PRIMARY CENSUS ABSTRACT

A) District Primary Census Abstract C.D. Blockwise.	: 31 - 81
B) Village and Townwise Primary Census Abstract by C.D. Blocks.	
1. Yercaud C.D. Block	: 83
i) Alphabetical list of villages	: 84 - 87
ii) Village PCA	: 88 - 103
2. Kadaiyampatty C.D. Block	: 105
i) Alphabetical list of villages	: 106 - 107
ii) Village PCA	: 108 - 115
3. Omalur C.D. Block	: 117
i) Alphabetical list of villages	: 118 - 119
ii) Village PCA	: 120 - 131
iii) Urban PCA	:
4. Taramangalam C.D. Block	: 133
i) Alphabetical list of villages	: 135
ii) Village PCA	: 136 - 139
iii) Urban PCA	:
5. Kolathur C.D. Block	: 141
i) Alphabetical list of villages	: 143
ii) Village PCA	: 144 - 147
6. Mecheri C.D. Block	: 149
i) Alphabetical list of villages	: 151
ii) Village PCA	: 152 - 155
7. Nangavalli C.D. Block	: 157
i) Alphabetical list of villages	: 159
ii) Village PCA	: 160 - 163
iii) Urban PCA	:
8. Idappadi C.D. Block	: 165
i) Alphabetical list of Villages	: 167
ii) Village PCA	: 168 - 171
9. Konganapuram C.D. Block	: 173
i) Alphabetical list of villages	: 175
ii) Village PCA	: 176 -179

29. Namakkal C.D. Block : 405
    i) Alphabetical list of villages : 407
    ii) Village PCA : 408 - 415
30. Puduchatram C.D. Block : 417
    i) Alphabetical list of villages : 419
    ii) Village PCA : 420 - 427
31. Sendamangalam C.D. Block : 429
    i) Alphabetical list of villages : 431
    ii) Village PCA : 432 - 435
32. Erumaipatty C.D. Block : 437
    i) Alphabetical list of villages : 439
    ii) Village PCA : 440 - 447
33. Mohanur C.D. Block : 449
    i) Alphabetical list of villages : 451
    ii) Village PCA : 452 - 459
34. Kabilamalai C.D. Block : 461
    i) Alphabetical list of villages : 463
    ii) Village PCA : 464 - 471
35. Paramathy C.D. Block : 473
    i) Alphabetical list of villages : 475
    ii) Village PCA : 476 - 479

URBAN PRIMARY CENSUS ABSTRACT

Urban Primary Census Abstract (Within town, wardwise PCA) : 480 - 583

Appendix to PCA : Total, SC/ST Population/Urban Blockwise : 584 - 655

Appendix-I : Details of C.D. Blocks included in various taluks. : 656

Appendix-II : List of villages included in each town. : 657 - 659

Appendix-III : Taluk Primary Census Abstract : 660 - 667

Appendix-IV : PCA of Urban Agglomeration extending to more than one district along with their constituent units. : 668 - 677

District PCA for SC/ST : C.D. Block/Townwise. : 678 - 739

FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations/modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Govt./Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district administrative statistics, census tables and Village and Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third Part (C) of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981, some new features alongwith the restructuring of the formats of Villages and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of villages and towns (ward-wise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements

of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time during 1981 census in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this statement details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0–6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rate as all children below 7 years of age have been treated as illiterate at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Block-level presentation of data in the Village Directory and PCA instead of the traditional Tahasil/Taluk/PS level presen-tation. It is expected that the presentation of Village Directory and PCA data at C.D. Block level will help the planners in formulation of micro-level developmental plans, as the C.D. Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census along-with the corresponding codes of 1981.

This publication is a joint venture of the State Govt./UT administration and the Census Organisation. The data have been collected and compiled under the direction of Shri. K. Sampath Kumar, Director of Census Operations, Tamil Nadu, on behalf of the State Govt./UT admi-nistration which has borne the cost of printing. The task of planning, designing and co-ordination of the publication was initiated by Dr. K.P. Ittaman, former Deputy Register General (Social Studies) and Shri M.M. Dua, Joint Director. For the sake of uniformity in presentation of information/data and for preparation of analytical note depicting the sailent features emerging from a micro-level analysis of Census/non-Census data, a model District Census Handbook from each state and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K. Jain, the present Deputy Registrar General (S.S.). This task was carriedout by Shri. A.K. Singh, Deputy Director who was assisted by Shri. N.S. Soam, Assistant Director and his staff. Technical guidance in the preparation of the maps was initially provided by Dr.B.K. Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi
June 11, 1992.

