Grand Trunk Road

For centuries, the Grand Trunk Road has served as the main artery from travel across northern India. A scene from the Ambala cantonment during the British Raj.

The road was initially built by Sher Shah to connect Agra, his capital, with Sasaram, his hometown. It was soon extended westward to Multan and eastward to Sonargaon in Bengal (now in Bangladesh). While Sher Shah died after a brief reign, and his dynasty ended soon afterwards, the road endured as his outstanding legacy. The mughals, who succeeded the Suris, extended the road westwards: at one time, it extended to Kabul in Afghanistan, crossing the Khyber pass. This road was later improved by the British rulers of colonial India. Renamed the "Grand Trunk Road" (sometimes referred to as the "Long Walk"), it was extended to run from Calcutta to Peshawar and thus to span a major portion of British India.

The Grand Trunk Road continues to be one of the major arteries of India and Pakistan. The Indian section is part of the ambitious Golden Quadrilateral project. For over four centuries, the Grand Trunk Road has remained "such a river of life as nowhere else exists in the world".

Annexure VII : Age, Sex and Education in the district, 2001 Census. 787

Annexure VIII : Distribution of different mother tongues returned in 2001 Census 791

Foreword

The District Census Handbook (DCHB) published by Census Organization since 1951 census, is one of the important publication in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructure facilities, etc.

The scope of the DCHB was initially confined to a few Census Table and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features along with restructuring of the formats of villages and town dire rectory were added into it. In village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adults literacy centers, primary health sub-centers and community health workers in the villages were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to given the details on number of inaccessible villages in each district. In Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and ClassII towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/ taluk/PS level presentation. It was excepted that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance (s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely Primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Center and Primary Health Center), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on slums has been modified and its coverage enlarged by including

details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only ClassI and Class II towns in the 1981 and 1991 censuses. The basic amenities available in village and towns are analyzed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexure. The analytic notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/ place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analyzed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri Sudhir Kumar Rakesh, Director of Census Operations, Bihar, Patna. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state government in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Sri R.G.Mitra, Deputy Registrar General (C&T) and Dr.I.C.Agarwal, Senior Research Officer of Social Studies Division. Dr.R.P.Singh,Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computersation of village and directory data and the programme for the generation of Village Directory and Town Direcotry statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L.Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible

D.K.Sikri

Preface

The history of the publication of District Census Handbooks goes back to the 1951 Census and these are printed in every Census because of their wide range utility. In successive Censuses innovations/modifications have taken place in the District Census Handbooks in terms of coverage and content of data. This is an important publication district level brought out by the Census Organisation on behalf of the State Government. Its inter-alia, provides data/information on some of the basic demographic and socio-economic characteristics and availability of certain important civic amenities/facilities in each village and town of the district. This publication has, proved to be of immense utility to the planners, administrators, academicians and researchers. It is hoped that this publication will serve the purpose of the ever increasing demand for the micro-level data in this era of planned development.

The District Census Handbook project is joint venture of the State Government and the Census organization and is brought out in two parts, viz. (i) part A–containing the village and town directories and (ii) part B containing village and townwise Primary Census Abstracts, pertaining to total population. It also contains the District Primary Census Abstracts for the total population and the Scheduled Castes and the Scheduled Tribes Population by rural-urban break-up.

The present volume of the District Census Handbook (DCHB) in 2001 Census has been made more informative and exhaustive in terms of coverage and content. The village Directory mainly covers educational, medical, drinking water, post & telegraph, banking, credit societies, recreational & cultural and communication facilities and approach to villages available in the villages, besides, population and land use data. The content of Village Directory has been broadened by including additional facilities such as availability of banking, recreational and cultural facilities and reach of newspapers and magazines in villages. For the first time in this volume information on the most important commodity manufactured in village is provided. The Town Directory basically contains growth trend of towns since 1901, physical aspects and location, municipal finance, civic and other amenities, medical, educational, recreational and cultural facilities, trade, commerce, industry banking, civic and other amenities available in slums. In Town Directory, information on all types of slums, whether notified/recognized by respective town authorities or not is provided instead of notified slums for each statutory town. However, during 1981 and 1991 Censuses this information was restricted to class I and class II towns only.

The various basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. A significant addition in the publication is the inclusion of analytical notes presented as annexures on important aspects concerning Census data on (i) mortality (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/ place of last residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongues, based on 1991 and/or 2001 Census, with the prime objective of analysing the extent of changes taken place in socio-cultural demographic and economic field during the last decade. The eight digit permanent location code (PLCN) has been assigned to all the villages to facilitate the link of data with future censuses.

It is worth mentioning that the District Census Handbooks of the Census of India, 2001 are being made available for the first time in electronic format in addition to printed volumes keeping in view the demands of the data users.

The village and town level data of amenities have been collected through the Block Development Officers and the Vice Chairmen/Executive Officers of the Municipalities and Notified Area Committees, who functioned as Charge Census Officers under the District/Sub-divisional level Officers.

The analytical note has been prepared on the basis of the inset tables generated from the computerized data of Village Directory, Town Directory and Village/Urban Primary Census Abstract. It takes note of the social, economic and demographic changes, which have taken place in the districts during the decade. District and C.D. Block Maps containing useful information on many items have also been included in this volume.

I am grateful to the State Government agencies for their co-operation in collection of such a huge mass of data. I would like to make a special mention of the warm and whole hearted co-operation which was throughout extended by the District Magistrates, the Sub-divisional Officers, the District Census Officers and the Block Development Officers.

In my office Shri Phool Singh ex-Joint Director, Sri R.K. Ram Joint Director and K.K. Verma, D. P. Choudhary, S.K. Das Sudhakar and Mritunjay Kumar, Manjul Mayank Pandey and Shri Ramesh Prasad, Assistant Director supervised the project at different stages. District and C. D. Block Maps were prepared in Map Section under the overall supervision of Sri M. Guria and Dr. H.K. Ram, Research Officer (Map). I am thankful to all of them. The name of other officers and officials who were associated with this project is shown in separate sheet of acknowledgements.

I am personally indebted to Sri D. K. Sikri, Registrar General and Census Commissioner, India under whose guidance project was completed. I am deeply grateful to Sri J.K. Banthia, ex- Registrar General and Census Commissioner, India and Sri Sudhir Kumar Rakesh, ex-Director of Census Operations, Bihar, Patna for their sustained support and unfailing guidance throughout our endeavours. I am equally indebted to Sri R.C. Sethi, Additional Registrar General, India, Shri R.G. Mitra, ex-Deputy Registrar General (C & T), Dr. I.C. Agrawal, Assistant Registrar General of Social Studies Division and Dr. R.P. Singh, ex-Deputy Registrar General (Map) for spontaneous help and encouragement at different stages of the work of this project. I am also thankful to Sri S.L. Jain, Dy. Director and Sri R.K. Mehta, Assistant Director of Social Studies Division of Office of the Registrar General, India, New Delhi who scrutinized the manuscript.

Arun Kumar Saxena

Deputy Director of Census Operations,
Bihar, Patna

District Highlights – 2001 Census

1. Kaimur (Bhabua) ranks 32nd in terms of population (12,89,074) and 6th in terms of area (3,362 sq.km.) in the state of Bihar.
2. In terms of population per sq.km. Kaimur (Bhabua) is the 37th densely populated district in the state with 383 persons per sq.km as against the state's 881.
3. Kaimur (Bhabua) ranks 27th in terms of sex-ratio (902) against the state's 919.
4. There are 363 uninhabited villages (out of 1,712 total villages) in the district of Kaimur (Bhabua).
5. Jahanabad (under Kudra C.D. Block) is the most populated village (14,595) and Sisaundha (under Rampur C.D. Block) and Paunra (under Bhagwanpur C.D. Block) are the least populated villages (1) in the district.
6. The economy of the district mainly depends on cultivation or related work. More than 80% of the total workers are engaged in Primary sector.
7. C.D. Block Bhabua has the highest number of villages (286) in the district and C.D. Block Nuaon has the lowest number of villages (107).
8. Majhganwan (under Chainpur C.D. Block) has the largest area (9,778 hectare) and Jagdishpur (under Chand C.D. Block) has the smallest area (11 hectare) among the villages in the district.
9. Improved drinking water facility figures are impressive - it is available for 93.0 percent of the villages.

ANALYTICAL NOTE

Analytical Note

(i) History and scope of the District Census Handbook

The District Census Handbook, brought out by the Census Organization, is one of the most valuable district level publications.It provides, inter-alia, information on the basic demographic and socio-economic characteristics and availability of important civic amenities/facilities in each village and town of the respective districts.This publication has proved to be of immense utility to the planners, administrators, academicians and researchers.

The District Census Handbook, a joint venture of the State Government and the Census Organization, is one of the richest data sources, particularly in the context of planning and development at the grass root level. It is rather the only source that gives village and town level information concerning several demographic and socio-economic characteristics and also on availability of important civic amenities.This publication was brought out in the 1951 Census for the first time. In fact, it is the replacement of 'Village Statements' which used to be prepared in the Censuses of Pre-Independence period, and since 1951 it has been published after each decennial census with some innovations/improvements.

Initially the scope of the DCHB was confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town of the district. The DCHB published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories including PCA (Primary Census Abstract). At the 1971 Census, the DCHB was brought out in two parts, viz., Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA in respect of all the States and Union Territories. The Third Part of the DCHB, comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to delay in compilation of the requisite material. As far as the state of Bihar is concerned, this Third Part or Part-C could be published in respect of a few districts only. For the remaining districts, this volume was kept in the office library in mimeographed form.

At the 1981 Census, new features along with restructuring of the format of Village and Town Directory were introduced in the DCHB. These were published in two parts for each district. While Part-A comprised Village and Town Directories, the PCA of Villages and Towns (ward wise), including Scheduled Castes and Scheduled Tribes PCA up to CD Block/Town level, was provided in Part-B. To illustrate, all the amenities, except electricity, were brought together in the Village Directory and if an amenity was not available in the concerned village, the distance (in broad ranges) from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement (IV-A) on slums was provided so as to enable the planners to formulate programmes for providing civic amenities in the slums. In this statement details on civic and other amenities were presented for the notified slums of Class I and Class II towns. Apart from this, one column on the Scheduled Caste and Scheduled Tribe population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHB for the 1991 Census was, by and large, the same as followed during 1981 Census.However, the format of PCA was restructured slightly in the 1991 Census

for the benefit of data users and nine-fold industrial classification of main workers was given as against four–fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age group was also included in the PCA for the first time with a view to enabling data users to compute more realistic literacy rates as all children below 7 years of age had been treated as illiterate at the time of the 1991 Census.It was expected that the above mentioned modifications would help the planners in chalking out more effective developmental programmes.

At the country level, one of the most important innovations in the 1991 Census was the C.D.Block level presentation of data in the Village Directory and PCA instead of the traditional Tahsil/Taluka/PS level presentation across the country. For the state of Bihar, however, the Community Development Block level presentation of data in the Village Directory and PCA had been adopted since 1971 Census itself. During 1951 and 1961 Censuses the presentation of data was made at the Anchal level in the State of Bihar. In fact, Anchal and Community Development Block used to be more or less co-terminus till 1991 census. However, the situation has changed after 1991 Census and now Anchal and Community Development Block no longer remain co-terminus in all the cases. It was expected that the presentation of Village Directory and PCA data at C.D. Block level will help the planners in formulation of micro level developmental plans, as the C.D. Block is now increasingly being used as the key administrative unit for developmental planning. In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both computerized and manual codes for each village were provided for the 1991 Census along with the corresponding codes of 1981.

The District Census Handbook of Census of India, 2001 is more informative and exhaustive in terms of coverage and content. The coverage in Village Directory has been further broadened by including a number of other facilities like banking, recreational and cultural facilities, availability of newspapers & magazines and most important commodity (ies) manufactured in the Village etc. Apart from these, more details on distance(s) at which basic educational facilities (viz., Primary and Middle Schools and College) and medical facilities (viz. Allopathic Hospital, Maternity and Child Welfare Centre and Primary Health Centre) etc. are available, if not already available in the village, are being provided for the first time in DCHB.

The type and extent of basic amenities available in the villages & towns have been analyzed in depth with the help of a number of cross classified inset tables & statements. Brief analytical notes/accounts on important aspects concerning respective districts viz. (i) mortality (ii) various measures of fertility and mean age at marriage (iii) percentage distribution of migrants by place of birth/place of residence, (iv) main religions,(v) marital status of population, (vi) age, sex and education & (vii) distribution of different mother tongues, based on 1991 and/or 2001 Census, are being given at the end of the text as separate annexures.

For the District Census Hand Book of the Census of India, 2001, emphasis has been given on the quality of village and town level amenity data.With a view to find out erratic or aberrant trends of inexplicable fluctuations in amenity data, efforts have been made to verify the V.D. & T.D. data with the help of similar information brought out by the State and Central Governments as also by Government/Semi-Government institutions.

The processing of data and maps to be incorporated in the District Census Hand Book this time has been done both manually and digitally (with the help of computer technology). Another innovation of Census of India 2001 is that the hard copy of the maps of the Districts and C.D. Blocks have been converted into the digital database. During 1991 census the village wise information/amenities were shown manually in the maps of District Census Hand Book. But during 2001 Census the depiction of the information/amenities in the maps has been done by utilizing Computer Assisted Cartography.The editing, annotation, incorporation of amenities and other concerned work related with district and C.D.Block maps have been done simultaneously, as far as possible, except the incorporation of population size of the villages which became ready when the Urban/

Village Primary Census Abstract was made available through Computer Scanner.

(ii) Brief history of the district

The district of Kaimur, which till the 1991 Census was a part of Rohtas district as one of its subdivisions named as Bhabua, was elevated to the status of a district named Bhabua on 17th March, 1991 by the Government of Bihar vide its Notification No. 16/जि0पु02–30/90/46 पटना दिनांक 13 मार्च 1991. On 17th March 1994 the name of district was changed from Bhabua to Kaimur. The district is situated on the western part of the state of Bihar. It is bounded on the north by the district of Buxar of the state of Bihar and the district of Ghazipur of the state of Uttar Pradesh, on the south by the district of Garhwa of the state of Jharkhand, on the west by the districts of Chandauli and Mirjapur of the state of Uttar Pradesh and on the east by the district of Rohtas of the state of Bihar. The district has two subdivisions viz. Mohania and Bhabua and eleven Community Development Blocks viz., Bhabua, Chan, Chainpur, Bhagwanpur, Rampur, Adhaura, Durgawati, Mohania, Kudra, Ramgarh and Nuaon. Bhabua is the only town in the district. There are altogether 1712 villages in the district.

Kaimur has an old and interesting history. In pre-historic days the plateau region of the district has been the abode of the aboriginals whose chief representatives now are the Bhars, the Cheros and the Savers. According to some legends, the Kharwars were the original settlers in the hilly tracts of Rohtas. The Oraons also claim that they ruled over the stretch falling between Rohtas and Patna. One local legend also connects Sasaram the present headquarters of Rohtas with king Sahasrarjun, who was killed by Saint Parshuram in a fight.

