*of the Indian Administrative Service*
Director of Census Operations, Jharkhand

# Foreword

The District Census Handbook (DCHB) is brought out for each district since the first Census after Independence and is one of the most widely used publications compiled and prepared by the Census Organisation on behalf of the State Governments and the Union territory Administrations This publication provides Primary Census Abstract (PCA) data up to village level for the rural areas and provides similar details ward-wise for each city or town, and also provides the present status on availability of important civic amenities/infra-structural facilities in villages and towns of the district concerned This publication has proved to be of immense utility, as it is considered as an essential and basic document for the purpose of delimitation of constituencies, formulation of local level and regional plan and also as an aid to district administration

The publication of District Census Handbook(DCHB) was first introduced during the 1951 Census which contained a few important Census tables and PCA for each village and town of the district Thereafter, at each successive Censuses, the scope and coverage of this publication was enlarged The DCHB published at the 1961 Census provided a comprehensive descriptive account of the district, administrative statistics, Census tables and a village and town directory including PCA The 1971 Census-DCHB series was planned in three parts Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district Census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States, Part-C was confined to district Census tables and in a few cases altogether given up due to delay in compilation and printing At the 1981 Census, new features along with the restructuring of the formats of village and town directory were introduced in the DCHB These were published in two parts for each district While Part-A comprised village and town directories, the PCA of village and town (ward-wise) including the Scheduled Castes and the Scheduled Tribes PCA up to c d block/town level were provided in Part-B In restructuring the format of Village Directory, all the amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given Information on some new items such as Adult Literacy Centres, Primary Health sub-Centres and Community Health Workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme Similarly information on approach to the village was also provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district In the Town Directory, another statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns Apart from this, one column on the Scheduled Castes and the Scheduled Tribes population and another on Adult Literacy classes/centres were added in the Statements IV and V respectively

The manner of presentation of the DCHBs of the 1991 Census was by and large the same as followed in the 1981 Census The format of PCA was, however restructured slightly in the 1991 Census Nine-fold industrial classification of main workers was given as against four-fold industrial classification presented in the 1981 Census In addition, the sex-wise population in the 0-6 age group was also included in the PCA for the first time with a view to enable data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census Another important addition in the DCHB of the 1991 Census was the Community Development Block level presentation of village directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, as the CD block is the lowest administrative unit for

developmental planning Further, in order to facilitate the administrators, planners and researchers intending to use village directory and PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village were provided for the 1991 Census along with the corresponding codes of the 1981 Census

The present series of the DCHB in 2001 Census have been made more informative and exhaustive in terms of coverage and content The content of village directory has been broadened by including more types of facilities such as bank, recreational and cultural facilities, newspapers and magazines available in villages Information on most important commodity manufactured in village and also income and expenditure of Gram Panchayat, wherever possible are provided Specific details on distances, in case a basic amenity is not available in the referent village is also given These include distances in respect of availability of primary and middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), drinking water, Post Office and phone, communication, bank, credit societies and recreational facilities In town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against only Class I and Class II towns of the 1981 and 1991 Censuses are provided. With reference to the village concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements A significant addition in the publication is inclusion of analytical notes as annexures on important aspects concerning Census data on (i) fertility, mortality and migration, (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/place of residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongue, all based on 1991 Census The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs

It is worthwhile to mention that the District Census Handbooks of the Census of India, 2001 are being made available for the first time in electronic format in addition to printed volumes keeping in view the demand of data users

This publication is a collaborative task of the State Government and the Census Organisation The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the direction of Shri Sudhir Kumar Rakesh, Director of Census Operations, Bihar, Patna on behalf of the State Administration At the same time, much effort has been made to ensure comparability with the corresponding 1991 Census data and also similar information brought out by the respective State Governments in annual reports and statistical handbooks for various years after 1991 The task of planning, designing and coordination of this publication was carried out by Shri R G Mitra, Deputy Registrar General (C&T) and Dr I C Agrawal, Senior Research Officer of Social Studies Division Dr R P Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables The draft District Census Handbook manuscripts received from the Census Directorates have been scrutinised in the Social

