BARABAR CAVES

The Barabar Caves are situated in the hilly areas of Makhdumpur in Jehanabad district. The place 50 kms from Gaya and 75 kms from Patna is famous for its ancient seven Rock-cut Buddhist Caves and as the place of origin of Ajivak sect. Its sheer panoramic grandeur and rugged natural beauty attracts many tourists.

Foreword

The District Census Handbook (DCHB) published by Census Organization since 1951 census, is one of the important publication in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructure facilities, etc.

The scope of the DCHB was initially confined to a few Census Table and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features along with restructuring of the formats of villages and town dire rectory were added into it. In village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adults literacy centers, primary health sub-centers and community health workers in the villages were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to given the details on number of inaccessible villages in each district. In Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and ClassII towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/ taluk/PS level presentation. It was excepted that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and ‘most important commodity’ manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance (s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely Primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Center and Primary Health Center), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on slums has been modified and its coverage enlarged by including

details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only ClassI and Class II towns in the 1981 and 1991 censuses. The basic amenities available in village and towns are analyzed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexure. The analytic notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/ place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analyzed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri Sudhir Kumar Rakesh, Director of Census Operations, Bihar, Patna. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state government in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Sri R.G.Mitra, Deputy Registrar General (C&T) and Dr.I.C.Agarwal, Senior Research Officer of Social Studies Division. Dr.R.P.Singh,Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computersation of village and directory data and the programme for the generation of Village Directory and Town Direcotry statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L.Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible

D.K.Sikri

Registrar General &

Census Commissioner, India

New Delhi

Preface

The history of the publication of District Census Handbooks goes back to the 1951 Census and these are printed in every Census because of their wide range utility. In successive Censuses innovations/ modifications have taken place in the District Census Handbooks in terms of coverage and content of data. This is an important publication district level brought out by the Census Organisation on behalf of the State Government. Its inter-alia, provides data/information on some of the basic demographic and socio-economic characteristics and availability of certain important civic amenities/facilities in each village and town of the district. This publication has, proved to be of immense utility to the planners, administrators, academicians and researchers. It is hoped that this publication will serve the purpose of the ever increasing demand for the micro-level data in this era of planned development.

The District Census Handbook project is joint venture of the State Government and the Census organization and is brought out in two parts, viz. (i) part A–containing the village and town directories and (ii) part B containing village and townwise Primary Census Abstracts, pertaining to total population. It also contains the District Primary Census Abstracts for the total population and the Scheduled Castes and the Scheduled Tribes Population by rural-urban break-up.

The present volume of the District Census Handbook (DCHB) in 2001 Census has been made more informative and exhaustive in terms of coverage and content. The village Directory mainly covers educational, medical, drinking water, post & telegraph, banking, credit societies, recreational & cultural and communication facilities and approach to villages available in the villages, besides, population and land use data. The content of Village Directory has been broadened by including additional facilities such as availability of banking, recreational and cultural facilities and reach of newspapers and magazines in villages. For the first time in this volume information on the most important commodity manufactured in village is provided. The Town Directory basically contains growth trend of towns since 1901, physical aspects and location, municipal finance, civic and other amenities, medical, educational, recreational and cultural facilities, trade, commerce, industry banking, civic and other amenities available in slums. In Town Directory, information on all types of slums, whether notified/recognized by respective town authorities or not is provided instead of notified slums for each statutory town. However, during 1981 and 1991 Censuses this information was restricted to class I and class II towns only.

The various basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. A significant addition in the publication is the inclusion of analytical notes presented as annexures on important aspects concerning Census data on (i) mortality (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/ place of last residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongues, based on 1991 and/or 2001 Census, with the prime objective of analysing the extent of changes taken place in socio-cultural demographic and economic field during the last decade. The eight digit permanent location code (PLCN) has been assigned to all the villages to facilitate the link of data with future censuses.

It is worth mentioning that the District Census Handbooks of the Census of India, 2001 are being made available for the first time in electronic format in addition to printed volumes keeping in view the demands of the data users.

The village and town level data of amenities have been collected through the Block Development Officers and the Vice Chairmen/Executive Officers of the Municipalities and Notified Area Committees, who functioned as Charge Census Officers under the District/Sub-divisional level Officers.

The analytical note has been prepared on the basis of the inset tables generated from the computerized data of Village Directory, Town Directory and Village/Urban Primary Census Abstract. It takes note of the social, economic and demographic changes, which have taken place in the districts during the decade. District and C.D. Block Maps containing useful information on many items have also been included in this volume.

I am grateful to the State Government agencies for their co-operation in collection of such a huge mass of data. I would like to make a special mention of the warm and whole hearted co-operation which was throughout extended by the District Magistrates, the Sub-divisional Officers, the District Census Officers and the Block Development Officers.

In my office Shri Phool Singh ex-Joint Director, Sri R.K. Ram Joint Director and K.K. Verma, D. P. Choudhary, S.K. Das Sudhakar and Mritunjay Kumar, Manjul Mayank Pandey and Shri Ramesh Prasad, Assistant Director supervised the project at different stages. District and C. D. Block Maps were prepared in Map Section under the overall supervision of Sri M. Guria and Dr. H.K. Ram, Research Officer (Map). I am thankful to all of them. The name of other officers and officials who were associated with this project is shown in separate sheet of acknowledgements.

I am personally indebted to Sri D. K. Sikri, Registrar General and Census Commissioner, India under whose guidance project was completed. I am deeply grateful to Sri J.K. Banthia, ex- Registrar General and Census Commissioner, India and Sri Sudhir Kumar Rakesh, ex-Director of Census Operations, Bihar, Patna for their sustained support and unfailing guidance throughout our endeavours. I am equally indebted to Sri R.C. Sethi, Additional Registrar General, India, Shri R.G. Mitra, ex-Deputy Registrar General (C & T), Dr. I.C. Agrawal, Assistant Registrar General of Social Studies Division and Dr. R.P. Singh, ex-Deputy Registrar General (Map) for spontaneous help and encouragement at different stages of the work of this project. I am also thankful to Sri S.L. Jain, Dy. Director and Sri R.K. Mehta, Assistant Director of Social Studies Division of Office of the Registrar General, India, New Delhi who scrutinized the manuscript.

Arun Kumar Saxena

District Highlights – 2001 Census

1. Jehanabad ranks 27th in terms of population (15,14,315) and 32nd in terms of area (1,569 sq.km.) in the state of Bihar.
2. In terms of population per sq.km. Jehanabad is the 15th densely populated district in the state with 965 persons per sq.km as against the state's 881.
3. Jehanabad ranks 9th in terms of sex-ratio (929) against the state's 919.
4. There are 62 uninhabited villages (out of 918 total villages) in the district of Jehanabad.
5. Kako (under Kako C.D. Block) is the most populated village (19,398) and Kathautiya Arazi (under Modanganj C.D. Block) is the least populated village (17) in the district.
6. The economy of the district mainly depends on cultivation or related work. More than 80% of the total workers are engaged in Primary sector.
7. C.D. Block Makhdumpur has the highest number of villages (116) in the district and C.D. Block Sonbhadra Banshi Suryapur has the lowest number of villages (42).
8. Keal (under Karpi C.D. Block) has the largest area (1,831 hectare) and Parmesharpur (under Ratni Faridpur C.D. Block) and Nagwan Arazi (under Kako C.D. Block) have the smallest area (1 hectare each) among the villages in the district.
9. Improved drinking water facility figures are impressive - it is available for 99.3 percent of the villages.

ANALYTICAL NOTE

Analytical Note

(i) History and scope of the District Census Handbook

The District Census Handbook, brought out by the Census Organization, is one of the most valuable district level publications.It provides, inter-alia, information on the basic demographic and socio-economic characteristics and availability of important civic amenities/facilities in each village and town of the respective districts.This publication has proved to be of immense utility to the planners, administrators, academicians and researchers.

The District Census Handbook, a joint venture of the State Government and the Census Organization, is one of the richest data sources, particularly in the context of planning and development at the grass root level. It is rather the only source that gives village and town level information concerning several demographic and socio-economic characteristics and also on availability of important civic amenities.This publication was brought out in the 1951 Census for the first time. In fact, it is the replacement of 'Village Statements' which used to be prepared in the Censuses of Pre-Independence period, and since 1951 it has been published after each decennial census with some innovations/improvements.

Initially the scope of the DCHB was confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town of the district. The DCHB published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories including PCA (Primary Census Abstract). At the 1971 Census, the DCHB was brought out in two parts, viz., Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA in respect of all the States and Union Territories. The Third Part of the DCHB, comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to delay in compilation of the requisite material. As far as the state of Bihar is concerned, this Third Part or Part-C could be published in respect of a few districts only. For the remaining districts, this volume was kept in the office library in mimeographed form.

At the 1981 Census, new features along with restructuring of the format of Village and Town Directory were introduced in the DCHB. These were published in two parts for each district. While Part-A comprised Village and Town Directories, the PCA of Villages and Towns (ward wise), including Scheduled Castes and Scheduled Tribes PCA up to CD Block/Town level, was provided in Part-B. To illustrate, all the amenities, except electricity, were brought together in the Village Directory and if an amenity was not available in the concerned village, the distance (in broad ranges) from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement (IV-A) on slums was provided so as to enable the planners to formulate programmes for providing civic amenities in the slums. In this statement details on civic and other amenities were presented for the notified slums of Class I and Class II towns. Apart from this, one column on the Scheduled Caste and Scheduled Tribe population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHB for the 1991 Census was, by and large, the same as followed during 1981 Census.However, the format of PCA was restructured slightly in the 1991 Census

for the benefit of data users and nine-fold industrial classification of main workers was given as against four–fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age group was also included in the PCA for the first time with a view to enabling data users to compute more realistic literacy rates as all children below 7 years of age had been treated as illiterate at the time of the 1991 Census.It was expected that the above mentioned modifications would help the planners in chalking out more effective developmental programmes.

At the country level, one of the most important innovations in the 1991 Census was the C.D.Block level presentation of data in the Village Directory and PCA instead of the traditional Tahsil/Taluka/PS level presentation across the country. For the state of Bihar, however, the Community Development Block level presentation of data in the Village Directory and PCA had been adopted since 1971 Census itself. During 1951 and 1961 Censuses the presentation of data was made at the Anchal level in the State of Bihar. In fact, Anchal and Community Development Block used to be more or less co-terminus till 1991 census. However, the situation has changed after 1991 Census and now Anchal and Community Development Block no longer remain co-terminus in all the cases. It was expected that the presentation of Village Directory and PCA data at C.D. Block level will help the planners in formulation of micro level developmental plans, as the C.D. Block is now increasingly being used as the key administrative unit for developmental planning. In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both computerized and manual codes for each village were provided for the 1991 Census along with the corresponding codes of 1981.

The District Census Handbook of Census of India, 2001 is more informative and exhaustive in terms of coverage and content. The coverage in Village Directory has been further broadened by including a number of other facilities like banking, recreational and cultural facilities, availability of newspapers & magazines, income and expenditure of Gram Panchayats and most important commodity (ies) manufactured in the Village etc. Apart from these, more details on distance(s) at which basic educational facilities (viz., Primary and Middle Schools and College) and medical facilities (viz. Allopathic Hospital, Maternity and Child Welfare Centre and Primary Health Centre) etc. are available, if not already available in the village, are being provided for the first time in DCHB.

The type and extent of basic amenities available in the villages & towns have been analyzed in depth with the help of a number of cross classified inset tables & statements. Brief analytical notes/accounts on important aspects concerning respective districts viz. (i) fertility, mortality and migration (ii) various measures of fertility and mean age at marriage (iii) percentage distribution of migrants by place of birth/ place of residence, (iv) main religions,(v) marital status of population, (vi) age, sex and education & (vii) distribution of different mother tongues, all based on 1991 Census, are being given at the end of the text as separate annexures.

For the District Census Hand Book of the Census of India, 2001, emphasis has been given on the quality of village and town level amenity data.With a view to find out erratic or aberrant trends of inexplicable fluctuations in amenity data, efforts have been made to verify the V.D. & T.D. data with the help of similar information brought out by the State and Central Governments as also by Government/Semi-Government institutions.

The processing of data and maps to be incorporated in the District Census Hand Book this time has been done both manually and digitally (with the help of computer technology). Another innovation of Census of India 2001 is that the hard copy of the maps of the Districts and C.D. Blocks have been converted into the digital database. During 1991 census the village wise information/amenities were shown manually in the maps of District Census Hand Book. But during 2001 Census the depiction of the information/amenities in the maps has been done by utilizing Computer Assisted Cartography.The editing, annotation, incorporation of amenities and other concerned work related with district and C.D.Block maps have been done simultaneously, as far as possible, except the incorporation of population size of the villages which became ready when the Urban/

Village Primary Census Abstract was made available through Computer Scanner.

(ii) Brief history of the district

Jehanabad district was formed on 31st July, 1986 scooping out old Jehanabad subdivision from old Gaya district. Jehanabad district has two subdivision. viz. Jehanabad and Arwal and 12 C.D. Blocks, viz. Arwal, Karpi, Kurtha, Jehanabad, Kako, Ghosi, Sonbhadra Banshi, Ratni Faridpur, Modanganj, Hulasganj, Kaler and Makhdumpur. The Arwal subdivision contains 2 C.D. Blocks viz. Arwal and Kaler. Rest ten C.D. Blocks fall in Jehanabad subdivision. There are two towns as well within the Jehanabad district, Jehanabad (M) and Madhdumpur (NA). Jehanabad (M) is the headquarters of the district and the district falls under Magadh division. The district is bounded on north by Patna on south by Aurangabad and Gaya, on east by Nalanda and on west by Bhojpur district. It has an area of 1569 square kms. and population of 983,769 persons was raised to the status of an independent district for effective control and close monitoring of the administration of the area vide Govt. of Bihar Notification No. 7/T1-307/86 Lhand La. Dated 31st Ki;. 1986.

