Pt. Ravishankar Sagar Project-Gangrel

Pt. Ravishankar Sagar Project also known as Gangrel Dam Project is the biggest of the series of dams built on Mahanadi River in Chhattisgarh. It is situated 13 k.m. from the district headquarters and 90 k.m. from state capital. The full reservoir level of this dam is 348.70 meters. This 1246 meters long dam has got 14 gates which control the flow of water to the down stream districts of Chhattisgarh and to the state of Orissa.

A hydel power project of the capicity of 10 mega watt is also located here. Canals, fed by this dam provides irrigation facilities to Dhamtari, Raipur and Durg districts of Chhattisgarh.

Based upon Survey of India map with permission of the Surveyor General of India.

Annexure-XI	:	Statement of Disability in the District, Census 2001	414

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centers, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the village Directory so as to give the details on number of inaccessible villages in each district. In the town Directory, a statement (IV-A) on slums introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In town Directory, the statement on slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education , and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digital permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, complied and computerised in prescribed record structure under the supervision of Shri Prabhakar Bansod, Director of Census Operations, Bhopal. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Divisions. Dr. R.P. Singh Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statement including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L.Jain, Deputy Director and Shri. R.K. Mehata, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

Preface

The District Census Handbook (DCHB) compiled by the Census organization, Government of India is one of the most valuable and usable product of the Census. As its name suggests, it is brought out for each district in the State. This publication started from the 1951 Census, but prior to this, a similar publication was released in the earlier censuses. Those publications contained only village statistics, village names and total population thereof. The 1951 Census could, therefore be said to represent a significant step forward, in the process of making detailed census statistics available down to the village level. An important achievement, for the first time in 1991 Census, was that the village level data was presented Community Development Blockwise.

The scope of District Census Handbook has undergone considerable change since 1951. This is basically due to the growing demand for more information. For the purpose of convenience as well as with a view to make the basic statistics available to the data users, as early as possible, the District Census Handbooks of 1991 were brought out in a single volumes as against the earlier practice of bringing it out in two parts. The volume was however divided in two parts viz. part A and part B. Part A contained the Village/Town Directory while part B contained the Primary Census Data, based on the 1991 Census count. Continuing the practice of 1991 Census, the 2001 series of the District Census Handbooks is comprised of two parts but the present series is more informative in terms of coverage and contents. Part A contains Village Directory which provides information on infrastructure amenities and land use data at village level i.e. name and location of villages, area, population, number of households, important civic amenities/facilities available in villages like educational, medical, drinking water, post, telegraph, commercial and co-operative banks, agricultural and non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town and its distance, power supply, news papers/magazine and most important commodity manufactured in the villages. Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district. C.D. block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans.

Part B of the District Census Handbook contains Village and Town Primary Census Abstract. This provides information on area, occupied residential houses, number of households, sex-wise total population. child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and divisions of workers into four industrial categories i.e. cultivators, agricultural labourers, workers in household industries and other workers in respect of each village and town of the district. Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages relating to housing, assets available with households and demographic profile of population at tahsil/ C.D block level which are helpful for rural planning. Annexures giving information on religion, Scheduled Castes/Scheduled Tribes, migration, fertility, mother tongue have been included.

It has to be remembered that the villagewise area figures presented in the PCA are based on village information in the form of C-3 as furnished by the revenue authority and the "total" given for the administrative units viz, community development blocks, is the total of the area figures of village coming under it while in the case of the administrative unit viz, tahsil, the "total" area shown, is based on the information furnished by the Commissioner, Land Records, Government of Madhya Pradesh, Gwalior. In some cases the total area shown against the tahsil, may not tally with the total of the area figures of villages coming under it.

The District Census Handbook had been a joint venture of the Government of Chhattisgarh and the Government of India. The design of 2001 District Census Handbook has been evolved centrally by the Census Commissioner, India and accordingly these books have been prepared by my office. In earlier censuses, the cost of publication of these books were borne by the State Government but now these are being printed centrally by the Census organization. In accomplishing this task we have had the whole hearted cooperation of the staff at various levels of different departments of the State Government. The data supplied by the field level officers have been comparatively checked with 1991 DCHB and have been cross checked with the data obtained from various departments. An attempt had been made to reconcile the discrepancies by external validation to make it more reliable. I am grateful to all heads of departments of the State Government, officers and staff engaged in the conduct of 2001 Census for their cooperation to accomplish this task.

The compilation of such a huge amount of varied data in a single volume requires proper planning and close monitoring. We have the honour of having enlightened guidance and encouragement of Shri D.K.Sikri, IAS, Secretary (Registrar General and Census Commissioner, India). I owe special thanks to Shri. J.K.Banthia, then Registrar General and Census Commissioner, India. I am thankful to Dr. R.P. Singh, DRG (Map), Shri. R.G. Mitra DRG (C&T) and Dr. I.C. Agrawal, Sr. Research Officer (S.S.) and Shri.S.L. Jain, Dy. Director of S.S.Division for providing technical guidance.

In the directorate many officers/officials contributed in the Census 2001. First of all, I pay my gratitude to the then Director of Census Operations, Madhya Pradesh & Chhattisgarh, Shri Prabhakar Bansod under whose guidance, the Census 2001 was carried out successfully. I am also thankful to Shri Ram Singh then Joint Director, under whose supervision this District Census Handbook has been prepared.

The data presented in the District Census Handbook required a concerted work of team comprises Shri Jose T.Varghese, Assistant Director, Shri Deepak Rao, S.I.Grade-I, Shri R.Patel, S.I.Grade-I, Shri O.S.Shukla, Draftsman, Shri Santosh C.Mendhe, D.E.O.Grade-B and Shri Hirendra Kumar Sinha, Compilor of this Directorate who were involved with it at various stages of its planning, supervision, preparation of manuscript, field work, computerisation, prepration of CRC with the help of Adobe Pagemaking technique, maps and printing. I express my appreciation for the painstaking dedicated service rendered by all of them and staff of Data Centre, Bhopal for their untiring cooperation in finalizing the 2001 Census Data.

I shall feel greatly rewarded if the book comes to the expectation of the data users.

P.K.CHAUDHARY

District Highlights - 2001 Census

1. Dhamtari district has been carved out from erstwhile district of Raipur by the Notification No.1239 dated 02.07.1998.

2. The district occupies 13th place in the state according to population.

3. The district occupies 16th rank in the state in terms of area having 3,385 sq.kms. which is 2.5 per cent of the total area of state.

4. Literacy Rate of Dhamtari district is 74.9 percent and it occupies 3rd position in the state. The female literacy rate of the district is 63.4 percent .

5. Density wise the rank of the district is 5th in the state.

6. Ranking of the district according to the sex-ratio is 6th in the state.

7. Female work participation rate of the district is 46.2 per cent & it ranks 7th in the district.

8. Population wise largest village is Nagri of Nagri tahsil L.C.No.01618000 with 10,987 population and smallest village is TumaKhurd of Dhamtari tahsil L.C.No.01603900 with population of only 4 persons.

9. Population wise largest town is Dhamtari(M) having population 82,111 and smallest is Kurud(NP) with 11,473 population.

10. Economy of the district is mainly dependent on agriculture and the district is famous for Rice production.

Definition of Census Town :-

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns:-

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and

iii) A density of population of at least 400 per square kilometre (1,000 per square mile)

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of District Census Handbook:

The District Census Handbook (DCHB), compiled by the Census Organisation, Government of India, on behalf of the State Government is one of the most valuable product of the Census. It is brought out for every district and is a very useful publication which is widely used by planners, administrators, academicians and researchers as it provides, among other things, the primary census data down to the village level.

History :

The history of the District Census Handbook could be traced from the "Village lists" brought out for every district in 1901 and "Village Statistics" for every district in 1911. This was discontinued in 1921 and 1931. In 1941, however, "Village Statistics" were brought out by the then Central Provinces and Berar Government. It was for the first time in 1951 that the practice of brining out a single volume known as District Census Handbook, giving village wise statistics and other Census tables for the districts, at the cost of the State Government, was initiated .

Scope :

The maiden publication of the District Census Handbook of 1951 contained village wise primary census data and census tables for the district. With the increasing utility and demand of statistical data for the planning process, the scope of the District Census Handbook was enhanced to a great extent in 1961 by including non-census data like climate, agriculture, animal husbandry, co-operative bank, industry, education, health, etc., apart from presenting the village wise primary census data and census tables. An introductory note giving information on historical background, physical features, soil, climate, civic administration, agriculture, industry, education, etc. together with detailed analysis on census tables was also a novel feature of the 1961 census. Maps of District and Tahsil were also included.

Publication of DCHB at the 1971 Census :

The desire to make the District Census Handbook more comprehensive in 1961, delayed the publication in some states. Therefore, in 1971, the Registrar General and Census Commissioner of India, decided to bring out DCHB in three parts viz. Part A, B and C, in order to release the maximum data as and when ready. Accordingly Part A was to contain the village wise Land Use data and the amenities and facilities available in the villages, these being part of the non-census statistics. Part B was to comprise the village wise primary census data, while in part C, the various non-census statistics at the district level and a few at tahsil level were to be presented.

Strategy at the 1981 Census :

In 1981 census with a view to avoid delay in the publication of DCHB series, part C containing the non-census statistics, as well as the census tables for the district were dropped. The scope of the District Census Handbook was, however, enlarged by the addition of tahsil wise list of villages where no amenities were available and tahsil wise list of the villages according to the proportion of Scheduled Caste/Tribes population by ranges in the form of Appendices III and IV respectively were added since Appendices I and II were already there.

Appendix III has been helpful for planning input in areas/villages where basic infrastructure is lacking, while Appendix IV has been helpful for planning welfare programmes for Scheduled Castes/Scheduled Tribes at micro level, particularly in relation to development oriented programmes.

In the town directory portion of DCHB Part A and additional Statement IV-A was also introduced in 1981. This statement was meant only for Class I and Class II towns and indicated the civic and other

amenities in notified slums.

The inclusion of the Primary Census Abstract relating to the Scheduled Castes and Scheduled Tribes at the tahsil/town level in Part B portion of the DCHB was another important feature of 1981 Census. An appendix containing Development Block wise totals of Primary Census Abstract was also presented in the DCHB series 1981 though it was not prescribed in the All India pattern.

The 1991 DCHB Series :

In the context of development planning the CD Block stay as an operational unit, the presentation of village-wise statistics at the CD Block level had been very helpful for the administrators and planners in formulating various development plans. The same had been presented CD Blockwise in 1991 Census.

The scope of the 1991 DCHB, particularly the village directory was enhanced to a great extent by the inclusion of additional information on various subjects such as intset tables on area, population and density in the districts, tahsils and towns, jurisdictional changes 1981-91 etc.

Contents of the DCHB series 2001 :

The present series of District Census Handbook consisting of two parts viz. Part A and Part B is being published in a single Volume.

Part A Village Directory :

Village Directory contains information about the name of the village with location code number, assigned to it by the Census Organisation, geographical area of the village, total population and number of households in the village, amenities like education, medical, drinking water, post and telegraphs, communications, approach to village together with distance in Km, distance from the nearest town, power supply and land use data. In addition there are eight appendix to the Village Directory as under :

Appendix I : CD Block wise(rural) abstract of educational, medical and other amenities.

Appendix I-a : CD Block wise abstract of villages by number of Primary schools.

Appendix I-b : CD Block wise abstract of Villages of Primary, middle and secondary schools.

Appendix I-c : CD Block wise abstract of Villages with different sources of drinking water facilities available.

Appendix II : Villages with 5000 and above Population, which do not have one or more amenities

Appendix II-a : Census Towns which do not have one or more amenities

Appendix III : Land Utilization data in respect of Census Towns/Non Municipal Towns.

Appendix IV : CD Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix V : Summary showing number of villages not having Scheduled Caste Population.

Appendix VI : Summary showing number of villages not having Scheduled Tribe Population.

Appendix VII A: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix VIII : Statement showing number of girls school in the villages.

Town Directory :

The Town Directory contains the following seven statements and one appendix.

Statement I : Status and Growth History

Statement II : Physical aspects and location of towns

Statement III : Municipal Finance

Statement IV : Civic and other amenities

Statement V : Medical,Educational, Recreational and cultural facilities

Statement VI : Trade, Commerce, Industry and Banking

Statement VII: Civic and other amenities in slums

Appendix to Town Directory – Towns showing their outgrowth with population.

Primary Census Abstract

Part B: -The Primary Census Abstract gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in tha age group 0-6, Literates, Main Workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels namely, Districts, CD blocks, Village, and UA/ Towns. In addition, Ward/Enumeration blockwise population is given in the Appendix to District Primary Census Abstract.

Primary Census Abstracts for Scheduled castes and Scheduled Tribes:

The Primary Census Abstract relating to Scheduled Castes and Scheduled Tribes is also being presented seperately at the CD Block-wise /Town wise. It will have the same characteristics as indicated in the Primary Census Abstract to the total population.

Publication of DCHB in Regional Language :

In 1981, part A and part B of DCHB were brought out seperately for every district which were printed in diglot i.e. a mixed up Hindi and English versions while in 1971, both the parts i.e. part A and part B were brought out in a single volume with simultaneous Hindi and English versions. The 1961 DCHB were however published in a single volume in English version only for district, since there were no seperate parts like DCHB of 1971 and 1981 censuses. The 1951 census DCHB series were published with a mix of both Hindi and English but with a difference.

New Features of DCHB 2001 :

The main features of Village Directory of DCHB 2001 are :

(1) For the first time eight digit continuous location code is assigned to all the villages within the state. These are the Permanent Location Code Numbers (PLCN) and starts from the first village of first tahsil of first district of state and continue till the end of last village of last tahsil of the last district within a state.

(2) The State codes are given in serpentine order for the first time which were assigned alphabetically in 1991 Census . As a result the State code of Chhattisgarh is assigned code 22 in Census 2001.