A.R. NANDA
Registrar General, India

PREFACE

The District Census Hand Book is the most useful publication for the public, social workers, researchers, academicians, administrators, local bodies and the government officials for various official and non-official purposes. It gives data for the village/panchayat at the lowest level to the district including panchayat union/taluk covering demogrpahic, social, economic and cultural aspects. There had been an endeavour to make it as comprehensive as possible, to provide data on various aspects since its inception. The Registrar General, India, in his foreword has kindly traced out the improvements brought out from time to time since 1961 to the latest 1991 Census, while the histroy of the District Census Handbook in this State is narrated in the Introductory Chapter to this volume.

The District Census Handbook is a joint venture of the Census Organisation and the Government of Tamil Nadu. The scope of District Census Handbook has been widely increased and restructured in 1981 to meet the Minimum Needs and Revised Minimum Needs Programmes of the Planning Commission. Broadly keeping up the 1981 main strucutre, the formats of the Primary Census Abstract have been restructured slightly for the benefit of data users. The nine-fold industrial ciassification of main-workers as done at the 1961 and 1971 Censuses has been revived instead of the four-fold classification of the 1981 Census. Population in the age-group 0–6 by sex has been given in order to enable computation of realistic literacy rate as all children below 7 years are treated as illiterates. One of the most important innovations of the 1991 Census is the presentation of data at the Community Devlopment Block/Panchayat Union level to help planners for formulation of micro-level developmental plans at the lowest level of administrative unit. In this State, for developmental planning, the lowest administrative unit is the 'Panchayat Union'. This time, for the benefit of data users the Village Directory and PCA data on the magnetic tapes/floppies or from the published records, the computer code as well as the manual code of 1991 Census and the corresponding location code of 1981 Census are given.

The District Census Handbooks are now being published in two parts - viz; Part : A–Village and Town Directory and Part : B–Village and Townwise Primary Census Abstract. The two parts are being published in one volume as Part A & B for smaller districts.

Part-A deals with a brief description of the district–its major characteristics in relation to the economic resources like forestry, agriculture, industries, social, cultural, religious and historical aspects apart from certain basic amenities like drinking water, education, medical, post and telegraphs, market day(s), communications, etc., and if any of

these facilities are not available to any village, distance range of the nearest place from where it is available; power supply, approach to the village, nearest town to the village, health and family planning centres, primary health sub-centres and community health workers in the village are presented. Information on approach to village is also provided to identify inaccessible villages in the district. The exhaustive data on infra-structure in relation to amenities available to the villages and land-use pattern are meant to meet the requirements of 'Micro-level' local area development planning at the lowest administrative unit viz., C.D. Block/ Panchayat Union. This is the reason why this time data are being published at C.D. Block / Panchayat Union level instead of the traditional taluk level.

In the Town Directory, information on class of town, area, number of households, population and growth rate of population of the town at each Census from 1901 to 1991, sex-ratio at the 1971, 1981 and 1991 Censuses, physical aspects of rainfall and minimum and maximum temperatures recorded, distance from State / District Headquarters, nearest city, communication facilities like Railway station, Bus-route, inland navigation,. Municipal finance, civic and other amenities like protected water supply, electric connections by type, fire fighting service, road length by type, system of sewerage, number of latrines by type, total population and SC & ST population, medical, educational facilities by type, recreational and cultural facilities like stadia, cinema, drama, community hall, public libraries and reading rooms, adult literacy classes/ centres, working women's hostels, three important commodities manufactured, exported and imported, a special table on civic and other amenities available in notified slums in Class-I and Class-II towns have been included with a view to ascertain the availability of basic amenities and to meet the Minimum Needs and Revised Minimum Needs Programme.

Part-B deals with the Primary Census Abstract for all the villages in rural areas and ward-wise for urban areas. This time the PCA data like Village and Town Directory data are arranged in C.D. Block/Panchayat Union wise giving area of the village (in hectares), area of town (in Sq. Km.), number of occupied residential houses, households, population by sex, Scheduled caste and scheduled tribe population, literates, main workers and their distribution into nine industrial categories (as against the four industrial categories published in 1981), marginal workers, non-workers, and population in the age group 0–6 by sex.

