FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations / modifications after each decennial census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Government / Union Territory administration. It *inter - alia* provides data / information on some of the basic demographic and socio-economic characteristics and on availability of certain important civic amenities / facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (wardwise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories, including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part - B comprising Village and Town PCA) were released in all the States and Union Territories. The third Part (C) of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981, some new features alongwith the restructuring of the formats of Village and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part - A comprised Village and Town Directories, the PCA of villages and towns (wardwise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil /town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referrent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also

provided for the first time during 1981 Census in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this statement, details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Caste and Scheduled Tribe population and another on adult literacy classes / centres were added in Statement IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rate as all children below 7 years of age have been treated as illiterates at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Blocklevel presentation of data in the Village Directory and PCA instead of the traditional Tehsil/Taluk/PS level presentation. It is expected that the presentation of Village Directory and PCA data at C.D. Block level will help the planners in formulation of micro-level developmental plans, as the C.D. Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census along-with the corresponding codes of 1981.

This publication is a joint venture of the State Government / UT administration and the Census Organisation. The data have been collected and completed under the direction of Shri. K. Sampath Kumar, Director of Census Operations, Tamil Nadu, on behalf of the State

Government which has borne the cost of printing. The task of planning, designing and co-ordination of the publication was initiated by Dr. K.P. Ittaman, former Deputy Registrar General (Social Studies) and Shri. M.M. Dua, Joint Director, for the sake of uniformity in presentation of information / data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of census / non-census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri. M.K. Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri. A.K. Singh, Deputy Director who was assisted by Shri. N.S. Soam, Assistant Director and his staff. Technical guidance in the preparation of the maps was initially provided by Dr. B.K. Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi

A.R. NANDA
Registrar General, India

P R E F A C E

The District Census Handbook is the most useful publication for the public, social workers, researchers, academicians, administrators, local bodies and the government officials for various official and non-official purposes. It gives data for the village / panchayat at the lowest level to the district level including panchayat union / taluk covering demographic, social, economic and cultural aspects. There had been an endeavour to make it as comprehensive as possible, to provide data on various aspects since its inception and by 1961, it reached the dimensions of a compendium for the district. The Registrar General, India, in his foreword has kindly traced out the improvements brought out from time to time since 1961 to the latest 1991 Census while the history of the District Census Handbook in this State is narrated in the Introductory Chapter to this volume.

The District Census Handbook is a joint venture of the Census Organisation and the Government of Tamil Nadu. The scope of District Census Handbook has been widely increased and restructured in 1981 to meet the Minimum Needs and Revised Minimum Needs Programmes of the Planning Commission. Broadly keeping up the 1981 main structure, the formats of the Primary Census Abstract have been restructured slightly for the benefit of data users. The nine-fold industrial classification of main workers as done at the 1961 and 1971 Censuses has been revived instead of the four-fold classification of the 1981 Census. Population in the age-group 0-6 by sex has been given in order to enable computation of realistic literacy rate as all children below 7 years are treated as illiterates. One of the most important innovations of the 1991 Census is the presentation of data at the community Development Block / Panchayat Union level to help planners in the formulation of micro-level developmental plans at the lowest administrative unit level. In this State, for development planning, the lowest administrative unit is the 'Panchayat Union'. This time, for the benefit of data users of Village Directory and PCA data from the magnetic tapes / floppies or from the published records, the computer code as well as the manual code as of 1991 Census and the corresponding location code of 1981 Census are given.

The District Census Handbooks are now being published in two parts - Part - A - Village and Town Directory and Part - B - Village and Townwise Primary Census Abstract. The two parts are being published in one volume as part A & B for smaller districts.

Part - A deals with a brief description of the district - its major characteristics in relation to the economic resources like forestry, agriculture, industries, social, cultural, religious and historical aspects apart from certain basic amenities like drinking water, education, medical, post and telegraphs, market day(s), communications, etc., and if any of

these facilities are not available to any village, distance range of the nearest place from where available; power supply, approach to the village, nearest town to the village, health and family planning centres, primary health sub-centres and community health workers in the village. Information on approach to village is also provided to identify inaccessible villages in the district. These exhaustive data on infra-structure in relation to amenities available to the villages and land-use pattern are meant to meet the requirements of 'Micro - level' local area development planning at the lowest administrative unit viz., C.D.Block/Panchayat Union level. This is the reason why this time data are being published at C.D. Block / Panchayat Union level instead of the traditional taluk level.

In the Town Directory, information on class of town, area of the town, number of households, population and growth rate of the population of the town at each of the censuses from 1901 to 1991, sex-ratio at the 1971, 1981 and 1991 Censuses, physical aspects of rainfall and minimum and maximum temperatures recorded, distance from State and District Headquarters, nearest city, communication facilities like railway station, bus-route, inland navigation, Municipal finance, civic and other amenities like protected water supply, electric connections by type, fire fighting service, road length by type, system of sewerage, number of latrines by type, total population and SC & ST population, medical, educational facilities by type, recreational and cultural facilities like stadia, cinema, drama, community hall, public libraries and reading rooms, adult literacy classes / centres, working women's hostels, three important commodities manufactured, exported and imported; a special table on civic and other amenities available in all notified slums in Class - I and Class - II towns have been included with a view to ascertain the availability of basic amenities and to meet the Minimum Needs and Revised Minimum Needs Programme.

Part - B deals with the Primary Census Abstract for all the villages in the rural areas and wardwise for urban areas. This time the PCA data like Village and Town Directory data are arranged C.D.Block / Panchayat Unionwise giving area of the village (in hectares), area of town (in Sq.Km), number of occupied residential houses, households, population by sex, Scheduled Caste and Schedule Tribe population, literates, main workers and their distribution into nine industrial categories (as against the four industrial categories published in 1981), marginal workers, non-workers, and the population in the age group 0 - 6 by sex.

Further, if a village is covering more than one Panchayat, break up figures for each segment of the village forming different Panchayat also are given.

It is hoped that with the modifications now brought out in the Village Directory, Town Directory and PCA and Publication of data at C.D. Block / Panchayat Unionwise would go a long way in helping the planners to chalk out more effective developmental programmes at

micro-level for local area developmental plans as the C.D. Block / Panchayat Union is the lowest administrative unit for developmental planning.

In the process of collection of data of this volume, various State and Central Government Departments have extended their kind co-operation particularly with regard to infra-structural amenities for Part - A - Village and Town Directory, history and general features of the district, etc., I convey my grateful thanks to all of them. The PCA data presented in Part-B of this volume were collected during the Census Operations in February - March, 1991, the reference date being sunrise of 1st March, 1991.

I remain grateful to the Director of Census Operations, Shri. K. Sampath Kumar, who closely guided us in every aspect of this work. He had been a source of strength and inspiration for us. We owe a deep sense of gratitude to him for his kindness in dealing with our practical difficulties, his patient advice and formula of solutions for even small problems, which we brought to his attention.

I wish to record my deep sense of gratitude to (late) Shri. M. Thangaraju, Joint Director of Census Operations and Shri. Ch. Purnachandra Rao, Deputy Director of Census Operations for overall direction and guidance to bring out this publication. I use this opportunity to mention my special thanks to Dr. D. Venkatesan, Assistant Director of Census Operations for scrutinising the draft report and presenting the data with meticulous care and accuracy. I am also thankful to Shri. S.P. Grover, Joint Director of Census Operations and Shri. Phool Singh, Deputy Director of Census Operations who have also provided overall guidance and supervision during their tenure in this regard.

Apart from that, Shri. Gummodi Bapuji in-charge of DCH Section took a meticulous care to arrange this volume in a systematic manner with the help of his colleagues S/Shri. A.V. Raman, K. Sambamoorthy, Investigators, P.G.Sankaran, and M. Thangavelu, Statistical Assistants and other section officials. The preparation of maps included in this volume were done under the supervision of Shri. Jogesh Das, Senior Geographer.

In the compilation and processing of Village Directory and Town Directory data, was ably assisted by Smt. R. Rani Bai and Smt. A.M. Mangayarkarasi, Investigators and their assistants respectively while Smt. R. Sakunthala, Statistical Assistant is chiefly responsible for preparing the analytical notes, inset tables, draft write - ups and arrangements of the matter in order.

The PCA data for the district were processed at the Regional Tabulation Office, Tirunelveli, under the supervision of Shri. V. Jebamani, Regional Deputy Director of Census Operations, assisted by S/Shri. S. Suveeharan and A. Roshan, Statistical Assistants who were deputed from this Directorate to the Regional Tabulation Office, Tirunelveli.

Finalisation of PCA data (Panchayat Unionwise) and providing computer codes for villages were attended to by Shri. R. Lakshminarayanan and Smt. M.V. Rajalakshmi, Investigators and staff of the Census Section. The district and taluk maps in this publication give the administrative units upto village level, the location of towns and cities, communication facilities, etc. This time in the taluk map, the boundary of each of the C.D. Block units, namely, 'Panchayat Unions' have been shown separately to synchronise with the presentation of data Panchayat Unionwise.

I convey my grateful thanks to Shri. A.R. Nanda, IAS., Registrar General and Census Commissioner, India for the valuable guidance and advice I received from him throughout. I am thankful to Shri. N. Rama Rao, Deputy Registrar General (C & T) who has been a source of strength and constant help and guidance on all technical matters like a "Ready-Reckoner". I also thank Dr. K.P. Ittaman, Ex-Deputy Registrar General (S.S) and Shri M.M. Dua, Joint Director, for planning, designing and co-ordinating the formats. I thank Shri. M.K. Jain, Deputy Registrar General (S.S) and Shri. A.K. Singh, Deputy Director, Shri N.S. Soam, Assistant Director and his staff for scrutinising and approving the first volume so that it could fit in, in the all India pattern from uniformity point of view in the presentation of data and other items. My thanks are also due to Dr. B.K. Roy, Ex-Deputy Registrar General (Map) and Mrs. Minati Ghosh, Deputy Registrar General (Map) for providing technical guidance in the preparation of maps.

I have pleasure in acknowledging the able assistance rendered by the following officials of my office in the preparation of this volume.

ANALYTICAL NOTE

Census concepts

Rural and Urban areas

It is customary to classify a place as rural or urban in every census and present data separately for rural and urban areas. Urban areas which are specifically defined for census purposes are determined on the basis of certain demographic and economic criteria. The rest are treated as rural areas. At the 1991 Census, the same criteria adopted for determining the urban areas at the 1981 Census have been continued. The urban areas of 1991 Census are :

a) All places with a Municipality, Corporation or Cantonment Board or Notified Town area :

b) All other areas which satisfied the following criteria :

   (i) A minimum population of 5,000;

   (ii) At least 75 per cent of male main workers engaged in non-agricultural and allied activities; and

   (iii) A population density of at least 400 per sq.km. (or one thousand per square mile)

The above definition adopted for both the 1981 and 1991 Censuses varies slightly from those of 1961 and 1971 Censuses. As of the 1961 and 1971 Censuses, the males engaged in the activities of fishing, logging etc., were treated as engaged in non-agricultural pursuits and hence have been taken into account with those engaged in non-agricultural pursuits for applying the test of the 75 per cent non-agricultural workers criterion. But in 1981 Census as well as in 1991 Census, they have been treated on par with agricultural activities for the purpose of the test for this criterion. Prior to 1981 Census, certain places with less than 5,000 population were treated as urban areas on the basis of certain consideration like density, social and historical importance etc., at the discretion of the Director of Census Operations in consultation with the State Government. On the other hand, the tests on demographic and economic criteria were strictly applied at the 1981 and 1991 Censuses and no area was classified as urban area on other considerations.

Urban Agglomeration

This concept was adopted for the first time in 1971 Census and continued in 1981 and 1991 Censuses also.