The district has a rich heritage. It has a close linkage with the parent district of Gaya which was constituted in the year 1865, out of portions of the then existing districts of Bihar and Ramgarh. The parent district of Gaya formed an integral part of the ancient kingdom of Magadh. Hence, the history of Jehanabad is a part of the history of the ancient Magadh empire or Magadh Janapad. Of the 16 ancient Janapadas Magadh occupied paramount position. The glory of Magadh Kingdom was at its pinnacle during the reign of king Bimbisar (6th Century B.C.) of Haranyakakul dynasty. During this period Lord Budha (567-487 B.C.) and last and 24th Jain Tirthankar Mahavir (599-527 B.C.) gave sermons and extensively preached their religious doctrines throughout the Magadh region. At Ghejan in Kurtha Block stone images of Lord Budha were found in the remains of an old fortress which are preserved at Patna Museum. It is believed that Karanchaupar cave of Bhaikh village of Madhdumpur C.D. block was used by Buddhist preachers at later period of great Mauryas. The capital of Magadh empire was at Girivraj or modern Rajgir in Nalanda district which was later on shifted by King Udyayi to the confluence of Ganga and Sone, known as Pataligram or Pataliputra, a part of modern Patna district. In those days the entire region was full of forest with lush green trees and was abode of wild animals. After the fall of Haranyakakul dynasty, the Sisunagas came to imperial power after sometime who were supplanted by Mahapadmananda, the founder of Nanda dynasty. He was a mighty king and extended his sway over entire northern India. During the reign of his successor Dhanadamananda the Macedonian being Alexander unsuccessfully tried to enter India, but could not come to the boundary of the kingdom of Dhanapadamananda. Under the shrewd leadership of Chanakya Chandragupta overthrew the Nandas. Chandragupta was an empire builder par excellence. His grandson Ashoka greatly added to the prestige and glory of Magadh. He was superstar among all the great kings world had ever produced , His grandson, Dasrath is believed to have constructed the Nagarjun cave within the district. After the downfall of the Mauryas in 184 B.C., the history of this region was wrapped in obscurity till the rise of the Imperial Guptas (320 A.D.)

Jedhanabad must had been included in the Sunga empire. In the first century B.C., king Kharavala of Orissa invaded Magadh. The region latter on passed into the hands of the Kushans.

The Gupta period was established by Chandragupta I. The Gupta period is regarded as golden period of Indian history owing to all round development . Samundragupta, the ablest son of Chandragupta I, became the king of Magadh around 330 A.D. He was succeeded by his son Chandragupta II or in 400 A.D. He was succeeded by Kumargupta. Aryabhatta, the great Indian mathematician lived during the reign of his son Skandegupta, the last great king of the Gupta dynasty.

After the disintegration of the Gupta empire, local dynasties came into prominence. Later on Jehanabad came under the control of Harshavardhan (606-647 AD) and formed integral part of his empire. He was regarded as Lord paramount of Northern India. Hiuen-Tsang or Yuan Chwang, a Chinese erudite scholar pilgrim visited during his reign. It is believed that Hiuen-Tsang visited Bhakih village of the district. Harsha was greatly benevolent man. He used to give quinquennial charity to suffering humanity. He also used to have surprise sojourn trip of any part of his kingdom to personally know the condition of his subject.

After the death of Harsha, in 648 A.D. a Tibetan Chinese-Nepalese combined army invaded Magadh to take revenge against the earlier attack for the control of Magadh by Pala dynasty. It is ascertained by the inscription of king Rajyapala, son of king Narayan pala found at Kurkihar in Vajirganj block of Gaya District.

Mahjpala –I ruled over the kingdom during the period 978-1030 A.D and image as well as an inscription dated 1009 A.D. found at Kurkihar bears its testimony. Later, this kingdom was weakened by repeated attacks of Gahadvala kings having their center at Kashi. The kingdom could not resist for long and ultimately lost to the Gahadvala king Govindchanda. But Vamamana and his son Rudraman continued to rule Gaya. Govindpala, a Pala king ruled Gaya in 1162 A.D. Later, he was dethroned by the Senas of Bengal and Gahadvala of Kanauj Gahadvals from the west and Senas from the east came to claim over the possession of Magadh. Soon the Afthans overran Bihar.

Sometimes after 1193 but before 1200 A.D. Mohammad-bin-Bakhtiyarkhilji invaded Bihar. Jehanabad suffered with other parts of the state. The invaders were intolerant of the monasteries and other non-Islamic religious institutions, and large scale persecution of the monks and priests started. The monasteries and temples were ransacked, the monks and priests were slain and the idols broken. Those monks who could escape fled to Tibet, Nepal and southern India. Budhism was practically effaced from the land.

In 1234 when the Tibetan monk Dharamswami visited Bodh Gaya. Budhasena was the king (Pihapeli) of Gaya. He was attached by Muslim army from Bihar. The king fled into the woods south of Gaya. The army left the area after plunder, loot and destruction. Thereafter king Budhasena returned to the capital. He was succeeded by his son, Jayasena who ruled upto 1285 A.D. Soon Gaya was made a part of the Muslim subah of Bihar. Inscription bear the evidence that Emperor Firoz Tughlaq visited the village Kako, the present headquarters of Kako C.D. Block of the district on his way to Bihar.

During 1394 to 1486 the reign of Bihar passed into the hands of Sherqui dynasty of Jaunpur Jehanabad district also formed the part of the area ruled by Sher Shah Suri. After his death, the Mughals gained control over the district. In subsequent years district was finally merged into the vast territory of British India.

In 1760, Shah Alam invaded Bihar with a view to establishing his claim over the throne of Delhi. He was helped by Kamgar Khan of Anawada district but Shah Alam was repulsed at Barh by the comnbined army of the Nawab and the British. In the meanwhile his father was killed and Shah Alam was proclaimed the Emperor. On the advice of Kamgar Khan and the others the Mughal army defeated Raja Ram Narayan, the Deputy Governor of Bihar and the British force Kamgar Khan besieged Patna which was relieved by the timely arrival of Knox and his army, then Kamgar Khan withdraw to Bihar. British force attacked Shah Alam at Manpur near Gaya in January, 1761. British forces were supported by the army of Nawab Mir Jafar under the command of his son Miran and Governor Ram Narayan. Being unprepared for this sudden encounter the Emperor was defeated and captured. Mir Qasim was made the Viceroy of Bengal, Bihar and Orissa. The battle of Buxar (1764) decided the fate of Mir Qasim and of India. Bihar including Jehanabad became an integral part of the British empire.

First war of Independence 1857 See thing discontent throughout the nook and corner of India led to the movement of 1857. Freedom fighters led by brave Rajpur chief Kunwar Singh of Jagdishpur defeated Captain Dunwar. The news of Durbar's defeat spread like wild fire throughout the Bihar Commissioner Tylor of Patna became panicky.

Gaya, for a brief spel was , practically forsaken the foreign rule. But it was restored to the British yoke on the 16th August. Sherghati and Nawada were reoccupied by the 8th September. On the same day the sepoys of the 5th irregular Cavalry had revolted at Bhagalpur and entered the Gaya district. This gave the revolutiona fresh lease of life. The public buildings at Gaya were taken over. Captain Rattray's forces tried to check the rebels but failed to contain their advance. The rebels entered the Gaya town in triumph, again freed the prisoners and marched on the Tejkari. By the end of October, two companies of the 32nd Native infantry revolted at Bhagalpur and

advanced to Jehanabad. With a bed of brave freedom fighters Jodhara Singh virtually set to naught the British control over the Jehanabad and Aurangabad districts. Jodhara Singh became an eye-sore to the administration. British had taken steps to curb his activities but he led an enduring struggle. He was finally defeated by captain Rattray's forces in the battle of Kasma.

Post 1867 period

After the failure of the first war of independence in 1857, Government took stringent measures against Indians and tightened its grip. The participant in the movement were crushed whereas the loyalists were rewarded. Manufacture of arms was restricted. A separate district of Gaya was created in 1865 by ceding old portion of the old districts of Bihar and Ramgarh to ensure better local administrative control. With the same view the subdivision of Aurangabad was created in 1865 and Jehanabad in 1872.

The administration was, however, indifferent to the needs of sustaining or developing the agricultural economy. Failure of crops was common. Famines often occurred. Very severe famines occurred in 1866-67 and again in 1878-79.

To give the organized expression of the people will the Indian National congress was formed in 1885 but a sustained and concerted struggle for independence began mainly under the leadership of Tilak and Gandhi. The advent of Mahatma Gandhi on the Indian political firmament after 1916 was an epoch making event. It was Gandhiji who led our people to freedom using non-violent means and truth. Jehanabad contributed its might to all freedom movements.

After 1947On 15th August, 1947 with the rest of country Jehanabad also awoke to freedom throwing away yoke of British slavery. In 1967 the district faced severe famine which attracted world wide attention and J.P. with a band of devoted sarvoday men had done yeoman services to the suffering humanity. In recent years district has earned notoriety of group struggle under the banner of Indian People's Front or like minded political parties, with feudal lords or groups.

(iii) Administrative set up

The district of Jehanabad lies in the central Bihar region of the state. It is adjacent to the district of Patna. There are two sub-divisions viz., Makhdumpur and Jehanabad. The district has got twelve Community Development Blocks. The number of villages and towns in the district are 919 and 2 respectively

(iv)Physical Features

Natural Divisions & Topograph

Entire Jehanabad district is formed of Gangetic alluvium and is a highly fertile plain. Land mass of Jehanabad lies in northern part of the old Gaya district (which is presently divided into Aurangabad, Gaya, jehanabad and Nawada districts) and is akin to other land of this region. The old Gaya district was divided into two distinct natural regions, comprising the northern and southern parts of the district. The then northern part formed of the whole of Jehanabad subdivision and the northern portion of the three subdivisions, all old, is a plain formed of alluvial soil. The then southern part of old Gaya district stretches from about ten miles south of Gaya town, is hilly and undulating with upward slope towards the south and has physical feature akin to neighbouring Chotanagpur. Plateau. The nature of land of Jehanabad district resembles to its neighbouring Patna district and is formed of fertile kewal soil.

Rivers

On western side the district is separated at Arwal C.D. Block from Bhojpur district by river Sone. In old Sanskrit texts Sone was known as Shonbhadra. It rises in Amarkantak near the source of great rivers, the Narmda , the Mahanadi and the Wain Ganga on the elevated plateau of central India near Maikal hills. Both Bhojpur and Jehanabad districts have claim over river Sone. It finally merges into the Ganges near Maner in the district of Patna. The river attains a width of 3 to 5 kms. in its course along the boundary of the district. The river is not deep. The disproportionate shallowness is a peculiarity of the river Sone. In the dry season the streams of water in the river is narrow and shallow. The sandy bed presents the look of a big desert. But in rains it swells and becomes full. During rains the river causes floods

in the low lying plains nearby banks. These floods are, however, of very short duration. The Sone sand, noted for its large sized grains, is used extensively in construction works.

Running almost paralled to the river Sone, Punpun is another important river flowing through the district. It originates in the hills of the Aurangabad district. Its flow towards the Ganges joins at Fatwah in Patna district. The river has many small hilly streams as its tributaries. Important among them are Dhawa, Bhutane and Madar, all of which join the Punpun on its right bank. The Punpun has a perennial stream of water. Its water is regarded sacred and pilgrims desirous to perform part of last rites (Sharadh) ablutions take a holy dip before getting tonsured for before proceeding to Gaya.

Climatic Condition

Summer begins in late March. May and June are extremely hot. Unlike Gaya, Jehanabad is a plain and is generally less hot.

Rains set in during the second half of June bringing great relief to the heat oppressed people. The rainy season begins in June and lasts till the end of September. The district receives major portion of rainfall (about 90 percent) from the monsoon. The district gets some winter rain also.

Irrigation facilities

In the old days, when Jehanabad was constituent of Gaya, mostly pynes, ahars, wells, etc. used to be utilized for artificial irrigation. After independence considerable attention has been paid to improve irrigational facilities. Large amounts of money are being spent by the Irrigation, Agriculture and Revenue Department of the State Government over various kinds of irrigation schemes. In addition to above irrigation facilities the Agriculture and Revenue Departments have also executed a number of medium irrigation schemes and minor irrigation schemes besides sinking percolation and open boring wells.

Industry

The district is industrially backward. In the rural areas of the district mostly rice and flour mills are located.

Livestock

In the district of Jehanabad, local breed of cattle are, generally, found but for draught purposes mostly Bachaur breed are preferred,. Some cows of Bhojpur and Sahiwal breed of cattle are found for mil purposes.

In order to control animal diseases veterinary Hospital and dispensaries are operating in the district. For improving the breed of the cattle quickly and at low cost, artificial insemination centers with sub centers are in operation in the district. Cattle fairs and shows are held annually at Kako, Manikpur ande Tehta.

Trade and Commerce

The chief centers of trade in the district are located at Jehanabad and Arwal. The trade consists of mainly export of oil-seeds, gur, hides and vegetables. The principal imports are coal, cloth, kerosene oil, tea, timber, tobacco, spices, dried and fresh fruits, paper and other consumer goods. Modernization has also had an impact on choice of items.

The district is covered with net-work of markets consisting of a number of permanent shops dealing mainly in grains and vegetables. In the rural areas haats (village markets) are held twice a week.

Public distribution system is functioning throughout the district to control the prices of essential commodities like sugar, kerosene oil and wheat.

Electricity and Power

All the towns of Jehanabad are provided with electricity. Even some villages are provided with electricity. Domestic and commercial use account for a considerable part of power consumption. The district receives power supply from the Damodar Valley Corporation but power supply position is generally very poor.

Communications

Jehanabad town is on the Grand Chord section of Eastern Railway, and is connected with Patna by the Patna-Gaya branch line. The district link between Patna and Gaya towns was opened in the year 1876. The district is well served by a net work of roads

except a few remote villages. Jehanabad-Ekangarsarai and Gaya-Jehanabad – Patna road are main roads of the district.

Minerals

The district is devoid of mines and minerals. The land of district is formed of fertile Gangetic alluvium. Locally known as kewal and is suitable for paddy, wheat and sugarcane.

Forest

The district is devoid of any forest, as the land is extremely fertile to be left for wild grow;th. Palm, Tamarind, mango, peepal (Ficus religiosa) and banyan trees (Ficus indica) are commonly found near the village settlement. Among other trees in the region are Bal (Aegle marmelos). Neem (margosa Indica); siris (Mimosa Sirissa), Seesum (Dalbergia sirsoo), semal (Bombax Malabariam) and Jack-fruit (Artocarpus integrifolia). As per National Forest policy 33 per cent of land area of a region must be covered with forest. Due to social forestry efforts of Government Seesam, Subabul, Sagwan (Teak) etc. had been planted in the area.

(v) Census concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence,etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Room

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room.In certain parts of the country,

particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

All places with a municipality, corporation, cantonment board or notified town area committee, etc.

A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered.