Further, if a village is covering more than one panchayat, break up figures for each segment of the village forming different Panchayat also are given.

It is hoped that with the modifications now brought out in the Village Directory, Town Directory and PCA data at the level of C.D. Block/ Panchayat Unionwise would go a long way in helping the planners to chalk out more effective developmental programmes at micro-level for local area developmental plans.

In the process of collection of data of this volume, various State and Central Government Departments have extended their kind co-operation particularly with regard to infra-structural amenities for Part : A–Village and Town Directory, History and general features of the district, etc., I convey my grateful thanks to all of them. The PCA data presented in Part : B of this volume were collected during the census operations in February-March, 1991 the reference date being sunrise of 1st March, 1991.

I remain grateful to the Director of Census Operations, Shri. K. Sampath Kumar, who closely guided us in every aspect of this work. He had been a source of strength and inspiration for us. We owe a deep sense of gratitude to him for his kindness in dealing with our practical difficulties, his patient advice and formula of solutions for even small problems which we brought to his attention.

I wish to record my deep sense of gratitude to Late Shri. M. Thangaraju, Joint Director of Census Operations Shri. Ch. Puranachandra Rao, Deputy Director of Census Operations for overall direction and guidance to bring out this Publication. I use this opportunity to mention my special thanks to Shri. N. Manjini, Assistant Director of Census Operations for scrutinising the draft report and presenting the data with meticulous care and accuracy. I am also thankful to Shri S.P. Grover, Joint Director of Census Operations and Shri. Phool Singh, Deputy Director of Census Operations, who have also provided overall guidance and supervision during their tenure in this regard.

In the compilation and processing of Village Directory and Town Directory data, it was ably assisted by Smt. R. Ranibai and Smt. A. M. Mangayarkarasi, Investigators and their assistants, respectively while Shri. A.V. Raman, Investigator is chiefly responsible for preparing the analytical notes, inset tables, draft write up and arrangement of the matter in order.

The PCA data for the district were processed at the Regional Tabulation Office, Salem under the supervision of Shri. A. Kumaraswamy, Regional Deputy Director of Census Operations, assisted by Shri. R. Sankara Sharma, Smt. B. Rajakumari and Smt. K. Sakunthala, Statistical Assistants who were deputed from this Directorate to the Regional Tabulation Office, Salem.

Finalisation of PCA data (Panchayat Unionwise) and providing computer codes for villages were attended to by Shri. R. Lakshminarayanan and Smt. M.V. Rajalakshmi, Investigators and staff of the Census Section. The district and taluk maps in this publication give the administrative units upto village level, the location of towns and cities, communication facilities, etc. This time in the taluk map, the boundaries of each of the C.D. Block units, namely, 'Panchayat Unions' have been shown separately to synchronise with the presentation of data Panchayat Unionwise.

I convey my grateful thanks to Shri. A.R. Nanda, I.A.S., Registrar General and Census Commissioner, India for the valubale guidance and advice I received from him throughout. I am thankful to Shri. N. Rama Rao, Deputy Registrar General (C&T) who has been a source of strength and constant help and guidance on all technical matters like a 'Ready Reckoner'. I also thank Dr. K.P. Ittaman, former Deputy Registrar General and Shri. M.M. Dua, Joint Director, for planning, designing and co-ordinating the formats. I thank Shri M.K. Jain, Deputy Registrar General (S.S.), and Shri. A.K. Singh, Deputy Director, Shri N.S. Soam, Assistant Director and his staff for scrutinising and approving the first volume (Periyar Dt) so that it could fitin in the all India pattern from uniformity point of view in the presentation of data and other items. My thanks are also due to Dr. B.K. Roy, former Deputy Registrar General (Map) and Mrs. Minati Ghosh, Deputy Registrar General (Map) for providing technical guidance in the preparation of maps.

The data entry of the Village Directory and Primary Census Abstract in the computer had been done at the National Informatics Centre (NIC) at Madras, in the shortest possible time. My sincere thanks in this regard are to Shri M. Mohan, Technical Director and Shri A.N. Sridhar, Scientific Officer of the NIC, Madras.

I have great pleasure in acknowledging the able assistance rendered by the following officials of my office in the preparation of this volume.

