District Primary Census abstract for SC/ST - C.D. Blockwise/Townwise. 404-427

FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after 1951 Census and is continuing since then with some innovations/modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Government/Union Territory Administration. It inter-alia provides data/information on some of the basic demographic and socio-economic characteristics and on availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories, including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third Part (C) of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevent material. In 1981, some new features alongwith the restructuring of the formats of Village and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of Villages and towns (wardwise) including Scheduled Castes and Schedule Tribes PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referrent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time during 1981 census in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directory also, keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on Slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this statement ,details on civic and other amenities were reported for the slums of Class-I and Class-II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in statements IV and V respectively.

The manner of presentaion of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slighly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rate as all children below 7 years of age have been treated as illiterates at the time of the 1991 Census, it is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Developement Blocklevel presentation of data in the village directory and PCA instead of the traditional Tehsil/Taluk /PS level presentation. It is expected that the presentation of village and town directory and PCA data at C.D.block level will help the planners in formulation of micro-level developmental plans, as

the C.D. Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census alongwith the corresponding codes of 1981.

This publication is a joint venture of State Government/UT administration and the Census Organisation. The data have been collected and compiled under the direction of Shri. K. Sampath Kumar, Director of Census Operations, Tamilnadu, on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of the publication was initiated by Dr. K. P. Ittaman, former Deputy Registrar General (Social Studies) and Shri M. M. Dua, Joint Director, for the sake of uniformity in presentation of information/data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of Census/non-Census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidence of Shri M. K. Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri. A. K Singh, Deputy Director who was assisted by Shri. N. S. Soam, Assistant Director and his Staff. Technical guidance in the preparation of the maps was initially provided by Dr. B. K. Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi,

June 11, 1992.

A. R. NANDA

REGISTRAR GENERAL, INDIA

PREFACE

The District Census Hand Book is the most useful publication for the public, social workers, researchers, academicians, administrators, local bodies and the government officials for the various official and non-official purposes. It gives data for the village/panchayat at the lowest level to the district level including panchayat union/taluk covering demographic, social, economic and cultural aspects. There had been an endeavour to make it as comprehensive as possible, to provide data on various aspects since its inception and by 1961, it reached the dimensions of a compendium for the district. The Registrar General, India, in his foreword has kindly traced out the improvements brought out from time to time since 1961 to the latest 1991 Census while the history of the District Census Handbook in this State is narrated in the Introductory Chapter to this volume.

The District Census Handbook is a joint venture of the Census Organisation and the State Government of Tamil Nadu. The scope of District Census Handbook has been widely increased and restructured in 1981 to meet the Minimum Needs and Revised Minimum Needs Programmes of the Planning Commission. Broadly keeping up the 1981 main structure, the formats of the Primary Census Abstract have been restructured slighly for the benefit of data users. The nine-fold industrial classification of main-workers as done at the 1961 and 1971 Censuses has been revived instead of the four-fold classification of the 1981 Census. Population in the age group 0-6 by sex has been given in order to enable computation of realistic literacy rate as all children below 7 years are treated as illiterates. One of the most important innovations of the 1991 Census is the presentation of data at the Community Development Block/Panchayat Union level to help planners in the formulation of micro-level developmental plans at the lowest administrative unit level. In this State, for development planning, the lowest administrative unit is the 'Panchayat Union'. This time, for the benefit of data users of village Directory and PCA data from the magnetic tapes/floppies or from the published records, the computer code as well as the Manual code as of 1991 Census and the corresponding location code of 1981 Census are given.

The District Census Handbooks are now being published in two parts - Part-A Village & Town Directory and Part-B - Village and Townwise Primary Census Abstract. The two parts are being published in one volume as Part-A & B for smaller districts.

Part-A deals with a brief description of the district - its major characteristics in relation to the economic resources like forestry, agriculture, industries, social, cultural, religious and historical aspects apart from certain basic amenities like drinking water, education, medical, post and telegraphs, market day(s), communications, etc., and if any of these facilities are not available to any village, distance range of the nearest place from where available; power supply, approach to the village, nearest town to the village, health and family planning centres, primary health sub-centres and community health workers in the village. Information on approach to village is also provided to identify inaccessible villages in the district. These exhaustive data on infra-structre in relation to amenities available to the villages and land-use pattern are meant to meet the requirements of 'Micro-level' local area development planning at the lowest administrative unit viz., C.D.Block/Panchayat Union level. This is the reason why this time data are being published at C.D. Block/Panchayat Union level instead of the traditional taluk level.

In the Town Directory, information on class of town, area of the town, number of households, population and growth rate of the population of the town at each of the Censuses from 1901-1991, sex-ratio at the 1971, 1981 and 1991 Censuses, physical aspects of rainfall and minimum and maximum temperatures recorded, distance from State and District Headquarters, nearest City, communication facilities like railway station, bus-route, inland navigation, statement on Municipal finance, civic and other amenities like protected water supply, electric connections by type, fire fighting service,

road length by type, system of sewerage, number of latrines by type, total population and SC & ST population, medical, educational facilities by type, recreational and cultural facilities like stadia, cinema, drama, community hall, public libraries and reading rooms, adult literacy classes/centres, working women's hostels, three Important commodities manufactured, exported and imported; a special table on civic and other amenities availble in all notified slums in Class-I and Class-II towns have been included with a view to ascertain the availability of basic amenities and to meet the Minimum Needs and Revised Minimum Needs Programme.

Part-B deals with the Primary Census Abstract for all the villages in the rural areas and ward-wise for urban areas. This time the PCA data like Village and Town Directory data are arranged C.D Block/Panchayat Unionwise giving area of the village (in hectares), area of town (in Sq. Kms.) number of occupied residential houses, households, population by sex, Scheduled Caste and Scheduled Tribe population, literates, Main Workers and their distribution into nine industrial categories (as against the 4 industrial categories published in 1981), marginal workers, non- workers, and population in the age group 0-6 by sex.

Further, if a village is covering more than one Panchayat, break up figures for each segment of the village forming different Panchayat also are given.

It is hoped that with the modifications now brought out in the Village Directory, Town Directory and PCA data at the level of C.D. Block/Panchayat Unionwise would go a long way in helping the planners to chalk out more effective developmental programmes at micro-level for local area developmental plans.

In the process of collection of data of this volume, various State and Central Government Departments have extended their kind co-operation particularly with regard to infra-structural amenities for Part-A - Village and Town Directory, History and general features of the district, etc., I convey my greatful thanks to all of them. The PCA data presented in Part-B of this volume were collected during the Census Operations in February- March, 1991 the reference date being sunrise of the 1st March 1991.

I remain greatful to the Director of Census operations, Shri K. Sampath Kumar, who closely guided us in every aspect of this work, He had been a source of strength and inspiration for us. We owe a deep sense of gratitude to him for this kindness in dealing with our practical difficulties, his patient advice and formula of solutions for even small problems which we brought to his attention.

I wish to record my deep sense of gratitute to Late Shri. M. Thangaraju, JDCOo, Shri Ch. Puranachandra Rao, DDCO for overall direction and guidance to bring out this Publication. I use this opportunity to mention my special thanks to Shri. G. Bapuji, ADCO for scrutinising the draft report and presenting the data with meticulous care and accuracy. I am also thankful to Shri. S. P. Grover, JDCO, and Shri Phool Singh, DDCO, who are also provided overall guidance and supervision during their tenure in this regard.

Apart from that Shri Gummodi Bapuji incharge of DCH section took a meticulous care to arrange this Volume in a systematic manner with the help of his colleagues S/Sri A. V. Raman, K. Sambamoorthy, Investigators, P. G. Sankaran and M. Thangavelu, Statistical Assistants and other section officials. The preparation of maps included in this volume were done under the supervision of Sri Jogesh Das, Senior Geographer.

In the compilation and processing of village Directory and Town Directory data, it was ably assisted by Smt. R. Ranibai and Smt. A. M. Mangayarkarasi, Investigators and their assistants, respectively while Smt. R. Sakunthala, Statisti al Assistant is chiefly responsible for preparing the analytical notes, inset tables, draft write up and arrangement of the matter in order.

The PCA data for the district were processed at the Regional Tabulation Office, Madurai under the supervision of Shri. K. Govindarajan, Regional Deputy Director of Census Operations assisted by S/Shri. K. Jagannivasan, Investigator, R. Sundararaman, S. Balasubramanian and Kum. S. Philomina, Statistical Assistants, who were deputed from this Directorate to the Regional Tabulation Office, Madurai.

Finalisation of PCA data (Panchayat unionwise) and providing computer codes for Villages were attended to by Shri. R Lakshminarayanan and Smt. M. V. Rajalakshmi, Investigators and staff of the census section. The district and taluk maps in this publication give the administrative units upto village level, the location of Towns and Cities, Communication facilities, etc. This time in the taluk map, boundaries of each of the C.D. Block units namely, Panchayat Unions' have been shown separately to synchronise with the presentation of data Panchayat Unionwise.

I convey my greatful thanks to Shri A. R. Nanda, I.A.S., Registrar General and Census Commissioner, India for the valuable guidance and advice I received from him throughout. I am thankful to Sri N. Rama Rao, Deputy Registrar General (C&T) who has been a source of strength and constant help and guidance on all technical matters like a 'Ready Reckoner'. I also thank Dr. K. P. Ittaman, former Deputy Registrar General (Social Studies) and Sri M. M. Dua, Joint Director, for planning, designing and co-ordinating the formats. I thank Shri M. K. Jain, Deputy Registrar General (S. S.) and Shri. A. K. Singh, Deputy Director, Sri N. S. Soam, Assistant Director and his staff for scrutinising and approving the first volume (Periyar Dt.) so that it could fit in the all India pattern from uniformity point of view in the presentation of data and other items. My thanks are also due to Dr. B. K. Roy, former Deputy Registrar General (Map) and Mrs. Minati Ghosh, Deputy Registrar General (Map) for providing technical guidance in the preparation of maps.

The data entry of the Village Directory and Primary Census Abstract in the computer had been done at the National Informatics Centre (NIC) at Madras, in the shortest possible time. My sincere thanks in this regard are to Shri M. Mohan, Technical Director and Shri A. N. Sridhar, Scientific Officer of the NIC, Madras.

I have great pleasure in acknowledging the able assistance rendered by the following officials of my office in the preparation of this volume.

