KARNATAK UNIVERSITY, DHARWAR

(Motif on the Cover)

The illustration on the cover represents the main Building of the Karnatak University. The University Campus is situated in the Dharwar area of Hubli-Dharwar City on a site of 283 acres surrounding the peak of a picturesque little hill known as 'Chota Mahabaleshwar'.

The Karnatak University Bill was passed by the erstwhile Bombay Legislature in April 1949 and the University came into being as a corporate body on 1st March 1950. The University is both a teaching and an affiliating body. Originally its jurisdiction extended over the districts of Dharwar, Belgaum, Bijapur and North Kanara. Subsequent to the Re-organisation of the States in November 1956, the jurisdiction of the University was expanded to include the districts of Bellary, Gulbarga, Bidar and Raichur.

Besides the building seen on the cover page, there are a number of residential quarters, hostels and blocks of buildings which accommodate the several offices and departments of the University. This University is an important centre for higher education in the State.

PREFACE

It has been the tradition of the Census of India to present demographic data in as detailed a manner as possible so as to serve effectively the interests of the users of census data. It has also been a tradition to publish special volumes which incorporate both demographic and non-census data which are considered to be of great utility. In accordance with this practice, taluk and village tables used to be published which were, in the 1951 Census, replaced by the District Census Handbook series. These Handbooks replaced Part IV—Taluk Tables and Part V—Village Tables of the earlier censuses and presented a large number of tables of economic,demographic and social significance for taluks and urban areas. The 1961 District Census Handbooks were improved by extending the coverage and administrative statistics were also presented for each district for the preceding decade. The 1971 Census continues, as part of its Tabulation Plan, the District Census Handbook series.

The District Census Handbook is presented in three parts for each District. Part A incorporates the Town and Village Directories. Part B incorporates the Primary Census Abstracts and includes data, in the case of the rural areas, at the village level and in the case of urban areas at the block level. Part C incorporates other Census Tables and administrative statistics. For convenience, Parts A and B of the District Census Handbook are presented in one volume while Part C by itself is a separate volume.

Explanatory notes have been incorporated explaining the scope and content of the various statements, column headings, etc. In addition, in Part B, an introduction is included wherein the changes in the jurisdiction, if any, of the district or of the taluks and the changes in the number of villages between 1961 and 1971 are explained. It would be useful to read these notes before one goes to the tables.

In this volume, the district and taluk maps have been incorporated. These maps have been Prepared in this office on the basis of maps obtained from the competent authorities concerned. In the district map, to avoid crowding, the names of villages where community facilities exist have not been mentioned but their location code numbers have been indicated. Similarly, in the taluk maps, villages are indicated by their Location Code numbers. For the names of the villages, one would have to refer to the alphabetical list of villages of each of the taluks concerned. These alphabetical lists are incorporated in Parts A and B of this volume.

In the preparation of Part A of the District Census Handbook we have had the ready and full co-operation of all the Departments of the State Government. Our wholehearted thanks are tendered to them gratefully. Part B is essentially demographic in nature and has been the end product of the tabulation of the enumeration results.

In the preparation of this volume we have had the benefit of the guidance and advice of Sri A. Chandra Sekhar, I.A.S., Registrar General and Census Commissioner for India. We have also been considerably assisted by the willing co-operation of Sri K. D. Ballal, Deputy Registrar General, Dr. B. K. Roy Burman, Deputy Registrar General (Social Studies) and Sri K.K. Chakravorty, Assistant Registrar General. We are deeply indebted to them for all the assistance rendered.

The District Census Handbook (Parts A and B) presented in this volume is among the first few of the 1971 Census publications. Its early preparation has laid a heavy burden on all the officers and staff of this office. To each one of them I am deeply obliged. The Director of Printing and Stationery of the State Government has ensured printing in time and to him we offer our thanks. This is a State Government Publication and the interest evinced by the State Government has encouraged us, for which our thanks are tendered.

TOWN DIRECTORY

TOWN DIRECTORY

EXPLANATORY NOTES

The Town Directory consists of seven Statements the titles of which are as follows:—

Statement I	Status, Growth History and Functional Category of Towns.
Statement II	Physical Aspects and Location of Towns, 1969.
Statement III	Municipal Finance, 1968-69.
Statement IV	Civic and Other Amenities, 1969-70.
Statement V	Medical, Educational, Recreational and Cultural Facilities in Towns, 1969-70.
Statement VI	Trade, Commerce, Industry and Banking, 1969-70.
Statement VII	Population by Religion and Scheduled Castes and Scheduled Tribes, 1971.

Statements I and VII have been compiled in this office, and Statements II to VI by obtaining the data from the Local Bodies having administrative control over the towns. The scope of the data and the meaning of the abbreviations used in each Statement are explained herein.

The concept of urban agglomeration has been adopted for presenting certain basic results of the 1971 Census. Smaller towns that are contiguous to a city or a major town and come within its urban influence are grouped together to constitute such agglomerations. In Mysore, five such agglomerations (*viz.*, those named after *Bungalore*, *Mangalore*, *Belgaum*, *Bhadravathi* and *Kolar Gold Fields*) have been recognised. In the Town Directory statements also, information relating to the Agglomeration and its constituent units has been presented at one place in bold print so that the serial order in which the Towns in a District are arranged does not get interrupted. Thus the names of the units which constitute the Agglomeration appear twice in each statement even though the particulars are provided at one place only.

STATEMENT I: *Status, Growth History and Functional Category of Towns.*

COLUMN 3: LOCATION CODE NO.:—Location Code assigned to the town in the 1971 Census consists of two elements an arabic numeral and one roman numeral separated by an oblique. The arabic numeral indicates the order of the District within the State when arranged in alphabetical order. Similarly the roman numeral indicates the order of the town within the District when arranged alphabetically.

COLUMN 4: NAME OF TALUK:—Name of the taluk in which the particular town is situated is given here.

COLUMN 5: CIVIC ADMINISTRATION STATUS 1970: The following abbreviations are used to indicate the civic administration status:

(1) Municipal Corporation	..	C
(2) Municipality	..	M
(3) Town Committee/Town Area Committee/Council	..	TC
(4) Cantonment Board	..	CB
(5) Town Panchayat	..	TP
(6) Village Panchayat Committee	..	P
(7) Sanitary Board	..	SB
(8) Notified Area Committee/Council.		NAC
(9) Others such as Town Board, Industrial Township, Project Areas not administered by any Civic Authority.		Indicated in full

COLUMNS 5 TO 13: POPULATION OF THE TOWN AT THE CENSUSES OF 1901 TO 1971:—Population figures for the towns since 1901 indicate their growth from Census to Census. Such figures have not, however, been furnished for the previous Censuses in respect of towns treated as towns for the first time in 1971 Census since they were rural areas formerly. The 1971 Census population figures are furnished in Column 13.

COLUMNS 14 AND 15: FUNCTIONAL CATEGORY 1961 CENSUS AND 1971 CENSUS:—In 1961 Census the workers were classified into nine industrial categories according to their activity, as follows:—

I. Cultivator;
II. Agricultural labourer;
III. Mining, quarrying, live-stock, forestry, fishing, hunting, plantations, orchards and allied activities;
IV. Household industry;
V. Manufacture—other than household industry;
VI. Construction;
VII. Trade and commerce;
VIII. Transport, storage and communications; and
IX. Other services.

The 1971 Census classification of workers remains basically the same but for the following deviations:—

(i) Category III of the 1961 classification has been split into two by recognising 'mining and quarrying' as an independent category and it now bears Category Number IV.

(ii) As a consequence of (i) above, the IV category of 1961 has been grouped with category V and particulars of workers engaged in 'manufacturing, processing, servicing and repairs activities' have been presented under two sub-headings, *viz.*,

V (*a*) Household Industry, and
(*b*) Other than Household Industry.