# Preface

The history of the publication of District Census Handbooks goes back to the 1951 Census and since these are printed in every Census because of their wide ranging utility Census after Census muchinnovations/modifications have taken place in the District Census Handbooks in terms of coverage and contents of population data This is the most valuable district level publication brought out by the Census Organisation on behalf of the State Government It, inter-alia, provides data/information on some of the basic demographic and socio-economic characteristics and availability of certain important civic amenities/facilities in each village and town of the respective districts This publication has, thus, proved to be of immense utility to the planners, administrators, academicians and researchers It is hoped that this publication will serve the purpose of the ever increasing demand for the micro-level data in this era of planned development.

The present volume of the District Census Handbook (DCHB) in 2001 Census has been made more informative and exhaustive in terms of coverage and content The content of Village Directory has been broadened by including additional facilities such as bank, recreational and cultural facilities, newspapers and magazines available in villages For the first time in this volume information on the most important commodity manufactured in village is provided. In Town Directory, information on all types of slums, whether notified/recognized by respective town authorities or not is provided for each statutory town During 1981 and 1991 Censuses this information was, however, restricted to class I and class II towns only The various basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements A significant addition in the publication is inclusion of analytical notes presented as annexures on important aspects concerning Census data on (i) fertility, mortality and migration (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/ place of residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongues, all based on 1991 Census The eight digit permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs

It is worthwhile to mention that the District Census Handbooks of the Census of India, 2001 are being made available for the first time in electronic format in addition to printed volumes keeping in view the demand of data users

The District Census Handbooks are brought out in two parts, viz (i) part A containing the village and town directories and (ii) part B – village and townwise primary Census Abstracts pertaining to general population It also contains the District Primary Census Abstracts for Scheduled Castes and the Scheduled Tribes Population

The village and town level amenity data have been collected through the Block Development Officers and the Vice Chairmen/Executive Officers of the Municipalities and Notified Area Committees who functioned as Charge Superintendents under the District/Sub-divisional level Officers

The analytical note has been prepared on the basis of the inset tables generated from the computerized data of Village Directory, Town Directory and Village/Urban Primary Census Abstract It takes note of the social, economic and demographic changes which have taken place in the districts during the decade District and C D Block Maps containing useful information on many items have also been included in this volume

This publication is a joint venture of the State Government and the Census organisation

I am grateful to the State Government agencies for their co-operation in collection of such a huge mass of data I would like to make a special mention of the warm and whole hearted co-operation which was throughout extended by the District Magistrates, the Sub-divisional Officers, the District Census Officers and the Block Development Officers

In my office S/Shri Phool Singh Joint Director, A K Saxena Deputy Director and K K Verma, Assistant Director supervised the project at different stages In this voluminous job valuable assistance was rendered by S/Shri D P Choudhary, S K Das Sudhakar, Statistical Investigators Grade-I and Ramesh Prasad, Statistical Investigator Grade-II who were responsible for supervision from beginning to end Shri Mauleswar Singh, Assistant Director has also been associated to monitor the scrutiny work of Village Directory and Town Directory data Sri K K Verma, Assistant Director prepared the first draft under the guidance of Sri S K Sinha, Deputy Director The write-ups on fertility and mortality patterns and migration based on 1991 Census data are contributed by S/Shri D P. Choudhary, S K Das Sudhakar and U C Lal, Statistical Investigators Gr I S/Shri D P Choudhary and S K Das Sudhakar prepared the analytical notes on inset tables based on the data of Village Directory, Town Directory and Primary Census Abstracts under the guidance of Shri K K Verma, Assistant Director District and C D Block Maps were prepared in Map Section under the supervision of Sri M Guria Research officer (Map) S/Shri Asharful Hoda and Surendra Mohan Prasad Lower Division Clerks typed the manuscript and S/Shri M.C Sharma, STA (Ptg ) and N.K Jain, Printing Inspector of ORGI helped in getting the volume printed I am thankful to all of them

