**Historical Gadia Hillock of Kanker**

**Kanker town is situated in the Shukiman or Rikshvan branch of mountain range which are famous as Gadia hills . Gadia mountain means the mountain of Fort that contains the history of Kalchuri, Somvanshi and Chandravanshi rulers. This is a natural fortress where a wall and main gate was constructed by Vyaghraraj and Karnaraj for protection from the attacks of enemy. To the south of this hill is a cave named "Churipagar, where as many as 500 persons can hide. Again to the south is a pond named "Sonai-Rupai'. Sonai and Rupai were the daughters of Kandra ruler. To the west of Sonai-Rupai pond is the Shiv temple. To the north-east of the hill was a market place where only women used to sell commodities. This market was known as 'Turi-Hatri' in local dilect. To the east of this hill is a cave known as 'Jogi Gufa' which had been the place of worship and meditation of Hindu saints for many centuries.**

Annexure-II : Note on Fertility, Mortality and Migration, 1991 Census 524

Annexure-III : Various measures of Fertility and mean age at marriage, 1991 Census 524-525

Annexure-IV : Percentage distribution of Migrants by place of birth/ place of last residence, 2001 Census 526-528

Annexure-V : Brief account of main religion in the district/tahsils as per 2001 Census 529

Annexure-VI : Marital status of population as per 2001 Census 530

Annexure-VII : Age, Sex and Education in the district, 2001 Census 531-532

Annexure-VIII : Distribution of different mother tongues returned in 2001 Census 532

Annexure-IX : Statement of SC and ST in the District, 1991 census 533

Annexure-X : Hamletwise population of villages, 2001 Census 534-598

Annexure-XI : Statement of Disability in the District, 2001 Census 599

# Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centers, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the village Directory so as to give the details on number of inaccessible villages in each district. In the town Directory, a statement (IV-A) on slums introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In town Directory, the statement on slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education , and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digital permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, complied and computerised in prescribed record structure under the supervision of Shri Prabhakar Bansod, Director of Census Operations, Bhopal. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Divisions. Dr. R.P. Singh Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statement including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L.Jain, Deputy Director and Shri. R.K. Mehata, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

# Preface

The District Census Handbook (DCHB) compiled by the Census organization, Government of India is one of the most valuable and usable product of the Census. As its name suggests, it is brought out for each district in the State. This publication started from the 1951 Census, but prior to this, a similar publication was released in the earlier censuses. Those publications contained only village statistics, village names and total population thereof. The 1951 Census could, therefore be said to represent a significant step forward, in the process of making detailed census statistics available down to the village level. An important achievement, for the first time in 1991 Census, was that the village level data was presented Community Development Blockwise.

The scope of District Census Handbook has undergone considerable change since 1951. This is basically due to the growing demand for more information. For the purpose of convenience as well as with a view to make the basic statistics available to the data users, as early as possible, the District Census Handbooks of 1991 were brought out in a single volumes as against the earlier practice of bringing it out in two parts. The volume was however divided in two parts viz. part A and part B. Part A contained the Village/Town Directory while part B contained the Primary Census Data, based on the 1991 Census count. Continuing the practice of 1991 Census, the 2001 series of the District Census Handbooks is comprised of two parts but the present series is more informative in terms of coverage and contents. Part A contains Village Directory which provides information on infrastructure amenities and land use data at village level i.e. name and location of villages, area, population, number of households, important civic amenities/facilities available in villages like educational, medical, drinking water, post, telegraph, commercial and co-operative banks, agricultural and non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town and its distance, power supply, news papers/magazine and most important commodity manufactured in the villages. Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district. C.D. block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans.

Part B of the District Census Handbook contains Village and Town Primary Census Abstract. This provides information on area, occupied residential houses, number of households, sex-wise total population. child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and divisions of workers into four industrial categories i.e. cultivators, agricultural labourers, workers in household industries and other workers in respect of each village and town of the district. Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages relating to housing, assets available with households and demographic profile of population at tahsil/ C.D block level which are helpful for rural planning. Annexures giving information on religion, Scheduled Castes/Scheduled Tribes, migration, fertility, mother tongue have been included.

It has to be remembered that the villagewise area figures presented in the PCA are based on village information in the form of C-3 as furnished by the revenue authority and the “total” given for the administrative units viz, community development blocks, is the total of the area figures of village coming under it while in the case of the administrative unit viz, tahsil, the “total” area shown, is based on the information furnished by the Commissioner, Land Records, Government of Madhya Pradesh, Gwalior. In some cases the total area shown against the tahsil, may not tally with the total of the area figures of villages coming under it.

The District Census Handbook had been a joint venture of the Government of Chhattisgarh and the Government of India. The design of 2001 District Census Handbook has been evolved centrally by the Census Commissioner, India and accordingly these books have been prepared by my office. In earlier censuses, the cost of publication of these books were borne by the State Government but now these are being printed centrally by the Census organization. In accomplishing this task we have had the whole hearted cooperation of the staff at various levels of different departments of the State Government. The data supplied by the field level officers have been comparatively checked with 1991 DCHB and have been cross checked with the data obtained from various departments. An attempt had been made to reconcile the discrepancies by external validation to make it more reliable. I am grateful to all heads of departments of the State Government, officers and staff engaged in the conduct of 2001 Census for their cooperation to accomplish this task.

The compilation of such a huge amount of varied data in a single volume requires proper planning and close monitoring. We have the honour of having enlightened guidance and encouragement of Shri D.K.Sikri, IAS, Secretary (Registrar General and Census Commissioner, India). I owe special thanks to Shri. J.K.Banthia, then Registrar General and Census Commissioner, India. I am thankful to Dr. R.P. Singh, DRG (Map), Shri. R.G. Mitra DRG (C&T) and Dr. I.C. Agrawal, Sr. Research Officer (S.S.) and Shri.S.L. Jain, Dy. Director of S.S.Division for providing technical guidance.

In the directorate many officers/officials contributed in the Census 2001. First of all, I pay my gratitude to the then Director of Census Operations, Madhya Pradesh & Chhattisgarh, Shri Prabhakar Bansod under whose guidance, the Census 2001 was carried out successfully. I am also thankful to Shri Ram Singh then Joint Director, under whose supervision this District Census Handbook has been prepared.

The data presented in the District Census Handbook required a concerted work of team comprises Shri Jose T.Varghese, Assistant Director, Shri Deepak Rao, S.I.Grade-I, Shri R.Patel, S.I.Grade-I, Shri O.S.Shukla, Draftsman, Shri Santosh C.Mendhe, D.E.O.Grade-B and Shri Hirendra Kumar Sinha, Compilor of this Directorate who were involved with it at various stages of its planning, supervision, preparation of manuscript, field work, computerisation, prepration of CRC with the help of Adobe Pagemaking technique, maps and printing. I express my appreciation for the painstaking dedicated service rendered by all of them and staff of Data Centre, Bhopal for their untiring cooperation in finalizing the 2001 Census Data.

I shall feel greatly rewarded if the book comes to the expectation of the data users.

# District Highlights - 2001 Census

1. Kanker district has been carved out from erstwhile district of Bastar by the Notification No.1006 dated 22.05.1998.

2. The district occupies 14th place in the state according to population.

3. The district occupies 11th rank in the state in terms of area having 6506 sq.kms. which is 6.1 percent of the total area of state.

4. Literacy Rate of Kanker district is 65.9 percent and it occupies 8th position within the state. The female literacy rate of the district is .63.3. percent.

5. Density wise the rank of the district is 11th within the state.

6. Ranking of the district according to the sex-ratio is 6th in the state.

7. Female work participation of the district is 51.17 percent of total female population. Rank of the district according to female work participation is 1st.

8. Population wise largest village is Charama of Charama tahsil L.C.No.01638000 with 8,940 population and smallest village is Adalpur of Pankhajur tahsil L.C.No.01736300 with population of only 6 persons.

9. Population wise largest town is Kanker(M+OG) having population 31,385 and smallest is Kanker(M) having 24,478 population.

10. Economy of the district is mainly dependent on agriculture .

# ANALYTICAL NOTE

# Analytical Note

## (i) History and Scope of District Census Handbook:

The District Census Handbook (DCHB), compiled by the Census Organisation, Government of India, on behalf of the State Government is one of the most valuable product of the Census. It is brought out for every district and is a very useful publication which is widely used by planners, administrators, academicians and researchers as it provides, among other things, the primary census data down to the village level.

### History :

The history of the District Census Handbook could be traced from the "Village lists" brought out for every district in 1901 and "Village Statistics" for every district in 1911. This was discontinued in 1921 and 1931. In 1941, however, "Village Statistics" were brought out by the then Central Provinces and Berar Government. It was for the first time in 1951 that the practice of brining out a single volume known as District Census Handbook, giving village wise statistics and other Census tables for the districts, at the cost of the State Government, was initiated .

### Scope :

The maiden publication of the District Census Handbook of 1951 contained village wise primary census data and census tables for the district. With the increasing utility and demand of statistical data for the planning process, the scope of the District Census Handbook was enhanced to a great extent in 1961 by including non-census data like climate, agriculture, animal husbandry, co-operative bank, industry, education, health, etc., apart from presenting the village wise primary census data and census tables. An introductory note giving information on historical background, physical features, soil, climate, civic administration, agriculture, industry, education, etc. together with detailed analysis on census tables was also a novel feature of the 1961 census. Maps of District and Tahsil were also included.

### Publication of DCHB at the 1971 Census :

The desire to make the District Census Handbook more comprehensive in 1961, delayed the publication in some states. Therefore, in 1971, the Registrar General and Census Commissioner of India, decided to bring out DCHB in three parts viz. Part A, B and C, in order to release the maximum data as and when ready. Accordingly Part A was to contain the village wise Land Use data and the amenities and facilities available in the villages, these being part of the non-census statistics. Part B was to comprise the village wise primary census data, while in part C, the various non-census statistics at the district level and a few at tahsil level were to be presented.

### Strategy at the 1981 Census :

In 1981 census with a view to avoid delay in the publication of DCHB series, part C containing the non-census statistics, as well as the census tables for the district were dropped. The scope of the District Census Handbook was, however, enlarged by the addition of tahsil wise list of villages where no amenities were available and tahsil wise list of the villages according to the proportion of Scheduled Caste/Tribes population by ranges in the form of Appendices III and IV respectively were added since Appendices I and II were already there.

Appendix III has been helpful for planning input in areas/villages where basic infrastructure is lacking, while Appendix IV has been helpful for planning welfare programmes for Scheduled Castes/Scheduled Tribes at micro level, particularly in relation to development oriented programmes.

In the town directory portion of DCHB Part A and additional Statement IV-A was also introduced in 1981. This statement was meant only for Class I and Class II towns and indicated the civic and other amenities in notified slums.

The inclusion of the Primary Census Abstract relating to the Scheduled Castes and Scheduled Tribes at the tahsil/town level in Part B portion of the DCHB was another important feature of 1981 Census. An appendix containing Development Block wise totals of Primary Census Abstract was also presented in the DCHB series 1981 though it was not prescribed in the All India pattern.

**The 1991 DCHB Series :**

In the context of development planning the CD Block stay as an operational unit, the presentation of village-wise statistics at the CD Block level had been very helpful for the administrators and planners in formulating various development plans. The same had been presented CD Blockwise in 1991 Census.

The scope of the 1991 DCHB, particularly the village directory was enhanced to a great extent by the inclusion of additional information on various subjects such as intset tables on area, population and density in the districts, tahsils and towns, jurisdictional changes 1981-91 etc.

**Contents of the DCHB series 2001 :**

The present series of District Census Handbook consisting of two parts viz. Part A and Part B is being published in a single Volume.

**Part A Village Directory :**

Village Directory contains information about the name of the village with location code number, assigned to it by the Census Organisation, geographical area of the village, total population and number of households in the village, amenities like education, medical, drinking water, post and telegraphs, communications, approach to village together with distance in Km, distance from the nearest town, power supply and land use data. In addition there are eight appendix to the Village Directory as under :

Appendix I : CD Blockwise(rural) abstract of educational, medical and other amenities.

Appendix I-a : CD Blockwise abstract of villages by number of Primary schools.

Appendix I-b : CD Blockwise abstract of Villages of Primary, middle and secondary schools.

Appendix I-c : CD Blockwise abstract of Villages with different sources of drinking water facilities available.

Appendix II : Villages with 5000 and above Population, which do not have one or more amenities

Appendix II-a : Census Towns which do not have one or more amenities

Appendix III : Land Utilization data in respect of Census Towns/Non Municipal Towns.

Appendix IV : CD Blockwise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix V : Summary showing number of villages not having Scheduled Caste Population.

Appendix VI : Summary showing number of villages not having Scheduled Tribe Population.

Appendix VII : List of villages according to the proportion of the Scheduled Castes and the Scheduled Tribes to the total population by ranges.

Appendix VIII : Statement showing number of girls school in the villages.

**Town Directory :**

The Town Directory contains the following seven statements and one appendix.

Statement I : Status and Growth History

Statement II : Physical aspects and location of towns

Statement III : Municipal Finance

Statement IV : Civic and other amenities

Statement V : Medical,Educational, Recreational and cultural facilities

Statement VI : Trade, Commerce, Industry and Banking

Statement VII: Civic and other amenities in slums

Appendix to Town Directory – Towns showing their outgrowth with population.

**Primary Census Abstract**

Part B: -The Primary Census Abstract gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in tha age group 0-6, Literates, Main Workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels namely, Districts, CD blocks, Village, and UA/ Towns. In addition, Ward/Enumeration blockwise population is given in the Appendix to District Primary Census Abstract.

**Primary Census Abstracts for Scheduled castes and Scheduled Tribes:**

The Primary Census Abstract relating to Scheduled Castes and Scheduled Tribes is also being presented seperately at the CD Block-wise /Town wise. It will have the same characteristics as indicated in the Primary Census Abstract to the total population.

**Publication of DCHB in Regional Language :**

In 1981, part A and part B of DCHB were brought out seperately for every district which were printed in diglot i.e. a mixed up Hindi and English versions while in 1971, both the parts i.e. part A and part B were brought out in a single volume with simultaneous Hindi and English versions. The 1961 DCHB were however published in a single volume in English version only for district, since there were no seperate parts like DCHB of 1971 and 1981 censuses. The 1951 census DCHB series were published with a mix of both Hindi and English but with a difference. That is to say that the districts belonging to the erstwhile state of Madhya Pradesh comprising the Mahakoshal Region and 2 districts of erstwhile Bhopal state has the District Census Handbook in English version only, while in respect of 16 districts of Madhya Bharat region, the DCHB were published in diglot. The DCHB of 8 districts of Vindhya Pradesh region were however published in Hindi version only.

**New Features of DCHB 2001 :**

The main features of Village Directory of DCHB 2001 are :

(1) For the first time eight digit continuous location code is assigned to all the villages within the state. These are the Permanent Location Code Numbers (PLCN) and starts from the first village of first tahsil of first district of state and continue till the end of last village of last tahsil of the last district within a state.

(2) The State codes are given in serpentine order for the first time which were assigned alphabetically in 1991 Census . As a result the State code of Chhattisgarh is assigned code 22 in Census 2001.

(3) As compared to earlier series of Village Directory additional and more useful information viz. number of Commercial/Co-operative banks and the nearest distance of availability of amenity, Agriculture and Non-Agriculture credit societies, Recreational and Cultural facilities, availability of Newspaper/ magazines and names of important commodities manufactured are included in Census 2001 for the first time in Village Directory.

(4) Annexures giving information on fertility, religion, migration, mother tongue, Scheduled Caste/Scheduled Tribe havebeen included in DCHB 2001.

**Town Directory :**

No major change has been made in Town Directory when compared to Town Directory of 1991. However, some improvement has been made in the data collection on slums of the towns having population 50,000 and more in which seperate Enumeration Blocks were carved for slums during houselisting and population enumeration. In 2001 information in respect of slum areas have been collected for all towns.

The information of slums for Class I and II towns that is with population 50,000 or more was compiled in statement IV-A in Census 1991. In Census 2001, this information is compiled for all the towns irrespective of their size in statement VII.

**Primary Census Abstract :**

(1) Information on individuals has been collected in Household schedules and practice of collecting data on individual slip has been discontinued.

(2) For persons recorded as other workers, the information on distance of place of duty and the means of transport of place of duty are obtained in column 27 and 28 of the household schedule.

(3) The information on Disability is obtained for the first time in Census 2001 in column 15 of the household schedule.

(4) The household schedule is divided in three parts. The information on cultivation/ plantation is recorded in part III of the household schedule for the first time in census 2001.

**(ii) Brief History of the District *:**

As described in Vedic and Pouranik Epics, history of the district is dignified and rich. During the age of Ramayana, some parts of Bastar which were known as Mahakantar, Dandakarnaya and South Koushal of present Chhattisgarh State, finds a place in history. Due to mixed of culture of Arya and Anarya, historical dignity of this area had been increasing continuously. Rivers, ponds, mountain ranges, valleys and dense forests are evidences of respectable history still echoing in the atmosphere of this place. Due to valuable natural wealth, vast stores of mines, fertile land and other natural resources, industrialists and capitalists occupationalists are attracted for invenstment.

The area of this district had been an integrated part of Bastar which is also known as north Bastar. Therefore, the history of this district is evolved from the mother district, Bastar.

Ever since the ancient history till the present era, many dynasties, rulers and kings ruled this district. Nandas , Mouryas, Satwahans, Guptas, Nals, Bhavdutt-Barnhan, Arthpati, Skandhbamhan, Pandu dynasty of the south, Sarabhpuris, Chalukyas, Parmars, Chols, Kalchuris of Ratanpur and Nag dynasties ruled this district from time to time. Marathas and British rulers also ruled this district.