Madras

ANALYTICAL NOTE

Census Concepts

Rural and Urban areas

It is customary to classify a place as rural or urban in every Census and present data separately for rural and urban areas.Urban areas which are specifically defined for Census purposes are determined on the basis of certain demographic and economic criteria. The rest are treated as rural areas. At the 1991 Census, the same criteria adopted for determining the urban areas at the 1981 Census have been continued. The urban areas of 1991 Census are:

(a) All places with a Municipality, Corporation or Cantonment board or Notified town area, committee, etc.

(b) All other areas which satisfied the following criteria:

(i) A minimum population of 5,000

(ii) At least 75 percent of male main workers engaged in non-agricultural and allied activities:

(iii) A population density of at least 400 per sq.km.(or one thousand per square mile)

The above definition adopted for both 1981 and 1991 Censuses varies slightly from those of 1961 and 1971 Censuses. In the 1961 and 1971 Censuses, the male population engaged in the activities of fishing, logging etc., were treated as engaged in non-agricultural pursuits and hence have been taken into account with those engaged in non-agricultural pursuits for applying the test of the 75 percent non-agricultural workers criterio. But in the 1981 Census as well as in the 1991 Census, they have been treated on par with agricultural activities for applying the test for this criterio. Prior to the 1981 Census, certain places with less than 5,000 population were treated as urban areas on the basis of certain consideration like density, social and historical importance etc., at the discretion of the Director of Census Operations in consultation with the State Government. On the other hand, the tests on demographic and economic criteria were strictly applied at the 1981 and 1991 Censuses and no area was classified as urban area on other considerations.

Urban Agglomeration

This concept was adopted for the first time in the 1971 Census and continued in the 1981 and 1991 censuses also.

An Urban Agglomeration is a continuous urban spread constituting a city or town and its adjoining urban outgrowths (OG) or two or more physically contiguous towns together with continuous well recognised urban outgrowths, if any, of such towns. In certain cases, large housing colonies, University campuses, port areas, Military camps, etc., would have come up around a city or town but falling out side the statutory limits of the city or town.They may be lying inside the boundaries of a village or villages which are contiguous to the city/town. These villages could not be treated as urban as they do not satisfy the urban criteria. But at the same time the colonies etc., mentioned above deserve to be treated as an integrated urban area. Therefore, all such towns together with their urban outgrowth will have to be treated as one urban unit and called urban Agglomeration. As no outgrowth (OG) as defined above, has been recognised in Tamil Nade, all the constituent units of urban agglomerations are also independent urban units or towns in the state.

Census House

A Census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for residential or non residential purposes or both.

Household

A household is a group of persons, who commonly live together and would take their meals from com-

mon kitchen, unless the exigencies of work prevented any of them from doing so.There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of households with unrelated members are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc.These are called institutional Households.

Scheduled Caste/Scheduled Tribe

For the enumeration of Scheduled Castes and Scheduled Tribes in census, the names of Scheduled Caste and Scheduled Tribe as recognised in Tamil Nadu based on the Scheduled Caste and Scheduled Tribe orders (Amendment) Act of 1976 (Central Act,108 of 1976) was followed The enumerators were instructed to record a person as belonging to Scheduled Caste and Scheduled Tribe provided the name given by the person was found in the list supplied to them.

Literates

A literate is defined as "a person who can both read and write with understanding in any language". A person who could merely read but cannot write, is not a literate. It is not necessary that a person, to be considered as a literate, must have received any formal education or have passed any minimum educational standard. In the 1991 Census, all children of the age of 6 years or less are treated as illiterate whereas in the 1981 Census all children of the age of 4 years or less were treated as illiterate.

Definition of work

Work may be defined as partcipation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work It also includes unpaid work on farm or in family enterprise

Main workers and Marginal workers

The dichotomy of worker and non-worker of 1961 and 1971 Censuses had been dropped and the trichotomy of main worker, marginal worker and non-worker was introduced in the 1981 census and this has been continued in the 1991 census also.A worker was identified with reference to a reference period preceding the census. The reference period prescribed was one year preceding the date of enumeration. Certain types of work such as agriculture, household industries, like gur making etc. were carried on, either throughout the year or only during certain seasons or part of the year, depending on the local circumstances. In such cases what we were concerned with was the broad time spent during the agricultural season preceding the enumeration. Workers can be full-time workers or marginal workers.If a person had done any work during the reference period and if he had not worked for the major part of the year, i.e., if he had worked for 183 days or more he was considered to be a full-time worker (Main Worker). If a person had done any work during the reference period and if he had not worked for the major part of the year, i.e., if he had worked for less than 183 days, he was considered to be a marginal worker. Persons who had not participated in any economic activity even for a day during the last one year preceding the day of enumeration were considered as non-workers.

All the main workers had been classified under one of the four main categories in the 1981 census, while in 1991 census, they have been classified under one of the nine industrial categories as was done in 1971 census. They are I.Cultivators(C),II. Agricultural Labourers (AL) III. Live Stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, IV Mining and Quarrying, V(a). Manufacturing, Processing, Servicing and Repairs in Household Industry, V(b). Manufacturing,Processing, Servicing and Repairs in other than Household Industry, VI. Construction, VII. Trade and Commerce, VIII. Transport, Storage and Communication, IX. Other Services.

The definitions of these nine industrial categories of workers are as given below:

I. Cultivators (C)

For the purpose of census, a person is considered as Cultivator if he/she is engaged in cultivation of land, owned or taken on lease from Government or from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation

II. Agricultural Labourer (AL)

A person who works on another person's land for wages in money, kind or share should be regarded as agricultural labourer. He/she has no risk in the cultivation, but he/she merely works on another person's land for wages An agricultural labourer has no right of lease or contract on land on which he/she works.

III. Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities

Persons who were reported as workers in Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities are treated as workers under this category.

IV. Mining and Quarrying

Persons who were reported as workers in Mining and Quarrying are treated as workers under this category.

V(a). Manufacturing, Processing, Servicing and Repairs in Household industry

Household industry is defined as an Industry conducted by the head of the household himself/herself and/or by the members of the household at home or within the village in case of rural areas and within the premises of the house only in the case of Urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The household industry should not be run on the scale of a registered factory which would qualify to be registered under the Indian Factories Act. Mere selling of food items or other edibles, should not be regarded as household industry.

V(b). Manufacturing, Processing, Servicing and Repairs in other than Household Industry

Persons reported as workers in household industry other than those mentioned in V(a) were treated as workers in this category

VI. Construction

Persons working as plumbers, masons, electricians, painters and others engaged in construction work were treated under this category.

VII. Trade and Commerce

Persons engaged in work such as wholesale or retail business or trade were treated in this category.

VIII. Transport, Storage and Communication

Persons who were reported as drivers, conductors, technicians, fitter, welder and other communication workers were treated under this category.

IX. Other services

Persons engaged in services other than those mentioned in I to VIII categories fall under this category. Workers who could not be classified in any of the above I to VIII categories are treated as those engaged in other services.

Non-workers

All persons who have not been treated as workers i.e., persons who have not worked any time at all during the reference period of one year preceding the date of enumeration have been considered as non-workers. Thus, non-workers cover all persons who were engaged in unpaid household duties and who do no other work or have not done any work at all during the last one year, full time students and children attending school, all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age, persons retired from service or rentiers, beggars, vagrants etc., convicts in jails or inmates of a penal, mental or charitable institution and all other non-workers not falling under any of the above categories.

HISTORY OF THE DISTRICT CENSUS HANDBOOK

After the census of 1951, the Government of India offered to handover to the State Government the Census tables and other data prepared during the Census and suggested that they might be published along with any other useful information relating to each district as separate volume. The State Government accepted the proposal and the first publication of the District Census Handbook was brought out at the cost of the State Government.

The District Census Handbook of 1951 was found to be very useful and it was therefore decided not only to continue the series for the 1961 Census but also to improve on its content so that each District Census Handbook contained certain basic economic data for the smallest administrative unit in the district and be an useful reference book for scholars and other data users.

After the 1971 Census also, the publication of the series of District Census Handbook was continued. The publication of the 1971 District Census Handbook was in three parts, viz., Part-A, Part-B, Part-C. Part-A relating to Village and Town Directory. Part-B relating to Village and Townwise Primary Census Abstract and Part-C comprising District Census Tables and certain administrative statistical tables.

The tradition of bringing out the Census Handbook was continued by the State Government during the 1981 Census also. In this series some individual feature besides restructuring of the formats of the village Directory had been adopted bearing in mind the requirements of data for the socio economic programmes of the Government The comparability of data with the 1971 census data had also been kept in view.

The present 1991 District Census Handbook will be published in two parts viz., Part-A- Village and Town Directory and Part-B- Village and Townwise Primary Census Abstract.

SCOPE OF VILLAGE AND TOWN DIRECTORY STATEMENTS AND PRIMARY CENSUS ABSTRACT

The District Census Handbooks are the only publications which incorporate the data down to the level of a village and level of a town which are constantly referred to by the data users

The Village Directory statement gives the list of villages by C.D.Block and for each village the area, no of households and population, availability of amenities and land use. The information on amenities available in the village includes educational, medical, drinking water, post and telegraph, market, rail/road or other communication facilities and power supply. Land use is shown as area under forests, irrigation, unirrigated land, culturable waste and area not available for cultivation

Appendix - I gives C D.Blockwise abstract of educational, medical and other amenities available viz , the number of villages having various levels and types of educational institutions such as middle schools, adult literacy centers, etc., various types of medical institutions such as dispensaries, primary health centres,maternity and child welfare centres, family planning centres, community health workers etc and the number of such institutions, various types of drinking water sources, such as tap, well, tank, tube-well, river, fountain, canal, etc. post and telegraph offices, bus-stops, railway-station, power supply etc. and also the number of villages not having such amenities.

Appendix - II gives for each non-municipal town (Census Towns) the area under forest, irrigated and unirrigated land, culturable waste (including gauchar and groves) and area not available for cultivation.

Appendix - III is only the list of villages where no amenities relating to education, medical, drinking water, post and telegraph, communication, power supply and market/hat and public health facilities etc. are available.

Appendix - IV gives the list of villages according to the proportion of SC/ST to the total population by ranges. Part-A of the Appendix gives the villages according to the proportion of SC population. The information is presented by the ranges viz. 0-5, 6-10, 11-15, 16-20, 21-30 and 31 + percent and above, and Part-B according to the proportion of ST population ranges viz. 0-5, 6- 15, 16-25, 26-35, 36-50 and 51 + percent and above.

The Town Directory gives important and very useful information like civic and other amenities available in all the towns in the district, statutorily notified as well as non-municipal or census towns. The details relating to each of the towns have been presented in seven statements viz. Statements I to VI and IV-A.