To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:—(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and—(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglo-meration should not be less than 20,000 (as per the 1991 Census).— With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:— i) a city or town with one or more contiguous outgrowths;— ii) two or more adjoining towns with their outgrowths; and— iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe :

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall

for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.—It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.-

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State of Bihar are given below :

Scheduled Castes :

1. Bantar
2. Bauri
3. Bhogta
4. Bhuiya
5. Bhumij (excluding North Chotanagpur and South Chotanagpur divisions and Santal Parganas district)
6. Chamar, Mochi
7. Chaupal
8. Dabgar
9. Dhobi
10. Dom, Dhangad
11. Dusadh, Dhari, Dharhi
12. Ghasi
13. Halalkhor
14. Hari, Mehtar, Bhangi
15. Kanjar
16. Kurariar
17. Lalbegi
18. Musahar
19. Nat
20. Pan, Sawasi
21. Pasi
22. Rajwar
23. Turi

Scheduled Tribes :

1. Asur
2. Baiga
3. Banjara
4. Bathudi
5. Bedia
6. Bhumij (in North Chotanagpur and South Chotanagpur divisions and Santal Parganas district)
7. Binjhia
8. Birhor
9. Birjia
10. Chero
11. Chik Baraik

12. Gond
13. Gorait
14. Ho
15. Karmali
16. Kharia
17. Kharwar
18. Khond
19. Kisan
20. Kora
21. Korwa
22. Lohara, Lohra
23. Mahli
24. Mal Paharia
25. Munda
26. Oraon
27. Parhaiya
28. Santal
29. Sauria Paharia
30. Savar

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

Person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.— A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.-Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing -or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.— It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions,trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years.

Sex-ratio

Number of females per 1000 males in a population.

(vi) Non-Census Concepts

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below :

Crude birth rate(CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid -year Population}} \times 1{,}000$$

Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CDR} = \frac{\text{Number of deaths during the year}}{\text{Mid -year Population}} \times 1{,}000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$\text{ASFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$\text{ASMFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$\text{GFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$\text{GMFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TFR} = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} \text{ASFR}}{1{,}000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TMFR} = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} \text{ASMFR}}{1{,}000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$\text{ASMR} = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1{,}000$$

q1 :

Probability of dying between birth and age1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR).

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by

place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA/Town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./towns. These Class I UAs/Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6 (2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999) towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are deterimental to safety ,health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

Note on religion

Population of the Jehanabad district during 1991 was 11,74,900 Hindus constitute over 91.9 per cent (10,79,934persons) of the population in the district followed by Muslims 8.1 percent (94,748 persons). All other four major religious communities have almost negligible percentages.

Note on mother tongue

Spoken language, which is medium of conversation, is an important attribute of population. The Census Of India has been the richest source of language data collected and published during the successive decennial censuses over a century. During 1991 census, as in the previous censuses, the mother tongue as returned by each individual was collected.

The population of the Jehanabad district during 1991 was 1,174,900. As per distribution of different mother tongues (languages mentioned under 8th Schedule of Constitution of India) as returned during the 1991 Census for Jehanabad district, Hindi, the main mother tongue of the district was returned by 93.5 percent (1,098,028 persons) of the population. The corresponding percentage for the Urdu, the second most prominent language spoken in Jehanabad district, was 6.5 percent (76,717 persons). Speakers of other Scheduled languages were very thin in number than the two described above.

Note on important SCs and STs in the district of Jehanabad during 1991 Census

The population of the Scheduled Caste in the district of jehanabad was 216,083 according to 1991 Census. Numerically the five most prominent SCs in the district were (i) Dusadh , Dhari , Dharhi (69,568) (ii) Chamar , Mochi (63,702) (iii) Musahar (28,382) (iv) Pasi (25,178) and (v) Bhuiya (10,285) . While Dusadh constituted the maximum proportion of the Scheduled Castes population the percentage being 32.2 (more than one forth of the total SC population).Chamar and Musahar through numerically Second and third in order comprised only 29.5 and 13.1 percent of the SC population in the district. Pasi comprised 11.7 percent of the SC population in the district in through numerically forth position of SC population in the district and Bhuiya are much less in number as compared to the other forth SCs mentioned above with only 4.8 percent of the total SC population of the district. Remaining Scheduled Castes were comparatively above as their percentage to total SC population was less than even 1.0 percent except Dhobi and Rajwar whose percentages were 3.7 and 2.9 respectively

The population of the Scheduled Tribes in the district of Jehanabad during 1991 Census was 238.Numerically the five important STs were namely (i)Kharia had 105 population which constituted 44.1 percent of the Scheduled Tribes population in the district.oraon with 53 population constituted 22.3 percent of the ST population.Santal which were 30 persons constituted 12.6 percent of the ST popuation . Munda comprised 13 persons and constituted 5.5 percent of the ST population in the district. Remaining Scheduled Tribes were comparatively very less in number than the five STs described above as their percentage to total ST population was less than even 1.0 percent except Chero, Mahli, Gond and Kharwar whose percentages were 2.9,2.5 and 1.3 each respectively.

(vii) 2001 Census Findings–Population and its Distribution

According to the 2001 Census, the total population of Jehanabad district is 1,514,315 comprising 784,946 males and 729,369 Females and constituting -- percent of the State population spread over -- percent of the area of the State in the 12 C.D.Blocks of the district. Makhdumpur is the most populous where as Sonbhdra Banshi Suryapur is the least populated C.D. Blocks in the district. Tables 1 to 52 based on PCA,V.D & Household data give insight into the colour and texture of the population in the district.

(a) Brief analysis of PCA data based on inset tables 1 to 36 :

TABLE 1: DECADAL CHANGE IN POPULATION OF C.D.BLOCK BY RESIDENCE, 1991-2001

Serial		Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
number	C.D. Block	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Arwal	104,448	104,448	0	130,996	130,996	0	25.4	25.4	0	0	0

3	Karpi	131,532	131,532	0	163,887	163,887	0	24.6	24.6	0	0	0
4	Sonbhadra Banshi Suryapur	49,657	49,657	0	61,588	61,588	0	24	24	0	0	0
5	Kurtha	76,356	76,356	0	102,342	102,342	0	34	34	0	0	0
6	Ratni Faridpur	95,260	95,260	0	122,623	122,623	0	28.7	28.7	0	0	0
7	Jehanabad	150,308	97,976	52,332	207,895	126,392	81,503	38.3	29	55.7	34.8	39.2
8	Kako	110,007	110,007	0	143,172	143,172	0	30.1	30.1	0	0	0
9	Modanganj	56,766	56,766	0	70,101	70,101	0	23.5	23.5	0	0	0
10	Ghoshi	69,172	69,172	0	88,927	88,927	0	28.6	28.6	0	0	0
11	Makhdumpur	167,945	145,807	22,138	214,873	184,764	30,109	27.9	26.7	36.0	13.2	14
12	Hulasganj	59,087	59,087	0	77,248	77,248	0	30.7	30.7	0	0	0
	District Total:	**1,174,900**	**1,100,430**	**74,470**	**1,514,315**	**1,402,703**	**111,612**	**28.9**	**27.5**	**49.9**	**6.3**	**7.4**

Table 1 shows that rise in the population of this district during 1991-2001 decade has been of the order of 28.9 percent. The rural population in the district has increased by 27.5 percent while the urban population growth over the decade has been to the extent of 49.9 percent As we know that rural-urban migration is an important factor which always leads to rapid expansion of the urban units. Among the C.D. Blocks, Jehanabad has shown the highest increase in population over the decade with 38.3 percent because Jehanabad town, the headquarters of the district, is situated in this C.D. Block. The next highest increase in population is observed in Kurtha C.D. Block with 34.0 percent closely followed by Hulasganj C.D. Block with 30.7 percent. Percentage decadal variation has been observed to be the least in the case of Modanganj C.D. Block with 23.5 percent. The increase in rural population among various C.D. Blocks during 1991-2001 has shown by and large the same trend.

The percentage of urban population in the district is 7.4 during 2001 Census as compared to 6.3 percent at the time of 1991 Census showing increase in urbanization during the decade.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District/C.D.Block	Total number of inhabited Village	Total rural population			Number and percentage of villages	Population less than 200

9	Modanganj	14 (26.4)	19,677	18,756	0 (0.0)	0	0	0 (0.0)	0	0
10	Ghoshi	11 (22.0)	17,314	16,056	3 (6.0)	11,385	10,565	0 (0.0)	0	0
11	Makhdumpur	26 (23.9)	37,063	34,626	4 (3.7)	12,746	11,766	1 (0.9)	5,686	5,101
12	Hulasganj	12 (25.0)	18,223	16,683	1 (2.1)	2,694	2,448	0 (0.0)	0	0
	District (Rural) Total:	**191 (22.3)**	**289,539**	**270,159**	**30 (3.5)**	**96,213**	**89,294**	**5 (0.6)**	**35,655**	**32,698**

It may be observed from the Table-2 that the maximum number of villages in the district lie in the population range of 1000-1999 accounting for 31.4 percent of the total inhabited villages closely followed by villages in the population range of 500-999 accounting for 23.8 percent of the total inhabited villages. The percentages of population in the above two population ranges are 27.7 percent and 10.8 percent of the total rural population of the district respectively. The villages in the population range of 2000-4999 constitute 22.3 percent of the total inhabited villages and in these villages the percentage of population is 39.9 percent. There are 125 villages in the population range of 200-499 accounting for 14.6 percent of the total inhabited villages and in these villages the percentage of population is 3.2 percent of the total rural population. There are 32 villages in the population range of less than 200 accounting for 3.7 percent of the total inhabited villages and in these villages the percentage of population is only 0.3 percent of the total rural population. There are 30 villages in the population range of 5000-9999 accounting for 3.5 percent of the total inhabited villages and in these village the percentage of population is 13.2 percent of the total rural population. There are only 5 villages in the highest population range of 10,000 and above which account for 0.6 percent of the total inhabited villages and in these villages the percentage of population is 4.9.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Above table is not applicale in respect of Jehanabad district as there has been no change between 1991 Census and 2001 Census

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	0	0.0	0	0.0
11-20	0	0.0	0	0.0
21-50	1	0.1	24	0.0
51-100	1	0.1	94	0.0
101-200	6	0.7	783	0.1
201-300	10	1.2	4,411	0.3
301-500	55	6.4	45,634	3.3
501 +	783	91.5	1,351,757	96.4
Not known	0	0.0	0	0.0
District Total:	**856**	**100.0**	**1,402,703**	**100.0**
Population Density (Rural) of the district:		**928.6**		

The data presented in the above table highlight the fact maximum proportion of villages in Jehanabad district lies in the density range (per square kilometer) of 501+ with 91.5 percent of the total inhabited villages followed by villages in the density range of 301-500 which account for 6.4 percent. It would further be seen that small number of villages fall in the density range of 201-300 which account for 1.2 percent of the total inhabited villages.

Maximum number of villages fall in the density range of 501+ covering 96.4 percent of the population followed by villages in the density range of 301-500 which account for 3.3 percent of the population

TABLE 5 : SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	1,061	1,064	1,003	1,037	1,039	934
1911	1,051	1,056	942	1,035	1,036	907
1921	1,020	1,027	886	1,003	1,007	791
1931	995	1,005	820	1,001	1,006	794
1941	1,002	1,012	842	1,001	1,005	849
1951	1,000	1,010	859	980	980	952
1961	1,005	1,020	832	1,004	1,007	899
1971	957	968	833	956	959	871
1981	948	959	852	955	959	879
1991	907	913	857	919	924	862
2001	919	926	868	929	933	879

Note: Sex ratio has been defined here as the number of females per 1000 males.

Table-5 shows that sex ratio for the urban as well as rural areas of Jehanabad district is comparatively high as compared to the state during 1991 and 2001 Censuses. It has already been discussed that the district of Jehanabad was created before 1991 Census.

It is found that in case of sex ratio in the total population in the district it is higher than the sex ratio of the State of Bihar both in 1991 and 2001 Censuses.

TABLE 6 : SEX RATIO BY C.D. BLOCKS, 2001

Serial number	Name of C.D.Block	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Arwal	939	939	
2	Kaler	933	933	
3	Karpi	926	926	
4	Sonbhadra Banshi Suryapur	939	939	
5	Kurtha	944	944

8	Kako	935	935	
9	Modanganj	945	945	
10	Ghoshi	937	937	
11	Makhdumpur	932	933	925
12	Hulasganj	931	931	
	District Total:	**929**	**933**	**879**

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C. D. Block	Sex ratio
1	2	3
1	Arwal	939
2	Kaler	933
3	Karpi	926
4	Sonbhadra Banshi Suryapur	939
5	Kurtha	944
6	Ratni Faridpur	935
7	Jehanabad	915
8	Kako	935
9	Modanganj	945
10	Ghoshi	937
11	Makhdumpur	933
12	Hulasganj	931
	District (Rural) Total:	**933**

In Jehanabad district as a whole there are 929 females for every thousand males. Within the district, the sex ratio varies from 945 in Madanganj C.D. Block to 894 in Jehanabad C.D. Block.

The sex ratio figures for rural and urban areas of Jehanabad district are 933 and 879 respectively.

The sex ratios of Madanganj (945), Arwal (939), Sonbhadra Banshi Suryapur (939), Kurtha (944) Ghoshi (937) Ratni Faridpur and Kako (935) are higher than the district rural average of 933 while Karpi (926), Jehanabad (894) and Hulasganj (931) C.D. Blocks have sex ratio below the district rural averages.

The urban sex ratio of the district is 879 which is lower than the total and rural averages of the district

As for rural areas in Jehanabad district there are 933 females for every thousand males. Within the district, the sex ratio varies from 945 in Madanganj C.D. Block to 915 in Jehanabad C.D. block. The sex ratios of Arwal, Karpi, Kurtha and Ghoshi C.D. Blocks are 939, 926, 944 and 937 respectively. The sex ratios of Arwal, Sonbhadra Banshi Suryapur, Kurtha, Ratni Faridpur, Kako, Madanganj and Ghoshi C.D. Blocks are higher than the district rural average of 933 while Karpi, Jehanabad and Hulasganj C.D. Blocks have sex ratios below the district rural average. The sex ratios of Kaler and Makhdumpur C.D. Blocks are equal to the district rural average of 933.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	3	0.4	99	0.0
700-749	1	0.1	830	0.1
750-799	14	1.6	8,743	0.6
800-849	43	5.0	39,424	2.8
850-899	134	15.7	197,320	14.1
900-949	318	37.1	684,538	48.8
950-999	218	25.5	353,683	25.2

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001 (*Concld.*)

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
1000-1099	107	12.5	112,160	8.0
1100+	18	2.1	5,906	0.4
District Total:	**856**	**100.0**	**1,402,703**	**100.0**
Sex ratio (Rural) for District:		**933**		

Table 8 shows that the maximum proportion of villages in Jehanabad district lie in the sex ratio range of 900-949 and these villages account for 37.1 percent of the total inhabited villages. It further reveals that these villages which fall in this sex ratio range account for 48.8 percent of the district rural population. 218 villages (25.5%) fall in the sex ratio range of 950-999 and these villages account for 25.2 percent of the rural population of the district. 134 villages (15.7. %) are in the sex ratio range of 850-899 and these villages account for 14.1 percent of the rural population. 107 villages (12.5%) fall in the favourable sex ratio range of 1000-1099 and these villages account for 8.0 percent of the rural population. 43 villages (5.0%) are in the sex ratio range of 800-849 and these villages account for only 2.8 percent of the rural population. Only 18 villages (2.1%) fall in the very favourable sex ratio range of 1100+ and this small proportion of villages accounts for only 0.4 percent of the rural population. Only 3 villages (0.4%) are in the lowest range of sex ratio (less than 700) which account for negligible 0.0 percent of the population.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of Town	Urban status of town	Sex ratio
1	2	3	4
1	Jehanabad	M	863
2	Makhdumpur	NA	925
Sex ratio (Urban) for the district:			**879**

The table 9 shows that there are 879 females for every thousand males in the urban areas of the district. Within the district the sex ratio of Jehanabad (M) is 863 which is below the district urban average while in Makhdumpur (NA) it is 925 which is higher than the district urban average

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

		Urban	**19,552**	**10,336**	**9,216**	**892**

The above table shows that the sex ratio in the age group 0-6 in the district varies from 957 in Modanganj C.D. Block to 891 in Ratni Faridpur. The sex ratio in the age group 0-6 of Jehanabad C.D. Block is 914 while the sex ratio of Arwal C.D. Block is 930.