In order to determine the functional category of towns, these nine industrial categories are combined and re-grouped to yield five broad classifications by economic activity as under:—

Economic activity	*Industrial category number as per*	
	1961 Census	*1971 Census*
(1) Primary activities.	I, II & III	I, II, III & IV
(2) Industry ..	IV, V & VI	V(*a*), V(*b*) & VI
(3) Trade and Commerce ..	VII	VII
(4) Transport ..	VIII	VIII
(5) Services ..	IX	IX

Then, for each town the percentage of workers under each of these five classes of economic activities to the total number of workers is calculated. If the percentage under any of these five activities equals or exceeds 40, such a town is regarded as *monofunctional* and that activity is specified in column (14 or 15). If the percentages are less than 40 in each and if the figures against any two add up to 60 or more, then such a town is regarded as *bifunctional* and the two predominant activities are specified under column 14 (or 15). In case, the percentages of any two of the activities do not add up to 60 per cent such a town is regarded as *multifunctional* and in such a case, three of the predominant activities are specified under column 14 (or 15).

STATEMENT II: *Physical Aspects and Location of Towns, 1969.*

COLUMN 3: ALTITUDE:—Altitude is given in metres above Mean Sea Level. The asterisk mark indicates that the data have been furnished by the Director-General of Observatories. In all other cases, information as furnished by the Director, Southern Circle, Survey of India, has been adopted.

COLUMN 4: ANNUAL RAINFALL (in millimetres):—An asterisk mark placed at the top of the data, indicate that the data have been furnished by the Director-General of Observatories and also that it is 30 years (1931-60) standard normal. In other cases, the figure represents the average rainfall over the period 1960-69 (yearwise data obtained from the Bureau of Economics and Statistics, Mysore).

COLUMNS 5 AND 6: MAXIMUM AND MINIMUM TEMPERATURE (in Degree Centigrade)—The asterisk mark indicates that the data have been furnished by the Director-General of Observatories and also that it is 30 years standard normal (1931-1960).

Since specific information is not available for most of the towns, corresponding data available for the nearest town situated at approximately the same altitude, have been adopted. Such entries are distinguished by the notation 'N' (nearest).

NOTE:—In columns 3 to 6 when data in respect of the particular town are not available, corresponding data for the nearest town are given, and in such cases the symbol 'N' (nearest) has been used.

COLUMNS 7 TO 14: NAME OF, AND ROAD DISTANCE TO, IMPORTANT CENTRES:—Column headings are self explanatory. Distances are given in kilometres. If the referent town itself happens to be the headquarters of district, or sub-division, taluk, etc., then the distance is noted as O in the relevant column. In column 12 when one or more bus routes pass through the town, the name of the town is repeated and distance is indicated as O. In column 13, the abbreviations R and C stand for River and Canal respectively.

STATEMENT III: *Municipal Finance, 1968-69.*

Actual receipt and expenditure of the civic administrative body are furnished.

In the case of industrial townships and the like where civic amenities are the responsibility of the factory authorities themselves, the relevant particulars have been obtained from these authorities. Generally, as no taxes are levied by the factory authorities, receipts are mainly by way of house rent (if provided by the authority) and, water and electricity charges recovered from the occupants of the residential quarters. Under expenditure, the amount spent on social overheads are shown.

City Improvement Trust Boards have been functioning only in the cities of Bangalore and Mysore. In Mandya during 1968-69, the Sugar Factory was responsible for providing amenities to the residents in Mandya Sugar Town, now included within the municipal limits of Mandya. In these cases the receipt and expenditure are furnished separately for the two agencies.

STATEMENT IV: *Civic and Other Amenities, 1969-70.*

COLUMN 3: ROAD LENGTH:—Total length of all types of roads (*i.e.*, Cement, asphalt, metalled, mud, etc.) including the length of National and State Highways lying within the town limits is given in kilometres. Wherever information is available separately for *pucca* roads and *katcha* roads this has been noted in this column.

COLUMN 4: SYSTEM OF SEWERAGE/DRAINAGE:—The codes used for this column are:

(i) Sewers (either combined or separate)	..	S
(ii) Open Surface Drains	..	OSD
(iii) Box Drains	..	BSD
(iv) Sylk pattern Drains	..	SD

Even when only a portion of the town is served by any particular type of sewerage or drainage, the relevant code or codes have been entered under this column.

COLUMN 5: WATER-BORNE LATRINES:—Total number of flush-out latrines in the town (both private and public) has been indicated in this column. It is only in a few towns that such latrines are connected to sewers.

COLUMN 6: SERVICE LATRINES:—Total number of service (also called daily cleaned or DC for short) latrines, both private and public, in the town is entered under this column.

COLUMN 7: OTHER TYPES OF LATRINES:—Total number of other types of latrines, if any, in the town is furnished here.

COLUMN 8: METHOD OF DISPOSAL OF NIGHT-SOIL :—The manner in which the night-soil is collected and transported to the trenching grounds is indicated under this column using the following abbreviations:—

(1) Headloads	..	HL
(2) Baskets	..	B
(3) Wheel Barrows	..	WB
(4) Hand Carts	..	HC
(5) Others such as bullock carts, trucks, nightsoil tankers, tempos, etc.	..	Specified without using abbreviations.

For flush-out latrines which are connected to sewers "S" is the abbreviation used. If such latrines are connected to septic tanks 'ST' is used.

COLUMNS 9 AND 10: PROTECTED WATER SUPPLY: SOURCE AND CAPACITY:—In column 9 source of protected water supply is indicated using the following codes:

(1) River	..	R
(2) Tank/Lake	..	TK
(3) Tube Well	..	TW
(4) Bore Well	..	BW
(5) Canal	..	C

VILLAGE DIRECTORY

VILLAGE DIRECTORY

EXPLANATORY NOTES

The Village Directory consists of eighteen columns and provides villagewise information about the amenities and land use pattern in the villages. In the case of *Becharak* (un-inhabited) villages, information is furnished only regarding land use (Cols. 3 and 11 to 15). Data presented in columns 1 to 18 have been obtained mainly from the Tahsildars and Deputy Commissioners. Towards the end of 1969, blank forms (with Kannada version of column headings) and copies of instructions printed in Kannada (explaining the manner in which each column should be filled) were mailed to the Tahsildars who in turn, distributed these forms to their Revenue Inspectors and collected the information.

The completed forms received back in this Directorate were scrutinised and omissions and mistakes observed were rectified, either by field visits to districts or through correspondence or both. The scope of each column heading and abbreviations used are given below :—

COLUMN 1 : LOCATION CODE :—With a view to ensuring that every village, inhabited or un-inhabited in the Taluk is taken into account for purposes of Census Operations, location code numbers are assigned to each of the villages in a particular order. This number is noted under this column.

COLUMN 2 : NAME OF THE VILLAGE :—In this column, the name of the *asli* (Main) village is given. An *asli* village may have some hamlets associated with it. The information in columns 3 to 18, therefore, is for the *asli* village and for the hamlets, if any, together. However, the names of hamlets with a population of 500 and over are mentioned below the name of the *asli* village with details, in columns 4 to 9, of amenities located in these hamlets.

In some cases, large parts of the original village are now included in municipal areas, leaving a small portion out of municipal jurisdiction. The latter is considered 'Rural' and classified as a village. To render the position clear the word Rural is mentioned in brackets against such places.

COLUMN 3 : TOTAL AREA OF THE VILLAGE :—The total geographical area of the village has been furnished in acres.

COLUMNS 4 TO 9 : Amenities available within the Village.

COLUMN 4 : EDUCATIONAL :—Codes used to indicate the availability of educational facilities within the village are :—

(i) For schools providing education from Standard I to IV. These are generally called Lower Primary Schools ..	Pr.S.
(ii) For schools providing education either from Standard I to VII or from Standard V to VII ..	Mid.S.
(iii) For schools providing education either from Standard I to X or V to X or VIII to X. (This includes Higher Secondary Schools, *i.e.*, XI Standard also) ..	Sec.S.
(iv) All colleges including vocational colleges ..	C.

NOTE : Where more than one such institution exists, the number is noted within brackets.

COLUMN 5: MEDICAL : Medical facilities available within the village have been indicated by the following codes :

(i) Hospital equipped with beds for in-patients ..	H
(ii) Dispensary ..	D
(iii) Health Centre including Government of India Pattern Primary Health Centre ..	HC
(iv) Health Unit of Old Mysore Type ..	HU
(v) Family Planning Centre ..	FC
(vi) Subsidised Medical Practitioner ..	SMP
(vii) Maternity and Child Welfare Centre	MCW

COLUMN 6 : POWER SUPPLY :—'E' is noted in this column if electricity is supplied to the village either for industrial (or agricultural) purposes or lighting or both.