An urban agglomeration is a continuous urban spread constituting a city or town and its adjoining urban outgrowths (OG) or two or more physically contiguous towns together with continuous well recognised urban outgrowths, if any, of such towns. In certain cases, large housing colonies, university campuses, port areas, military camps, etc., would have come up around a city or town but falling outside the statutory limits of the city or town. They may be lying inside the boundaries of a village or villages which are contiguous to the city / town. These villages could not be treated as urban as they do not satisfy the urban criteria. But at the same time the colonies etc., mentioned above deserve to be treated as an integrated urban area. Therefore, all such towns together with their urban outgrowth will have to be treated as one urban unit and called urban agglomeration. All the constituent units of urban agglomerations are also independent urban units or towns.

Census House

A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant and may be used for residential or non - residential purposes or both.

Household

A household is a group of persons, who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called institutional Households.

Scheduled Castes / Scheduled Tribes

For the enumeration of Scheduled Castes and Scheduled Tribes in census, the names of Scheduled Castes and Scheduled Tribes as recognised in Tamil Nadu based on the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act of 1976 (Central Act 108 of 1976) was followed. The enumerators were instructed to record a person as belonging to Scheduled Caste or Scheduled Tribe provided the name given by the person was found in the list supplied to them.

Literates

In the 1981 Census, a literate was defined as a person who can both read and write with understanding in any language. A person who could merely read but cannot write was not a literate. It was not necessary that for a person to be considered as a literate must have received any formal education or have passed any minimum educational standard. In the 1991 Census, all the children of the age of 6 years or less are treated as illiterates where as in the 1981 Census all children of the age of four years or less were treated as illiterates.

Definition of work

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise.

Main and Marginal workers

The dichotomy of workers and non-workers of 1961 and 1971 Censuses had been dropped and the trichotomy of main workers, marginal workers and non-workers were introduced in the 1981 Census and has been continued in the 1991 Census also. A worker was identified with reference to a reference period preceding the census. The reference period prescribed was one year preceding the date of enumeration. Certain types of work such as agriculture, household industries like gur making etc., were carried on, either throughout the year or only during certain seasons or part of the year, depending on the local circumstances. In such cases what we were concerned with was the broad time spent during the agricultural season preceding the enumeration. Workers can be full-time workers or seasonal workers or marginal workers. If a person had done any work during the reference period and if he had worked for the major part of the year, i.e. if he had worked for 183 days or more, he was considered to be a full-time worker (Main worker). If a person had done any work during the reference period and if he had not worked for the major part of the year, i.e., if he had worked for less than 183 days, he was considered to be a marginal worker. Persons who had not participated in any economic activity even for a day during the last one year preceding the day of enumeration were considered as non-workers.

All the main workers and the marginal workers have been classified under one of the four main categories in the 1981 Census. While in 1991 Census, they have been classified under one of the nine industrial categories as was done in 1971 Census. They are : I) Cultivators (C), II) Agricultural Labourers (AL) III) Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, IV) Mining and Quarrying, V) (a) Manufacturing, Processing, Servicing and Repairs in Household Industry, V) (b) Manufacturing, Processing, Servicing and Repairs in other than Household Industry, VI) Construction, VII) Trade and Commerce, VIII) Transport, Storage and Communication and IX) Other Services.

The definitions of these nine industrial categories of workers are given below :

I. *Cultivators (C)*

For the purpose of census, a person is considered as cultivator if he/she is engaged in cultivation of land, owned or taken on lease from Government or from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

II. *Agricultural Labourer (AL)*

A person who works on another person's land for wages in money, kind or share should be regarded as agricultural labourer. He/ she has no risk in the cultivation, but he/she merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

III. *Livestock, forestry, fishing, hunting and plantations, orchards and allied activities*

Persons who were reported as engaged in livestock, forestry, fishing, hunting and plantations, orchards and allied activities are treated as workers under this category.

IV. *Mining and Quarrying*

Persons who were reported as workers in mining and quarrying are classified under this category.

V. a) *Manufacturing, processing, servicing and repairs in household industry*

Household industry is defined as an industry conducted by the head of the household himself/herself and/or by the members of the household at home or within the village in case of rural areas and within the precincts of the house only in case of urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The household industry should not be run on the scale of a

registered factory which would qualify or has to be registered under the Indian Factories Act. Merely selling of food items or other edibles should not be regarded as household industry.

b) *Manufacturing, processing, servicing and repairs in other than household industry*

Persons reported as workers in manufacturing, processing, servicing and repairs other than those mentioned in V-(a) are treated as workers in this category.

VI. *Construction*

Persons working as plumbers, mason, electricians, painters and others eganged in construction work were treated under this category.

VII. *Trade and Commerce*

Persons engaged in work such as wholesale or retail business or trade are treated as workers in this category.

VIII. *Transport, storage and communication*

Persons who were reported as drivers, conductors, technicians, fitters, welders and other communication workers were treated under this category.

IX. *Other Services*

Persons engaged in services other than those mentioned in I to VIII categories are treated under this category. Workers who could not be classified in any of the above I to VIII categories are treated as those engaged in other services.

Non-workers

All persons who have not been treated as workers i.e., persons who have not worked any time at all during the reference period of one year preceding the date of enumeration have been considered as non-workers.

Thus, non - workers cover all persons who are engaged in his / her household duties and who do no other work or have not done any work at all during the last one year, full time students and children attending school, all dependants such as infants or children not attending school or a person permanently disabled from work because of illness or old age, persons retired from service or rentiers, beggars, vagrants, convicts in jails or inmates of a penal, mental or charitable institution and all non-workers who may not come under any of the above categories.

HISTORY OF THE DISTRICT CENSUS HANDBOOK

After the census of 1951, Government of India offered to hand over to the State Government the Census tables and other data prepared during the Census and suggested that they might be published along with any other useful information relating to each district. The State Government accepted the proposal and the first publication of the District Census Handbook was brought out at the cost of the State Government.

The District Census Handbook of 1951 was found to be very useful and it was therefore decided not only to continue the series for the 1961 Census but also to improve definitely on its content so that each District Census Handbook contained certain basic economic data for the smallest administrative unit in the district and be an useful reference book for scholars and other data users.

The publication of 1971 District Census Handbook was in three parts, viz., Part-A, Part-B, and Part-C; Part-A relating to Village and Town Directory, Part-B relating to Village and Townwise Primary Census Abstract and Part-C comprising District Census tables and certain administrative statistical tables.

The tradition of bringing out the District Census Handbook has been continued by the State Government during the 1981 Census also. In this series, some individual features besides restructuring the formats of the Village Directory have been adopted bearing in mind the national requirements of data for the socio-economic programmes of the Government. The comparability of data with the 1971 Census data has also been kept in view.

The present District Census Handbook will be published in two parts, viz., Part A - Village and Town Directory and Part B - Village and Townwise Primary Census Abstract.

SCOPE OF VILLAGE AND TOWN DIRECTORY STATEMENTS AND PRIMARY CENSUS ABSTRACT

The District Census Handbooks are the only publications which incorporate the data down to the level of a village and level of ward or division of a town which are constantly referred to by the data users.

The Village Directory statement gives the list of villages by C.D.Block and for each village the area, number of households and population, availability of amenities and land use. The information on amenities available in the village

includes educational, medical, drinking water, post and telegraph, market, rail / road or other communication facilities and power supply. Land use is shown as area under forests, irrigation, unirrigated land, culturable waste and area not available for cultivation.

Appendix - I gives C.D. Blockwise abstract of educational, medical and other amenities available viz., the number of villages having various levels and types of educational institutions such as middle schools, adult literacy centres, etc., various types of medical institutions such as dispensaries, primary health centres, maternity and child welfare centres, family planning centres, community health workers etc., and the number of such institutions, various types of sources of drinking water such as tap, well, tank, tube-well, river, fountain, canal, etc., post and telegraph offices, bus stops, railway station, power supply, etc., and also the number of villages not having such amenities.

Appendix - II gives for each non - municipal town (Census Towns) the area under forest, irrigated and unirrigated land, culturable waste (including gauchar and groves) and area not available for cultivation.

Appendix- III records list of villages where no amenities relating to education, medical ,drinking water, post and telegraph, communication, power supply and market/hat and public health facilities etc., are available.

Appendix - IV gives list of villages according to the proportion of SCs/STs to the total population by ranges. Part-A of the Appendix lists out villages according to the proportion of SC population. The information is presented by the ranges in per cent, viz., 0-5, 6-10, 11-15, 16-20, 21-30 and 31 and above. Part-B provides similar data for ST population ranges in per cent, viz., 0-5, 6-15, 16-25, 26-35, 36-50 and 51 and above.

The Town Directory gives important and very useful information like civic and other amenities available in all the towns in the district, statutorily notified as well as non-municipal or census towns. The details relating to each of the towns have been presented in seven statements, viz., Statements I to VI and IV-A.

In all the statements, except IV-A, the towns are arranged in alphabetical order for the district. The Town Directory does not cover strictly military areas. It may, however, cover cantonment areas but not strictly military areas or military establishments within the cantonment which are required to be left out. However, basic statistics of the cantonment as a whole have been provided. In the Town Directory, codes have been given for the data on amenities and civic administration for want of space. The relevant explanations for the codes adopted have been given in the beginning of the Town Directory statements.

The concept of "urban agglomeration" was introduced for the first time in 1971 replacing the concept of "town group" of 1961. The concept of urban agglomeration has been continued in 1981 and 1991 Censuses also. An urban agglomeration may be explained as "it must form a continuous urban spread constituting a town and its adjoining urban outgrowth or two or more physically contiguous towns together with continuous well recognised urban outgrowth, if any, of such towns".

An urban agglomeration includes two or more independent census towns. The names of the towns/urban agglomerations have been arranged in the alphabetical order. The particulars of the individual town which constitutes one of the units of agglomeration have not been furnished separately because the particulars have already been furnished, where they occur together under the name of agglomeration. The following remarks have been given against such town within brackets :

"(See the name of the main town of the agglomeration)"

By adoption of this method, the reader can get an idea of the particulars of the urban agglomeration in total and also separately.

Statement I - Status and Growth History

Statement - I provides some basic data based on the Primary Census Abstract for the towns and urban agglomerations of 1991 Census. For analysing the town directory data at the State level and all India level, some new columns, have been introduced in the 1981 Census. The new items are :- class of town, area, number of households, population and growth rate at each census since 1901, density and sex ratio at the 1971, 1981 and 1991 Censuses are also provided in this statement. In 1991 Census, a new item, the name of C.D. Block is also provided in the statement.

Classes of the towns are presented according to 1991 Census population of the towns as follows :

Population			Class
100,000	and	above	I
50,000	to	99,999	II
20,000	to	49,999	III
10,000	to	19,999	IV
5,000	to	9,999	V
Below		5,000	VI

Location Code Number of Towns

To distinguish the town from the village, the location code numbers for towns have been given in Roman numerals and these numbers have been assigned in a continuous order for the district as a whole. In 1991 Census, name of C.D. Block has been included with a view to locate the town in the appropriate C.D. Block.

Statement II - Physical aspects and location of towns, 1989

Under physical aspects, annual rainfall and temperature particulars are furnished. These particulars were obtained from the Commissioner of Statistics, Tamil nadu, Madras. If the information is not available for any particular town, the nearest town for which it is available is given. For Col.(9), nearest city with population of one lakh and more is furnished according to 1991 Census. For the other columns, figures obtained from the Municipal Commissioners and Panchayat Union Commissioners are given. The zero within brackets in columns 10 and 11 denotes that the referent town itself is enjoying road transport facilities. In column 12, name of the navigable river/canal and its distance is indicated as follows : "Cauvery (R)-5". In this case, 5 is the distance in Kms of the navigable river Cauvery from the referent town. In brackets, "R" for river and "C" for canal have been given.

