Jain temple of Masarh

The present photograph is of idol of Jain Trith;ankar Parshwanath established in a temple in village Masarh under Bhojpur district. The village Masadh is situated 10 km. west from the district headquarters – Arrah on Arrah Buxure main road. Masadh is an important religious place for Jains. Carving of idol is dated 1386 AD. Chinese travellor Hiuen Tsang has mentioned this village in his travel diary as “Mohosolo” or Masardh.

Jain Trithankar Parshwanath temple of Masadh is a place of historical importance on the one side and a centre of attraction for the followers of Jainism on the other. The eight idols established in the temple on which 1386 AD is inscribed were brought by Radhore Jains with them from Marwar. The inscription on the idol says “Presented by Shankar Lal of Aram nagar during British rule over Karush Desh”.

Annexure VI : Marital status of population as per 2001 Census 745

Annexure VII : Age, sex and education in the state & district, 2001 Census 760

Annexure VIII: Distribution of different mother tongues returned in 2001 Census 767

Foreword

The District Census Handbook (DCHB) published by Census Organization since 1951 census, is one of the important publication in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructure facilities, etc.

The scope of the DCHB was initially confined to a few Census Table and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features along with restructuring of the formats of villages and town direrectory were added into it. In village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adults literacy centers, primary health sub-centers and community health workers in the villages were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to given the details on number of inaccessible villages in each district. In Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development (CD) level presentation of village directory and PCA data instead of the traditional tahsil/ taluk/PS level presentation. It was excepted that the presentation of village directory and PCA data at CD level will help the planners in formulation of micro level development plans, CD being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance (s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely Primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Center and Primary Health Center), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on slums has been modified and its coverage enlarged by including details on all slums instead of ‘notified slums’. The information is given in case of all statutory towns irrespective of their class, against only ClassI and Class II towns in the 1981 and 1991 censuses. The basic amenities available in village and towns are analyzed in depth with the help of a

number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexure. The analytic notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/ place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analyzed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri Sudhir Kumar Rakesh, Director of Census Operations, Bihar, Patna. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state government in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Sri R.G.Mitra, Deputy Registrar General (C&T) and Dr.I.C.Agarwal, Senior Research Officer of Social Studies Division. Dr.R.P.Singh,Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computersation of village and directory data and the programme for the generation of Village Directory and Town Direcotry statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L.Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible

D.K.Sikri

Preface

The history of the publication of District Census Handbooks goes back to the 1951 Census and these are printed in every Census because of their wide range utility. In successive Censuses innovations/modifications have taken place in the District Census Handbooks in terms of coverage and content of data. This is an important publication district level brought out by the Census Organization on behalf of the State Government. Its inter-alia, provides data/information on some of the basic demographic and socio-economic characteristics and availability of certain important civic amenities/facilities in each village and town of the district. This publication has, proved to be of immense utility to the planners, administrators, academicians and researchers. It is hoped that this publication will serve the purpose of the ever increasing demand for the micro-level data in this era of planned development.

The District Census Handbook project is joint venture of the State Government and the Census organization and is brought out in two parts, viz. (i) part A–containing the village and town directories and (ii) part B containing village and town wise Primary Census Abstracts, pertaining to total population. It also contains the District Primary Census Abstracts for the total population and the Scheduled Castes and the Scheduled Tribes Population by rural-urban break-up.

The present volume of the District Census Handbook (DCHB) in 2001 Census has been made more informative and exhaustive in terms of coverage and content. The village Directory mainly covers educational, medical, drinking water, post & telegraph, banking, credit societies, recreational & cultural and communication facilities and approach to villages available in the villages, besides, population and land use data. The content of Village Directory has been broadened by including additional facilities such as availability of banking, recreational and cultural facilities and reach of newspapers and magazines in villages. For the first time in this volume information on the most important commodity manufactured in village is provided. The Town Directory basically contains growth trend of towns since 1901, physical aspects and location, municipal finance, civic and other amenities, medical, educational, recreational and cultural facilities, trade, commerce, industry banking, civic and other amenities available in slums. In Town Directory, information on all types of slums, whether notified/recognized by respective town authorities or not is provided instead of notified slums for each statutory town. However, during 1981 and 1991 Censuses this information was restricted to class I and class II towns only.

The various basic amenities available in the villages and towns are analyzed in depth with the help of a number of cross-classified inset tables and statements. A significant addition in the publication is the inclusion of analytical notes presented as annexure on important aspects concerning Census data on (i) mortality (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/ place of last residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongues, based on 1991 and/or 2001 Census, with the prime objective of analyzing the extent of changes taken place in socio-cultural demographic and economic field during the last decade. The eight digit permanent location code (PLCN) has been assigned to all the villages to facilitate the link of data with future censuses.

It is worth mentioning that the District Census Handbooks of the Census of India, 2001 are being made available for the first time in electronic format in addition to printed volumes keeping in view the demands of the data users.

The village and town level data of amenities have been collected through the Development Officers and the Vice Chairmen/Executive Officers of the Municipalities and Notified Area Committees, who functioned as Charge Census Officers under the District/Sub-divisional level Officers.

The analytical note has been prepared on the basis of the inset tables generated from the computerized data of Village Directory, Town Directory and Village/Urban Primary Census Abstract. It takes note of the social, economic and demographic changes, which have taken

place in the districts during the decade. District and C.D. Maps containing useful information on many items have also been included in this volume.

I am grateful to the State Government agencies for their co-operation in collection of such a huge mass of data. I would like to make a special mention of the warm and whole hearted co-operation which was throughout extended by the District Magistrates, the Sub-divisional Officers, the District Census Officers and the Development Officers.

In my office Shri Phool Singh ex-Joint Director, Sri R.K. Ram Joint Director and K.K. Verma, D. P. Choudhary, S.K. Das Sudhakar and Mritunjay Kumar, Manjul Mayank Pandey and Shri Ramesh Prasad, Assistant Director supervised the project at different stages. District and C.D. Maps were prepared in Map Section under the overall supervision of Sri M. Guria and Dr. H.K. Ram, Research Officer (Map). I am thankful to all of them. The name of other officers and officials who were associated with this project is shown in separate sheet of acknowledgements.

I am personally indebted to Sri D. K. Sikri, Registrar General and Census Commissioner, India under whose guidance project was completed. I am deeply grateful to Sri J.K. Banthia, ex- Registrar General and Census Commissioner, India and Sri Sudhir Kumar Rakesh, ex-Director of Census Operations, Bihar, Patna for their sustained support and unfailing guidance throughout our endeavours. I am equally indebted to Sri R.C. Sethi, Additional Registrar General, India, Shri R.G. Mitra, ex-Deputy Registrar General (C & T), Dr. I.C. Agrawal, Assistant Registrar General of Social Studies Division and Dr. R.P. Singh, ex-Deputy Registrar General (Map) for spontaneous help and encouragement at different stages of the work of this project. I am also thankful to Sri S.L. Jain, Dy. Director and Sri R.K. Mehta, Assistant Director of Social Studies Division of Office of the Registrar General, India, New Delhi who scrutinized the manuscript.

District Highlights – 2001 Census

1. Bhojpur ranks 19th in terms of population (22,43,144) and 19th in terms of area (2,474 sq.km.) in the state of Bihar.

2. In terms of population per sq.km. Bhojpur is the 17th densely populated district in the state with 907 persons per sq.km as against the state's 881.

3. Bhojpur ranks 28th in terms of sex-ratio (902) against the sex-ratio of the state with 919.

4. There are 218 uninhabited villages (out of 1,217 total villages) in the district of Bhojpur.

5. Babura (under Barhara C.D. Block) is the most populated village (23,254) and Sundarpur (under Charpokhari C.D. Block) is the least populated village (6) in the district.

6. The economy of the district mainly depends on cultivation or related works. More than 70% of the total workers are engaged in Primary sector.

7. C.D. Block Shahpur has the highest number of villages (137) in the district and C.D. Block Sandesh and Garhani have the lowest number of villages (54 each).

8. Sheo Diara (Ditto) under Barhara C.D.Block has the largest area (3,549 hectare) and Faizullah Chak (under Barhara C.D.Block) has the smallest area (2 hectare) among the villages in the district.

9. Improved drinking water facility figures are impressive - it is available for 97.6 percent of the villages.

ANALYTICAL NOTE

Analytical Note

(i) History and scope of the District Census Handbook

The District Census Handbook, brought out by the Census Organization, is one of the most valuable district level publications. It provides, inter-alia, information on the basic demographic and socio-economic characteristics and availability of important civic amenities/facilities in each village and town of the respective districts. This publication has proved to be of immense utility to the planners, administrators, academicians and researchers.

The District Census Handbook, a joint venture of the State Government and the Census Organization, is one of the richest data sources, particularly in the context of planning and development at the grass root level. It is rather the only source that gives village and town level information concerning several demographic and socio-economic characteristics and also on availability of important civic amenities. This publication was brought out in the 1951 Census for the first time. In fact, it is the replacement of 'Village Statements', which used to be prepared in the Censuses of Pre-Independence period, and since 1951 it has been published after each decennial census with some innovations/improvements.

Initially the scope of the DCHB was confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town of the district. The DCHB published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories including PCA (Primary Census Abstract). At the 1971 Census, the DCHB was brought out in two parts, viz., Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA in respect of all the States and Union Territories. The Third Part of the DCHB, comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to delay in compilation of the requisite material. As far as the state of Bihar is concerned, this Third Part or Part-C could be published in respect of a few districts only. For the remaining districts, this volume was kept in the office library in mimeographed form.

At the 1981 Census, new features along with restructuring of the format of Village and Town Directory were introduced in the DCHB. These were published in two parts for each district. While Part-A comprised Village and Town Directories, the PCA of Villages and Towns (ward wise), including Scheduled Castes and Scheduled Tribes PCA up to CD /Town level, was provided in Part-B. To illustrate, all the amenities, except electricity, were brought together in the Village Directory and if an amenity was not available in the concerned village, the distance (in broad ranges) from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement (IV-A) on slums was provided so as to enable the planners to formulate programmes for providing civic amenities in the slums. In this statement details on civic and other amenities were presented for the notified slums of Class I and Class II towns. Apart from this, one column on the Scheduled Caste and Scheduled Tribe population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHB for the 1991 Census was, by and large, the same as followed during 1981 Census.However, the format of PCA was restructured slightly in the 1991 Census for the benefit of data users and nine-fold industrial classification of main workers was given as against four–fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age group was also included in the PCA for the first time with a view to enabling data users to compute more realistic literacy rates as all children below 7 years of age had been treated as illiterate at the time of the 1991 Census.It was expected that the above mentioned modifications would help the planners in chalking out more effective developmental programmes.

At the country level, one of the most important innovations in the 1991 Census was the C.D. level presentation of data in the Village Directory and PCA instead of the traditional C.D. /Taluka/PS level

presentation across the country. For the state of Bihar, however, the Community Development level presentation of data in the Village Directory and PCA had been adopted since 1971 Census itself. During 1951 and 1961 Censuses the presentation of data was made at the Anchal level in the State of Bihar. In fact, Anchal and Community Development used to be more or less co-terminus till 1991 census. However, the situation has changed after 1991 Census and now Anchal and Community Development no longer remains co-terminus in all the cases. It was expected that the presentation of Village Directory and PCA data at C.D. level will help the planners in formulation of micro level developmental plans, as the C.D. is now increasingly being used as the key administrative unit for developmental planning. In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both computerized and manual codes for each village were provided for the 1991 Census along with the corresponding codes of 1981.

The District Census Handbook of Census of India, 2001 is more informative and exhaustive in terms of coverage and content. The coverage in Village Directory has been further broadened by including a number of other facilities like banking, recreational and cultural facilities, availability of newspapers & magazines, income and expenditure of Gram Panchayats and most important commodity (ies) manufactured in the Village etc. Apart from these, more details on distance(s) at which basic educational facilities (viz., Primary and Middle Schools and College) and medical facilities (viz. Allopathic Hospital, Maternity and Child Welfare Centre and Primary Health Centre) etc. are available, if not already available in the village, are being provided for the first time in DCHB.

The type and extent of basic amenities available in the villages & towns have been analyzed in depth with the help of a number of cross-classified inset tables & statements. Brief analytical notes/accounts on important aspects concerning respective districts viz. (i) fertility, mortality and migration (ii) various measures of fertility and mean age at marriage (iii) percentage distribution of migrants by place of birth/place of residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education & (vii) distribution of different mother tongues, all based on 1991 Census, are being given at the end of the text as separate annexures.

For the District Census Hand Book of the Census of India, 2001, emphasis has been given on the quality of village and town level amenity data. With a view to find out erratic or aberrant trends of inexplicable fluctuations in amenity data, efforts have been made to verify the V.D. & T.D. data with the help of similar information brought out by the State and Central Governments as also by Government/Semi-Government institutions.

The processing of data and maps to be incorporated in the District Census Hand Book this time has been done both manually and digitally (with the help of computer technology). Another innovation of Census of India 2001 is that the hard copy of the maps of the Districts and C.D. Blocks has been converted into the digital database. During 1991 census the village wise information/amenities were shown manually in the maps of District Census Hand Book. But during 2001 Census the depiction of the information/amenities in the maps has been done by utilizing Computer Assisted Cartography.The editing, annotation, incorporation of amenities and other concerned work related with district and C.D. maps have been done simultaneously, as far as possible, except the incorporation of population size of the villages which became ready when the Urban/Village Primary Census Abstract was made available through Computer Scanner.

(ii). Brief history of the district

The present district of Bhojpur consists of areas under Arrah Sadar, Jagdishpur and Piro sub-divisions. Earlier this district was the part of old Shahabad district. On 7th of November, 72 Shahabad district was bifurcated in two parts mainly Bhojpur and Rohtas districts. Both Bhojpur and Rohtas districts were further bifurcated on 17th March 1991. Bhojpur was bifurcated into Bhojpur and Buxar district whereas Rohtas district was bifurcated into Rohtas and Kaimur districts. Bhojpur district has now three subdivisions Arrah Sadar, Jagdishpur and Piro. Arrah town is the headquarter of the district and also its principal town. The district is bounded on the north by the district of Saran (Bihar) and Balia district of Uttar Preadesh; on the south by the district of Rohtas, on the west by the district of Buxar and on the east by the district of Patna, Jehanabad and Arwal (created after 2001 Census)

Early History

Bhojpur district has a close linkage with that of its parent district of Sahabad, which had an old and interesting history. In the pre-historic days also there is evidence of the area being inhabited. The 1961 Census report of Shahabad describes the history of the district in following manner

According to some legends, the Kharwars were the original settlers in the hilly tracts near Rohtas. The Oraons also claim that they ruled over the country between Rohtas & Patna. It is said that Ara, the present headquarers of the district derives its name from the Sanskrit word "ARAMYA" which means forest. It suggests that the entire area around modern Ara was heavily forested in old days. According to mythology, sage Vishwamitra, the Guru of RAMA had his 'Ashram' somewhere in this region. He was disturbed in his "YAGNA" (sacrificial offering) by the "Rakshasi" who abonded in the thick forests surrounding the area. The killing of famous "Rakshashi" "TADIKA", by RAMA when he was still boy under training in the Ashram of Vishwamitra.

The 1961 Census report also describes the early period of the old Sahabad district, which includes the present district of Bhojpur under:

In the old days, Shahabad formed part of the ancient kingdom of Magadh, which also contained portions of the present Patna & Gaya district. Though included in the kingdom of Emperor ASHOKA, the general absence of Buddhist' monuments from a greater part of the district suggests that it remained almost immune from the Buddhist influence of time.

"The famous Chinese pilgrim, HIEU-TSANG, who journeyed through the country in the seventh century A.D., paid a visit to Mo-Ho-Solo in Shahabad. This place has been identified with the present village Masarh, 10 k.m. west of Ara on Ara-Buxar road. The Chinese pilgrim found that the inhabitants were all Brahmins who did not respect the law of Buddha. He, therefore, felt disappointed and did not proceed to any other place in the district."

Not much is known about the history of the district after the fall of Guptas. In all probability it relapsed into the hands of the aboriginal tribes and came under control of petty chieftains. The most dominant people during this period were Cheros. They ruled over the geater portion of the district. Then came the Rajputs from Ujjain in the province of Malwa. Raja Bhoj was their king and the term "Bhojpur' now applicable to that areas is derived from him. The Rajputs had a series of conflicts with the aboriginals and succeeded in usurping parts of their territory, but it took them many hundred years to subdue the aboriginals.

The medieval period history of this district has been described in the following words:

"While encamping at Ara in 1529 after his victory over the Afghan rulers, Babar proclaimed his sovereignty over Bihar. In commemoration of this event, the place was called Shahabad, which literally means "The city of Emperor". This name was later applied to the Sarkar within which Ara was included and eventually to the entire district."

After the death of Babar, Shershah once again became active and Humayun had to suffer a crushing defeat at his hands at Chausa, which secured Shershah the imperial throne of Delhi. The rule of Sur dynasty, which was founded by Shershah, did not last long and Mughals soon regained the throne of Delhi. Akbar, after his accession, tried to extend his empire and consolidate it and in course of it included the district of Shahavbad in his empire, though the control was not very tight. Akbar's General Man Singh established his stronghold at Ramgarh and made efforts to organize the revenue administration of the district on a sound footing. But the local chiefs continued to resist. The Rajhas of Jagdishpur and Bhojpur defied the Mughals. The Raja of Bhojpur rebelled against Jahangir. His successor Raja Pratap, was done to death by Shahjahan and the Queen was forced to marry a Muslim courtier. This finally quetended the Bhojpur family but stray troubles continued till the last days of Mughals. The district was frequently overrun by contending Mughal armies.

The next event of importance took place in 1764 during British period when Nawab of Bengal, Mir Kasim had a fight with the Britishers. However, the English won the decisive battle over Mir Kasim in 1764. (Battle of Buxar)

Another event of note in the district thereafter was the rebellion of Raja Chait Singh of Benaras which shook the very foundations of the English power in India.

Chait Singh, however, lost eventually. After this the district had a very un eventful history till 1857 when Kunwar Singh revolted against the Britishers in line with the Mutineers.

The Revolt of 1857

About the fight of Independence of 1857, by the Raja of Jagdishpur, the famous historian Pandit Sunder Lal writes in his history name "Bharat Mein Angareji Raj" as follows:

"On July 25th 1857, the Indian army of "British Fauz" declared the Independence at Danapur and proceeded to Jagdeishpur in Bhojpur district. Jagdishpur was an old and small Rajput State of Shahabad district. The ruler of this state was provided the title of "Raja" by the Emperor Shahjahan and was continued till then. This state also came under the invasion policy of British Lord Dollhouse. Kunwar Singh was the Raja of Jagdishpur at that time. Kunwar Singh was very popular in surrounding areas. At that time, he was at the age of 80 years. Although, he was the famous leader from Bihar, who led the fight in 1857."

