FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and continuing since then with some innovations/ modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Govt./Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third part, Part C of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981, some new features alongwith the restructuring of the formats of Village and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of villages and towns (ward-wise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this Statement details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rates as all children below 7 years of age have been treated as illiterate at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Block-level presentation of data in the Village Directory and PCA instead of the traditional Tahsil/Taluk/PS level presentation. It is expected that the presentation of Village Directory and PCA data at C.D.Block level will help the planners in formulation of micro-level developmental plans, as the C.D.Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census along with the corresponding codes of 1981.

This publication is a joint venture of the State Govt./UT administration and the Census Organisation. The data have been collected and compiled under the direction of Ms. Sobha Nambisan, Director of Census Operations, Karnataka on behalf of the State Govt. administration which has borne the cost of printing. The task of planning, designing and coordination of the publication was initiated by Dr K.P.Ittaman, former Deputy Registrar General (Social Studies) and Shri M.M.Dua, Joint Director. For the sake of uniformity in presentation of information data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of Census non-Census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K.Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri A.K.Singh, Deputy Director who was assisted by S/Shri V.K.Jain and Hariram, Investigators and staff. Technical guidance in the preparation of the maps was initially provided by Dr.B.K.Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi
June 11, 1992.

A.R.Nanda
Registrar General, India

PREFACE

In the foreword to the 1991 series of the District Census Handbooks, Sri A.R.Nanda, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain the salient data on the population for every village and town as revealed by the 1991 Census. They also contain a wealth of information regarding these villages and towns which, although not part of the population census, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information has also considerable importance in the context of planned development.

The District Census Handbook is therefore divided into two parts: Part A containing information regarding each village and town (Village Directory and Town Directory) which is not census data and part B which contains the data on the population collected during the 1991 Census - the Primary Census Abstract. The data published in Part B was collected in February 1991 at the time of the population census. This data was then manually tabulated in the Regional Tabulation Offices set up for the purpose. Subsequently, as a part of the countrywide project taken up in collaboration with the National Informatics Centre, the Primary Census Abstract data was computerised. The data for Part B of the District Census Handbook was therefore available on tape for the entire country by November 1992. Since the Primary Census Abstract data was available first on the computer, it was decided to publish the District Census Handbooks in two separate volumes, with Part B appearing in print first.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in early 1990 and continued till the middle of 1992. For operational convenience, the Village Directory format was divided into two portions, one relating to the area and land use particulars and the other relating to the amenities available in each village. The relevant formats were mailed to the Deputy Commissioners of Districts and Chief Secretaries of Zilla Parishads for obtaining the villagewise particulars. Similarly the Town Directory formats were mailed to the Deputy Commissioners and Commissioners of Corporations. The villagewise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1981 District Census Handbooks. The villagewise information, thus finalised was also computerised during 1992-93 at the National Informatics Centre, Bangalore as in the case of Primary Census Abstract.

The National Informatics Centre, Bangalore has undertaken to supply the camera ready copies for the District Census Handbooks and this may enable us to bring out the District Census Handbooks fairly early.

In the preparation of the District Census Handbooks the role of the Census Directorate is that of data collector. For accomplishing this task we have had the ready co-operation of the staff of different departments of the State Government. The cost of printing of the District Census Handbooks is borne by the Government of Karnataka.

I take this opportunity to offer my grateful thanks to all the officers and officials who have been actively involved in the compilation of this volume.

I am thankful to Shri A.Venkateshan, the State Informatics Officer, National Informatics Centre, Bangalore for all the assistance he and his staff members have rendered for computerisation of the data and for preparation of the camera ready copy of the manuscripts of all the Districts.

I am deeply grateful to Shri A.R.Nanda, I.A.S., the Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Shri M.K.Jain, the present Deputy Registrar General (SS) as well as to Mrs. Minati Ghosh, Deputy Registrar General (Map).

Lastly, I am thankful to the Government of Karnataka for having readily agreed to bear the cost of printing these District Census Handbook volumes and to the Director of Printing, Stationery and Publications for the keen interest he has evinced in bringing out these publications.

Bangalore.
Date: 16-11-1992

ANALYTICAL NOTE

Brief History of the District Census Handbook :-

The District Census Handbook series was, for the first time, included in the census publication programme at the 1951 census in order to satisfy the growing demand for micro-level data by the administrators, the planners and the other census data users. The District Census Handbooks sought to replace 'Part IV - Taluk Tables' and 'Part V - Village Tables' of the earlier censuses and to present the basic demographic and economic data in the form of 'Primary Census Abstract' in respect of each and every village and town within the jurisdiction of the district concerned. In addition, these volumes were to contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

At the 1961 census, the scope of the District Census Handbook was greatly enlarged by incorporating in it - (i) a descriptive account of the district, (ii) a set of non-census tables dealing with the administrative statistics of the district for a decade, (iii) taluk and town level census tables on economic and socio-cultural aspects and (iv) the village and urban (census enumeration block level) Primary Census Abstract containing the ninefold industrial classification of workers. In a somewhat general way, information on the availability of certain basic amenities in villages and towns, such as the sources of drinking water and educational institutions, was also presented in these volumes. These general guidelines were, by and large, followed in Karnataka too. However, the scope of the District Census Handbooks of 3 out of the then existing 19 districts, namely Bangalore, Dharwar and Mysore, was confined to the publication of the village-wise and urban (census enumeration block wise) Primary Census Abstract only.

The 1971 census witnessed an overall improvement in the matter of compilation as well as presentation of the data. A country-wide uniformity in approach and a comprehensive coverage are the hall marks of this series of publications. In 1971, the District Census Handbook was split up into three portions - (i) Part A - consisting of land use data on villages and also the data on the nature and extent of amenities and services available in the villages and towns of the district - presented in the form of Village Directory and Town Directory respectively, (ii) Part B - consisting of the Primary Census Abstract (including the nine-fold industrial classification of workers) for the district, the taluks, the towns, the villages and the census enumeration blocks in case of towns; and (iii) Part C - consisting of an analytical note based on an analysis of the census data as well as the non-census data included in the volume, a set of tables depicting the administrative statistics in minute detail, a set of statistical tables based on the census data in respect of the district and the constituent taluks and towns thereof besides a set of tables generated on the basis of the villagewise census data in association with the villagewise data on the availability of amenities. The main objective was to present a comprehensive and intelligible portrait of the district and an overview of the developmental programmes implemented in the district during the preceding decade. Publication of the District Census Handbooks was planned in such a way as to minimise the delay inherent in the compilation of a voluminous mass of data gathered from different sources. Accordingly, 'Part A', comprising the Village Directory and the Town Directory for the finalisation of which there was no apparent need to wait till the completion of the tabulation of the data gathered at the census, was to be published first and 'Part B', consisting of the Village/Urban Primary Census Abstract was to be released next. A lower priority was assigned to 'Part C' for the obvious reason that besides administrative statistics it was to include a set of socio - demographic and economic tables generated on the basis of the data gathered at the census and an analytical note prepared thereof. In Karnataka, however, 'Part A' and 'Part B' portions of the District Census Handbooks were combined together and published in a single volume for each district except Bangalore. In the case of Bangalore District, since it was felt that the size of such a combined volume would be unweildy, Part A and Part B were published separately. As regards 'Part C', compilation of data took more time than anticipated and, in addition, there was an inordinate delay in executing the printing job at the State

Directorate of Printing. As a result, only a portion of Part C (depicting some of the census tables) relating to Bangalore District was published somewhat belatedly and the proposal to publish the remaining portion of Part C for Bangalore District as well as the entire portion of Part C for the other districts was finally abandoned.

Instead of witnessing an expansion as in the past two censuses the scope of the 1981 series of the District Census Handbooks was curtailed to a considerable extent in that it was confined to the publication of Village Directory, Town Directory and the Village/Urban Primary Census Abstract. Thus, at the initial stage itself there was no proposal to compile and publish the administrative statistics and the various socio-demographic and economic tables based on the census data, that is, the portion which constituted 'Part C' of the 1971 series. But for this change, the approach in 1981 regarding uniformity and comprehensiveness were very much the same as in 1971. In order to avoid delay in publication, as in the past, the District Census Handbook was proposed to be published in two parts, namely, 'Part A' consisting of the Village Directory and Town Directory and 'Part B' consisting of the Village/Urban Primary Census Abstract besides the Special Primary Census Abstracts at taluk/town level in respect of the Scheduled Castes and Scheduled Tribes population of the district.

At the 1981 census, the contents of the Village Directory and the Town Directory were slightly enlarged and the formats were restructured. In the Village Directory all the amenities except power supply were brought together under a broad heading with the provision that 'in case an amenity is not available in the referent village, the distance to the nearest place where that particular amenity is available may be indicated in broad ranges'. A new item 'approach to the village' was included. In the remarks column, a provision was made to report the number of copies of newspapers in circulation in the village as also the number of motor cars, the number of motor cycles and the number of tractors available in the village. Further, in order to examine whether there is any correlation between the availability of amenities and the population size of a village, an additional column was provided in the Village Directory to indicate the population and number of households. The contents of Part A were further enlarged by including two appendices, namely, a list of villages not having any amenities and a distribution of villages according to the proportions of Scheduled Castes and Scheduled Tribes in the total population of the village. The Town Directory formats were also modified by the addition of a few items such as class of town, population, Scheduled Castes and Scheduled Tribes population, decadal growth rate of population, working women's hostel, adult literacy classes/centres, storage system regarding drinking water supply etc., and also by providing for recording the information about the nearest place (and distance) having educational, medical and fire-fighting facilities in case such a facility is not available in the referent town. As compared to 1971, while one statement indicating religion-wise population of the town was dropped, another statement to provide information about the amenities available in notified slums in Class I and Class II towns was added. As regards the Primary Census Abstract of towns, the urban block-wise presentation of data was given up and details were presented only upto the level of Wards/Divisions. However, information on the number of persons belonging to Scheduled Castes and Scheduled Tribes was furnished for each census enumeration block within the town in the form of an appendix and an annexure thereto provided the description of the boundaries of each census enumeration block. Further, instead of the nine-fold classification of workers adopted at the 1971 census, on this occasion the classification was restricted to 4 categories. In Karnataka, in 1981 also, both Part A and Part B portions of the District Census Handbooks were published together in a single volume for each district. However, because of certain technical compulsions, all the information relating to Scheduled Castes and Scheduled Tribes was excluded from the main formats and was presented separately at the end in the form of a Supplement (separate booklets were brought out in the case of Bidar and Mandya Districts).

2. Scope of the 1991 District Census Handbooks:

As in 1981, in 1991 too, the District Census Handbooks are proposed to be brought out in two portions, namely Part A consisting of the Village Directory and the Town Directory and Part B

consisting of the Village/Urban ward-wise Primary Census Abstract in addition to the District Primary Census Abstract and the Special Primary Census Abstract in respect of the Scheduled Castes and Scheduled Tribes. Though, the scope of the 1991 series of the District Census Handbooks has, by and large, remained the same as in 1981, a few significant changes have been made in the Village Directory format as well as the Primary Census Abstract format. In Karnataka, unlike at the previous censuses, on this occasion, the 'Part A' and 'Part B' portions of the District Census Handbooks of each district are being brought out in separate volumes.

The manner of presentation of data has also undergone a significant change in that the Village Directory and the Primary Census Abstract data are presented according to the location of villages and towns within the jurisdiction of a Community Development Block rather than their location within a taluk*. In other words, the traditional practice of taluk-level presentation of data has now been givenup in preference to the Community Development Block level presentation of data which is considered as more meaningful in the present day context. Since C.D.Block is the lowest administrative unit for developmental planning, the choice of the C.D. Block as the unit for data presentation is expected to help the planners in formulating micro-level developmental plans. Another innovation at the 1991 census is the arrangements made for the dissemination of the data in collaboration with the National Informatics Centre through its country-wide computer network. In the published volumes of the District Census Handbooks, therefore, the computer codes assigned to the villages in the 1991 census and the corresponding codes in 1981 are presented so as to facilitate the data users who may prefer to use the data either from magnetic tapes or floppies.

(i) Village Directory :

The Village Directory format adopted for the 1991 series has 18 columns. When examined with reference to the 1981 format it will be noticed that two columns have now been left out - while one of these columns refers to the 'staple food' the other refers to the 'remarks' under which, information about the places of religious, historical or archaeological interest in the village as also information about the number of copies of newspapers in circulation, the number of motor cars, motor-bicycles and tractors available in villages was published in 1981. As compared to 1981, there is no change in the scope and coverage of the information presented in the 18 columns, of which 8 are devoted for amenities and 6 are meant for indicating the area of the village and the land use pattern. The remaining four columns are meant for indicating the location code and name of the village, total population and the number of households enumerated in the village and the name of the nearest town as also the distance to that town. The aspects covered under the amenities are: educational, medical, sources of drinking water supply, postal and telegraph, weekly market, communication, nature of approach road and power supply. Further, if a village did not have any educational facility at all, instead of merely reporting the fact and stopping at that, an indication of the distance (in ranges) that the villagers have to traverse to reach a place with educational facilities (at the basic level) is reported. The same procedure of reporting is adopted regarding medical facilities, drinking water supply, postal and communication as well as weekly market facilities. The distance ranges adopted for reporting are the same as in 1981, namely -5 km, 5 - 10 km and 10+km. In an explanatory note, which precedes the presentation of the Village Directory Statements, details about the abbreviations used under various columns are furnished.

* *In Karnataka, the "Taluk Panchayat Samiti" corresponds to the Community Development Block, and for the sake of maintaining uniformity with the all-India pattern, the term C.D.Block has been used throughout in the District Census Handbooks. The jurisdiction of a Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns.*

The main agency which has furnished the villagewise information on amenities is the Zilla Parishad which in turn has collected the relevant particulars through its field formations, namely the Chief Executive Officers (i.e., the Block Development Officers) of the various *Taluk Panchayat Samitis*. These details were examined for consistency as well as with reference to the particulars reported in 1981 and cases of deterioration or of abnormal developments were referred back for reverification and rectification. For instance, as compared to 1981, for several villages, Wells and Tanks did not find a mention as a source of drinking water supply. When referred back, the concerned Chief Executive Officers clarified that in most of these cases, the drinking water wells of yester years have either dried up or fallen into disuse on account of the increasing number of borewells drilled in such villages and also because of the implementation of the National Rural Water Supply Scheme, the Mini-Water Supply Scheme and Accelerated Water Supply Scheme etc. So also regarding the availability of pucca approach road facility several instances of deterioration were noticed. Such cases too were referred back so that the factual data may be verified again and reported for publication. Information about the number of educational institutions, nature of government run medical institutions and postal, phonocom and telegraph facilities as furnished by these officers have been cross-checked with the data obtained from the concerned Departments as well to ensure a higher level of reliability.

