Annexure - I : Statement showing the C.D.Blocks coming under each taluk 542-543

Appendix - I : C.D. Block Abstract of Educational, Medical and Other Amenities 544-555

Appendix - II : Land utilisation data in respect of non-municipal towns. 556-557

Appendix - III : C.D. Blockwise list of villages where no amenities are available 558

Appendix - IV : List of villages according to the proportion of SC / ST to the total population by ranges. 559-636

Section II - Town Directory 637-638

Note explaining the code used to the Town Directory 639

Statement I : Status and growth History 640-645

Statement II : Physical Aspects and Location of Towns, 1989 646-651

Statement III : Municipal Finance, 1989-90 652-657

Statement IV : Civic and other Amenities 1989 658-663

Statement IV-A : Civic and other Amenities in notified Slums, 1989 664-683

Statement V : Medical, Educational recreational and Cultural facilities, 1989 684-691

Statement VI : Trade, Commerce Industry and Banking, 1989 692-695

Appendix : Towns showing their out growths with population 696

FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 151 Census and is continuing since then with ome inno vations/modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Govt. / Union Territory administration. It inter-alia provides data / information on some of the basic demographic and socio-economic characteristics and on availability of certain important civic amenities / facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academician and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprisingVillage and Town, (PCA) were released in all the States and Union Territories. The third Part (c) of the District Census tables, which was also to be brought out, could not be published in many States/ UTs due to considerable delay in compilation of relevant material. In 1981, some new features along-with the restructuring of the formats of village and Town Directory were introduced in the DCHs. These were published in two parts for each village and Town Directories, the PCA of village and towns (ward-wise) including Scheduled Caste and Scheduled Tribe PCA upto Tehsil / town' level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referrent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult, Literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time during 1981 census in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directory also, keeping in view the requirements of the Minimum Needs programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this statement details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rate as all

children below 7 years of age have been treated as illiterates at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Block-level presentation of data in the village directory and PCA. data at C.D. Block level will help the planners in formulation of micro-level developmental plans, as the C.D. Block is the lowest administrative unit for developmental planning.

In order into facilitate the task of administrators, planners and researchers intending to use Village Directory / PCA data, either from the magnet tapes/floppies or from the publihed records, both the computer and mannual codes for each village have been provided for the 1991 Census along-with the corresponding codes of 1981.

This Publication is a joint venture of the State Government. / UT administration and the Census Organisation. The data have been collected and compiled under the direction of Shri K. Sampath Kumar, Director of Census Operations, Tamil nadu, on behalf of the State Government. /UT administration which has borne the cost of printing. The task of planning, designing and co-ordination of the publication was initiated by Dr. K.P. Ittaman, former Deputy Registrar General (Social Studies) and Shri M.M. Dua, Joint Director. For the sake of uniformity in presentation of information/ data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of Census/non-Census data, a model District Census HandBook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of shri M.K. Jain, the present Deputy Registrar General (S.S). This task was carried out by Shri.A.K. Singh, Deputy Director who was assisted by Shri. N.S. Soam, Assistant Director and his staff. Technical guidance in the preparation of the maps was initially provided by Dr.B.K. Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi
June 11, 1992.

(A.R. NANDA)
Registrar General, India.

PREFACE

The DistrictCensus Hand Book is the most useful publication for the public, social workers, researchers, academicians, administrators, local bodies and the Government officials for various official and non-official purposes. It gives data for the village/panchayat at the lower level to the district level including panchayat union/taluk covering demographic, social, economic and cultural aspects. There had been an endeavour to make it as comprehensive as possible,to provide data on various aspects since its inception and by 1961, it reached the dimensions of a compendium for the district. The Registrar General, India, in his foreword has kindly traced out the improvements brought out from time to time since 1961 to the latest 1991 census while the history of the District census Handbook in this state is narrated in the Introductory chapter to this volume.

The District census handbook is a joint venture of the census organisation and the state Government of Tamilnadu. The scope of District census handbook has been widely increased and restructured in 1981 to meet the minimum needs and Revised Minimum needs programmes of the planning commissions. Broadly keeping up the 1981 structure, the formats of the Primary Census abstract have been restructured slightly for the benefit of data users. The nine-fold industrial classification of main workers as done at the 1961 and 1971 censuses has been revived instead of the four-fold classification of the 1981 census. Population in the age-group 0-6 by sex has been given in order to inenable computation of realistic literacy rate as all children below 7 years are treated as illiterates. One of the most important innovations of the 1991 census is the presentation of data at the Community Development Block/Panchayat Union level to help planners in the formulation of micro-level developmental plans at the lowest administrative unit is the `panchayat union`. This time , for the benefit of data users of village Directory and PCA data from the magnetic tapes/floppies or from the published records, the computer code as well as the Manual code as of 1991 census and the corresponding location code of 1981 census are given.

The District census Handbooks are now being published in two parts -part-A- village&town Directory and part-B -village and Townwise primary census Abstract. The two parts are being published in one volume as part A&B for smaller districts.

Part-A: Deals with a brief description of the district its major characteristics in relation to the economic resources like forestry, agriculture, industries, social, cultural, religious and historical aspects apart from certain basic amenities like drinking water, education, medical, post and telegraphs, market day(s), communications, and if any of these facilities are not available to any village, distance range of the nearest place from where it is available; power supply, approach to the village, nearest town to the village etc., Health and Family Planning centres, primary Health Sub-centres and community Health workers in the village. Information on approach to village is also provided to identify inaccessible villages in the district. These exhaustive data on infra-structure in relation to amenities available to the villages and land-use pattern are meant to meet the requirements of `Micro-Level` local area development planning at the lowest administrative unit viz., C.D. Block/panchayat union. This is the reason why this time data are being published at C.D. Block Panchayat Union wise instead of the traditional taluk level.

In the Town Directory, information on class of Town, area of the town, number of households, population and growth rate of the town at each censuses from 1901 to 1991, sex-ratio at the 1971, 1981 and 1991 censuses,

physical aspects of rainfall and minimum and maximum temperatures recorded, distance from State and District. Headquarters, nearest city, communication facilities like Railway station, Bus-route, inland navigation, statement on Municipal finance, civic and other amenities like protected water supply, electric connections by type, fire fighting service, road length by type, system of sewerage, number of latrines by type, total population and SC&ST population, Medical, Educational facilities by type, recreational and cultural facilities like stadia, cinema, Drama, community Hall, public libraries and reading rooms, adult Literacy classes/unites working women's hostels. Three important commodities manufactured, exported and imported; a special table on civic and other amenities available in notified slums in class-I and class-II towns have been included with a view to ascertain the availablity of basic amenities and to meet the minium needs and Revised minium needs programme level.This is the reason why this time data are being published C.D.Block/panchayat union wise.

Part -B : Deals with the Primary Census Abstract for all the villages in the rural area and ward-wise for urban areas. This time the PCA data like Village and Town Directory data are arranged in C.D. Block/Panchayat Unionwise giving area of the village (in hectares), area of town (in Sq. Km.), number of occupied residential houses, households, population by sex, Scheduled Caste and Scheduled Tribe population, Literates, Main Workers in the nine industrial categories (as against the 4 industrial categories published in 1981), marginal workers, non-workers, and population by with age grop 0-6 sex.

Further, if a village is covering more than one Panchayat, break up figures for each Panchayat also are given.

It is hoped that with the modifications now brought out in the Village Directory, Town Directory and PCA and Publication of data C.D. Block/Panchayat Unionwise would go a long way in helping the planners to chalk out more effective developmental programmes at micro-level for local area developmental plans as the C.D. Block/Panchayat Union is the lowest administrative unit for Developmental planning.

In the process of collection of data of this volume, various State and Central Government Departments have extended their kind co-operation particularly with regard to infra-structural amenities for Part-A - Village and Town Directory, Histroy and general features of the district, etc., I convey my grateful thanks to all of them. The PCA data presented in Part-B of this volume were collected during the Census Operations in February-March, 1991, the reference date being sunrise of 1st March, 1991.

I wish to record my deep sense of gratitude to (late) Shri. M. Thangaraju, Joint Director of Census Operations and Shri. Puranachandra Rao, Deputy Director of Census Operations for overall direction and guidance to bring out this publication. I use the opportunity to mention my special thanks to Shri. N. Manjini, Assistant Director of Census Operations for scrutinising the draft report and presenting the data with meticulous care and accuracy. I am also thankful to Shri. S.P. Grover, Joint Director of Census Operations and Shri. Phool Singh, Joint Director of Census Operations who are also provided overall guidance and supervision during their tenure in this regard.

Apart from that Shri. Gummodi Bapuji in-charge of DCH Section took a meticulous care to arrange this volume in a systematic manner with the help of his colleagues S/Shri. A.V. Raman, K. Sambamoorthy, Investigators P.G. Sankaran, M. Thangavelu, Statistical Assistants and other section officials. The preparation of maps included in this volume were done under the supervision of Shri. Jogesh Das, Research officer.

In the compilation and processing of village Directory and Town Directory data, it is ably assisted by Smt. Rani Bai and Smt. A. M. Mangayarkarasi, investigators and their assistants respectively while Shri. S. Natarajan, Investigator is chiefly responsible for preparing the analytical notes, inset tables, draft write ups and arrangement of matter in order.

The PCA data for the district where processed the Regional Tabulation Officer,Thanjavur under the supervision of Sri.K.Thagarajan,Regional Deputy Director Of Census Operation assisted by S/ Shri K. Kanapan,Investigator, G.R.Mukundan and Smt.B.Santhanalakshmi, Statistical Assistant who where deputed from this Directorate to regional Tabulation Office,Thanjavur.

Finalisation of PCA data Panchayat Union wise and providing computer codes for Villages were attended to by Sri. R. Lakshminarayanan and Smt. M.V. Rajalakshmi, Investigators and staff of the Census Section. The district and taluk maps in this publication give the administrative units upto village level, the location of Towns and cities, Communication facilities, etc. This time in the taluk map, the boundaries of each of the C.D. Block units, namely, 'Panchayat Union' have been shown separately to synchronise with the presentation of data presented Panchayat Union-wise.

I convey my grateful thanks to Shri. A.R. Nanda, I.A.S., Registrar General and Census Commissioner, India for the valuable guidance and advice I received from him throughout. I am thankful to Sri. N. Rama Rao, Deputy Registrar General (C&T) who has been a source of strength and constant help and guidance on all technical matters like a 'Ready Reckonar'. I also thank Dr. K.P. Ittaman, Former Dupty Registrar General (Social Studies) and Sri. M.M. dua, Joint Director, for planning, designing and co-ordinating the formats. I thank Sri. M.K. Jain, Deputy Registrar General (S.S.) and Sri. A.K. Singh, Deputy Director, Sri. N.S. Soam, Assistant Director and his staff for scrutinising and approving the first volume (Periyar) so that it could fitin in the all India pattern from uniformity point of view in the presentation of data and other items. My thanks are also due to Dr. B.K. Roy, former Deputy Registrar General (Map) and Mrs. Minati Ghosh, Deputy Registrar General (Map) for providing technical guidance in the preparation of maps.

The data entry of the Village Directory and Primary Census Abstract in the computer had been done at the National Informatics Centre (NIC) at Madras, in the shortest possible time. My sincere thanks in this regard are to Shri M. Mohan, Technical Director and Shri A.N. Sridhar, Scientific Officer of the NIC, Madras.

I have great pleaaure in acknowledging the able asistance rendered by the following officials of my office in the preparation of this volume.

No. of towns		469	32

ANALYTICAL NOTE

Census Concepts

Rural and Urban areas

It is customary to classify a place as rural or urban in every census and present data separately for rural and urban areas. Urban areas which are specifically defined for census purposes are determined on the basis of certain demographic and economic criteria. The rest are treated as rural areas. At the 1991 Census, the same criteria adopted for determining the urban areas at the 1981 Census have been continued. The urban areas of 1991 Census are:

a) All places with a Municipality, Corporation or Cantonment Board or Notified Town area:

b) All other areas which satisfied the following criteria:

(i) A minimum population of 5,000;

(ii) At least 75 per cent of male main workers engaged in non-agricultural and allied activities: and

(iii) A population density of at least 400 per sq.km. (or one thousand per square mile)

The above definition adopted for both the 1981 and 1991 Censuses varies slightly from those of 1961 and 1971 Censuses. As of the 1961 and 1971 Censuses, the males engaged in the activities of fishing, logging etc., were treated as engaged in non-agricultural pursuits and hence have been taken into account with those engaged in non-agricultural pursuits for applying the test of the 75 per cent non-agricultural workers criterion. But in 1981 Census as well as in 1991 Census, they have been treated on par with agricultural activities for the purpose of the test for this criterion. Prior to 1981 Census, certain places with less than 5,000 population were treated as urban areas on the basis of certain consideration like density, social and historical importance etc., at the discretion of the Director of Census Operations in consultation with the State Government. On the other hand, the tests on demographic and economic criteria were strictly applied at the 1981 and 1991 Censuses and no area was classified as urban area on other considerations.

Urban Agglomeration

This concept was adopted for the first time in 1971 Census and continued in 1981 and 1991 Censuses also.

An urban agglomeration is a continuous urban spread constituting a city or town and its adjoining urban outgrowths (OG) or two or more physically contiguous towns together with continuous well recognised urban outgrowths, if any, of such towns. In certain cases, large housing colonies, university campuses, port areas, military camps, etc., would have come up around a city or town but falling outside the statutory limits of the city or town. They may be lying inside the boundaries of a village or villages which are contiguous to the city/town. These villages could not be treated as urban as they do not satisfy the urban criteria. But at the same time the colonies etc., mentioned above deserve to be treated as an integrated urban area. Therefore, all such towns together with their urban outgrowth will have to be treated as one urban unit and called urban agglomeration. All the constituent units of urban agglomerations are also independent urban units or towns.

Census House

A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant and may be used for residential or non-residential purposes or both.

Household

A household is a group of persons, who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called Institutional Households.

Scheduled Castes / Scheduled Tribes

For the enumeration of Scheduled Castes and Scheduled Tribes in census, the names of Scheduled Castes and Scheduled Tribes as recognised in Tamil Nadu based on the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act of 1976 (Central Act 108 of 1976) as followed. The enumerators were instructed to record a person as belonging to Scheduled Caste or Scheduled Tribe provided the name given by the person was found in the list supplied to them.

Literates

In the 1981 Census, a literate was defined as a person who can both read and write with understanding in any language. A person who could merely read but cannot write was not a literate. It was not necessary that for a person to be considered as a literate must have received any formal education or have passed any minimum educational standard. In the 1991 Census, all the children of the age of 6 years or less are treated as illiterates whereas in the 1981 Census all children of the age of four years or less were treated as illiterates.

Definition of work

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. It also includes unpaid work or farm or in family enterprise.

Main and Marginal workers

The dichotomy of workers and non-workers of 1961 and 1971 Censuses had been dropped and the trichotomy of main workers, marginal workers and non-workers were introduced in the 1981 Census and has been continued in the 1991 Census also. A worker was identified with reference to a reference period preceding the census. The reference period prescribed was one year preceding the date of enumeration. Certain types of work such as agriculture, household industries like gur making etc., were carried on, either throughout the year or only during certain seasons or part of the year, depending on the local circumstances. In such cases what we were concerned with was the broad time spent during the agricultural season preceding the enumeration. Workers can be full-time workers or seasonal workers or marginal workers. If a person had done any work during the reference period and if he had worked for the major part of the year, i.e. if he had worked for 183 days or more, he was considered to be a full-time worker (Main worker). If a person had done any work during the reference period and if he had not worked for the major part of the year, i.e., if he had worked for less than 183 days, he was considered to be a marginal worker. Persons who had not participated in any economic activity even for a day during the last one year preceding the day of enumeration were considered as non-workers

All the main workers and the marginal workers have been classified under one of the four main categories in the 1981 Census. While in 1991 Census, they have been classified under one of the nine industrial categories as was done in 1971 Census. They are: 1) Cultivators (C), II) Agricultural Labourers (AL), III) Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, IV) Mining and Quarrying, V) (a) Manufacturing, Processing, Servicing and Repairs in Household Industry, V) (b) Manufacturing, Processing, Servicing and Repairs in other than Household Industry, VI) Construction, VII) Trade and Commerce, VIII) Transport, Storage and Communication and IX) Other Services.

The definitions of these nine industrial categories of workers are given below:

I. Cultivators (C)

For the purpose of census, a person is considered as cultivator if he/she is engaged in cultivation of land, owned or taken on lease from Government or from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

II. Agricultural Labourer (AL)

A person who works on another person's land for wages in money, kind or share should be regarded as agricultural labourer. He/she has no risk in the cultivation, but he/she merely works in another person's land for wages. An agricultural labourer

has no right of lease or contract on land on which he/she works.