" When the revolutionary army reached Jagdishpur, the old King Kunwar Singh immediately took the command of that army. He reached Ara with this army and captured the English Treasury, released the prisoners from Ara Jail and destroyed English Offices totally. After that he surrounded the small castle located at Ara in which a very few English and Sikh armies were there. The Castle was surrounded, so, the problem of shortage of water was faced by them and to overcome this problem, the Sikh armies dug a well within 24 hours. Kunwar Singh announced that if you will surrender the castle, you will be freed. But the armies in the castle did not accept it. Kunwar Singh persuaded the Sikhs to come out with him but did not succeed. The castle of Ara (Ara House) was continuously surrounded for three days."

"On July 29, 1857, Captain Danwar proceeded to Ara with 300 English and 100 Sikh armies. When he reached near Ara, he was attacked by Gorilla fighters of Singh in Mango Garden (Kayamnagar) at night. Only 50 persons of British army were survived out of 415 till the morning of 30th July. Captain Danwar was also killed at the same place (Kayamnagar),

"A big British army led by Major Ayar with cannons proceeded to Ara from the west to help the surrounded British army on Aug 2nd 1857. A big battle took place at Bibiganj (about 5 kms. West of Ara) The English army became successful in this battle and Kunwar Singh was forced to retreat. After 8 days, the captured Ara town and the castle of Ara (Ara house) were freed. Kunwar Singh came back to Jagdishpur and Major Ayar followed him with the victorious army. After the fight of many days on Aug. 14, the Kila of Jagdishpur fell in the hands of Major Ayar."

"The old Raja Kunwar Singh came out of Jagdispur with 1200 armies and three women of the castle decided to fight with the Britishers elsewhere. He proceeded towards Azamgarh and the other revolutionary forces joined him at Ataraulia, 25 miles away from Azamgarh on 18th March 1858."

"He fought many fierce battle at different places in U.P. like Atraulia, Azamgarh, Benaras and Gazipur. He defeated the Generals of British army like Millman, Dens, Lord Ganning, Lord Mark, Legard, Duglas, and Ligrand in this course. In these proceedings Kunwar Singh was now close to the place just north of Benaras from where Jagdispur was 100 miles away. Many armies who revolted against the Britishers at Lucknow also joined Kunwar Singh"

"After 8 months fighting with British armies at different places in Eastern U.P. Kunwar Singh decided to come back to jagdishpur via Gazipur. In the course of returning to Jagdishpur, he arrived at the bank of Ganges at Shivpur Ghat."

"Kunwar Singh was crossing the river Ganga in a small boat. The British army was following him. A bullet of British army hit the wrist of Kunwar Singh in right hand. Kunwar Singh immediately took his sword in his left arm, cut his right arm at the elbow and threw it into the Ganga. After that he bandaged his arms with cloths and crossed the river successfully. The British army could not catch him. He reached his capital Jagdishpur and again took over his thrown with the help of another small army collected by his younger brother Amar Singh on April 22, 1858. The English army at Ara was frightened General Legard of British army proceeded to attack Jagdishpur with a big army in which there were more Sikhs than English men. Kunwar Singh was very much tired of 8 months long battle and he had a very small army of 1000 only. The British army was fresh and strong with canons. Kunwar Singh was forced to fight again within 24 hours of his arrival at Jagdishpur. A fierce battle again took place between Kunwar Singh and Britishers at a distance of one and half miles away from Jagdishpur. This battle had taken place between the night of 22nd and 23rd April, 1858 and was again won by the injured Kunwar Singh."

"Kunwar Singh regained his thrown of Jagdishpur on 23rd April, 1858 and ruled again till the death. The 23rd April is celebrated at Ara, jagdishpur and all over the state of Bihar as "Kunwar Singh Vijayotsav Diwas" every year. The old and injured Lion Kunwar Singh died on 26th April 1858 as an Independent ruler. But before his death he freed his state and the people from the slavery of British rule".

"After his death, his younger brother Amar Singh took the thrown of Jagdishpur. He also fought with British army at Behia, Hetampur and Dalippur and British army were defeated everywhere. Frustrated with the regular defeated General Legard resigned from his post. General Duglas took the charge of British army and announced awards to the persons who could bring the head of Amar Singh but was not successful in getting Amar Singh in his custody. On 17th Oct., 1858, the British army surrounde4d Jagdishpur and attached from seven points but Amar Singh came out of Jagdispur fighting with his courageous army. The Britishers captured Jagdishpur. Amar Singh surrounded by the British army at "Nounadi" 300 armies of Amar Singh was killed but he again fled with 100 army persons. The Britishers could not catch him but followed long. Once the British army was about to catch the elephant on which Amar Singh was riding but he jumped from the elephant and fled away. He entered the forests of Kaimur hills. He never accepted the defeated. After entering the Kaimur hills, there was no trace of him."

"Another important event of Jagdishpur was recorded in the books of history was the bravery of the women of the Palace of Jagdishpur. 150 women when saw that they will fall in the hands of British army and there was no way out, tied themselves infront of mouth of the cannons and fired the cannons by their own hands."

In this way, the history of 1857, especially of Jagdishpur and Ara of Bhojpur district is glorious and the people of the district owe their glorious past.

The Quit India Movement

The history of "Quit India Movement" in 1942 is also written by the blood of the virtuous revolutionaries of this district. Two incidents are very important in the month of September 1942 for this district. Village Lasarhi, 32 Kms. sought of the district headquarter; Ara was the center of the underground revolutionaries of Shahabad district. On 15th Sep., 1942, the British police surrounded the Lasarhi village. The people of not only lasarhi but of the near by village like Dhakani and Chasi bravely faced the bullets of Sten gun and LMGs. In this course 7 men and 1 woman were killed. The persons killed were Vasudev Singh, Mahadev Singh, Sabhapati Singh, Giriwar Singh, Ramdeo Sah, Shital Lohar, Keshav Singh and the brave lady Akali Devi.

Another important history, is the incident of 28th Sep. 1942. After passing of the Quit India Resolution of 9th Aug, 1942, the district of Shahabad had seen many protest movement like uprooting of the tail lines, cutting of telephone wires and destruction of roads. After sometimes, these violent protests subsided. To accelarate the movement, the revolutionaries of the district decided to hoist the tri-color at Ara collectorate. Sep 28th, 1942 was decided the date by the district administration to deposit the "RoleCess". On this very day a group of "Satyagrahi started satyagrah at collectorate from the village Jagwalia. The group was led by a brave soldier of independence Kavi Kailash of the village Ghordei. Hiding from the eyes of police, the group reached somehow at Ara collectorate and hoisted the tri-colour in the campus of Ara

collectorate. They were arrested by Baluchi police deployed at Ara collectorate. Then Satyagarhi were brutely beatten-up there. Kavi Kailash was lifted and thrashed on a big stone near Ara collectorate tank. He was also tied with horse and brutally dragged on the roads. Then boiled water was poured over him.

Atleast chanting the slogans of "Mahatma Gandhi Ki Jai" and "Bharat Mata Ki Jai" the brave son of Bhojpur let his life to the rest and become one import and martyr of this district.

(iii) Administrative set up

For administrative convenience the state of Bihar has been divided into 9 divisions. The district of Bhojpur lies under the Patna division. The District Magistrate and Collector is in-charge of the civil revenue and criminal administration of the district. He is also the chief pilot of all of development and welfare activities in the district. The Commissioner, Patna Division, having his headquarters at Patna exercises general supervision and control over Bhojpur Collector. The Collector is assisted by and Additional Collector and a District Development Officer both of Additional District Magistrate's rank. To assist him a number of Deputy Collectors and other officers are deployed in the district. He belongs to I.A.S. cadre.

Bhojpur district is divided into 3 sub-division viz., Arrah Sadar, Jagdishpur and Piro each under the Sub-divisional Officer drawn from the Indian Administrative Service or the Bihar Civil Service. The Sub-divisional Officer works under the direct control of the Collector and is assisted by a number of Deputy Collectors and other officers.

Each sub-division is divided into a number of Circle (Anchal)-cum-Community Developments. Circle Officer (Anchaladhikari) is incharge of revenue matters of the area whereas Development Officer conducts development and welfare activities in the area under the direct control of Sub-divisional Officer (S.D.O.).

Agiaon C.D. has been carved out of Sahar C. D. (old) whereas Garhari has been formed out of Charpokhri C.D. (old)

Police Administration

Police Administration is part of Criminal Justice delivery system. The Superintendent of Police is the head of the Police Force (constabulary) in the district. He has his headquarter at Arrah town, and works under the Deputy Inspector General of Police, Central Range, Patna. He is assisted by a number of Deputy Superintendents of Police, Police Inspectors, Sergeants Major, Police sub-Inspectors and Prosecuting Inspectors. In every sub-division, there is a Deputy or Assistant Superintendent of Police, according as he is drawn either from the Bihar Police Service or Indian Police Service. There are host of Police Officers such as Inspectors and sub-Inspectors in charge of circles and police stations respectively. The Officer-in-charge of a police station is assisted in his work by a team of sub-Inspectors, Assistant Sub-Inspectors literate constables and Havildars, Chowkidars and Dafadars constitute the rural police force. The new Bhojpur districts consists of three sub-divisions, viz. Ara Sadar, Jagdishpur and Piro comprising 14 development s stretching over an area of 2,37,526 hetrs.

Judicial Administration

There is complete seperation of judiciary and executive in the district. The District Judge, who is also the Sessions Judge for the Sessions Division of Bhojpur, heads the judiciary. Sub-ordinate Judge, Munsif, and Judicial Magistrate assist him

(iv) Physical Features

District of Bhojpur lies in the South Bihar Plain. Part of the district lies under Ganga Flood Plain, Buxar Plain and Arrah Plain. Part of the Behea, Arrah and Koilwar C.D. Blocks lies under Ganga Flood Plain. Part of the Behea, Shahpur and Jagdishpur lies under Buxar Plain. Arrah plain forms the south-eastern part of the district and lies on the western bank of the river Sone. Except Nawanagar and Barhampur C.D.

Blocks of Buxar district the Arrah Plain is entirely formed of parts of Bhojpur district, viz., entire Udwantnagar, Sandesh, Sahar, Tarari, Charpokhri and Piro C.D. Blocks as well as parts of Behea, Arrah, Koilwar, Jagdishpur, Shahpur and Barhara C.D. Blocks.

Natural Divisions

The entire strip of land between the river Ganga on the north and the main line of Eastern Railway on the south is a low lying deposits of silt from the Ganges almost every year and is extremely fertile. Infact, this region is considered to be the best wheat-growing area in the state of Bihar.

The district has rivers running almost three sides – North, East and some part of Southern boundary. The Ganges forms the northern boundary of the district. The low lying rich illuvial plains in the north-eastern and owe their fertility to the river Ganges. The rivers Chher and Banas fall into the Ganges.

The Sone is another important river in the district. The Sone enters the state of Bihar at the tri-junction of Palamu (Jharkhand), Mirzapur (U.P.) and Rohtas (Bihar). It runs along he southern and eastern boundaries of the district of Bhojpur unit it merges in the river Ganges near Maner in Patna district.

According to the District Statistical Report, there are 1244 villages in the district out of which 251 are uninhabited and 993 inhabited. There are 228 Panchayats and 12 revenue circles, 6 Town areas, 22 Police Stations, 5 Sub-Police Stations, 1 Railway Police Station, 7 out-Post-Police Stations in this district. This report, also provides the information about Post and Telegraph, which is as follows:

"In this district, there is one G.P.O. situated at the district headquarters Ara. There are also 41 Sub-Post Offices, 3 Addl. Departmental Post Office, 252 Addl. Departmental Sub-Post Offices. Altogether 989 villages are covered by these Post Offices. The number of Telegraph Centres is 35 in the district of Bhojpur."

Climatic Condition

The climate of the district is of moderately extreme type. The hot weather begins about the middle of March, when hot westerly winds begin to blow during the day. The months of April and May are extremely hot. In a normal year, the monsoon sets in by the third week of June and the rains continue with intermissions till about the end of September or the early part of October. The cold weather begins from the month of November and lasts till the beginning of March. January is the coldest month when temperature comes down as low as 10^0c. From the month of April till the first break down of the monsoon, the district experiences occasional thunder-storms also.

Rainfall

Rains set in June accompanied by a fall in temperature and increase in humidity. The district experiences maximum rains during the months of July and August. The average rainfall, in the normal conditions, recorded in these months are in the proximity of 300 mm. The district gets easterly winds from June to September which bring rains. From October the direction of the winds is reversed and westerly winds blow till May. There is slight rain-fall in October, but November and December are quite dry. Some winter rain occurs in January and February.

Forest

According to the District Statistical Report published by the District Administration, Bhojpur in 2001, it shows that the forest area in this district is zero. The District Census Hand Book 1961 of Shahabad describes the flora and fauna of the district in the following manner:

"The district was previously full of forests. It is said that the name "Ara" is a contortion of the word 'ARANYA', which in Sanskrit means 'Jangal'. The forests, it seems, suffered considerable damage during the 1759-1765, when the district was frequently overrun by contesting Moghal armies. It also suffered large scale devastation in the year 1761-62 when the forces of Kassim Ali Khan passed through the district. During the visit of Francis Buchanan in the year 1812-13 the area covered by forests had gone down to nearly 22 percent of the total area of the district. In the recent past, the forest suffered again during the period of 'Zamindari' abolition. A forestation had been taken up to the district are not rich in their products. Firewood is the most important among its product."

"The district had a wide variety of wild animals and game birds when the forests were thick and unfrequented by human begins. With the increase in the irrigation facilities the area under cultivation has grown up, consequently, diminishing the forests. Thee wild animals have suffered in the process and their numbers have gone down very considerably. Hyenas and spotted deer are found sometimes in the plains mostly adjacent to the hills".

" Fish-eating Crocodiles are found in large rivers. Common crocodiles are seen in other Geese of various varieties, Wild Duck, Teal, Partridges, Quail, Peafowl and Jungle fowls are among the game birds found earlier in the district."

Irrigational Facilities

The river Sone and Ganges are the perennial sources of surface water. They can provide irrigation to major portion of agricultural lands. In the 'Pre-Zamindari Abolition' days the Zamindars used to maintain 'Ahars' and 'Pynes' which served the purposes of both irrigation and drainage in certain pockets of the district. Ordinary wells also used to be a good source of irrigation.

The District Statistical Report published by the District Administration in the year 2001, 15,493 hctrs. Land is irrigated by big Sone canals, 15,940 hctrs. Land is irrigated by middle Sone canals and 18,379 hctrs. Land is irrigated by small canals. 2,582 hctrs. Land is irrigated by Govt. Electric Tubewells and 2,099 hctrs. Of land is irrigated by Govt. tubewells operated by diesel. The area of land irrigated by private electric tubewells is 8,263 hctrs. And 16,999 hctrs. Of land is irrigated by diesel operated private tubewells. 58,263 hctrs. And 16,999 hctrs. Of land is irrigated by diesel operated private tubewells. 58,586 hectrs. Of land is irrigated by other sources of irrigation like Ahars, wells and ponds etc. Thus this statistics shows that 1,77,341 hctrs. Of land out of 2,37,526 hctrs. Of land of total area is irrigated. It means 74.66% land of the district is irrigated.

The District Gazetteer of Shahabad (1966) mentions as follows:

"The agricultural prosperity of the district depended on artificial irrigation, without which many tracts would be uncultivated, and the land would be unable to grow sufficient food crops to sustain its population. The three great sources of irrigation were artificial reservoirs, wells and the Sone cannals all of which helped to supplement the natural supply of water and to compensate for its inadequacy or untimely distribution.

" Ahars are artificial reservoirs meant to collect the rain water. These long shallow tanks were protected by embankments and served as an artificial catchment basin for receiving the water coming down from adjacent lands. From the Ahars water channels (Pynes) are constructed or pynes are made to the nearest stream or water-course. The maintenance of the pynes was the responsibility of the landlords and the rights of the tenants to the use of water were duly recorded in the 'Fard-pashi".

" The sources of artificial irrigation mentioned so far, however, are of minor importance as compared to the Sone Cannal System which has been the most important source of irrigation in the district from the year it was constructed. The remodeling of Sone Barrage Project had been done recently in order to improve upon the Sone Irrigation System built in 1868-74. The Sone Barrage Project consists of the 3 units, namely, the Barrage on the river Sone, remodeling of cannal system and a high level cannal system. The remodeled

Sone cannal Systems was likely to irrigate and additional area of about 1.7 Lac acres of 'Kharif, 40,000 acres of 'Rabi' and 1 lac acres of hot water crops within the Sone Command."

Land Use Pattern

In this district both the irrigated and unirrigated areas except the small hills are being exploited for cultivation. Even some of the large ponds and "Jhils' which were duck-shooting areas have been de-watered and put to crop and grows 'Boro crops'. Intensive agriculture is also being attempted by what is popularly known as 'Package Program'. The Development Authorities are also trying to extend cultivation and improve the output. The remodeled Sone Canal System has the objective of bringing to more land under cultivation. Horticulture is spreading and orchards are springing up of all parts.

Rice, Wheat, Barley, Grams and pulses are main crops of the district. The winter rice forms the greater part of these crops. Gram is by far most important among the pulses grown in the district. Other pulses grown are 'Rahar', 'Khesari' and 'Masuri'. The important crops of the district other than the rice are wheat, oil-seeds and sugar-canes. The straw is used as fodder and for roofing the house.

The District Statistical Report published by the District Administration of Bhojpur in the year of 2001 shows the area of different crops production i.e., Paddy – 1,05,155 hctrs., Wheat 67,259 hctrs. Maize – 2,779 hctrs. Barley 1,154 hctrs. Gram 5,017 hctrs., Peas 2,016 hctrs., 'Arahar' 919 hctrs. 'Masuri 8,115 hctrs., 'Khesari' 8,989 hctrs. Oil seeds (Sarso) 2,866 hctrs., Spices 31 hctrs., Vegetables 5,119 hctrs., Fruits 2,651 hects. And Sugar cane 209 hctrs.

The report also published the data of the rate of production which is provided to the district administration by the State Directorate. It states the rate of production of different crops per hctrs. As follows:

"Paddy (High yielding irrigated) 3502 Kg. Per hctrws., Paddy (Locally irrigated) 3330 Kg per hctrs., Wheat (High yielding irrigated) 2725 Kg. Per hctrs., Wheat (High yielding un-irrigated) 2707 Kg. Per hctrs., 'Masur' 1047 Kg. Per hctrs., 'Khesari' 986 Kg. Per hctrs., Oil seeds (Sarso) 679 Kg. Per hctrs., and Gram – 937 Kg. Per hctrs.

Mines and Minerals

Mines and minerals resources in new Bhojpur district is very little. The only mineral product in this district is the sand from Sone river. About 40 Kms. Length of Sone river forms the part of southern and eastern boundary of the district of Bhojpur. The only managed sand collecting center is Koilwar which is about 5 Kms. Strip. About 35 Kms. Length is not properly managed to gather the sand.