In case of uninhabited villages, i.e., villages which returned 'nil' population at the 1991 census count, except the name and the total area no other information is furnished. Instead of putting a dash under each column to indicate this fact, the word 'uninhabited' is printed along the line.

In order to facilitate easy reference, an alphabetical list of villages is given at the begining in respect of each C.D.Block. This list indicates the code numbers assigned to the villages for purposes of census enumeration as well as the computer codes assigned (at the stage of computerisation) as also the corresponding codes according to the 1981 census. At the end of the Village Directory the following appendices are given:- C.D. Block-wise abstract of amenities; list of villages not having any amenities except Drinking Water, land utilisation etc. in respect of non-municipal towns and distribution of villages according to the proportion of Scheduled Castes population and Scheduled Tribes population.

(ii) Town Directory :

As in 1981, in 1991 too, there are seven statements which furnish information on the following aspects - growth history; physical aspects and locational particulars; municipal finance; civic and other amenities; civic amenities available in the notified slums of Class I and Class II towns; medical, educational, recreational and cultural facilities; and trade, commerce, industry and banking. The scope of the various column headings adopted in 1981 has remained unchanged in 1991. However, in Statement-I, slight modifications have been made to accomodate the 1991 census data - an additional column is provided for indicating the 1991 population and the growth rate registered by the town during the decade 1981-91. In Statement-I an additional column has been provided for indicating the name of the C.D.Block within the jurisdiction of which the referent town is located. It may be incidentally mentioned that, in Karnataka, the civic bodies functioning in the Statutory Towns do not fall within the administrative jurisdiction of the C.D.Blocks (i.e., Taluk Panchayat Samitis).

In the Town Directory statements, the towns are arranged in an alphabetical order of their names and the aggregate particulars about urban agglomerations if any in the district have also been furnished in the same order. Where an urban agglomeration includes two or more independent towns, the names of these constituent towns are shown in the correct sequence as per the alphabetical arrangement of their names. But, the details which ought to have been furnished in the subsequent columns have been skipped with a view to avoiding repetition. Instead, immediately after the name of the town, a cross reference is given by printing the message "see ..... urban agglomeration". The name of the core town of the urban agglomeration too appears at its correct sequence with the legend printed thereafter and immediately below that, i.e., in the next line the same name with the suffix urban agglomeration appears again without bearing any

serial number. Against this name the cumulative totals for the urban agglomeration as a statistical unit are presented wherever such a procedure is relevant and meaningful. This line is then followed by those relating to the constituent towns of the urban agglomeration starting with the name of the core town and followed by the others arranged in an alphabetical order of their names. This procedure, it may be recalled, is the same as that adopted in 1971 as well as in 1981 and this enables one to have a fairly good assessment of the data relating to the smaller civic administrative units that form part of the larger unit and also of the aggregate data relating to the larger unit itself. In case there are 'outgrowths' which are not 'urban areas' in their own right, the particulars relating to such areas are merged with the data relating to the concerned core town. Such towns which have 'outgrowths' are marked out by an asterisk mark and for all purposes, the term 'town' would cover the core town as well as its outgrowths. In an appendix the names of the revenue villages or areas which have been identified as outgrowths and the population thereof are indicated separately. In the case of villages certain parts of which are regarded as outgrowths while the other parts are considered as 'rural', the data relating to the outgrowths (i.e., the urban component) is included in the Town Directory statements and the data pertaining to the rest of the portion retained in the rural frame appears in the Village Directory. In Statements II, III and VI where it is not relevant to combine the data for the urban agglomeration as a whole, the legend 'see the constituent towns' is printed against the name of the urban agglomeration instead of allowing the entire line to remain blank.

The particulars furnished in Statement I which deals with the growth history are entirely based on the current as well as the previous censuses. As such, this has been compiled in the Census Directorate without seeking information from the concerned civic bodies. The details presented in the remaining statements have been furnished mainly by the concerned civic authorities such as the Municipal Commissioners, Chief Officers of towns, Secretaries of Mandal Panchayats, Administrative Officers etc. Except for the information regarding municipal finance, most of the information on other apsects had to be gathered by the civic authorities from several offices and institutions located in the town through correspondence and or by deputing officials for the purpose. The particulars so furnished were scrutinised in the first stage and cases of abnormal variations as compared to the situation in 1980 and also inconsistencies were referred back to the reporting agency for reverification and rectification so as to ensure that the details now given in the Town Directory represent the factual position.

The scope of the information presented under various columns and the abbreviations used are explained in a note which precedes the presentation of the Town Directory statements.

(iii) Primary Census Abstract :

The Primary Census Abstract is presented village-wise in the case of 'rural' areas and town-wise (upto ward or division level) in the case of urban areas. The outgrowths of a town are treated at par with a ward or division of the core town irrespective of the number of census enumeration blocks into which it is constituted. Within the district, the Community Development Blocks are arranged in the alphabetical order of their names in English and covered one after the other in that order. For each C.D.Block, the total figures with the rural-urban break-up is given first and this is followed by the village-wise data and then by the ward-wise data for the towns if any, within the jurisdiction of the C.D.Block. In the case of a village of which only a portion has been incorporated in a town or has been recognised as an outgrowth of a town, the details relating to only that portion which is not so incorporated or so recognised but has been retained in the rural frame is presented under various columns. The names of villages (and their respective areas) which are fully included in urban areas or have been recognised as outgrowths of towns for purposes of the 1991 Census (but are retained in the jurisdictional lists of the Survey and Settlement authorities) if any within the boundaries of the C.D.Block are indicated in the flyleaf which precedes the PCA statement for the C.D.Block

After presenting the PCA data for all the villages and towns covered by the C.D.Blocks in the district,

the PCA data relating to all the urban areas of the district (i.e., statutory as well as non-statutory towns) are furnished. For this purpose, the towns/urban agglomerations are arranged in an ascending order of their location code numbers. And, for each town the ward or division-wise details are presented here.

In Karnataka, as already mentioned, the jurisdiction of a C.D.Block is coterminus with that of the Taluk of the same name, but excludes the areas incorporated in statutory towns and cities. By and large, a C.D.Block corresponds to the rural areas of the taluk. However, if there are any non-municipal census towns and areas which have been identified as outgrowths of statutory towns within the jurisdiction of the taluk, then such towns and outgrowths are also regarded as lying within the jurisdiction of the concerned C.D.Block. The PCA particulars relating to such units are presented under the concerned C.D.Blocks against the urban category and are repeated again at the end under the caption 'District Urban'.

In the case of an urban agglomeration, the aggregate figures obtained by the addition of the data relating to the constituent towns and outgrowths thereof if any are presented against its name. Thereafter, the data for the constituent towns starting from the core town including the location code, are presented in a continuous sequence. In case a town has outgrowths (which are not towns in their own right) in the first line the aggregates relating to the core town as well as its outgrowths are given and this is then followed by the details relating to the core town and the outgrowths separately. Each outgrowth is treated at par with a municipal ward or division while presenting the ward-wise PCA for towns.

3. Brief note on Census concepts :

Census taking is a massive operation carried out in a short span of time with the active participation of a very large number of census enumerators. The reference moment for the 1991 census count is the sunrise of March 1, 1991. However, the enumeration of the population was spread over a period of 20 days from 9-2-1991 to 28-2-1991 followed by a revisional round from 1-3-1991 to 5-3-1991 for updating the population count with reference to the sunrise on March 1, 1991. The questionnaires canvassed by the enumerators, namely the Household Schedule and the Individual Slip are brief in their wordings and the concepts used for purposes of the 1991 Census Operations and the manner in which the schedules are to be filled in have been explained in a booklet entitled Instructions to Enumerators for filling up the Household Schedule and the Individual Slip. Some of the important concepts and the relevant explanations are indicated in the following paragraphs.

(i) **Urban areas** :- The definition adopted in 1961 and adhered to in 1971 as well as in 1981 (though with a slight modification regarding the classification of 'fishing and 'forestry) has been retained for the 1991 census also. According to this definition the urban areas include :

i) all places with a Municipality, Corporation, Cantonment Board or Notified Town Area Committees, etc.

ii) all other places which satisfy the following criteria :

a) a minimum population of 5,000

b) atleast 75 per cent of the male working population engaged in non-agricultural pursuits and

c) a density of population of at least 400 per square kilometre (1000 per square mile)

d) all places which, though not satisfying the above criteria, had pronounced urban characteristics.

(ii) **Urban Agglomeration**: This concept, which replaced the concept of 'town-group' in 1971, has been retained for the 1991 census. It has been observed that very often railway colonies, university campuses, port areas, military camps and large residential colonies etc., come up quite adjacent to, but situated outside the statutory limits of cities and towns. Such areas may not by themselves qualify to be treated as towns. But if they form a continuous spread with the town they are outgrowths of the town and deserve to be treated as urban. Such towns together with their outgrowths have been treated as one urban unit called "urban

agglomeration". An urban agglomeration may consist of :

a) A city with continuous outgrowth (the part of outgrowth being outside the statutory limits but falling within the boundaries of the adjoining village or villages);

b) One town with similar outgrowths or two or more adjoining towns with their outgrowths as in (a) ; or

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Geographical contiguity with the statutory limits of the core town is the main factor in determining whether or not a nearby satellite town or an outgrowth is to be included in the urban agglomeration. This is purely a statistical concept and for carrying out the actual census, the administrative jurisdictions of the city or the towns concerned as well as of the outgrowths have been kept quite intact. The data are presented for the urban agglomeration as a whole and also severally for each of the constituent units.

(iii) **Rural areas - i.e., villages** : Areas which are not classified as 'urban' according to the definition given above constitute the rural areas. The basic unit for rural areas is the revenue village which has definite surveyed boundaries. In the case of unsurveyed villages, the boundaries as determined by the local usage have been adopted. The revenue village may consist of a single nucleated settlement or comprise of several settlements or clusters of houses located at several places within the territorial limits of the village or the village may not be having any human settlements at all (i.e., it may be totally uninhabited). The census-village and the revenue village are identical in the matter of jurisdiction. However, there are a few exceptions to this general rule:

1) When the main settlement of the village with or without the surrounding open lands is constituted into an urban area, the remaining tracts of the revenue village are together treated as a separate unit for purposes of census i.e., the truncated portion itself is considered as an independent revenue village.

2) When outlying portions of certain revenue villages are incorporated into the limits of urban areas by a Government Notification such areas, whether populated or not, are excluded from the revenue village concerned and the village boundaries are redefined for census purposes.

3) Revenue villages which are completely incorporated in the limits of urban areas or else, are submerged completely under reservoir projects but are still retained in the jurisdictional lists of the Survey and Settlement authorities pending a resurvey and such other procedures, *are taken note of as revenue villages but are* omitted for census purposes i.e., these are not treated as census villages. Similarly, entire revenue villages, which have been identified as outgrowths of urban areas for purposes of 1991 census are treated not as census villages but as urban areas. The names of such villages, if any, in a Taluk/C.D.Block are indicated in a fly leaf.

4) If there are forest areas that do not form part of any of the revenue villages then such areas are identified clearly and the smallest administrative unit into which such forest areas are divided (eg.Forest Beat) is reckoned as the census village. A Forest Range may consist of several such census villages. (In Karnataka this phenomenon is noticeable only in Kollegal Taluk of Mysore District).

(iv) **Census Enumeration Block** : The smallest unit adopted for census taking is the Census Enumeration Block. Generally, the towns and cities are divided into wards or divisions and, wherever such units exist, their distinctive identities have been maintained. The geographical area comprised in each such ward or division or, the town in its entirety, is constituted into several blocks in such a way that every bit of land specifically stands included in one or the other enumeration block and also that there is no over-lapping of areas. In the urban areas, the Census Enumeration Blocks are constituted in such a way that each such Block contains about 120 households covering a population of about 600 persons. However, in view of the condition that

each block should have clear-cut boundaries easily recognisable on the field, blocks which are either larger or smaller than the norm have also been constituted. In the case of non-municipal towns, if the town boundaries are not specifically notified, the jurisdiction of the entire revenue village concerned is regarded as the jurisdiction of the town as well. In the case of towns which are under the administration of Mandal Panchayats, the Panchayat jurisdiction need not necessarily be identical with the jurisdiction of the non-municipal census town.

In the case of villages, depending upon the population data based on the Houselisting Operations carried out during 1990, each village has been constituted into one or more number of Census Enumeration Blocks. The work-load norm for the rural areas is 150 households covering an approximate population of 750 persons. However, numerous Census Enumeration Blocks with below-norm population have been constituted and a single enumerator has quite often been entrusted with the enumeration work in 2 or more contiguous blocks so as to ensure that the aggregate population is quite close to the norm. Further, in each village care has been taken to ensure that no bit of land belonging to that village is left out of consideration while constituting the Blocks. Each hamlet or island, if any, found within the jurisdiction of the village - irrespective of its population size - has been constituted into a separate Block in order to maintain its geographical identity. Further, even the villages known to be uninhabited at the time of houselisting operations have been constituted into separate blocks. In other words, a complete coverage of the territorial jurisdiction of each and every village has been ensured.