The district of Kaimur formed part of the mighty Magadh empire from 6th century B.C. to 5th century A.D., under the Mauryan and Gupta rulers of Magadh. In the 7th century A.D., this district came under the control of Harshawardhan, the ruler of Kannouj. An inscription in the Mundeshwari temple near Bhabua, refers to the king Udaysena as the ruling chief of the area. The Seal of king Sasanka of Guada in Bengal is inscribed at Rohtasgarh in the district of Rohtas. The famous Chinese pilgrim Hieun-Tsang, who journeyed through the country in the 7th century A.D., passed through Arrah, the headquarters of the old Shahabad district through this region of newly formed Kaimur district. The area of the district successively came under the rulers of Shail dynasty of central India and Pal dynasty of Bengal. According to C.Mark, a historian, the first ruler of Pal dynasty controlled this region. Later on Chandawali controlled Varanasi-Chandawali and also the Kaimur district in the 12th century, as confirmed by the Tarachandi inscription near Sasaram. After the fall of the Guptas the district in all probability relapsed into the hands of the aboriginal tribes and came under the control of petty chieftains. The Rajputs who came from Ujjain and the province of Mallwa had a series of conflicts with the aboriginals and it took them many handred years to subdue the aboriginal completely. The Census report of 1961 describes that when Bakhtiar Khilji attacked Bihar in 1193 A.D., he found Shahabad in the hands of petty Rajput chiefs often fighting among themselves. They were not united and strong enough to offer powerful resistance to the Muslim invaders. Hence Bakhtiyar Khiliji had an easy victory over them and the district soon became a part of his kingdom. Later it was annexed, along with the rest of Bihar, to the kingdom of Jaunpur. A hundred year later, it passed under the direct control of the Muslim empire of Delhi.

Sher Shah's father, Hassan Khan sur, got the Jagir of Sasaram. Later Baler invaded the area in 1529 and has mentioned Hindu superstitions about river Karmanasha. In 1537 the old Shahabad district witnessed advancement of Humayun and his subsequent conflict with Sher Shah at Chausa. Later the district of Shahabad (which includes present Kaimur district also) was included in Akbar's empire.

In 1758, Shah Alam during his conflict with Lord Clive of East India company, went to Durgawati and with the help of local Zamindar Pahalwan Singh crossed the Karmanasha river. Subsequently Pahalwan Singh succumbed to comply and live on the latter's terms. In 1764, the old Shahabad district witnessed conflict for supremacy and the English became absolute masters of the area after defeating Siraj-ud-daula in the battle of Buxar. Again the area was shaken by the rebellion of Raja Chait Singh of Benaras but eventually the English succeeded

in suppressing the revolt.

Lastly the historic 1857 mutiny under command of Kunwar Singh had its impact in the district. As a result, during the independence movement the district had a substantial contribution to the freedom of India. Much after independence in the year 1972 Rohtas district was formed out of the old Shahabad district and in the year 1991. The present Kaimur district was formed out of the Rohtas district.

(iii) Administrative set up

The district is situated on the western part of the state of Bihar. It is bounded on the north by the district of Buxar of the state of Bihar and the district of Ghazipur of the state of Uttar Pradesh, on the south by the district of Garhwa of the state of Jharkhand, on the west by the districts of Chandauli and Mirjapur of the state of Uttar Pradesh and on the east by the district of Rohtas of the state of Bihar. The district has two subdivisions viz. Mohania and Bhabua and eleven Community Development Blocks viz., Bhabua, Chan, Chainpur, Bhagwanpur, Rampur, Adhaura, Durgawati, Mohania, Kudra, Ramgarh and Nuaon. Bhabua is the only town in the district. There are altogether 1,712 villages in the district.

District Magistrate is posted in the district who is the top most official of Revenue and civil administration. He often belongs to I.A.S. cadre. District Magistrate conducts development and welfare works in the district. ADM and other officers are posted in order to help D.M. In the administration. The district has been divided into two subdivisions namely Bhabua and Mohania which are headed by subdivisional officers either from I.A.S. or B.P.S.C. cadre. S.D.Os. are under direct authority of D.M. Subdivisions are divided in 11 development blocks where B.D.Os. are posted who undertake development and welfare projects.

Judicial Administration : The Judges and Munshif magistrates are posted at district and sub-division who administer and deliver justice of different kinds. The district judiciary is part of Indian judicial system as envisaged in Indian Constitution and independent of district administration.

Police Administration : The district has 14 police stations and covers an area of about 340447 Hectares. The Superintendent of Police, Kaimur is the head of the district police administration. The Deputy Superintendent of Police are posted to assist the police superintendent who are either from the Indian Police Service or the Bihar Police Service. In each subdivision of the district, the Deputy Superintendent of Police are posted who keep control on police administration.

(iv)Physical Features

The district may be divided into plain and plateau regions. The Plain area consists of fertile alluvial lands, which become rocky as one proceeds southwards. As one approaches the Kaimur foothills, the soil becomes stony and poor in fertility. The Kaimur plateau is an undulated tableland having thin shrubby jungles, spreading about 1200 sq. kms.

River

Originating from the Kaimur hills, the river Karmanasha passes through Mirzapur district of U.P. and forms the western boundary of the district for about 170 kms. the river Kundra, which forms eastern boundary separating Rohtas district, is a branch of the river Dhoba rising in Kaimur Plateau south-West of Tilauthu, and ultimately joins the river Karmanasha. The river Durgawati originates from Kaimur hills and flows in the northern direction. It is joined by the Kundra river before it merges finally into the river Karmanasha. The river Durgawati is perennial in nature and inundates a large area of land during heavy rains.

Climate

The climate of the district is somewhat extreme in nature, i.e., quite hot during the summer and fairly cold during the winter. January is the coldest month when the mean minimum temperature comes down to approximately 4° C. The temperature starts rising from March and reaches its peak in May when the mercury touches about 45° C. Rain starts sometime in mid June and lasts till mid September. The district gets easterly winds from June to September, and from October to May wind direction reverses. Maximum rains occur during the months of July and August (289 mm). Sometimes

winter rains occur in January -February.

Forest

The alluvial plain extending up to the foothills of Kaimur ranges, is extensively cultivated. Rice, wheat, pulses are the chief crops and the area is dotted with bamboo clumps and mango orchards. The Forests found in the Kaimur hills have suffered indiscriminate felling of trees in the recent past. The plateau is generally covered with long grasses, viz, kush and khas. Sal trees of poor quality and vast stretches of bamboo, are also found. Firewood, Kendu leaf and Chiraunji are the important forest products.

The number of fauna and game-birds has gone down considerably with the increase in the area of cultivation due to increase in irrigation facilities.

Irrigation

Durgawati and Karmanasha rivers are the perennial sources of surface water. A high level canal from Indrapuri (Dehri) has been constructed irrigates its southern parts of this district. The canal is about 84 kms long and irrigates about 34000 hectares of land during Kharif season and about 9000 hectares of land during Rabi season. The northern part of Kaimur district has a number of canal systems such as Durgawati Main Canal, Garachaube canal etc.

In the hilly tracts of Adhaura, Chainpur and Bhagwanpur blocks, only ditches and ponds are used to conserve rainwater. New techniques of water conservation and harvesting practices are needed in plain as well as these hilly areas to utilise rainwater. Reservoir tanks can store water from hill streams and rivulets especially when “Hathia” rain falls, which also provide irrigation during Rabi season. Water table in the plain areas is low and high yielding tube wells can sustain at a depth of 70-100 metres whereas small tube wells may get the aquifer jone within 25-30 metres depth. The normal depth of water table is 5-10 meters in winters and up to 15 meters in summers.

Land use pattern

Out of the total geographical area of the Kaimur district 31.22% is covered by the forest, mainly in Adhaura, Chainpur and Bhagwanpur blocks. Paddy, Wheat, Barley and Maize are the main cereal crops of the district. Among pulses, gram occupies the maximum area of cultivation, followed by Mansur, Arhar, Moong and Urad. Sugar cane and potatoes are the main cash crops.

Timber, Bamboo, Firewood, Chiraunji and Kendu leaf are the main forest produce while the minor produce consists of honey, and fodder grass.

Mines and Minerals

Sands of the Durgawati and the Kundra river are exploited as building material. The hilly tracts of Kaimur ranges are a part of very old Vindhyan system of mountains, hence, there is possibility of limestone, sulpher and pyretic iron ores to be found here. The mineral wealth needs more study and is yet to be explored properly.

Industrialisation

The district is scantily industrialised. A few private rice mills, however, are found here mainly in Mohania Subdivision. Mohania block in credited with a DRDA sponsored Dairy and a BSTDC hotel known as, The Kaimur Hotel.

Live stock

The last livestock Census, 1982 depicts the combined picture of Kaimur and Rohtas district as follows:-

Cow	2,98,265
Buffalo	2,55,319
Sheep	62,836
Goat	1,97,057
Horse	5,779
Ass	4,413
Mule	511

Transport facilities

NH 2(G.T. Road) crosses through the center of the district from Karmanasha to Kudra for about 50 kms. NH 30 originates from it near Mohania and connects this district with the capital Patna via Arah. Apart from these, there are also a few State

Highways in the district.

Mohania Block is situated on Gaya-Mughalsarai Section of Grand Chord Railway line; The railway station is called Bhabua Road. The district headquarters is located at a distance of 14 kms southward from the railway station or the G.T. Road.

Commerce

Banarasi Sari, Silk, Kaleen, Dari and Agricultural produces are the main articles which are traded in and out of the district.

Electricity and Energy

Pusauli power station is being constructed at a distance of 8-10 kms, form the Subdivisional Headquarters of Mohania. The possibility of tapping solar energy is also great in the district.

(v) Census concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Room

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room.

In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition

each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.

If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be

treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths

are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:—

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and—

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).—

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:—

i) a city or town with one or more contiguous outgrowths;—

ii) two or more adjoining towns with their outgrowths; and—

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall

for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.—

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.-

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State of Bihar are given below :

Scheduled Castes :

1. Bantar
2. Bauri
3. Bhogta
4. Bhuiya
5. Bhumij (excluding North Chotanagpur and South Chotanagpur divisions and Santal Parganas district)
6. Chamar, Mochi
7. Chaupal
8. Dabgar
9. Dhobi
10. Dom, Dhangad
11. Dusadh, Dhari, Dharhi
12. Ghasi
13. Halalkhor
14. Hari, Mehtar, Bhangi
15. Kanjar
16. Kurariar
17. Lalbegi
18. Musahar
19. Nat
20. Pan, Sawasi
21. Pasi
22. Rajwar
23. Turi

Scheduled Tribes :

1. Asur
2. Baiga
3. Banjara
4. Bathudi
5. Bedia
6. Bhumij (in North Chotanagpur and South Chotanagpur divisions and Santal Parganas district)
7. Binjhia
8. Birhor
9. Birjia
10. Chero

11. Chik Baraik
12. Gond
13. Gorait
14. Ho
15. Karmali
16. Kharia
17. Kharwar
18. Khond
19. Kisan
20. Kora
21. Korwa
22. Lohara, Lohra
23. Mahli
24. Mal Paharia
25. Munda
26. Oraon
27. Parhaiya
28. Santal
29. Sauria Paharia
30. Savar

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

Person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.— It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions,trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years.

Sex-ratio

Number of females per 1000 males in a population.

(vi) Non-Census Concepts

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewerage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below :

Crude birth rate(CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid -year Population}} \times 1{,}000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid -year Population}} \times 1{,}000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1{,}000$$

q1 :

Probability of dying between birth and age1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR).

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/ relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the

basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA/Town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./ towns. These Class I UAs/Towns are now further sub classified into seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6 (2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999) towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are deterimental to safety ,health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Note on religion

Population of the Rohtas district (from which the district of Kaimur was carved out) during 1991 was 29,00,685 Hindus constitute over 90.5 percent (26,25,871persons) of the population in the district followed by Muslims 9.3 percent (2,70,866 persons). All other four major religious communities have almost negligible percentages.

Note on mother tongue

Spoken language, which is medium of conversation, is an important attribute of population. The Census Of India has been the richest source of language data collected and published during the successive decennial censuses over a century. During 1991 census, as in the previous censuses, the mother tongue as returned by each individual was collected.

The population of the Rohtas district (from which the district of Kaimur was carved out) during 1991 was 2,900,685. As per distribution of different mother tongues (languages mentioned under 8th Schedule of Constitution of India) as returned during the 1991 Census for Rohtas district, Hindi, the main mother tongue of the district was returned by 95.8 percent (2,777,435 persons) of the population. The corresponding percentage for the Urdu, the second most prominent language spoken in Rohtas district, was 4.0 percent (115,899 persons). Speakers of other Scheduled languages were very thin in number than the two described above.

Note on important SCs and STs in the district of Kaimur during 1991 Census

The population of the Scheduled Castes in the district of Rohtas (from which the district of Kaimur was carved out) was 545,656 according to 1991 Census. Numerically the five most prominent SCs in the district were (i) Chamar, Mochi(273,930) (ii) Dusadh, Dhari,Dharhi (149,056) (iii) Dhobi (29,170) (iv) Pasi(27,503) and Musahar(20,213) while Chamar constituted the maximum proportion of Scheduled Castes population the percentages being 50.2 (more than half of the total SC population)Dusadh

and Dhobi though numerically second and third in order comprised only 27.3 and 5.3 percent of the SC population in the district. Pasi comprised 5.0 percent of theSC population in the district though numerically fourth position of SC population in the district and Musahar are much less in number as compared to the other four SCs mentioned above with only 3.7 percent of the total SC population of the district. Remaining Scheduled Castes were comparatively very less in number than the five SCs described above as their percentages to total SC population was less than even 1.0 percent except Rajwar, Bhuiya, Dom/Dhangad and Nat whose percentages were 3.0, 1.3, 1.2 and 1.0 respectively.

The population of the Scheduled Tribes in the district of Rohtas during 1991 Census was 47,076.Numerically, the five important STs were namely (i) Kharwar (ii) Gond (iii) Oraon (iv) Chero and (iv) Santal. Kharwar had 21,390 population, which constituted 45.4 percent of the Scheduled Tribes population in the district, Gond with 9,433 population constituted 20.0 percent of the ST population. Oraon, which were 8,569 in number, constituted 18.2 percent of the ST population. Chero comprised 4,902 persons and constituted 10.4 percent of ST population while Santal with 610 population constituted 1.3 percent of the total ST population in the district. The other Scheduled Tribes were almost negligible in proportion.

(vii) 2001 Census Findings–Population and its Distribution

According to the 2001 Census, the total population of Kaimur district is 12,89,074 comprising 6,77,623 Males and 6,11,451 Females and constituting 1.6 percent of the State population spread over 3.6 percent of the area of the State in the 11 C.D.Blocks of the district. Bhabua is the most populous where as Adhaura is the least populated C.D. Blocks in the district. Tables 1 to 52 based on PCA,V.D & Household data give insight into the colour and texture of the population in the district.

