abstract of educational, medical and other amenities.

Appendix I-a : CD Blockwise abstract of villages by number of Primary schools.

Appendixb I-b : CD Blockwise abstract of Villages of Primary, middle and secondary schools.

Appendix I-c : CD Blockwise abstract of Villages with different sources of drinking water facilities available.

Appendix II : Villages with 5000 and above Population, which do not have one or more amenities

Appendix II-a : Census Towns which do not have one or more amenities

Appendix III : Land Utilization data in respect of Census Towns/Non Municipal Towns.

Appendix IV : CD Block wise list of inhabited villages where no amenity other that drinking water facility is available.

Appendix V : Summary showing number of villages not having Scheduled Caste Population.

Appendix VI : Summary showing number of villagers not having Scheduled Tribe Population.

Appendix VII A: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix VIII : Statement showing number of girls school in the villages.

Town Directory :

The Town Directory contains the following seven statements and one appendix.

Statement I : Status and Growth History

Statement II : Physical aspects and location of towns

Statement III : Municipal Finance

Statement IV : Civic and other amenities

Statement V : Medical,Educational, Recreational and cultural facilities

Statement VI : Trade, Commerce, Industry and Banking

Statement VII: Civic and other amenities in slums

Appendix to Town Directory – Towns showing their outgrowth with population.

Primary Census Abstract

Part B: -The Primary Census Abstract gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in tha age group 0-6, Literates, Main Workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels namely, Districts, CD blocks, Village, and UA/Towns. In addition, Ward/Enumeration blockwise population is given in the Appendix to District Primary Census Abstract.

Primary Census Abstracts for Scheduled Castes and Scheduled Tribes:

The Primary Census Abstract relating to Scheduled Castes and Scheduled Tribes is also being presented separately at the CD Block wise /Town level It will have the same characteristics as indicated in para 7.3.1 i.e. the Primary Census Abstract in relation to the total population.

Publication of DCHB in Regional Language :

In 1981, part A and part B of DCHB were brought out separately for every district which were printed in digit i.e. a mix of Hindi and English versions while in 1971, both the parts i.e. part A and part B were brought out in a single volume but separately in Hindi and English versions. The 1961 DCHB were however published in a single volume in English version only for district since there were no separate parts like DCHB of 1971 and 1981 censuses. The 1951 census DCHB series were published with a mix of both Hindi and English but with a difference.

New Features of DCHB 2001 :

The main features of Village Directory of DCHB 2001 are :

(1) For the first time eight digit continuous location code is assigned to all the villages within the state. These are the Permanent Location Code Numbers (PLCN) and starts from the first village of first tahsil of first district of state and continue till the end of last village of last tahsil of the last district within a state.

(2) The State codes are given in serpentine order for the first time which were assigned alphabetically in 1991 Census . As a result the State code of Chhattisgarh is assigned code 22 in Census 2001.

(3) As compared to earlier series of Village Directory additional and more useful information viz. number of Commercial/Co-operative banks and the nearest distance of availability of amenity, Agriculture and Non-Agriculture credit societies, Recreational and Cultural facilities, availability of Newspaper/ magazines and names of important commodities manufactured are included in Census 2001 for the first time in Village Directory.

(4) Annexures giving information on fertility, religion, migration, mother tongue, Scheduled Caste/Scheduled Tribe havebeen included in DCHB 2001.

Town Directory :

No major change has been made in Town Directory when compared to Town Directory of 1991. However, some improvement has been made in the data collection of slums of the towns having population 50,000 and more in which separate enumeration blocks were carved for slums during houselisting and main census. In 2001 information in respect of slum areas have been collected for all towns.

The information of slums for Class I and II towns that is with population 50,000 or more was compiled in statement IV-A in Census 1991. In Census 2001, this information is compiled for all the towns irrespective of their size in statement VII.

Primary Census Abstract :

(1) Information on individuals has been collected in Household schedules and practice of collecting data on individual slip has been discontinued.

(2) For persons recorded as other workers, the information on distance of place of duty and

the means of transport of place of duty are obtained in column 27 and 28 of the household schedule.

(3) The information on Disability is obtained for the first time in Census 2001 in column 15 of the household schedule.

(4) The household schedule is divided in three parts. The information on cultivation/ plantation is recorded in part III of the household schedule for the first time in census 2001.

(ii) Brief history of the district* :

Durg was constituted district on 1st January 1906. At that time there were three tehsils, viz Durg, Bemetra and Balod. On 1st October 1907, four Zamindaris of Chand rapur, namely, Panbaras, Koracha, Pundhi and Ambagarh Post were merged, and thus the area of this district expanded . On 1st January 1948, after the merger of Khairagarh, Rajnandgaon, Kawardha and Chhuikhadan, by Central Government were included in Durg district. In 1972, Rajnandgaon was carved out a separate district which includes Chhuikhadan, Khairagarh, Kawardha, Ambagarh and some of the former tehsils..

The name of district is taken from its head-quarter town of Durg which was the head-quarter or "Garh" for the maintenance of 'Parganas' by the rulers of Kalchuri. Excavation and rock-inscription show that original name was "Shiva Durg" which most probably meant the fort built on the river Shivnath. It is believed that this city was established in 10th century by General Jagpal of Ratanpur ruler. The king of Ratanpur rewarded Jagpal with 700 villages of Durg. In the ancient period, Durg district was a part of South Kosal. In 3rd B.C. Durg was included in Ashok's great empire. The Chinese traveller Hiuen-Sang's report and other excavations show that this area may have been ruled by Satwahan. It is recorded in Samudragupta's Allahabad Pillar that his southern victory compaign had control over Kosal and Mahakantra. During Gupta's age, the local lords of South Kosal had accepted the supremacy of Gupta-Empire. In the middle of 5th century, three Nal kings of Bastar appeared on the scene. Reference of Nagendra sen's (440-460 AD) rule over kosal, mekal and malwa, who was father of vakatak king prithvi sen is found in the copper plate inscription of Balaghat. During the same period, there is a record of the Bhejwar Saranpurias. At the end of 5th A.D., there is proof of Panduvanshi rule in large portion of Central India. King Nanndeo of Panduvanshi had taken over South Kosal. Sirpur was its State capital. After Panduvanshi rule, Somvanshi dynasty came in power, and Shivgupta was its first ruler. In 12th century, Kalchuri Rulers of Tumman established their rule. In between, in 8th Century A.D., two rock-inscriptions in Durg show that one Shiva Deo Nayak ruled the area. The present name "Durg" may be the Sanskrit version of Shiva Durg built by Shiva Dev. The river on which this city is situated is also named as Shivnath river. The rock-inscription of Kharod and Ratanpur's Jajaldeo II's inscription show the description of Kalchuri rule, which was established by Kokal I. In the later years Kalingraj, Ratnadeo, Prithvi Deo, Jajaldeo etc, were cheif rulers of Kalchuri. General Jagpal was victorious in Durg and Jagpal had ruled Durg as a feudal Kings of Ratanpur rulers. Rock-inscription of Gurur reveals that southern land was ruled by the king of Kanker in 12th or 13th centruy.

In 1742 A.D., Bhasker Pant, the Maratha Commander defeated Hqhyvanshi's last ruler, Raghunath Singh of Kalchuri and the kingdom was brought under Bhonsla Rule. After the death of Raghunath Singh, Raghoji made Mohan Singh, the king of this State. With this, the area came under the control of Bhonsla rulers of Nagpur. Upto1817, the land of Chhattisgarh along with Durg was under the rule of Appa Saheb, last third Maratha war was fought against the British. This war was also known as Sitabuldi war. Appa Sahib was defeated and this area went under the British rule. In 1830, when Raghoji, attaind adult hood was made in-charge of the administration. But when Raghoji died in 1853 without a heir, the kingdom of Nagpur was merged under British rule. For better administration Durg was merged with Bhandara and later it was a tahsil of Raipur. In 1906, Durg became an independent district.

There is little description about Durg district's contribution in the great revolution of 1857. But as a tahsil of Raipur, it's contribution can be seen sometimes. In 1915, when "Central Provinces and Berar Provincial Association" was formed, Nalinikant Choudhary and Ghanshyam Gupta were delegates. In 1915 too, a branch of Home Rule League started by

Annie Besant, was established. On 25th February 1923, the district Congress Committee held a District Political meeting. Main Speakers in this meeting were R.S.Shukla and Ghanshyam Singh Gupta and British Rule was vehemently criticized. In the Satyagrah Movement, a big number of citizens took part alongwith the intelligent leaders. In non-co-operation movement, Advocate Narsingh Prasad Agarwal of Balod, Ghanshyam Singh Gupta, Ratnakar Jha, B.Y. Tamaskar, etc. took meetings at different places and took active part in Independence Movement.

"Quit India Movement of 1942 saw the arrest of chief Political leaders in Malkapur. Youth Organisation had an important role in this movement. Chhattisgarh Sabha, Nav-Yuvak Mandal, Durg Kisan Sabha and Satnami Ashram, played a vital role in the movement. After Independence local lords of Khairagarh, Kawardha, Rajnandgaon and Chhuikhadan etc, accepted the sovereignity of the Central Government, by the efforts of Sardar Patel. All these Riyasats were merged into Durg district.

(iii) Administrative setup*:

Durg district is situated mostly on the Central part and comes under Raipur Division. There are 11 tahsils in all viz. Nawagarh, Bemetra, Saja, Berla, Dhamdha, Durg, Patan, Gunderdehi, Dondilohara, Sanjaribalod and Gurur as well as 12 C.D Block. According to Census 2001, there are 1790 villages and 12 towns. Tahsilwise number of towns, villages are as under :-

Tahsil	No.of village
Nawagarh	188
Bemetra	187
Saja	190
Berla	137
Dhamdha	162
Durg	81
Patan	142
Gunderdehi	163
Dondilohara	211
Sanjaribalod	207
Gurur	122
Total	1790

The district has 12 towns which are Khamaria, Bemetra, Dhamdha, Ahiwara, Jamul, Kumhari, Bhilai Charoda, Bhilai Nagar, Durg, Balod, Dallirajhara. The district is divided into 11 tahsils for administration purpose.