(v) **Location Code Number** : Every State in the Country, every District in the State, every Taluk or Town in the District, every C.D. Block (or its equivalent) in the District, every village in the taluk and every ward or division in the city or town and every enumeration block in the village or town is assigned a number in a particular order for carrying out the census enumeration. When these numbers are written side by side in the same order, starting from the State and separated by an oblique mark, the identity of any particular census enumeration block can be known quite easily. The numbers assigned are in Arabic numerals, except in the case of towns in which case Roman numerals have been adopted. For assigning the location code numbers the States in the Country, the Districts in the State, the Towns in the District and the Taluks/C.D.Blocks in the District are arranged in the alphabetical order of their names. The villages in a taluk are organised into revenue circles or hoblis for administrative purposes and each such unit will have a headquarter town or village. The identity of such units is maintained while assigning the location code numbers. Starting from the circle of which the Taluk Headquarters happens to be the Circle headquarters as well, the villages in its jurisdiction are serially numbered by proceeding in a clockwise direction or in a serpentine manner starting from the north-west corner. After exhausting all the villages in that circle, the villages of the adjacent circle are assigned numbers in the same manner. The numbering of villages run continuously for the Taluk through the different Circles or Hoblis.

The entire set of the 1991 census data relating to the village directory and the village/urban ward-wise PCA has been computerised. For this purpose a separate code structure has been developed. The computer codes assigned to the villages in each Taluk or C.D.Block are indicated in the alphabetical list of villages along with the corresponding location code numbers assigned for enumeration purposes. So also particulars about the codes assigned to towns are indicated in the alphabetical list of towns which precedes the presentation of the PCA statements in respect of the urban areas of the district.

(vi) **Building** : A building is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, worksheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-*cum*-residence, workshop-*cum*-residence, office-*cum*-residence, etc.

(vii) **Census House** : A 'census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

(viii) ***Household*** : A 'household' is a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of households having unrelated members are boarding houses, messes, hostels, residential hotels, rescue homes, jails, *ashramas* etc. These are called 'Institutional Households'. There may be one member households, 2 member households or multi-member households. For census purposes, each one of these types is regarded as a 'household'. If a group of persons who are unrelated to each other live in a census house but do not have their meals from the common kitchen, they would not constitute an institutional household. Each such person would be treated as a separate household. The important link in finding out whether there is a household or not is a common kitchen. There may be a household which does not have a house to live in and may temporarily dwell on the roadside pavement, in hume pipes, temples, *mantaps*, platforms etc., or move about from place to place resting underneath shade-bearing trees, pavements and verandahs of public or private buildings. Such households, referred to as 'Houseless Households' for census purposes, were enumerated on the night of February 28, 1991.

ix) **Criteria for enumeration of a person in a particular household :**

1) All those who normally stay and are present in that household during the entire period of enumeration i.e., from February 9 to Februgary 28, 1991 (both days inclusive);

2) All those who are known to be normally residing and had actually stayed during a part of the enumeration period (February 9 - 28, 1991) but are not present at the time of the enumerator's visit ;

3) Also those who are known to be normally residing and are not present at the time of the enumerator's visit but are expected to return before February 28, 1991 and

4) Visitors who are present in the household censused and are away from the place(s) of their usual residence during the entire enumeration period. For the purpose of enumeration such visitors will be treated as normal residents of the household in which they are actually found during the enumeration period provided they have not been enumerated elsewhere.

(x) **Literate** : A person who can both read and write with understanding in any language is 'literate'. A person who can merely read but cannot write, is not 'literate'. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of the age of 6 years or less are treated as illiterate.

(xi) **Workers and Non-workers** : For census purposes 'work' is defined as 'participation in any economically productive activity'. Such participation may be physical or mental in nature and would involve not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise. The reference period for determining whether a person is a worker or a non-worker is the year i.e., the 365 days, preceding the date of enumeration. The criterion is liberal and, even a person who has participated in the production of goods and services for a very brief period is entitled to be categorised as a worker. Depending upon the nature of his or her activity during the reference period, every person enumerated at the census is classified as either a worker or a non-worker.

Among 'workers' however there are two categories:

Main Workers : Those who have worked for a major part of the year i.e., for 183 days or more (6 months or more) during the reference period even though this may be in broken spells and in different occupations.

Marginal Workers : Those who have not worked for a major part of the year under reference i.e., those who have worked for less than six months (i.e., for less than 183 days) during the entire reference period.

In view of the past experience that women are often classified as non-workers because of non-reporting of their work or as those who have not worked for a major part of the year, special efforts have been made at the 1991 census for eliciting accurate information by asking probing questions.

In respect of main workers as also marginal workers, further details on the sector of economy in which they worked, the actual nature of work done by them, their employment status (i.e., employer, employee, unpaid family worker or own account single worker) have been gathered at the census.

Important terms such as cultivators, agricultural labourers and household industry are explained below.

a) **Cultivators**: For purposes of census, a person is working as a cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation as well. A person who has given out his or her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct the cultivation of land, will not be treated as 'cultivator'. Similarly, a person working in another person's land for wages in cash or kind or a combination of both will not be treated as ' cultivator'.

Cultivation involves ploughing, sowing and harvesting. For certain reasons, the growing of certain crops is not considered as cultivation and a person engaged in growing of such crops is not regarded as a cultivator. A person can be classified as cultivator or not, *only on the basis of the crops grown*. The growing of the following crops is considered as cultivation.

1. Cereal and Millet crops : Paddy, wheat, jowar, bajra, maize, ragi, barley, etc.
2. Pulses : Arhar, gram, kesari, moong, masur, urd, etc.
3. Fibre crops : Raw cotton, jute, mesta, sunhemp and kindred crops.
4. Oil Seeds : Sesamum, ground-nut, rape seed, mustard, linseed, sunflower, castor, etc.
5. Cash crop : Sugarcane

The growing of the following crops *is not considered* as cultivation :

1. Plantation crops : Tea, coffee, rubber, tobacco, pepper, cardamom, etc.
2. Edible nuts (other than groundnut) : Walnut, almond, cashewnut, etc.
3. Fruits : Bananas, apples, grapes, mangoes, oranges etc.
4. Coconut
5. Ganja, cinchona, opium and medicinal plants.
6. Betel nuts (areca)
7. Flowers
8. Roots and tubers, chillies and spices
9. Vegetables
10. Other crops not specifically included under cultivation.

b) **Agricultural Labourer** : A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation. The agricultural labourer has no right of lease or contract on the land on which he or she works.

c) **Household Industry** : Household Industry is defined as an industry conducted by the head of the household himself or herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in the case of urban areas. The larger proportion of workers in a household industry would consist of members of the household including the head. The industry

should not be run on the scale of a registered factory which would qualify to be registered under the Indian Factories Act. Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. The goods produced should not be exclusively for consumption by the household itself but should be wholly or partly for sale.

d) **Other Workers** : All workers, i.e., those who have been engaged in some economic activity during the reference period of last one year, who are not Cultivators or Agricultural Labourers or workers in Household Industry were categorised as 'Other Workers' (OW) at the time of census enumeration and further details about the nature of industry, trade or service in which they were engaged were gathered by the enumerators. On the basis of this descriptive information, at the tabulation stage, each such worker has been further categorised as belonging to one or the other of the following Industrial Categories based on Revised National Industrial Classification - 1987.

III Workers in livestock, forestry, fishing, hunting, plantations, orchards and allied activities;

IV Workers in mining and quarrying activities;

V(b) Workers in manufacturing, processing, servicing and repairs which are carried on as other than household industry;

VI Workers in construction;

VII Workers in trade and commerce;

VIII Workers in transport, storage and communications, and

IX Workers in other services.

(xii) **Non-workers** : All those who have not at all participated in any economic activity during the reference period of one year preceding the date of enumeration are classified as non-workers.

Depending upon the manner in which such non-workers engaged themselves for most of the time during the reference period of one year they are classified into one or the other of the following six categories at the time of census enumeration itself. However, the Primary Census Abstract presented in this volume does not furnish details according to the categories of non-workers but indicates the total number of non-workers by sex.

a) **Household duties** : This covers all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year.

b) **Students** : This will cover all full-time students including children attending school.

c) **Dependents** : This category includes all dependents such as infants, children not attending school and permanently disabled from work because of illness or old age. Dependents will include even able bodied persons who cannot be categorised in any other category of non-workers but are dependent on others.

d) **Retired Persons or Rentiers** : A person who has retired from service and is doing no other work i.e., not employed again in some full time work or not engaged in some other work such as cultivation, business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he or she does not have to work, will come under this category.

e) **Beggars** : This will cover beggars, vagrants or cases such as persons without indication or source of income and those with unspecified sources of subsistence who are not engaged in any economically productive work.

f) **Inmates of Institutions** : This will cover convicts in jails or inmates of a penal, mental or charitable institution even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc., in such institutions. But an undertrial prisoner enumerated in a jail would be recorded for the work he or she was doing before he or she was apprehended. Similarly, a person temporarily in a hospital or similar institutions would be recorded for the kind of work he or she was doing before he or she was admitted into the hospital or institution. But, for a long-term undertrial prisoner or convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work would not be taken into consideration. A person will be considered as 'Long-term' inmate if he or she is in such an institution for 6 months or more.

4. Brief History of the District* :

The Bangalore Rural district which was formed recently, has no history of its own, however for the purpose of this volume history of the erstwhile Bangalore district, from which the present Bangalore Rural district is carved out, is presented here. This district is named after erstwhile Bangalore district with suffix Rural. The name 'Bangalore' is the anglicised form of Bengaluru, which, according to popular belief, is derived from Bangalu -- itself a corrupt form of the word benda kalu (cooked beans) and uru, meaning a town. Tradition associates the Hoysala King Vira Ballala with the origin of this name and recounts how he got separated from his attendants during one of his hunting expeditions in this region, lost his way and after hours of wandering, reached the hut of an old woman at night and sought for the much needed food and shelter. This humble woman, it is said, offered cooked beans, which the king gladly ate, and made up a bed for him also. This episode, in a way, brought glory to the place and, the settlement began to develop further in view of the royal patronage. However, the founding of modern Bangalore is attributed to Kempe Gauda, a scion of the Yelahanka line of chiefs, who finally established himself at Magadi. He founded the town of Bangalore in 1537 A.D., and he got four watch-towers erected at the four cardinal points predicting that in course of time the town would extend upto those points and that a growth beyond those limits would spell a disaster for the town. The construction of Gavi Gangadhareshvara cave temple, Dodda Basavanna temple and also of Kempambudi tank are attributed to this chief. Among the places included in the district there are several others which are much more ancient than Bangalore proper and of such places Nandagudi of Hoskote taluk and Mankunda of Channapatna taluk deserve a special mention in view of the ancient remains discovered therein and the historical legends associated therewith.

Nandagudi, is said to have been the capital of Uttunga Bhuja, whose nephews, the Nanda princes, who were imprisoned by him secured their release and seized the kingdom. This account exhibits a close resemblance to that connected with the rise of the Kakatiyas. This family is deduced from the Pandavas in general and the line from Janamejaya to Kshemaka and his two sons. Their sons, Vishnuvardhana and Uttunga Bhuja did not agree with each other and the latter left Upper India and settled to the south of Godavari. His son, Nanda, founded Nandagiri. He married a Chola princess from whom he begot a son named Vijayapala, who later on founded the city of Mankunda or Makunda. History assigns the date of about 400 A.D. to Vijayapala, the founder of Mankunda.

Historically, the earliest dynasty which established its sway over this part of the country including Bangalore district is that of the Gangas. In about the second century A.D.,, the Gangas established themselves at Kolar (a place which is hardly at a distance of 75 km from Bangalore City) from which they took the title Kuvalalapuravaradhishvara. The territory comprised in Bangalore district formed part of Gangavadi ninety-six-thousand and Honganur of Channapatna taluk was the chief town of a sub-division, called Chikkagangavadi, which occupied the Shimsha valley. During the seventh century, Makunda was a place of great importance and was the royal residence of Bhuvikrama and also of Sivamara. The earliest Ganga grant found in this district is dated in 430 A.D. and relates to King Avinita. In the eighth century, Shripurusha made Manyapura (Manne of Nelamangala taluk) his royal residence. During the reign of Satyavakya II, in about 870 A.D., a Nagattara chief is said to have fixed sluices to two tanks at Agara (near Bangalore East) and in about 890 A.D., Ereyappa who killed Nolamba King Mahendra and earned the title Mahendrantaka, is referred to as ruling over the country. Obviously, though the Gangas were reigning supreme, certain parts of this district, especially in the east, were held by the Pallavas and the Nolambas for varying periods of time.

Inscriptions belonging to the reign of Rajendra Chola and Kulottunga Chola II discovered in different parts of this district amply testify to the fact that Bangalore district too was annexed by the Cholas who overran the Gangas and established their unquestioned supremacy in this part of the country by early eleventh century. After their conquests, among other things, the Cholas renamed Malurpatna of Channapatna taluk as Nikarili-Cholapuram and the area around Manne of Nelamangala taluk as Vikrama Chola-mandalam. Magadi town is said to have been founded by one of the Chola kings and the renowned king Chodaganga was born in

Hejjaji-Twelve of Dodballapur taluk. The next important dynasty to hold sway over the district is that of the Hoysalas. Inscriptions of the Hoysala Kings, including those belonging to Vira Ballala (1172 to 1219 A.D.) are found all over the district. Shantala Devi, the queen of King Vishnuvardhana, it is said, breathed her last at Shivaganga of Nelamangala Taluk. When the Hoysala Kingdom was divided between the brothers Narasimha III and Ramanatha, the northern parts of Bangalore district came to be included in the possessions of Ramanatha who used to hold his court in Kundana of Devanhalli taluk. Honganur of Channapatna taluk was the provincial capital and the residence of a Hoysala governor. Yelahanka and its neighbourhood have yielded several inscriptions relating to the last days of the Hoysala rule and the reign of Ballala III. Shortly after the fall of Hoysala rule, Bangalore district too became a part and parcel of the great Vijayanagara empire. An inscription discovered in Magadi taluk is dated in 1368 A.D. and belongs to the reign of Bukka I. It records the reconciliation effected by Bukka between the Jainas and Vaishnavas of his kingdom and thus indicates that Bangalore district too formed part of his empire. Under the patronage of the Vijayanagara sovereigns, as in other parts of the empire, in Bangalore district too, local rulers flourished and attained glorious positions. Avati Nad Prabhus have an unique place in the modern annals of Bangalore district. The following story is current about the origin of this line of chiefs.