The sex ratio figures in the age group 0-6 of Arwal, Kaler, Modanganj, Ghoshi and Makhdumpur C.D. Blocks are higher than the district total and rural averages while Sonbhadra Banshi Suryapur, Kurtha, Ratni Faridpur, Jehanabad, kako and Hulasganj C.D. Blocks have sex ratios below the district total and rural averages. The urban sex ratio of Jehanabad district is lower than the total and rural sex ratios of the district.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C.D. Block	Total population in 0-6 age group			Sex ratio for 0-6 age Group
		Persons	Males	Females	
1	2	3	4	5	6
1	Arwal	25,734	13,333	12,401	930
2	Kaler	24,375	12,561	11,814	941
3	Karpi	31,509	16,435	15,074	917
4	Sonbhadra Banshi Suryapur	11,514	6,021	5,493	912
5	Kurtha	21,521	11,376	10,145	892
6	Ratni Faridpur	24,276	12,839	11,437	891
7	Jehanabad	24,624	12,730	11,894	934
8	Kako	28,960	15,298	13,662	893
9	Modanganj	13,406	6,851	6,555	957
10	Ghoshi	17,303	8,984	8,319	926
11	Makhdumpur	36,308	18,736	17,572	938
12	Hulasganj	15,263	8,055	7,208	895
	District (Rural) Total:	**274,793**	**143,219**	**131,574**	**919**

It is observed in table-11 that the sex ratio in the age group 0-6 among the rural population in the C.D. Blocks of the district varies from 957 in Modanganj C.D. Block to 891 in Ratni Faridpur C.D. Block. The sex ratio of Karpi C.D. Block is 917 while the sex ratio of Makhdumpur C.D. Block is 938. The sex ratio figures of Arwal, Kaler, Jehanabad, Modanganj, Ghosi and Makhdumpur C.D. Blocks are higher than the district average while Karpi, Sonbhadra Banshi Suryapur, Kurtha, Ratni Faridpur, Kako and Hulasganj C.D. Blocks have sex ratio below the district average.

TABLE 12: SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	61	7.1	7,072	2.6
700-749	34	4.0	5,830	2.1
750-799	50	5.8	12,238	4.5
800-849	108	12.6	36,292	13.2
850-899	130	15.2	56,005	20.4
900-949	139	16.2	54,357	19.8
950-999	104	12.1	42,076	15.3
1000-1099	138	16.1	47,155	17.2
1100+	92	10.7	13,768	5.0
District (Rural) Total	**856**	**100.0**	**274,793**	**100.0**
Sex ratio (Rural) for District:		**919**		

It is observed in the above table that 16.2 percent of inhabited villages in Jehanabad district lies in the sex ratio range of 900-949 in the age group 0-6. 138 villages (16.1%) are in the sex ratio range of 1000-1099. 130 villages (15.2%) are in the sex ratio range of 850-899. 108 village (12.6%) are in the sex ratio range of 800-849 and 104 villages (12.1%) are in the sex ratio range of 950-999. There are 92 villages (10.7%) in the district which lie in the very favourable sex ratio range of 1100+. These villages account for 5.0 percent of the rural population of the district. There are 61 villages (7.1%) in the district having unfavourable sex ratio of less than 700 which account for 2.6 percent of the rural population of the district.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATION/TOWNS, 2001

Serial number	Name of Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females

		Urban	**111,612**	**16,643**	**137**	**14.9**	**0.1**

The above table shows that the percentage of Scheduled Castes in Jehanabad district is 18.9 percent of the total population in the district. Within the district highest percentage of Scheduled Castes population is in Makhdumpur C.D. Block with 21.6 percent followed by Kaler, Ghoshi, Hulasganj and Karpi C.D. Blocks with 20.4 , 20.1, , 19.8 and 19.6 percent respectively. The percentage of Scheduled Castes population in Jehanabad district for the urban areas is 14.9 percent which is lower than the rural areas (19.2%). The percentage of Scheduled tribes population in Jehanabad district is 0.1 % only according to 2001 Census.

11	Makhdumpur	184764	39818	90	21.6	0.0
12	Hulasganj	77248	15271	35	19.8	0.0
	District (Rural) Total:	**1402703**	**269574**	**1176**	**19.2**	**0.1**

The above table indicates that the percentage of the Scheduled Castes in Jehanabad district is of the order of 19.2 percent of the total population. The highest percentage of Scheduled Castes population is in Makhdumpur C.D. Block with 21.6 percent of the total population closely followed by Jehanabad, Kaler, Ghoshi, Hulasganj and Karpi C.D. Blocks with 21.3, 20.4, 20.1, 19.8 and 19.6 percent respectively. The percentages of Scheduled Castes population in Kaler, Karpi, Sonbhadra Banshi Suryapur, Jehanabad, Ghoshi, Makhdumpur and Hulasganj C.D. Blocks are higher than the district rural average (19,.2%). The percentage of Scheduled Tribes population in Jehanabad district is 0.1 percent.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Castes population to total population	Number of villages	Percentage	Population	Scheduled Castes Percentage
1	2	3	4	5
Nil	94	11.0	0	0.0
Less than 5	42	4.9	1,090	0.4
5-10	117	13.7	17,197	6.4
11-20	268	31.3	95,898	35.6
21-30	194	22.7	94,889	35.2
31-40	86	10.0	40,133	14.9
41-50	28	3.3	12,284	4.6
51-75	19	2.2	5,305	2.0
76 and above	8	0.9	2,778	1.0
District Total	**856**	**100.0**	**269,574**	**100.0**

From the above table it is apparent that there are 268 villages accounting for 31.3 percent of the inhabited villages in the district where the population of Scheduled Castes ranges between 11 and 20 percent of the total population. This is followed by villages where the population of Scheduled Castes ranges between 21 and 30 percent of the total population. These 194 villages account for 22.7 percent of the total inhabited villages. There are 117 villages which account for 13.7 percent of the inhabited villages where the percentage of Scheduled Castes population to total population is between 5 and 10. There are 86 villages which constitute 10.0 percent of the inhabited villages where the percentage of Scheduled Castes population to total population is between 31 and 40. There is no Scheduled Castes population in 94 villages accounting for 11.0 percent of the inhabited villages.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	797	93.1	0	0.0
Less than 5	55	6.4	939	79.8
5-10	2	0.2	70	6.0
11-20	0	0.0	0	0.0
21-30	1	0.1	80	6.8
31-40	0	0.0	0	0.0
41-50	1	0.1	87	7.4
51-75	0	0.0	0	0.0
76 and above	0	0.0	0	0.0
District Total	**856**	**100.0**	**1,176**	**100.0**

As regards the population of the Scheduled Tribes it can be seen from the above table that there are 55 villages which constitute 6.4 percent of the total inhabited villages in the district where the percentage of Scheduled Tribes population to total population is less than 5. There are as many as 797 villages which constitute 93.1 percent of the total inhabited villages in the district which have no Scheduled tribes population . There are only 2 villages which constitute 0.2 percent of the total inhabited villages in the district where the percentage of Scheduled Tribes population to total population is between 5 and 10.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Jehanabad (M)	81,503	10,093	90	12.4	0.1
2	Makhdumpur (NA)	30,109	6,550	47	21.8	0.2
	District(Urban) Total	**111,612**	**16,643**	**137**	**14.9**	**0.1**

Table 18 shows the number and percentage of Scheduled Castes and Scheduled Tribes populations in urban agglomerations/ towns in Jehanabad district. It is 12.4 percent in Jehanabad (M) which is below the district urban average whereas in Makhdumpur (NA) it is 21.8 percent which is higher than district urban average

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C.D. Block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Arwal	944	500
2	Kaler	928	0
3	Karpi	923	778
4	Sonbhadra Banshi Suryapur	948	500
5	Kurtha	933	1000
6	Ratni Faridpur	928	698
7	Jehanabad	920	943
8	Kako	943	1243
9	Modanganj	945	1068
10	Ghoshi	947	866
11	Makhdumpur	944	607
12	Hulasganj	946	944
	District (Rural) Total	**936**	**864**

Table 19 shows that the sex ratio of Scheduled Castes varies from 948 in Sonbhadra Banshi Suryapur C.D. Block to 920 in Jahanabad C.D. Block. The sex ratio figures of Scheduled Castes relating to Arwal, Sonbhadra Banshi Suryapur, Kako, Modanganj, Ghoshi, Makhdumpur and Hulasganj C.D. Blocks are higher than the district average where as the sex ratio figures of Kaler, Karpi, Kurtha, Ratni Faridpur and Jehanabad C.D. Blocks are lower than the district average.

The sex ratio figures of Scheduled Tribes varies from 1243 in Kako C.D. Block to 500 in Arwal and Sonbhadra Bansi Suryapur C.D. Blocks. Sex ratio figures of Scheduled Tribes in Arwal, Karpi, Sonbhadra Banshi Suryapur, Ratni Faridpur and Makhdumpur C.D. Blocks are below the district average. The sex ratio figures of Scheduled Tribes relating to Kurtha, Jehanabad, Kako, Modanganj, Ghoshi and Hulasganj C.D. Blocks are higher than the district average.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Jehanabad (M)	843	698
2	Makhdumpur (NA)	900	880
Sex ratio (Urban) for the district:		**865**	**756**

The table 20 shows that the sex ratio of Scheduled Castes in Jehanabad (M) is 843 which is below the district urban average whereas in Makhdumpur (NA) the sex ratio of Scheduled Castes is 900 which is higher than the district urban average (865)

The sex ratios of Scheduled Tribes in Jehanabad (M) and Makhdumpur (NA) are 698 and 880 where as the district urban average is 765.

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C.D.BLOCKS,2001

	District (Rural) Total:	**610,180**	**403,513**	**206,667**	**792,523**	**322,046**	**470,477**	**54.1**	**69.3**	**37.9**	**31.4**

Table 22 show that among the C.D. Blocks in Jahenabad district, Arwal C.D. Block has the highest proportion of literate population (59.0%) followed by Kaler C.D. Block (58.5%). The literacy rates for Jehanabad, Kurtha, Ghoshi and Makhdumpur C.D. Blocks are 52.9, 52.8, 53.5 and 53.2 percent respectively. Male literates out number female literates in all the C.D. Blocks of Jehanabad district. The highest proportion of male literates is in Arwal C.D. Block with 75.1 percent closely followed by Kaler, Hulasganj, Ratni Faridpur and Karpi C.D. Blocks with 74.1, 70.2, 70.1 and 68.2 percent respectively. Arwal and Kaler C.D. Blocks have the highest female literacy rate with 41.8 percent while Sonbhadra Banshi Suryapur C.D. Block has the lowest literacy rate among the females with 34.0

percent. Male literacy rates for Arwal, Kaler, Ratni Faridpur and Hulasganj C.D. Blocks are higher than the corresponding figures of Jehanabad district (rural). Female literacy rates for Arwal, Kaler, Ghoshi and Hulasganj C.D. Blocks are higher than the district (rural) average. Table 21 deads with the same topic but only difference is that it deads with the total population of the district.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	1	0.1	35	0.0
1-10	5	0.6	1,264	0.1
11-20	7	0.8	3,446	0.2
21-30	22	2.6	12,884	0.9
31-40	78	9.1	68,758	4.9
41-50	209	24.4	362,981	25.9
51-60	316	36.9	609,532	43.5
61-70	169	19.7	309,320	22.1
71-80	43	5.0	32,502	2.3
81-90	5	0.6	1,834	0.1
91-99	1	0.1	147	0.0
100	0	0.0	0	0.0
District Total:	**856**	**100.0**	**1,402,703**	**100.0**
Literacy rate for District:		**55.3**		

The above table shows that in 36.9 percent of the inhabited villages the literacy rate ranges between 51 and 60 percent. In these 316 villages 43.5 percent of the district rural population live. This is the largest group of villages in the district. This is followed by 209 villages with 25.9 percent of the district rural population constitutes. 24.4 percent of the inhabited villages where literacy rate ranges between 41 and 50 percent. 19.7 percent of the inhabited villages i.e. 169 villages are such where literacy rate ranges between 61 and 70 percent. These villages account for 22.1 percent of the district rural population. 9.1 percent of the inhabited villages i.e. 78 villages are such where literacy rate ranges between 31 and 40 percent and these villages account for 4.9 percent of the district rural population. 5.0 percent of the inhabited villages i.e. 43 villages are such where literacy rate ranges between 71 and 80 percent. These villages account for 2.3 percent of the district rural population. There are 22 villages accounting for 2.6 percent of the inhabited villages where literacy rate ranges between 21 and 30 percent and these villages account for only 0.9 percent of the district rural population.

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name and urban status / Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Jehanabad (M)	49,773	29,955	19,818	31,730	13,792	17,938	73.5	82.2	63.3	19.0
2	Makhdumpur (NA)	14,162	8,943	5,219	15,947	6,697	9,250	58.2	70.8	44.7	26.2
	District(Urban) Total	**63,935**	**38,898**	**25,037**	**47,677**	**20,489**	**27,188**	**69.4**	**79.3**	**58.2**	**21.1**

The above table shows that in Jehanabad (M) the literacy rate is 73.5 percent while in Makhdumpur (NA) the literacy rate is 58.2 percent. Male literates greatly out number female literates in both the towns of Jehanabad district.

TABLE 25: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001

61-70	23	3.0	3,639	1.3

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001 (*Concld*.)