The Collector is assisted by Deputy Collectors, Tahsildars, Sub-Tahsildars, Revenue inspector and Patwaris. The collector is also associated with a number of others Committees in the district. The most important among them is the District Advisory Committee. The collector is also vested with statutory powers under Excise Act. so as to enable him to implement the excise and prohibition policy of the Govt. Superintendent of police is the head of Police department at the district headquarter and Deputy superintendent of police are posted at tahsil headquarters. In order to facilitate proper and smooth judicial and administration there are 25 police station in the district.

The Judiciary is independent. At the district level there is District Court headed by district and Session Judge. District and Session Judge is assisted by Civil-Judges who are posted at tahsil level.

(iv) Physical Features* :-

Durg District is located almost at the center of Chhattisgarh State, between 20°22 ' to 22°02' north lattitude and 80° 47' to 81°57' east longitude. It is surrounded by Raipur and Dhamtari in the east, Bilaspur in the north, Kawardha in the north-west, Rajnandgaon in the west, Kanker in the south and Dhamtari in the south-west. The total area of the district is 8549 sq.km and areawise it stands 5th in the state .

Mountain Ranges and Plateaus :

Southern land of the district comes under mountains of Bastar plateau. These parts are mainly on the valleys of the rivers which spread towards plain lands of the north. Dalli-Rajhara mountain ranges are one of these, which is abundant in iron ores. Some of its peaks in south are Donger Bore (2397 ft.), Koucher(2211 ft.). It is the extension of Satpura Mountain Ranges in the north-west of the district. It is also known as Maikal Mountain Ranges.

Rivers: -

The flow of the rivers in the district is towards north-east direction. The main river, Shivnath flows in this direction. Shivnath river originates from 2055 ft high mountain in Rajnandgaon, flows towards east and

enters Durg district from western border. It flows towards north-east and enters Bilaspur district. Tandule river is its tributary which enters from south. Tandule river originates from North of Bhanupratappur of Bastar district. Another important river is Kharun which divides the border of Raipur and Durg for about 80 kms. This also falls in Shivnath river after some distance. From here Shivnath river demarcates the border of Durg and Raipur for about 64 kms. Other tributaries of Shivnath river, from west and noth-west are Surhi, Dotu, Karua and Hamp. There are many big dams in the district. In the south, there is Tandula dam, Ghina dam in the South of Arjunda, Barhi dam in south-east of Baloda, Khapri and Maroda dam on the east of Durg are the main dams.

Climate: -

Summer is very hot and there is enough rain due to south-west monsoon. The year can be divided into four parts according to climate. Winter starts in December and ends in February. From March to mid-June, it is summer. May is the hottest month and the maximum temperature rises up to 42° C and the minimum is 28°C. In mid May-June temperature goes up to 46° to 47° C. South-west monsoon starts in June and lasts upto September. The average rainfall is recorded as 1108 mm. There are 55 days of average rainfall. October and November are the post monsoon season. After monsoon, winds blow from north and east. In March-April, winds blow from south-west and west. The speed of the wind is light and medium.

Forest :-

The District has about 11.60per cent of its area as forest. Forest is spread from south to north and is mainly in the south of Balod Tahsil. The forest area of Dondi Luhara and Balod comes under south Durg Forest Division. The District has mixed dry forest spread in south. Balod forest has good variety of Shisham. Saj, Sal, Beeja, Salai etc. trees in these forests. Bamboo forests are also found in the mixed forests. Other important forest produced are Kahwa, Harra, Bahera, Anwla and Katha which are found in these forests.

Minerals :-

The district is rich in minerals. There are vast deposits of iron-ore, limestone, dolomite, quartz and moulding sand. In the South of Dalli-Rajhara mountains ranges there are iron-ores. Main mining centers of iron-ores are Rajhara, Kodekasa, Jharandally, Chaveri, Chatrala, Kumi, Banda and Jurlakhar. Dolomite is found in Kodwa, situated to the north of Durg. Limestone is found in Moresera and Deorjhal area. Nandini mines, in the north of Bhilai is famous for Lime-stones.

Land-Use :-

The district has Kanhar, Matasi, Dorsa, Domat, and Kachari type of land. In Dorsa and Kanhar more than one crop is taken while in Matasi type only one crop could be taken. Rice is the main crop of the district which is sown as the first crop. Under Utera or Second crops, Urad, Moong, Masoor, Chana, Lakhori etc. is cultivated. In 1999-2000, the district produced 602000 m-ton of rice and 12000 m-ton of wheat. Under Dalhan, chana dal-47000 m-ton, tuar 5000 m-ton and 103000 m-ton of lac was produced.

Irrigation:

Irrigation in the district is done mainly by Canals. In 1918, after the construction of Tandul dam, irrigation by canals was improved much more. In the dsitrict apart from big dams, small ponds also play an important role in irrigation. Irrigation by wells are limited and they are used to irrigate small vegetable gardens. The main crop of the district is rice, which needs much irrigation. Wells cannot provide such irrigation.

Fauna:

Wild animals can be seen in the southern part of the district with dense forest, but these are quite less in number. Lion and tiger are practically extinct but Cheeta and leopard are more in numbers. Monkeys with black faces can be seen outside and inside the forests. Wolves, jackals, hyena, wild dogs, bears, newla, deer, samber, cheetal and other wild animals can be seen in the forest. In birds, phesaula, cukoos, green pigeons, wild fowls, etc. are found in forests. Many types of non-resident birds can also be seen around the daun.

Trade and Industries:

In 1956, a very important beginning was made when also Bhilai Steel Plant was established. With this, a number of small industries were established and these are increasing ever since then. Bhilai Steel Plant is one of the important large-scale steel plant under

the Steel Authority of India Ltd. The vast deposits of iron-ore in Dalli-Rajhara give special status to the district in terms of industry. In 1960, most modern mechanisd mines were established by U.S.S.R, which resulted in the increased production of iron-ore. The iron-ore of Dalli-Rajhara mines fulfill the demand of Bhilai Steel Plant. Dharamji Morarji Chemical Factory(1961), A.P.J Private Limited in 1962 and Himmat Steel Foundry in 1963, are some of the large units that have come up in the district. Jamul unit of cement production was one of the Cement factory under Associated Cement Company, which was established in 1965.

Apart from the large-scale industries, middle, as well as, small scale industries were also established. Rice Mills, Dal Mills, Oil Mills, Saw Mills, Bricks and Tiles-making units are also established. There are many cottage industries based on forest-produce, fish-rearing, clothes-making, papers, skins, Bidi-making etc.

Commodities like, gram, sugar, edible oil, kerosene, Petrol, Gas, Cement, Wood for construction of buildings etc.are imported in the district. Exported commodities are rice, paddy, steel etc.

Transport and Communication:

Mumbai-Howrah Rail-line passes through the district. Durg city, Bhilai power House, all these station on this main Rail-line. Mumbai-Howrah National Highway passes through this district. This is also known as Great Eastern Road. All tahsils and other important places are connected by pucca roads. The district is well connected by roads with Raipur, Rajnandgaon, Dhamtari and other neighbouring districts of the state. Pucca roads are 2020 km in length .The total length of pucca road in the district is 2020 kms and the length of kuttcha road 2768.48km.

Electicity:

An Electric Production Centre, run by diesel was established at Bhilai in August 1957. Its production capacity was 6000 kw. The remaining need of power is supplied from Korba Thermal Station. According to the M.P. State Electricity Board Durg district in 1999-2000 had 292350 domestic-consumers, 26009 non-domestic consumers, 3198 industrial Consumers, 22519 agriculture, 658 for water-supply and 1607 consumers for electrification of roads were reported. In 1999-2000 there were 1778 villages which were elcctrified which comes to 98.61per cent of the total number of villages.

Panchayati Raj System:

Panchayat is the basic institution of local administration and is the foundation of decentralized administration. Under the Directive Principles of State Policy, the Constitution of India provides the Panchayati Raj System. M.P. Government has passed M.P. Panchayat Adhiniyam System. According to 73rd Amendment of the Constitution, M.P. Government passed the Panchayat Notification 1993 which provides Panchayat for villages, Janpad Panchayats for Blocks and district Panchayat for district. M.P. Gram Sabha Notification 2001, Gram Sabha, which includes all the major persons is constitually approved unit and gives voting rights to elect Panch, Sarpanch, members of Janpad and members of district Panchayat. The Gram Sabha has power to approve works under annual budget of the village. Constituted with the elected members, these institutions work for 5 years. At all level there is reservation for Scheduled Castes and Scheduled Tribes according to the population ratio. For women there is 1/3 reservation. Village Panchayat, Janpad Panchayat and District Panchayat have members 10-20, 10-25, 10-35 respectively.

Gram Panchayat within its area and within its budget, can take up work like cleanliness, water supply, public works (roads, buildings, well tanks) market rates, Co-operation to Government works, Community health and development works. Janpad Panchayat within its budget take up works, like Community development and village integration, agriculture, social, commerce, cattle-rearing, fish-breeding, adult-education, co-operatives, cottage industry, welfare and employment oriented programme. It is the duty of the district Panchayat to have control over Janpad Panchayats and village panchayats and to establish coordination between them, give directions to them and advise the Government regarding development works. All the

development works of the villages are done by one district panchayat, 9 janapad panchayats, and 8 Development Blocks.