COLUMN 7 : DRINKING WATER :—The codes used to indicate the sources of drinking water in the village are :

(i) Taps	..	T
(ii) Wells	..	W
(iii) Tanks	..	TK
(iv) Tube Wells	..	TW
(v) Rivers	..	R
(vi) Canals	..	C
(vii) Fountains	..	F
(viii) Hand Pumps	..	HP
(ix) Other sources such as ponds, streams, etc.	..	O

COLUMN 8 : COMMUNICATIONS :—The following codes are used :

(i) *Pucca* Road, *i.e.*, the road surface may be cement, asphalt, metal or water bound macadum	..	PR
(ii) *Katcha* Road, *i.e.*, roads with natural soil, including cart-tracks	..	KR
(iii) Railway Station	..	T
(iv) Navigable River	..	R
(v) Navigable Canal	..	C

In case a village is served by *Pucca* Roads as also by *Katcha* Roads, the latter have not been taken into consideration for purposes of this column.

A village is assumed to be served by any of these communication facilities if such facilities are available within one mile of the village.

COLUMN 9 : POSTAL AND TELEGRAPH :—Postal and Telegraph facilities available within the limits of the village have been indicated by the following codes :—

(i) Post Office. This may be a branch or sub-office or may even be the office of the extra departmental delivery agency	..	PO
(ii) Telegraph Office	..	TO
(iii) Post and Telegraph facilities	..	PTO
(iv) Telephone connection (apart from public call office, if any, the connections given to private parties have also been considered).		Phone

COLUMN 10 : STAPLE FOOD :—Staple food (*i.e.*, staple cereals) of the major portion of the population of the village has been indicated here.

COLUMNS 11 To 15 : Land Use :—This information is based on annual village records for 1968-69 *generally.*

COLUMN 11 : FOREST :—All lands actually classified as forest or administered as forests under any legal enactment dealing with forests, whether State-owned or Private, have been shown under this column. Wherever forest lands have been assigned for cultivation, the corresponding areas have been excluded from forest area and included under cultivated land.

COLUMN 12 : IRRIGATED :—The net area irrigated from both private and public sources of water supply is indicated using the following abbreviations :

(i) Canal	..	C
(ii) Well (with or without electricity)	..	W
(iii) Tube well (with or without electricity)		TW
(iv) Tank	..	TK
(v) River	..	R
(vi) Water fall	..	WF
(vii) Others	..	O

Under this column, all lands classified as wet and garden lands by the Survey and Settlement Department are included. In South Kanara District, however, the extent of wet lands (which are classified into class I, class II and class III) only are shown under column 12 and the garden lands are shown under column 13 along with " other dry ". All the three classes of wet lands in South Kanara District yield one crop of paddy; class II land yields an additional crop and class I yields two additional crops both of which are generally paddy. For all the three classes of wet land, rain is generally the source of water supply.

In Coorg District the rainfed wet lands have been included under column 13 along with the area under plantation crops, such as, coffee, cardamom, orange, etc. So also in the Districts of Shimoga, Chikmagalur and North Kanara rainfed wet lands yielding paddy are shown under column 13.

COLUMN 13 : UN-IRRIGATED :—The extent of un-irrigated but cultivated lands including current fallows, if any, has been furnished under this column.

This column also includes data on the special categories referred to in the note on column 12 above.

COLUMN 14 : CULTIVABLE WASTE :—The area noted under this column includes lands fit for cultivation but not cultivated for more than five years in

succession. Such lands which are not put to any use, may be either fallow or covered with shrubs and jungle. They may be assessed or unassessed and may lie in lisolated blocks or within cultivated holdings. Lands under thatching grasses, bamboo bushes and other groves for fuel, etc., which are not already included under orchards or forests, have also been included here. All grazing lands whether they are permanent pastures or not, are also included under this column.

A little clarification would be necessary regarding lands considered 'cultivable waste'. In certain Districts of the State *Gomala* or *Gairana* (pastures) are set apart in each village for purposes of grazing the village cattle and generally these are considered as 'not available for cultivation'. However, when applications for assignment of lands are received, the revenue authorities work out whether any lands out of the existing pastures can be considered as in excess of requirement in relation to the number of livestock and whether such lands can be granted for cultivation. Thus the availability or otherwise of any portion of village pastures varies from year to year.

Further, the area noted under this column may not always be available for cultivation as quite often such areas are found to be either already under occupation, authorised or un-authorised, and even authorised lands might not have been entered as being 'cultivated' in the village records in a few cases. Some portions of pastures may also be actually un-cultivable being hillocks and barren fields. The area furnished under this column is, therefore, only approximate.

COLUMN 15: AREA NOT AVAILABLE FOR CULTIVATION :—The area noted under this column includes the land not available for cultivation such as barren and un-cultivable lands and also lands put to non-agricultural uses. Land put to non-agricultural use includes all lands occupied by buildings, roads and railways, area under water, *e.g.*, rivers, canals, and tanks and land put to uses other than agricultural.

Barren and un-cultivable land covers hills, mountains, etc., and lands which cannot be brought under cultivation unless at a high cost.

COLUMN 16: NEAREST TOWN AND DISTANCE :— Name of the nearest census town, irrespective of whether it is located in the same district or not has been noted.

COLUMN 17: MARKETS HELD IN THE VILLAGE:—The days on which weekly markets are held are indicated here.

COLUMN 18 : REMARKS:—Particulars of religious, historical or archaeological importance besides interesting information if any, regarding a village as available from published material has been briefly given in Appendix No. IV. The reference to this Appendix has been indicated by numbers in such cases in this column.

General : (i) For each Taluk, Appendix I furnishes the villages arranged in an alphabetical order to facilitate cross reference.

(ii) Appendix II gives talukwise abstract of educational, medical and other amenities in respect of only the rural areas.

(iii) In a few cases, villages have been classified as Census Towns because they happen to satisfy the livelihood test or other characteristics which were applied for determination of urban areas. In such cases, for information the land use statistics are furnished in a separate Appendix for the District as a whole. (Appendix III)

APPENDIX IV

BRIEF NOTE ON PLACES OF RBLIGIOUS, HISTORICAL OR ARCHAEOLOGICAL IMPORTANCE

BYADGI TALUK:

1. MOTEBENNUR: In the mediaeval period, this village appears to have been of some importance to the Jain community as Jain teachers of renown resided here. Its old name was Bennevuru, subsequently changed to Motana-Binnuru. In 1790 A.D. Captain Moor, the author of the *Hindu Pantheon*, described the place as a market town of some importance enclosed by a ditch and wall.

Close to the village is an unique megalithic structure, apparently the remains of an enormous dolmen consisting of large rough unhewn stones resting horizontally on upright stones. There are eight inscriptions here, the earliest being of 1051 A.D.

The fort was built in 1635 A.D. by Muhammad Khan *bin* Raja Farid, an officer of the seventh Adilashahi king Mahmmud (1626-1656) A.D. The Madag lake is believed to date from the time of Vijayanagar kings (1336-1570 A.D.).

The upper sluice of this great work, has a tradition attached to it. It is said that the Vijayanagara king and his court met to see the great single stone pillars raised to their places. The workmen's efforts were in vain for days and later it was known that the spirit of the place was angry and that unless a maiden was offered to this spirit, she would not allow the pillar to be raised. The Chief Vaddar's (Stone mason) daughter Laxmi by name offered herself and she was buried alive under the site of the pillar. The spirit was pleased and the pillar was raised and set in its place without mishap. In honour of Laxmi, the sluice became a place of pilgrimage.

According to a second legend, the *patel* of Masur had a beautiful daughter Kenchavva by name, whom the Vijayanagar king wished to marry. As the *patel* was of a higher caste than the king, the girl refused the king's offer and fled. Later the parents wanted to marry Kenchavva to the *patel* of Isur in Shikaripur taluk, Shimoga district and set out to celebrate the marriage. On passing a temple now covered by the waters of the Madaga lake, Kenchavva entered it and devoted herself to the god. She refused to leave her god, when the lake was made and when floods came the temple was submerged in the lake and the girl drowned. When severe floods occurred, Kenchavva's spirit took possession of the watchman of the dam asked him to go and tell the *patel* of the village to offer her a pregnant woman in sacrifice and warned that in case of failure to appease her, she would burst the dam. The *patel* did not pay heed to this message, but punished the watchman for leaving his post. Enraged at this, Kenchavva broke through the hill and the embankment.