Madras
Dated : 17th April, 1996

M. NAGAPPAN
Deputy Director of Census Operation,
Tamil Nadu

ACKNOWLEDGEMENT

1. INSET TABLES ON PRIMARY CENSUS ABSTRACT

ANALYTICAL NOTE

Census concepts

Rural and Urban areas

It is customary to classify a place as rural or urban in every Census and present data separately for rural and urban areas. Urban areas which are specifically defined for Census purposes are determined on the basis of certain demographic and economic criteria. The rest are treated as rural areas. At the 1991 Census, the same criteria adopted for determining the urban areas at the 1981 Census have been continued. The urban areas of 1991 census are:

(a) All places with a Municipality, Corporation or Cantonment board or Notified town area, committee, etc.

(b) All other areas which satisfied the following criteria:
   (i) A minimum population of 5,000
   (ii) At least 75 per cent of male main workers engaged in non-agricultural and allied activities:
   (iii) A population density of at least 400 per sq. km. (or one thousand per square mile).

The above definition adopted for both 1981 and 1991 Censuses varies slightly from those of 1961 and 1971 Censuses. In the 1961 and 1971 Censuses, the male population engaged in the activities of fishing, logging etc., were treated as engaged in non-agricultural pursuits and hence have been taken into account with those engaged in non-agricultural pursuits for applying the test of the 75 per cent non-agricultural workers criteria. But in the 1981 Census as well as in the 1991 Census they have been treated on par with agricultural activities for applying the test for this criteria. Prior to the 1981 Census, certain places with less than 5,000 population were treated as urban areas on the basis of certain consideration like density, social and historical importance etc., at the discretion of the Director of Census Operations in consultation with the State Government. On the other hand, the tests on demographic and economic criteria were strictly applied at the 1981 and 1991 Censuses and no area was classified as urban area on other considerations.

Urban Agglomeration

This concept was adopted for the first time in the 1971 Census and continued in the 1981 and 1991 censuses also.

An Urban Agglomeration is a continuous urban spread constituting a city or town and its adjoining urban outgrowths (OG) or two or more physically contiguous towns together with continuous well recognised urban outgrowths, if any, of such towns. In certain cases, large housing colonies, University campuses, port areas, Military camps, etc., etc., would have come up around a city or town but falling out side the statutory limits of the city or town. They may be lying inside the boundaries of a village or villages which are contiguous to the city/town. These villages could not be treated as urban as they do not satisfy the urban criteria. But at the same time the colonies etc., mentioned above deserve to be treated as an integrated urban area. Therefore, all such towns together with their urban outgrowth will have to be treated as one urban unit and called Urban Agglomeration. As no outgrowth (OG) as defined above, has been recognised in Tamil Nadu, all the constituent units of urban agglomerations are also independent urban units or towns in the State.

Census House

A Census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for residential or non residential purposes or both.

Household

A household is a group of persons, who commonly live together and would take their meals from common kitchen, unless the exigencies of work prevented any of them from doing so. There may be a house hold of persons related by blood or a household of unrelated persons or having a mix of both. Examples of households with unrelated members are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called Institutional Households.

Scheduled Castes/Scheduled Tribes

For the enumeration of Scheduled Castes and Scheduled Tribes in census, the names of Scheduled Castes and Scheduled tribes as recognised in Tamil Nadu based on the Scheduled Castes and Scheduled Tribes orders (Amendment) Act of 1976 (Central Act, 108 of 1976) was followed. The enumerators were instructed to record a person as belonging to Scheduled Caste and Scheduled Tribe provided the name given by the person was found in the list supplied to them.

Literates

A literate is defined as "a person who can both read and write with understanding in any language". A person who could merely read but cannot write, is not a literate. It is not necessary that a person, to be considered as a literate, must have received any formal education or have passed any minimum

educational standard. In the 1991 Census, all children of the age of 6 years or less are treated as illiterate whereas in the 1981 Census all children of the age of 4 years or less were treated as illiterate.

Definition of work

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise.