(v) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically

independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) A minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

   iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglo-meration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

   i) a city or town with one or more contiguous outgrowths;

   ii) two or more adjoining towns with their outgrowths; and

   iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a

common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes. The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled Castes and Scheduled Tribes
Scheduled Castes :

1. Audhelia
2. Bagri, Bagdi
3. Bahna, Bahana
4. Balahi, Balai
5. Banchada
6. Barahar, Basod
7. Bargunda
8. Basor,Burud,Bansor, Bansodi, Bansphor, Basar
9. Bedia
10. Beldar, Sunkar
11. Bhangi,Mehtar,Balmik, Lalbegi,Dharkar
12. Bhanumati
13. Chadar
14. Chamar, Chamari, Bairwa, Bhambi, Jatav, Mochi, Regar, Nona, Rohidas, Ramnami, Satnami, Surjyabansi, Surjyaramnami, Ahirwar, Chamar Mangan, Raidas
15. Chidar
16. Chikwa, Chikvi
17. Chitar
18. Dahait, Dahayat, Dahat
19. Dewar
20. Dhanuk
21. Dhed, Dher
22. Dohor

23. Dom,Dumar, Dome, Domar, Doris
24. Ganda, Gandi
25. Ghasi, Ghasia
26. Holiya
27. Kanjar
28. Katia, Patharia
29. Khatik
30. Koli, Kori
31. Khangar, Kanera, Mirdha
32. Kuchbandhia
33. Mahar, Mehra, Mehar
34. Mang, Mang Garodi, Mang Garudi, Dankhni Mang, Mang Mahasi, Madari, Garudi, Radhemang
35. Meghwal
36. Moghia
37. Muskhan
38. Nat, Kalbelia, Sapera, Navdigar, Kubutar
39. Pasi
40. Rujjhar
41. Sansi, Sansia
42. Silawat
43. Zamral

Scheduled Tribes :

1. Agariya
2. Andh
3. Baiga
4. Bhaina
5. Bharia Bhumia, Bhuinhar Bhumia, Bhumiya, Bharia, Paliha, Pando
6. Bhattra
7. Bhil, Bhilala, Barela, Patelia
8. Bhil Mina
9. Bhunjia
10. Biar, Biyar
11. Binjhwar
12. Birhul, Birhor
13. Damor, Damaria
14. Dhanwar
15. Gadaba, Gadba
16. Gond, Arakh, Arrakh,Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimma, Bhuta, Koilabhuta, Koliabhuti, Bhar, Bisonhorn Maria, Chota Maria, Dandami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti,Gaita, Gond Gowari, Hill Maria, Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Nagwanshi, Ojha, Raj Gond, Sonjhari Jhareka, Thatia,Thotya, Wade Maria , Vade Maria, Daroi
17. Halba, Halbi
18. Kamar
19. Karku
20. Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri
21. Khairwar, Kondar
22. Kharia
23. Kondh, Khond, Kandh
24. Kol
25. Kolam
26. Korku, Bopchi, Mouasi, Nihal, Nahul, Bondhi,Bondeya
27. Korwa, Kodaku
28. Majhi
29. Majhwar
30. Mawasi
31. Munda
32. Nagesia, Nagasia
33. Oraon, Dhanka, Dhangad
34. Pao
35. Pardhan, Pathari, Saroti
36. Pardhi,Bahelia,Bahellia, Chita Pardhi, Langoli Pardhi, Phans Pardhi, Shikari, Takankar, Takia

    (i) Bastar, Kanker,Dantewara, Raigarh, Jashpur, Korba, Mahasamund, Koriya and Surguja district

    (ii) Bilaspur, Bilha, Masturi, Takhatpur, Pendra Road and Kota tahsils of Bilaspur district

    (iii) Durg, Dhamdha, Patan, Gunderdehi, Balod, Dondilohara and Gurur tahsils of Durg district

(iv) Mohala, Manpur and Ambagarh tahsils of Rajnandgaon district

(v) Bindranawagarh, Rajim and Deobhog tahsils of Raipur district

(vi) Dhamtari, Kurud tahsils and Sihawa CD Block in Dhamtari district

37. Parja
38. Sahariya, Saharia, Seharia, Seria, Sosia, Sor
39. Saonta, Saunta
40. Saur
41. Sawar, Sawara
42. Sonr

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate :

Literacy rate of the population is defined as the per centage of literates in the age group seven years and above. For different age groups the per centage of literates in that age group gives the literacy rate.

Educational level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct

cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops — tea, coffee, rubber, coconut and betel-nuts (area).

Agricultural labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work Participation Rate :

Per centage of workers (main + marginal) to total population

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years

Sex-Ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid – year Population}} \times 1000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q_1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q_2 :

Probability of dying between birth and age 2.

q_5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

***Child woman ratio* (0-4) :**

Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/ relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components
   (a) Migration within the district of enumeration (intra district migration)
   (b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration :

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) and M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as

a) Areas where buildings are in any respect unfit for human habitation; or

b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings – Population, its distribution

According to Census 2001, Durg district comprises of 1776 inhabited villages, 14 uninhabited villages and total 1790 villages distributed among eleven tahsils and twelve number of CD Blocks . The district has 12 towns. The average household size of the district is 5.2 Total population of the district is 2810436 comprising 1417893 males and 1392543 females. Thus the sex ratio of the district works out to 982 which is less than the sex-ratio of the state which is 989. Density of the district is 329 persons per sq.km.

and is higher than the density of the state which is 154. Literacy rate of the district 75.6 per cent is higher than the State literacy rate 64.7 per cent. Scheduled Castes and Scheduled Tribes population of the district is respectively 12.8 per cent and 12.4 per cent of the total population of the district. Apart from these general findings, the analysis on various parameters like rural-urban distribution of population by sex, literacy, density, caste, tribe etc. has been covered in the Inset Tables from 1 to 52 based on PCA, Village Directory data, Town directory data and houselisting data pertaining to Census, 2001.

(viii) Brief analysis of the PCA data (Table 1-36)

Analysis of the PCA data based on Census 2001 is presented here in the form of tables from 1 - 36. Various demographic indicators such as density, literacy, Sex-ratio and distribution of population in different economic activity by rural/urban, male/ female and age classifications are presented in these tables. These analysis are presented for Tahsils and CD Block levels separately.

Analysis for Scheduled Castes and Scheduled Tribes is also covered in this tables.

TABLE 1: DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Nawagarh	130,492	130,492	0	127,842	127,842	0	-2.0	-2.0	0.0	0.0	0.0
2	Bemetra	140,714	121,621	19,093	148,196	124,881	23,315	5.3	2.7	22.1	13.6	15.7
3	Saja	134,800	128,564	6,236	143,863	137,064	6,799	6.7	6.6	9.0	4.6	4.7
4	Berla	123,939	123,939	0	137,949	137,949	0	11.3	11.3	0.0	0.0	0.0
5	Dhamdha	186,261	146,962	39,299	223,086	166,611	56,475	19.8	13.4	43.7	21.1	25.3
6	Durg	805,458	157,471	647,987	997,848	184,657	813,191	23.9	17.3	25.5	80.4	81.5
7	Patan	231,293	176,395	54,898	282,212	187,906	94,306	22.0	6.5	71.8	23.7	33.4
8	Gunderdehi	151,554	151,554	0	182,258	182,258	0	20.3	20.3	0.0	0.0	0.0
9	Dondiluhara	142,438	142,438	0	167,008	167,008	0	17.2	17.2	0.0	0.0	0.0
10	Sanjaribalod	242,295	164,408	77,887	269,242	191,019	78,223	11.1	16.2	0.4	32.1	29.1
11	Gurur	107,890	107,890	0	130,932	130,932	0	21.4	21.4	0.0	0.0	0.0
	District Total:	2,397,134	1,551,734	845,400	2,810,436	1,738,127	1,072,309	17.2	12.0	26.8	35.3	38.2

This table indicates tahsilwise decadal variation for both the rural and urban areas of the district. It is seen from the table that an overall 17.2 per cent decadal growth has been recorded in the district. The growth rate in rural areas of the district during the decade 1991-2001 works out to 12.0 per cent, while for urban areas it is 26.8 per cent. Among the tahsils, Durg has registered the highest decadal growth rate of 23.9 per cent. The growth rate in rural area is highest in Gurur tahsil and it is highest in Dhamdha for urban area of the district. The per centage of urban population to total population of the district is 38.2 per cent in 2001 against 35.3 per cent in 1991.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than	
			Persons	Males	Females		Males	Females

Table 2 gives CD Blockwise population, number and per centage of villages falling in each range of population size of villages and number of males and females in each population range at CD Block level in the district. Out of the 1776 inhabited villages, 96 (5.4 per cent) are small sized villages with population below 200 persons. In the size class of 200-499 persons, there are 380 villages having 21.4 per cent villages of the district while in the size class of 500-999 population there are 648 villages constituting 36.5 per cent of total villages. 501 villages (28.2 per cent) are in the size class of 1000-1999 and 145 villages (8.2 per cent) are in the size class of 2000-4999. There are 6 villages (0.3 per cent) in the size class of 5000-9999 and no village falls in the size class of population 10,000 and above.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town

(a) New

(i) Statutory town — Nil

(ii) Census town — Nil

(b) Denotified

(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns — Nil

(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria — Nil

(iii) Census towns of 1991 census are notiified as statutory town in 2001 census

1. Jamul 2. Kumhari 3. Bhilai Charoda
4. Bhilai Nagar 5. DalliRajhara

(c) Declassified

1. Khumudkatta 2. Sirsa khurd

(d) Wholly merged with other town(s)

1. Kohka 2. Chawani 3. Dundera
4. Charoda 5. Bhilaikalan

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	3	0.2	81	0.0
11-20	7	0.4	462	0.0
21-50	11	0.6	1,187	0.1
51-100	91	5.1	28,638	1.6
101-200	703	39.6	474,396	27.3
201-300	596	33.6	616,627	35.5
301-500	306	17.2	454,756	26.2
501 +	59	3.3	161,980	9.3
Not known	0	0.0	0	0.0
District Total:	1,776	100.0	1,738,127	100.0
Density of Population (Rural) of the district:			231.8	

This table shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under 8 different ranges of density. The maximum number of villages i.e. 703 accounting for 39.6 per cent of the total inhabited villages of the district fall in the density range of 101-200 persons having 27.3 per cent population. The lowest range of 0-10 and 11-20 persons per sq.km., cover 10 villages (0.6 per cent). 59 villages have very high density with more than 501 persons per sq.km., while the corresponding proportion in the lower range of 201-500 is 50.8 per cent of the total inhabited villages having 61.7 per cent population of the district. In the medium density ranges of 21-50 and 51-100 persons account for 0.6 and 5.1 per cent of inhabited villages. Both these ranges claim 1.7 per cent rural population.