Statement III - Municipal Finance, 1988 - 89

The civic administration status of the town, the receipt through tax, properties and powers, Government grants, loans, advances and other sources and the expenditure on general administration, public safety, public health, public works, public institutions and other public services are given in this statement. The receipts and expenditure are furnished in terms of rupees in hundreds.

Statement IV - Civic and other amenities, 1989

The civic and other amenities existing in the towns as in 1989 are given. The data were obtained from the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

Column 3 - Civic administrative status : It is a new column introduced in this statement in 1981 to facilitate analysis.

Column 4 - Population : It is also a new column introduced in this statement in 1981 to measure the amenities in respect of population.

Column 5 - Scheduled Caste and Scheduled Tribe population :

This column is also introduced in 1981 to know the size of the population of the weaker sections of the society in the towns based on Census.

In this statement, information on road length, system of sewerage, number of latrines, method of disposal of night soil, protected water supply (source of supply, system of storage with capacity) and fire frighting service are also collected from the Municipal Commissioners and Panchayat Union Commissioners and furnished.

Electrification

Electrification particulars obtained from the Tamil Nadu Electricity Board through the Municipal Commissioners and Panchayat Union Commissioners have been furnished as given below :

i) *Domestic Connections*

This refers to the number of services given to houses for domestic purposes like fans, lighting, etc.

ii) *Industrial connections*

This refers to the number of services effected to L.T. (Low Tension) Industries such as workshop, flour mills, oil mills, grinding machines, cotton ginning and engineering industries etc.

iii) *Commercial connections*

This refers to the services given to shops, business houses, public institutions like offices, schools and commercial establishments.

iv) *Road lighting points*

This refers to the number of points of street lights which are maintained by the board and for which consumption charges are paid to the board by respective local bodies. For some panchayats, the number of services effected alone has been furnished under street lights and not the points.

v) *Other connections*

This refers to the number of services effected for agricultural purposes, huts, public water supply systems, cottage industries, etc.

Statement IV-A - Civic and other amenities in notified slums, 1989

This is a new statement on civic and other amenities in the notified or recognised slums of Class I and II towns introduced during 1981 Census. Generally, in cities or towns having slums,

the local authority such as Municipality or Municipal Corporation or even the Development Authority have notified the recognised slums. Such notifications are linked up with the availability of funds from the State Government for slum clearance.

Name of the slum and the details of the area, population, length of the paved roads, system of sewerage, number of different types of latrines and method of disposal of night soil etc., are given in this statement.

Statement V - Medical, educational, recreational and cultural facilities, 1989

In this statement, medical, educational, recreational and cultural facilities of the towns as in 1989 are furnished. The data for educational and medical facilities were obtained from the Municipal Commissioners and Panchayat Union Commissioners for the concerned towns, and from the Director of Secondary Education and Director of Public Health respectively. Under medical facilities, number of hospitals/dispensaries/T.B. clinics etc, and number of beds in medical institutions etc., are furnished.

Under educational facilities, the number of Arts / Science / Commerce colleges, Medical Colleges, Engineering Colleges and Polytechnics obtained from the State Education Department are furnished.

Column 10 - Recognised shorthand, typewriting and other vocational training institutions :

Particulars were obtained from the District Industries Officers and from the Directorate of Employment and Training. The term recognised refers to institute recognised by some statutory authority like Education Department, Commerce Department, Labour Department etc., of the Government or by Semi-Government or autonomous bodies, public sector projects etc.

Column 16 - Number of working women's hostel with number of seats :

This is a new column introduced during the 1981 Census. Considering the increase in the employment of women in urban areas, the housing need of working women has been considered as an important subject for study.

Data presented under column 18 - refer only to the permanent cinema theatres and do not include the touring cinemas.

Statement VI - Trade, commerce, industry and banking in 1989

In this statement, trade, commerce, industry and banking facilities in the town as in 1989 are furnished. Banking particulars were obtained from the Reserve Bank of India. The information on number of agricultural and non-agricultural credit societies were collected from the Registrar of Co-operative Societies through the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

Scope of Primary Census Abstract

The Primary Census Abstract, as it is called, presents basic data for each village or segment of a village (in cases where such village segments form different Panchayats) in the "Villagewise Primary Census Abstract" and for each ward/division of a town in the "Urban Primary Census Abstract". The format of the Primary Census Abstract for the villages and towns in 1991 has been slightly modified as compared to the 1981 Primary Census Abstract.

The Primary Census Abstract will give the details on area, number of occupied residential houses, number of households, total population, population in the age-group 0-6, number of SC/ ST population, literates, total main workers, distribution of main workers by nine industrial categories, marginal workers and non-workers in respect of each unit. In 1981, the main workers were classified into four categories whereas in the 1991 Census they are classified into nine industrial categories as in 1961 and 1971 Censuses. For the first time in this census, the population in the age group 0-6 with sex break up is presented in PCA in order to arrive at the realistic literacy rate as all the children below seven years are treated as illiterates in this census. The Urban/Village Primary Census Abstract gives this information for each village and each urban ward. Till 1981 Census, the Primary Census Abstract was presented for each taluk and for each town in a district. But, in the 1991 census, the Primary Census Abstract for each CD Block is presented for the first time in the Indian Census. Besides these, separate Primary Census Abstract for scheduled castes and scheduled tribes which contain similar details as those in the PCA for general population is presented for State/District/Taluk/Community Development Block/UA/City/Town.

With a view to ensure comparability and to enable data users to derive the figures either for a revenue village or panchayat according to their requirements, the data are presented for segments of villages also, wherever portions of one village

happen to be in two or more panchayats. The segment-wise data have to be used separately or added with the data of concerned segments so as to derive panchayat data. For example, if portion of a revenue village bearing L.C.No.9, Thingalur, forms part of two panchayats, the figures are given separately for each portion of the village against L.C. No.9 a/b and 9 b/b. The total figures for the entire revenue village can be arrived at by adding the figures given against both the segments viz., 9 a/b and 9 b/b given in the Village Primary Census Abstract. If, instead, the panchayat figures are required, the data for the concerned village segment or segments relating to the panchayats concerned are to be added up to arrive at the total figures for the respective panchayats. An appendix is presented in the case of the Urban Primary Census Abstract and it gives 1991 population, Scheduled Caste and Scheduled Tribe population for each enumerator block of the town. This may be useful for administrative and election purposes in the urban areas. Such data are also required by urban planners and researchers for conducting other studies in selected blocks.

Mode of presentation

At the beginning, the District Primary Census Abstract containing data for District and C.D.Blocks (for Total, Rural, Urban areas) as also towns under each C.D. Block and at the end, all the towns/UAs in the district are presented. In 1991 Census, the C.D.Blocks is the main unit of presentation of data instead of taluk which was the main unit till 1981 Census. The District PCA is followed by alphabetical list of villages for each C.D. Block in the district. This is followed by Village / Urban PCA. In the Village / Urban PCA, data for the first C.D.Block for total, rural and urban areas separately, followed by data for villages and census towns falling under each C.D. Block are presented. Thereafter, similar data for second, third and subsequent C.D.Blocks in the district are presented. At the end of the last C.D.Block, the Urban PCA containing data at ward level for all the towns and cities besides the data for UAs are presented. In an appendix to the Urban PCA, total population and population of Scheduled Castes/ Scheduled Tribes for each Enumerator Block of every town/city in the district are given. After the appendix to Urban PCA, the Talukwise PCA containing data for the District and each taluk in the district with Total, Rural and Urban breakup is presented, as such data are also sought after. This is followed by two annexures. Annexe - I contains details of Community Development Blocks falling under each taluk and Annexe - II contains names of the villages/segment of villages constituting each town in the district.

Maps

Apart from the District Map given as frontispiece, maps for each taluk showing the villages, Location Code numbers and their boundaries are presented. The boundaries of the C.D.Block falling in the taluks are also shown. As compared with the maps presented in 1971 and 1981 District Census Handbooks, some improvements have been effected in the maps presented in this volume. All towns are shown with shading screens and also spheres according to the population size of towns in the district and taluk maps.

Area Figures

In the District Primary Census Abstract, the area figures are given in Sq.Km for total, rural and urban areas. In the Village Primary Census Abstract, the area figures for each revenue village are given in hectares upto two decimals. The area figures for each town is given in Sq.Km. in the Urban Primary Census Abstract. In the District Primary Census Abstract, the area figures of the district total represent the "Geographical Area" figures supplied by the Surveyor General of India. Figures for urban areas and villages are those supplied by the local bodies and revenue authorities respectively. The total urban of the area of a district has been arrived at by adding the urban area figures of each town within the district. Area figures for the rural areas of the district are derived by subtracting the urban area figures from the total area of the district. The area figures of each C.D.Block represent the area figures that are published in the concerned departmental publication of the State Government. The area figures of the C.D.Blocks will not add up to the district area figures because, the C.D.Block area figures represent the "Land use" area, while those of the district represent "Geographical Area", supplied by the Surveyor General of India. The total of the village areas given in the Villages/Urban Primary Census Abstract may not tally with the rural area of the C.D.Block given, as the C.D. Block area figures include hills, forests, rivers etc. whereas the village area may not include the same. One Sq.Km is equal to 100 hectares.

It is hoped that the pattern of presentation of basic census particulars for each district as explained above and adopted in this volume would be found convenient by data users.

KANNIYAKUMARI DISTRICT - AN OUTLINE

Kanniyakumari district came into existence in 1956 as a result of reorganisation of states on the basis of language and added to Tamil Nadu. It was called as the granary of Travancore due to its vast stretches of paddy fields, rich forests and mineral sands. This district has a pleasant climate and has the advantage of both the south-west and the north-east monsoons. The district has many charming spots, best being the Cape Comorin, the place of meeting of Gulf of Mannar, Indian Ocean and Arabian Sea. The meeting point of the ocean is the place where "Continent ends in a Swan-song of broken rocks and mingling oceans". Kanniyakumari district has been named after the Goddess Kanniyakumari Amman who is a very popular deity of this area and known far and wide in the country. The legend is that the Goddess Parvathi in one of her incarnation as Devi Kanya did penance on one of the rocks of this land's end (tip) to obtain the hand of Lord Shiva.

Early History

Kannniyakumari district consists of those parts locally known as Nanjil Nadu and Idai Nadu. The names of the villages of the district such as Azhagiapandiapuram, Cholapuram and Kulasekaraputtur reveal that these places were governed by several rulers at different periods of time. From the ancient Tamil literature, it is understood that Nanjil Nadu was under the rule of Pandyas till the early 10th century and then under the Cheras. The Venad including Kalkulam and Vilavankod taluks (Idainadu) were under the rule of Cheras. When the Chola power declined due to the rise of Hoysalas and Western Chalukyas, the Venad (Travancore) chieftains (the descendants of central Chera's family) took advantage of the situation and gradually established their hold on considerable areas in Nanjil Nadu. Veera Kerala Varma, one such chieftain, is said to have annexed the present Cape Comorin, Suchindrum and other adjoining areas from local chieftain who styled himself as Nanjilkuravan. The annexation started by Veera Kerala Varma was to a large extent continued by his successors and completed by 1116 A.D.

For about four centuries, the Venad was ruled by powerful kings who were consistently making incursions into the Pandian territories. As a result, Pandian Prince and later Nayaks received help from Vijayanagar kings and proceeded against Venad. In 1609, Kanniyakumari fell into the hands of Visvanatha Nayak of Madurai. Thereafter till 1634, Nanjil Nadu faced no serious threat. During the reign of Ravi Varma and Marthanda Varma, Venad was disturbed due to the internal strife. Chanda Sahib of Arcot took advantage of this situation and attacked Nanjil Nadu. Though Marthanda Varma could win the famous battle at Kolachel defeating the Dutch armouries who helped the local feudatories, he could not cope with the threat from Chanda Sahib. To prevent further destruction, Marthanda Varma paid a huge sum of money as ransom to Chanda Sahib and made him to withdraw. After Marthanda Varma, Venad had very weak rulers. There was, therefore, too much interference by the British whose control was completely established over Venad and continued till 1947.