It is said poor people used to go to the lake and beg Kenchavva to lend them nose rings and earrings to us at their weddings and found what they wanted at the waterside. One man forgot to return the ornaments so received and Kenchavva no longer lends them now.

In 1870 A.D. a fisherman's tackle got entangled in the roof of the under-water temple. When he dived down to free his tackle, he entered the temple and saw the golden image of Kenchavva. Kenchavva told the fisherman not to tell anyone she was alive, with a warning that in case he revealed her secret, he would burst a blood vessel and die. The fisherman kept the secret for two years and when he told it, he died bursting a blood vessel.

Whenever drought occurs, the priests of temples in Shikaripur come to this lake with a *thali* (round piece of gold) and a nose-ring. They lay food on a small raft and push it into the lake, praying Kenchavva to send rains. Masur was the headquarters of a *pargana* under Bankapur *Sirkar*.

He once went to see the Bijapur Saint riding on his tiger. When he approached the Bijapur Saint's place, Khwaja's grandson a miraculous boy of seven years, unwilling to be outdone by Kadri, jumped on an old wall and rode on it to meet the tiger king. Kadri felt humiliated by a power which could make a wall move and returned to Gulbarga without seeing the Bijapur saint, where he died of grief. Khwaja cursed his grandson for causing the death of his saintly visitor and the boy too died. The fame of Kadri spread since then and various tombs have been raised in his honour.

Betroji, a Maratha headman of Koregaon village in Satara district, was a great devotee of saint Kadri. He saw the Saint in his dreams, who asked Betroji if he had any wish. Betroji prayed the Saint to live near him and to take care of him and his family. The earliest of the inscriptions here is of the time of the Chalukya Vikramaditya VI. Some of them refer to the reigns of the Yadava kings, Kinnara, Ramachandra and Mahadeva.

5. UDAGATTI: This place has the well known Kudli Sringeri *matha*.

6. AIRANI: There is an old fort on the left bank of Tungabhadra near this village. A ruined palace exists in the fort. This village is an important centre of production of coarse woollen goods woven on handlooms.

RON TALUK:

1. SAWADI: There are temples of Brahmadeva and Narayanadeva. The earliest of the inscriptions here is dated 970 A.D. and belongs to the reign of Rashtrakuta Kottiga. Another is of Vikramaditya VI, dated 1082 A.D. and mentions the administration of his son Somesvara II over this region.

2. HIREHAL: Ramalingeshwara temple here is a place of religious importance.

3. SUDI: This was an important town in the early centuries and is referred to as *Rajadhani* in the records of 11th century A.D. According to an epigraph of 1010 A.D., the Chalukya princess Akkadevi was governing this territory from her headquarters at Vikramapura (Arasibidi in Hungund Taluk). The goldsmiths of the town were licensed to mint coins and foremost among them was the royal mint master Uttavoja, who struck coins for Vikramaditya VI (1076-1126 A.D.).

4. MARANA BASARI: Annadanaswamy *matha* exists here where an annual fair is held in the month of December.

SAVANUR TALUK:

1. MANTRODI: It has a *matha* known as Siddeswara *matha*.

2. KARADGI: Veerabhadra temple here is visited by a large number of people.

SHIGGAON TALUK:

1. GANGJIGATTI: There is a great ceiling slab nearly eight feet square, which is carved with images of the *Astadikpalakas*. The carving of this slab has been done with the greatest care and the figures stand out in high relief.

2. HIREBENDIGERI: The place was previously known as Pindangere. It has a temple of Kalappa and two monasteries called the Hire and Koradya *mathas*. Most of the inscriptions found here are of the time of Chalukya Vikramaditya VI (1076-1126 A.D.), Jagadekamalla II (1163-1183 A.D.) and Kalachuri Bijjala II (1156-1167 A.D.).

3. HULGUR: It is a place of pilgrimage for the Muslims, since a tomb of the Saint Hazarat Shah Kederi is located here. Hazarat Shah is said to have lived in Savanur about 1800 A.D., under the Nawab Abdul Khairkhan. The Nawab appears to have violated the daughter of one of the Saint's disciples during the absence of the Saint, for which the Saint cursed the Nawab and retired to Hulgur, about 8 miles north-west of Savanur. He died at Hulgur and there are four tombs, in a valley about half a mile west of the village, of the Saint and his relations. A fair is held here in February-March.

Hulgur has a temple of Siddhalinga. Of the 15 inscriptions found here which fall in the reigns of the Rashtrakuta, the later Chalukya, the Kalachuri and the Yadava rulers, the earliest is dated about 970 A.D. in the reign of Nityavarsa Khottiga. The old name of the village was Pullungur.

4. ANKADKHAN AND SHAHBAZAAR (BANKAPURA): This was the headquarters of Bankapura Taluk till 1951, when the taluk was named Shiggaon and the headquarters was also shifted. Bankapura has a ruined fort and two ancient temples of Rangaswami Nagaresvara (also called the temple of sixty columns) and Siddhesvara.

The great city of Bankapura was named after Bankeyarasa, a feudatory of Rashtrakuta Amoghavarsa I, and who was governing the province of Banavasi. It continued to be the headquarters of subsequent kings and governors, on account of its strategic importance. There are 16 inscriptions in the village, six of which are of the time of the Chalukya Someshvara I, Vikramaditya VI and Somesvara III. The Kadamba feudatory, Harikesari, was ruling Bankapura from 1052 A.D. It was under the Kadambas of Hanagal for sometime. In 1140 A.D. Hoysala Vishnuvardhana captured Bankapura and made it the capital of his northern dominions. One of the epigraphs here speaks of Harihara II of Vijayanagara. It was a famous resort of Jain teachers from early times. Preceptors of the Pasupati School of Saivism also flourished here, having the temple of Nagaresvara as the centre of their activities.

Bahamani king Feroz Shah (1397-1422 A.D.) sent troops to besiege Bankapura in 1406 A.D., which was then on important fortress in the Karnataka. The fort fell and its dependencies were ceded to the Bahamanis. Deva Raya, the fourth Vijayanagara king set an expedition to win over Bankapura in 1443 A.D., but it was opposed by Ala-ud-din I and the Vijayanagar troops were forced to raise the siege. In 1573, Ali Adil Shah, the fifth Bijapura king, sieged Dharwar and marched to Bankapura. After a siege lasting for over one year and 3 months, he took Bankapura. It was at this period that the superb temple inside the fort was destroyed and a portion of it converted into a mosque. In 1673 A.D., Abdul Karim Khan, the ancestor of the Nawabs of Savanur, was appointed Governor of the province of Bankapura on behalf of Bijapur. In 1755 A.D. the Nawab of Savanur pledged Bankapura to Holkar to buy off the withdrawal of Maratha troops from Savanur. In 1776 A.D., Haidar took over Bankapur and Savanur. In 1780 A.D., Bankapur was under Tipusultan. In 1790 A.D., Bankapur was the headquarters of a *Sirkar* of sixteen *Parganas*. Before it was dismantled by Tipu's army. Bankapur fort was the chief fortification in the province of Savanur. In 1802 A.D., Savanur and Bankapur were ceded to the British by the Peshwa in accordance with the terms of the treaty of Bassein. They were restored to the Peshwa in 1803 A.D., in exchange for territory of Bundelkhand.

5. NEERALGI: The temple of Siddharamesvara located here was originally a Vaishnava shrine, as revealed from the architecture. The inscription of Vikramaditya VI (1076-1126 A.D.) in the temple shows that his feudatory Tailapa of the Hangal Kadamba family was administering this area.