Main workers and Marginal workers

The dichotomy of worker and non-worker of 1961 and 1971 censuses had been dropped and the trichotomy of main worker, marginal worker and non-worker was introduced in the 1981 census and this has been continued in the 1991 census also. A worker was identified with reference to a reference period preceding the census. The reference period prescribed was one year preceding the date of enumeration. Certain types of work such as agriculture, household industries, like gur making etc. were carried on, either throughout the year or only during certain seasons or part of the year, depending on the local circumstances. In such cases what we were concerned with was the broad time spent during the agricultural season preceding the enumeration. Workers can be full-time workers or marginal workers. If a person had done any work during the reference period and if he had not worked for the major part of the year, i.e., if he had worked for 183 days or more, he was considered to be a full-time worker (Main Worker). If a person had done any work during the reference period and if he had not worked for the major part of the year, i.e., if he had worked for less than 183 days or more, he was considered to be a marginal worker. Persons who had not participated in any economic activity even for a day during the last one year preceding the day of enumeration were considered as non-workers.

All the main workers had been classified under one of the four main categories in the 1981 census, while in 1991 census, they have been classified under one of the nine industrial categories as was done in 1971 census. They are I. Cultivators (C), II. Agricultural Labourers (AL) III. Live Stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, IV. Mining and Quarrying, V(a). Manufacturing, Processing, Servicing and Repairs in Household Industry, V(b). Manufacturing, Processing, Servicing and Repairs in other than Household Industry, VI. Construction, VII. Trade and Commerce, VIII. Transport, Storage and Communication, IX. Other Services.

The definitions of these nine industrial categories of workers are as given below:

I. Cultivators (C)

For the purpose of census, a person is considered as Cultivator if he/she is engaged in cultivation of land, owned or taken on lease from Government or from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

II. Agricultural Labourer (AL)

A person who works on another person's land for wages in money, kind or share should be regarded as agricultural labourer. He/She has no risk in the cultivation, but he/she merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

III. Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities

Persons who were reported as workers in Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities are treated as workers under this category.

IV. Mining and Quarrying

Persons who were reported as workers in Mining and Quarrying are treated as workers under this category.

V(a). Manufacturing, Processing, Servicing and Repairs in Household industry

Household industry is defined as an Industry conducted by the head of the household himself/herself and/or by the members of the Household at home or within the village in case of rural areas and within the precincts of the house only in the case of Urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The household industry should not be run on the scale of a registered factory which would qualify to be registered under the Indian Factories Act. Mere selling of food items or other edibles, should not be regarded as household industry.

V(b). Manufacturing, Processing, Servicing and Repairs in other than Household Industry

Persons reported as workers in household industry other than those mentioned in V(a) were treated as workers in this category.

VI. Constructions

Persons working as plumbers, masons, electricians, painters and others engaged in construction work were treated under this category.

VII. Trade and Commerce

Persons engaged in work such as wholesale or retail business or trade were treated in this category.

VIII. Transport, Storage and communication

Persons who were reported as drivers, conductors, technicians, fitter, welder and other communication workers were treated under this category.

IX. Other services

Persons engaged in services other than those mentioned in I to VIII catergories fall under this cate-gory. Workers who could not be classifield in any of the above I to VIII categories are treated as those engaged in other services.

Non-workers

All persons who have not been treated as workers i.e., persons who have not worked any time at all during the reference period of one year preceding the data of enumeration have been considered as non-workers. Thus, non-workers cover all persons who are engaged in unpaid household duties and who do no other work or have not done any work at all during the last one year, full time students and children attending school, all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age, persons retired from service or rentiers, beggars, vagrants etc., convicts in jails or inmates of a penal, mental or charitable institution and all other non-workers not falling under any of the above categories.

HISTORY OF THE DISTRICT CENSUS HANDBOOK

After the census of 1951, the Government of India offered to handover to the State Government the Census tables and other data prepared during the Census and suggested that they might be published along with any other useful information relating to each district as separate volume. The State Government accepted the proposal and the first publication of the District Census Handbook was brought out at the cost of the State Government.

The District Census Handbook of 1951 was found to be very useful and it was therefore decided not only to continue the series for the 1961 Census but also to improve on its content so that each district Census Handbook contained certain basic economic data for the smallest administrative unit in the district and be an useful reference book for scholars and other data users.

After the 1971 Census also, the publication of the series of District Census Handbook was continued. The publication of the 1971 District Census Handbook was in three parts, viz., Part-A, Part-B and Part-C. Part-A relating to Village and Town Directory. Part-B relating to Village and Townwise Primary Census Abstract and Part-C comprising District Census Tables and certain administrative statistical tables.

The tradition of bringing out the Census Handbook was continued by the State Government during the 1981 Census also. In this series some individual feature besides restructuring of the formats of the Village Directory had been adopted bearing in mind the requirements of data for the socioeconomic programmes of the Government. The comparability of data with the 1971 census data had also been kept in view.