In all the statements except IV-A, the towns are arranged in the alphabetical order for the district The Town Directory does not cover strictly military areas It may, however, cover cantonment areas but not strictly military areas or military establishments within the cantonment which are required to be left out However, basic statistics of the cantonment as a whole have been provided. In the Town Directory, codes have been given for the data on amenities and civic administration for want of space. The relevant explanations for the codes adopted have been given in the beginning of the Town Directory Statements.

The concept of 'urban agglomeration' was introduced for the first time in 1971 replacing the concept of 'town group'of 1961. The concept of Urban Agglomeration has been continued at the 1981 and 1991 censuses also. An Urban Agglomeration may be explained as follows: "It must form a continuous urban spread constituting a town and its adjoining urban outgrowth or two or more physically contiguous towns together with continuous well recognised urban outgrowth, if any, of such towns".

An Urban Agglomeration includes two or more independent census towns. The names of the Towns/Urban Agglomeration have been arranged in the alphabetical order. The particulars of the individual town which constitutes one of the units of agglomeration have not been furnished separately because the particulars have already been furnished, where they occur together under the name of agglomeration. The following remarks have been given against such town within brackets

"(See the name of the main town of the agglomeration)"

By adoption of this method, the reader can get an idea of the particulars of the urban agglomeration in total and also separately.

Statement I:Status and Growth History

This statement provides some basic data based on the primary Census Abstract for the towns and urban agglomerations of 1991 census. For analysing the town directory data at the State level and All India levels some new columns have been introduced in the 1981 census. The new items are :-Class of town, area, number of households, population and growth rate at each census since 1901, density and sex ratio at the 1971, 1981 and 1991 censuses are also provided in this statement. At the 1991 census, a new item - the name of C.D Block is also provided in the statement

Class of the towns are presented according to the 1991 census population of the town as follows:

Population	Class
100,000 and above	I
50,000 to 99,999	II
20,000 to 49,999	III
10,000 to 19,999	IV
5,000 to 9,999	V
Below 5,000	VI

Location Code Number for Towns

To distinguish the town from the village, the Location Code Numbers for Towns have been given in Roman Numerals and these numbers have been assigned in a continuous order for the district as a whole. In the present 1991 census, name of C.D.Block has been included with a view to locate the town in the appropriate C.D.Block

Statement II: Physical aspects and Location of Towns, 1989

Under physical aspects, annual rainfall and temperature particulars are furnished. These particulars were obtained from the Commissioner of Statistics, Tamil Nadu, Madras. If the information is not available for any particular town, the nearest town for which it is available is given. For Col.(9),nearest city with population of one lakh and more is furnished according to 1991 census. For the other columns, figures obtained from the Municipal Commissioners and Panchayat Union Commissioners are given. The zero within brackets in columns, 10 and 11 denotes that the referent town itself is enjoying road transport facilities. In column 12, name of the navigable river/canal and its distance is indicated as follows: "Cauvery(R)-5".In this case, 5 is the distance in Kms., of the navigable river Cauvery from the referent town. In brackets 'R' for river and 'C' for canal have been given.

Statement III: Municipal Finance, 1988-89

The civic administration status of the town, the receipt through tax, properties and powers, Government grants, loans, advances and other sources and the expenditure on general administration, public safety, public health, public works,public institutions and other public services are given in this statement. The sources of the receipts and expenditure are furnished in terms of rupees in hundreds

Statement IV: Civic and other amenities, 1989

The civic and other amenities existing in the towns as in the town 1989 are given. The data were obtained from the Municipal Commissioners and Panchayat Union Commissioners of the Concerned towns.

Column - 3: Civic administrative status

It is a new column introduced in this statement to facilitate analysis during the 1981 census.

Column - 4: Population

It is also a new column introduced in this statement to measure the amenities in respect of population, based on 1991 census population data.

Column - 5: Scheduled Caste and Scheduled Tribe population

It is introduced to know the size of the population of the weaker sections of the community in the towns based on 1991 census population data

In this statement, road length, system of sewerage, number of latrines, method of disposal of night soil, protected water supply(source of supply, system of storage with capacity) and fire fighting service information are also collected from the Municipal Commissioners and Panchayat Union Commissioners.

Electrification

In this column electrification particulars were obtained from the Tamil Nadu Electricity Board through the Municipal Commissioners and Panchayat Union Commissioners. The details are furnished below:

i) Domestic connections

This refers to the number of services given to house for domestic purposes like fans, lighting,etc.

ii) Industrial connections

This refers to the number of services effected to L.T (Low Tension) Industries such as workshop, flour mills, oil mills, grinding machines, cotton ginning and engineering industries etc.

iii) Commercial connections

This refers to the service given to shops, business houses, public institutions like offices, schools and commercial establishments.

iv) ***Road lighting points***

This refers to the number of points of street lights which are maintained by the board and for which consumption charges are paid to the board by respective local bodies. For some panchayats, the number of services effected along has been furnished under street lights and not the points

v) ***Other connections***

This refers to the number of services effected for agricultural purposes, huts, public water supply systems, cottage industries etc

Statement IV-A: Civic and other amenities, notified slums, 1989

This is a new statement on civic and other amenities in the notified or recognised slums of Class I and II towns introduced during 1981 census. Generally in cities or towns having slums, the local authority such as Municipality or Municipal Corporation or even the Development Authority notified the recognised slums. Such notifications are linked up with the availability of funds from the Statement Government for slum clearance.

Name of the slum and the details of the area, population, length of the paved roads, system of sewerage, number of different types of latrines and method of disposal of night soil etc. are given in this statement

Statement V: Medical, Educational, Recreational and Cultural facilities, 1989

In this statement, medical, educational, recreational and cultural facilities of the towns as in 1989 are furnished. The data for educational and medical facilities were obtained from the Municipal Commissioners and Panchayat Union Commissioners for the concerned towns, and from the Director of Secondary Education and Direction of Public Health respectively. In medical facilities columns, the number of Hospital/Dispensaries/T B.clinics etc,and number of beds in medical institutions etc. are furnished.

In educational facilities columns, the number of Arts/Science/Commerce collages, Medical collages, Engineering collages and Polytechnics were obtained from the State Education Department are furnished.

Column 10: Recognised shorthand, typewriting and other vocational training institutions

Particulars were obtained from the District Industries Officers and Directorate of Employment and Training Officers.The term, recognised by some statutory authority like Education Department, Commerce Department, Labour Department etc. of the Government or by semi-Government or autonomous bodies, public sector project etc.

Column 16: Number of working women's hostel with number of seats

This is a new column introduced during the 1981 census Consequent on the increase in the employment of women in urban areas the housing need of working women has been considered as an important subject for study.

Cinema in column 18 refer only to the permanent cinema theaters and do not include the touring cinema.

Column 19: Community Halls have been added in this column as they are fast becoming a common feature of the urban land scope.

Statement VI: Trade, Commerce, Industry and Banking in 1989

In this statement, Trade, Commerce, Industry and Banking facilities in the town as in 1989 are furnished. Banking particulars were obtained from the Reserve Bank of India. The information on number of agricultural and non-agricultural credit societies was collected from the Registrar of Co-operative Societies through the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

SCOPE OF PRIMARY CENSUS ABSTRACT

The Primary Census Abstract as it is called, presents basic for each village or segment of a village (in cases where such village segments form different panchayats) in the "Village wise Primary Census Abstract" and for each ward/division of a town in the "Urban Primary Census Abstract". The format of the Primary Census Abstract for the villages and towns in 1991 has been sligtly modified as compared to the 1981 Primary Census Abstract.

The Primary Census Abstract gives the details on area, number of occupied residential houses, number of households, total population, population in the age-group 0-6, SC/ST population, literates,total main workers, distribution of main workers by 9 industrial categories, marginal workers and non-workers in respect of each unit with male, female breakup.In 1981, the main workers were classified into four categories where as in the 1991 census they are classified into 9 industrial categories as in 1961 and 1971 censuses. For the first time in this Census, the population in the age group 0-6 with sex breakup presented in PCA in order to arrive at effective literacy rate, after excluding such persons as all the persons below seven years are treated as illiterates in this census. The urban/village Primary Census Abstract gives this information for each village and each urban ward. Till 1981 Census, the Primary Census Abstract was presented for each taluk and for each town in a district But, in the 1991 census, the Primary Census Abstract for each CD Block is presented for the first time in the Indian Census. Besides these, seperate Primary Census Abstract for Scheduled Castes and Scheduled Tribes which contain similar details as those in the PCA for general population are presented for District/Community Development Block/UA/City/Town

With a view to enable data users to derive the figures for Panchayat the data are presented for segments of villages also, wherever such segments constitute different Panchayat, the segment wise data have to be used separately or added with the data of some other segment so as to derive panchayat data. For example a revenue village bearing L.C.No 9 constitute two different panchayats, the figures are given separately for each portion of the village constituting these panchayats against L.C.No 9 a/b and 9 b/b. The total figures for the entire revenue village can be arrived at by adding the figures given against both the segments viz. 9 a/b and 9 b/b. If, instead, the panchayat figures are required, the data for the concerned village segment or segments relating to the panchayats concerned are to be addedup to arrive at the total figures for the respective panchayats.An appendix presented in the case of the Urban Primary Census Abstract gives 1991 population, Scheduled Caste and Scheduled Tribes population for each enumerator block of the town This may be useful for administrative purposes and such data are also required by urban planners and researchers for conducting special studies in selected blocks.

Mode of presentation

At the beginning, the District Primary Census Abstract containing data for District and C.D Blocks (for total, Rural Urban areas) as also towns under each C.D Block and at the end Census, the C D.Blocks is the main unit of presentation of data instead of taluk which was the main unit till 1981 Census.The District PCA is followed by alphabetical list of villages for each C.D Block in the district. This is followed by Village/Urban PCA. In the Village/Urban PCA, data for the first C.D Block for total, rural and urban areas seperately, followed by data for villages and census towns falling under each C.D Block are presented. Thereafter, similar data for second,third and subsequent C D Blocks in the district are presented. At the end of the C.D Block , the Urban PCA containing data at ward level for all the towns and cities besides the data for UAs are presented. In an appendix to the Urban blockwise PCA, the population and Scheduled Castes/Scheduled Tribes figures for each Enumerators Block of every town/city in the district are given. After the appendix to Urban PCA, the Talukwise PCA containing data for the District and each taluk in the district with Total, Rural and Urban breakup is presented, as such data are also sought after This is followed by two annexures Appendix-I contains Details of Community Development Blocks falling under each taluk and Appendix-II contains names of the villages/segment of villages constituting each town in the district

Maps

Apart from the District Map given as frontispiece, maps for each taluks showing the villages Location

Code numbers and their boundaries are presented. The boundaries of the C.D.Blocks falling in the taluks are also shown. As compared with the maps presented in 1971 and 1981 District Census Handbook, some improvements have been effected in the maps presented in this volume. All towns are shown in the district and taluk maps with shading screens and also spheres according to the population size of towns.