SHIRAHATTI TALUK:

1. VARVI: This place is known for its Mounesvara temple.

2. BELLATTI: It has an ancient temple of Ramalinga. In the adjoining village dolemns of pre-historic age were found.

3. DEVIHAL: There is a temple on a hill dedicated to a goddess with eight hands called Holalamma, being in the form Mahisasuramardini (a form of Durga). The image about 6 feet high is handsomely carved. Earthen pots with ashes and bones comprising the relics of prehistoric funerary practices were also found on this hill.

There is a fort in a deserted place called *Shrimantgad* nine miles south of Shirahatti. It has a temple of goddess Vhallamma. The fort has seven ponds with potable water.

4. ADARAKATTI: Basaveswara temple exists in this place.

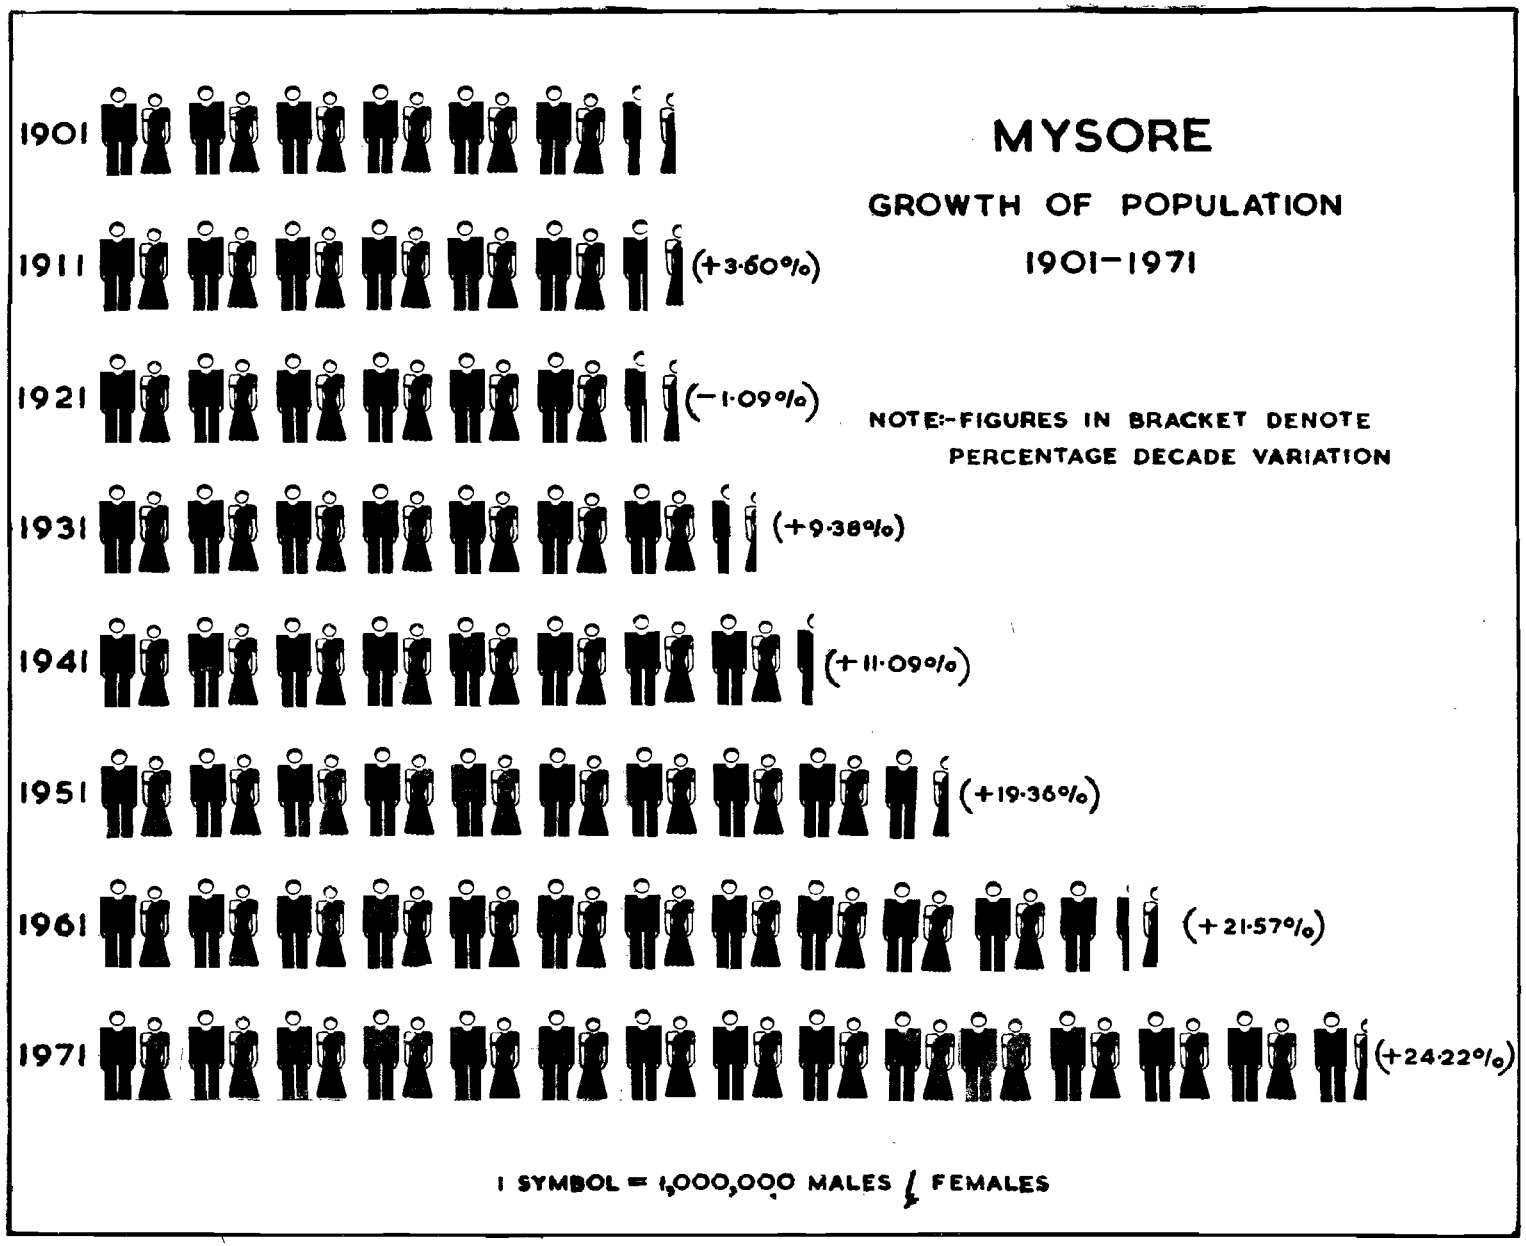

5. DODDUR: A well-built Maruthi temple is the centre of attraction in this place.

6. SHIGLI: It has a Gurubasavanna *matha*.

7. GULGANJIKOPPA: The place is known for its Dandi Basaveswara temple.

8. YALAVATTI: There is an old fort built by the first Khangavada Desai of Shirahatti. In 1846 A.D. the fort with Hallapur village was granted in *inam* by the East India Company to Chintamanrao of Sangli for services rendered in suppressing the rebellion at Kolhapur in 1844 A.D.

