FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations/modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Government/ Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important Census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district, administrative statistics, Census tables and Village and Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A: comprising Village and Town Directories and Part-B: comprising Village and Town PCA) were released in all the States and Union Territories. The third Part (C) of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981, some new features along with the restructuring of the formats of Villages and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A: comprised Village and Town Directories, the PCA of villages and towns (ward-wise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in 1981 in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this statement details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0–6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rate as all children below 7 years of age have been treated as illiterate at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Blocklevel presentation of data in the Village Directory and PCA instead of the traditional Tahsil/Taluk/PS level presentation. It is expected that the presentation of Village Directory and PCA data at C.D. Block level will help the planners in formulation of micro-level developmental plans, as the C.D. Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/ floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census along with the corresponding codes of 1981.

This publication is a joint venture of the State Government/UT administration and the Census Organisation. The data have been collected and compiled under the direction of Shri. K. Sampath Kumar, Director of Census Operations, Tamil Nadu, on behalf of the State Government administration which has borne the cost of printing. The task of planning, designing and co-ordination of the publication was initiated by Dr. K.P. Ittaman, former Deputy Register General (Social Studies) and Shri M.M. Dua, Joint Director. For the sake of uniformity in presentation of information/data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of Census/non-Census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K. Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri. A.K. Singh, Deputy Director, who was assisted by Shri. N.S. Soam, Assistant Director and his staff. Technical guidance in the preparation of the maps was initially provided by Dr.B.K. Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi,
June 11, 1992.

A.R. NANDA
Registrar General, India

PREFACE

The District Census Handbook is the most useful publication for the public, social workers, researchers, academicians, administrators, local bodies and the government officials for various official and non-official purposes. It gives data for the village/panchayat at the lowest level to the district level including panchayat union/taluk covering demographic, social, economic and cultural aspects. There had been an endeavour to make it as comprehensive as possible, to provide data on various aspects since its inception and by 1961, it reached the dimensions of a compendium for the district. The Registrar General, India, in his foreword has kindly traced out the improvements brought out from time to time since 1961 to the latest 1991 Census while the history of the District Census Handbook in this State is narrated in the Introductory Chapter to this volume.

The District Census Handbook is a joint venture of the Census Organisation and the State Government of Tamil Nadu. The scope of District Census Hand book has been widely increased and restructured in 1981 to meet the Minimum Needs and Revised Minimum Needs programmes of the Planning Commission. Broadly keeping up the 1981 main structure, the formats of the Primary Census Abstract have been re-structured slightly for the benefit of data users. The nine-fold industrial classification of main-workers as done at the 1961 and 1971 Censuses has been revived instead of the four-fold classification of the 1981 Census. Population in the age-group 0–6 by sex has been given in order to enable computation of realistic literacy rate as all children below 7 years are treated as illiterates. One of the most important innovations of the 1991 Census is the presentation of data at the Community Development Block/Panchayat Union level to help planners in the formulation of micro-level developmental plans at the lowest administrative unit level. In this State, for developmental planning, the lowest administrative unit is the 'Panchayat Union'. This time, for the benefit of data users of Village Directory and PCA data from the magnetic tapes/floppies or from the published records, the Computer Code as well as the Manual Code as of 1991 Census and the corresponding location code of 1981 Census are given.

The District Census Handbooks are now being published in two parts– Part-A : Village & Town Directory and Part-B :Village and Townwise Primary Census Abstract. The two parts may be published in one volume or two volumes, depending on the bulk of the two parts.

Part-A : Deals with a brief description of the district–its major characteristics in relation to the economic resources like forestry, agriculture, industries, social, cultural, religious and historical aspects apart from certain basic amenities like drinking water, education, medical, post and telegraph, market day(s), communications, and if any of these facilities are not available to any village, distance range of the nearest place from where available; power supply, approach to the village, nearest town to the village etc., health and family planning centres, primary health sub-centres and community health workers in the village. Information on approach to village is also provided to identify inaccessible villages in the district. These exhaustive data on infra-structure in relation to amenities

available to the villages and land-use pattern are meant to meet the requirements of 'Micro-level' local area development planning at the lowest administrative unit viz., C.D. Block/Panchayat Union level. This is the reason why this time data are being published C.D. Block / Panchayat Union-wise instead of the traditional taluk level.

In the Town Directory, information on class of town, area of the town, number of households, population and growth rate of the town at each of the censuses from 1901 to 1991, sex-ratio at the 1971, 1981 and 1991 Censuses, physical aspects of rainfall and minimum and maximum temperatures recorded, distance from State and District Headquarters, nearest city, communication facilities like railway station, bus-route, inland navigation, statement on municipal finance, civic and other amenities like protected water supply, electric connections by type, fire-fighting service, road length by type, system of sewerage, number of latrines by type, total population and SC & ST population, medical, educational facilities by type, recreational and cultural facilities like stadia, cinema, drama, community hall, public libraries and reading rooms, adult literacy classes/centres, working women's hostels, three important commodities manufactured, exported and imported; a special table on civic and other amenities available in notified slums in Class-I and Class-II towns have been included with a view to ascertain the availability of basic amenities and to meet the Minimum Needs and Revised Minimum Needs Programmes.

Part-B : deals with the Primary Census Abstract for all the villages in the rural areas and ward-wise for urban areas. This time the PCA data like Village and Town Directory data are arranged C.D. Block/Panchayat Union-wise giving area of the village (in hectares), area of town (in Sq. Kms.), number of occupied residential houses, households, population by sex, Scheduled Caste and Scheduled Tribe population, literates, main workers in the nine industrial categories (as against the 4 industrial categories published in 1981), marginal workers, non-workers and 0–6 population by sex. Further, if a village is covering more than one panchayat, break up figures for each Panchayat also are given.

It is hoped that with the modifications now brought out in the Village Directory, Town Directory and PCA and Publication of data C.D. Block/Panchayat Union-wise would go a long way in helping the planners to chalk out more effective developmental programmes at micro-level for local area developmental plans as the C.D. Block/Panchayat Union is the lowest administrative unit for developmental planning.

In the process of collection of data of this volume, various State and Central Government Departments have extended their kind co-operation particularly with regard to infra-structural amenities for Part-A:Village and Town Directory, history and general features of the district, etc. I convey my grateful thanks to all of them. The PCA data presented in Part-B: of this volume were collected during the Census Operations in February-March, 1991, the reference date being sunrise of 1st March, 1991.

In bringing out this publication, I have been greatly assisted by Shri M. Thangaraju, Joint Director of Census Operations, who provided overall guidance and supervision while Shri Ch. Purnachandra Rao, Deputy Director has shouldered

the onerous responsibility of scrutinising the draft report and presenting the data with meticulous care to minute details. In the compilation and processing of Village Directory and Town Directory data, he was ably assisted by Smt. R. Rani Bai and Smt. A.M. Mangayarkarasi, Investigators and their assistants, while Shri A.V. Raman, Investigator is chiefly responsible for preparing the analytical notes, inset tables, draft write up and arrangement of the matter in order.

The PCA data for the district were processed at the Regional Tabulation Office, Salem under the supervision of Shri. A. Kumaraswamy, Regional Deputy Director of Census Operations assisted by Shri R. Shankara Sharma, Smt. K. Sakunthala and Smt.B. Rajakumari, Statistical Assistants who were deputed from this Directorate to the Regional Tabulation Office, Salem.

Finalisation of Panchayat Union-wise PCA data and providing computer codes for villages were attended to by Shri. R. Lakshminarayanan and Smt. M.V. Rajalakshmi, Investigators and staff of the Census Section. The district and taluk maps in this publication give the administrative units upto village level, the location of towns and cities, communication facilities, etc. This time in the taluk map, the boundaries of each of the C.D. Block units, namely, 'Panchayat Unions' have been shown separately to synchronise with the presentation of data presented Panchayat Union-wise.

I convey my grateful thanks to Shri. A.R. Nanda, I.A.S., Registrar General and Census Commissioner, India for the valuable guidance and advice I received from him through out. I am thankful to Shri. N. Rama Rao, Deputy Registrar General (C&T) who has been a source of strength and constant help and guidance on all technical matters like a 'Ready Reckoner'. I also thank Dr. K.P. Ittaman, former Deputy Registrar General (S.S.) and Shri. M.M. Dua, Joint Director, for planning, designing and co-ordinating the formats. I thank Sri M.K. Jain, Deputy Registrar General (S.S.) and Shri A.K. Singh, Deputy Director, Shri N.S. Soam, Assistant Director and his staff for scrutinising and approving this first volume so that it could fitin in the all India pattern from uniformity point of view in the presentation of data and other items. My thanks are also due to Dr. B.K. Roy, Former Deputy Registrar General (Map) and Mrs. Minati Ghosh, the Present Deputy Registrar General (Map) for providing technical guidance in the preparation of maps.