III. Livestock, forestry, fishing, hunting and plantations, orchards and allied activities

Persons who were reported as engaged in livestock, forestry, fishing, hunting and plantations, orchards and allied activities are treated as workers under this category.

IV. Mining and Quarrying

Persons who were reported as workers in mining and quarrying are classified under this category.

V. a) Manufacturing, processing, servicing and repairs in household industry

Household industry is defined as an industry conducted by the head of the household himself/ herself and/or by the members of the household at home or within the village in case of rural areas and within the precincts of the house only in case of urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The household industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act. Merely selling of food items or other edibles should not be regarded as household industry.

b) Manufacturing, processing, servicing and repairs in other than household industry

Persons reported as workers in manufacturing, processing, servicing and repairs other than those mentioned in V-(a) are treated as workers in this category.

VI. Construction

Persons working as plumbers, mason, electricians, painters and others engaged in construction work are treated as workers under this category.

VII. Trade and Commerce

Persons engaged in work such as wholesale or retail business or trade are treated as workers in this category.

VIII. Transport, storage and communications

Persons who were reported as drivers, conductors, technicians, fitters, welders and other communication workers are treated as workers under this category

IX. Other Services

Persons engaged in services other than those mentioned in I to VIII categories are treated under this category. Workers who could not be classified in any of the above I to VIII categories are treated as those engaged in other services.

Non-workers

All persons who have not been treated as workers i.e., persons who have not worked any time at all during the reference period of one year preceding the date of enumeration have been considered as non-workers. Thus, non-workers cover all persons who are engaged in his/her household duties and who do no other work or have not done any work at all during the last one year, full time students and children attending school, all dependants such as infants or children not attending school or a person permanently disabled from work because of illness or old age, persons retired from service or rentiers, beggars, vagrants, convicts in jails or inmates of a penal, mental or charitable institution and all other non-workers not falling under any of the above categories.

History of the District Ceusus Hand Book

After the census of 1951, the Government of India offered to hand over to the State Government the Census tables and other data prepared during the Census and suggested that they might be published along with any other useful information relating to each district as separate volumes. The State Government accepted the proposal and the first publication of the Dirstrict Census Handbook was brought out at the cost of the State Government.

The District Census Handbook of 1951 was found to be very useful and it was therefore decided not only to continue the series for the 1961 Census but also to improve on its content so that each District Census Handbook contained certain basic economic data for the smallest administrative unit in the district and be an useful reference book for scholars and other data users.

After the 1971 Census also, the publication of the series of District Census Handbook was continued. The publication of 1971 District Census Handbook was in three parts, viz., Part-A, Part-B and Part-C. Part-A relating to Village and Town Directory, Part-B relating to Village and Townwise Primary Census Abstract and Part-C comprising District Census tables and certain administrative statistical tables.

The tradition of bringing out the District Census Handbook was continued by the State Government during the 1981 Census also. In this series, some individual features besides restructuring the formats of the Village Directory had been adopted bearing in mind the requirements of data for the socio-economic programmes of the Government. The comparability of data with the 1981 Census data nad also been kept in view.

The present 1991 District Census Handbook will be published in two parts, viz., Part-A - Village and Town Directory and Part-B - Village and Townwise Primary Census Abstract.

Scope of Village and Town Directory Statements and Primary Census Abstract

The District Census Handbooks are the only publications which incorporate the data down to the level of a village and level of ward or division of a town which are constantly referred to by the data users.

The Village Directory statements give the list of villages by C D. Block and for each village, the area, number of households and population, availability of amenities and land use. The information on amerities available in the village includes educational, medical, drinking water, post and telegraph, market, rail/road or other communication facilities and power supply. Land use is shown as area under forests, irrigation, unirrigated land, culturable waste and area not available for cultivation.

Appendix-I gives C.D. Blockwise abstract of educational, medical and other amenities available viz., the number of villages having various levels and types of educational institutions such as middle schools, adult literacy centres, etc., various types of medical institutions such as dispensaries, primary health centres, maternity and child welfare centres, family planning centres, community health workers etc., and the number of such institutions, various types of sources of drinking water such as tap, well, tank, tube-well, river, fountain, canal, etc., post and telegraph offices, bus stops, railway station, power supply, etc., and also the number of villages not having such amenities.

Appendix-II gives for each non-municipal town (Census Towns) the area under forest, irrigated and unirrigated land, culturable waste (including gauchar and groves) and area not available for cultivation.

Appendix-III is only the list of villages where no amenities relating to education, medical, drinking water, post and telegraph, communication, power supply and market/hat and public health facilities etc., are available.

Appendix-IV gives the list of villages according to the proportion of SC/ST to the total population by ranges. Part-A of the Appendix lists out villages according to the proportion of SC population. The information is presented by the ranges in per cent, viz., 0-5, 6-10, 11-15, 16-20, 21-30 and 31 and above, and Part-B provides similar data for ST population ranges in per cent, viz., 0-5, 6-15, 16-25, 26-35, 36-50 and 51 and above.

The Town Directory gives important and very useful information like civic and other amenities available in all the towns in the district, statutorily notified as well as non-municipal or census towns. The details relating to each of the towns have been presented in seven statements, viz., Statements I to VI and IV-A.

In all the statements, except IV-A, the towns are arranged in the alphabetical order for the district. The Town Directory does not cover strictly military areas. It may, however, cover cantonment areas but not strictly military areas or military establishments within the cantonment which are required to be left out. However, basic statistics of the cantonment as a whole have been provided. In the Town Directory, codes have been given for the data on amenities and civic administration for want of space. The relevant explanations for the codes adopted have been given in the beginning of the Town Directory statements.

The concept of "urban agglomeration" was introduced for the first time in 1971 replacing the concept of "town group" of 1961. The concept of Urban Agglomeration has been continued in 1981 and 1991 Censuses also. An Urban Agglomeration may be explained as follows: "It must form a continuous urban spread constituting a town and its adjoining urban outgrowths or two or more physically contiguous towns together with continuous well recognised urban outgrowths, if any, of such towns"

An Urban Agglomeration includes two or more independent census towns. The names of the Towns/Urban Agglomeration have been arranged in the alphabetical order. The particulars of the individual town which constitutes one of the units of agglomeration have not been furnished separately because the particulars have already been furnished, where they occur together under the name of agglomeration. The following remarks have been given against such town within brackets:

"(See the name of the main town of the agglomeration)"

By adoption of this method, the reader can get an idea of the particulars of the urban agglomeration in total and also separately.

Statement I - Status and Growth History

Statement - I provides some basic data based on the Primary Census Abstract for the towns and urban agglomerations of 1991 Census. For analysing the town directory data at the State level and All India levels, some new columns, have been introduced in the 1981 Census. The new items are:- class of town, area, number of households, population and growth rate at each census since 1901, density and sex ratio at the 1971, 1981 and 1991 Censuses are also provided in this statement. In 1991 Census, a new item, the name of C.D. Block is also provided in the statement.

Classes of the towns are presented according to 1991 Census population of the towns as follows:

Population	Class
1,00,000 and above	I
50,000 to 99,999	II
20,000 to 49,999	III
10,000 to 19,999	IV
5,000 to 9,999	V
Below 5,000	VI

Location Code Number for Towns

To distinguish the town from the village, the location code numbers for Towns have been given in Roman Numerals and these numbers have been assigned in a continuous order for the district as a whole. In 1991 census, name of C.D.Block has been included with a view to locate the town in the appropriate C.D. Block.

Statement II. Physical aspects and Location of Towns, 1989

Under physical aspects, annual rainfall and temperature particulars are furnished. These particulars were obtained from the Commissioner of Statistics, TamilNadu, Chennai. If the information is not available for any particular town, the nearest town for which it is available is given. For col (9), nearest city with population of one lakh and more is furnished according to 1991 census. For the other columns, figures obtained from the Municipal Commissioners and Panchayat Union Commissioners are given. The zero within brackets in columns, 10 and 11 denotes that the referent town itself is enjoying road transport facilities. In column 12, name of the navigable river/canal and its distance is indicated as follows : "Cauvery (R)-5". In this case, 5 is the distance in kms., of the navigable river Cauvery from the referent town. In brackets 'R' for river and 'C' for canal have been given.

Statement III : Municipal Finance, 1988-89

The civic administration status of the town, the receipt through tax, properties and powers, Government grants, loans, advances and other sources and the expenditure on general administration, public safety, public health, public works, public institutions and other public services are given in this statement. The soucres of the receipts and expenditure are furnished in terms of rupees in hundreds.

Statement IV : Civic and Other Amenities, 1989

The Civic and other amenities existing in the towns as in 1989 are given. The data were obtained from the Municipal Commissioners and Panchayat Union Commissioners of the Concerned towns.

Column - 3 : Civic administrative status

It is also a new column introduced in this statement in 1981 to facilitate analysis during the 1981 census.

Column - 4: Population : It is also a new column introduced in this statement to measure the amenities in respect of population, based on 1981 census population data.

Column - 5 : Scheduled Caste and Scheduled Tribe population : This coloumn is also introduced in 1981 to know the size of the population of the weaker sections of the community in the towns based on 1991 census.

In this statement, information on road lengh, system of sewerage, number of latrines, method of disposal of night soil, protected water supply (source of supply, system of storage with capacity) and fire fighting service are also collected from the Municipal Commissioners and Panchayat Union Commissioners and furnished.

Electrification

Under this columns (15-19) electrification particulars were obtained from the Tamil Nadu Electricity Board through the Municipal Commissioners and Panchayat Union Commissioners have been furnished below :

i) Domestic connections

This refers to the number of services given to houses for domestic purpose like fans, lighting, etc.,

ii) Industrial connections

This refers to the number of services effected to L.T. (Low Tension) Industries such as workshop, flour mills,, grinding machines, cotton ginning and engineering industries etc.,

iii) Road lighting points

This refers to the number of points of street lights which are maintained by the board and for which consumption charges are paid to the board by respective local bodies. For some panchayats, the number of services effected along has been furnished under street lights and not the points.

iv) Other Connections

This refers to the number of services effected for agricultual purposes, huts, public water supply systems, cottage industries etc.

v) Commercial Connections

This refers to the service given to shops, business houses, public institutions like offices, schools and commercial establishments.

Statement IV - A: Civic and other amenities, in notified slums, 1989

This is a new statement on civic and other amenities in the notified or recognised slums of class I and II towns introduced during 1981 census. Generally in cities or towns having slums, the local authority such as Municipality or Municipal Corporation or even the Development Authority have notified the recognised slums. Such notifications are linked up with the availability of funds from the State Government for slum clearance.

Name of the slum and the details of the area. population,length of the paved roads, system of sewerage,number of different types of latrines and method of disposal of night soil etc. are given in this statement

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1989

In this statement,medical, educational, recreational and cultural facilities of the towns as in 1989 are furnished. Ths data for educational, and medical facilities were obtained from the Municipal Commissioners and Panchayat Union Commissioners for the concerned towns, and from the Director of Secondary Education and Director of Public Health respectively. Under medical facilities, the number of Hospitals/Dispensaries/T.B. clinics etc., and number of beds in medical institutions are furnished.

Under educational facilities, the number of Arts / Science/Commerce colleges, Medical colleges, Engineering Colleges,and Polytechnics obtained from the State Education Departments are furnished.

Column 10 : Recognised shorthand, typewriting and other vocational training institutions.

Particulars were obtained from the District Industries Officers and from the Directorate of Employment and Traning . The term, recognised refers to institutes recognised by some statutory authority like Education Department, Commerce Department, Labour Department etc., of the Government or by semi-Government or autonomous bodies, public sector project etc.,

Column 16: Number of working women's hostel with number of seats

This is a new column introduced during the 1981 census. Considering the increase in the employment of women in urban areas, the housing need of working women has been considered as an important subject for study.

The Data presented under column 18 refer only to the permanent cinema theatres and do not include the touring cinemas.

Statement VI : Trade, Commerce, Industry and Banking in 1989.

In this statement, Trade, Commerce, Industry and Banking facilities in the town as in 1989 are furnished. Banking particulars were obtained from the Reserve Bank of India. The informations on number of agricultural and non-agricultural credit societies were collected from the Registrar of Co-operative Societies through the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

Scope of Primary Census Abstract

The Primary Census Abstract as it is called presents basic data for each village or segment of a village (in cases where such village segments form different panchayats) in the "Village Primary Census Abstract" and for each ward/division of a town in the "Urban Primary Census Abstract". The format of the Primary Census Abstract for the villages and towns in 1991 has been slightly modified as compared to the 1981 Primary Census Abstract.

The Primary Census Abstract gives the details on area, number of occupied residential

houses, number of households, total population, population in the age-group 0-6,number of SC/ST population, literates, total mainworkers, distribution of main workers by 9 industrial categories, marginal workers and non-workers in respect of each unit with male, female breakup. In 1981, the main workers were classified into four categories where as in the 1991 census they are classified into 9 industrial categories as in 1961 and 1971 censuses. For the first time in this Census, the population in the age group 0-6 with sex breakup is presented in PCA in order to arrive at the realistic literacy rate as all the children below 7 years are treated as illiterates in this census. The urban/village Primary Census Abstract gives this information for each village and each Urban ward. Till 1981 Census, the Primary Census Abstract was presented for each taluk and for each town in a district. But, in the 1991 census, the Primary Cenus Abstract for each CD Block is presented for the first time in the Indian Census. Besides these, separate Primary Census Abstract for Scheduled Castes and Scheduled Tribes which contain similar details as those in the PCA for general population are presented for State/District/Taluk/Commuinty Development Block/UA/City/Town.

With a view to ensure comparability to enable data users to derive the figures for either for a revenue village or Panchayat according to their requirments, the data are presented for segments of villages also, wherever portions of one village happen to be in two or more Panchayats. The segment wise data have to be used separately or added with the data of concerned segment so as to derive panchayat data. For example if portion of a revenue village bearing L.C.No 9 forms two parts of panchayats, the figures are given separately for each portion of the village against L.C.No 9 a/b and 9 b/b. The total figures for the entire revenue village can be arrived at by adding the figures given against both the segments viz. 9 a/b and 9 b/b. given in the village Primary Census Abstract. If, instead, the panchayat figures are required, the data for the concerned village segment or segments relating to the panchayats concerned are to be added up to arrive at the total figures for the respective panchayats. An appendix is presented in the case of the Urban Primary Census Abstract and it gives 1991 population, Scheduled Caste and Scheduled Tribes population for each enumerator block of the town. This may be useful for administrative and election purposes in the urban areas. Such data are also required by urban planners and reserachers for conducting other special studies in selected blocks.

MODE OF PRESENTATION

At the beginning, the District Primary Census Abstract containing data for District and C.D. Block (for Total, Rural, Urban areas) as also towns under each C.D. Block and at the end, all the towns/ U.As; in the district are presented. In 1991 Censue, the C.D. Blocks is the main unit of presentation of data instead of taluk which was the main unit till 1981 Census. The District PCA is followed by alphebetical list of villages for each C.D. Block in the district. This is followed by Village/Urban PCA. In the Village/Urban PCA, data for the first C.D. Block for total, rural and urban areas seperately followed by date for villages and Census towns falling under each CD Block are presented. Thereafter, similar data for second, thrid and subsequenet C.D. Block, in the district are presented. At the end of the last C.D.Block, the Urban PCA containing data at ward level for all the towns and cities besides the data for UAs are presented. In an appendix to the Urban PCA the total population and the population of Scheduled Castes/ Scheduled Tribes for each Enumerators Block of every town/city in the district are given. After the appendix to Urban PCA, the Talukwise PCA containing data for the District and each taluk in the district with Total, Rural and Urban breakup is presented, as such data are also sought after. This is followed by two annexures. Annexe-I contains Details of Community Development Blocks failing under each taluk and Annexe - II contains names of the villages / segment of villages constituting each town in the district.

Maps.

Apart from the District Map, given as frontispiece, maps for each taluks showing the villages, Location Code numbers and their boundaries are presented. The boundaries of the C.D. Blocks falling in the taluks are also shown. As compard with the maps presented in 1971 and 1981 District Census Handbook, some improvements have been effected in the maps presented in this volume. All towns are shown with shading screens and also spheres according to the population size of towns in the district and taluk maps.

Area Figures

In the District Primary Census Abstract, the area figures are given in square kilometers for total, rural and urban areas. In the village Primary Census Abstract, the area figures for each revenue village are given in hectares upto two decimals. The area figures for each town is given in Sq. Km in the Urban Primary Census Abstract. In the District Primary Census Abstract the area figures of the district total represent the "Geographical Area" figures supplied by the Surveyor General of India. Figures for urban areas and villages are those supplied by the local bodies and revenue authorities respectively. The total of the urban area of the district has been arrived at by adding the urban area figures of each town within the district. Area figures for the rural areas of district are derived by subtracting the urban area figures from the total area of the district. The area figures of each C.D. Block represent the area figures that are published in the concerned departmental publication of the State Government. The area figures of the C.D. Blocks will not added up to the district area figures because, the C.D. Block area figures represent the "Land Use" area, while those of the district represent "Geographical Area". supplied by the surveyor General of India. The total of the village areas given in the village/Urban Primary Census Abstract may not tally with the rural area of the C.D. Block given, as the C.D. Block area figures include hills, forests, rivers etc., whereas the village area may not include the same. One Sq.km is equal to 100 hectares.