About the end of the 14th century, a party of travellers consisting of seven farmers and their families halted at the foot of Ramasvami-betta to the east of Nandi Hill. They were of Telugu origin. They worshipped Bairadeva and had the strange custom of amputating the ring and little fingers of the right hand of thier daughters before marriage. The leader of this group was Rana Baire Gauda who had been forced to abandon his home at Alur near Conjeevaram in order to save his daughter from a powerful suitor. On the night of their encampment, 'Rana Baire Gauda was directed in a dream to settle in that neighbourhood and in accordance thereof, huts were built and the village Abuti (now called Avati) came to be established. Sometime later, they resolved to separate and while Rana Baire Gauda remained at Avati, his son moved out and founded Devanhalli, Dodballapur and Chikballapur. Sanna Baire Gauda went to Sugatur and later became the chief of Kolar and Punganur and also the founder of Hoskote, and Jaya Gauda established himself at Yelahanka. The destination of the other three is not known.

Jaya Gauda, who ruled for 15 years, acquired the title Yelahanka Nadu Prabhu (Lord of Yelahanka-nad) and was succeeded by his son Gidde Gauda. It is only after the goddess, Kempamma, the consort of Baire Deva, was appeased by prayers and austerities that this Gidde Gauda was rewarded with a son whom he named Kempa Nanje Gauda. This chief governed the territory with benevolence for about 70 years (1443-1513 A.D.). His son Kempe Gauda distinguished himself as the most illustrious ruler of the family. In 1537, he founded Bangalore at its present location, duly fortified it and made it his capital. In appreciation of his good deeds, zeal and devotion to the Vijayanagara throne, King Achuta Raya granted him the right to administer a territory of twelve hoblis around Bangalore which together yielded a revenue of 30,000 pagodas. Kempe Gauda cherished a greater ambition. Not being content with the feudal honours which he had achieved, Kempe Gauda established a mint, issued Baira Deva coins tried to appropriate the prerogatives of royalty for himself. It was at this juncture that his patron Achuta Raya died and Sadashiva Raya ascended the throne under the guardianship of Rama Raya. Sensing the danger posed by Kempe Gauda, Rama Raya summoned him to Vijayanagara court in a routine manner. On reaching the court, Kempe Gauda was seized and cast into a prison to suffer for his misdemeanours. Kempegauda secured his release and reinstatement after he suffered imprisonment for 5 years and also paid a heavy fine. Five years later, he was succeeded by Immadi Kempe Gauda - the chief who is known to have built a large number of tanks in various parts of the district and also the temple of Someshvara at Ulsoor and at Magadi. He extended his territory westwards and took over Sawandurga as well as Magadi. While the chiefs belonging to the main line of the Avati family flourished in the immediate neighbourhood of Bangalore, the chiefs of Devanhalli and Dodballapur branches too administered the territories assigned to them from time to time, in what may be termed as a mediocre manner. The Sugatur Chiefs usually had the name Tamme Gauda and thier possessions included part of the present

Kolar district. One of these chiefs founded the town of Hoskote and extended his territory from Anekal to Punganur. He earned the title Chikka Raya from the Vijayanagara King in recognition of the able manner in which he repelled the aggressors. The western parts of the district were, during this period, under the control of Jagadeva Raya who had his capital at Channapatna and administered a large territory. Chamaraja Wodeyar annexed Channapatna and its neighbourhood in about 1630 A.D.

In 1638 A.D. Randulla Khan, the Bijapur general captured Bangalore, forced Kempgauda to retire to Sawandurga and made Bangalore his chief residence for a brief period. After his return to Bijapur, Shahji was appointed governor of the southern Carnatic districts subdued by the Bijapur forces. Bangalore, Hoskote, Dodballapur, Kolar and Sira were granted as a jagir to Shahji and he too stayed at Bangalore for sometime and then shifted his residence to Dodballapur and Kolar. On the death of Shahji in 1664 A.D. the administration of the Jagir devolved on his eldest son Venkoji. Later, with a view to establish his claims over his parental estate, Shivaji overran these territories in about 1677. Thereupon the brothers came to an amicable settlement according to which Bangalore and its neighbourhood remained in the possession of Venkoji. In the meantime, with their capital at Shrirangapattana, the Wodeyars of Mysore had established themselves as an important and rising power in the south. In 1654 A.D. Kanthirava Narasa Raja Wodeyar attacked and defeated Kempe Gauda of Magadi and forced the latter to pay a heavy contribution. A couple of decades later, Bangalore itself was annexed to Mysore under the following circumstances. Shivaji died in 1680 A.D. and by 1687 Venkoji, who had established himself on the throne of Tanjore, found his distant dominion of Bangalore to be an expensive possession. Therefore he wanted to sell it away to the highest bidder, namely Chikka Deva Raja Wodeyar of Mysore for Rupee three lakhs. The latter sent a detachment to occupy the estate and pay the money. But, at this stage the negotiations became protracted and became a matter of notoriety. Hari Raja, the Maratha Commander-in -chief at Ginjee, and Aurangzeb who had just raised the siege of Golconda simultaneously turned thier attention to the transactions pertaining to Bangalore and both of them sent a detachment each. Khasim Khan, the general of Aurangzeb, arrived first and occupied the place with relative ease. The detachment of Hari Raja, finding itself forestalled, marched back to the base. Then, Khasim Khan accepted the large sum of money and handed over the possession of Bangalore which thenceforth became a part of Mysore Kingdom.

According to an inscription it was in the year 1695 that the Venkateshvara temple near the fort of Bangalore was erected by Chikka Deva Raja Wodeyar and endowed by his son, Kanthirava Narasa Raja. In 1689, Khasim Khan captured Dodballapur. Two years later, in 1691, Dodballapur came to be bestowed upon Sheik Abdullah Faruk - a descendant of one of the courtiers at Delhi. In 1728, Deva Raja, the Dalavayi of Dodda Krishna Raja Wodeyar, attacked Magadi and forced Kempe Gauda to surrender his territories which included the then impregnable Sawandurga hill-fort and the wealth accumulated therein over a period of nearly two hundred years. Kempe Gauda was taken to Shrirangapattana as a State prisoner. In 1749, Devanhalli was annexed to Mysore Kingdom. It was during the siege of Devanhalli that Haidar Ali distinguished himself as a volunteer horseman. In 1758, the fort and the neighbourhood of Bangalore were conferred on Haidar Ali as a Jagir in recognition of his services to the State. In 1761, Haidar Ali secured Hoskote and Dodballapur, the Jagir of Abbas Kuli Khan, from Basalat Jang. It was during this year that Haidar Ali virtually took over the administration of the entire Mysore kingdom of which his own personal estate in and around Bangalore was only a small part. In 1791, Lord Cornwallis captured Bangalore from Tipu Sultan on behalf of the British. Soon Devanhalli and other places were also annexed and the hill-forts like Sawandurga, Ramagiri, Sivanagiri etc., too were captured. On the death of Tipu Sultan in 1799, Bangalore district came to be included in the treaty of Shrirangapattana as the territory of the Wodeyars of Mysore. Under the restored government which followed, the districts of Bangalore and Kolar constituted the Bangalore Faujdari, which was afterwards called the Bangalore Division. This position continued until the formation of Nandidurg Division in 1863. Thereafter the name Bangalore Division came to be confined to the area included in erstwhile Bangalore district. During the past hundred years and more the boundaries of the district have remained almost unchanged, though along with the other parts of the State, this district

too has witnessed several administrative and political changes. During the decade 1981-91 the erstwhile Bangalore district was bifurcated into two districts, viz., Bangalore and Bangalore Rural. The Bangalore Rural district consists of eight taluks viz., Channapatna, Devanhalli, Dodballapur, Hoskote, Kanakapura, Nelamangala, Magadi and Ramanagaram and the remaining three taluks, viz., Anekal, Bangalore North and Bangalore South forms Bangalore district. It may be incidentally mentioned that Ramanagaram, which was formerly known as Closepet, was a sub-taluk till the 1931 census and also that after 1981 census but before 1991 census the boundaries of Devanhalli, Hoskote, Nelamangala and Magadi taluks were altered while forming the Bangalore and Bangalore rural districts.

5. Location and Physical Aspect1*

Bangalore Rural district is located in the south-eastern corner of Karnataka State. Spanning a geographical area of 5815 square kilometres, the district lies stretched between the latitudinal parallels of 12 degree 15 minutes North and 13 degree 35 minutes North on the one hand and the longitudinal parallels of 77 degree 05 minutes East and 78 degree East on the other. The district surrounds the Bangalore district on all the sides except south-west portion, as a result the outline of the district roughly resembles as a reversed Question Mark which appears to be resting on its south-west corner. The maximum distance from the southern tip to the northern tip is about 135 km and that between the western and eastern tip is about 95 km. The district lies in the southern maidan region of the State and is by and large an open country which is lacking in natural barriers. Bangalore Rural district is bounded by Kolar district on the north-east and by Bangalore district both on the east and south-east and also by Dharmapuri district of Tamil Nadu in the south-east, by Mysore district on the south, by Mandya district on the south-west and by Tumkur district on the west and north-west.

A major portion of Bangalore Rural district, especially the central belt, lies in the Arkavati valley. The Arkavati river discharges itself into the Cauvery which flows for a short distance in the southern base of the district. The basins of the Dakshina Pinakini and the Shimsha account for small portions of land in the eastern and western sectors respectively. The central, northern and eastern parts of the district are characterised by an open countryside consisting of vast stretches of undulating plains. The uplands are seen to be covered with low scrub jungles and the low-lands are dotted with series of irrigation tanks. In the west, the terrain is rugged and broken and is composed of a succession of hills and valleys interspersed by rocks and rapid streams with sandy beds. In the south, the hills get closer. The lands are covered with denser vegetation and the general level declines as one moves south towards the Cauvery. Among the hills found in the district the following are notable : Sivagange betta, Sawandurga betta, Banatimari betta, Nijagal betta, Narasimhadevara betta, Mudavadi betta, Bilikal betta, Ramagiri and Kabbaldurga.

Arkavati, Kanva and Dakshina Pinakini (also known as the Southern Pennar) are the important rivers which flow through Bangalore Rural district from north to south. Arkavati is a tributary of the Cauvery and its source is a well in the south-western portion of Nandi Hills. Taking a south-westerly route, the river enters Dodballapur taluk, passes through the eastern portion of Nelamangala taluk, receives the rivulet, Kumadvati from the west, and then flows through the Magadi taluk passing east of the Sawandurga. Penetrating between the hills, Ramagiri and Shivanagiri, it runs through the Ramanagaram taluk and then through Channapatna taluk whereafter it flows through Kanakapura taluk. Another tributary, Vrishabhavati, meets the river near Muduvadi durga and finally the river flows into the Cauvery on the southern borders of the district. The length of the mainstream is about 190 km and, though the river is not exactly a seasonal stream, in the summer months it presents the usual form of a sandy bed with a small current of water flowing at one side. However, the holes scooped in the sandy bed, furnish a ready supply of water. During the rainy season, it is a formidable stream, swollen by the mountain torrents, especially near Magadi whereafter it traverses mainly amidst a wild countryside full of rocky hills and precipices. The

1* *Source : Census of India 1981, District Census Handbook, Bangalore District, Karnataka, Bangalore.*

Kanva river emerges from the hills to the north of Malur in Channapatna taluk and enters a broad and fertile valley that stretches out upto the borders of the taluk. A reservoir has been formed by building a dam across the river near Abbur and its waters are being effectively utilised for purposes of irrigation. The Dakshina Pinakini takes its name from Pinaka, the bow of Shiva. Along with its northern counterpart it rises in the range of Nandi Hills at Chennakeshava betta. Its course, after entering Bangalore Rural district, is southwards and it passes through the taluks of Devanhalli and Hoskote where it forms the large lakes known as Jangamakote Kere and Hoskote Kere. Among the other rivulets and streams a mention may be made of the Sanatkumara-hole, the Suvarnamukhi and the Vrishabhavati. Bangalore Rural district is noted for its tanks, both large and small, which have all along been providing water for irrigation purposes as well.

Bangalore Rural district forms part of the Deccan plateau and the rock formations here belong to the category of 'Peninsular Gneiss'. The predominant type of rock here is a light to dark-grey or whitish biotite granitic gneiss which varies in texture, structure and appearance from place to place. The darker minerals are generally arranged with a simple parallel orientation. But in several places there are the streaky, curly and banded types of rock formations also. On the westernside of the district, passing northwards from Kanakapura, through Ramanagaram and Magadi, there is the band of an intrusive, coarse, grey uniform or porphyritic granite (of Closepet granitic series - Ramanagaram was earlier known as Closepet) which forms chains of rounded bosses of an altogether different topographic feature from that of the gently undulating gneissic plains. The schists occur at a few places in the form of isolated stringers of a dark hornblende granulite, with its contact modified phase of the secondary pale-green pyrokene rock. Laterite occurs in horizontal layers capping chiefly the underlying genissic rocks, to the north of Hoskote. A group of dykes of charnockite affinities and some hornblendic dykes are found conspicuously to the north-west of Harohalli. The district is poor in mineral wealth. Asbestos, lime kankar, graphite, garnets and kaolin are the only minerals of economic value that are found to occur at a few places in small quantities. Potter's clay is however available in plenty and this is mainly obtained from the tank silts. Kaolin of a better grade which is suitable for fire-bricks is found near Dodballapur, Hoskote, Gollahalli and Balagere. Granite is of great utilitarian value and this is available in abundance all over the district. The granite slabs and size-stones quarried in and around Dodballapur are famous for their superior quality. The predominant soil type prevailing in the district is the red-loam.

The topographical and climatic features of the district are subject to small regional variations and are, by and large, favourable for the growth of a variety of plants, shrubs and trees. The last few decades have witnessed an almost unabated denudation of forests due to over-exploitation and the simultaneous expansion of agriculture and industry. The forests of the district, especially of the central and the western belts, contain the valuable sandalwood, though in much depleted numbers. Among the timber- yielding species, a mention may be made of the teak, the beete and the honne. Acacias, dindiga, honge and jalari (lac tree) are also found in abundance. The different kinds of ficus with a spontaneous growth include the mavu, halasu, nerale and the ippe. Trees of a lesser order which are useful as firewood and bamboo are also found in almost all the forest areas. In addition, there are casuarina plantations and eucalyptus plantations and quite a few farmers have found it more profitable to raise such plantations than crops in agricultural fields with poor soils. These trees yield poles which are required by construction workers and also provide firewood which is in great demand. Since the forest cover is quite sparse and most of the forest areas are small and are surrounded by agricultural lands, very few species of wild animals are found in the forests of the district. The larger game consisting mainly of cheetah or panther and the wild dog and animals such as the porcupine, jackal, wild cat etc., are mostly confined to the forests of Magadi, Ramanagaram and Kanakapura taluks. Occasionally herds of elephants make an appearance in the forests and villages of Kanakapura taluk.