During the 19th and 20th centuries, it was under the personal rule of the Maharaja of Travancore. From 1947 to 1956, it was governed by a popular Ministry but it did not change the sytem of administration which prevailed earlier. During the period 1956-61, the system of administration has fallen in line with that of other districts of Tamil Nadu.

Physical Features

Kanniyakumarai district is the second smallest district after Madras in the State having an area of 1684, sq.kms, of which 1641.3 sq.kms are rural and 42.7 sq.kms are urban. The district lies between 77 degree 05' and 77 degree 36' of the Eastern Longitude and 8 degree 03' and 8 degree 35' of the Northern Latitude. The district is bounded by Tirunelveli district in the north and northeast; by Kerala State in the northwest and confluence of Arabian Sea and Indian Ocean in the west and south. The Coastline extends over 68 kms and is almost regular except for some points and land projecting into the sea at Cape Comorin (Kanniyakumari). There are minor ports in the district at Kolachel, Thengaipattinam, Manukudy, Kovalam and Leepuram.

Based on the physiography, the district can be divided into three natural divisions of mountainous terrain, low lands and undulating valley. The north-east portion of the district comprising of the eastern parts of Vilavankod and Kalkulam taluks and the north-eastern portion of Thovala taluk constitutes a mountainous terrain. The sea coast on the west and south-west of the district is flat and fairly fertile. The strip of land along the sea coast consists of the low lands. Finally, the area between the mountainous region and the sea coast is a strip of undulating valley which has a few streams rushing through it towards the west. On the whole, the region has a gentle

slope and natural divisions with its vegetation providing an enchanting sight. The paddy fields of the land are mixed up with large patches of coconut groves and tapioca fields of the valleys. The sand on the sea coast is rich in minerals while the coast as such provides an enchanting natural environment.

Soil

Soil in the district is mostly of the red loam variety. On the sea coasts, however, the sandy type of soil prevails and near the mountain ranges, gravelly soil is generally seen. In the low lands, there is neither white sand nor sandy loam, while in the midlands and highlands, there prevails fairly fertile soil of fine type, particularly in the valleys. The valley in the midland has loamy clay soil with high sand content. In the midlands, in general the soil is clay-loam of laterite origin with an admixture of gravel and sand. In parts of Vilavankod and Kalkulam taluks, the gravel content is low.

The following statement shows the results of the analysis of soil samples from various taluks :

Taluk	Reaction (Ph)	Nitrogen per cent	Potash 20 per cent	Phos phoric acid (p2o5) Per cent)	Lime (c2o) Per cent
1	2	3	4	5	6
Thovala (Thiruppa-thisaram)	7.8	0.13	0.26	0.08	1.91
Thovala (Vellama-dom)	8.4	0.06	0.08	0.07	2.17
Kalkulam (Thacka-lai)	6.8	0.08	0.09	0.02	0.17
Vilavan-kod (Kaliyik-kavilai)	7.1	0.07	0.05	0.04	0.03

Climate and Rainfall

The climate of Kanniyakumari district is very pleasant. The governing factors that influence the climate of the region are two monsoon winds, the proximity of the sea and the dwindling height of the western ghats. For the first two months of the year, January and February, the atmosphere is dry with little moisture. The level of the mercury acquires an upward trend which is rather gradual but persistent. In the coastal region, sea breeze provides a soothing effect. Till June, hot sun prevails.

The low height of western ghats in these regions does not favour heavy showers. But the wind accompanied by occasional showers considerably moderates the dry atmosphere. This monsoon period lasts till the middle of August and after that once again the atmosphere becomes dry. However, the advent of north-east monsoon through the gaps in the western ghats and even the low levels of the same ranges enables the district to receive fairly heavy showers from October. This factor controls and maintains the temperature low till next March. Due to the absence of hill ranges of considerable height, the monsoon does not give much rain during the north-east monsoon period, i.e. between October and December. The south-west monsoon also brings showers in the months of June and July. This season is locally called as "Saral".

A statement showing annual rainfall in mm in Kanniyakumari district during the period 1984 - 91 is given below :

Year	Rainfall (mm)
1984	1097.00
1985	1089.40
1986	607.42
1987	1370.59
1988	1243.16
1989	1191.47
1990	1237.02
1991	1707.56

Source : Meteorological Centre, Meenambakkam, Madras.

Hills

The district is situated at the foot of the western ghats and has only a few hill ranges. Agastiswaram taluk is fairly free from mountains. the other three taluks have only a few ranges on the eastern sides. The only mountainous tract, worthy to mention is in Kalkulam taluk. It is at the elevation of 4,400 feet above the mean sea level with isolated peaks. The most important of them being Mahendragiri (5, 427 feet), the southern most peak in the western ghats. In the east, the mountain range leaves open several passes, of which the Aramboly pass forms the best entrance to the district. This pass has played a great role in the military and strategical history of the erstwhile Travancore State.

Rivers

Rivers of this district are mostly non-perennial and short. Paraliyar rises on the mountain, north of Mahendragiri hills in Thovala taluk. Passing through a wild tract, it enters the plains at Thiruvattar and flows towards south west direction. After a course of 37 Kms (23 miles) from its source, it is joined by another river Kothayar near Thiruvattar. The two rivers unite to form the Kuzhithurayar which is also known as Tambraparani. The combined river then flows for a length of 59 Kms through Kalkulam and Vilanvankod taluks and reaches the sea at Thengaipattinam.

The river Kothayar is dammed at Pechiparai, and the Paraliyar at Perumchani. These two projects are designed to irrigate about 24,000 hectares (60,000 acres) of paddy fields. A number of lakes and a few lagoons are found in this district. Important of them are the three artificial fresh water lakes, i.e., Pechiparai, Perunchani and Mukkadal and two natural salt-water lakes, viz., Manakudy lake of Thamaraikulam and the Thengaipattinam lakes.

Coastline

Except some points of land projecting into the sea in places such as Cape Comorin, Muttam, Erayanthurai etc., the coastline covers 68 Kms in regular.

Geology and Minerals

The geological formation of the district is made up of marine or alluvial sands, raised beaches and alluvium, sandstones, variegated clays and lignite. The beach deposits at Manavalakurichi, Cape Comorin and other coastal regions contain such heavy minerals of industrial use as rutile, ilmenite, zircon, monazite etc.

Thick sand-stones also are available near Kanniyakumari. Such stones in the area are called "Calcurious". Good quantity of Titanium is available in the district. In the monazite sand, the Thorium content is very high ranging from 8 to 10.5 per cent. Garnet, used for making salt-paper, is found in the coast. Important places where the minerals are available include Manavalakurichi, Muthambur near Kolachel and Leepuram in Agastiswaram taluk. Sulphide mineralisation consisting mainly of pyrhotite with subordinate amount of chalcopyrite, molybdenite and Nickel and Cobalt Sulphides have been located near Arumanallur in basic gramulitic rocks.

Forest

An area of 54,644 hectares or 32.7 per cent of the total area of the district is under forest. The growth of population and the resulting demand for more land for cultivation has reduced the extent of forest.

Flora

The forests of this district have 600 species of gigantic timber trees and 3,500 other plants, many of which are of great economic and medicinal value. The valuable timber trees consist of teak, rosewood, anjile (the jungle jack), karunthali (the malabarebony), manjaikadambu, ventekku, karumaruthu or thembavu, vengai etc. Soft wood like elavu, costly wood like sandal wood are very common in this district. Plantations of cardamom and tea are seen on the higher elevations, while pepper, rubber, ginger and turmeric flourish in the lower elevations. Tamarind, mango, jack, coconut and areca palms are common in the district. Tapioca, cashew and other similar trees in large numbers are found common on the plain and hill slopes. Rubber plantation is carried out in an area of 17,710 hectares in the district. As per the 1991 survey there are 730,133 trees that are being tapped. Clove is also being raised in an area of 110 hectares which is managed by a separate District Forest Officer, of Cloves Forest Division.

The rubber plantation is found mostly in the following areas.

1.	Keeriparai	4.	Paralaiar
2.	Manalodai	5.	Chittur
3.	Mylar	6.	Kallar

There are 60 species of medicinal plants grown here. The name Maruthuvamalai (the hill where medicinal herbs grow) has derived from one of the hillocks scattered over the area by medicinal plants. Kolumthu is cultivated in Thovala for its springs which are aromatic.

Most important among the tuberous plants are sweet patato, arrow-root, chanai, chempu, chivakilangu, karunakilangu, tapioca or maravallikilangu. The popular scented flower bearing plants are chempakam, the henna plant (maruthotri), thetti, jasmine, nanthiarvattam, asokam, mullai, pitchy, roses, etc.

Fauna

Elephants are abound in the upper reaches of Ashamboo, Veerapuli and Kerala reserve. During rainy season, they descend to Kodhayar lake. Round about Othakodai and Block rock Estate, tigers descend to the lower reaches in October and November months. Panthers are more common than tigers in all forests. Bears are fairly common at elevations of 3,000 feet and over. Small herds of bison frequent the slopes and grass areas around Muthukuzhi valley and the higher reaches of Asambu. Muthukuzhi valley and whole of Asambu are favourite resorts for Sambhur. Spotted-deer and barking deer are comparatively rare. Black monkeys and wild dogs are found in Muthukuzhi valley. Jackal, fox, mongoose, hare and others are some of the less important animals of this district.

The Indian house crow, the jungle crow and the sparrow are very common in the inhabited localities. The treepies are fairly common in the plains. Several species of lablers popularly known as "Seven Sister", magpie robib, wood shrikes, small minivet (Chittukuruvy), cuckoo shrike, tailor bird, myna, Indian skylark, honeysucker, cuckoo, and roseringed green parrots are very common birds. At the foot of the hills are seen the blossom headed paroquets (Panchavarnakili) and Indian roller (Blue-Jay). Indian bee-eater are quiet common here. Different varieties of owls and kites are found here.

There are four marine turtles found here, of which two species, the great turtle or the edible turtle and longer head turtle, are very common here. Two species of land tortoises and three species of fresh water tortoises are also found here. There are several species of lizards in the low lands and hilly regions. The guana (Udumbu) is the largest of the lizards found in this region. Snakes seen in the low lands and hills come under the three non-poisonous groups, hind-fanged poisonous but harmless, and the front-fanged venomous. The non-poisonous snakes are the typhlops, the earth (iruthalai-pambu), the python (malaipampu), the tropidonotus (thannipampu), the ophities (churutai), the rat snake (sarappampu) and a few tree snakes. The group of hind fanged snakes consists of species which live in water, in hills, in bushes and in trees and the common green tree snakes (pachai pampu). Normal poisonous snakes are bangarus (kuttuvirian), king cobra (karunagam), the cobra (nall pampu) and the russels viper (kannadivirian).

Land and Land Use

The total geographical area of the district is about 167,184 hectares. Out of this, 82,625 hectares is sown which works out to 49.83%. The non-agricultural land occupied by the buildings, roads, railways, rivers, canals etc., is 24,006 hectares (14.48%). The land lying fallow is 2,414 hectares (0.72%). As such, the entire land in the district is almost utilised in one way or other. The area and percentages of land under various uses are given below :

	In hectares	Percentage
Geographical area	165818	100.00
Forests	54155	32.66
Barren and uncultivable land	3339	2.01
Non-agri-culture	24006	14.48
Culturable waste	189	0.11
Permanent pastures and others	97	0.06
Miscellaneous trees	359	0.22
Current fallows	1048	0.63
Other fallows and net area shown	82625	49.83

It may be seen from the above statement that the extent of forest in Kanniyakumari district is 54,155 hectares forming nearly one-third (32.66%) of the total area of the district. The barren and non-cultivable land is only 3,339 hectares forming only 2%.