It is hoped that the pattern of presentation of basic census particulars for each district as explained above and adopted in this volume would be found convenient by data users.

Part A

A brief analysis relating to certain vital population characteristics is made utilising the information collected in the village and town Dictory.

A number of tables have been designed for this purpose. The tables are generated at the District and communnity Development block level for the rural areas and in regard to urban areas, town wise particulars are persented.

THANJAVUR DISTRICT

INTRODUCTION

Thanjavur district stands unique from time immemorial for its agricultural activities and is rightly acclaimed as the Granary of the South India lying in the deltaic region of the famous river Cauvery and criss-crossed by lengthly network of irrigation canals, this coastal district abounds in green paddy fields,tall coconut groves, vast gardens of mango and plantain trees and other verdant vegetation. Various testimonials available in the ancient Tamil literature referring to the Cauvery as possessing the sanctity of the Ganges in conformity with the legendry and mythological stories attributed to its divine origin, rightly point out why the river is popularly called the 'Mother Cauvery' and its sacredness is evident from 'Kaviri-Thala-Puranam'. The river has also been named 'Ponni' because it is yielding 'Pon'-Gold in the form of paddy. That is why it is said with pride that every iota of the earth of Thanjavur is equal to an iota of gold. The tillers in Tamil literature have been rightly called as 'Kauvirippudhalvaṛs'- the sons of the Cauvery as they alone are worthy of this title for the rich production of grains in this fertile soil.

It is no wonder therefore that at the very Threshold of the district itself one can feel the distinguish green vegetation and call Thanjavur as 'the green mansion' of the South. With an average annual rice yield touching 22.33 lakh metric tonnes during 1981-82 or roughly about one-third of the total rice yield of Tamil Nadu, the district tops all the other districts of India in the production of rice and ramarked as the rice bowl of India. The economy of the district is, therefore, primarily agrarian in nature with very few industrial units.

Thanjavur is conspicious among all the nine coastal districts of Tamil Nadu in the production of marine fish which accounts for about 30 per cent of the total marine fish catch of the State. The district is famous for its exquisite ancient handicrafts-making of bronze icons, Thanjavur art plates, bell-metal castings, bowls, napkin and powder boxes of metal with beautiful and artistic in-laying and engraving work of motifs well known as "Tanjore swami work'. It is equally well-known for pit-work, ornamental fans, mats and making of musical instruments of jack-wood. It is also a flourishing centre of handloom silk and cotton saris. The 'Kottadi' silk saries of Koranad are renowned and in demand throughout the state.

Thanjavur attained prominence under the Chola rulers who were paramount in South India during 9th to 12th centuries. They were not only excellent rulers but also mighty builders, who erected a large number of exquisite temples in their empire,

some of which constitute the finest specimens of architecture. Hence, the district stands distinguished in the state even in its large number of temples, whose legends extend deep into early historic times. Many of these temples reflect the power, genius and architectural grandeour of their authors displaying the unique and magnificient proficiency in sculpture, painting and wood carving. Art gallery the great Saraswathi Mahal library, the 'Sangeetha Mahal' (hall of music), the thriving of classical music and dance known as ' Bharathanatyam' and the celebration of grand annual music festival at Thiruvaiyaru, in honour of the great Saint Thiagaraja, all bear testimony to the cultural heritage.

The period of Chola Kings was not only considered as epoch-making but also an era of the cultural renaissance. Thanjavur under the Chola rulers was the credle of Tamil culture. Literature and civilisation and the rare Tamil manuscripts in the Thanjavur library corroberate this fact. Another notable feature is that in spite of several alien invasions, on-slaughts and internal conflicts, the ancient culture and civilisation have not suffered much devastation. The inhabitants have successfully concentrated their histrionic talents in the field of art, literature, drama, music and dancing and are known for their rich cultural and religious fervour. They live in close harmony as a well knit community and the three main religious groups viz., Hindus, Muslims and Christians,celebrate their fairs and festivals with a sense of mutual respect. The famous 'darga' at Nagore and the Catholic church of 'Our Lady of Health' at Velankanni are said to confer blessings on all, irrespective of caste or creed and are held in great veneration by the people of all faiths alike. On festive occassion, the Hindu devotees out-number all other participants in the shrines belonging to other religions. Similarly, in the case of some Hindu festivals, the temples are thronged by a substantial number of persons belonging to other religious group as well, who have a staunch faith and come in full reverence to pay homage to the presiding deities.

Brief History of the District

According to the known history dating back to Sangam age, the Cholas ruled over Thanjavur for about one thousand years. It was here that plans were formulated to extent the Chola supremacy by spreading their glory from Kanniyakumari in the south to Himalayas in the north. They also under their patronage cultivated fine arts, erected temples, constructed anicuts, built ports and cities.

Among the Chola Kings who found place Sangam literature, Karikala and Sengengan were the most prominent. The name 'Karikala' which in Tamil refers to a man with charred leg, was derived by this King from a fire accident. He was assailed,

imprisoned and deprived of his birth right by his enemies. He, however, managed to regain the throne and in the great battle at Venni he defeated Pandya and Chera rulers and secured for himself the hegemony over them. He crushed both the internal and external opposition and became complete master of his country. He renovated the capital of Uraiyur, built up the renowned port of Puhar (Kaveripoompattinam) and patronised liberal arts and letters. Karikala was succeeded by two rival kings-Nalangilli and Nedungilli who ruled from Puhar and Uraiyur respectively. The next Chola King Killivalavan from Uraiyur was a brave and able warrior, besides a partron of letters.

Of the Chola of later Sangam age, Koccengan was more brilliant and illustrious in both war and peace. He showed equal zeal for both Saivism and Vaishnavism, built numerous saivite temples including the famous Jambukeswara Temple at Tirunaraiyur.

After a brief set back in the Chola regime between the third century to ninth century A.D., the Cholas became the mighty race of rulers. Once again Vijayalaya (850-870), the founder of the new Chola dynasty, drove away the Muttaraiyar Chieftains from Thanjavur and assisted the Pallava King to stem the tide of the Pandiyan overlordship. His son Aditya I (870-907) soon over-threw the Pallava King, Aparajita and expelled him from his territory. After conquering the Kongu country and Pandyas, he further extended his kingdom. He was an ardent saivite like his father and built temples along the banks of cauvery from Sahyadri to the sea. Parantaka I (907-955) was more powerful and under his rule Cholas acquired a dominion which foreshadowed the great empires of Rajaraja and Kulottunga. With the rise of Rajaraja I (985-1014), the days dawned to bring about new and brilliant chapter in the history of Cholas. Both in war and peace Rajaraja and his son Rajendra proved themselves as the most outstanding personalities of their time. Rajaraja conquered Kerala(Chera country), the whole of the Pandya country and Malainadu (Coorg) and extended his dominion. He also invaded Ceylon and destroyed Anuradhapura, its capital. He was also a great statesman and administrator and endeavoured his best to establish his empire on a firm footing. He built the most magnificent temple of Rajarajeswara at Thanjavur, the fine specimen of Tamil architecture. Rajaraja was succeeded by his son Rajendra I (1014-1044). He had the advantage of possessing an empire which had already been organised on sound lines. He set about at once to improve its organisation and increse its glory. He undertook expedition to north in search of the Ganges and assumed the title of "Gangai Konda Cholan". His most glorious expedition was to Kadaram which shows the great naval strength of the Cholas. Rajendra I was succeeded by four rulers Rajadhiraja, Rajendra II, Virarajendra and Adirajendra's reign was brief and it became weak in his time and later the kingdom passed on to the Eastern Chalukyan. Rajendra Kulottunga (1070-1120) was a remarkable personality. He was more a statesman than

a warrior. From 1120 to 1163, three Chola kings, viz, Vikrama Chola (1120-1135), Kulottunga II (1136-1150) and Rajaraja II(1151-1163) succeeded Kulottunga I and under all these rulers no wars or invasions distracted the country. During the reigns of Rajaraja III(1216-1246) and Rajendra III (1247-1279), the Pandyas in the south and Hoysalas in the north monopolised all the power. By the beginning of the 13th century, the Chola dynasty became extinct and it gave way to Pandyan supremacy.

The Pandiyan regime was short lived. When the Pandiyan Kingdom was in the thrones of civil war, the muslim ruler Ala-Ud-Din Khiliji, the Sultan of Delhi, took advantage of it and over powered the Pandiyas. Thanjavur then came under the mulim rulers. Muslim dominations continued till the middle of the 14th century when Vijayanagar Kings ended the muslim rule. Thanjavur remained under the supremacy of the Vijayanagar Kings for a long period. The Nayak dynasty was established during this period and Sevappa the founder of Nayak Kingdom of Thanjavur made his appearance on the scene(1532-1560). In 1560, Sevappa Nayak made over kingdom to his son Achuyutappa Nayak. His rules unlike that of his father was not one of unbroken peace. Shortly after getting old he abdicated the crown in favour of his son Ragunatha(1600-1630). During his reign, a Danish settlement was established at Tranquebar(1620). The Nayaks of Thanjavur were loyal to Vijayanagar after the battle of Talikotta and helped Vijayanagar in repulsing the attacts of the Nayak of Madurai and their temporary ally Golkonda, but the beginning of the 17th Century saw the end of the Vijayanagar empire.

Attempts were then made by the Nayaks of Madurai and the Sultan of Bijapur to capture Thanjavur. The Marattas also came to Thanjavur in the later half of the 17th century. Ekogi became the first Maratta ruler of Thanjavur(1676-1683). The Marattas ruled Thanjavur for some time but became later vassals of the Mughal Governor of Karnataka. Subsequently there were hostilities between the Arcot Nawab and the Maratta ruler of Thanjavur. The French and english also began interfearing in the internal affairs of South India. The supremacy of the English was later established. Saraboji II the adopted son of Tuljaji, was made King of Thanjavur in 1798, after agreeing with all the conditions laid down by the British Goverment. A pact was signed between the Maratta ruler and the English by virtue of which the status of the Raja was reduced to a mere vassal.

The administration of Thanjavur was given over to English fully under the Treaty of 1799. The ruler of the Thanjavur was allowed to retain the fort of Thanjavur only

with limited power of administration. When the ruler died in 1841 without heir, the Thanjavur fort was also annexed by the British and it became part of the then Madras. Thanjavur remained under the British until 1947 when India attained freedom.

Jurisdictional Changes

Thanjavur district had 11 taluks in 1951 which subsequently increased to 12, then to 13 and 16 during 1961, 1971 and 1981 Censuses respectively. During 1991 Census, the district comprises of 20 taluks due to up-gradation of the following four sub-taluks into full-fledged main taluks.

1. Tranquebar in Mayuram Taluk
2. Kodavasal in Nannilam Taluk
3. Valangiman in Papanasam Taluk
4. Nidamangalam in Mannargudi Taluk

The name of Mayuram and Tranquebar was changed into "Mayiladuthurai" and "Tharangampadi" respectively.

The district at present stands divided into the following 6 revenue divisions and 20 taluks:-

SI.No.	Name of the Revenue Division	Name of the Taluk
1.	Thanjavur	(1) Thanjavur (2) Orattandu (3) Thiruvaiyaru
2.	Kumbakonam	(1) Kumbakonam (2) Tiruvidaimarudur (3) Papanasam
3.	Mayiladuthurai	(1) Mayiladuthurai (2) Tharangampadi (3) Sirkazhi
4.	Mannargudi	(1) Mannargudi (2) Nidamangalam (3) Tirutturaippundi (4) Vedaranniyam

Sl.No.	Name of the Revenue Division	Name of the Taluk
5.	Nagappattinam	(1) Nagappattinam (2) Thiruvarur (3) Kodavasal (4) Nannilam
6.	Pattukkottai	(1) Pattukkottai (2) Peravurani

The district represent 20 assembly constituencies of which five are reserved for Scheduled Caste. There is, however no reserved constituency for Scheduled Tribes. Thanjavur, Mayiladuthurai and Nagappattinam are the three parliamentary constituencies of which Nagappattinam is reserved for Scheuled Castes. Sirkazhi, Nannilam, Thiruvarur, Tirutturaippundi and Valangiman assembly constituencies are reserved for Scheduled Castes.

During 1991 Census, the district comprised 8 municipalities, 24 towns and 1808 villages of which 41 are uninhabited.

Physical Aspects

Thanjavur district, with vast expanse of rice fields are fruit garden, is one of the coastal districts of Tamil Nadu lying 185 above mean sea-level in between 8° 50' to 11° 50' northern latitude and 78° 45' to 79° 50' eastern longitude. It extents to an area of 8,280.0sq.kms.,bounded on the north by South Arcot and Tiruchirappalli districts of which the latter surrounds the western border also. It is flanked on the south by the district of Pudukkottai and the Palk Strait while on the east is the Bay of Bengal. It has a coastal line about 216 kms divided into two sections -one extending from the mouth of river Coleroon to Point Calimere and the other from Point Calimere bordering the Palk Strait. The erstwhile French pocket, Karaikkal now a portion of the Union territory of Pondicherry is situated in the middle of the coastal line between the Coleroon and Point Calimere. The coastal line has a number of harbours of which mention may be made of Nagore, Point Calimere, Nagappattinam and Tharangampadi.

The district can be divided into three distinct division, viz., the deltaic region, the upland area or non-deltaic region and the Salt Swamp. The deltatic region covers the whole northern and eastern portions of the district where the Cauvery with its wide network of branches irrigate more than half of the district. It comprises the whole of

Kumbakonam, Mayiladuthurai, Tharangampadi, Sirkazhi, Nannliam and Kodavasal taluks and parts of Thanjavur, Papanasam, Thiruvarur, Mannargudi, Tirutturaippundi, Valangiman, Nidamangalam and Nagappattinam taluks. This entire area of vast flat alluvial plain of unending paddy fields, interspersed with rich groves of mango, coconut and other trees, slopes gently towards the sea. Here are to be found neither hills nor hillocks, save the ridges of blown sand which fringe the narrow strip of beach along the sea coast. The rest of the southern and western areas of the district are non-deltaic or upland region. A good portion of upland regions which was dry has now been brought under irrigation with the help of Grand Anaicut canal, fed by the Cauvery-Mettur Project and by extension of the Vadavar river. Non-deltaic region is also devoid of hills and slopes gradually seawards, Vedaranniyam salt swamp forms the third great natural division of this district. It runs along the coast from point Calimere for about 48 kms and is about 7 to 8 kms wide. This is the longest swamp of its kind in the state . It is filled by two periodical high tides during the fullmoon day of months of May and June and retains sea water to a depth of two feet over a considerable area enclosed by low earthern banks, which when closed, prevent the water from flowing back into the sea after the tide recedes. It is in this manner the well known Vedaranniyam spontaneous salt is produced.

Forestry

The headquarter of Thanjavur forest division is located at Thanjavur and consists of one territorial range, five plantation ranges and one farm foresting range. The forest division comprises natural forests in scattered patches, some of which are of special ecological value as these form the compact plantations raised on the banks of rivers and canals etc., over the entire district. The plantations raised in reserved forests as avenue teak have been handed over to P.W.D. and the compact teak plantations have been retained by Forest Department. The total area under forest in the district, during the year 1989-90 is 15,841 hectares or 1.9% of the geographical area. The forest area is mangrove type and can be further classified into:

1. Littoral forest
2. Tidal swamp forest
3. Southern tropical thorn forest
4. Southern carnatic umbrella thorne forest and
5. Tropical dry evergreen forest

Littoral and Tidal swamp forest comprise 68% of the total forest area in the district and the Southern tropical and Carnatic umbrella Thorn forest cover another 25% of forest area. The remaining 7% forest area have tropical dry evergreen forest. The trees most commonly found in this forest are teak, teak sisoo, teak acacia, bamboo, eucalyptus hybird, sisoobabul, sisoo anacia, cashew, coconut etc.