The climate of Bangalore Rural district is salubrious and very aggreable. It is devoid of extremes. However within the district itself one may find Bangalore and its neighbourhood somewhat cooler during the winter as well as the rainy season.

This feature is mainly attributable to its elevation with reference to the mean sea level and also its sylvan surroundings. The atmosphere is neither very humid nor very dry and the mean values of relative humidity in the wettest and driest months are found to be 83 and 63 respectively. The year is usually divided into three seasons, namely summer, rainy season and the winter. The latter half of the rainy season in fact corresponds to the autumn season. During the summer months of March, April and May both the days and nights are quite warm. Generally April is the hottest month and even on the hottest day the maximum temperature rarely touches 37 degree celcius. Towards the end of April and during May the oppressive heat is often relieved by the sharp showers, that descend during the evenings, accompanied by thunder storms. The rainy season starts in June with the onset of south-west monsoon and lingers on almost till the end of November. Occasionally there would be spells of cyclonic weather during the month of December as well. The months of December, January and February constitute the winter season and the period from mid-December to mid-January happens to be the coldest. Even on the coldest day, it may be noted, the minimum temperature stays well above the 11 degree centigrade mark, though in a normal year it hovers around a much higher figure.

The mean annual rainfall for Bangalore Rural district is 794 mm. The rainfall ranges between 625 mm in the eastern most parts and 875 mm in the southern and western parts. The south-west as well as the north-east monsoon are both of equal importance, though the former lasts for a longer period and brings forth a relatively greater quantity of rainfall. Generally, September is the month with the heaviest rainfall and October ranks next to it. It is the rains which precipitate during this period that bring forth enough supplies to fill the innumerable tanks that are found scattered all over the district. By and large, the rainfall is evenly distributed from the agriculturists' point of view and is also quite dependable. Occasionally this district too has suffered from deficit and capricious rainfall conditions and the resultant phenomenon of crop failure. By and large the district enjoys comparatively good seasonal conditions.

6. Administrative Divisons and Jurisdictional Changes during the decade 1981-91

The Bangalore Rural District has been carved out after the 1981 census by altering the jurisdiction of the erstwhile Bangalore District into two districts viz., Bangalore District and Bangalore Rural District vide the Government of Karnataka Notification No.RD 35 LRD 86 dated 21.7.1986. The Bangalore Rural district comprises Channapatna, Devanhalli, Dodballapur, Hoskote, Kanakapura, Magadi, Nelamangala and Ramanagaram taluks. The Bangalore Rural district is included in Bangalore revenue division having its headquarter at the Bangalore City and the jurisdiction of the division covers the districts of Bangalore, Bangalore Rural, Kolar, Tumkur, Chitradurga and Shimoga. The Bangalore Rural district has been knitted with 8 taluks comprising 1883 villages (grouped into 35 hobblies) and 9 towns. These taluks are administered under two revenue sub-divisions viz., Dodballapur and Ramanagaram, while the first named sub-division enjoys its jurisdiction over Dodballapur, Devanhalli, Hoskote and Nelamangala taluks, the Ramanagaram sub-division includes in it Ramanagaram, Magadi, Kanakapura and Channapatna taluks. It may be mentioned here that both the headquarters of Bangalore Rural district and the Dodballapur sub-division are located in Bangalore City. Due to re-organisation of the erstwhile Bangalore district the boundaries of Nelamangala, Devanhalli, Hoskote and Magadi taluks have under gone changes and certain villages were transferred into the Bangalore district. However, the jurisdiction of the other four taluks viz., Ramanagaram, Channapatna, Kanakapura and Dodballapur has not been changed during the decade 1981-91. Further, during the last decade no new revenue village has been constituted and also there has been no amalgamation or merger or change in the nomenclature of village in the above taluks.

For the purposes of development and implementation of the programmes 'Zilla Parishad' having jurisdiction over the district has been constituted for Bangalore Rural district also as in the case of other districts of the State; under this 'Zilla Parishad' there are eight taluk panchayats (named after headquarters town). The jurisdiction of each taluk panchayat is coterminus with the

general administrative jurisdiction of the taluk of the same name but excluding the areas incorporated in the statutory towns. In order to conform to the all India pattern in the presentation of the 1991 census data, instead of the term 'Taluk Panchayat Samithi' the term 'C.D.Block' has been made use of at the appropriate contexts in this volume.

According to the 1991 census, there are 9 towns and 1,883 villages. As compared to 1981 census, though the number of towns remains unchanged but in case of the erstwhile Devanhalli, Hoskote, Magadi and Nelamangala taluks certain villages were transferred into the newly created Bangalore district. Two statements viz., (1) the number of villages from each taluk of the district and the decadal variations and the reasons for the changes in number of villages if any and (2) Particulars of villages which are fully or partly included in the urban areas of the district are provided herewith. As already indicated no jurisdictional changes had occured in respect of Channapatna, Kanakapura, Ramanagaram and Dodballapur taluks.

Due to the effect of re-organisation, the erstwhile Nelamangala, Devanhalli, Hoskote and Magadi taluks together lost 239 villages along with an area of about 561 sq.kms. Names of the villages and area involved in this transfer is furnished in the Annexure to Statement-1.

Variations in number of towns during 1981-91

During the 1981 census the erstwhile Bangalore district had 27 towns whereas the present Bangalore Rural district has 9 towns. While the towns Devanhalli, Vijayapura, Dodballapur, Magadi, Channapatna, Ramanagaram, Kanakapura are Town Municipal Councils, Nelamangala town is a Mandal Panchayat. The Nelamangala town lost its municipal status during the decade and since this was a town during 1971 and 1981 censuses it was considered as a town during 1991 census also. The area of about 2.85 sq.kms included in the erstwhile municipality of Nelamangala town has been considered as the area of the town for 1991 census. During 1991 census out of 9 towns, no town of the district was delineated as an urban agglomeration since no outgrowths were reported for them. Hence the 9 towns were considered as a single entity without any appendages.

Statement showing the number of villages/towns in each taluk of the District, decadal variations if any and reasons thereof

Sl No	Taluk	Total No of Villages according to the list finalised for		No. of Towns as per 1991 census list	Reasons for variation in the No of Villages between 1981 and 1991 census
		1991 Census	1981 Census		
1	2	3	4	5	6
1	Channapatna	145	145	1	-
2	Devanhalli	220	270	2	All the 52 villages* of Jala hobli have been transferred to Bangalore North Taluk of which two revenue villages viz Suggatta and Hunsamaranahalli were treated as Outgrowths of Bangalore Urban Agglomeration since 1981 Census
3	Dodballapur	298	299	1	The portion of Rojipura village which was listed in the rural area in 1981 census has now been fully incorporated in the limits of Dodballapur town
4.	Hoskote	299	362	1	All the 63 villages* of Bidarhalli hobli have been transferred to Bangalore South Taluk.
5	Kanakapura	258	258	1	-
6.	Magadi	285	335	1	All the 51 villages* of Javerekere hobli have been transferred to Bangalore South Taluk of which one village viz Kutlu revenue village is fully submerged under Chamarajasagara reservoir Hence this village has not been shown under any of these taluks.
7	Nelamangala	243	316	1	All the 73 villages* of Dasanapura hobli transferred to Bangalore North Taluk
8	Ramanagaram	135	135	1	-

7. Brief Analysis of Data

(i) Area and Population

During 1981 census the undivided Bangalore district had 8,005 sq.kms. of area. After bifurcation, the area of Bangalore Rural district had gone down to 5,815 sq.kms. The Bangalore Rural district occupy the 16th place in terms of area and 15th place in terms of population among the districts of the State in 1991 census. In terms of proportion the district contributes 3.03 per cent of the total area and 3.72 per cent of the total population respectively for the State.

However, according to the village records and also as reported by the local bodies, the aggregate area of the villages and towns of the district is 5,879 sq.kms. The difference (64 sq.kms.) with the Surveyor General, India figures may be attributed to the difference in methods employed by two sources for measuring the area of the district. Moreover, the area figures for the smaller units such as villages and towns are not available with the Surveyor General.

The total geographical area of the district (5815 sq.kms) is unevenly distributed among the 1883 villages and 9 towns comprised in the 8 taluks of the district. The average geographical area of a taluk of the Bangalore Rural district works out to 727 sq.kms. Among the taluks the area of Kanakapura taluk is the largest (1,606 sq.kms) and Devanhalli taluk is the smallest (449 sq.kms). In otherwords, the Kanakapura taluk has 27.61 per cent and Devanhalli taluk has 7.77 per cent of the total area of the district. The Dodballapur, Kanakapura, Magadi and Ramanagaram taluks together have 65.78 per cent area of the Bangalore Rural district.

According to the 1991 census, the total population of the Bangalore Rural district is 16,73,194 persons, and this population is unevenly distributed. However, during the 1981 census the undivided Bangalore district had 4,947,610 persons. After adjusting the population of the Bangalore Rural district as per the 1991 census jurisdiction the 1981 census population works out to 1,452,044 persons. Among the taluks during the 1991 census Kanakapura taluk occupy the first place both in area as well as in population in the district. The Channapatna taluk though in terms of area stands at the 6th place it occupies the second place in respect of population. In the case of Dodballapur the percentage of area (13.60) and percentage of population (13.43) for the district are almost the same. Nelamangala taluk with 8.59 per cent of area occupies the last place in terms of population for the district.

(ii) Rural and Urban Composition

Table-1 furnished below gives the talukwise data i.e., C.D.Blockwise distribution of the rural population of the district by sex and also indicates the number of villages in each taluk.

Table 1 : Population and Number of Villages, 1991

Sl. No.	Name of C.D.Block/ Taluk Rural	Population of Villages			No.of Villages	
		Persons	Males	Females	Total	Inhabited
1	2	3	4	5	6	7
1.	Channapatna	183994	93894	90100	145	133
2.	Devanhalli	118271	60558	57713	220	191
3.	Dodballapur	170038	87072	82966	298	271
4.	Hoskote	162966	84074	78892	299	254
5.	Kanakapura	278585	145073	133512	258	238
6.	Magadi	174406	88304	86102	285	269
7.	Nelamangala	126129	64179	61950	243	231
8.	Ramanagaram	155519	80262	75257	135	126
	District Rural	1369908	703416	666492	1883	1713

Amongst the 1,673,194 persons enumerated in Bangalore Rural district at the 1991 census 1,369,908 persons reside in the rural areas while the remaining 303,286 persons are residing in the urban areas. In other words 81.87 per cent and 18.13 per cent of the population live in the rural and urban areas of the district respectively. Amongst the taluks, highest percentage of population live in the rural areas of Magadi taluk (89.88 per cent) followed by Kanakapura taluk (88.03 per cent), Nelamangala taluk (87.77 per cent) and Hoskote taluk (86.47 per cent). Devanhalli taluk has 73.61 per cent of population in rural areas which is the lowest among the taluks. The lowest percentage of persons living in urban area is found in Magadi taluk (10.12 per cent) and the highest in Devanhalli taluk (26.39 per cent) followed by Ramanagaram taluk (24.49 per cent).

It may also be observed from the Table-1 that out of the 1,883 villages in the district 1,713 villages are inhabited and 170 are uninhabited. In other words, 90.97 per cent of the villages of the district

are inhabited and 9.03 per cent of the villages are uninhabited. Among the taluks, out of 1,883 total villages of the district, Hoskote taluk with 299 villages (15.88 per cent) has the highest number closely followed by Dodballapur taluk 298 villages (15.83 per cent). While Ramanagaram taluk contain the least number of villages (7.17 per cent).

The number of inhabited villages is also highest in Dodballapur taluk (271 villages or 15.82 per cent), closely followed by Magadi taluk i.e. 269 villages (15.70 per cent). The least number of inhabited villages are reported from Ramanagaram taluk i.e., 126 (7.36 per cent).

During the 1991 census, 170 villages constituting 9.03 per cent of the total number of villages in the district, have returned a 'nil' population. These uninhabited villages are reported from all the 8 taluks and the largest number is reported from Hoskote taluk i.e., 45 villages accounting 26.47 per cent of the total uninhabited village and this is followed by Devanhalli taluk which accounts for 17.06 per cent. Channapatna and Nelamangala taluks have 12 uninhabited villages each (7.06 per cent). Ramanagaram taluk contains the least number of uninhabited villages i.e., 9 which constitutes 5.29 per cent. The talukwise distribution of inhabited villages in the district is uneven and the range of variation viz., 126 in Ramanagaram and 271 in Dodballapur is quite large.

As may be noticed from Table-1 the rural population of the district is very unevenly distributed among its 8 taluks (or C.D.Blocks). The taluk- rural population varies between a minimum of 118,271 persons in Devanhalli and a maximum of 278,585 persons in Kanakapura. The average population per taluk works out to 171,238 persons. Apart from Kanakapura, the other taluks with a population larger than the district average are Channapatna and Magadi. The aggregate population of these 3 taluks constitutes 45.60 percent of the rural population of the district. Dodballapur taluk holds the fourth place in population with 12.41 per cent, while Devanhalli taluk with 8.63 per cent occupies the lowest place preceeded by Nelamangala with 9.21 per cent.