TABLE 5: SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	1,046	1,047	1,016	1,066	1,066	-
1911	1,039	1,040	1,013	1,065	1,066	964
1921	1,041	1,042	1,000	1,064	1,066	967
1931	1,043	1,046	957	1,063	1,066	916
1941	1,032	1,034	976	1,064	1,066	972
1951	1,024	1,028	951	1,064	1,066	980
1961	1,008	1,026	837	966	1,042	602
1971	998	1,011	888	978	1,017	841
1981	996	1,012	908	980	1,029	883
1991	985	1,000	917	967	1,010	891
2001	989	1,004	932	982	1,016	929

As per 2001 Census, sex ratio of 982 has been recorded in the district against the state average of 989. The sex ratio of the district had been significantly higher in 1901 to 1951 over the state average figures. The lowest sex ratio of 966 was recorded in the district in Census 1961.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Nawagarh	1,024	1,024	-
2	Bemetra	1,018	1,027	971
3	Saja	1,040	1,043	969
4	Berla	1,030	1,030	-
5	Dhamdha	1,002	1,017	959
6	Durg	932	975	922
7	Patan	974	993	937
8	Gunderdehi	1,003	1,003	-
9	Dondiluhara	1,047	1,047	-
10	Sanjaribalod	1,004	1,026	952
11	Gurur	1,017	1,017	-
	Sex ratio for the district	982	1,016	929

The table 6 gives the tahsilwise sex ratio of rural and urban population of Census 2001. It is observed that the sex ratio for the rural area works out to 1,016 whereas it is 929 for the urban area. The sex ratio in rural area is highest 1047 in Dondiluhara tahsil whereas in urban area it is highest 971 in Bemetra tahsil. The sex ratio of the district is 982.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Nawagarh	1,024
2	Bemetra	1,027
3	Saja	1,043
4	Berla	1,030
5	Dhamdha	1,017
6	Durg	975
7	Patan	993
8	Gunderdehi	1,003
9	Dondiluhara	1,047
10	Sanjaribalod	1,021
11	Dondi	1,031
12	Gurur	1,017
	District (Rural) Total:	1,016

The table 7 gives the CD Blockwise sex ratio for rural population of the district. The sex ratio in rural areas of the district comes to 1016. Among the CD Blocks the highest sex ratio of 1047 is found in Dondiluhara CD Block and the lowest of 975 is recorded in Durg.

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	5	0.3	824	0.0
700-749	2	0.1	53	0.0
750-799	5	0.3	10,586	0.6
800-849	15	0.8	4,824	0.3
850-899	36	2.0	22,678	1.3
900-949	163	9.2	153,579	8.8
950-999	386	21.7	441,393	25.4
1000-1099	900	50.7	942,114	54.2
1100+	264	14.9	162,076	9.3
District Total:	1,776	100.0	1,738,127	100.0

Table 8 presents the distribution of villages by 9 ranges of sex ratio based on 2001 Census. The maximum number of villages i.e. 900 accounting for 50.7 percent of the total villages having largest population of 54.2 percent in the district fall in the sex ratio range of 1000-1099. It is followed by 386 villages constituting 21.7 percent of total villages and 25.4 percent population falling in the range of 950-999.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town of town	Urban status	Sex ratio
1	2	3	4
1	Ahiwara	NP	966
2	Balod	NP	972
3	Bemetra	NP	971

		Rural	291,348	147,203	144,145	979
		Urban	146,795	75,687	71,108	940

The table 10 presents population of age group 0-6 years and sex ratio for total, rural and urban areas in respect of each tahsil of the district. The total sex ratio in this age group works out to 966 in the district. The sex ratio in rural and urban areas comes to 979 and 940 respectively. The rural sex ratio in tahsil varies between 1,004 in Sanjaribalod tahsil to 944 in Bemetra tahsil.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6

900-949	201	11.3	40,052	13.7
950-999	220	12.4	45,730	15.7
1000-1099	368	20.7	68,298	23.4
1100+	440	24.8	59,766	20.5
Dist.(Rural)Total	1,776	100.0	291,348	100.0
Sex ratio (Rural) for District:			979	

The above table presents the distribution of inhabited villages by sex ratio of rural population in the age group of 0-6 years by 9 ranges. The maximum number of 440 (24.8per cent) inhabited villages are in the range of 1100+ sex ratio covering 20.5 per cent population while under lower range of 1,000-1,099 sex ratio there are 368 inhabited villages covering 23.4 per cent population. The sex ratio range of 950-999 claims 220 villages (12.4 per cent) and (15.7 per cent) population.The lowest number of villages 44 (2.5 per cent) covering the lowest percentage of population (1.7 per cent) lies in the sex ratio range of 700-749.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATION INCLUDING CONSTITUENT UNITS/TOWNS, 2001

Serial number	Name of UA/Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes population to total population	Number of villages	Percent-age	Scheduled Tribes Population	Percent-age
1	2	3	4	5
Nil	315	17.7	0	0.0
Less than 5	407	22.9	10,070	3.5
5-10	274	15.4	27,075	9.5
11-20	261	14.7	39,235	13.8
21-30	111	6.3	28,738	10.1
31-40	63	3.5	19,484	6.8
41-50	55	3.1	25,318	8.9
51-75	152	8.6	72,877	25.6
76 and above	138	7.8	61,969	21.8
District Total	1,776	100.0	284,766	100.0

The above table represents the number of villages and per centage of Scheduled Castes population in 9 different ranges at the district level. Out of 1,776 villages 260 (14.6 per cent) villages have no Scheduled Caste population. The proportion of Scheduled Caste population is less than 5 per cent in 587 (33.1 per cent). 274 villages (15.4 per cent) fall in the range of 5-10 per cent and in the next range 11-20 per cent there are 254 villages(14.3 per cent). The range of 21-30 to 31-40 per cent contains 128 and 96 villages respectively. There are 35 villages in the range of 41-50 and 84 village is in the range of 51-75 and 58 villages in the range of 76 and above.

It may be seen from the above table that 407 villages reckoning 22.9per cent inhabited villages have Scheduled Tribes population in the range less then 5 per cent in the district. There are 315 villages which have no scheduled tribe population in the district. In the range of 5-10 per cent there are 274 inhabited villages having 15.4 per cent of scheduled tribes population. In the range of 11-20,21-30, 31-40 and 41-50 per cent these are 261, 111, 63 and 55 villages respectively. 152 villages have Scheduled Tribes population in the range of 51-75 in the district.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/ Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Ahiwara (NP)	18,719	3,036	1,262	16.2	6.7
2	Balod (NP)	21,165	1,509	2,378	7.1	11.2
3	Bemetra (NP)	23,315	1,833	590	7.9	2.5
	Dalli-Rajhara UA	57,058	8,059	11,834	14.1	20.7
4	(i) Dalli-Rajhara (M)	50,884	7,560	9,601	14.9	18.9
5	Dhamdha (NP)	8,577	284	240	3.3	2.8
	Durg-Bhilainagar UA	927,864	119,640	46,722	12.9	5.0
6	(a) Durg (M Corp.)	232,517	24,862	9,679	10.7	4.2
7	(b) Bhilai Nagar (M Corp.)	556,366	75,537	28,980	13.6	5.2
8	(c) Bhilai Charoda (M)	87,585	13,130	5,052	15.0	5.8
9	(d) Jamul (NP)	21,640	1,514	889	7.0	4.1
10	(e) Kumhari (NP)	29,756	4,597	2,122	15.4	7.1
11	Khamharia (NP)	6,799	727	191	10.7	2.8
12	Patan (NP)	8,812	795	818	9.0	9.3
	District(Urban) Total	1,072,309	135,883	64,035	12.7	6.0

The above table reveals that out of 12 towns the lowest proportion (3.3 per cent) of Scheduled Caste is found in Dhamdha(NP) and highest proportion is 16.2per cent in Ahirwara (NP). It is observed that the Scheduled tribe population is lowest proportion (2.5 per cent) is found in Bemetra(NP) and highest proportion 20.7 per cent is found in Dalli-Rajhara (UA).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN CD BLOCKS, 2001

Serial number	Name of CD Block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Nawagarh	1,002	1,068
2	Bemetra	1,013	1,103
3	Saja	1,014	1,065
4	Berla	997	1,034
5	Dhamdha	1,017	1,024
6	Durg	1,004	1,023
7	Patan	1,007	992
8	Gunderdehi	1,021	1,023
9	Dondiluhara	1,022	1,070
10	Sanjaribalod	1,028	1,059
11	Dondi	1,029	1,043
12	Gurur	1,065	1,058
District (Rural) Total		1,013	1,049

The table reveals that the Scheduled Castes and Scheduled Tribes sex ratio is 1,013 and 1,049 respectively. Among the CD Blocks , the highest sex-ratio of Scheduled Caste is 1,065 found in Gurur and the lowest 997 is in Berla CD Blocks . The sex ratio of Scheduled Tribes population in CD Blocks of Durg district the highest sex-ratio of 1,070 in Dondiluhara and the lowest of 992 is recorded in Patan CD Block.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Ahiwara (NP)	1,033	945
2	Balod (NP)	1,034	1,015
3	Bemetra (NP)	986	1,014
	Dalli-Rajhara UA	963	939
4	(i) Dalli-Rajhara (M)	953	909
5	Dhamdha (NP)	1,043	1,017
	Durg Bhilainagar UA	960	929
6	(a) Durg (M Corp.)	984	963
7	(b) Bhilai Nagar (M Corp.)	986	957
8	(c) Bhilai Charoda (M)	1,009	1,094
9	(d) Jamul (NP)	1,003	904
10	(e) Kumhari (NP)	942	989
11	Khamharia (NP)	1,054	1,221
12	Patan (NP)	888	1,055
Sex ratio (Urban) for the district:		963	937

The above table indicates the sex-ratio among the Scheduled Castes and Scheduled Tribes in UA/Towns of the district. The urban sex-ratio of the district of Scheduled Castes is 26 more than the sex-ratio of (937) of Scheduled Tribes. Among the 12 Towns of the district in Khamaria (NP) the sex-ratio of Scheduled Castes is highest (1,054) whereas it is lowest in Kumhari(NP) i.e. (942). The highest sex-ratio of Scheduled Tribes is observed in Khamaria(N.P) which is 1,221. It is lowest 904 in Jamul(NP).

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

District Total:	1776	100.0	1,738,127	100.0

Table No.23 gives the distribution of villages by 12 literacy ranges in the district. There are no villages in the first three ranges and the last range of 100 per cent. The highest number of villages i.e. 603 villages fall in the literacy rate range of 71-80 per cent covering 40.6 per cent of population while lower range of 61-70 per cent has 473 villages covering 26.6per cent population. In the range of 81-90, there are 302 villages, 293 villages come under the range of 51-60 per cent and cover 12.5per cent population. In the range of 41-50 per cent has 60 villages covering 2.2 per cent population and next to it, 32 villages come under the range of 91-99 per cent and covering 1.0per cent population.