(a) Brief analysis of PCA data based on inset tables 1 to 36 :

TABLE 1: DECADAL CHANGE IN POPULATION OF C.D.BLOCK BY RESIDENCE, 1991-2001

Serial		Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001

11	Adhaura	34,378	34,378	0	44,664	44,664	0	29.9	29.9	0	0	0
	District											
	Total:	**983,269**	**956,228**	**27,041**	**1,289,074**	**1,247,299**	**41,775**	**31.1**	**30.4**	**54.5**	**2.8**	**3.2**

Table 1 shows that rise in the population of this district during 1991-2001 decade has been of the order of 31.1 percent whereas the rural population over the decade has increased by 30.4 percent. The urban population growth over the decade has been as much as 54.5 percent. Rural-urban migration is important factor which always leads to rapid expansion of the urban unit. Among the C.D. Blocks, Bhabua has shown the highest increase in population over the decade with 33.8 percent. It may be due to the fact

that Bhabua town, the district headquarters, is located in this C.D. Block. The next highest increase in population is observed in Nuaon C.D. Block with 33.7 percent followed by Mohania C.D. Block with 33.0 percent. Percentage decadal variation has been observed to be the least in the case of Chand C.D. Block with 24.1 percent.

The increase in rural population during 1991-2001 has been highest in Nuaon C.D. Block with 33.7 percent followed by Mohania C.D. Block with 33.0 percent.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

	Total:	**133 (9.9)**	**199,915**	**181,135**	**11 (0.8)**	**38,204**	**34,295**	**2 (0.1)**	**13,298**	**11,601**

Table 2 shows that the maximum number of villages in the district lie in the population range of 500-999 accounting for 26.8 percent of the total inhabited villages closely followed by villages in the population range of 200-499 accounting for 26.5 percent of the total inhabited villages. The percentage of population in the above two population ranges are 20.9 and 9.7 percent of the total rural population of the district respectively. The villages in the population range of 1000-1999 constitute 19.1 percent of the total inhabited villages and in these villages the percentage of population is 29.2 percent. There are 226 villages in the population range of less than 200 accounting for 16.8 percent of the inhabited villages and in these villages the percentage of population is only 1.8 percent. There are 11 villages in the population range 5000-9999 accounting for 0.8 percent of the total inhabited villages and in these villages the percentage of population is 5.8 percent of the total rural population. There are 133 villages in the population range of 2000-4999 accounting for 9.9 percent of the total inhabited villages and in these villages the percentage of population is 30.6 percent. There are only 2 villages in the highest population range of 10,000 and above accounting for only 0.1 percent of the total inhabited villages and in these villages the percentage of population is 2.0

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Above table is not applicale in respect of Kaimur (Bhabua) district as there has been no change between 1991 Census and 2001 Census

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	26	1.9	4,674	0.4
11-20	27	2.0	3,807	0.3
21-50	65	4.8	12,788	1.0

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001 (*Concld.*)

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
51-100	61	4.5	21,423	1.7
101-200	77	5.7	21,139	1.7
201-300	82	6.1	34,039	2.7
301-500	271	20.1	184,845	14.8
501 +	740	54.9	964,584	77.3
Not known	0	0.0	0	0.0
District Total:	**1,349**	**100.0**	**1,247,299**	**100.0**
Population Density (Rural) of the district:		**417**		

The data presented in the above table the fact that maximum proportion of villages in Kaimur district lies in the density range of 501+ with 54.9 percent of the total inhabited villages followed by villages in the density range of 301-500 which account for 20.1 percent. It would further be seen that small number of villages fall in the density range of 201-300 which account for 6.1 percent of the total inhabited villages.

Maximum number of villages fall in the density range of 501+ covering 77.3 percent of the population followed by villages in the density range of 301-500 which account for 14.8 percent of the population.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	1,061	1,064	1,003	1,096	1,096	1,103
1911	1,051	1,056	942	1,062	1,062	1,052
1921	1,020	1,027	886	1,029	1,029	990
1931	995	1,005	820	995	998	864
1941	1,002	1,012	842	981	983	881
1951	1,000	1,010	859	962	964	892
1961	1,005	1,020	832	976	978	839
1971	957	968	833	932	935	859
1981	948	959	852	907	910	806
1991	907	913	857	884	885	848
2001	919	926	868	902	905	832

Note: Sex ratio has been defined here as the number of females per 1000 males.

Table 5 shows that sex ratio for the urban areas of Kaimur district is comparatively high as compared to the urban areas of the state from 1911 Census to 1971 Census whereas from 1981 Census to 2001 Census the sex ratio for the urban areas of Kaimur district is comparatively low as compared to the urban areas of the state. However, on the other hand, the sex ratio for the rural areas of the state from 1901 Census to 1921 Census is comparatively low whereas from 1931 to 2001 censuses the sex ratio for the rural areas of the state is comparatively high as compared to rural areas of the district.

TABLE 6 : SEX RATIO BY C.D. BLOCKS, 2001

Serial number	Name of C. D. Block	Sex ratio		
		Total	Rural	Urban

	District Total:	**902**	**905**	**832**

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C. D. Block	Sex ratio
1	2	3
1	Ramgarh	925
2	Nuaon	909
3	Kudra	900
4	Mohania	896
5	Durgawati	922
6	Chand	908
7	Chainpur	903
8	Bhabua	899
9	Rampur	904
10	Bhagwanpur	895
11	Adhaura	896
	District (Rural) Total:	**905**

In Kaimur district as a whole there are 902 females for every thousand males within the district, the sex ratio varies 925 in Ramgarh C.D. Block to 887 in Bhabua C.D. Block. The sex ratio of Mohania C.D. Block is 896. The sex ratio figures for rural and urban areas of Kaimur district are 905 and 832 respectively.

The sex ratios of Ramgarh, Nuaon, Durgawati and Chand C.D. Blocks are higher than the district rural average of 905 while Kudra, Mohania, Chainpur, Bhabua, Rampur, Bhagwanpur and Adhaura C.D. Blocks have sex ratios below the district rural average. The urban sex ratio of the district is 832 which is lower than the total and rural average, of the district.

As for rural areas in Kaimur district there are 905 females for every thousand males. Within the district, the sex ratio varies from 925 in Ramgarh C.D. Block to 895 in Bhagwanpur C.D. Block. The sex ratios of Mohania, Bhabua and Adhaura C.D. Blocks are 896, 899 and 896 respectively. The sex ratios of Rmgarh, Nuaon, Durgawati and Chand C.D. Blocks are higher than the district rural average of 905 while Kudra, Mohania, Chainpur, Bhabua, Rampur, Bhagwanpur and Adhwaura C.D. Blocks have sex ratios below the district rural average.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	27	2.0	2,270	0.2
700-749	18	1.3	3,998	0.3
750-799	68	5.0	23,409	1.9
800-849	190	14.1	132,784	10.6
850-899	327	24.2	402,067	32.2
900-949	372	27.6	452,831	36.3
950-999	182	13.5	156,754	12.6
1000-1099	135	10.0	69,423	5.6
1100+	30	2.2	3,763	0.3
District Total:	**1,349**	**100.0**	**1,247,299**	**100.0**
Sex ratio (Rural) for District:		**905**		

Table 8 shows that the maximum proportion of villages in Kaimur district lies in the sex ratio range of 900-949 and these villages account for 27.6 percent of the total inhabited villages. It further reveals that these villages which fall in this sex ratio range account for 36.3 percent of the district rural population. 327 villages (24.2%) fall in the sex ratio range of 850-899 and these villages account for 32.2 percent of the rural population of the district. 190 villages (14.1%) are in the sex ratio range of 800-849 and these villages account for 10.6 percent of the rural population. 182 villages (13.5%) fall in the favourable sex ratio range of 950-999 and these villages account for 12.6 percent of the rural population. 135 villages (10.0%) are in the very favourable sex ratio range of 1000-1099 and this villages account for 5.6 percent of the rural population. 18 villages (1.3%) are in the unfavourable sex ratio range of 700-749 and these villages account for only 0.3 percent of the rural population. 30 villages (2.2%) fall in the very favourable sex ratio range of 1100+ and this small proportion of villages accounts for 0.3 percent of the population. Only 27 villages (2.0%) are in the lowest range of sex ratio (less than 700) which account for 0.2 percent of the population.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of Town	Urban status of town	Sex ratio

		Rural	14,727	7,622	7,105	932
		Urban	0	0	0	0
11	Adhaura	Total	9,925	4,974	4,951	995
		Rural	9,925	4,974	4,951	995
		Urban	0	0	0	0
	District Total:	**Total**	**269,812**	**139,100**	**130,712**	**940**
		Rural	**262,947**	**135,507**	**127,440**	**940**
		Urban	**6,865**	**3,593**	**3,272**	**911**

The above table 10 shows that the sex ratio in the age group 0-6 in the district varies from 995 in Adhaura C.D. Block to 921 in Durgawati C.D. Block. The sex ratio of Rampur is 958 while the sex ratio of Chand is 953.

The sex ratio figures in the age group 0-6 of Ramgarh, Kudra, Chand, Chainpur, Rampur and Adhaura C.D. Blocks are higher than the district total and rural averages while Nuaon, Mohania, Durgawati, Bhabua and Bhagwanpur C.D. Blocks have sex ratios below the district total and rural averages. The urban sex ratio of Kaimur district is lower than the total and rural sex ratios of the district.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C. D. Block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Ramgarh	21,423	11,022	10,401	944
2	Nuaon	19,459	10,082	9,377	930
3	Kudra	26,271	13,524	12,747	943
4	Mohania	35,903	18,654	17,249	925
5	Durgawati	23,767	12,370	11,397	921
6	Chand	21,560	11,038	10,522	953
7	Chainpur	31,953	16,391	15,562	949
8	Bhabua	41,058	21,200	19,858	937
9	Rampur	16,901	8,630	8,271	958
10	Bhagwanpur	14,727	7,622	7,105	932
11	Adhaura	9,925	4,974	4,951	995
	District (Rural) Total:	**262,947**	**135,507**	**127,440**	**940**

It is observed in table 11 that the sex ratio in the age group 0-6 among the rural population in the C.D. Blocks of the district varies from 995 in Adhaura C.D. Block to 921 in Durgawati C.D. Block. The sex ratio of Rampur C.D. Block is 958 while the sex ratio of Chand C.D. Block is 953. The sex ratio figures of Ramgarh, Kudra, Chand, Chainpur, Rampur and Adhwaura C.D. Blocks are higher than the district average while Nuaon, Mohania, Durgawati, Bhabua and Bhagwanpur C.D. Blocks have sex ratios below the district average.

TABLE 12: SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	125	9.3	5,896	2.2
700-749	61	4.5	7,585	2.9
750-799	74	5.5	9,472	3.6
800-849	130	9.6	28,279	10.8
850-899	146	10.8	38,453	14.6
900-949	176	13.0	57,466	21.9
950-999	125	9.3	39,549	15.0
1000-1099	238	17.6	46,445	17.7
1100+	274	20.3	29,802	11.3
District (Rural) Total	**1,349**	**100.0**	**262,947**	**100.0**
Sex ratio (Rural) for District:		**940**		

It is observed in the above table that 20.3 percent of inhabited villages in Kaimur district lies in the sex ratio range of 1100+ in the age group 0-6. 238 villages (17.6%) are in the sex ratio range of 1000-1099. 176 villages (13.0%) are in the sex ratio range of 900-949. 146 villages (10.8%) are in the sex ratio range of 850-899 and 130 villages (9.6%) are in the sex ratio range of 800-849. There are 74 villages (5.5%) in the district which lie in the unfavourable sex ratio range of 750-799. These villages account for 3.6 percent of the rural population of the district. There are 61 villages (4.5%) in the district having also unfavourable sex ratio range of 700-749 which account for 2.9 percent of the rural population of the district.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Bhabua	M	6,865	3,593	3,272	911
	District(Urban) Total		**6,865**	**3,593**	**3,272**	**911**

There is no urban agglomeration in Kaimur district. It is apparent from the above table that there is only one statutory town in Kaimur district i.e. Bhabua(M). The sex ratio in the age group 0-6 of Bhabua(M) is 911.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

		Urban	**41,775**	**4,182**	**1,051**	**10.0**	**2.5**

The above table shows that the percentage of scheduled castes in Kaimur district is 22.2 percent of the total population in the district. Within the district highest percentage of scheduled castes population is in Rampur C.D. Block with 29.0 percent followed by Bhagwanpur, Mohania, Durgawati and Chand C.D. Blocks with 26.8, 25.4, 24.9 and 22.5 percent respectively. The percentage of scheduled castes population in Kaimur district for the urban area is 10.0 percent which is lower than the rural areas (22.6%). The percentage of scheduled tribes population in Kaimur district is 2.8 percent only according to 2001 census.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Serial number	Name of C. D. Block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage Scheduled Castes population to total population	Percentage Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Ramgarh	104,373	23,320	379	22.3	0.4
2	Nuaon	97,639	18,894	520	19.4	0.5
3	Kudra	127,780	27,729	467	21.7	0.4
4	Mohania	175,491	44,651	961	25.4	0.5
5	Durgawati	111,360	27,769	1,150	24.9	1.0
6	Chand	101,295	22,757	1,229	22.5	1.2
7	Chainpur	145,722	28,890	5,180	19.8	3.6
8	Bhabua	194,396	41,817	1,608	21.5	0.8
9	Rampur	78,277	22,691	640	29.0	0.8
10	Bhagwanpur	66,302	17,800	1,180	26.8	1.8
11	Adhaura	44,664	5,791	21,297	13.0	47.7
	District (Rural) Total:	**1,247,299**	**282,109**	**34,611**	**22.6**	**2.8**

The above table indicates that the percentage of scheduled castes in Kaimur district is of the order of 22.6 percent of the total population. The highest percentage of scheduled castes population is in Rampur C.D. Block with 29.0 percent of the total population closely followed by Bhagwanpur, Mohania, Durgawati and Chand C.D. Blocks with 26.8, 25.4, 24.9 and 22.5 percent respectively. The percentages of scheduled castes population in Mohania, Durgawati, Rampur and Bhagwanpur C.D. Blocks are higher than the district rural average (22.6%). The percentage of scheduled tribes population in Kaimur district is 2.8 percent.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Castes population to total population	Number of villages	Percentage	Population	Scheduled Castes Percentage
1	2	3	4	5
Nil	294	21.8	0	0.0
Less than 5	62	4.6	1,323	0.5
5-10	111	8.2	8,859	3.1
11-20	280	20.8	63,538	22.5
21-30	246	18.2	93,662	33.2
31-40	141	10.5	49,824	17.7
41-50	81	6.0	28,596	10.1
51-75	79	5.9	22,250	7.9
76 and above	55	4.1	14,057	5.0
District Total	**1,349**	**100.0**	**282,109**	**100.0**

From the above table it is apparent that there are 280 villages accounting for 20.8 percent of the inhabited villages in the district where the population of scheduled castes ranges between 11 and 20 percent of total population. This is followed by villages where the population of scheduled castes ranges between 21 and 30 percent of the total population. These 246 villages account for 18.2

percent of the total inhabited villages. There are 141 villages which account for 10.5 percent of the inhabited villages where the percentage of scheduled castes population to total population is between 31 and 40. There are 111 villages which constitute 8.2 percent of the inhabited villages where the percentage of scheduled castes population to total population is between 5 and 10. 81 villages are such which constitute 6.0 percent of the inhabited villages where the percentage of scheduled castes population to total population is between 41 and 50. There is no scheduled castes population in 294 villages which account for 21.8 percent of the inhabited villages.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	1,048	77.7	0	0.0
Less than 5	120	8.9	3,970	11.5
5-10	34	2.5	2,960	8.6
11-20	30	2.2	4,162	12.0
21-30	15	1.1	2,113	6.1
31-40	13	1.0	2,508	7.2
41-50	14	1.0	3,891	11.2
51-75	30	2.2	6,275	18.1
76 and above	45	3.3	8,732	25.2
District Total	**1,349**	**100.0**	**34,611**	**100.0**

As regards the population of the scheduled tribes it can be seen from the above table that there are 120 villages which constitute 8.9 percent of the total inhabited villages in the district which have 11.5 percent of scheduled tribes population where the percentage is less than 5 of scheduled tribes population to total population. There are as many as 1,048 villages which constitute 77.7 percent of the total inhabited villages in the district which have no scheduled tribes population. There are 30 villages which constitute 2.2 percent of the total inhabited villages in the district where the percentage of scheduled tribes population to total population is between 11 and 20.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Bhabua (M)	41,775	4,182	1,051	10.0	2.5
	District(Urban) Total	**41,775**	**4,182**	**1,051**	**10.0**	**2.5**

The above table 18 shows that there is no urban agglomeration in Kaimur district. There is only one statutory town in the district i.e. Bhabua (M). The percentage of scheduled castes population to total population is 10.0 in Bhabua (M) where as the percentage of scheduled tribes population in Bhabua(M) is 2.5 percent.