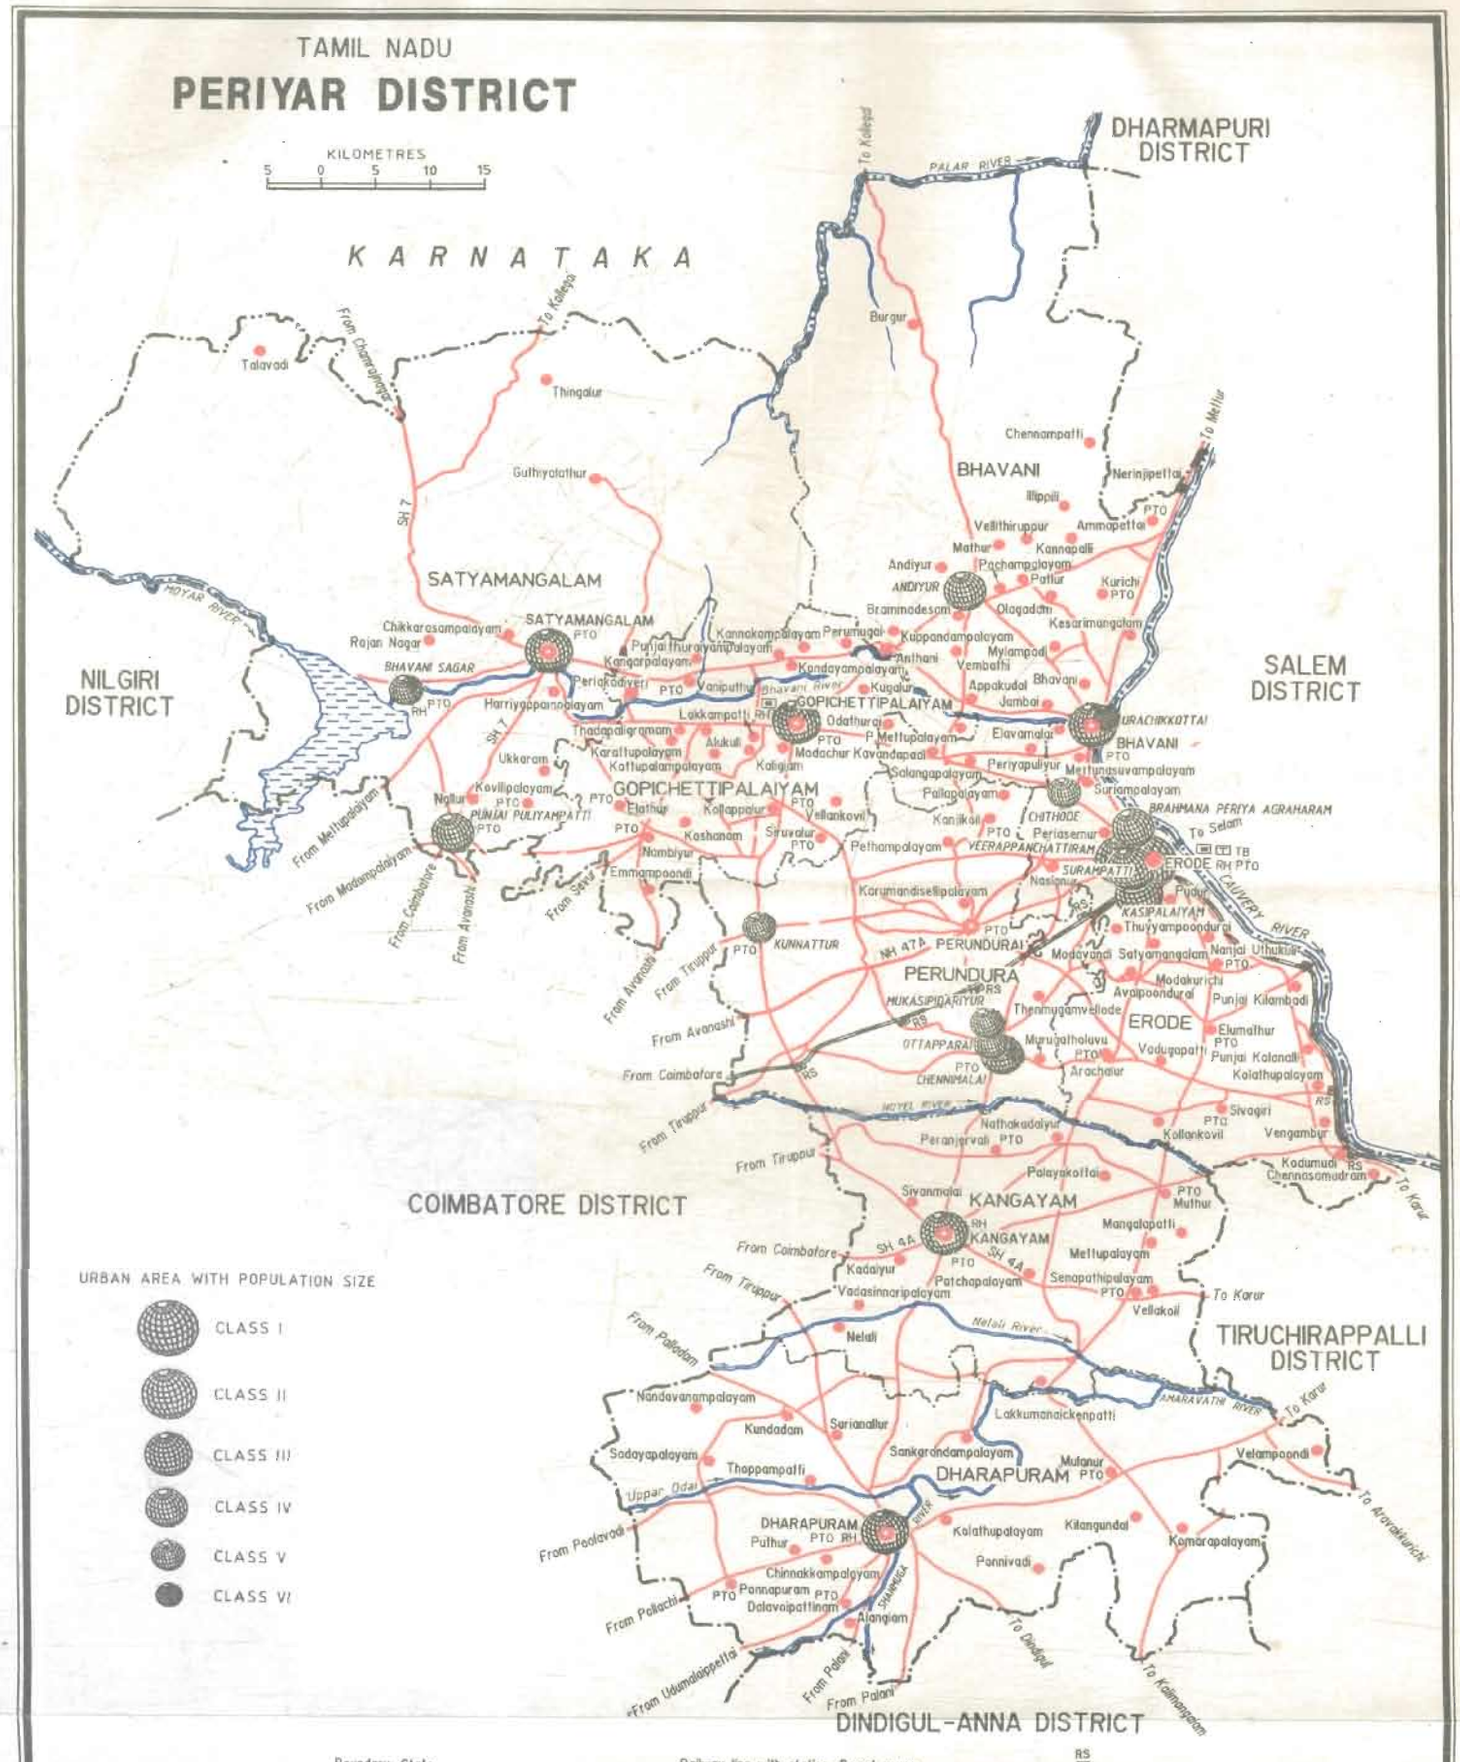

I have pleasure in acknowledging the able assistance rendered by the following officials of my office in the preparation of this volume.

Analytical Note

Census concepts

Rural and Urban areas

It is customary to classify a place as rural or urban in every Census and present data separately for rural and urban areas. Urban areas which are specifically defined for Census purposes are determined on the basis of certain demographic and economic criteria. The rest are treated as rural areas. At the 1991 Census, the same criteria adopted for determining the urban areas at the 1981 census have been continued. The urban areas of 1991 census are:

(a) All places with a Municipality, Corporation or Cantonment board or Notified town are;

(b) All other areas which satisfied the following criteria:

(i) A minimum population of 5,000

(ii) At least 75 per cent of male main workers engaged in non-agricultural and allied activities:

(iii) A population density of at least 400 per km^2 (or one thousand per square mile).

The above definition adopted for both 1981 and 1991 Censuses varies slightly from those of 1961 and 1971 censuses. As of the 1961 and 1971 Censuses, the male population engaged in the activities of fishing, logging etc., were treated as engaged in non-agricultural pursuits and the test of the 75 per cent non-agricultural workers criteria was applicable to them. But in the 1981 Census as well as in the 1991 Census, they have been treated on par with agricultural activities and the test for the urban criteria has been more vigorous. Prior to the 1981 Census, certain places with less than 5,000 population were treated as urban areas on the basis of certain consideration like density, social and historical importance etc., at the discretion of the Director of Census Operations in consultation with the State Government. On the other hand, the tests on demographic and economic criteria were strictly applied at the 1981 and 1991 Censuses and no area was classified as urban area on other considerations.

Urban Agglomeration

This concept was adopted for the first time in the 1971 Census and continued in the 1981 and 1991 censuses also. The concept of urban agglomeration which is similar to that of earlier Censuses is as under:

An Urban Agglomeration is a continuous urban spread constituting a city or town and its adjoining urban outgrowths (OG) or two or more physically contiguous towns together with continuous well recognised urban outgrowths, if any, of such towns. In certain cases, large housing colonies, University campuses, port areas, Military camps, etc., etc., would have come up around a city or town but falling out side the statutory limits of the city or town. They may be lying inside the boundaries of a village or villages which are contiguous to the city/town. These villages could not be treated as urban as they do not satisfy the urban criteria. But at the same time the colonies etc., mentioned above deserve to be treated as an integrated urban area. Therefore, all such towns together with their urban outgrowth will have to be treated as one urban unit and called urban Agglomeration. All the constituent units of urban agglomerations are also independent urban units of towns.

Census House

A Census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for residential or non residential purposes or both.

Household

A household is a group of persons, who commonly live together and would take their meals from common kitchen, unless the exigencies of work prevented any of them from doing so. There may be a house hold of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called Institutional Households.

Scheduled Castes/Scheduled Tribes

For the enumeration of Scheduled Castes and Scheduled Tribes in census, the names of Scheduled Castes and Scheduled tribes as recognised in Tamil Nadu based on the Scheduled Castes and Scheduled Tribes orders (Amendment) Act of 1976 (Central Act 108 of 1976) was followed. The enumerators were instructed to record a person as belonging to Scheduled Caste/Scheduled Tribe provided the name given by the person was found in the list supplied to them.

Literates

In the 1981 Census, a literate was defined as "a person who can both read and write with understanding in any language". A person who could merely read but cannot write, was not a literate. It was not necessary that for a person to be considered as a literate must have received any formal education or have passed any minimum educational standard. Children below 7 years of age were taken as illiterate at the 1991 census irrespective of their ability to read and write.

Definition of work

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise.

Main workers and Marginal workers

The dichotomy of worker and non-worker of 1961 and 1971 censuses has been dropped and the trichotomy of main worker, marginal worker and non-worker was introduced in the 1981 census and has been continued in the 1991 census also. A worker was identified with reference to a reference period preceding the census. The reference period prescribed was one year preceding the date of enumeration. Certain types of work such as agriculture, household industries, like gur making etc. were carried on, either throughout the year or only during certain seasons or part of the year, depending on the local circumstances. In such cases what we were concerned with was the broad time spent during the agricultural season preceding the enumeration. Workers can be full-time workers or seasonal workers or marginal workers. If a person had done any work during the reference period and if he had not worked for the major part of the year, i.e., if he had worked for 183 days or more, he was considered to be a full-time worker (Main Worker). If a person had done any work during the reference period and if he has not worked for the major part of the year, i.e., if he had worked for less than 183 days, he was considered to be a marginal worker. Persons who had not participated in any economic activity even for a day during the last one year preceding the day of enumeration were considered as non-workers.

All the main workers and the marginal workers who were classified under four main categories at the 1981 Census as cultivators (c) Agricultural Labourers (AL), Workers in Household Industry (HHI) and other workers (OW), are now classified under 9 industrial categories. The definitions of these nine categories of workers are as given below:

I. Cultivators (C)

For the purpose of census, a person is considered as Cultivator if he/she is engaged in cultivation of land, owned or taken on lease from Government or from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

II. Agricultural Labourer (AL)

A person who works on another person's land for wages in money, kind or share should be regarded as agricultural labourer. He or She has no risk in the cultivation, but he/she merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

III. Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities

Persons who were reported as working in Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities were treated as workers under this category.

IV. Mining and Quarrying

Persons who were reported as workers in Mining and Quarrying were treated as workers unde this category.

V(a). Manufacturing, Processing, Servicing and Repairs in Household industry

Household industry is defined as an Industry conducted by the head of the household himself/ herself and/or by the members of the Household at home or within the village in case of rural areas and within the precincts of the house only in the case of Urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act. But merely selling of food items or other edibles, should not be regarded as household industry.

V(b). Manufacturing, Processing, Servicing and Repairs in other than Household Industry

Persons reported as workers in household industry other than those mentioned in V(a) were treated as workers in this category.

VI. Constructions

Persons working as plumbers, masons, electricians, painters and others engaged in construction work were treated under this category.

VII. Trade and Commerce

Persons engaged in work such as wholesale or retail business or trade were treated in this category.

VIII. Transport, Storage and communications

Persons who were reported as drivers, conductors, technicians, fitter, welder and other communication workers were treated under this category.

IX. Other services

Persons engaged in services other than those mentioned in I to VIII catergories were treated under this category. Workers who could not be classified in any of the above I to VIII categories are treated as those engaged in other service's category.

Non-workers

All persons who have not been treated as workers i.e., persons who have not worked any time at all during the reference period of one year preceding the date of enumeration have been considered as non-workers. Thus if a person is a non-worker the category to which he/she belongs has been classified as follows:

These cover all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year, full time students and children attending school, all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age, persons retired from service or rentiers, beggars, vagrants, convicts in jails or inmates of a penal, mental or charitable institution and all non-workers who may not come under any of the above categories.

HISTORY OF THE DISTRICT CENSUS HANDBOOK

After 1951 Census, the Government of India offered to handover to the composite State Government the Census tables and other date prepared during the Census and suggested that they might be published along with any other useful information relating to each district. The State Government accepted the said proposal and the first publication of the District Census Handbook was brought out by the State Government at its own cost.

The District Census Handbook of 1951 was found to be very useful and it was therefore decided by the Government of Tamil Nadu not only to continue the series for the 1961 Census but also to improve definitely on its content so that each district Census Handbook contained certain basic economic data for the smallest administrative unit in the district and be as useful reference book for scholars and other data users.

After the 1971 Census as well the series of District Census Handbook was contined. The publication of the 1971 Census Handbook was in three parts, viz., Part-A, Part-B and Part-C. Part-A relating to Village and Town Directory data, Part-B relating to Village and Townwise Primary Census Abstract data and Part-C comprising Census Tables for District and certain administrative statistical tables.

The tradition of bringing out the Census Handbook has been continued by the Tamil Nadu Government during 1981 and 1991 Census also. In this series some innovative features besides restructuring the formats of the Villages Directory have been adopted bearing in mind the national requirements of data for the socio economic programmes by the Government. The comparability of data with 1981 census data has also been kept in view.

In the 1981 Census, the District Census Handbook was published in two parts, viz. Part-A- Village and Town Directory data and Part B - Village and Townwise Primary Census Abstract data. The same series are published during 1991 Census also.

SCOPE OF VILLAGE DIRECTORY AND TOWN DIRECTORY STATEMENTS

The District Census Handbook are the only publications which incorporate the data down to the level of a smallest unit of the district i.e. revenue village and with the level of a town which are constantly referred to by the data users.