The present 1991 District Census Handbook will be published in two parts viz., Part-A – Village and Town Directory and Part-B – Village and Townwise Primary Census Abstract.

SCOPE OF PRIMARY CENSUS ABSTRACT

The Primary Census Abstract as it is called, presents basic data for each village or segment of a village (in cases where such village segments form different panchayats) in the "Villagewise Primary Census Abstract" and for each ward/division of a town in the "Urban Primary Census Abstract". The format of the Primary Census Abstract for the villages and towns in 1991 has been slightly modified as compared to the 1981 Primary Census Abstract.

The Primary Census Abstract gives the details on area, number of occupied residential houses, number of households, total population, population in the age-group 0 – 6, SC/ST population, literates, total main workers, distribution of main workers by 9 industrial categories, marginal workers and non-workers in respect of each unit with male, female breakup. In 1981, the main workers were classified into four categories whereas in the 1991 Census they are classified into 9 industrial categories as in 1961 and 1971 censuses. For the first time in this Census, the population in the age group 0 – 6 with sex breakup presented in PCA in order to arrive at effective literacy rate, after excluding such persons as all the persons below seven years are treated as illiterates in this census. The urban/village Primary Census Abstract gives this information for each village and each urban ward. Till 1981 Census, the Primary Census Abstract was presented for each taluk and for each town in a district. But, in the 1991 census, the Primary census Abstract for each C.D. Block is presented for the first time in the Indian Census. Besides these, separate Primary Census Abstract for Scheduled Castes and Scheduled Tribes which contian similar details as those in the PCA for general population are presented for District/ Community Development Block/UA/City/Town.

With a View to enable data users to derive the figures for Panchayat the data are presented for segments of village also, wherever such segments constitute different Panchayat, the segment wise data have to be used separately or added with the

data of some other segment so as to derive panchayat data. For example a revenue village bearing L.C. No 9 constitute two different pachayats, the figures are given separately for each portion of the village constituting these panchayats against L.C. No 9 a/b and 9 b/b. The total figures for the entire revenue village can be arrived at by adding the figures given against both the segments viz. 9 a/b and 9 b/b. If, instead, the panchayat figures are required, the data for the concerned village segment or segments relating to the panchayats concerned are to be addedup to arrive at the total figures for the respective panchayats. An appendix presented in the case of the Urban Primary Census Abstract gives 1991 population, Scheduled Caste and Scheduled Tribes population for each enumerator block of the town. This may be useful for administrative purposes and such data are also required by urban planners and researchers for conducting special studies in selected blocks.

Mode of presentation

At the beginning, the District Primary Census Abstract containing data for District and C.D. Blocks (for Total, Rural, Urban areas) as also towns under each C.D. Blocks and at the end all the towns/U.As in the district are presented. In 1991 Census, the C.D. Blocks is the main unit of presentation of data instead of taluk which was the main unit till 1981 Census. The District PCA is followed by alphabetical list of villages for each C.D. Block in the district. This is followed by Village/Urban PCA. In the Village/Urban PCA, data for the first C.D. Block for total, rural and urban areas separately, followed by data for villages and census towns falling under each C.D. Block are presented. Thereafter, similar data for second, third and subsequent C.D. Blocks in the district are presented. At the end of the last C.D. Block, the Urban PCA containing data at ward level for all the towns and cities besides the data for UAs are presented. In an appendix to the Urban blockwise PCA, the population and Scheduled Castes/Scheduled Tribes figures for each Enumerators Block of every town/city in the district are given. After the appendix to Urban PCA, the Talukwise PCA containing data for the District and each taluk in the district with Total, Rural and Urban breakup is presented, as such data are also sought after. This is followed by two annexures. Appendix-I contains details of Community Development Blocks falling under each taluk and Appendix-II contains names of the villages/segment of villages constituting each town in the district.

Maps

Apart from the District Map given as frontispiece, maps for each taluks showing the villages their 1991 Location Code numbers and their boundaries are presented. The boundaries of the C.D. Blocks falling in the taluks are also shown. As compared with the maps presented in 1971 and 1981 District Census Handbook, some improvements have been effected in the maps presented in this volume. All towns are shown in the district and taluk maps with shading screens and also spheres according to the population size of towns.