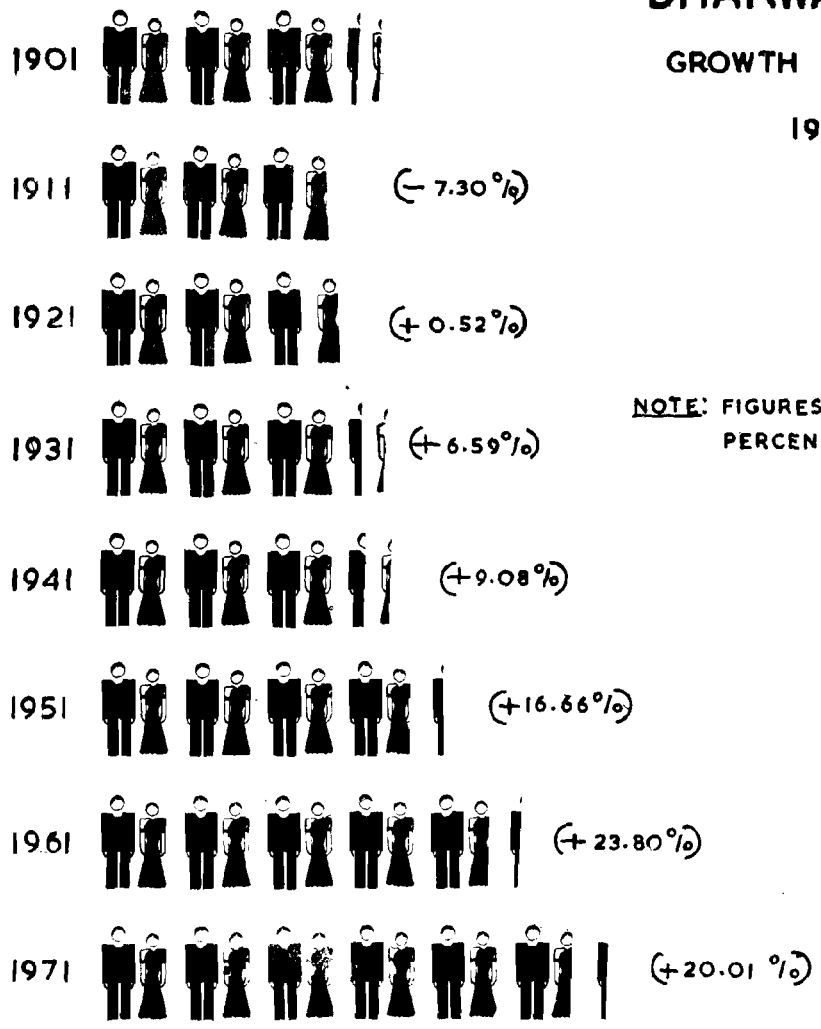

There is a temple of Gundesvara which is often visited by people from long distances. In the inscriptions, Yelavatti is described as a *mahagrama* and an *agrahara* administered by 120 *Mahajanas*. It is said to have been founded by Sri Rama.

INTRODUCTION

DHARWAR DISTRICT

Dharwar District is situated between 14° 17′ and 15° 50′ North Latitude and between 74° 48′ and 76° 0′ East Longitude. Its area is 13,749 sq. kms. The population of the district at the 1971 Census is 2,342,213 persons, of whom 1,203,594 are males and 1,138,619 are females. The density of population of the district is 170 persons per sq. km. The district is bounded on the North by the districts of Belgaum and Bijapur, on the East by Bellary and Raichur districts, on the West by North Kanara district and on the South by Chitradurga and Shimoga districts.

In 1961, the district consisted of 16 taluks with 1,408 villages and 17 towns. In 1971 there were 17 taluks with 1,359 villages and 18 towns. The increase in the number of taluks is due to the creation of Savanur taluk in 1969 by the Order of the State Government No. RD 19 LRD 66, dated 26th May 1969. The taluk was formed by the transfer of 26 villages from Haveri taluk and 37 villages from Shiggaon taluk. The district also received the two villages of Tallihal and Honniganur of Kushtagi taluk of Raichur district which were transferred to Ron taluk of Dharwar district under the Order of the State Government No. RD 17 LRD 63, dated 9th November 1967.

The 17 taluks in the district are Byadgi, Dharwar, Gadag, Hangal, Haveri, Hirekerur, Hubli, Kalghatgi, Kundagol, Mundargi, Nargund, Navalgund, Ranibennur, Ron, Savanur, Shiggaon and Shirahatti.

The 18 towns in the district are Alnavar, Annigeri, Byadgi, Gadag-Betgeri, Gajendragad, Hangal, Haveri, Kundagol, Lakshmeshwar, Naregal, Nargund, Navalgund, Ranibennur, Ron, Savanur, Shiggaon, Shirahatti and the City of Hubli-Dharwar.

There is an increase of one town between 1961 and 1971 Censuses. At the 1971 Census, Alnavar and Shiggaon were classified as towns. In 1962, Hubli and Dharwar which were separate towns in 1961 were merged to form the Municipal Corporation of Hubli-Dharwar by the State Government Order No. PLM 25 CAD 61, dated 16th January 1962. In effect, these changes result in the addition of one town. Incidentally, the limits of Hubli-Dharwar Corporation were expanded by the inclusion of some rural areas under the State Government's Order No. PLM 94 MNY 64 of 4th September 1964.

The district consisted of 1,408 villages in 1961 and 1,359 in 1971. There has been a fall in the number of villages by 49. Apart from this decrease, there have been some inter-taluk changes due to the formation of Savanur taluk and the inclusion of a few villages within Hubli-Dharwar Corporation area. These changes are explained below :—

1. Byadgi Taluk:

64 villages in 1961 and 63 in 1971.

The village Gangarkop (L. C. No. 42 of 1961) which was treated as a separate village in 1961 is now shown as a hamlet of Tadas village (L. C. No. 41) and has, therefore, been deleted from the list of villages in 1971.

2. Dharwar Taluk:

122 villages in 1961 and 110 in 1971.

(*a*) 12 villages which have since been included in Hubli-Dharwar Corporation are deleted from the list of villages in 1971. These are :—

(*c*) The non-municipal portion of Dharwar has been treated as a separate village and added to the list of villages (L. C. No. 1).

The net result is a decrease of 12 villages.

3. Gadag Taluk:

55 in 1961 and 57 in 1971.

The areas lying outside the municipal limits of Gadag and Betgeri which were not treated as separate villages in 1961 are treated as separate villages in 1971 called Gadag (Rural) and Betgeri (Rural) with L. C. No. 1 and 29. This has resulted in the addition of two villages in 1971.

4. Hangal Taluk:

173 in 1961 and 143 in 1971.

(*a*) 29 villages of 1961 which were uninhabited have been deleted from the 1971 list of villages on their merger with the neighbouring villages. These are as given below.

The merger was made under State Government's Orders No. RD 18 BND 58, dated 23rd January 1959 and RD 14/LRD 68, dated 1st May 1969.

(*b*) Halekoti (Hangal town) which was included under the list of villages in 1961 (L. C. No. 1 of 1961) has now been deleted from the list of villages since it has completely been included within the limits of Hangal Town. There is a reduction of 30 villages between 1961 and 1971 due to the reasons indicated above.

5. Haveri Taluk:

123 in 1961 and 88 in 1971.

(*a*) 26 villages were transferred from this taluk to the newly created taluk of Savanur. These villages are :—

(*c*) Haveri (Rural) and Siddadevapur which were not listed as separate villages in 1961 as they were partly included in Haveri town have been listed as separate villages in 1971.

These changes result in a reduction of 9 villages in the district total, though within this taluk, there is a decrease of 35 villages.

6. Hirekerur Taluk:

126 in 1961 and 126 in 1971.
There is no change.

7. Hubli Taluk:

56 in 1961 and 57 in 1971.
The villages of Nagashettikop (L. C. No. 11), Bommapur (L. C. No. 13) and Keshawapur (L. C. No. 12) which were not listed as separate villages in 1961 have now been included to the list of villages since they are partially included in Hubli-Dharwar town.

The two villages of Gumangatti and Sutagatti listed in 1961 are deleted from the list of villages in 1971 as they have now been completely merged with the Hubli-Dharwar Corporation.

There is thus a net increase of one village between 1961 and 1971.

For information, it may be mentioned that the following villages are only partly included in the Hubli-Dharwar Corporation area:

1.	Gabbur	..	(J. C. No. 1)

13.	Bommapur	..	(,, 13)

8. Kalghatgi Taluk:

85 in 1961 and 85 in 1971.
There is no change.

9. Kundgol Taluk:

58 in 1961 and 56 in 1971.

(*a*) Kadapatti (L. C. No. 1 of 1961) and Allapur (L. C. No. 2 of 1961) listed as separate villages in 1961 are now included as hamlets of the Asli village Pur (L. C. No. 1) which was not listed in 1961 as a separate village. This results in a reduction of one village.

(*b*) Hosalli (L. C. No. 36 of 1961) is now shown as a hamlet of Saunshi village (L. C. No. 31). This results in a reduction of one village.

There is thus a net decrease of two villages between 1961 and 1971.