Irrigation

The irrigation potentials of this district are a dam across the Kodayar at Petchiparai and another at Perunchani across the river Paraliar, upper and lower Kodayar and Pattanam channel.

Kodayar irrigation system

The Petchiparai dam, known as Kodayar dam, was constructed across Kodayar during the

period 1897 to 1906. This is the main source of the present Kodayar Irrigation System. Subsequently, Perunchani reservoir was constructed across Paralayar during 1953. The two reservoirs are later connected to feed a common Ayacut. The double crop lands (both wet and dry conversion) under this system in Thovala, Agastiswaram and Kalkulam taluks are being irrigated by means of a network of the following channels :-

1. Padmanabhapuram Puthenar Channel
2. Anandanar Channel
3. Thovala Channel
4. Nanjiland Puthenar Channel
5. Thiruparappu Right Bank and Left Bank Channels.
6. Aruvikkarai Right Bank Canal and Left Bank Canal.

The targetted ayacut under this scheme was 23,316 (58,290,00 hectares). The entire area was developed and as such there is no shortfall.

Chittar Pattanamkal Scheme

The earthern reservoirs known as Chittar dam I & II were constructed across Chittar during 1979 under Chittar Pattanamkal Scheme. This irrigates lands in Kalkulam and Vilavankod taluks. In order to assess the correct area of the Ayacut actually put to use and the irrigation potential under Chittar Pattanamkal and Neyyar Irrigation Schemes, localisation works taken up during 1976 and 1978 respectively. The total area benefited under this irrigation scheme is 345,040 hectares (862,600 acres) of land.

Neyyar irrigation project

This project was formulated by the Kerala State Public Works Department and taken up for execution in two stages. In the first stage, construction of Dam and the right bank canal lying in Kerala State were completed. The left bank canal was taken up at the 2nd stage. A part of the area served by the left bank canal lies in Kanniyakumari district and hence the Tamil Nadu Public Works Department took charge of the canal works falling within this stage. The execution of this portion (Kanniyakumari canal) was completed in April, 1963.

This scheme originally envisaged supply of 150 cusecs to be drawn from Kerala State to irrigate an extent of 3,680 hectares (9,200 acres) of both wet and dry lands in Vilavankod taluk.

The following are the major reservoirs in the district :

Name of Reservoir	Full Reservoir Level (in feet)	Total Capacity (M.CFT.)
Petchiparai	48	4350
Perunchani	77	2890
Chittar Dam I	18	393
Chittar Dam II	18	600

Agriculture

Familiarly known as the granary of former Travancore State, Kanniyakumari district is famous for its vast stretches of paddy fields. Nearly 25,000 hectares of lands were under paddy cultivation during 1990-1991. There is a State Farm at Thirupathisaram. The other important crops grown are coconut, rubber, tapioca, palmyrah, cashew, plantain, arecanut, cloves, pepper and cocoa. The vast rubber plantations producing the best quality of rubber, second only to Malaysia are indeed earning valuable foreign exchange to the nation.

The district is having a favourable agro-climatic condition to grow a number of crops. Because of its proximity to equator, its topography and other climatic factors favour the growth of varied crops and the extent covered is as follows :-

1. Paddy	46000	Hectares	(23,000 hec. per season)
2. Tapioca	12000	"	
3. Coconut	17280	"	
4. Rubber	12800	"	
5. Cashew	2553	"	
6. Mango	1760	"	
7. Arecanut	787	"	
8. Cardamom	110	"	
9. Cloves	487	"	
10. Pepper	80	"	
11. Ginger	42	"	

Animal Husbandry

Sindhy, Jersy, Fresion and Red-Dan are the important breeds found in the district. Graded Murrah buffaloes and local breeds are also available in the district.

The livestock population in Kanniyakumari district is as follows :

White Cattle	:	85,682
Black Cattle	:	29,132
Sheep & Goats	:	47,130
		161,944

There are 3 Veterinary Hospitals, 79 Veterinary Institutions and 40 Key Village Sub-Centres rendering veterinary aid and technical assistance. In addition, there are 2 Bull Stations to supply semen to the Veterinary Institutions for carrying out artificial insemination work. A Poultry Extension Centre is located at Kottaram in Agastiswaram taluk.

Fisheries

Fishing is an important source of livelihood in this district. The length of coastal line is about 68 Kms and the fishermen population is 118,387. About 650 mechanised fishing crafts are available besides 12,757 non-mechanised crafts. The total annual average catch of fish is about 70,000 tonnes. There are 42 fishing villages along the Kanniyakumari coast. Out of the total fishermen population, about 80,000 fishermen are actually engaged in fishing.

The inland fisheries are carried out in the 4 reservoirs in this district i.e. Petchiparai, Perunchani and Chittar Dam I & II. These reservoirs are stocked with quick growing fish seeds brought from Manimuttar, Thanjavur and other places. In all these reservoirs, Departmental fishing is being conducted regularly. To supply good varieties of fish seeds, one fish farm, 10 nurseries and 3 rearing farms with induced car spawning centre at Petchiparai have been established in 1980. Another fish farm was established at Manakudy in 1.72 hectares of land with 3 farm ponds and a reservoir was formed enclosing a portion of the lake. The main purpose for which the farm was established is to collect scientific data on the estuary and to study bio-chemical aspects of these waters in promoting general fishery of all estuaries of Tamil Nadu. Mariculture Research is also done to promote prawn fishery which is a foreign exchange earner.

With a view to modernise the fishing and thereby improving the socio-economic condition of the fishermen, mechanised fishing boats and nylon twin for fabrication of nets were supplied to them at subsidised cost from 1957 onwards. From 1974 onwards, the Tamil Nadu Fisheries Development Corporation has taken up the task of supplying mechanised boats to encourage and develop inland fishing. The Fish Farmers Development Agency is functioning since 2.6.1982. There are 40 Marine Fishermen Cooperative Societies, 10 Inland Fishermen Co-operative Societies, One Fish Production-cum-Marketing Society and the District Fishermen Co-operative Federation to look after the interest of the fishermen.

A new fishing harbour is under construction at Chinnamuttam which is about 5 Km. north of Cape Comorin. The fishing harbour project contemplates the construction of a shore connecting greyne in the northern side and a breakwater in the southern side to create necessary tranquility conditions to berth the fishing vessels. The estimated cost of the project is Rs.684 lakhs. There is also a proposal for providing infrastructural facilities at Muttam as a naturally sponsored scheme with an estimated cost of Rs.12.60 lakhs.

A scheme for the construction of additional fish seed rearing facilities at Chittar Dam II to produce 5 lakh fish seeds under the Western Ghat Development Programme has been approved by the Government vide G.O. Ms. No.50 Planning and Development dated 19.4.1988.

Mineral Resources

Khondalites and the Charnockites are the major group of rocks in the district. Charnockites group consists mainly of acid Charnockites, Pyrozene granulites and associated migmatities. Sandstones and Clays of tertiary age also occur in the south-west of Kuzhittura. Shell limestones of sub - recent age occur near Kanniyakumari, Vattakottai and Kanagappapuram. The major part of the area in south and east of the Kanniyakumari-Trivandrum highway between Nagercoil and Kaliyakkavilai is occupied by thick laterite and lateritic soil dotted with out crops of Khondalites. Ancient pebble beds and pigmatite veins are also seen in this area.

The district is blessed with unique mineral deposit of "Rare Earth Mineral Sands". Deposits of heavy mineral placers containing ilmenite, rutile, zircon, leucezene, sillimanite, garnet and monazite occur along the western coast for a distance of 1.6 Kms near Manavalakurichi. Indian Rare Earths Limited, an undertaking of the Government of India, has set up a mineral separation plant for the production of individual fractions and it produces 72,000 metric tonnes of ilmenite per annum and other minerals proportionately.

Recently, in Thadikarankonam area of Thovala taluk, occurrence of some precious stone, viz., chrsoberyl is reported and the Geology Department has carried out detailed geological investigation.

Trade and Commerce

Kottar within Nagercoil Municipal limit is a busy paddy milling centre. Fish is exported to Sri Lanka and plantains, vegetables, coconut, timber, pepper and rubber are sent to Kerala and other parts of Tamil Nadu. Coir products, cashew kernel and brushes are exported to foreign countries.

Transport and Communication

The nearest airport is at Trivandrum, 86 Kms from Nagercoil. Kanniyakumari has railway terminals and is connected by broad gauge to Tirunelveli and Trivandrum. Nagercoil is the junction for both the sections. The district is provided with good motorable roads maintained by the Highways Department. The trunk road from Madras to Nagercoil and then to Trivandrum enters the district near Aralvoimozhi and passes through the important places over a distance of 62 Kms and thereafter, enters Kerala State. The Nesamani Transport Corporation is operating in 329 routes with a fleet strength of 545 buses. The district is well covered with bus transport facilities.

The port of Colachel is an ancient one, claimed to be the only natural port in the west coast in which ships can come very near the shore. Foreign streamers call to load palmyrah fibre and mineral sands. Loading and unloading of cargoes are done during the fair weather which is generally from the middle of November to the middle of March.

Post and Telegraph Office

The Postal, Telegraph and Telephone facilities available in the district are as follows :

1. Gazetted Head Office	1
2. Post office with telegraph facilities	42
3. Higher Selection Grade Head Post Offices HSG-I	1
4. Higher Selection Grade Sub-Office	- -
5. Lower Selection Grade Sub-Office	13
6. Time Scale Sub-Offices	62
7. Extra Department Sub-Offices	30
8. Extra Departmental Branch Offices :	
i) Stationery Offices	149
ii) Mobile Offices	- -

Telephone exchanges	
1. No. of Telephone Exchanges	26
2. No. of Telephone Connections	8951
3. No. of Coin collecting boxes	31
4. Local Public Telephones	162
5. Panchayat Public Telephones	18
6. Departmental STD and PCOs	2
7. Public Call Offices manned by handicapped persons	
a) Local PCO	2
b) STD and PCO	2
8. STD point in private premises	67

Electricity

The district is fed by 110 KV supply from Kodyar from one end and from Tuticorin from the other end. There are 5 sub-stations at Nagercoil Thuckalay, Petchiparai, Kuzhittura and Kanniyakumari. Kanniyakumari district is one of the few districts in the country where all villages and towns have been electrified, 2,891 agricultural pumpsets have been energised in the district and 2,812 huts were given power supply. The total utilisation of power in the district is 76.19 million units per year.

Non-Conventional Energy Development

In the district there are 22 units of 150 KV Wind Mills established at Muppandal in Aralvoimozhy village at a cost of Rs.152.8 lakhs for generation of non-conventional energy.

Education

In literacy, Kanniyakumari district stands first among the districts of the State. The literacy rate is 82.06% as per 1991 Census. Percentage of literacy among males is 85.70 while females is 78.39%. Educational institutions by category and number available in the district are as follows :

	No. of Institutions	
	Government	Private
Colleges	- -	13
Higher Secondary School	33	56
High School	66	51
Middle School	106	61
Primary School	212	100
Teacher's Training School	3	2

Industry

There are 4 large scale industries of which two are spinning mills. The Indian Rare Earth Ltd., at Manavalakurichi is really a matter of pride for the district as the largest quantity of ilmenite in the world is being produced from this factory. The fourth industry is Tea Flour situated at Ammandivilai which manufactures coir mat allied finished products using the coir produced in the surroundings.

The Travancore Minerals Limited established its unit at Manavalakurichi which was taken over by the Government of India from the then Travancore - Cochin Government. This factory is now named as Indian Rare Earth Factory. It separates the various components of sand, the most important being monozite which contains approximately 9% Thorium and Uranium put together. Among the commercially valuable components, the most important is ilmenite, which serves as a valuable raw material in various industries. Zircon is the other commercial product which is principally used in the manufacture of high temperature refractories etc. These products have a good export market.