Bastar district was constituted by uniting Bastar and Kanker during the reorganization of earstwhile riyasats. There was no Zamindari in Kanker riyasat and Kanker and Sambalpur (presently in Orissa) were tehsils. Situated to the south of Chhattisgarh state the district is of historic importance. According to Prof. J.R.Walyini (Historian), from 1125 to 1945 Kanker was mainly under Som, Kandra and Chandravanshya Kings, the lively proof of which is Gadiyapahar. These Kings made fort to protect the residents of Kanker from the attack of neighbouring Kings, Multanis and Pindaris. Even now, members of the Royal family are living and the palace of the King is present. In Kanker riyasat, Dhamtari district also was included bordering Orissa in the east, Keshkal Ghati of Bastar riyasat in the South and Manpur riyasat in the West.

**(iii) Administrative Setup *:**

In between census 1991-2001 Bastar district was dwided and two additional, Kanker and Dantewara were carved out vide MP Govt. notification no. 1006/Fdtd 20.8.1992 As a result Kanker came in to existence on 25.5.1998.

According to Census 2001, the district has 1073 villages, number of tehsils are 6.

Tahsilwise, number of villages are :-

| | | | |
|---|---|---|---|
| (1) | Charama | - | 98 |
| (2) | Bhanupratappur | - | 261 |
| (3) | Kanker | - | 100 |
| (4) | Narharpur | - | 119 |
| (5) | Antagarh | - | 192 |
| (6) | Pakhanjore | - | 303 |

The district has only one town namely Kanker(Municipality). Community Blocks Development are Charama, Durg-Kondal,

Bhanupratappur, Kanker, Sarana(Narharpur), Antagarh and Koelibera which is partially spread in Bastar district also). Thus, all the seven development block are Tribal Development Block. All the seven development Block have Janpad Panchayatis. Number of Gram Panchayats is 375.

The district has 6 revenue sub-divisions. There are 123 Patwari Halkas. To have proper and effective Police administraton, there are police stations at Kanker, Charama, Narharpur, Karer, Bhanupratappur, Durg-Kondal, Kore Kurse, Pakhanjur, Koylibeda, Sitram, Antagarh, Raoghat and Amabera. Police out-posts are at Dudhawa, Kache and Wande. There is sub-jail at district headquarter. All the 14 Community Development Blocks are Under the Tribal Projects.

The Collector is assisted by Deputy Collectors, Tahsildars, Naib Tahsildars, Revenue Inspectors and Patwaris. The Collector is also associated with a number of other committees in the district. The most important among them is the District Advisory Committee. The Collector is also vested with statutory powers under excise act, so as to enable him to implement the excise and prohibition policy of the Government Superintendent of Police is the head of police department at the district headquarters, In order to facilitate proper and smooth judicial administration there are 25 police-stations and 4 police out-posts in the district.

The Judiciary is independent. At the district level, there is District Court headed by District and Session Judge. District and Session Judge is assisted by Civil Judges who are posted at tahsil level.

There are notable changes in the administrative units in between the census years 1991-2001. They are :-

1. Due to large area and geographical shape, the district was divided and new district of Kanker was created on 2.5.1998.
2. Due to the division of Madhya Pradesh State, newly constituted Chhattisgarh State came into being on 1st November 2000.
3. 119 villages of Narharpur CD Block of Kanker tahsil of undivided Bastar district, were transferred to newly created Narharpur tahsil on 6.6.1997.
4. In Census 1991, Kanker was not given the Municipality status of but in Census 2001 Kanker has been declared as the Municipality.
5. At present the area of the district remained to 6506 sq.km. while before division the area of Bastar district was 39,114 sq.km.
6. In Census 1991, total number of tahsils in Bastar were 13 out of which 6 tahsils were transffered to newly created Kanker.

**(iv) Physical Features *:**

This district came into being on 25.5.1998 and is situated to the south of newly created Chhattisgarh state earlier it was under Bastar district (Jagdalpur) and the divisional headquarter is Jagdalpur.

The district is surrounded by borders Rajnandgaon in the north-west, Durg in the north, Bastar (Jagdalpur) in the south and Dhamtari district in the north-east.

This district extends from $19^0$45' to $20^0$34' north latitude and $80^0$24' to $81^0$47' east longitude.

In Census 2001 Surveyor General of India has reported that the geographical area of the district is 6506 sq.kms which is 4.81% of the total area of the state which is 135191 sq.kms This district occupies 11th position in terms of area of the state.

**Rivers :**

Main rivers flowing in the district are Mahanadi, Dudhnadi (Dudhnala) and Kotri. Kanker town is situated on the bank of Dhudhnadi. Most part of the district is drained by mahanadi river. Mahanadi flows towards north-west and its tributary is Chhinar river. Mahanadi flows towards north-east near Charama and makes border with Durg district for some distance. The width of Mahanadi expands near Kanker. In the later coarse big rivers like Pairi and Sheonath fall into it. Kotri river also finds and important place in the district. This river originates from Manohar mountains, east of Narayanpur. It flows in Bhanupratappur and nearby portion of Narayanpur. Kotri river is also known as Paralkot river.

**Climate:**

At Kanker, the district headquarter, there is climate observatory. District gets monsoon rain from south-west and north-east monsoon. Most of the region of this district is mountainous and covered with thick forests. The district and nearby regions get extensive and heavy rains from the depressions of Bay of Bengal coming from west.

Generally, the climate of the district is pleasant but summer season is hot and dry. Rain is extensive during rainy season. Winter season is from December to February. After that summer season lasts till early June. October and November are the months of post monsoon season.

In 1998-99, there were only 49 rain-days and annual average rainfall was 883.0 mm. as recorded, while in 1999-2000, annual average rainfall was 1,295.2 mm., recorded in 60 rain-days. in 1991, average general rainfall in Kanker was 737.5 mm. in Antagarh 1,376.4 mm., in Charama 1,109.2 mm. and in Pakhanjur 1,634.6 mm. Wide variation is observed in rainfall from year to year. There is heavy rainfall in July and August. Temperature varies according to the climatic changes and geographical conditions. From February to the end of May, temperature increases continuously. May is the hottest month of the year. In the latter month of June monsoon is active and temperature starts falling. January is the coldest month of the year. During winter cold waves coming from west, affects the temperature of the district and temperature falls to as low as 6-7$^{o}$ C some times.

**Forests :**

Forests have a very important role in the economy of the district as the district is rich in forest wealth, which have mainly dry and leafy Sagon and mixed Sal forests. Sarai Forest division of Kanker is divided into Kanker, Korar, Charama, Narharpur and Saronon ranges. According to "Chhattisgarh's Charts and Graphs – 2001", in 1999-2000, reserve forest area was 158.4 sq.km., protected forest was 278 sq.km. and unclassified other forest was 939 sq.km. The total forest area in the district is 2801 sq.km. which is 43.05% of total area of the district.

Among the forest produces Amla, Harra, Bahera, Lac, Tangli-Haldi, Van-Tulsi, Chirayta, Mahua, Tora, Bamboo, Whai Vindag, Shikakai, Baichedi, Tendu and Tikhur are found in abundance. Collection of forest-produce, protection and promotion of herbal madicines are the source of employment to local people. Farmers are encouraged for floriculture and cultivation of various plantations such as spices etc. under various schemes to promote horticulture.

Collection and sale of tendu-leaf is not only generate employment to the local people but it is also adds to the revenue of the government. Main wild animals in the district are tigers, bears, leopards, hynas, wild-buffaloes, cheetals, deer, barahsingha, monkeys, rabbits, wild boars and peacocks etc.

**Land Use :**

Most of the land in the district is mountainous and rocky. Due to regional geographical variations, the district has Kachhari and Pathari type of soil. In some parts sandy soil is also found. Pathari and Sandy soil is not suitable for crops. This type of land is suitable only for gardening, afforestation and horticulture. This land is the best for Kodo and Kutki crops. In 1999-2000, according to indicatorsof chhattisgarh, food crops had been sown in 221,000 hectares and non-food crops in 7,000 hectares. Only 14,000 hectares of land were under double-crops area. Net, sown area was 212,700 hectares and total area sown was 227,000 hectares as reported. Efforts are being made to increase the Kharif and Rabi crops in the district by rotation of crops, guiding and giving proper training and by proper practical researches.

**Minerals :**

The economy and industrial developments depend basically on mineral resources. There are vast deposits of iron-ore, bauxite, soft-stone, lime-stone, Pharsi-stone, etc. Chhattisgarh State Mining Corporation was founded on 7.6.2001 and through this corrundum, a semi-precious stone is being mined.

**Agriculture :**

Though the main occupation of the district is agriculture, it has rich forest wealth. After agriculture, collection of forest-produce is the second biggest occupation. The chief crops of the district are paddy, kodon-kutki, maize, arhar, urad, kulthi and Ram til. Rabi crops are wheat, gram, pea, tiwra and alsi etc. In 1999-2000, Net sown area was 213 thousand hectares. Total

sown area was 227 thousand hectare. Food crops area was 221 thousand hectares and non-food crops area was 7 thousand hectares.

"Kendra Pravartit Technology Mansion, of Maize" is being implemented in the district. Under this scheme, exhibition, training programms as are being organised. Farmers are given subsidy for improved seeds and agricultural machines. In 1999-2000, 7,034 metric tonnes fertilizer was distributed.

For rabi crops, National Agriculture Insurance Scheme was started from 2000-2001. In addition, Annapurna Scheme, Surajdhara Scheme, Central Cotton Scheme, National Fertilizers Minicut Scheme, Central I.C.D.P. Rice Scheme and National Dalhan and Tilhan Development Scheme are managed in priority. This is done to increase the production and productivity in agriculture.

**Irrigation :**

It is imminent to develop, protect and extend irrigation facilities since the economy of the district depends on irrigation and agriculture is the main occupation. Total area sown in the district is 212,700 hectares. But only 16,300 hectares of land is irrigated. This shows that there is no basic facility of irrigation. Irrigation in the district is mainly done by canals, ponds, tubewells, wells and other sources.

**Animal husbandry:**

In most of the villages, agriculture and cattle rearing are main occupation. According to Cattle-census in 1997, 531 thousand cattle-wealth was recorded , in which cow-dynasty was 329 thousand buffalo dynasty, 52,987 and others 150,000. There are 11 veterinary hospitals and 11 artificial insemination centres, working in the district. In 1999-2000, 55,530 cattle were treated and 56,841 were given injections and 437,895 cattle were given preventive inoculations. Main diseases of the cattle are ghatsarp, ekhangia, chharrog, (Anthrax) and muhkhuri which are infectious diseases and for the prevention of these diseases, preventive inoculations are given.

1,896 cows and 226 buffaloes were benefitted by artificial insemination centres.

**Industries And Occupations :**

To encourage industrialization, district trade and industry centre is established at district headquarter. To attract more capital investment, enough balance between regional development, improvement of life-style of the public and creation of better employment, District Industries Centre play a vital role. According to ownership, small scale industries were 23 only in 1999-2000.

Traditionally, among cottage and village industries, there are rice mills, saw-mills, construction of buildings, brick-kilns, collection of forest produce, articles made of bamboos, lac and chapra etc. Kumhari, lohari, carpentary, leather-craft, weavering, tailoring, etc. are the occupations which give employment. But now, materialistic culture and increasing industrialisation which are establishing big industries have adverse effects on cottage and village industries. In proportion to rising population, unemployment is also increasing day by day. The chief articles imported are kerosene-oil, machinery, parts of machines, salt, petrol and medicines while things exported are rice, tendu-leaf, forest produce and wood for buildings which are notable.

**Transport And Communication:**

Non-availability of rail-transport is mainly responsible for the economic backwardness of the district. There is no air-route in the district. The nearest air-strip is in Jagdalpur and the air-port is in Raipur. The district is most backward area in communication and transport facilities, due to unapproachable places located in far, deep forest.

National highway in the district runs for 165.60 km. Length of pucca-road is 854.85 km. and Katcha-road is 840.23 km. There are 1,073 villages in the district out of which only 217 villages are connected by roads, which means that there are 20.28% approachable villages and 79.72% are unapproachable. In 1999-2000 about 10,000 vehicles were registered in the district.

**Source:**
* District Statististics Book-2001.
* District Census Book.
* Chhattisgarh State Development Sanketank-2001.

**Electricity:**

For industrial development and agriculture, "Electrical energy" has the topmost priority. For the all-round development of the district, demand of electricity is increasing day by day, which is but natural. In 1999-2000, the number of consumers was 37,590 in which consumers from rural area is 33,276 and from urban area is 4,314, as reported. Total consumption in the district was 61,672 thousand k.watt out of which rural consumption was 56,149 thousand k.watt and urban consumption was 5,523 thousand k.watt. In 2000-2001 "Single Connection" were given to 37,760 consumers out of which 3,258 consumers belong to Scheduled Castes and 32,366 belong to Scheduled Tribes.

According to Census 2001, there are 1,073 villages in the district of which 909 villages are electrified which accounts for 84.71% of total villages.

**Panchayati Raj :**

Panchayat is the basic institution of local administration and the foundation of decentralization. Under the Directive Principles of State Policy of the Constitution, M.P. Government has passed Panchayat Adhinium 1962 in which there is three-staged system of Panchayat. Under 73rd amendment of the Constitution, M.P. Panchayatiraj Adhinium 1993 was passed in which panchayat for village, Janpad Panchayat for Development Blocks and for district Panchayat for the district has been introduced. Under Gram Sabha Adhinium 2001, Gram Sabha in which all the adults are included has been adopted as a constitutional unit and has been given adult franchise for voting for Panch, Sarpanch, members of Janpad and members of District Panchayat . Power of approval to village budget and works has been given to Gram Sabha. These institutions formed by elected members work for 5 years. At all stages, there is reservation for scheduled castes and scheduled tribes according to the population. There is 1/3 reservation for women. Members in gram panchayat, Janpad panchayat and district panchayat are10-20, 10-25, 10-35 respectively.

Gram panchayat from its budget spends for prohibition of left-overs, water supply, public works(roads, buildings, wells, tanks) bazar rate exchange, Cooperation to Governmental works and community health and development works. Janpad Panchayt from its budget and within its power will do community development and unified village, agriculture, social, trade, cattle-rearing, fish-rearing, adult education, co-operative works, cottage industry, welfare works and employment oriented programme. The duty of district panchayat is to have control on village and janpad panchayat, to have coordination between them, guide them and advise the state government for development works. one district panchayat, 7 Janpad panchayat and 375 gram panchayat.

**(v) Census Concepts**

**Building**

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

**Permanent houses**

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

**Semi-permanent houses**

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

**Temporary houses**

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

**Dwelling Room**

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

**Census House**

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with

the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

**Village :**

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

**Rural-Urban area**

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) A minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

   iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to

qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

**City :**

Towns with population of 100,000 and above are called cities.

**Urban Agglomeration :**

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglo-meration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census). With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

**Household**

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

**Institutional Household**

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

**Houseless household :**

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

**Scheduled Caste and Scheduled Tribe :**

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and

Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes. The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

**List of Scheduled Castes and Scheduled Tribes**

**Scheduled Castes :**

1. Audhelia
2. Bagri, Bagdi
3. Bahna, Bahana
4. Balahi, Balai
5. Banchada
6. Barahar, Basod
7. Bargunda
8. Basor,Burud,Bansor, Bansodi, Bansphor, Basar
9. Bedia
10. Beldar, Sunkar
11. Bhangi,Mehtar,Balmik, Lalbegi,Dharkar
12. Bhanumati
13. Chadar
14. Chamar, Chamari, Bairwa, Bhambi, Jatav, Mochi, Regar, Nona, Rohidas, Ramnami,Satnami, Surjyabansi, Surjyara-mnami, Ahirwar, Chamar Mangan, Raidas
15. Chidar
16. Chikwa, Chikvi
17. Chitar
18. Dahait, Dahayat, Dahat
19. Dewar
20. Dhanuk
21. Dhed, Dher
22. Dohor
23. Dom,Dumar, Dome, Domar, Doris
24. Ganda, Gandi
25. Ghasi, Ghasia
26. Holiya
27. Kanjar
28. Katia, Patharia
29. Khatik
30. Koli, Kori
31. Khangar, Kanera, Mirdha
32. Kuchbandhia
33. Mahar, Mehra, Mehar
34. Mang, Mang Garodi, Mang Garudi, Dankhni Mang, Mang Mahasi, Madari, Garudi, Radhemang
35. Meghwal
36. Moghia
37. Muskhan
38. Nat, Kalbelia, Sapera, Navdigar, Kubutar
39. Pasi
40. Rujjhar
41. Sansi, Sansia
42. Silawat
43. Zamral

**Scheduled Tribes :**

1. Agariya
2. Andh
3. Baiga
4. Bhaina
5. Bharia Bhumia, Bhuinhar Bhumia, Bhumiya, Bharia, Paliha, Pando
6. Bhattra
7. Bhil, Bhilala, Barela, Patelia
8. Bhil Mina
9. Bhunjia
10. Biar, Biyar
11. Binjhwar

12. Birhul, Birhor
13. Damor, Damaria
14. Dhanwar
15. Gadaba, Gadba
16. Gond, Arakh, Arrakh,Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimma, Bhuta, Koilabhuta, Koliabhuti, Bhar, Bisonhorn Maria, Chota Maria, Dandami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti,Gaita, Gond Gowari, Hill Maria, Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Nagwanshi, Ojha, Raj Gond, Sonjhari Jhareka, Thatia,Thotya, Wade Maria , Vade Maria, Daroi
17. Halba, Halbi
18. Kamar
19. Karku
20. Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri
21. Khairwar, Kondar
22. Kharia
23. Kondh, Khond, Kandh
24. Kol
25. Kolam
26. Korku, Bopchi, Mouasi, Nihal, Nahul, Bondhi,Bondeya
27. Korwa, Kodaku
28. Majhi
29. Majhwar
30. Mawasi
31. Munda
32. Nagesia, Nagasia
33. Oraon, Dhanka, Dhangad
34. Pao
35. Pardhan, Pathari, Saroti
36. Pardhi,Bahelia,Bahellia, Chita Pardhi, Langoli Pardhi, Phans Pardhi, Shikari, Takankar, Takia
    (i) Bastar, Kanker,Dantewara, Raigarh, Jashpur, Korba, Mahasamund, Koriya and Surguja district
    (ii) Bilaspur, Bilha, Masturi, Takhatpur, Pendra Road and Kota tahsils of Bilaspur district
    (iii) Durg, Dhamdha, Patan, Gunderdehi, Balod, Dondilohara and Gurur tahsils of Durg district
    (iv) Mohala, Manpur and Ambagarh tahsils of Rajnandgaon district
    (v) Bindranawagarh, Rajim and Deobhog tahsils of Raipur district
    (vi) Dhamtari, Kurud tahsils and Sihawa C.D.Block in Dhamtari district
37. Parja
38. Sahariya, Saharia, Seharia, Sehria, Sosia, Sor
39. Saonta, Saunta
40. Saur
41. Sawar, Sawara
42. Sonr

**Language and Mother tongue :**

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

**Literate :**

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have

received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

**Literacy rate :**

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

**Educational level :**

The highest level of education a person has completed.