10. Mundargi Taluk:

52 in 1961 and 52 in 1971.
There is no change.

11. Nargund Taluk:

30 in 1961 and 35 in 1971.

The five villages of Arban (L. C. No. 5), Dandapur (L. C. No. 6), Peth (L. C. No. 7), Somapur (L. C. No. 31) and Nargund (Rural) (L. C. No. 8) which were not listed as separate villages in 1961 are listed as separate villages in 1971.

12. Navalgund Taluk:

57 in 1961 and 58 in 1971.
The addition of one village is due to the inclusion of the non-municipal area of Navalgund as Navalgund (Rural) as a separate village in 1971 (L. C. No. 19).

13. Ranibennur Taluk:

106 in 1961 and 103 in 1971.
The three uninhabited villages of 1961 Gangajalthanda, Basalikattithanda and Siddapurthanda have been deleted from the list of villages on their inclusion under Ranibennur (Rural). The 1961 L. C. Nos. of these were 18, 17 and 19.

14. Ron Taluk:

91 in 1961 and 93 in 1971.
The addition of two villages is due to transfer of villages Honniganur and Tallihal from Kushtagi taluk of Raichur District to this taluk in 1967. The L. C. Nos. are 13 and 12.

15. Savanur Taluk:

This is a newly formed taluk by the transfer of 26 villages (listed above under Haveri taluk) from Haveri taluk and 36 villages along with Savanur peth which is included in Savanur town from Shiggaon taluk listed under Shiggaon (G. O. No. RD 28, LRD 69, dated 4th December 1969).

16. Shiggaon Taluk:

129 in 1961 and 92 in 1971.

(*a*) 36 villages and Savanurpeth were transferred to Savanur taluk. These villages are :—

(*b*) Shiggaon (L. C. No. 1 of 1961), a village in 1961 has been classified as a town in 1971. It has, therefore, been deleted from the list of villages.

(*c*) Savoor, which was not listed as a separate village in 1961, has been listed as one of the villages transferred to Savanur taluk from Shiggaon taluk. As against this addition of one village, Khajapur (L. C. No. 71 of 1961) in this taluk is deleted in 1971 since it is included fully in Ankadakhan village under the State Government's Order RD 18 PND 58, dated 23rd January 1959. In effect, there is no net increase or decrease in the district total on account of these changes.

There is, therefore, a net decrease of one village in the district total of the number of villages between 1961 and 1971, though the taluk number decreases by much more.

17. Shirahatti Taluk:

81 in 1961 and 79 in 1971.
(*a*) Haripur (L. C. No. 2 of 1961), which was shown as main village in 1961 in this taluk is now included as a hamlet of Shirahatti (Rural) (L. C. No. 1).

(*b*) Hulgeriban and Hireban (L. C. Nos. 46 and 47 of 1961) which were shown as separate villages in 1961 are now deleted from the list of villages on their complete merger with Lakshmeshwar town. Lakshmeshwar (Rural) (L. C. No. 45) is newly added to the list of villages in 1971.

There is, thus, a reduction of 2 villages. Lakshmeshwar (Rural) consists of those parts of Hireban and Hulgeriban which have not been included within the town limits.

EXPLANATORY NOTE

In Part B of the District Census Handbook of each district the" Primary Census Abstracts " are presented. These are the basic tables of demographic importance obtained on a full count of the individual slips. These tables are furnished villagewise for the rural sector and by Enumerator Block in respect of each Census Town in the urban sector.

The Primary Census Abstract, the P.C.A. as commonly referred to, for the district and its constituent Taluks arranged alphabetically, is presented first. The P.C.A. data for the urban units within each taluk are also included therein. In the tables the abbreviations T, R and U are used. T stands for total, R for rural and U for urban. After the District P.C.A. a map of each Taluk, village list and the Taluk P.C.A. follow.

The concept of Urban Agglomeration has been adopted for presentation of some of the basic results of the 1971 Census replacing the 'Town-Group' concept of the 1961 Census. Small towns around a city or a major town which are contiguous and are within its urban influence are grouped together with the city or the major town to constitute an Urban Agglomeration. In Mysore State, five such Urban Agglomerations named after the respective cities of Bangalore, Belgaum, Bhadravati, Kolar Gold Fields and Mangalore have been recognised. Separate statements of the P.C.A. data of these agglomerations are presented in the respective District Census Handbooks.

COLUMN 1. LOCATION CODE NUMBER: The Location Code Number is the number assigned to each village within a Taluk and each Census town within a district in a particular order. The numbers assigned to taluks and villages are International numerals while those assigned to towns are Roman numerals. The Districts in the State were arranged alphabetically and numbered serially with International numerals.

Dharwar District has the location code number 9. The taluks and towns of the districts bear the following location code numbers :

COLUMN 2. NAME OF VILLAGE/TOWN/WARD/URBAN ENUMERATOR'S BLOCK: Names of villages and towns corresponding to the location code numbers given in Column 1, are noted here.

The particulars presented against each village include the data relating to the *asli* (main) village and also its hamlets, if any. Large hamlets which returned a population of 500 or more have been separately mentioned in Appendix No. I in view of their sociological importance. But, for such hamlets, only the particulars of population by sex, as culled out from the Enumerator's Daily Posting Statements are furnished. The population data of such hamlets should, therefore, be regarded as only approximate since it is not based on actual tabulation but only on the Enumerator's Daily Posting Statements.

The Census village corresponds generally to the Revenue village and its jurisdiction is defined as the area included within the geographical boundaries of the Revenue village bearing the same name. When a portion of the Revenue village stands incorporated in a municipality, the area so included is regarded as part of the town. In all such cases, the remaining land situated outside the municipal limits, if any, is considered as a separate Census village-unit for purposes of enumeration. For such residuary area the suffix 'Rural ' has been noted against the name of the place which may also have been indicated as a Town under the same Taluk. The P.C.A. presented against such places relates to the area situated beyond the municipal limits of the concerned towns.

A Revenue village, the entire geographical area of which stands included within the limits of a municipality, ceases to be a Census village by virtue of its having been accounted for under the concerned town.

Reserve forest areas which do not form part of any Revenue village are also reckoned as Census villages and such geographical units are assigned location code numbers along with other villages of the concerned taluk.

Regarding urban areas, the name of the town, the names (numbers/alphabets) assigned to the constituent Municipal Wards/Divisions, if any, and the number assigned to each enumerator's block within it are given in this column. The jurisdiction of each block is indicated in a statement immediately after the tables of the urban-block P.C.A. of the Taluk.

The places administered by Municipal Corporations, Municipalities, Cantonment Boards, Notified Area Committees or Local Bodies such as Town Boards, Civil Lines, etc., are classified as urban areas or towns. Besides, certain other places which satisfied the following criteria are also classified as Census Towns:

(*a*) Minimum population of 5,000 persons.

(*b*) Density of 1,000 persons per sq. mile (or 400 persons per sq. km.)

(*c*) At least 75 per cent of the male working population engaged in pursuits other than agriculture.

A few other places which did not satisfy fully these conditions but were regarded as having pronounced urban characteristics are also classified as towns.

COLUMN 3. AREA OF VILLAGE IN ACRES AND TOWN/WARD IN Km^2: The particulars of the total geographical area of the Village furnished by the Tahsildars of the concerned Taluks, and of the Towns and their constituent Municipal Divisions or Wards as furnished by the Local Bodies concerned are given in acres and sq. kms. respectively in this column. The area of the District as furnished by the Surveyor General, India through the Central Statistical Organisation is shown against the District total, while the area of each Taluk as furnished by the Director of Survey, Settlement and Land Records in Mysore is shown against the Taluk total. No attempt has been made to reconcile the area figures obtained from these three different sources.

In some cases, the villages bear the same name as the adjacent town, for example, Bellary (Rural). These indicate cases where only a part of the village area is included in the contiguous municipal area, leaving some portion within the rural area which, therefore, is included in the village list. It has not always been possible to determine the exact areas of the portions of such villages included within municipal limits. Therefore, no attempt at determining the exact area of that part of the village in the rural limits has been made. The area shown in this column against such cases includes the area merged within the limits of the contiguous town.