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C. D. Block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Ramgarh	902	974
2	Nuaon	895	857
3	Kudra	893	831
4	Mohania	893	903
5	Durgawati	905	885
6	Chand	889	900
7	Chainpur	900	877
8	Bhabua	901	910
9	Rampur	885	957
10	Bhagwanpur	906	947
11	Adhaura	915	926
	District (Rural) Total	**897**	**914**

Table 19 shows that the sex ratio of scheduled castes varies from 915 in Adhaura C.D. Block to 885 in Rampur C.D. Block. The sex ratio figures of scheduled castes relating to Ramgarh, Durgawati, Chainpur, Bhabua, Bhagwanpur and Adhaura C.D. Blocks are higher than the district average, where as the sex ratio figures of Nuaon, Kudra, Mohania, Chand and Rampur C.D. Blocks are lower than the district average.

The sex ratio figures of scheduled tribes varies from 974 in Ramgarh C.D. Block to 831 in Kudra C.D. Block. The sex ratio figures of scheduled tribes in Nuaon, Kudra, Mohania, Durgawati, Chand, Chainpur and Bhabua C.D. Blocks are below the district average. The sex ratio figures of scheduled tribes relating to Ramgarh, Rampur, Bhagwanpur and Adhaura C.D. Blocks are higher than the district average.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

11	Adhaura	14,321	10,832	3,489	30,343	12,730	17,613	41.2	58.3	21.6	36.7
	District (Rural)										
	Total:	**535,019**	**358,850**	**176,169**	**712,280**	**295,976**	**416,304**	**54.4**	**69.1**	**37.9**	**31.2**

Table 21 and 22 show & that among the C.D. Blocks in the district Mohania C.D. Block has the highest proportion of literate population (61.3%) followed by Kudra C.D. Block (60.6%). The literacy rates for Ramgarh, Nuaon, Bhabua and Durgawati C.D. Blocks are 60.2, 58.2, 56.8 and 56.7 percent respectively. Male literates out number female literates in all the C.D. Blocks of Kaimur district. The highest proportion of male literates is in Mohania C.D. Block with 75.3 percent closely followed by Ramgarh, Kudra, Nuaon and Durgawati C.D. Blocks with 75.2, 74.8, 72.6 and 72.1 percent respectively. Mohania C.D. Block has the highest female literacy rate with 45.4 percent while Adhaura C.D. Block has the lowest literacy rate among the females with 21.6 percent. Male literacy rates for Ramgarh, Nuaon, Kudra, Mohania, Durgawati and Bhabua C.D. Blocks are higher than the district average.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	15	1.1	713	0.1
1-10	19	1.4	3,564	0.3
11-20	49	3.6	12,408	1.0
21-30	82	6.1	36,868	3.0
31-40	147	10.9	99,414	8.0
41-50	274	20.3	241,656	19.4
51-60	384	28.5	481,985	38.6
61-70	243	18.0	279,385	22.4
71-80	102	7.6	84,361	6.8
81-90	24	1.8	6,730	0.5
91-99	3	0.2	172	0.0
100	7	0.5	43	0.0
District Total:	**1349**	**100.0**	**1,247,299**	**100.0**
Literacy rate for District:		**55.1**		

The above table shows that in 28.5 percent of the inhabited villages, literacy rate ranges between 51 and 60 percent. In these 384 villages 38.6 percent of the district rural population live. This is the largest group of villages in the district. This is followed by 274 villages with 19.4 percent of the district rural population. 20.3 percent of the inhabited villages are such where literacy rate ranges between 41 and 50 percent. 18.0 percent of the inhabited villages i.e. 243 villages are such where literacy rate ranges between 61 and 70 percent. These villages account for 22.4 percent of the district rural population. 10.9

percent of the inhabited villages i.e. 147 villages are such where literacy rate ranges between 31 and 40 percent and these villages account for 8.0 percent of the district rural population. 7.6 percent of the inhabited villages i.e. 102 villages are such where literacy rate ranges between 71 and 80 percent. These villages account for 6.8 percent of the district rural population. There are 82 villages accounting for 6.1 percent of the inhabited villages where literacy rate ranges between 21 and 30 percent and these villages account for only 3.0 percent of the district rural population.

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name and urban status / Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Bhabua (M)	26,835	16,346	10,489	14,940	6,451	8,489	76.9	85.1	66.8	18.3
	District(Urban)										
	Total	**26,835**	**16,346**	**10,489**	**14,940**	**6,451**	**8,489**	**76.9**	**85.1**	**66.8**	**18.3**

There is no urban agglomeration in Kaimur district. There is only one statutory town in the district i.e. Bhabua(M). The literacy rate for Bhabua (M) is 76.9 percent. Male literates greatly out number female literates as the male literacy rate for Bhabua (M) is 85.1 percent while the female literacy rate is 66.8 percent.

TABLE 25: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001

11	Adhaura	1,707	1,298	409	4,084	1,726	2,358	38.8	56.0	19.6	36.4
	District (Rural)										
	Total:	**87,306**	**65,004**	**22,302**	**194,803**	**83,685**	**111,118**	**40.2**	**56.4**	**21.9**	**34.5**

The table above shows that literacy rate among the scheduled castes is highest i.e. 45.8 percent in the Mohania C.D. Block whereas it is lowest i.e. 33.8 percent in Bhagwanpur C.D. Block in the district. It is observed that the literacy rate among the scheduled castes for the district is 40.2 percent. As regards percentage of male literacy rate among the scheduled castes it is highest i.e. 62.4 percent in Mohania C.D. Block where as it is lowest in Bhagwanpur C.D. Block with 47.7 percent. In case of female literacy rate among the scheduled castes it is highest in Mohania C.D. Block with 26.9 percent whereas it is lowest in Chand C.D. Block with 16.8 percent. It is found that the gap between male and female literacy rate is highest i.e. 36.5 percent in Durgawati C.D. Block where as it is lowest i.e. 29.6 percent in Bhagwanpur C.D. Block.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	29	2.7	699	0.2
1-10	36	3.4	3,369	1.2
11-20	75	7.1	11,942	4.2
21-30	152	14.4	42,429	15.0
31-40	257	24.4	79,855	28.3
41-50	264	25.0	85,247	30.2
51-60	169	16.0	45,708	16.2
61-70	56	5.3	11,392	4.0
71-80	11	1.0	768	0.3
81-90	3	0.3	691	0.2
91-99	0	0.0	0	0.0
100	3	0.3	9	0.0
District Total:	**1055**	**100.0**	**282,109**	**100.0**
Literacy rate for District (Rural):		**40.2**		

The above table 26 shows that in case of literacy among the scheduled castes in the villages of the district the highest number of villages i.e. 25.0 percent fall in the literacy rate of 41-50 percent where as the lowest number of villages i.e. 0.3 percent fall in the literacy range of 81-90 and 100 percent. It is observed that of the total villages in the district 14.4 percent villages are such which fall in the literacy range of 21-30 percent in case of literacy among the scheduled castes in the villages of the district.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates									Gap in male-female literacy rate
		Number of literates			Number of illiterates			Percentage of literates			
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Bhabua (M)	1,903	1,325	578	2,279	1,017	1,262	56.4	68.8	39.9	28.9
	District (Urban) Total	**1,903**	**1,325**	**578**	**2,279**	**1,017**	**1,262**	**56.4**	**68.8**	**39.9**	**28.9**

The table above shows that the literacy rate among the scheduled castes in the urban areas of the district is 56.4 percent in case of the total population, 68.8 percent in case of male and 39.9 percent in case of females. It is found that the gap between male and female literacy rate is 28.9 percent in Bhabua (M).

TABLE 28 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001

Serial number	Name of C. D. Block	Number of literates and illiterates									Gap in male-female literacy rate
		Number of literates			Number of illiterates			Percentage of literates

9	Rampur	94	74	20	546	253	293	19.6	29.1	8.8	20.3
10	Bhagwanpur	253	187	66	927	419	508	27.1	38.3	14.8	23.5
11	Adhaura	5,979	4,654	1,325	15,318	6,403	8,915	36.0	53.1	16.9	36.2
	District (Rural) Total:	**10,185**	**7,729**	**2,456**	**24,426**	**10,352**	**14,074**	**37.7**	**54.0**	**19.4**	**34.6**

The above table 28 shows that among the scheduled tribes the percentage of literates is highest i.e. 60.3 percent in Nuaon C.D. Block whereas it is lowest i.e. 19.6 percent in Rampur C.D. Block in the district. It is observed that the literacy rate among the scheduled tribes for the district is 37.7 percent. As regards male literacy rate among the scheduled tribes it is highest in Durgawati C.D. Block with 73.6 percent where as it is lowest in Rampur C.D. Block with 29.1 percent. In case of female literacy rate among the scheduled tribes it is highest in Nuaon C.D. Block with 44.0 percent whereas it is lowest in Rampur C.D. Block with only 8.8 percent.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	14	4.7	285	0.8
1-10	16	5.3	1,023	3.0
11-20	34	11.3	3,481	10.1
21-30	49	16.3	7,054	20.4
31-40	55	18.3	9,485	27.4
41-50	45	15.0	5,730	16.6
51-60	39	13.0	4,529	13.1
61-70	27	9.0	1,941	5.6
71-80	13	4.3	859	2.5
81-90	5	1.7	210	0.6
91-99	0	0.0	0	0.0
100	4	1.3	14	0.0
District Total:	**301**	**100.0**	**34,611**	**100.0**
Literacy rate for District (Rural):		**37.7**		

The above table 29 shows that in case of literacy among the scheduled tribes in the villages of the district the highest number of villages i.e. 18.3 percent fall in the literacy range of 31-40 percent where as the lowest number of villages i.e. 1.3 percent fall in the literacy range of 100 percent according to 2001 census.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial	Name and urban	Number of literates and illiterates						Percentage of literates			Gap in male-female
		Number of literates			Number of illiterates						
Number	status of Town	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	literacy rate
1	2	3	4	5	6	7	8	9	10	11	12
1	Bhabua (M)	580	368	212	471	190	281	66.4	78.6	52.3	26.3
	District (Urban) Total	**580**	**368**	**212**	**471**	**190**	**281**	**66.4**	**78.6**	**52.3**	**26.3**

There is no urban agglomeration in Kaimur district. There is only one statutory town i.e. Bhabua (M), where the literacy rate among the scheduled tribes is 66.4 percent in the urban areas of the district. The literacy rate among the male scheduled tribes is 78.6 percent and 52.3 percent in case of female scheduled tribes literacy rate.

TABLE 31: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN C.D.BLOCKS, 2001

The work participation rate for total workers is defined as the percentage of total workers to total population. In a similar way it is defined for main and marginal workers. Table 32 shows that the work participation rate (WPR) in the district is 24.4 percent as main workers and 10.3 percent as marginal workers. The proportion of non workers in the district is 65.2 percent.

Among the main workers male work participation rate in the district is 38.0 percent while that of females is only 9.4 percent as per 2001 census. The proportion of main workers is highest (29.5%) in Chand C.D. Block and the lowest (22.1%) in Durgawati C.D. Block. Out of 11 C.D. Blocks WPR of 4 C.D. Blocks are above the district average. The proportion of marginal workers is highest (17.6%) in Adhaura C.D. Block and lowest (8.1%) in Bhabua C.D. Block. The proportion of total workers is highest (43.6%) in Adhaura C.D. Block and lowest (31.1%) in Kudra C.D. Block.

Among the non workers male WPR in the district is 53.0 percent, while that of females is 78.7 percent as per 2001 census.

Table 31 deals with the same topic as Table 32, the only difference being that it deals with the total areas of the district and its C.D. Blocks.

TABLE 33: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON-WORKERS BY SEX IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name and urban status of Town	Persons / Males / Females	Total Population	Main worker		Marginal worker		Total workers (Main and marginal Workers)		Non workers	
				Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
1	2	3	4	5	6	7	8	9	10	11	12

		Females	18,978	497	2.6	395	2.1	892	4.7	18,086	95.3
	District (Urban)										
	Total:	**Persons**	**41,775**	**8,163**	**19.5**	**1,085**	**2.6**	**9,248**	**22.1**	**32,527**	**77.9**
		Males	**22,797**	**7,666**	**33.6**	**690**	**3.0**	**8,356**	**36.7**	**14,441**	**63.3**
		Females	**18,978**	**497**	**2.6**	**395**	**2.1**	**892**	**4.7**	**18,086**	**95.3**

There is no urban agglomeration in Kaimur District. The only urban unit in the district is Bhabua(M). The work participation rate for Bhabua(M) recorded is 19.5 percent of the total population of the town as main workers and 2.6 percent as marginal workers. The proportion of non workers in the town is 77.9 percent. The proportion of male and female main workers are 33.6 percent and 2.6 percent respectively. The proportion of marginal workers among males is 3.0 percent and that of females is 2.1 percent. The proportion of male and female non workers are 63.3 percent and 95.3 percent respectively.