Area figures

In the District Primary Census Abstract, the area figures are given in square kilometers for total, rural and urban areas. In the villagewise Primary Census Abstract the area figures for each revenue village are given in hectares upto two decimals. The area figures for each town is given in Sq.Km in the Urban Primary Census Abstract In the District Primary Census Abstract the area figures of the district total represent the "Geographical Area" figures supplied by the Surveyor General of India. Figures for urban areas and villages are those supplied by the local bodies and revenue authorities. The total of the urban (area)of a district has been arrived at by adding the urban area figures of each town within the district Area figures for the rural areas of district are derived by subtracting the urban area figures from the total area of the district The area figures of each C.D.Block represent the area figures that are published in the concerned departmental publication of the State Government. The area figures of the C.D.Blocks will not addedup to the district area figures because, C.D.Block area figures represent the "Land use" area, while in case of the district represent" Geographical Area", supplied by Surveyor General of India The total of the village areas given in the Village/Urban Primary Census Abstract may not tally with the rural area of the C D.Block given, as the C D.Block area figures include hills, forests, rivers etc. whereas the village area may not include the same. One sq.km consist of 100 hectares.

It is hoped that the pattern of presentation of basic census particulars for each district as explained above and adopted in this volume would be found convenient by data users.

RAMANATHAPURAM DISTRICT-AN OUTLINE

In the early 15th century the present territories of Ramanathapuram district comprising of taluks Tiruvadanai, Paramakkudi, Kamudi, Mudukulattur, Ramanathapuram and Rameswaram were included in Pandyan kingdom For a short period, this area was under the Chola kings when Rajendra Chola brought it under his territory in 1063 A.D. In 1520 A D., the Nayaks of Vijayanagar took over this area under their control from the Pandyan dynasty. For about two centuries, Marava chieftains-Sethupathis who were Lords under Pandyan Kings reigned over this part (17th century). At the beginning of the 18th century due to family disputes over succession, resulted the division of Ramanathapuram With the help of the king of Thanjavur, in 1730 A D , one of the chieftains deposed Sethupathy and became the Raja of Sivaganga. Acting upon the weakness of the Nayak rulers, the local chieftains(Palayakaras) became independent. Raja of Sivagangai, Sethupathy of Ramanathapuram were prominent among them. In 1731, Chanda Sahib of Carnatic captured Ramanathapuram In 1741 the area came under the control of the Marattas and then under the Nizam in 1744 A D Nawab's rule made displeasure in the mind, of those chieftains. That made them declare the last Nayak as ruler of Pandya Mandalam against the Nawab in 1752 A D. By that time throne of Carnatic had two rivals Chanda Sahib and Mohamed Ali, and this district was part of the Carnatic The British and French supported Chanda Sahib and Mohamed Ali respectively. It paved the way for series of conflicts in the southern part of the continent.

In 1795, the British deposed Muthuramalinga Sethupathy and took control of the administration of Ramanathapuram. In 1803 Mangaleswari Nachiyar was made the Zamindar. After passing of queen, the Marudu brothers took the charge paying a regular revenue to the East India Company. In 1801, the Marudu brothers of Sivaganga revolted against the British in collaboration with Kattabomman of Panchalamkurichi. Colonel Agnew captured Marudu brothers and hanged them and made Gowri Vallbah Periya Udaya Thevar as Zamindar of Sivaganga. After the fall of Tippu Sultan, British took the control and prisoned the Nawab. In 1792 the Zamindari system was abolished and a British Collector was appointed for administration.

In 1910 Ramanathapuram was formed by clubbing portions from Madurai and Tirunelveli districts This district was named as Ramanathapuram. During the British period this district was called 'Ramnad' This name continued after independence Later, the district was renamed as Ramanathapuram to be in conformity with the Tamil name for this region.

Jurisdictional Changes

As per G.O Ms No.347 dt 8 3 1985 Ramanathapuram was trifurcated as Pasumpon Muthuramalinga Thevar District which consists of Tiruppattur, Karaikkudi, Devakottai, Sivaganga, Manamadurai and Ilaiyankudi taluks, Kamarajar District which consists of Srivilliputtur, Virudunagar, Tiruchuli, Aruppukkottai, Sattur and Rajapalaiyam taluks and Ramanathapuram district which consists of Tiruvadanai, Paramakkudi, Kamudi, Mudukulattur, Ramanathapuram and Rameswaram taluks

As per G O.Ms No.1044, dt 18.7 1991 the existing name of Pasumpon Thevar Thirumagan District was changed as Pasumpon Muthuramalinga Thevar District with effect from 18.7.91 onwards.

One village (Emaneswaram) of Ilaiyankudi taluk in Pasumpon Muthuramalinga Thevar District was transferred to Paramakkudi taluk in Ramanathapuram District as per G.O Ms.No.393 Rev dated 15.3.1985 Rameswaram sub-taluk was upgraded into full fledged taluk as per G.O.Ms.No.3248 dt.23.12.81.

Revenue Divisions in Ramanathapuram District, 1991.

Name of Division	Taluks comprised in the Division
Ramanathapuram	1 Ramanathapuram
	2 Rameswaram
	3 Tiruvadanai

Name of Division	Taluks comprised in the Division
Paramakkudi	1 Paramakkudi 2 Mudukulattur 3 Kamudi

Area and population of the district

The district covers an area of 4,232 sq.kms There are 411 inhabited villages and 8 uninhabited villages The total number of towns in the district is 9. The population according to 1991 Census is 11,44,040. Of this 5,68,670 are males and 5,75,370 are females In this district 8,94,252 persons are living in rural area and 2,49,788 in urban area.

Location and physiography

The Ramanathapuram district is bounded by Pasumpon Muthuramalinga Thevar district in North, Kamarajar and Chidambaranar districts in the West, Eastern and Southern sides are covered by the coastal lines of gulf of Mannar This district lies between 9'5' and 9'50' North latitudes and 78'10' East and 79'50' longitudes.

Forest

Ramanathapuram is a coastal district of which very meagre area is covered by forests. The area covered by forest Reserved lands etc. comes to 4488 hectares only Cashew, Eucalyptus, Sandal, Casurina, Palm, Coconut and Odai trees are the chief plants here.

This district is mostly covered by coastal area. There is no significant hills found anywhere in this district.

Soil

The Ramanathapuram District is mainly coastal area. The soil is sandy and large tracts of thorny jungles are not much suitable for cultivation. Coastal areas of Tiruvadanai, Ramanathapuram and Mudukulattur taluks are covered by alluvial soil of grey or pale brown colour and is made up of fine clay or sand suited for paddy cultivation The coastal area of Rameswaram island is covered by white sand dunes not suitable for cultivation. The sedimentary rocks extend over the whole of Tiruvadanai, Ramanathapuram and Mudukulattur taluks. These sediments mostly of clay and sandstone have been deposited for several million years, which are known as geological parlance from Gondwana age to the present day. This contains useful types of clays and limestones

Minerals and mining

The officials of the Revenue and Mineral department say that there is a vast scope for tapping mineral wealth in Ramanathapuram district. It is said that at least Rs 25 lakhs could be raised as royalty by the Government per annum. TAMIN (Tamil Nadu Minerals Limited) has taken the mining lease of limeshell over an area of 1355.61 acres in Athangari, Nagachi and Alangulam area In Ramanathapuram district coral limestone is also available in abundance Government of India has banned leasing for quarrying. The limestone and Silica available here is of the best quality Limestone of different grades, clays, ochres, gypsum, graphite and ilmenite sands are the valuable minerals found in this district.Limestone is the main ingredient for cement and bleaching powder industry. Gypsum is found in the area of Mudukulattur, Perayoor, Avathandai, Kilakkarai It is also used for manufacture of cement.

Rivers

There are five rivers flowing in different parts of the district. The important among them is Vaigai Vaigai river is divided into two branches in this district There are two bridges built across the river at Manamadurai and Paramakkudi and two small dams are built at Veerkanoor and Parthipanoor across the Vaigai river The

other rivers are Kottakkarai, Pambar, Virasuli and Gundar. The flow of water through them is uncertain. The river Gundar assumes the name of 'Reghunatha Caveri' from Kamudi. Manimuthar (Virasuli river) flows through Tiruppattur and Tiruvadanai taluks. This Virusular starting from Madurai district flows through Tiruppattur, Tiruvadanai and then enter into Gulf of Mannar In this river a dam was constructed across at Devakkottai in 1964

Electricity and power

Ramanathapuram is one of the districts in the state where all villages and towns have been electrified. There is no hydro-electric projects in this district. As on 31st March 1990, 10,654 domestic connections existed in this district. In this 3,977 connections were given for huts, from AD/NREP/RLEGP.

The following table shows the category of street lights energised as on 31.3.1990:-

1x40W	2x40W	17V/SV	Others	Total
56210	244	364	182	57,000

Land and land use pattern

The total geographical area of the Ramanathapuram district as per village documents is 423,344 hectares as for the year 1989-90. The following table gives the details of land used for different purposes in percentages:-

Land use	State (Hectares)	District (Hectares)
Total	100	100
Forests	16.6	1.0
Barren and Uncultivable Land	4 0	1.2
Land put to non-Agriculture use	14.5	19.1
Cultivable Waste	2.1	1.3
Permanent pastures and other grazing land	1.1	0.2
Land under miscellaneous tree crops and groves	1.2	1.1
Current Fallows	10.8	17 2
Other Fallow Land	6.4	9.2
Net area sown	43 3	49 7

It is noticed from the above table that the extent of forest in Ramanathapuram district is fairly small compared to state average (16.6%) The Percentage (49.7%) net area sown in this district is higher than the State level (43.3%).

Agriculture

By the trifurcation of Ramanathapuram District in 1985, this district is mostly covered by coastal areas and major part of agricultural area is merged with the two other districts which are Pasumpon Muthuramalinga Thevar and Kamarajar Therefore, the foodgrain production declined to a huge extent in Ramanathapuram district.