The type and area under forest as on 31.3.1990 are given below :

a) Teak Sisoo - 19,418.21 Hectares

b) Fuel Wood - 1,535.03 Hectares

c) Soft Wood - 577.00 Hectares

The production and revenue earned from forest during 1989-90 are detailed below :

Sl. No.	Type	Quantity	Value (in '000 Rupees)
1.	Timber	220.81 CM	622.56
2.	Fuel wood (camp sole)	-	30.69
3	Pulp wood and Eucalyptus	330.00 MT	134.98
4.	Poles	11104 Nos.	503.93
5.	Other M F Pulses		
	(i) Tamarind	167	062
	(ii) Palmyrah	700 Leaves	0.11
	(iii) Coconut		0.20
	(iv) Elande	1200 kg.	3.05
	(v) Casuarine	403 kg.	3.50
6.	Social forestry		
	(i) Eucalyptus hybird	498 MT	143.03
	(ii) Babul	104 MT	

In all, 3,554.975 hectares and 11.82.09 hectares have been declared as total reserve forests and reserved lands in Thanjavur district during 1989-90. The total area under unclassified forests is 672.98 hectares and most of the reserve forests area is situated in Sirkazhi and Vedaranniyam taluks. Besides, the ecological role of these forests is unique in protecting errosions and lending stability to the soil through which perenial rivers, numerous canals and water channels are flowing.

Hill

There is no hill or hillock existing in the district of Thanjavur.

Soil

The soil of the district can be classified into four categories-alluvial, regar (black series), red ferrunginious and arenaceous. The soil of the delta region is entirely alluvial but varies greatly in quality. The best of the alluvial is found in the western part of the district and the quality decreases generally as we move towards east. The rich soil is also found in the north and south railway line between Mayiladuthurai and Tiruthuraippundi. The worst land in the delta is found in Tiruthuraippundi and Nagappattinam taluks where the soil is saline and arenaceous and drainage system is very defective. This land is in striking contrast to the rich lands near Thiruvaiyaru which are known as the "Breast of Thanjavur". Along the banks of givers in Thanjavur, Kumbakonam and Papanasam taluks lands are found to be very rich padugai lands. The upland tracts of the district consist of red ferruginous soil. The red soil are equally fertile if well irrigated. Towards the Sea-coast in Pattukkottai and peravurani taluks, the soil is arenaceous.

Minerals And Mining

The major portion of Thanjavur district is covered by Cauvery Alluviam and reported to have potential for mineral wealth. Vallam stones, laterite, sandstone,kankar and yellow ochre have been reported from the district. Quartz crystals rolled into pebbles occur in the tertiary formation. Iron ore is found to exist in the neighbourhood of Vallam. Vallam area in Thanjavur taluk yield laterite of fine quailty. Pebbles of transparent quartz occur in the conglomeratic sandstones near Vallam. These are of the amethystine citrine and smoky varities.

Lignite belts have been encountered in between 230 and 370 m. depths during the course of drilling by Oil and Natural Gas Commission in Tirumangalam area near Mayiladuthurai. The fixed carbon content ranges from 26.10 to 37.50 per cent and which is higher than the lignite of Neyveli. Similar occurances have also been reported from Vanadhirajapuram, Sittarkadu and Pandanallur area.

Ilmenite - garnet sands were located between Mimisal and Atirampattinam, Tirumullaivasal and at the mouth of Coleroon river. In Tharangampadi, probable reseves of ilmenite and garnet are estimated at 90,400 and 4,900 tonnes respectively. An occurance of ilmenite rich in beach sands is reported east of Kodiyampalayam and it extends over a distance of 2 kms with an average width of 50 meters.

Kankar and tuffaceous limestones occur under redsoil laterite ranging in the thickness from 0.3 to 1.0 m. Kankar layers are also noticed in stream sections. The important occurrances are seen in the Grand Anicut canal cutting between Kuruvadipatti and Pudur and also in the neighbourhood of Tirumalai Samudram. The thickness of Kankar in Tirumalai Samudram area ranges from 2 to 2.5 metres and the total reserves have been estimated to be about 0.5 million tonnes. The Kankar is of good quality, coal ranging from 48.42 to 52.72 per cent and low in Magnesia and Silica contents Workable silica sands are reported to be available in Vedaranniyam taluk.

The Cauvery basin was explored are found to be one of the potential areas for petroleum production both in the inland area around Tiruthuraippundi, Pattukkottai, Mannargudi, Karaikkal and in the off shore area north of palk-Strait. It is reported that oil production has been started in small scale and gas is also supplied to some small industries.

Rivers

The river Cauvery and its tributaries are the most remarkable feature of Thanjavur district. Cauvery is considered to be the best of the rivers that drain the Southern Peninsula of India. The river flows from Karnataka state and passes through Dhamapuri, Salem, Periyar, Tiruchirappalli and Thanjavur districts covering a distance of about 770 kms and draining an area about 72,800 sq.kms in all. Springing from a spot lying on Brahma Giri Mountain of western ghat at a height of 1,320 metres above sea level, Cauvery meandus its way across Karnataka and Tamil Nadu and showering not only economic prosperity on millions of people but also carving a niche for itself in their lives in historical, culture and religious realms.

Emerging as a small rivulet from the Coorg mountains, the river cauvery expands rapidly increasing in volume as hundreds of streams and rivulet merge with it which are mostly fed on the heavy rainfall of the south- west monsoon. After Sivasamudram Falls in Mysore, the Cauvery again forms beautiful water falls at Hoganekal in Dharmapuri district.

The three minor tributaries, Palar, Chinnar and Thoppar enter into the Cauvery on her course, above Mettur, where the famous dam has been constructed. The Mettur Dam joins the Sita and Pala mountains beyond that valley through which the Cauvery flow, upto the Grand Anicut. The Dam in Mettur, impounds water not only for the improvement of irrigation but also to ensure the regular and sufficient supply of water to the important Hydro-Electric generating station at Mettur. The river further runs

through Periyar district where river Bhavani merges with it. While passing through Erode, two more tributaries viz, Noyyal and Amaravathi join it before it reaches Tiruchirappalli district. Here the river becomes wide, with a sandy bed and flows in an easterly direction till it splits into two at upper anicut, about 14 kms west of Tiruchirappalli. The northern branch of the river is called the Coleroon while the southern branch retains the same name Cauvery and then goes directly eastwards into Thanjavur district. These two rivers join again and form the Srirangam island near Tiruchirappalli.

The Chola king " Karikalan" has been immortalised as he has constructed the bank for the Cauvery all the way from Puhar (kaveripoompattinam) to Srirangam. It was built as far back as 1,600 years ago or even more. On both sides of the river are found walls spreading to a distance of 1,080 feet. The dam Kallanai on the border between Tirucharppalli and Thanjavur constructed by him is a superb work of engineering, which was constructed with earth and stone and has stood the vageries of nature for hundreds of years. In 19th century, it was renovated in a bigger scale. The name of the historical dam has since been changed to " Grand Anicut" and stands as the head of great irrigation system in the Thanjavur district. From this point, the Coloroon runs north-east and discharges herself into the sea at Devakottai, a little south of Parangipettai. From river Coleroon, Manniar and Uppanai branch off at lower Anicut and irrigates a portion of Mayiladuthurai taluk and Sirkazhi taluk. After Grand Anaicut, the Cauvery divides into numerous branches and cover the whole of the delta with a vast network of irrigation channels and gets lost in the wide expanse of paddy fields. The mighty Cauvery river here is reduced to an insignificant channel and falls into the Bay of Bengal at the historical place of Poompuhar (Kaveripoompattinam) about 13 kms north of Tharangampadi. The river Cauvery flows the entire district in different names through its tributaries and branches viz.. Grand Anicut canal, Vennar, Panaiyar,Koraiyar, Vettar, Kodamuritiyar, Thirumalairajanar, Arasalar, Veerasozhanar, Mudikondan, Noolar, Vanjiar, Vikraman, Nattar, Kirtimanar, Nandalar,Majalar, Mahimalayar, Palavar Cholasundaranar, Puthar, Valappar, Vadavar, Pamaniar, Mullaiyar, Ayyanar, Adappar, Harichandranathi, Vellaiyar, Pandaraiyar, Odambogi, Kattar, Kaduvaraiyar and all these branche off into a number of small streams.

Among the various names by which the holy Cauvery is known during its course, the most popular in Tamil Nadu is "Mother Cauvery" due to the high sancity attached to it. It is worshipped by the people irrespective of caste, creed or religion during Maha Magam festival celebrated at Kumbakonam once in 12 years. The pilgrims after a bath

in Mahamagam tank proceed for a holy dip in Cauvery which is belived to purge of all sins. In the Tamil month of Adi (July-August) on the 18th day, (adi-Perukku), the people throng the bank of the river for the holy bath and pray the Mother Cauvery for their prosperity. In the Tamil month of Aypasi (October-November), thousands of devotees participate in a festival called "Kuda Muzhukku" celebrated on the banks of the river Cauvery at Mayiladuthurai. Many famous temples on the banks of river Cauvery and its tributaries have also earned fame as either sacred religious centres or. beatiful scienic spots, providing the much needed respite and mental solace to urbanites.

Electricity and power

An important aspect to be noted in Thanjavur district is the absence of any hydro electrical or thermal project, although all villages of the district are electrified. Though agriculture in the district mostly depends on Cauvery water, sinking of bores, energising of tube wells are taking place gradually due to failure of monsoon and other reasons. About 37,287 tube wells have been energised upto 31st March, 1990. Free electricity is also provided to farmers for agricultural practices and also one light is provided at free of cost to slum dwellers by government. The statement given below shows the annual consumption of power during 1989-90 under different categories in Thanjavur district:

Sl.No.	Category	Consumption (in million units)
1.	Domestic (Light and Power)	121.14
2.	Commercial (Light and Power)	39.97
3.	Industrial (Low Tension)	44.74
4.	Industrial (High Tension)	22.90
5.	Public Lighting	14.62
6.	Railways (Non-traction)	0.64
7.	Agriculture (including state pumps)	74.96
8.	Public Water Works and sewage Pumping	7.31
9.	Miscellaneous (including water supply)	6.21
10.	Bulk supply to licences (including Municipality and Panchayats) for sale	54.70

Land and Land use Pattern

The total geographical area of the district during the year 1990-91 is 8,21,358 hectares. The following statement shows the break-up of the total geographical area by land use and their percentages for both Thanjavur district and Tamil Nadu.

Sl.No.	Land use	Area in hectares	Percentage of area under	
			Thanjavur District	Tamil Nadu
1	2	3	4	5
Total geographical area		8,21,358	—	—
1.	Forests	15,921	1.9	16.6
2.	Barren and uncultivable waste	33,307	4.1	3.9
3.	Permanent pastures and other grazing lands	3,471	0.4	0.9
4.	Land put to non-agricultural use	1,54,877	18.9	14.1
5.	Cultivable waste	19,080	2.3	2.2
6.	Land under miscellaneous tree crops and groves/not included in area sown	16,550	2.0	1.8
7.	Current fallows	23,932	2.9	9.6
8.	Other fallows	47,814	5.8	8.0
9.	Net area Sown	506,406	61.7	42.9
10.	Area sown more than once	247,299	30.1	8.1
11.	Total cropped area	753,705	91.8	51.0

It is noted that 61.7% of the area falls under the net area sown aganist the corresponding percentage of the state which stands at 42.9% only. It is also obvious that land under forests is much below the state average but this ecological imbalance has to some extent set aside by the land under "Miscellaneous tree crops and groves". of 2.0% which is above the state percentage of 1.8.

Tenancy

Most of the lands were under the control of big landlords in the pre-Independence days. After Independence an introduction of land Ceiling Act and other Acts protecting the interest of tenants, the size of holdings of individuals have been minimised.More than 80 per cent of lands were with small farmers amd the average size of the holding is less than 5 hectares.

According to Agriculture Data bank of Thanjavur district published by the Joint Director of Agriculture, Thanjavur, the size and lands holdings of the district is detailed below:

Sl.No	Size of holding (in hectares)	Total number of individuals	Total area in hectares
1.	Below 0.5	245,315	52,144
2.	0.5-1.0	116,450	86,183
3.	1.0-2.0	100,757	148,871
4.	2.0-3.0	38,367	95,616
5.	3.0-4.0	15,857	54,865
6.	4.0-5.0	8,341	37,564
7.	5.0-7.5	8,745	53,950
8.	7.5-10.0	2,513	21,295
9.	10.0-20.0	1,547	20,751
10.	20.0-30-0	218	5,563
11.	30.0-40.0	47	1,5999
12.	40.0-50.0	25	1,106
13.	50.0 and above	55	7,780
	Total	**538,237**	**587,287**

Agriculture

Thanjavur district has occupied an important place in agricultural sector due to its deltaic alluvial soil blessed by river 'Mother Cauvery' and her numerous branches which serve as main source of irrigation. Agriculture forms the mainstay of 70% workers who are inhabiting in the district. The district also plays a key role in Tamil Nadu by producing about one-fourth of the total out put of rice in the state and is rightly called the 'Granary of South India'.

The season and Crop Report 1990-91 brought out by the Commissioner of Statistics, Tamil Nadu shows the following break-up of the area under different food and non-food crops in Thanjavur district

Name of Crop	Area in hectares
I. Food crops	
A. Cereals	
Paddy	459,422
Cumbu	188
Ragi	115
Maize	775
Varagu	370
Total	**460,870**
B. Pulses	
Redgram	176
Greengram	50,687
Blackgram	122,948
Other pulses	21
Total	**173,832**
C. Other food grains	
Condiments and spices	1,057
Sugarcane	23,722
Fresh fruits	6,971
Dry fruits	4,006
Vegetables	1,424
Total	**37,180**

According to Agriculture progress in Thanjavur issued by the Joint Director of Agriculture, Thanjavur the average annual yield and production of paddy in the district during 1981-1991 has been listed below:

Average paddy yield per hectare in kgs.

Year	Kuruvai	Samba	Thaladi	Combined average
1981-82	4,431	3,399	3,265	3,686
1982-83	4,683	1,954	1,244	2,256
1983-84	5,014	1,750	1,950	2,089
1984-85	4,684	3,035	3,131	3,725
1985-86	4,850	3,287	3,320	3,819
1986-87	5,440	4,518	4,433	4,572
1987-88	5,310	4,427	4,283	4,471
1988-89	6,067	5,037	5,032	N.A.
1989-90	6,151	5,161	5,161	N.A.
1990-91	6,092	5,042	5,042	5,120

Paddy production in lakh M.T.

Year	Kuruvai	Samba	Thaladi	Combined average
1981-82	7.25	10.15	4.93	22.33
1982-83	5.74	5.55	1.22	12.51
1983-84	2.43	7.08	0.66	10.17
1984-85	8.93	8.16	5.30	22.39
1985-86	7.36	7.19	4.10	18.66
1986-87	1.65	18.92	1.22	21.79
1987-88	1.34	17.71	1.07	20.12
1988-89	1.88	19.23	1.48	22.59
1989-90	1.93	19.21	1.63	22.77
1990-91	1.89	18.41	1.58	21.88

It is striking to note that the average yield has gone upto 5,120 kg per hectare in 1990-91 from 3,686 kg/ha in 1981-82. Eventhough the extent of area under paddy is slowly decreasing, the paddy production has been maintained due to the adoption of modern agricultural techniques and constant efforts of agriculture department. It is also pointed that due to Cauvery water dispute with the neighbouring state, the farmers couldnot get adequate waterfor irrigation and consequently face loss of production to some extent. Some agriculturists manged to raise crops through tube-wells and some could cultivate only samba crop.

Normally Paddy is raised in the entire district in three crops. The first crop is known as 'Kuruvai' the short term crop with a duration of 100 to 105 days from June/July to October/November. The crop cultivated after harvesting kuruvai is called 'Thaladi' which has a duration of 120 to 125 days from October/November to February/ March. 'Samba' the long term crop with a duration of 145 to 150 days from August to January is raised in very limited area as a single crop where the water is very less and not available for two crops.

Considerable improvement has been made in the cultivation of paddy, since the introduction of Five Year Plans and especially after the pay package plan. As a consequence, there has been rapid increase in the per hectare yield of paddy in the district which shot upto 5,120 kg/per hectare in 1990-91 as combined average against

the traditional 1960-61 and 1971-72 average which stood at 2,264 and 3,011 kg/per hectare respectively. This improvement in this out put of paddy has been mostly due to the rise in the per hectare yield. The package plan was introduced in 1960 with a view to encourage intensive cultivation of land and thus increasing the out put. The farm production plans which formed part of the large schemes were drawn up in consultation with farmers and based on these assessment, necessary facilities like technical guidance, timely credit and supply requisites, etc were provided. As a part of phased programme, Farm Production Plans were introduced in limited areas and gradually its coverage was extended.