(3) As compared to earlier series of Village Directory additional and more useful information viz. number of Commercial, co-operative banks and the nearest distance of availability of amenity, Agriculture and Non-Agriculture credit societies, Recreational and Cultural facilities, availability of Newspaper/ magazines and names of important commodities manufactured are included in Census 2001 for the first time in Village Directory.

(4) Annexures giving information on fertility, religion, migration, mother tounge, Scheduled Caste/Scheduled Tribe havebeen included in DCHB 2001.

Town Directory :

No major change has been made in Town Directory when compared to Town Directory of 1991. However, some improvement has been made in the data collection on slums of the towns having population 50,000 and more in which seperate Enumeration Blocks were carved for slums during houselisting and population enumeration. In 2001 information in respect of slum areas have been collected for all towns.

The information of slums for Class I and II towns that is with population 50,000 or more was compiled in statement IV-A in Census 1991. In Census 2001, this information is compiled for all the towns irrespective of their size in statement VII.

Primary Census Abstract :

(1) Information on individuals has been collected in Household schedules and practice of

collecting data on individual slip has been discontinued.

(2) For persons recorded as other workers, the information on distance of place of duty and the means of transport of place of duty are obtained in column 27 and 28 of the household schedule.

(3) The information on Disability is obtained for the first time in Census 2001 in column 15 of the household schedule.

(4) The household schedule is divided in three parts. The information on cultivation/ plantation is recorded in part III of the household schedule for the first time in census 2001.

(ii) Brief History of the District *:

Dhamtari district was constituted by dividing Raipur and it includes three Tahsils Kurud, Dhamtari and Nagri according to M.P. Govt. notification No. 1239-F-20, August 92-VII, Sha dated 2nd July 1998. This is now in the newly created Chhattisgarh state. Its head-quarter is Dhamtari. It is said that the present name of Dhamtari (Sacred Kund) orginates from Dharamtarai phraseology. Some villages which end with the word Tarai are within 8 kms. of Dhamtari town.

A seperate mention of Dhamtari in the history is obscure. Though the glorious history of Raipur includes the history of Dhamtari. Ever since the time, Dhamtari was an integral part of South Koushal. It is recorded in Huiensang's report that present Dhamtari was a part of the Satwahan Rulers of the South. The excavation of Sirpur, which has a vast store of implements, instruments and gold coins found in Khairtal village of Raipur , indicates Gupta's Rule in this region. The famous rock inscription of Allahabad by Samudragupta shows that the king first captured, Mahendra of Koushal, Vyagh Raj of Mahakantar and several other kings of the South, and afterword left them independent and returned their kingdoms back. Vyagh Raj was a feudatory prince who had a son named Jayant who was a prince of Kalp dynasty. The literary meaning of Mahakantar is a vast forest which was a part of Sihawa of Dhamtari Tehsil.

It is clear from Kurud Patt of Narendra who was the ruler of Sarabhuria, that South Kaushal was a part of Gupta Kingdom till the end of 5th Century. After Gupta's Period, this region was ruled by Pandavanshi and Somvanshi rulers according to some inscriptions. In the beginning of 12th century, the Kalchuris established their domain over this region. The rock-inscriptions of Ratanpur by Jajalldeo Ist, indicates that the capital of Kalchuris was Tumman which is 41 kms north of Ratanpur. After the rule of Kalchuri King Sihan (1355-1375), the Kalchuri Dynasty of Ratanpur was divided into two branches. The junior branch established a seperate state whose capital was Raipur and Dhamtari was a part of it. According to rock-inscriptions between 1402 to 1414, King Brahmadeo ruled over this region. The last ruler of Kalchuri dynasty was Amar Singh Deo who was dethroned by Bhonsles in fifties of 18th Century. After his death in 1753, the Maratha ruler occupied the Parganas. Then onwards till 1818, it was under Maratha rule. It is belived that the ancient temples in Dhamtari were renovated during Maratha Period. In 1757,Bimbaji took over as leader of Maratha rule and by his stern action, brought several changes in this region. After the death of Bimbaji in 1787, Anandi Bai with the help of Vithal Deokar ruled over this state.

A fierce battle was fought between Maratha ruler Appa Rao and the Britishers at Sitabardi of Nagpur in 1817. The battle was won by Britishers and according to a part of treaty with Appa rao and the Britishers Chhattisgarh state went under British Rule. Captain Edmond was the first British Officer to take over administration of Chhattisgarh state which included Dhamtari and Raipur. For 12 years between 1818 to 1830, Chhattisgarh was the Protected State of the British rule. In 1830, when Raghoji attend adulthood became a major, the administration of Chhattisgarh State was given to him. Raghoji III died on 11th December, 1853 without any heir. As a result, this state was annexed with the British Rule. Captain Eliot was the first Officer-in charge of Chhattisgarh.

After the revolution of 1857, the growing dissentment among the people was reflected in religious and social reforms in the beginning. Many voluntary organisations were formed. The main organizations were Literary and Scientific Association, Malini Reading Club, People Teachers Assosiation and

Chhattisgarh Bal Samaj. In 1918, in Dhamtari, under the chairmanship of Vaman Rao Lakhe, a political conference was organized. The sign of political upliftment could now be seeen. A second conference was held in Dhamtari under the chairmanship of Dada Saheb Khapardey. On 20th December 1920, after the visit of Mahatama Gandhi in 1919, District Congress Committee was organized and the first Chairman was Barrister Thakkar and first secretary was Ravishankar Shukla. In the later years' the district played important Non-co-operation movement, Civil Disobedience Movement, Jungle Satyagarh and other Independence Movement.

(iii) Administrative Set-up *:

Dhamtari district is situated in the South of Raipur, the capital of newly created Chhattisgarh State. There are three tahsils, Kurud, Dhamtari and Nagri and four Development Blocks, Kurud, Magarload, Dhamtari and Nagri. The border of Dhamtari and Nagri tahsils are common. According to Census-2001, the district has 659 villages and 2 towns, The tahsilwise description is as follows :

Tehsil	No. of villages	Number and names of town
Kurud	249	1- Kurud(NP)
Dhamtari	158	1- Dhamtari(M)
Nagri	252	-

From administration point of view, the three tahsils of the district is further divided into 102 Patwari Halkas.

The district is the basic territorial unit of administration in the state as well as in India. The Collector, as the head of district administration is the key-functionary of the Government, having vast powers and wide responsibilities. In many ways he is the link between the State Government and the people. He is the custodian of law and orderand the pivot of local administration.

He is the Chief Executive Officer of the district and as such he exercises general supervision over various departments in regard to their non-technical work. Co-ordination of the activities of various Departments, control over local-self governing bodies, execution of Government schemes and miscellaneous functions, such as Panchayats, Census, election and relief measures in time of emergencies like floods, famine and epidemics, etc. also come within his preview.

The narrative on the organisational set-up of the collectorate may be divided into three main, viz.(i) land revenue, land-records including consolidation of land and other allied matters. (ii) law and order and (iii) Development.

The Collector is assisted by Deputy Collectors, Tahsildars, Naib Tahsildars, Revenue Inspectors and Patwaris. The Collector is also associated with a number of other committees in the district. The most important among them is the District Advisory Committee. The Collector is also vested with statutory powers under excise act, so as to enable him to implement the excise and prohibition policy of the Government Superintendent of Police is the head of police department at the district headquarters, In order to facilitate proper and smooth judicial administration there are 6 police station in the district.

The Judiciary is independent. At the district level, there is District Court headed by District and Session Judge. District and Session Judge is assisted by Civil Judges who are posted at tahsil level.

(iv) Physical Features *:

Dhamtari district is at the centre of Chhattisgarh State and to the south of Raipur which is its capital. It lies between on 20°02' to 21°00' latitude and 81°25' to 82°12' east longitude. It is surrounded by Raipur on the East, Durg and Kanker on the west, Raipur again on the North, Kanker on South-west and Nawapara (Orissa) on the South. Total area of the district is 3385 sq.kms and it is the smallest district of the state in terms of area.

Southern part of Dhamtari district comes under mountain region. These mountains of Sinhawa group spread over Nagri Tahsil and west of Sondhur ghati. The plateau is 1500 ft (457 mtrs) above mean sea Level which is the same as parts of Gariaband. The highest mountain is 748 metres which is situated on South of Belar Bahra and constitutes the south-east border. From south to north direction, there are chains of mountains spread over low plateau, the important ones are to the left-side of Sondhur,

Mundagiri 682 m, Borda 617 m, on the line of Sinhawa 598 m. Kattigaon 632 m and Gidhawa 733 m. there is a temple of Darneshwar. at Sihawa, on the bank of Mahanadi, which flows from East to West.The largest strip of barren land is in between Nagri and Birgudi villages.

To the north of Sinhawa, a big chunk of land is a plateau of Nagri and Kurud tahsil which is about 400 m to 500m high. In this region, the main ridges are Deogaon(409 m), Marduli (474m), Banduk Chatan (586 m), Sinhpur (451 m), Chhivri (499 m) etc. A large part of this area is covered with dense forest.

Drainage:

One of the main rivers of north India is Mahanadi, the origin of which is in Dhamtari district. The most important river of the district is Mahanadi, which originates from one of the mountain of Sihawa mountain ranges, located on the east of Nagri tahsil. It flows 27 kms to the west of the district and enters into Kanker district. From Kanker it turns towards north-west and from Charama, again takes a turn towards north-east. It enters the district from western corner and flowing towards northeast, enters Raipur district. The main tributaries of this river are Pairi and Sondhur. River Pairi originates from Mainpur(Raipur) and flows towards north. After flowing to about 45 kms north, Sondhur river flows into it from left side and after flowing 35.4 kms it enters Mahanadi in Rajim. This makes the border of north-east of Dhamtari district. The river Sondhur which originates from Koraput district of Orissa draws the eastern border of Dhamtari district from Bindranawagarh tahsil of Raipur district. Lilanji, Chargaon, Kajal, Sukha etc. are the tributaries of Sondhur in the district while Sita and Gounhan are other tributaries of Mahanadi. Dorki and Silari are other small rivers, which flow from north-west direction and fall into Mahanadi.

Climate:

The climate of summer season of this district is hot and dry and the monsoon season brings enough rain. The winter season starts from mid-November and lasts till February last. After this summer season arrives and goes up to the second week of June,when the highest temperature goes up to 46°C. The southwest monsoon starts from mid-June and lasts till the end of September. October and November are the months of post monsoon season. The minimum temperature goes down to 5.5°C during winter season. Average rainfall recorded in the district is 1221 mm. Winds are generally calm and move at mild speed but during summer and rainy season its speed intensifies. During post monsoon and winter season winds usually move from the north-east direction. In March winds move from different directions and from April, they blow from west and southwest and this condition prevails from May to September.

Forest:

Out of total area of 3385 sq.km of the district 2,21,300 hectares is forest land. Thus about 65 % of total land is forest area. In the district 2,05,600 hectares is reserve forest, 6900 hectares is protected forest and 8800 hectares is other forest land. Under forest area, there are three main forest ranges , viz.Dhamtari Range, Birguri Range and Nagri Range. Apart from Sal and teak trees, there are other similar varieties of trees, like Saj, Koha, Harra, Bahera, Tinsa, Bija and Kumbi.

In Dhamtari, Nagri and Birguri forest ranges, lions, tigers and leopard are seen roaming. Monkeys are found in the forests as well as outside. Wolf, Jackal, Newra, wild dog, fox , wild boar are other wild animals found in the district. In addition, blue-bull, Sambhar, Cheetal and Bisan etc. are also seen. In the category of birds, peacock, wild fouls, teetar, bater etc. can be seen in open mixed forests.

Minerals:

There is no deposit of any remarkable minerals in the district. However, some common minerals such as sand stones and small quantity of Panna gitty is found.

Land-use:

Most part of the district has black domat soil. There is 1,37,671 (45.46%) hectares of agricultural land, 914 (0.96%) hectares of non-agricultural land 26109 (8.62%) hectare and in 134434 (44.39%) hectares was used as agricultural land.(Source : District Census Officer, Dhamtari). In most of the land of 156165 (51.56%) hectares, paddy is grown.

Irrigation:

Wells and tube-wells are the main source of irrigation in the district. According to District Statistical Book, there are 9074 wells and 4276 tube-wells. In addition there are 1446 tanks and 9 Government and private canals. 1015771 hectares of land is irrigated by all these means.[1]

Animal Husbandary:

At the end of the year 2000-2001, out of total of 441,727 cattle the district had 250732 (56.76%) cow-dynasty, 63,044 (14.27%) buffalo-dynasty. Number of sheep was 3024(0.68%), goats were 34,596 (7.83%) 21 horeses/tattoos and 5638(1.23%)boars. The district had 82,939 (18.78%) poultries and 1733 (0.30%) ducks.[2]

Trade and industry:

In 2001, there were 15 industries in the district. Mostly there are 11 industries in Dhamtari Tehsil and in Kurud and Nagri tahsils there are two industries each. All the 15 industries are small scale industries and there are no medium or large scale industries in the district. Under Small Scale Industries Saw-mills, Rice-mills and tile manufacturing are the main industries. Rice, building timber, food material, lac and mahua are the main items of export. Similarly, grocery, cloths, cement, electronic goods etc. are the main items of import.

Transport and communications:

Dhamtari district is connected with other parts of the state by roads. It is also connected with Raipur by rail through meter gauge which is about 74 km away. The length of total pucca road is about 875.35 km and Katcha road is 1045.65 kms. National highway in the district is 60 kms. and state highway is on the way.

Electricity:

According to Executive Engineer, Electricity Board, Dhamtari, in 2000-2001, Domestic consumption of electricity is 38144 thousand k.w., commercial consumption is 4282 thousand k.w., Industrial consumption 18108 thousand k.w., water supply 1059 thousand k.w, Agriculture consumption 120819 thousand k.w and for lighting the roads 1337 thousand k.w, is consumed. Number of electrified villages are 562 which is 85.28% of total 659 villages.