Ramanathapuram is a dry district. The main source of irrigation is tanks and wells. Rainfall during South-West monsoon is rather poor. Even though the North-East monsoon is not steady, it gives a relief for water shortage, due to rain water, scarcity have been reduced to some extent in the district.

The following table gives a picture of lands utilised for different agricultural purposes:-

Area under crops (1989-90)

Name of the crops	Tamil Nadu (Hectares)	Ramanathapuram (Hectares)
Paddy	19,63,228	1,35,907
Cholam	5,86,811	2,890
Cambu	2,61,453	3,807
Ragi	1,71,921	7,772
Sugar Cane	2,22,302	99
Cotton	2,81,000	4,314
Groundnut	10,15,915	11,707
Gingelly	1,40,011	2,620

Source.- Directorate of Statistics, Tamil Nadu.

Paddy is the most important food crop of this district. Paddy crop is grown in wet lands irrigated by tanks and wells. The area under paddy is larger in the taluks of Paramakkudi, Tiruvadanai and Mudukulattur. Dry farming in cultivation of paddy is also adopted in Tiruvadanai and Paramakkudi taluks. Even though paddy is the chief cereal the other millets like cumbu, cholam, ragi, varagu, samai and kudiravali are produced in this district. Gingelly is the prominent oil seed grown in Paramakkudi taluk. With the summer showers during February, March and April the Masipattam crop of gingelly is grown and harvested in June- August In Tamil Nadu, the food grain production during 1990-91 was 74.94 lakh tonnes and in 1991-92 was 84.15 lakh tonnes. The credit of substantial increase in national food grain out-put goes to our farmers, who adopt modern agricultural technology, pest control and toiled hard to make our country self-sufficient in food grains

The following table shows the consumption of chemical fertilizers and pesticides 1990-91:-

Consumption of chemical fertilizers and Pesticides (1990-91)

State/District	Nitrogen (Tonnes)	Phosphate (Tonnes)	Potash (Tonnes)	Pesticides (Tonnes)	Liquid (litres)
Tamil Nadu	456,700	1,87,708	2,09,359	2,870	3,78,070
Ramanathapuram	8,170	1,418	981	147	2,821

Source:- Directorate of Agriculture, Madras.

Irrigation

Ramanathapuram is a coastal district Agriculture cannot be taken as predominant occupation of the people The ancient tank system is mostly concentrated in southern districts. It has been deteriorated due to poor maintenance. The Government of Tamil Nadu has taken up modernisation of tank irrigation system with external aid. The tank modernisation project is being implemented with European Economic Community Aid since 1984 onwards Sources of Irrigation for agricultural purposes are wells, tube wells, tanks, canals etc. Net area irri-

gated is 75,436 hectares. In this district there are 12,332 wells, 1,830 tanks and 152 tube wells used for irrigation purposes as per 1989-90 statistics The following table shows the areas under irrigated crops -

Paddy	Cholam	Cumbu	Ragi	Varagu	Sugarcane	Gingelly	Groundnut	Cotton
48655	123	238	1293	3	99	311	870	1968

Source:- Directorate of Statistics, Madras.

Animal Husbandry

Ramanathapuram district has a livestock population of 7,09,848 as per Tamil Nadu livestock and Poultry census as on 25-10-1989. This consists of 2,30,086 cattles, 30,507 buffaloes, 2,71,521 sheep, 1,54,253 goats, 7,757 pigs, 12,273 dogs, 3,451 others (Donkeys, Horses, Ponies, Mules and Camels etc.) It has been calculated 3,78,427 poultry in Tamil Nadu as per official reports. There is a district livestock farm at Chettinad. At Sattur there is a sheep farm attached with a poultry extension centre.

The following table shows statistics relating to Animal Husbandary Departmental centres (1991)

State/District	Veterinary Hospitals	Veterinary Dispensaries	Clinical Centres	ADI US	Movable Veterinary units	Total Sub-centres
Tamil Nadu	58	791	31	12	50	2,226
Ramanathapuram	-	17	2	-	-	80

Fisheries

The 260 Kms stretch of Ramanathapuram coast helped to elevate the significance in fishery product and improved socio-economic conditions of coastal rural population Mr.R.Marichamy, Principal Scientist of central Marine Fisheries Research Institute, Mandapam claimed that a valuable technology had been evolved for large-scale production of green tiger prawn to promote the mariculture activities in the coastal sector of Ramanatnapuram district as well as enriching the natural stock in the Palk Bay through sea reaching programme.There are 73 landing centres in Ramanathapuram coast which were completely covered to assess the fisheries resources A number of fishing industries such as cold storage, freezing plant and dry fish export market had developed at Pamban The potential for lobster fishing in Rameswaram had been identified by the research team. One fish oil purifying mill at Mandapam and fish powder factory at Pamban are also functioning in this district

Molluscan fishery

The Gulf of Mannar was well known for the resource of molluscan fishery. Based on this, a good number of shell industries had emerged in this district There were resources for sea weeds which were used for production of agar and sodium alginate for new industries. Based on this the scientists had joined to start a composite sea farming project in Valinokkam bay water where culture of sea bass, prawn, clam and mussel, edible oyster, peal oyster, sea cucumber and seaweeds are in progress.

The Central Marine Research Institute was established in 1947 at Mandapam. There are sub-centres under the control of Mandapam in various parts of India namely at Madras, Visakhapatnam, Calcutta, Quilon, Kakinada, Parangipettai, Kallikottai, Ganwar and Bombay Research had been conducted on different varieties of fishes and seaweeds.As a safety measure, warning signal station is built at Thondy and Kilakkarai by the Government. Motor boats with latest technology are kept ready for rescuing fishermen at the time of danger. Impor-

tant fishing harbours in this district are Thondy, Morpanni, Thankacheri, Mandapam and Kilakkarai.

Industries

The Ramanathapuram district is considered as an industrially backward area. For changing this situation the Government is giving incentives like low priced sites, adequate power supply and loans at lower rate of interest to entrepreneurs for setting up new Industries Government has also set up an Industrial Estate and Industrial Training Institute at Paramakudi. There is Central Marine Research Institute at Mandapam doing research in Marine biology Fishing is the main occupation of the people in this area.

This district has been witnessing industrial growth in recent times. At Valinokkam, Tamil Nadu Industrial Development Corporation is putting up a magnesium metal project at an estimated cost of Rs. 6 crores A spinning mill is under construction at Kamuthakudi from the fund alloted from special component plan Fishing harbours are coming up both at Valinokkam and Thondi. There are three spinning mills at Ramanathapuram, Kamuthakudi and at Thiruvadanai

Pearl industry

Ramanathapuram district is famous for pearl industry. The Pandyan Kings who ruled over this district exploited the pearl fisheries of the east-costs. The Cholas who succeeded the Pandyas in their hold on these regions not only patronised pearl fishing, but also developed it with great care in the Palk Bay. The large quantity of pearls extracted from the seas were exported to the mediterranian countries

Till the 19th century, Ramanathapuram district attracted foreign merchants and travellers from Europe They found the pearl industry a fully developed one for which they employed highly skilled workers in different processes of pearl extraction. Marco Polo (1260-1300) who travelled in South India during this period, says in his account that, the later Pandyas monopolised to take pearls out of the kingdom

A lot of changes have taken place in the pearl industry to-day. The scientists at the Regional Centre of the Central Marine Fisheries Research Institute at Mandapam near Ramanathapuram says that; proven technology is available for the culture of pearls, edible oyster, clam and mussel. It is significant to note that viable and promising technology were evolved by the experts from this institute. Large scale pearl farming has come up near Kausadai island and it is maintained by the Tamil Nadu Fisheries Development Corporation. This project has been considered as an economically important achievement and it is a milestone in the development of Ramanathapuram district.

Cultured pearls of good quality are produced in the Indian Pearl Oyster 'Pinctadajucate'by artificially inducing the oyster to secrete 'mother of pearl'around an inplanted spherical care material produced from shells. The oysters are grown in an open sea form under "rapt culture" being placed in baskets and suspended at appropriate depths from floating rafts.

Products from Palmyrah

Palm tree is the State tree of Tamil Nadu and is known as a sweetening agent. Palm jaggery, palm candy and palm syrup are the by-products of palm juice known as "neera". According to official estimates 1,34,97,000 palmyrah trees are exploited in Ramanathapuram for extracting palm juice. The Tamil Nadu Palmgur and Fibre Marketing Federation and Village Primary Co-operative Societies, mainly looking palmyrah development Palmyrah tree are good source for neera tappers, women boiling gur, neera vendors and fibre and leaf artisans and other artisans. Palm leaf as such is exported to Japan and palm fibre to countries such as U.S., U.K , Germany, Italy, France, Belgium and Australia. The palm fibre is used for making brushes. Palm leaf, used for making articles such as baskets, floor mats, packing mats and fancy articles are exported as well as sold in the home market.

Salt Industry

The State-owned Tamil Nadu Salt Corporation is established at Mariyar in Ramanathapuram district. Owing to extremely favourable weather condition,it produces more than 60,000 tonnes of salt in a year.

Transport and communication

This district has no airways. The nearest airport is Madurai. There is a State owned bus transport viz Marudu Pandyan Transport Corporation in this district. Under state carriages there are 741 bus routes in this district. The district is connected by NH 49 Madurai-Ramanathapuram

The following table gives the vivid picture of road laid in this district.-

State/ District	Cement Concrete	Bituminous	Water bound macadam	Unsurfaced road	Total
Tamil Nadu	2272	60,476	44,628	63,123	1,70,499
Ramanathapuram	8	1,317	639	1,519	3,483

As per the information from the Commissioner of Transport, in Madras are 269-State carriages, 113-Auto Richshaws, 290- tourist taxis, 7-Private transport vehicles, 338-goods vehicles, 254-Tractors, 711-Motor cycles, 122-Scooters, 285-Motor cars, 98- Jeeps, 12-Station wagons were registered in the year 1990-91

Transport and Communications are improved due to the improvement and construction of railway lines in this district.

Mandapam to Madurai	—	143 17 Kms
Mandapam to Pamban	—	5.00 Kms
Pamban to Rameswaram	—	10 83 Kms
Rameswaram to Dhanushkodi	—	00.112 Kms
Pamban to Rameswaram	—	11 07 Kms

As regards communication, this district is fairly provided with Postal, Telegraph facilities There are 192 Post and Telegraph Offices in rural areas and there are 68 villages having communication facilities. There is no All India Radio or Doordarshan centre in this district.