The abundant supply of raw materials like rubber, tapioca, palmyrah products, bamboos, woods of all kinds, coconut products etc., helps promoting both large scale and small scale industries. It is worth mentioning that rubber industry and coir industry are in progress in this district with a Government Coior Training School at Eathamozhi. The Industrial Estate at Nagercoil and Industrial Colony at Kappicaud near Marthandam should also be taken into account as a sign of Industrial Development in the district.

Cashew Kernel Processing Industry

As a foreign exchange earner, this industry has a distinct place in the industrial map of Kanniyakumari district. There are 175 cashew industries which provide employment for about 2,000 women.

The District Industries Centre is identifying prospective entrepreneurs and issuing certificates for provisional small scale industries registration. They also give financial assistance and technical guidance to start small scale industries. There are about 2,010 permanent small scale industrial units and 2,702 provisional small scale industrial units.

The Government is also encouraging unemployed graduates and others to start industries giving financial assistance and technical guidance. Indian Overseas Bank is the lead Bank in Kanniyakumari district and is acting as District Co-ordinator between the bank and the Government Agencies for the preparation of credit plan for the district monitoring the smooth implementation of all Government sponsored programmes like JVVT, IRDP, MAPP, Self-Employment scheme, THADCO, etc. The annual credit plan for Kanniyakumari district for 1991-92 is Rs.50.14 crores. There are 138 bank branches operating in the district which include 99 public sector bank branches and 16 co-operative bank branches.

Cottage Industries

As per 1991 Census, there are 14,161 looms in the district. There are 77 Weavers Co-operative Societies. The bulk of the production of handloom fabrics consists of dhoties and towels. Vadaseri in Agastiswaram taluk produces handloom goods which are popular through out the state. The following are the important cotton hand weaving centres in the district which produce towels, dhoties and sarees :

1.	Vadasery	5.	Kollencode
2.	Neendakarai	6.	Nattalam
3.	Kolachel	7.	Eraniel
4.	Killiyoor		

There are 697 cottage and 3,537 handicraft industries in the district.

Coir Industry

Coir industry is carried on along the coastal areas from Cape Comorin in the south to Kollencode in the north. About 95% of the coir produced in the district is sent to places outside the district. There are 424 Co-operative Coir Societies functioning at present. It is worth mentioning that a Government coir school at Eathamozhi is functioning wherein youngmen are trained every year.

Honey Processing

The Y.M.C.A. Rural Reconstruction Centre at Marthandam (one of the oldest institutions in India) and its branch at Muzhucode are a boon for those engaged in bee-keeping and its products are much in demand throughout the nation.

Medical And Public Health

In this district, there are 22 Primary Health Centres including 9 regular Primary Health Centres, 3 Community Health Centres, New Primary Health Centres, and Additional Primary Health Centres. Rural Health Training Centre are functioning in Primary Health Centres at

Chempakaramanputhoor, Rajakkamangalam and Kothanallur. In this centres, 18 to 20 female trainees (Multi-purpose Health Workers) are being given training for 6 months period. The Government Hospital located are as follows :

1. Government Headquarters Hospital, Nagercoil
2. Government Hospital, Padmanabhapuram
3. Government Hospital, Kuzhittura
4. Government Hospital, Boothapandy
5. Government Hospital, Kolachel
6. Government Hospital, Arumanai
7. Government Hospital, Kulasekaram

Siddha dispensaries are functioning in 9 Primary Health Centres, one Community Health Centre and 2 Taluk Headquarters Hospitals. Mobile Medical Unit is covering the areas far off from Primary Health Centres.

Temples and Places of Tourist Importance

Though Kanniyakumari is a small district in Tamil Nadu, it has a number of places of tourist importance. Some of the well known places are given below :

Kanniyakumari

By its very location, Kanniyakumari occupies unique place among the tourist centres of India. It is at the end of the Indian Penninsula, where waters of the three seas - the Arabian Sea, the Indian Ocean and the Bay of Bengal join. It is one of the important pilgrim centres of India. A fine beach landscape with sands of many colour is another interesting aspect of Kanniyakumari. From the beautiful beach, one can simultaneously seen the glorious sight of the moon rising up on the east and the sun setting on the west on a full-moon day. Palm leaf utility articles of Kanniyakumari, are very famous. There is a sacred ancient temple dedicated to Goddess Kanniyakumari, the virgin Goddess from which the district derives its name. The temple is a symbol of unity and sanctity. The temple festival in May and scenic beauty of the place attracts thousands of pilgrims and tourists.

The beautiful Gandhi Mandap completed in 1956 is situated here as a memorial to "Father of the Nation". An urn containing Mahatma Gandhi's ash is kept here for public to pay homage. Architecture of the building allows rays of the sun to fall on the spot, where the urn was kept on 2nd October, Mahatma Gandhi s Birthday.

There is a Roman Catholic Church dedicated to virgin Mary which said to have been constructed by the Jesuit Missionary of St. Francis Xavier in the 16th Century. There is a Fruit Research Station about 2 Kms from Cape Comorin on the enroute to Nagercoil. This was started by the Travancore Royal Family in 1922.

Vivekananda Memorial

There are tow rocks projecting out of the ocean, south-east of Kanniyakumari temple. These rocks provide an ideal vantage point for visitors desiring to view the land's end of India. It was on one of these rocks that Swami Vivekananda sat in long and deep meditation, when he visited Kanniyakumari in 1892. On this rock stands the "Vivekananda Rock Memorial" built in 1970 with a blend of all the architectural styles of India. A statue of Swami Vivekananda has been installed inside the memorial building. One can also see "Sri Padha Parai", the foot prints of the virgin Goddess Kanniyakumari on this rock. Boat services are available to this memorial. Adjacent to this rock the Government of Tamil nadu proposed to install a statue of the Great Tamil Saint Thiruvalluvar, the author of the famous "Thirukkural".

Suchindrum

This is a small village situated about 5 Kms on the road from Nagercoil to Kanniyakumari. There is a beautiful ancient sacred temple in this village dedicated to Sthanumalaya Perumal. The Triumurties, Brahman, Vishnu and Siva are worshipped here. The temple widely known for its sanctity, architectural beauty and antiquity attracts large people during the festivals in April and December. According to one legend, it is at this place that Indra, the King of 'Devas', was relieved of the curse inflicted on him by the sage Gautama for his wrongful behaviour towards the sage's wife, Ahalya. Hence, the name Suchindrum means the place where Indra was purified. Indra, therefore, built the temple and dedicated it to Stanulingam as a mark of gratitude.

Padmanabhapuram

Capital of Travancore until 133 AD, Padmanabhapuram is situated on the Nagercoil - Trivandrum road and at about 2 Km to the north of Thackalai. The ancient palace of the former Maharaja of Travancore is also situated here. This palace covers an area of 6 acres (2.4 hectares). There are two temples inside the Padmanabhapuram Fort known as Ramaswami temple and Neelakantaswami temple. In the Ramaswami temple, scenes from Ramayanam have been carved in 45 panels. The palace is of artistic and archaeological value. Another attraction is about the 400 years old clock in the palace made by a local blacksmith.

Thiruvattar

This is a small village situated on the banks of the river Thiruvattar, about 11 Kms. from Thackalai. It is the seat of the Adikesava temple

and is one of the 13 sacred places of the Vaishnavities. This temple built about 1100 years ago contains inscriptions of great value relating to some of the Chola and Travancore Kings. The vestiges of old mural paintings belonging to a period not later than the 17th Century are seen in a damaged condition on the walls of the inner shrines. Wood carving adorns some structures.

Udayagiri Fort

Udayagiri Fort is located 14 Kms away from Nagercoil. This was the most important military station of the Travancore rulers when they were having Padmanabhapuram as their capital. It was stated to have been originally built in the year 1600 AD and then Marthanda Varma rebuilt it. It is reported that a brass gun of 16 feet long bored as a 22 pounder found inside the fort could not be moved even a few yards by 1200 persons with the help of 16 elephants. East India Company's troops were stationed there till the middle of the 19th century. The fort enclosed with an area of about 36 hectares (90 acres) and contains an isolated hill. 86 metres (260 feet) high which affords a panoramic view of the surrounding country. The tombs of Dalhousie, his wife and his son can be seen inside a partly ruined chapel in the fort.

Circular Fort (Vattakottai)

This 18th century fort overlooking the sea is worth visiting. It is located at a distance of 6 Kms from Kanniyakumari. It is also a fine picnic spot. Here, the sea is calm and suitable for bath.

Kolachel

This sea-coast town is situated about 22 Kms west of Nagercoil. It was a port of call for European merchants during the 16th to 18th centuries. The Dutch and the English had trading settlements here. It was the scene of a combined naval battle in August, 1741, in which Marthanda Varma inflicted a crushing defeat on the Dutch. This victory is commemorated by a pillar erected at the site. A variety of commodities is exported from here, prominent among them being palmyrah and its fibre, mineral sands, fish and salt. Efforts are being made by the Port Advisory Committee for the construction of a ship-yard and for the development of a natural harbour in Kolachel.

Brief analysis of Village and Town Directory and Primary Census Abstract

A brief analysis relating to certain population characteristics is made utilising the information collected in the Village and Town directory and the census data in PCA. A number of tables have been designed for this purpose. The tables are generated at the district, taluk and CD block level for the rural areas and in regard to urban areas, townwise particulars are presented.

TABLE - 1 (A)

POPULATION, NUMBER OF VILLAGES, 1991

Sl.No.	Name of CD Block	Population of Villages			No. of Villages	
		Persons	Males	Females	Total	Inhabited
1	2	3	4	5	6	7
1.	Melpuram	173426	86422	87004	10	10
2.	Killiyoor	151034	76515	74519	7	7
3.	Munchira	175454	88584	86870	7	7
4.	Kurunthancode	168810	85460	83350	8	8
5.	Thackalai	162019	81739	80280	9	8
6.	Thiruvattar	159182	80261	78921	11	11
7.	Thovala	97802	49117	48685	21	14
8.	Agastiswarm	115188	56778	58410	13	12
9.	Rajakkamangalam	127325	63980	63345	8	8
	DISTRICT	**1330240**	**668856**	**661384**	**94**	**85**

This table furnishes C.D.Blockwise and sexwise population of rural areas of Kanniyakumari district. It is seen from the table that there are highest number of 21 villages in Thovala Block and the lowest 7 villages each in Killiyoor and Munchira Block. In Thovala Block, among the total 21 Villages, only 14 villages are inhabited. Thovala Block has the lowest population and Munchira has the highest population.

TABLE - 1 (B)

POPULATION AND NUMBER OF TOWNS, 1991

Sl.No.	Name & Civic Administration Status of Town	Population		
		Persons	Males	Females
1	2	3	4	5
1.	Kanniyakumari (P.T.S.)	17225	8682	8543
2.	Kolachel (M)	24305	12320	11985
3.	Kuzhittura (M)	19226	9467	9759
4.	Nagercoil (M)	190084	94834	95250
5.	Padmanabhapuram (M)	19269	9680	9589
	ALL TOWNS	**270109**	**134983**	**135126**

Of the 5 urban areas in the district, Nagercoil Municipality has the highest population touching nearly 2 lakhs (190.084), while Kanniyakumari has the lowest with 17,225 persons.

TABLE - 2

NEW TOWNS / TOWNS DECLASSIFIED, MERGED IN 1991 CENSUS

Name of Town	Population
1	2
(a) Added	(Nil)
(b) Declassified	(Nil)
(c) Wholly merged with other	(Nil)

Table - 2 reveals that no new towns have emerged in Kanniyakumari district during 1991 Census.