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name and urban status of UA/Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate

100	81	5.3	578	.0.3
District Total:	1,516	100.0	223,628	100.0

Table No. 26 represents the distribution of villages by ranges of literacy rate for Scheduled Caste population. It may be noted that the literacy rate is worked out after excluding population in the age-group 0-6 from the total Scheduled Caste population. The highest number i.e. 418 villages fall in the literacy rate range of 71-80 per cent. Similarly, on the lower range, 361 villages fall in the literacy range of 61-70 per cent and in the upper range of 81-90 per cent, there are 249 villages respectively. There are 81 villages which have 100per cent literacy rates while 16 villages have no literacy.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Table No.31 tells about the number and percentage of main workers, marginal workers and non-workers by sex by tahsils.The proportion of total workers works out 41.4 per cent of the total population in the district. Out of total workers 34.4 per cent are main workers and 7.0 per cent are marginal workers and the remaining 58.6 per cent are non-workers.Among the main workers, male work participation rate in the district is 44.1 per cent and 24.5per cent of females. Male and female marginal workers account for 5.2per cent and 8.9per cent respectively.

Table 33 presents distribution of population by category of workers and non-workers by sex in UA/ Towns of the district. It is seen that total workers constitute 29.7 per cent of the total population of the district (Urban) and the proportion of non-workers is 70.3 per cent. The total workers are comprised of 26.9 per cent of main workers and 2.8 per cent of marginal workers. Among the total workers male workers constitute 46.2 per cent whereas female workers are only 11.9 per cent and in main workers, males participation rate in the district is 43.3 per cent and 9.3 per cent of females. Male and female marginal workers account for 2.9 and 2.6 respectively.

TABLE 34 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN TAHSILS, 2001

Note: Percentage of Worker to total worker are given in brackets

Table No.34 shows the distribution of workers by sex in four categories of economic activity in tahsils of the District Durg. The economy of the district is mainly concentrated in agriculture. Out of the total 41.4per cent workers, cultivators are 34.4 per cent and 30.2 per cent are agricultured labourers, 1.8 per cent are household industry workers and 33.6 per cent are engaged in other works in the district. The highest 64.5per cent proportion of cultivators are found in Dondiluhara tahsil and lowest is found 8.9per cent in Durg tahsil. The highest 76.6 per cent other workers is found in Durg tahsils and lowest 8.8 per cent is found in Nawagarh tahsil. The per centage of household industry workers is very low in the district. The per centage of male cultivators is less than female cultivators in the district.

Note: Percentage of Worker to total worker are given in brackets

Table No.35 gives us the CD Blockwise distribution of workers by sex in four categories of economic activities in the rural areas of the district. As per the table, total workers are 8,44,483 constituting 48.6 per cent of total population, out of which cultivators constitute 46.1 per cent, agricultural laborers 39.7 per cent, household industry workers 1.6 per cent and other workers 12.6 per cent. The proportion of cultivators is highest 64.5per cent in Dondiluhara CD Block and is lowest 29.7per cent in Durg CD Block. The highest proportion of agricultural labourers is 48.4per cent found in Patan CD Block and 25.4per cent lowest in Dondiluhara CD Block lock. It has been observed that except cultivation and agriculture labour, female workers are less than the male workers under each category.

The table above indicates the distribution of workers by sex in different categories of economic activity for the urban areas of the district. This shows that out of the 29.7% total urban workers, cultivators form 3.3%, agricultural labourers 5.1%, household industry workers 2.2% and other workers form 89.3% in the district. It is also seen that proportion of male workers under other work category is more than the female work participation whereas work participation of female workers under cultivators,agricultural labourer, and household industry workers category is more than male work participation.

(ix) Brief analysis of Village Directory and Town Directory data (table 37-47)

Analysis based on Village Directory and Town Directory data pertaining to Census 2001 are presented in the form of Inset tables from 37-47. Alongwith the census data 'Non-Census' data such as village amenity and town amenity data was collected during census 2001. These tables give the number of total villages, proportion of population served by different amenities, availability of amenities by distance, proportion of slum population in towns etc. A short analytical note is also given below of each table.

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and ths is tobe considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 deals with the CD Block -wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 1,776 inhabited villages in the district 1,700 villages or 95.7 per cent have been provided with the education facilities of one type or the other. Similarly 669 villages in the district constituting 37.7 per cent have medical facilities of one type or the other. Improved drinking water facility is available in 1,744 or 98.2 per cent villages. As regards, post office facility which includes facilities like telegraph office and post and telegraph, 359 villages constituting 20.2 per cent of villages have been provided with post office facility within the villages. 439 or 24.7 per cent villages have been provided with the telephone facility, 461 or 26.0 per cent with transport facility, 115 or 6.5 per cent villages with bank facility and 255 or 14.4 per cent with agricultural credit societies. Similarly there are 860 or 48.4 per cent villages, which are linked with the pucca road. Total 1,737 or 97.8 per cent of villages are provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at CD Block has been found with slight variation. Durg CD Block and Gunderdehi CD blocks have the 100 per cent educational facility available. Medical facility is highest in Durg (66.7 per cent) and lowest (18.1 per cent) in Nawagarh CD Block . Telephone facility is highest in Durg CD Block (65.4 per cent) and it is lowest in Nawagarh CD Block . In the field of power supply all villages have been covered except 39 villages in the district.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and ths is tobe considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table No.38 denotes the number and proportion of rural population served by different essential amenities. Out of the total 17,38,127 persons of the district 99.1per cent (17,23,265) population is getting educational facilities and 54.1per cent (9,39,468)of population has access to medical facilities while 17,13,439 or 98.6per cent population is enjoying improved drinking/water facility. Simultaneously, 35.1per cent persons are using postal service, 37.4per cent persons uses telephone facility and 36.5per cent persons are using transport communication service, 14.2per cent persons using bank services. The agricultural credit society are (24.1per cent) more than the bank service amenities. The approach road facility through pucca road is available to 60.7 per cent of population.Power supply is available to 17,20,372 or 99.0per cent persons.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	68	6	4	78
(b) Middle School	948	231	68	1,247
(c) Degree College	113	399	1,251	1,763
2. Medical:-				
(a) Hospital	245	482	1,040	1,767
(b) PHC	227	442	1,031	1,700
3. Post Office	989	363	65	1,417
4. Telephone	514	358	465	1,337
5. Bus Service	705	464	154	1,323
6. Banks				
(a) Commercial Bank	413	637	636	1,686
(b) Cooperative Bank	499	642	566	1,707
7. Agricultural Credit Societies	659	552	310	1,521

Table No.39 tells us about the distribution of villages not having certain amenities, arranged by distance ranges from the places where these are available. 78 villages of the district are not having primary school within the village, 1247 villages don't have middle scholls and 1763 villages don't have college within the village.

People of maximum number of villages of the district have to go out for availing of medical facilities. 1767 villages do not have hospital and 1700 villages do not have PHC facilities within the villages. Out of this also a majority of villagers have to travel more than 10 kms. to avail the medical facilities.

1417 villages in the district do not have post office within the villages. Out of it 989 villages can avail the facility of post office within a distance of 5 kms.

1337 villages don't have telephone facilities in the village. 1323 villages of the district are not linked by bus service.

Banking facilities are also not available in majority of the villages. 1686 villages do not have commercial banks and 1707 villages don't have co-operative banks within the village. People of 1521 villages have to go out of their villages to avail the agricultural credit society facilities.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDIG TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available							
		Education	Medical	Post Office	Telephone	Transport communica-tions	Banks	Agricultural Credit Societies	Approach by pucca road

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and ths is tobe considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In Durg district out of a total 1,776 inhabited villages, 476 have a population of less than 500 persons. Of these, 402 villages (84.5 per cent) have education facility, 67 (14.1 per cent) have medical facility, 460 (96.6 per cent) have improved drinking water facility. 27 villages (5.7 per cent) have post office facility. 37 (7.8 per cent) have telephone facility. 57 (12.0 per cent) have been linked by Transport Communication service.7 (1.5 per cent) have Bank facility and 24 (5.0 per cent) have agricultural credit societies, 126 village (26.5 per cent) have been linked with pucca road. 450 villages (94.5 per cent) have been provided with electricity.

Out of 648 villages, which fall in the population range of 500-999 persons, 646 villages 99.7 per cent have been provided with the education facility, 182 (28.1 per cent) with medical facility, 640 (98.8 per cent) villages have improved drinking water facility. 72 villages (11.1 per cent) have been provided with post office facilities, 124 villages (19.1 per cent) with telephone facility, 146 villages (22.5 per cent) with transport facilities, 15 village (2.3 per cent) with bank facility. 51 villages (7.9 per cent) with agricultural credit societies.313 villages (48.3 per cent) have approach by pucca road. 640 villages (98.8) in this range have electricity.

501 villages fall in population range of 1,000-1,999 persons. Of these 501 villages (100.0 per cent) have been provided with the education facility, 298 (59.5 per cent) with medical facility, 496 (99.0 per cent) villages have improved drinking water facility. 154 villages (30.7 per cent) have been provided with post office facilities, 182 villages (36.3 per cent) with telephone facility, 176 villages (35.1 per cent) with transport facilities, 43 villages (8.6 per cent) with bank facility, 114 villages (22.8 per cent) with agricultural credit societies and 298 villages (59.5 per cent) have approach by pucca road. 496 villages (99.0) in this range have electricity.

There are 145 villages in the district which are covered under 2,000-4,999 population range. Of these, 145 villages (100 per cent) have been provided with the education facility, 116 (80.0 per cent) with medical facility, 142 (97.9 per cent) villages have improved drinking water facility. 100 villages (69.0 per cent) have been provided with post office facilities, 91 villages (62.8 per cent) with telephone facility, 76 villages (52.4 per cent) with transport facilities, 45 villages (31.0 per cent) with bank facility, 61 villages (42.1 per cent) with agricultural credit societies and 117 villages (80.7 per cent) have approach by pucca road. 145 villages (100.0 per cent) in this range have electricity.