I am personally indebted to Sri J K Banthia, Registrar General and Census Commissioner, India under whose guidance it has been rare privilege to strive for results I am equally indebted to Shri R G Mitra, Deputy Registrar General (C & T), Dr I C Agrawal, Senior Research Officer of Social Studies Division and Dr R P Singh, Deputy Registrar General (Map) for spontaneous help and encouragement at different stages of the work of this project I am also thankful to Sri S L Jain, Dy Director and Sri R K Mehta, Assistant Director of Social Studies Division who scrutinized the manuscript

# District Highlights – 2001 Census

1 Purbi Singhbhum ranks 6th in terms of population (19,82,988) and 10th in terms of area (3,533 sq km ) in the state of Jharkhand

2 In terms of population per sq km Purbi Singhbhum is the 4th densely populated district in the state with 561 persons per sq km as against the state's 338

3 Purbi Singhbhum ranks 14th in terms of sex-ratio (930) against the state's 941

4 There are 140 uninhabited villages (out of 1,750 total villages) in the district of Purbi Singhbhum

5 Kalimali (under Golmuri-Cum-Jugsalai C D Block) is the most populated village (18,197) and Ukarbahal, Kadambera (under Dhalbhumgarh C D Block) and Shakuni Basa (under Baharagora C D Block) are the least populated villages (2) in the district

6 The economy of the district mainly depends on cultivation or related work More than 45% of the total workers are engaged in Primary sector

7 C D Block Baharagora has the highest number of villages (508) in the district and C D Block Musabani has the lowest number of villages (43)

8 Forest Block (under Musabani C D Block) has the largest area (5,047 hectare) and Murabani and Chhota Hatidahar (under Baharagora C D Block) have the smallest area (3 hectare each) among the villages in the district

9 Improved drinking water facility figures are impressive - it is available for 90 1 percent of the villages

# PURBI SINGHBHUM

# ANALYTICAL NOTE 2001

**Brief history of the district**

Purbi Singhbhum district, which was a part of Singhbhum district till 1981 Census, acquired the status of an independent district on 12th January, 1990 It has a rich heritage and close linkage with the district of Singhbhum It consists of 9 Community Development Blocks, viz , Patamda, Golmuri-cum-Jugsalai, Potka, Dumaria, Musabani, Ghatshila, Dhalbhumgarh, Chakulia and Bahargora

The district is bounded on the north by West Bengal, on the south by Orissa, on the east by West Bengal and on the west by the district of Pashchimi Singhbhum

The early history of the district is rather obscure although relics have been found in the old district of Singhbhum dating back to the stone age The territory covered by the district does not find any mention either in the Vedic texts or in puranic literature The earliest conjecture is in regard to the Gupta emperor Samundragupta of Magadh According to an inscription, his dominian included all the jungle countries from Baghelkhand to the Orissa coast including the old district of Singhbhum According to a theory, when the northern and southern Bihar were annexed to the empire of the great Kushans, Orissa and the eastern sea-board were also conquered, implying that the district may also have lain in the conquered territory

In the seventh century A D Sasanka (of unknown lineage) is believed to have ruled over this territory Two copper plate records of Sasanka's reign indicate that the forest area was under his authority

Ruins of temples of the ninth and tenth centuries A D have been found at Banisagar, situated on the Pashchimi Singhbhum and Orissa border, at a distance of 85 kms from Chaibasa (in Pashchimi Singhbhum) Shrines with

with eight Shgiva Lingas known as "Ashta Shambhus" probably existed here Images of sitting and standing Ganesh have also been found, as also of Ganga and Yamuna as parshwadevis (side dieties) According to a hypothesis, the temples at Benisagar belonged to two district epochs The first between the eight and ninth century A D when the palas under Dharmapal and Devapal established the pala empire, and the second from the tenth to eleventh century A D when the second pala empire was established by Mahipal

This part of the state remained free from external influence in the Turko-Afthan period (1206 to 1526 A D ) In this period, however, Sultan Firoz Tughlak may have passed through Jharkhand (as modern Chotanagpur was then known to the Muhammadan historians) in his expedition against the king of Jainagar (Orissa) The Hindu Vaisnav Saint and reformer, Sri Chaitanya, also travelled through Jharkhand in the second decade of the 16th century on his journey to Mathura Shershah is also said to have crossed Jharkhand in the course of his return from Gaur in 1538