Industrialisation

After bifurcation of the old Shahabad district in the new districts of Bhojpur and Rohtas the large scale industries generally fell in Rohtas district. There are, however, different types of small & cottage industries other than some agro-based industries located in the district of Bhojpur.

The District Statistical Report shows that between Apr. 1992 and Aug. 2000, 1985 small, tiny and cottage industries were registered with the District Industry Centre, Bhojpur. Altogether the capital invested in these industries is Rs. 869.19 Lacs., and 1858 persons are employed in these industries. There is an industrial area located at Gidha (Koilwar) spread in an area of 30-40 acres of land under the Patna Industrial Development Authority. A bottling plant of Indane Gas (LPG) is also started in this area. The development of industries depends on the regular supply of power but the district gets very short supply of the electricity against the required energy. The industrialization of the district is badly hampered due to this problem.

Other than above mentioned industries, the Khadi and Village Industry Board also helps in developing cottage and traditional industries like Khadi, Leather, Food processing, Gur-Khansari', Bee-

keeping, Silk-yarn, Edible oil, Soap, Bio-gas plant, Gum and Handmade Papers etc. A District Khadi Office is also running at district level. There are some rice mills also located in the southern part of the district.

Rural Electrification

According to the District Statistical Report 744 villages out of 1194 villages of the district are electrified. But only in 248 villages electric lines are in working and 496 villages were such where the supply power is not possible due to various problems such as theft of wires and improper maintenance. There are 3 rural power sub-station of 33/11 K.V. at Koilwar, Behia and Shahpur in the district Bhojpur. Four other rural Power sub-stations of the same capacity are under construction at Garahani, Piro, Jagdishpur and Saraia.

Banking

The Banking Industry is good in Bhojpur district as far as the number of the branches of different Banks are concerned. A report published by the District Administration, Bhojpur, there are 119 branches of different banks in this district. There are 53 branches of Bhojpur-Rohtas Gramin Bank, 8 branches of State Bank of India, 22 branches of Punjab National Bank, 1 Branch of Allahabad Bank, 2 branches of Bank of Baroda, 2 branches of Bank of India 3 branches of Canara Bank, 1 branch of Central Bank of India, 3 branches of Union Bank of India, 2 branches of United Commercial Bank, 1 branch of United Bank of India, 5 branches of Land Development Bank (Bhumi Vikas Bank), 15 branches of Central Co-operative Bank and 1 branch of Syndicate Bank are located at different places of the district.

Livestock

The district of Bhojpur has a large majority of the people engaged in agricultural persuits deriving their livelihood from agriculture of pasture. The position of livestock generally adds to the social status of the farmer. The quality of the Livestock has had some improvement because of serious effort of the Government and the response of the farmers. Since the district has quite a large population of prosperous agriculturists mostly due to the suitability of facilities of canal irrigation. The farmers in the canal irrigated area have considerable cattle wealth.

According to a report published by the District Administration Bhojpur, there are 24 Veterinary hospitals and dispensaries, 65 artificial semination centres and 8 ideal villages for proper care of the animals in this district. The number of artificial seminated cows and buffallows are 8103 in this district during the year of 2000-2001. In the same year 12,589 animals were imunised and 47,122 were given medical treatment by these centers.

In the year of 1982, a survey of the animals was conducted. After this survey no survey of animals was taken up. According to the report of 1982 survey, there were 1,37,922 Bulls and Oxen, 74,119 Cows, 30,252 Males calves, 47,670 Female Calves, 6,778 Buffallows (Male), 1,26,662 Buffallows (Female) 17,145 Sheeps, 24,350, He goats, 88,053 She goats, 20,337 Pigs and the number of asses, horses, monkeys and camels was 5,01,270 altogether in this district.

Communication

The district has been fairly rich in road communication for a long time. Francis Buchanan has mentioned in ‘Shahabad Journal’ that there are some very good roads in the district. He traveled “by a very good road with brick bridges from Koilwar to Ara” he also mentions a few other good roads viz., “The great road of Buxar, the Banaras road, road to Sasaram and the great road of Dumraon”. Patna-Ara – Buxar road, Bihia-Piro road, Sasaram-Bikramganj-Ara road are also worth mentioning.

There are three National Highways crossing the district headquarters, Ara and reaching Patna now a days. One originates from Buxar and reaches to Patna through Ara. Another two National Highways cross Ara and reach Patna. Both originates from the age old famous G.T. Road. One of these originates from Mohania at G.T. Road and the other also starts from G.T. Road at Sasaram.

Ara, the District Headquarters, is on the main line of Eastern Railway. It enters the district at Koilwar on the East and moves via Buxar to Moghalsarai on the West. Earlier, there was a narrow-gauge rail link from Ara to Sasaram. It is now closed since last 217 years. A new Broad-gauge rail line is being constructed between Ara and Sasaram.

The Ganga is navigable river in whole year round and goods are transported across the river to the Uttar Pradesh in the North through boats also play in the Sone intermittently, through the district has a network of canals.

Trade and Commerce

The important wholesale markets in the district are Ara and Behia. The main commodities exported from Ara Railway Station are Rice, Paddy, Gur, mango, Stone chips and main imports are cloth, Engineering goods, Medicine etc. The main places where commodities are sent are Patna, Bhagalpur, Calcutta etc. The main places from where commodities come to Ara are Calcutta, Bhagalpur, Muzaffarpur, Kanpur, Hapur Bombay etc. Ara town, the district headquarter has a number of important market areas such as Chowk Bazar, Nawada, Pakri etc. The town is well served by Railways, Roadways and Waterways.

Social and Cultural Events

The society of Bhojpur district is very much disturbed due to social violence since last three decades. But the last decade is very eventful regarding violence and counter violence. According to survey conducted by District Literacy Committee, Bhojpur in December 1997, 149 innocent persons were killed in the social violence and counter violence since 1990 upto December 1997. Another important event was a big social intervention to stop the killings of innocent persons. With the permission of the District Magistrate, Bhojpur, Volunteers of 'BHOR' (Zila Saksharta Samiti) marched in the villages affected by social violence in June, 1997.

The problem was discussed extensively with the common villagers by the Literacy volenteers. The villagers were persuaded to take iniciative to stop the violence and at village level peace committees were formed. This initiative yielded great result. This program was taken up in the most affected Block Sahar. Not a single massacre has been recorded in this since June 1997. Even no major violence incident is recorded in the whole district after this initiative except two, One at Nagari and another in Tarari. The social initiative taken up in the district of Bhojpur in the later half of the last decade showed the way towards peace and tranquility not only to the district but also to the major part of the middle Bihar. The farmers and the common people of villages are now living much peacefully and the graph of violence has come down considerably due to creation of awareness amongst common people. The establishment of the Panchayati Raj institutions after a long gap of 22 years has also played major role in this direction.

The district of Bhojpur, has also a great tradition and history in the filed of literature. The 5th "Bihar State Hindi Sahitra Sammelan" was organized in Dec., 1937 at Ara, the District Headquarters of Bhuojpur and old Shahabad. The organizing committee of this conference was presided by the famous writer Raja Radhika Raman Prasad Singh who delivered a welcome address at Ara to the delegates of this conference who gathered from corner of Bihar. Again the 22nd "Bihar State Hindi Sahitya Sammelan was also organized at Ara which was presided over by the great writer Shri Ram Briksh Benipuri the "Bal Hindi Pustakalaya" situated in the heart of the city of Ara was main center of these conferences. The "Bal Hindi Pustakalaya" has also played a great role in the development of culture and literature in this region since the period of "Independence Movement". The father of the nation Mahatma Gandhi and the first president of the Independent of India Dr. Rajendra Prasad had also visited this Library. So many "Idaras" of Urdu poetry and other writer's organization are active in the field of literature even today. This district has produced a number of poets and writers of national level.

Education

Primary: According the report published by the District Administration Bhojpur, the number of Primary School is 1308 and the number of Middle School is 252. Altogether 4442 teachers are working in these Primary and Middle Schools. Against 5081 required 1,15,602 girls and 1,52,981 boys in the age group 6-14 were enrolled according to the reports compiled at District Superintendent of Education's office on 31.03.2001.

Secondary: There were five 10+2 High Schools in the district in which 8693 students were enrolled. Among them the number of girl students was as low as 1621. There are also 108 High Schools in the district in which a total of 47,120 students were enrolled altogether. The number of enrolled girl students in the High Schools was only 11,669. The number of teachers teaching in the 10+2 High Schools is 133 out of which there are only 30 Female teachers were working. There were 1077 teachers were working in the High Schools of the district, out of which only 73 were the woman.

There are 5 Constituent Colleges and an University under the name Veer Kunwar Singh University situated at District Headquarter, Ara.

Literacy Movement

The district of Bhojpur has a remarkable achievement in the field of literacy. The decadal growth of literacy is 1.7% in the last decade, which is nearer to the national rate of decadal growth of 13%. The Zila Saksharata Samiti well known as "BHOR" in the district and headed by the District Magistrate is playing important role to improve the literacy of the district. According to the Census Report of 1991, the literacy of district was 47.1% and in the Census Report of 2001, it has grown up to 59.71%. The 'Total Literacy Campaign' and the 'Post Literacy Campaign' projects sanctioned by the National Literacy Mission were successfully implemented in Bhojpur. The external evaluation reports submitted to the 'National Literacy Mission' by the institution like Development and research Services, New Delhi" and Centre for Agrarian Research Training and Education (CARTE), Ghaziabad" states the story of Literacy movement in this district.

The evaluation study of P.L.C. conducted by CARTE, Ghaziabad in December 2000 in Bhojpur says in its introduction of the report as –

A conservative estimate of Neo-literate population (i.e. people in danger of rapid literacy skill erosion and possible relapse into illiteracy) is 325 million. This is roughly 60% of those whom we consider literate. Thus, a challenge of gigantic proportions facing India is not only to make one-third of its population atleast partially literate but also to create opportunities for another one-third to move from Neo to functional and to irreversible literacy. Innovations in the Post-literacy campaign (PLC) and life long phase, thus critically tough the lives of two out of every three Indians. The Bhojpur Zila Saksharta Samiti (BHOR) made some remarkable innovations during Post Literacy phase.

Apart from this the program has been successful to some extent towards creating health consciousness among the Neo-literates.

This programme, therefore requires not only to be continued till each single Illiterate/Neo-literate from each single village is covered.

Zila Saksharta Samiti (BHOR) also made some innovations such as seing up of Sahar Sanjeevani, Sanjeevani Sandesh (initiative for peace), meeting of widows of victims of violence and peoples' parliament. These activities have created a peaceful atmosphere in the otherwise violent villages. It is hope that these innovative programmes will be replicated not only in other parts of Bihar but also in other parts of the country.

The evaluation agency (CARTE) has also conducted the study of impact of literacy program. It says that the awareness through literacy campaign in different fields are as follows:

Health and sanitation consciousness has grown upto 35.84 percentage point, double croping (Multi croping) pattern in agriculture has increased upto 12 percent, the belief on superstition has gone down to only 5.2 percent from 21.6 percent before literacy. This report also states:

It is evident from the table the most of the learners were against the social evils after completing the program. There were sharp changes in the attitude towards sending girls to school. They felt that the girl's education was necessary. It come out clearly during discussion as well.

The study table shows that there was significant increase in awareness regarding Family Planing. This is an impact of literacy. Another study table also shows that there was great impact of literacy in creating awareness regarding Family Planning through 'BHOR' Programme.

Health Facilities

The health facilities in the district of Bhojpur is fairly good. There is one Sadar Hospital situated at the District Headquarter Ara which has facility of 157 beds. There are also 2 Referal Hospitals, 9 State dispensaries and 27 Addl. Primary health Centres in the district. The facility of beds in Referal Hospitals are 60 and 162 in State Primary Health Centres. Altogether 131 Doctors are posted in this district at different levels against the required number of 140 doctors.

(v) Census concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence,etc.
Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Room

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been

constructed to be a room. In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses. If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, storeroom, passage way and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office, etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which animale lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. But if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

All places with a municipality, corporation, cantonment board or notified town area committee, etc.

A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) at least 75 percent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 percent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:—(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town and—(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as

per the 1991 Census).— With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:— i) a city or town with one or more contiguous outgrowths;— ii) two or more adjoining towns with their outgrowths; and— iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.—It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.-

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State of Bihar are given below :

Scheduled Castes :

1. Bantar
2. Bauri
3. Bhogta
4. Bhuiya
5. Bhumij (excluding North Chotanagpur and South Chotanagpur divisions and Santal Parganas district)
6. Chamar, Mochi
7. Chaupal
8. Dabgar
9. Dhobi
10. Dom, Dhanger

11. Dusadh, Dhari, Dharhi
12. Ghasi
13. Halalkhor
14. Hari, Mehtar, Bhangi
15. Kanjar
16. Kurariyar
17. Lalbegi
18. Musahar
19. Nat
20. Pan, Swasi
21. Pasi
22. Rajwar
23. Turi

Scheduled Tribes :

1. Asur
2. Baiga
3. Banjara
4. Bathudi
5. Bedia
6. Bhumij (in North Chotanagpur and South Chotanagpur divisions and Santal Parganas district)
7. Binjhia
8. Birhor
9. Birjia
10. Chero
11. Chik Baraik
12. Gond
13. Gorait
14. Ho
15. Karmali
16. Kharia
17. Kharwar
18. Khond
19. Kisan
20. Kora
21. Korwa
22. Lohara, Lohra
23. Mahli
24. Mal Paharia
25. Munda
26. Oraon
27. Parhaiya
28. Santal
29. Sauria Paharia
30. Savar

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

Person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.— A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.-Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing -or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.— It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions,trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type

of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years.

Sex-ratio

Number of females per 1000 males in a population.

(vi) Non-Census Concepts

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conducts for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below :

Crude birth rate(CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1{,}000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1{,}000$$

q1 :

Probability of dying between birth and age1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR).

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such

persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA/Town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./towns. These Class I UAs/Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6 (2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999) towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are deterimental to safety ,health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Note on religion

Population of the Bhojpur district during 1991 was 2,880,447 Hindus constitute over 93.4 per cent (2,689,123persons) of the population in the district followed by Muslims 6.5 percent (1,87,520 persons). All other four major religious communities have almost negligible percentages.

Note on mother tongue

Spoken language, which is medium of conversation, is an important attribute of population. The Census Of India has been the richest source of language data collected and published during the successive decennial censuses over a century. During 1991 census, as in the previous censuses, the mother tongue as returned by each individual was collected.

The population of the Bhojpur district during 1991 was 28,80,447. As per distribution of different mother tongues (languages mentioned under 8th Schedule of Constitution of India) as returned during the 1991 Census for Bhojpur district, Hindi, the main mother tongue of the district was returned by 97.6 percent (28,10,840 persons) of the population. The corresponding percentage for the Urdu, the second most prominent language spoken in Bhojpur district, was 2.4 percent (68,296 persons). Speakers of other Scheduled languages were very thin in number than the two described above.

Note on important SCs and STs in the district of Bhojpur during 1991 census.

The population of the Scheduled Castes in the district of Bhojpur was 413,580 according to 1991 Census. Numerically, the five most prominent SCs in the district were (i) Chamar, Mhi 183,290) ii) Dusadh, Dhari, Dharhi (119,650)(iii) Musahar(41,394)(iv)Dhobi (26,819)(v)Pasi(20,613) while Chamar constituted the maximum proportion of Scheduled Castes population the percentage being 44.3 (more than one third of the total SC population). Dusadh and Musahar though numerically Second and third in order comprised only 28.9 and 10.0 percent of the SC population of the district. Dhobi and Pasi are much less in number as compared to the other three SCs mentioned above with only 6.5 and 5.0 percent of the total SC population of the district. Remaining Scheduled Castes were comparatively very less in number than the five SCs described above as their percentages to total SC population was less than even 1.0 percent except Rajwar,Dom/Dhanga and Nat whose percentages were 1.2,1.1 and 1.0 respectively.

The population of the Scheduled Tribes in the district of Bhojpur during 1991 Census was 7,282.Numerically, the five important STs were namely (i) Gond (ii) Kharwar(iii) Oraon (iv)Chero and (v)Munda. Gond had 4,749 population which constituted 65.2 percent of the Scheduled Tribes population in the district.Kharwar 1,742 population constituted 23.9 percent of the ST population. Oraon, which were 259 in number, constituted 3.6 percent of the ST population. Chero comprised 175 persons and constituted 2.4 percent of ST population while Munda with 104 populations constituted 104 percent of the total ST population in the district. The other Scheduled Tribes were almost negligible in population

(vii) 2001 Census Findings–Population and its Distribution

According to the 2001 Census, the total population of Bhojpur district is 22,43,144 comprising 11,79,611 Males and 10,63,533 Females and constituting 2.7 percent of the State population spread over 2.5 percent of the area of the State in the 14 C.D.Blocks of the district. Arrah is the most populous where as Charpokhari is the least populated C.D. Block in the district. Tables 1 to 52 based on PCA, V.D & Household data give insight into the colour and texture of the population in the district.

Brief analysis of PCA data based on inset tables 1 to 36 :

TABLE 1: DECADAL CHANGE IN POPULATION OF C.D. BLOCKS BY RESIDENCE, 1991-2001

Serial number	Name of C.D. Blocks	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Shahpur	153,544	142,290	11,254	185,911	171,442	14,469	21.1	20.5	28.6	7.3	7.8
2	Arrah	290,403	133,321	157,082	369,644	166,264	203,380	27.3	24.7	29.5	54.1	55
3	Barhara	157,085	157,085	0	194,439	194,439	0	23.8	23.8	0	0	0

12	Agiaon	99,746	99,746	0	122,151	122,151	0	22.5	22.5	0	0	0
13	Tarari	122,427	122,427	0	149,213	149,213	0	21.9	21.9	0	0	0
14	Sahar	85,157	85,157	0	99,585	99,585	0	16.9	16.9	0	0	0
	District Total:	**1,792,771**	**1,557,287**	**235,484**	**2,243,144**	**1,930,730**	**312,414**	**25.1**	**24.0**	**32.7**	**13.1**	**13.9**

Table – 1 shows rise in the population of this district during 1991-2001 decade has been of the order of 25.1 percent. The rural population in the district has increased by 24.0 percent while the urban population growth over the decade has been as much as 32.7 percent. Rural-urban migration is important factor which always leads to rapid expansion of the urban unit. Among the C.D.Blocks, Koilwar has shows the highest increase in population over the decade with 35.0 percent. It may be due to the fact that Koilwar town is the district headquarters and located in this C.D. Block. The next highest increase in population is observed in Jagdishpur C.D. Block with 33.5 percent followed by Garhani C.D. Block with 28.2 percent. Percentage decadal variation has been observed to be the least in Sahar C.D. Block with 16.9 percent.