Even though Ramanathapuram is a coastal district there is no important shipping harbour or shipping transport in this district. Kilakkarai port losts its importance due to the fast development of road and railway transport. The ferry service between Talaimannar and Rameswaram is also not working properly

Climate and rainfall

The climate of this district is hot and dry. It has been controlled by the proximity of sea and north-east monsoon. April to June are the hottest months The maximum temperature shoots up to 95 F The lowest temperature is recorded during the period December to January. Winter season starts from the middle of December and it continues up to February.

The Ramanathapuram district gets very low rainfall. The average normal annual rainfall in this district is 801 M.M. to 1000 M.M.

Education

Ramanathapuram district is not backward in education During 1991 Census 61 59% are literates In this

74.76% are male literates and 48.70% are female literates. There are 19 hostels for scheduled castes with 1,734 inmates, 11 denotified communities hostels with 765 inmates and 18 backward classes hostels with 940 inmates. There are number of libraries in this district. Among them Ramanathapuram Seshadri Memorial Library is a famous one.

Health

In Ramanathapuram district there are 9 hospitals. Among them, one district hospital situated in district headquarters which is provided with 387 beds and 5 taluk hospitals with 198 beds. The other hospitals which are scattered in the district have 82 beds. There are health sub-centres coming under the control of Director of Public Health equipped with 248 beds. Apart from 47 Primary Health Centres equipped with 198 beds, 3 leprosy units are also working in this district.

Place of tourist and religious importance

Rameswaram, the Temple city, is situated about 660 Kms. South- East of Madras. This temple city is an island of 50 Kms length and 11 Kms width in the shape of Lord Vishnu's 'Conch' Rameswaram island is one of the most important Pilgrim centres in india. It attaracts the tourists even from abroad. There is ferry service which operates from Rameswaram via Talaimannar to Sri Lanka every alternate days Besides Rameswaram Island, there are about ten small Islands, among them the popular islands are Kurusadai Island, and Nallathanni Theevu, which have great potential for being developed as Tourist centre The State Govenment has spent Rs 50,50 000 and constructed buildings for youth Hostels and provided other facilities in Mandapam at Rameswaram to facilitate tourists arrival The Ramalinga Vilas at Ramanathapuram contains rare and beautiful paintings on walls. There area several well known temples at Rameswaram, Devipattinam, Thiruppullani, Sathukarai, Thiru Uthirakosmangai and several of them are connected with Ramayana One of the important pilgrim centres for Muslims namely Erwadi Darga which is also situated here.

Sree Ramanathaswamy temple, Rameswaram

Sree Ramanathaswamy Temple is one of the most splendid architectural creations According to the legend, the "Lingam" in the temple here was established by Seeta and called "Rama Linga". It is one of the dozen "Jyothilingas" This linga established in a thatched shed was not discovered till the 12th century A.D The massive temple was built over a period of more than 500 years and has been the endowment of almost one family, the Sethupathi chieftains of Ramanathapuram The temple covers an area of 259 metres from East to West and 197.1 metres from North to South. The height of the eastern gopuram is about 37.8 metres and that of the western gopuram is 23 4 metres

Egyptian style of architecture resembles in this temple. The corridors of this temple is very famous. It extends nearly 1,200 metres in length, six to nine metres width and about nine metres in height from floor to ceiling. It has the longest corrider in the world. The mother Goddess is "Parvathavardhini".

Devotees come here to have a dip in different "Theerthams" of the shrine. The Sithapurna says that there are 64 theerthams. "Agni Theertham" is the sea in front of the temple and the rest are inside the temple in the form of tanks, wells and ponds Rama Lakshmana Theertham, a kilometre from the temple is considered very sacred, one can find that there are no waves in the sea.

Tondi Vinayaga Temple, Tondi

A mile and half from Thondi, which is a sea coast town, the famous Tondi Vinayaka (a red stone Vinayaka) temple is to be seen This Vinayaka is a famous origin and was worshipped by Lord Rama during the course of his banishment. The local tradition connected with this Vinayaka is that Lord Rama got his first vision of success, after worshipping the idol. The idol is so to say the long one sitting at the road-side, always graceful

to appease the thirst of people with a glass of sweet water, which is very rare at the sea-side The water seems to be a sign of the fulfilment of desire, as Lord Rama's desire was fulfilled. It is in this 'Kshetra' that Sankara sang the praise of Vinayak in 'Ganesa Pancha Ratna Mala'.

The gopuram of this temple is a specimen of Dravidan art. The pictures are painted vivid in oil and exhibit descriptions of the incidence depicted. The gopuram can be seen from a distance of about 10 miles-so gigantic in structure.

Nainarkovil-Ervadi

This temple is situated at 28 Kms North-West of Ramanathapuram. This place is originally called as Thirumarudur because of the presence of a dense forest with "marutham" trees. During the Muslim regime, the dumb daughter of Mullah sahib, a Commander under the sultan of Bijapur, she gained her speech by worshipping the lingam in the wood around 1659 A.D. The first words she spoke are said to be "Allah Nainar". From that time onwards, the place is called as Nainarkovil

The temple is dedicated to Sri Naganathar and Soundaranayagi. The serpent God 'Adisesha' performed puja to the deity. Adisesha here is known as 'Naganathar'. The main entrance to the temple is through the west tower, since the Lord is believed to have turned westwards to hear the music of Namadevar. The devotees offer egg at the place where the Lord is believed to have given darshan under the marudam tree in the form of a serpent behind the Linga. The earth underneath the tree is taken as a medicine for curing many diseases. Even today also many Muslims visit this shrine.

Sri Adi Jaganatha Perumal Temple And Sri Anjaneya Temple, Tirupullani.

This is a famous Vaishnavite temple situated at Thiruppullani nine Kms South of Ramanathapuram. It is believed that Lord Rama worshipped at this temple and got the blessings of Lord Adi Jaganatha before going to Sri Lanka to wage war against Ravana. It is a feast for the eyes to see the image of Lord Rama resting on a bed of weeds with a sword hung around his waist. The Rajagopuram of this temple is 120 feet tall and 50 feet wide at the base. The pilgrimage to Thiruppullani may not be complete without a visit to the Sethukarai temple. The presiding deity of this small temple is Lord Anjaneya.

Sethukarai Sri Mangalanathaswamy Temple Uthirakosa Mangai

This temple is closely associated with the saivaite saint Manickavasagar. It is situated 18 Kms South-East of Ramanathapuram on the highway leading to Kanniyakumari. This grand old temple retains its glory, but is in a bad condition. The temple is famous for its six-foot-high statue of Lord Nataraja made up of emerald and the towers constructed with bricks.

Sri Adirathneswarar Temple, Tiruvadanai.

Thiuvadanai, taluk head quarter town which is popularly known as 'Ajagajapuram' in sanskrit. A famous Siva temple known as 'Sri Adirathneswarar Temple' here is one of the scared ancient shrines of the state. The presiding deity is Sri Adirathneswarar and his consort is Smt Snega Valliammal. Great Saiva Saint Manickavasagar composed songs on the god. Legend has it, that once Sage Brigu went to Sage Durvasa, forget to pay homage, caused to become Ajagajam. (an animal with head of a goat and body of an elephant.) Unable to sustain his huge body due to food taken by the small mouth, worshipped the lord here and the curse got removed.

Syed Ibrahim Sahib Valliyallah-Ervadi

Peaceful co-existence of the Hindus and the Muslims is a pride of Ramanathapuram district, which has a

mixed population. Contiguity of Muslim pockets around Hindu pilgrim centres and Hindus visiting mosques and durgans are not uncommon. The famous Ervadi durgah is situated 25 Kms. South of Ramanathapuram which attracts people of all faith during the annual "Sandanakoodu" festival during March-April. An estimated one lakh people attend the festival annually, most of them are Hindus. It is believed that in this place was kept the mortal remains of Arab Warrior Syed Ibrahim Sahib Valliyallah, came to this place through Cannanore about 800 years old Number of miracles are attributed to this place. There was a strong belief in the minds of visitors that those who are attacked by the evil spirit will be cured after visiting durgah.

Brief analysis of the village /town directory and Primary Census Abstract data.

A brief analysis relating to certain population characteristics is made utilising the information collected in the village and town directory and the Census Data in the PCA. A number of tables have been designed for this purpose. The tables are generated at the district/taluk/C.D.Block level for the rural areas and in regard to urban areas, townwise particulars are presented.

Table - 1(A)
Population, and number of villages 1991

Sl.No	Name of C.D.Block	Population of villages			No. of villages	
		Persons	Males	Females	Total	Inhabited
1	2	3	4	5	6	7
1	Tiruvadanai	91,754	45,428	46,326	55	54
2	Rajasingamangalam	102,458	50,603	51,855	64	64
3	Paramakkudi	65,251	32,528	32,723	34	34
4	Bogalur	38,514	19,013	19,501	24	24
5	Nainarkoil	47,359	23,025	24,334	35	35
6	Kamudi	102,082	51,023	51,059	49	49
7	Mudukulattur	75,618	37,173	38,445	37	35
8	Kadaladi	135,818	67,628	68,190	53	49
9	Ramanathapuram	59,175	29,573	29,602	25	24
10	Tiruppullani	72,612	35,847	36,765	25	25
11	Mandapam	103,611	51,379	52,232	18	18
	District	**894,252**	**443,220**	**451,032**	**419**	**411**

The above table furnishes the Block-wise and sex-wise rural population in Ramanathapuram district. It is seen that Kadaladi(135,818) is the highly populated C.D.Block in this district, while Bogalur C.D.Block (38,514) has the lowest population. There are 419 villages in this district in which 411 villages are inhabited and 8 villages are uninhabited.

Table 1(B)
Population and number of towns, 1991

Sl. No.	Name and civic administration status of town		Population		
			Persons	Males	Females
1	2		3	4	5
1	Kamudi	(TP)	12,367	5,900	6,467
2	Kilakkarai	(TP)	29,928	14,555	15,373
3	Mandapam	(TP)	19,935	10,116	9,819
4	Mudukulattur	(TP)	10,397	5,246	5,151
5	Nambutalai	(VP)	6,908	3,393	3,515
6	Paramakkudi	(M)	72,321	36,580	35,741
7	Ramanathapuram	(M)	52,879	26,782	26,097
8	Rameswaram	(PTS)	32,721	17,019	15,702
9	Tondi	(TP)	12,332	5,859	6,473
	All Towns		**249,788**	**125,450**	**124,338**

This table provides information about distribution of urban population by sex in the district Out of 9 Towns in Ramanathapuram district, 2 are Municipalities, 5 are Town Panchayats, 1 is a Panchayat Township and 1 is a Village Panchayat. In the district 2 Towns viz., Paramakkudi (M) with 72,321 and Ramanathapuram (M) with 52,879 have population between 50,000 and 1 lakh. Nambutalai (VP) has reported the lowest population i.e 6,908

Table-2

New Towns/Towns declassified, merged in 1991 Census

Name of Town	Population
1	2
(a) Added	Nil
(b) Declassified	Nil
(c) Wholly merged with others	Nil

There is no new town formation or declassification or merger in Ramanathapuram district in 1991 Census as per Table-2.