Jharkhand came to be known as Kukrah in the Mughal period In the time of Akbar, who assumed the thrown in 1556, an expedition headed by Shahabaz Khan was sent against the Raja of Chotanagpur who was reduced to the position of a tributary According to the Ain-e-Akbari, is said that ancestors of the Raja of Poraha were three brothers in the bodyguard of Akbar's General, Mansingh, who took side with the Bhuiyas against the Hos and ended by conquering the country for themselves The subsequent dealings of the Mughals appear to be restricted to the Raja of Chotanagpur (or Ranchi proper) In 1616, Ibrahim Khan Fateh Jung, brother of Noorjehan and Governor of Bihar, invaded Kukrah which had rejained independence after the death of Akbar in 1605 Durjan Sal, the forty sixth Raja of Chotanagpur was captured and imprisoned but subsequently reinstated Again in 1724, A D Sarballand Khan, Governor of Bihar led a campaign against the Raja of Chotanagpur followed by another in 1731 by Fakruddoula, the then Governor In 1735 Alivardi Khan could inforce payment of Tribute

with some difficulty The district of Midnapur which included Dhalbhum, had been ceded to the East India Company in 1760 In 1765 a force was sent to neighbouring Zamindars but it could not subdue to the Raja of Dhalbhum After this expedition another was sent under Ferguson in 1767 He commenced his march to Ghatshila The enemy had, however, retreated and the forts of Narsinghygarh had been destroyed by them earlier However, the Raja was captured and sent to Midnapur in confinement His nephew Jagannath Dhal was installed on the throne on promising to pay an annual revenue of Rs 5500/- but the Raja failed to pay the tribute new year Hence two companies of sepoys were sent under Lt Rooke Rooke was succeeded by Morgan who crossed the subarnarekha and sent out to Haldi pokhar in pursuit of Jaganath Dhal Although Jaganath Dhal could not be captured, peace was effected with the Sardars In 1769 the Bhumij, in a body of five thousand persons, invaded Dhalbhum forcing the new Raja Nimu Dhal to retire to the fort at Narsinghgarh with a small body of the Company's Sepoys The Bhumij were expelled by a force under Captain Forbes In 1773 Jagannath Dhal with the followers attacked his successor Baikunth Dhal A force was again sent under captain Forbes and two companies were left at Narsinghgarh and Haldipo Khar In 1774 there were another Bhumij raid led by Jaganath Dhal Many villages between Narsinghgarh and Baharagora were destroyed extending to almost within a mile of Haldipokhar Eventually Jagannath Dhal was reinstated in 1777 on agreeing to pay Rs 2000 for the first year, Rs 3000 for the second year and Rs 4000 for the third year On account of the turbulent state of affairs, Dhalbhum pargana was not settled at the same time as other jungle Mahals in 1776 The permanent settlement was extended in Dhalbhum in 1800 for a revenue of Rs 4267 The Zamindars of Dhalbhum in 1906 was, according to tradition, the 21$^{st}$ in the line of descent from Jaganath Dhal Deo, the founder of the dynasty According to his reckoning the estate must have been founded some time in the fourteenth century, While the company sent forces on various occasions to extract tribute up to 1800 A D , the Zamindar was, like his compere of Chotanagpur, left to his own resources in regard to administration of the country In 1800, the Zamindar was formally invested with the power of police