There are 6 villages in the district which are covered under 5,000-9,999 population range. Maximum villages are provided with all types of amenities. There is no village in the population range of more than 10,000.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Nawagarh	188	63,226	81.3	8.1
2	Bemetara	187	70,281	80.1	15.7
3	Saja	189	72,359	83.6	19.1
4	Berla	133	76,675	71.7	18.2
5	Dhamdha	162	79,147	78.0	26.5
6	Durg	81	44,856	75.0	59.2
7	Patan	142	66,907	71.8	59.9
8	Gunderdehi	163	68,474	76.1	42.4
9	Dondilohara	205	86,766	64.8	24.2
10	Sanjari Balod	96	31,137	65.9	73.5
11	Dondi	108	49,205	49.8	14.8
12	Gurur	122	40,645	67.7	76.4
	District Total:	1,776	749,678	73.0	32

Table No.42 represents CD Block wise distribution of villages according to land use area available for cultivation with irrigated or un-irrigated land in the district. Altogether there are 12 CD Blocks consisting of 1,776 villages in the district having total area of 7,49,678 hectares. Of this 73.0 per cent area is cultivable and 32 per cent of total cultivable area has got the irrigation facility.

It has been seen that per centage of cultivable area to total are is highest 83.6per cent in Saja CD Block and is lowest 49.8per cent in Dondi CD Block . The per centage of irrigated area to cultivable area is highest 76.4per cent in Gurur CD Block and lowest 8.1per cent in Nawagarh CD Block.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Adminis-tration	Public health and conveniences	Public works	Public institutions	Other(s)

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note: Percentage is given in brackets below the number of households. Bathroom means bathroom within the house Toilet means toilet within the house. Drainage menas closed and open drainage.

The table above reveals that 72.5 per cent households in the district are provided with improved drinking water sources supplied by tap, hand pump and tube well, 69.4 per cent households having electricity in their houses. The bathroom facility is available only to 24.4 per cent households within the premises. As regards rural areas only 3.3 per cent households are having bathroom facility. Whereas this proportion in urban areas comes to 58.4 per cent. The facility of electricity is 60.6 per cent in rural and 83.4 per cent in urban areas. Toilet and drainage facilities in the district are available in 24.4 per cent and 36.2 per cent households. The percentage is higher in urban areas as compared to rural areas. The trend and pattern of these amenities at tahsil level is almost all same as in the district.

Percentage in brackets

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The pattern and per centage distribution of households by nine types of fuel used for cooking is given in table 51 . The predominant type of fuel used in the district is fire wood (57.0 per cent) followed by cooking gas (L.P.G.) 15.4 per cent, cow dung cake 11.6 per cent, coal/lignite (charcoal) (10.7 per cent) and other remaining type of fuels contributing less than 6 per cent. In rural areas of the district the predominant fuel used is fire wood (79.3 per cent) followed by cow dung cake (11.6 per cent) while in urban areas predominant type of fuels used are cooking gas (LPG) (38.4 per cent), coal lignite (charcoal) (27.7 per cent) and firewood (21.0 per cent).

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Table no.52 presents data for total, rural and urban at district/Tahsil level households availing banking services and movable assets. In the district there are 5,47,152 households out of which 1,85,748 households are availing bank services, 1,67,675 households have either transistor or radio 2,03,633 have television and households possessing telephone are 39,986 , Bicycle are 3,83,73 1scooter/motor cycle / moped are 1,14,160 car/jeep/van are 16,539 and there are 1,09,927 such households having none of the specified assets available in the district.

(xi) Major Social and cultural events, natural and administrative developments and significant activities during the decade.

Raipur became the state capital after the formation of a separate state of Chhattisgarh. According to M.P.Government Adhisuchna No. 1238-F-20.8.92 (vii) sha, dated 2.7.98 and 1239-F-20.8.92 (vii) sha-dated 2.7.98, Raipur district was divided and two districts of Mahasamund and Dhamtari have been carved out. During the decade on 1st November 2000, Chhattisgarh was separated from Madhya Pradesh and Raipur was made its capital.

(xii) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district.

Balod: -

Balod is situated 54.4 km south of Durg, the district headquarters on the bank of Tandul river. Apart from Kapileshwar temple, there are other ancient temples and dilapidated ancient fort. On the bank of dam there are many Sati Stambhs. In one of the Stambh, 948 A.D. is inscribed which denotes the historic importance of this place.

Bhilainagar: -

Bhilai Steel Plant in Bhilainagar renders the district a well-known place in the Industrial map. Managed by Steel Authority of India, this unit is the largest unit of the country. In about 40 hectares of land, there is "Maitri Bagh" which is symbol of Indo-Russian friendship and is a tourist place.

Dhamdha :-

A historical fort is located in this tahsil headquarter and is on the bank of 'Budha" dam. It is said that after getting this village as reward from the then king Ratantu, it was developed by the Gond brothers and during Kalchuri Rule, it was given an important place as a city.

Dev-Baloda: -

This village which an important historical place, is only 3 km west of Bhilai. There is an ancient Shiva Temple which is built mainly of sandstone. The temple has embedded pictures of Varah, Narsimha, Vaman and Shrikrishna. There are many Sati monuments on the back of the temple.

Nawagarh: -

Nawagarh of Bemetra tahsil is situated on the bank of Mornagia, river, about 24 km away in the north-east of the tahsil head quarters. There is an ancient temple which was constructed in 647, dedicated to Kherapati. Nawagarh was one of the 36 forts of Haihaivansi kings which was once the capital of Gonds.

(xiii) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

Durg district is highly developed industrial area of chhattisgarh state where Bhilai Steel Plant is established which is one of the most prominent industrial unit of the country. Due to this many ancillary units have been established, which is increasing day-by-day. Dharamasi Morarji Chemicals, Kumhari Himmat Steel Foundry and Jamul Cement Factory, are the other major units of the district.

(xiv) Scope of Village Directory and Town Directory :

Village Directory :

The Village Directory is one of the traditional compilations of the census organisation and provides the consolidated picture of each village as revealed by the availability of existing amenities, land use pattern, composition of its population and other infrastructural details. This will be of immense help to identify the areas of surplus and deficit requiring the attention of planners and administrators for rescheduling the development process in appropriate direction. The format of village directory has 25 columns providing village-wise data of location, area, population, land use pattern and amenities etc.

The details of each column of village directory are explained as below :

Column-1 Serial number of the village is indicated in this column.

Column-2 gives the name of the village and permanent location code number (PLCN) assigned to each village in serpentine manner from north-west to south direction and is essential for identification of village. The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tahsil of first district of the state to the last village of last tahsil of the last district. In the state of Chhattisgarh first PLCN 00000100 has been assigned to village 'BADWAHI' in Bharatpur tahsil of Koria district which happens to be first village, tahsil and district while the last PLCN of 02030800 has been assigned to the last village 'SINKAWAYA' of the state in Konta tahsil of Dantewara district which happen to be last as per procedure adopted for assigning location code number. The district census handbook of 1991 Census as well as updated district and tahsil maps and services of local revenue officers/ officials have been used to assign the PLCN to the villages. The last two zeros will be used if new villages are created out of existing villages in subsequent census. Before 2001 census, village location code number used to change from one census to other due to change in jurisdictions or creation of villages or merger of villages in urban areas. The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective Tahsildar of each tahsil.

Column-3 shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns - 4 and 5 gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in the village.

Columns 6 to 9 deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure the accuracy of information provided. In such cases where no facility is available within a village, a dash (-)

has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, so as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained separately in the subsequent section. The list of colleges, senior secondary schools, hospitals, post and telegraph offices in the district as obtained from the concerned departments are also added in the form of annexures at the end.

Column-10 shows the number of banks – Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11 relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12 shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/auditorium facility available in the villages.

Column-13 Indicates the type of communications amenities such as by bus, railway or navigable waterway available to the village.

Column-14 refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15 gives the information of the nearest town and its distance in Kms. from the village in brackets from the referent village. In case, the nearest town is located in another state, the name of the state has also been furnished.

Column-16 relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17 gives the information as to whether newspapers/magazines are received in the village.

Column-18 gives the information of most important commodities manufactured in the village.

Columns- 19 to 23 give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories. These are as follows :

i) Forests
ii) Irrigated
iii) Unirrigated
iv) Culturable waste (including Gauchar and Groves)
v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or private and whether wooded or maintained as potential forest land. The crops raised in the forests and grazing lands or areas open for grazing within the forest is also included under the forest area.

Column 20 and 21 shows area irrigated by different sources of irrigation and un-irrigated area. These two columns cover all agricultural land which equals to net cropped area sown with crops and orchards including current and other fallow lands. In case of irrigated land, the source of irrigation has also been indicated.

Column-22 Culturable waste : This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Lands under thatching grasses, bamboo bushes and other groves for fuel etc., which are not included under orchards or forests come under this column. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column.

Column- 23 Area not available for cultivation : This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by buildings, roads and

railways or under water etc. Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost.

Town Directory :

Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information.

Statement-I Status and Growth History :

The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001. Civic administration status of each town is shown under column 2 and Location Code number in column 3 whereas column 4 indicates the name of tahsil/sub-tahsil to which town belongs. While column 5 shows the name of CD Block, area of each town in sq. kms. is depicted under column 6 column 7 deals with the number of households including houseless households as per the 2001 Census. Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001. Column 19 of the statement shows density of towns as per the 2001 Census. Columns 20 to 22 depict the sex ratio from 1981 to 2001 Census.

Statement-II Physical Aspects and Location of Towns, 1999

In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5. Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tahsil/ sub-tahsil headquarters. Column 9 shows the name of nearest city with population of one lakh or more and columns 10 to 12 give information regarding name and road distance of the nearest railway station, bus route, navigable river/canal (if within 10 Kms.)

Statement-III Municipal Finance, 1998-99

This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads. There are in all 16 columns in the statement showing receipt and expenditure under different heads.

Statement IV Civic and Other Amenities, 1999

The statement displays the information under 20 columns. The amenities about which information has been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage and other related matters such as water supply, fire fighting services and electrification etc.

Statement-V Medical, Educational, Recreational and Cultural Facilities, 1999

This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution. Educational facilities by level/type of courses and recreational and cultural facilities.

Statement-VI Trade, Commerce, Industry and Banking, 1999

This statement presents the information under 11 columns in respect of each town. Columns 3 to 8 indicate three most important commodities imported, exported and manufactured in the town. Information on number of banks available in the town appears under column 9. Columns 10 and 11 shows number of agricultural and non-agricultural credit societies operating in each town respectively.