				(21.3)	**(23.6)**	**(63.1)**	**(4.7)**	**(8.5)**

Note: Percent of Workers to total workers are given in brackets

From the above table the relative importance of the main spheres of economic activity may be gauged from the pattern of distribution of main workers according to the broad four fold classification namely, cultivators, agricultural labourers, household industry workers and other workers. The economic activity in the rural and urban areas in the district is primarily dependent on agriculture which is supported by the fact that the cultivators (34.1%) and agricultural labourers (48.6%) together constitute 82.7 percent of the total workers of the district. The agriculture sector has absorbed more than three fourth of the total main workers. The proportion of cultivators varies between 41.9 percent for Nuaon C.D. Block to 26.4 percent for Bhabua C.D. Block. The proportion of agricultural labourers varies between 56.5 percent in Chainpur C.D. Block to 29.6 percent in Adhaura C.D. Block. The proportion of household industry workers is only 3.5

percent of the total workers of the district. The proportion of household industry workers varies between 5.0 percent in Bhagwanpur C.D. Block to 2.3 percent in Chand C.D. Block. The proportion of other workers is 13.8 percent of the total workers of the district. The proportion of other workers varies between 26.2 percent in Adhaura C.D. Block to 6.4 percent in Chand C.D. Block.

Table 35 deals with the same topic as Table 34, the only difference being that it deals with the rural areas of the district and its C.D. Blocks.

TABLE 36: DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name and urban status of Town	Persons/ Males/ Females	Total population	Total number of workers (Main + Marginal)	Category of workers			
					Cultivators	Agricultural Labourers	Household Industry workers	Other workers
1	2	3	4	5	6	7	8	9
1	Bhabua (M)	Persons	41,775	9,248	905	831	639	6,873
				(22.1)	(9.8)	(9.0)	(6.9)	(74.3)
		Males	22,797	8,356	870	523	515	6,448
				(36.7)	(10.4)	(6.3)	(6.2)	(77.2)
		Females	18,978	892	35	308	124	425
				(4.7)	(3.9)	(34.5)	(13.9)	(47.6)
	District (Urban)							
	Total:	**Persons**	**41,775**	**9,248**	**905**	**831**	**639**	**6,873**
				(22.1)	**(9.8)**	**(9.0)**	**(6.9)**	**(74.3)**

				(36.7)	**(10.4)**	**(6.3)**	**(6.2)**	**(77.2)**
		Females	**18,978**	**892**	**35**	**308**	**124**	**425**
				(4.7)	**(3.9)**	**(34.5)**	**(13.9)**	**(47.6)**

Note : Percentage of workers to total workers are given in brackets

There is no urban agglomeration in Kaimur district. There is only one statutory town in the district i.e. Bhabua(M). From the above table, the relative importance of the main spheres of economic activity may be gauged from the pattern of distribution of main workers according to the broad four fold classification namely cultivators, agricultural labourers, household industry workers and other economic activities. The cultivators constitute 9.8 percent and agricultural labourers constitute 9.0 percent of the total workers of Bhabua(M). The proportion of male and female cultivators are 10.4 and 3.9 percent respectively. The proportion of male and female agricultural labourers are 6.3 and 34.5 percent respectively.

Households industry workers constitute 6.9 percent of the total workers of Bhabua(M). The proportion of households industry workers among males is 6.2 percent and that of females is 13.9 percent. Other workers constitute 74.3 percent of the total workers of Bhabua(M). The proportion of male and female other workers are 77.2 and 47.6 percent respectively.

(b) Brief analysis of the Village Directory and Town Directory data based on inset tables 37 to 47:

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table gives the distribution of villages according to the availability of different amenities in the district.

Educational amenity :- There are as many as 805 villages accounting for 59.7 percent of the total number of inhabited villages (1349) in the district where educational facility is available. The highest proportion of villages with educational facility is in Durgawati C.D. Block with 72.2 percent closely followed by Adhaura C.D. Block with 67.0 percent. The smallest proportion of villages with educational facility is observed in Rampur C.D. Block with 50.4 percent.

Medical amenity :- The availability of medical amenity in the villages is quite low and only 16.7 percent villages have got it. Among the C.D. Blocks, Mohania has the largest proportion of villages with medical facility, the percentage being 34.8, percent. It is followed by Ramgarh and Kudra C.D. Blocks with 34.0 and 32.3 percent respectively. Bhagwanpur C.D. Block, on the other hand has the minimum proportion of villages (2.1%) where medical amenity is available.

Improved drinking water :- There are as many as 1254 villages accounting for 93.0 percent of the total inhabited villages in the district where improved drinking water facility is available. Among the C.D. Blocks, Kudra has 96.9 percent proportion of villages where improved drinking water facility is available. Chand C.D. Block, on the other hand, has lowest proportion of villages (83.5%) where improved drinking water facility is available.

Post office :- Postal facilities are available in 124 villages out of 1349 inhabited villages (9.2%) in the district. Nuaon C.D. Block has the maximum number of villages having postal facility (14.6%). Adhaura C.D. Block has the minimum number of villages having postal facility (1.9%).

Telephone :- The availability of telephone facility in the villages is quite low and only 6.2 percent have got it. Among the C.D. Blocks, Ramgarh C.D. Block has the maximum number of villages having telephone facility (16.0%) while the villages of Adhaura C.D. Block still do not have telephone facility.

Transport communications :- Transport communication facilities are available in 175 villages out of 1349 inhabited villages (13.0%) in the district. Mohania C.D. Block has the highest proportion of villages (22.8%) which are connected by bus or rail or navigable river/canal services. Bhagwanpur C.D. Block has the minimum number of villages having transport communication (4.3%).

Bank :- Banking facility is available only in 60 villages out of 1349 inhabited villages (4.4%) in the district. Among the C.D. Blocks, Chand C.D. Block has the maximum number of villages having banking facility (10.4%) whereas Adhaura C.D. Block has the minimum number of villages having banking facility (1.9%).

Agricultural credit societies :- Agricultural credit societies are available only in 127 villages out of 1349 inhabited villages (9.4%) in the district. Among the C.D. Blocks, Chainpur C.D. Block has the maximum number of villages having agricultural credit societies (51.0%) while the villages of Nuaon, Bhagwanpur and Adhaura C.D. Blocks still do not have agricultural credit societies.

Approach by pucca road :- This facility is available in 467 villages out of 1349 inhabited villages (34.6%) in the district. Rampur C.D. Block has the maximum number of villages having pucca road approach (60.9%) while Adhaura C.D. Block has the minimum number of villages having pucca road approach (6.6%).

Power supply :- Electrified villages in the district constitute 47.8 percent of the total number of inhabited villages. Among the C.D. Blocks, Ramgarh C.D. Block has the maximum number of electrified villages with 89.4 percent. Adhaura C.D. Block has the minimum number of villages having power supply (2.8%).

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

It would be seen from table no. 38 that educational facility is available to 84.9 percent of the rural population of the district. The proportion varies between the maximum of 92.2 percent in Durgawati C.D. Block and the minimum of 78.7 percent in Rampur C.D. Block. It may be of interest to note that proportion of villages in the district enjoying educational facility is less (being 59.7 percent vide table – 37) than the proportion of population which is as high as 84.9 percent. This may be attributed to the fact that villages which possess educational facility usually have larger population as compared to those villages which do not have this facility at all.

In the case of medical facility also it can be seen that the proportion of rural population served by this amenity is of the order of 26.8 percent which is more than the proportion of villages served by medical facility in the district.

But in the case of improved drinking water facility also it may be observed that proportion of rural population served by the amenity is of the order of 97.7 percent which is more than the proportion of villages served by this facility in the district.

Similar trend can be observed in respect of other amenities also both in the district as also in its various C.D. Blocks.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2-4)
1	2	3	4	5
1. Education :-				
(a) Primary School	516	34	8	558
(b) Middle School	844	264	73	1,181
(c) Degree College	161	331	849	1,341
2. Medical:-				
(a) Hospital	270	406	643	1,319
(b) PHC	325	446	568	1,339
3. Post Office	903	194	129	1,226
4. Telephone	372	391	502	1,265
5. Bus Service	498	334	372	1,204
6. Banks				
(a) Commercial Bank	550	463	281	1,294
(b) Co-operative Bank	215	410	711	1,336
7. Agricultural Credit Societies	396	341	485	1,222

As regards educational facility it would be seen that there are 558 villages in the Kaimur district (41.4%) which do not have any Primary school but the facility is available at places situated within 5 kms. for 516 villages, 34 villages within the range of 5-10 kms. and 8 villages is within the range of 10+ kms.

There are as many as 1181 villages in the district (87.5%) which do not have middle school. Out of 1181 villages, 844 villages have this facility at places situated within 5 kms. 264 villages have this facility at a distance range of 5-10 kms. and 73 villages at places beyond 10 kms. There are 1341 villages in the district (99.4%) which are deprived of colleges. Out of 1341 villages, 161 villages enjoy this facility at places situated with in 5 kms. 331 villages enjoy this facility at a distance range of 5-10 kms. and as many as 849 villages enjoying this facility at places beyond 10 kms.

There are 1319 villages in the district (97.8%) which are without the facility of hospital and as many as 643 villages enjoy this facility at a distance range of 10+ kms. The number of villages enjoying this facility at a distance range of 5-10 kms is 406 and 270 villages at a distance of less than 5 kms. There are 1339 villages in the district (99.3%) which do not have primary health centre.

Similar trend can be observed in respect of other amenities in the district.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometre)	Number of inhabited village in each range	Type of amenity available

	(100.0)	**(59.7)**	**(16.7)**	**(9.2)**	**(6.2)**	**(13.0)**	**(4.4)**	**(9.4)**	**(34.6)**

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

It would appear from the above table that maximum number of inhabited villages (64.5%) lie in the distance range of 16-50 kms. from the nearest statutory town. This is followed by villages in the distance range of 5-15 kms. from the nearest statutory town with 25.9 percent. There are 88 villages (6.5%) in the distance range of more than 51 kms. from the nearest statutory town.

It is observed from the above table that the proportion of villages having educational facility is 78.0 percent for those situated within 5 kms. from the nearest town and decreases to 55.1 percent in the distance range of 5-15 kms. Further it increase to 60.5 percent in the distance range of 16-50 kms. from the nearest statutory town. Thereafter it again increases to 61.4 percent in the distance range of 51+ kms. from the nearest statutory town. In the case of other amenities also more or less the trend is same.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, Telegraph office and Post & Telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

It can be seen from the above table that the maximum number of villages, i.e. 584 (43.3%) in the district fall in the population range of 1-499 followed by 362 villages (26.8%) having a population range of 500-999. There are 257 villages in the district (19.1%) which are in the population range of 1000-1999 and 133 villages (9.9%) in the population range of 2000-4999.The lowest number of villages is observed in the population range of 10000+ being only 2 (0.1%).

The proportion of villages having different amenities varies in direct relation to their population range. Generally, the maximum percentage of villages having different amenities have a population range of 5000-9999 and 10,000+ which further corroborates the fact that more facilities are generally available in larger villages than in smaller ones.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. Block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Ramgarh	94	14,434	85.2	61.7
2	Nuaon	82	17,122	92.8	92.0
3	Kudra	130	18,995	54.3	78.7
4	Mohania	158	25,578	85.0	73.6
5	Durgawati	90	15,831	90.1	87.1
6	Chand	115	19,534	87.2	85.6
7	Chainpur	147	44,012	35.9	51.5
8	Bhabua	218	29,193	87.1	65.9
9	Rampur	115	12,866	77.2	75.9
10	Bhagwanpur	94	21,430	43.0	42.6
11	Adhaura	106	79,801	19.3	90.6
	District Total:	**1,349**	**298,796**	**56.0**	**73.9**

Note : Cultivable area = irrigated area + unirrigated area

The above table 42 gives the percentage of cultivable area as also the proportion of irrigated area to total cultivable area in the district and its various C.D. Blocks.

It would be seen from the table that 56.0 percent of the total area of the district is utilised for cultivation a and of this cultivable are 73.9 percent area is found to be irrigated. Among the C.D. Blocks, the highest percentage of cultivable area is found in Nuaon C.D. Block with 92.8 percent closely followed by Durgawati and Chand C.D. Blocks with 90.1 and 87.2 percent respectively. The lowest cultivable area is found in

Adhaura C.D. Block which is 19.3 percent.

The highest proportion of irrigated area (92.0%) to total cultivable area is found in Nuaon C.D. Block followed by Adhaura and Durgawati C.D. Blocks with 90.6 and 87.1 percent respectively. The least proportion of irrigated area is found in Bhagwanpur C.D. Block with 42.6 percent.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class,name &urban status of the town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	III Bhabua (M)	5.3	3.6	1.7	4.0	1.1	1.3	0.2	0	1.3
	District Total	**5.3**	**3.6**	**1.7**	**4.0**	**1.1**	**1.3**	**0.2**	**0**	**1.3**

The above table gives the details of finances in the statutory town in terms of per capita receipt and expenditure. There is only one statutory town in the district i.e. Bhabua (M). On going from taxes is higher than the receipt from all other sources in case of Bhabua (M). The per capita expenditure incurred on public health and conveniences is higher than the per capita expenditure on general administration and public works. Per capita total receipt is higher than the per capita total expenditure in Bhabua (M).

TABLE 44 : SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Bhabua (M)	2.4	1.2	0.7	0.2	0.2
	District Total	**2.4**	**1.2**	**0.7**	**0.2**	**0.2**

The above table gives the details of different categories of educational institutions per ten thousand population in the town of the district. It would be seen from the above table that institutions like senior secondary and matriculation level school and college are situated in Bhabua (M) accounting for an average of 0.7 and 0.2 institutions per ten thousand population respectively. Primary school, middle school and secondary/matriculation school account for an average of 2.4, 1.2 and 0.7 school per ten thousand population respectively in Bhabua (M).

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Bhabua(M)	15
	District Total	**15**

The above table furnishes information regarding availability of beds in medical institutions Bhabua town. The number of beds in medical institutions per ten thousand population for Bhabua(M) is 15 according to 2001 census.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
There is no slum in Bhabua Town				

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Bhabua (M)	Basket	Rice
		Mat	Fish

Table 47 presents the most important commodity manufactured in the town and exported from Bhabua (M). It would be seen from the above table that two items viz., Basket and mat are manufactured in the town and two items viz., Rice and fish are exported from Bhabua (M).

(c) Brief analysis of the data on houses and household amenities (Houselisting Operations, Census of India 2001) based on inset tables 48 to 52 :

TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

	District total	**185,783**	**179,499**	**6,284**	**47,348**	**46,677**	**671**	**6,292**	**6,130**	**162**

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

It would be clear from the above table that there are as many as 181,099 households accounting for 97.5 percent of the total households of the district dwelling in owned houses. The proportion of households dwelling in 3+ rooms is the highest (33.4%) where as it is the lowest (0.5%) dwelling in no exclusive room. The median number of rooms is 3 for the total households in the tenure status of owned category.

There are 46402 scheduled castes households accounting for 25.6 percent of the total households dwelling in owned houses and the median number of rooms is 2. There are 6205 scheduled tribes households accounting for only 3.4 percent of the total households dwelling in owned houses and the median number of rooms is 2.