Daroga The power was exercised by him through his vassals who were subsequently misnamed Ghatwals In 1805 the district of the Jungle Mahals was established by Regulation XVIII and though Dhalbhum was not included in it, the provisions of the regulation were observed there also The Zamindari police system was not successful since the agents of the Zamindar tended to utilise these powers more for the advancement of their own private interests than for the welfare on safety of the people under their charge Chitreshwar Dhal succeeded to the gaddi in 1825 as a minor The estate was, therefore, managed by Bara Thakur Jugal Kishore, the youngest brother of late Raja Jugal Kishore omitted to pay Government revenue and engaged himself in various malpractices with the said and connivance of the new Dewan, Samsher Khan When Chitreshwar Dhal attained majority in 1829, Jugal Kishore refused to hand over power to him and continued to wield influence Samsher Khan was so universally detested that Jugal Kishore was able to extract Rs 20,000 from the raiyats on condition that Samsher Khan would be removed as Dewan Although Samsher Khan was removed, the popular Dewan installed after him could not last long and another officer was appointed in his place This state of dissatisfaction led to the corruption insurgence in 1832 The insurgents burnt villages, killed people mercilessly and plundered property till military operations directed against them put an end to disorder The immediate result of these troubles and Kol insurrections in Ranchi and other parts of Singhbhum was the establishment of the South West Frontier Agency by Regulation XIII of 1833 Dhalbhum which had hither to been included in Midnapur district, was transferred to the Manbhum district After the conquest of the Kolhan in 1837, it was considered advisable to bring all the Ho pirs under the direct management of the British Government In 1846 the district of Singhbhum (old) was enlarged by the transfer of Dhalbhum from Manbhum When Act X of 1854 was passed, Singhbhum became a non-regulation district under the jurisdiction of the Lt Governor of Bengal

The Indian forces stationed at Hazaribag had rebelled, soon to be followed by a detachment of the Ramgarh Battalion sent from Ranchi to quell

the rising at Hazaribag The detachment of the Ramgarh Battalion stationed at Chaibasa was also inflamed The insurgent forces raided the treasury and broke open the jail Then they sought to proceed to Doranda but were prevented by the flooded river Sanjai They were given refuge by Arjun Singh, Raja of Porahat, who was acclaimed a rebel by the British administration On September 16, 1857 the new principal Assistant Commissioner, Lt Birch reached Chaibasa with the Rajas of Seraikela and Kharsawan (now in Pashchimi Singhum) and Kol forces Ultimately Arjun Singh and his followers surrendered in February, 1859 m

An era of peace and progress followed, to be broken almost forty years later by the Birsaite rising, the effects of which, however, were not very widespread or great The history of the district of Purbi Singhbhum in the present century is the Saga of a powerful industrial revolution coming in the wake of the exploitation of the districts's vast mineral resources The inception and rapid development Jamshedpur city (now the district's headquarters) bears ample testimony to the rapid strides the districts has made in this regard

Source (i) The District Census Handbook of Singhbhum, 1961
(ii) The District Census Handbook of Singhbhum, 1981
(iii) The Distri Gazetteer of Singhbhum, 1956

**Natural Division**

The district forms part of the Chotanagpur plateau and is a hilly upland tract

The district comprises two main natural divisions, viz ,

1) Seraikela Dhalbhumgarh upland

2) Dalma range

**River**

Subarnarekha is the principal river which flows and passes through the middle of the district Its bed is rocky and flows rapid Its contains gold in minute quantities hence the name There are many tributaries of the Subarnarekha river, the main being the Kharkari which is formed by the two streams Torlo and Koranjai in the Kochan area

**Climatic conditions**

The year may be divided into three seasons, the winter season from November to February, the Summer season from March to May, and rainy season from June to October

The cold season is delightful while it is unpleasantly hot in the summer season with the hot westerly winds prevailing Rainfall is the highest in the months of July and August December and January are the coldest months, while April and May are the hottest Statistics of temperature and rain fall have been given elsewhere in the volume

**Flora and Fauna**

Forests in the district cover approximately 86,608 80 hectares of the total areas of the district They are found scattered in whole of the area The types of forests are (a) dry thorny type, (b) semi-evergreen type and (c) moist tropical deciduous type

Sal is the main tree species in all types of forests in the district Other tree species found associated with Sal are asan, dhaura, jamun, bija, karam, simal, kendu, arjun , gamhar and bamboos In the dry open hills, salai, jhingam and bamboos are commonly found Mahua and Kusum are found near the cultivable lands

Elephants are frequently met within the forests of the district Wild elephants are common in the jungles on the Dalma range Tigers and

Panthers are rare but bears are found in large number Wild pigs are also quite numerous Sambhar, barking deer and spotted deer are also found but their number is decreasing in the forests adjoining habitation