Statement-VII Civic and other amenities in Slums, 1999

This Statement gives the information relationg to civic and other amenities in respect of slum areas of towns, where the population exceeds 50,000 as per 2001 census. The codes used in col. 8 and 13 are the same as for statement IV.

PART A - VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a) Notes explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post office, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,	O etc.

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i) Agricultural Credit Society	ACS
(ii) Non-Agricultural Credit Society	NCS
(iii) Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i) Cinema / Video Hall	CV
(ii) Sports Club	SP
(iii)Stdium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i) Bus	BS
(ii) Railway Station	RS
(iii) Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i) Paved Road	PR
(ii) Mud road	MR
(iii) Foot path	FP
(iv) Navigable River	NR
(v) Navigable Canal	NC
(vi) Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i) Electricity for domestic use	ED
(ii) Electricity for agricultural use	EAG
(iii) Electricity for other purposes	EO
(iv) Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i) News Paper	N
(ii) Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i) Government Canal	GC
(ii) Private Canal	PC
(iii) Well (without electricity)	W
(iv) Well (with electricity)	WE
(v) Tubewell(without electricity	TW
(vi) Tubewell(with electricity)	TWE
(vii) Tank	TK

(viii) River	R
(ix) Lake	L
(x) Waterfall	WF
(xi) Others	O
(xii) Total	

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix VII A, VII B The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Shows number of different types of girls school in a village.

Name of CD Block: Sanjari Balod		
	Nil	
Name of CD Block: Dondi		
	Nil	
Name of CD Block: Gurur		
7	01236200	Amapani

Appendix IV of the Village Directory gives CD blockwise list of inhabited villages where no amenity other than the drinking water facility is available in the villages. In the entire district there are only 7 villages namely Darri village, location code number 01058000, Sengaon 01069300, Kanharpur 01075300, falls in Nawagarh CD Block. Baduwa Kapa 01076500 in Bemetara, Uraiha 01105700 in Saja. Tunda Kundel 01196500 in Dondilohara. Amapani 01236200 in Gurur which have got no amenity other than drinking water facility. There is no village of Berla, Dhamdha, Durg Patan, Gunderdehi, Sanjari Balod, and Dondi CD Block falls under this category.

APPENDIX V - VILLAGE DIRECTORY
SUMMARY SHOWING NUMBER OF VILLAGES NOT HAVING SCHEDULED CASTES POPULATION

Serial number	Name of C.D. block	Total villages	Uninhabited villages	Inhabited villages	Number of inhabited villages having no Scheduled Castes population
1	2	3	4	5	6
1	Nawagarh	188	0	188	21
2	Bemetara	187	0	187	31
3	Saja	190	1	189	49
4	Berla	137	4	133	15
5	Dhamdha	162	0	162	30
6	Durg	81	0	81	3
7	Patan	142	0	142	12
8	Gunderdehi	163	0	163	5
9	Dondilohara	211	6	205	35
10	Sanjari Balod	98	2	96	13
11	Dondi	109	1	108	30
12	Gurur	122	0	122	16
	District Total:	1,790	14	1,776	260

Appendix V of the Village Directory shows the number of villages not having Scheduled Castes population. Out of 1,790 villages in the district, 14 villages are uninhabited and rest of 1,776 villages are inhabited. Out of 1,776 inhabited villages, 260 are such which do not have any Scheduled Castes Population and 1,516 inhabited villages are such, which have some Scheduled Castes population in the district. Saja CD block has largest number 49 villages without any Scheduled Castes population while in other CD blocks this number of villages is 35 in Dondilohara, Similarly 31 in Bemetara, 30 in Dhamdha and Dondi, 21 in Nawagarh, 16 in Gurur, and 15 in Berla, 13 in Sanjari Balod, 12 in Patan, 5 in Gunderdehi and 3 in Durg CD block.

APPENDIX VI - VILLAGE DIRECTORY
SUMMARY SHOWING NUMBER OF VILLAGES NOT HAVING SCHEDULED TRIBES POPULATION

Serial number	Name of C.D. block	Total villages	Uninhabited villages	Inhabited villages	Number of inhabited villages having no Scheduled Tribes population
1	2	3	4	5	6
1	Nawagarh	188	0	188	83
2	Bemetara	187	0	187	82
3	Saja	190	1	189	36
4	Berla	137	4	133	41
5	Dhamdha	162	0	162	36
6	Durg	81	0	81	5
7	Patan	142	0	142	9
8	Gunderdehi	163	0	163	12
9	Dondilohara	211	6	205	2
10	Sanjari Balod	98	2	96	1
11	Dondi	109	1	108	0
12	Gurur	122	0	122	8
	District Total:	1,790	14	1,776	315

Appendix VI shows number of villages not having Scheduled Tribes population. Out of 1,776 inhabited villages there are 315 villages which are not having any Scheduled Tribes population and the remaining 1,461 inhabited villages are such which are having some Scheduled Tribes population. Nawagarh CD Block has maximum number of 83 villages having no Scheduled Tribe population, followed by Bemetara with 82 villages, 41 in Berla, 36 in Saja and Dhamdha, 12 in Gumderdehi, 9 in Patan, 8 in Gurur, 5 in Durg, 2 in Dondilohara and 1 in Sanjari Balod CD Block. There is no village in Dondi CD Block.

SECTION II TOWN DIRECTORY

Notes Explaining the Codes Used in the town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14: Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT-I
STATUS AND GROWTH HISTORY

PART B - PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were

specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In

1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE-II

NOTE ON FERTILITY, MORTALITY AND MIGRATION - 1991 CENSUS

Fertility Levels :

Births, deaths, and migration are three components of population change in any geographical unit. Fertility is a major component of population growth. In the 1991 Census, questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were canvassed to generate the table of fertility. The first three questions were asked to all ever-married women and the last question related to currently married women. The various measures of fertility worked out are based on the district level estimates of fertility and child mortality for 1991.

Mortality analysis is one of the most important branches of demographic studies. This branch deals with the demographic event of death. Since death is a biological phenomenon that occurs just once to each individual, the analysis is simpler than, say, the study of fertility wherein the event of birth can occur with varying frequency among women.

Migration is an important aspect in the area of Population Studies. There is an increase in population of any community or country due to births or in-migration, whereas there is a decrease in the population of its residents due to deaths or migration. In other words, migration is an important reason for the change in size and composition of population. Those areas are affected by migration from where migrants go or where they have gone.

The migration tables of the 1991 Census are mainly based on the questions on place of birth, place of last residence, duration of residence at the place of enumeration and reason for migration included in the individual slip. These tables generated on computer provide the distribution of population by place of birth, distribution of migrants by place of last residence, duration of residence and reason for migration. The data on intra-district, intra-state and inter-state migration streams and in-migration from abroad are presented in these tables.

ANNEXURE III (i)

MEASURES OF FERTILITY IN THE STATE AND DISTRICT - CENSUS 1991

State : Chhattisgarh **District : Durg**

Fertility Measures	District : Durg		State : Chhattisgarh	
	1981	1991	1981	1991
General Fertility Rate (G.F.R.)	145	141	167	161
General Marital Fertility Rate (G.M.F.R.)	170	172	192	188
Total Fertility Rate (T.F.R.)	4.50	4.22	5.30	4.92
Total Marital Fertility Rate (T.M.F.R.)	5.20	5.35	5.90	5.73
Crude Birth Rate (C.B.R.)	34.41	34.89	37.96	32.79

(Source - Estimate of Fertility Indicators at District Level - M.P.1991)

Since Chhattisgarh was a part of Madhya Pradesh in 1991, the data of undivided Madhya Pradesh is presented in respect of Chattisgarh State.

According to the table, all the measures of fertility of the district except CBR are lower than the corresponding state average. The GFR, TFR of the district shows decline in 1991 over 1981figures whereas GMFR, TMFR and CBR have increased in 1991 over 1981. All the measures of the state shows decline in 1991 when compared with 1981 measures.

ANNEXURE III (ii)
MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE IN THE STATE AND DISTRICT - CENSUS 1991

State : Chhattisgarh **Distrcit : Durg**

Fertility Measures Chhattisgarh	District : Durg			State		
	Total	Rural	Urban	Total	Rural	Urban
No. of children ever born to each married woman in the age group 45-49	4.59	4.81	4.19	4.83	4.93	4.46
Mean age at marriage	16.54	16.01	17.54	16.62	16.39	17.48
Child Woman Ratio (0-4 years)	535	580	460	599	629	507

(Source:- District Profile of Madhya Pradesh 1991)

Since Chhattisgarh was a part of Madhya Pradesh in 1991, the data of undivided Madhya Pradesh is presented in respect of Chattisgarh State.

The average number of children born to each women in the age-group 45-49 of the district 4.59 is lower than state average 4.83. This measure is higher in the rural areas of the state as well as the district than the urban areas.

The mean age at marriage for district 16.54 is almost similar to corresponding state average 16.62. The child woman ratio for children 0-4 years age group to women in the 15-49 age group of the district is 535 and it is 599 for state. This indicator is higher in the rural area than in urban area in case of both the state and the district.

ANNEXURE III (iii)
CHILD MORTALITY RATE IN THE STATE AND DISTRICT : CENSUS 1981-1991

State : Chhattisgarh — District : Durg

State/District	Year	Persons				Male				Female			
		(q1)	(q2)	(q3)	(q5)	(q1)	(q2)	(q3)	(q5)	(q1)	(q2)	(q3)	(q5)
State :													
Chhattisgarh	**1991**	133	139	143	147	131	134	138	142	136	143	149	151
	1981	150	162	171	197	158	165	170	193	140	159	173	201
District :													
Durg	**1991**	102	108	117	122	112	116	121	128	84	93	101	115
	1981	137	144	148	162	155	154	152	166	119	133	146	159

(Source - Estimate of Mortality Indicators by sex at district level-M.P.1991)

Since Chhattisgarh was a part of Madhya Pradesh in 1991, the data of undivided Madhya Pradesh is presented in respect of Chattisgarh State.

It is seen from the table that the child mortality rate of the district has decreased largely in 1991 in comparison to 1981. The child mortality of the district for all classes is lower than the corresponding state child mortality rates. There is large difference between the female child mortality of the state and the district particularly in q(1), q(2) and q(3).