The Village Directory Statement gives the list of villages by Panchayat Union (C.D. Block) and for each village, the area, number of households and population, availability of amenities and land use. The information on amenities available in the village includes educational, medical, drinking water, post and telegraph, market, bus, rail, road or other communication facilities and power supply. Land use is shown as area under forest, irrigated and unirrigated land, culturable waste (including gauchar and groves) and area not available for cultivation.

Appendix – I gives Panchayat Union-wise (C.D. Blockwise) abstract of Educational, Medical and other amenities available viz., the number of Villages having various levels and types of educational institutions such as middle schools, adult literacy centres, etc., various types of medical institutions such as Dispensaries, Primary Health Centres, Maternity and child welfare centres, Family planning centre, community health workers etc. and the number of such institutions, various types of drinking water sources, such as tap, well, tank, tube-well, river, fountain, canal, etc. Post and Telegraph offices, bus-stops, railway-station, power supply, etc. and also the number of villages not having such amenities.

Appendix - II gives for each non-municipal town (Census Town) the area under forest, irrigated and unirrigated land, culturable waste (including gauchar and groves) and area not available for cultivation.

Appendix - III is only the list of villages where no amenities relating to education, medical, drinking water, post and telegraph, communication, power supply and market/hat and public health facilities etc. are not available.

Appendix - IV gives the list of villages according to the proportion of SC/ST to the total population by ranges. Part-A of the Appendix gives the villages according to the proportion of SC population. The information is presented by the ranges Viz. 0 -5, 6 - 10, 11 - 15, 16 -20, 21 - 30 and 31 + percent and above, and Part - B according to the proportion of ST population ranges viz. 0 - 5, 6 - 15, 16 - 25, 26 - 35, 36 - 50 and 51 + percent and above.

The Town Directory gives imporatant and very useful information like civic and other amenities available in all the towns in the district, statutorily notified as well as non-municipal or census towns. The details relating to each of the towns have been presented in seven statements viz. Statements I to VI & IV-A.

In all the statements except IV - A, the towns are arranged in the alphabetical order for the district. The Town Directory does not cover strictly military areas. It may, however, cover cantonment area but not strictly military areas or military establishments within the cantonment which are required to be left out. However, basic statistics of the cantonment as a whole have been provided. In the Town Directory, codes have been given for the data on amenities and civic administration for want of space. The relevant explanations for the codes adopted have been given in the beginning of the Town Directory Statements.

The concept of 'urban agglomeration' was intorduced for the first time in 1971 replacing the concept of 'town group' of 1961. The concept of "Urban Agglomeration" has been continued at the 1981 and 1991 censuses also. An Urban Agglomeration may be explained as follows: "It must form a continuous urban spread constituting a town and its adjoining urban outgrowth or two or more physically contiguous towns together with continuous well recognise urban outgrowth, if any, of such towns".

An Urban Agglomeration includes two or more independent census towns. The names of the Towns/Urban Agglomeration have been arranged in the alphabetical order. The particulars of the individual town which constitutes one of the units of agglomeration have not been furnished separately because the particulars have already been furnished, where they occur together under the name of agglomeration. The following remarks have been given against such town within brackets:

"(See the name of the main town of the agglome-ration)".

By adoption of this method, the reader can get an idea of the particulars of the urban agglomeration in total and also separately.

Statement I : Status and Growth History

This statement provides some basic data based on the Primary Census Abstract for the towns and urban agglomerations of 1991 census. For analysing the town directory data at the State level and All India levels some new columns have been introduced in the 1981 census. The new items are:- Class of town, area, number of households, population and growth rate at each census since 1901, density and sex ratio at the 1971, 1981 and 1991 censuses are also provided in this statement. At the 1991 census, a new item - the name of C.D. Block is also provided in the statement.

Class of the towns are presented according to the 1991 census population of the town as follows:

Population	Class
100,000 and above	I
50,000 to 99,999	II
20,000 to 49,999	III
10,000 to 19,999	IV
5,000 to 9,999	V
Below 5,000	VI

Location Code Number of Towns

To distinguish the town from the village, the Location Code Numbers for Towns have been given in Roman Numerals and these numbers have been assigned in a continuous order for the district as a whole. In the present 1991 census, name of C.D. Block has been included with a view to locate the town in the appropriate C.D. Block.

Statement II: Physical aspects and Location of Towns, 1989

Under physical aspects, annual rainfall and temperature particulars are furnished. These particulars were obtained from the Commissioner of Statistics, Tamil Nadu, Madras. If the information is not available for any particular town, the nearest town for which it is available is given. For col. (9), nearest city with population of one lakh and more is furnished according to 1991 census. For the other columns, figures obtained from the Municipal Commissioners and Panchayat Union Commissioners are given. The 'zero' within brackets

in cols, 10 & 11 denotes that the referent town itself is enjoying road transport facilities. In col. 12, name of the navigable river/canal and its distance is indicated as follows: "Cauvery (R)–5". In this case, 5 is the distance in kms., of the navigable river cauvery from the referent town. In brackets 'R' for river and 'C' for canal have been given.

Statement III: Municipal Finance, 1988–89

The civic administration status of the town, the receipt through tax, properties and powers, Government grants, loans, advances and other sources and the expenditure on general administration, public safety, public health, public works, public institutions and other public services are given in this statement. The sources of the receipts and expenditure are furnished in terms of rupees in hundreds.

Statement IV: Civic and other amenities, 1989

The civic and other amenities existing in the towns as in 1989 are given. The data were obtained from the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

Column – 3: Civic administrative status

It is a new column introduced in this statement to facilitate analysis during the 1981 census.

Column – 4: Population

This column is introduced in this statement to measure the amenities in respect of population, based on 1991 census population data.

Column – 5: Scheduled Caste and Scheduled Tribe population

It is introduced to know the size of the population of the weaker sections of the community in the towns based on 1991 census population data.

In this statement, road length, system of sewerage, number of latrines, method of disposal of night soil, protected water supply (source of supply, system of storage with capacity) and fire fighting service information are also collected from the Municipal Commissioners and Panchayat Union Commissioners.

Electrification

In this column electrification particulars were obtained from the Tamil Nadu Electricity Board through the Municipal Commissioners and Panchayat Union Commissioners. The details are furnished below :

i) Domestic connections

This refers to the number of services given to house for domestic purposes like fans, lighting, etc.

ii) Industrial connections

This refers to the number of services effected to L.T. (Low Tension) Industries such as workshop, flour mills, oil mills, grinding machines, cotton ginning and engineering industries etc.

iii) Commercial connections

This refers to the service given to shops, business houses, public institutions like offices, schools and commercial establishments.

iv) Road lighting points

This refers to the number of points of street lights which are maintained by the board and for which consumption charges are paid to the board by respective local bodies. For some panchayats, the number of services effected along has been furnished under street lights and not the points.

V) *Other Connections*

This refers to the number of services effected for agricultural purposes, huts, public water supply systems, cottage industries etc.

Statement IV-A:
Civic and other amenities, notified slums, 1989

This is a new statement on civic and other amenities in the notified or recognised slums of Class I and II towns introduced during 1981 census. Generally in cities or towns having slums, the local authority such as Municipality or Municipal Corporation or even the Development Authority notified the recognised slums such notifications are linked up with the availability of funds from the State Government for slum clearance.

Name of the slum and the details of the area, population, length of the paved roads, system of sewerage, number of different types of latrines and method of disposal of night soil etc. are given in this statement.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1989

In this statement, medical, educational, recreational and cultural facilities of the towns as in 1989 are furnished. The data for educational and medical facilities were obtained from the Municipal Commissioners and Panchayat Union Commissioners for the concerned towns, and from the Director of Secondary Education and Director of Public Health respectively. In medical facilities columns, the number of Hospitals/Dispensaries/ T.B. clinics etc, and number of beds in medical institutions etc. are furnished.

In educational facilities columns, the number of Arts/Science/Commerce colleges, Medical colleges, Engineering Colleges and Polytechnics were obtained from the State Education Departments are furnished.

Column 10 : Recognised shorthand, typewriting and other vocational training institutions

Particulars were obtained from the District Industries Officers and Directorate of Employment and

Training Officers. The term, 'recognised' refers to institutes recognised by some statutory authority like Education Department, Commerce Department, Labour Department etc. of the Government or by semi-Government or autonomous bodies, public sector project etc.

Column 16 : Number of working women's hostel with number of seats

This is a new column introduced during the 1981 census. Consequent on the increase in the employment of women in urban areas the housing need of working women has been considered as an important subject for study.

Cinema in column 18 refer only to the permanent cinema theatres and do not include the touring cinema.

Column 19 : Community Halls have been added in this column as they are fast becoming a common feature of the urban land scape.

Statement VI : Trade, Commerce, Industry and Banking in 1989

In this statement, Trade, Commerce, Industry and Banking facilities in the town as in 1989 are furnished. Banking particulars were obtained from the Reserve Bank of India. The information on number of agricultural and non-agricultural credit societies was collected from the Registrar of Co-operative Societies through the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

SCOPE OF PRIMARY CENSUS ABSTRACT

The Primary Census Abstract as it is called, presents basic data for each village or segment of a village (in cases where such village segments form different panchayats) in the "Villagewise Primary Census Abstract" and for each ward/division of a town in the "Urban Primary Census Abstract". The format of the Primary Census Abstract for the villages and towns in 1991 has been slightly modified as compared to the 1981 Primary Census Abstract.

The Primary Census Abstract gives the details on area, number of occupied residential houses, number of households, total population, population in the age-group 0–6, number of SC/ST population, literates, total main workers, distribution of main workers by 9 industrial categories, marginal workers and non-workers in respect of each unit. In 1981, the main workers were classified into four categories whereas in the 1991 Census they are classified into 9 industrial categories as in 1961 and 1971 censuses. For the first time in this Census, the population in the age group 0-6 with sex breakup will be presented in PCA in order to arrive at the realistic literacy rate as all the persons below seven years are treated as illiterates in this census. The urban/village Primary Census Abstract gives this information for each village and each urban ward. Till 1981 Census, the Primary Census Abstract was presented for each taluk and for each town in a district. But, in the 1991 census, the Primary census Abstract for each Panchayat Union (C.D. Block) will be presented for the first time in the Indian Census. Besides these, separate Primary Census Abstract for Scheduled Castes and Scheduled Tribes which will contain similar details as those in the PCA for general population is presented for State/District/Panchayat Union (Community Development Block)/UA/City/ Town. With a View to ensure comparability and to enable data users to derive the figures either for a revenue village or Panchayat according to their requirements, the data are presented for segments of villages also, wherever portions of one village happen to be in two or more panchayats, the segment wise data have to be used separately or added with the data of some other segment so as to derive panchayat data. For example, if portion of a revenue village bearing **L.C. No 9 Thingalur** forms part of two pachayats, the figures are given separately for each portion of the village against L.C. No 9 a/b and 9 b/b. The total figures for the entire revenue village can be arrived at by adding the figure given against both the segments viz. 9 a/b and 9 b/b given in the Village Primary Census Abstract. If, instead, the panchayat figures are required, the data for the concerned village segment or segments relating to the panchayats concerned are to be added upto arrive at the total figures for the respective panchayats.

An appendix presented in the case of the Urban Primary Census Abstract gives 1991 population, Scheduled Caste and Scheduled Tribes population for each enumerator block of the town. This may be useful for administrative and election purposes in the urban areas. Such data are also required by urban planners and researchers for conducting other studies in selected blocks.

Mode of presentation

The consolidated figures for the district and each taluk are given in the beginning for total, rural and urban areas under the caption "District Primary Census Abstract" Panchayat Union wise (Community Development blockwise). An alphabetical list of revenue villages is then given along with the census Location Code Numbers of 1991 Census followed by the villagewise Primary Census Abstract. In the foot note given at the end of the villagewise Primary Census Abstract, the villages included in Municipalities or census towns are indicated. Then, follows the urban blockwise Primary Census Abstract. In an appendix to the urban blockwise Primary Census Abstract, the population and

Scheduled Caste/Scheduled Tribe figures for each Enumerator's block of a town are given.

Maps

Apart from the District Map given as frontispiece, maps for each taluks showing the village numbers along with their boundaries have also been included at the appropriate places.As compared with the maps presented in 1971 and 1981 District Census Handbooks, several improvements have been effected in the maps presented in this volume. All towns are shown in the district and taluk maps with shading screens and also spheres according to the population size of towns.