The services rendered by the Agricultural Research Station at Aduthurai, Water use management Research Station at Kattuthottam and Coconut Research station in Pattukkottai are very important, especially for the improvement of paddy cultivation in the district. The Aduthurai research station is primarily concerned with two aspects of the raising of paddy viz., the selection of purelines of paddy and the hybridization of it. Consequently, old varieties of seeds which were in wide use in the district have been replaced by new and improved strains. The Aduthurai Farm has evolved various strains of paddy. During the years 1981-90, the popular strains of paddy among the ryots were IR-50, IR-20, TKM-9, ADT-36, ADT-37, CR-1009, CO-25, CO-44,CO-43,Ponni and 9408. These varieties fetch yields at higher rate and some of these varieties have the additional advantage of being resistant to diseases. It is gratifying to note that 80% of the total area cultivated with paddy are using the improved strains evolved by Agricultural Research Stations. The Research Stations at Pattukkottai attempt to evolving profitable ways of raising paddy by improved culture and manure methods. Besides, five agricultural laboratories viz., Soil testing laboratory and pesticide testing laboratory at Aduthurai, Soil and Parasite breeding station at Mayiladuthurai are functioning in the district for enhancement of agriculatural activity in the district.

The provision of liberal credit facilities has enabled the ryots to take the advantage of various facilities provided to those under this scheme. There are two Central Co-operative Banks and 516 Primary Agricultural Credit Societies apart from Nationalised Banks to issue loans to farmers in the district. Besides, 17 Primary Land Development Banks are functioning to provide loan for purchase of farm machinery and erecting tube wells etc.

The Cultivators have not only adopted the latest high yielding varieties but are also utilising liberally the chemical fertilizers and pesticides as it will be evident from the following statement showing the rapid increase in the consumption of fertilizer and pesticides during the last decade in the entire district.

Year	Consumption in metric tonnes			Pesticides in terms of dust equivalent (BHC)
	Fertilizers			
	Nitrate	Phosphate	Potash	
1981-82	51,870	15,813	16,040	17,878
1982-83	48,491	15,283	15,061	14,260
1983-84	47,146	14,960	14,523	17,287
1984-85	54,632	19,542	18,854	15,380
1985-86	53,865	18,103	17,845	19,249
1986-87	62,261	20,290	20,116	23,301
1987-88	60,870	18,950	19,700	N.A.
1988-89	63,705	20,253	20,273	N.A.
1989-90	66,645	21,170	21,463	N.A.
1990-91	66,897	25,118	28,557	N.A.

There are 1863 sale points for chemical fertilizers-614 on the Co-operative sector, 13 on the Agrosector and 1236 on the Private sector. In 1989-90, 81.6 metric tonnes of Blue green algae was supplied to 79000 Ha. The area covered under the plant production/ pest control was 7.624 lakh hectares. Diseases controlled area was 0.971 lakh hectares, seed treatment was 1.354 lakh hectares. There are 1387 retail outlets for supply of plant protection of which 120 are in Co-operative sector, 1117 in Private sector, 13 in Agrosector and 137 on the AEG sector. The total distribution of PP chemical dust was 1262 M.T. and liquid chemicals was 164,508 litres. The soil samples are also analysed by the agricultural department and above 63,255 samples have been tested at soil testing laboratory and 18044 samples have been tested by the mobile soil testing laboratory. To encourage the farmers , about 6168.5 tonnes of paddy seeds, 120,000 R.C. pockets, were distributed.

Due to escalation of cost of production of paddy due to various reasons, agriculturists are changing the cropping pattern from the traditional paddy cultivation and effectively using the new methods of cultivation directed by agriculture department. As new sugar mills have come up in Mayiladuthurai taluk and near

Kumbakonam, the farmers in Sirkazhi, Mayiladuthurai, Tiruvidaimarudur, Kumbakonam and Papanasam taluks have started the sugarcane cultivation which seems to be profitable for them. Soyabeans, sunflower and plantain are also cultivated by the farmers in small extent.

The booklet of Agricultural Data Bank issued by the Joint Director of Agriculture, Thanjavur states that there are 6 Assistant Directors of Agriculture who are placed at the 6 Revenue Divisional Head quarters for managing seed centres. The State seed farm have been established in the district for research, demonstration and procurement of seed. The following statement shows the various seed centres and their coverage in Thanjavur district:

SI. No.	Name of State seed Centre farms	Cultivable area	Non-cultivable area	Total extent
1.	Sakkottai	32.35	7.57	39.92
2.	Nagamangalam	23.46	2.41	25.87
3.	Thirukadayur	19.05	0.40	19.45
4.	Orathur	19.20	1.02	20.22
5.	Keeranur	19.88	2.67	22.55
6.	Nedumbalam	23.70	1.90	25.60

Source : Agro Statistics 1991 by Directorate of Agriculture, Tamil Nadu

The total production of paddy in the state was 60.63 LMT. The average yield of paddy in Thanjavur district is 3166 kg per hectare which is higher than State's production of kg/ha.

Irrigation

The presence of the river Cauvery and numerous irrigation projects that have been carried out even from days of Chola Kings can be considered as the best irrigation system in Tamil Nadu. Especially in arenaceous soil tracts in Pattukkottai, provision of irrigation has been proved very useful. The necessity for irrigation was realised very early and irrigation systems of the district are date back to days of early Cholas. Thanjavur today has one of the best irrigation systems in the State and ranks foremost in the area irrigated. Over 70% of the gross cropped area is under irrigation systems from one source or the other. It would be obvious if one see the net area irrigated in the district, over 90% of the net area sown enjoys the benefit of irrigation. The total

area irrigated in the district stood at 518,733 hectare during 1989-90. The chief soures of irrigation in the district are rivers, a few rainfed tanks, tubes wells and wells. These tanks and wells situated mostly in the upland regions Cauvery and Coleroon are the most important rivers in the district and as these rivers, a few rained have their origin in the western ghats, they are fed by the southwest monsoon. Strictly speaking agriculture in the district is dependent on the river Cauvery as most of the irrigated area in the district derive water from Cauvery and its numerous branches. A birds eyeview of the course of the Cauvery in Thanjavur will show how and where it has been tapped efficiently for irrigation. About 80% of the total net area irrigated is served by canals and these canals are fed by the river Cauvery. Thus Cauvery is the primarysource of irrigation in the district. The Cauvery delta system in Thanjavur which comprises mainly three important projects viz., the Grand Anicut, Upper Anicut and the Cauvery Vennar Regulator Project.

The oldest and the most significant among these three is Grand Anicut and is reported to have been constructed during the Sangam Age of Chola period. This has been built at the juction of rivers Cauvery and Coleroon about sixteen kilometers from Tiruchirappalli at the lower end of Srirangam island and is designed to regulate the water supply which comes down the Cauvery from the upper anicut. When the supply exceeds the requirements of the delta channels, the gates of the grand anicut are raised and the surplus water is passed down into the Colernoor where it proceeds down to the lower anicut and it is again regulated and utilized for irrigation by means of other canals. The grand anicut was first built by granite stones and mud with an outer layer of granite blocks in lime mortar.Its length is 1080' and breadth is 40' to 60' with a depth of 15' to 18'. Later on, it has undergone numerous improvements. In 1806, it was raised further and in 1830 it provided with sand scoring sluices. Some fifty years later, the stones were removed and replaced by lifting shutters in 1899. The main purpose of this anicut was to check and control the waste water running into Coleroon.Sri Arthur Cotton, an able engineer, built a masonry wall at the head of the Coleroon in 1836, in order to prevent silting up of Cauvery in the deltaic region by providing enough water through the Cauvery and also to check the flow down the Coleroon so as keep enough water in the main river Cauvery. After the construction of the upper anicut, floods often threatened the anicut and then occured serious erosians on the banks of the Cauvery. This danger was however minimised in 1845 by the construction of Cauvery dam. In order to aviod the danger completely, upper anicut was rebuilt in1899 so as to provide passage flood water down the Coleroon in cases of emergency. Cauvery Vennar regulators which is immediately below the Grand anicut divide the stream between rivers and conteol flow of water .Just below these small regulators are built in order to effect proper distributio of water among various branches of the rivers and other numerous irrigation channels. The Coleroon anicut was also the product of the mastermind of engineer Sri Arthur Cotton and was built in the order to irrigation the north eastern columns of the district, especially the taluks of

Mayiladuthurai and Sirkazhi which were not adequately covered by the Cauvery system. This dam was extended remodelled and rebuilt on the same lines as the upper anicut. A few major repair works for strengthen of the dam were undertaken early this century.

Channels of this anicut irrigated an area of 24000 acres in this district. The total area irrigated by the system amount (for the first crop alone) to 109, 118 acres, apart from 28,309 acres under the second crop.

The idea to built a reservoir on the Cauvery in order to irrigate the deltaic regions of the district was that of Sri Authur Cotton whom the entire district will remember and owes ever. Numerous proposals were put forward and investigations carried on before and finally in 1910, Colonel W.M. Ellis worked out a practicable scheme, but there was disagreement between Tamil Nadu and the Karnataka Goverments on the question of sharing Cauvery water. At the end , it was due to the efforts of Dr. C.P.Ramaswamy layer, the then member of the executive council, that an agreement was arrived at. According to this agreement, the scheme was to be executed subject to certain conditions and most important of which were that both the states should built their own reservoirs and that the reservoirs at Mettur should be limited to a capacity of not exceeding 93000 million cubic feet so that it should irrigate over 301,000 acres. Based on the conditions, Mettur reservoir or the Stanley Reservoir was constructed.

Mettur Dam is the biggest dam in the State, with legth measuring over 5300' and height 214' above the deepest foundations. The project has been designed to ensure steady supply of water for irrigation to over a million acres already supported by the Cauvery delta system and to irrigate an additional area of about 300,000 acres in Mannargudi, Puttukkottai and Thanjavur taluks. The utility of the scheme is manifold. By the storage of flood water in the reservoirs, the dam has made it possible to provide sufficient supply of water for agricultural purposes during the inter monsoon periods and also to safeguard cultivation against the unforeseen vagaries of nature. Even in times of drought, the project ensures even supply and distribution of available water. Apart from these, it also acts as a barrier against onrush of Cauvery in all its furry during the north east monsoon period and causing serious damange to crops and lands.

During the last decade, the agriculturists of the district suffered a heavy damage to crops for want of timely and sufficient supply of water from Cauvery. Due to pressure from the Government of Tamil Nadu, Union Government has constituted a tribunal on the issue of sharing of Cauvery water between Karnataka and Tamilnadu.

Apart from the major sources of irrigation, Thanjavur is benefited from other resources like tube wells and wells. The net area irrigated by different sources of irrigation in Thanjavur district during 1989-90 are as follows.

Source	Area (in hectares)
Government Canals	412081
Tanks	436
Tube wells	30344
Wells for sole irrigation	4860
Wells supplementary and other source of irrigation	13551
Other sources	1780
Total net area irrigated	449501
Area irrigated more than once	69232
Total croped area irrigated	518733

The following statement reveals the area in hectares irrigated under different crops in Thanjavur district and Tamil Nadu.

Crop	**Thanjavur District**	**Tamil Nadu**

Animal Husbandry

Livestock growth in the district has shown a marginal increase over the decade. Animal hubsandry which is an allied activity of agriculture, however could not keep pace with the developmental works undertaken in the field of agriculture and so the district cannot boast of any special breed of cattle and the indigenous cattle still continue to be of poor quality. Farmers, therefore generally have to depend on cattle imported from other districts especially from Coimbatore, Tiruchirappalli, Salem, Pudukkottai and Madurai districts. In its southern parts are found a type of cattle called Thanjavur poled cattle and they are distinguished by the absence of horns and possession of clipped ears. The main hurdle standing on the line of livestock development is the absence of pasture land and scarcity of fodder crops in the district due to cultivation of short variety of paddy straw which is considered to be deficient in protein and phosphorous necessary for the proper growth of animals. However, Government is encouraging the farmers to bread milch cattle by liberal credit facilities and grant, in order to enhance the milch population in the district.

Of late, cattle development in Thanjavur has taken place through the setting up of an intensive cattle development project with two Regional Artificial insemination centres and 50 sub-centres. Five bull station supply semens to the vaterinary institutions where artificial insemination work is being done. A frozen semen bank had been established in the Eachenkottai farm and is functioning. The exotic cattle breeding farm of Eachenkottai maintains Jercy breeds and a fodder seed production unit. In the district's livestock farms, Kornikkai, Umbalacherry, Sindhi Umbalacherry and Jercy

Umbalacherry animals are maintained. Another district livestock farm is located at Orattanadu where the breeds of brown Swiss Sindhi cross breeds and Murrah are maintained. One poultry extension centre is also attached to this farm. Another poultry extension centre is located at Pattukkottai. Training in dairy and sheep husbandry is also imparted in the farm to the rural unemployed youths. There are five sheep breeding co-operative societies functioning in the district. The Riderpest squad, Thanjavur is also rendering valuable sevice in the eradication of rinderpest.

According to livestock census conducted in 1989, the number of livestock and poultry in Thanjavur district is as shown in the following statements.

I	Cattle			
	a. Males	i)	Under one year	57,230
		ii)	Between 1 and 2 ½ years	50,339
		iii)	Above 2 ½ years	344,287
			Total	**451,856**
	b. Females	i)	Under 1 year	118,058
		ii)	Between 1 and 2 ½ years	82,473
		iii)	Above 2 ½ years	
			1. Milch	190,632
			2. Dry	117,455
			3. Not calved even once	28,413
			4. Others	7,146
			Total	**544,177**
			Total Cattle	**996,033**
II	Buffaloes			
	a. He	i)	Under 1 year	20.550
		ii)	Between 1 and 3 years	12,857
		iii)	Above 3 years	
			1. Breeding only	1,781
			2. Work and breeding	13,765
			3. Others	4,640
			Total	**53593**

b. She	i)	Under 1 year	54,622
	ii)	Between 1 and 3 years	33,433
	iii)	Above 3 years	
		1. Milch	87,141
		2. Dry	46,908
		3. Not calved even once	14,243
		4. Others	1,543
		Total	**237,890**
		Total Buffaloes	**291,483**
III Others			
		1. Sheeps	79,120
		2. Goats	792,146
		3. Horses and Ponies	461
		4. Pigs	10,659
		5. Mules	11
		6. Donkeys	829
		7. Domestic Dogs	155,899
		Total	**2,346,915**
IV Poultry bowls			
		Duck	1,484,364
		Total Poultry	**6,525**

The Animal Husbandry Department of the distrit looks after the welfare of livestock through 10 vaterinary Hospitals, 82 Vetrinary dispensaries, 3 Clinical Centres and 202 Sub-centres in the district. Venterinary Hospitals/Dispensaries/Clinical centres are maintained by a doctor and a livestock inspector, while the veterinary sub-centres are looked after by a livestock inspector.

The following table revealsthe number of cases treated and castrations performed during 1989-90 in various centres.

Centres	Number	Number of		No. of case readed	Castrations performed
		Veterinary Doctors	Livestock Inspector		
1. Veterinary Hospitals	10	10	10	150,225	9,125
2. Veterinary Dispensaries	82	82	82	1016,520	48,809
3. Veterinary Clinical centres	3	3	3	91,041	1,438
4. Veterinary Sub-Centres	202	-	202	412,230	2,638

Besides, there are 6 Mobile Veterinary Units in the district with a doctor and a livestock inspector in each to look after the welfare of livestock especialy with rural areas. During 1989-90, about 241,850 cases have been treated and 8,860 castrations were performed by the mobile units in the distirct.

Fisheries

Thanjavur is one among the nine districts of Tamil Nadu engaged in marine fishing and its fish production is about 15% of the total each of the State. The State has to total coastal line running to 1000 kms embeded with 442 fishermen villages of wich Thanjavur district occupies 200 km stretch out of which 102 km is one the Coromandal coast and 98 kms on the Palk Strait, with 84 fishing villages in the district from the mouth of Coleroon (Kodiyampalayam village) in the north to Sembiyan Mahadevi Pattinam village in Peravurani taluk in the south. As per the census of marine fishermen in Tamil Nadu (1986), the district has afisherman population of 87, 128 persons of whom only 20,776 are active fishermen. The following statement shows the production of marine fish by is the districts of the State between 1988-1991.

Sl. No.	District	Marine fish production (in tonnes)		
		1988-89	1989-90	1990-91
1.	Madras	12,939	15,096	18,618
2.	Chengalpattu-MGR	8,542	8,448	9,023
3.	South Arcot	18,043	20,954	22,634
4.	Thanjavur	48,636	38,289	44,828
5.	Pudukkottai	44,542	49,584	49,886
6.	Rammmanathapuram	52,895	61,669	60,270
7.	Chidambarar	48,442	49,979	43,835
8.	Tirunelveli-Kattabomman	4,640	5,612	5,286
9.	Kanniyakumari	40,330	39,182	37,281
	Total	**279,000**	**288,813**	**291,661**

States

It is evident from the data that marine fish production in the district has come down in 1989-90 and recovered slightly in 1990-91 though it is comparatively less than that of 1988-89. It is also noted that marine fish product of the district has been declining during past 10 years, as the production reduced from 61, 980 tonnes in 1980-81 to 44,828 tonnes in 1990-91. The marine fish catch mainly comprises Leignathus, Red Mullets, Soianids, Pomfrets, Penacid and Non-Penacid prawns, Crabs and Cephalods of domesal varieties and Chiorcentrus, Lesser Sardines, Anchoviella, Hemirhambus, Becone, Caran, Mackeral and seer of Palgic Varies. During 1990-91, marine fish collection by mechanised boats was to the tune of 58% in the State as per 1986 fishermen census.