Gram Panchayat:

Panchayat is the basic institution of local administration and foundation of decentralised administration. In Constitution of India, the Directive Principles of State Policy provides the Panchayati Raj system. M.P. Government has passed M.P. Panchayat Adhiniyam 1962 which provides a three-tier Panchayat system. With the 73rd Amendment of the Constitution, M.P. Government has passed the panchayati Adhiniyam 1993 which provides Panchayat for villages, Janpad Panchayat for Blocks and district Panchayat for the district. Under M.P. Gram Sabha Adhiniyam 2001, the Gram Sabha, which includes all the major persons, is constitually approved units and gives voting rights to elect Panch, Sarpanch, members of Janpad and members of district Panchayat. The Gram Sabha has power to approve works and annual budget of the village. Constituted with the elected members these institutions work for 5 years. At all level there is reservation for Scheduled Castes and Scheduled tribes according to the population ratio. For women, there is 1/3rd reservation. Village Panchayat, Janpad Panchayat and District Panchayat have members 10-20, 10-25, 10-35 respectively.

Village Panchayat with its funds execute the disposal of waste material, water supply, public works(roads, building, wells, tanks) market exchange, co-operation with government works, community health and development works. Janpad Panchayat with its funds, in its area, works for community development and integrated village, agriculture, social, trade, cattle-breeding, fish culture, adult-education, co-operatives, cottage industries, welfare and employment oriented programme. The district Panchayat has the duty to supervise and has to control over the Janpad and Village Panchayat. It has also to direct the development works and advise the State Government. The development and administration of all the villages are done by District Panchayat 3 Janpad Panchayats and 181 Village Panchayats.

(v) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one

[1](Source: District Statistics Book-2001)
[2](Source: District Census Book-2001)
* Chhattisgarh State Development Sanketank-2001.

component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as seperate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a seperate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a seperate unit because of having a seperate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a seperate building and its constituent units as seperate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case

of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a seperate census house.

If within a large enclosed area, there are seperate buildings owned by different persons then each such building is treated as a seperate building. There can be a situation where within an enclosed compound there are seperate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a seperate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a seperate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a seperate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a seperate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a seperates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as seperate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as seperate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a seperate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented seperately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria

simultaneously:

i) A minimum population of 5,000;

ii) at least 75 percent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 percent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City :

Towns with population of 100,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglo-meration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a seperate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams,

orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled Castes and Scheduled Tribes
Scheduled Castes :

1. Audhelia
2. Bagri, Bagdi
3. Bahna, Bahana
4. Balahi, Balai
5. Banchada
6. Barahar, Basod
7. Bargunda
8. Basor,Burud,Bansor, Bansodi, Bansphor, Basar
9. Bedia
10. Beldar, Sunkar
11. Bhangi,Mehtar,Balmik, Lalbegi,Dharkar
12. Bhanumati
13. Chadar
14. Chamar, Chamari, Bairwa, Bhambi, Jatav, Mochi, Regar, Nona, Rohidas, Ramnami,Satnami, Surjyabansi, Surjya-ramnami, Ahirwar, Chamar Mangan, Raidas
15. Chidar
16. Chikwa, Chikvi
17. Chitar
18. Dahait, Dahayat, Dahat
19. Dewar
20. Dhanuk
21. Dhed, Dher
22. Dohor
23. Dom,Dumar, Dome, Domar, Doris
24. Ganda, Gandi
25. Ghasi, Ghasia
26. Holiya
27. Kanjar
28. Katia, Patharia
29. Khatik
30. Koli, Kori
31. Khangar, Kanera, Mirdha
32. Kuchbandhia
33. Mahar, Mehra, Mehar

34. Mang, Mang Garodi, Mang Garudi, Dankhni Mang, Mang Mahasi, Madari, Garudi, Radhemang
35. Meghwal
36. Moghia
37. Muskhan
38. Nat, Kalbelia, Sapera, Navdigar, Kubutar
39. Pasi
40. Rujjhar
41. Sansi, Sansia
42. Silawat
43. Zamral

Scheduled Tribes :

1. *Agariya*
2. Andh
3. Baiga
4. Bhaina
5. Bharia Bhumia, Bhuinhar Bhumia, Bhumiya, Bharia, Paliha, Pando
6. Bhattra
7. Bhil, Bhilala, Barela, Patelia
8. Bhil Mina
9. Bhunjia
10. Biar, Biyar
11. Binjhwar
12. Birhul, Birhor
13. Damor, Damaria
14. Dhanwar
15. Gadaba, Gadba
16. Gond, Arakh, Arrakh,Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimma, Bhuta, Koilabhuta, Koliabhuti, Bhar, Bisonhorn Maria, Chota Maria, Dandami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti,Gaita, Gond Gowari, Hill Maria, Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Nagwanshi, Ojha, Raj Gond, Sonjhari Jhareka, Thatia,Thotya, Wade Maria , Vade Maria, Daroi
17. Halba, Halbi
18. Kamar
19. Karku
20. Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri
21. Khairwar, Kondar
22. Kharia
23. Kondh, Khond, Kandh
24. Kol
25. Kolam
26. Korku, Bopchi, Mouasi, Nihal, Nahul, Bondhi,Bondeya
27. Korwa, Kodaku
28. Majhi
29. Majhwar
30. Mawasi
31. Munda
32. Nagesia, Nagasia
33. Oraon, Dhanka, Dhangad
34. Pao
35. Pardhan, Pathari, Saroti
36. Pardhi, Bahelia, Bahellia, Chita Pardhi, Langoli Pardhi, Phans Pardhi, Shikari, Takankar, Takia
    (i) Bastar, Kanker,Dantewara, Raigarh, Jashpur, Korba, Mahasamund, Koriya and Surguja district
    (ii) Bilaspur, Bilha, Masturi, Takhatpur, Pendra Road and Kota tahsils of Bilaspur district
    (iii) Durg, Dhamdha, Patan, Gunderdehi, Balod, Dondilohara and Gurur tahsils of Durg district
    (iv) Mohala, Manpur and Ambagarh tahsils of Rajnandgaon district
    (v) Bindra-nawagarh, Rajim and Deobhog tahsils of Raipur district
    (vi) Dhamtari, Kurud tahsils and Sihawa CD Block in Dhamtari district
37. Parja
38. Sahariya, Saharia, Seharia, Seria, Sosia, Sor
39. Saonta, Saunta
40. Saur
41. Sawar, Sawara
42. Sonr

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate :

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards

or groves, etc. Cultivation does not include the following plantation crops — tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population density :

Population density is the number of persons inhabited per square kilometre of the area.

Age :

Age is measured in terms of the completed number of years

Sex-Ratio :

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called seperate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and

big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid – year Population}} \times 1000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years}} \times 1000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels

indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q_1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q_2 :

Probability of dying between birth and age 2.

q_5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate :

$$ENMR = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate :

$$LNMR = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR) :

$$PNMR = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate(SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate(MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4) :

Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types

(i) Migration within the state itself with its components

  (a) Migration within the district of enumeration (intra district migration)

  (b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country (inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country,

state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration :

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA/town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) and M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as

a) Areas where buildings are in any respect unfit for human habitation; or

b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings – Population, its distribution

According to Census 2001, Dhamtari district comprises of 629 inhabited villages, 30 uninhabited villages and total 659 villages distributed among three tahsils and four CD blocks. The district has 2 towns. The average household size of the district is 5.4.Total population of the district is 706,591comprising 352,524 males and 354,067 females. Thus the sex ratio of the district works out to 1004 which is better than the sex-ratio of the state which 989. Density of the district is 209 persons per sq.km. and is higher than the density of the state which is 154. Literacy rate of the district 74.9 percent is also higher than the State literacy rate 64.7 percent. Scheduled Castes and Scheduled Tribes population of the district is respectively 7.0 percent and 26.3 percent of the total population of the district. Apart from these general findings, the analysis on various parameters like rural-urban distribution of population by sex, literacy, density, caste, tribe etc. has been covered in the Inset Tables from 1 to 52 based on PCA, Village Directory data, Town directory data and houselisting data pertaining to Census, 2001.

(viii) Brief analysis of the PCA data (Table 1-36)

Analysis of the PCA data based on Census 2001 is presented here in the form of tables from 1 to 36. Various demographic indicators such as density, literacy, Sex-ratio and distribution of population in different economic activity by rural/ urban, male/female and age classifications are presented in these tables. These analysis are presented for Tahsils and CD Block levels seperately.

Analysis for Scheduled Castes and Scheduled Tribes is also covered in these tables.

TABLE 1: DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Kurud	239,409	225,741	13,668	296,137	284,664	11,473	23.7	26.1	-16.1	5.7	3.9
2	Dhamtari	205,759	136,402	69,357	249,780	167,669	82,111	21.4	22.9	18.4	33.7	32.9
3	Nagri	142,511	142,511	0	160,674	160,674	0	12.7	12.7	0.0	0.0	0.0
	District Total:	587,679	504,654	83,025	706,591	613,007	93,584	20.2	21.5	12.7	14.1	13.2

This table indicates tahsilwise decadal variation for both the rural and urban areas of the district. It is seen from the table that an overall 20.2 percent decadal growth has been recorded in the district. The growth rate in rural areas of the district during the decade 1991-2001 works out to 21.5 percent, while for urban areas it is 12.7 percent. Among the tahsils, Kurud has registered the highest decadal growth rate of 23.7 percent. The growth rate in rural area is highest in Kurud tahsil and it is highest in Dhamtari for urban area of the district. The percentage of urban population in the district is 13.2 percent in 2001 against 14.1 in 1991.Kurud tahsil shows a negative growth of urban population in 2001.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females
1	2	3	4	5	6	7	8	9
1	Kurud(Chormudiya)	133	179,952	89,931	90,021	1 (0.8)	55	41
2	Dhamtari	143	167,669	83,688	83,981	21 (14.7)	737	772
3	Magarlod	115	104,712	52,215	52,497	15 (13.0)	965	981
4	Sihwa(Nagri)	238	160,674	79,697	80,977	39 (16.4)	2,332	2,311
	Districts (Rural) Total:	629	613,007	305,531	307,476	76 (12.1)	4,089	4,105

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C.D. block	Number and percentage of villages	Population 200-499		Number and percentage of villages	Population 500-999		Number and percentage of villages	Population 1000-1999	
			Males	Females		Males	Females		Males	Females
1	2	10	11	12	13	14	15	16	17	18
1	Kurud(Chormudiya)	9 (6.8)	1,844	1,778	40 (30.1)	15,591	15,695	60 (45.1)	42,182	42,346
2	Dhamtari	20 (14.0)	3,787	3,869	31 (21.7)	11,342	11,484	48 (33.6)	33,450	33,598

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C.D. block	Number and percentage of villages	Population 2000-4999		Number and percentage of villages	Population 5000-9999		Number and percentage of villages	Population 10000 and above	
			Males	Females		Males	Females		Males	Females
1	2	19	20	21	22	23	24	25	26	27
1	Kurud(Chormudiya)	23 (17.3)	30259	30161	0 (0.0)	0	0	0 (0.0)	0	0
2	Dhamtari	22 (15.4)	31355	31202	1 (0.7)	3017	3056	0 (0.0)	0	0
3	Magarlod	9 (7.8)	12540	12555	1 (0.9)	2672	2468	0 (0.0)	0	0
4	Sihwa(Nagri)	10 (4.2)	13228	13709	1 (0.4)	3110	3090	1 (0.4)	5577	5410
	Districts (Rural) Total:	64 (10.2)	87382	87627	3 (0.5)	8799	8614	1 (0.2)	5577	5410

Table 2 gives CD Blockwise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at CD Block level in the district. Out of the 629 inhabited villages, 76 (12.1 percent) are small sized villages with population below 200 persons. In the size class of 200-499 persons, there are 165 villages having 26.2 percent villages of the district while in the size class of 500-999 population there are 155 villages constituting 24.6 percent of total villages. 165 villages (26.2 percent) are in the size class of 1000-1999 and 64 villages (10.2 percent) are in the size class of 2000-4999. There are 3 villages (0.5 percent) in the size class of 5000-9999 and only 1 village (0.2 percent) fall in the size class of population 10,000 and above.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Name of town		
(a) New		
(i)	Statutory town	Nil
(ii)	Census town	Nil
(b) Denotified		
(i)	Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	Nil
(ii)	Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii)	Census towns of 1991 census are notified as statutory town in 2001 census	Nil
(c) Declassified		Nil
(d) Wholly merged with other town(s)		Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	10	1.6	637	0.1
11-20	2	0.3	92	0.0
21-50	6	1.0	277	0.0
51-100	19	3.0	3,690	0.6
101-200	125	19.9	53,385	8.7
201-300	179	28.5	167,600	27.3
301-500	219	34.8	289,949	47.3
501 +	69	11.0	97,377	15.9
Not known	0	0.0	0	0.0
District Total:	629	100.0	613,007	100.0
Density of Population (Rural) of the district:		309		

Table 4 shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under 8 different ranges of density. The maximum number of villages i.e. 219 accounting for 34.8 per cent of the total inhabited villages of the district fall in the density range of 301-500 persons having 47.3 percent population. The lowest range of 0-10 and 11-20 persons per sq.km. cover 12 villages (1.9 percent). 69 villages have high density with more than 501 persons per sq.km. Majority of population (74.6%) lies in the range of 201-500 having 63.3% of total inhabited villages. In the medium density ranges of 21-50 and 51-100 persons account for 1.0 and 3.0 percent respectively of inhabited villages. Both these ranges claim only 0.6 percent of rural population.