Area figures

In the District Primary Census Abstract, the area figures are given in square kilometers for total, rural and urban areas. In the villagewise Primary Census Abstract the area figures for each revenue village are given in hectares upto two decimals. The area figures for each town is given in Sq.Km in the Urban Primary Census Abstract. In the District Primary Census Abstract the area figures of the district total represent the "Geographical Area" figures supplied by the Surveyor General of India. Figures for urban areas and villages are those supplied by the local bodies and revenue authorities. The total of the urban (area) of a district has been arrived at by adding the urban area figures of each town within the district. Area figures for the rural areas of district are derived by subtracting the urban area figures from the total area of the district. The area figures of each C.D. Block represent the area figures that are published in the concerned departmental publication of the State Government. The area figures of the C.D. Blocks will not addedup to the district area figures because, the C.D. Block area figures represent the "Land use" area, while those of the district represent "Geographical Area", supplied by the Surveyor General of India. The total of the village areas given in the Village/Urban Primary Census Abstract may not tally with the rural area of the C.D. Block given, as the C.D. Block area figures include hills, forests, rivers etc. whereas the village area may not include the same. One sq.km consist of 100 hectares.

It is hoped that the pattern of presentation of basic census particulars for each district as explained above and adopted in this volume would be found convenient by data users.

Part – B

Brief analysis of the Primary Census Abstract Data based on Inset Tables.

A brief analysis relating to certain vital population characteristics is made utilising the census data that are available in the Primary Census Abstract. A number of tables have been designed for this purpose. The tables are generated at the District/ Taluk level and Community Development Block level for the rural areas and with regard to urban areas, townwise particulars are presented.

Table-1 (A)

Population and Number of Villages, 1991

Sl. No.	Name of C.D. Block	Population of Villages			No. of Villages	
		Persons	Males	Females	Total	Inhabited
1	2	3	4	5	6	7

32.	Erumaipatty	83,823	42,583	41,240	25	24
33.	Mohanur	86,661	43,735	42,926	26	26
34.	Kabilamalai	77,417	39,161	38,256	26	26
35.	Paramathy	70,119	35,567	34,552	23	23
	District	**2,760,320**	**1,429,392**	**1,330,928**	**1,063**	**966**

Table-1 (A) furnishes C.D. Blockwise Rural Population by sex and total number of villages in the District of Salem. It is seen from the table that Omalur C.D. Block has the highest population(146,077), while Yercaud C.D. Block has the lowest popultion (32,500) among 35 C.D. Blocks in the district. Yercaud C.D. Block has the maximim number of inhabited villages (65) and Konganapuram C.D.Block has the minimum number of inhabited villages (10).

Table-1 (B)

Population and Number of Towns, 1991

Sl. No.	Name and Civic Administration status of Town	Population

	All Towns	**1,136,062**	**5,82,525**	**5,53,537**

Table-1 (B) furnishes Townwise population by sex in Salem district. Out of 50 Towns in the district, Salem (M) has the highest population (366,712), followed by Tiruchengodu (M) (63,027), Kumarapalaiyam (M) (57,672), Attur (M) (55,667) while Seppaiyapuram (VP) has the lowest population (1,037).

Table - 2

New Towns/Towns Declassified, Merged in 1991 Census

	Name of Town	Population
(a) Added		
(i)	Mallamooppampatti	6,582 (1991 population)
(ii)	Maramangalathupatti	8,311 (1991 population)
(iii)	Pallipalaiyam Agraharam	8,920 (1991 population)
(b) **Declassified**		Nil
(c) Wholly Merged with other town		Nil

Split Town

Ammapettai (VP) 7,535 (1981 Census)

Ammapettai (VP) of 1981 was now split into two towns namely Ammapettai North (VP) (6,066) and Ammapettai South (VP) (5,793) during 1991.

Alagapuram (VP) 10,474 (1981 Census)

Alagapuram (VP) of 1981 was now split into three towns namely Fairlands (VP) (3,061) Swarnapuri (VP) (1,596) and Alagapuram (VP) (7,347) during 1991.

Table-2 indicates the formation of new towns and declassification of old towns in the 1991 Census. It is seen that only 3 New Towns have come up in Salem District during 1991 Census. Ammapettai (VP) has been split in to two towns viz., Ammapettai North (VP) (6,066) and Ammapettai South (VP) (5,793). Similarly, Alagapuram (VP) has been split into three towns viz., Alagapuram (VP) (7,347), Fairlands (VP) (3,061) and Swarnapuri (VP) (1,596).