The increase in rural population during 1991-2001 has been highest in Jagdishpur C.D. Block with 33.8 percent followed by Koilwar C.D. Block with 29.8 percent. On the other hands,Koilwar C.D. Block recorded highest (94.2 percent) urban growth during decade 1991 to 2001.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females

14	Sahar	15 (29.4)	25,072	23,348	2 (3.9)	7,795	7,222	0 (0.0)	0	0
Districts (Rural) Total:		**227 (22.7)**	**363,534**	**330,035**	**65 (6.5)**	**221,273**	**201,663**	**10 (1.0)**	**69,924**	**62,236**

It may be observed in the table – 2 that the maximum number of villages in the district lie in the population range of 1000-1999 accounting for 32.9 percent of the total inhabited villages closely followed by villages in the population range of 500-999 accounting for 23.0 percent of the total inhabited villages. The percentages of population in the above two population ranges are 24.4 percent and 8.9 percent of the total rural population of the district, respectively. The village in the population range of 2000-4999 constitute 22.7 percent of the total inhabited villages and these villages the percentage of population is only 35.9 percent. There are 102 villages in the population range of 200-499 accounting for 10.2 percent of the total inhabited villages and in these villages the percentage of population is 1.9 percent of the total rural population. There are 65 villages in the population range of 5000-9999 accounting for 6.5 percent of the total inhabited villages and in these villages the percentage of population is only 21.9 percent of the total rural population. There are only 36 villages in the population range of less than 200 accounting for 3.6 percent of the total inhabited villages and in these villages the percentage of population is only 0.2 percent. There are only 10 villages in the highest population range of 10,000 and above accounting for only 1.0 percent of the total inhabited villages in these villages the percentage of population is 6.8.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED, AND MERGED TOWNS IN 2001 CENSUS

	Name of town
	1
(a) New	
(i) Statutary town	NIL
(ii) Census town	NIL
(b) Denotified	NIL
(c) Declassified	NIL
(d) Wholly merged with other town(s)	NIL

Note : Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

TABLE 4: DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	24	2.4	47,700	2.5
11-20	1	0.1	7	0.0
21-50	6	0.6	193	0.0
51-100	6	0.6	950	0.0
101-200	17	1.7	8,148	0.4
201-300	14	1.4	10,535	0.5
301-500	93	9.3	100,480	5.2
501 +	838	83.9	1,762,717	91.3
Not known	0	0.0	0	0.0
District Total:	**999**	**100.0**	**1,930,730**	**100.0**
Population Density (Rural) of the district:		**904.7**		

The data presented in the above table highlights the fact that maximum proportion of villages in Bhojpur district lies in the density range (per square kilometer) of 501+ with 83.9 percent of the total inhabited villages, followed by villages in the density range of 301-500 which account for 9.3 percent. Villages in the density range of 0-10 account for 2.4 percent of the inhabited villages of the district. It would further be seen that small number of villages fall in the density range of 101-200 which account for 1.7 percent of the total inhabited villages.

Maximum number of villages fall in the density range of 501+ covering 91.3 percent rural population of the district, it followed by villages in the density rang of 301-500 which account for 3.2 percent The villages in the density range of 0-10 having 2.5 percent rural population of the district.

TABLE 5: SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	1,061	1,064	1,003	1,096	1,095	1,106
1911	1,051	1,056	942	1,062	1,070	963
1921	1,020	1,027	886	1,029	1,040	915
1931	995	1,005	820	995	1,009	864
1941	1,002	1,012	842	981	989	889
1951	1,000	1,010	859	1,007	1,015	923
1961	1,005	1,020	832	1,029	1,046	859
1971	957	968	833	977	991	849
1981	948	959	852	954	966	872
1991	907	913	857	904	910	864
2001	919	926	868	902	911	843

Note: Sex ratio has been defined here as the number of females per 1000 males.

The above Table 5 shows the sex ratio of the state and district in different Census since 1901 to 2001is observed from table that sex ratio for the urban areas of Bhojpur district are higher as compared to the urban areas of the state, However, on the other hand, the sex ratio for the rural areas of the state is found to be comparatively high as compared to the rural areas of Bhojpur district during 1991-2001 censuses. It has already been discussed that the district of Bhojpur was created after 1991 census. It is found that in case of sex ratio in the total population in the district it is lower than the sex ratio of the state of Bihar both in 1991 and 2001 censuses.

TABLE 6: SEX RATIO BY C.D. BLOCKS, 2001

Serial number	Name of C.D. Blocks	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Shahpur	893	892	912
2	Arrah	868	889	851
3	Barhara	886	886	
4	Koilwar	853	902	552
5	Sandesh	913	913	
6	Udwant Nagar	911	911	
7	Behea	908	911	889
8	Jagdishpur	917	917	923
9	Piro	925	931	887
10	Charpokhari	926	926	
11	Garhani	927	927	
12	Agiaon	924	924	
13	Tarari	925	925	
14	Sahar	944	944	
	District Total:	**902**	**911**	**843**

It observed from Table 6 that in Bhojpur district as a whole, there are 902 females for every thousand males. Within the district the sex ratio varies from 944 in Sahar C.D. Block 853 in Koilwar C.D. Block. The sex ratio of Garhani C.D. Block is 927 while the sex ratio of Charpokhari 926, Piro 925, Agiaon 924, Jagdishpur 917, Sandesh 913, Udwant Nagar 911, Behea 908, Shahpur 893, Barhara 886, Arrah 868.The sex ratio of Koilwar C.D. Block is 853. The sex ratio figures for rural and urban areas of Bhojpur district are 911 and 843, respectively. While the sex ratio figures for rural areas in C.D. Blocks viz Sandesh, Jagdishpur, Piro, Charpokhari, Garhani, Agiaon, Tarari and Sahar C.D. Blocks are higher than the district rural average of 911 while Shahpur (892), Arrah (889), Barhara (886) and Koilwar (902) C.D. Blocks have sex ratio lower than the sex ratio of the rural areas of the district. Among 14 C.D. Blocks of the district, only six C.D. Blocks have urban areas in which five C.D. Blocks viz Shahpur (912), Behea (889), Jagadishpur (923), Piro (887) and Arrah (851) have higher sex ratio in comparision to the sex ratio of the district urban areas.

TABLE 7: SEX RATIO BY C.D. BLOCKS, 2001

Serial number	Name of C.D. Blocks	Sex ratio
1	2	3
1	Shahpur	892
2	Arrah	889
3	Barhara	886
4	Koilwar	902
5	Sandesh	913
6	Udwant Nagar	911
7	Behea	911
8	Jagdishpur	917
9	Piro	931
10	Charpokhari	926
11	Garhani	927
12	Agiaon	924
13	Tarari	925
14	Sahar	944
	District (Rural) Total:	**911**

In rural areas of Bhojpur district, there are 911 females for every thousand males. Within the district, the sex ratio varies from 944 in Sahar C.D. Block to C.D. Block. The sex ratio of Sandesh, Jagadishpur, Piro, Charpokhari, Garh;ani, Agiaon, Tarari and Sahar C.D. Blocks are higher than the district rural average of 911 while Shahpur, Arrah, Barhara, Koilwar C.D. Blocks have sex ratio below the district rural average.

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	12	1.2	3,650	0.2
700-749	6	0.6	2,736	0.1
750-799	24	2.4	20,590	1.1
800-849	104	10.4	139,430	7.2
850-899	241	24.1	542,642	28.1
900-949	337	33.7	860,273	44.6
950-999	166	16.6	259,777	13.5
1000-1099	95	9.5	97,332	5.0
1100+	14	1.4	4,300	0.2
District Total:	**999**	**100.0**	**1,930,730**	**100.0**
Sex ratio (Rural) for District:		**911**		

It is observed from above Table – 8 that the maximum proportion of villages in Bhojpur district lies in the sex ratio range of 900-949 and these villages account for 33.7 percent of the total inhabited villages. It further reveals that these villages which fall in the sex ratio range account for 44.6 percent of the district rural population. 241 villages (24.1%) fall in the sex ratio range of 850-899 and these villages account for 28.1 percent of the rural population of the district. 166 villages (16.6%) are in the sex ratio range of 950-

999 and these villages account for 13.5 percent of the rural population. 104 villages (10.4%) fall in the sex ratio range of 800-849 and these villages account only 7.2 percent of the rural population. 95 villages (9.5%) are in the sex ratio range of 1000-1099 and these villages account for only 5.0 percent of the population only 24 villages (2.4%) fall in the sex ratio range of 750-799 and this small proportion of villages accounts for 1.1 percent of the population only 12 villages (1.2%) are in the lowest range of sex ratio (less than 700) which account for 0.2 percent of the population.

TABLE 9: SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Shahpur	NA	912
2	Arrah	M	851
3	Koilwar	NA	552
4	Behea	NA	889
5	Jagdishpur	M	923
6	Piro	NA	887
Sex ratio (Urban) for the district:			**843**

There is no urban agglomeration is Bhojpur district. There are only 6(six) urban unit is Shahpur(NA), Arrah(M), Koilwar(NA), Behea(NA), Jagdishpur(M) and Piro(NA). The sex ratio of the urban areas of the district is 843, according to 2001 census. The sex ratio of Jagdishpur(M), Shahpur(NA), Behea(NA), Piro(NA) and Arrah(M) urban towns are higher than the district urban average of 843. While Koilwar (552) urban has sex ratio below the district urban average.

TABLE 10: SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

		Urban	**50,585**	**26,432**	**24,153**	**914**

It is observed from the above table that the sex ratio in the age group 0-6 in the district varies from 959 in Behea C.D. Block to 914 in Arrah C.D.Block . The sex ratio figures in the age agroup 0-6 of Shahpur, Koilwar, Sandesh, Behea, Jagdishpur, Charpokhari, Garhani, Agiaon, Tarari, Sahar C.D.Blocks are higher than the district total and rural average while Arrah, Barhara, Udwant Nagar, Piro have sex ratio below the district total and rural averages. The urban sex ratio of Bhojpur district is lower than the total and rural sex ratio of the district.

TABLE 11: SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C.D.Blocks	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Shahpur	32,450	16,721	15,729	941

11	Garhani	17,104	8,737	8,367	958
12	Agiaon	23,368	11,959	11,409	954
13	Tarari	28,027	14,320	13,707	957
14	Sahar	19,516	10,057	9,459	941
	District (Rural) Total:	**372,657**	**191,788**	**180,869**	**943**

It is observed from Table 11 that the sex ratio in the age group 0-6 among the rural population in the C.D. Block of the district varies from 959 in Behea C.D.Block to 925 Udwant Nagar C.D. Block. The sex ratio of Tarari C.D.Block is 957. The sex ratio figures of Sandesh, Behea, Jagadishpur, Charpokhari, Garhani, Agiaon, Tarari C.D. Blocks are higher than the district average while Shahpur, Arrah, Barhara, Koilwar, Udwant Nagar, Piro and Sahar C.D. Blocks have sex ratio below the district average.

TABLE 12: SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	43	4.3	4,164	1.1
700-749	45	4.5	8,704	2.3
750-799	51	5.1	10,751	2.9
800-849	92	9.2	27,665	7.4
850-899	137	13.7	55,937	15.0
900-949	163	16.3	84,339	22.6
950-999	150	15.0	80,969	21.7
1000-1099	200	20.0	77,019	20.7
1100+	118	11.8	23,109	6.2
District (Rural) Total	**999**	**100.0**	**372,657**	**100.0**
Sex ratio (Rural) for District:		**943**		

It is observed in the above table that 20.0 percent of inhabited villages in Bhojpur district lies in the sex ratio range 1000-1099 in the age group 0-6. 163 villages (16.3%) fall in the sex ratio range 900-949 in the age group 0-6. 150 villages (15.0%) are in the sex ratio range of 950-999. 137 villages (13.7%) are in the sex ratio range of 850-899 and 118 villages (11.8%) are in the sex ratio range of 1100 and above. 92 (9.2%) villages are in the sex ratio range of 800-849. 51 (5.1%) villages are in the sex ratio range of 750-799. These villages having sex ratio constitute 2.3 percent of the rural population of the district. There are 92 villages (9.2%) in the district, which lie in the unfavorable sex ratio range of 800-849. These villages account for 7.4 percent of the rural population of the district. There are 43 villages in the district having very unfavourable sex ratio range of less than 700 which account for 1.1 percent of the rural population of the district.

TABLE13: SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA / Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Shahpur	NA	2,857	1,449	1,408	972
2	Arrah	M	30,925	16,333	14,592	893
3	Koilwar	NA	2,726	1,396	1,330	953
4	Behea	NA	3,621	1,844	1,777	964
5	Jagdishpur	M	5,382	2,780	2,602	936
6	Piro	NA	5,074	2,630	2,444	929
	District(Urban) Total		**50,585**	**26,432**	**24,153**	**914**

There is no urban agglomeration in Bhojpur district. It is apparent from the above table that there are only six statutory town in Bhojpur district, i.e. Shahpur(NA), Arrah(M), Koilwar(NA), Behea(NA), Jagdishpur(M) and Piro(NA). The sex ratio in the age group 0-6 of total urban areas is 914. While the sex ratio of Shahpur urban is 972. The sex ratio figures in the age group 0-6 of Koilwar(NA), Behea(NA), Jagdishpur(M) and Piro(NA) towns are higher than the district total and urban average while Arrah(M) has sex ratio below the district urban average.

		Rural	99,585	18,323	8	18.4	0
		Urban	0	0	0	0	0
	District Total:	**Total**	**2,243,144**	**343,598**	**8,337**	**15.3**	**0.4**
		Rural	**1,930,730**	**313,118**	**7,109**	**16.2**	**0.4**
		Urban	**312,414**	**30,480**	**1,228**	**9.8**	**0.4**

The above table shows that the percentage of scheduled castes in Bhojpur district is 15.3 percent of the total population in the district. Within the district highest percentage of Scheduled Castes population is in Chapokhari C.D. Block with 20.7 percent closely followed by Tarari, Sahar, Udwant Nagar, Garhani, Piro, Agiaon, Behea, Koilwar, Jagdishpur, Shahpur, Arrah and Barhara C.D. Blocks with 19.6, 18.4, 18.4, 17.7, 15.7, 15.7, 15.5, 14.5, 14.6, 14.513.6, 18.6 and 12.6 percent, respectively. The percentage of Scheduled Castes population in Bhojpur district for the urban areas is 9.8 percent which is lower than the rural areas (16.2%). Among further C.D. Blocks only six C.D. Blocks have Scheduled Tribes populatin. In which Sahpur C.D. Block has highest proportion of Scheduled Tribes population (i.e. 1.0 percent) while Sandesh and Piro C.D.Blocks have only 0.1 percent. Barhara in C.D. Block 0.9 percent. The percentage of scheduled tribes population in Behea for the urban areas is 2.1 percent which is higher than the rural areas (1.1%). The percentage of scheduled tribes population in Bhojpur district for the urban and rural areas is 0.4 percent.

TABLE 15: NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D.BLOCKS, 2001

Serial number	Name of C.D. Blocks	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Shahpur	171,442	23,453	1,835	13.7	1.1
2	Arrah	166,264	28,057	1,492	16.9	0.9
3	Barhara	194,439	24,541	1,764	12.6	0.9
4	Koilwar	149,636	22,826	462	15.3	0.3
5	Sandesh	90,259	12,803	80	14.2	0.1
6	Udwant Nagar	132,258	24,364	43	18.4	0
7	Behea	118,633	19,596	636	16.5	0.5
8	Jagdishpur	184,456	27,959	495	15.2	0.3
9	Piro	181,539	29,944	167	16.5	0.1
10	Charpokhari	84,530	17,513	22	20.7	0
11	Garhani	86,325	15,315	1	17.7	0
12	Agiaon	122,151	19,144	36	15.7	0
13	Tarari	149,213	29,280	68	19.6	0
14	Sahar	99,585	18,323	8	18.4	0
	District (Rural) Total:	**1,930,730**	**313,118**	**7,109**	**16.2**	**0.4**

The above table indicates that the percentage of the scheduled castes in Bhojpur district is of the order of 16.2 percent of the total population. The highest percentage of scheduled castes population is in Charpokhari C.D. Block with 20.7 percent off the total population closely followed by Tarari, Sahar, Udwant Nagar, Garhani, Arrah, Behea, Piro, Agiaon, Jagdishpur, Koilwar, Sadesh, Shahpur and Barhara C.D. Blocks with 19.6, 18.4, 18.4, 17.7, 16.9, 16.5, 16.5, 15.7, 15.2, 15.3 14.2, 13.7 and 12.6 percent, respectively. The percentage of scheduled castes population in Charpokhari, Sahar, Agiaon, Garhani, Piro, Arrah, Udwant Nagar, Behea C.D. Blocks are higher than the district rural average (16.2%). The percentage of scheduled tribes population in Shahpur C.D. Block of Bhojpur district is 1.1 percent. The percentage of scheduled tribes population in the C.D. Blocks of Bhojpur district is 0.4 percent.

TABLE 16: PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	136	13.6	0	0.0
Less than 5	82	8.2	3,657	1.2
5-10	146	14.6	28,618	9.1
11-20	343	34.3	145,857	46.6
21-30	173	17.3	85,714	27.4
31-40	66	6.6	32,737	10.5
41-50	25	2.5	9,177	2.9
51-75	20	2.0	6,089	1.9
76 and above	8	0.8	1,269	0.4
District Total	**999**	**100.0**	**313,118**	**100.0**

From the above table, it is apparent that there are 343 villages accounting for 34.3 percent of the inhabited villages in the district where the population of scheduled castes range between 11-20 percent of total population. This is closely followed by villages where the population of the scheduled castes range between 21 and 30 percent of the total population. These 173 villages account for 17.3 percent of the total inhabited villages. There are 146 villages, which account for 14.6 percent of the inhabited villages where the percentage of scheduled castes population to total population lies in range 5-10. There are 136 villages which have no Scheduled Castes population 82 villages are such which constitute 8.2 percent of the inhabited villages where the percentage of scheduled castes population to total population is less than. 66 villages which account for 6.6 percent of the inhabited villages where the percentage of scheduled castes population to total population lies in range 31 and 40.

TABLE 17: PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	880	88.1	0	0.0
Less than 5	102	10.2	4,944	69.5
5-10	13	1.3	1,681	23.6
11-20	3	0.3	465	6.5

31-40	0	0.0	0	0.0
41-50	0	0.0	0	0.0
51-75	0	0.0	0	0.0
76 and above	1	0.1	19	0.3
District Total	**999**	**100.0**	**7,109**	**100.0**

As regards the population of the scheduled tribes it can be seen from the table that there are only 102 villages in the district where members of the scheduled tribes exist. In these villages the population of the scheduled tribes is less than 5 percent of the total population. There are 13 villages account for 1.3 percent of the total inhabited villages. There are 3 villages, which account for 0.3 percent of the inhabited villages where the percentage of scheduled tribes population to total population lies between 11 and 20. There are as many as 880 villages, which constitute 88.1 percent of the total inhabited villages in the district, which have no scheduled tribes population.