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
71-80	7	0.9	667	0.2
81-90	3	0.4	120	0.0
91-99	0	0.0	0	0.0
100	1	0.1	6	0.0
District Total:	**762**	**100.0**	**269,574**	**100.0**
Literacy rate for District (Rural):		**32.2**		

The above table 26 shows that in case of literacy among the Scheduled Castes in the villages of the district the highest number of villages i.e. 26.0 percent fall in the literacy range of 21 - 30 percent whereas the lowest number of villages i.e. 0.1 percent fall in the literacy range of 100.0 percent. It is observed that of the total villages in the district 15.6 percent villages are such which fall in the literacy range of 41-50 percent among the Scheduled Castes in the villages of the district.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates									Gap in male-female literacy rate
		Number of literates			Number of illiterates			Percentage of literates			
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Jehanabad (M)	3,764	2,609	1,155	6,329	2,867	3,462	46.8	59.5	31.6	27.9
2	Makhdumpur (NA)	1,231	874	357	5,319	2,573	2,746	24.1	32.2	14.9	17.3
	Jehanabad (Urban)	**4,995**	**3,483**	**1,512**	**11,648**	**5,440**	**6,208**	**38.0**	**49.1**	**25.0**	**24.0**

The above table shows that the literacy rate among the Scheduled Castes in the urban areas of the district is 38.0 percent of the total population, 49.1 percent in case of males and 25.0 percent in case of females. The literacy rate among the Scheduled Castes in Jehanabad (M) is 46.8 percent in case of total population, 59.5 percent in case of males and 31.6 percent in case of females. The literacy rate among the Scheduled Castes in Makhdumpur (NA) is 24.1 percent in case of total population 32.2 percent in case of males and 14.9 percent in case of females.

TABLE 28 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001

Serial number	Name of C.D.Block	Number of literates and illiterates									Gap in male-female literacy rate
		Number of literates			Number of illiterates			Percentage of literates			
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Arwal	30	28	2	78	44	34	31.6	43.8	6.5	37.3

8	Kako	17	12	5	214	91	123	9.0	15.2	4.5	10.6
9	Modanganj	3	1	2	119	58	61	3.1	2.3	3.8	-1.6
10	Ghoshi	18	17	1	107	50	57	18.8	32.7	2.3	30.4
11	Makhdumpur	31	28	3	59	28	31	43.7	68.3	10.0	58.3
12	Hulasganj	10	10	0	25	8	17	38.5	66.7	0.0	66.7
	District (Rural) Total:	**268**	**211**	**57**	**908**	**420**	**488**	**28.0**	**41.5**	**12.7**	**28.7**

The above table 28 shows that among the Scheduled Tribes the percentage of literates is highest i.e. 100.0 percent in Kaler C.D. Block where as it is lowest i.e. 3.1 percent in Modanganj C.D. Block in the district. It is to be noted that there is only one person who is literate in Kaler C.D. block,so, the literacy rate of 100 %. It is observed that the literacy rate among the Scheduled Tribes for the district is 28.0 percent. As regards male literacy rate among the Scheduled Tribes it is highest in Kaler C.D. Block with 100.0 percent where as it is lowest in Modanganj C.D. block with 2.3 percent. In case of female literacy rate among the Scheduled Tribes it is highest in Ratni Faridpur C.D. block with 37.0 percent.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	14	23.7	162	13.8
1-10	7	11.9	315	26.8
11-20	6	10.2	153	13.0
21-30	3	5.1	126	10.7
31-40	5	8.5	84	7.1
41-50	5	8.5	127	10.8
51-60	2	3.4	69	5.9
61-70	1	1.7	9	0.8
71-80	1	1.7	11	0.9
81-90	1	1.7	80	6.8
91-99	0	0.0	0	0.0
100	14	23.7	40	3.4
District Total:	**59**	**100.0**	**1,176**	**100.0**
Literacy rate for District (Rural):		**28.0**		

The table 29 shows that literacy rate among the Scheduled tribes in the villages of the district Jehanabad the highest number of villages i.e. 23.7 percent fall in the literacy range of 0 and 100 percent whereas the lowest number of villages i.e. 1.7 percent fall in the literacy range of 61-70, 71-80 and 81.90 percent according to 2001 Census.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Jehanabad (M)	63	41	22	27	12	15	86.3	91.1	78.6	12.5
2	Makhdumpur (NA)	15	12	3	32	13	19	40.5	60	17.6	42.4
	Jehanabad (Urban)	**78**	**53**	**25**	**59**	**25**	**34**	**70.9**	**81.5**	**55.6**	**26**

The above table shows that the literacy rate among the Scheduled Tribes in Jehanabad (M) is 86.3 percent, whereas for Makhdumpur (NA) it is 40.5 percent. The literacy rates among the male Scheduled Tribes for Jehanabad (M) and Makhdumpur (NA) are 91.1 and 60.0 percent respectively. Male literates greatly out number female literates in Jehanabad (M) and Makhdumpur (NA).

TABLE 31: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN C.D.BLOCKS, 2001

The work participation rate for total workers is defined as the percentage of total workers to total population. In a similar way it is defined for main and marginal workers. The work participation rate (WPR) in the district is 28.2 percent as main workers and 10.8 percent as marginal workers. The proportion of non workers in the district is 61.0 percent.Among the main workers male work participation rate in the district is 41.3 percent while that of females is only 14.3 percent as per 2001 Census,. The proportion of main workers is highest (31.5%) in Jehanabad C.D. Block and the lowest (24.9%) in Arwal C.D. Block. Out of 12 C.D. Blocks WPR of 7 C.D. Blocks are above the district average. The proportion of marginal workers is highest (13.7%) in Hulasganj and the lowest (9.0%) in Kurtha and Makhdumpur C.D. Blocks. The proportion of total workers is highest (43.7%) in Jehanabad C.D. block and lowest (35.4%) in Kaler C.D. Block.

Among the non workers male WPR in the district is 51.5 percent, while that of female is 71.1 percent as per 2001 Census. Table 31 deads with number of persons which includes with the rural and urban population whereas table 32 deads with only rural population.

TABLE 33: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name and urban status of Town	Persons / Males / Females	Total Population	Main worker		Marginal worker		Total workers (Main and marginal Workers)		Non workers	
				Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
1	2	3	4	5	6	7	8	9	10	11	12
1	Jehanabad (M)	Persons	81,503	18,487	22.7	3,584	4.4	22,071	27.1	59,432	72.9
		Males	43,747	15,798	36.1	2,222	5.1	18,020	41.2	25,727	58.8
		Females	37,756	2,689	7.1	1,362	3.6	4,051	10.7	33,705	89.3
2	Makhdumpur (NA)	Persons	30,109	8,133	27	3,065	10.2	11,198	37.2	18,911	62.8
		Males	15,640	6,287	40.2	1,179	7.5	7,466	47.7	8,174	52.3
		Females	14,469	1,846	12.8	1,886	13.0	3,732	25.8	10,737	74.2
	District (Urban)										
	Total:	**Persons**	**111,612**	**26,620**	**23.9**	**6,649**	**6.0**	**33,269**	**29.8**	**78,343**	**70.2**
		Males	**59,387**	**22,085**	**37.2**	**3,401**	**5.7**	**25,486**	**42.9**	**33,901**	**57.1**
		Females	**52,225**	**4,535**	**8.7**	**3,248**	**6.2**	**7,783**	**14.9**	**44,442**	**85.1**

The above table 33 shows that work participation rate for Jehanabad (M) recorded is 22.7 percent of the total population and for Makhdumpur (NA) it is 27.0 percent of the total participation as main workers. The proportion of Marginal workers in Jehanabad (M) and Makhdumpur (NA) are 4.4 and 10.2 percent respectively. The proportion of non workers for Jehanabad (M) and Makhdumpur (NA) are 72.9 and 62.8 percent respectively.

Note: Percent of Worker to total workerre given in brackets

From the table 34, the relative importance of the main spheres of economic activity may be gauged from the pattern of distribution of main workers according to the broad four fold classification namely, cultivators, agricultural labourers, household industry workers and other workers. The economic activity in the rural and urban areas in the district is primarily dependent on agriculture which is supported by the fact that the cultivators (35.7%) and agricultural labourers (44.7%) together constitute 80.4 percent of the total workers of the district. The agricultural sector has absorbed more than three fourth of the total main workers. The proportion of cultivators varies between 44.3 percent for Hulasganj C.D. Block to 28.7 percent for Arwal C.D. Block. The proportion of Agricultural labourers varies between 52.4 percent in Kaler C.D. Block to 37.7 percent in Jehanabad C.D. Block. The proportion of household industry workers is only 3.7 percent of the total workers of the district. The proportion of household industry workers varies between 5.5 percent is Arwal C.D. block to 2.6 percent in Modanganj C.D. Block. The proportion of other workers is 15.9 percent of the total workers of the district. The proportion of other workers varies between 28.0 percent in Jehanabad C.D. Block to 11.1 percent in Sonbhadra Banshi Suryapur C.D. Block. Table 35 deals with the same topic but only difference is that it deals with the rural population of the district.

TABLE 36: DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS / TOWNS, 2001

			(14.9)	**(18.2)**	**(33.3)**	**(10.4)**	**(38.2)**	

Note : Percentage of workers to total workers are given in brackets

There is no urban agglomeration in Jehanabad district. There are two statutory towns in the district i.e. Jehanabad (M) and Makhdumpur (NA). From the above table, the relative importance of the main spheres of economic activity may be gauged from the pattern of distribution of main workers according to the broad four fold classification namely, cultivators, agricultural labourers, household industry workers and other economic activities. The cultivators constitute 9.3 and 26.7 percent of the total workers of Jehanabad (M) and Makhdumpur (NA) respectively. The Agrcultural labourers constitute 16.1 and 27.5 percent of the total workers of Jehanabad (M) and Makhdumpur (NA) respectively whereas household industry workers constitute 6.0 and 4.2 percent of the total workers of Jehanabad (M) and Makhdumpur (NA) respectively. In case of other workers in Jehanabad (M) and Makhdumpur (NA) it constitute 68.5 and 41.6 percent of the total workers respectively.

(b) Brief analysis of the Village Directory and Town Directory data based on inset tables 37 to 47:

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table gives the distribution of villages according to the availability of different amenities in the district.

Educational facility:- There are as many as 681 villages accounting for 79.6 percent of the total number of inhabited villages (856) in the district where educational facility is available. The highest proportion of villages with educational facility is in Hulasganj C.D. Block with 85.4 percent, closely followed by Kaler C.D. block with 84.7 percent. The smallest proportion of villages with educational facility is observed is Ratni Faridpur C.D. Block with 71.3 percent.

Medical facility:- The availability of medical

facility in the villages is quite low and only 14.4 percent villages have got it. Among the C.D. Blocks, Kaler has the largest proportion of villages with medical facility, the percentage being 25.4 percent. It is followed by Arwal and Makhdumpur C.D. Blocks with 23.9 and 17.4 percent respectively. Ratni Faridpur C.D. Block, on the other hand, has the minimum proportion of villages (4.6%) where medical facility is available.

Improved drinking water:- There are as many as 850 village, accounting for 99.3 percent of the total inhabited villages in the district where improved drinking water facility is available. Among the C.D. Blocks, Arwal, Kaler, Kurtha, Jehanabad, Kako, Ghosi, Makhdumpur and Hulasanj have 100.0 percent proportion of villages where improved drinking water facility is available. Sonbhadra Banshi C.D. Block, on the other hand has lowest proportion of villages (97.4%) where ;improved drinking water facility is available.

Post Office:- Postal facilities are available in 185 villages out of 856 inhabited villages (21.6%) in the district. Makhdumpur C.D. Block has the maximum number of villages having postal facility (29.4%) whereas Kako C.D. Block the minimum number of villages having postal facility (14.0%).

Telephone:- The availability of telephone facility in the villages is quite low and only 7.1 percent have got it. Among the C.D. Blocks, Kurtha C.D. Block has the maximum number of villages having telephone facility (12.1%) while Sonbhadra Banshi C.D. Block has the minimum number of villages having telephone facility (2.6%).

Transport communications:- Transport communication facilities are available in 81 (9.5%) villages. out of 856 inhabited villages in the district. Kako C.D. block has the highest proportion of villages (17.2%) which are connected by bus rail or navigable water ways services. The villages of Sonbhadra Banshi and Ratni C.D. Blocks still do not hve any transport communication facility.

Bank:- Banking facility is available only in 44 (5.1%) villages out of 856 inhabited village in the district. Among the C.D. Blocks, Kaler C.D. Block has the maximum number of villages having banking facility (8.5%) where as Jehanabad C.D. Block has the minimum number of villages having banking facility (2.0%).

Agricultural Credit Societies:- Agricultural Credit Societies are available only in 64 (7.5%) villages out of 856 inhabited villages in the district. Among the C.D. Blocks, Karpi C.D. Block has the maximum number of villages having agricultural credit societies (15.3%) while the villages of Kurtha, Makhdumpur and Ratni Faridpur C.D. Blocks have 0.0, 0.9 and 1.1 percent respectively.

Approach by pucca road:- This facility is available in 312 (36.4%) villages out of 856 inhabited village in the district. Modanganj C.D. Block has the maximum number of villages having pucca approach road (54.7%) while Sonbhadra Banshi C.D. Block has the minimum number of villages having pucca road approach (7.7%)

Power supply:- Electrified villages in the district constitute 25.6 percent of the total number of inhabited villages. Among the C.D. Blocks, Modanganj C.D. block has the maximum number of electrified villages with 69.8 percent. The villages of Kaler, Sonbhadra Banshi and Ratni Faridpur C.D. Blocks still do not have power supply.

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

It would be seen from table no. 38 that educational facility is available to 93.0 percent of the rural population of the district. The proportion varies between the maximum of 95.8 percent in Kaler C.D. Block and the minimum of 86.6 percent in Modanganj C.D. Block. It may be of interest to note that the proportion of villages in the district enjoying educational facility is less (being 79.6 percent vide Table – 37) than the proportion of population which is as high as 93.0 percent. This may be attributed to the fact that villages which possess educational facility usually have larger population as compared to those villages which do not have this facility at all.

In the case of medical facility also it can be seen that the proportion of rural population served by this amenity is of the order of 27.3 percent which is more than the proportion of villages served by medical facility in the district.

But in the case of improved drinking water facility it may be observed that proportion of rural population served by the amenity is of the order of 99.3 percent which is equal to the proportion of villages served by this facility in the district.

Similar trend can be observed in respect of other amenities also both in the district as also in its various C.D. Blocks.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2-4)
1	2	3	4	5
1. Education :-				
(a) Primary School	170	14	0	184
(b) Middle School	574	93	14	681
(c) Degree College	130	232	483	845
2. Medical:-				
(a) Hospital	278	274	285	837
(b) PHC	260	390	185	835
3. Post Office	602	58	13	673
4. Telephone	360	275	160	795
5. Bus Service	392	268	120	780
6. Banks				
(a) Commercial Bank	470	240	103	813
(b) Co-operative Bank	85	305	462	852
7. Agricultural Credit Societies	367	247	178	792

As regards educational facility it would be seen that there are 184 (21.5%) villages in the Jehanabad district which do not have any primary school but the facility is available at places situated within 5 kms. for 170 villages and 14 villages within the range of 5-10 kms.