Table 2 : Population and Number of Towns, 1991

Sl. No.	Name and Civic Administration Status of Towns	Population		
		Persons	Males	Females
1	2	3	4	5
1.	Channapatna (TMC)	55209	28324	26885
2.	Devanhalli (TMC)	18253	9458	8795
3.	Dodballapur (TMC)	54609	28325	26284
4.	Hoskote (TMC)	25533	13160	12373
5.	Kanakapura (TMC)	37873	19655	18218
6.	Magadi (TMC)	19646	10150	9496
7.	Nelamangala (MP)	17567	9084	8483
8.	Ramanagaram (TMC)	50437	26205	24232
9.	Vijayapura (TMC)	24159	12454	11705
	Total Urban	303286	156815	146471

As may be seen from Table-2, the urban population is also distributed in an uneven manner amongst the 9 towns of the district. Out of 303,286 persons of the total urban population of the district 156,815 are males and 146,471 are females. The contribution of urban population of this district to the State urban population is 2.18 per cent, and the average population per town is 33,699. This population average exceeds in 4 towns. The townwise population is the highest in Channapatna (55,209) and the lowest in Nelamangala (17,567). The contribution of these two towns to the urban population of the district is 18.20 per cent and 5.79 per cent respectively. The other two big towns of the district are Dodballapur (54,609 persons or 18.01 per cent), and Ramanagaram (50,437 persons or 16.63 per cent). Of the 9 towns, 8 towns are statutory towns with Town Municipal Council status and only Nelamangala town is administered by an interim Mandal Panchayat. A size group classification of towns adopted for the country indicates that the district does not have a Class-I town (i.e., a city with a population of 100,000 plus), the towns viz., Channapatna, Dodballapur and Ramanagaram belong to Class-II category (50,000 to 99,999) while Hoskote, Kanakapura and Vijayapura belong to Class-III category (20,000 to 49,999) and the remaining towns viz., Devanhalli, Magadi and Nelamangala belong to Class-IV category (10,000-19,999). There are no towns belonging to either Class-V category (5,000 to 9,999) or Class-VI category (5,000 and below population) in the district. In terms of proportions to the district urban

population Class-II towns account for 52.83 per cent, Class-III towns 28.88 per cent and Class-IV towns 18.29 per cent. During 1981 census Channapatna town belonged to Class-II category (50,275), while Dodballapur (47,168) and Ramanagaram (44,005) belonged to Class-III category.

(iii) Classification of new places as towns, declassification and or merger of old towns during the decade 1981-1991

As in 1981, in 1991 too, Bangalore Rural district had 9 towns only and thus there has been neither an addition nor a reduction in the number of towns during the decade. No new place has been classified as a town at the 1991 census. At the same time, none of the towns of the 1991 census has been either declassified or has lost its independent status due to a merger with some other town.

Table 3 : New Towns/Towns Declassified, Merged in 1991 Census

Particulars	Name of Town	Population
1	2	3
(a) Added	-	-
(b) Declassified	-	-
(c)Wholly merged with other town	-	-
(iv)Decadal variation in Population	1981-1991	

A comparative idea about the decadal variation in the population of the district and its constituent taluks, with rural-urban breakup, may be had from the details furnished in Table-4 in which the proportion of urban population to the total population of each unit is also indicated in respect of the two censuses.

Table 4 : Decadal change in distribution of Population

Taluk	Population						Percentage decadal variation (1981-91)			Percentage of urban population	
	1981			1991							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1981	1991
1	2	3	4	5	6	7	8	9	10	11	12
1. Channapatna	218063	167338	50725	239203	183994	55209	9.69	9.95	8.84	23.26	23.08
2. Devanhalli	135186	99987	35199	160683	118271	42412	18.86	18.29	20.49	26.04	26.39
3. Dodballapur	191288	144120	47168	224647	170038	54609	17.43	17.98	15.78	24.66	24.31
4. Hoskote	156592	139054	17538	188499	162966	25533	20.38	17.20	45.49	11.20	13.55
5. Kanakapura	272437	242276	30161	316458	278585	37873	16.16	14.99	25.57	11.07	11.97
6. Magadi	203915	186292	17623	194052	174406	19646	7.43	6.99	11.48	9.47	10.12
7. Nelamangala	125469	112895	12574	143696	126129	17567	14.53	11.72	39.71	10.02	12.23
8. Ramanagaram	172383	128378	44005	205956	155519	50437	19.48	21.14	14.62	25.53	24.49
Total Rural	1452044	1197051	254993	1673194	1369908	303286	15.23	14.44	18.94	17.56	18.13

It may be observed that during the decade the Bangalore Rural district has witnessed a net addition of 221,150 persons or 15.23 per cent. While in the case of the rural areas the net addition is 172,857 persons and for urban areas it is 48,293 persons.

This addition is unevenly distributed in the rural and urban areas of the 8 taluks. Kanakapura the most populous taluk of the district has witnessed highest addition of 44,021 persons. The lowest net increase is found in Magadi taluk with 13,246 persons preceeded by Nelamangala with 18,227 persons. The three taluks viz., Dodballapur, Kanakapura and Ramanagaram together account for 50.17 per cent of net addition to the total population of the district.

It may be observed from Table-4 that this district has registered a decadal growth rate of 15.23 per cent (adjusted as per the 1991 census jurisdiction) which is below the state average decadal growth rate of 21.12 per cent. Among the taluks, Hoskote tops the list with a decadal growth rate of 20.38 per cent followed by Ramanagaram (19.48 per cent) and Devanhalli with 18.86 per cent. This growth rate is also higher than the district average in the taluks of Dodballapur (17.43 per cent) and Kanakapura (16.16 per cent). While the lowest decadal growth rate is reported from Magadi taluk with 7.43 per cent preceeded by Channapatna taluk (9.69 per cent).

The rural-urban break-up shows that the rural population (78.16 per cent of the total population of the district) has registered a decadal growth rate of 14.44 per cent. The highest rural growth rate has been reported from Ramanagaram taluk (21.14 per cent) followed by Devanhalli (18.29 per cent). The district average rural growth rate has been exceeded in other taluks viz., Dodballapur (17.98 per cent), Hoskote (17.24 per cent), Kanakapura (14.91 per cent). The lowest decadal rural growth rate has been reported from Magadi taluk (6.99 per cent). In the case of urban population of the district (which forms 21.84 per cent of the total population of the district) there was a decadal growth rate of 18.94 per cent which is slightly more than the rural growth rate of 14.44 per cent.

The rural and urban growth rates show that the urban growth rate is higher than the rural growth rate in all the taluks except in Channapatna (9.95 per cent rural against 8.84 per cent urban) and in Dodballapur (17.98 per cent rural against 15.78 per cent urban). Among the 8 taluks the highest urban growth rate can be noticed in Hoskote taluk (45.59 per cent) followed by Nelamangala (39.71 per cent) while the lowest urban growth is recorded in Channapatna (8.84 per cent).

(v) Trends of Urbanisation

During the 1991 census 303,286 persons are reported as residing in the urban areas of the district. In other words, 18.13 per cent population of the district live in 9 towns. Corresponding percentage of urban population to the total population at the State level is 30.92 per cent. It may be observed that the district proportion is much below the State average.

It is well known fact that the number of places classified as towns within a taluk or district is also an important index of urbanisation, but in this aspect too, the Bangalore Rural district is not in an enviable position and the number of towns remained unchanged over the decade. However, a silver line can be seen that the population of two more towns viz., Ramanagaram and Dodballapur in addition to Channapatna have increased and they moved into Class-II category when compared with 1981 census.

(vi) Population size of village

The rural population of Bangalore Rural district is dispersed in 1723 inhabited villages scattered unevenly over the eight taluks. According to 1991 census the average population of a village of this district works out to 780 persons and this figure is lower than the State average which is 1148 persons per village. Talukwise details reveal that this average varies between 546 persons per village in Nelamangala taluk and 1383 persons per village in Channapatna taluk. The range of variation thus seen to be quite significant. A distribution of 1713 villages by population size class is given in the Table-5

Table 5 : Percentage distribution of villages by population ranges, 1991

Taluk/C.D Block	No. and Percentage of inhabited villages	No and percentage of villages in each range (figures in paranthesis indicate percentage of villages in each range)					
		Less than 200	200 - 499	500 -1999	2000 - 4999	5000 - 9999	10,000 & above
1	2	3	4	5	6	7	8
1. Channapatna	133	4	20	82	25	2	-
	(100.00)	(3.01)	(15.04)	(61.65)	(18.80)	(1.50)	-
2. Devanhalli	191	33	60	94	4	-	-
	(100.00)	(17.28)	(31.41)	(49.22)	(2.09)	-	-
3. Dodballapur	271	46	96	120	8	1	-
	(100.00)	(16.97)	(35.43)	(44.28)	(2.95)	(0.37)	-
4. Hoskote	254	38	86	123	6	1	-
	(100.00)	(14.96)	(33.86)	(48.43)	(2.36)	(0.39)	-
5. Kanakapura	238	20	40	145	31	2	-
	(100.00)	(8.40)	(16.81)	(60.92)	(13.03)	(0.84)	-
6. Magadi	269	50	80	131	7	1	-
	(100.00)	(18.59)	(29.74)	(48.70)	(2.60)	(0.37)	-
7. Nelamangala	231	52	87	89	2	1	-
	(100.00)	(22.51)	(37.66)	(38.53)	(0.87)	(0.43)	-
8. Ramanagaram	126	10	20	75	20	1	
	(100.00)	(7.94)	(15.87)	(59.53)	(15.87)	(0.79)	-
Total Rural	1713	253	489	859	103	9	-
	(100.00)	(14.77)	(28.55)	(50.15)	(6.01)	(0.52)	-

The Bangalore Rural district has an even mix of villages belonging to different size classes varying from the 'very small' to the 'very large'. Of the total number of inhabited villages in the district, 14.77 per cent are 'very small' (less than 200), 28.55 per cent are 'small' (200-499), 50.15 per cent are 'medium' (500-1999), 6.01 per cent are 'large' (2000-4999) and only 0.52 per cent belong to very large size (5000-9999). Devanhalli taluk is not having a single 'very large' sized village.

(vii) Density of Population

The over-all density of population in Bangalore Rural district is 288 persons per sq.km. against the State average density of 235 persons. The density in rural area of the district is 238 persons and in urban areas it is 5416 persons. Among the 9 towns of the district Kanakapura town has returned the highest density of 10,208 persons per sq.km and Dodballapur town has returned the lowest density of 4181 persons per sq.km.

Table 6 : Distribution of villages by density ranges

Range of Density (population per sq km)	Total no. of villages in each range	Percentage of villages in each range
1	2	3
-10	24	1.40
11-20	11	0.64
21-50	48	2.80
51-100	110	6.42
101-200	418	24.40
201-300	482	28.14
301-500	408	23.82
500 & above	212	12.38
All Ranges	1713	100.00

The distribution of 1713 inhabited villages by density ranges presented in Table-6, indicates that the number of persons per sq.km. of area is 100 or less in case of 193 villages (11.26 per cent). Largest number of villages 482 accounting for 28.14 per cent of the villages have density in the range of 201-300 while 24.40 per cent of villages have density in the range of 101-200 almost equal number of villages (23.82 per cent) fall in the density range of 301-500. The density range exceeds 500 mark in the case of 212 villages (12.38 per cent).

(viii) Sex Ratio

Table 7 : Sex Ratio for Rural Population of C.D.Blocks, 1991

Sl.No.	Name of C.D.Block/Taluk	No. of females per 1000 males
1	2	3
1.	Channapatna	960
2.	Devanhalli	953
3.	Dodballapur	953
4.	Hoskote	938
5.	Kanakapura	920
6.	Magadi	975
7.	Nelamangala	965
8.	Ramanagaram	938
	Total Rural	948

Among 1,673,194 persons of the district 860,231 are males and 812,963 are females. In other words the sex ratio (number of females per thousand males) works out to 945 and this sex ratio is less than the State average (960). The rural sex ratio for the district works out to 948 whereas for urban it is 934. It may be seen from the Table-7, that among the C.D.Blocks Magadi rural taluk has the highest sex ratio of 975 females followed by Nelamangala with 965. The lowest sex ratio is recorded in Kanakapura taluk with 920 preceeded by Ramanagaram and Hoskote taluks with 938 each. In the case of towns as may be seen from the Table-8, Channapatna ranks first with 949 females per thousand males while Ramanagaram occupy the bottom place (925 females).

Table 8 : Sex Ratio for Towns, 1991

Sl. No.	Name and Civic Administration Status	No. of females per 1000 Males
1	2	3
1.	Channapatna (TMC)	949

(ix) Scheduled Castes

At the 1991 census count, 326,599 persons in the total population of 1,673,194 persons have returned themselves as belonging to Scheduled Castes. Of them, while 286,780 are residing in rural areas the remaining 39,819 are residing in urban areas i.e. 87.81 per cent in rural areas and 21.19 per cent in urban areas. In terms of proportions, the Scheduled Castes constitute 19.5 per cent of the total population, 20.93 per cent of the rural population and 13.13 per cent of the urban population. The proportion of the Scheduled Castes population in the district is significantly higher than the State average which is 16.38 per cent.

Table 9 : Proportion of Scheduled Castes Population to Total Population in villages, 1991

Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
0-5	140	9.18
6-10	182	11.93
11-15	210	13.77
16-20	232	15.21
21-30	315	20.66
31 and above	446	29.25
Total	1525	100.00

The proportion of Scheduled Castes population to total population of villages in 1991 census is provided in Table-9. It may be noticed that the Scheduled Castes persons are not found in 188 inhabited villages out of 1713 inhabited villages. In other words, Scheduled Castes have been returned from 1525 villages only. In 49.91 per cent of the 1525 villages having Scheduled Castes, their population to the total population exceeds 20 per cent mark.

Townwise information furnished in Table-10 reveals that the persons belonging to Scheduled Castes are returned from all the towns and their proportion is varying between 23.03 per cent in Devanhalli and 7.80 per cent in Magadi. The district urban proportion of Scheduled Castes community is exceeded only in 4 towns.

Table 10 : Percentage of Scheduled Castes Population in towns, 1991

	Total Urban	303286	39819	13 13

(x) Scheduled Tribes

Out of 1,673,194 persons of the district 49,305 returned themselves as belonging to Scheduled Tribes. Amongst these persons 44,595 are residing in rural areas (90.45 per cent) and 4711 are residing in urban areas (9.55 per cent). The proportion of the Scheduled Tribes population to the population of the district works out to 2.95 per cent and this average is lower than the State average (4.26 per cent). In Table-11 below the proportion of Scheduled Tribes population to total population in villages in the 1991 census is provided. It may be noticed that the persons belonging to Scheduled Tribes are not found in 1069 villages out of the 1713 populated villages of the district. In other words it is reported from 644 villages only. In 499 villages Scheduled Tribes account for less than 16 per cent, in 117 villages the population of Scheduled Tribes is 50 per cent or less and in 28 villages it is more than 50 per cent.