TABLE 18: NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA / Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Shahpur (NA)	14,469	1,914	21	13.2	0.1
2	Arrah (M)	203,380	19,299	630	9.5	0.3
3	Koilwar (NA)	19,928	1,856	7	9.3	0
4	Behea (NA)	20,741	2,031	443	9.8	2.1
5	Jagdishpur (M)	28,085	2,861	86	10.2	0.3
6	Piro (NA)	25,811	2,519	41	9.8	0.2
District(Urban) Total		**312,414**	**30,480**	**1228**	**9.8**	**0.4**

Above Table 18 shows that there is no urban agglomeration in Bhojpur district. There are only six statutory towns in the district i.e. Shahpur(NA), Arrah(M), Koilwar(NA), Behea(NA), Jagdishpur(M), Piro(NA). The percentage of scheduled castes population to total population is 9.8 and scheduled tribes population to total population 0.4 in total urban areas. The highest percentage of scheduled castes population lies in Shahpur(NA) with 13.2 percent of the total population closely followed by Jagdishpur(M), Piro(NA) and Behea(NA), Arrah(M), Koilwar(NA) with 10.2, 9.8, 9.5 and 9.3 percent, respectively. The percentage of scheduled tribes population in the total urban areas Bhojpur district is Behea(NA), which has no 2.1 percent. It is Koilwar(NA) Scheduled Tribes population.

TABLE 19: SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C.D.Blocks	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Shahpur	911	828
2	Arrah	858	925
3	Barhara	872	875
4	Koilwar	883	925
5	Sandesh	888	509
6	Udwant Nagar	909	1,263
7	Behea	883	828
8	Jagdishpur	910	897
9	Piro	912	988
10	Charpokhari	916	1,200
11	Garhani	904	0
12	Agiaon	913	800
13	Tarari	917	1,000
14	Sahar	912	600
	District (Rural) Total	**899**	**873**

Shows that the sex ratio of scheduled castes varies from 917 in Trari C.D. Block to 858 in Arrah C.D. Block. The sex ratio in Barhara C.D. Block is 872. While the sex ratio in Shahpur, Udwant Nagar, Jagdishpur, Piro, Charpokhari, Garhani, Agiaon, Tarari and Sahar, C.D. Blocks are higher than the district average. The sex ratio figures of Arrah, Barhara, Koilwar, Sandesh and Behea C.D. Blocks are lower than the district average.

The sex ratio of scheduled tribes varies from 1263 in Udwant Nagar C.D. Block to 509 in Sandesh C.D. Block and Garhani C.D. Block is nil (zero) scheduled tribes. Sex ratio figures of scheduled tribes in Arrah, Barhara, Udwant Nagar, Jagdishpur, Piro, Charpokhari, Tarari C.D. Blocks are highest the district average. As sex ratio scheduled tribes in Shahpur, Sandesh, Behea, Agiaon and Sahar C.D. Blocks are below the district average. It is worthwhile to mention that scheduled tribes population in the district is negligible.

TABLE 20: SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A.^ / Town +*	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Shahpur (NA)	920	1,333
2	Arrah (M)	834	810
3	Koilwar (NA)	668	750
4	Behea (NA)	953	901
5	Jagdishpur (M)	949	1,000
6	Piro (NA)	908	640
Sex ratio (Urban) for the district:		**851**	**855**

There is no urban agglomeration in Bhojpur district. There are only six statutory town in the district i.e. Shahpur(NA), Arrah(M), Koilwar(NA), Behea(NA), Jagdishpur(M) and Piro(NA). The sex ratio of

scheduled castes in Shahpur(NA) 920, Behea(NA) 953, Jagdishpur(M) 949 and Piro(NA) 908 are higher than sex ratio total urban areas of the district. There are sex ratio of scheduled castes in Arrah(M), Koilwar(NA) urban areas lower than the district average. The sex ratio of Scheduled Tribes in urban areas of the districtis 855.

The sex ratio of scheduled tribes varies from 1333 in Shahpur(NA) town to Piro(NA). Sex ratio figures of scheduled tribes in Arrah(M) and Koilwar towns are below the district average. The sex ratio figures of scheduled tribes relating to Shahpur(NA), Behea(NA) and Jagdishpur(M) towns are higher than the district average.

TABLE 21: NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY C.D. BLOCKS, 2001

Table 21 and 22 show that in rural areas of the the C.D. Blocks in the district. Tarari C.D. Block has the highest proportion of literate population (60.0%) followed by Arrah C.D. Block (59.8%). The literacy rate for Koilwar, Udwant Nagar, Charpokhari, Piro, Garhani, Sahar, Barhara, Sandesh, Agiaon, Shahpur and Jagdishpur C. D. Blocks are 59.4, 59.2, 58.0, 57.5, 57.1, 56.6, 55.4, 55.0, 54.2, 54.1 and 52.6 percent respectively. Male literates out number female literates in all the C.D. Blocks of Bhojpur district. The highest proportion of male literates is in Arrah, Charpokhari C.D. Block with 76.2 percent closely followed by Udwant Nagar. Tarari, Koilwar, Garhani, Piro, Sahar, Agiaon, Barhara, Behea, Shahpur, Jagdishpur C.D. Blocks with 75.8, 76.1, 75.3, 74.8, 74.6, 74.2, 73.1, 71.6, 70.4, 70.3 and 70.1 percent respectively. Tarari C.D. Block has the highest female literacy rate with 42.4 percent while Jagdishpur C.D. Block has the lowest literacy rate among the female with 33.3 percent. Male literacy

rate for Arrah, Koilwar, Udwant Nagar, Piro, Charpokhari, Garhani, Tarari and Sahar C.D. Blocks are higher than the corresponding figures of Bhojpur districet. Only Shahpur, Sandesh, Behea, Jagdishpur, Charpokhari, Agiaon C.D. Blocks have the lower female literacy rate than the district average.

TABLE 23: DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	2	0.2	27	0.0
1-10	3	0.3	564	0.0
11-20	4	0.4	1,338	0.1
21-30	19	1.9	12,798	0.7
31-40	50	5.0	50,390	2.6
41-50	192	19.2	394,077	20.4
51-60	350	35.0	834,605	43.2
61-70	283	28.3	523,137	27.1
71-80	87	8.7	106,845	5.5
81-90	9	0.9	6,949	0.4
91-99	0	0.0	0	0.0
100	0	0.0	0	0.0
District Total:	**999**	**100.0**	**1,930,730**	**100.0**
Literacy rate for District:		**59**		

The above Table 23 shows that in 35.0 percent of the inhabited villages, literacy rate range between 51 and 60 percent. In these 350 villages 43.2 percent of the district rural population live. This is the largest grave of villages in the district. This is closely followed by 283 villages and with 27.1 percent of the district rural population. 28.3 percent of the inhabited villages where literacy rate range between 61 and 70 percent. 19.2 percent of the inhabited villages i.e. 192 villages are such where literacy rate range between 41 and 50 percent. These villages account for 20.4 percent of the district rural population. 8.7 percent of the inhabited villages i.e. 87 villages are such where literacy rate range between 71 and 80 percent and these villages account for 5.5 percent of the district rural population 5.0 percent of the inhabited villages i.e. 50 villages are such where literacy rate range between 31 and 40 percent. These villages account for 2.6 percent of the district rural population. There are only 19 villages accounting for 1.9 percent of the inhabited villages where literacy rate range between 21 and 30 percent and these villages account for only 0.7 percent to the district rural population.

TABLE 24: NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS / TOWNS, 2001

	District (Rural) Total:	**94,111**	**71,634**	**22,477**	**219,007**	**93,275**	**125,732**	**38.2**	**54.9**	**19.5**	**35.4**

The table above shows that literacy rate among the scheduled castes is highest i.e. 45.5 percent in the Barhara C.D. Block where as it is lowest i.e. 31.3 percent in the Garhani C.D. Block in the district. It is observed that the literacy rate among the scheduled castes for the district is 38.2 percent only. Literacy rate for Arrah, Shahpur, Barhara, Koilwar, Sandesh and Behea C.D. Blocks are higher than the corresponding figures of Bhojpur district. As regards percentage of male literacy rate among the scheduled castes it is highest i.e. 63.2 percent in Barhara C.D. Block where as it is lowest i.e. 46.0 percent in the Garhani C.D. Block. In case of female literacy rate among the scheduled castes also it is highest i.e. 25.0 percent in Barhara C.D. Block and the lowest i.e. 14.9 percent in Garhani C.D. Block. Females scheduled castes literacy for Arrah, Barhara, Koilwar and Sandesh C.D. Blocks are higher than the district average. It is found that the gap between male and female literacy rate is highest i.e. 39.1 percent in Shahpur C.D. Block where as it is lowest i.e. 31.1 percent in Garhani C.D. Block.

TABLE 26: DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	13	1.5	1,136	0.4
1-10	20	2.3	2,719	0.9
11-20	64	7.4	19,442	6.2
21-30	136	15.8	66,759	21.3
31-40	198	22.9	93,779	30.0

TABLE 26: DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
41-50	211	24.4	76,317	24.4
51-60	146	16.9	40,730	13.0
61-70	62	7.2	9,699	3.1
71-80	10	1.2	1,659	0.5
81-90	2	0.2	872	0.3
91-99	0	0.0	0	0.0
100	1	0.1	6	0.0
District Total:	**863**	**100.0**	**313,118**	**100.0**
Literacy rate for District (Rural):		**38.2**		

The above table 26 shows that in case of literacy among the scheduled castes in the villages of the district the highest number of villages i.e. 24.4 percent fall in the literacy range i.e. 41-50 percent. It is observed that of the total villages in the district 2.3 percent villages are such which fall in the literacy range of 1-10 percent of literacy among the scheduled castes in the villages of the district.

TABLE 27: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Shahpur (NA)	544	377	167	1,370	620	750	36.9	48.4	24	24.4

14	Sahar	5	3	2	3	2	1	100	100	100	0
	District (Rural) Total:										
District (Rural)Total:		**2,487**	**1,874**	**613**	**4,622**	**1,921**	**2,701**	**44.1**	**61.8**	**23.5**	**38.4**

The table 28 shows that among the scheduled tribes the percentage of literates is highest i.e. 100 percent in Sahar C.D. Block where as it is lowest (i.e. 23.5 percent) in Tarari C.D. Block of the district. It is observed that the literacy rate among the scheduled tribes for the district is 44.1 percent only. As regards percentage of male literacy rate among the scheduled tribes it is highest i.e. 100 percent in Sahar C.D. Block where as it is lowest i.e. 33.3 percent in Tarari C.D. Block. In case of female literacy rate among the scheduled tribes it is highest i.e. 100 percent in Sahar C.D. Block. Such higher percentage in literacy rate among the scheduled tribes population is because of very thin tribal population in the district.

TABLE 29: DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR CHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	14	11.8	90	1.3
1-10	3	2.5	95	1.3
11-20	5	4.2	192	2.7
21-30	12	10.1	969	13.6
31-40	26	21.8	2,080	29.3
41-50	19	16.0	1,466	20.6
51-60	19	16.0	1,291	18.2
61-70	5	4.2	389	5.5
71-80	8	6.7	430	6.0
81-90	1	0.8	7	0.1
91-99	1	0.8	81	1.1
100	6	5.0	19	0.3
District Total:	**119**	**100.0**	**7,109**	**100.0**
Literacy rate for District (Rural):		**44.1**		

The Table 29 shows distribution of village by literacy rate range for Scheduled Tribes population, 2001 literacy among the scheduled tribes in the villages of the district the highest number of villages 26 (i.e. 21.8) percent fall in literacy range of 31-40 percent whereas the lowest number of villages 1 (i.e. 0.8) percent falls in the literacy range i.e. 81-90 and 91-99 percent.

19 villages 16.0 percent of the number of villages district rural population of literacy rate range between 41-50 and 51-60. It is observed that of the total villages in the district 11.8 percent villages in which Scheduled Tribes are illiterate.

TABLE 30: NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Shahpur (NA)	2	2	0	19	7	12	11.1	25	0	25
2	Arrah (M)	346	214	132	284	134	150	64.7	72.1	55.5	16.6
3	Koilwar (NA)	7	4	3	0	0	0	100	100	100	0
4	Behea (NA)	207	135	72	236	98	138	59.7	73.8	43.9	29.9
5	Jagishdpur (M)	42	25	17	44	18	26	61.8	75.8	48.6	27.2
6	Piro (NA)	10	10	0	31	15	16	35.7	58.8	0	58.8
	Bhojpur (Urban)	**614**	**390**	**224**	**614**	**272**	**342**	**61.2**	**72**	**48.6**	**23.4**

The above table shows that the literacy rate among the scheduled tribes in the urban areas of the district is 61.2 percent. There are all together 614 persons including 390 males and 224 females and they all are literates. Koilwar (NA) has 100 percent literacy rate among the scheduled tribes in the urban areas of the male and female population of the district. Male literacy rate among the Scheduled Tribes in Arrah (M), Koilwar (NA), Behea (NA) and Jagdishpur (M) and female literacy rate in Arrah (M) and Koilwar (NA) are higher than district urban average. It is found that the gap between male and female literacy rate in Behea (NA), Jagdishpur (M), Piro (NA) and Shahpur (NA), 29.9, 27.2, 58.8, 25.0 percent..

TABLE 31: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN C.D.BLOCKS, 2001

Table 31 shows number and percentage of main workers, marginal workers and non workers by sex in C.D. Blocks for total (Rural + Urban) while table 32 shows same for rural areas of the C.D. Blocks.

The work participation rate for total workers is defined as the percentage of total workers to total population. In a similar way it is defined far main and marginal workers table 31 and 32 shows that the work participation rate (WPR) in the Bhojpur district is 22.1 percent as main workers and 8.0 percent as marginal workers. Proportion of nonworkers in the district is 70.0 percent.

Among the main workers male work participation rate in rural areas of the district is 36.8 percent while that of females is only 5.9 percent in per 2001 census. The proportion of main workers is highest (26.2%) in Charpokhari C.D. Block and the lowest (18.2%) in Barhara C.D. Block. Out of 14 C.D.Blocks WPR of 7 C.D. Blocks are above the district average. The proportion of marginal workers is the highest (13.3%) in Sahar C.D. Block and the lowest (5.5%) in Behea C.D. Block. The proportion of total workers is highest (37.0%) in Sahar C.D. Block and the lowest (25.9%) in Barhara C.D. Block.

The proportion of non-workers among males in the rural areas of the district is 55.2 percent while that of females is 86.2 percent as per 2001 census. The proportion of non-workers is the highest in Barhara C.D. Block and the lowest (74.1%) and lowest (6.3%) in Sahar C.D. Blocks.

There is no urban agglomeration in Bhojpur district. There are six urban unit 8 in the district viz Shahpur(NA), Arrah(M), Koilwar(NA), Behea(NA), Jagdishpur(M) and Piro(NA). The work participation rate for total workers is defined as the percentage of total workers to total population. In a similar way it is defined for main and marginal workers. For total urban areas the work participation rate (WPR) is recorded 21.1 percent of the total population of the town as main workers and 2.6 percent as marginal workers. The

proportion of main workers is the highest 13.0 percent in Koilwar(NA) and the lowest (22.8%) in Piro town. The proportion of non workers in the town is 76.4 percent. The proportion of male and female main workers are 36.4 percent and 2.9 percent respectively. The proportion of marginal workers among males is 3.4 percent and that of females is 1.6 percent. The proportion of male and female non workers are 60.2 percent and 96.0 percent respectively.

Note: Percent of Worker to total worker are given in brackets

From the above table, the relative importance of the main spheres of economic activity may be gauged from the pattern of distribution of main workers according to the broad four fold classification namely, cultivators, agricultural labourers, household industry workers and other workers. The economic activity in the rural and urban areas in the district is primarily dependent on agriculture, which is supported by the fact that the cultivators (34.7%) and agricultural labourers (39.5%) together constitute 74.2 percent of the total workers of the district. The agriculture sector has absorbed more than three fourth of the main workers. The proportion of cultivators varies between 43.5 percent for Piro C.D. Block to 18.5 percent for Arrah C.D. Block. Proportion of agricultural labourers varies between 52.4 percent in Sahar C.D. Block to 24.4 percent in Arrah C.D. Block. The proportion of household industry workers is only 2.9 percent of the total workers of the district. Proportion of households'

industry workers varies between 6.1 percent in Barhara C.D. Block to 2.4 percent in Charpokhari C.D. Block. The proportion of other workers is 22.0 percent of the total workers of the district. Proportion of other workers varies between 53.3 percent in Arrah C.D. Block to 7.2 percent in Charpokhari C.D. Block.

Note: Percent of Worker to total worker are given in brackets

From the above table, the relative importance of the main spheres of economic activity may be gauged from the pattern of distribution of main workers according to broad four fold classification namely cultivators, agricultural labourers, household industry workers and other economic activities. The economic activity in the rural area of the district is primarily dependent on agriculture which is supported by the fact that the cultivators (38.4%) and agricultural labourers (42.9%) together constitute 81.3 percent of the total workers of the district. The agriculture sector has absorbed more than three fourth of the total main workers. The proportion of cultivators varies between 47.0 percent for Piro C.D. Block to 30.5 percent for Barhara C.D. Block. Proportion of agricultural labourers varies between 52.4 percent for Sahar C.D. Block to 37.8 percent for Piro C.D. Block. The proportion of Household industry workers is only 3.7 percent of the total workers of the district. Proportion of household industry workers varies between 6.1 percent for Barhara C.D. Block to 2.4 percent for Charpokhari C.D. Block. The proportion of other workers is 15.0 percent of the total workers of the district. Proportion of other workers varies between 22.9 percent for Barhara C.D. Block to 7.2 percent for Charpokhari C.D. Block.

Note: Percent of Worker to total worker are given in brackets

There is no urban agglomeration in Bhojpur district. There is only six statutory towns in the district i.e. Shahpur(NA), Arrah(M), Koilwar(NA), Behea(NA), Jagdishpur(M) and Piro(NA). From the above table the relative importance of the main spheres of economic activity may be gauged from the pattern of main workers according to the broad four fold classification namely cultivators, agricultural labourer, household industry workers and other economic activities. The cultivators constitute 5.6 percent and agricultural labourares constitute 12.6 percent of the total workers of the urban areas. The proportion of cultivators varies between 26.6 percent for Shahpur(NA) to 2.3 percent for Arrah(M) urban. There are Shahpur(NA), Behea(NA), Jagdishpur(M) and Piro(NA) total urban average. The proportion of male and female cultivators are 5.8 and 3.6 percent respectively. The proportion of male and female agricultural labourers are 11.1 and 28.8, percent respectively. The proportion of agricultural labourer in Shahpur(NA) is highest (32.9%), Jagdishpur(M) 25.3 percent, Piro(NA) 23.6 percent and Behea(NA) 15.7 percent. Household industry workers constitute 5.0 percent of the total workers of urban areas in Bhojpur district. The proportion of household industry workers among males i.e. 4.5 percent and that of females is 10.1 percent. Proportion of household industry workers varies between 9.0 percent for Jagdishpur(M) urban to 1.6 percent for Koilwar(NA) urban . Other workers constitute 76.8 percent of the total workers of Bhojpur district. The proportion of male and female other workers are 78.6 and 57.6 percent, respectively.