There are as many as 681 (79.6%) villages in the district which do not have middle school. Out of 681 villages 574 villages, have this facility at places situated within 5 kms., 93 villages have this facility at a distance range of 5-10 kms. and only 14 villages at places beyond 10 kms. There are 845 (98.7%) villages in the district which are deprived of colleges. Out of 845 villages, 130 villages enjoy this facility at places situated within 5 kms., 232 villages enjoy this facility at a distance range of 5-10 kms. and as many as 483 villages enjoy this facility at places beyond 10 kms.

There are 837 (97.8%) villages in the district which are without the facility of hospital and as many as 285 villages enjoy this facility at a distance range of 10+ kms. The number of villages enjoying this facility at a distance range of 5-10 kms. is 274. There are 835 (97.5%) villages in the district which do not have primary health centre.Similar trend can be observed in respect of other amenities in the district.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometre)	Number of inhabited village in each range	Type of amenity available							
		Education	Medical	Post Office #	Tele-phone	Transport communi-cation $	Banks	Agri-cultural Credit Societies	Approach by pucca road
1	2	3	4	5	6	7	8	9	10
less than 5	33	27	4	6	5	5	3	2	14
	(100.0)	(81.8)	(12.1)	(18.2)	(15.2)	(15.2)	(9.1)	(6.1)	(42.4)
5 -15	340	275	53	77	27	47	20	24	119
	(100.0)	(80.9)	(15.6)	(22.6)	(7.9)	(13.8)	(5.9)	(7.1)	(35.0)
16 - 50	473	370	65	99	26	29	21	37	177
	(100.0)	(78.2)	(13.7)	(20.9)	(5.5)	(6.1)	(4.4)	(7.8)	(37.4)

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001 (*Concld.*)

Distance range from the nearest statutory town (in kilometre)	Number of inhabited village in each range	Type of amenity available							
		Education	Medical	Post Office #	Tele-phone	Transport communi-cation $	Banks	Agri-cultural Credit Societies	Approach by pucca road
1	2	3	4	5	6	7	8	9	10
51+	10	9	1	3	3	0	0	1	2
	(100.0)	(90.0)	(10.0)	(30.0)	(30.0)	(0.0)	(0.0)	(10.0)	(20.0)
Unspecified	0	0	0	0	0	0	0	0	0

District Total	**856**	**681**	**123**	**185**	**61**	**81**	**44**	**64**	**312**
	(100.0)	**(79.6)**	**(14.4)**	**(21.6)**	**(7.1)**	**(9.5)**	**(5.1)**	**(7.5)**	**(36.4)**

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

It would appear from the above table that maximum number of inhabited villages (55.3%) lie in the distance range of 16-50 kms. From the nearest statutory town. This is followed by villages in the distance range of 5-15 kms. from the nearest statutory town with 39.7 percent. There are 10 villages in the distance range of more than 51 kms.

It is observed from the above table that the proportion of villages having educational facility is 81.8 percent for those situated in the distance range of less than 5 kms. from the nearest statutory town and decreases to 80.0 percent in the distance range of 5-15 kms. It again decreases to 78.2 percent in the distance range of 16-50 kms. from the nearest statutory town. In the case of other amenities also more or less the trend is same.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Population range	Number of inhabited village in each range	Type of amenity available									
		Education	Medical	Improved drinking water *	Post Office #	Tele-phone	Transport communi-cation $	Banks	Agri-cultural Credit Societies	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10	11	12

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

It can be seen from the table -41 that the maximum number of villages, i.e. 269 (31.4%) in the district fall in the population range of 1000-1999 followed by 204 (23.8%) villages having a population range of 500-999. The lowest number of villages is observed in the population range of 10,000 + being only 5 (0.6%).

The proportion of villages having different amenities varies in direct relation to their population range. Generally the maximum percentage of villages having different amenities have population range of 5000-9999 and 10000+ which further corroborates the fact that more facilities are generally available in larger villages than in smaller ones.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. Block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Arwal	67	11,959	84.3	96.0
2	Kaler	59	14,075	87.2	86.9
3	Karpi	85	19,405	90.9	81.7
4	Sonbhadra Banshi Suryapur	39	8,828	90.6	81.7
5	Kurtha	66	8,807	83.1	85.0
6	Ratni Faridpur	87	12,214	85.1	86.8
7	Jehanabad	100	13,982	92.9	73.0
8	Kako	93	13,133	73.9	93.8
9	Modanganj	53	7,968	86.6	85.0
10	Ghoshi	50	9,205	85.1	89.0
11	Makhdumpur	109	21,765	79.2	83.7
12	Hulasganj	48	9,710	81.2	81.9
	District Total:	**856**	**151,051**	**84.9**	**84.9**

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 gives the percentage of cultivable area as also the proportion of irrigated area to total cultivable area in the district and its various C.D. Blocks.

It would be seen from the table that 84.9 percent of the total area of the district is utilized for cultivation(cultivable area) and of this the same 84.9 percent area is found to be irrigated. Among the C.D. Blocks, the highest percentage of cultivable area is found in Jehanabad C.D. Block with 92.9 percent closely followed by Karpi and Sonbhadra Banshi Suryapur C.D. Blocks with 90.9 and 90.6 percent respectively. The lowest cultivable area is found in Kako C.D. block which is 73.9 percent.

The highest proportion of irrigated area (96.0%) to total cultivable area is found in Arwal C.D. Block followed by Kako and Ghoshi C.D. Blocks with 93.8 and 89.0 percent respectively. The least proportion of irrigated area is found in Jehanabad C.D. Block with 73.0 percent.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class,name &urban status of the town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	II Jehanabad (M)	7.6	1.5	6.1	2.6	2.2	0.2	0.0	0.0	0.2
2	III Makhdumpur (NA)	1.7	0.0	1.7	1.8	0.3	0.3	1.2	0.0	0.0
	District Total	**6.0**	**1.1**	**4.9**	**2.4**	**1.7**	**0.2**	**0.3**	**0.0**	**0.2**

The above table gives the details of finances in the statutory towns in terms of per capita receipt and expenditure. There are only two statutory towns in the district i.e. Jehanabad (M) and Makhdumpur (NA). On going into the details of receipt under different heads it can be seen that the receipt from all other sources is 6.1 and per capita receipt through taxes is 1.5 in case of Jehanabad (M), while in Makhdumpur (NA) the receipt from all other sources is 1.7 and per capita receipt through taxes is negligible. The per capita expenditure incurred on General Administration is higher than the per capita expenditure on public health and conveniences in Jehanabad (M), whereas in case of Makhdumpur (NA) the per capita expenditure incurred on public works is higher than the per capita expenditure on General Administration and public health and conveniences. Per capita total receipt is higher than the per capita total expenditure in Jehanabad (M) and per capita total receipt is lower than the per capita total expenditure in Makhdumpur (NA).

TABLE 44 : SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Jehanabad (M)	2.2	1.0	0.5	0.1	0.4
2	Makhdumpur (NA)	2.0	1.3	0.7	0.0	0.3
	District Total	**2.2**	**1.1**	**0.5**	**0.1**	**0.4**

The above table gives the details of different categories of educational institutions per ten thousand population in the towns of the district. It would be seen from the above table that institutions like Primary, Junior Secondary Middle and Secondary matriculation schools are situated in Jehanabad (M) accounting for an average of 2.2, 1.0 and 0.5 institutions per ten thousand population respectively. Senior Secondary and College account for an average of ;0.1 and 0.4 institution per ten thousand population in Jehanabad (M). Institutions like Primary, Junior Secondary/ Middle, Secondary/ Matriculation and College are situated in Makhdumpur (NA) accounting for an average of 2.0 , 1.3, 0.7 and 0.3 institution per ten thousand population respectively. In Makhdumpur (NA) there is no Senior Secondary School.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Jehanabad(M)	6
2	Makhdumpur(NA)	10
	Distrct Total	**7**

The above table furnishes information regarding availability of beds in medical institutions in the towns of Jehanabad district. The number of beds in medical institutions per ten thousand population for Jehanabad (M) and Makhdumpur (NA) are 6 and 10 respectively according to 2001 Census.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Jehanabad	81,503	8,430	10.3
2	Makhdumpur	30,109	4,915	16.3
	District Total	**111,612**	**13,345**	**12**

The above table gives details regarding slums in the towns in Jehanabad district. There are two statutory towns i.e. Jehanabad (M) and Makhdumpur (NA). The proportion of slum population to total population in Jehanabad (M) and Makhdumpur (NA) are 10.3 and 16.3 percent respectively according to 2001 Census.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Jehanabad (M)	Biri	Khesari, Wheat Paddy
2	Makhdumpur (NA)	Biri	Agarbatti, Khesari, RIce

Table 47 presents the most important commodities manufactured in the towns and exported out of Jehanabad (M) and Makhdumpur (NA). It would be seen from the above table that Biri is manufactured in the town and three items viz., Khesari, wheat and paddy are exported from Jehanabad (M) whereas in Makhdumpur (NA), Biri is manufactured in the town and Agarbatti, khesari and Rice are exported.

(c) Brief analysis of the data on houses and household amenities (Houselisting Operations, Census of India 2001) based on inset tables 48 to 52 :

TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

Tenure status	Number of dwelling rooms	Number of households								
		Total			Scheduled Castes			Scheduled Tribes		
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban

	3+ rooms	294	250	44	35	33	2	2	0	2
	Median number of rooms	2	2	2	1	1	2	2	2	3
	District total	**237,539**	**221,069**	**16,470**	**54,798**	**51,465**	**3,333**	**1,299**	**1,238**	**61**

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

It would be seen from the above table that there are as many as 232393 households accounting for 97.8 percent of the total households of the district dwelling in owned houses. The proportion of households dwelling in 3+ rooms is the highest (37.7%) where as it is the lowest (0.6%) dwelling in no exclusive room. The median number of rooms is 3 for the total households in the tenure status of owned category.

There are 54068 Scheduled Castes households accounting for 23.3 percent of the total households dwelling in owned houses and median number of rooms is 2. There are 1245 Scheduled tribes households accounting for only 0.5 percent of the total households dwelling in owned houses and the median number of rooms is 2.

There are 3864 households accounting for 1.6 percent of the total households of the district dwelling in rented houses. The proportion of households dwelling in two room in the highest (35.4%) whereas it is the lowest (.0.8%) dwelling in no exclusive room. There are 419 Scheduled Castes households accounting for 10.8 percent of the total household dwelling in rented houses and the median number of rooms is 1. There are 42 scheduled tribes households accounting for 1.1 percent of the total households dwelling in rented houses. The median number of rooms is 2.

Similar trend can be observed in respect of households dwelling in the tenure status of others.

TABLE 49: PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	District/ C.D.Block	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary
1	2	3	4	5	6	7	8	9	10	11
1	Arwal	50.4	37.2	12.3	50.4	37.2	12.3	0.0	0.0	0.0

9	Modanganj	47.4	33.9	18.7	47.4	33.9	18.7	0.0	0.0	0.0
10	Ghoshi	47.3	38.0	14.7	47.3	38.0	14.7	0.0	0.0	0.0
11	Makhdumpur	45.3	37.0	17.7	40.5	40.0	19.4	73.3	19.3	
12	Hulasganj	49.8	28.4	21.8	49.8	28.4	21.8	0.0	0.0	0.0
	District Total:	**46.5**	**36.4**	**17.1**	**44.1**	**38.0**	**17.9**	**79.9**	**14.8**	**5.2**

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note : 1. Permanent : Permanent houses refers to those houses whose wall & roof are made of pucca materials i.e. where burnt bricks, G.I. Sheets or other metal sheets, stone, cement, concrete is used for wall and tiles, slate, shingle, corrugated iron, zinc or other metal sheets, asbestos sheets, bricks, lime and stone and RBC/RCC concrete are used for roof.

2. Semi permanent : Semi-permanent houses refer to those houses made of other types of materials.

3. Temporary : Temporary houses refers to those houses having wall and roof made of Kutcha materials i.e. where grass, leaves, reeds, bamboo, mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

It would be seen from the above table that of the total rural households maximum proportion of households i.e. 44.1 percent live in permanent houses followed by 38.0 percent living in semi permanent houses and 17.9 percent living in temporary houses.

In the case of urban households in the district, the maximum proportion of households i.e. 79.9 percent live in permanent houses followed by 14.8 percent in semi permanent houses and only 5.2 percent in temporary houses.

Among the C.D. Blocks in Jehanabad district, Arwal has the maximum proportion of rural households living in permanent houses (50.4%) followed by Hulasganj (49.8%) and Kako (49.2%). Sonbhadra Banshi Suryapur C.D. Block has the minimum proportion of households living in permanent houses with 29.9 percent. In case of semi permanent houses, Sonbhadra Banshi Suryapur C.D. Block has the maximum proportion of households living in semi permanent houses (49.0%) followed by Kaler C.D. Block (43.1%). Hulasganj C.D. Block has the minimum proportion of households living in semi permanent houses with 28.4 percent. In case of temporary houses, Karpi C.D. block has the maximum proportion of households (25.3%) followed by Hulasganj C.D. blolck (21.8%). Arwal C.D. block has the minimum proportion of households having temporary houses with 12.3 percent

Data source : Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

*Based on the improved drinking water source, drinking water supply has been classified as'Improved'or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/ tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note : Percentage is given in brackets below the number of households.

Bathroom means bathroom within the house.

Toilet means toilet within the house.

Drainage means closed and open drainage.

There are as many as 165311 households i.e. 74.8 percent of the rural households of the district have improved drinking water facility. The highest proportion of households with improved drinking water facility can be observed in Sonbhadra Banshi Suryapur C.D. Blolck with 88.7 percent and the lowest proportion of households is in Modanganj C.D. Block with 55.0 percent. As regards electricity it is found that only 1.5 perent of the rural households in the district have electricity. The highest proportion of households with elecrtircity is in Makhdumpur C.D.Block with 3.1 percent whereas it is lowest in Kaler and Sonbhadra Banshi Suyapur with 0.3 percent. Only 9.9 percent of the total rural households in the district have bathroom facility. The highest proportion of households having bathroom facility is in Ratni Faridpur C.D.Block with 12.7 percent where as it is lowest in Arwal C.D.Block with 6.0 percent..

Only 23.4 percent of the rural households in the district have toilet facility. The highest proportion of households having toilet facility is in Kako C.D. Block with 27.5 percent whereas it is lowest in Sonbhadra Banshi Suryapur C.D. block with 18.6 percent.