TABLE 5: SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census	State			District		
Year	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	1,046	1,047	1,016	1,061	1,058	1,109
1911	1,039	1,040	1,013	1,055	1,056	1,023
1921	1,041	1,042	1,000	1,057	1,060	1,006
1931	1,043	1,046	957	1,068	1,072	988
1941	1,032	1,034	976	1,057	1,059	1028
1951	1,024	1,028	951	1,054	1,058	988
1961	1,008	1,026	837	1,053	1,058	1,005
1971	998	1,011	888	1,022	1,029	964
1981	996	1,012	908	1,023	1,030	971
1991	985	1,000	917	1,009	1,011	993

As per 2001 Census, sex ratio of the district 1004 against the state of 989. The sex ratio of the district had been significantly higher ever since 1901 over the state figures. Since 1901 the lowest sex ratio of the district (1004) has been recorded during Census 2001.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Kurud	1,002	1,003	993
2	Dhamtari	999	1,004	991
3	Nagri	1,016	1,016	NA
Sex ratio for the District :		1,004	1,006	991

Table 6 gives the tahsilwise sex ratio of rural and urban population of Census 2001. It is observed that the sex ratio for the rural areas works out to 1,006 whereas it is 991 for the urban areas. The sex ratio in rural area is highest (1,016) in Nagri tahsil whereas in urban area it is highest (993) in Kurud tahsil. The total sex ratio of the district is 1,004.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Kurud(Chormudiya)	1,001
2	Dhamtari	1,004
3	Magarlod	1,005
4	Sihawa(Nagri)	1,016
	District (Rural) Total:	1,006

Table 7 gives the CD Blockwise sex ratio for rural population of the district. The sex ratio in rural areas of the district comes to 1,006 females per 1,000 males. Among the CD Blocks the highest sex ratio of 1,016 is found in Sihawa CD Block and the lowest of 1,001 is recorded in Kurud CD Block.

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	3	0.5	63	0.0
700-749	2	0.3	176	0.0
750-799	2	0.3	496	0.1
800-849	13	2.1	2,489	0.4
850-899	27	4.3	12,306	2.0
900-949	63	10.0	47,866	7.8
950-999	155	24.6	204,555	33.4
1000-1099	299	47.5	317,599	51.8
1100+	65	10.3	27,457	4.5
District Total:	629	100.0	613,007	100.0
Sex ratio (Rural) for District:			1006	

Table 8 presents the distribution of villages by 9 ranges of sex ratio based on2001 Census. The maximum number of villages i.e.299 accounting for 47.5 per cent of the total villages having largest population of 51.8 percent in the district fall in the sex ratio range of 1000-1099. It is followed by 155 villages constituting 24.6 percent of total villages and 33.4 percent population falling in the range of 950-999.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of U.A./Town	Urban status of town	Sex ratio
1	2	3	4
1	Dhamtari	(M)	991
2	Kurud	(NP)	993
	Sex ratio (Urban) for the district:		991

Table 9 gives the sex ratio of towns. The sex ratio in urban areas of the district comes to 991 as a whole. Among the 2 towns of the district the sex ratio varies between 991 to 993.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Kurud	Total	52,513	26,605	25,908	974
		Rural	50,627	25,641	24,986	974
		Urban	1,886	964	922	956

4	*Sihawa(Nagri)*	*23,699*	*11,892*	*11,807*	*993*
	District (Rural) Total:	102,843	51,916	50,927	981

Table 11 gives CD Blockwise sex ratio of rural population in the age group of 0-6 years in the district. The sex ratio is 981 for the district (Rural). The sex ratio of CD Block varies between 964 to 994. It is highest in Magarlod CD Block and lowest in Kurud(Chormudiya) CD Block.

in the district. The sex ratio in rural and urban areas is 981 and 941 respectively. The rural sex ratio in tahsil varies between 974 in Kurud tahsil to 993 in Nagri tahsil.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	48	7.6	2,002	1.9
700-749	15	2.4	2,572	2.5
750-799	35	5.6	3,201	3.1
800-849	44	7.0	7,554	7.3
850-899	52	8.3	10,509	10.2
900-949	66	10.5	18,157	17.7
950-999	65	10.3	14,731	14.3
1000-1099	130	20.7	23,617	23.0
1100+	174	27.7	20,500	19.9
District (Rural) Total	629	100.0	1028,43	100.0
Sex ratio (Rural) for District:			981	

Table 12 shows the distribution of villages in 9 ranges of sex ratio of the population in the age group 0-6 years as well as percentage of villages, total population and percentage of population of this age group falling in each range of sex ratio in the district.

The maximum number of villages i.e.174 (27.7 percent) having population (19.9 per cent) in the district (rural) fall in the sex ratio range of 1,100 and above. It is followed by the sex ratio range of 1000-1,099 which has 130 villages (20.7 percent) and 23.0 percent population. Next to it 66 villages (10.5 percent) and 17.7 percent population are in the range of 900-949. Minimum number of villages i.e. 15(2.4 percent) with 2.5 percent of population fall in the range of 700-749.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATION(INCLUDING CONSTITUENT UNITS)/TOWNS, 2001

Serial number	Name of UA/Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Dhamtari	(M)	11,785	6,080	5,705	938
2	Kurud	(NP)	1,886	964	922	956
	District(Urban) Total		13,671	7,044	6,627	941

This table presents the sex ratio of UA/towns for population in the age group 0-6 years within the district. Kurud(NP) has the sex ratio of 956 and Dhamtari (M) has 938. The sex ratio of district (urban) total works out to 941.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

Serial number	Name of Tahsils	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7	8
1	Kurud	Total	296,137	23812	43,194	8.0	14.6
		Rural	284,664	22797	41,765	8.0	14.7
		Urban	11,473	1015	1,429	8.8	12.5
2	Dhamtari	Total	249,780	18823	43,083	7.5	17.2
		Rural	167,669	10974	35,562	6.5	21.2
		Urban	82,111	7,849	7,521	9.6	9.2
3	Nagri	Total	160,674	6,759	99,238	4.2	61.8
		Rural	160,674	6,759	99,238	4.2	61.8
		Urban	0	0	0	0.0	0.0
	District Total:	Total	706,591	49,394	185,515	7.0	26.3
		Rural	613,007	40,530	176,565	6.6	28.8
		Urban	93,584	8,864	8,950	9.5	9.6

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as the percentage to total population at tahsil level in rural and urban areas of the district. Of the 706591 total population of the district 7.0 percent belong to the Scheduled Castes and 26.3 percent to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 6.6 percent in rural population and 9.5 percent in urban population of the district.

The highest percentage of Scheduled Castes population is recorded in Kurud tahsil (8) while the lowest is found in Nagri tahsil(4.2). The proportion of Scheduled Tribes population is 28.8 and 9.6 percent in rural and urban areas respectively. Scheduled Tribes population in the district is mainly concentrated in Nagri tahsil(61.8 percent) and the lowest Scheduled Tribes population is recorded in Kurud tahsil(14.6 percent).

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Kurud(Chormudiya)	179,952	17,394	16,850	9.7	9.4
2	Dhamtari	167,669	10,974	35,562	6.5	21.2
3	Magarlod	104,712	5,403	24,915	5.2	23.8
4	Sihawa(Nagri)	160,674	6,759	99,238	4.2	61.8
	District (Rural)					
	Total:	613,007	40,530	176,565	6.6	28.8

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each CD Block of the district. 6.6 percent of rural population of the district belongs to Scheduled Castes and 28.8 percent to Scheduled Tribes. Scheduled Caste population is highest (9.7 percent) in Kurud(Chormudiya) CD Block whereas it is lowest(4.2) percent) in Sihawa(Nagri) CD Block. Scheduled Tribes population is highest (61.8 percent) in Sihawa(Nagri) CD Block and it is lowest (9.4 percent) in Kurud(Chormudiya) CD Block.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES 2001

Percentage Range of Scheduled Castes population to total population	Number of villages	Percent-age	Scheduled Castes Population	Percent-age
1	2	3	4	5
Nil	198	31.5	0	0.0
Less than 5	255	40.5	6,977	17.2
5-10	90	14.3	9,001	22.2
11-20	45	7.2	8,440	20.8
21-30	16	2.5	5,941	14.7
31-40	11	1.7	4,997	12.3
41-50	3	0.5	1,215	3.0
51-75	2	0.3	630	1.6
76 and above	9	1.4	3,329	8.2
District Total	629	100.0	40,530	100.0

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of population at district level. 198 villages accounting for 31.5 percent of total 629 inhabited villages in the district do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5.0 percent in 255 villages (40.5 percent). In 90 villages it varies between 5-10 percent while the next range of 11-20 percent accounts for 45 villages. The range of 21-30 and 31-40 percent contains 16 and 11 villages respectively. There are 3 villages in the range of 41-50 and 2 villages in the range of 51-75. Only 9 villages are such where the proportion of Scheduled Castes is 76 and above.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATIONINVILLAGES, 2001

Percentage Range of Scheduled Tribes population to total population	Number of villages	Percent-age	Scheduled Tribes Population	Percent-age
1	2	3	4	5
Nil	16	2.5	0	0.0
Less than 5	70	11.1	2,982	1.7
5-10	62	9.9	7,829	4.4
11-20	70	11.1	14,888	8.4
21-30	50	7.9	19,746	11.2
31-40	33	5.2	12,337	7.0
41-50	29	4.6	11,229	6.4
51-75	101	16.1	43,902	24.9
76 and above	198	31.5	63,652	36.1
District Total	629	100.0	176,565	100.0

Table 17 reflects the number of villages according to the proportion of Scheduled Tribes population to their total population in different ranges of population at district level. 16 villages accounting for 2.5 percent of total 629 inhabited villages in the district do not have any Scheduled Tribes population. The proportion of Scheduled Tribes population is less than 5.0 per cent in 70 villages (11.1 percent). In 62 villages it varies between 5-10 percent while the next range of 11-20 percent accounts for 70 villages. The range of 21-30 and 31- 40 percent contains 50 and 33 villages respectively. There are 29 villages in the range of 41-50 and 101 villages in the range of 51-75. 198 villages are such where the proportion of Scheduled Tribes is 76 and above.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/ Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Dhamtari (M)	82,111	7,849	7,521	9.6	9.2
2	Kurud (NP)	11,473	1,015	1,429	8.8	12.5
	District(Urban) Total	93,584	8,864	8,950	9.5	9.6

Table 18 shows number and percentage of Scheduled Castes and Scheduled Tribes in UA/ Towns of the district. Out of the 2 towns the highest proportion (9.6 percent) of Scheduled Castes is found in Dhamtari(M) and lowest proportion (8.8 percent) in Khrud(NP).

For Scheduled Tribes the highest proportion (12.5 percent) is found in Kurud (NP) and lowest (9.6 percent) in a Dhamtari(M).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN CD BLOCKS, 2001

Serial number	Name of C. D. block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Kurud(Chormudiya)	1,033	1,002
2	Dhamtari	1,009	1,017
3	Magarlod	981	1,032
4	Sihawa(Nagri)	1,027	1,025
	District (Rural) Total	1,019	1,022

Table 19 indicates sex ratio among Scheduled Castes and Scheduled Tribes in each CD Block of the district. The Scheduled Castes sex ratio is 1,019 for district (rural). Among the CD Blocks, the highest sex ratio of 1,033 is found in Kurud(Chormudiya) CD Block and lowest of 981 is recorded in Magarlod CD Block.

Sex ratio of Scheduled Tribes population in Dhamtari district rural is 1,022. Among the CD Blocks, the highest sex ratio of 1,032 is found in Magarlod CD Block and lowest of 1,002 is recorded in Kurud(Chormudiya) CD Block.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Dhamtari (M)	1,043	1,013
2	Kurud (NP)	963	1,027
Sex ratio (Urban) for the district:		1,033	1,015

Table 20 shows the sex ratio among Scheduled Castes and Scheduled Tribes in UA/Towns for Census 2001. For the district (urban) sex ratio is slightly higher (1,033) among Scheduled Castes compared to Scheduled Tribes (1,015).

Among the 2 towns of the district, in Dhamtari(M) the Scheduled Caste and Scheduled Tribe sex ratio is above one thousand i.e. 1,043 and 1,013 respectively. But in the Kurud (NP) it is less than 1000 i.e. 963 for scheduled caste and above 1000 i.e. 1027 for scheduled tribes.

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

Tahsilwiseand District literacy rates besides the number of literates and illiterates for total, rural and urban areas are given in Table 21. The literacy rates are worked out by excluding population of 0-6 years. As per 2001 census, the proportion of literates to total population excluding 0-6 years comes to 74.9 percent in the district. This proportion in rural area is 74.2 percent and 79.4 percent in urban areas. In the district the literacy rate of males 86.5 percent is much higher than that of females which is 63.4 percent.

Among the tahsils, Dhamtari tahsil tops with 78.4 percent literates and the lowest literacy rate 68.3 percent is recorded for Nagri tahsil.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of C.D. block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Kurud (Chormudiya)	114,190	64,866	49,324	65,762	25,065	40,697	77.5	88.5	66.7	21.8
2	Dhamtari	108,037	61,485	46,552	59,632	22,203	37,429	77.6	88.7	66.6	22.1

41-50	25	4.0	7,239	1.2
51-60	77	12.2	35,303	5.8
61-70	146	23.2	139,978	22.8
71-80	222	35.3	279,049	45.5
81-90	137	21.8	140,869	23.0
91-99	14	2.2	8,873	1.4
100	0	0.0	0	0.0
District Total:	629	100.0	613,007	100.0
Literacy rate for District:			74.9	

Table 23 gives the distribution of villages by literacy ranges in the district. There are no villages in the literacy rate range 0, 1-10 and 11-20. Similarly no village is recorded in the literacy range of 100 percent . Highest number of villages i.e. 222 villages fall in the literacy range of 71-80 percent. This accounts for 35.3 percent of total villages and 45.5 percent of the district population.

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name and urban status of UA/Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Dhamtari (M)	56,157	31,538	24,619	25,954	9,699	16,255	79.9	89.7	70.0	19.7
2	Kurud (NP)	7,324	4,156	3,168	4,149	1,600	2,549	76.4	86.7	66.1	20.7
	District(Urban) Total	63,481	35,694	27,787	30,103	11,299	18,804	79.4	89.3	69.5	19.8

Table 24 presents the number and percentage of literates and illiterates by sex in UA/towns of the district. It is seen that the highest literacy rate of 79.9 percent is recorded in Dhamtari(M) whereas the lowest literacy rate is recorded in Kurud(NP). Sex wise highest percentage of male literacy rate is observed in Dhamtari(NP) and it is lowest in Kurud(NP). Gap in male female literacy rate is maximum in Kurud(NP). The total literacy rate of the district (urban) comes to 79.4 percent. It is 89.3 for males and 69.5 for females.