TABLE -3

DECADAL CHANGE IN DISTRIBUTION OF POPULATION

Sl. No.	Taluk	Population						Percentage Decadal Variation (1981 - 1991)			Percentage of Urban Population	
		1981			1991							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1981	1991
1	2	3	4	5	6	7	8	9	10	11	12	13
1.	Vilavankod	458590	440163	18427	5191 40	499914	19226	+13.20	+13.57	+ 4.34	4.02	3.70
2.	Kalkulam	476633	435263	41370	533585	490011	43574	+11.95	+12.58	+ 5.33	8.68	8.17
3.	Thovala	88176	88176	- -	97802	97802	- -	+10.92	+10.92	- -	- -	- -
4.	Agastiswaram	400000	214265	187735	449822	242513	207309	+12.46	+13.18	+10.43	46.93	46.09
District		**1423399**	**1177867**	**245532**	**1600349**	**1330240**	**270109**	**+12.43**	**+12.94**	**+10.01**	**17.25**	**16.88**

This table deals with decadal changes in the distribution of population for the different taluks of Kanniyakumari district. It is seen that Thovala taluk has shown the lowest growth rate of 10.92% while Vilavankod taluk has the highest growth rate of 13.20%, but the range of difference and the growth rates themselves are small.

TABLE - 4

PERCENTAGE DISTRIBUTION OF VILLAGES BY POPULATION RANGE , 1991

Name of C.D. Block.	No. and Percentage of inhabited villages	No. and percentage of villages in each range (Figures in parenthesis indicate percentage of villages in each range)					
		Less than 200	200 - 499	500 - 1,999	2,000 - 4,999	5,000 - 9,999	10,000 and above
1	2	3	4	5	6	7	8
1. Melpuram	10 (100.00)	- -	1 (10.00)	- -	- -	- -	9 (90.00)
2. Killiyoor	7 (100.00)	- -	- -	- -	- -	- -	7 (100.00)
3. Munchira	7 (100.00)	- -	- -	- -	- -	- -	7 (100.00)
4. Kurunthancode	8 (100.00)	- -	- -	- -	- -	- -	8 (100.00)
5. Thackalai	8 (100.00	- -	- -	1 (12.50)	- -	1 (12.50)	6 (75.00)
6. Thiruvattar	11 (100.00)	- -	1 (9.09)	1 (9.09)	1 (9.09)	- -	8 (72.73)
7. Thovala	14 (100.00)	- -	1 (7.14)	1 (7.14)	4 (28.57)	4 (28.57)	4 (28.57)
8. Agastiswaram	12 (100.00)	- -	- -	- -	1 (8.33)	6 (50.00)	5 (41.67)
9. Rajakka-mangalam	8 (100.00)	- -	- -	- -	1 (12.50)	1 (12.50)	6 (75.50)
District	**85 (100.00)**	- -	**3 (3.53)**	**3 (3.53)**	**7 (8.23)**	**12 (14.12)**	**60 (70.59)**

This table deals with the percentage distribution of villages by population ranges. It is seen that the maximum of inhabited villages in the district viz., 60 are in the population range of 10,000 and above. There are only three villages in the population range of 200 -499 while there is no village at all in the smallest population size of less than 200 which indicates that the villages in the district are fairly big in size.

TABLE - 5

DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq.km)	Total No. of Villages in each density range	Percentage of Villages in each density range
1	2	3
0 - 10	4	4.70
11 - 20	- -	- -
21 - 50	1	1.18
51 - 100	1	1.18
101 - 200	2	2.35
201 - 300	1	1.18
301 - 500	7	8.23
501 +	69	81.18
Not known	- -	- -
Total	**85**	**100.00**

Tabel 5 provides the data on the distribution of villages by density. It shows that most of the villages are in the density range of 501 per sq.km. and above. There are only 4 villages comes in the range of 0-10 per sq.km.

TABLE - 6 (B)

SEX RATIO FOR TOWNS, 1991

Sl. No.	Name and civic administration status of town	Number of females per, 1,000 males
1	2	3
1.	Kanniyakumari (PTS)	984
2.	Kolachel (M)	973
3.	Kuzhittura (M)	1,031
4.	Nagercoil (M)	1,004
5.	Padmanabhapuram (M)	991
	All Towns	**1,001**

Table 6(B) furnishes the sex ratio for Town Population. This table shows that the number of female population is higher than male Population in Kuzhittura and Nagercoil towns with a ratio of 1031 & 1004 respectively. Kolachel stands the lowest with 973 females per 1000 males.

TABLE - 6 (A)

SEX RATIO AMONG RURAL POPULATION BY C.D. BLOCK, 1991

Sl. No.	Name of C.D.Block	Number of Females per 1,000 Males
1	2	3
1.	Melpuram	1007
2.	Killiyoor	974
3.	Munchira	981
4.	Kurunthancode	975
5.	Thackalai	982
6.	Thiruvattar	983
7.	Thovala	991
8.	Agastiswaram	1029
9.	Rajakkamangalam	990
	District	**989**

This table brings out the ratio of female population per 1000 male population in this district. The highest sex ratio (1029) is found in Agastiswaran Block and the lowest in Killiyoor Block (974).

TABLE - 7

PROPORTION OF SCHEDULED CASTE POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Caste Population to total Population	No. of villages in each range	Percentage of Villages in each range
1	2	3
Nil	2	2.35
0-5	46	54.12
6-10	19	22.35
11-15	9	10.59
16-20	3	3.53
21-30	5	5.88
31 and above	1	1.18
Total	**85**	**100.00**

It can be seen from the above table that a large number of 67 villages have Scheduled Caste Population of below 10 per cent. In the ranges above10 per cent there are small number of villages in each range.

TABLE - 8

PROPORTION OF SCHEDULED TRIBE POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Tribe Population to total Population	No. of villages in each range	Percentage of Villages in each range
1	2	3
Nil	40	47.06
0-5	42	49.41
6-15	3	3.53
16-25	- -	- -
26-35	- -	- -
36-50	- -	- -
51 and above	- -	- -
Total	**85**	**100.00**

This table shows the ST population in the villages of Kanniyukumari district. It is noted that in the percentage range of less than 5, there are as many as 42 villages (nearly half) (49.41%), while there are only 3 villages (3.53%) in the range of 6-15% Population and there is no ST population in as many as 40 villages.

TABLE - 9

PERCENTAGE OF SCHEDULED CASTE / SCHEDULED TRIBE POPULATION, IN TOWNS - 1991

Sl. No.	Name of Town	Total Population	Total SC Population	Total ST Population	Percentage of SC Population to Total Population	Percentage of ST Population to Total Population
1	2	3	4	5	6	7
1	Kanniyakumarai	17225	293	146	1.70	0.85
2.	Kolachel	24305	580	4	2.39	0.02
3.	Kuzhittura	19226	379	42	1.97	0.22
4.	Nagercoil	190084	7483	342	3.94	0.18
5.	Padmanabhapuram	19269	2225	10	11.55	0.05
All Towns		**270109**	**10960**	**544**	**4.06**	**0.20**

This table gives the proportion of SC and ST population in different towns of Kanniyakumari district. It is seen that Padmanabhapuram town has recorded the highest percentage of Scheduled Caste Population with 11.55 per cent while Kanniyakumari town has registered the highest percentage of Scheduled Tribe Population with 0.85 percent. In Kanniyakumari town, the percentage of Scheduled Caste Population is the lowest with 1.70 % and in Kolachel town the percentage of Scheduled Tribe population is only 0.02 %. The ST population in all the towns in the district is less than one per cent.

TABLE - 10 (A)

LITERACY RATES BY RURAL POPULATION OF C.D. BLOCKWISE

(Excluding children in the age group 0 - 6)

Sl. No.	Name of C.D Block	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1.	Melpuram	79.58	84.23	74.98
2.	Killiyoor	79.97	83.71	76.14
3.	Munichira	76.54	80.30	72.71
4.	Kurunthancode	81.17	84.47	77.80
5.	Thackalai	82.96	86.17	79.67
6.	Thiruvattar	78.83	82.16	75.45
7.	Thovala	82.15	86.74	77.52
8.	Agastiswaram	84.92	89.25	80.77
9.	Rajakkamangalam	83.30	87.07	79.51
District		**80.76**	**84.56**	**76.93**

It may be observed from table - 10 (A) that the rural literacy rate of Agastiswaram Block stands first in the order with 84.92 per cent in Kanniyakumari district, while Munchira stands at the lowest with 76.54 percent. The general literacy rates among both the sexes are fairly high in all C.D.Blocks.

TABLE - 10 (B)

LITERACY RATES FOR TOWNS - 1991 (Excluding children in the age group 0 - 6)

Sl. No.	Name and Civic Administration Status of Town	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1.	Kanniyakumari (P.T.S.)	79.70	79.37	80.04
2.	Kolachel (M)	81.23	82.72	79.68
3.	Kuzhittura (M)	87.55	91.18	84.06
4.	Nagercoil (M)	90.19	93.43	87.00
5.	Padmanabhapuram (M)	87.20	91.50	82.87
All Towns		**88.36**	**91.29**	**85.44**

This table furnishes the literacy rates of all the census towns in Kanniyakumari district. The literacy rate in the urban areas varied by 10.49 per cent from 90.19 per cent in Nagercoil town to 79.70 per cent in Kanniyakumari town. However, the literacy rates are fairly high in all the towns.

TABLE - 11 (A)

PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON - WORKERS FOR RURAL POPULATION OF C.D. BLOCK, 1991

Sl. No.	Name of C.D Blocks	Percentage of											
		Main workers to Total Population			Marginal workers to Total Population			Total workers to Total Population			Non-workers to Total Population		
		P	M	F	P	M	F	P	M	F	P	M	F

9.	Rajakka-mangalam	30.15	52.03	8.05	0.99	0.07	1.91	31.14	52.10	9.96	68.86	47.90	90.04
	District	**29.12**	**49.46**	**8.56**	**1.58**	**0.70**	**2.47**	**30.70**	**50.16**	**11.03**	**69.30**	**49.84**	**88.97**

This table gives, blockwise distribution of main workers, marginal workers, total workers and non-workers of rural population. The above information furnishes sex-wise population. The percentage of main workers to total population of Kanniyakumari district works out to 29.12% (49.46% among males and 8.56% among females). In this district, percentage of marginal workers of rural population is very low i.e., 1.58% to total population, (0.70% among males and 2.47% among the females). Among the non-working population, females stand a very high proportion, i.e., 88.97 per centage.

TABLE - 11 (B)

PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON - WORKERS FOR TOWNS, 1991

Sl. No.	Name and Civic administration Status of Town	Percentage of											
		Main workers to Total Population			Marginal workers to Total Population			Total workers to Total Population			Non-workers to Total Population		
		P	M	F	P	M	F	P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1.	Kanniyakumari (PTS)	29.99	52.29	7.32	2.79	0.35	5.28	32.78	52.64	12.60	67.22	47.36	87.40
2.	Kolachel (M)	27.46	49.98	4.32	0.83	0.04	1.64	28.29	50.02	5.96	71.71	49.98	94.04
3.	Kuzhittura (M)	25.58	41.99	9.66	1.21	0.53	1.87	26.79	42.52	11.53	73.21	57.48	88.47
4.	Nagercoil (M)	28.84	47.79	9.98	0.81	0.30	1.30	29.65	48.09	11.28	70.35	51.91	88.72
5.	Padmanabha-puram (M)	26.73	44.28	9.02	2.91	1.90	3.93	29.64	46.18	12.95	70.36	53.82	87.05
	All Towns	**28.41**	**47.62**	**9.22**	**1.11**	**0.41**	**1.81**	**29.52**	**48.03**	**70.03**	**70.48**	**51.97**	**88.97**

This table deals with the percentage of main workers, marginal workers and non-workers to total population. The percentage of urban main workers to total population of Kanniyakumari town works out to 29.99%, which shows the highest rate. The highest percentage of non-workers (73.21%) is returned from Kuzhittura town and lowest from Kanniyakumari town with 67.22%.