Table- 3

Decadal change in distribution of population

Sl No	Taluk	Population						Percentage decadal Variation (1981-91)			Percentage of urban population	
		1981			1991							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1981	1991
1	2	3	4	5	6	7	8	9	10	11	12	13

Table 4 shows C.D Block wise percentage distribution of villages by population ranges in Ramanathapuram district. It is seen from the table that 48.42% of villages (199) fall in the population range of 500 - 1999 followed by 33 82% of villages (139) fall in the range of 2,000 - 4,999 There are 6.31% of villages (28) and 2.92% of villages (12) fall in the ranges of 5,000 - 9,999 and less than 200. respectively. Only two villages (0 49%) out of 411 inhabited villages have the population range of 10,000 and above.

Table - 5

Distribution of villages by density

Range of Density (per Sq Km)	Total number of villages in each density range	Percentage of villages in each density range
1	2	3
0 — 10	—	—
11 — 20	1	0.24
21 — 50	2	0 49
51 — 100	27	6.57
101 — 200	131	31 87
201 — 300	105	25.55
301 — 500	97	23 60
501 +	48	11.68
Not Known	—	—
Total	**411**	**100.00**

Table - 5 provides information about distribution of villages and percentage of villages by density range in Ramanathapuram district It is seen from the table that 131 villages (31.87%) are reported by in the density range of 101 - 200 persons, 105 villages (25 55%) in the density range of 201 - 300 persons, and 97 villages (23 60%) in the density range of 301 - 500 persons per sq km There are 2 villages (0 49%) which have density range of 21 - 50 and only one village (0.24%) has the density range of 11 - 20 persons per sq km. There is no village in the density range of 0 - 10 Per sq km.

Table - 6 (A)

Sex ratio among rural population by C. D. Block, 1991

Sl. No.	Name of C.D.Block	Number of females per 1,000 males
1	Tiruvadanai	1,020
2	Rajasingamangalam	1,025
3	Paramakkudi	1,006
4	Bogalur	1,026
5	Nainarkoil	1,057
6	Kamudi	1,001
7	Mudukulattur	1,034
8	Kadaladi	1,008
9	Ramanathapuram	1,001
10	Tiruppullani	1,026
11	Mandapam	1,017
	District	1,018

Table 6(A) indicates C.D. Blockwise sex ratio for rural population of the district. The average sex ratio of the district has reported as 1,018 females per 1,000 males. All the C.D. Blocks exceed 1,000 due to more number of out migrations of the male population, in search of better employment.

Table - 6 (B)

Sex ratio for towns, 1991

Sl. No,	Name and Civic Administration status of Town	Number of females per 1,000 males
1	2	3
1	Kamudi (TP)	1,096
2	Kilakkarai (TP)	1,056
3	Mandapam (TP)	971
4	Mudukulattur (TP)	982
5	Nambutalai (VP)	1,036
6	Paramakkudi (M)	977
7	Ramanathapuram (M)	974
8	Rameswaram (PTS)	923
9	Tondi (TP)	1,105
	All Towns	991

The above table deals with sex ratio of the urban population of Ramanathapuram district The Tondi (TP) marks the highest female population i e. 1,105 females per 1,000 males. Lowest ratio marks against the Rameswaram (PTS) i.e 923 females per 1,000 males Out of 9 towns in the district, 4 towns have more female population than that of males (i e. exceeds 1 000

Table - 7

Proportion of scheduled caste population to total population in the villages

Percentage range of Scheduled Caste Population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
NIL ...	11	2.68
0-5 ...	62	15.08
6-10 ...	45	10.95
11-15 ...	53	12.90
16-20 ...	44	10.70
21-30 ...	75	18.25
31 and above ...	121	29.44
Total ...	**411**	**100.00**

Table - 7 furnishes the distribution of total number and percentage of villages according to the percentage range of Scheduled Caste population in the district. Out of 411 villages in the district, the maximum number of 121 villages (29 44%) have more than 31 percentage of Scheduled Caste population, whereas 11 villages (2.68%) do not have any Scheduled Caste population.

Table - 8

Proportion of scheduled tribe population to total population in the village

Percentage range of Scheduled Tribe Population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
NIL	400	97.32
0-5	11	2 68
6-15	—	—
16-25	—	—
26-35	—	—
36-50	—	—
51 and above	—	—
Total	411	100.00

Table - 8 shows the distribution of total number and percentage of villages according to the percentage range of Scheduled Tribe population in the district. Out of 411 villages, 11 villages (2.68%) have below 5% range of Scheduled Tribe population to the total population. Remaining 400 villages (97.32%) do not posses any Scheduled Tribe population in this district.

Table-9

Percentage of scheduled caste/scheduled tribe population in towns, 1991

Sl. No.	Name of town	Total population	Total SC population	Total ST population	Percentage of SC population to total population	Percentage of ST population to total population
1	2	3	4	5	6	7
1	Kamudi	12367	1951	-	15.78	-
2	Kilakkarai	29928	1109	-	3.71	-
3	Mandapam	19935	1298	15	6.51	0 08
4	Mudukulattur	10397	1473	-	14.17	-
5	Nambutalai	6908	403	-	5.83	-
6	Paramakkudi	72321	7305	402	10.10	0.56
7	Ramanathapuram	52879	3214	562	6.08	1 06
8	Rameswaram	32721	1533	107	4.69	0.33
9	Tondi	12332	1538	-	12.47	-
	All Towns	249788	19824	1086	7.94	0.43

Table-9 gives the percentage of SC/ST population of Towns in this district. It is seen that Kamudi town has recorded the highest percentage of Scheduled Caste population with 15.78 percentage, while Kilakkarai has the lowest with only 3.71 percent. Taking into account of ST population Ramanathapuram town marks the highest percentage (1.06) and Mandapam shows the lowest percentage (0.08). There are five towns in this district without any ST population.

Table-10 (A)
Literacy rates by rural population of C.D. blocks and sex. 1991
(Excluding children in the age group 0 - 6)

Sl. No.	Name of C.D Block	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1	Tiruvadanai	60.44	75.65	45.65
2	Rajasingamangalam	60 54	75 96	45 63
3	Paramakkudi	56 20	72 27	40 31
4	Bogalur	54.33	71.42	37.84
5	Nainarkoil	50.76	67 03	35.58
6	Kamudi	54 19	69 99	38 46
7	Mudukulattur	52 06	68 40	36.51
8	Kadaladi	50.46	64.35	36.80
9	Ramanathapuram	63 90	75.59	53 03
10	Tiruppullani	54 32	66.96	42.10
11	Mandapam	67 66	77 19	58.42
	DISTRICT	**56.99**	**71.31**	**43.06**

Table - 10(A) gives information about C.D Blockwise literacy rate for rural population by sex in Ramanathapuram district The rural literacy rate of persons, males and females of the district are 56.99%, 71.31% and 43.06% respectively. Out of 11 C.D. Blocks in the district, only 4 C.D.Blocks have registered a higher literacy rate than that of the district rate of 56.99%. Mandapam C.D.Block has registered the highest literacy rate of 67.66% whereas Kadaladi C.D Block has registered the lowest literacy rate of 50.46%. The above mentioned two C.D Blocks have also maintained the same position in regard to the literacy rate of males with 77.19% and 64.35% respectively. Regarding females, the highest literacy rate is reported in Mandapam C D.Block with 58.42% and the lowest in Nainarkoil C.D. Block with 35.58%.

Table 10-(B)
Literacy rates for towns, 1991 (Excluding children in the age group of 0-6)

Sl. No	Name and Civic Administration Status of Town		Percentage of Literates		
			Persons	Males	Females
1	2		3	4	5
1	Kamudi	(TP)	76 42	84.98	68 76
2	Kilakkarai	(TP)	82 39	90.21	75 10
3	Mandapam	(TP)	72.71	80.54	64 65
4	Mudukulattur	(TP)	76 80	86.60	66 92
5	Nambutalai	(VP)	58 47	66.57	50.71
6	Paramakkudi	(M)	77 95	88.32	67 32
7	Ramanathapuram	(M)	85.46	92.36	78.40
8	Rameswaram	(PTS)	71 72	80.91	61 80
9	Tondi	(TP)	72 82	84.71	62 35
	All Towns		**78.01**	**86.88**	**69.13**

The Table-10(B) deals with the literacy rate of the urban population in Ramanathapuram district. Ramanathapuram (M) has reported the highest literacy rate among persons, males, females ie. 85.46%, 92.36% and 78.40% respectively, whereas Nambutalai (VP) has reported the lowest literacy rate among persons, males and females i.e. 58.47%, 66.57% and 50.71% respectively. The average urban literacy in Ramanathapuram district is 78 01% (Persons), 86.88% (Males) and 69.13% (Females) respectively.

Table-11(A)

Percentage of Main workers, Marginal workers and Non-workers for Rural Population of C.D. Block, 1991

Table-12 furnishes C.D.Blockwise distribution of inhabited villages according to the availability of different amenities in Ramanathapuram district. Among 411 inhabited villages in the district, all have drinking water and power supply, 396 villages (96.35%) have education facility, 333 villages (81.02%) have communication facility 274 villages (66.67%) have pucca approach road and 219 villages (53.28%) have post and telegraph facilities Compared with other amenities, the availability of medical and market/hat facilities are very poor in Ramanathapuram district, as only 154 villages (37 47%) have health facility and 19 villages (4 62%) have the market/hat location in the village itself. Among 11 C.D.Blocks in the district, Mandapam C.D.Block has 5 amenities viz., education, drinking water, post and telegraph, communication and power supply in all the villages, Mudukulattur C.D.Block has 4 amenities viz., education, drinking water, communication and power supply in all the villages. Nainarkoil, Kamudi and Tiruppullani C.D.Blocks have 3 amenities viz., education, drinking water and power supply in all the villages.