Area figures

In the District Primary Census Abstract, the area figures are given in square kilometers for total, rural and urban areas. In the villagewise Primary Census Abstract the area figures for each location code unit are given in hectares upto two decimals. The area figures for each town in Sq.Km is also given at the end of the Urban Blockwise Primary Census Abstract. In the District Primary Census Abstract the area figures of the district total represent the "*Geographical Area*" figures supplied by the Surveyor General of India. Figures for urban areas and villages are those supplied by the local bodies and revenue authorities. The urban area of a district has been arrived at by adding the urban area figures of each Panchayat Union (C.D. Block) within the district Panchayt Union C.D. Block Area figures for the rural areas of district/taluk are derived by subtracting the urban area figures from the total area of the district/taluk/P.U. The total area figures of the taluks will not tally with the district figures because the taluk area figures represent the "Land use" area and are derived from the figures supplied by the Tamil Nadu Directorate of Survey and Land Records, while those of the district represent "Geographical Area", supplied by the Surveyor General of India. The total of the village areas given in the Villagewise Primary Census Abstract may not tally with the rural area of the taluk/P.U. given in the District Primary Census Abstract as the taluk areas figures take into account hills, forests, rivers etc. whereas the village area may not include the same. For conversion, the ratio is 100 hectares = 1 sq.km.

It is hoped that the pattern of presentation of basic census particulars for each district as explained above and adopted in this volume would be found convenient by data users.

Brief analysis of the Village and Town Directory and Primary Census Abstract Data.

A brief analysis relating to certain population characteristics is made utilising the non-census information collected in the village and town directory and the Census Data in the PCA. A number of tables have been designed for this purpose. The tables are generated at the district/Panchayat Union (Community Block Development) level for the rural areas and with regard to urban area, townwise particulars are presented.

PERIYAR DISTRICT – AN OUTLINE

Periyar District lies on the extreme north of Tamil Nadu. It is bounded mostly by Karnataka State and also River Palar covers pretty long distance. To the East lies Salem and Tiruchchirappalli Districts. Madurai District is its immediate neighbour to the South and on the West, it has Coimbatore and Nilgiri Districts, as its boundaries. Thus Periyar is essentially a land-locked area having no sea-coast of its own.

The region comprised in the district can be portrayed as a long undulating plain gently sloping towards the river Cauvery in the south-east. The three major tributaries of river Cauvery viz. Bhavani, Noyyil and Amaravathy drain the long stretch of mountains in the north. A part of the eastern boundary of the district is formed by river Cauvery, entering the district from Salem and flowing in a southernly direction.

Brief History of the District and its formation

Periyar District was a part of Coimbatore has its history intertwined with that of Coimbatore and because of its close linkage with the erstwhile Coimbatore district, it is very difficult to separately deal with the history of Periyar region. Together with the area comprised in the Coimbatore district, it formed part of the ancient Kongu country known "Kongunadu" history of which dates back to the Sangam era. It is found that in the early days, this area was occupied by tribes, most prominent among them being the "Kosars" reportedly having their headquarters at 'Kosamputhur' which is believed to have in due course become Coimbatore. These tribes were overpowered by the Rashtrakutas from whom the region fell into the hands of the Cholas who ruled supreme during the time of Raja Raja Chola. On the decline of Cholas, the Kongunadu came to be occupied by the Chalukyas and later by the Pandyas and Hoysalas. Due to internal disessension in the Pandian Kingdom, the Muslim rulers from Delhi interfered and thus the area fell into the hands of Madurai Sultanate. This region was later wrested by Vijaya Nagar rulers after over throwing the Madurai Sultanate. For a few years, the area remained under Vijayanagar rule and later under the independent control of Madurai Nayaks. The rule of Muthu Veerappa Nayak and later that of Tirumalai Nayak were marked by internal strife and intermittent wars which ruined the Kingdom. As a result of this, the Kongu region in which the present Periyar District is situated, fell into the hands of the Mysore rulers from whom Hyder Ali took over the area. Later, consequent on the fall of Tippu Sultan of Mysore in 1799, the Kongu region came to be coded to the East India Company by the Maharaja of Mysore who was restored to power by the company after defeating Tippu Sultan. From then, till 1947 when India attained independence, the area remained under British control who initiated systematic revenue administration in the area.

Jurisdictional Changes

Periyar district came into being as a result of the bifurcation of Coimbatore district, through the G.O. Ms. No. 1917, Revenue, dt. 31-8-1979. Bhavani, Dharapuram, Erode and Satyamangalam taluks were included in Coimbatore district which had a composite character, at the beginning of the century. Of these, Satyamangalam Taluk was renamed as Gopichettipalaiyam taluk retaining Satyamangalam as a sub-taluk. In 1975, Satyamangalam Sub-taluk was upgraded into a taluk. Soon these six taluks were grouped together to constitute the new district of Periyar.

Now Periyar district consists of 7 taluks viz., Satyamangalam, Bhavani, Gopichettipalayam, Perundurai, Erode, Kangayam and Dharapuram. There are 5 Municipalities in the district viz., Satyamangalam, Bhavani, Gopichettipalaiyam, Erode and Dharapuram and one Municipal township viz. Bhavanisagar. There are 10 Town Panchayats and 3 Village Panchayats. There are 20 Community Development Blocks in the district.

Climate and Rainfall

The district in general is characterised with a scanty rainfall and a dry climate. Maximum rainfall is recorded in Gopichettipalaiyam and Bhavani taluks. The Palghat gap in the Western Ghats, which has a soothing effect in the climate of Coimbatore District, does not render much help in bringing down the dry climate in this area. The coolwind that gushes out of the west coast through Palghat gap looses its coolness and becomes dry by the time it crosses Coimbatore district and reaches Periyar region.

Unlike Coimbatore which is blessed with a health-aiding climate, Periyar District has dry weather throughout except during the monsoon season. Generally the first two months of the year are pleasant, but in March, Mercury gains an upward trend which persists till the end of May. Highest temperature is normally recorded during May. The scanty showers during this period do not provide any relief to the oppressive heat. There is a light improvement in the climate during June–August period. During this pre-monsoon period, the mercury reverses its trend and by September, the sky gets overcast heavily but the rains are meagre. North-east monsoon sets in vigorously only during October-November and by December, the rains disappear rendering the climate clear but pleasant.

Soils

The soils of the district are mostly red sand and gravel with moderate amounts of red-loam and occasional black loam tracts. Vast stretches of the upland regions are mostly stony and gravelly. Red-loam occurs mostly in land under Kalingarayan channel and in beds of tanks in Erode Taluk and to some lesser extent in the valleys in Perundurai and Dharapuram taluks. It also occurs in the hilly tracts of Bhavani taluk.

Soils of Bhavani, Erode, Dharapuram and Perundurai taluks are chiefly gravelly, stony and sandy of the red variety. Soils of Gopichettipalaiyam and Satyamangalam taluks are mostly of the red sandy variety. Red loam is prevalent mostly in Gopichettipalaiyam and Perundurai taluks.

Minerals

Though the district cannot boast of great mineral wealth, it has a few varied items of significance. Both opaque and translucent varieties of fine quality of Feldspar is found abundantly in Erode taluk. Mica and Muscovite occur in Vairavamangalam near Bhavani and near Punjai Puliampatti respectively. Asbestos is found to occur in a few places of Bhavani and Perundurai.

Doddan Combai forest in Gopichettipalaiyam is bestowed with rich iron ore. This ore is found to be of very fine quality and rich in metal. Traces of gold also have been found in a few auriferous viens in Gopichettipalaiyam.

Rivers

Bhavani, Cauvery, Amaravathy and Noyyil are the main rivers of the district. Other significant rivers are Palar in the North, Vatlamodai and Uppar rivers in the south. Palar constitutes the boundary between Periyar district and Karnataka State in the North. The Bhavanisagar main canal along with the above mentioned rivers provide proper drainage and facilities for assured irrigation in the district. Bhavani rises in the silent valley in Palghat ranges in the neighbouring State of Kerala after receiving Siruvani, a perennial stream of Coimbatore District and gets reinforced by the Kundah river before entering Periyar District in Gopichettipalayam.

Bhavani is more or less a perennial river fed mostly by the South-West monsoon. North-East monsoon also supplements its water resources. This river runs for over hundred miles through Periyar traversing through Bhavani and Gopichettipalaiyam taluks. It feeds the Bhavanisagar reservoir which takes an easterly course flowing through Gopichettipalaiyam. Satyamangalam and Bhavani taluks before it ultimately joins river Cauvery on the Salem borders.

Cauvery rising in the Coorg, is joined by many small tributaries. It turns through Karnataka and at Hogenakal fall takes a sharp turn, east to South. Before reaching this point, its main tributary, viz. river Kabini joins it. From here it takes a south-easterly direction forming the boundary between Bhavani taluk of Periyar and Tiruchengode taluk of the neighbouring Salem district. After river Bhavani flows into it, the south-easterly course is continued forming the boundary between Erode taluk of Periyar and Tiruchengode taluk of Salem district.

Noyyil river is noted for its capricious nature. This is fed mostly by the South-West monsoon but the North-East monsoon brings freshes and this very often results in floods. Inspite of its unpredictable character, the river helps to irrigate considerable areas in Palladam taluk of Coimbatore District and Dharapuram taluk of Periyar District.

River Amaravathy which rises in the Travancore region of Kerala enters Periyar district from Udumalaippettai taluk in Coimbatore District. This river flows through Dharapuram before it joins Cauvery in Tiruchirappalli District.

Forests

With more than 227,878 hectares of land under dense forest, Periyar is one of the few fortunate districts in the State which can boast of extensive forest area. 27.7% of the total district area is under forests. These forests are rich in commercially significiant items such as teak, sandalwood, rosewood, vogai, pillaimaruthu etc. Sandalwood is abundant in moyar valley and in strips facing Dodda Combai in Talamalai ranges. Tamarind trees are plenty in Bhavani ranges. In high land forests of elevation 2,000 feet to 5,000 feet, diversified flora are prevalent. Here we find semi evergreen type, teak type, sandal type, bamboo type and shola type of vegetation.

Teak is available mostly in ranges of 3,200 feet to 3,600 feet. Important places where bamboo is available are in the outer slopes of north Coimbatore plateau between 1,500 feet to 3,000 feet elevation. Main centres of availability are Vadaparai and Hussanur basin in Satyamangalam ranges. Dodda Combai in Bhavani ranges is also significant for the availability of bamboo.

The Southern Forest Rangers' College at Coimbatore has given a fillip to the forest conservation in this district also.

The district is rich in fauna. It is varied and all the common species normally found in ranges and plains in the south are found to occur in this district. Significant is the presence of wild elephants and tigers especially on the hills in the northern or north-eastern parts of the district. Cheetahs are not altogether absent. They are sparsely distributed. Panthers are found in the scrub jungles and rocky hills of the district. Spotted deer, barking deers, jungle sheep etc. are normally present in the northern

ranges. The presence of Kangayan breed of cattle noted for their milk yield and draught is significant. The Bargur cattle found in Bhavani ranges are though small in size, well built and sturdy.

Land and Landuse pattern

As per revenue land records, the total geographical area of the district is 823,299 hectares. Of these, 320,808 hectares have been brought under cultivation as net area sown. This accounts for 39% of the total area of the district. Area sown more than once is 33,129 hectares i.e. 4% of the total net area sown. Total cropped area is 353,937 hectares i.e. 43% of the total area sown in the district. Forests account for 227,878 hectares i.e. 27.7% of the total area. Cultivable waste has been reduced to mere 0.5% or 1330 hectares in the district. Less than 8.6% of the total area is put to non-agricultural use (70,729 hectares). However, 18.1% is accounted for by fallow lands (148,802 hectares). Trees, crops, groves, Orchards etc. together account for about 0.6% of the total area in the district. Of the 320,808 hectares brought under cultivation, 33,129 hectares are sown more than once, thus enhancing the total area cropped to 353,937 hectares. If this is taken into account, the percentage of total cropped area to total area of the district will work out to 43.0% thus publishing better utilisation of available land resources in the District.

Agriculture

Though noted for trade and industry, the district is by no means backward in the field of agriculture. Close association and link with Coimbatore district which has the advantage of two premier agricultural Institutions viz., the Agricultural College and the Research Institute have helped the ryots to keep abrest of developments in agricultural methods and practices and also improved strains of seeds. The publicity and developmental activities launched by the agricultural institutions in Coimbatore penetrated far and wide in Periyar district. Added to this was the propaganda and demonstration organised by the Agricultural Department. Availability of irrigation facilities coupled with the awareness of improved methods of farming helped the agriculturists to forge ahead. Though the soil is not the best, utilisation of improved methods of cultivation and improved strains of seeds together have helped the agriculturists in the district to maximise their output. Paddy accounts for 86,939 hectares. Next to Paddy is Cholam which is raised in more than 19,666 hectares. Ragi is also popular among the agriculturists. It has 13,694 hectares under it. Food crops account for 67.5% of the total cropped area in the district. Cereals account for 74.76% of the area under food crops. Paddy is the main crop raised under cereals. Paddy accounts for 66.95% of the total area under cereals.