TABLE 25 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of CD Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Kurud(Chormudiya)	10,499	6,055	4,444	6,895	2,500	4,395	74.3	87.7	61.4	26.3

Literacy rate for District (Rural):				72.1

Table 26 presents the distribution of villages by range of literacy rate for Scheduled Caste population. It may be noted that the literacy rate is worked out after excluding population in the age group 0-6 from the total Scheduled Caste population. The overall literacy rate of Scheduled Caste population for the district (rural) works out to 72.1 percent. Highest number of villages i.e. 113 villages fall in the literacy range of 71-80 percent. There are 44 villages which have 100 percent literacy rate of Scheduled Caste population. 4 villages are such where the literacy rate of Scheduled Caste population is 0 percent.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Dhamtari (M)	4,413	2,589	1,824	3,436	1,253	2,183	67.3	80.9	54.4	26.5
2	Kurud (NP)	506	332	174	509	185	324	61.6	77.8	44.2	33.6
	Dhamtari (Urban)	4,919	2,921	1,998	3,945	1,438	2,507	66.7	80.5	53.3	27.2

This table reveals the number and percentage of Scheduled Castes literates and illiterates by sex in the towns of the district. The total literacy rate of District (Urban) is 66.7 . It is 80.5 percent for males and 53.3 percent for females. Literacy rate is highest 67.3 percent in Dhamtari(M) and is lowest 61.6 percent in Kurud (NP). The gap in male/female literacy rate is maximum 33.6 percent in Kurud(NP).

TABLE 28 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

Serial number	Name of CD Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates

District Total:	613	100.0	176,565	100.0
Literacy rate for District (Rural):				68.4

Distribution of villages by literacy rate range for Scheduled Tribes population of the district (Rural) is presented in this table. The literacy rate of Schedule Tribes population for District (Rural) is 68.4 percent. Accordingly the highest number of villages 192 fall in the literacy rate range of 71-80 percent constituting 31.3 percent of villages having Scheduled Tribe population and 31.6 percent of total Scheduled Tribe population. There is 1 villages which fall in the literacy range of 0 percent and 4 villages have 100 percent literacy rate of the Scheduled Tribe Population.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Dhamtari (M)	4,219	2,546	1,673	3,302	1,191	2,111	66.0	80.5	51.8	28.7
2	Kurud (NP)	739	439	300	690	266	424	61.9	75.2	49.3	25.9

				(46.2)	(37.9)	(51.1)	(4.5)	(6.5)

Note: Percent of Worker to total worker are given in brackets

It can be seen from the table 34, the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 39.7 percent of the total workers (main + marginal), 40.0 percent of total workers are engaged as agricultural labourers, 3.6 percent as household industry workers and 16.7 percent of other workers in this district.

The distribution of workers by four categories of economic activity at tahsil level shows very high dependence of population on agriculture sector. The proportion of cultivators varies between 29.1 percent in Dhamtari tahsil and 45.8 percent in Kurud tahsil.These variations within the district may be due to cropping and land holding patterns.The percentage of females cultivators is 37.9 percent as compared to 41.1 percent of male cultivators in the district.The highest proportion of 29.5 percent of other workers is recorded in Dhamtari tahsil while the lowest proportion of 9.5 percent is found in Kurud tahsil.

TABLE 35 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN CD BLOCKS, 2001

				(54.5)	(46.3)	(34.3)	(2.2)	(17.2)
		Females	307,476	151,552	61,218	81,600	3,282	5,452
				(49.3)	(40.4)	(53.8)	(2.2)	(3.6)

Note: Percent of Worker to total worker are given in brackets

Table 35 presents CD Blockwise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers (main + marginal) constitutes 51.9 percent of total population. Among these workers cultivators constitute 43.5 percent, agricultural labourers 43.6 percent, household industry 2.2 percent and other workers constitute 10.7 percent. The proportion of cultivators is highest 47.4 percent in Kurud(Chormudiya) CD Block and is lowest 38.1 percent in Dhamtari CD Block. Proportion of agricultural labour is highest 45.5 percent in Magarlod CD Block and lowest 42.3 percent in Sihawa(Nagri) CD Block. It is also seen that the proportion of male workers is more than female workers under the category of cultivators.

TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name and urban status of UA/Town	Persons / Males / Females	Total Population	Total number of workers (Main + Marginal)	Category of workers			
					Cultivators	Agricultural Labourers	Household Industry workers	Other workers
1	2	3	4	5	6	7	8	9
1	Dhamtari (M)	Persons	82,111	31,629	1,402	1,751	5,726	22,750
				(38.5)	(4.4)	(5.5)	(18.1)	(71.9)
		Males	41,237	21,083	864	629	1,681	17,909
				(51.1)	(4.1)	(3.0)	(8.0)	(84.9)
		Females	40,874	10,546	538	1,122	4,045	4,841
				(25.8)	(5.1)	(10.6)	(38.4)	(45.9)
2	Kurud (NP)	Persons	11,473	4,442	697	1293	90	2,362
				(38.7)	(15.7)	(29.1)	(2.0)	(53.2)
		Males	5,756	2,858	390	445	53	1,970
				(49.7)	(13.6)	(15.6)	(1.9)	(68.9)
		Females	5,717	1,584	307	848	37	392
				(27.7)	(19.4)	(53.5)	(2.3)	(24.7)
	District (Urban) Total:	Persons	93,584	36,071	2,099	3,044	5,816	25,112
				(38.5)	(5.8)	(8.4)	(16.1)	(69.6)
		Males	46,993	23,941	1,254	1,074	1,734	19,879
				(50.9)	(5.2)	(4.5)	(7.2)	(83.0)
		Females	46,591	12,130	845	1,970	4,082	5,233
				(26.0)	(7.0)	(16.2)	(33.7)	(43.1)

Table 36 presents the distribution of workers by sex in different categories of economic activity for UA/Towns of the district. It is seen that out of 38.5 percent of total workers, cultivators constitute 5.8 percent, agricultural labourers 8.4 percent, household industry 16.1 percent and the highest proportion is covered by other workers which is 69.6 percent. It is also found that proportion of male workers under other workers is more than female proportion whereas proportion of female workers under cultivators, agricultural labourer and Household industry is more than the proportion of males.

Analysis based on Village Directory and Town Directory data pertaining to census 2001 are presented in the form of Inset tables from 37-47. Alongwith the census data 'Non-Census' data such as village amenity

(ix) Brief analysis of Village Directory and Town Directory data (table 37-47)

and town amenity data was collected during census 2001. These tables give the number of total villages, proportion of population served by different amenities, availability of amenities by distance, proportion of slum population in towns etc. A short analytical note is also given below of each table.

Table 37 deals with the CD block-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport,

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Type of amenity available									
			Edu-cation	Medical	Improved drinking water*	Post Office #	Teleph one	Transport communica tions $	Banks	Agricu-ltural Credit Societies	Appro-ach by pucca road	Power supply

		(100)	(93.9)	(30.4)	(99.1)	(15.7)	(6.1)	(10.4)	(7.0)	(13.0)	(17.4)	(98.3)
4	Sihawa(Nagri)	238	209	79	235	40	28	20	12	10	74	180
		(100)	(87.8)	(33.2)	(98.7)	(16.8)	(11.8)	(8.4)	(5.0)	(4.2)	(31.1)	(75.6)
	District Total:	629	575	261	619	116	124	76	52	70	194	557
		(100)	(91.4)	(41.5)	(98.4)	(18.4)	(19.7)	(12.1)	(8.3)	(11.1)	(30.8)	(88.6)

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 629 inhabited villages in the district 575 villages or 91.4 percent has been provided with the education facilities of one type or the other. Similarly 261 villages in the district constituting 41.5 percent have medical facilities of one type or the other. Improved drinking water facility is available in 619 or 98.4 percent villages. As regards, post office facility which includes facilities like telegraph office and post and telegraph, 116 villages constituting 18.4 percent of villages have been provided with post office facility within the villages. 124 or 19.7 percent villages have been provided with the telephone facility, 76 or 12.1 percent with transport facility, 52 or 8.3 percent villages with bank facility and 70 or11.1 percent with agricultural credit societies. Similarly there are 194 or 30.8 percent villages which are linked with the pucca road. Total 557 or 88.6 percent of villages are provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at CD block has been found with slight variation. The percentage distribution of telephone facility in Magarlod CD Block is however far less than other CD Blocks. Kurud(Chormudiya) CD block has the highest 99.2 percent villages where educational facility is available and lowest 87.8 percent is found in Sihawa(Nagri) CD Block. Medical facility is highest in Kurud (Chormudiya) 66.9per cent and lowest 30.4 percent in Magarlod CD block. Improved drinking water is available to cent percent villages in Kurud (Chormudiya) and while it is lowest 95.8 per cent in Dhamtari CD block. Telephone facility is highest in Kurud CD Block (38.3 percent) and it is lowest in Magarlod(6.1 percent). In the field of power supply all villages have been covered except 72 villages in the district.

TABLE 38 : NUMBER AND PER CENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Serial number	Name of C. D. block	Total population of inhabited villages	Type of amenity available									
			Education	Medical	Improved drinking water*	Post Office #	Telephone	Transport communications $	Banks	Agricultural Credit Societies	Approach by pucca road	Power supply

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and ths is tobe considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different kind of amenities. Out of total rural population of 613,007 persons in the district, 607,741 or 99.1 percent have educational facility of one or the other type. Similarly 391,178 or 63.8 percent population has medical facilities while 610,514 or 99.6 percent have got improved drinking water facility. Post office facilities are available to 237,864 or 38.8 percent population. Telephone facility is available to 220,372 or 35.9 percent. Transport communications facility is available to 149,521or 24.4 percent. Bank facility is available to 1,26,839 or 20.7 percent. 157,877 or 25.8 percent have been provided with the facility of agricultural credit societies. 292,094 or 47.6 percent have been provided with the facility of approach by pucca road. Power supply is available to 593,942 or 96.9 percent rural population in the district.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	50	4	0	54
(b) Middle School	351	106	28	485
(c) Degree College	45	126	456	627
2. Medical:-				
(a) Hospital	55	125	442	622
(b) PHC	83	158	373	614
3. Post Office	339	128	46	513
4. Telephone	130	116	259	505
5. Bus Service	193	202	164	559
6. Banks				
(a) Commercial Bank	89	169	349	607
(b) Cooperative Bank	185	159	244	588
7. Agricultural Credit Societies	217	171	171	559

Table 39 presents distribution of villages not having certain amenities within the village at district level. Such villages have been presented according to various distance ranges in this table. 54 villages do not have primary school and out of these villages, children of 50 villages have to travel less than 5 kms. for schooling Out of 629 inhabited villages as many as 485 are deprived of middle school and 627 of degree colleges. Of these 351 avail the facility of middle school at a distance of less than 5 kms., 106 at a distance 5-10 kms. and the remaining 28 at a distance of 10+ kms. In respect of degree college 45 avail this facility at a distance of less than 5 kms., 126 between 5 to 10 kms. and rest 456 villages at a distance of 10+ kms.

Similarly there are 622 villages in the district which do not have Hospital facility and 614 villages don't have PHC facilities. Of these 55 villages have the facility of Hospital available within 5 kms. while in respect of 125 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly 442 villages have this facility at a distance of 10+ kms. As regards PHC 83 avail this facility at a distance of less than 5 kms., 158 at a distance of 5-10 kms. and the remaining 373 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 513 villages do not have this facility in the village itself. Of these majority i.e. 339 have this facility at a distance of less than 5 kms., another 128 villages avail it at a distance of 5-10 kms. In the remaining 46 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 505 villages in the district which are without telephone facilitiy. Of these 130 avail this facility at a distance of less than 5 kms., 116 at a distance of 5-10 kms. and remaining 259 have to traverse a distance of 10+ kms.

For Bus service out of 559 villages which do not have facility, 193 villages avail this facility at a distance of less than 5 kms., 202 at a distance between 5-10 kms. and 164 at a distance of 10+ kms.

In the entire district 607 villages are deprived of Commercial Bank and 588 of Co-operative Bank. Of these 607 villages which are deprived of Commercial Banks 89 villages avail this facility at a distance of less than 5 kms., 169 between 5-10 kms. and the remaining 349 at a distance of 10+ kms. Regarding Co-operative Banks out of 588 villages 185 villages avail this facility at a distance of less than 5 kms., 159 at a distance of 5-10 kms. and remaining 244 at a distance of 10+ kms. 559 villages do not have agricultural credit societies. This facility to 217 villages is available at a distance of less than 5 kms., 171 at a distance of 5-10 kms. and the remaining 171 at a distance of 10+ kms.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDIG TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available							
		Education	Medical	Post Office#	Telephone	Transport communica-tions $	Banks	Agricultural Credit Societies	Approach by pucca road

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 629 inhabited villages in the district, there are 26 villages which have nearest towns upto a distance of 5 kms. Of these 26 villages, i.e. 100 percent of total villages, are having the educational facilities of atleast one type and 11 villages constituting 42.3 percent, have the medical facilities within the Range of 5 km., 4 villages forming 15.4 percent have the facility of post office within the range of 5 km and 9 or 34.6 percent have the facility of telephone under the distance of 5 km. 3 villages constituting 11.5 percent have been linked by transport service. 1 village comprising 3.8 percent has been provided bank facilities, while 4 villages constituting 15.4 percent have the facility of agricultural credit societies within 5 km., 17 villages comprising 65.4 percent have been provided with pucca road within the distance of 5 km.