There are 3,229 households accounting for 1.7 percent of the total households of the district dwelling in rented houses. The proportion of households dwelling in single room is the highest (42.0%) whereas it is lowest (1.2%) dwelling in no exclusive room. There are 365 scheduled castes households accounting for 11.3 percent of the total households dwelling in rented houses and the median number of rooms is 2. There are 54 scheduled tribes households accounting for 1.7 percent of the total households dwelling in rented houses. The median number of rooms is one.

Similar trend can be observed in respect of households dwelling in the tenure status of others.

TABLE 49: PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

	District Total:	**36.1**	**58.5**	**5.4**	**34.3**	**60.1**	**5.6**	**87.4**	**11.0**	**1.6**

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note : 1. Permanent : Permanent houses refers to those houses whose wall & roof are made of pucca materials i.e. where burnt bricks, G.I. Sheets or other metal sheets, stone, cement, concrete is used for wall and tiles, slate, shingle, corrugated iron, zinc or other metal sheets, asbestos sheets, bricks, lime and stone and RBC/RCC concrete are used for roof.

2. Semi permanent : Semi-permanent houses refer to those houses made of other types of materials.

3. Temporary : Temporary houses refers to those houses having wall and roof made of Kutcha materials i.e. where grass, leaves, reeds, bamboo, mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

It would be seen from the above table that of the total rural households maximum proportion of households i.e. 60.1 percent live in semi permanent houses followed by 34.3 percent living in permanent houses and 5.6 percent living in temporary houses.

In the case of urban households in the district, however, the maximum proportion of households i.e. for 87.4 percent live in permanent houses followed by 11.0 percent in semi permanent houses and only 1.6 percent in temporary houses.

Among the C.D. Blocks in Kaimur district, Adhaura has the maximum proportion of rural households living in semi permanent houses (95.5%) followed by Rampur (76.1%) and Chainpur (71.8%). Ramgarh C.D. Block has the minimum proportion of households living in semi permanent houses with 40.5 percent. In case of permanent houses, Ramgarh C.D. Block has the maximum proportion of households living in permanent hosues (47.2%) followed by Mohania C.D. Block (47.1%). Adhaura C.D. Block has the minimum proportion of households living in permanent houses with 2.7 percent. In case of temporary houses, Nuaon C.D. Block has the maximum proportion of households (13.2%) followed by Ramgarh C.D. Block (12.4%). Rampur C.D. Block has the minimum proportion of households having temporary houses with 1.2 percent.

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

*Based on the improved drinking water source, drinking water supply has been classified as'Improved'or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/ tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note : Percentage is given in brackets below the number of households.

Bathroom means bathroom within the house.

Toilet means toilet within the house.

Drainage means closed and open drainage.

There are as many as 121002 households i.e. 76.4 percent of the rural households of the district have improved drinking water facility. The highest proportion of households with improved drinking water facility. Can be observed in Kudra C.D. Block with 86.5 percent and the lowest proportion of households

is in Adhaura C.D. Block with 28.8 percent.

As regards electricity it is found that only 9.0 percent of the rural households in the district have electricity. The highest proportion of households with electricity is in Ramgarh C.D. Block with 22.9 percent whereas it is lowest in Adhaura C.D. Block with 0.9 percent.

Only 9.0 percent of the total rural households in the district have bathroom facility. The highest proportion of households having bathroom facility is in Mohania C.D. Block with 13.6 percent whereas it is lowest in Adhaura C.D. Block with 1.2 percent.

Only 11.0 percent of the rural households in the district have toilet facility. The highest proportion of households having toilet facility is in Mohania C.D. Block with 18.2 percent whereas it is lowest in Adhaura C.D. Block with 1.1 percent.

56.4 percent of the rural household in the district have drainage facility. The highest proportion of households having drainage facility is in Rampur C.D. Block with 67.4 percent whereas it is lowest in Adhaura C.D. Block with 20.3 percent.

Percentage in brackets

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

It would be seen from the table 51 that there are 29304 households i.e. 16.3 percent of the rural households of the district use firewood as fuel for cooking. The highest proportion of rural households using firewood as fuel for cooking is in Adhaura C.D. Block (96.6%) whereas the lowest proportion of rural households is in Durgawati C.D. Block with 3.4 percent.

There are as many as 7322 households i.e. 4.1 percent of the rural households of the district use crop residue as fuel for cooking. Among the C.D. Blocks, the proportion of rural households is highest (6.4%) in Mohania C.D. Block and the lowest (2.5%) in Adhaura C.D. Block.

There are 137285 households i.e. 76.5 percent of the rural households of the district use cowdung cake as fuel for cooking. Among the C.D. Blocks, Durgawati C.D. Block has the highest proportion of households (89.9%) using cowdung cake as fuel for cooking and Adhaura C. D. Block has the lowest proportion of households using cowdung cake as fuel with 0.6 percent.

In the case of electricity there are only 175 households accounting for only 0.1 percent of the rural households of the district using it for cooking.

Similar trend can be observed in respect of other types of fuel.

Data source : Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

It would be seen from the above table that 41446 households accounting for 23.1 percent of the rural households of the district availing banking services. The highest proportion of households can be observed in Ramgarh C.D. Block, (37.1%) availing banking services and the lowest proportion of households in Adhaura C.D. Block (4.4%).

There are as many as 56093 households accounting for 31.2 percent of the rural households possessing radio/transistor. Among the C.D. Blocks, Chand has the highest proportion of households (35.6%) possessing radio/transistor and Adhaura has the lowest proportion of households with 17.5 percent.

As regards Television there are 12509 households accounting for 7.0 percent of the rural households of the district possessing television. Among the C.D. Blocks, Ramgarh has the highest proportion of households (12.2%) possessing television and Adhaura has the lowest proportion of households with 1.0 percent. As regards Telephone there are 2242 households accounting for 1.2 percent of the rural households of the district availing telephone services. Among the C.D. Blocks, Kudra has the highest proportion of households (2.5%) availing Telephone services and Adhaura has the lowest proportion of households with 0.1 percent.

Similar trend can be observed in respect of other specified assets also both in the district as also in its development blocks.

(viii) Major social and cultural events, natural and administrative developments and significant activities during the decade

The district of Kaimur, which till the 1991 Census was a part of Rohtas district as one of its subdivisions named as Bhabua, was elevated to the status of a district named Bhabua on 17th March, 1991 by the Government of Bihar vide its Notification No. 16/जि0पु02–30/90/46 पटना दिनांक 13 मार्च 1991- On 17th March 1994 the name of district was changed from Bhabua to Kaimur.

No major social or cultural event has taken place in the new district of Kaimur since it came into existence. Fairs and festivals are however, held regularly in the district by different communities in complete harmony.

(ix)Brief description of places of religious, historical and archaeological importance in villages and places of tourist interest in the towns of the district

Adhaura

It is situated at a height of 2000 feet from the sea level on Kaimur plateau at a distance of 58 kms from Bhabua. Hills and surrounding forest make it an ideal tourist spot.

Baidyanath

Baidyanath Village is situated at 9 kms south of Ramgarh block headquarters, A Shiva temple built by the late Pratihar dynasty is located here. Coins and valuable of historical importance have been unearthed here.

Bhabua

Bhabua is the headquarters of Kaimur district. This municipal town lies 14 km south of G.T. Road connected by a road to be reached from Bhabua Road railway station on Grand Chord railway line.

Bhagwanpur

Bhagwanpur is situated 11 km south of Bhabua near the Kaimur hills. It is said to have been the seat of power of Kumar Chandrasen Saran Singh, who claimed his descent from Paras. It was confiscated by sher shah from Raja Shaliwahan but later restored to his successor during the reign of Akbar.

Chainpur

Situated 11 km west of Bhabua headquarters, it is credited with a great mausoleum of Bakhtiar Khan, who is said to have married the daughter of sher shah. The Hindu shrine of "Harsu Brahm" is famous in the locality. It is said that Kanyalkubya priest of Raja Shaliwahan, named Harshu pandey, ended his life in protest against demolition of his house but during his cremation was seen standing at the cremation site at Varanasi.

Chargotia

Chargotia village in Adhaura block is an excellent beauty spot with a water fall amidst beautiful scenery.

Durauli

Durauli village situated 8 kms north-east of Ramgarh contains two old temples built by the Cheros.

Ramgarh

Ramgarh village in the Bhagwanpur block in Bhabua Subdivision contains the famous Mundeshwari temple, built on a hill top at a height of about 600 feet. Inscriptions of archaeological importance found here describe the temple to be old enough to have been built around the year 635 A.D.

(x)Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

The district may be divided into plain and plateau regions. The Plain area consists of fertile alluvial lands, which become rocky as one proceeds southwards. As one approaches the Kaimur foothills, the soil becomes stony and poor in fertility. The Kaimur plateau is an undulated tableland having thin shrubby jungles, spreading about 1200 sq. kms.

Bhabua is the headquarters of Kaimur district. This municipal town lies 14 km south of G.T. Road connected by a road to be reached from Bhabua Road railway station on Grand Chord railway line.

Ramgarh village in the Bhagwanpur block in Bhabua Subdivision contains the famous Mundeshwari temple, built on a hill top at a height of about 600 feet. Inscriptions of archeological importance found here describe the temple to be old enough to have been built around the year 635 A.D.

(xi)Scope of Village Directory and Town Directory - column headingwise explanation and coverage of data

The District Census Handbooks are the only publication which furnish information down to the village level in case of rural areas and by the level of towns/wards (circles) in case of urban areas. This facilitates research scholars and academicians to analyse data upto the lowest administrative unit. It is of vital importance for the planners also since it offers micro-level data and thus enable them to identify the areas undeveloped in terms of infrastructure and

channelise efforts and inputs accordingly so that optimum utilization of the resources could be made.

The present series of the DCHB in 2001 Census have been made more informative and exhaustive in terms of coverage and content. The content of village directory has been broadened by including more types of facilities such as bank, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village, wherever possible are provided. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of primary and middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), drinking water, Post Office and phone, communication, bank, credit societies and recreational facilities. In town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against only Class I and Class II towns of the 1981 and 1991 Censuses are provided. With reference to the town concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements.

Village and Town Directories included in the District Census Handbook give the list of villages and towns, their areas, population and amenities.

The details of each column of village directory are explained as below :

Column-1

Serial number of the village is indicated in this column.

Column-2

Gives the name of the village and permanent location code number (PLCN) assigned to each village in serpentine manner from north-west to south direction and is essential for identification of village. The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tehsil of first district of the state to the last village of last tehsil of the last district. In the state of Bihar first PLCN 00000100 has been assigned to village 'KALAPANI' in Sidhaw C.D. Block of Pashchim Champaran district and the last PLCN 04509800 has been assigned to the last village 'TOLA SUNDARI' of the state in Chakai C.D. Block of Jamui district which happens to be last as per procedure adopted for assigning location code number. The district census handbook of 1991 Census as well as updated district and C.D. Block maps and services of local revenue officers/officials have been used to assign the PLCN to the villages. The last two zeros will be used if new villages are created out of existing villages in subsequent census. Before 2001 census, village location code number used to change from one census to other due to change in jurisdictions or creation of villages or merger of villages in urban areas. The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective B.D.O's of each C.D.Block.

Column-3

Shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns - 4 & 5

Gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in village.

Columns 6 to 9

Deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments

to ensure the accuracy of information provided. In such cases where no facility is available within a village, a dash (–) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, so as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained separately in the subsequent section.

Column-10

Shows the number of banks - Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11

Relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12

Shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/ auditorium facility available in the villages.

Column-13

Indicates the type of communications amenities such as by bus, railway or navigable waterway available to the village.

Column-14

Refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15

Gives the information of the nearest town and its distance in Kms. from the village in brackets from the referent village. In case, the nearest town is located in another state, the name of the state has also been furnished.

Column-16

Relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17

Gives the information as to whether newspapers/ magazines are received in the village.

Column-18

Gives the information of most important commodities manufactured in the village.

Columns-19 to 23

Give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories. These are as follows :

i) Forests

ii) Irrigated

iii) Unirrigated

iv) Culturable waste (including Gauchar and Groves)

v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or private and whether wooded or maintained as potential forest land. The crops raised in the forests and grazing lands or areas open for grazing within the forest is also included under the forest area.

Column 20 and 21

Show area irrigated by different sources of irrigation and un-irrigated area. These two columns cover all agricultural land which equals to net cropped

area sown with crops and orchards including current and other fallow lands. In case of irrigated land, the source of irrigation has also been indicated.

Column 22

Culturable waste : This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Lands under thatching grasses, bamboo bushes and other groves for fuel etc., which are not included under orchards or forests come under this column. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column.

Column-23

Area not available for cultivation : This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water etc. Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost.

Column-2 & 1

Indicate the name of the village in English and serial number of village respectively.

Town Directory :

The Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information.

Statement-I Status and Growth History

The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001. Civic administration status of each town is shown under column 2 and Location Code number in column 3. Column 4 is not applicable in case of Bihar and Jharkhand States. While column 5 shows the name of C.D. block, area of each town in sq. kms. is depicted under column 6 column 7 deals with the number of households including houseless households as per the 2001 Census. Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001. Column 19 of the statement shows density of towns as per the 2001 Census. Columns 20 to 22 depict the sex ratio from 1981 to 2001 Census.

Statement-II Physical Aspects and Location of Towns

In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5. Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tehsil/sub-tehsil headquarters. Column 9 shows the name of nearest city with population of one lakh or more and columns 11 to 13 give information regarding name and road distance of the nearest railway station, bus route, navigable river/canal (if within 10 Kms.). Column 10 shows the name of nearest city with population of five lakhs and more.

Statement-III Municipal Finance

This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads. There are in all 16 columns in the statement showing receipt and expenditure under different heads.

Statement IV Civic and Other Amenities

The statement displays information under 20 columns. The amenities about which information has

been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage and other related matters such as water supply, fire fighting services and electrification etc.

Statement-V Medical, Educational, Recreational and Cultural Facilities

This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution. Educational facilities by level/type of courses and recreational and cultural facilities.

Statement-VI Trade, Commerce, Industry and Banking

This statement presents information under 11 columns in respect of each town. Columns 3 to 8 indicate three most important commodities exported and manufactured in the town. Information on number of banks available in the town appears under column 9. Columns 10 and 11 show number of agricultural and non-agricultural credit societies operating in each town respectively.

Statement-VII Civic and other amenities in Slums

Statement VII contains information about civic and other amenities in slums of 1999. This is a statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, municipal corporations, Notified Areas, etc.