Table 11: Proportion of Scheduled Tribes Population to Total Population in Villages, 1991

Percentage range of Scheduled Tribes Population to total Population	No. of villages in each range	Percentage of villages in each range
1	2	3
0-5	341	52 95
6-15	158	24 53
16-25	64	9 94
26-35	26	4 04
36-50	27	4 19
51 and above	28	4 35
Total	644	100 00

In the table furnished below the percentage of Scheduled Tribes population in towns, in 1991 census has been provided. It may be noticed that Scheduled Tribes persons are found in all the 9 towns. The district urban average of 1.55 per cent is less than the State urban average of 2.05 per cent. The district urban average exceeds in case of 4 towns. The highest number of Scheduled Tribes persons are returned from Vijayapura town (1014) followed by Devanhalli (904). During the 1981 census also Vijayapura had returned highest number of Scheduled Tribes persons among the towns (739), whereas Ramanagaram had lowest number of Scheduled Tribes persons (52) but during 1991 census Kanakapura returned only 230 persons which is the lowest.

Table 12 : Percentage of Scheduled Tribes Population in Towns, 1991

Sl No	Name of Town	Total Population	Total Scheduled Tribes Population	Percentage of Scheduled Tribes Population to Total Population

	Total Urban	303286	4711	1 55

(xi) Literacy

In the Table-13 literacy rates for rural population of C.D.Blocks by sex in 1991 census (excluding the children in the age-group 0-6) is provided. During the 1991 census the population in the age group 0-6 was excluded for computation of literacy rate since children in the age group 0-6 were treated as illiterate. Out of 1673194 total population of the district, 260977 are children and remaining 1412217 persons are aged 7 years and above. The literacy rate for Bangalore Rural district works out to 50.17 per cent against the State total proportion of 56.04 per cent. The literacy rates for the male and female segments work out to 58.61 per cent and 33.43 per

cent respectively. The literacy rates are less than the corresponding averages for the State which are 67.06 per cent for males and 73.34 per cent for females. In respect of rural areas and urban areas the proportion is 46.37 per cent and 67.38 per cent respectively.

Table 13 : Literacy Rates for Rural Population of Taluks (C.D.Blocks) by sex, 1991 (Excluding children in the age-group 0-6)

Sl No	Name of Taluk/C.D.Block	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1	Channapatna	42.21	54.45	29.45
2	Devanhalli	48.75	61.71	35.13
3	Dodballapur	52.91	66.62	38.42
4.	Hoskote	51.66	63.90	38.66
5.	Kanakapura	37.24	47.81	25.73
6	Magadi	47.73	60.88	34.32
7.	Nelamangala	54.98	68.42	41.09
8	Ramanagaram	44.79	56.26	32.55
	Total Rural	46.37	58.61	33.43

Taluk level (i.e. C.D.Block level) data set out in the Table-13 provides a comparative idea about the magnitude of inter taluk differences regarding 'total' as well as sexwise literacy rates. Among the taluks Nelamangala tops the list with 54.98 per cent literates followed by Dodballapur (52.91 per cent). Kanakapura with 37.24 per cent holds the bottom place. If the literacy rates for males are examined it is seen that the taluks of Nelamangala (68.42 per cent) and Kanakapura (47.81 per cent) occupy the top and the bottom places respectively. In the case of female population the literacy rates varies between 41.09 per cent in Nelamangala and 25.73 per cent in Kanakapura. In five taluks male literacy as well as female literacy is above the district average.

As in the case of rural areas, in the urban areas also considerable differences in the literacy rates for males and females can be seen. The literacy rates for females are consistently lower than those for the males in every town of the district. The literacy rate for the district urban population works out to 67.39 per cent. The sexwise break up shows that the literacy rates for the male and female segments of the urban population are 73.04 per cent and 64.96 per cent respectively. Townwise literacy rates are furnished in the following table.

Table 14 : Literacy Rates for towns, 1991 (excluding children in the age-group 0-6)

Sl No	Name and Civic Administration Status of Town	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1	Channapatna (TMC)	69.46	75.15	63.47
2	Devanhalli (TMC)	63.02	72.62	52.51
3	Dodballapur (TMC)	70.20	78.29	61.47
4	Hoskote (TMC)	72.87	78.63	66.65
5	Kanakapura (TMC)	63.18	70.77	54.91
6	Magadi (TMC)	63.94	72.65	54.64
7.	Nelamangala (MP)	82.07	89.18	74.38
8	Ramanagaram (TMC)	62.97	68.70	56.78
9	Vijayapura (TMC)	61.37	70.61	51.46
	Total Urban	67.39	73.04	64.96

(xii) Main Workers, Marginal Workers and Non-workers

Out of the 1,673,194 persons returned from the district 623,043 persons are main workers (37.24 per cent), 96,513 persons are marginal workers (5.77 per cent) and 953,638 persons are non-workers (56.99 per cent). A comparison with the corresponding figures for the State where 38.45 per cent are main workers, 3.54 per cent are marginal workers and 58.01 per cent are non-workers indicates that the proportion of marginal workers is significantly higher in the population of Bangalore Rural district. In the case of rural areas also the proportion of marginal workers in the district is higher (6.85 per cent) than the corresponding proportion of State rural marginal workers (4.87 per cent). A comparative idea about the variations among the administrative units in the rural areas may be had from Table-15. At the C.D.Block level the proportion of main workers is found to be least in Nelamangala (34.84 per cent) and highest in Devanhalli (41.32 per cent). Out of 8 taluks in 4 taluks the proportion of main workers is lower than the district average. Among males, the proportion of main workers is highest in Ramanagaram (56.99 per cent) while lowest is recorded in Nelamangala with 54.29 per cent. The range of variation between C.D.Blocks is very narrow. In the case of female population the proportion of main workers is highest in Devanhalli (25.09 per cent) and the least is reported in Nelamangala C.D.Block (14.68 per cent). In the case of females the range of variation is quite large.

Table 15 : Percentage of Main Workers, Marginal Workers an Non-Workers for Rural Population of Taluks (C.D.Blocks), 1991

Sl No	Name of the Taluk/C D Block	Percentage of

	Total Rural	38 20	56 12	19 28	6 84	0 61	13 42	45 04	56 73	32 70	54 96	43 27	67 30

Marginal workers are found among males as well as females. The proportion of marginal workers to total population varies between 4.63 per cent in Nelamangala and 9.79 per cent in Magadi. The sexwise details reveal that the disparity between the proportion of marginal workers among males and females is quite large - as against a mere 0.61 per cent in the case of males, among females the marginal workers constitute as much as 13.42 per cent. In the case of males, this proportion varies between 0.34 per cent in Ramanagaram and 1.33 per cent in Devanhalli. On the other hand, in the case of females, this proportion varies between 8.63 per cent in Ramanagaram and 19.07 per cent in Magadi. The non-working population account for 54.96 per cent in the rural areas as against 66.18 per cent in urban areas. The sex-wise break up indicates that male non-working population in the rural area account for 43.27 per cent whereas female population accounts for 67.30 per cent. The highest proportion of male non-workers is reported from Nelamangala taluk (45.23 per cent) and the least is recorded in Devanhalli taluk (41.87 per cent). In the case of female non-workers the highest proportion is recorded in Nelamangala (76.28 per cent) followed by Kanakapura (71.79 per cent) and the least proportion is reported from Devanhalli (61.73 per cent).

A percentage distribution of urban population of the district and the constituent towns by sex, according to the categories of workers, marginal workers and non-workers is presented in Table-16.

In the urban population of the district 32.91 per cent are main workers, 0.91 per cent are marginal workers and 66.18 per cent are non-workers. Among the towns Magadi town has returned the highest proportion of main workers (34.78 per cent) while Nelamangala town has recorded the least with 28.66 per cent. In the case of male population the highest proportion of main workers is recorded in Dodballapur (56.92 per cent) while the least is returned from Nelamangala (48.93 per cent). In the case of female population while the proportion of main workers varies between 6.95 per cent in Nelamangala and 14.48 per cent in Ramanagaram but the average of the district is 11.57 per cent. Marginal workers are found with varying numbers in all the towns of the district. The proportion of marginal workers to total population varies between a negligible 0.11 per cent in Ramanagaram (and 0.14 per cent in Nelamangala) and a comparatively high 3.29 per cent in Magadi. The only other town which has returned a proportion which is higher than the district average of 0.91 per cent is Channapatna (0.98 per cent). Sexwise details show that the male marginal workers are found in all the towns and the proportion does not exceed 1 per cent in any of the towns. Female marginal workers are found in all the towns and the proportion is higher than males. The highest proportion of female

Table 16 : Percentage of Main Workers, Marginal Workers and Non-Workers in Towns, 1991

	Total Urban	32 91	52 84	11 57	0 91	0 19	1 68	33 82	53 03	13 25	66 18	46 97	86 75

marginal workers is returned from Magadi (6.47 per cent), and the district average is exceeded in 5 out of 9 towns.

The proportion of total workers to total population is highest in Magadi with 38 07 per cent while the least is recorded in Nelamangala (28.80 per cent). Since the categories of workers and non-workers are complimentary to each other, the proportion of non-workers is the highest in Nelamangala (71.20 per cent) and least in Magadi (61.93 per cent). On the other hand, in the case of females, the proportion of non-workers is more than 80 per cent in all the towns and the least 81.34 per cent is returned in Magadi while the highest is reported from Nelamangala with 92.81 per cent.

Analysis of the data regarding main workers, marginal workers and non-workers in different rural areas of the district as also in the towns of the district reveals that the variation amongst the various units are quite wide and these variations do not conform to any particular pattern.

PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE

The Primary Census Abstract furnishes, in a nutshell as it were, vital information on the basic demographic and economic composition of the population. This statement, referred to as PCA, summarises the whole mass of data gathered at the Census. The smallest geographical unit with a clearly defined boundary identifiable on the field that has been delineated for ensuring cent per cent coverage of the area under the jurisdiction of various administrative units is the Census Enumeration Block. The details gathered in the household schedules in respect of each and every person enumerated in each such block have been meticulously tabulated to prepare this Primary Census Abstract. The tabulation has been done entirely by manual processing of the data at the Regional Tabulation Offices. The village PCA is derived from the Block PCA and in case of urban areas, the Block PCA has yielded the ward and Town PCA. In turn, the Taluk (Rural) and Taluk (Urban) as well as Taluk (Total) PCA statements as well as the C.D.Block-wise PCA Statements are built up on the basis of Village-wise and Town-wise data. This process goes on until it yields the data for higher and higher administrative divisions, such as the District and the State, culminating at the apex in the form of a single line statement for the country. The entire edifice thus rests on the information contained in the household schedules filled up by the enumerator.

The District Primary Census Abstract is presented immediately after this Explanatory Note. This statement gives the aggregate figures for the district with the rural-urban break up, the aggregate figures for each C.D.Block (with the rural-urban break up) and the aggregate figures for each town/urban agglomeration within the district. It is important to note that the lowest unit for which the data are presented here is the C.D.Block and not the traditional taluk*. Thereafter the C.D.Blocks within the district are taken up one by one in the alphabetical order of their names. For each C.D.Block, an alphabetical list of villages (which indicates the code numbers assigned to villages in 1991 as well as the corresponding code numbers assigned in 1981) precedes the presentation of the village-wise PCA followed by the ward-wise PCA in respect of towns and outgrowths if any within the jurisdiction of the concerned C.D.Block. After thus exhausting all the C.D.Blocks in the district, the town/urban agglomerations are covered one by one in the ascending order of their location code numbers without regard to the fact whether any of these towns or portions thereof (eg. outgrowths) have already been covered under one or the other of the Community Development Blocks. As in 1981, on this occasion too, the PCA has been compiled separately in respect of the Scheduled Castes and Scheduled Tribes Population of the District. The District PCA for Scheduled Castes and for Scheduled Tribes are presented after the PCA for the urban areas. The pattern of presentation of data in these two statements is the same as that adopted for presentation of data in the District PCA.

It may be recalled that in Karnataka the term Community Development Block is not in vogue and that its equivalent is the Taluk Panchayat Samiti. The jurisdiction of each Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns. In other words, the administrative jurisdiction of a Taluk Panchayat Samiti covers all the villages of the Taluk (as listed out for the 1991 census) as also the villages or parts thereof which have been classified as non-municipal towns for purposes of the 1991 census and the revenue villages or portions thereof which have been identified as outgrowths of statutory towns and have therefore been excluded from the purview of Rural PCA. It is important to remember that in this statement, the particulars relating to the non-municipal towns (such as those administered by Mandal Panchayats) and those relating to the outgrowths (places which are not towns in their own right) are repeated - for these appear once below the concerned C.D.Block and again under the 'urban areas' of the district.

* *For purposes of comparison with 1981 data the Taluk wise District PCA with Rural - Urban breakup is given in Appendx I.*

columns to furnish information about the name of the unit, area, number of occupied residential houses, number of households, population, number of persons in the age-group of 0-6, number of persons belonging to Scheduled Castes and Scheduled Tribes, number of literates, number of main workers and their distribution among nine industrial categories, number of marginal workers and the number of non-workers. In the District PCA, each column indicating the data on population characteristics is sub-divided into 3 columns in order to indicate the total as well as the sex-wise break-up whereas in the village/town PCA, each such column (with the exception of Total Population and Population in the 0-6 age group) is sub-divided into two columns to indicate the sex-wise break-up only.

It may be mentioned at this juncture that for each town/urban agglomeration in the district, information regarding the total population, Scheduled Castes Population and Scheduled Tribes Population of each census enumeration block as also the particulars regarding the boundaries of each Census Enumeration Block have been compiled and are kept for the census data users' reference in the Library of the Office of the Director of Census Operations, Karnataka.

COLUMN 1 : Location Code Number :- The location code number assigned to the village or the town as the case may be is entered in this column.