Among reptiles snakes of both poisonous and non-poisonous varieties are found throughout the district

**Mines and Mineral**

Geologically, the district is one of the most important areas in the world for its vast mineral deposits Of all the geological formations which occur in the district the following three are the most important

a) Granites and gneisses of Archaean age intruding into the oldest sedimentary rocks
b) The iron-ore series which are mostly metamorphosed and
c) The volcanic lava flows of Dalma hill

1) Uranium
2) Chronite
3) Copper
4) Clay
5) Gold
6) Magnetite
7) Manganese
8) Kyanite
9) Limestone
10) Silica
11) Asbestos

**Land use pattern**

Agricultural conditions vary considerably in different parts of the district The district may be divided into three tracts, first comparatively level plains, then hills alternating with open valleys and lastly, the steep forest clad mountains The people of the district have almost changed their nomadic habits and have taken up cultivation on a more permanent basis There has been a remarkable change in the out-look of the people and now there is an appreciation of the more modern methods of agriculture and need for irrigation

The soil of the district has been classified into the following four groups

i) Rocky soil
ii) Red soil
iii) Yellowish grey and grey soil and
iv) Black soil

Rockey soil remains practically uncultivated in the district

Red soil is spread throughout the district It is sandy and loamy and has poor fertility Only Kharif crops are grown here Paddy is grown in the low lands where irrigation is possible

Yellowish grey and grey soils are found in the district Soil in the uplands is yellowish grew whereas in the low lands it is grey

Black soil is mostly found in the lowlands of the district The texture of soil is loamy and clayey It is very fertile

Rice is the main crop of the district Wheat comprises a very small proportion of the gross area sown Among the non-food crops grown, oil-seeds are the most important Cauliflower, cabbage, tomato, radish, carrot, beet, etc , are some of the vegetables that are being grown now

**Irrigation facilities**

The river of the district is hilly in character and is not much used for irrigation The only way is to store their water for future use The other sources of water supply are springs, tanks, wells, natural water reservoirs in depressions and ahars The usual method of irrigation consists of the construction of embankments and bunds across the line of trench, i e , at the upper end of a depression Since independence there has been a concerted effort to increase the irrigation potential in the district and a number of minor irrigation schemes have been completed

Prior to 1961, the area irrigated by Government canals or tube-wells was practically nil Thereafter some areas were brought under irrigation by these two means In the recent past several schemes have been executed by the Government The district of Purbi Singhbhum still requires much greater facilities of irrigation Given the terrain, it will be more worthwhile to construct a number of dams to harness the water resource and ensure irrigation as well as regular water supply for other purposes

**Industrialisation**

The city of Jamshedpur and the areas upto Ghatshila form the main belt having some of the biggest factories of their kind in the country The remaining portion consists of either agricultural or mining areas producing iron –ore and other ancillary minerals for the manufacture of iron and steel There are a few establishments both in the3 rural and urban areas of the district engaged in manufacturing tobacco product, flour mills, rice mills, saw mills etc Chakulia is well known for its rice producing centre

Among the large industrial establishments of the district, mention may be made as

i) The Tata Iron and Steel Co Ltd , Jamshedpur

ii) The Tata Engineering and Locomotives Co , Ltd , Telco Works, Jamshedpur

iii) Tinplate Co , of India (P) Ltd , Golmuri

iv) The Indian Cable Co Ltd , Golmuri

v) The Indian Copper Corporation Ltd , Moubhandar, Ghatsila

vi) The Indian Tube Co , (1953) Ltd , Jamshedpur

vii) The Tatanagar Foundry Co Ltd Burma-mines

**Live stock**

The live stock of the district is generally of a poor variety The local Hos, who constitute the majority of tribal population, are allergic to milk and its various preparations and take no interest in improving the breed Pasturage is generally ample, for there are wide stretches of jungle and hilly areas and there is usually enough rain at intervals throughout the year to keep the grass and vegetation fairly green In addition to the grass in the jungles and on the waste lands, cattle get pasturage in the rice fields also Buffaloes and oxen are utilized for agriculture purposes