Generally, in cities or towns with slums, the local authority, such as municipality or municipal corporation or even the development authority notifies the recognized slums. It is linked up with the availability of funds from the State Government for slum clearance/improvement. It is possible that some of the states or local bodies have not formally notified slums under their jurisdictions. But in such cases, there is likelihood that they are maintaining a list of such areas which are officially treated as slums. The intention is that the information is to be provided in respect of such localities as are officially recognised as slums, whether actually notified or not. Though the magnitude of slum problem is greater in class I and class II towns, it is acknowledged that they are associated with smaller towns also. Hence the information on slums in this statement has been compiled in respect of all towns having statutory bodies. Columns 1, 2 need no explanation. Under column 3 the names of slum(s) has been provided in an alphabetical order in separate lines under the town which they belong. The particulars with regard to status of slum whether notified or not has been collected under column 4 and recorded as 'Yes' or 'No'. Under column 5 the no. of households (approximate) in the slum pertaining to 1999 has been recorded whereas in column 6 the population figures (approximate) based on the year 1999 have been recoded. Column 7 denotes the road length of paved road in km . upto two decimal places. Column 8 to 13 give information about system of sewerage, number of latrines and method of disposal of night soil. Column 14 gives information about the no. of tap points/public hydrants as ascertained from civic authorities as well as through local enquiry. Column 15, 16 & 17 give information about electricity connections. Column 15 gives information about domestic electricity connections, column 16 gives information about road lighting (electric points) whereas column 17 gives information about electric connections other than collected under columns 15 & 16.

Part-A : Village and Town Directory

Section-I : Village Directory

Note explaining the abbreviations used in the Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural, non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town, the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited'villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col.19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows :

Column 1 : Serial Number

Self explanatory. All the villages within the C.D. Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of Village

The name and location code number of the village are shown against this column. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The total area of the village in hectares is given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In columns 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post & telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (–) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities :

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is

indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exists is given :

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exists is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium are available in the village, the same is recorded in this column. If not available the particulars of the nearest place with the facility are recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets :

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13: Communications

If the village is served by any mode of public/ Private transport like Bus, Railway station or Navigable water ways these are to be mentioned as follows :

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Columns 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh (–) is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below :

(i)	Government Canal	GC

(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix I : It gives the abstract of educational, medical and other amenities available in villages CD Block wise of the district.

Appendix IA : Indicates number of villages CD Blockwise having one or more primary schools.

Appendix IB : Indicates number of villages CD Blockwise having primary, middle and secondary schools.

Appendix IC : Shows number of villages CD Blockwise with different sources of drinking water facilities.

Appendix II : Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix IIA : Indicates list of Census Towns which do not have one or more amenities.

Appendix III : It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix IV : CD Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix V : Summary showing number of villages not having Scheduled Castes population.

Appendix VI : Summary showing number of villages not having Scheduled Tribes population.

Appendix VIIA : The appendix shows the list of villages according to proportion of the Scheduled castes to the total population by ranges

Appendix VIIB : The appendix shows the list of villages according to proportion of the Scheduled Tribes to the total population by ranges.

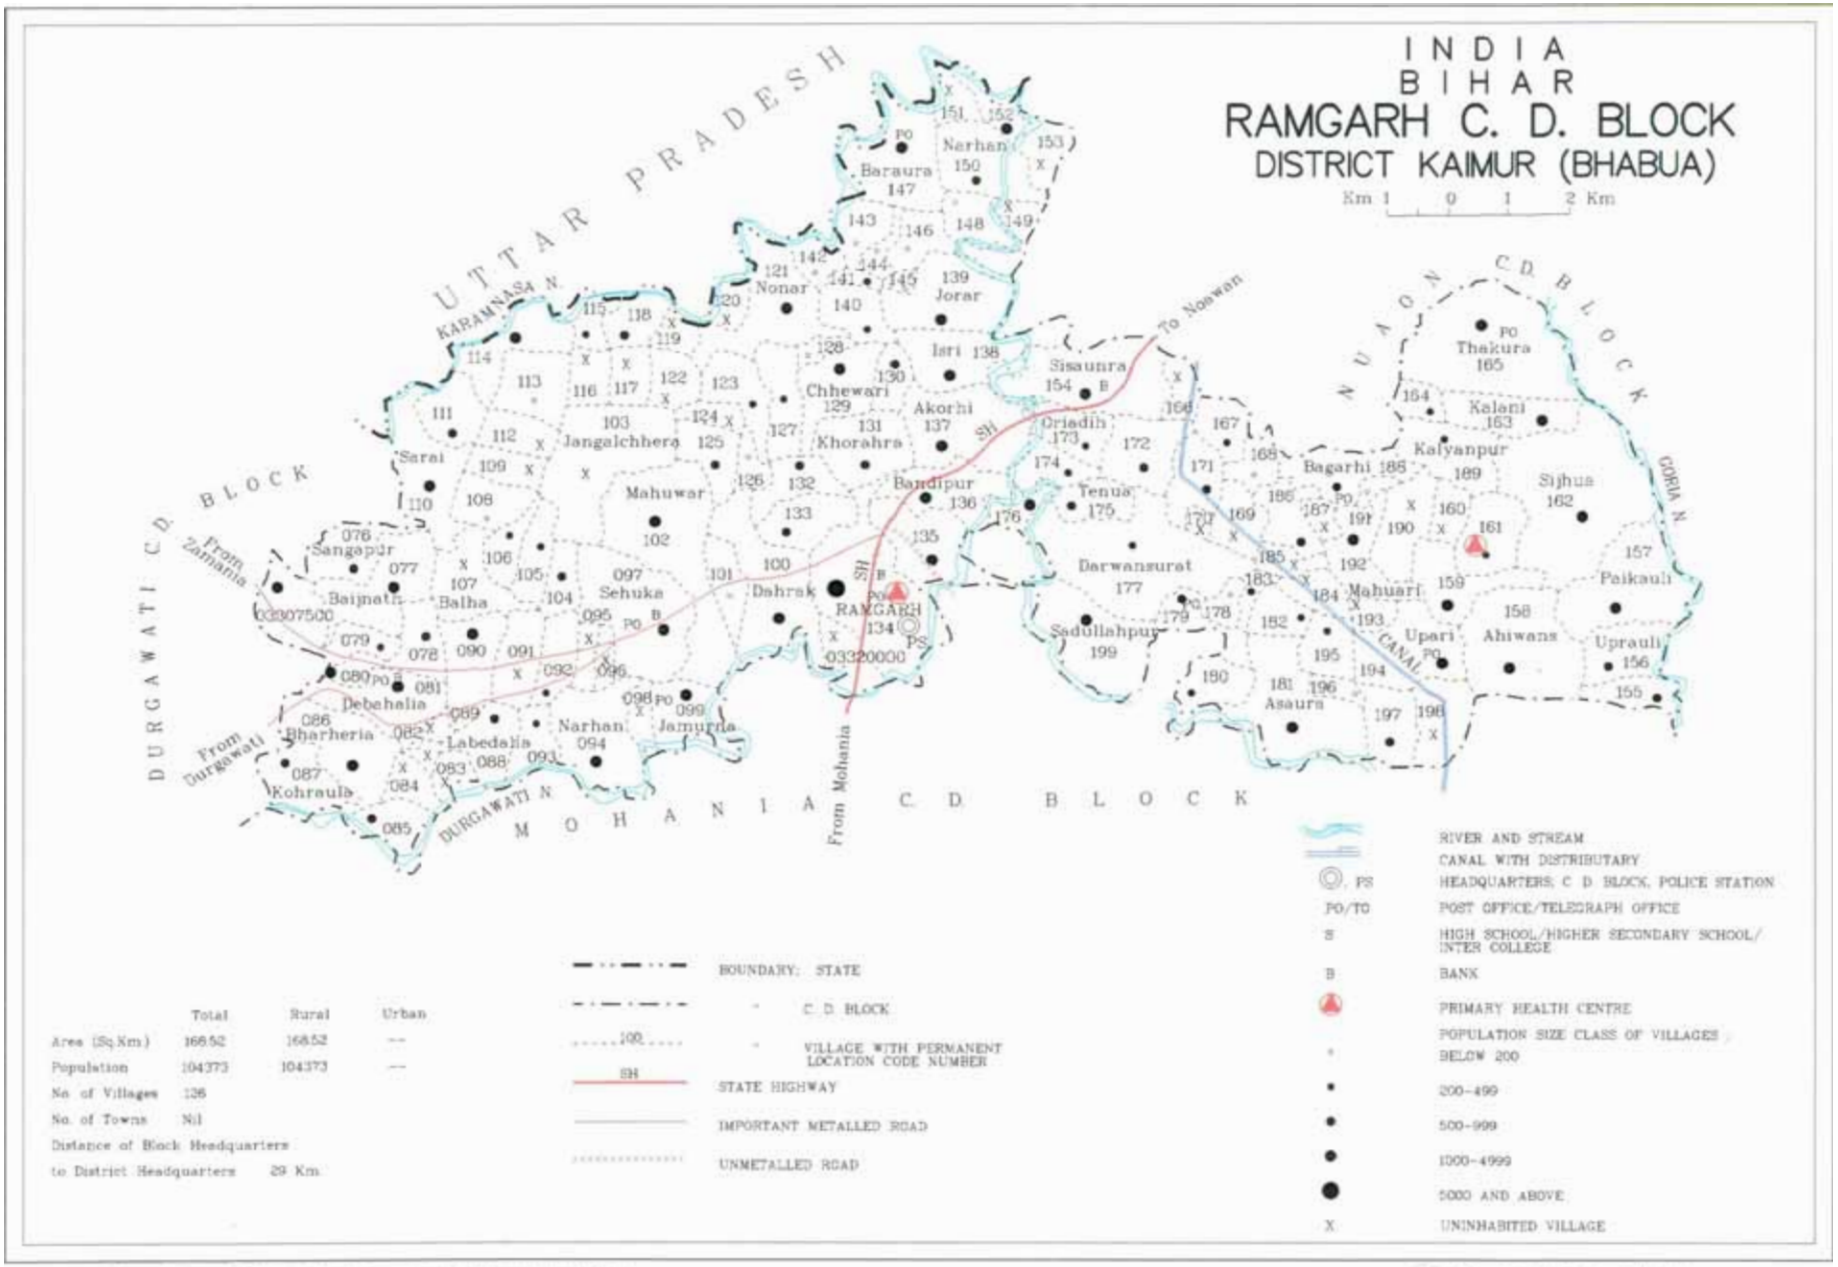

Appendix VIII : Number of Villages under each Gram Panchayat(C.D. block wise)

Appendix IX : Statement showing number of girls schools in the villages

LIST OF VILLAGES MERGED IN TOWNS AND OUTGROWTHS AT 2001 CENSUS

Serial number	Name of Towns	Name of villages merged in towns	Name of villages identified for outgrowth	Location Code Number 1991 Census	Location Code Number 2001 Census (in case of partly OG)
1	2	3	4	5	6

There is no such village in the district of Kaimur (Bhabua)

Name of CD Block: Ramgarh		
1	03310800	Jangalchhera Sahodarpur
2	03311300	Jangalchhera Imlia
3	03314100	Barbigha
4	03314200	Goria
5	03314300	Bharaula
6	03314800	Hamzapur
7	03316800	Kamsaray
8	03317600	Gorsara
Name of CD Block: Nuaon		
9	03320700	Pira Ghat
10	03321100	Basanpur
11	03321700	Belahri
12	03324000	Ewati
13	03325500	Sagra
14	03326200	Lahang Patti
15	03326300	Kathaunra
16	03326600	Bhatpurwa
17	03326800	Parsia
18	03327000	Mirga

APPENDIX IV - VILLAGE DIRECTORY (*Contd.*)

C. D. BLOCK WISE LIST OF INHABITED VILLAGES WHERE NO AMENITY OTHER THAN DRINKING WATER FACILITY IS AVAILABLE

Serial number	Location code number	Name of village
1	2	3
19	03327100	Chakia
20	03328700	Gaura
21	03329600	Sarbasipur
22	03330300	Parsotimpur
23	03330500	Chandraui
24	03330600	Gai Chakl
Name of CD Block: Kudra		
25	03331000	Sabdalpur
26	03331100	Salthua Bahuara
27	03333400	Sarodih
28	03333800	Laravandehra
29	03334200	Hasanpura
30	03334300	Burahar
31	03335500	Bhairwa
32	03336800	Dhaturha
33	03337600	Ajgari
34	03339100	Basawanpur
35	03340400	Ahraulia
36	03342200	Dusadhi Chak
37	03342600	Bagra
38	03343500	Bishunathpur
39	03343800	Shahpur
40	03344300	Chhotka Nimdihra
41	03344400	Paunra
42	03344700	Deoraha
43	03344900	Gokhulpur
44	03345400	Karanpura
45	03346100	Saidpur
46	03346300	Parsotimpur
47	03346400	Singhsaira
48	03346500	Khalopur
49	03346600	Baruar
Name of CD Block: Mohania		
50	03348300	Bhankhanpur
51	03348800	Patti
52	03351600	Sahijana
53	03351800	Lakhanpatti
54	03352400	Narsinghpur
55	03352500	Ismailpur
56	03352600	Sakrauli
57	03352800	Karsaria
58	03356100	Hardaspur
59	03356300	Sarai
60	03359100	Chordehra

APPENDIX IV - VILLAGE DIRECTORY (*Contd.*)

C. D. BLOCK WISE LIST OF INHABITED VILLAGES WHERE NO AMENITY OTHER THAN DRINKING WATER FACILITY IS AVAILABLE

Serial number	Location code number	Name of village
1	2	3
61	03361500	Nawagawan
62	03361700	Dube Deharia
63	03362400	Jitapur
64	03362500	Horilpur
65	03363000	Adhvania
66	03363500	Sukhpurwa
67	03363600	Pipra Gareri
68	03365700	Sarayan
69	03366300	Mamrezpur
70	03367500	Sagarpur
Name of CD Block: Durgawati		
71	03368300	Basawanpur
72	03368600	Bhagwanpur
73	03369200	Bilkhori
74	03372400	Amirti

	03474600	Kadhar Kalan
	03472800	Bandha
	03475600	Neurus
	03470700	Kon Babhani
	03477200	Garle
	03475700	Chathans
	03476500	Karma
	03478400	Jordag

APPENDIX VIIB - VILLAGE DIRECTORY (*Concld.*)

LIST OF VILLAGES ACCORDING TO THE PROPORTION OF THE SCHEDULED TRIBES TO THE TOTAL POPULATION BY RANGES

Range of Scheduled Tribes population (percentages)	Location code number	Name of village
1	2	3
	03470100	Darihara
	03472900	Tekanian
	03474800	Pachmahut
	03477500	Kolhua
	03466000	Bhuruli
	03467700	Katraur
	03471700	Turidag
	03472400	Ukhargara
	03472700	Dhenuan
	03473400	Khondhar
	03473500	Goiyan
	03473800	Kothilabar
	03474900	Gulu
	03476200	Parari
	03476600	Kurmura

Note:- Villages having NIL Scheduled Tribes Population have been excluded

APPENDIX VIII - VILLAGE DIRECTORY

NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT (C. D. BLOCK WISE)

Serial number	Name of Gram Panchayat and location code number	Area of Gram Panchayat in hectare	Number of villages with location code numbers: Number	Number of villages with location code numbers: Location code numbers	Number of households	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Income and expenditure of Panchayat / Gram Panchayat (in Rs.'000): Total income	Income and expenditure of Panchayat / Gram Panchayat (in Rs.'000): Total expenditure
1	2	3	4	5	6	7	8	9	10	11
N.A.										