(b). Brief analysis of the Village Directory and Town Directory data based on inset tables 37 to 47:

Note: - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above Table 37 gives the distribution of villages according to the availability of different amenities in the district.

Educational amenity : There are as many as 893 villages accounting for 89.4 percent of the total number of inhabited villages(999) in the district where educational facility is available. The C.D. Block Piro has highest proportion of villages with educational facility (i.e.97.0) closely followed by Sahar C.D. Block

with 96.1 percent. The lowest proportion of villages with educational facility is observed in Behea C.D. Block with 75.6 percent.

Medical amenity :The availability of medical amenity in the villages is quite low and only 13.3 percent villages of the district have got it. Sandesh has the largest proportion of villages with medical facility i.e 31.9 percent. It is also observed that Piro, Arrah, Shahpur, Sahar C.D. Blocks and Barhara C.D. Blocks with 20.8, 20.0, 19.8, 17.6 and 15.5 percent respectively having medical facility above to the district average. On the other hand, Agiaon, Tarari, Udwant Nagar, Jagdishpur, Behea C.D. Blocks, having this proportion of villages 10.3, 7.6, 7.2, 6.5 and 6.4 percent respectively which are lower than that of the district average Garhani C.D. Block has no medical facility.

Improved drinking water :There are as many as 97 villages accounting for 97.6 percent of the total inhabited villages in the district where improved drinking water facility is available. In Shahpur, Arrah, Udwant Nagar, Jagdishpur, Sahar C.D. Blocks 100 percent villages having improved drinking water facility. Charpokhari C.D. Block on the other hand, has this facility in 83.6% villages.

Post office :Postal facilities are available only in 267 villages out of 999 inhabited villages (26.7%) in the district. Piro C.D. Block has the maximum number of villages having postal facility (35.6%) followed by Barhara C.D. Block with (32.8%). Shahpur, Koilwar, Sandesh, Behea, Garhani, Agiaon, Tarari and Sahar C.D. Blocks having proportion of postal facility 29.1, 31.1, 29.8, 26.9, 29.2, 25.0, 26.1 and 29.4 respectively. Arrah C.D. Block has lowest proportion of villages having postal facility (15.6%).

Telephone :The availability of telephone facility in the villages is quite low and only 14.1 percent villages of the district have got it. Among the C.D. Blocks, Koilwar has the highest proportion of villages, having telephone facility (47.5%) followed by Arrah, Sandesh, Jagdishpur, Piro, Garhani and Tarari C.D. Blocks with 21.1, 34.0, 24.7, 19.8, 12.5 and 14.1 percent respectively. While the villages of Shahpur and Charpokhari C.D. Blocks still do not have telephone facility.

Transport Communication :Transport Communication facility are available only in 249 villages out of 999 inhabited villages (24.9%) in the district. Majority of villages still do not have this facility. Sandesh C.D. Block has the highest proportion of villages(46.8%) which are connected by bus or rail or navigable river/canal service etc., followed by other village which have this proportion higher to the district average viz. Udwant Nagar, Jagdishpur, Arrah, Koilwar, Agiaon and Sahar, C.D. Blocks with 36.2, 29.9, 28.9, 27.9, 44.1, 25.5, percent, respectively. The villages of Garhani, Charpokhari, Piro and Barhara C.D. Blocks having transportation facility in 14.6, 13.7, 15.8 and 17.2 percent village.

Bank :Banking facility is available only in 53 villages out of 999 inhabited villages (5.3%) in the district. Among the C.D. Blocks, Sandesh has the highest proportion of villages having banking facility (10.6%) followed by Barhara, Sahar, Tarari, Shahpur, Udwant Nagar, Agiaon and Piro C.D. Blocks with 8.6, 7.8, 7.6, 7.0, 7.2, 5.9 and 5.0 percernt. Arrah, Koilwar, Behea, Charpokhari, Garhani have the minimum number of villages having banking facility (3.3, 4.9, 3.8, 2.7 and 2.1 percent) respectively Jagdishpur C.D. Block has no bank facility.

Agricultural credit societies : Agricultural credit societies are available only in 205 villages out of 999 inhabited villages (20.5%) in the district. Charpokhari C.D. Block has the maximum number of villages in which agricultural credit facilities (67.1%) are available, while Behea C.D. Block has the lowest percentage of villages with 2.6 percent which have credit societies Shahpur C.D. Block still do not has agricultural credit societies facility.

Approach by pucca road :This facility is available in 465 villages out of 999 inhabited villages (46.5%) in the district. Among the C.D. Blocks, Sandesh with (68.1%) percent villages having pucca approach road followed by Koilwar, Agiaon, Garhani, Behea, Udwant Nagar, Koilwar, Sandesh and Arrah C.D. Blocks have total district average 63.9, 61.8, 60.4, 60.3, 53.6, 68.1, 63.9, 47.8 percent. While Piro C.D. Block has the least percentage of villages having this facility with only 28.7 percent.

Power supply : Electrified villages in the district constitute as low as 24.7 percent of the total number of inhabited villages. Among the C.D. Blocks Koilwar has the highest percentage of electrified villages

with 70.5 percent while Charpokhari has the minimum number of villages with only 1.4 percent and the villages of Sahar C.D. Block still do not avail power supply facility.

TABLE 38: NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegra

$ Transport communication includes bus service, rail facility and navigable waterwa

It would be seen from Table.38 that educational facility is available to 96.2 percent of the rural population of the district. The proportion varies between the maximum of 99.3 percent in Piro and Barhara

C.D. Block and the minimum of 89.9 percent in Jagdishpur C.D. Block. It may be of interest to note that proportion of villages in the district enjoying educational facility is less (being 89.4 percent vide table 37) than the proportion of population which is as high as 96.2 percent. This may be attributed to the fact that villages which possess educational facility usually contain larger population as compared to those villages which do not have this facility at all.

In the case of medical facility also it can be seen that the proportion of rural population served by the amenity is of the order of 24.6 percent which is more than the proportion of villages served by this facility in the district.

Similar trend can be observed in respect of other amenities also both in the district as also in its various C.D. Blocks.

TABLE 39: DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometers	5-10 kilometers	10+ kilometers	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	101	9	4	114
(b) Middle School	628	82	46	756

2. Medical:-				
(a) Hospital	316	286	382	984
(b) PHC	359	261	350	970
3. Post Office	658	48	26	732
4. Telephone	363	166	329	858
5. Bus Service	573	111	72	756
6. Banks				
(a) Commercial Bank	631	203	114	948
(b) Cooperative Bank	391	299	302	992
7. Agricultural Credit Societies	327	256	211	794

As regards educational facility it would be seen that there are 114 villages in the district (11.4%) which do not have any primary school but the facility is available at places situated within 5 kms for 101 villages and only 9 villages within the range of 5-10 kms. Four villages having primary school at distance more than 10 kms. There are as many as 756 villages in the district (75.67%) which have no middle school within village but the facility is available at places situated within 5 kms for 628 villages, 82 villages range of 5-10 kms and 46 villages at distance more than 10 kms. It is interesting to observe that cent percent inhabited villages of the district are deprived of collage but the facility is available at places situated within 5 kms for 204 villages, 140 villages within the range of 5-10 kms and 654 villages in the range of more than 10 kms.

There are 984 villages in the district (98.4%) which are without the facility of hospital and as many as 316 villages enjoy this facility at a distance range of less than 5 kms. The number of villages enjoying this facility at a distance range of 5-10 kms is 286 where as the in 382 villages this facility is available at distance more than 10 kms.There are 970 villages in the district (97.0%) which do not have primary health

center in which 359 villages having PHCat distance within 5 kms. 26 villages at distance range 5-10 kms. and 350 villages having PHC at distance more than 10 kms. Similar trend can be observed in respect of amenities in the district.

TABLE 40: DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available				Type of amenity available			
		Education	Medical	Post Office #	Telephone	Transport communications $	Banks	Agricultural Credit Societies	Approach by pucca road

District total	999	893	133	267	141	249	53	205	465
	(100.0)	(89.4)	(13.3)	(26.7)	(14.1)	(24.9)	(5.3)	(20.5)	(46.5)

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

It would appear from the above table that maximum number of inhabited villages (45.7%) lies in the distance range of 16-50 kms from the nearest statutory town. This is followed by villages in the distance range 5-15 kms from the nearest statutory towns with 39.9 percent. None of the villages is found to be in the distance range of unspecified kms. Interestingly, It can be observed from the table that the proportion of villages having educational facility 85.6 percent for those situated within 5 kms from the nearest town and increases to 91.0 percent in the distance range of 5-15 kms. Therefore it again decreases to 89.1 percent in the distance range 16-50 kms from the nearest town. There are again increases to 90.9 percent at the distance more than 51 kms. In the case of other amenities also more or less the trend is same.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 41 shows distribution of villages according to population range and amenities available in 2001. It can be seen from the table that the maximum number of villages i.e. 329 (32.9%) in the district fall in the population range of 1000-1999 followed by 230 villages (23.0%) having a population range of 500-999, 227 villages (22.7%) having a population range of 2000-4999, 138 villages (13.8%) having a population range of 1-499. The lowest number of villages is observed in the population range of 10,000+ being only 10 (1.0%). In district 97.6 percent villages having improved drinking water facility and 26.7 percent village, having post, 14.1 percent villages having telephone 24.9 percent villages having transport communication,only 5.9 percent villages have banks and 24.7 percent villages in district have power supply.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. Block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6

11	Garhani	48	10,935	84.7	82.1
12	Agiaon	68	15,451	82.6	88
13	Tarari	92	19,136	93.2	90.1
14	Sahar	51	12,074	88.5	97.1
	District Total:	**999**	**213,416**	**83.2**	**74.3**

Note: - Cultivable area = irrigated area + unirrigated area

Table - 42 gives the percentage of cultivable area and also the proportion of irrigated area to total cultivable area in the district and its various C.D. Blocks.

It would be seen from the table that 83.2 percent of the total area of the district is utilised for cultivation (cultivable area) and of this only 74.3 percent area is found to be irrigated. Among the C.D. Blocks, the highest percentage of cultivable area is found in Udwant Nagar C.D. Block with 95.4 percent closely followed by Tarari, Sahar, Charpokhari, Garkhani, Jagdishpur, Piro, Shahpur, Sandesh, Koilwar, Barhar C.D. Blocks with 93.2, 88.5, 90.0, 84.7, 87.7, 85.7, 83.0, 83.2, 75.1, 74.1 percent respectively. The lowest cultivable area is found in Behea C.D. Block which is 71.9 percent.

In district 74.3 percent of cultivable area is irrigated. The highest proportion of irrigated area to total cultivable area is found in Sahar C.D. Block 97.1 percent followed by Jagdishpur, Tarari, Piro, Charpokhari, Garhani, Agiaon, Udwant Nagar, Sandesh, Behea C.D. Blocks with 90.6, 90.1, 89.8, 85.2, 88.0, 85.2, 77.2, 64.6 percent respectively. The least proportion of Irrigated area is found Barhara C.D. Block with 26.4 percent which indicates that the villages in this are deprived of required irrigational facilities.

TABLE 43: PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	I Arrah (M)	4.5	1.6	2.9	4.4	4.2	0	0	0	0.1
2	III Behea (NA)	0.9	0.2	0.7	0.2	0.2	0	0	0	0
3	III Jagdishpur (M)	3.8	0.6	3.2	0	0	0	0	0	0
4	IV Koilwar (NA)	3.6	0.8	2.8	0.9	0.7	0	0.1	0	0
5	III Piro (NA)	8.5	0.3	8.2	7.9	2.9	0	0	0	5
6	IV Shahpur (NA)	4.2	0	4.2	0	0	0	0	0	0
	District Total	**4.4**	**1.2**	**3.2**	**3.6**	**3.1**	**0**	**0**	**0**	**0.5**

The above table gives the details of finances in the statutory towns of the district in terms of percapita receipt and expenditure.

Percapita receipt of the district is Rs. 4.4 in wheel Rs. 1.2 comes through taxes and 3.2 through other sources. Among towns of the district, Piro (NA) has the highest (i.e. Rs.8.5) per capita receipt and Behea (NA) has the lowest (Rs.0.9) percapita receipt.

This table 43 also shows that per capita receipt of the district is Rs. 3.6 in which Rs. 3.1 spent on the general adinistration and Rs. 0.5 on the others. Among towns of the district highest percapita expenditure is observed in Arrah (M) i.e. Rs. 4.4.

In Revelganj (M) total percapita expenditure is 3417.2 of which 14.9 percent is spent on General Administration, 30.9 percent on Public health and Conveniences, 6.3 percent on Public work and 47.9 percent is spent for other purposes. In Sonepur (NA) percapita expenditure is 1862.8 of which 63.1 percent is spent on General Administration and 36.9 percent on Public works. Dighwara Notified Area Committee has a percapita expenditure of 1398.4 of which 47.7 percent is spent on General Administration and rest 52.3 percent on other items.

TABLE 44: SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Arrah (M)	2.6	1.1	0.8	0.1	0.6
2	Behea (NA)	5.3	2.9	1	0.5	0
3	Jagdishpur (M)	2.8	2.1	2.8	0.7	0.7
4	Koilwar (NA)	4	2	0.5	0	0
5	Piro (NA)	1.9	1.5	0.8	0.8	1.5
6	Shahpur (NA)	4.8	2.1	1.4	2.1	0
District Total		**2.9**	**1.4**	**1**	**0.3**	**0.5**

The above table gives the details of different categories of educational institutions per ten thousand populations in the town of the district. It would be seen from the above table that institutions like secondary/matriculation level school and college are situated in all towns of the district viz. Arrah (M) (0.8,) Behea (NA) (1.0), Jagdishpur (M) (2.8), Koilwar (NA) (0.5) Piro (NA) (0.8) and Shahpur (NA) (1.4) percent population while it is 1.0 for the urban areas of the district. Primary school and Middle school, senior secondary and colleges account for urban areas of the district 2.9 and 1.4, 0.3 and 0.5 respectively for each per ten thousand populations.

TABLE 45: NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Arrah(M)	14
2	Behea(NA)	3
3	Jagdishpur(M)	6
4	Koilwar(NA)	10
5	Piro(NA)	5
6	Shahpur(NA)	28
	Distrct Total	**12**

The above table furnishes information regarding availability of beds in medical institution per 10000 populations in towns of the district. The number of beds in medical institutions per ten thousand population for Arrah (M), Behea (NA), Jagdishpur(M) 6, Piro(NA) and Shahpur(NA) are 14,3,6,5; and 28 respectively. On the other hand Koilwar (NA) has no beds in medical institutions of the town.

The number of beds in medical institution per ten thousand populations for Bhojpur works out to be, 12. Shahpur town has highest no. of beds in medical institution per ten thousand population

TABLE 46: PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	ARRAH	203,380	11,759	5.8
2	BEHEA	20,741	5,190	25
3	JAGDISHPUR	28,085	5,630	20
4	KOILWAR	19,928	1,958	9.8
5	PIRO	25,811	1,150	4.5
6	SHAHPUR	14,469	4,000	27.6
	District Total	**312,414**	**29,687**	**9.5**

Arrah (M), Behea (NA), Jagdishpur (NA), Piro (NA), Shahpur (NA) are the only six statutory towns in the district. Table – 46 relating to details of slums has been prepared as there are slum area in the town. The highest proportion of slums in Shahpur (NA) 27.6 percent and lowest slums population in Piro (NA) 4.5 percent. There are total district average in Behea (NA) 25, Jagdishpur (NA) 20, Koilwar (NA) 9.8 and Shahpur (NA) 27.6 percent.

TABLE 47: MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Arrah (M)	Tooth Powder Bidi Furniture	Rice Gram Wheat
2	Behea (NA)	Mustard Oil Plastic Goods Earthen Pots	Plastic Goods Earthen Pots Rice
3	Jagdishpur (M)	Furniture Rice Chira	Rice Wheat Potato
4	Koilwar (NA)	Khowa Chira Murabba	Sand Mango Fish
5	Piro (NA)	Khowa Chira Murabba	Rice Wheat Vegetable
6	Shahpur (NA)	Bread Bamboo Basket	Gram Masur Wheat

Table 47 presents the most important commodities manufactured in the towns and exported from towns. There are only six urban towns, Arrah (M), Behea (NA), Jagdishpur (M), Koilwar (NA), Piro (NA) and Shahpur (NA). It would be seen from the above table that items viz. Tooth powder, Bidi, Furniture, Mustard oil, Plastic goods, Earthen pots, Rice police, Chira, Khoba, Murabba, Bread, Bamboo basket are manufactured in the towns and items viz., Rice, Grm, Wheat, Plastic goods, Earthen pots, Potato, Sand, Mango, Fish, Vegetable and Masur, exported from Bhojpur town. There is no manufacturing of any item in Koilwar (NA).

(c) Brief analysis of the data on houses and household amenities (Houselisting Operations, Census of India 2001) based on inset tables 48 to 52 :

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Table 48 shows households by tenure status and number of rooms occupied in the district. Shows that there are as many as 320,689 households accounting for 96.7 percent of the total households of the district dwelling in owned houses. The proportion of households dwelling in single room is the highest (25.6%) where as it is the lowest (0.6%) dwelling in no exclusive room. The median number of room is 2 for the total households in the tenure status of owned category.There are 67,306 scheduled castes households accounting for 97.7 percent of the total households dwelling in owned houses and the median number of room is 2. There are 2,762 scheduled tribes households dwelling in owned houses and median number of rooms is 2.

There are 7,765 households accounting for 2.3 percent of the total households of the district dwelling in rented houses. The proportion of households dwelling in single room is the highest (25.9%) where as it is the lowest (70.6%) dwelling is no exclusive room.

TABLE 49: PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	District/C.D. Blocks	Total			Rural			Urban

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

*Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note: Percentage is to be given in brackets after the number of households.

Bathroom means bathroom within the house

Toilet means toilet within the house.

Drainage means closed and open drainage.

Table – 50 shows that in rural areas of the district 245129 households i.e. 84.9 percent have improved drinking water facility. The highest proportion of households with improved drinking water facility can be observed in Piro C.D.Block with 91.5 percent where as it is lowest in Agiaon C.D. Block with 77.1 percent. As regards electricity it is found that only 3.3 percent of the rural households in the district have electricity. The highest proportion of households with electricity is in Koilwar C.D. Block with 17.7 percent wehreas it is lowest in Tarari and Sahar C.D. Blocks with 0.4 percent while Udwant Nagar and Behea have the above percent of electricity with 7.6 and 5.9 percent.