Pulses are not much in cultivation in the district. Only 1,451 hectares are used for raising pulses. Among condiments and spices, turmeric and chillies are significant. Cultivation of turmeric extends over 9,722 hectares while chillies is cultivated in more than 2,499 hectares.

Among the non-food crops, oil seeds constitute the major item. 74.61% of the total area under non-food crops is accounted for by oil seeds. A total of 62,305 hectares is under oil-seeds. cultivation and of these ground-nuts account for 39,426 hectares while gingelly accounts for 20,268 hectares. Ground-nut is the most popular oil-seed raised here.

Among other non-food crops raised here, the most important items are cotton, sugarcane and tobacco. Sugarcane is raised in 22,118 hectares. Cotton is grown in 13,852 hectares while tobacco is raised in 6,167 hectares in the district. In respect of all commercial crops also improved varieties have been adopted by the farmers and this has helped them to maintain high yields.

The following table gives the Area, Production and Productivity of principal crops during 1989-90.

Irrigation

The sub-soil in most parts of the district being sandy and surface soil thin and of poor quality, the farmers have to depend heavily on irrigation facilities. The uncertain aspect of North-eastern monsoon and not too favourable contribution from the South-West

Sl.No.	Name of crop	Area (in Lakh hectares)	Production (Lakh Matric Tonnes)	Productivity (Kgs. per hectares)
1.	Paddy	0.72	2.43	3387
2.	Cholam	0.37	0.27	723
3.	Cumbu	0.12	0.10	871

monsoon make the plight of local agriculturists miserable. The chief sources of irrigation in the district are the canals and wells and these constitute the main stay of the farmers.

The following table gives the irrigation area/net area irrigated by different sources during 1989-90.

As noted earlier, the main sources of irrigation are the canals and wells. Canals under various irrigation projects together help to irrigate about 74,925 hectares of land while the wells irrigate 57,048 hectares. Area irrigated by tanks and springs and channels are negligible. The net area irrigated under various sources together constitute 47.1% of the gross area irrigated to total area sown in the district. The net area irrigated in the district totals to 166,829 hectares.

Rivers rising in the western ghats and fed mostly by the south-west monsoon are the chief sources of irrigation in the district. These rivers are Cauvery, Amaravathy and Noyyil. Apart from these main rivers, there are a few uncertain jungle streams which also contribute towards better irrigation and drainage in a small way. The main irrigation projects of consequence in the district are the Amaravathy reservoir project and the lower Bhavani project. Amaravathy river with a number of small anicuts across it contributes in no small measure to the irrigation potential. The numerous small canals from Amaravathy have been reconditioned under the Grow more Food Compaign. These together with Amaravathy reservoir project prove to be a boon to the agriculturists in the district especially Dharapuram area. The completion of lower Bhavani Project under First-Five-Year Plan has boosted the irrigation resources considerably. There are 229 taps, 380 wells, 51 tanks, 19 tube wells in the District.

Fisheries

In Periyar District, Inland fisheries is the only resource for fishermen. Being a landlocked district, there are no chances for marine fishing. As such, opportunities for fishing are restricted. With the help and encouragement by the Fisheries Department, rapid strides have been made in the development of fisheries in the District. Special emphasis is laid on the formation of fishermen's co-operatives and familiarising the local fishermen with the improved methods. With the help of the co-operative organisation which assured deep involvement of the fishermen, a number of co-coperative organisations have been formed. The activities of Fisheries Department in the district are being guided and controlled by the Assistant Director of Fisheries stationed at Bhavani Sagar.

Nos.	Canals	Nos.	Tanks	Nos.	Wells (including tube wells)
			Area irrigated (in hectares)		
1		2	3	4	5 6
13	74,925	52	314	103,829	57,048

Other springs and channel Area irrigated (in hectares)	Net area irrigated (in hectares)	Area irrigated more than once (in hectares)	Crop area irrigated (in hectares)	Percentage of gross area irrigated to total area sown (in hectares)
7	8	9	10	11
4179	136466	30363	166,829	47.1%

Animal Husbandry

The district is rich in its natural cattle wealth and concerted efforts of the Animal Husbandry Department have further augmented the cattle wealth in the District.

There are four major breeds of cattle in the District. They are the Kangayam breed, the Borgur breed, the Kollegal variety and the Alanbodis. Kangayam breed of cattle is indigenous to Coimbatore. This animal is breed in the farm in order to supplement the efforts of private breeders. Like the Pattugar of Palayamkottai, Kangayams thrive well in the farm. Some of the cows have yielded more than 4,000 lbs. in a single lactation. Kangayam cows are reared in large numbers, due to their rich milk yield. Kangayam bulls are also noted for their draught capacity. Borgur breed though smaller in size are well built and *sturdy*. Kollegal variety is noted for their road draught and is normally reared for transport purposes.

With varieties of breeds available, the district has made rapid progress in the field of animal husbandry. Erode has carved out an enviable position for itself in the field of dairy development industry in the State. The Tamil Nadu Milk Producers Federation has a milk collection center and processing plant at Erode from where pasturised milk is transported in cases to different parts of the State every day.

To support the growing cattle wealth in the District, Animal Husbandry Department has taken various measures including opening and maintenance of 5 bull stations for the collection and supply of serum to various veterinary hospitals and artificial insemination centres. Apart from these bull stations, the department maintains the following:-

1.	Veterinary hospitals	..	3
2.	Veterinary hospitals-cum-key village centres	..	23
3.	Veterinary dispensaries	..	50
4.	Veterinary dispensary-cum-key village centres	..	25
5.	Veterinary sub-centres	..	105
6.	Clinical centres	..	3
7.	Clinical veterinary laboratory	..	3

Rhinderpest Squad stationed at Erode, Rhinderpest Vigilance unit at Gopichettipalaiyam and Rhinderpest check-post at Dibum are all engaged in the eradication of Rhinderpest disease in the District. The district can also boast of a sheep breeding co-operative society.

As regards poultry development is concerned, there are three Poultry Extension centres in the district. Ther are at Chengampalli, Palavakuli-palaiyam and Bhavani Sagar. The poultry diagnostic laboratory in the district facilities early diagnosis of various diseases affecting the poultry and thus helps to prevent heavy losses due to poultry diseases.

The activities of the Animal Husbandry Department are controlled by 3 Assistant Directors of Animal Hunbandry functioning from Erode, Dharapuram and Gopichettipalaiyam.

Industries and Trade

In the industrial map of Tamil Nadu, Periyar district has a place of unique importance with 37.44 per cent of population depending on non-agricultural sector. Industries and trade naturally occupy a place of prominence in the economy of the district. Industries that flourished in early days in the area were handloom weaving, carpet manufacturing, cart manufacturing, oil-pressing, brass vessel manufacturing etc. Though these industries flourished well in the early days, the advent of modern times changed the fate of some of these well established ancient industries. Dharapuram which was noted for the manufacture of load carrying and passenger carts lost its importance due to the advent of modern means of transport of two wheelers viz. cycle, scooter, moped etc. However, the industry still survives here and load carrying carts are still manufactured. Similarly, Bhavani which was noted the world over for its very beautiful carpets, has shrunk into insignificance and the industry is almost non-existent now. Bhavani, Erode and Gopichettipalaiyam contribute to occupy important place in the field of oil-pressing. The industry which has been able to totally withstand the on slaught of modernisation has been the handloom weaving. Erode, Chennimalai etc. still hold their way and the district is noted for its handloom products, which include cotton sarees, bed-spreads, towels, furnishing fabrics etc. Two other important production centres are Bhavani and Jamsai.

It is reported that more than 75,000 looms are functioning in Periyar district. There are 150 Co-operative societies covering 40,000 looms. This accounts for 53% of the total looms in the district.

The cotton textile industry in Coimbatore and handloom industry in Periyar district have encouraged the growth of various ancillary industries to meet the needs of the textile mills. Chennimalai, Erode, Gopichettipalaiyam etc. are important centres where cotton ginning is carried on a large scale. There are also important dying works in Erode, Chennimalai and Bhavani. A number of factories engaged in cotton fabric printing are functioning in Erode.

Rice milling is yet another industry which has been able to hold its own. Erode, Bhavani and Dharapuram are centres where a number of rice mills are flourishing. These mills carry on lucrative trade in the west coast. A number of lorries carrying boiled rice ply between the centres and the delivery point in Kerala. There are a number of leather tanneries in

Erode and Dharapuram area. Large quantities of leather are brought here for tanning and later exported to foreign countries.

The Government has also come forward to provide incentives to small entreprenuers. Industrial estates have been set up at Erode and other places where full facilities are offered to small industrialists. Small units have been set up here for the manufacture of steel furniture, nuller screen, etc. There is also a unit at Erode for the manufacture of bolts and nuts and screws.

Both manufactured items as well as agriculture commodities are included in the trade items. Major items of export from the District are handloom products, dairy products, raw cotton, rice etc. While the items brought are mostly oil-seeds, coal etc. A large number of lorries, carrying various items into and from the district ply day in and day out and no detailed statistics are available regarding the flow of trade from and to the district.

Transport and Communication

The transport and communication system in Periyar district is well developed. Erode being one of the prominent trading centres in the State is well connected with all modern means of transport and communication except for air service. Ther nearest airport is at Coimbatore which is only a few hours by road. Direct access by roads and rail from State Capital Madras and other District headquarters is available. Erode is an important raiway junction on the west coast line. All passenger trains from Madras to the west coast halt here. 13 railway stations are there in the District viz. 1 at Uttukkudi, 3 in Chennimalai Panchayat Union, 3 in Modakurichi Panchayat Union and 6 in Kodumudi Panchayat Union areas. Navigable water ways are available at 5 places in the district.

Road transport has developed by leaps and bounds. There a number of inter district bus routes operated by the nationalished transport corporations linking Erode and other prominent towns in Periyar district with places of significance outside the district. The role of Jeeva Transport Coporation in the headquarters at Erode and Tiruvalluvar Transport Corporation which operated inter-district and inter-state services in commendable. Out of the 479 Villages in the district, bus facility is available for 457 Villages while the people of 22 Villages have to go to the nearby places to catch the bus.

The district is also served by a good net-work of Post and Telegraph offices. There are four postal Divisions serving the district with their headquarters at Erode, Tiruppur, Pollachi and Dharapuram. Under the Control of these postal divisions, there are four head-post Offices-one each at Erode, Bhavani, Gopichettipalaiyam and Dharapuram. Of these, the first two come under HSGT I category while the other two belong to HSG II category. Apart from the above, there are 215 post offices of various description including extra departmental sub-post offices and 4 telegraph offices. In addition to these, there are numerous branch post offices, combined post and telegraph offices etc., spread out in various parts of the district. There are 25 post and Telegraph offices, 75 post offices with phone facilities, 75 Post and Telegraphic and phone facilities in this district. The large net work of post & telegraph offices ensure definite means of communication at a nominal rate for the benefit of the common man in Periyar District. This district has also a good system of Telephone connection. Erode is connected with State capital by subscriber trunk dialling system (STD). Telephone connections between various centres in the district have been ensured and within Erode city itself the number of telephone subscribers has been on the increase.

Education and Health

In the field of education also, Periyar District has recorded remarkable achievement. There are a number of well established schools and colleges preparing students for the usual degree and post-graduate degree courses in various branches of science and humanities. The Mahajana College of Erode was the pioneer in the field of higher education in the district. Apart from these institutions, there are a number of Polytechnic and other institutions which provide technical education. In rural areas, 1413 Primary schools are available in 428 villages, 224 middle schools are available in200 villages, 109 Matriculation/Secondary schools are available in 103 villages, 30 Higher Secondary PUC/Inter/Junior Colleges are available in 26 villages and 19 colleges are available in 6 villages in this District. In 49 villages in the district, there are no educational facilities. In the urban areas, for every 10,000 population in Periyar District, the ratio fo Higher Secondary school is 0.52, Secondary schools 1.03, Middle schools 1.69 and Primary schools 3.19 respectively.

Medical facilities are provided by the District Headquarters Hospital at Erode and taluk hospitals at each taluk headquarters. Public health activities are guided and supervised by the District Health Office at Erode. There is a Medical College at Perundurai run by the Road Transport Corporation. There are 78 Primary Health Centres under the control of District Health Office at Erode. These institutions provide succour to the suffering people. Bed facilities are available in 12 Towns of Periyar

District, the highest being 5.36 in Erode municipality followed by Kunnattur Town Panchayat at 4.85 per 1,000 population. 44 Dispensaries are available in 12 villages, 10 hospitals are available in 8 villages, 3 Family Planning Centres are available in 3 villages, Primary Health Sub-centres are available in 12 villages, 24 community health workers are available in 5 villages. In this district, there are 244 villages without medical facilities.