There has been a concerted effort on behalf of the state government to upgrade the cattle through the distribution of stud bulls of Haryana and Tharparkar types In order to improve the breed of the cattle quickly and also at low cost , artificial insemination centers with sub-centers have been opened in the district

There are a number of veterinary hospitals and dispensaries spread over the entire district Treatment, prevention and eradication of diseases for the livestock are the main functions of the veterinary institutions

Poultry is an important activity in rural areas especially among the aboriginals who derive a side-income from it Poultry farms have been opened at a number of places in the district and steps have been taken to improve the breed of the poultry in the district

**Communication facilities**

The district of Purbi Singhbhum is well served by a network of good roads maintained by the Public Works Department, the Zila Parishad and the Forest Department A good number of roads maintained by the above departments are pucca roads of which some are also metalled The National Highways – 33 passes from Jamshedpur city to Ranchi via Baharagora

The State Highways road passes from Jamshedpur City to Chaibasa via Haludpokhar Kandra – Adityapur road from Jamshedpur City is also under the state Highways The road from Haludpokhar to Baharagora is under the Zila Parishad All the 9 Blocks headquarters are connected with pucca roads Apart from the above about 240 kms of good roads are main ained by the Tata Iron and Steel Company in Jamshedpur City

Railways - Being the richest district in regard to minerals The railway system has been suitably developed to ensure proper utilisation of minerals The Tatanagar railway station of the South Eastern Railway serves the flourishing industrial area of Jamshedpur and is easily the most important railways station in the district The principal sections of railways in the district are the following

1) Tatanagar - Rairangpur
2) Tatanagar - Chakulia
3) Tatanagar - Manoharpur
4) Tatanagar - Ranchi via Muri
5) Tatanagar - Purulia

The Howrah - Nagpur Main line of the South Eastern Railway traverses the district

Rivers - The river of the district is not navigable as it dries up during the summer Important ferries in the district are

i) Mango ferry on river Subarnarekha near Jamshedpur
ii) Maubhandar ferry near Ghatsila on Subarnarekha river

Ferry – services operate only in the rainy season

Airways - Jamshedpur has an airfield owned by the Tata Iron and Steel Company There is a pilot Baloon observatory (D-type) of the Meteorological Department There is also a big landing ground at Chakulia

**Trade and Commerce**

This district is fortunate in the richness of natural resources These resources are mostly either minerals or forest products

Jamshedpur is the main trade centre in the district It is famous for manufacture and export of Steel The hats and melas of the district are very important trade centres There are weekly hats in almost every important area and merchants come from far to the hats to sell their goods The hats usually form the basic centres for feeding bigger trade centres

**Electricity and power**

The district receives most of its power supply from the State Electricity Board

All the towns of the district have electricity In rural areas, however, the pace of electrification has been slow The city of Jamshedpur alone consumes bulk of the electricity required for various industrial uses

**Social and cultural and Administrative development.**

The newly created Jharkhand State came into force on the 15th of November, 2000 with its headquarters at Ranchi The creation of the separate state has brought administrative changes in the district It has also made impact on the social, cultural and economic life of the people

Fair and festivals are however, held regularly in the district by different communities in complete harmony The hats and melas are an integral part of the life of the common man in the district of Purbi Singhbhum

## BRIEF DESCRIPTION OF PLACES OF RELIGIOUS, HISTORICAL AND ARCHAEOLOGICAL IMPORTANCE IN VILLAGES AND PLACES OF TOURIST INTEREST IN THE TOWNS OF THE DISTRICT.

1 Baruni

It is a village situated about 5 Kms from the block headuqrters at Baharagora on the southern bank of the river Subranarekha According to a local legend, the pandavas spent a part of their period of incognito exile in village Pandra, across the river The village has a waterfall named as Baruni Kund It is said about this Kund that Kunti, the mother of the Pandavas, wated to offer Ganges water to Lord Shiva Her sons accordingly set up five Shivalingas and Arjun created waterfall with his arrow, bringing the patalganga to surface A big annual fair is held on the occasion of Madhubamsha Trayodashi in the month of Chaita (march-April)