There are 149 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 146 villages constituting 98.0 percent have been provided with the educational facilities. 81 villages comprising 54.4 percent have been provided with medical facilities. 40 villages constituting 26.8 percent enjoy the post office facility. 48 villages comprising 32.2 percent have been provided the telephone facility. 17 villages constituting 11.4 percent have been linked with transport communications. 20 villages comprising 13.4 percent have bank facility. 28 villages constituting 18.8 percent are having agricultural credit societies, while 55 villages or 36.9 percent are approachable by pucca road. 264 villages fall in the distance range of 16-50 kms. Of these, 90.9 percent villages have educational facility, 42.0 percent with medical, 16.3 percent with post office, 19.7 percent with telephone and transport and communications available to 15.9 percent villages. Banks and agricultural credit societies facilities are available to 8.7 and 11.7 percent of villages respetively.

There are 188 inhabited villages in the district in the range of 51+...kms. Of these 162 villages constituting 86.2 Percent have been provided with the educational facilities. 58 villages comprising 30.9 percent have been provided with medical, 29 villages constituting 15.4% enjoy the post office facility. 15 villages comprising 8.0 percent have been provided the telephone facility. 28.2 per cent villages can be approched by pucca road.

TABLE 41 : DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Population range	Number of inhabited villages in each range	Type of amenity available

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and ths is tobe considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In Dhamtari district out of a total 629 inhabited villages, 241 have a population of less than 500 persons. Of these, 187 villages (77.6 percent) have education facility, 28 (11.6 percent) have medical facility, 233(96.7per cent) have improved drinking water facility. 10 villages (4.1per cent) have post office facility. 11 (4.6 percent) have telephone facility. 4 (1.7per cent) have been linked by bus service. 3(1.2per

cent) have Bank facility. 2 villages (0.8 percent) have been provided with the agricultural credit societies, 37 villages (15.4 percent) have been linked with pucca road. 176 villages (73.0 percent) have been provided with electricity.

Out of 155 villages, which fall in the population range of 500-999 persons, 155 villages (100 percent) have been provided with the education facility, 68 (43.9 percent) with medical facility, 153 (98.7 percent) villages have improved drinking water facility. 16 villages (10.3 percent) have been provided with post office facilities, 26 villages (16.8 per cent) with telephone facility, 14villages (9.0 percent) with transport facilities, 1 village (0.6 percent) with bank facility, 6 villages (3.9 percent) with agricultural credit societies and 44 villages (28.4 percent) have approach by pucca road. 150 villages (96.8) in this range have electricity.

165 villages fall in population range of 1,000-1,999 persons. Of these 165 villages (100.0 per cent) have been provided with the education facility, 107 (64.8per cent) with medical facility, 165(100.0 percent) villages have improved drinking water facility, 40 villages (24.2 percent) have been provided with post office facilities, 48 villages (29.1 per cent) with telephone facility, 32 villages (19.4 per cent) with transport facilities, 22 villages (13.3 per cent) with bank facility, 32 villages (19.4 per cent) with agricultural credit societies and 62 villages (37.6 per cent) have approach by pucca road. 163 villages (98.8) in this range have electricity.

There are 64 villages in the district which are covered under 2,000-4,999 population range. Of these, 64 villages (100 per cent) have been provided with the education facility, 54 (84.4 per cent) with medical facility, 64 (100 per cent) villages have improved drinking water facility, 46 villages (71.9 per cent) have been provided with post office facilities, 35 villages (54.7 per cent) with telephone facility, 23 villages (35.9 per cent) with transport facilities,22 villages (34.4 per cent) with bank facility, 26 villages (40.6 per cent) with agricultural credit societies and 47 villages (73.4 per cent) have approach by pucca road. All villages in this range have electricity.

There are 3 villages in the district which are covered under 5,000-9,999 population range and all the villages are provided with all types of amenities except transport communications . There is only 1 village in the population range of more than 10,000 and it has all the amenities available.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Kurud(Chormudiya)	133	58,028	76.5	83.9
2	Dhamtari	143	48,900	72.8	71.1
3	Magarlod	115	41,929	57.5	52.7
4	Sihawa(Nagri)	238	49,509	71.0	27.6
	District Total:	629	198,366	70.2	61.0

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 presents CD blockwise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. There are total 629 inhabited villages in the district having a total area of 198,366 hectares. Of this, 70.2 per cent is cultivable and 61.0 per cent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State Government.

It is seen that percentage of cultivable area to total area is highest 76.5 per cent in Kurud(Chormudiya) CD Block. It is lowest 57.5 per cent in Magarlod CD Block. The percentage of irrigated area to cultivable area is highest 83.9 per cent in Kurud(Chormudiya) and lowest 27.6 in Sihawa(Nagri) CD Block.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Adminis-tration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	II Dhamtari (M)	666	314	352	666	52	183	262	46	123
2	IV Kurud (NP)	783	231	552	829	84	161	405	19	160
	District Total	681	304	377	686	56	181	280	42	128

The table 43 gives the per capita receipts and expenditure (in rupees) for each town in the district. The average per capita receipts for towns of the district Dhamtari works out to Rs 681 of which Rs.304 are received through local taxes and the remaining Rs.377 is received from all other sources. The average of total expenditure incurred per capita is Rs.686. Out of this Rs.56 are spent on general administration, Rs.181 on public health and conveniences, Rs.280 on public works, Rs 42 on public institutions and Rs.128 is spent on other items.

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Dhamtari (M)	5.2	1.6	1.2	1	0.4
2	Kurud (NP)	4.4	1.7	1.7	1.7	0.9
	District Total	5.1	1.6	1.3	1.1	0.4

In urban areas of Dhamtari district the average number of primary school per 10,000 population comes to 5.1 schools, 1.6 junior secondary/middle school, 1.3 secondary/matriculation school, 1.1senior secondary schools and the ratio of colleges is only 0.4 college per 10,000 population. Among the towns, the ratio of primary institutions is highest in Dhamtari (M) while lowest is Kurud(N.P.).

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Dhamtari (M)	41
2	Kurud(NP)	9
	Distrct Total	37

Table 45 depicts the number of beds available in medical institutions per 10,000 population in each town of Dhamtari district. On an average there are 37 beds per 10,000 population in urban areas of the district. Whereas it is the highest 41 in Dhamtari (M) while lowest number of 9 beds is recorded in Kurud (NP).

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total popu-lation	Slum popu-lation	Percentage of slum population to total population
1	2	3	4	5
1	Dhamtari	82,111	51,230	62.4
2	Kurud	11,473	3,164	27.6
	District Total	93,584	54,394	58.1

Table 46 presents the proportion of slum population in the towns of the district. Out of the total 93584 urban population 54394 persons constitute slum population which is 58.1 per cent of total urban population. Dhamtari town has the highest 62.4 per cent of slum population whereas, Kurud town has lowest (27.6 per cent) of slum population.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Dhamtari (M)	Rice	Rice
		Wooden Furniture	Bidi
		Bidi	Chapda
2	Kurud (NP)	Bricks	Rice
		Furniture	Murmura
		Rice	-

Table 47 indicates most important articles manufactured and exported out of each town in the district. The district is well known for rice production which is mainly exported from Dhamtari town. The other commodities manufactured are wooden furniture, bidi,bricks,etc.Rice,bidi,Chapda and Murmura are the other important commodities which are exported from different towns.

(x) Brief analysis of the data on houses and household amenities, Houselisting Operations, Census of India 2001based on Inset tables 48-52

Inset tables 48-52 are based on Houselisting data pertaining to Census 2001. These tables reflect the tenure status, distribution of households living in permanent, semi-permanent and temporary houses, percentage of households having different amenities and percentage of households by type of fuel used for cooking.

source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

The data presented in the Table 48 depicts number of households by tenure status and number of rooms occupied in the district. The total number of households in the district stands at 1,29,396 consisting of 112,799 rural and 16,597 urban households.10,158 households belong to Scheduled Castes and 35,878 to Scheduled Tribes. 119,404 households are living in their owned houses constituting 92.27 per cent of total households. Of these households, the largest number of households (44,940) have occupied two rooms accommodation and is followed by one room accommodation numbering to 25,764 households. Next position is claimed by households (24,254) occupying three plus rooms accommodation. Number of households in owned accommodation occupying three rooms rank at fourth place with 23,797 households while 649 households are without any exclusive room.

5,954 households living in rented accommodation account for 4.6 per cent of total number of households in the district. The largest number of 2,649 households are living in single roomed accommodation followed by 1,928 households in double room accommodation. Next position is claimed by households (838) occupying three room accomodation. Households with three plus and no exclusive room are small in numbers.

Other households numbering to 4,038 forming only 3.1 per cent of total households are distributed in single room accommodation numbering 2060.1105 double room and 506 in three roomed accommodation.Households with three plus accomodation are 259 and with no exclusive rooms are 108.

TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI-PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	Name of CD/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary
1	2	3	4	5	6	7	8	9	10	11

3	Nagri	12.4	86.1	1.5	12.4	86.1	1.5	0.0	0.0	0.0
	District Total:	32.1	66.1	1.7	26.4	71.9	1.8	71.5	27.3	1.3

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The data presented in the Table 49 reveals that 32.1 per cent of household of the district are living in houses made of pucca materials, residences of 1.7 per cent households are temporary houses.

District-wise percentage in urban areas indicates that majority of households i.e. 71.5 per cent are living in houses constructed of pucca materials, 27.3 per cent in semi-permanent structure and percentage of households in temporary houses is 1.3 per cent constructed of kutcha materials. The lowest percentage of 12.4 households occuping permanent structure is found in Nagri while highest percentage of 52.6 is seen in Dhamtari tahsil .

The proportion of semi-permanent houses is highest in Nagri (86.1 per cent) and lowest in Dhamtari (46.2 per cent) tahsil. The proportion of temporary houses is quite low in all tahsils with highest (2.3 per cent) in Kurud followed by Nagri (1.5 per cent) tahsil and Dhamtari (1.2 per cent) tahsil.

Source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note: Percentage is given in brackets below the number of households. Bathroom means bathroom within the house Toilet means toilet within the house. Drainage menas closed and open drainage.

Table 50 indicates that 65.9 per cent households in the district have been provided with improved drinking water supplied from a tap or a hand-pump/ tube-well, 68.3 per cent households have provision of electricity in their houses. The bathroom facility is available to only 8.9 per cent households within their premises . As regards rural areas, 3.9 per cent households are having bathroom facility, whereas this proportion in urban areas comes to 43.0 per cent. 66.1 per cent rural households have facility of electricity against 83.3 per cent in urban areas. Toilet and drainage facilities in the district are available to 10.2 per cent and 14.6 per cent households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at tahsil level almost conforms to the district pattern analysed.

Percentage in brackets

Source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The percentage distribution of households by type of fuel used for cooking purposes is given in Table 51. There are nine types of fuel used for which data have been presented in the table. It is observed that wood is the most predominant fuel used for cooking by 80.2 per cent households in the district. In the tahsils, this proportion varies between 70.5 per cent in Kurud and 96.5 per cent in Nagri tahsil. In rural areas use of wood for cooking is very high while in urban areas it is used by less of population due to availability of L.P.G. The next cooking fuel is cowdung cakes which is used by 11.4 per cent households in the district. This proportion in urban and rural areas is 0.2 and 13.0 per cent respectively. In rural areas use of gas for cooking is very low as compared to urban areas. There are 0.7 per cent households using crop residue in the district. Use of crop residue for cooking by rural households comes to 0.6 per cent while in urban areas its proportion is 1.0 per cent. There are 0.7 per cent households using kerosene in the district. Use of kerosene for cooking by urban households comes to 2.8 per cent while in rural areas its proportion is only 0.4 per cent. The percentage of households using other types of fuel such as crop residue, cow dung cakes, electricity, coal, biogas etc. is insignificant. Firewood is the predominant cooking fuel in both the rural and the urban area of the district.

TABLE 52 : NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Data source: Census of India 2001, H-series: Table on Houses, Household amenities and Assets.

This table presents data for total, rural and urban areas at district and tahsil level about households availing banking services and possession of assets such radio/transistor, telephone, bicycle, scooter and car etc. by the households. There are 1,29,396 households in the district and among them, 26,801 households have been availing banking services. 35,083 households have Radio/Transistor. Television is possessed by 32,562 households.Telephone is available in 2,972 households.Bicycle is the most common means of transportation and is available in 90,813 households. Scooter/ Motor cycle/ Moped and Car/Jeep/ Van are used by 10,690 and 974 households respectively. The picture in use of banking services and possession of assets by households at tahsil level is almost similar as analysed above for the district as a whole.

(xi) Major social and cultural events, natural and administrative developments and significant activities during the decade :

These were divisions of the state of Madhya Pradesh, Bihar and Uttar Pradesh due to their huge shape and geographical conditions in view of administration. The result was that on 1st November 2000. Madhya Pradesh was divided into Madhya Pradesh and Chhattisgarh State.

On 6th July 1998, Dhamtari was made a seperate district from Raipur.

(xii) Brief description of places of religious, historical or archeological importance in villages and places of tourist interest in the towns of the district:

Rudri :

This is situated on the east of district head-quarter about 6 kms away on the bank of Mahanadi river There is Rudreshwar Mahadeo Temple and every year during Magh Purnima, a fair is organized. This is a sacred place of Kabir Panthi community as the "Samadhi" of Sant Kabir also lies here who is deeply regarded by local people . A gigantic Gangrel dam on river Mahanadi has beautiful natural surroundings and is a worth-seeing spot.

Sinhawa:

This is an important village on the south-east of Dhamtari, the district head-quarter, about 72 kms away. The area between Dhamtari and Sinhawa is mostly mountainous region, where thick forests add to the natural beauty of the area, which is very attractive and pleasant. There are three big and three small historical temples. There is a incription in which 1172 A.D. is mentioned in the north door of Karneshwar temple. The incription also reveals about construction of five temples by Chandravanshi King Karn. Sihawa is also the origin of the river Mahanadi. Shringi Rishi is still worshipped there.

Nagri:

About 64 km away from Dhamtari towards south-east is Nagri, the tahsil head-quarter. There are ruins of ancient fort in the village and it is said that at the first Royal family of Kanker had occupied this village when they came from Puri in Orissa.