OUTSTANDING OCCURANCES

The following is a list of important events which have occured during the last decade :

Month year and date of occurence	Nature of occurence
(1)	(2)
1984 31st Oct	Assassination of Indira Gandhi, Prime Minister of India.1984 Dec General Elections to Lok Sabha and Legislatures.
1987 24th Dec	Demise of Shri M.G. Ramachandran, Chief Minister of Tamil Nadu.
1988, Jan.	Dissolution of State Assembly and declaration of Presidents Rule.
1989, Jan	General Elections to State Assemblies.
1989, 24th Nov.	General Elections to Parliament
1989	Formation of National Front Ministry

PLACES OF HISTORICAL, RELIGIOUS AND ARCHAEOLOGICAL IMPORTANCE

There are nearly 487 temples in Periyar District. They are situated in four taluks, Bhavani, Gopichettipalaiyam, Erode and Dharapuram. Of the 207 places recognised as padal Petrasthalam, there are two temples found in Periyar District viz. Bhavani and Kodumudi.

Bhavani Sangameswarar temple is located at the junction of two rivers, Bhavani and Cauvery. It is known as South Prayag and is having a Pagoda of 120' in height. It is believed that Bhavani and Amudha (not visible now) join Cauvery at this junction, like Jamuna and Saraswathi (not visible join with Ganges at Allahabad, Prayag). It is said to have existed even before the days of the first King Mahendravarma of Pallava dynasty. Thirugnana-sambandar one of the four Tamil saints has sung in praise of this temple. Poet Vasudevan also gives the history of the temple in 'Bhavani Kudal Puranam' written in Sanskrit.

Bannari Mariamman Temple is about 15 kms from Bhavani Sagar town on the road to Mysore. It is a place of pilgrimage during the annual festival known as 'Kundam' which takes place in the middle of March every year. Pilgrims on that particular day can roughly be estimated 5 lakhs hailing from Tamil Nadu, Kerala and Karnataka States. Kundam or the fire spot where walking takes place is 60 feet in length and nearly 25 cart loads of fire wood are piled and kindled. About a lakh of persons including men, women and children participate in this walking.

Sri Aggnigunda Kali or Kodantha Kaliamman temple is another one important temple situated 40 kms from Erode and 3 kms from Gopichettipalaiyam. Also it is famous for fire walking to be held in the month of January every year. More than a lakh of people will attend this festival.

There is one Jain Temple at Vijayamangalam 25 kms from Erode. It was constructed by Jain King Konguvelir some 1,800 years back.

Chennimalai Sri Subramaniyaswamy Temple is situated on a hill about 1750 feet height and nearly 35 kms from Erode. Arunagirinathar and Kalamega-pulavar have sung the Lord Subramania here. There is a cave and it is believed that Pinnakku Siddhar one of the 18 Siddhars of South, Saravanamunivar and Sathiamuni lived and performed yoga in this cave.

Sri Magudeeswarar and Veeranarayana Perumal temple at Kodumudi is situated in the bank of Cauvery river and nearly 40 Kms from Erode is one of the three places sung about Erode. Saints Thirugnanasambandar, Thirunavukkarasar and Sundarar visited this place and each one composed one Thevaram about this temple. The special feature of this shrine is that Tirumurtis viz. Lord Brahma, Vishnu and Siva together in one and the same place. The direct sun rays penetrate on the images of Swamy and Amman for four days during the months of Avani and Panguni (Sept & Apr). The Moolavar Sri Magudeeswaraswamy is a Swayambu Lingam. It is a very old temple (more than 1500 years old). Pandiyan Kings made several renovations to this temple. Adiperukku (July-August), Chithirai and Panguni Uthiram (April-May) are the main festivals of this temple. At the time of Panguni Uthiram festival, devotees carry 'Kavadi' to Palani Temple from here. They used to take bath in the sacred Cauvery river and carry the sacred water in a kalasam to Palani Murugan temple. More than 5 lakhs of people come here for this festival every year and most of the devotees carry the Kalasam having the sacred Cauvery water, will walk the entire distance (nearly 120 kms) to Palani.

The Sivanmalai Temple is about 45 kms from Erode and the temple dedicated to Lord Subramania

on the hillock. In Aadi (July-August) and Thai (Jan-Feb) there are two important festivals celebrated here. Thaipoosam, Panguni Uthiram and Skanda Shasti in the month of Aippasi (November) are the main festivals of this temple. It is believed that God Sri Subramania, the presiding deity of this temple appears in dreams to a spiritual man or woman and demand some offerings such as bicycle, silver coins, gold chains movable and immovable things. The devotees will bring them to the Temple and worship the God Surbamania and till now this is going on. Sri Arunagirinathar refers to Sivanmalai by its ancient name Pattiari in Tiruppugazh.

Sri Kadu Hanumanthaswami temple is situated at Dharapuram, 80 Km from Erode. The temple is mostly worshipped by people belonging to Madhwa community. Hanuman is the son of Wind God (Vayu Baghavan). To represent this, a opening is left above the Sanctum Sanctornm enabling the presiding deity to enjoy wind, sun and rain alike. It is rare to find any notable temple in South India without a Vimanam or Tower above the Sanctum. During the ten Days festival (Vaikasi or May) there is a Car Festival also celebrated.

Natturayaswami Temple, Veerakumarasami Temple, Bhagavan Temple are the other famous temples in Periyar District. Though Lord Muruga is worshipped in the Veeramumaraswami temple, no woman is allowed to enter the temple and worship the God there. The Bhagavan temple at Ponnivadi is said to cure epidemics like plague, smallpox and cholera.

Towards the construction of temples in Periyar District popularly known as Kongunad, Cholas, Hoysalas and Pandyas have contributed their mite.

Table-1 (A)

Population and number of villages, 1991

Sl. No.	Name of C.D. Block	Population of Villages			No. of Villages	
		Persons	Males	Females	Total	Inhabited
1	2	3	4	5	6	7
1	Talavadi	50,239	25,518	24,721	24	20
2	Bhavanisagar	66,572	34,183	32,389	27	26
3	Satyamangalam	97,418	49,879	47,539	30	27
4	Andiyur	86,622	44,656	41,966	19	17
5	Ammapet	1,10,320	57,270	53,050	23	23
6	Bhavani	1,20,198	61,470	58,728	19	19
7	Thoockanaicken palaiyam	80,603	40,891	39,712	21	17
8	Nambiyur	85,585	43,694	41,891	23	23
9	Gopichettipalaiyam	1,20,488	61,351	59,137	31	25
10	Perundurai	1,17,188	59,755	57,433	48	48
11	Uttukkuli	67,078	34,092	32,986	47	47
12	Chennimalai	53,281	27,231	26,050	23	22
13	Erode	82,205	42,583	39,622	29	29
14	Modakurichi	1,29,025	65,951	63,074	29	26
15	Kodumudi	1,05,760	53,496	52,264	24	24
16	Kangayam	53,542	27,178	26,364	15	15
17	Dharapuram	90,665	46,039	44,626	19	19
18	Mulanur	65,109	32,508	32,601	16	16
19	Vellakoil	85,837	43,619	42,218	11	11
20	Kundadam	79,258	40,153	39,105	25	25
	District	**1,746,993**	**891,517**	**855,476**	**503**	**479**

Table I (A) furnishes C.D. Blockwise and sexwise population and total number of villages (Inclusive of inhabited villages) of Periyar District.

It is seen that Modakurichi C.D. Block is the thickly populated of the District, while Talavadi C.D. Block has the lowest population. Perundurai C.D. Block has the maximum number of Villages viz., 48 and the taluk as a whole as 117 inhabited Villages.

Table – I (B)
Population and number of towns, 1991.

Sl. No.	Name and civic administration status of town	Population		
		Persons	Males	Females
1	2	3	4	5
1	Andiyur (TP)	17,524	9,088	8,436
2	Bhavani (M)	35,198	17,953	17,245
3	Bhavanisagar (MTS)	6,005	3,078	2,927
4	Brahmanaperiyaagraharam (TP)	16,293	8,159	8,134
5	Chennimalai (TP)	13,453	6,961	6,492
6	Chithode (TP)	6,993	3,527	3,466
7	Dharapuram (M)	48,393	24,154	24,239
8	Erode (M)	1,59,232	81,866	77,366
9	Gopichettipalaiyam (M)	48,364	24,730	23,634
10	Kangayam (TP)	21,259	10,903	10,356
11	Kasipalaiyam (TP)	41,304	21,371	19,933
12	Kunnattur (TP)	6,183	3,112	3,071
13	Mukasipidariyur (VP)	9,006	4,698	4,308
14	Ottapparai (VP)	6,423	3,262	3,161
15	Punjaipuliyampatti (TP)	15,075	7,594	7,481
16	Satyamangalam (M)	32,417	16,580	15,837
17	Surampatti (TP)	24,209	12,470	11,739
18	Urachikkottai (VP)	4,290	2,222	2,068
19	Veerappanchattiram (TP)	61,649	32,011	29,638
	All Towns	**573,270**	**293,739**	**279,531**

This table furnishes townwise and sexwise population and total number of towns in Periyar District.

It is seen that Erode (M) has the highest Urban Population of the district, while Urachikkottai (VP) has the lowest Urban Population. Erode taluk has the maximum number of towns, viz., 6 Nos.

Table – 2

New towns/towns declassified, merged in 1991 Census.

Name of Town	Population
1	2
(A) Added	Population (1991 Census)
(I) Mukasipidariyur (T.P)	9,006
(B) Declassified	Population (1981 Census)
-Nil-	
(C) Wholly merged with other (Towns)	Population (1981 Census)
-Nil-	

This table indicates the recognition of the new towns and the declassification of old towns made in the 1991 Census. It could be seen from this table that only one new town has sprung up in Periyar District during 1991.

Table – 3

Decadal change in distribution of population

Sl. No.	Name of Taluk	Population					
		1981			1991		
		Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8
1	Satyamangalam	230,642	183,906	46,736	267,726	214,229	53,497
2	Bhavani	352,425	305,205	47,220	374,152	317,140	57,012
3	Gopichettipalaiyam	309,672	265,810	43,862	335,040	286,676	48,364
4	Perundurai	254,924	231,993	22,931	272,612	237,547	35,065
5	Erode	509,134	271,663	237,471	626,670	316,990	309,680
6	Kangayam	153,785	139,065	14,720	179,005	157,746	21,259
7	Dharapuram	257,880	215,617	42,263	265,058	216,665	48,393
District		**2,068,462**	**1,613,259**	**455,203**	**2,320,263**	**1,746,993**	**573,270**

Table - 3

Decadal change in distribution of population (Contd.)

Sl. No.	Name of Taluk	Percentage decadal Variation (1981-1991)			Percentage of Urban Population	
		Total	Rural	Urban	1981	1991
		8	9	10	11	12
1	Satyamangalam	+16.08	+16.49	+14.47	20.26	19.98
2	Bhavani	+6.16	+3.91	+20.74	13.40	15.24
3	Gopichettipalaiyam	+8.19	+7.85	+10.26	14.16	14.44
4	Perundurai	+6.94	+2.39	+52.92	8.99	12.86
5	Erode	+23.09	+16.69	+30.41	46.64	49.42
6	Kangayam	+16.40	+13.43	+44.42	9.57	11.88
7	Dharapuram	+2.78	+0.49	+14.50	16.39	18.26
District		**+12.17**	**+8.29**	**+25.94**	**22.01**	**24.71**

This table records the decadal changes in distribution of population for the different taluks of Periyar District. The increase in population in the district during the decade is 12.17% as against the state average of 15.39%. Erode taluk has recorded the highest percentage of decadal variation of population with 23.09% followed by Kangayam with 16.40% while the lowest decadal variation of only 2.78% is found in Dharapuram taluk.

Table – 4

Percentage distribution of villages by population ranges. 1991

Name of C.D. Block	No. and percentage of inhabited villages	No. and percentage of villages in each range (Figures in Paranthesis indicate percentage of villages in each range)					
		Less than 200	200 – 499	500 – 1,999	2,000 – 4,999	5,000 – 9,999	10,000 and above
1	2	3	4	5	6	7	8
1 Talavadi	20 (100.00)	—	1 (5.00)	10 (50.00)	7 (35.00)	2 (10.00)	—
2 Bhavanisagar	26 (100.00)	—	—	12 (46.16)	12 (46.16)	2 (7.68)	—
3 Satyamangalam	27 (100.00)	1 (3.70)	—	8 (29.63)	13 (48.15)	4 (14.82)	1 (3.70)

18 Mulandur	16 (100.00)	—	—	4 (25.00)	7 (43.75)	4 (25.00)	1 (6.25)
19 Vellakoil	11 (100.00)	—	—	1 (9.09)	3 (27.27)	6 (54.55)	1 (9.09)
20 Kundadam	25 (100.00)	—	—	12 (48.00)	6 (24.00)	7 (28.00)	—
District	**479 (100.00)**	**4 (0.84)**	**15 (3.13)**	**189 (39.46)**	**152 (31.73)**	**96 (20.04)**	**23 (4.80)**

This table provides distribution of villages by population ranges C.D. Blockwise for Periyar District. It can be seen that maximum of 189 villages (39.46%) are in the population range of 500 - 1,999 closely followed by 152 villiage (31.73%) in the population range of 2,000-4,999. There are 23 villages in the population range of 10,000 and above (4.80%). Hardly there are 4 villages in the population range of less than 200 (0.84%).