**Work :**

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

**Main worker :**

A person who has worked for major part of the reference period ( i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

**Marginal worker :**

A person who worked for less than six months of the reference period ( i.e. in the last one year preceding the date of enumeration ) in any economic activity is termed as 'Marginal worker'.

**Non worker :**

A person who has not worked at all in any economically productive activity during the reference period ( i.e. last one year preceding the date of enumeration ) is termed as 'Non worker'.

**Cultivator :**

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

**Agricultural labourer :**

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

**Household industry worker :**

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing,

processing, servicing and repairs of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

**Other Worker :**

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

**Work Participation Rate :**

Percentage of workers (main + marginal) to total population

**Population density :**

Population density is the number of persons inhabited per square kilometre of the area.

**Age :**

Age is measured in terms of the completed number of years

**Sex-Ratio :**

Number of females per 1,000 males in a population.

### (vi) Non Census Concepts

**Improved drinking water :**

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

**System of sewerage :**

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

**Type of latrine and Method of disposal of night soil :**

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

**Fertility :**

In demography, the word fertility is used in relation

to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

**Crude birth rate(CBR) :**

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid – year Population}} \times 1000$$

**Crude death rate(CDR) :**

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1000$$

**Natural growth rate :**

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

**Age specific fertility rate (ASFR) :**

**N**umber of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

**Age specific marital fertility rate (ASMFR) :**

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

**General fertility rate (GFR) :**

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

**General marital fertility rate (GMFR) :**

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years}} \times 1000$$

**Total fertility rate (TFR) :**

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1000}$$

**Total marital fertility rate (TMFR) :**

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1000}$$

**Age-specific mortality rate (ASMR) :**

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$\text{ASMR} = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

**$q_1$ :**

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

**$q_2$ :**

Probability of dying between birth and age 2.

**$q_5$:**

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

**Infant mortality rate (IMR) :**

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

**Neo-natal mortality rate (NMR) :**

Number of infants dying within the first month of life (28 days or under ) in a year per 1,000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

**Early neo- natal mortality rate :**

$$\text{ENMR} = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

**Late neo-natal mortality rate :**

$$\text{LNMR} = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

**Post neo-natal mortality rate (PNMR) :**

$$\text{PNMR} = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

**Peri-natal mortality rate (PMR) :**

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

**Still birth rate(SBR) :**

$$\text{SBR} = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

**Maternal mortality rate(MMR) :**

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100000$$

**Eligible couple (Couples per 1000 population) :**

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

**Child woman ratio (0-4) :**

Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

**Child woman ratio (5-9) :**

Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

**Migration :**

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/ relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

**Internal and International migration :**

The migrational movements are of three types

(i) Migration within the state itself with its components

  (a) Migration within the district of enumeration (intra district migration)

  (b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country ( inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

**Rural - Urban components of migration :**

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

**Civic status of urban units :**

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

**Size class of UA/town :**

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 100,000 and above population are classified as Class I UAs./ towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) and M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

**Slum area :**

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as

a) Areas where buildings are in any respect unfit for human habitation; or

b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

**Mega city**

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

**(vii) 2001 Census findings – Population, its distribution**

According to Census 2001, Kanker district comprises of 1,068 inhabited villages, 5 uninhabited vilages and total 1,073 villages distributed among 6 tahsils and 7 number of CD blocks. The district has 1 towns. The average household size of the district is 5.1. Total population of the district is 650,394 comprising 324,636 males and 326,298 females. Thus the sex ratio of the district works out to 1,005 which is better than the sex-ratio of the state. Density of the district is 100 persons per sq.km. and is lower than the density of the state which is 154 Literacy rate of the district 72.9 per cent is also higher than the State literacy rate 64.7 per cent. Scheduled Castes and Scheduled Tribes population of the district is respectively 4.2 per cent and 56.1 per cent of the total population of the district. Apart from these general findings, the analysis on various parameters like rural-urban distribution of population by sex, literacy, density, caste, tribe etc. has been covered in the Inset Tables from 1 to 52 based on PCA, Village Directory data, Town directory data and houselisting data pertaining to Census, 2001.

**(viii) Brief analysis of the PCA data (Table 1-36)**

Analysis of the PCA data based on Census 2001 is presented here in the form of tables from 1-36. Various demographic indicators such as density, literacy, Sex-ratio and distribution of population in different economic activity by rural/urban, male/female and age classifications are presented in these tables. These analysis are presented for Tahsils and CD Block levels seperatly.

Analysis for Scheduled Castes and Scheduled Tribes is also covered in these tables.

**TABLE 1: DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001**

| Serial number | Tahsil | Population | | | | | | Percentage decadal variation 1991-2001 | | | Percentage urban population | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | 1991 | | | 2001 | | | | | | | |
| | | Total | Rural | Urban | Total | Rural | Urban | Total | Rural | Urban | 1991 | 2001 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 |
| 1 | Charama | 85,299 | 85,299 | 0 | 97,179 | 97,179 | 0 | 13.9 | 13.9 | 0.0 | 0.0 | 0.0 |
| 2 | Bhanupratappur | 116,627 | 116,627 | 0 | 136,996 | 136,996 | 0 | 17.5 | 17.5 | 0.0 | 0.0 | 0.0 |
| 3 | Kanker | 91,777 | 71,075 | 20,702 | 108,301 | 76,916 | 31,385 | 18.0 | 8.2 | 51.6 | 22.6 | 29.0 |
| 4 | Narharpur | 89,571 | 89,571 | 0 | 100,462 | 100,462 | 0 | 12.2 | 12.2 | 0.0 | 0.0 | 0.0 |
| 5 | Antagarh | 54,144 | 54,144 | 0 | 65,756 | 65,756 | 0 | 21.4 | 21.4 | 0.0 | 0.0 | 0.0 |
| 6 | Pakhanjur | 111,058 | 111,058 | 0 | 142,240 | 142,240 | 0 | 28.1 | 28.1 | 0.0 | 0.0 | 0.0 |
| | District Total: | 548,476 | 527,774 | 20,702 | 650,934 | 619,549 | 31,385 | 18.7 | 17.4 | 51.6 | 3.8 | 4.8 |

This table indicates tahsilwise decadal variation for both the rural and urban areas of the district. It is seen from the table that an overall 18.7 percent decadal growth has been recorded in the district. The growth rate in rural areas of the district during the decade 1991-2001 works out to 17.4 percent, while for urban areas it is 51.6 percent. Among the tahsils, Pakhanjur has registered the highest decadal growth rate of 28.1 percent. The growth rate in rural area and urban area is highest in Pakhanjur tahsil . The percentage of urban population to total population of the district is 4.8 percent in 2001 against 3.8 percent in 1991.

**TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001**

| Serial number | District / C.D. block | Total number of inhabited villages | Total rural population | | | Number and percentage of villages | Population less than 200 | |

| 7 | Koyalibeda | 6 (2.0) | 9,218 | 8,604 | 0 (0.0) | 0 | 0 | 0 (0.0) | 0 | 0 |
| | Districts (Rural) Total: | 19 ( 1.8) | 26,157 | 26,024 | 3 ( 0.3) | 10,570 | 10,285 | 0 ( 0.0) | 0 | 0 |

Table 2 gives CD Blockwise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at CD Block level in the district. Out of the 1,068 inhabited villages, 232 (21.7 percent) are small sized villages with population below 200 persons. In the size class of 200-499 persons, there are 392 villages having 36.7 percent villages of the district while in the size class of 500-999 population there are 283 villages constituting 26.5 percent of total villages. 139 villages (13.0 percent) are in the size class of 1,000-1,999 and 19 villages (1.8 percent) are in the size class of 2,000-4,999. There are 3 villages (0.3 percent) in the size class of 5,000-9,999 and there is no village fall in the size class of population 10,000 and above.

**TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS**

Name of town

**(a) New**

(i) Statutory town — Nil

(ii) Census town — Nil

**(b) Denotified**

(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns — Nil

(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria Nil

(iii) Census towns of 1991 census are notiified as statutory town in 2001 census Nil

**(c) Declassified**

Nil

**(d) Wholly merged with other town(s)**

Nil

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

**TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001**

| Range of population density (per square kilometer) | Total number of villages in each population density range | Percentage of villages in each population density range | Population | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 0-10 | 15 | 1.4 | 1,210 | 0.2 |
| 11-20 | 8 | 0.7 | 798 | 0.1 |
| 21-50 | 107 | 10.0 | 22,783 | 3.7 |
| 51-100 | 357 | 33.4 | 123,479 | 19.9 |
| 101-200 | 343 | 32.1 | 226,553 | 36.6 |
| 201-300 | 159 | 14.9 | 146,138 | 23.6 |
| 301-500 | 54 | 5.1 | 50,555 | 8.2 |
| 501 + | 25 | 2.3 | 48,033 | 7.8 |
| Not known | 0 | 0.0 | 0 | 0.0 |
| District Total: | 1,068 | 100.0 | 619,549 | 100.0 |
| Density of Population (Rural) of the district: | | 131.6 | | |

This table shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under 8 different ranges of density. The maximum number of villages i.e. 357 accounting for 33.4 percent of the total inhabited villages of the district fall in the density range of 51-100 persons having 19.9 percent population. The lowest range of 0-10 and 11-20 persons per sq.km. cover 23 villages (2.1 percent). 25 villages have very high density with more than 501 persons per sq.km. while the corresponding proportion in the lower range of 201-500 is 20.0 percent of the total inhabited villages having 31.8 percent population of the district. In the medium density ranges of 21-50 and 51-100 persons account for 10.0 and 33.4 percent of inhabited villages. Both these ranges claim 23.6 percent rural population.

**TABLE 5: SEX RATIO OF STATE AND DISTRICT, 1901-2001**

| Census Year | State | | | District | | |
|---|---|---|---|---|---|---|
| | Total | Rural | Urban | Total | Rural | Urban |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1901 | 1,046 | 1,047 | 1,016 | 978 | 973 | 1,091 |
| 1911 | 1,039 | 1,040 | 1,013 | 994 | 994 | - |
| 1921 | 1,041 | 1,042 | 1,000 | 989 | 983 | 1,144 |
| 1931 | 1,043 | 1,046 | 957 | 1,000 | 1,000 | 1,000 |
| 1941 | 1,032 | 1,034 | 976 | 1,006 | 1,004 | 1,057 |
| 1951 | 1,024 | 1,028 | 951 | 1,017 | 1,020 | 895 |
| 1961 | 1,008 | 1,026 | 837 | 1,007 | 1,009 | 945 |
| 1971 | 998 | 1,011 | 888 | 999 | 1,001 | 937 |
| 1981 | 996 | 1,012 | 908 | 1,007 | 1,011 | 916 |
| 1991 | 985 | 1,000 | 917 | 1,000 | 1,003 | 931 |
| 2001 | 989 | 1,004 | 932 | 1,005 | 1,007 | 976 |

As per 2001 Census, sex ratio of 1,005 females per 1,000 males has been recorded in the district against the state average of 989. The sex ratio of the district had been significantly higher in 1971 to 2001 over the state average figures. The lowest sex ratio of 985 females per 1,000 males has been recorded in the district in Census 1991.

**TABLE 6 : SEX RATIO BY TAHSILS, 2001**

| Serial number | Name of Tahsil | Sex ratio | | |
|---|---|---|---|---|
| | | Total | Rural | Urban |
| 1 | 2 | 3 | 4 | 5 |
| 1 | Charama | 1,037 | 1,037 | - |
| 2 | Bhanupratappur | 1,009 | 1,009 | - |
| 3 | Kanker | 1,016 | 1,033 | 976 |
| 4 | Narharpur | 1,041 | 1,041 | - |
| 5 | Antagarh | 997 | 997 | - |
| 6 | Pakhanjur | 952 | 952 | - |
| | Sex ratio forthe district : | 1,005 | 1,007 | 976 |

Table 6 gives the tahsil wise sex ratio of rural and urban population of Census 2001. It is observed that the sex ratio for the rural area works out to 1,007 whereas it is 976 for the urban area. The sex ratio in rural area is highest (1,041) in Narharpur tahsil whereas in urban area it is highest (976) in Kanker tahsil. The total sex ratio of the district is 1,005 females per 1,000 males.

**TABLE 7 : SEX RATIO BY CD BLOCKS, 2001**

| Serial number | Name of C D block | Sex ratio |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Charama | 1,037 |
| 2 | Durgkondal | 1,006 |
| 3 | Bhanupratappur | 1,012 |
| 4 | Kanker | 1,033 |
| 5 | Sarana(Narharpur) | 1,041 |
| 6 | Antagarh | 997 |
| 7 | Koyalibeda | 952 |
| | District (Rural) Total: | 1,007 |

Table 7 gives the CD Blockwise sex ratio for rural population of the district. The sex ratio in rural areas of the district comes to 1,007 females per 1,000 males. Among the CD Blocks the highest sex ratio of 1,041 is found in Sarana (Narharpur) CD Block and the lowest of 952 is recorded in Koyalibeda CD Block.

**TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001**

| Range of sex ratio for villages | Number of inhabited villages | Percentage of villages in each range | Population 2001 | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Less than 700 | 5 | 0.5 | 671 | 0.1 |
| 700-749 | 4 | 0.4 | 258 | 0.0 |
| 750-799 | 18 | 1.7 | 3,985 | 0.6 |
| 800-849 | 38 | 3.6 | 12,963 | 2.1 |
| 850-899 | 82 | 7.7 | 29,776 | 4.8 |
| 900-949 | 142 | 13.3 | 92,823 | 15.0 |
| 950-999 | 194 | 18.2 | 130,804 | 21.1 |
| 1000-1099 | 413 | 38.7 | 273,762 | 44.2 |
| 1100+ | 172 | 16.1 | 74,507 | 12.0 |
| District Total: | 1,068 | 100.0 | 619,549 | 100.0 |
| Sex ratio (Rural) for District: | | | 1,007 | |

Table 8 presents the distribution of villages by 9 ranges of sex ratio based on 2001 Census. The maximum number of villages i.e. 413 accounting for 38.7 percent of the total villages having largest population of 44.2 percent in the district fall in the sex ratio range of 1,000-1,099. It is followed by 194 villages constituting 18.2 percent of total villages and 21.1 percent population falling in the range of 950-999. It is seen that the percentage distribution of population in the adjoining ranges of the range having maximum sex ratio decreases with the decreasing or increasing range.

**TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001**

| Serial number | Name of U.A./Town | Urban status of town | Sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Kanker | UA | 976 |
| | (i) Kanker | M | 1,001 |
| Sex ratio (Urban) for the district: | | | 976 |

Table 9 gives the sex ratio of towns and urban agglomerations of the district. The sex ratio in urban areas of the district comes to 976 females per 1,000 males and in Kanker(M) it is 1,001 females per 1,000 males as a whole.

**TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001**

| | | Urban | 3,922 | 1,937 | 1,985 | 1,025 |

Table 10 presents the sex ratio of population in the age group 0-6 years and sex ratio for total, rural and urban areas in respect of each tahsil of the district. The total sex ratio in this age group works out to 975 females for every 1,000 males in the district. The proportion of females in urban areas is higher than that of Rural areas. The sex ratio in rural and urban areas comes to 973 and 1,025 respectively. The rural sex ratio in tahsil varies between 945 in Pakhanjur tahsil to 1,008 in Narharpur tahsil.

**TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CD BLOCKS, 2001**

| Serial number | Name of C.D. block | Total population in 0-6 age group | | | Sex ratio for 0-6 age group |
|---|---|---|---|---|---|
| | | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Charama | 13,212 | 6,707 | 6,505 | 970 |
| 2 | Durgkondal | 10,354 | 5,234 | 5,120 | 978 |
| 3 | Bhanupratappur | 12,931 | 6,573 | 6,358 | 967 |
| 4 | Kanker | 11,518 | 5,825 | 5,693 | 977 |

| District (Rural) Total: | | 102,957 | 52,187 | 50,770 | 973 |

Table 11 gives CD Blockwise sex ratio of rural population in the age group of 0-6 years in the district. The sex ratio is 973 for the district (Rural). The sex ratio of CD Block varies between 945 to 1,008. It is highest in Sarana(Narharpur) CD Block and lowest in Koyalibeda CD Block.

**TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001**

| Range of sex ratio for villages | Number of inhabited villages | Percentage distri-bution of villages | Population 2001 | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Less than 700 | 112 | 10.5 | 5,850 | 5.7 |
| 700-749 | 43 | 4.0 | 3,018 | 2.9 |
| 750-799 | 61 | 5.7 | 5,110 | 5.0 |
| 800-849 | 93 | 8.7 | 10,116 | 9.8 |
| 850-899 | 94 | 8.8 | 11,596 | 11.3 |
| 900-949 | 83 | 7.8 | 11,388 | 11.1 |
| 950-999 | 65 | 6.1 | 10,126 | 9.8 |
| 1000-1099 | 184 | 17.2 | 19,421 | 18.9 |
| 1100+ | 333 | 31.2 | 26,332 | 25.6 |
| District (Rural) Total | 1,068 | 100.0 | 102,957 | 100.0 |
| Sex ratio (Rural) for District: | | | 973 | |

Table 12 shows the distribution of villages in 9 ranges of sex ratio of the population in the age group 0-6 years as well as percentage of villages, total population and percentage of population of this age group falling in each range of sex ratio in the district. 333 (31.2 percent) having largest population (25.6 percent) in the district (rural) fall in the sex ratio range of 1100 and above. It is followed by the sex ratio range of 1,000-1,099 which claims 184 villages (17.2 percent) and 18.9 percent population. Next to it 112 villages (10.5 percent) and 5.7 percent population are in the range of less than 700. Minimum number of villages i.e. 43(4.0 percent) and 2.9 percent population fall in the range of 700-749.

**TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATION ( INCLUDING CONSTITUENT UNITS) TOWNS, 2001**

| Serial number | Name of UA/Town | Urban status of town | Total population in 0-6 age group | | | Sex ratio for 0-6 age group |
|---|---|---|---|---|---|---|
| | | | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Kanker | UA | 3,922 | 1,937 | 1,985 | 1,025 |

| | | Rural | 142,240 | 2,539 | 50,083 | 1.8 | 35.2 |
| | | Urban | 0 | 0 | 0 | 0 | 0 |
| | District Total: | Total | 650,934 | 27,663 | 365,031 | 4.2 | 56.1 |
| | | Rural | 619,549 | 25,584 | 357,831 | 4.1 | 57.8 |
| | | Urban | 31,385 | 2,079 | 7,200 | 6.6 | 22.9 |

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as the percentage to total population at tahsil level in rural and urban areas of the district. Of the 650,934 total population of the district 4.2 percent belong to the Scheduled Castes and 56.1 percent to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 4.1 percent in rural population and 6.6 percent in urban population of the district. The highest percentage of Scheduled Castes population is recorded in Bhanupratappur tahsil (5.6) while the lowest is found in Pakhanjur tahsil (1.8). The proportion of Scheduled Tribes population is 57.8 and 22.9 percent in rural and urban areas respectively. Scheduled Tribes population in the district is mainly concentrated in Antagarh tahsil (76.9 percent) and the lowest Scheduled Tribes population is recorded in Pakhanjur tahsil (35.2 percent).

**TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN CD BLOCKS, 2001**

| Serial number | Name of C.D. block | Total population | Total Scheduled Castes population | Total Scheduled Tribes population | Percentage of Scheduled Castes population to total population | Percentage of Scheduled Tribes population to total population |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Charama | 97,179 | 5,302 | 46,358 | 5.5 | 47.7 |
| 2 | Durgkondal | 55,778 | 3,023 | 43,189 | 5.4 | 77.4 |
| 3 | Bhanupratappur | 81,218 | 4,702 | 52,071 | 5.8 | 64.1 |
| 4 | Kanker | 76,916 | 3,573 | 47,835 | 4.6 | 62.2 |
| 5 | Sarana(Narharpur) | 100,462 | 3,416 | 67,707 | 3.4 | 67.4 |
| 6 | Antagarh | 65,756 | 3,029 | 50,588 | 4.6 | 76.9 |
| 7 | Koyalibeda | 142,240 | 2,539 | 50,083 | 1.8 | 35.2 |
| | District (Rural) Total: | 619,549 | 25,584 | 357,831 | 4.1 | 57.8 |

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each CD Block of the district. 4.1 percent of rural population of the district belongs to Scheduled Castes and 57.8 percent to Scheduled Tribes. Scheduled Castes population is highest (5.8 percent) in Bhanupratappur CD Block whereas it is lowest (1.8 percent) in Koyalibeda CD Block. Scheduled Tribes population is highest (77.4 percent) in Durgkondal CD Block and it is lowest (35.2 percent) in Koyalibeda CD Block.

**TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION INVILLAGES 2001**

| Percentage Range of Scheduled Castes population to total population | Number of villages | Percent-age | Scheduled Castes Population | Percent-age |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Nil | 498 | 46.6 | 0 | 0.0 |
| Less than 5 | 352 | 33.0 | 6,260 | 24.5 |
| 5-10 | 148 | 13.9 | 10,718 | 41.9 |
| 11-20 | 52 | 4.9 | 5,222 | 20.4 |
| 21-30 | 14 | 1.3 | 2,501 | 9.8 |
| 31-40 | 4 | 0.4 | 883 | 3.5 |
| 41-50 | 0 | 0.0 | 0 | 0.0 |
| 51-75 | 0 | 0.0 | 0 | 0.0 |
| 76 and above | 0 | 0.0 | 0 | 0.0 |
| District Total | 1,068 | 100.0 | 25,584 | 100.0 |

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of population at district level. 498 villages accounting for 0 percent of total 1068 inhabited villages in the district do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5.0 percent in 352 villages (33.0 percent). In 148 villages it varies between 5-10 percent while the next range of 11-20 percent accounts for 52 villages. The range of 21-30 and 31-40 percent contains 14 and 4 villages respectively. There are no villages in the range of 41-50, 51-75, 76 and above in the proportion of Scheduled Castes.

**TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTALPOPULATION INVILLAGES 2001**

| Percentage Range of Scheduled Tribes population to total population | Number of villages | Percent-age | Scheduled Tribes Population | Percent-age |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Nil | 70 | 6.6 | 0 | 0.0 |
| Less than 5 | 28 | 2.6 | 252 | 0.1 |
| 5-10 | 5 | 0.5 | 670 | 0.2 |
| 11-20 | 10 | 0.9 | 3,032 | 0.8 |
| 21-30 | 22 | 2.1 | 7,532 | 2.1 |
| 31-40 | 43 | 4.0 | 17,118 | 4.8 |
| 41-50 | 50 | 4.7 | 20,984 | 5.9 |
| 51-75 | 236 | 22.1 | 109,836 | 30.7 |
| 76 and above | 604 | 56.6 | 198,407 | 55.4 |
| District Total | 1,068 | 100.0 | 357,831 | 100.0 |

Table 17 reflects the number of villages according to the proportion of Scheduled Tribes population to their total population in different ranges of population at district level. 70 villages accounting for 6.6 percent of total 1068 inhabited villages in the district do not have any Scheduled Tribes population. The proportion of Scheduled Tribes population is less than 5.0 percent in 28 villages (2.6 percent). In 5 villages it varies between 5-10 percent while the next range of 11-20 percent accounts for 10 villages. The range of 21-30 and 31- 40 percent contains 22 and 43 villages respectively. There are 50 villages in the range of 41-50 and 236 villages in the range of 51-75. 604 villages are such where the proportion of Scheduled Tribes is 76 and above.

**TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS/TOWNS, 2001**

| Serial number | Name of UA/ Town | Total population | Total Scheduled Castes population | Total Scheduled Tribes population | Percentage of Scheduled Castes population to total population | Percentage of Scheduled Tribes population to total population |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| | Kanker UA | 31,385 | 2,079 | 7,200 | 6.6 | 22.9 |
| 1 | Kanker (M) | 24,478 | 1,759 | 4,653 | 7.2 | 19.0 |
| | District(Urban) Total | 31,385 | 2,079 | 7,200 | 6.6 | 22.9 |

Table 18 shows number and percentage of Scheduled Castes and Scheduled Tribes in UA/Towns of the district. The highest proportion (7.2 percent) of Scheduled Castes is found in Kanker (M) and lowest proportion (6.6 percent) in Kanker (UA). For Scheduled Tribes the highest proportion (22.9 percent) is found in Kanker (UA) and lowest (19.0 percent) in a Kanker(M).

**TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN CD BLOCKS, 2001**

| Serial number | Name of C. D. block | Scheduled Castes sex ratio | Scheduled Tribes sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Charama | 1,044 | 1,048 |
| 2 | Durgkondal | 976 | 1,014 |
| 3 | Bhanupratappur | 1,054 | 1,019 |
| 4 | Kanker | 1,089 | 1,037 |
| 5 | Sarana(Narharpur) | 1,078 | 1,044 |
| 6 | Antagarh | 1,055 | 1,003 |
| 7 | Koyalibeda | 961 | 970 |
| | District (Rural) Total | 1,041 | 1,020 |

Table 19 indicates sex ratio among Scheduled Castes and Scheduled Tribes in each CD Block of the district. The Scheduled Castes sex ratio is 1,041 for district (rural). Among the CD Blocks, the highest sex ratio of 1,089 is founding Kanker CD Block and lowest of 961 is recorded in Koyalibeda CD Block.

Sex ratio of Scheduled Tribes population in Kanker district rural is 1,020. Among the CD Blocks, the highest sex ratio of 1,048 is found in Charama CD Block and lowest of 970 is recorded in Koyalibeda CD Block.

**TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001**

| Serial number | Name of UA/Town | Scheduled Castes sex ratio | Scheduled Tribes sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| | Kanker UA | 1,071 | 966 |
| 1 | Kanker (M) | 1,109 | 1,051 |
| Sex ratio (Urban) for the district: | | 1,071 | 966 |

Table 20 shows the sex ratio among Scheduled Castes and Scheduled Tribes in UA/Towns for Census 2001. For the district (urban) sex ratio is higher 1,071 among Scheduled Castes compared to Scheduled Tribes 966.

In Kanker (M) the Sex ratio of Scheduled Caste is highest 1109 whereas it is lowest in Kanker (UA) that is 1,071. The highest sex ratio among Scheduled Tribes is observed in Kanker (M) which is 1051. It is lowest 966 in Kanker(UA).

Tahsilwise and district literacy rates besides the number of literates and illiterates for total, rural and urban areas are given in Table 21. The literacy rates are worked out by excluding population of 0-6 years. As per 2001 census, the proportion of literates to total population excluding 0-6 years comes to 72.9 percent in the district. This proportion in rural area is 72.3 percent and 85.3 percent in urban areas. In the district the literacy rate of males 82.7 percent is much higher than that of females which is 63.3 percent.

Among the tehsils, Kanker tahsil tops with 80.1 percent literates and the lowest literacy rate 63.7 percent is recorded for Antagarh tahsil.

## TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

| Serial number | Name of C.D. block | Number of literates and illiterates | | | | | | Percentage of literates | | | Gap in male-female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | | | | |
| | | Persons | Males | Females | Persons | Males | Females | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1 | Charama | 65,382 | 36,164 | 29,218 | 31,797 | 11,553 | 20,244 | 77.9 | 88.2 | 68 | 20.2 |
| 2 | Durgkondal | 32,080 | 17,920 | 14,160 | 23,698 | 9,888 | 13,810 | 70.6 | 79.4 | 62 | 17.4 |
| 3 | Bhanupratappur | 52,039 | 28,905 | 23,134 | 29,179 | 11,463 | 17,716 | 76.2 | 85.5 | 67.1 | 18.5 |
| 4 | Kanker | 50,930 | 27,792 | 23,138 | 25,986 | 10,044 | 15,942 | 77.9 | 86.8 | 69.3 | 17.5 |
| 5 | Sarana (Narharpur) | 61,350 | 34,442 | 26,908 | 39,112 | 14,781 | 24,331 | 71.7 | 82.4 | 61.5 | 20.9 |
| 6 | Antagarh | 33,761 | 19,831 | 13,930 | 31,995 | 13,097 | 18,898 | 63.7 | 74.7 | 52.6 | 22.1 |
| 7 | Koyalibeda | 77,828 | 45,790 | 32,038 | 64,412 | 27,079 | 37,333 | 67.7 | 77.8 | 57.1 | 20.7 |
| District (Rural) Total: | | 373,370 | 210,844 | 162,526 | 246,179 | 97,905 | 148,274 | 72.3 | 82.2 | 62.5 | 19.7 |

Table 22 revals number of literates, illiterates and the literacy rates in rural areas at CD Block level in the district. 72.3 percent of the total rural population excluding the age group of 0-6 years are literates in the district. The corresponding proportion of male and female literates comes to 82.2 and 65.5 percent respectively. At CD Block level Charama and Kanker CD Block has the highest rural literacy rate of 77.9 percent while the lowest literacy rate of 63.7 percent is recorded for Antagarh CD Block.

## TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

| Range of literacy rate for villages | Number of inhabited villages | Percentage distribution of villages | Population | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 0 | 5 | 0.5 | 171 | 0.0 |
| 1-10 | 13 | 1.2 | 1,625 | 0.3 |
| 11-20 | 22 | 2.1 | 3,779 | 0.6 |
| 21-30 | 42 | 3.9 | 11,467 | 1.9 |
| 31-40 | 56 | 5.2 | 13,888 | 2.2 |
| 41-50 | 69 | 6.5 | 22,534 | 3.6 |
| 51-60 | 104 | 9.7 | 41,133 | 6.6 |
| 61-70 | 190 | 17.8 | 110,266 | 17.8 |
| 71-80 | 328 | 30.7 | 223,526 | 36.1 |
| 81-90 | 226 | 21.2 | 182,418 | 29.4 |
| 91-99 | 13 | 1.2 | 8,742 | 1.4 |
| 100 | 0 | 0.0 | 0 | 0.0 |
| District Total: | 1,068 | 100.0 | 619,549 | 100.0 |
| Literacy rate for District: | 72.9 | | | |

Table 23 gives the distribution of villages by literacy ranges in the district. There are 5 villages in the literacy rate range 0 (0.5 percent) of the district and population of these villages is only 171. 13 villages in 1-10 and 22 in 11-20. Similarly no village is recorded in the literacy range of 100. 13 villages are in the literacy rate range of 91-99 percent . Highest number of villages i.e. 328 villages fall in the literacy range of 71-80 percent. This accounts for 30.7 percent of total villages and 36.1 percent of the district population.

## TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS/TOWNS, 2001

| Serial number | Name and urban status of UA/Town | Number of literates and illiterates | | | | | | Percentage of literates | | | Gap in male-female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | | | | |
| | | Persons | Males | Females | Persons | Males | Females | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1 | Kanker UA | 23,427 | 12,935 | 10,492 | 7,958 | 2,952 | 5,006 | 85.3 | 92.7 | 77.6 | 15.1 |
| 2 | (i) Kanker (M) | 18,578 | 10,046 | 8,532 | 5,900 | 2,188 | 3,712 | 86.7 | 93.6 | 79.8 | 13.7 |
| District(Urban) Total | | 23,427 | 12,935 | 10,492 | 7,958 | 2,952 | 5,006 | 85.3 | 92.7 | 77.6 | 15.1 |

Table 24 presents the number and percentage of literates and illiterates by sex in UA/towns of the district. It is seen that the highest literacy rate of 86.7 percent is recorded in Kanker (M) whereas the lowest literacy rate is recorded in Kanker (UA). Sex wise highest percentage of male literacy rate is observed in Kanker (M) and it is lowest in Kanker (UA). Gap in male female literacy rate is maximum in Kanker (UA). The total literacy rate of the district (urban) comes to 85.3 percent. It is 92.7 for males and 77.6 for females.

**TABLE 25 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001**

| Serial number | Name of CD Block | Number of literates and illiterates | | | | | | Percentage of literates | | | Gap in male-female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | | | | |
| | | Persons | Males | Females | Persons | Males | Females | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1 | Charama | 3,726 | 2,046 | 1,680 | 1,576 | 548 | 1,028 | 80.8 | 91.5 | 70.7 | 20.9 |
| 2 | Durgkondal | 2,042 | 1,125 | 917 | 981 | 405 | 576 | 80.6 | 88.9 | 72.4 | 16.6 |
| 3 | Bhanupratappur | 3,067 | 1,657 | 1,410 | 1,635 | 632 | 1,003 | 78.0 | 86.9 | 69.7 | 17.2 |
| 4 | Kanker | 2,435 | 1,279 | 1,156 | 1,138 | 431 | 707 | 80.6 | 89.5 | 72.6 | 16.9 |
| 5 | Sarana(Narharpur) | 2,130 | 1,169 | 961 | 1,286 | 475 | 811 | 72.6 | 83.6 | 62.6 | 21.0 |
| 6 | Antagarh | 1,887 | 1,023 | 864 | 1,142 | 451 | 691 | 75.2 | 85.4 | 65.9 | 19.5 |
| 7 | Koyalibeda | 1,477 | 868 | 609 | 1,062 | 427 | 635 | 70.4 | 81.7 | 58.8 | 22.9 |
| | District (Rural) Total: | 16,764 | 9,167 | 7,597 | 8,820 | 3,369 | 5,451 | 77.5 | 87.3 | 68.2 | 19.2 |

Table 25 presents the CD Blockwise number and percentage of Scheduled Castes, litertes and illiterates by Sex. It is seen that literacy rate of Schedules Caste population of the district is 77.5 percent. It is highest 80.8 percent in Charama CD block and lowest 70.4 percent in Koyalibeda CD block. The gap in male/ female literacy rate is highest (22.9 percent) in Koyalibeda CD block. The overall male literacy rate of the district (rural) works out to 87.3 percent and it is 68.2 percent for females.

**TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001**

| Range of literacy rate for villages | Number of inhabited villages | Percentage distribution of villages | Scheduled Castes Population | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 0 | 9 | 1.6 | 26 | 0.1 |
| 1-10 | 0 | 0.0 | 0 | 0.0 |
| 11-20 | 2 | 0.4 | 26 | 0.1 |
| 21-30 | 1 | 0.2 | 15 | 0.1 |
| 31-40 | 18 | 3.2 | 410 | 1.6 |
| 41-50 | 25 | 4.4 | 657 | 2.6 |
| 51-60 | 43 | 7.5 | 1,500 | 5.9 |
| 61-70 | 67 | 11.8 | 3,087 | 12.1 |
| 71-80 | 131 | 23.0 | 6,860 | 26.8 |
| 81-90 | 173 | 30.4 | 11,332 | 44.3 |
| 91-99 | 31 | 5.4 | 1,280 | 5.0 |
| 100 | 70 | 12.3 | 391 | 1.5 |
| District Total: | 570 | 100.0 | 25,584 | 100.0 |
| Literacy rate for District (Rural): | | | | 77.5 |

Table 26 presents the distribution of villages by range of literacy rate for Scheduled Caste population.It may be noted that the literacy rate is worked out after excluding population in the age group 0-6 from the total Scheduled Caste population. The overall literacy rate of Scheduled Caste population for the district (rural) works out to 77.5 percent. Highest number of villages i.e. 173 villages fall in the literacy range of 81-90 percent. There are 70 villages which have 100 percent literacy rate of Scheduled Caste population. 9 villages are such where the literacy rate of Scheduled Caste population is 0 percent.

## TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

| Serial number | Name and urban status of Town | Number of literates and illiterates | | | | | | Percentage of literates | | | Gap in male-female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | | | | |
| | | Persons | Males | Females | Persons | Males | Females | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1 | Kanker (UA) | 1,480 | 797 | 683 | 599 | 207 | 392 | 80.8 | 88.7 | 73.2 | 15.4 |
| | Kanker (Urban) | 1,480 | 797 | 683 | 599 | 207 | 392 | 80.8 | 88.7 | 73.2 | 15.4 |

This table reveals the number and percentage of Scheduled Castes literates and illiterates by sex in the towns of the district. The total literacy rate of District (Urban) is 80.8. It is 88.7 percent for males and 73.2 percent for females. The gap in male/female literacy rate is 15.4 percent.

## TABLE 28 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001

| Serial number | Name of CD Block | Number of literates and illiterates | | | | | | Percentage of literates | | | Gap in male-female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | | | | |
| | | Persons | Males | Females | Persons | Males | Females | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1 | Charama | 30,098 | 16,807 | 13,291 | 16,260 | 5,827 | 10,433 | 74.8 | 85.9 | 64.3 | 21.7 |

| 3 | Bhanupratappur | 32,226 | 17,968 | 14,258 | 19,845 | 7,826 | 12,019 | 73.8 | 83.5 | 64.4 | 19.1 |
| 4 | Kanker | 31,011 | 16,980 | 14,031 | 16,824 | 6,498 | 10,326 | 76.2 | 85.5 | 67.4 | 18.1 |
| 5 | Sarana(Narharpur) | 40,047 | 22,645 | 17,402 | 27,660 | 10,482 | 17,178 | 69.5 | 80.6 | 59.0 | 21.6 |
| 6 | Antagarh | 24,526 | 14,542 | 9,984 | 26,062 | 10,719 | 15,343 | 60.5 | 71.7 | 49.3 | 22.5 |
| 7 | Koyalibeda | 20,575 | 12,754 | 7,821 | 29,508 | 12,674 | 16,834 | 52.1 | 63.6 | 40.3 | 23.3 |
| District (Rural) Total: | | 202,471 | 115,124 | 87,347 | 155,360 | 62,038 | 93,322 | 68.1 | 78.5 | 58.0 | 20.4 |

Table 28 presents the CD Blockwise number and percentage of Scheduled Tribes, literates and illiterates by sex of the district. The literacy rate of Scheduled Tribe Population of the District (Rural) comes to 68.1. Kanker CD Block has the highest literacy rate 76.2 percent and Koyalibeda CD Block has the lowest literacy rate 52.1 percent. The gap is male/female literacy rate varies from 17.5 percent to 23.3 percent. It is 20.4 percent for the district (Rural).

## TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

| Range of literacy rate for villages | Number of inhabited villages | Percentage distribution of villages | Scheduled Tribes Population | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 0 | 9 | 0.9 | 183 | 0.1 |
| 1-10 | 14 | 1.4 | 1,665 | 0.5 |
| 11-20 | 26 | 2.6 | 3,999 | 1.1 |
| 21-30 | 48 | 4.8 | 11,319 | 3.2 |
| 31-40 | 64 | 6.4 | 13,494 | 3.8 |
| 41-50 | 70 | 7.0 | 18,700 | 5.2 |
| 51-60 | 104 | 10.4 | 32,958 | 9.2 |
| 61-70 | 190 | 19.0 | 79,445 | 22.2 |
| 71-80 | 280 | 28.1 | 122,304 | 34.2 |
| 81-90 | 166 | 16.6 | 67,947 | 19.0 |
| 91-99 | 16 | 1.6 | 5,775 | 1.6 |
| 100 | 11 | 1.1 | 42 | 0.0 |
| District Total: | 998 | 100.0 | 357,831 | 100.0 |
| Literacy rate for District (Rural): | | | | 68.1 |

Distribution of villages by literacy rate range for Scheduled Tribes population of the district (Rural) is presented in this table. The literacy rate of Schedule Tribes population for District (Rural) is 68.1 percent. Accordingly the highest number of villages 280 fall in lieracy rate range of 71-80 percent constituting 28.1 percent of villages having Scheduled Tribe population and 34.2 percent of total Scheduled Tribe population. There is 9 villages which fall in the literacy range of 0 percent and 11 villages have 100 percent literacy rate of the Scheduled Tribe Population.

**TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001**

| Serial number | Name and urban status of Town | Number of literates and illiterates | | | | | | Percentage of literates | | | Gap in male-female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | | | | |
| | | Persons | Males | Females | Persons | Males | Females | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1 | Kanker (UA) | 5,121 | 2,873 | 2,248 | 2,079 | 790 | 1,289 | 81.8 | 89.8 | 73.5 | 16.3 |
| | Kanker (Urban) | 5,121 | 2,873 | 2,248 | 2,079 | 790 | 1,289 | 81.8 | 89.8 | 73.5 | 16.3 |

Table 30 shows the number and percentage of Scheduled Tribes literates and illiterates by sex in towns of the district. The literacy rate of Scheduled Tribes for the District (Urban) works out to 81.8 percent. It is 89.8 percent for males and 73.5 percent for females. Among the Scheduled Tribe Population the gap in male/ female literacy rate of the District (urban) is 16.3 percent.

**TABLE 31 : NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN TAHSILS, 2001**

| Serial number | Name of Tahsil | Persons / Males / Females | Total population | Main workers | | Marginal workers | | Total workers (Main and marginal workers) | | Non workers | |

Table 31 gives the number and percentage of main workers, marginal workers and non-workers by sex at tehsils level in the district as per 2001 Census. The proportion of the total workers works out to 54.1 percent of the total population in the district. The total workers are comprises of 38.8 percent of main workers and 15.3 percent of marginal workers and the remaining 45.9 percent are non-workers.

Among the main workers, males participation rate in the district is 48.3 percent and female participation rate is 29.4 percent. Male and female marginal workers account for 8.7 and 21.8 percent respectively.

Note: Percent of Worker to total worker are given in brackets

It can be seen from the table 34, the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 60.5 percent of the total workers (main + marginal), 24.1 percent of total workers are engaged as agricultural labourers, 1.7 percent as Household industry workers and 13.7 percent of other workers in this district.

The distribution of workers by four categories of economic activity at tahsil shows very high dependence of population on agriculture sector absorbing large number of workers. The proportion of cultivators varies between 48.9 percent in Kanker tahsil and 83.0 percent in Pakhanjur tahsil. These variations within the district may be due to cropping and land holding patterns. The percentage of males cultivators is 63.4 percent as compared to 57.3 percent of female cultivators in the district. The highest proportion of 21.2 percent of other workers is recorded in Bhanupratappur tahsil while the lowest proportion of 6.7 percent is found in Narharpur tahsil.

| | | | | (52.8) | (58.1) | (31.5) | (1.5) | (8.9) |

Note: Percent of Worker to total worker are given in brackets.

Table 35 presents CD Blockwise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers (main + marginal) constitutes 55.1 percent of total population. Among these workers cultivators constitute 62.1 percent, agricultural labourers 24.5 percent, household industry 1.6 percent and other workers constitute 11.8 percent. The proportion of cultivators is highest 83.0 percent in Koyalibeda CD Block and is lowest 49.1 percent in Sarana (Narharpur) CD Block. Proportion of agricultural labour is highest 42.3 percent in Sarana (Narharpur) CD Block and lowest 8.1 percent in Koyalibeda CD Block. It is also seen that the proportion of male workers is more than female workers under the category of cultivators.

**TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS/TOWNS, 2001**

| Serial number | Name and urban status of UA/Town | Persons / Males / Females | Total Population | Total number of workers (Main + Marginal) | Category of workers | | | |

| | | | | (46.9) | (7.1) | (6.9) | (3.2) | (82.8) |
| | | Females | 15,498 | 2,801 | 313 | 584 | 260 | 1,644 |
| | | | | (18.1) | (11.2) | (20.8) | (9.3) | (58.7) |
| 2 | (i) Kanker (M) | Persons | 24,478 | 7,669 | 337 | 285 | 432 | 6,615 |
| | | | | (31.3) | (4.4) | (3.7) | (5.6) | (86.3) |
| | | Males | 12,234 | 5,842 | 236 | 130 | 197 | 5,279 |
| | | | | (47.8) | (4.0) | (2.2) | (3.4) | (90.4) |
| | | Females | 12,244 | 1,827 | 101 | 155 | 235 | 1,336 |
| | | | | (14.9) | (5.5) | (8.5) | (12.9) | (73.1) |
| | District (Urban) Total: | Persons | 31,385 | 10,259 | 844 | 1,101 | 495 | 7,819 |
| | | | | (32.7) | (8.2) | (10.7) | (4.8) | (76.2) |
| | | Males | 15,887 | 7,458 | 531 | 517 | 235 | 6,175 |
| | | | | (46.9) | (7.1) | (6.9) | (3.2) | (82.8) |
| | | Females | 15,498 | 2,801 | 313 | 584 | 260 | 1,644 |
| | | | | (18.1) | (11.2) | (20.8) | (9.3) | (58.7) |

Table 36 presents the distribution of workers by sex in different categories of economic activity for UA/Towns of the district. It is seen that out of 32.7 percent of total workers, cultivators constitute 8.2 percent, agricultural labourers 10.7 percent, household industry 4.8 percent and the highest proportion is covered by other workers which is 76.2 percent. It is also found that proportion of male workers under other workers is more than female proportion whereas proportion of female workers under cultivators, agricultural labourer and Household industry is more than the proportion of males. Town wise analysis shows that the proportion of cultivators, agricultural labourer, Household Industry workers and other workers are highest in Kanker(M).

**(ix) Brief analysis of Village Directory and Town Directory data (table 37-47)**

Analysis based on Village Directory and Town Directory data pertaining to census 2001 are presented in the form of Inset tables from 37-47. Alongwith the census data 'Non-Census' data such as village amenity and town amenity data was collected during census 2001. These tables give the number of total villages, proportion of population served by different amenities, availability of amenities by distance, proportion of slum population in towns etc. A short analytical note is also given below of each table.

**TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001**

| Serial number | Name of C. D. block | Number of inhabited villages | Type of amenity available | | | | | | | | | |

| | District Total: | 1,068 | 949 | 93 | 955 | 142 | 30 | 90 | 25 | 27 | 327 | 849 |
| | | (100) | (88.9) | (8.7) | (89.4) | (13.3) | (2.8) | (8.4) | (2.3) | (2.5) | (30.6) | (79.5) |

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 deals with the CD block-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village.

Out of 1,068 inhabited villages in the district 949 villages or 88.9 percent has been provided with the education facilities of one type or the other. Similarly 93 villages in the district constituting 8.7 percent have medical facilities of one type or the other. Improved drinking water facility is available in 955 or 89.4 percent villages. As regards, post office facility which includes facilities like telegraph office and post and telegraph, 142 villages constituting 13.3 percent of villages have been provided with post office facility within the villages. 30 or 2.8 percent villages have been provided with the telephone facility, 90 or 8.4 percent with transport facility, 25 or 2.3 percent villages with bank facility and 27 or 2.5 percent with agricultural credit societies. Similarly there are 327 or 30.6 percent villages which are linked with the pucca road. Total 849 or 79.5 percent of villages are provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at CD block has been found with slight variation. Charama CD. block has the highest 98.0 percent villages where educational facility is available and lowest 80.1 percent is found in Koyalibeda CD Block. Medical facility is highest in Sarana (Narharpur) (14.3 percent) and lowest (4.2 percent) in Antagarh CD block. Improved drinking water is highest available 99.0 percent in Charama CD Blocks respectively and lowest in Antagarh is 73.5 percent. Telephone facility is highest in Bhanupratappur CD Block (7.2 percent) and lowest is (0.7 percent) in Koyalibeda CD block. In the field of power supply all villages have been covered except 210 villages in the district

**TABLE 38 : NUMBER AND PER CENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001**

| Serial number | Name of C. D. block | Total population of inhabited villages | Type of amenity available | | | | | | | | | |

| | District Total: | 619,549 | 605,794 | 121,764 | 577,449 | 178,405 | 62,233 | 103,766 | 50,209 | 58,706 | 284,021 | 568,385 |
| | | (100) | (97.8) | (19.7) | (93.2) | (28.8) | (10.0) | (16.7) | (8.1) | (9.5) | (45.8) | (91.7) |

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different kind of amenities. Out of total rural population of 619,549 persons in the district, 605,794 or 97.8 percent have educational facility of one or the other type. Similarly 121,764 or 19.7 percent population has medical facilities while 577,449 or 93.2 percent have got improved drinking water facility. Post office facilities are available to 178,405 or 28.8 percent population. Telephone facility is available to 62,233 or 10.0 percent. Transport communications facility is available to 103,766 or 16.7 percent. Bank facility is available to 50,209 or 8.1 percent. 58,706 or 9.5 percent have been provided with the facility of agricultural credit societies. 284,021 or 45.8 percent have been provided with the facility of approach by pucca road. Power supply is available to 568,385 or 91.7 percent rural population in the district. Similar pattern of availability of facilities is visible to the rural population in different CD blocks.

**TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVIG CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001**

| Village not having the amenity of | Distance range of place from the villages where the amenity is available | | | |
|---|---|---|---|---|
| | Less than 5 kilometres | 5-10 kilometres | 10+ kilometres | Total (Col. 2 - 4) |
| 1 | 2 | 3 | 4 | 5 |
| 1. Education :- | | | | |
| (a) Primary School | 88 | 16 | 15 | 119 |
| (b) Middle School | 498 | 278 | 83 | 859 |
| (c) Degree College | 31 | 93 | 942 | 1,066 |
| 2. Medical:- | | | | |
| (a) Hospital | 106 | 206 | 748 | 1,060 |
| (b) PHC | 108 | 241 | 692 | 1,041 |
| 3. Post Office | 461 | 320 | 145 | 926 |
| 4. Telephone | 111 | 213 | 714 | 1,038 |
| 5. Bus Service | 220 | 321 | 443 | 984 |
| 6. Banks | | | | |
| (a) Commercial Bank | 108 | 355 | 594 | 1,057 |
| (b) Cooperative Bank | 129 | 267 | 654 | 1,050 |
| 7. Agricultural Credit Societies | 169 | 316 | 556 | 1,041 |

Table 39 presents distribution of villages not having certain amenities within the village at district level. Such villages have been presented according to various distance ranges in this table. 119 villages do not have primary school and out of these villages, children of 88 villages have to travel less than 5 kms. for schooling Out of 1,068 inhabited villages as many as 859 are deprived of middle school and 1,066 of degree college. Of these 498 avail the facility of middle school at a distance of less than 5 kms., 278 at a distance 5-10 kms. and the remaining 83 at a distance of 10+ kms. In respect of degree college 31 avail this facility at a distance of less than 5 kms., 93 between 5 to 10 kms. and rest 942 villages at a distance of 10+ kms.

Similarly there are 1,060 villages in the district which have been devoid of Hospital facility and 1,041 villages which are deprived of PHC facilities. Of these 106 villages have the facility of Hospital available within 5 kms. while in respect of 206 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number i.e. 748 villages have this facility at a distance of 10+ kms. As regards PHC 108 avail this facility at a distance of less than 5 kms., 241 at a distance of 5-10 kms. and the remaining 692 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 926 villages do not have this facility in the village itself. Of these majority i.e. 461 have this facility at a distance of less than 5 kms., another 320 villages avail it at a distance of 5-10 kms. In the remaining 145 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 1038 villages in the district which are without telephone facilitiy. Of these 111 avail this facility at a distance of less than 5 kms., 213 at a distance of 5-10 kms. and remaining 714 have to traverse a distance of 10+ kms.

For Bus service out of 984 villages which do not have facility, 220 villages avail this facility at a distance of less than 5 kms., 321 at a distance between 5-10 kms. and 443 at a distance of 10+ kms.

In the entire district 1057 villages are deprived of Commercial Bank and 1050 of Co-operative Bank. Of these 1,057 villages which are deprived of Commercial Banks 108 villages avail this facility at a distance of less than 5 kms., 355 between 5-10 kms. and the remaining 594 at a distance of 10+ kms. Regarding Co-operative Banks out of 1,050 villages 129 villages avail this facility at a distance of less than 5 kms., 267 at a distance of 5-10 kms. and remaining 654 at a distance of 10+ kms. 1,041 villages do not have agricultural credit societies. This facility to 169 villages is available at a distance of less than 5 kms., 316 at a distance of 5-10 kms. and the remaining 556 at a distance of 10+ kms.

**TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDIG TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001**

| Distance range from the nearest statutory town ( in kilometres) | Number of inhabited villages in each range | Type of amenity available | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | | Education | Medical | Post Office | Telephone | Transport communica-tions | Banks | Agricultural Credit Societies | Approach by pucca road |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |

# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 1,068 inhabited villages in the district, there are 15 villages which have nearest towns upto a distance of 5 kms. Of these only 15 villages forming cent percent of total villages, are having the educational facilities atleast one type. In the range of less than 5, Medical, Telephone, Transport communications and agricultural credit societies facilities are not available. 1 or (6.7) percent facility are same in post office and bank. 5 villages comprising 33.3 percent have been provided with pucca road within the distance of 5 km.

There are 59 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 58 villages constituting 98.3 percent have been provided with the educational facilities. 6 villages comprising 10.2 percent have been provided with medical facilities. 13 villages constituting 22.0 percent enjoy the post office facility. 5 villages comprising 8.5 percent have been provided the telephone facility. 9 villages constituting 15.3 percent have been linked with

transport communications. 1 villages comprising 1.7 percent have bank facility. 3 villages constituting 5.1 percent are having agricultural credit societies, while 27 villages or 45.8 percent are approachable by pucca road. 409 villages fall in the distance range of 16-50 kms. Of these, 93.6 percent villages have educational facility, 9.8 percent with medical, 16.6 percent with post office, 4.2 percent with telephone and transport and communications available to 11.5 percent villages. Banks and agricultural credit societies facilities are available to 3.4 and 3.2 percent of villages.151 villages comprising 36.9 percent have been provided with pucca road within the distance of 16-50 km.

There are 564 inhabited villages in the district range of 51+ kms. Of these 480 villages constituting 85.1 percent have been provided with the educational facilities. 47 villages comprising 8.3 percent have been provided with medical , 58 villages constituting 10.3 enjoy the post office facility. 8 village comprising 1.4 percent have been provided the telephone facility. Transport and communications available to 6.0 percent villages. Banks and agricultural credit societies facilities are available to 1.6 and 2.0 percent of villages.143 villages comprising 25.4 percent have been provided with pucca road within the distance of 51+ km.

**TABLE 41 : DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001**

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In Kanker district out of a total 1,068 inhabited villages, overwhelming 624 have a population of less than 500 persons. Of these, 505 villages (80.9 percent) have education facility, 21 (3.4 percent) have medical facility, 531 (85.1 percent) have improved drinking water facility. 28 villages (4.5 percent) have post office facility. 3 (0.5 percent) have telephone facility. 24 (3.8 percent) have been linked by bus service. 3 (0.5 percent) have Bank facility and 4 (0.6 percent) agricultural credit societies, 131 village (21.0 percent) have been linked with pucca road. 425 villages (68.1 percent) have been provided with electricity.

Out of 283 villages, which fall in the population range of 500-999 persons, 283 villages cent percent

have been provided with the education facility, 29 (10.2 percent) with medical facility, 272 (96.1 percent) villages have improved drinking water facility. 38 villages (13.4 percent) have been provided with post office facilities, 8 villages (2.8 percent) with telephone facility, 30 villages (10.6 percent) with transport facilities, 4 village (1.4 percent) with bank facility. 3 villages (1.1 percent) agricultural credit societies. 95 villages (33.6 percent) have approach by pucca road. 266 villages (94.0) in this range have electricity.

139 villages fall in population range of 1,000-1,999 persons. Of these 139 villages (100.0 percent) have been provided with the education facility, 29 (20.9 percent) with medical facility, 132 (95.0 percent) villages have improved drinking water facility. 61 villages (43.9 percent) have been provided with post office facilities, 8 villages (5.8 percent) with telephone facility, 27 villages (19.4 percent) with transport facilities, 10 villages (7.2 percent) with bank facility, 10 villages (7.2 percent) with agricultural credit societies and 82 villages (59.0 percent) have approach by pucca road. 136 villages (97.8 percent) in this range have electricity.

There are 19 villages in the district which are covered under 2,000-4,999 population range. Of these, 19 villages (100 percent) have been provided with the education facility, 11 (57.9 percent) with medical facility, 18 (94.7 percent) villages have improved drinking water facility. 12 villages (63.2 percent) have been provided with post office facilities, 8 villages (42.1 percent) with telephone facility, 7 villages (36.8 percent) with transport facilities, 6 villages (31.6 percent) with bank facility, 7 villages (36.8 percent) with agricultural credit societies and 16 villages (84.2 percent) have approach by pucca road. 19 villages (100.0 percent) in this range have electricity.

There are 3 villages in the district which are covered under 5,000-9,999 population range. The villages are provided with all types of amenities. There is no village in the population range of more than 10,000 and it has all the amenities available.

**TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001**

| Serial number | Name of C. D. block | Number of inhabited villages | Total area | Percentage of cultivable area to total area | Percentage of irrigated area to total cultivable area |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Charama | 98 | 48,305 | 61.7 | 14.9 |
| 2 | Durgkondal | 150 | 62,947 | 50.9 | 0.2 |
| 3 | Bhanupratappur | 111 | 60,014 | 48.1 | 2.4 |
| 4 | Kanker | 100 | 45,249 | 60.8 | 12.1 |
| 5 | Sarana(Narharpur) | 119 | 63,698 | 52.2 | 3.4 |
| 6 | Antagarh | 189 | 70,344 | 44.3 | 1.6 |
| 7 | Koyalibeda | 301 | 120,167 | 32.1 | 8.6 |
| | District Total: | 1,068 | 470,724 | 47 | 6.1 |

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 presents CD blockwise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 1,068 inhabited villages in the district having a total area of 470,724 hectares. Of this, 47.0 percent is cultivable and 6.1 percent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State Government. It is seen that percentage of cultivable area to total area is highest 61.7 percent in Charama CD Block. It is lowest 32.1 percent in Koyalibeda CD Block. The percentage of irrigated area to cultivable area is highest 14.9 percent in Charama and lowest 0.2 in Durgkondal CD Block.

**TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS**

| Serial number | Class, name & urban status of the Town | Per capita receipt | | | Per capita expenditure | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | | Total | Through taxes | From all other sources | Total | General Administration | Public health and conveniences | Public works | Public institutions | Other(s) |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 |
| 1 | III Kanker (M) | 394 | 133 | 260 | 452 | 105 | 49 | 208 | 1 | 90 |
| District Total | | 394 | 133 | 260 | 452 | 105 | 49 | 208 | 1 | 90 |

The table 43 gives the per capita receipts and expenditure ( in rupees) for each town in the district. The average per capita receipts for towns of the district Kanker works out to Rs. 394 of which Rs.133 are derived through local taxes and the remaining Rs. 260 is received from all other sources. The average of total expenditure incurred per capita is Rs. 452. Out of this Rs.105 are spent on general administration, Rs. 49 on public health and conveniences, Rs. 208 on public works, Rs. 1 on public institutions and Rs.90 is spent on other items.

**TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001**

| Serial number | Name and urban status of Town | Type of educational institution | | | | |
|---|---|---|---|---|---|---|
| | | Primary | Junior Secondary / Middle | Secondary / Matriculation | Senior Secondary | College |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Kanker (M) | 9.6 | 4.8 | 1.9 | 1.3 | 0.6 |
| | District Total | 9.6 | 4.8 | 1.9 | 1.3 | 0.6 |

In urban areas of Kanker district the average number of primary school per 10,000 population comes 9.6 schools, 4.8 junior secondary/middle, 1.9 secondary/matriculation, 1.3 senior secondary schools and the ratio of colleges is only 0.6 college per 10,000 population.

**TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001**

| Serial number | Name and urban status of the Town | Number of beds in medical institutions per 10,000 population |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Kanker(M) | 41 |
| | Distrct Total | 41 |

Table 45 depicts the number of beds available in medical institutions per 10,000 population in each town of Kanker district. On an average there are 41 beds per 10,000 population in urban areas of the district.

**TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001**

| Serial number | Name of the Town | Total population | Slum population | Percentage of slum population to total population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Kanker | 31,385 | 8,800 | 28 |
| District Total | | 31,385 | 8,800 | 28 |

Table 46 presents the proportion of slum population in the towns of the district. Out of the total 31,385 urban population 8,800 persons constitute slum population which is 28.0 percent of total urban population.

**TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001**

| Serial number | Name and urban status of Town | Most important commodity | |
|---|---|---|---|
| | | Manufactured | Exported |
| 1 | 2 | 3 | 4 |
| 1 | Kanker (M) | Bidi<br>Bricks<br>Rice | Forest Product<br>Rice<br>Tamarind |

Table 47 indicates most important articles manufactured and exported out of each town in the district. The district is well known for rice production which is exported from Korba towns. The other commodities manufactured are Bidi, Bricks. Rice, Forest product,Tamarind important commodities which are exported by different towns.

**(x) Brief analysis of the data on houses and household amenities, Houselisting Operations, Census of India 2001 based on Inset tables 48-52**

Inset tables 48-52 are based on Houselisting data pertaining to Census 2001.These tables reflect the tenure status, distribution of households living in permanent, semi-permanent and temporary houses, percentage of households having different amenities and percentage of households by type of fuel used for cooking.

**TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001**

| District total | | 126,336 | 120,034 | 6,302 | 7,083 | 6,482 | 601 | 69,312 | 67,978 | 1,334 |

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

The data presented in the Table 48 depicts number of households by tenure status and number of rooms occupied in the district. The total number of households in the district stands at 126,336 consisting of 120,034 rural and 6,302 urban households. 7,083 households belong to Scheduled Castes and 69,312 to Scheduled Tribes. 116,880 households are living in their owned houses constituting 92.51 percent of total households. Of these households, the largest number of households (21,912) have occupied single roomed accommodation and is followed by double roomed accommodation numbering to 43,309 households. Next position is

claimed by households (25,340) occupying three plus roomed accommodation. Number of households in owned accommodation occupying three rooms rank at fourth place with 25,208 households while 1,111 households are without any exclusive room.

6,405 households living in rented accommodation account for 5.06 percent of total number of households in the district. The largest number of 2,423 households are living in two roomed accommodation followed by 1,987 households in one room accommodation. Next position is claimed by households (1,479) occupying three room accomodation. Households with three plus are 451 and no exclusive room are small in numbers.

Other households numbering to 3,051 forming only 2.41 percent of total households are distributed in single roomed accommodation numbering 1,333. 933 double roomed and 462 in three roomed accommodation. Households with three plus are 217 and no exclusive room are small in numbers.

**TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI-PERMANENT AND TEMPORARY HOUSES, 2001**

| Serial number | District/ Tahsil | Total | | | Rural | | | Urban | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | | Permanent | Semi-permanent | Temporary | Permanent | Semi-permanent | Temporary | Permanent | Semi-permanent | Temporary |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 |
| 1 | Charama | 8.7 | 90.6 | 0.7 | 8.7 | 90.6 | 0.7 | 0.0 | 0.0 | 0.0 |
| 2 | Bhanupratappur | 5.2 | 94.5 | 0.3 | 5.2 | 94.5 | 0.3 | 0.0 | 0.0 | 0.0 |
| 3 | Kanker | 18.4 | 81.1 | 0.4 | 4.3 | 95.4 | 0.4 | 52.9 | 46.6 | 0.6 |
| 4 | Narharpur | 4.5 | 95.3 | 0.3 | 4.5 | 95.3 | 0.3 | 0.0 | 0.0 | 0.0 |
| 5 | Antagarh | 2.8 | 94.2 | 3.0 | 2.8 | 94.2 | 3.0 | 0.0 | 0.0 | 0.0 |
| 6 | Pakhanjur | 9.6 | 85.0 | 5.4 | 9.6 | 85.0 | 5.4 | 0.0 | 0.0 | 0.0 |
| | District Total: | 8.6 | 89.8 | 1.7 | 6.2 | 92.0 | 1.7 | 52.9 | 46.6 | 0.6 |

The data presented in the Table 49 reveals that 8.6 percent of household of the district are living in houses made of pucca materials, residences of 1.7 percent households are temporary houses.89.8 percent households are semi-permanent houses.

District-wise percentage in urban areas indicates that majority of households i.e. 52.9 percent are living in houses constructed of pucca materials, 46.6 percent in semi-permanent structure and percentage of households in temporary houses is 0.6 constructed of kutcha materials. At rural level, the lowest percentage of 2.8 households occupy permanent structure is found in Antagarh while highest percentage of 9.6 is seen in Pakhanjur tahsil .The proportion of semi-permanent houses is high in Kanker (95.4) and lowest in Pakhanjur (85.0) tahsil. The proportion of temporary houses is quite low in all tehsils and highest is 5.4 percent in Pakhanjur followed by Antagarh (3.0) tahsil, Charama (0.7), Kanker (0.4) tehsils, Bhanupratappur and Narharpur (0.3).

## TABLE 50 : PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note: Percentage is to be given in brackets after the number of households.Bathroom means bathroom within the house. Toilet means toilet within the house. Drainage menas closed and open drainage.

Table 50 indicates that 56.8 percent households in the district have been provided with improved drinking water supplied from a tap or a hand-pump/tube-well, 49.8 percent households have provision of electricity in their houses. The bathroom facility is available to only 6.5 percent households within their premises. As regards rural areas, 4.3 percent households are having bathroom facility, whereas this proportion in urban areas comes to 49.3 percent. 48.2 percent rural households have facility of electricity against 80.3 percent in urban areas. Toilet and drainage facilities in the district are available to 10.0 percent and 7.7 percent households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at tahsil level is almost conforms to the district pattern analysed.

Percentage in brackets

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

The percentage distribution of households by type of fuel used for cooking purposes is given in Table 51. There are nine types of fuel used for which data have been presented in the table. It is observed that wood is used as the most predominant fuel used for cooking by 93.8 percent households in the district. In the tehsils, this proportion varies between 84.8 percent in Kanker and 97.4 percent in Antagarh tahsil. In rural areas use of wood for cooking is very high while in urban areas it is used by less of population due to availability of L.P.G. The next cooking fuel is L.P.G which is used by 2.9 percent households in the district. This proportion in urban and rural areas is 1.4 and 31.1 percent respectively. In rural areas use of gas for cooking is very low as compared to urban areas at tahsil level. There are 0.6 percent households using crop residue in the district. Use of crop residue for cooking by rural households comes to 0.6 percent while in urban areas its proportion is only 0.8 percent. There are 1.7 percent households using kerosene in the district. Use of kerosene for cooking by urban households comes to 9.9 percent while in rural areas its proportion is only 1.2 percent, as a whole. The percentage of households using other types of fuel such as crop residue, cow dung cakes, electricity, coal, biogas etc. is insignificant. Firewood is the predominant cooking fuel in both the rural and the urban area of the district.

Data source: Census of India 2001, H-series: Table on Houses, Household amenities and Assets.

This table presents data for total, rural and urban areas at district and tahsil level about households availing banking services and possession of assets such radio/transistor, telephone, bicycle, scooter and car etc. by the households. There are 126,336 households in the district and among them, 31,412 households have been availing banking services. 29,864 households have Radio/Transistor. Television is possessed by 17,639 households. Telephone is available in 1,959 households. Bicycle is the most common means of transportation and is available in 86,771 households. Scooter, Motor cycle, Moped and Car, Jeep, Van are used by 7,836 and 865 households respectively. The picture in use of banking services and possession of assets by households at tahsil level is almost similar as analysed above for the district as a whole.

**(xi) Major Social and cultural events, natural and administrative developments and significant activities during the decade.**

1. Bastar district was constituted in 1948. It was divided on 25.5.1998 into Kanker and Dantewara districts.
2. Bastar district was the biggest in area in undivided Madhya Pradesh. Now it is in third place within Chhattisgarh State. Areawise Kanker occupies 14th place in the state.
3. In 2001, due to excessive rainfall (2,157.3 mm.), hundreds of buildings, small as well as big bridges, roads, canals, coasts and ponds of the district were destroyed. Thus 691 buildings were completely destroyed and 1240 buildings were partly destroyed by floods in the district and about 71,214 people were affected.

**(xii) Brief description of places of religious, historical or archaeological importance in villages and places or tourist interest in the town of the district.**

Kanker is famous for many ancient temples. Main temples are Raj Sabaktha, Jagannath temple, Balaji temple, Laxmi-Narayan temple, Kankalin Mata temple, Sheetla Mata temple and Jogi caves. There is Sinhwahini Devi's ancient temple who is the Awtar of Durga and Kali.

The highest place of this district is "Gadiya Pahar" which is famous as Kila-Dungri. There is famous pond known as "Sonai-Rupai" nearby. In Gadiyapahar, Kanker, every year on Shivaratri festival, a fair for 5 days is organised. In addition, 5 days in Charama, 4 days in Narharpur, 3 days in Lakhpuri and 7 days in Sarona. Fairs are organised every year.

Paralkot area is the area where Bengali refugees from East Pakistan are rehabilitated in Project villages. The project is known as "Dandakaryan Project". Main tourist places of attraction which attract the tourists are waterfall of Charre-Marre and beautiful waterfall at Dudh river.

**(xiii) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.**

Antagarh, Raoghat and Koelibera Development Blocks have main naxalite centers. The district, which is rich in original primitive culture, high mountains, inaccessible thick forests where till noon sunrays do not penetrate, the people are terrified with the violent activities of the Naxalites, which is a hinderance to the development of the region. For consolidated and fast development of the district should be rooted out of black and horrified shadow of Naxalites. A conserted and useful effort should be made in it.

Many tribes live in this district in which main are Gohr and Halba. Chhattisgarhi is the main dialect of this Tribal dominant district. Behaviour of the people is easy, simple and living is simple. They believe in superstitions, Jadoo-tona, Jhar-Phoonk and the lowest level of mysterious tamsi power and Murkati, Bhangha, Mirchuk, Badhwa Masan, Agia Betaland Baram-Rasas are their main Aradhya Dev.

Specialities of the district are Kanger valley, border Raksha Mountain Ranges, Keshkal valley and Charre-Marre waterfall on Dudh river which can be crossed.