The following statement shows the various activities of fishermen folk in the district.

Activity	Male	Female	Total
Population	44,504	42,624	87,128
Engaged in actual fishing	20,776	8	20,784
Fish trading	232	1,849	2,081
Dry fish trading	112	908	1,020
Net making	25	234	259
Allied activities	1,140	888	2,028
Dependents	22,219	38,737	60,956

There are 18,095 fishermen families in the district and more than 97% of them have houses and most of them live in thatched houses. The census data further reveals that there are 760 mechanised boats and 6,244 non-mechanised boats. About 79.6% are catamarans and 17.2% are of vallam type. The following gears were also used in Thanjavur district.

Sl.No.	Name of gear	No. in use
1.	Trawel net	2,333
2.	Gil net	68,464s
3.	Long lines	97,368
4.	Traps	303
5.	Shore Seine	4,217
6	Others	3,169
	Total	**175,854**

It is reported that 11, 756 families own different types of gears while 6,339 families do not own them.

There are 64 Fishermen Co-operative Societies, nine Fiserwomen Co-operative societies and one District Co-operative federation. Besides, Co-operative marketing Union, Boat Opertaors' Co-operative society and Prawn Farming and marketing Co-operative Society are also functioning in the district. Financial assistance by the Government to the fishermen is extended through these societies for the upliftment of the socio-economic status of the fishermen community. Mechanised boats are also made available under hire purchase scheme through the societies. Government is also implementing a Fishermen Housing Scheme under which the Tamil Nadu Adi-Dravida Housing and Development Corporation has been constructing houses in coastal fishing villages for the fishermen since 1975-76 onwards. Fishermen are also provided relief for the loss of nets, implements due to the natural calamities like flood, fire etc. Under crop accident insurance scheme, a sum of Rs.15,000 is paid to the family of deceased for loss of life and Rs. 7,500 for total disablement. For this purpose, Rs.9 as premium per annum should be paid and the amount is equally shared by the State and Central Government. So, under marine fishermen savings-cum-relief scheme, Rs.10 per month is collected from each fishermen for a period of 9 months in the year and Government also make an equal contribution. A sum of Rs. 180 is distributed to the subscribers at the rate of Rs. 60 per month during the lean period i.e. October, November and December. For purchase of catamarans, nets, mechanised vallam and 18 feet plywood boats, Government is providing 20% subsidy and 60% loan. For the benefit of fisher community between 1975-91, Government have constructed 561 houses, 4 community halls, and 30 cyclone shelters. Link roads were also laid between market and fish landing places. Twenty eight lights have been installed fo facilitate the fishermen to locate their villages during the night hours.

A fish landing platform is being constructed at Akkaraipettai at a cost of Rs.90,000. A medium fishing harbour with a capacity of 75 mechanised boats built at a cost of Rs. 67 lakhs has been functioning at Pazhayarai in Sirkazhi taluk from 1986-87. It also has a fish drying yard and an iceplant. Fish landing jetties are functioning at Mallipattinam and Kodiakarai with a capacity of 54 and 4 mechanised fishing boats respectively. About 1200 fishermen were trained in the fishermen training centre located at Nagappattinam and 75 persons have be trained in junior mechanic course.

Thanjavur district is also richest in inland fishing due to the presence of Cauvery delta. The irrigation channels, canals and tanks are richest in fish varieties. The inland fishing consists mostly of 'C' carps, Catla, Roghu, Mirigal and other varieties

of Labeo, Cirtuner, Cat-fish, Murrels, and Notopterus in main river Cauvery and its tributaries. About 10,000 inland fishermen are engaged in fishing and the production of fish from inland water sources is 15,431 tonnes which works out to 18.8% of the State production during the year 1989-90.

Thanjavur also have production of fish seed collection centres. About 16.53 lakh fish seeds were collected which works out to 17.14% of total fish seed production. Since fish seed production through natural resources is not in abundance, 15 Co-operative carp spawning centres have been established in the district for the production of fish seeds for supply to tanks and also to private enterpreneures. Seeds of Catla, Roghu, Mirigal and common carp hatchings are also produced. Two such farms are functioning in Karanthai and Agarapettai in the district and about 107.4 lakh of fish seeds were produced in 1990-91 against the target of 93 lakhs. Fish Farmers Development Agency (FFDA) functioning at Thanjavur also had produced about 58 lakhs of fish seeds.

Fishing rights in provincialised rivers, channels and tanks, municipal and panchayat tanks, belonging to the temples, forest department etc., have to be leased out only to fishermen co-operative societies on a priority basis and in turn these societies will lease out the fishing rights to its members equally on marginal profits. The fisheries department assists these fishermen Co-operative societies in getting the lease of inland water sources as well as fish marketing, in the area. To regulate fishing and to settle dispute among fishermen, the Government have introduced the licensing system of fishing which enables the fishermen to have regular earning through out the year. The permit to erect saars (a fishing net) in the Channels to catch fish are also issued to the members on the recommendation of the Fishermen Co-operative societies at Rs.50/-per permit as licence fee. The Revenue and Public Works Departments have to certify in all such cases that the erection of saar in the channel shall not affect the irrigation system. There are 12 inland fishermen Co-operative societies functioning in the district with a membership of about 8000. The fishing rights in the rivers and channals are leased out by the Collector on the recommendation of the Assistant Director of Fisheries, Thanjavur. The fishing rights in these tanks are leased out to its memebers by Fish Farmers Development Agency (FFDA).

Industries

Thanjavur contines to be predominantly an agricultural district and no wonder that it has been identified as an industrially backward district on the basis of Annual Survey of Industry (ASI) conducted during 1987-88. It is noted that all taluks of this district except Mayiladuthurai have been declared either as industrially backward or most backward as on 22.5.1989.

There are two Inspectors of Factories, one in Thanjavur and another in Thiruvarur. As per "factories" act all factories employing more than 20 persons without power and 10 persons with power should be registered with concerned Inspector of Factories. The details of number of factories registered and the number of employees working in them during 1986-87 in the district are given below :

Industry group	Description	No.of factories	No.of employees
20 & 21	Manufacturing of food products	134	2,829
22	Manufacture of beverages, tobacco and tabacco products	8	494
24	Manufacture of wool, silk and synthetic fibre textile	4	14
26	Manufacture of textile products	27	550
27	Manufacture of wood and wood products, furniture and fixtures	3	16
28	Manufacture of paper and paper products and printing, publishing and allied industires	30	463
30	Manufacture of chemical and chemical products	21	359
31	Manufacture of rubber, plastic, petroleum and coal products	8	174
33	Basic metal and alloy industries	25	641
34	Manufacture of metal products and parts except machinery and transport equipments	30	312
37	Manufacture of transport equipments and parts	3	341
97	Repair services	27	678
	Others	50	3,798
	Total	**370**	**10,669**

During the decade two new sugarmills, one in Co-opertive Sector viz., Nadippissai Pulavar K.R. Ramasamy Co-operative sugar Mills in Thalanayar in Mayiladuthurai taluk and another one in private sector viz., Thiruarooran Sugar Mills at Thirumandakudi near Kumbakonam were set up. More than 10 Modern Rice Mills run by Tamil Nadu Civil Supplies Corporation and Food Corporation of India have also been set up. Two spinning mills are also functioning in the district. A solvent and extraction plant of paddy has been attached in the Modern Rice Mill at Erukkur in Sirkazhi taluk.

Out of 20 taluks in the district 19 have been declared as either industrially backward or most backward and as such there is a great scope for the development of small scale industries in the district. The details of registered small scale units according to SSIU Directory as an 31.12.1989 are given below.

Industry group	Description	No.of small scale industries
20 & 21	Food Products	942
22	Beverages, tobacco and tabacco products	79
23	Cotton Textiles	87
24	Wool, silk, synthetic fibre textiles	34
26	Textile products (including wearing apparel other than foot wear)	150
27	Wood and wood products, furniture and fixtures	211
28	Paper and paper products, printing, publishing and allied industries	312
29	Leather and fur products expert repair	36
30	Chemical and chemical products except coal and petroleum	302
31	Rubber, plastic, petroleum and coal products	126
32	Non-metallic mineral products	169
33	Basic metal alloy	26
34	Metal prodcuts and parts except machinery and transport equipments	632
35	Machinery and machine tools and parts (except electrical machinery)	168
36	Electrical machinery and apparatus	74
37	Transport equipments and parts	147
38	Other manufacturing industries	103

There are four small scale industrial estates in the district, two in Thanjavur and one each in Kumbakonam and Nagappattinam taluks. It is reported that 37 units in Thanjavur (Nangilkottai Road) produce chemical, backery, and rubber products. There are 10 BHEL subsidiary units in Pillayarpettai (Thanjavur taluk), 27 units at Tirubuvanam (Tiruvidaimarudur taluk) producing rubber, polythene, chemical products and 9 units in Nagappattinam producing pencil, pump and boilers. The industrial estates are controlled by small Industries Corporation of Tamil Nadu (SIDCO) which is also supplying paraffin wax (type II) to 34 SISI units.

Thanjavur has been from early days a flourishing centre of cottage industries and handicrafts like Handloom silk and cotton sarees which are renowned and still cherished. Next to handlooms comes mat industry. Mats made of korai, srewpine, palm and cocount leaves are in demand. The mat weaving is spread over a number of places but the superior varieties of mats are made in Chakrapalli, Pakkirithaikkal and Mudukkur. Ornamental fans are made out of palmyra leaves ; they are artificially painted and decorated with gold foils and silk threads. The district is also famous for a wide range of utility and decorative articles like Thanjavur bell metal plates, bronze images, bowls, napkins and powder boxes etc., made of copper and bronze with inlaying and engraving work of motifs drawn from Hindu mythology done in silver etc., known as "Thanjavur Swami Works" cheif centres of metal work are in Kumbakonam, Nachiarkoil, Kilvelur and Kariamangalam. The district is equally wellkwon for its pith articles consisting of beautiful models of Hindu idols, temples, mosques, flower garlands, bouquets, parrots and peacocks. The flower garlands and bouquets are much in demand during Christmas days. Pith is growing on the river beds in the Sirkazhi, Mannargudi, Mayiladuthurai and Thanjavur taluks. The making of musical instruments from jack wood like the veena, tambura, violin, mridangam, tabla and kanjira exhibit excellent taste, knowledge and workmanship. The jack wood has a special quality for producing musical sounds. Thanjavur, Kumbakonam and Thiruvarur are well known places for the manufacture of musical instruments.

Handloom industry occupies an important place in the economy of Thanjavur as it provides livelihood for more than 75, 000 people in the district. It is reported that the number of looms in Thanjavur stood at 15,979 of which 5413 looms come under Co-operative sector. The district stands foremost in the varieties of the handloom fabrics woven in silk, cotton, and lace in the designs of the pattern and the artistic workmenship exhibited. Silk weaving is mainly carried on in Thanjavur, Kumbakonam and Koranadu. The well known pure silk sarees of Koranadu is known as 'Kottadi' sarees with decorative lace borders and squares in the body. Cheap varieties of such sarees are also manufactured out of a mixture of cotton and silk fabirc.s.

Silk sarees produced by Tirubuvanam Co-operative Silk Society with gold laces cost from Rs. 2,000 to Rs.15,000 and these sarees are very popular all over the country. There are 35 Co-operative handloom Societies functioning in the district. The Government have introduced a saving and relief scheme for the members of handloom weavers Co-operative society through which insurance companies are paying Rs.15,000 and State Co-operative Federation is providing Rs. 3,000 to the legal heir of the deceased. About Rs. 19,000 is given as subsidy for construction of houses through housing schemes. The children of the handloom weavers are getting subsidy for higher education from a trust formed in memory of late Chief Minister Dr. M.G. Ramachandran. In order to encourage and promote handloom industry, Government is providing yarn at subsidised rates and also gives rebate for sale of handloom clothes through Co-optex units on the occasions of national importance.

Trade and commerce

The trade of the district mainly consists of the export of rice, fish, handloom, metal work and handicrafts. The items of import chiefly consist of silk and cotton yarn, brass sheets, copper, timber and other consumer goods. The trade is carried on both by rail and road. Regarding surface transport, most of the exports and imports pass through the Port of Nagappattinam and only a very small amount of the trade is carried on at other Ports. As per Statistical handbook of Tamil Nadu 1991 issued by the Director of Statistics, the total value and quantum of Foreign trade through the Port of Nagappattinam during the year 1989-90 were :

Exports		Imports	
Quantity in tonnnes	**Values in lakhs of Rs.**	**Quantity in tonnes**	**Values in lakhs of Rs.**
13,358	546	58,220	923

To help the trading and commercial establishment, there were in all 317 banks functioning in various parts of the districts during 1990-91.

Transport and communications

No National Highway is passing through the district. The nearest airport is located at Tiruchirappalli. However there are two important Railway Junctions in the district, i.e., Mayiladuthurai and Thanjavur. The rail links directly with Chennai and other important towns in the State. During this decade, the two railway lines connecting Mayiladuthurai - Tharangampadi and Peralam-Karaikal have been stopped and the railway lines have also been removed. As per Annual Statistical Abstract of 1991-92, the district has 70 railway stations and 417.68 kms. of railway lines.

The district also has a good network of roads and the statement reveals the length of various type of roads in kilometres in the district.

Sl. No.	Type of roads	State high ways	Municipal roads	Panchayat union/village Panchayat roads	Town Panchayat roads	Total
1.	Cement	23.0	13.3	_	10.2	46.5
2.	Bituminus	3852.0	435.3	154.0	134.9	4576.7
3.	Water bound Mecadum	207.0	76.5	5,450.2	221.5	5955.2
I	Total surfaced	4082.0	525.6	5,604.2	366.6	10,578.4
II	Unsurfaced	12.0	125.0	4669.9	257.1	5,064.0
III	Total	4,094.0	650.6	1,0274.1	623.7	15642.4

There are about 194 registered transport undertakings in the district. The Cholan Roadways Corporation with its head quarters at Kumbakonam has a fleet strength of 749 buses during 1990-91. It operates town and other services all over the district and also to some important towns in the neighbouring districts and also to the Union Territory of Pondicherry. Town bus services are made cheeper to suit most of the rural population. During this decade, the transport facility was made easy to the public by the introduction of auto-rickshaw, taxi and cab permits in small towns also.

Tiruvalluvar Transport Corporation directly links Thanjavur with Madras, Madurai, Coimbatore, Tirunelveli, Tirupathy and other towns. Other Transport Corporation like Periyar, Jeeva, Dheeran Chinnamalai, Marudhu Pandiyar are also operating buses through the district. The following statement shows the number of motor vehicles registered in the district up to 1990-91.

Commercial Vehicles		Non-Commercial Vehicles	
Type	No.	Type	No.
State carriages	909	Motor cyles	3,326
Auto - rickshaws	458	Scooters	601
Ordinary taxis	60	Mopeds	4,260
Tourist taxis	2,429	Motor cars	671

Private transport vehicles	20	Jeeps	156
Goods vehicles	1,924	Station wagon	50
Tractors	2,305	Ambulance	57
Others	2,336	School bus	94
Fire engine	12		
		Fire tender	8
		Fire sprinkle	6
		Tractor (NTU)	326
		Three wheelers	41
		Four wheelers rollers	142
		Road wheelers	13
		Tractors and Trailers	519
		Others	17
Total	**14,441**	**Total**	**10,299**

There are 296 departmental and 981 extra departmental post officers and 6 telegraph offices. Besides, 125 telephone exchanges and 25 sub-exchanges are funtioning in the district. International and subscriber trunk dialling facilities have also been introduced in many towns of the district. There are 1,968 Telephone sets, 728 public call offices and 19,678 letter boxes in the district.

Rainfall and Climate

The climate of Thanjavur can be termed as a fairly healthy one like other coastal areas. November, January and February are the pleasant months in a year with climate full of warm days and cool nights. From March onwards, the climate rather becomes sultry and the mercury shoots and reaches its peack by the end of May and June depending up on the set of summer rains. The north-east monsoon in Ocotober brings complete relief. The south-west monsoon sets in June and continues till September. The rainfall during this period is much lower than that of north-east monsoon which sets in October and continues more or less till January. However, Thanjavur district is benefited more by north-east monsoon because of its heavy rainfall and the western ghats invariably feeds the Cauvery and helps greatly the vast cultivation of the deltaic area.