ANNEXURE IV(I)

POPULATION OF INMIGRANTS IN THE DISTRICT BY PLACE OF BIRTH: CENSUS 2001

State- Chhattisgarh **District : Durg**

Birth Place	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	846,835 (79.3)	227,040 (26.8)	619,795 (73.2)
(A)Within the district but outside Enumeration place	586,487 (54.9)	144,721 (24.7)	441,766 (75.3)
(B)Birth place in other district of State	260,348 (24.4)	82,319 (31.6)	178,029 (68.4)
(ii) Place of Birth in other states of India than the state of Enumeration	217,229 (20.3)	107,985 (49.7)	109,244 (50.3)
(iii) Birth place in Foreign	4,092 (0.4)	2,260 (55.2)	1,832 (44.8)
(iv) Unclassified	13 (0.0)	6 (46.2)	7 (53.8)
Total Immigrants	1,068,169	337,291	730,878
Persons born in the place of enumeration	1,742,267	1,080,602	661,665
Total population	2,810,436	1,417,893	1,392,543

(Source- Migration Table D-1)

Note: Percentages are given in brackets.

This table presents the number of in migrants by place of birth of enumeration within the district distributed in four classifications i.e. (i) Migration from within the state, (ii) Migration from other states of India,(iii) Migration from foreign place and (iv) Unclassified.

It is observed that the migration by birth from within the state is maximum 79.3 per cent of total migration. The migration from within the district but outside the enumeration place is 54.9 per cent whereas migration from other districts of the state is 24.4 per cent. Migration from other states is 20.3 per cent and the migration from outside India is 0.4 per cent of the total migration. Migration of 13 persons i.e.0.0 per cent which could not be classified in first three classifications has been shown as unclassified in first three classifications has been shown as unclassified in the table. It is also seen that the female migration is much higher than the male migration in first two classifications which is due to the migration of females after marriage.

ANNEXURE IV(II)

POPULATION OF INMIGRANTS BY PLACE OF LAST RESIDENCE : CENSUS 2001

State- Chhattisgarh **District : Durg**

Last Residence	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	876,886	238,805	638,081
	(80.5)	(27.2)	(72.8)
(A)Within the district but outside Enumeration place	621,716	157,269	464,447
	(57.1)	(25.3)	(74.7)
(B)From other district of State	255,170	81,536	173,634
	(23.4)	(32.0)	(68.0)
(ii) From other states of India outsidc enumeration state	209,619	104,011	105,608
	(19.2)	(49.6)	(50.4)
(iii) Place of residence outside India	2,857	1,576	1,281
	(0.3)	(55.2)	(44.8)
(iv) Unclassified	8	4	4
	(0.0)	(50.0)	(50.0)
Total Immigrants	1,089,370	344,396	744,974
Population of Non-inmigrants	1,721,066	1,073,497	647,569
Total population	2,810,436	1,417,893	1,392,543

Source- Migration Table D-2

Note: Percentages are given in brackets.

Migration of population by place of last residence distributed in four classifications is presented in this table. It is seen that the migration by usual place of last residence from within the state is highest 80.5 per cent of total migrated population. Within this classification, the migration from within the district is 57.1 per cent and only 23.4 per cent migration is from other districts of the state. Migration from other states of India outside enumeration state works out to 19.2 per cent of total migration and it is only 0.3 per cent from outside India. Migration of 8 persons constituting almost negligible per cent of total migration which could not be placed in the first three classification has been shown as unclassified in the table.Mostly, sexwise anlysis reveals much higher migration of females which is obviously due to the movement of females after marriage.

ANNEXURE IV(III)

POSITION IN-MIGRANTS FROM OTHER STATES - AS PER CENSUS 2001

State- Chhattisgarh **District: Durg**

Birth Place	Census 2001	
	Migrant Popultion	Percentage of total In-migrants
Uttar Pradesh	36,306	16.7
Madhya Pradesh	33,307	15.3
Bihar	27,315	12.6
Maharashtra	27,142	12.5
Orissa	25,068	11.5
Andhra Pradesh	19,461	9.0
Total of 6 States	168,599	77.6
Total of other States	48,630	22.4
Total	217,229	100.0

Source- Migration Table D-1

In-migration from other states is classified in this table. 77.6 per cent of total in-migrants are from Uttar Pradesh, Madhya Pradesh, Bihar, Maharashtra, Orissa and Andhra Pradesh whereas the remaining in-migrants from all other states together constitute only 22.4 per cent.

Total 36,306 persons have migrated from Uttar Pradesh which alone accounts for 16.7 per cent of total in-migrants. Durg is located at the neighbouring state border of Uttar Pradesh as such the Migration from Uttar Pradesh is very high and the culture and language is homogeneous.

ANNEXURE V

DISTRIBUTION OF POPULATION BY MAIN RELIGIONS

State : Chhattisgarh **District - Durg**

State/District	Population	Hindu	Muslim	Jain	Christian	Buddhist	Sikhs	Others	Unclassified
1	2	3	4	5	6	7	8	9	10
Chhattisgarh 1991	17,614,928	16,817,294	299,673	43,213	302,637	48,651	50,605	17,370	35,485
		(95.5)	(1.7)	(0.2)	(1.7)	(0.3)	(0.3)	(0.1)	(0.2)
Chhattisgarh 2001	20,833,803	19,729,670	409,615	56,103	401,035	65,267	69,621	95,187	7,305
		(94.7)	(2.0)	(0.3)	(1.9)	(0.3)	(0.3)	(0.5)	(0.0)
Durg 1991	2,397,134	2,272,955	54,979	12,873	20,629	12,496	19,367	547	3,288
		(94.8)	(2.3)	(0.5)	(0.9)	(0.5)	(0.8)	(0.0)	(0.1)
Durg 2001	2,810,436	2,654,202	70,398	16,027	22,167	18,265	23,399	5,462	516
		(94.4)	(2.5)	(0.6)	(0.8)	(0.6)	(0.8)	(0.2)	(0.0)

This annexure presents the distribution of population at district and state level pertaining to Census 1991 and Census 2001 in respect of six religions. It is observed that the proportion of Hindu population in the district is comparatively lower than that of state. As against this the proportion of Muslim and Jain population is higher in the district as compared to state average. The proportionate distribution of population belonging to other religions in the district is lower than the corresponding state average.

ANNEXURE VI

MARITAL STATUS OF POPULATION IN THE STATE AND DISTRICT: CENSUS 2001

State- Chhattisgarh **District- Durg**

State / District	Total/ Rural / Urban	Total Population	Marital Status				
			Never married	Married	Widowed	Divorced/Separated	Unspecified
Chhattisgarh							
	Total	20,833,803	10,267,526	9,440,561	993,835	131,881	0
			(49.3)	(45.3)	(4.8)	(0.6)	(0.0)
	Rural	16,648,056	8,123,500	7,576,395	837,185	110,976	0
			(48.8)	(45.5)	(5.0)	(0.7)	(0.0)
	Urban	4,185,747	2,144,026	1,864,166	156,650	20,905	0
			(51.2)	(44.5)	(3.7)	(0.5)	(0.0)
Durg							
	Total	2,810,436	1,376,387	1,295,980	119,970	18,099	0
			(49.0)	(46.1)	(4.3)	(0.6)	(0.0)
	Rural	1,738,127	837,021	804,078	83,996	13,032	0
			(48.2)	(46.3)	(4.8)	(0.7)	(0.0)
	Urban	1,072,309	539,366	491,902	35,974	5,067	0
			(50.3)	(45.9)	(3.4)	(0.5)	(0.0)

(Source- Socio Cultural Table C-2)

Note: Percentages are given in brackets.

The above table reflects that the population (49.0%) of the district comes under the unmarried class. When compared to state the percentage of unmarried population of the district is marginally lower than the state. Contrary to this the percentage of married population of the district is marginally more than the state. The state average is higher than the district in respect of widowed and it is equal in case of divorced population. The proportion of unmarried persons is higher in urban areas than rural but married persons are lower in the urban areas as compared to the rural areas of the district.

ANNEXURE - VII

AGE, SEX AND EDUCATIONAL LEVELS AS PER 2001 CENSUS

State: Chhattisgarh **District: Durg**

Age Group	Total Population			Total Literates			Literates (Without educational level) and below primary			Primary

(Source- Socio Cultural Table C-8)

Note: Percentages are given in brackets.

This annexure presents the proportionate distribution of literates by different educaional levels in specific age groups. As the population in the age group 0-6 do not come within the purview of literates, it has been shown separately.

It is seen that out of 2,372,342 persons belonging to the age 7 and above 1,793,890 are literates and thus, the literacy rate of the district works out to 75.6 per cent. Similarly the male and female literacy works out to 57.6 and 42.4 per cent respectively.

477,544 persons have been recorded to attain education up to primary level in the age group 7-14 which is only 86.8 per cent of population in this age group. In the age group 15-34; 181,531 persons (19.0 per cent) are found educated up to middle, 241,946 person (25.3 per cent) upto the level of Matriculate/Higher Secondary/ Intermediate/ Diploma Tech. and 66,375 persons (7.0 per cent) upto Graduate and above level. It may be noted that this is the group having maximum class interval and thus it has the maximum population as well. The analysis also reveals that the percentage of literates at all levels decreases with increasing age groups which explains the gradual increase in literacy rates over past ten years.

ANNEXURE VIII

DETAILS OF VARIOUS MOTHER TONGUES PREVALENT IN THE DISTRICT : CENSUS 2001

State : Chhattisgarh **District : Durg**

Name of Mother tongue	People who have recorded their mother tongue					
	No. of persons	Percentage of total population	Rural	Urban	Ratio Rural	Ratio Urban

Source :- Mother Tongue Table C-16 (Census-2001)

As revealed by the above table the most prevalent mother tongue in District - Durg is Chhattisgarhi which is returned by 76.3 per cent population. Hindi as mother tongue has second place after Chhattisgarhi returned by 14.1 per cent population. Telugu as mother tongue has third rank and it shows a per cent of 1.8 over to its next prevalent mother tongue. The other prevalent mother tongues are Oriya,Marathi,Bengali and Punjabi. On analysis of rural/urban sector it becomes clear that, Chhattisgarhi is widely spoken language in the rural areas. On the urban front most prevalen language are, Marathi, Bengali, Punjabi, Bhojpuri, Malayalam,Urdu, and Sindhi as returned by the district residents. Amongst the mother tongue prevalent, Nepali (98.8) holds a prominent position in the urban area. The mother tongue of the district is Chhattisgarhi.