Table - 3

Decadal Change in Distribution of Population, 1991

Sl. No.	Name of Taluk	Population						Percentage decadal Variation (1981-91)			Percentage of Urban population	
		1981			1991							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1981	1991

Table-3 shows the decadal change in the distribution of population in various taluks of Salem District. Salem district has recorded 13.21% increase in population whereas Tamil Nadu State has recorded 15.39%. Attur taluk has recorded the highest percentage of decadal population variation with 15.84% followed by Tiruchengodu taluk with 15.51% while the lowest decadal population variation of 4.31% has been found in Paramathivelur taluk. Besides, Yercaud taluk has recorded a decrease in population of -0.75%. Salem taluk has registered the maximum urban population (61.76%) whereas Omalur taluk registered the minimum urban population (8.59%) during 1991 Census.

Table - 4

Percentage Distribution of Villages by Population Ranges, 1991

Sl. No.	Name of C.D. Block	No. and percentage of inhabited villages	No.and percentage of villages in each range (Figures in parenthesis indicate percentage of villages in each range)					
			Less than 200	200-499	500-1999	2000-4999	5000-9999	0,000 and above

Table-4 Provides information on C.D. Blockwise distribution of villages according to the classification of population ranges. It is seen from the table that out of 966 inhabited villages in Salem District, a maxium of 335 villages (34.68%) are in the population ranges of 500 -1999 and 2000-4999. There are 42 villages which have population less than 200 and only 29 villages with a population 10,000 and above.

Table - 5

Distribution of Villages by Density, 1991

Range of density (per sq. kms)	Total No. of villages in each density ranges	Percentage of villages in each density ranges
1	2	3
-10	7	0.73
11-20	2	0.21
21-50	10	1.04
51-100	29	3.00
101-200	134	13.87
201-300	202	20.91
301-500	257	26.60
501+	325	33.64
Not known	—	—
Total	**966**	**100.00**

Table-5 shows distribution of villages by density ranges. There are at the maxium of 325 villages in the density ranges of 501 persons and above, constituting 33.64% followed by 257 villages in the range of 301-500 persons constituting 26.60%. There are 48 villages which have density less than 100 persons.

Table - 6 (A)

Sex Ratio, 1991

50.	Vennandur (TP)	922
	All Towns	**950**

Table-6 (B) indicates the Sex-ratio of each town in the district. It is seen that Mallur (TP) has the highest sex-ratio of 992 females per 1,000 males in the district followed by Kandampatti (VP) (989) and Alagapuram (VP) (988) respectively. While Senaipalaiyam (VP) has the lowest sex-ratio of 819 females per 1,000 males.

Table - 7

Proportion of Scheduled Caste Population to Total Population in the Villages

Percentage range of Scheduled Caste Population to total population	No. of Villages in each range	Percentage of Villages in each range
Nil	124	12.84
0-5	135	13.98
6 10	102	10.56
11-15	100	10.35
16-20	109	11.28
21-30	202	20.91
31 and above	194	20.08
Total	**966**	**100.00**

Table-7 Provides information about distribution of number and percentage of villages according to the percentage ranges of Scheduled Caste population to total population. Out of 966 inhabited villages in Salem district, 842 villages have Scheduled Caste population while the remaining 124 villages do not have any Scheduled Caste population.

Table - 8

Proportion of Scheduled Tribe Population to Total Population in the villages

Percentage range of Scheduled Tribe population to total population	No. of Villages in each range	Percentage of Villages in in each range
1	2	3
Nil	642	66.46
0-5	135	13.97
6-15	28	2.90
16-25	8	0.83
26-35	8	0.83
36-50	10	1.04
51 and above	135	13.97
Total	**966**	**100.00**

Table-8 Provides information about distribution of number and percentage of villages according to the percentage ranges of Scheduled Tribe population to total population. It can be seen from the table that out of 966 inhabited villages in Salem district, Scheduled Tribe population is reported in 324 villages. Both the ranges 0–5 and 51 and above have 135 villages (13.97%) each.

Table - 9

Percentage of Scheduled Castes/Scheduled Tribes Population, in Towns-1991

Sl. No.	Name of Town	Total Population	Total SC Population	Total ST Population	Percentage of SC Population to total population	Percentage of ST Population to total population