A comprehensive statement showing the monthwise rainfall in millimetres in various monsoon seasons in Thanjavur district during 1990-91 is furnished below.

Name of season	Month and year		Normal rainfall	Acutal rainfall	No.of rainy days
South-west	June	-1990	35.1	13.1	1.0
monsoon	July	- 1990	56.6	36.7	2.5
	August	- 1990	104.3	107.8	5.3
	September	-1990	101.2	167.8	7.6
		Total	**297.2**	**324.9**	**16.4**
North-east	October	- 1990	200.6	256.9	11.4
monsoon	November	- 1990	284.2	134.8	4.6
	December	- 1990	170.1	106.3	5.7
		Total	**654.9**	**498.0**	**21.7**
Winter	January	-1990	55.1	54.0	2.3
	February	-1991	16.5	4.0	0.4
		Total	**71.6**	**58.0**	**2.7**
Hot weather	March	- 1991	19.1	1.2	0.0
	April	- 1991	38.7	5.7	0.5
	May	- 1991	53.1	0.5	0.1
		Total	**110.9**	**7.4**	**0.6**
All seasons		1134.6	891.0	41.4	

Normal has been arrived on the basis of 50 years average.

Eduction

In Thanjavur distict, according to 1991 Census, the distict literacy rate is 66.02% (aged 7 and above) which is higher than the State literacy rate. The literacy among males and females are 77.24% and 54.77% respectively. Thanjavur district stands eighth among 21 districts of Tamil Nadu in literacy rate.

The Annual District Statistical Abstract for 1989-90 reveals that there are 2,552 Primary, 522 Middle and 365 High/Higher Secondary Schools in the district.

The total number of trained teachers working in various categories of schools is listed below :

Category of school	Males	Females	Total
Primary Schools	17,081	2,825	19,906
Middle Schools	4,560	2,025	6,585
High/Higher Secondary Schools	5,178	2,010	7,188

The following statement shows enrolment of students in I to XII standards by rural and urban areas.

Std.	Rural		Urban	
	Boys	Girls	Boys	Girls
I	67,249	60,770	29,265	24,593
II	52,950	55,425	28,661	27,325
III	70,220	49,155	28,829	25,245
IV	52,285	51,979	25,499	25,550
V	73,045	52,025	30,100	41,469

VIII	21,209	11,704	9,708	8,940
IX	7,810	5,315	6,325	2,730
X	6,815	3,920	3,820	3,151
XI	8,110	4,885	4,719	2,865
XII	7,460	6,115	5,420	1,935
Total	**412,247**	**333,225**	**192,624**	**176,517**

The type of educational institutions situated in this district are as follows :

Arts and Science Colleges	17
Medical Colleges	1
Engineering Colleges	2
Teachers Training Colleges	1
College of Arts and Crafts	1
College of Music	1

Polytechnics	8
Teachers Training Institutions	5
Industrial Training Institutions	12

The above list also includes self financing institutions.

The following statement shows enrolment of students and number of teachers employed in these institutions :

Sl.No.	Type of institutions	Boys	Girls	Teachers employed
1.	Arts and Science College	1,1381	4,733	1,194
2.	Medical College	573	404	177
3.	Engineering College	709	491	97
4.	Teachers Training College	110	_	11
5.	College for Professional education	3,273	645	221
6.	College for special education	83	324	34

For research and advance study in Tamil, Tamil University was established in Thanjavur on 15.8.1983. This University undertakes field studies on land, water, stone inscriptions and conduct surveys on tribal population. It also conducts research in music, dance, drama and sculpture etc. It also collects and preserves palm manuscripts and hand wirtten materials of ancient times.

A total of 65,012 persons enrolled in 190 adult education centres of which 49,595 were females and 15,417 were males.

In the district, 108 libraries are functioning of which 102 are branch libraries, one District Central Library, a library in Tamil University and 2 private libraries. The famous Saraswathy Mahal library in Thanjavur is functioning in the palace which has a collection of rare 30,000 palm leaves and paper manuscripts in Indian and European language and are being preserved.

Health

The major important Government Hospitals are Thanjavur Medical College Hospital and Raja Mirasudar Hospitals located at Thanjavur and Government head quarters Hospital and Leprosy control unit at Nagappttinam. Apart form these' there are also taluk and non-taluk hospitals run by the Government. The following statement shows

details about the availability of number of beds, doctors, para medical and other staff and patients treated in various hosptials during 1980-90.

	RM hosptial	TMCH hosptial	Govt. Head quarters hospital, Nagappattinam	Other taluk/ non-taluk / hosptial and dispensaries	Dist. Siddha hosptial, Nagappattinam	Dist. Leprosy control unit, Nagap-pattinam

Source : District Statistical Handbook, 1989-90.

There are also 147 Primary Health Centres/Health Centres, 12 Sub-centres and 28 rural hospital/dispensaries functioning in the district.

The District Statistical Hand book, 1989-90 shows details about family planning statistics for Thanjavur district.

a)	Vasectomy	1,540
b)	Tubectomy	18,460
c)	IUD insertation	24,824
d)	Lab sterilisation	6,867
e)	Oral pills issued	287,804
f)	Contraceptive issued (Nirodh)	2,043,000
g)	Medical termination of Pregnancy	2,403

During the last decade, a number of private hospitals/dispensaries with ultra modern facilities have been establsed even in small towns.

Major social, cultural and political events

All important social, cultural and political events which occured in the district during the decade, 1981-90 have been briefly listed below.

1981 On 15th august valangiman sub-taluk was bifurcated from Papanasam Taluk

1982 On 11.1.82 Tharangambadi sub-taluk was bifurcated from Mayiladuthurai taluk. On 27.06.1982 the name of Mayuram was changed as Mayiladuthurai. Revival of the famous car festival in Arumlmighu. Thiyagaraja temple at Tiruvarur.

1983 On 15.09.1983, Tamil Univertsity was inauguarated in Thanjavur

1984 General election to Lok Sabha and State assembly were held in December.

Swamimalai, Sri Swaminathaswami temple Kumbalishegam was held. Primi Minister Smt. Indira Gandhi visited Thanjavur.

1985 Heavy floods in Southern taluks of the district. Prime Minister visited Thiruvaiyaru in January.

1987 Danish Prime Minister visited Tharangampadi in January. Kumbabishegam of Adikumbeswarar temple at Kumbakonam was held.

1988 Dissolution of State assembly and declaration of President rule in January.

A Pathayatra in memeory of Salt Satyagraha from Tiruchirappalli to Vedaranniyam was taken in April. Prime Minister visited Mannargudi in August.

Kumbabishegam of Arulmighu Thiyagarajaswai temple, Tiruvarur was held after 130 years.

1989 In September, President of India visited Nagappattinam. General elections to State assembly and to Lok Sabha has held in January and November respectively.

Places of Tourist Imporance

There are a number of ancient temples in the district and most of them are located on the banks of river Cauvery and its tributaries. The existence of about 162 ancient temples in the district have been recorded in the 'Thevaram' sung by Nayanmar and were discovered from Chidambaram temple by the Chola King-Raja Raja-1 and only a part of it could be traced out. Of 108 Vaishnavite Thivyaadesams (Holy places sung by Vaishnavite Saints-Alwars), 34 places are situated in the district. The Brahadeeswarar temple at at Thanjavur and the Siva temples at Darasuram and Tiubuvanam are typical landmarks of Chola architecture. "Raja Rajeswaram" temple at Thanjavur built by Raja Raja I shows the expertise and skill of Tamil architecture. This temple is remarkable for its stupendous proportions and bold simplicity of designs and contiuning a histrical movement of glory and spritual solace. During 1987, the temple was inscribed on the world heritage list concerning the protection of world cultural and natural heritage.

The shrines of various religious interest are situated all over the district and in order to understand the significance of the places of tourist importance, a talukwise description is provided below.

The Vaitheeswaran koil 6 km south of Sirkazhi is dedicated to Sri Vaidyanathaswamy and Thaiyalnayagi. This is known as Pullirukkuvelur (Pul-Bird, Rukku-Veda, Vel-Murugan, Oor-Sun). In the southern praharam of this temple, the Jadayukundam is located, where it is believed that Jadayu had his last breath and Lord Rama performed the last rites for him. A famous rare bronze-image of 'Angaraka' is worshipped here and it is believed that those who worship this deity is relieved of Angaraha Dosham. Taking bath in the holy temple tank and worshipping Lord Vaiynathaswamy is believed to cure all the diseases. Lord Selvamuthukumaraswamy (Subramaniya), a beautiful bronze idol with his two consorts 'Valli' and 'Deivanai' attracts thousands of people.

Sirkazhi is also the birth place of Saint Thirugnanasambander of 6th century. It is believed that Goddess Parvathi offered 'Gnanapal' (holy milk) from her breast to the Saint at the age of three in the temple dedicated to Brahmapureeswarar and from that moment, the Saint began to sing poems about the God. 'Thirunangoor' a village situated about 8 km east of Sirkazhi has 9 Vaishnavite shrines. Garuda Sevai festival is celebrated on the next day of the New Moon Day of the Tamil month Thai (Jan-Feb) every year. kaveripoompattinam known as Poompuhar was the capital of the Chola dynaty. It is believed that the original city was submerged in the sea and at present it is a small village about 24km east of Mayiladuthurai. It is considered to be a sacred bathing

place as Mother Cauvery confluence with sea here. Large crowds assemble here on the Adiperukku festival (18th day of Tamil month 'Adi') and also on the new moon day of Tamil month 'Thai'. It is the birth place of Saint Pattinathar and Kovalan and Kannagi of Silapathikaram. The Tamil Nadu Goverment have constructed a beautiful art gallery depicting the scenes from the epic Silapathikaram of Kovalan, Kannagi and Madhavi.

Tharangampadi Taluk

Sri Amirthakadeswaraswamy temple is situated in Tirukadiyur about 20 km from Mayilduthurai. This place is also called 'Tirukadavur' where God kicked Yama to death and blessed Markandeya being ever remain a youth of sixteen. A famous Panchaloha icon of Kalasambhara Kadavul facing south depicts how lord came out of Lingam, when Yama put his Kalapaasa string around Markandeya and tried to drag him away from the Lord. In doing so the paasa string was thrown round Sivalinga itself. Every day many people celebrate completion of their 60th and 80th birth anniversaries here by performing 'Mrithiyunchaya Homa for a long and happy life. During the period of king Saraboji, a reputed scholar 'Abiramipattar' a devotee of Goddess Abirami, has immoratised himself by showing moon light on a new moon day by the grace of Goddess Abirami by singing 'Abirami Andathi' in honour of Goddess.

Tharangampadi formerly known as Tranquebar was famous Danish port. They also built Churches here like Jerusalam Church, the Zion Church and the Church of Our Lady of Rosery.

Mayiladuthurai Taluk

The name of Mayiladuthurai was derived from the God Sri Mayuranathaswamy. The presiding deity is a Swayambu Lingam with consort Abhayapradhambigai, meaning one who gave refuge to the pea-hen. This temple has a nine storeyed Raja Gopuram with 164ft hight on the eastern entrance. This temple was said to have been built during the period of Cholas. Thula festival on the last day of Tamil month 'Aipasi' and Brahmothsavam in 'Vaikasi' are annual festivals.

There is a Vaihnava temple at Thiruindalur, a part of Mayiladuthurai town, known as Parimala Renganathar temple and another Siva temple known as Vallalar temple on the northern side of Cauvery where the presiding deity Lord Medha Dakshinamoorthy is very famous. All the deities are brought to the banks of Cauvery for the 'Kadai Muzhukku' ferstival celebrated on the last day of Tamil month of 'Aipasi'.

Another temple which now a days attacts large number of devotees especially the unmarried women and men is Sri Utvahanathar temple situated at Tirumanancherry, 5 km north of Kuttalam town. It is believed that if the unmarried males and females

worship the Kalyanasundereswarar in the ceremonial wedding style they are blessed with early marriage. About forty to fifty thousand devotees offer such prayers every vear and people who have no child are also offering worship here.

The two Saivite Mutts viz., Dharmapuramadheenam near Mayiladuthurai town and Tiruvaduthurai adheenam about 15 km south of Mayiladuthurai were founded by Guru Gnanasambandar and Namasivayamoorthigal respectively. These two adheenams control the management of many big temples and manage many educational institutions and also teach Hindu Vedantha.

A monument called 'Kambar Kottam' was built by government of Tamil Nadu in Therazhundur village about 10 km south of Mayiladuthurai, in memory of Kambar, who wrote the famous ethic Ramayana.

Tiruvidaimarudur Taluk

Sri Mahalingasamy temple at Tiruvidaimarudur is a very big temple and it is believed that Brahmahathi Dosham was removed from King Varagunapandian in this temple.

Tirubuvanam temple was built by King Kulothunga on the model of Thanjavur Brahadeeswarar temple. The stately stone gopuram of rare workmanship from the pedestal to the stripe is a standing monument of the architectural glory. A stone inscription in the temple disclose the existence of a university here for teaching advanced courses in Miamsa and Tamil.

A Saivite Mutt called Kasimutt founded by Sri Kumaragurubarar is situated in Tirupanandal, 20 km north west of Kumbakonam and has a branch at Varanasi.

Kumbakonam Taluk

Sri Adikumbeswaraswamy temple is an ancient shrine located at Kumbakonam. Kumbakonam was the capital of Cholas during 7th centurey. The temple was built by Cholas and the presiding deity of the temple is Adikumbeswaraswamy and his consort Mangalambikai. The temple covers an area of more than 4 acres and bears stone inscriptions. Lord Kumbeswara is a Swayambu Lingam and Sri Mangalambikai is in standing style. On a single block of stone in the navarathiri Mandapam, all the twenty seven Stars and 12 Rasis have been carved out. Festival is celebrated almost every month of which the "Maham" festival in the Tamil month "Masi" (Feb-March) is the most important festival.

'Maha Maham' festival is celebrated in Kumbakonam once in twelve years. This celebration coincides when Jupiter (Guru) stays in Leo (Shimma Rasi) and the sun in

Aquarius (Mesha Rasi) on the full moon day. Bathing in the tank at this time is considered to be meritorious as the water of the Ganges is supposed to enter the tank. The Mahamaham fesrival is attended by lakhs of devotees from all over the country and the last Mahamaham was celebrated on 18-2-92.

Sri Naganathaswamy temple (Sri Rahu abode) is an ancient temple dedicated to Lord Shiva is located at Tirunageswaram, 7 km east of Kumbakonam. It is believed that Rahu Bagavan (one of the nine orbiting planets of sun) absolved his course by worshipping the lord here. One can see the rare Rahu Bagavan statue with his two consorts in this temple. Devotees perform milk abishegam to get rid of their Rahu dosham or its evil effects. During the time of the abishegams, when the milk is poured on Rahu statue, the milk looks blue in colour to the eyes of the devotees.

Another important Vaishnava temple located in Tirunageswaram is Sri Oppiliappan temple. The deity is also known as Srinivasan and devotees fulfil their vows here instead of at Thirupathi since the god is consdiered as the elder brother of Lord Venkatachalapathy. It is believed that the God married his consort Boomadevi, here at her very young age. Everymonth, Sravana deepam is taken around the temple and is witnessed by large devotees.

Sri Swaminathaswamy temple is built on an artificial hillock about sixty feet high in Swamimalai, a small town near Kumbakonam. The hill temple is located with a height of sixty steps coinciding with 60 Tamil years. The presiding dities are life images of Muruga and Siva-the son imparting the devine message to his father. Sri Swaminathaswamy is represented by a six feet high granite icon in a standing posture offering a spectacular view to devotees. This temple is one of the six abodes (Arupadaiveedu) of Lord Muruga. On the way to Swamimalai, a famous Vinayaga temple is located in Tiruvalamchuli village where the Vinayaga idol is in white colour.

A famous temple known for architectural skill is located in Darasuram near Kumbakonam and was built by Rajendra Chola I. Famous icons have been discovered during recent renovation and this temple is a protected monument under the control of Archaeological Survey of India.

Tiruvarur Taluk

Sri Thiyagarajaswamy in Temple Tiruvarur town dedicated to Lord Siva dates back to prehistoric time. A stone car in the temple remembers the justicegiven to a cow by Manu Needhi Cholan by killing his own son for killing its calf. These things are stated in the stone inscriptions of the temple. It was relieved that God Nataraja was brought here from chidambaram temple during Muslim invasions. Sri

Thiyagarajaswamy with his consort Kamalambigai is the principal deity. The moolavar Vanmiganathar is a swayambu lingam. Famous panchamugha, musical instrument called "Kudamuzhavadhayam" is played in this temple only. Thiruthondarpuranam, the life history of 63 Saiva nayanmars were sung here by Sri Sundarar. Sri Thiyagaraswamy is being brought in the famous temple car known as 'Azhi Ther' and it is the biggest of all temple cars; would be 115 feet height after decoration and the might would be around 400 tones. This car is different from other temple cars and it has 20 sides and four horse idols of 32 feet length each. It is interesting to note that the three giants of carnatic music Sri Thiyagaraja, Sri Syama Shastrigal and Sri Muthuswamy Dikshitar were all born in Tiruvarur.