2 Chitreshwar

he village, which is situated about 11 kms from the block headquarters at Baharagora, is noted for its temple of Mahashambhu, traditionally believed to be about 3,000 years old and finding mention in the Skandha-purana

3 Dhalbhumgarh

The village is the headquarters of the block bearing the same name It used to be the headquarters of the erstwhile Dhalbhum estate It has some grave quarries

4 Dharagiri

It is a beautiful waterfall on the Ghatshila Phuljhore forest road, situated about 18 Kms from Ghatshila The perennial waterfall attracts many visitors

5 Harina

It is a small village lying in Potka block It is noted for its Shiva temple which draws a large number of devotees An annual fair is held here in the middle of June

6 Jainagar

It is a village situated about 14 kms north-east of the block headquarters at Chakulia A large annual fair is held in the month of Asadh (June-July)

7 Kokpara

The village is situated in Dhalbhum block on the northern bank of the Subarnarekha It is noted for its historical associations It has a temple of lord Shiva with a deity known as Kapileshwar The image is said to have been partly destroyed by Kalapahar, the legendry Muslim ruler of the past who is said to have played havoc with places of Hindu worship

8 Rohinibera

The village, which lies in Pokta block, is noted for the temple of Goddess Rankini According to a prevalent legend the goddess, while fleeing from evil spirits was saved by a washer man This washer man subsequently became the founder of Dhalbhum estate

9 Jamshedpur

It is the largest city in the district and one of most important in the state of Jharkhand The city is known all over the world as one of the largest steel producing centres in Asia Established in 1907 by Sir Jamshedji Nusserwan Tata, the city has grown very rapidly and is continuing to expand with more industrialisation It is situated about 64 Kms north-east of Chaibasa (now the district headquarters of Pashchimi singhbhum) Tatanagar on the Howrah-Nagpur Section of the S E Railway is the railway station for Jamshedpur Besides the works of the Tata Iron and Steel Company, there are several important industries in the city such as the Tata Engineering and Locomotive

Co Ltd , The Indian Tube Co , Ltd , Tin Plate Co Ltd , Tata Yadogawas Ltd , etc

10 Chakulia

It is a small town situated on the Bihar-Bengal border on the Jamshedpur-Howrah section of the south Eastern Railway and the National Highway from Calcutta to Bombay The Chaibasa-Midnapur road also passes through the town It is electrified, has 14 rice mills, 2 foundries and a soap factory It is the headquarters of Chakulia block and has an aerodrome usable by large aircraft Rice and tasar seed cocoons are the chief articles of export

11 Juduguda

It is situated on the Hata-Musabani road about 16 kms from the block headquarters at Potka The village came into prominence due to finds of uranium and rare earth deposits The minerals are extracted by the Atomic Energy Commission

12 Musabani

It is a small town known for the copper mines of the Indian Copper Corporation Ltd It is a cosmopolitan town with inhabitants drawn from all parts of the country and even outside

13 Maubhandar

This village lies in the Ghatshila block and it has the largest copper smelting plant in the country, belonging to the India's Copper Corporation Situated 5 Kms West of Ghatshila railway station, the factory employs about 1,200 persons every day

14 Haludpokhar

The village which is situated on the Jamshedpur-Rairanpur road, is famous for its historical association as the site of a battle between Raja Jagannath Dhal and the British

## STATEMENT- 2

| | | (100) | (57 1) | (7 3) | (90 1) | (8 0) | (1 1) | (11 4) | (2 2) | (1 7) | (16 5) | (28 3) |

Note - Percentages are given in brackets

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly

# Post office includes Post office, telegraph office and Post and telegraph office

$ Transport communication includes bus service, rail facility and navigable waterways

## TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

| Serial number | Name of C D block | Total population of inhabited villages | Type of amenity available | | | | Type of amenity available | | | | | |

Data source Census of India 2001, H-series Tables on Houses, Household amenities and Assets

*Based on the improved drinding water source, drinking water source, drinding water supply has been classified as 'Improved' or otherwise If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is comsidered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly

Note Percentage is to be given in brackets after the number of households
Bathroom means bathroom within the house
Toilet means toilet within the house
Drainage menas closed and open drainage