Regarding drainage 75.5 percent of the rural households in the district have this facility. The highest proportion of households having drainage facility is in Kaler C.D. Block with 83.8 percent whereas it is lowest in Hulsaganj C.D. block with 69.6 percent

Percentage in brackets

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

It would be seen from the above table that there are 15093 households i.e. 6.8 percent of the rural households in the district use fire wood as fuel for cooking. The highest proportion of households using firewood as fuel for cooking is in Kaler C.D. Block (9.9%) whereas lowest proportion of rural households is in Kurtha C.D. Block with 4.8 percent.

There are as many as 26834 households i.e. 12.1 percent of the rural households of the district use crop residue as fuel for cooking. Among the C.D. blocks, the proportion of rural households is highest (17.8%) in Sonbhadra Banshi Suryapur C. D. Block and the lowest (6.9%) in Kako C.D. Block.

There are 168481 households i.e. 76.2 percent of the rural households of the district use cow dung cake as fuel for cooking. Among the C.D. blocks, Kako has the highest proportion of households (81.3%) using cowdung cake as fuel for cooking and Ghoshi has the lowest proportion of households using cowdung cake as fuel with 71.7 percent. Similar trend can be observed in respect of other types of fuel.

Data source : Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

It would be seen from the above table that there are 47056 households accounting for 21.3 percent of the rural households in the district availing banking services. The highest proportion (29.2 %)of households can be observed in Hulasganj C.D. Block availing banking services and the lowest proportion of households is in Kako C.D. Block (17.0%).

There are as many as 68410 households accounting for 30.9 percent of the rural households possessing radio/ transistor. Among the C.D. Blocks, Sonbhadra Banshi Suryapur has the highest proportion (36.2%) of households possessing radio/ transistor and Ghoshi has the lowest proportion of households with 27.6 percent.

As regards Television there are 11676 households accounting for 5.3 percent of the rural households of the district possessing television. Among the C.D. blocks, Arwal has the highest proportion (9.1) of households possessing television and Sonbhadra Banshi Suryapur has the lowest proportion of households with 2.5 percent. As regards telephone there are 1943 households accounting for 0.9 percent of the rural households of the district availing telephone services. Among C.D. Blocks, the highest

Among the C.D.Blocks Kako, Modanganj and Ghoshi have availing only 1.2 percent telephone services, whereas it is lowest in Sonbhadra Banshi Suryapur C. D. Block with 0.4 percent.

Similar trend can be observed in respect of other specified assets also both in the district as also in its development blocks.

(viii) Major social and cultural events, naturaland administrative developments and significant activities during the decade

Right from its inception or even prior to that, district earned notoriety of being worst hit by cult of violence. There is a long drawn dispute between landed gently and landless labourers.

(ix) Brief description of places of religious, historical and archaeological importance in villages and places of tourist interest in the towns of the district

Anand Garh Palace

It is situated at about 5 kms. away in south-west from Karpi, the C.D. Block headquarters. The palace is known for its panoramic surroundings, elegant gardens and beautiful tanks. The buildings and embellishments are fine specimen of modern architecture and sculpture. Bhelawar

Known for ancient temples of Lord Shiva, Bhelawar village is situated in Kako C.D. Block at about 11 kms. South-west of Jehanabad railway station. The remains of the stone gates of the temple compound can be seen at the outskirts of the village. Sculptures of Hindu and Muslim periods have been found here. Every year a large fair is held on the eve of Shivaratri. On excavation, some coins and earthenware were found here.

Bhaikh

Bhaikh village is at a distance of about 11 kms. from Makhdumpur, the C.D. Block headquarters. It has a hillock of Barbar hills and is known as Sidheshwar Nath, as on its summit there is a divine emblem of Lord Shiva. The hill contains two caves, Karanchaupar and Sudama, attributed to emperor Ashok. The third one is believed to be abode of Lomash Rishi and is known after him as Limash Rishi Cave.

Ghejan

Under Kurtha C.D. Block, Ghejan is an ancient village situated about 19 kms. South- east of Jehanabad (M). It contains an old fortress where stone images of Lord Buddha and other images of Gupta period were excavated. These images are preserved at Patna Museum.

Kako

Kako village is the headquarters of Kako C.D. Block and is 10 Kms. East of Jehanabad Rly. Station on the Jehanabad Biharsharif Road. As per local legend, Kaikeyi, the step mother of Lord Ramchandra lived here for some time and the village owes its name from her. The village has a tomb of Hazrat Bibi Kamal Sahiba, a great lady Muslim lady saint. It is believed that this lady was the aunt of Hazrat Makhdum Saheb of Biharsharif.

Manikpur

Manikpur is situated nearly 6 kms. South of Kurtha. Cattle fair are held here on the occasions of Ramnavami and Ganga Dussehra, which lasts for a week on each occasion.

Sarea

The village is under Kurtha C.D. Block. It has a brick-built temple. The holy emblem of Lord Shiva is believed to have been enshrined in it by Pandavas. According to a local regend the Pandavas, on conclusion of Mahabharat battle, came down to this place to offer pindas to their kinsmen killed in the epic battle.

Ghosi

The village is headquarter of the C.D. Block of same name. It is situated at a distance of 16 kms. from Jehanabad Court railway station on the Patna Gaya branch line. The village has a big earthen mound known as Chandra-diha. As local tradition avers, the palace of a Hindu king, Chandrasena lies buried below the mound.

Keur

It is under Ghosi C.D. block at a distance of nearly 22 kms. south of Ghosi. The village has the ruins of a brick-building spread over a large area. According to some people it is the ruins of the old Vikramshila University. Only excavations can throw light about the fact.

(x) Scope of Village Directory and Town Directory - column headingwise explanation and coverage of data

The District Census Handbooks are the only publication which furnish information down to the village level in case of rural areas and by the level of towns/wards (circles) in case of urban areas. This facilitates research scholars and academicians to analyse data upto the lowest administrative unit. It is of vital importance for the planners also since it offers micro-level data and thus enable them to identify the areas undeveloped in terms of infrastructure and channelise efforts and inputs accordingly so that optimum utilization of the resources could be made.

The present series of the DCHB in 2001 Census have been made more informative and exhaustive in terms of coverage and content. The content of village directory has been broadened by including more types of facilities such as bank, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village, wherever possible are provided. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of primary and middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), drinking water, Post Office and phone, communication, bank, credit societies and recreational facilities. In town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against only Class I and Class II towns of the 1981 and 1991 Censuses are provided. With reference to the town concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements.

Village and Town Directories included in the District Census Handbook give the list of villages and towns, their areas, population and amenities.

The details of each column of village directory are explained as below :

Column-1

Serial number of the village is indicated in this column.

Column-2

Gives the name of the village and permanent location code number (PLCN) assigned to each village in serpentine manner from north-west to south direction and is essential for identification of village. The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tehsil of first district of the state to the last village of last tehsil of the last district. In the state of Bihar first PLCN 00000100 has been assigned to village 'KALAPANI' in Sidhaw C.D. Block of Pashchim Champaran district and the last PLCN 04509800 has been assigned to the last village 'TOLA SUNDARI' of the state in Chakai C.D. Block of Jamui district which happens to be last as per procedure adopted for assigning location code number. The district census handbook of 1991 Census as well as updated district and C.D. Block maps and services of local revenue officers/officials have been used to assign the PLCN to the villages. The last two zeros will be used if new villages are created out of existing villages in subsequent census. Before 2001 census, village location code number used to change from one census to other due to change in jurisdictions or creation of villages or merger of villages in urban areas. The district handbook of 1991 Census has been used as basis for filling up the name of the village including the forest and uninhabited villages. But to ensure the accuracy, the list of villages and their names were got authenticated from the respective B.D.O's of each C.D.Block.

Column-3

Shows the area (in hectares) of the village as indicated by the State Revenue Department.

Columns - 4 & 5

Gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in village.

Columns 6 to 9

Deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc. The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure the accuracy of information provided. In such cases where no facility is available within a village, a dash (–) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz. upto 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provisions of goods and services as well, so as to minimize the regional imbalance in the process of development. The abbreviations used to indicate these amenities have been explained separately in the subsequent section.

Column-10

Shows the number of banks - Commercial banks and Co-operative banks. In addition to this, the list of banks procured from the lead bank of the district has also been added in this book.

Column-11

Relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies.

Column-12

Shows the number of recreational and cultural facilities viz. Cinema/video hall, sports club, stadium/ auditorium facility available in the villages.

Column-13

Indicates the type of communications amenities such as by bus, railway or navigable waterway available to the village.

Column-14

Refers to the state of roads etc. leading to the village. This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways.

Column-15

Gives the information of the nearest town and its distance in Kms. from the village in brackets from the referent village. In case, the nearest town is located in another state, the name of the state has

also been furnished.

Column-16

Relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations.

Column-17

Gives the information as to whether newspapers/ magazines are received in the village.

Column-18

Gives the information of most important commodities manufactured in the village.

Columns-19 to 23

Give the details about land utilization. The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories. These are as follows :

i) Forests

ii) Irrigated

iii) Unirrigated

iv) Culturable waste (including Gauchar and Groves)

v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or private and whether wooded or maintained as potential forest land. The crops raised in the forests and grazing lands or areas open for grazing within the forest is also included under the forest area.

Column 20 and 21

Show area irrigated by different sources of irrigation and un-irrigated area. These two columns cover all agricultural land which equals to net cropped area sown with crops and orchards including current and other fallow lands. In case of irrigated land, the source of irrigation has also been indicated.

Column 22

Culturable waste : This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Lands under thatching grasses, bamboo bushes and other groves for fuel etc., which are not included under orchards or forests come under this column. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column.

Column-23

Area not available for cultivation : This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water etc. Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost.

Column-2 & 1

Indicate the name of the village in English and serial number of village respectively.

Town Directory :

The Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order.

The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information.

Statement-I Status and Growth History

The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001. Civic administration status of each town is shown under column 2 and Location Code number in column 3. Column 4 is not applicable in case of Bihar and Jharkhand States. While column 5 shows the name of C.D. block, area of each town in sq. kms. is depicted under column 6 column 7 deals with the

number of households including houseless households as per the 2001 Census. Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001. Column 19 of the statement shows density of towns as per the 2001 Census. Columns 20 to 22 depict the sex ratio from 1981 to 2001 Census.

Statement-II Physical Aspects and Location of Towns

In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5. Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tehsil/sub-tehsil headquarters. Column 9 shows the name of nearest city with population of one lakh or more and columns 11 to 13 give information regarding name and road distance of the nearest railway station, bus route, navigable river/canal (if within 10 Kms.). Column 10 shows the name of nearest city with population of five lakhs and more.

Statement-III Municipal Finance

This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads. There are in all 16 columns in the statement showing receipt and expenditure under different heads.

Statement IV Civic and Other Amenities

The statement displays information under 20 columns. The amenities about which information has been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage and other related matters such as water supply, fire fighting services and electrification etc.

Statement-V Medical, Educational, Recreational and Cultural Facilities

This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution. Educational facilities by level/type of courses and recreational and cultural facilities.

Statement-VI Trade, Commerce, Industry and Banking

This statement presents information under 11 columns in respect of each town. Columns 3 to 8 indicate three most important commodities exported and manufactured in the town. Information on number of banks available in the town appears under column 9. Columns 10 and 11 show number of agricultural and non-agricultural credit societies operating in each town respectively.

Statement-VII Civic and other amenities in Slums

Statement VII contains information about civic and other amenities in slums of 1999. This is a statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, municipal corporations, Notified Areas, etc.

Generally, in cities or towns with slums, the local authority, such as municipality or municipal corporation or even the development authority notifies the recognized slums. It is linked up with the availability of funds from the State Government for slum clearance/improvement. It is possible that some of the states or local bodies have not formally notified slums under their jurisdictions. But in such cases, there is likelihood that they are maintaining a list of such areas which are officially treated as slums. The intention is that the information is to be provided in respect of such localities as are officially recognised as slums, whether actually notified or not. Though the magnitude of slum problem is greater in class I and class II towns, it is acknowledged that they are associated with smaller towns also. Hence the information on slums in this statement has been compiled in respect of all towns having statutory bodies. Columns 1, 2 need no explanation. Under column 3 the names of slum(s) has been provided in an alphabetical order in separate lines under the town which they belong. The particulars with regard to status of slum whether notified or not has been collected under column 4 and recorded as 'Yes' or 'No'. Under column 5 the no. of households (approximate) in the slum pertaining to 1999 has been recorded whereas in column 6 the population figures (approximate) based on the year 1999 have been recoded. Column 7 denotes the road length of paved road in km . upto two decimal places. Column 8 to 13 give information about system of sewerage, number of latrines and method of disposal of night soil. Column 14 gives information about the no. of tap points/public hydrants as ascertained from civic authorities as well as through local enquiry. Column 15, 16 & 17 give information about electricity connections. Column 15 gives information about domestic electricity connections, column 16 gives information about road lighting (electric points) whereas column 17 gives information about electric connections other than collected under columns 15 & 16.

Part-A : Village and Town Directory

Section-I : Village Directory

Note explaining the abbreviations used in the Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural, non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town, the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited'villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col.19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows :

Column 1 : Serial Number

Self explanatory. All the villages within the C.D. Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of Village

The name and location code number of the village are shown against this column. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The total area of the village in hectares is given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In columns 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post & telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (–) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities :

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is

indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exists is given :

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exists is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium are available in the village, the same is recorded in this column. If not available the particulars of the nearest place with the facility are recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets :

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13: Communications

If the village is served by any mode of public/ Private transport like Bus, Railway station or Navigable water ways these are to be mentioned as follows :

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Columns 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh (–) is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below :

(i)	Government Canal	GC

(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix I : It gives the abstract of educational, medical and other amenities available in villages CD Block wise of the district.

Appendix IA : Indicates number of villages CD Blockwise having one or more primary schools.

Appendix IB : Indicates number of villages CD Blockwise having primary, middle and secondary schools.

Appendix IC : Shows number of villages CD Blockwise with different sources of drinking water facilities.

Appendix II : Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix IIA : Indicates list of Census Towns which do not have one or more amenities.

Appendix III : It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix IV : CD Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix V : Summary showing number of villages not having Scheduled Castes population.

Appendix VI : Summary showing number of villages not having Scheduled Tribes population.

Appendix VIIA : The appendix shows the list of villages according to proportion of the Scheduled castes to the total population by ranges

Appendix VIIB : The appendix shows the list of villages according to proportion of the Scheduled Tribes to the total population by ranges.

Appendix VIII : Number of Villages under each Gram Panchayat(C.D. block wise)

Appendix IX : Statement showing number of girls schools in the villages

N.A.							

Note : N.A. stands for information not available

TOWN DIRECTORY

Section-II : Town Directory

Note explaining the abbreviations used in the Town Directory

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/ Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum and Minimum Temperature of the town are recorded.