**(xiv) Scope of Village Directory and Town Directory**

**Village Directory :**

The Village Directory is one of the traditional compilations of the census organisation and provides the consolidated picture of each village as revealed by the availability of existing amenities, land use pattern, composition of its population and other infrastructural details. This will be of immense help to identify the areas of surplus and deficit requiring

the attention of planners and administrators for rescheduling the development process in appropriate direction. The format of village directory has 25 columns providing village-wise data of location, area, population, land use pattern and amenities etc.

**The details of each column of village directory are explained as below :**

Column-1 Serial number of the village is indicated in this column.

Column-2 gives the name of the village and permanent location code number (PLCN) assigned to each village in serpentine manner from north-west to south direction and is essential for identification of village. The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tahsil of first district of the state to the last village of last tahsil of the last district. In the state of Chhattisgarh first PLCN 00000100 has been assigned to village 'BADWAHI' in Bharatpur tahsil of Koria district which happens to be first village, tahsil and district while the last PLCN of 02030800 has been assigned to the last village 'SINKAWAYA' of the state in Konta tahsil of Dantewara district which happen to be last as per procedure adopted for assigning location code number. The district census handbook of 1991 Census as well as updated district and tahsil maps and services of local revenue officers/ officials have been used to assign the PLCN to the villages. The last two zeros will be used if new villages are created out of existing villages in subsequent census. Before 2001 census, village location code number used to change from one census to other due to change in jurisdictions or creation of villages or merger of villages in urban areas. The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective Tehsildar of each tahsil.

Column-3 shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns – 4 and 5 gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in the village.

Columns 6 to 9 deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure the accuracy of information provided. In such cases where no facility is available within a village, a dash ( - ) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, so as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained separately in the subsequent section. The list of colleges, senior secondary schools, hospitals, post and telegraph offices in the district as obtained from the concerned departments are also added in the form of annexures at the end.

Column-10 shows the number of banks – Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11 relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12 shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/auditorium facility available in the villages.

Column-13 Indicates the type of communications amenities such as by bus, railway or navigable waterway available to the village.

Column-14 refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15 gives the information of the nearest town and its distance in Kms. from the village in

brackets from the referent village. In case, the nearest town is located in another state, the name of the state has also been furnished.

Column-16 relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17 gives the information as to whether newspapers/magazines are received in the village.

Column-18 gives the information of most important commodities manufactured in the village.

Columns- 19 to 23 give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories. These are as follows :

i) Forests
ii) Irrigated
iii) Unirrigated
iv) Culturable waste (including Gauchar and Groves)
v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or private and whether wooded or maintained as potential forest land. The crops raised in the forests and grazing lands or areas open for grazing within the forest is also included under the forest area.

Column 20 and 21 shows area irrigated by different sources of irrigation and un-irrigated area. These two columns cover all agricultural land which equals to net cropped area sown with crops and orchards including current and other fallow lands. In case of irrigated land, the source of irrigation has also been indicated.

Column-22 Culturable waste : This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Lands under thatching grasses, bamboo bushes and other groves for fuel etc., which are not included under orchards or forests come under this column. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column.

Column- 23 Area not available for cultivation : This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water etc. Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost.

**Town Directory :**

Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information.

**Statement-I Status and Growth History :**

The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001. Civic administration status of each town is shown under column 2 and Location Code number in column 3 whereas column 4 indicates the name of tahsil/sub-tahsil to which town belongs. While column 5 shows the name of C.D.Block, area of each town in sq. kms. is depicted under column 6 column 7 deals

with the number of households including houseless households as per the 2001 Census. Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001. Column 19 of the statement shows density of towns as per the 2001 Census. Columns 20 to 22 depict the sex ratio from 1981 to 2001 Census.

**Statement-II Physical Aspects and Location of Towns, 1999**

In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5. Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tahsil/sub-tahsil headquarters. Column 9 shows the name of nearest city with population of one lakh or more and columns 10 to 12 give information regarding name and road distance of the nearest railway station, bus route, navigable river/ canal (if within 10 Kms.)

**Statement-III Municipal Finance, 1998-99**

This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads. There are in all 16 columns in the statement showing receipt and expenditure under different heads.

**Statement IV Civic and Other Amenities, 1999**

The statement displays the information under 20 columns. The amenities about which information has been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage and other related matters such as water supply, fire fighting services and electrification etc.

**Statement-V Medical, Educational, Recreational and Cultural Facilities, 1999**

This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution. Educational facilities by level/type of courses and recreational and cultural facilities.

**Statement-VI Trade, Commerce, Industry and Banking, 1999**

This statement presents the information under 11 columns in respect of each town. Columns 3 to 8 indicate three most important commodities imported, exported and manufactured in the town. Information on number of banks available in the town appears under column 9. Columns 10 and 11 shows number of agricultural and non-agricultural credit societies operating in each town respectively.

**Statement-VII Civic and other amenities in Slums, 1999**

This Statement gives the information relationg to civic and other amenities in respect of slum areas of towns, where the population exceeds 50,000 as per 2001 census. The codes used in col. 8 and 13 are the same as for statement IV.

# PART A - VILLAGE AND TOWN DIRECTORY

# Section I - Village Directory

**(a) Notes explaining the abbreviations used in Village Directory**

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages ( villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

**Columns 1 : Serial Number**

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

**Columns 2 : Name and Location Code Number of village.**

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

**Column 3 : Area of the village**

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

**Column 4 : Total population**

The total population of the village as per 2001 Census is given against this column.

**Column 5 : Number of households**

The number of households as per 2001 Census is given in this column.

**Amenities :**

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post office, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of th e nearest place where the facility is available is given. Column wise details are given below :

**Column 6 : Educational**

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

| | | |
|---|---|---|
| (i) | Primary School | P |
| (ii) | Middle School | M |
| (iii) | Secondary School | S |
| (iv) | Senior Secondary School | PUC |
| (v) | College | C |
| (vi) | Industrial School | I |
| (vii) | Training School | Tr |
| (viii) | Adult literacy class/centre | AC |
| (ix) | Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, | O etc. |

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

**Column 7 : Medical**

Availability of medical facility within the village is indicated by following codes :

| | | |
|---|---|---|
| (i) | Allopathic Hospital | H |
| | Ayurvedic Hospital | HA |
| | Unani Hospital | HU |
| | Homeopathic Hospital | H Hom |
| (ii) | Allopathic Dispensary | D |
| | Ayurvedic Dispensary | DA |
| | Unani Dispensary | DU |
| | Homeopathic Dispensary | D Hom |
| iii) | Maternity & Child Welfare | MCW |
| (iv) | Maternity Home | MH |
| (v) | Child Welfare Centre | CWC |
| (vi) | Health Centre | HC |
| (vii) | Primary Health Centre | PHC |
| (viii) | Primary Health Sub-Centre | PHS |
| (ix) | Family Welfare Centre | FWC |
| (x) | T.B. Clinic | TB |
| (xi) | Nursing Home | NH |
| (xii) | Registered Private Medical Practitioner | RMP |
| (xiii) | Subsidised Medical Practitioner | SMP |
| (xiv) | Community Health Worker | CHW |
| (xv) | Others | O |

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

**Column 8 : Drinking Water**

The type of the drinking water supply sources available within the village are indicated by codes as follows :

| | | |
|---|---|---|
| (i) | Tap Water | T |
| (ii) | Well Water | W |
| (iii) | Tank Water | TK |
| (iv) | Tubewell Water | TW |
| (v) | Handpump | HP |
| (vi) | River Water | R |
| (vii) | Canal | C |
| (viii) | Lake | L |
| (ix) | Spring | S |
| (x) | Others | O |
| (xi) | Summer Source | SS |

**Column 9 : Post, Telegraph and Telephone**

It is indicated by codes as shown below whether within the village exists the following amenities:

| | | |
|---|---|---|
| (i) | Post Office | PO |
| (ii) | Telegraph Office | TO |
| (iii) | Post & Telegraph Office | PTO |
| (iv) | Telephone Connection | PH |

**Column 10: Commercial and Co-operative Banks**

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

| | | |
|---|---|---|
| (i) | Commercial Bank | CM |
| (ii) | Co-operative Bank | CP |

**Column 11: Credit Societies**

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural

Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

| | | |
|---|---|---|
| (i) | Agricultural Credit Society | ACS |
| (ii) | Non- Agricultural Credit Society | NCS |
| (iii) | Other Credit Society | OCS |

**Column 12 : Recreational and cultural facilities**

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

| | | |
|---|---|---|
| (i) | Cinema / Video Hall | CV |
| (ii) | Sports Club | SP |
| (iii) | Stdium / Auditorium | ST |

**Column 13 : Communications**

If the village is served by any mode of public /private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

| | | |
|---|---|---|
| (i) | Bus | BS |
| (ii) | Railway Station | RS |
| (iii) | Navigable Waterway | NW |

**Column 14 : Approach to village**

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

| | | |
|---|---|---|
| (i) | Paved Road | PR |
| (ii) | Mud road | MR |
| (iii) | Foot path | FP |
| (iv) | Navigable River | NR |
| (v) | Navigable Canal | NC |
| (vi) | Navigable waterways other than River, Canal | NW |

**Column 15 : Nearest Town and distance**

The distance is given in kilometers in brackets against the name of the town nearest to the village.

**Column 16 : Power supply**

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

| | | |
|---|---|---|
| (i) | Electricity for domestic use | ED |
| (ii) | Electricity for agricultural use | EAG |
| (iii) | Electricity for other purposes | EO |
| (iv) | Electricity for all purposes | EA |

**Column 17 : News Paper / Magazine**

If village receives any News Paper/Magazines the same is noted in this column using following codes :

| | | |
|---|---|---|
| (i) | News Paper | N |
| (ii) | Magazine | M |

**Column 18 : Most important commodities manufactured**

The name of three most important commodities manufactured in the village is recorded against this column.

**Column 19 to 23 : Land use i.e. area under different types of land use**

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

| | | |
|---|---|---|
| (i) | Government Canal | GC |
| (ii) | Private Canal | PC |
| (iii) | Well (without electricity) | W |
| (iv) | Well (with electricity) | WE |
| (v) | Tubewell(without electricity) | TW |
| (vi) | Tubewell(with electricity) | TWE |
| (vii) | Tank | TK |
| (viii) | River | R |
| (ix) | Lake | L |
| (x) | Waterfall | WF |
| (xi) | Others | O |
| (xii) | Total | |

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities

available in villages C D Block wise of the district.

Appendix-I-A Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages C D Block wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages C D Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A The appendix shows the list of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B The appendix shows the list of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix-VIII Shows number of different types of girls school in a village.

**(b) List of Villages merged in towns and outgrowths at 2001 Census**

| Name of the District | Name of Town | Name of Villages merged in towns | Fully/Partly Merged |
|---|---|---|---|
| Kanker | | Govindpur | |
| | | Thelkahod | |
| | | Kanker | |
| | | Pandripani | |
| | | Singarbhat | |
| | | Kodabhat | |

**(c) CD blockwise presentation of Village Directory Data**

**(i) CD Block Maps showing Tahsil Boundary :**

## (ii) Alphabetical list of Villages alongwith location code 1991 and 2001

**Name of the District : Kanker**

| Serial No. | Name of village | 2001 Census location code number | 1991 Census location code number |
|---|---|---|---|
| 1 | 2 | 3 | 4 |

& phone facility. Phone is available within 30 villages. 84 villages out of 1068 inhabited villages have bus service and there is no village have railway satation & Navigable waterway facility. As regards banking services, it is available within 25 villages having 31 branches of commercial and co-operative banks in rural areas of the district. Power supply is available to 849 villages while 219 villages do not have electricity. There are 30 agricultural credit societies in 27 villages and 6 villages have 9 non-agricultural credit society while 13 villages have 15 other credit societies in the district. As regards the availability recreational facility in the district, 10 villages have cinema/video hall and only in 1 village have sports club, 2 village have stadium/auditorium/community hall. Newspaper is available in 233 villages in the district. Magzine facility is available in 91 villages. Newspaper and Magzine facilities are available in 87 villages.

## APPENDIX I A - VILLAGE DIRECTORY

## VILLAGES BY NUMBER OF PRIMARY SCHOOL

**NAME OF THE DISTRICT : KANKER**

| Serial number | Name of C.D. block | Total number of inhabited villages | Number of primary schools | | | | |
|---|---|---|---|---|---|---|---|
| | | | None | One | Two | Three | Four+ |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| 1 | Charama | 98 | 2 | 69 | 18 | 5 | 4 |
| 2 | Durgkondal | 150 | 18 | 127 | 4 | 1 | 0 |
| 3 | Bhanupratappur | 111 | 3 | 86 | 15 | 5 | 2 |
| 4 | Kanker | 100 | 6 | 75 | 16 | 3 | 0 |
| 5 | Sarana(Narharpur) | 119 | 4 | 94 | 15 | 6 | 0 |
| 6 | Antagarh | 189 | 26 | 149 | 8 | 3 | 3 |
| 7 | Koyalibeda | 301 | 60 | 222 | 14 | 4 | 1 |
| District Total: | | 1,068 | 119 | 822 | 90 | 27 | 10 |

Appendix I-A deals with C.D. block-wise villages by number of primary schools. There are 119 villages in the district which are devoid of primary school facilities. 822 villages in the district have equal number of primary schools i.e. one primary school in each village. Incase of villages having at least 2 schools each, there are 90 villages. In case of villages having 3 schools each, there are 27 villages in this category. Lastly, there are 10 villages in the category of four & above schools.

## APPENDIX I B - VILLAGE DIRECTORY

## VILLAGES BY PRIMARY, MIDDLE AND SECONDARY SCHOOLS

**NAME OF THE DISTRICT : KANKER**

| Serial number | Name of C. D. block | Total number of inhabited villages | Type of educational institutions available | | | |
|---|---|---|---|---|---|---|
| | | | No School | At least one primary school and no middle school | At least one primary school and one middle school | At least one middle school and one secondary school |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Charama | 98 | 2 | 59 | 37 | 8 |
| 2 | Durgkondal | 150 | 18 | 113 | 19 | 4 |
| 3 | Bhanupratappur | 111 | 3 | 78 | 30 | 8 |
| 4 | Kanker | 100 | 6 | 64 | 30 | 6 |
| 5 | Sarana(Narharpur) | 119 | 4 | 78 | 37 | 10 |
| 6 | Antagarh | 189 | 26 | 141 | 22 | 2 |
| 7 | Koyalibeda | 301 | 60 | 207 | 34 | 10 |
| | Total: | 1,068 | 119 | 740 | 209 | 48 |

Appendix I-B depicts information regarding different type of educational institutions. There are 119 villages in the district which do not have any type of school facilities. 740 villages are having atleast one primary school and no middle school along with it. 209 villages are having atleast one primary school along with one middle school. Similarly 48 villages are having atleast one middle school alongwith one secondary school.

## APPENDIX I C - VILLAGE DIRECTORY
## VILLAGES WITH DIFFERENT SOURCE OF DRINKING WATER FACILITIES AVAILABLE

**NAME OF THE DISTRICT : KANKER**

| Serial number | Name of C. D. block | Number of villages with different sources of drinking water available | | | | |
|---|---|---|---|---|---|---|
| | | Only tap | Only well | Only tube well | Only handpump | More than one source only from tap, well, tubewell, handpump |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Charama | 0 | 0 | 0 | 5 | 92 |
| 2 | Durgkondal | 2 | 2 | 0 | 5 | 113 |
| 3 | Bhanupratappur | 0 | 3 | 0 | 3 | 99 |
| 4 | Kanker | 0 | 1 | 0 | 13 | 82 |
| 5 | Sarana(Narharpur) | 0 | 1 | 0 | 9 | 99 |
| 6 | Antagarh | 0 | 21 | 0 | 17 | 120 |
| 7 | Koyalibeda | 0 | 2 | 0 | 70 | 181 |
| District Total: | | 2 | 30 | 0 | 122 | 786 |

Appendix I-C deals with the villages, with different sources of drinking water facilities. There are 154 villages in the entire district which are having single source of drinking water i.e. 2 village have only tap, 30 have only well and 122 villages have only handpump but there is no village have only tubewell as the source of drinking water. 786 villages in the district are having more than one source.

## APPENDIX II - VILLAGE DIRECTORY
## VILLAGES WITH 5,000 AND ABOVE POPULATION WHICH DO NOT HAVE ONE OR MORE AMENITIES

**NAME OF THE DISTRICT : KANKER**

| Serial number | Name of village | Location code number | Name of C. D. block | Population | Amenities not available ( indicate N. A. where amenity not available ) | | | Amenities not available ( indicate N. A. where amenity not available ) | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | Senior Secondary School | College | Primary Health Sub Centre | Tap drinking water | Bus facility | Approach by Pucca road | Commercial Bank |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1 | Charama | 01638000 | Charama | 8,940 | Available | N.A. | N.A. | N.A. | Available | Available | N.A. |
| 2 | Bhanu-pratappur | 01664100 | Bhanu-pratappur | 6,786 | Available | Available | Available | Available | Available | Available | Available |
| 3 | Antagarh | 01698500 | Antagarh | 5,129 | N.A. | N.A. | N.A. | N.A. | N.A. | Available | N.A. |

Appendix II deals with the villages having 5,000 & above population which do not have one or more amenities in the district. In all, 3 villages of Kanker district have population above 5,000 of which one village each in Charama, Bhanupratappur, and Antagarh CD Block . # SECTION II TOWN DIRECTORY

**Notes Explaining the Codes Used in the town Directory**

**Town Directory statements (I to VII)**

**Statement I : Status and Growth History**

**Column (2) : Class, name and civic administration status of town :**

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

| Population | Class |
|---|---|
| 100,000 and above | I |
| 50,000 - 99,999 | II |
| 20,000 - 49,999 | III |
| 10,000 - 19,999 | IV |
| 5,000 - 9,999 | V |
| Below 5,000 | VI |

Town with a population of one hundred thousand ( 1,00,000 )and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

| | | |
|---|---|---|
| (I) | Municipal Corporation | M. Corp. |
| (II) | Municipal Committee | MC |
| (III) | Municipal Council | M Cl |
| (IV) | City Municipal Council | CMC |
| (V) | Town Municipal Council | TMC |
| (VI) | Municipal Board | MB |
| (VII) | Municipality | M |
| (VIII) | Cantonment Board/Cantonment | CB |
| (IX) | Notified Area | NA |
| (X) | Notified Town | NT |
| (XI) | Notified Area Committee/ Notified Area Council | NAC |
| (XII) | Notified Town Area | NTA |
| (XIII) | Industrial Notified Area | INA |
| (XIV) | Industrial Township | ITS |
| (XV) | Township | TS |
| (XVI) | Town Panchayat | TP |
| (XVII) | Nagar Panchayat | NP |
| (XVIII) | Town Committee/ Town Area Committee | TC |
| (XIX) | Small Town Committee | ST |
| (XX) | Estate office | EO |
| (XXI) | Gram Panchayat | GP |
| (XXII) | Census Town | CT |

Others columns need no comments.