Dhamtari:

Dhamtari is the district headquarter and is famous for ruins of ancient temples and other ancient remains There is an ancient fort here. There are many temples to the south of this city. Ancient Ram Temple is the best among these. It is beleived that these holy temples were constructed 700 years ago during the rule of King Maldeo. Other temples like Bilai Mata and Mardeo are also are important.

Deokhut:

This village is situated on the bank of Mahanadi river. The name seems to be the cant phraseology of Deokut which means the hillock of Devtas. In the village, there are 4 small but ancient temples along the river. In addition, there are two other temples which have detailed stone-carvings.

(xiii) Major characteristics of the district:

The district is mainly dependant on agriculture and the main crop is paddy. In the year 2000, the paddy produced was 272.85 metric tons as recorded. In addition this district is also known for building timbers and saw-mills.

(xiv) Scope of Village Directory and Town Directory

Village Directory :

The Village Directory is one of the traditional compilations of the census organisation and provides the consolidated picture of each village as revealed by the availability of existing amenities, land use pattern, composition of its population and other infrastructural details. This will be of immense help to identify the areas of surplus and deficit requiring the attention of planners and administrators for rescheduling the development process in appropriate direction. The format of village directory has 25 columns providing village-wise data of location, area, population, land use pattern and amenities etc.

The details of each column of village directory are explained as below :

Column-1 Serial number of the village is indicated in this column.

Column-2 gives the name of the village and permanent location code number (PLCN) assigned to each village in serpentine manner from north-west to south direction and is essential for identification of village. The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tahsil of first district of the state to the last village of last tahsil of the last district. In the state of Chhattisgarh first PLCN 00000100 has been assigned to village 'BADWAHI' in Bharatpur tahsil of Koria district which happens to be first village, tahsil and district while the last PLCN of 02030800 has been assigned to the last village 'SINKAWAYA' of the state in Konta tahsil of Dantewara district which happen to be last as per procedure adopted for assigning location code number. The district census handbook of 1991 Census as well as updated district and tahsil maps and services of local revenue officers/officials have been used to assign the PLCN to the villages. The last two zeros will be used if new villages are created out of existing villages in subsequent census. Before 2001 census,

Source :

(1) Gazzettier of India District Raipur.
(2) Chhattisgarh Economic Surveyor 2001-2002.
(3) District level Chhattisgarh State Social and Economic Reference-2001.
(4) Chhattisgarh Chart and Graphs-2001.
(5) Collector's Office (Census Branch) Dhamtari.

village location code number used to change from one census to other due to change in jurisdictions or creation of villages or merger of villages in urban areas. The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective Tahsildar of each tahsil.

Column-3 shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns – 4 and 5 gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in village.

Columns 6 to 9 deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure the accuracy of information provided. In such cases where no facility is available within a village, a dash (-) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, so as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained seperately in the subsequent section. The list of colleges, senior secondary schools, hospitals, post and telegraph offices in the district as obtained from the concerned departments are also added in the form of annexures at the end.

Column-10 shows the number of banks – Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11 relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12 shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/auditorium facility available in the villages.

Column-13 Indicates the type of communications amenities such as by bus, railway or navigable waterway available to the village.

Column-14 refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15 gives the information of the nearest town and its distance in Kms. from the village in brackets from the referent village. In case, the nearest town is located in another state, the name of the state has also been furnished.

Column-16 relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17 gives the information as to whether newspapers/magazines are received in the village.

Column-18 gives the information of most important commodities manufactured in the village.

Columns- 19 to 23 give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories. These are as follows :

i) Forests

ii) Irrigated

iii)Unirrigated

iv)Culturable waste (including Gauchar and Groves)

v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or

private and whether wooded or maintained as potential forest land. The crops raised in the forests and grazing lands or areas open for grazing within the forest is also included under the forest area.

Column 20 and 21 show area irrigated by different sources of irrigation and un-irrigated area. These two columns cover all agricultural land which equals to net cropped area sown with crops and orchards including current and other fallow lands. In case of irrigated land, the source of irrigation has also been indicated.

Column-22 Culturable waste : This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Lands under thatching grasses, bamboo bushes and other groves for fuel etc., which are not included under orchards or forests come under this column. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column.

Column- 23 Area not available for cultivation : This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water etc. Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost.

Town Directory :

The Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information.

Statement-I Status and Growth History :

The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001. Civic administration status of each town is shown under column 2 and Location Code number in column 3 whereas column 4 indicates the name of tahsil/sub-tahsil to which town belongs. While column 5 shows the name of CD block, area of each town in sq. kms. is depicted under column 6 column 7 deals with the number of households including houseless households as per the 2001 Census. Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001. Column 19 of the statement shows density of towns as per the 2001 Census. Columns 20 to 22 depict the sex ratio from 1981 to 2001 Census.

Statement-II Physical Aspects and Location of Towns, 1999

In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5. Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tahsil/sub-tahsil headquarters. Column 9 shows the name of nearest city with population of one lakh or more and columns 10 to 12 give information regarding name and road distance of the nearest railway station, bus route, navigable river/ canal (if within 10 Kms.)

Statement-III Municipal Finance, 1998-1999

This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads. There are in all 16 columns in the statement showing receipt and expenditure under different heads.

Statement IV Civic and Other Amenities, 1999

The statement displays the information under 20 columns. The amenities about which information has been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage and other related matters such as water supply, fire fighting services and electrification etc.

Statement-V Medical, Educational, Recreational and Cultural Facilities, 1999

This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution. Educational facilities by level/ type of courses and recreational and cultural facilities.

Statement-VI Trade, Commerce, Industry and Banking, 1999

This statement presents the information under 11 columns in respect of each town. Columns 3 to 8 indicate three most important commodities imported, exported and manufactured in the town. Information on number of banks available in the town appears under column 9 Columns 10 and 11 shows number of agricultural and non-agricultural credit societies operating in each town respectively.

Statement-VII Civic and other amenities in Slums, 1999

This statement gives the information relating to civic and other amenity in respect of slum areas of towns, where the population exeeds 50,000 as per 2001 census. The codes used in col. 8 and 13 are the same as for statement IV.

PART A - VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a) Notes explaining the abbreviations used in Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post office, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of th e nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

available in villages C D Blockwise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV C D Blockwise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

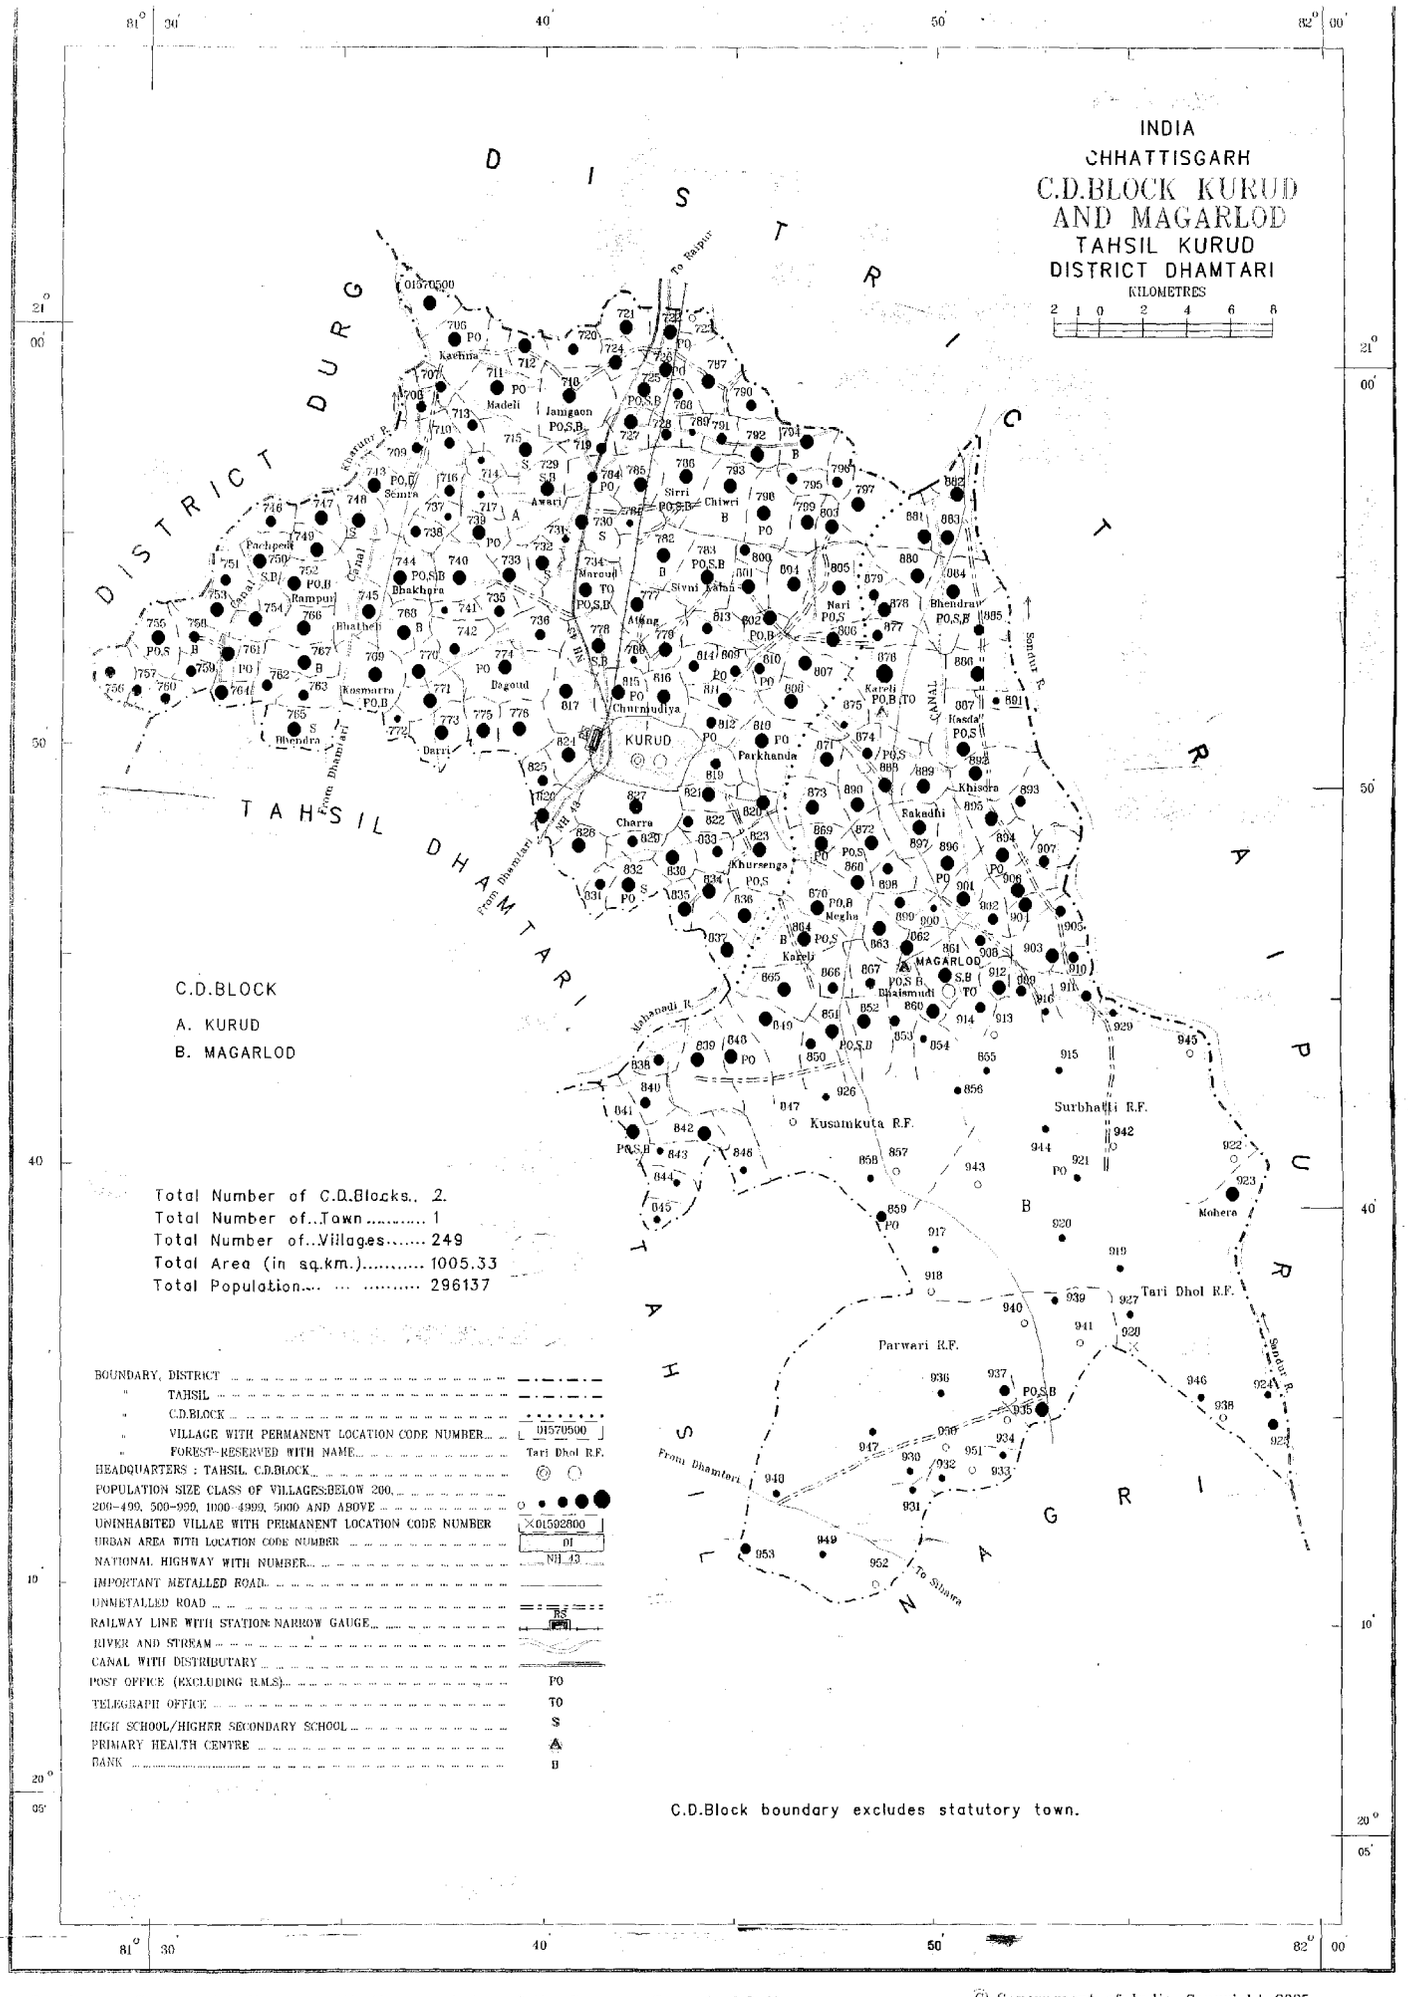

Appendix-VIII Shows number of different types of girls school in a village.