Column 6, 7 and 8

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998-1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent methods of disposal of night soil are given below with codes :

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D

(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

(i)	Ayurvedic	A
(ii)	Unani	U
(iii)	Homoeopathic	Hom.

Column 6 to 9

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories– Arts, Science and Commerce	ASC
(vii)	Law	L

Column 10 Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Shorthand	SH
(ii)	Typewriting	Type
(iii)	Shorthand & Typewriting	SH Type
(iv)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to14

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Part-B : Primary Census Abstract

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full

possiblecleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in differentPCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/CD Block/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3.	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4.	Village Primary Census Abstract	CD Block/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE - II

ESTIMATE OF CHILD MORTALITY, 1981 AND 1991

State/District	Year	Persons			
		q (1)	q (2)	q (3)	q (5)
Bihar	1991	75	84	86	89
	1981	94	112	125	141
Jehanabad	1991	81	91	96	105
	1981	101	121	141	157

Information on the question on children ever horn and children surviving 1991 census has been compiled by age of the mother. Estimate of child mortality, thus worked out are presented in Annexure II above

From the estimates of child mortality (number of deaths by ages 1, 2,3 and 5 given in above annexure as q(1), q(2), q(3) and q(5) it is derived that there has been decline in child mortality over the decade (in 1991 census as compared to 1981 census) both in the district as well as in the state.

However, it is also evident from the annexure that child mortality in the district for both the censuses (1981 and 1991) is in the higher side as compared to state average.

ANNEXURE - III

VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE, 1991 CENSUS

	Various fertility measures for the districts and the state(1991-Census)	
	State	District
1	2	3
CBR	36.2	33.8
TFR	5.3	4.8
TMFR	5.9	5.2
GFR	163	148.0
GMFR	186	164.0
Child woman ratio	66.6	61.1
No. of children ever born per woman in age group (45-49)	4.1	3.9
Mean age at marriage	16.5	15.6

The Annexure presented above provides a glimp of other fertility indices for all the districts and Bihar as a whole.

It is crystal clear from the above annexure that all other fertility indices – from CBR to GMFR for the Jehanabad district for 1991 Census are lower as compared those of the state average. Child woman ratio, mean age at marriage and number of children ever born per woman in age-group 45-49 are on the lower side for the district of Jehanabad as compared to those of the state average as a whole.All these fertility measures for other districts of the state can be viewed from the annexure above.

ANNEXURE - IV (A)
PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH, 1991 CENSUS

	(5.9)	(6.8)	(5.8)	(0.0)	(0.1)	(0.0)	(100.0)	(100.0)	(100.0)

Migrants by place of birth are 213.1 and 199.9 lakhs in Bihar state as a whole in 1991 and 2001 censuses respectively comprising 23.4 lakh males and 18.9 females in 1991 and 21.0 lakh males and 178.9 lakh females in 2001 .The migrants constitute 24.7 and 24.1 percent of the total population in the state according to 1991 and 2001 censuses respectively. The proportion of male and female migrants, in 1991 census, is approximately 5.2 percent and 46.0 percent respectively whereas it is 4.9 percent and 45.0 percent respectively in 2001 census.

In Jehanabad district, in 1991 and 2001 Censuses, the total number of migrants by place of birth is 2.69 lakh and 3.77 lakh migrants respectively of which only 0.10 lakh are males while 2.59 lakh migrants are females in 1991 Census whereas 0.37 lakh are males and 3.40 lakh are female in 2001 Census. The migrants in Jehanabad district comprise 23.0 percent and 24.9 percent of the total population of the district in 1991 and 2001 Censuses respectively. Male and female migrants account for 1.6 percent and 46.2 percent respectively of the total population in 1991 and 4.7 percent and 46.6 percent respectively during 2001 Census.

From the distribution of total migrants in Bihar state by place of birth it can be clearly seen in both the Censuses that females predominate in inter and Intra district migration while males predominate in inter national migration. In the case of Jehanabad same trends prevail during 1991 and 2001 Censuses. This probably indicates that migration of females from their place of birth is generally attributed to the prevailing custom of girls moving away on marriage from their place of birth. Migrants born in other states of India as also those born outside India have lower proportion of females vis-à-vis males.

ANNEXURE - IV (B)

RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF BIRTH, 1991 CENSUS

Place of Birth	Total/ Rural/ Urban	Place of enumeration					
		Bihar			Jehanabad		
		Total	Rural	Urban	Total	Rural	Urban

		(100.0)	(54.8)	(45.2)	(100.0)	(93.6)	(6.4)
	Rural	800,601	512,444	288,157	2300	2,210	90
		(76.2)	(48.8)	(27.4)	(86.8)	(83.4)	(3.4)
	Urban	243,448	60,040	183,408	340	260	80
		(23.2)	(5.7)	(17.5)	(12.8)	(9.8)	(3.0)

The annexure presented above gives an idea of rural-urban distribution of internal migration by place of birth.

Out of the total intrastate migrants in the state 82.6 percent were rural to rural, 12.2 percent were rural to urban only 1.9 percent from urban to rural and 3.1 percent from Urban to urban. With respect of district of Jehanabad of the total intrastate migrants to the district 91.5 percent about 9 percent more than the state average, were from rural to rural migrants. 5.4 percent were from rural to urban and a small proportion 2.1 and 0.9 percent of intrastate migrants were from urban to rural and urban to urban respectively.

In case of migrants from other states 48.8 percent were from rural to rural, 17.5 from urban to urban, 27.4 percent from rural to urban and 5.7 percent were from urban to rural for the state of Bihar. On the other hand, in case of district of Jehanabad of the total migrants from other states, 83.4 percent about double of the state average were from rural to rural, 3.0 percent from urban to urban, 3.4 percent from rural to urban and 9.8 percent about double of the states average were from urban to rural areas. In case of Jehanabad district, 2.67 lakhs migrants were from within the state and only 2,650 were from outside Bihar state.

ANNEXURE - IV (C)
INTERSTATE MIGRANTS, 1991 CENSUS

ANNEXURE - IV (C)
INTERSTATE MIGRANTS, 2001 CENSUS

Bihar			Jehanabad		
Place of Birth	Migrants	Percentage to total Migrants	Place of Birth	Migrants	Percentage to total Migrants
1	2	3	1	2	3
Uttar Pradesh	434,051	27.4	Assam	8,300	37.5
Jharkhand	339,297	21.4	Uttar Pradesh	6,121	27.7
Assam	133,758	8.5	Jharkhand	3,395	15.4
West Bengal	126,499	8.0	Gujarat	2,186	9.9
Nagaland	101,267	6.4	Punjab	731	3.3
Chhatisgargh	90,469	5.7	West Bengal	622	2.8
Gujarat	65,996	4.2	Total for six states	21,355	96.6
Uttranchal	63,527	4.0	Other states	761	3.4
Jammu & Kashmir	43,737	2.8	**Total**	**22,116**	**100.0**
Orissa	42,215	2.7			
Maharashtra	38,244	2.4			
Rajasthan	20,542	1.3			
Haryana	20,505	1.3			
Andhra Pradesh	18,371	1.2			
Total for fourteen states	1,538,478	97.2			
Other states	43,861	2.8			
Total	**1,582,339**	**100.0**			

It transpires from the Annexure that in case of Bihar 9 States, namely, Andhra Pradesh, Assam, Haryana, Madhya Pradesh, Orissa, Punjab, Rajasthan, Uttar Pradesh and West Bengal together

account for 9.80 lakh (93.38%) of the 10.5 lakh interstate migrants in 1991 census. West Bengal and Uttar Pradesh states are predominant among them contributing 39.9 and 30.7 percent of migrants respectively. In respect of Jehanabad district, of the total 2,650 Goa contributes over forty percent of total immigrants to the district.

It can be further seen that during 2001 census States of Uttar pradesh and Jharkhand are the major contributors of migrants to the state. For the district of Jehanabad Assam and Uttar Pradesh have been major contributors migrants in 2001 census.

It may be observed that Hindus are by far the numerically most important religious community as it accounts for as much as 82.4 percent of the state's population and 91.9 percent of the population

of Jehanabad district in 1991 census. The Muslims come next with 14.8 percent of the state's population. The percentage of Muslims in the district of Jehanabad is comparatively lower than the state average accounting for 8.1 percent of the district's population. The proportion of Christians, Sikhs, Jains and Buddhists population in the state as well as in the district is very low. Almost same trend continued with slight changes in state as well as in district in 2001 Census also.

Annexure-V(B) furnished religion wise distribution of population for district of Jehanabad and its C.D.Blocks according to 1991 and 2001 Censuses

As already observed in Annexure V(A), Though the proportion of Hindus in Jehanabad District is the highest as compared to other religious communities still it is seen the Muslims also formed a good part of population in the district during both the Censuses. Among the C.D.Blocks proportion of Hindus is above 88 percent in all the C.D.Blocks of Jehanabad district, the highest being in Ghoshi C.D.Block (98.5%) during 1991 Census Whereas the highest percentage of Hindus is in Modanganj C.D.Blocks (99.0%) during 2001 Census The proportion of Muslim population is the highest in Jehanabad C.D.Block with 11.5 percent in 1991 Census.It is highest in Kurtha C.D.Block with 17.5 percent in 2001 Census .The existence of other religious commonities in various C.D.Blocks of the district, is insignificant during both the Censuses as their proportion to total population is almost negligible.

It is quite apparent from Annexures VI A,VI B,VI C & VI D that Jehanabad district as well as the state have a relatively higher proportion of 'never married' males and 'married' females. This may be attributed due to the fact that women get married at younger ages than males. As against 54.2 and 50.3 percentages of 'never married' males in Bihar state and Jehanabad district respectively, the corresponding proportion among females is 45.2 and 43.0 only in 1991 census. Same trend contnued in 2001 census also. As against 56.3 and 52.9 percentages of never married males in Bihar and Jehanabad district respectively, the corresponding proportions among females is 47.3 and 45.5 only. There is no much difference in situation in Jehanabad district as compared to Bihar state as a whole during both the Censuses. The district of Jehanabad has slightly higher proportion of widowed males and lower proportion widowed females than that of the state during both the Censuses.

While analysing marital status by broad age-groups one finds that married females outnumber married males in the age-group 10-14 suggesting that child marriage among females is more prevalent than males.

It is also significant that the proportion of 'never married' females in the age-group 15-19 and above is much lower than the 'never married' males in Jehanabad district as well as for the state as a whole.

One of the important characteristics of the population on which information is collected in the Census is literacy. Apart from collecting data on number of literate, the level, nature and type of education attained by the literates are also ascertained. The concept of literacy adopted in the Census has already been explained in the beginning of this publication.

A proper index to the extent of literacy is provided by the proportion of literate and educated persons to the total population. The literacy rates for Bihar (excluding the population in the age-group 0-6 years) at the time of 1991 and 2001 censuses are 38.5 and 47.0 percent respectively. Male Literates outnumbered female literates as the literacy rates for males, according to 1991 and 2001 censuses are 52.5

and 59.7 percent respectively while for females the literacy rates are only to the extent of 22.9 and 33.1 percent respectively. The literacy rates for Jehanabad district according to 1991 and 2001 Censuses, are 45.8 and 55.3 percent respectively which are lower than the state average. Male literates in the district accounted for 63.1 percent during 1991 Census and 70.1 percent during 2001 Census while female literates in the district constitute 26.8 percent during 1991 Census and 39.4 percent in 2001 Census. The literacy rates for males and females in Jehanabad district are lower than the corresponding figures of Bihar state.

Annexure VII(A), VII (B),VII (C) and VII(D) furnish information regarding absolute number of illiterates and literates and educated persons in Bihar state and Jehanabad district as also percentage distribution of literate persons by different level of education by different age-groups.

A break-up of literate population by various educational level shows that 20.3 percent males and 27.2 percent females during 1991 Census and 5.4 percent males and 5.8 percent females during 2001 Census in the state are such who are literate without attaining any educational level. 21.6 percent and 26.2 percent males and females during 1991 Census and 24.9 percent males and 30.6 percent females during 2001 Census in the state have crossed the primary or junior basic standard, 26.4 and 26.9 percent males and females respectively in 1991 Census and 14.6 percent males and 13.2 percent females during 2001 Census have passed the middle examination while 31.7 and 19.7 percent males and females in 1991 Census and 32.1 and 20.4 percent males and females in 2001 Census in the state are such who are matriculates and above. The contrast between males and females is significant among matriculates and above as the percentage of female literates who have passed the matriculation and above examination are roughly 12 percentage points less than male literate population who have attained this level of education.

The position of literates by different level of education in Jehanabad district, according to 1991 and 2001 Censuses, is more or less the same as observed for Bihar state as a whole.

ANNEXURE - VIII
PERCENTAGE DISTRIBUTION OF MAJOR MOTHER TONGUES AS RETURNED IN CENSUS-2001 FOR STATE & DISTRICT

Bihar			Jehanabad		
Mother Tongue	Population	Percentage	Mother Tongue	Population	Percentage
1	2	3	1	2	3
Bhojpuri	20,372,983	24.5	Magadhi/Magahi	1,167,144	77.1
Hindi	14,524,035	17.5	Hindi	233,910	15.4

Bengali	442,352	0.5	Bhojpuri	908	0.1
Santali	382,866	0.5	Arabic/Arbi	178	0.0
Kurukh/Oraon	57,952	0.1	Santali	172	0.0
Marwari	27,152	0.0	Kurukh/Oraon	89	0.0
Total of other mother tongues	12,842,100	15.5	Total of Other Mother Tongues	6,704	0.4
Total Population	**82,998,509**	**100.0**	**Total Population**	**1,514,315**	**100.0**

The Census of India has been the richest source of language data collected and published during the successive decennial Censuses over a century. Annexure VIII furnished above provides data on mother tongue as returned by each individual irrespective of its status as scheduled or non-scheduled languages during 2001 Census for Bihar State as well as for Jehanabad district.

Amongst 10 major mother tongues in the State, Bhojpuri tops the list with 24.5 percent of the total population having returned it as their mother tongue. Hindi has been returning by only 17.5 percent while Magadhi/Maghi and Maithili have been returned by 14.6 and 14.3 percent of the total population of the state as their mother tongue respectively in 2001. Urdu in the state has been returned by 11.4 percent of the total state's population whereas in the district of Jehanabad 6.4 percent of the district population have returned it as their mother tongue and has got third position . Hindi as mother tongue has been returned by 15.4 percent of Jehanabad district's population. Magadhi/Magahi has got first position with 77.1 percent of the district population having returned it as their mother languages. Except these languages analysed above both for the state and the district, other have been returned by insignificant proportions of the respective population of the state and the district as mother tongues as per Census 2001.