Table-13

Distribution of Rural population served by different amenities

Sl No.	Name of C.D.Block	Total Population of inhabited villages in the CD Block	Proportion of Rural population served by the amenity of							
			Educational	Medical	Drinking water	Post and Telegraph	Market/Hat	Communications	Approach by pucca road	Power supply

Table-13 provides C.D Blockwise information about availability of different amenities in proportion to rural population. In Ramanathapuram district, the whole rural population avail drinking water and power supply in cent percent, 99.45% avail education facility, 86.63% avail communication facility, 78 69% avail pucca road facility 69.31% avail post and telegraph facility and 54.50% avail medical facility. Compared with other amenities the availability of market/hat facility is very poor as only 9.84% of rural population avail such facility. At the maximum 5 amenities, viz., education, drinking water, post and telegraph, communication and power supply are available in cent percent to the rural mass of Mandapam C.D.Block. 4 amenities viz., education, drinking water, communication and power supply are available fully to the rural population of Mudukulattur C D Block. 3 amenities viz., education, drinking water and power supply are available in cent percent to the rural population of Nainarkoil, Kamudi and Tiruppullani C D Blocks, while remaining C.D.Blocks avail 2 amenities viz , drinking water and power supply amenities in cent percent to its rural population.

Table-14

Distribution of villages not having certain amenities arranged by distance ranges from the places where these are available

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance -5Kms	5-10Kms	10+Kms	Total (colmn.2-4)
1	2	3	4	5
Education	14	1	-	15
Medical	143	95	19	257
Post & Telegraph	165	26	1	192
Market/Hat	134	126	132	392
Communication	68	10	-	78

The above table represents the distribution of villages not having certain amenities arranged by distance ranges from where they are available. Education facility which is not available for 15 villages do avail the same at a distance range of less than 5 kms by 14 villages and one village at 5-10 kms., medical facility is not available for 257 villages and they are availing the facility at the distance range of less than 5 km by 143 villages, 5-10 kms by 95 villages and 10+kms by 19 villages respectively. Post and Telegraph facility is not available for 192 villages and they are availing at the distance range of less than 5 km by 165 villages, 5-10 kms by 26 villages and 10+kms by one village respectively. Market/Hat facility is not available for 392 villages and they are availing at a distance range of less than 5 km by 134 villages 5-10 kms by 126 villages and 10+kms by 132 villages respectively. Communication facility is not available for 78 villages and they are availing at the distance range of 5 kms by 68 villages and 5-10 kms by 10 villages respectively.

Table-15

Distribution of villages according to the distance from the nearest Town and availability of different amenities

Distance range from the nearest town (in kms)	Number of inhabited villages in each range	Number (with percentage) of villages having the amenity of: Educational	Medical	Drinking water	Post & Telegraph	Market/ Hat	Communications	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
0-5	34	32 (94.12)	8 (23.53)	34 (100.00)	17 (50.00)	-	22 (64.71)	19 (55.88)	34 (100.00)

Table-16 gives information about distribution of villages according to population ranges and amenities available. At the maximum, 199 villages out of 411 villages in the district have population between 500 and 1999 and all have drinking water and power facilities, 196 villages (98.49%) have education facility, 150 villages (75.38%) have communication facility, 121 villages (60.80%) have pucca approch road 84 Villages (42.21%) have post and telegraph and villages (26.13%) have the amenity of medical. No village has market/hat facility in the population range 500 and 1999. Similarly at the minimum, 30 villages which have population above 5000 have education, drinking water, communication and power supply amenities in cent percent in this district.

Table-17
Distribution of villages according to land use

Sl. No.	Name of C.D.Block	Number of inhabited villages	Total area (in hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Tiruvadanai	54	17,625.98	65.98	31.21
2	Rajasingamangalam	64	20,559.00	62.80	43.79
3	Paramakkudi	34	28,341.21	71.73	35.24
4	Bogalur	24	18,486.56	78.90	26.22
5	Nainarkoil	35	26,554.06	79.94	24.11
6	Kamudi	49	57,899.32	83.54	13.57
7	Mudukulattur	35	36,350.06	82.19	18.63

9	Ramanathapuram	24	27,220.28	67.41	27.27
10	Tiruppullani	25	29,919.00	66.09	20.29
11	Mandapam	18	23,772.37	61.36	10.80
	District	**411**	**355,280.67**	**73.96**	**21.87**

Table-17 furnishes C.D.Blockwise land use particulars of Ramanathapuram district. The total area of 411 inhabited villages in the district is 355,280.67 hectares of which 73.96% are cultivable. The district's percentage of irrigated area to the total cultivable area works out to 21.87%. Among 11 C.D.Blocks, Kamudi C.D.Block possesses the maximum 83.54% cultivable area to the total area of which 13.57% are irrigated. Whereas Mandapam C.D.Block possesses the minimum of 61.36% cultivable area to total area as well as 10 80% irrigated area to total cultivable area in the district. Rajasingamangalam C.D.Block possesses the maximum 43.79% irrigated area to total cultivable area.

Table - 18

Per capita receipt and expenditure in towns

Sl. No.	Class, name and civic adminisration status of town	Per Capita								
		Receipt (in Rs. '00)			Expenditure (in Rs. '00)

5	V Nambutalai (VP)	-	-	1.45	1.45
6	II.Paramakkudi (M)	0.69	0.83	1.52	3.46
7	II.Ramanathapuram M)	0.95	1.13	2.08	3 21
8	III.Rameswaram (PTS)	0.61	0.61	0.61	2.45
9	IV.Tondi (TP)	0.81	2.43	2.43	4 87
All Towns		**0.84**	**1.08**	**1.72**	**3.28**

Table-19 gives the information of schools per 10,000 population in towns in this district. There are 0.84 Higher Secondary schools, 1.08 Secondary schools, 1.72 Junior Secondary schools, 3.28 Primary schools per ten thousand in the district. Kamudi town has the highest proportion of schools in the categories of Secondary schools (2.43) Junior Secondary (4.04) and Primary (8.09) In Nambutalai Village Panchayat neither Higher Secondary nor Secondary schools are available, but only Middle and Primary Schools are available. Mudukulattur (TP) has been well served with all the categories of schools.

Table-20

Number of Beds in Medical Institutions in Towns

Sl.No.	Class,Name and civic administration status of the town	Number of beds in medical institutions per 1,000 population
1	2	3
1	IV Kamudi (TP)	2 59
2	III.Kilakkarai (TP)	4 51
3	IV Mandapam (TP)	1.00
4	IV.Mudukulattur (TP)	4.81
5	V Nambutalai (VP)	—
6	II Paramakkudi (M)	0.90
7	II Ramanathapuram (M)	7 70
8	III.Rameswaram (PTS)	0 64
9	IV Tondi (TP)	0 81
	All Towns	**2.96**

Table-20 provides the number of beds in medical institutions per 1000 population in the district. Ramanathapuram (M) and Rameswaram (PTS) have registered highest (7.70) and lowest (0.64) institutions which gives bed facilities per 1000 population. Nambutalai (VP) has no such facility in this district.

Table-21

Proportion of slum population in town

Class,name and civic administration status of town *	Proportion of slum population to total population of the town	Population density in slum (per sq . km)
1	2	3
II Paramakkudi (M)	2.51	2745
II Ramanathapuram (M)	2 64	2737
Total	**2.56**	**2742**

* For Class I and II Towns only

Table-21 shows proportion of slum population in Class I and Class II towns in Ramanathapuram District. It is observed from the table that Ramanathapuram (M) has highest proportion of slum population with 2.64, while the density is slightly high in Paramakkudi (M) with 2745 persons per sq km

Table-22

Most important commodity manufactured, imported and exported in towns

Sl. No	Class, name and civic administration status of the town	Most important commodity		
		Manufactured	Exported	Imported
1	2	3	4	5
1	IV Kamudi (TP)	-	Cotton	-
2	III.Kilakkarai (TP)	-	Fish	-
3	IV Mandapam (TP)	-	Prawns	-
4	IV.Mudukulattur (TP)	-	Chillies	-
5	V Nambutalai (VP)	Dry Fish	Sea Foods	-
6	II.Paramakkudi (M)	Bumper-silk sarees	Bumper-silk sarees	Yarn
7	II.Ramanathapuram (M)	Palmrah products	Chillies	Jowar
8	III.Rameswaram (PTS)	à	Shell materials	Rice
9	IV.Tondi (TP)	Dry Fish	Sea Foods	à

The above table gives the details of the important commodity manufactured, imported and exported in the towns of Ramanathapuram district and which is self explanatory.

II Town Directory

Note explaining the codes used in the Town Directory

Class of towns by population

Population	Class
1,00,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Civic administration status of the town

M.Corp	—	Municipal Corporation/Corporatio
M	—	Municipality
TP	—	Town Panchayat
VP	—	Village Panchayat
TC	—	Town Committee/Town Area
CB	—	Cantonment Board/Cantonment
SC	—	Scheduled Castes
ST	—	Scheduled Tribes

Type of Road

PR	—	Pacca Road
KR	—	Katcha Road

System of Sewerage

S	—	Sewer
OSD	—	Open Surface Drains
BSD	—	Box Surface Drains
SD	—	Silk Drains
CD	—	Cesspool method
Pt	—	Pit System

Method of disposal of night soil

H	—	Head Loads
B	—	Baskets
WB	—	Wheel Barrows
ST	—	Septic tank latrines
S	—	Sewerage

System of storage of water

OHT	—	Overhead tank
SR	—	Service reservoir
IG	—	River infiltration gallery
BWP	—	Borewell pumping system
PT	—	Pressure tank

Source of drinking water

TW	—	Tube well /Hand pump
T	—	Tap
W	—	Well
TK	—	Tank

Medical facilities

H	—	Hospital
D	—	Dispensary
HC	—	Health Centre
FC	—	Family Planning Centre
TB	—	T.B.Clinic
NH	—	Nursing Home
O	—	Others
A	—	Ayurvedic
U	—	Unani
Hom	—	Homeopathic

Educational facilities

A	—	Arts only
S	—	Science only
AS	—	Arts and Science only
C	—	Commerce only
AC	—	Arts and Commerce only
ASC	—	Combined for all categories Arts,Science and Commerce
L	—	Law

Recognised shorthand, typewriting and other vocational Institutions

SH	—	Shorthand
Type	—	Typewritting
Sh.Type	—	Shorthand and Typewriting
O	—	Others

Public libraries and reading rooms

PL	—	**Public Libraries**
RR	—	**Reading Rooms**