Only 8.4 percent of the total rural households in the district have bathroom facility. The highest proportion of households having bathroom facility is observed in Koilwar C.D. Block with 10.4 percent where as these are lowest in Jagdishpur and Garhani C.D. Blocks with 6.7 percent. While proportion of the district Piro, Udwant Nagar, Sandesh, Charpokhari, Tarari, Sahar, C.D. Blocks having above to the district average i.e. 9.7, 9.3, 9.0, 8.9, 8.6 and 9.0 respectively.

Only 13.8 percent of the rural households in the district have toilet facility. The highest proportion of households having toilet facility is in Koilwar C.D. Block with 20.4 percent where as it is lowest in Barhara C.D. Block with 10.4 percent. Only 75.8 percent of the rural households in the district have drainage facility. The highest proportion of households having drainage facility is observed in Tarari C.D. Block with 83.0 percent. Whereas it is lowest in Barhara C.D. Block with 66.6 percent. There are highest percentage in total district average in Sahar, Jagdishpur, Ckharpokhari, Sandesh, Piro and Udwant Nagar C.D. Blocks with 82.9, 80.6, 79.8, 78.3, 77.8, 76.6 percent.

Percentage in brackets

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Table – 51 shows that 12.2 percent of the rural households in the district use firewood as fuel for cooking. The highest proportion of households using firewood as fuel for cooking is in Koilwar C.D. Block (21.5%) where as it is lowest in Tarari C.D. Block with 4.5 percent.

7.9 percent of the rural households in the district use crop residue as fuel for cooking. Among the C.D. Blocks, highest proportion of households using crop residue, as fuel for cooking is 13.9 percent in Barhara C.D. Block, it is lowest (3.8%) in Charpokhari C.D. Block.

77.3 percent of the rural households in the district use cowdung cake as fuel for cooking. Among the C.D. Blocks the proportion of households using cowdung cake as fuel for cooking is highest (89.0%) in Charpokhari C.D. Block where as it is lowest (63.0%) in Koilwar C.D. Block.

Among the cow dung cake as fuel for cooking is lowest percent in the total district average percent i.e. Shahpur 71.8, Arrah 65.4, Barhara 64.2, Koilwar 63.0 and Behea 75.8 percent. In the case of cooking gas (L.P.G.) there are only 12,500 households accounting for 3.8 percent of the total households in the district using it for cooking. As regards Kerosene there are only 4811 households accounting for 1.5 percent of the total households in the district using it for cooking. Similar trend can be observed in respect of other types of fuel.

Data source: Census of India 2001, H-series: Table on Houses, Household amenities and Assets.

It would be seen from the above table that there are 12,0177 households accounting for 36.2 percent of the total households in the district availing banking services. In this regard the highest number of households can be observed in Arrah C.D. Block with 25644 where as the same is lowest in Sandesh C.D. Block with 4099.There are 114223 households accounting for 34.4 percent of the total households in the district possessing radio/transistor. In this regard the highest number of households is in Arrah C.D. Block 21835 where as it is lowest in Garhani C.D. Block 3559.

(viii) Major social and cultural events, natural and administrative developments and significant activities during the decade

No major social and cultural event has taken place in this district.

(ix) Brief description of places of religious, historical and archaeological importance in villages and places of tourist interest in the towns of the district

1. Dalaur

The village is situated 2 kilometres east of Jadishpur and is noted as the site of the final battle between Babu Kuer Singh and the British forces in 1857.

2. Giddha

Situated 6 kilometres from Kulharia Railway Station in Koilwar block, the village is noted for the large contingent it provides to the Indian army.

3. Koilwar

The recently declared notified area committee, the town lies on the western bank of river Sone about 50 Kms. West of Patna and is the headquarters of the development block-cum-anchal of the same name. It is supposed to have a healthy climate and a sanatorium for T.B. patients has been built at a distance of two kilometers from the main town. There is a long road-cum-rail bridge over the river Sone. The upper part of the bridge serves the railways whereas pedestrians and vehicular traffic use the lower part.

4. Kulharia

The village lying in the Koilwar block is famous because of the Kulharia family whose members have great contributions towards the welfare of the State. One of the biggest college in the State, B.N. College of Patna was founded by Babu Bisheshwar Narain Singh, an ex-Zamindar of Kullharia family. His descendants have the credit of starting various other education institutions.

5. Bibiganj

The 1961 Census Report mentions the village as follows:

" The village, situated 6 kilometr4es west of Arrah on the Arrah-Shahpur Road, has a bridge which is famous as the site of a battle between the Britisher and Babu Kuer Singh in 1857. There is also a forest known as 'Sarayan' used as the headquarters of guerilla warfare by Babu Kuer Singh ".

6. Sasurhi (Katho)

The village, which is situated 5 kilometres east of Jagishpur, has a 300 year old grave of the Muslim saint, Masar D3ewan. It is he3ld as sacred by the Muslims.

7. Tar

Situated about 10 kms. north-west of Piro the village derives its name from Tadika, a giantess killed by Lord Rama. There is an old tank in the village which is said to be the wrestling ground of Tadika.

8. Behea

A notified town during 80's lies Jagdishpur subdivision. It is on the main line of the Eastern Railway. It is well connected by road. Behea was formerly the home of a branch of Harihobans Rajputs. It is believed that the Raja, Bhopat Deo, violated Mahini, a Brahmin woman, who thereupon hurnt herself to death and in dying imprecated the most fearful curses on the Harihobans Rajputs. After this tragedy the clan left Behea and moved across the Ganges to Ballia. The tomb of Mahini lies under a Pipal tree close to the Railway at Behea and is visit3d by hundreds of worshippers especially the women.

9. Deo

The village has the remains of a temple of Sun God, believed to have been built by the Sea God in ancient times. The temple was ravaged by Mahmud Ghazni. Indra, Baroon and Kuber are enshrined in it.

10. Arrah

The District Gazetteer of Shahabad (1966) describes the town as follows:

" General Gunningham has identified Arrah with the place mentioned b y Hiuen-Tsiang as that at which Asoka set up a Stupa to commemorate the conversion by Buddha of the demons of the desert who feasted on the blood and flesh of men. Even to this day, a legend lingers that this part of the country was the home of a powerful demon named Bakra, whose daily food was a human being supplied either by the village of Bakri or by Ghakrapur, as Arrah was then called. During their wanderings, the five Pan davas came to Ghakrapur

and were entertained by a Brahman whose turn it was to supply a victim for the demon. Bhim Pandava, on hearing this declared that as he had eaten the Brahman's salt, he would go himself to the demon; and setting forth, he fought and killed him at Bakri, and then brought his body to Ghakrapur. This myth is found in a more complete form in the Mahabharatas and General Guninghan considers that it must have been one of the five honoured legends of antiquity which the Buddhists adopted for the glorification of their great teacher. The village Bakri still exists in the near neighbourhood of Arrah, and though there are no ancient remains at either place, the Brahmanical legend of Bakrasur is, in the opinion of General Guninghan, so clearly identical with that of the man eating demons described by the Chinese pilgrim that he accepts Arrah as the site of the stupa and lion p8llar erected by Ashoka ".

(x) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

Any significant data is not available for the district.

(xi) Scope of Village Directory and Town Directory - column headingwise explanation and coverage of data

The District Census Handbooks are the only publications, which furnish information down to the village level in case of rural areas and by the level of towns/wards (circles) in case of urban areas. This facilitates research scholars and academicians to analyse data upto the lowest administrative unit. It is of vital importance for the planners also since it offers micro-level data and thus enable them to identify the areas undeveloped in terms of infrastructure and channelise efforts and inputs accordingly so that optimum utilization of the resources could be made.

The present series of the DCHB in 2001 Census have been made more informative and exhaustive in terms of coverage and content. The content of village directory has been broadened by including more types of facilities such as bank, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village and also income and expenditure of Gram Panchayat, wherever possible are provided. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of primary and middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), drinking water, Post Office and phone, communication, bank, credit societies and recreational facilities. In town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against only Class I and Class II towns of the 1981 and 1991 Censuses are provided. With reference to the town concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements.

Village and Town Directories included in the District Census Handbook give the list of villages and towns, their areas, population and amenities.

The details of each column of village directory are explained as below :

Column-1

Serial number of the village is indicated in this column.

Column-2

Gives the name of the village and permanent location code number (PLCN) assigned to each village in serpentine manner from north-west to south direction and is essential for identification of village. The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tehsil of first district of the state to the last village of last tehsil of the last district. In the state of Bihar first PLCN 00000100 has been assigned to village 'KALAPANI' in Sidhaw C.D. Block of Pashchim Champaran district and the last PLCN 04509800 has been assigned to the last village 'TOLA SUNDARI' of the state in Chakai C.D. Block of Jamui district which happens to be last as per procedure adopted for assigning location code number. The district census handbook of 1991 Census as well as updated district and C.D. Block maps and services of local revenue officers/officials have been used to assign the PLCN to the villages. The last two zeros will be used if new villages are created out of existing villages in subsequent census. Before 2001 census, village location code number used to change from one census to other due to change in jurisdictions or creation of villages or

merger of villages in urban areas. The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective B.D.O's of each C.D. Block.

Column-3

Shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns - 4 & 5

Gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in village.

Columns 6 to 9

Deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure the accuracy of information provided. In such cases where no facility is available within a village, a dash (–) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, so as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained separately in the subsequent section.

Column-10

Shows the number of banks - Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11

Relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12

Shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/auditorium facility available in the villages.

Column-13

Indicates the type of communications amenities such as by bus, railway or navigable waterway available to the village.

Column-14

Refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15

Gives the information of the nearest town and its distance in Kms. from the village in brackets from the referent village. In case, the nearest town is located in another state, the name of the state has also been furnished.

Column-16

Relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17

Gives the information as to whether newspapers/magazines are received in the village.

Column-18

Gives the information of most important commodities manufactured in the village.

Columns-19 to 23

Give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories. These are as follows :

i) Forests
ii) Irrigated
iii) Unirrigated
iv) Culturable waste (including Gauchar and Groves)
v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or private and whether wooded or maintained as potential

forest land. The crops raised in the forests and grazing lands or areas open for grazing within the forest is also included under the forest area.

Column 20 and 21

Show area irrigated by different sources of irrigation and un-irrigated area. These two columns cover all agricultural land which equals to net cropped area sown with crops and orchards including current and other fallow lands. In case of irrigated land, the source of irrigation has also been indicated.

Column 22

Culturable waste : This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Lands under thatching grasses, bamboo bushes and other groves for fuel etc., which are not included under orchards or forests come under this column. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column.

Column-23

Area not available for cultivation : This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water etc. Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost.

Column-2 & 1

Indicate the name of the village in Hindi and serial number of village respectively.

Town Directory :

The Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information.

Statement-I Status and Growth History

The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001. Civic administration status of each town is shown under column 2 and Location Code number in column 3. Column 4 is not applicable in case of Bihar and Jharkhand States. While column 5 shows the name of C.D.Block, area of each town in sq. kms. is depicted under column 6 column 7 deals with the number of households including houseless households as per the 2001 Census. Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001. Column 19 of the statement shows density of towns as per the 2001 Census. Columns 20 to 22 depict the sex ratio from 1981 to 2001 Census.

Statement-II Physical Aspects and Location of Towns

In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5. Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tehsil/sub-tehsil headquarters. Column 9 shows the name of nearest city with population of one lakh or more and columns 11 to 13 give information regarding name and road distance of the nearest railway station, bus route, navigable river/canal (if within 10 Kms.). Column 10 shows the name of nearest city with population of five lakhs and more.

Statement-III Municipal Finance

This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads. There are in all 16 columns in the statement showing receipt and expenditure under different heads.

Statement IV Civic and Other Amenities

The statement displays information under 20 columns. The amenities about which information has been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage and other related matters such as water supply, fire fighting services and electrification etc.

Statement-V Medical, Educational, Recreational and Cultural Facilities

This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution. Educational facilities by level/type of courses and recreational and cultural facilities.

Statement-VI Trade, Commerce, Industry and Banking

This statement presents information under 11 columns in respect of each town. Columns 3 to 8 indicate three most important commodities exported and manufactured in the town. Information on number of banks available in the town appears under column 9. Columns 10 and 11 show number of agricultural and non-agricultural credit societies operating in each town respectively.

Statement-VII Civic and other amenities in Slums

Statement VII contains information about civic and other amenities in slums of 1999. This is a statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, municipal corporations, Notified Areas, etc.

Generally, in cities or towns with slums, the local authority, such as municipality or municipal corporation or even the development authority notifies the recognized slums. It is linked up with the availability of funds from the State Government for slum clearance/improvement. It is possible that some of the states or local bodies have not formally notified slums under their jurisdictions. But in such cases, there is likelihood that they are maintaining a list of such areas which are officially treated as slums. The intention is that the information is to be provided in respect of such localities as are officially recognised as slums, whether actually notified or not. Though the magnitude of slum problem is greater in class I and class II towns, it is acknowledged that they are associated with smaller towns also. Hence the information on slums in this statement has been compiled in respect of all towns having statutory bodies. Columns 1, 2 need no explanation. Under column 3 the names of slum(s) has been provided in an alphabetical order in separate lines under the town which they belong. The particulars with regard to status of slum whether notified or not has been collected under column 4 and recorded as 'Yes' or 'No'. Under column 5 the no. of households (approximate) in the slum pertaining to 1999 has been recorded whereas in column 6 the population figures (approximate) based on the year 1999 have been recoded. Column 7 denotes the road length of paved road in km . upto two decimal places. Column 8 to 13 give information about system of sewerage, number of latrines and method of disposal of night soil. Column 14 gives information about the no. of tap points/public hydrants as ascertained from civic authorities as well as through local enquiry. Column 15, 16 & 17 give information about electricity connections. Column 15 gives information about domestic electricity connections, column 16 gives information about road lighting (electric points) whereas column 17 gives information about electric connections other than collected under columns 15 & 16.

Part-A : Village and Town Directory

Section-I : Village Directory

Note explaining the abbreviations used in the Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural, non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.
Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town, the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited'villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col.19 to 23
The Village Directory format has 23 columns and the details given under each column are for the village are as follows :

Column 1 : Serial Number

Self explanatory. All the villages within the C.D. are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of Village

The name and location code number of the village are shown against this column. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The total area of the village in hectares is given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.
Amenities:
In columns 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post & telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (–) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms, 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below:

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.
Classes from VI to VIII are included in the middle school.
Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.
In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.
Accordingly any of the following types of institutions if exists within the village is shown as per codes given below.

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes:

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows:

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exists is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exists is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium are available in the village, the same is recorded in this column. If not available the particulars of the nearest place with the facility are recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets :

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13: Communications

If the village is served by any mode of public/Private transport like Bus, Railway station or Navigable waterways these are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Columns 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh (–) is recorded wherever the information is not made available by the concerned department.

The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK

(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix I : It gives the abstract of educational, medical and other amenities available in villages CD wise of the district.

Appendix IA : Indicates number of villages CD Blockwise having one or more primary schools.

Appendix IB : Indicates number of villages CD Blockwise having primary, middle and secondary schools.

Appendix IC : Shows number of villages CD Blockwise with different sources of drinking water facilities.

Appendix II : Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix IIA : Indicates list of Census Towns which do not have one or more amenities.

Appendix III : It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix IV : C.D.Blockwise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix V : Summary showing number of villages not having Scheduled Castes population.

Appendix VI : Summary showing number of villages not having Scheduled Tribes population.

Appendix VIIA: The appendix shows the list of villages according to proportion of the Scheduled castes to the total population by ranges

Appendix VIIB: The appendix shows the list of villages according to proportion of the Scheduled Tribes to the total population by ranges.

Appendix VIII : Number of Villages under each Gram Panchayat (C.D.Blockwise)

Appendix IX : Statement showing number of girls schools in the villages

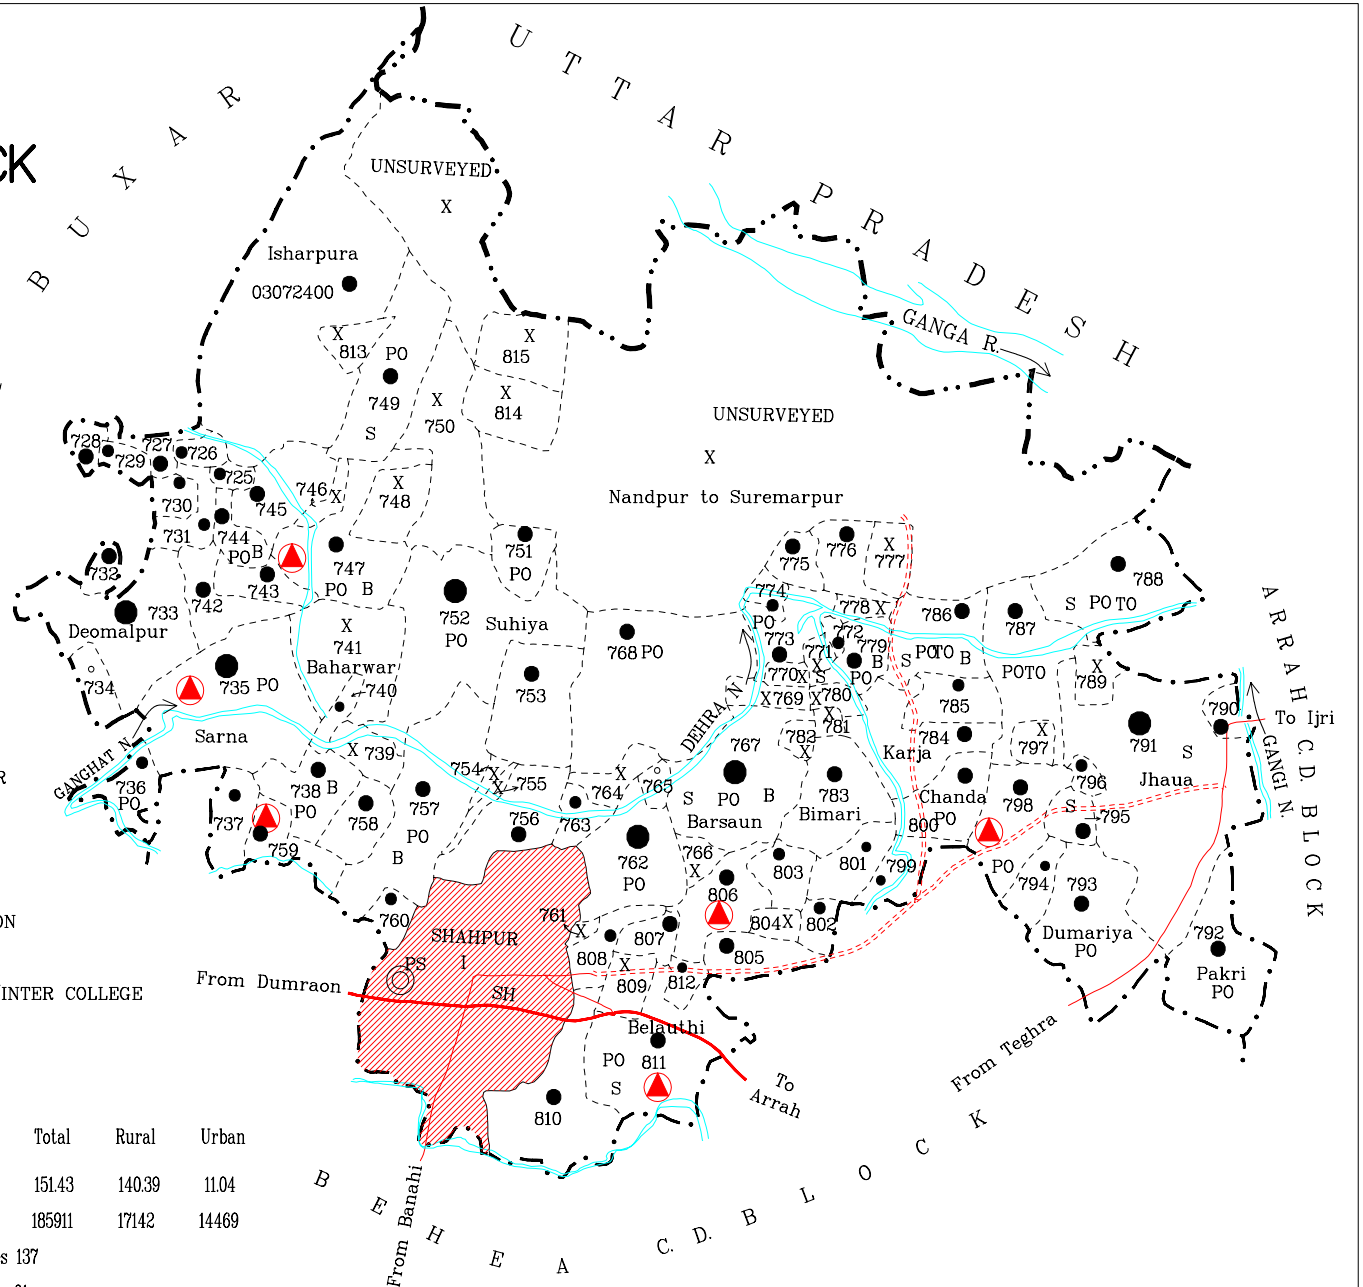

LIST OF VILLAGES MERGED IN TOWNS AND OUTGROWTHS AT 2001 CENSUS

N. A.							

Note: N.A. Stands for information not available

TOWN DIRECTORY

Section-II: Town Directory

Note explaining the abbreviations used in the Town Directory

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/ Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC

(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum and Minimum Temperature of the town are recorded.