TABLE - 12

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Sl. No.	Name of CD Blocks	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities							
			Educa-tional	Medical	Drinking water	Post & Tele-graph	Market/ Hat	Communi-cations	Approach by pucca road	Power supply

This table furnishes the proportion of rural population of inhabited villages served by different amenities. The population of all the inhabited villages in the district is, 1,330,240 in which 99.87% of the population are served with the amenities of Education, Communication, Pucca Road and Power Supply. Medical facility is available to 97.94% of the rural population. The basic amenity of drinking water is available in all the villages in Kanniyakumari district. Market/hat facility is available to 42.38% of the population in this district. Post and Telegraph facility is available to 99.26% of the population.

TABLE - 14

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Village not having the amenity of	Number of villages where the amenity is not available and available at a distance of			
	0 – 5 Kms.	5 - 10 Kms.	10 + Kms.	Total (Cols. 2 – 4)
1	2	3	4	5
Educational	1	3	- -	4
Medical	3	6	- -	9
Drinking Water	- -	- -	- -	- -
Post and Telegraph	3	4	- -	7
Market / Hat	24	15	14	53
Communications	- -	4	- -	4

The above table highlights the distribution of villages not having certain amenities, arranged by distance ranges from the places where such facilities are available. Out of the total 85 inhabited villages, medical and post and telegraph amenities are not available in 9 and 7 villages respectively. Regarding the amenity of market/hat, only 32 villages have this facility out of the 85 inhabited villages. All the 85 inhabited villages have drinking water facility. Only 4 villages each out of 85 inhabited villages do not have education and communication facilities.

TABLE - 15

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest town (in Kms)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
		Educa-tional	Medical	Drinking water	Post & Telegraph	Market/ Hat	Communi-cations	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
0 - 5	18	18 (100.00)	17 (94.44)	18 (100.00)	17 (94.44)	6 (33.33)	18 (100.00)	18 (100.00)	18 (100.00)

16 - 50	10	6 (60.00)	5 (50.00)	10 (100.00)	5 (50.00)	1 (10.00)	6 (60.00)	5 (50.00)	6 (60.00)
51 +	- -	- -	- -	- -	- -	- -	- -	- -	- -
Unspecified	- -	- -	- -	- -	- -	- -	- -	- -	- -
Total	**85**	**81 (95.29)**	**76 (89.41)**	**85 (100.00)**	**78 (91.76)**	**32 (37.65)**	**81 (95.29)**	**79 (92.94)**	**81 (95.29)**

This table highlights the distribution of inhabited villages according to the distance from the nearest town and availability of different amenities. Among the total 85 inhabited villages in this district, 18 villages come under the distance range of below 5 Kms, from the nearest town. They avail fairly high proportion of amenities of education, drinking water, communications, pucca road and power supply. It is noteworthy that all the inhabited villages in this range avail the amenity of drinking water. Same is the case with regard to the 57 villages in the distance range of 6-15 Kms, from the nearest town. Only 3 villages do not have medical facility while one village each do not have post and telegraph and approach roads. Market facility is not available to nearly three-fourth (56.14 per cent of the villages. Half or a little over half of the villages with the distance range of 16-50 Kms, from the nearest town avail the amenities of education, medical, communication and power supply, while drinking water facility is available to all villages.

TABLE - 16

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

Population Range	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
		Educa-tional	Medical	Drinking water	Post & Telegraph	Market/ Hat	Communi-cations	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
- 499	3	- -	- -	3 (100.00)	- -	- -	- -	- -	- -
500 - 1,999	3	2 (66.67)	- -	3 (100.00)	1 (33.33)	- -	2 (66.67)	2 (66.67)	2 (66.67)
2,000 - 4,999	7	7 (100.00)	6 (85.71)	7 (100.00)	5 (71.43)	1 (14.29)	7 (100.00)	7 (100.00)	7 (100.00)
5,000+	72	72 (100.00)	70 (97.22)	72 (100.00)	72 (100.00)	31 (43.06)	72 (100.00)	70 (97.22)	72 (100.00)
Total	**85**	**81 (95.29)**	**76 (89.41)**	**85 (100.00)**	**78 (91.76)**	**32 (37.65)**	**81 (95.29)**	**79 (92.94)**	**81 (95.29)**

This table shows the distribution of inhabited villages according to different population ranges and amenities available. There are four categories of population ranges in which 3 inhabited villages come under the population range of below 500. All these villages avail drinking water facility and do not enjoy any other amenities. In the population range of 500-1,999, there are 3 villages. The amenities of education, communication, pucca road and power supply are available for 2 of the three villages and only one village got the facility of post and telegraph. Medical and market facilities are not available to any of these three villages. In the villages that come under the population range of 2,000-4,999, the amenities of education, drinking water, communication, pucca road and power supply are available to all the seven villages and medical facility and post and telegraph facilities are available to 6 and 5 villages respectively while market facility is available in one village. In the population range of 5000 and above there are as many as 72 villages out of the total 85 villages in the district. The amenities of education, drinking water, post and telegraph, communication and power supply are available in all the 72 villages. It is reported that 70 villages avail the amenity of medical, 31 villages provided with market/hat and 70 vilages have pucca road facility in this range.

TABLE - 17

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE

Sl. No.	Name of CD. Block	No. of inhabited villages	Total Area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1.	Melpuram	10	27411.05	51.43	11.78
2.	Killiyoor	7	8037.97	88.25	23.07
3.	Munchira	7	7202.54	87.40	14.67
4.	Kurunthancode	8	10892.74	75.59	45.89
5.	Thackalai	8	13172.86	71.35	27.04
6.	Thiruvattar	11	34202.42	33.24	19.20
7.	Thovala	14	36879.21	26.75	75.04
8.	Agastiswaram	12	13254.20	50.65	93.05
9.	Rajakkamangalam	8	11059.91	36.54	76.78
	District	**85**	**162112.90**	**47.56**	**38.23**

This table gives the distribution of inhabited villages of Kanniyakumari district according to land use. It is seen that out of total area of 162112.90 hectares in the district, the percentage of cultivable area to total area is 47.56 of which the irrigated area is only 38.23 per cent. Cultivated area is more than 70 per cent in Killiyoor, Munchira, Kurunthancode and Thackalai Panchayat Unions (C.D.Blocks) and more than 50 per cent in Melpuram and Agastiswaram Panchayat Unions. While in the remaining 3 blocks or Panchayat Unions except in Rajakkamangalam Union where it is 36.54 per cent, in the other unions it is less than one-third of the total area. It could also be seen from the above table that in the unions where the percentage of cultivable area is less, the proportion (percentage) of irrigated land is comparatively more and similarly the converse also is found to be true. In Agastiswaram Union, nearly half of the total area is cultivable and most of it (93.05 per cent) is irrigated. Very small proportion of land is irrigated in Munchira (14.67 per cent) and Melpuram (11.78 per cent) Unions. In Kurunthancode Union, three-fourth of the total land is cultivable and its irrigated area is 45.89%.

TABLE - 18

PER CAPITA RECEIPT AND EXPENDITURE IN TOWNS

Sl.No.	Class, Name and Civic administration status of town	Per Capita								
		Receipt			Expenditure					
		Total	Receipt through taxes	Receipt from all other sources	Total expen-diture	General adminis-tration	Expen-diture on pub-lic health and con-veiences	Public works	Expen-diture on public in-stitutions	Other aspects
1	2	3	4	5	6	7	8	9	10	11
1.	IV Kanniya-kumari (PTS)	185.78	40.64	145.14	220.61	15.67	23.22	17.42	- -	164.30
2.	III Kolachel (M)	91.09	16.95	74.14	86.90	9.30	19.87	18.52	2.39	36.74
3.	IV Kuzhittura (M)	169.86	55.92	113.94	164.22	22.52	35.79	35.87	- -	70.04
4.	I Nagercoil (M)	102.94	75.83	27.11	87.24	17.03	28.73	24.98	- -	16.50
5.	IV Padmanabha-puram (M)	78.18	28.54	49.64	83.48	21.48	22.46	20.15	- -	19.39
	All Towns	**110.15**	**63.50**	**46.65**	**100.93**	**16.96**	**27.64**	**24.35**	**0.22**	**31.76**

This table furnishes per capita receipt and expenditure in each town. On the receipt side, the receipt through taxes and from other sources are furnished, while on the expenditure side, the total expenditure incurred on general administration, public health and conveniences, public works, public institutions and on other aspects are furnished. Out of the five towns in Kanniyakumari district, the expenditure is less than receipt in three towns. The receipt and expenditure are high in Kanniyakumari Panchayat Township compared to the remaining four municipal towns. Direct or indirect income from pilgrims seems to be the reason for higher per capital receipt and expenditure in Kanniyakumari inspite of it being a small non-municipal town.

TABLE - 19

SCHOOLS PER 10,000 POPULATION IN TOWNS

Sl. No.	Class, Name and Civic administration status of town	No. Per 10,000 Population			
		Higher Secondary/ Inter/ PUC / Junior College	Secondary/ Matriculation	Junior Secondary / Middle	Primary
1	2	3	4	5	6
1.	IV Kanniyakumari (PTS)	0.58	1.16	1.74	2.90
2.	III Kolachel (M)	0.82	1.23	1.65	3.29
3.	IV Kuzhittura (M)	3.12	3.64	3.64	4.68
4.	I Nagercoil (M)	0.63	0.84	1.21	1.74
5.	IV Padmanabhapuram (M)	1.56	2.59	2.59	4.67
	All Towns	**0.89**	**1.22**	**1.56**	**2.37**

It is seen from the above table 19 that every 10,000 urban population in Kanniyakumari district, the ratio of Higher Secondary Schools is 0.89, Secondary Schools is 1.22, Middle Schools is 1.56 and Primary Schools is 2.37. It is interesting to note that all the five towns shows fairly high proportions of educational institutions. All the five towns have Higher Secondary, Secondary, Middle and Primary Schools.

TABLE - 21

PROPORTION OF SLUM POPULATION IN TOWNS

Sl. No.	Class, Name and Civic administration status of town	Proportion of the slum population to total population of the town	Density in Slums (per sq.km.)
1	2	3	4
I.	Nagercoil (M)	8.30	26335
	Total	**8.30**	**26335**

The above table furnishes the proportion of slum population in class I and II towns. The density of slum is 26,335 sq.km. It is relevant to note that information on slums is collected in Class I and Class II towns only and among the 5 towns in the district, only Nagercoil Municipality falls under the category of Class I.

TABLE - 20

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS

Sl. No.	Class, Name and Civic administration status of town	Number of Beds in Medical Instituions per 1,000 population
1	2	3
1.	IV Kanniyakumari (PTS)	0.58
2.	III Kolachel (M)	5.84
3.	IV Kuzhittura (M)	11.70
4.	I Nagercoil (M)	5.26
	IV Padmanabhapuram (M)	3.11
	All Towns	**5.32**

The above table gives the number of beds in Medical Institutions per 1,000 urban population in each town. The district average is 5.32 bed per 1,000 urban population. Bed facilities are available in all the 5 towns of the district, the highest being 11.70 per 1,000 population in Kuzhittura Municipality.

TABLE - 22

MOST IMPORTANT COMMODITY MANUFACTURED, IMPORTED AND EXPORTED IN TOWNS

Sl. No.	Class, Name and Civic administration status of town	Most Important Commodity		
		Manufactured	Exported	Imported
1	2	3	4	5
1.	IV Kanniyakumari (PTS)	Mat	Fish	Pulses
2.	III Kolachel (M)	Coir	Rare Sand (Illuminite Monosite, Zircon)	Cotton seeds
3.	IV Kuzhittura (M)	Rubber sheets	Cashewnut	Piece goods
4.	I Nagercoil (M)	Nylon fishing net	Tapioca	Chillies
5.	IV Padmanabhapuram (M)	Tapioca flour	Tamarind	Pulses and cereals

Table - 22 furnishes the list of most important commodities manufactured, imported and exported in the towns of Kanniyakumari district.