COLUMN 4. NUMBER OF OCCUPIED RESIDENTIAL HOUSES: A Census House is defined as "a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit." In this column the number of such houses which were in actual use for residential purposes either partly or wholly, at the time of the enumeration (*i.e.*, between 10-3-71 and 31-3-71) is given.

COLUMN 5. NUMBER OF HOUSEHOLDS: A Household is defined as "the entire group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevent them from doing so." It may consist entirely of persons related to each other or may be made up of a few related and other unrelated persons or of totally unrelated persons. A household may also consist of a single individual. Those households which are made up of groups of unrelated persons such as in hostels, inmates of jails, boarding houses, hotels, chummeries, etc., are regarded as Institutional Households. Households that do not live in Census Houses are called Houseless Households. The total number of households including Institutional Households and Houseless Households, if any, in the village or the block is given here.

COLUMNS 6, 7 AND 8. TOTAL POPULATION (Including Institutional and Houseless Population): The column headings are self-explanatory. The abbreviations 'P', 'M' and 'F' appearing in several sub-columns of the P.C.A. stand for the number of Persons, Males and Females, respectively.

COLUMNS 9 AND 10. SCHEDULED CASTES: These two columns furnish the population of Scheduled Castes by sex. By Scheduled Castes are meant "all such castes, races or tribes or parts or groups within such castes, races or tribes as are deemed under Article 341 of the Constitution of India to be the Scheduled Castes for the purposes of the Constitution of India." Scheduled Castes are limited only to Hindus and Sikhs.

COLUMNS 11 AND 12. SCHEDULED TRIBES: These two columns furnish the population of Scheduled Tribes by sex. By Scheduled Tribes are meant "all such tribes or tribal communities or parts of group within such tribes or tribal communities as are deemed under Article 342 of the Constitution of India to be Scheduled Tribes for the purposes of the Constitution of India." Persons belonging to the Scheduled Tribes may profess any religion.

The Scheduled Castes and Tribes notified in the State are indicated in Appendix No. II. The data on he individual Scheduled Castes and Scheduled Tribes are presented in Part C of the District Census Handbook.

COLUMNS 13 AND 14. LITERATE AND EDUCATED PERSONS: A person who can both read and write with understanding in any language is regarded as literate even though such a person may not have attained any educational standard or may not have received any formal education. By convention, all children of the age of 4 years or less are treated as illiterate even if a child of this age-group is going to a school and may have picked up reading and writing.

If, in addition to being a literate, any person has attained any level of education such as primary, middle, high school stages, etc., such details were enumerated during the census count. The number of males and females shown under columns 13 and 14 respectively

includes not only those who were literate without having attained any level of education but also those who have attained various educational levels.

COLUMNS 15 TO 36. WORKERS: A *worker* is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but also effective supervision and direction of work.

A person who is engaged primarily in household duties such as cooking for one's own household or performing ones own household duties or is primarily a student attending some institution but, either occasionally or regularly, helps (not as a full-time worker) in the economic activity pursued by the household only during his or her spare time is not regarded as a worker. The main activity of each individual, *i.e.*, how the person engages himself or herself mostly, was ascertained and all those engaged in any activity which is economically productive (*i.e.*, resulting in production of goods and services) were deemed to be workers.

The workers are further classified into nine industrial categories and the distribution of the total workers by sex is given under Columns 17 to 36.

For convenience of presentation, the detailed descriptive headings of the nine Industrial categories have not been printed in the PCA tables but only the Industrial Category Number is given. The corresponding descriptions are as followings:

Category	Description	Column Nos.
I.	Cultivators ..	17-18
II.	Agricultural labourers ..	19-20
III.	Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities ..	21-22
IV.	Mining and Quarrying ..	23-24
V.	Manufacturing, Processing, Servicing and repairs :	
	(*a*) Household Industry ..	25-26
	(*b*) Other than Household Industry	27-28
VI.	Construction ..	29-30
VII.	Trade and Commerce ..	31-32
VIII.	Transport, Storage and Communications ..	33-34
IX.	Other services ..	35-36

CATEGORY I. CULTIVATORS: A person is a *cultivator* if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind of share. Cultivation involves ploughing, sowing and harvesting and all other activities (such as digging of channels for water, weeding, etc.), in the production of cereals and millet crops, pulses, raw jute and kindered fibre crops, sugarcane, groundnut, tapioca, oil seeds, etc. Cultivation does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plants.

CATEGORY II. AGRICULTURAL LABOURERS: A person who works in another person's land for wages in money, kind or share and does not have any right of lease or contract on the land on which he or she works is regarded as an *agricultural labourer*.

CATEGORY III. LIVESTOCK, FORESTRY, FISHING, HUNTING AND PLANTATIONS, ORCHARDS AND ALLIED ACTIVITIES: This category includes all workers engaged in livestock rearing, forestry, fishing, hunting and plantations, orchards and allied activities.

CATEGORY IV. MINING AND QUARRYING: All those who are engaged in mining and quarrying activities are included in this category.

CATEGORY V. MANUFACTURING, PROCESSING, SERVICING AND REPAIRS: Workers engaged in manufacturing, processing, servicing and repair activities are subdivided into those who are engaged in Household Industry and those who are not so engaged. Household Industry is defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and where the household lives in urban areas, only within the premises of the household. Such an industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. Further, such an Industry should not be run on the scale of a registered factory. A person may be a labourer or a petty employee in an industry which is a household industry run by some other household. The number of persons engaged in Household Industry are categorised as V (*a*).

The number of workers who are engaged in such activities but in establishments which do not qualify themselves to be classified as Household Industries as defined above are shown under Category V (*b*).

CATEGORY VI. CONSTRUCTION: Workers who are engaged in construction, maintenance, upkeep, repair and similar activities of buildings, roads, bridges, dams, canals and construction of electrical, water-supply and sanitary installations, etc., are brought under this category.

CATEGORY VII. TRADE AND COMMERCE: Workers in trade and commerce include all those engaged in wholesale or retail trade in goods; in dealing with insurance, stocks and shares, employed in banking and financial institutions, etc., either as proprietors or in any other capacity in such establishments.

CATEGORY VIII. TRANSPORT, STORAGE AND COMMUNICATIONS: Workers in transport, storage and communications include those who work in establishments such as the railways, road transport, post and telegraphs and such other organisations or establishments which are engaged in the Transport, Storage and Communications sectors of the national economy.

CATEGORY IX. OTHER SERVICES: 'Other Services' constitutes the last category and includes employees of the Central and State Governments, local bodies and quasi-local bodies and other organisations or institutions engaged in educational, scientific, medical and health services. Religious and welfare services, business services, community services and trade and labour associations, recreation services, personal services and other miscellaneous activities not covered in any of the remaining 8 categories specified above, are included here.

COLUMNS 37 AND 38. NON-WORKERS: Non-workers are those whose main activity is economically non-productive and includes those engaged in household duties, full-time students, rent receivers, retired persons, infants and old persons, beggars, vagrants, inmates of penal, mental or charitable institutions, etc. It also includes those non-workers who were seeking work.

The Industrial Categories of 1961 and 1971 Censuses are generally similar except for the separate categorisation of 'Mining and Quarrying' and consequential, renumbering of 'Household Industry'. In comparing the data of these two Censuses this change must be kept in view. For convenience, the categorisation of 1971 and 1961 are indicated below:

Industrial Categories of 1971 and 1961 Censuses

Maps:

A map of each of the taluks in the district has been included along with an alphabetical list of villages indicating the location of the villages in th map. The taluk maps are based on the maps brought out by the Director of Survey, Settlement and Land Records in this State. The map of the district in this volume and of the State are also, incidentially, based on the maps produced by this authority.

In the taluk maps, to the extent possible, the boundaries of the villages have been marked along with their location code numbers. However, in a few cases, the maps contain areas enclosed within the symbol for village boundaries but not having any location code number mark. Such areas are drawn on the basis of the original survey maps and represent *Kavals* (Pastures), reserve forests, etc. They also include places treated as main villages previously but now amalgamated with neighbouring villages under Government Orders. For the purposes of the Census, all such areas have been included in neighbouring villages for census enumeration. Similarly there are villages whose boundaries have not been clearly determined. In such cases, the location has been indicated and location code number has also been given but the boundaries have not been marked.