COLUMN 2 :- Name of Village/Town/Ward :- The name of the village or the town as finally adopted for the 1991 census purposes is entered in this column. The towns and cities are often divided into smaller geographical segments called wards, mohallas or divisions for purposes of administration. Such units bear distinctive locality names or specific numbers. It is this name or the number of the ward or its equivalent unit that is mentioned here in the case of towns.

Irrespective of whether a town is divided into administrative wards or not, every town is invariably constituted into territorial divisions for the conduct of civic elections. This delimitation of constituencies is done as an essential and preliminary process of civic elections scheduled to be held periodically. this column refers to such territorial divisions and not to administrative divisions.

COLUMN 3 : Area of the Village in Hectares and of Town in Square Kilometres :- For the villages, the area is reported here in hectares upto two places of decimal and for the towns, as also the wards or divisions thereof, the area figures are furnished in square kilometres upto two places of decimal. It may be incidentally mentioned here that for none of the towns in the State, Ward/Division-wise area figures are available. If the area figures are not available for any reason, a dash (-) is entered in this column.

COLUMN 4 : Number of Occupied Residential Houses :- A 'Census House' could be wholly residential or partly residential or else completely non-residential according to the use to which it is put. All census houses enumerated as either wholly or partly residential at the time of the census count are added together to get the data for the block and from thence to derive the data for higher units. Houses found vacant at the time of the census count are not reckoned as occupied residential houses. The information for this column has been compiled from the Abridged Houselists.

COLUMN 5 : Number of Households :- This information too is compiled from the Abridged Houselists. The actual total number of households including the 'normal', 'institutional' and the 'houseless' that were enumerated at the census count is mentioned in this column. Generally, the number of households in any unit would be equal to or more than the occupied residential houses in that unit because of the houseless households that one may come across in that unit and also because of the occasional instances of two or more households sharing a common census house.

COLUMNS 6, 7 AND 8: Total Population (including Institutional and Houseless Population):- The total population as on the reference date is furnished in column 6 while in the next two columns the sex-wise break-up is given. The institutional population refers to such of those who were enumerated in institutions like hostels, chummeries, hospitals, prisons etc. The houseless persons

represent those who were enumerated on the night of 28th February 1991 at the places where they were found at that time, provided they had not already been enumerated elsewhere.

COLUMNS 9, 10 and 11 : Population in the age group (0 - 6) :- The total number of children belonging to the age-group of 0-6 in the total population as also the number of males and females among them are reported under these three columns. This information is of considerable significance since all such children are regarded as illiterate at the 1991 Census.

COLUMNS 12 AND 13 : Scheduled Castes :- Number of males and females belonging to Scheduled Castes is indicated in these two columns. Whether a person belongs to a Scheduled Caste or not has been determined with reference to the List of Scheduled Castes in Karnataka according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No. 108 of 1976) (See Appendix). Scheduled Castes may belong to either the Hindu or the Sikh or the Buddhist religion.

COLUMNS 14 AND 15 : Scheduled Tribes :- Number of males and females belonging to Scheduled Tribes is reported under these columns. Whether a person belongs to a Scheduled Tribe or not has been determined with reference to the 'List of Scheduled Tribes in Karnataka' according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No.108 of 1976) (See Appendix for the list). Scheduled Tribes may belong to any religion.

COLUMNS 16 AND 17 : Literates :- Sex-wise break up of the total number of persons who are literate, irrespective of their levels of educational attainments is given in these two columns. By definition a literate is a person who can both read and write with understanding in any language. It is important to note that for purposes of the 1991 census by definition all children in the 0 - 6 age group are regarded as illiterate. Even if such a child is going to school and has picked up reading and writing a few odd words it is treated as illiterate.

COLUMNS 18 AND 19 : Total Main Workers:- A worker is a person who participates in economically productive work. The reference period for judging whether a person is a worker or not in the year preceding the day of enquiry. If a person had worked even for one day during this entire period he or she is entitled to be classified as a worker. If for any such worker the period of work is 183 days or more then that person is a main worker. On the other hand, if such period is less than 183 days then that worker is a marginal worker. In columns 18 and 19 the total number of main workers is furnished sex-wise and a sex-wise break up of these main workers according to the nine-fold 'industrial classification of workers' is presented in the next 20 columns i.e., from column 20 to column 39.

COLUMNS 20 AND 21 : Cultivators (Category-I) :- These two columns give out the number of male and female workers who satisfy the conditions laid down in the definition of a cultivator. A cultivator may be an employer, a single worker or an unpaid family worker. Participation in work may be by way of physical labour or by way of supervision and direction. The lands cultivated may be owned by the household or taken on lease for payment in money or kind or share in the produce. Cultivation, as already emphasised involves ploughing, sowing and harvesting and allied activities in the production of cereals and millet crops, pulses, raw jute and kindred fibres, sugarcane, tapioca and oil seeds.

COLUMNS 22 AND 23 : Agricultural Labourer (Category -II) :- A person who works in another person's land for wages in money or kind or share and does not have any lease or contract on the land on which he or she works is an agricultural labourer. In this case too, the crops grown on the lands are quite pertinent and the difference between a cultivator and an agricultural labourer lies in the fact that the former works on his own or leased in lands as an independent worker while the latter works for wages having no right whatsoever on the lands on which he works. The sex-wise break-up of such workers is given in these two columns.

COLUMNS 24 AND 25 : Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities (Category - III) :- A sex-wise break up of the workers who were mainly engaged in activities connected with livestock rearing, forestry

and logging, hunting, fishing, plantations, orchards etc., is given under these columns.

COLUMNS 26 AND 27 : Mining and Quarrying (Category - IV) :- A sex-wise break up of the workers mainly engaged in activities connected with mining and quarrying is given under these columns.

COLUMNS 28 AND 29 : Manufacturing, Processing, Servicing and Repairs - Household Industry (Category - V[a]) :- Household industry belongs to the broad category of 'manufacturing, processing, servicing and repairs' and represents a particular sector therein. Household industry is generally conducted by the head of household himself or herself and or mainly by the members of the household, at home or within the village in the case of those dwelling in rural areas and only within the residential premises occupied by the household in the case of those living in urban areas. A person may be a labourer or a petty employee in the household industry run by some other household. By and large the household industry is carried on by individuals on a small scale with or without the assistance of family members all of whom work as unpaid family workers and the entire earnings are treated as family income.

COLUMNS 30 AND 31 : Manufacturing, Processing, Servicing and Repairs - Non-household Industry (Category - V[b]) :- A sex-wise break up of the workers who were engaged in manufacturing, processing, servicing and repair activities in establishments which do not qualify to be classified as household industry as defined above {category V(a)} is given here.

COLUMNS 32 AND 33 : Construction (Category-VI) :- Workers engaged in construction, maintenance, upkeep, repair and similar activities of buildings, roads, railways, bridges, dams, canals, electrical and water supply installations, communication systems etc., are shown under this category.

COLUMNS 34 AND 35 : Trade and Commerce (Category - VII) :- In these two columns the number of male and female workers engaged in wholesale or retail trade in goods or engaged in dealing with insurance, stocks and shares, banking and financial institutions etc., either as proprietors or in any other capacity are indicated.

COLUMNS 36 AND 37 : Transport, Storage and Communications (Category - VIII) :- A sex-wise breakup of the workers in establishments such as *railways, road transport, transportation by water-ways* or by air, postal and telegraphs, telecommunications etc., which are engaged in transport, storage and communication activities is given in these columns.

COLUMNS 38 AND 39 : Other Services (Category - IX) :- This residuary category includes employees of the Central and State Governments, local bodies and other organisations and institutions engaged in educational, scientific, medical and health services, religious and welfare services, community services, recreational services, personal services and other miscellaneous activities not covered in the 8 categories specified above.

COLUMNS 40 AND 41 : Marginal Workers :- Males and females who are workers but have worked for less than 183 days during the reference year are reported under these two columns. Such workers, irrespective of the economic sector in which they work, are considered together and reported here.

COLUMN 42 AND 43 : Non-workers :- Irrespective of age and sex, all those who are not economically active are non-workers and a sex-wise break-up of such persons is given in these two columns. The aggregate of the main workers, marginal workers and non-workers would be equal to the total population of that unit.

NOTE :

1. The area figure for the district given under column No.4 against "Total" represents "Geographical Area" and has been furnished by the Surveyor General India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D.Blocks/Taluks in the district will not tally with the district figures (except urban), because the area figures for C.D.Blocks/Taluks represent the land-use area based on villagewise area figures as reported by the Local Officers. The total area of the taluk may not tally with the aggregate of the areas of the villages listed for census purposes for it includes the area of the statutory as well as non-statutory towns, villages which may be fully submerged and reserve forests which may not form part of any revenue village, if any, within the jurisdiction of the concerned taluk. The total area of the C.D.Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2. Outgrowths of towns in urban agglomerations are denoted by letter "OG".

3. The following abbreviations have been used to indicate the Civic Administration Status of town :

MC : Municipal Corporation
CMC : City Municipal Council
TMC : Town Municipal Council
NAC : Notified Area Committee
CB : Cantonment Board
SB : Sanitary Board
MP : Mandal Panchayat
NMCT : Non-Municipal Census Town

Appendix III - PUBLICATION PLAN

The 1991 Census tables will be published in 33 separate series of volumes for All - India and for each State and Union Territory. The publication series is as follows:

Series No.

1. INDIA

States

2. Andhra Pradesh
3. Arunachal Pradesh
4. Assam
5. Bihar
6. Goa
7. Gujarat
8. Haryana
9. Himachal Pradesh
10. Jammu & Kashmir
11. Karnataka
12. Kerala
13. Madhya Pradesh
14. Maharashtra
15. Manipur
16. Meghalaya
17. Mizoram
18. Nagaland
19. Orissa
20. Punjab
21. Rajasthan
22. Sikkim
23. Tamil Nadu
24. Tripura
25. Uttar Pradesh
26. West Bengal

Union Territories

27. Andaman & Nicobar Islands
28. Chandigarh
29. Dadra & Nagar Haveli
30. Daman & Diu
31. Delhi
32. Lakshadweep
33. Pondicherry

In each of these series (for all - India and each State/Union Territory) the different series of tables (A Series - General Population Tables, B - Series - General Economic Tables, etc.,) will be brought out as different Parts. Apart from these, District Census Handbooks will be published for each district in the country. These will contain the PCA data for the district, the village and town primary census abstract and the village and town directories. The latter comprise compilations of statistics, external to census relating to the villages and towns, which in conjunction with census data will be very useful to data users.

For all - India and for each State and Union Territory, the census tabulations and reports will be published according to the following plan:

Part No. and subject covered	Sub-part No. if any, and the topics covered
1	2
Part I - Administration Report (for Office use only)	Part I-A - Administration Report Enumeration
	Part I-B - Administration Report Tabulation
Part II - General Population Tables	Part II-A - General Population Tables - A-Series
	Part II-B - Primary Census Abstract
Part III - General Economic Tables	Part III-A - B-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
	Part III-B - B-Series tables of second stage which will be brought out on full count. The data relating HHI, OW, Marginal Workers and Non-workers seeking/available for work will be entered on full count basis.

Part IV - Social and Cultural Tables	Part IV-A - C-Series tables of first stage covering age, sex and marital status, composition of population, single year age returns, educational levels, school attendance and bilingualism.
	Part IV-B - C-Series tables covering mother tongue, religion of population and household composition.
Part V - Migration Tables	Part V-A - D-Series tables of first stage covering tables based on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
	Part V-B - D-Series tables of second stage covering occupational classification of migrant workers. These tables are based on full count.
Part VI - Fertility Tables	F-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
Part VII - Tables on Houses and Household Amenities	H - Series tables covering census houses and the uses to which these are put, construction material of wall, roof and floor of the census houses occupied by households, tenure status of the house occupied and number of living rooms, household size, housing facilities like drinking water, electricity and toilet available to households and the fuel used by the household for cooking. These tables will also cover tables on Scheduled Castes and Scheduled Tribes. This volume will contain analytical notes also.
Part VIII - Special Tables on Scheduled Castes and Scheduled Tribes	This part will contain SC and ST series of tables for Scheduled Castes and Scheduled Tribes respectively. The data relating to Scheduled Castes and Scheduled Tribes will be entered on full count basis in the third stage and SC/ST tables will be processed on the computer on full count. These will cover population of each Scheduled Caste/Tribe, industrial categories of main and marginal workers, non-workers seeking/available for work and those who never worked before, educational level, school attendance, age, sex and marital status, composition of Scheduled Castes and Scheduled Tribes. In addition to these, the fertility tables relating to SC/ST are also covered. These tables also cover for Scheduled Tribes, their composition by religion, mother tongue and bilingualism.
Part IX - Town Directory, Survey Report on Towns and Villages	Part IX - A - Town Directory
	Part IX - B - Survey Report on selected Towns
	Part IX - C - Survey Report on selected Villages

Part X	Ethnographic notes and special studies on Scheduled Castes and Scheduled Tribes
Part XI - Census Atlas	Union and State/Union Territory Census Atlases
Part XII - District Census Handbook	Part XII - A - Village and Town Directory
	Part XII - B - Village and Town wise Primary Census Abstract

The following special papers are also planned and will be published as and when they are ready as 1991 Census papers :

(a) Special studies taken up by the Directors of Census Operations

(b) Special Areas Surveys

(c) Special Tables for Standard Urban Areas

(d) Language Survey Reports

(e) Post Enumeration Check Report

(f) Age Tables

(g) Life Tables

(h) Reports on estimates of inter-censal birth and death rates using 1981-1991 life tables and age data

(i) Development of Vital Statistics in India

Besides these special papers, some monographs based on 1991 Census data on subjects of topical interest to be prepared by scholars will be brought out as 1991 Census monographs.

It is also proposed to carry out some special studies of 1991 Census data in collaboration with other organisations and the results of such studies will be published as occasional papers of the 1991 Census.

It is also proposed to disseminate census tabulations and the basic data in machine readable forms such as magnetic tapes, diskettes, floppies, etc.

The District Census Handbooks will be available for sale at the Government Central Press, Bangalore and the other publications at the Office of the Director of Census Operations, Karnataka, Bangalore and the Manager of Publications, Civil Lines, New Delhi - 6.