Nannilam Taluks

In Kuthanoor near Poonthottam, there is a temple dedicated to Goddess Saraswathi which is unique.

There is a famous temple for Sri Vanchinathaswamy and his consort Mangalambigai at Tiruvanchiyam near Nannilam where slain God 'Yama' has a separate sannadhi which is also unique.

Nagappattinam Taluk

Arulmighu Navaneetheswarar Temple at Sikkal near Nagappattianam is a famous temple for Lord Siva. It was believed that an Ayodhya king Musugunda Chakravarthy has built this temple and later renovated by Koccengan a Chola King. The Puranic tradition of this temple is that, a cow after worshippig the God got the curse removed, tiger to the original position. Though the presiding deity is Navaneetheswarar the temple is more widely known as Singaravelar temple, one of the abodes of Lord Muruga. Singaravelar is in a metallic lumunious form with a unique charm about him enthorned on a Sliver manjam with artistic work enshrined in a beautiful chamber. It is here in Sikkal that Lord Murugan was presented with 'Velayutham' by Goddess 'Velnedunganni' with which he destroyed the demon Pathmasuran, personifying the triumph of good over evil. It is this annihilation that is commemorated as 'Skanda Sasti' festival every year.

A famous Durgah called the Nagore Andavar Durgah of Saint-ul-Hamid popularly known as Miran Sahib who was also honoured by the rulers of Thanjavur is situated in this taluk. This Durgah with large tombs is a famous shrine located in South India and it is attracting large devotees from all over the country irrespective of their faiths. Every year the famous Kandoori festival is celebrated to commemorate the 10th day of his death anniversary. During this festival, Santhana Koodu is taken around the durgah.

A famous Roaman Catholic Church dedicate to 'Our Lady of Health' in Velanganni, 10 kilometers south of Nagappattinam draws thousand of pilgrims through out the year. The Godess, Velanganni Matha is a beautiful idol and gives pleasure to worship. A large number of pilgrims from other religions also visit the church very often. The annual festival being held in the month of September attracts thousands of pilgrims every year.

Vedaranniyam Taluk

Sri Vedaranniyam Swamy Temple dedicated to Lord Siva in Vedaranniyam was renovated by Chola rulers. It was believed that Vedas worshipped here and the doors of this temple which were closed by this Vedas could be opened after a long time by Appar and Thirugnanasambandar the famous saivite saints by reciting hymns on the God. It is here that Lord Rama was relieved of his Veerahati Dosha.

Point calimere an important tourist place and a heaven for bird watchers is situated near Vedaranniyam, about 120 kms from Thanjavur and is in the northern point of Palk Strait. The sanctuary here is noted for its inandiable congregation of black ducks, spotted deer, wild pigs, wild ponies and heavy concentration of migratory water foul. Twenty to thirty thousands of flamingoes can be seen here at one time during the winter months. During spring when the trees and shurbs are laden with wild fruits, thousands of birds like green pigeons, mynas, barbets etc., can be seen. A bath in sea at Kodiakarai, a sacred place is considered holy especially on the new moon day of Tamil Months Tai, Adi and Purattaasi.

Mannargudi Taluk

The famous temple for Lord Vishnu-Sri Raja Gopalaswamy in Mannargudi town was constructed in the 12th Century, but the sanctum sanctorium is believed to have been in existence earlier. This place is known as South Dwaraka and Lord Krishna is said to have enacted before his two devotees Gopalarayar and Gopilar, all his 32 exploits from his birth to becoming the Charioteer of Arjuna.

Pattukkottai Taluks

Manora fort a famous picnic spot located in the village Sarabendarajapattinam is an example of architecture of Marathas. It wasbuilt in 1814 to commemorate the victory of the British over Nepolean Bonaparte in the war of Waterloo. The fort facing Bay of Bengal is an eight storeyed victory tower and has steps in a circular way which look enchanting and one can have a panoramic views of the green surroundings and the sea from this 30 meter high tower and it is protected monument under Archaeological Department of the Goverment of Tamil Nadu.

There is a famous shrine where Saint Sheik Alauddin Sahib is entombed, and is located at Adirampattinam, a small port town lying about 13 km south east of Pattukkottai.

Nidamangalam Taluk

There is a famous temple for the relief of 'guru dosham' in Alangudi about 4 km from Nidamangalam on the Kumbakonam Road. The main deity is Sri Abathsahayeswarar and it is believed that Lord Siva drunk the poison to save the Devas here.

Thiruvaiyaru Taluk

Thiruvaiyaru means five holy rivers and this town derives its name by virtue of the five rivers flow within 5 km of this town. The name of the rivers apart from Cauvery are Vadavar, Vennar, Vettar and Kudamuritti. The town is considered as holy as Varanasi and there is a belief that to die here is an eternal blessing leading to salvation. The Temple of Panchanthiswara in this town is considered as the first of the seven shrines called 'Sapthasthanams'.

The other six Sapthasthanam ' are Kandiyur, Thirupanthurthi, Thirupazhanam, Thiruvedhikudi, Thillaisthanam and Thiruchotruthurai.

The great carnatic music composer and saint Sri Thiyrgaraja lived and died here. A celebration of annual musical festival at his samadhi on the bank of river Cauvery is well known and is attended by thousands of musicians from all over the country by considering it as a honour and privilege of every musician to hymn Pancharathnakirthis of Saint Thiyagaraja in the streets of Thiruvaiyaru on the occasion.

Papanasam Taluks

There is a famous granary of Naik Dynasty which can store about 1500 bags of paddy and is a protected monument of Archaeological Department and is situated in Sri Palaivanthaswamy Temple in Thirupalathurai village, 15 km south west of Kumbakonam. It was built by stone and lime.

Thanjavur Taluk

Thanjavur town was the capital of Mutharayars and Cholas. Sri Brahadeeswarar temple is the most ambitious of the archaeo logical enterprise of the Cholas and is a fitting symbol of the magnificient achievements of Raja Raja-I. The temple has been constructed by large blocks of granite. The pyramidal structure of Vimana, 14 storeys raising to a height of 216 feet is visible from all sides in the small pillars pretty

balcony, windows and beautiful images carved thereon, it enchants the minds and eyes of all spectators. It was a collosal task, the plinth of central shrine is 45.72 sq.m. and the shrine proper is 30.48 sq.m. The most striking feature of this shrine is its imposing Vimanam which raises perpendicularly from a square base to a height of 60.96 m. The stone carrying the huge 'sikara' is said to weight 81.28 tonnes and was raised to its present height by being dragged on an inclined plane of 6.44 km length. The height of the Kalasa palced on this stupa is about 4 meters. The Kalasa is made of 3083 palam and 9249 tolas of copper and covered with gold plates. The Big Bull (Nandi) opposite to sanctum sanctorium, made up of a single stone is about 2 m high, 6 m in length and 2.5 m in width and weigts roughly 20 tonnes.

The presiding deity, the Sivalinga is 7 m high. The priests have to use a ladder for abhishegams. There is a separate sannadhi for consort Brihannayagi, Vinayagar, Murugar and for Karuvarai Siddhar. The structural decoration of the tower is very pleasing to look at. There are beautiful paintings in the first floor of the Vimanam. The highest achievements in plastic art in the Chola period is revealed in the fine series of the 108 dance poses carved all around the walls of the first floor of the temple and these form an invaluable document in the history of Indian art.

There is a beautiful palace built by the Sarabhoji Maharaja in this town. It is a vast building of architectural grandeour built partly by the Nayaks around 1550 A.D. and partly by the Marathas. This fort comprises of an area of 530 acres and is surrounded by 15 feet high wall and 15 feet deep. Due to expansion of the township in course of time, the moat was filled and the wall demolished in several palces. Only a portion of ramport to a length of 21 feet is still preserved on the eastren side with a cannon inscribed with 'Rajagopal'. Arsenal tower is a structure with 190 feet high and eight storeys and attracts large number of tourists. According to Fergusson, the mode of the structure with uncontrived ornamentation is a synthesis of Italian and Indian architectural styles. The Sadar mahal also known as Sarjah Madi is part of the palace of Maratha period. Although it is a seven storyed building, only six storeys remain at present.

Bell Tower is situated to a little north of Arsenal Tower. According to hearsay account Vijayaragunatha naicker is said to have offered worship towards Srirangam from the top terrace of the tower. The tower is fashioned in the style of Serginayakas. The Dharbar hall of Marathas is a place abounding in inquisite paintings to the east of Saraswathi Mahal library with an open courtyard. There is a verandah with wooden posts along the frontage of the pavilion. Portraits of several Marartha rulers including Shaji are painted here. In the centre of Dharbar Hall the portrait of Shivaji with his minister and Dalavai attending on him is found painted.The open yard in front might

perhaps have been put to use as a gymnasium of sports for practising martial arts like wrestling, fencing etc., as is popularly believed at that time.

Saraswathy Mahal Library is housed in the palace. It is a very famous library which has a rare collection of ancient books and manuscripts on a variety of subjects in Sanskrit, Tamil,Telugu, Marathi and other European languages. Among other things, library is famous for 10,000 priceless rare collections of palm leaf and paper manuscripts. In all there are more than 30,000 manuscripts in the library.

There is an art gallery which was inaugurated in 1951. It contains a good collection of granite and bronze images and stone sculptures which provide and insight into the rich cultural and historical heritage of Thanjavur especially of Chola period. In the palace, another worth seeing place is Sangeetha Mahal and acoustically perfect musical hall. It is a striking example of the engineering skill of its ancient builders.

Table - 2 provides C.D. Blockwise information about availability of diferent amenities in proportion to rural population. In Thanjavur district, rural population avail both drinking water and power supply facilities in cent per cent, 97.43% avail education, 88.12% avail pucca approach road, 83.14% avail communication facility 73.02% avail post and telegraph services and 38.91% avail medical facility while only 7.50% avail market,/hat facility, Rural population of Sembanarkoil C.D. Block posseses 3 amenities viz education, drinking water and river supply. amenities in cent per cent while Orttanadu, Thiruvonam and Vedaranniyam C.D. Block possess 3 amenities viz., drinking water, pucca approach road and power supply facilities in cent per cent. The rural population on the remaining 31 C.D. Blocks avail only 2 amenities viz., drinking water and power supply fully.

TABLE - 3

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Sl.No.	Villages not having the amenity of	Number of village where the amenities is not available and available at a distance of			
		Less than 5 kms	5-10 kms	10+ kms	Total Column (2-4)
1	2	3	4	5	6
1.	Educational	13	8	1	140
2.	Medical	1008	260	37	1305
3.	Drinking Water	—	—	—	—
4.	Post and Telegraph	659	50	6	715
5.	Market / Hat	809	519	376	1704
6.	Communication	376	43	8	427

Table - 3 gives information about distribution of villages not having certain amenities and arranged according to the distance ranges from the place where the amenities are available in Thanjavur district. It is seen from the table that the amenity market / hat is not available at the maxmium 1,704 villages out of 1,767 villages in the district and is available within 5 kms for 809 villages, between 5 and 10 for 519 villages and beyond 10 kms for 376 villages. Medical, post and telegraph and communication services are not available to 1305, 715 and 427 villages respectively. The facility of education is not available at the minimum 140 village in the district and is available within 5 kms for 131 villages, between 5 and 10 kms for 8 villages and beyond 10 kms for only one village.

TABLE - 4

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABLITY OF DIFFERENT AMENITIES

Sl.No.	Distance Range from the nearest town (in kms)	Number of inhabited Villages in each range	No.(with percentage) of Villages having the amenity of							
			Educational	Medical	Drinking Water	Post & Telegraph	Market/Hat	Communitions	Approach by pucca road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1.	0-5	307	271 (88.27)	57 (18.57)	307 (100.00)	179 (58.31)	15 (4.89)	228 (74.27)	257 (83.71)	307 (100.00)
2.	6-15	930	864 (92.90)	274 (29.46)	930 (100.00)	587 (63.12)	35 (3.76)	711 (76.45)	777 (83.55)	930 (100.00)
3.	16-50	530	492 (92.83)	131 (24.72)	530 (100.00)	286 (53.96)	13 (2.45)	401 (75.66)	409 (77.17)	530 (100.00)
4.	51+	—	—	—	—	—	—	—	—	—
5.	Unspecified	—	—	—	—	—	—	—	—	—

M .. Matriculation or Secondary School
PUC .. Higher Secondary/Intermediate/Pre-University/JuniorCollege
C .. College, Any college (Graduate level and above like Arts, Science, Commerce, etc.)
I .. Industrial School
Tr .. Training School
AC .. Adult Literacy Class/Centre
O .. Other educational institutions. These include Sanskrit Pathshala, Senior Basic School, Makhtab, etc.

Medical

H .. Hospital
MCW .. Maternity and Child Welfare Centre
MH .. Maternity Home
CWC .. Child Welfare Centre
HC .. Health Centre
PHC .. Primary Health Centre
PHS .. Primary Health Sub-Centre
O .. Others
D .. Dispensary
FPC .. Family Planning Centre
TB .. T.B. Clinic
NH .. Nursing Home
RP .. Registered Private Practitioner
SMP .. Subsidised Medical Practitioner
CHW .. Community Health Worker

Drinking water

T .. Tap Water
W .. Well Water
TK .. Tank Water
TW .. Tube Well Water
HP .. Hand Pump
R .. River Water
F .. Fountain
C .. Canal
L .. Lake
S .. Spring
N .. Nallah
O .. Others

Post and Telegraph

PO .. Post Office
TO .. Telegraph Office
PTO .. Post and Telegraph Office
Phone .. Telephone Connection

Communications

BS .. Bus Stand
RS .. Railway Station
NW .. Navigable waterways (including river, canal, back-waters, etc.)

Approach to village

PR .. Pucca Road
KR .. Kachcha Road
NR .. Navigable River
NC .. Navigable canal
NW .. Navigable Waterway (Other than river or canal)

Power Supply

ED .. Electricity for Domestic purpose
E Ag .. Electricity for Agriculture
EO .. Electricity for other purposes like industrial, commerical etc.
EA .. Electricity for all purposes listed above

Irrigated by source

GC .. Government canal
PC .. Private canal
W .. Well (without electricity)
WE .. Well (with electricity)
TW .. Tube well (without electricity)
TWE .. Tube well (with electricity)
TK .. Tank
R .. River
L .. Lake
WF .. Water Fall
O .. Others
T .. Total

SECTION - II
TOWNDIRECTORY

Note explaining the codes used in the town Directory

Class of towns by population

Population			Class
1,00,000 and above			I
50,000	-	99,999	II
20,000	-	49,999	III
10,000	-	19,999	IV
5,000	-	9,000	V
Below 5,000			VI

Civic administration status of the town

M.Corp	--	Municipal Corporation/ Corporation
M	--	Municipality
TP	--	Town Panchayat
VP	--	Village Panchayat
TC	--	Town Committee/Town Area
CB	--	Cantonment Board/ Cantonment

Type of Road

PR	--	Pacca Road
KR	--	Kacha Road

System of Sewerage

S	--	Sewer
OSD	--	Open Surface Drains
BSD	--	Box Surface Drains
SD	--	Silk Drains
CD	--	Cesspool method
PT	--	Pit System

Method of Disposal of night soil

HL	--	Head Loads
B	--	Baskets
WB	--	Wheel Barrows
ST	--	Septic tank latrines
S	--	Sewerage

System of storage of water

OHT	--	Overhead tank
SR	--	Service reservoir
IG	--	River infiltration gallery
BWP	--	Borewell pumping system
PT	--	Pressure tank

Source of drinking water

TW	--	Tube well water/Hand pump
T	--	Tap water
W	--	Well water
TK	--	Tank water

Medical facilities

H	--	Hospital
D	--	Dispensary
HC	--	Health Centre
FC	--	Family Planning Centre
TB	--	T.B. Clinic
NH	--	Nursing Home
O	--	Others
A	--	Ayurvedic
U	--	Unani
HOM	--	Homeopathy

Educational facilitios

A	--	Arts only
S	--	Science only
AC	--	Arts and Science only
C	--	Commerce Only
AC	--	Arts and Commerce only
ASC	--	Combined for all categories Arts Science and Commerce
L	--	Law

Recognised Shorthand, typewriting and other vocational Institutions

SH	--	Shorthand
Type	--	Typewriting
Sh.Type	--	Shorthand and Typewriting
O	--	Others

Public Libraries and Reading Rooms

PL	--	Public Libraries
RR	--	Reading Rooms