Table - 5

Distribution of villages by density

Range of density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range
(1)	(2)	(3)
-10	1	0.21
11-20	1	0.21
21-50	4	0.83
51-100	14	2.92
101-200	101	21.09
201-300	101	21.09
301-500	144	30.06
501+	113	23.59
Not known	-	-
Total	**479**	**100.00**

Table – 6 (A)

Sex ratio for rural population of C.D. Block, 1991

Sl. No.	Name of C.D. Block	Number of Females per 1,000 Males

	All Towns	**573,270**	**57,703**	**1,157**	**10.07**	**0.20**

This table gives the percentage of Scheduled Caste and Scheudled Tribe population in the different towns of Periyar District. It is seen that Brahmana periya agraharam has recorded the highest percentage of 32.81 of Scheduled Caste population while Satyamangalam town has recorded the highest percentage of 1.01 Scheduled Tribe population. In Chennimalai town, the percentage of Scheduled Caste population is the lowest with only 3.40 and in Urachikkottai, the percentage of Scheduled Tribe population is the lowest with 0.02. In Chennimalai, Kunnattur, Ottapparai, and Punjaipuliyampatti towns, no Scheduled Tribe population is reported at all during the 1991 Census.

Table - 10 (A)
Literacy rates for rural population of C.D. Blocks by Sex, 1991
(Excluding children in the age group 0-6)

Sl.No.	Name of C.D. Block	Percentage of Literates		
		Person	Males	Females
1	2	3	4	5
1.	Talavadi	37.77	50.44	24.61

This table shows the distribution of villages according to the availability of different amenities. There are 479 inhabited villages in this district of which 430 villages are provided with the educational amenity which works out to 89.77%. out of 20 C.D. Blocks.

Talavadi, Gopichettipalaiyam, Kangayam and Vellakoil C.D. Blocks have 100% of educational facilities. 9 C.D. Blocks have above 90% and 6 C.D. Blocks have above 80% of educational facilities. Erode occupies the last place with 58.62% of this facility. The amenity of medical is not satisfactory in this district. Only 232 villages out of 479 have medical facilities which works out to 48.43%. Talavadi is the only C.D. Block having 95% of medical facility. Regarding the amenity of drinking water facility in this district, it is notable that 478 villages out of 479 are provided with this basic amenity. 72.86% of villages have Post & Telegraph facilities. Erode is having the least percentage of 24.14% of Post & Telegraph facility. Regarding market/hat only 25.05% of villages have this facility. 95.41% of villages have communication facilities in this district. Except 3 C.D. Blocks, all the 17 out of 20 C.D. Blocks have 100% of Pucca road facilities in this district. 100% of villages have power supply of electricity.

District		**1,746,993**	**1,649,204 (94.40)**	**1,241,426 (71.06)**	**1,746,912 (99.99)**	**1,566,916 (89.69)**	**766,763 (43.89)**	**1,661,387 (95.10)**	**1,738,341 (99.50)**	**1,746,993 (100.00)**

This table furnishes the proportion of rural population of inhabited villages served by different amenities. The total population of the inhabited villages in the district is 1,746,993 and all of them avail the amenity of power supply. Next is the drinking water facility which is availed by most of the people viz, 99.99%. Then comes the facility of pucca road, communication and education which works out to 99.50%; 95.10% and 94.40% respectively. The proportion of population served by the amenities of medical and post and telegraph works out to 71.06% and 89.69%. Market/hat facility is available to only 43.89% which is the lowest of all amenities available in the district.

TABLE - 14
Distribution of villages not having certain amenities, arranged by distance ranges from the places where these are available.

Village not having the amenity of	Number of village where the amenity is not available and available at distance of			
	-5 kms	5–10 kms	10+ kms	Total (cols. 2 to 4)
(1)	(2)	(3)	(4)	(5)
1. Education	44	1	4	49
2. Medical	191	45	11	247
3. Drinking water	1	—	—	1
4. Post & Telegraph	120	5	5	130
5. Market / Hat	243	80	36	359
6. Communications	16	1	5	22

This table furnishes the distribution of villages not having certain amenities, arranged by distance ranges from the places where such facilities are available. Out of 49 villages which do not have the education facility do avail the same at a distance of less than 5 kms, by 44 villages, 5-10 kms, by 1 village and 10+ kms, by 4 villages. Medical, an important facility is not available for 247 villages and are availing the same at a distance of less than 5 kms, by 191 villages, 5-10 kms, by 45 villages and 10+ kms, by 11 villages. Drinking water which is not available for a lone village in the district do avail the same at a distance of less than 5 kms. Post & Telegraph facility is not available to 130 villages and 120 villages do avail the same at distance of less than 5 kms, and 5 villages each at a distance of 5-10 kms, and 10+ kms, respectively. Market / hat facility is very poor in the entire district. Out of 359 villages which do not have this facility do avail the same at a distance of less than 5 kms, 5-10 kms & 10+ kms by 243 villages, 80 villages and 36 villages respectively. Out of 479 inhabited villages, only 22 villages do not have the communications facility. This facility is availed by 16 villages at less than 5 kms, 1 village at 5-10kms and 5 villages at 10+ kms respectively.

Table - 15
Distribution of villages according to the distance from the nearest town and availability of different amenities.

Distance Range from the nearest town (in kms.)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
		Educational	Medical	Drinking water	Post & Telegraph	Market/ Hat	Communi-cations	Approach by Pucca-Road	Power supply
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
0 - 5	99	89 (89.90)	41 (41.41)	98 (98.99)	69 (69.70)	14 (14.14)	93 (93.94)	97 (97.98)	99 (100.00)
6 - 15	208	190 (91.35)	97 (46.63)	208 (100.00)	149 (71.63)	55 (26.44)	202 (97.12)	207 (99.52)	208 (100.00)

51+	18	17 (94.44)	16 (88.89)	18 (100.00)	10 (55.56)	2 (11.11)	16 (88.89)	17 (94.44)	18 (100.00)
Unspecified	—	—	—	—	—	—	—	—	—
Total	**479**	**430 (89.77)**	**232 (48.43)**	**478 (99.79)**	**349 (72.86)**	**120 (25.05)**	**457 (95.41)**	**473 (98.75)**	**479 (100.00)**

This table furnishes the distribution of inhabited villages, according to the distance from the nearest town and availability of different amenities. Among the four categoies of distance ranges, the power supply is available in almost all the vilages. Similarly the drinking water facility is also available in all the villages, except one village in the range of 0-5 kms. Education facility is available to the highest of 94.44% in the range of 51+ while it is very low (i.e) 87.01% in the range of 16 to 50. Medical facility is available more in the range of 51+ while it is very low in the range of 0-5 (i.e) 88.89% and 41.41% respectively. Drinking water facility is 100% in all the ranges except in the range of 0-5 which is 98.99%. Post & Telegraph is highly facilated in the range of 16 to 50, while it is very low in the range of 51+ which is 55.56%. Market facility is totally very low in all the categories, that too it is very low in the range of 51+ which counts to 11.11% the highest is 31.82% which is available in the range of 16 to 50. The facility of approach by Pucca Road is well served in all the four categories.

Table - 16
Distribution of villages according to population range and amenities available

Population range	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
		Educational	Medical	Drinking water	Post & Telegraph	Market/ Hat	Communi-cations	Approach by Pucca-Road	Power supply
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
499 & below	19	8 (42.11)	1 (5.26)	18 (94.74)	3 (15.79)	—	16 (84.21)	17 (89.47)	19 (100.00)
500-1,999	189	166 (87.83)	43 (22.75)	189 (100.00)	95 (50.26)	19 (10.05)	173 (91.53)	187 (98.94)	189 (100.00)
2,000-4,999	152	144 (94.74)	86 (56.58)	152 (100.00)	133 (87.50)	37 (24.34)	149 (98.03)	150 (98.68)	152 (100.00)
5,000+	119	112 (94.12)	102 (85.71)	119 (100.00)	118 (99.16)	64 (53.78)	119 (100.00)	119 (100.00)	119 (100.00)
Total	**479**	**430 (89.77)**	**232 (48.43)**	**478 (99.79)**	**349 (72.86)**	**120 (25.05)**	**457 (95.41)**	**473 (98.75)**	**479 (100.00)**

This table shows the distribution of inhabited villages according to different population ranges and amenties available. Among the four categories of population ranges, 19 villages come under the population range of 499 and below and among these villages 19 avail the amenity of power supply, 18 avail the drinking water, 17 avail the pucca road, 16 the communication, 3 post & telegraph , 8 avail the amenity of education and only one village avail the medical facility. In the population range of 500 - 1999 there are 189 villages out of the total 479 inhabited villages. While the amenity of drinking water & power supply are availed by all the villages, the amenity of education is availed by 87.83 percent of the villages, medical by 22.75 percent, post & telegraph 50.26 percent of the villages, communication by 91.53 percent, pucca road by 98.94 percent and market/ hat by 10.05 percent of the villages. 152 villages falls in the population range of 2,000 - 4,999 and all these villages are provided with the amenities of drinking water, and power supply marking 100.00 percent. The amenity of education is availed by 94.74 percent, medical by 56.58 percent, post & telegraph by 87.50 percent, Market/hat by 24.34 percent, communication by 98.03 percent and pucca road by 98.68 percent of the villages. In the population range of 5,000 + there are 119 villages and all these villages avail the amenities of drinking water, communication, power supply and Pucca road 100.00 percent. Regarding rest of the amenities education is availed by 94.12%, medical by 85.71%, post and telegraph by 99.16% and market / hat by 53.78% villages respectively.

TABLE – 17
Distribution of villages according to land use

Sl. No.	Name of C.D. Block	No.of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of Irrigated area to total cultivable area
(1)	(2)	(3)	(4)	(5)	(6)
1.	Talavadi	20	24,118.98	69.07	2.75

18.	Mulanur	16	46,197.17	44.27	25.97
19.	Vellakoil	11	35,815.54	71.78	34.59
20.	Kundadam	25	57005.12	62.99	44.41
	District	**479**	**623,024.76**	**62.76**	**44.03**

This table gives the distribution of inhabited villages according to land use. The total area of 479 villages 623,024.76 hectares of which the percentage of the cultivable area to the total area works out to 62.76. The percentage of irrigated area to total cultivable are a 44.03. Kodumudi, and Gopichettipalaiyam shows the highest percentage of cultivable area to total area viz 82.04 and 85.16 respectively and Andiyur shows the lowest of 22.29%. In respect of percentage of irrigated area to total cultivable area Uttukkuli and Talavadi occupies the last position having 9.19% and 2.75% whereas Erode occupies the first place having 78.43%.

All Towns		**0.52**	**1.03**	**1.69**	**3.19**

It is seen from Table 8 that for every 10,000 Urban Population in Periyar District, the ratio of Higher Secondary Schools is 0.52. Secondary Schools 1.03, Middle Schools 1.69 and Primary Schools 3.19 respectively. Bhavanisagar Township has higher ratio of Higher Secondary schools followed by Kunnattur and Chithode Town Panchayat respectively. In secondary schools, Kunnattur Town Panchayat is 4.85, followed by Chithode and Uratchikottai with 4.29 and 2.33 respectively. Chithode Town Panchayat has higher proportion of middle schools 5.72 per 10,000 urban population followed by Kunnattur 4.85 and Urachikottai 4.66 respectively. But in the case of Primary schools, higher proportion of 8.09 per 10,000 urban population is found in Kunnattur Town Panchyat followed by Chithode 7.15 and 6.99 in Urachikkottai Village Panchayat respectively.

Table - 20

Number of beds in medical institutions in towns

NOTE EXPLAINING THE CODES USED IN

NA .. Information not available

EDUCATIONAL

P .. Primary or Elementary School
M .. Junior Secondary or Middle School
H .. Matriculation or Secondary School
PUC .. Higher Secondary/Intermediate Pre-University/Junior College
C .. College, Any college (Graduate level and above like Arts, Science, Commerce, etc.)
I .. Industrial School
TR .. Training School
AC .. Adult Literacy Class/Centre
O .. Other educational institutions. These include Sanskrit Patashala, Senior Basic School, Makhtab, etc.