(b) List of Villages merged in towns and outgrowths at 2001 Census

SECTION II TOWN DIRECTORY

Notes Explaining the Codes Used in the town Directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in

kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows:

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PART B - PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were

specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In

1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE-II

NOTE ON FERTILITY, MORTALITY AND MIGRATION - 1991 CENSUS

Fertility Levels :

Births, deaths, and migration are three components of population change in any geographical unit. Fertility is a major component of population growth. In the 1991 Census, questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were canvassed to generate the table of fertility. The first three questions were asked to all ever-married women and the last question related to currently married women. The various measures of fertility worked out are based on the district level estimates of fertility and child mortality for 1991.

Mortality analysis is one of the most important branches of demographic studies. This branch deals with the demographic event of death. Since death is a biological phenomenon that occurs just once to each individual, the analysis is simpler than, say, the study of fertility wherein the event of birth can occur with varying frequency among women.

Migration is an important aspect in the area of Population Studies. There is an increase in population of any community or country due to births or in-migration, whereas there is a decrease in the population of its residents due to deaths or migration. In other words, migration is an important reason for the change in size and composition of population. Those areas are affected by migration from where migrants go or where they have gone.

The migration tables of the 1991 Census are mainly based on the questions on place of birth, place of last residence, duration of residence at the place of enumeration and reason for migration included in the individual slip. These tables generated on computer provide the distribution of population by place of birth, distribution of migrants by place of last residence, duration of residence and reason for migration. The data on intra-district, intra-state and inter-state migration streams and in-migration from abroad are presented in these tables.

ANNEXURE III (i)

MEASURES OF FERTILITY IN THE STATE AND DISTRICT - CENSUS 1991

State : Undivided Madhya Pradesh District : Raipur

Fertility Measures	District : Raigarh		State : Un-divided Madhya Pradesh	
	1981	1991	1981	1991
General Fertility Rate (G.F.R.)	146	144	167	161
General Marital Fertility Rate (G.M.F.R.)	174	176	192	188
Total Fertility Rate (T.F.R.)	4.70	4.33	5.30	4.92
Total Marital Fertility Rate (T.M.F.R.)	5.50	5.46	5.90	5.73
Crude Birth Rate (C.B.R.)	34.38	34.49	37.96	32.79

(Source - Estimate of Fertility Indicators at District Level - M.P.1991)

Chhattisgarh and Dhamtari district were included in Madhya Pradesh and Raipur district at the time of Census 1991. As such the data of undivided Madhya Pradesh and Raipur district is presented here in respect of Chhattisgarh and Dhamtari.

ANNEXURE III (ii)

MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE IN THE STATE AND DISTRICT - CENSUS 1991

State : Undivided Madhya Pradesh **Distrcit : Raipur**

Fertility Measures	District : Raipur			State : Undivided Madhya Pradesh		
	Total	Rural	Urban	Total	Rural	Urban
No. of children ever born to each married woman in the age group 45-49	4.41	4.47	4.12	4.83	4.93	4.4
Mean age at marriage	17.09	16.93	17.80	16.62	16.39	17.48
Child Woman Ratio (0-4 years)	560	576	496	599	629	507

(Source:- District Profile of Madhya Pradesh 1991)

Chhattisgarh and Dhamtari district were included in Madhya Pradesh and Raipur district at the time of Census 1991. As such the data of undivided Madhya Pradesh and Raipur district is presented here in respect of Chhattisgarh and Dhamtari.

The above table reveals that the average number of children ever born per married woman in the age group 45-49 of the district 4.41 is less compared to state average 4.83. This indicator matches with the state average figures for urban figures.

Mean age at marriage of the district (17.09) is higher than state average(16.62) once again indicating favourable condition towards population control.

The child woman ratio for age group 0-4 of the district is 560 which is lower to state average 599. The child woman ratio is the number of children of age 0-4 years per 1000 women aged 15-49 years.

ANNEXURE III (iii)

CHILD MORTALITY RATE IN THE STATE AND DISTRICT : CENSUS 1981-1991

State : Un-divided Madhya Pradesh **Distrcit : Raipur**

State / District	Year	Persons				Male				Female			
		(q1)	(q2)	(q3)	(q5)	(q1)	(q2)	(q3)	(q5)	(q1)	(q2)	(q3)	(q5)
State :													
Un-divided	**1991**	133	139	143	147	131	134	138	142	136	143	149	151
M.P.	**1981**	150	162	171	197	158	165	170	193	140	159	173	201
District :													
Dhamtari	**1991**	121	124	129	137	120	123	129	136	122	126	134	138
	1981	141	149	144	164	151	155	149	170	132	143	138	159

(Source - Estimate of Mortality Indicators by sex at district level-M.P.1991)

Chattisgarh State was a part of Madhya Pradesh at the time of Census 1991. As such the data of undivided Madhya Pradesh is presented here in respect of Chattisgarh.

The above table shows the child mortality i.e. probability of death of children by age 1,2,3 and 5 depicted as q(1), q(2), q(3) and q(5).

It is seen that the child mortality for all ages as also for the Female classification of the district is lower than state averages in the year 1981 as well as in 1991. Although the lower mortality rates are desirable from social point of view this accounts for higher population growth in the area. Another notable feature is that the female child mortality of the district in 1991 is higher than male mortality which is very much in tune with the state average mortality rates of male and female.

ANNEXURE IV(I)

POPULATION OF INMIGRANTS IN THE DISTRICT BY PLACE OF BIRTH: CENSUS 2001

State- Chhattisgarh **District : Dhamtari**

Birth Place	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	211,012 (95.2)	40,952 (19.4)	170,060 (80.6)
(A)Within the district but outside Enumeration place	138,218 (62.4)	25,972 (18.8)	112,246 (81.2)
(B)Birth place in other district of State	72,794 (32.9)	14,980 (20.6)	57,814 (79.4)
(ii) Place of Birth in other states of India than the state of Enumeration	9,926 (4.5)	3,987 (40.2)	5,939 (59.8)
(iii) Birth place in Foreign	611 (0.3)	306 (50.1)	305 (49.9)
(iv) Unclassified	0 (0.0)	0 (0.0)	0 (0.0)
Total Immigrants	221,549	45,245	176,304
Persons born in the place of enumeration	485,042	307,279	177,763
Total population	706,591	352,524	354,067

(Source- Migration Table D-1)

Note: Percentages are given in brackets.

This table presents the number of in migrants by place of birth of enumeration within the district distributed in four classifications i.e. (i) Migration from within the state, (ii) Migration from other states of India,(iii) Migration from foreign place and (iv) Unclassified.

It is observed that the migration by birth from within the state is maximum 95.2 per cent of total migration. The migration from within the district but outside the enumeration place is 62.4 per cent whereas migration from other districts of the state is 32.9 per cent. Migration from other states is 4.5 per cent and the migration from outside India is 0.3 per cent of the total migration. It is also seen that the female migration is much higher than the male migration in first two classifications which is due to the migration of females after marriage.

ANNEXURE IV(II)

POPULATION OF INMIGRANTS BY PLACE OF LAST RESIDENCE : CENSUS 2001

State- Chhattisgarh **District : Mahasamund**

Last Residence	Population and Percentage		
	Persons	Male	Female
(i) Within the State but outside Enumeration place	267,107	53,925	213,182
	(90.0)	(20.2)	(79.8)
(A)Within the district but outside Enumeration place	209,976	38,557	171,419
	(70.7)	(18.4)	(81.6)
(B)From other district of State	57,131	15,368	41,763
	(19.2)	(26.9)	(73.1)
(ii) From other states of India outside enumeration state	29,562	8,027	21,535
	(10.0)	(27.2)	(72.8)
(iii) Place of residence outside India	132	74	58
	(0.0)	(56.1)	(43.9)
(iv) Unclassified	0	0	0
	(0.0)	(0.0)	(0.0)
Total Immigrants	296,801	62,026	234,775
Population of Non-inmigrants	563,456	364,175	199,281
Total population	860,257	426,201	434,056

Source- Migration Table D-2

Note: Percentages are given in brackets.

. Migration of population by place of last residence distributed in four classifications is presented in this table. It is seen that the migration by usual place of last residence from within the state is highest 95.6 per cent of total migrated population. Within this classification, the migration from within the district is 64.3 per cent and only 31.3 per cent migration is from other districts of the state. Migration from other states of India outside enumeration state works out to 4.2 per cent of total migration and it is only 0.2 per cent from outside India. Mostly, sexwise analysis reveals much higher migration of females which is obviously due to the movement of females after marriage.

ANNEXURE IV(III)

POSITION IN-MIGRANTS FROM OTHER STATES - AS PER CENSUS 2001

State- Chhattisgarh **District: Dhamtari**

Birth Place	Census 2001	
	Migrant Popultion	Percentage of total In-migrants
Madhya Pradesh	2,069	20.8
Orissa	1,585	16.0
Maharashtra	1,549	15.6
Uttar Pradesh	960	9.7
Assam	923	9.3
Rajasthan	676	6.8
Total of 6 States	7,762	78.2
Total of other States	2,164	21.8
Total	9,926	100.0

Source- Migration Table D-1

In-migration from other states is classified in this table. 78.2 per cent of total in-migrants are from Madhya Pradesh, Orissa, Maharashtra, Uttar Pradesh, Assam and Rajasthan whereas the remaining in-migrants from all other states together constitute only 21.8 per cent.Total 2,069 persons have migrated from Madhya Pradesh which alone accounts for 20.8 per cent of total in-migrants. Dhamtari is located at the neighbouring state border of Madhya Pradesh as such the Migration from Madhya Pradesh is very high and the culture and language is homogeneous.

ANNEXURE V

DISTRIBUTION OF POPULATION BY MAIN RELIGIONS

State : Chhattisgarh **District: Dhamtari**

(Source :- Religion Table - Census 1991/2001.

This annexure presents the distribution of population at district and state level pertaining to Census 1991 and Census 2001 in respect of six religions. It is observed that the proportion of Hindu population in the district is comparatively higher than that of state.

ANNEXURE VI

MARITAL STATUS OF POPULATION IN THE STATE AND DISTRICT: CENSUS 2001

State- Chhattisgarh **District- Dhamtari**

State / District	Total/ Rural / Urban	Total Population	Marital Status				
			Never married	Married	Widowed	Divorced/Separated	Unspecified
Chhattisgarh							
	Total	20,833,803	10,267,526	9,440,561	993,835	131,881	0
			(49.3)	(45.3)	(4.8)	(0.6)	(0.0)
	Rural	16,648,056	8,123,500	7,576,395	837,185	110,976	0
			(48.8)	(45.5)	(5.0)	(0.7)	(0.0)
	Urban	4,185,747	2,144,026	1,864,166	156,650	20,905	0
			(51.2)	(44.5)	(3.7)	(0.5)	(0.0)
Dhamtari							
	Total	706,591	348,675	318,989	34,228	4,699	0
			(49.3)	(45.1)	(4.8)	(0.7)	(0.0)
	Rural	613,007	301,342	278,121	29,598	3,946	0
			(49.2)	(45.4)	(4.8)	(0.6)	(0.0)
	Urban	93,584	47,333	40,868	4,630	753	0
			(50.6)	(43.7)	(4.9)	(0.8)	(0.0)

(Source- Socio Cultural Table C-2)

Note: Percentages are given in brackets.

The above table reflects that the population (49.3%) of the district comes under the unmarried class. When compared to state the percentage of unmarried population of the district is almost same. Contrary to this the percentage of married population of the district is marginally less than the state. The state average is also same of the district in respect of widowed and it is lower in case of divorced population. The proportion of unmarried persons is higher in urban areas than rural areas.

(Source- Migration Table C-8)

Note: Percentages are given in brackets.

This annexure presents the proportionate distribution of literates by different educational levels in specific age groups. As the population in the age group 0-6 do not come within the purview of literates, it has been shown separately.It is seen that out of 590,077 persons belonging to the age 7 and above 441,921 are literates and thus, the literacy rate of the district works out to 74.9 per cent. Similarly the male

and female literacy works out to 86.5 and 63.4 per cent respectively. 119,294 persons have been recorded to attain education up to primary level in the age group 7-14 which is only 88.1 per cent of population in this age group. In the age group 15-34; 47,446 persons (19.9 per cent) are found educated up to middle, 38,500 person (16.1 per cent) upto the level of Matriculate/Higher Secondary/ Intermediate/ Diploma Tech. and 9,806 persons (4.1 per cent) upto Graduate and above level. It may be noted that this is the group having maximum class interval and thus it has the maximum population as well. The analysis also reveals that the percentage of literates at all levels decreases with increasing age groups which explains the gradual increase in literacy rates over past ten years.

ANNEXURE VIII

DETAILS OF VARIOUS MOTHER TONGUES PREVALENT IN THE DISTRICT : CENSUS 2001