**Statement II - Physical Aspects and Location of towns, 1999.**

**Column 3 to 5 : Physical Aspects**

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

**Column 6, 7 and 8 :**

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

**Column 9& 10 :**

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

**Column 11, 12 and 13 :**

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

**Statement III : Municipal Finance 1998 – 1999**

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

**Statement IV : Civic and Other amenities, 1999**

**Column (1 to 5) : Self explanatory.**

**Column (6) : Road length (in kms.)**

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

| | | |
|---|---|---|
| (i) | Pucca Road | PR |
| (ii) | Kutcha Road | KR |

**Column (7) : System of Sewerage**

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

| | | |
|---|---|---|
| (i) | Sewer | S |
| (ii) | Open Surface Drains | OSD |
| (iii) | Box Surface Drains | BSD |
| (iv) | Sylk Drains | SD |
| (v) | Cesspool method | CP |
| (vi) | Pit System | Pt |
| (vii) | Others | O |

**Column 8 to 11 : Number of latrines**

Number of various types of latrines both Public and Private are given in these columns.

**Column 12 : Method of disposal of night soil**

The various prevalent method of disposal of night soil are given below with codes :

| | |
|---|---|
| Head Loads | HL |
| Basket | B |
| Wheel Barrows | WB |
| Septic Tank | ST |
| Pit System | Pt |
| Sewerage | S |
| Others | O |

**Column 13 and 14 : Water supplySource and capacity of storage system. The following codes are used in these columns:**

**Column 13:**

| | | |
|---|---|---|
| (i) | Tap water | T |
| (ii) | Tube-well water | TW |
| (iii) | Tank Water | TK |
| (iv) | Well water | W |

**Column 14:**

| | | |
|---|---|---|
| (v) | Over Head Tank | OHT |
| (vi) | Service Reservoir | SR |
| (vii) | River Infiltration Gallery | RIG |
| (viii) | Bore Well Pumping System | BWP |
| (ix) | Pressure Tank | PT |

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

**Column 15 : Fire Fighting Service**

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

**Column 16 to 20 : Electrification (Number of connections)**

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

**Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999**

**Column 1 to 3 : Self explanatory.**

**Column 4 & 5 :**

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

| | | |
|---|---|---|
| (i) | Hospital | H |
| (ii) | Dispensary | D |

| | | |
|---|---|---|
| (iii) | Health Centre | HC |
| (iv) | Family Welfare Centre | FWC |
| (v) | T.B. Clinic | TB |
| (vi) | Nursing Home | NH |
| (vii) | Others | O |

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

| | |
|---|---|
| Ayurvedic | A |
| Unani | U |
| Homoeopathic | Hom |

**Column 6 to 9 :**

The codes used for these columns are as follows :

| | | |
|---|---|---|
| (i) | Arts only | A |
| (ii) | Science only | S |
| (iii) | Commerce only | C |
| (iv) | Arts & Science only | AS |
| (v) | Arts & Commerce only | AC |
| (vi) | Combined for all categories-Arts, Science and Commerce | ASC |
| (vii) | Law | L |
| (viii) | University | U |
| (ix) | Others | O |

**Column 10 : Recognized shorthand, typewriting and vocational training institutes**

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

| | | |
|---|---|---|
| (i) | Vocational Training Institute | VT |
| (ii) | Shorthand | SH |
| (iii) | Typewriting | Type |
| (iv) | Shorthand & Typewriting | SH Type |
| (v) | Others | O |

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

**Column 11 to 14**: Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

**Column 15 : Adult literacy class/centres**

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

**Column 16 : Working Women's hostels with number of seats**

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the

name of nearest place with distance where the facility is available is recorded.

**Column 17 to 19 : Recreational and Cultural Facilities**

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

**Column 20 : Public Libraries, Reading Rooms**

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

| | | |
|---|---|---|
| (i) | Public Library | PL |
| (ii) | Reading room | RR |

**Statement VI : Trade, Commerce, Industry and Banking, 1999**

**Column 3 to 8** : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

**Column 9 : Number of Banks**

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

**Column 10 & 11** : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

**Statement VII : Civic and other Amenities in Slums, 1999**

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

# PART B - PRIMARY CENSUS ABSTRACT

# Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

**Data Processing**

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

**Task Force on Quality Assurance**

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were

specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

**Primary Census Abstract**

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In

1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

**Level of presentation in District Census Handbooks:**

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

| | Name of the Primary Census Abstract | Level of presentation |
|---|---|---|
| 1. | District Primary Census Abstract | District/CD Block/UA/City/Town |
| 2. | Primary Census Abstract for Scheduled Castes | District/CD Block/Town |
| 3. | Primary Census Abstract for Scheduled Tribes | District/CD Block/Town |
| 4. | Village Primary Census Abstract | CD Block/Village wise |
| 5. | Urban Primary Census Abstract | Town/Ward level |

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

**Area Figures**

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

## ANNEXURE-II

### NOTE ON FERTILITY, MORTALITY AND MIGRATION - 1991 CENSUS

**Fertility Levels :**

Births, deaths, and migration are three components of population change in any geographical unit. Fertility is a major component of population growth. In the 1991 Census, questions on fertility related to age at marriage, number of surviving children, number of children ever born alive and children born alive during the last year were canvassed to generate the table of fertility. The first three questions were asked to all ever-married women and the last question related to currently married women. The various measures of fertility worked out are based on the district level estimates of fertility and child mortality for 1991.

Mortality analysis is one of the most important branches of demographic studies. This branch deals with the demographic event of death. Since death is a biological phenomenon that occurs just once to each individual, the analysis is simpler than, say, the study of fertility wherein the event of birth can occur with varying frequency among women.

Migration is an important aspect in the area of Population Studies. There is an increase in population of any community or country due to births or in-migration, whereas there is a decrease in the population of its residents due to deaths or migration. In other words, migration is an important reason for the change in size and composition of population. Those areas are affected by migration from where migrants go or where they have gone.

The migration tables of the 1991 Census are mainly based on the questions on place of birth, place of last residence, duration of residence at the place of enumeration and reason for migration included in the individual slip. These tables generated on computer provide the distribution of population by place of birth, distribution of migrants by place of last residence, duration of residence and reason for migration. The data on intra-district, intra-state and inter-state migration streams and in-migration from abroad are presented in these tables.

**ANNEXURE III (i)**

**MEASURES OF FERTILITY IN THE STATE AND DISTRICT - CENSUS 1991**

State : Undivided Madhya Pradesh District : Kanker

| Fertility Measures | District : Un-divided Bastar | | State : Un-divided Madhya Pradesh | |
|---|---|---|---|---|
| | 1981 | 1991 | 1981 | 1991 |
| General Fertility Rate (G.F.R.) | 144 | 144 | 167 | 161 |
| General Marital Fertility Rate (G.M.F.R.) | 199 | 182 | 192 | 188 |
| Total Fertility Rate (T.F.R.) | 4.70 | 4.49 | 5.30 | 4.92 |
| Total Marital Fertility Rate (T.M.F.R.) | 5.60 | 5.81 | 5.90 | 5.73 |
| Crude Birth Rate (C.B.R.) | 34.31 | 35.41 | 37.96 | 32.79 |

(Source - Estimate of Fertility Indicators at District Level - M.P.1991)

Chhattisgarh and Kanker were part of Madhya Pradesh State and district Bastar in Census 1991. As such the data pertaining to undivided Madhya Pradesh and district Bastar is presented here in respect of Chhattisgarh and Kanker district.

The study of above table reveals that all the measures of fertility have decreased in 1991 compared to 1981in respect of the state. However the TMFR and CBR of the district have increased marginally in 1991. The GFR of the district happens to be lower than state average in 1981 whereas the Crude Birth Rate of the district which was lower than state in 1981 is gone higher than state in 1991.

## ANNEXURE III (ii)
## MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE IN THE STATE AND DISTRICT - CENSUS 1991

**State : Undivided Madhya Pradesh** **Distrcit : Kanker**

| Fertility Measures | District : Bastar | | | State : Un-divided M.P. | | |
|---|---|---|---|---|---|---|
| | Total | Rural | Urban | Total | Rural | Urban |
| No. of children ever born to each married woman in the age group 45-49 | 3.99 | 4.00 | 3.83 | 4.83 | 4.93 | 4.46 |
| Mean age at marriage | 18.42 | 18.44 | 18.16 | 16.62 | 16.39 | 17.48 |
| Child Woman Ratio (0-4 years) | 555 | 564 | 448 | 599 | 629 | 507 |

(Source :- District Profile of Madhya Pradesh-1991)

The average number of children born to each married woman of the district 3.99 is lower than the state average 4.83. This measure is lower in the Rural and the Urban sector of the district to the corresponding state average.

The mean age at marriage of the district 18.42 happens to be higher than state average 16.62. Similarly the child woman ratio for children in the age group 0-4 years per 1000 women of the district 555 is lower than state average 599.

## ANNEXURE III (iii)
## CHILD MORTALITY RATE IN THE STATE AND DISTRICT : CENSUS 1981-1991

**State : Un-divided Madhya Pradesh** **District : Un-divided Bastar**

| State / District | Year | Persons | | | | Male | | | | Female | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | (q1) | (q2) | (q3) | (q5) | (q1) | (q2) | (q3) | (q5) | (q1) | (q2) | (q3) | (q5) |
| **State :** | | | | | | | | | | | | | |
| **Chhattisgarh** | **1991** | 133 | 139 | 143 | 147 | 131 | 134 | 138 | 142 | 136 | 143 | 149 | 151 |
| | **1981** | 150 | 162 | 171 | 197 | 158 | 165 | 170 | 193 | 140 | 159 | 173 | 201 |
| **District:** | | | | | | | | | | | | | |
| **Kanker** | **1991** | 98 | 112 | 121 | 129 | 95 | 117 | 124 | 130 | 86 | 106 | 115 | 123 |
| | **1981** | 118 | 130 | 137 | 163 | 131 | 144 | 143 | 170 | 104 | 117 | 130 | 155 |

(Source - Estimate of Mortality Indicators by sex at district level-M.P.1991)

It is seen that child mortality rate in every age in 1981 as well as 1991 of the district is lower than the corresponding state mortality rate. The table also reveals that the male child mortality of the state in 1991 is lower than female child mortality rate in every age classification. Contrary to this the male child mortality of the district is higher than female child mortality. In 1981 also the male child mortality of the district is more than female child mortality.

**ANNEXURE IV(I)**

**POPULATION OF INMIGRANTS IN THE DISTRICT BY PLACE OF BIRTH : CENSUS 2001**

**State- Chhattisgarh** **District : Kanker**

| Birth Place | Population and Percentage | | |
|---|---|---|---|
| | Persons | Male | Female |
| (i) Within the State but outside Enumeration place | 181,441 | 44,046 | 137,395 |
| | (84.6) | (24.3) | (75.7) |
| (A)Within the district but outside Enumeration place | 130,612 | 27,921 | 102,691 |
| | (60.9) | (21.4) | (78.6) |
| (B)Birth place in other district of State | 50,829 | 16,125 | 34,704 |
| | (23.7) | (31.7) | (68.3) |
| (ii) Place of Birth in other states of India than the state of Enumeration | 11,199 | 5,358 | 5,841 |
| | (5.2) | (47.8) | (52.2) |
| (iii) Birth place in Foreign | 21,882 | 11,528 | 10,354 |
| | (10.2) | (52.7) | (47.3) |
| (iv) Unclassified | 0 | 0 | 0 |
| | (0.0) | (0.0) | (0.0) |
| Total Immigrants | 214,522 | 60,932 | 153,590 |
| Persons born in the place of enumeration | 436,412 | 263,704 | 172,708 |
| Total population | 650,934 | 324,636 | 326,298 |

(Source- Migration Table D-1)

Note: Percentages are given in brackets.

This table presents the number of in migrants by place of birth of enumeration within the district distributed in four classifications i.e. (i) Migration from within the state, (ii) Migration from other states of India,(iii) Migration from foreign place and (iv) Unclassified.

It is observed that the migration by birth from within the state is maximum 84.6 per cent of total migration. The migration from within the district but outside the enumeration place is 60.9 per cent whereas migration from other districts of the state is 23.7 per cent. Migration from other states is 5.2 per cent and the migration from outside India is 10.2 per cent of the total migration. It is also seen that the female migration is much higher than the male migration in first two classifications which is due to the migration of females after marriage.

**ANNEXURE IV(II)**

**POPULATION OF INMIGRANTS BY PLACE OF LAST RESIDENCE : CENSUS 2001**

**State- Chhattisgarh** **District : Kanker**

| Last Residence | Population and Percentage | | |
|---|---|---|---|
| | Persons | Male | Female |
| (i) Within the State but outside Enumeration place | 198,979 | 51,845 | 147,134 |
| | (91.2) | (26.1) | (73.9) |

| Total population | 650,934 | 324,636 | 326,298 |

Source- Migration Table D-2

Note: Percentages are given in brackets.

Migration of population by place of last residence distributed in four classifications is presented in this table. It is seen that the migration by usual place of last residence from within the state is highest 91.2 per cent of total migrated population. Within this classification, the migration from within the district is 66.4 per cent and only 24.8 per cent migration is from other districts of the state. Migration from other states of India outside enumeration state works out to 5.5 per cent of total migration and it is only 3.2 per cent from outside India. Mostly, sexwise anlysis reveals much higher migration of females which is obviously due to the movement of females after marriage.

**ANNEXURE IV(III)**

**POSITION IN-MIGRANTS FROM OTHER STATES - AS PER CENSUS 2001**

**State- Chhattisgarh** **District: Kanker**

| Birth Place | Census 2001 | |
|---|---|---|
| | Migrant Popultion | Percentage of total In-migrants |
| Maharashtra | 2,496 | 22.3 |
| Madhya Pradesh | 2,183 | 19.5 |
| West Bengal | 1,942 | 17.3 |
| Uttar Pradesh | 1,263 | 11.3 |
| Orissa | 1,121 | 10.0 |
| Bihar | 498 | 4.4 |
| Total of 6 States | 9,503 | 84.9 |
| Total of other States | 1,696 | 15.1 |
| Total | 11,199 | 100.0 |

Source- Migration Table D-1

In-migration from other states is classified in this table. 84.9 per cent of total in-migrants are from Maharashtra, Madhya Pradesh, West Bengal, Uttar Pradesh, Orissa and Bihar whereas the remaining in-migrants from all other states together constitute only 15.1 per cent.

Total 2,496 persons have migrated from Maharashtra which alone accounts for 22.3 per cent of total in-migrants. Kanker is located at the neighbouring state border of Maharashtra as such the Migration from Maharashtra is very high and the culture and language is homogeneous.

(Source :- Religion Table - Census 1991/2001.

This annexure presents the distribution of population at district and state level pertaining to Census 1991 and Census 2001 in respect of six religions. It is observed that the proportion of Hindu population in the district is comparatively lower than that of state. As against this the proportion of Muslim and Jain population is higher in the district as compared to state average. The proportionate distribution of population belonging to other religions in the district is lower than the corresponding state average.

**ANNEXURE VI**

| | | | (54.3) | (40.4) | (4.5) | (0.8) | (0.0) |

(Source- Socio Cultural Table C-2)

Note: Percentages are given in brackets.

The above table reflects that the population (50.6%) of the district comes under the unmarried class. When compared to state the percentage of unmarried population of the district is higher than the state. Contrary to this the percentage of married population of the district is marginally less than the state. The state average is lower than the district in respect of widowed and it is same in case of divorced population. The proportion of unmarried persons is higher in urban areas than rural but married persons are lower in the urban areas as compared to the rural areas of the district.

(Source- Socio Cultural Table C-8)

Note: Percentages are given in brackets.

This annexure presents the proportionate distribution of literates by different educaional levels in specific age groups. As the population in the age group 0-6 do not come within the purview of literates, it has been shown separately.

It is seen that out of 544,055 persons belonging to the age 7 and above 396,797 are literates and thus, the literacy rate of the district works out to 72.9 per cent. Similarly the male and female literacy works out to 56.4 and 43.6 per cent respectively 106,565 persons

have been recorded to attain education up to primary level in the age group 7-14 which is only 85.2 per cent of population in this age group. In the age group 15-34; 36,920 persons (17.1 per cent) are found educated up to middle, 32,492 person (15.0 per cent) upto the level of Matriculate/Higher Secondary/ Intermediate/ Diploma Tech. and 6,857 persons (3.2 per cent) upto Graduate and above level. It may be noted that this is the group having maximum class interval and thus it has the maximum population as well. The analysis also reveals that the percentage of literates at all levels decreases with increasing age groups which explains the gradual increase in literacy rates over past ten years.