Column 6, 7 and 8

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998-1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11: Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12: Method of disposal of night soil

The various prevalent methods of disposal of night soil are given below with codes:

(i)	Head Loads	HL

(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Column 13 and 14: Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15: Fire Fighting Service

In case the fire fighting service is available in the referent town ‘yes’ is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20: Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V: Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3: Self explanatory.

Column 4 & 5:

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes:

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D (3), NH (8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below:

(i)	Ayurvedic	A
(ii)	Unani	U
(iii)	Homoeopathic	Hom.

Column 6 to 9

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories– Arts, Science and Commerce	ASC

(vii)	Law	L

Column 10 Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used:

(i)	Shorthand	SH
(ii)	Typewriting	Type
(iii)	Shorthand & Typewriting	SH Type
(iv)	Others	O

The vocational institutions like - Applied Art/Painting College, Pharmacy College, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to14

Higher Secondary / Intermediate / Senior Secondary / PUC / Junior College level, Secondary / Matriculation, Middle Schools/Junior Secondary and Primary Schools.

School up to class V is treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X is considered as Matri-culation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P (4), M (3).

Column 15: Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16: Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19: Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20: Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows:

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI: Trade, Commerce, Industry and Banking, 1999

Column 3 to 8

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9: Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11: **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII: Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

There is no outgrowth in any of the towns of Bhojpur District				

Part-B : Primary Census Abstract

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door-to-door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their

States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/C.D. Block / UA / City / Town
2.	Primary Census Abstract for Scheduled Castes	District/C.D. Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/C.D. Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of Tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block are the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - II

ESTIMATE OF CHILD MORTALITY, 1981 AND 1991

		Persons			
State/District	Year	q (1)	q (2)	q (3)	q (5)
Bihar	1991	75	84	86	89
	1981	94	112	125	141
Bhojpur	1991	55	67	69	76
	1981	90	101	119	137

An estimate regarding child mortality rate for the year 1981 and 1991 has been presented below for the sake of comparison of decadal variation in child mortality rate with respect to district Bhojpur and state Bihar. These estimates are based on the information collected on question on children ever born and children surviving convassed for all ever married women during 1991 census and compiled by age of the mother. Here q(1), q(2), q(3) and q(5) denotes estimates of child mortality for the different ages 1, 2, 3 and 5 respectively the children of the district and the state. The annexure presented exhibits clearly that the estimated child mortality rates in both 1981 and 1991 were comparatively less in the district of Bhojpur than the state of Bihar as a whole for children of all the age-groups q(1), q(2), q(3) and q(5).

ANNEXURE – III

VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE, 1991 CENSUS

Various fertility measures for the district and the State(1991-Census)

1	State 2	District 3
CBR	36.2	32.6
TFR	5.3	4.9
TMFR	5.9	5.3
GFR	163.0	149.0
GMFR	186.0	165.0
Child woman ratio	66.6	67.2
No. of children ever Born per woman age Group (45-49)	4.1	3.7
Mean age at marriage	16.5	16.9

The Annexure presented above provides a glimpse of other fertility measures with respect to state and district for the year 1991. The Annexure presents the values of other fertility indices such as crude Birth Rate, (CBR) Total Fertility Rate (TFR), Total Marital Fertility Rate, (TMFR) General Fertility Rate, (GFR) General Marital Fertility Rate, (GMFR) Child Woman Ratio (CWR) Number of Children Ever born per woman in age-group 45-49 and Mean age at marriage. It exhibits that values of all most all the other fertility indices are lower for the district in comparison to state except child woman ratio and mean age at marriage.

ANNEXURE - IV (A)

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH, 1991 CENSUS

	P	M	F	P	M	F	P	M	F
1	11	12	13	14	15	16	17	18	19
Bihar	1,582,339	195,360	1,386,979	211,880	18,501	193,379	19,989,195	2,102,651	17,886,544
	(7.9)	(9.3)	(7.8)	(1.1)	(.9)	(1.1)	(100.0)	(100.0)	(100.0)
Bhojpur	14,930	1,651	13,279	93	32	61	546,548	44,482	502,066
	(2.7)	(3.7)	(2.6)	(0.0)	(0.1)	(0.0)	(100.0)	(100.0)	(100.0)

Note:-Total migrants exclude persons whose birth place is unclassifiable**.**

The growth of population for any area is influenced by the migratory movements of the people including in and out migration. However, for want of data on out-migration since such data is not collected in Census, it might not be possible to assess the net impact of out migration on growth of population, although such impact may not be much in most of the cases.

The above tables show percentage distribution of migrants by place of birth based on data recorded during 1991 and 2001 Censuses. It can be seen from the tables that total migrants in the district of Bhojpur are 645779 whereas in the state as a whole the migrants are found to be 21,307,020 in number in 1991 census. The corresponding figures for the district and the state for the year 2001 are 546548 and 19,989,195 respectively. Female migrants outnumber the male migrants both in the case of the district as well as the state in both the Censuses. The higher proportion of migrants among females is presumably on account of marriage of females taking place outside their place of birth in majority of cases.

It can further be seen from the tables that most of the migratory movement has taken place within the district of enumeration in Bhojpur district particularly in case of females both in 1991 and 2001 (77.4% for females as against 59.7% for males in 1991 and 79.8% females and 75.6% males in 2001). The proportion of male migrants born in other districts of the state is quite high, being 31.9 percent males as against 17.2 percent for females in 1991 and 17.5 percent and 20.7 percent respectively in 2001. The state average figures are also on the same line in 1991 and 2001 though the proportion of male migrants are slightly less and female migrants are slightly more as compared to corresponding figures of the district of Bhojpur.

The proportions of migrants (both males & females) born in other states and in other countries have been quite low in the district during 1991 Census except for males born in other countries. However, the state average figures are found to be comparatively higher in case of migrants born in other states and born in other countries as compared to corresponding figures of migrants in the district during 2001 Census.

		(23.2)	(5.7)	(17.5)	(12.0)	(5.9)	(6.1)

The rural and urban composition of internal migration by place of birth with respect to Bihar state and Bhojpur district based on 1991 census data by place of birth is presented in Annexure IV(b) above

It is obvious from the annexure that out of a total of 21307020 migrants in Bihar in 1991, 20070811 (94.20 percent) are intra state, 1049969 (4.93 percent) were inter state migrants. In case of Bhojpur district, out the total 645779 migrants, 609459 (94.38%) were intrastate and 35960 (5.6%) were interstate migration both with respect of state (0.87%) and the district (0.05%) comprised international migration by place of birth in 1991.

ANNEXURE – IV (C)

			Other states	400	1.1
			Total	**35,960**	**100.0**

ANNEXURE – IV (C)

INTERSTATE MIGRANTS, 2001 CENSUS

Bihar			Bhojpur		
Place of Birth	Migrants	Percentage to total migrants	Place of Birth	Migrants	Percentage to total migrants
1	2	3	1	2	3
Uttar Pradesh	434,051	27.4	Uttar Pradesh	9,173	61.4
Jharkhand	339,297	21.4	Jharkhand	2,601	17.4
Assam	133,758	8.5	West Bengal	1,526	10.2
West Bengal	126,499	8.0	Gujarat	769	5.2
Nagaland	101,267	6.4	Madhya Pradesh	267	1.8
Chhatisgargh	90,469	5.7	Total for five states	14,336	96.0
Gujarat	65,996	4.2	Other states	594	4.0
Orissa	42,215	2.7	**Total**	**14,930**	**100.0**
Maharashtra	38,244	2.4			
Rajasthan	20,542	1.3			
Haryana	20,505	1.3			
Andhra Pradesh	18,371	1.2			
Total for fourteen states	1,538,478	97.2			
Other states	43,861	2.8			
Total	**1,582,339**	**100.0**			

The data presented in the above tables pertaining to 1991 and 2001 Censuses deal with the magnitude of inter-state migration to the state of Bihar as also migrants coming from other states to Bhojpur district. It will appear that the district received only 1.2 percent of the total migrants coming from other states to Bihar in 1991 and 6.6 percent in 1991. The state of West Bengal and Uttar Pradesh in 1991 and Uttar Pradesh alongwith Jharkhand were the major contributors of migrants to the state in 2001. For the district of Bhojpur West Beengal, Uttar Pradesh and Rajsthan in 1991 and Uttaranchal alongwith Orrissa, Jharkhand and Chhatishgargh in 2001 have been the major contributors. Nine major contributing states in 1991 and 14 such states in 2001 contributed 93.4 and 97.2 percent of the total migrants to the state of Bihar respectively. In case of Bhojpur district 13 major states in 1991 and only 5 such states in 2001 contributed over 98.9 and 96.0 percent of total migrants to the district, respectively.

The data presented in Annexure-V (A) shows religion wise distribution of population according to 1991 and 2001 Censuses. It may be observed that Hindus have been numerically the most important religious community in the state of Bihar during both the Censuses as it accounts for as much as 82.4 and 83.2 percent of the state's population in 1991 and 2001, respectively. The Muslims come next with 14.8 and 16.5 percent respectively. Christians had been the third most important religious community though it and proportions remained only 1.0 percent in1991 and 0.1 percent in 2001. Sikhs, Jains and Buddhists remained very small in proportion as each of these constituted less than even 1.0 percent of the population of the state during both the Censuses. Persons categorized under "Other Religions & Persuasions" comprised 1.7 and 0.1 percent of the state's population during 1991 and 2001 Censuses respectively.

In Bhojpur district the proportion of Hindus to the total population of the district remained 93.4 percent in 1991 and 92.6 percent in 2001 which are comparatively higher than the respective state averages. Muslims had been, however, in low proportion as they constituted 6.5 and 7.3 percent of the district's population in 1991 and 2001. The proportion of population of other religious communities remained almost negligible in the district of Bhojpur during both the Censuses as Hindus and Muslims taken together comprised over 97 percent of the total population of the district during both the Censuses.

The above Annexures furnish religion wise distribution of population for the district of Bhojpur and its C.D. Blocks in 1991 and 2001 Censuses.

As already observed in Annexure V (A) of 1991 and 2001Census, though the proportion of Hindus in the district of Bhojpur is highest as compared to other religious communities still it was seen that Muslims also formed a big chunk of population in the district. Among the C.D. blocks, the proportion of hindus in Sahpur, Barhara Koilwar , Sandesh and Udwant Nagar C.D. Blocks are higher than the proportion of hindus in district. This trend continued in various CD Blocks during 2001 Census also. The existence of other religious communities in various C.D. Blocks of the district is insignificant as their proportions to total population are almost negligible in both the Censuses.

Annexure V1 (A) furnishes information regarding distribution of population by marital status for the state of Bihar in absolute number as per 1991 and 2001 Censuses while Annexure (B) shows percentage distribution of population by marital status for the state. The Annexures V1 (C) and V1 (D) presented above give corresponding figures and percentages for the district of Bhojpur.

It shall be evident from Annexures V1 (A) to V1 (D) pertaining to 1991 and 2001 Censuses that the state of Bihar as well as Bhojpur district have relatively higher proportion of males in the "never married" category. The proportion of females, however, is found to be larger in the "married" category. This may, perhaps, be attributed to the fact that women, generally, enter into marital status at comparatively younger ages than males. As against 54.2 and 53.1 percent of "never married" males and females in 1991 Census and 56.3 and 55.7 percent in 2001 Census in Bihar state and Bhojpur district respectively; the corresponding proportion among "never married"

females are seen to be 45.2 and 43.6 percent in 1991 and 47.3 and 46.6 in 2001 Census. Females are found to be higher in proportion in the “married” category than males; both in the state and the district in both the Censuses, the percentages being 59.7 and 52.3 percent in 1991 and 47.8 and 48.7 percent in state and district respectively in 2001. The corresponding figures for males in 1991 and 2001 Censuses stand at 43.6 and 44.5 and 41.6 percent respectively. So far the proportion of “widowed” is concerned, it transpires from the tables pertaining to 1991 and 2001 Censuses that female “widowed” are higher in proportion than male “widowed” both in the state as well as in the district. The proportion of “divorced or separated” is found to be negligible both in case of males and females in the state of Bihar and Bhojpur district.

While analyzing tables for 1991 and 2001 Censuses regarding marital status of the male and female population by age groups, one notices that married females outnumber married males in the age group 10-14 suggesting that child marriage among females is more prevalent than in males. It may, however, be interesting to note that proportion of married males and females in the age group 10-14 is less in Bhojpur district as compared to the state average figure in both the Censuses. It is also discernable from the table that child marriage is more prevalent in the rural areas i.e., villages of the state than the urban areas i.e., towns.

It is further noted from the tables pertaining to both 1991 and 2001 Censuses that the proportion of “married” females in the state as a whole and the district is relatively higher upto the age group per state and 35-39 for the district while above these age group the proportion of “married” males are found to be higher than females.

Annexures VII(A),VII (B), VII (C) and VII (D) furnish position of literacy and level of education by various age –groups of population for the State of Bihar and the district of Bhojpur respectively as per data collected during 1991 and 2001 Census. Among these, Annexures VII (A)and VII (B) provide literacy position absolute in numbers whereas Annexures VII (C) and VII (D) give these figures in terms of percentages.

Literacy is one of the most important characteristics of population on which information are collected during Censuses. The concept of literacy adopted in Census has already been explained in the beginning of this volume.

A proper index for measuring literacy is proportion of literate and educated persons to the total population. The rate of literacy for Bihar(excluding population of 0-6 years) in 1991 stood at 38.5 percent which rose to 47.0 percent in 2001. The corresponding proportion for Bhojpur district in 1991 and 2001 remained 38.48 and 59.0 percent respectively.

It can be seen from the annexures that 19.0 percent males and 27.3 percent females in 1991 were literate without educational level in Bhojpur. The corresponding proportions in 2001 including Below Primary remained 23.0 and 30.0 percent, respectively. The proportions of Primary passed Males and females in 1991 were 20.0 and 30.0 percents respectively which became 24.9 and 30.6 percent in 2001 in the district. In 1991 there were 29.2 and 27.6 percent males and females who had passed middle whereas in 2001, the corresponding figures remained lower at 14.6 and 13.2 percent respectively. The proportion of those who had passed Matriculation and above in 1991 were 31.8 and 13.9 percent for males and females respectively in the district, the corresponding figures in 2001 remained 32.2 and 20.4 percent only which were higher than the previous Census. Males out numbered females in the matter of literacy particularly in higher levels of education comprising of Matriculation and above.

ANNEXURE – VIII

PERCENTAGE DISTRIBUTION OF MAJOR MOTHER TONGUES AS RETURNED IN CENSUS-2001 FOR STATE & DISTRICT

Bihar			Bhojpur		
Mother Tongue	Population	Percentage	Mother Tongue	Population	Percentage
1	2	3	1	2	3
Bhojpuri	20,372,983	24.5	Bhojpuri	2094050	93.4
Hindi	14,524,035	17.5	Urdu	84074	3.7

Marwari	27,152	0.0	Sindhi	133	0.0
Total of Other Mother Tongues	12,842,100	15.5	Total of Other Mother Tongues	1227	0.1
Total Population	**82,998,509**	**100.0**	**Total Population**	**2,243,144**	**100.0**

The Census of India has been the richest source of language data collected and published during the successive decennial Censuses over a century. Annexure VIII furnished above provides data on mother tongue as returned by each individual irrespective of its status as scheduled or non-scheduled languages during 2001 Census for Bihar State as well as for Bhojpur district.

Amongst 10 major mother tongues in the State, Bhojpuri tops the list with 24.5 percent of the total population having returned it as their mother tongue. Hindi has been returned by only 17.5 percent while Magadhi/Maghi and Maithili have been returned by 14.6 and 14.3 percent of the total population of the state as their mother tongue respectively in 2001. Urdu in the state has been returned by 11.4 percent of the total state's population whereas in the district of Bhojpur 93.4 percent of the district population have returned Bhojpur as their mother tongue. Hindi as mother tongue has been returned by 2.1 percent of Bhojpur district's population. Urdu has got second position with 12.7 percent of the district population having returned it as their mother tongues. Except these languages analysed above both for the state and the district, other have been returned by insignificant proportions or very low proportion of the respective population of the state and the district as mother tongues 2001 Census.