Note : N.A. stands for information not available.

APPENDIX IX - VILLAGE DIRECTORY

STATEMENT SHOWING NUMBER OF GIRLS SCHOOLS IN THE VILLAGES

Serial number	Name of C. D. Block	Village location code number	Name of village	Number of girls school: Primary School	Middle School	Matriculation / Secondary School	Higher Secondary / PUC / Intermediate / Junior college
1	2	3	4	5	6	7	8
N.A.							

Note : N.A. stands for information not available

TOWN DIRECTORY

Section-II : Town Directory

Note explaining the abbreviations used in the Town Directory

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/ Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum and Minimum Temperature of the town are recorded.

Column 6, 7 and 8

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998-1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is recorded separately for the roads within the limits of the referent town.

(i) Pucca Road PR

(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent methods of disposal of night soil are given below with codes :

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

(i)	Ayurvedic	A
(ii)	Unani	U
(iii)	Homoeopathic	Hom.

Column 6 to 9

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C

(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories– Arts, Science and Commerce	ASC
(vii)	Law	L

Column 10 Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Shorthand	SH
(ii)	Typewriting	Type
(iii)	Shorthand & Typewriting	SH Type
(iv)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to14

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT
STATUS AND

Part-B : Primary Census Abstract

Blank

Brief Note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible

cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - II
ESTIMATE OF CHILD MORTALITY, 1981 AND 1991

		Persons			
State/District	Year	q (1)	q (2)	q (3)	q (5)
Bihar	1991	75	84	86	89
	1981	94	112	125	141
Rohtas	1991	67	82	84	89
	1981	82	102	120	134

Here q(1), q(2), q(3) and q(5) denote estimates of child mortality for the different ages 1, 2, 3 and 5 respectively for the children of the district and the state. It is evident that child mortality for the district of Rohtas (from which the district of Kaimur has been carved out) for both censuses (1981 & 1991) are in lower side than the state average except for q(5) during 1991 census.

ANNEXURE - III

Gumla	37.9	5.4	7.2	160.0	211.0	64.0	4.1	17.9
Ranchi	33.9	4.7	6.4	145.0	187.0	60.1	4.0	17.4
Purbi Singhbhum	27.7	3.5	5.0	112.0	147.0	48.6	3.7	17.9
Pashchimi Singhbhum	33.9	4.5	6.5	138.0	192.0	61.0	3.9	18.4
Araria	36.8	5.3	5.9	169.0	190.0	70.0	4.3	16.5
Kishanganj	38.0	5.6	6.9	172.0	221.0	67.7	4.7	17.6

It transpires from the annexure above that some other fertility measures such as CBR, TMFR, GMFR and mean age at marriage in Rohtas district (from which the district of Kaimur has been carved out) have been lower, while TFR, GFR, CWR and number of children ever born per woman in age-group 45-49 are on the higher side as compared to the state average as a whole.

The annexure III presented above provides an opportunity of comparative study of other fertility indices between Rohtas and other districts vis-a-vis state averages.

ANNEXURE - IV (A)
PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH, 2001 CENSUS

	Born elsewhere in the district of enumeration			Born in other district of Bihar			Born in Bihar		
State/District	P	M	F	P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10

	(68.4)	(62.0)	(69.1)	(22.7)	(27.8)	(22.1)	(91.0)	(89.8)	(91.2)
Kaimur (Bhabua)	237,110	25,648	211,462	48,312	4,206	44,106	285,422	29,854	255,568
	(74.6)	(80.5)	(74.0)	(15.2)	(13.2)	(15.4)	(89.8)	(93.7)	(89.4)

	Born in other states			Born in other countries			Total migrants		
State/District	P	M	F	P	M	F	P	M	F
1	11	12	13	14	15	16	17	18	19
Bihar	1,582,339	195,360	1,386,979	211,880	18,501	193,379	19,989,195	2,102,651	17,886,544
	(7.9)	(9.3)	(7.8)	(1.1)	(0.9)	(1.1)	(100.0)	(100.0)	(100.0)
Kaimur (Bhabua)	32,310	1,989	30,321	64	17	47	317,796	31,860	285,936
	(10.2)	(6.2)	(10.6)	(0.0)	(0.1)	(0.0)	(100.0)	(100.0)	(100.0)

The growth of population for any area (be it any district or state) is influenced by the pattern of migration (in-migration as well as out-migration). However, for want of data on out-migration from district or state to other districts or other states of the country and to other countries it might not be possible to correctly assess the net impact of migration on growth of population,although such impact may not be much in most of the cases.

It is apparent from Annexure IV(A) that out of 19,989,195 migrants in the State as per place of birth the share of Kaimur district is 237,110, i.e., 1.2 percent of state total. Female migrants out number the male migrants both in the district and the state. In case of migrants born in Bihar there is wide gap between male and female population in absolute number. With respect to percentage figures of born elsewhere in the district of enumeration the district percentage (74.6) is more than the state percentage of (68.4).

When we compare the percentage figures of migrants born in other districts of Bihar it is crystal clear that the district percentage (15.2) is lower than the state percentage (22.7).The percentage figure for born in other states is higher for the district than the state while the percentage figure for born in other countries is lower in the district than the state as per 2001 Census.

ANNEXURE - IV (B)
INTERSTATE MIGRANTS, 2001 CENSUS

Bihar			Kaimur (Bhabua)		
Place of Birth	Migrants	Percentage to total Migrants	Place of Birth	Migrants	Percentage to total Migrants
1	2	3	1	2	3
Uttar Pradesh	434,051	27.4	Uttar Pradesh	28,933	89.5
Jharkhand	339,297	21.4	Jharkhand	2,050	6.3
Assam	133,758	8.5	West Bengal	396	1.2
West Bengal	126,499	8.0	Total for three states	31,379	97.1

ANNEXURE - IV (B) (*Concld.*)
INTERSTATE MIGRANTS, 2001 CENSUS

Bihar			Kaimur (Bhabua)		
Place of Birth	Migrants	Percentage to total Migrants	Place of Birth	Migrants	Percentage to total Migrants
1	2	3	1	2	3
Nagaland	101,267	6.4	Other states	931	2.9
Chhatisgargh	90,469	5.7	**Total**	**32,310**	**100.0**
Gujarat	65,996	4.2

Orissa	42,215	2.7			
Maharashtra	38,244	2.4			
Rajasthan	20,542	1.3			
Haryana	20,505	1.3			
Andhra Pradesh	18,371	1.2			
Total for fourteen states	1,538,478	97.2			
Other states	43,861	2.8			
Total	**1,582,339**	**100.0**			

Annexure-IV(B) deals with interstate migrants to the district of Kaimur and the state of Bihar. The district received only 2.0 percent of the migrants from outside the state in comparison to total migrants coming to the state. The State of Uttar Pardesh and Jharkhand have been the major contributor as regards immigration, both to the district and the state. In case of Bihar 14 states, namely Nagaland, Andhra Pradesh, Assam, Haryana, Chhatisgarh, Orissa, Gujrat, Rajasthan,Uttar Pradesh Uttranchal, J&k, Maharashtra and West Bengal together account for 15.4 lakh (97.2%) of the 15.8 lakh interstate migrants, Uttar Pradesh and Jharkhand states are prominent in contributing 27.4 and 21.4 percent of migrants respectively to the state in 2001. In respect of Kaimur, of the total of 32,310 interstate migrants, Uttar Pradesh and Jharkhand states contributed 89.5 and 6.3 percent respectively to the district altogather three major states contributed 97.1 percent of the total inter state migrants to Kaimur district in 2001.

ANNEXURE - V (A)
MAIN RELIGION AS PER 2001 CENSUS

State/District	P/M/F	Total Population	Hindus	Muslims	Christians	Sikhs	Jains	Buddhists	Other Religions & Persuasions	Religion not Stated
1	2	3	4	5	6	7	8	9	10	11
Bihar	P	82,998,509	69,076,919	13,722,048	53,137	20,780	18,818	16,085	52,905	37,817
			(83.2)	(16.5)	(0.1)	(0.0)	(0.0)	(0.0)	(0.1)	(0.0)
	M	43,243,795	36,077,374	7,061,908	26,913	11,057	10,220	8,446	27,336	20,541
			(83.4)	(16.3)	(0.1)	(0.0)	(0.0)	(0.0)	(0.1)	(0.0)
	F	39,754,714	32,999,545	6,660,140	26,224	9,723	8,598	7,639	25,569	17,276
			(83.0)	(16.8)	(0.1)	(0.0)	(0.0)	(0.0)	(0.1)	(0.0)
Kaimur	P	1,289,074	1,161,779	123,048	238	192	2,880	38	45	854
(Bhabua)			(90.1)	(9.5)	(0.0)	(0.0)	(0.2)	(0.0)	(0.0)	(0.1)
	M	677,623	611,545	63,865	121	104	1,492	15	22	459
			(90.2)	(9.4)	(0.0)	(0.0)	(0.2)	(0.0)	(0.0)	(0.1)
	F	611,451	550,234	59,183	117	88	1,388	23	23	395
			(90.0)	(9.7)	(0.0)	(0.0)	(0.2)	(0.0)	(0.0)	(0.1)

It is evident from the above Annexure V(A) that Hindus form the bulk of the society both with regard to the district (90.1%) and the state (83.7%) followed by Muslims (16.5% for state and 9.5% for district). Followers of other religions e.g., Christians, Sikhs, Jains, Buddhists, etc., form very small chunk of the society.

Annexure V(B) above shows religion-wise distribution of population of 2001 census. Both, for Kaimur district of Bihar and its C.D. Blocks, Hindus form great chunk of society with 90.1 percent. In various C.D.Blocks of the district also the Hindus and Muslims are the two major religious communities and trends are more or less the same as in case of the district. Bhagwanpur C.D. Block has the highest proportion of Hindus (94.3%) whereas Chainpur C.D. Block has the maximum proportion of Muslims (14.8%). Followers of other religions e.g., Christians, Sikhs, Jains, Buddhists, etc., form very small chunk of the society.

It is quite evident from above annexures that Kaimur district as well as the state have a relatively higher proportion of never married males and married females. This may be attributed to the fact that women enter into marital knot at comparatively younger ages than males. As against 56.3 and 53.3 percentages of never married males in Bihar state and Kaimur district respectively, the corresponding percentages among married females are 47.8 and 50.1.

While analyzing marital status by broad age groups one finds that married females outnumber married males in the age group 10-14 suggesting that child marriage among females is more prevalent than males. However, it is interesting to note that the proportion of married males and females in the age group 10-14 or 0-14 is comparatively more in Kaimur district. It is also found that child marriage is more prevalent in rural areas of the state and the district than urban areas.

It is also significant to note that the proportion of never married females in Kaimur district and state as a whole in the age group 15-19 and above is much lower than the never married males. The proportion of divorced or separated males and females is significantly low in Kaimur district as also in Bihar state.

Literacy is one of the important demographic characteristics. Apart from collecting data on number of literate, the level, nature and type of education attained by the literates are also ascertained. The concept of literacy adopted in the census has already been explained in the beginning of this publication.

A proper index for measuring literacy is proportion of literate and educated persons to the total population. The literacy rate for Bihar (excluding the population in the age-group 0-6 years) at the time of 2001census was 47.0. Male literates greatly out numbered female literates as the literacy rate for males, according to 2001 census, was 59.7 while for females the literacy rate was only to the extent of 33.1 percent.

The overall literacy rate for the district of Sheohar,

according to 2001 census was only 55.1 percent, about 8 percentage points above the state average. Male literates in the district accounted for 69.7 percent whereas female literates constituted only 38.8 percent of the total population. The literacy rates for males and females in Kaimur district are higher than the corresponding figures for Bihar state.

Annexures VII(A),VII(B),VII(C) and VII(D) furnish informations regarding absolute number of illiterates in Bihar state and Kaimur district as also percentage distribution of literates by different level of education by different age-groups are also provided.

A breakup of literate population by various educational levels of 2001 census shows that 28.4 percent males and 35.8 percent females in the state were literate including below primary but had not attained any specific level of education. 24.9 percent males and 30.6 percent females in the state had crossed the primary standard, 14.6 percent males and 13.2 percent females had passed the middle examination while 32.1 percent males and 20.4 percent females in the State were matriculates and above. The contrast between males and females was significant among matriculates and above as the percentage of female literates who had passed the matriculation and above examination were about 12 percentage points less than literate males population.

According to 2001 census the proportion of literates by different levels of education in Kaimur district remained higher for females in lower levels i.e. upto Primary standard and remained higher for both, males and females, in higher standards from Middle to Matriculation and above.

ANNEXURE - VIII
PERCENTAGE DISTRIBUTION OF MAJOR MOTHER TONGUES AS RETURNED IN CENSUS-2001 FOR STATE & DISTRICT

Bihar			Kaimur (Bhabua)		
Mother Tongue	Population	Percentage	Mother Tongue	Population	Percentage
1	2	3	1	2	3
Bhojpuri	20,372,983	24.5	Bhojpuri	1,133,288	87.9
Hindi	14,524,035	17.5	Hindi	103,265	8.0
Magadhi/Magahi	12,132,383	14.6	Urdu	47,848	3.7
Maithili	11,830,684	14.3	Kurukh/Oraon	2,085	0.2
Urdu	9,457,544	11.4	Magadhi/Magahi	678	0.1
Surjapuri	928,458	1.1	Arabic/Arbi	660	0.1

Santali	382,866	0.5	Mundari	150	0.0
Kurukh/Oraon	57,952	0.1	Maithili	118	0.0
Marwari	27,152	0.0	Punjabi	69	0.0
Total of other mother tongues	12,842,100	15.5	Total of Other Mother Tongues	676	0.1
Total Population	**82,998,509**	**100.0**	**Total Population**	**1,289,074**	**100.0**

The Census of India has been the richest source of language data collected and published during the successive decennial Censuses over a century. Annexure VIII furnished above provides data on mother tongue as returned by each individual irrespective of its status as scheduled or non-scheduled languages during 2001 Census for Bihar State as well as for Kaimur district.

Amongst 10 major mother tongues in the State, Bhojpuri tops the list with 24.5 percent of the total population having returned it as their mother tongue. Hindi has been returning by only 17.5 percent while Magadhi/Maghi and Maithili have been returned by 14.6 and 14.3 percent of the total population of the state as their mother tongue respectively in 2001. Urdu in the state has been returned by 11.4 percent of the total state's population where as in the district of Kaimur 3.7 percent of the district population have returned it as their mother tongue. Bhojpuri as mother tongue has

been returned by 87.9 percent of Kaimur district's population. Hindi has got second position with 8.0 percent of the district population having returned it as their mother languages. Except these languages analysed above both for the state and the district, other have been returned by insignificant proportions of the respective population of the state and the district as mother tongues as per Census 2001.