MEDICAL

H .. Hospital
MCW .. Maternity and Child Welfare Centre
MH .. Maternity Home
CWC .. Child Welfare Centre
HC .. Health Centre
PHC .. Primary Health Centre
PHS .. Primary Health Sub-centre
O .. Others
D .. Dispensary
FPC .. Family Planning Centre
TB .. T.B. Clinic
NH .. Nursing Home
RP .. Registered private Practitioner
SMP .. Subsidised Medical Practitioner
CHW .. Community Health Worker

DRINKING WATER

T .. Tap
W .. Well
TK .. Tank
TW .. Tube well
HP .. Hand pump
R .. River
F .. Fountain
C .. Canal
L .. Lake
S .. Spring
N .. Nallah
O .. Others

POST AND TELEGRAPH

PO .. Post Office
TO .. Telegraph Office
PTO .. Post and Telegraph Office
Phone .. Telephone connection

COMMUNICATIONS

BS .. Bus Stop
RS .. Railway Station
NW .. Navigable waterways (including river, canal, back-waters, etc.)

APPROACH TO VILLAGE

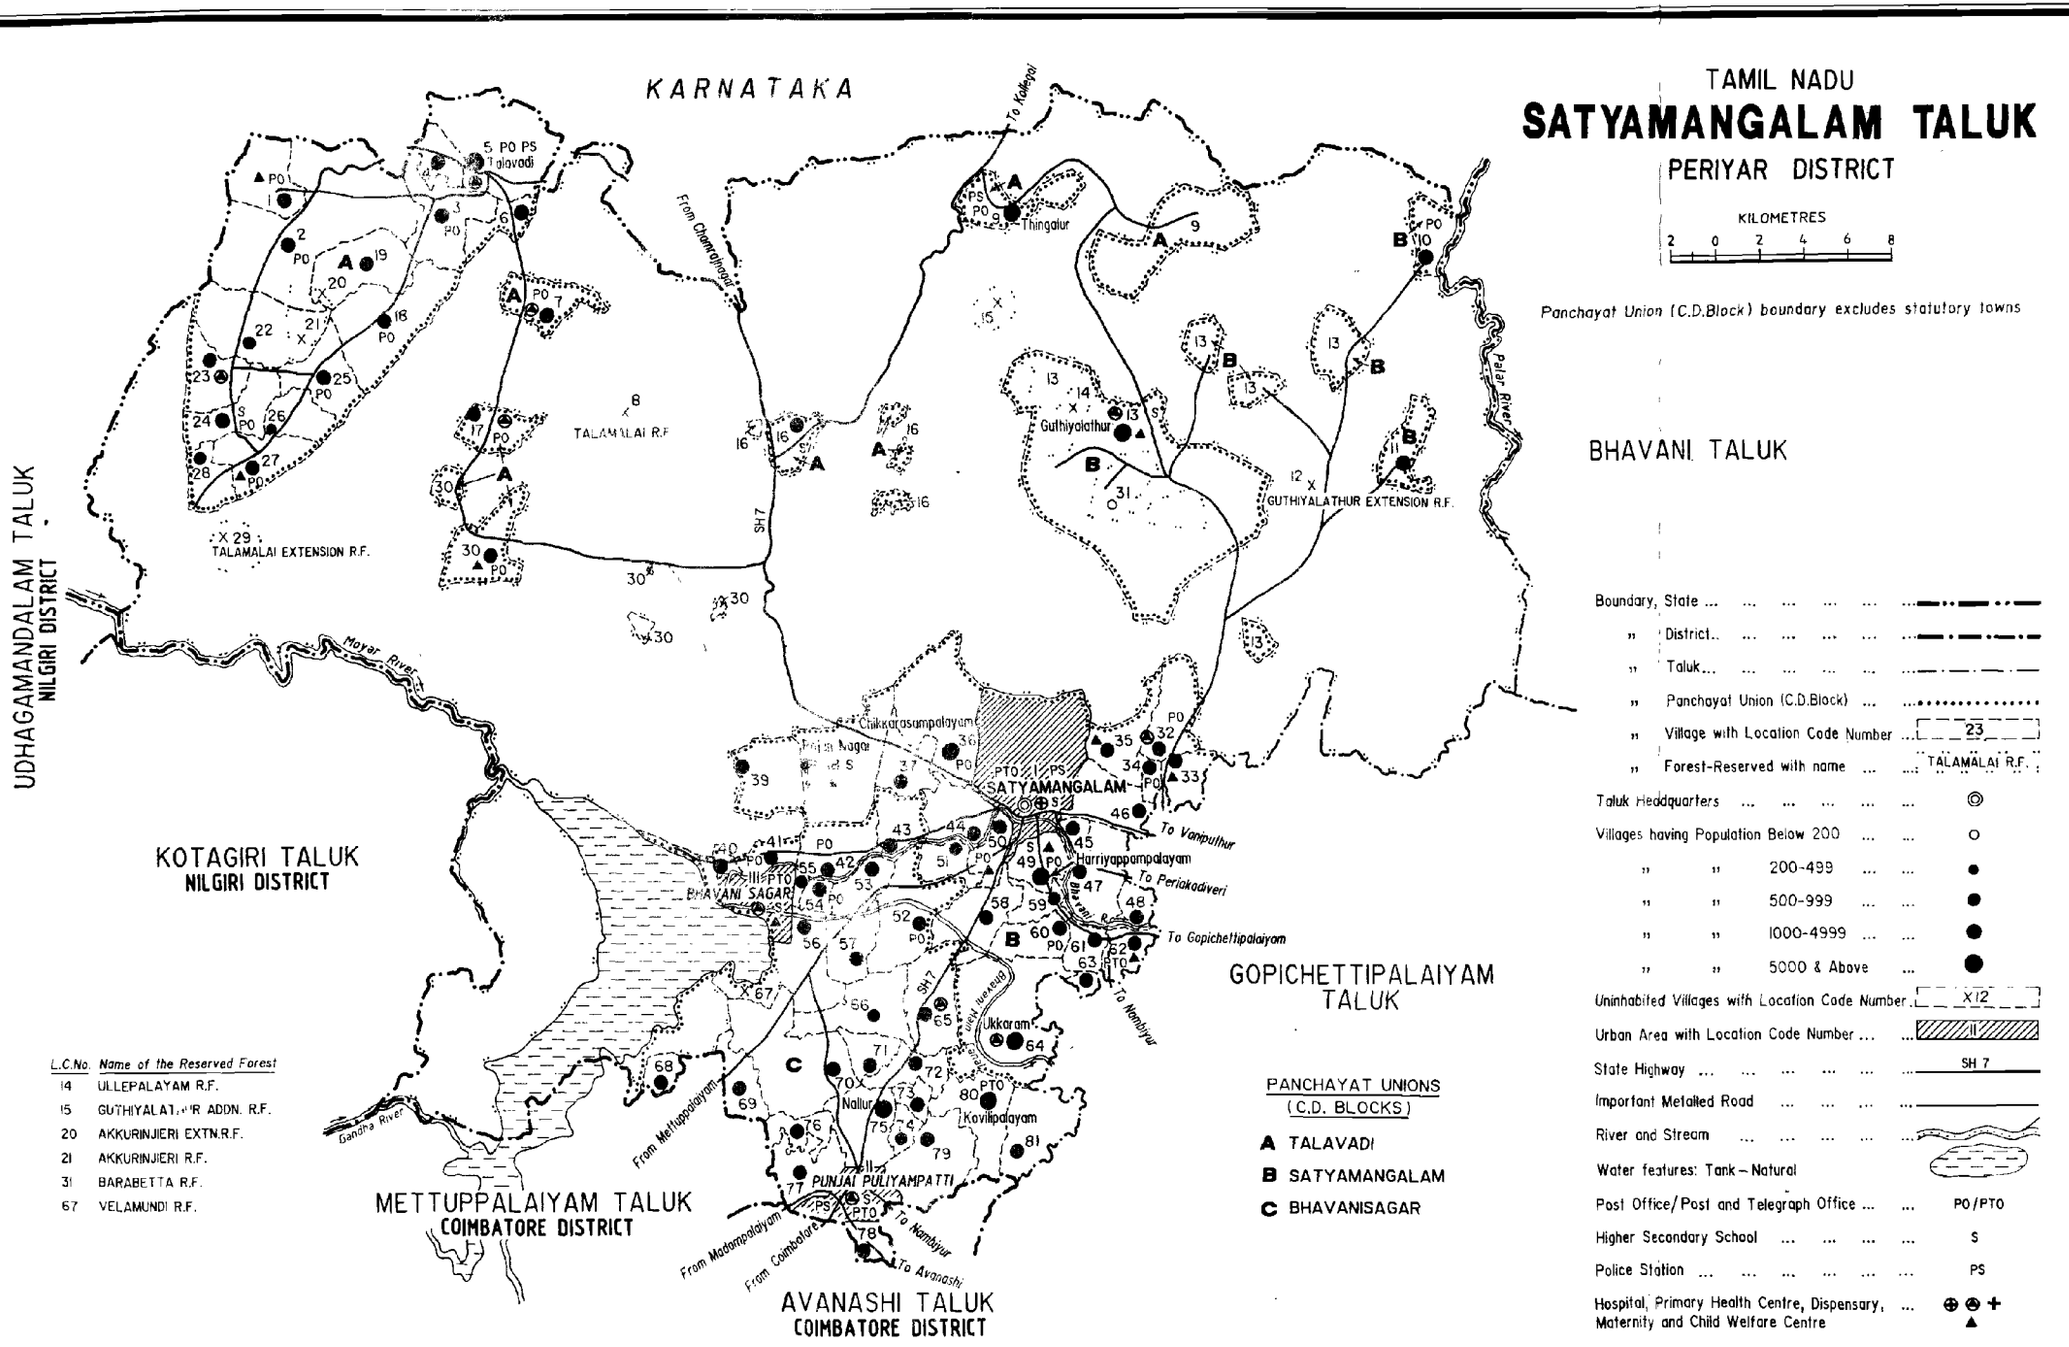

PR .. Pucca Road
KR .. Kachcha Road
NR .. Navigable River
NC .. Navigable canal
NW .. Navigable Waterway (other than river or canal)

POWER SUPPLY

ED .. Electricity for Domestic purpose
E Ag .. Electricity for Agriculture
EO .. Electricity for other purposes like industrial, commercial etc.
EA .. Electricity for all purposes listed above

IRRIGATED BY SOURCE

GC .. Government Canal
PC .. Private Canal
W .. Well (without electricity)
WE .. Well (with electricity)
TW .. Tube well (without electricity)
TWE .. Tube well (with electricity)
TK .. Tank
R .. River
L .. Lake
WF .. Water fall
O .. Others
T .. Total

TOWN DIRECTORY

NOTE EXPLAINING THE CODES USED IN THE TOWN DIRECTORY

CLASS OF TOWNS BY POPULATION

Population	Class
1,00,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

CIVIC ADMINISTRATION STATUS OF THE TOWN

M. Corp. .. Municipal Corporation/Corporation
M .. Municipality
NP .. Nagar Panchayat/Town Panchayat
GP .. Gram Panchayat/Village Panchayat
TC .. Town Committee/Town Area
CB .. Cantonment Board/Cantonment

TYPE OF ROAD

PR .. Pucca Road
KR .. Kachcha Road

SYSTEM OF SEWERAGE

S .. Sewer
OSD .. Open surface drains
BSD .. Box surface drains
SD .. Silk drains
CD .. Cesspool method
Pt. .. Pit system

METHOD OF DISPOSAL OF NIGHT SOIL

HL .. Head Loads
B .. Baskets
WB .. Wheel Barrows
ST .. Septic tank latrines
S .. Sewerage

SYSTEM OF STORAGE OF WATER

OHT .. Overhead tank
SR .. Service reservoir
IG .. River infiltration gallery
BWP .. Borewell pumping system
PT .. Pressure tank

SOURCE OF DRINKING WATER

TW .. Tube well /Hand pump
T .. Tap
W .. Well
TK .. Tank

MEDICAL FACILITIES

H .. Hospital
D .. Dispensary
HC .. Health Centre
FPC .. Family Planning centre
TB .. T.B. Clininc
NH .. Nursing Home
O .. Others
A .. Ayurvedic
U .. Unani
Hom .. Homeopathic

EDUCATIONAL FACILITIES

A .. Arts only
S .. Science only
AS .. Arts and Science only
C .. Commerce only
AC .. Arts and Commerce only
ASC .. Combined for all categories Arts, Science and Commerce
L .. Law

RECOGNISED SHORTHAND, TYPEWRITING AND OTHER VOCATIONAL INSTITUTIONS

SH .. Shorthand
Type .. Typewriting
Sh.Type .. Shorthand and Typewriting
O .. Others

PUBLIC LIBRARIES AND READING ROOMS

PL .. Public Libraries
RR .. Reading Rooms
