FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations/ modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Govt./Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third part, Part C of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981, some new features alongwith the restructuring of the formats of Village and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of villages and towns (ward-wise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this Statement details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rates as all children below 7 years of age have been treated as illiterate at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations is the 1991 Census is the Community Development Block-level presentation of data in the Village Directory and PCA instead of the traditional Tahsil/Taluk/PS level presentation. It is expected that the presentation of Village Directory and PCA data at C.D.Block level will help the planners in formulation of micro-level developmental plans, as the C.D.Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census along with the corresponding codes of 1981.

This publication is a joint venture of the State Govt./UT administration and the Census Organisation. The data have been collected and compiled under the direction of Ms. Sobha Nambisan, Director of Census Operations, Karnataka on behalf of the State Govt. administration which has borne the cost of printing. The task of planning, designing and coordination of the publication was initiated by Dr.K.P.Ittaman, former Deputy Registrar General (Social Studies) and Shri M.M.Dua, Joint Director. For the sake of uniformity in presentation of information/data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of Census/non-Census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K.Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri A.K.Singh, Deputy Director who was assisted by S/Shri V.K.Jain and Hariram, Investigators and staff. Technical guidance in the preparation of the maps was initially provided by Dr.B.K.Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi

A.R.Nanda
Registrar General, India

PREFACE

In the foreword to the 1991 series of the District Census Handbooks, Sri A.R.Nanda, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain the salient data on the population for every village and town as revealed by the 1991 Census. They also contain a wealth of information regarding these villages and towns which, although not part of the population census, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information has also considerable importance in the context of planned development.

The District Census Handbook is therefore divided into two parts: Part A containing information regarding each village and town (Village Directory and Town Directory) which is not census data and part B which contains the data on the population collected during the 1991 Census - the Primary Census Abstract. The data published in Part B was collected in February 1991 at the time of the population census. This data was then manually tabulated in the Regional Tabulation Offices set up for the purpose. Subsequently, as a part of the countrywide project taken up in collaboration with the National Informatics Centre, the Primary Census Abstract data was computerised. The data for Part B of the District Census Handbook was therefore available on tape for the entire country by November 1992. The State Informatics Officer of the National Informatics Centre at Bangalore supplied the print-outs of the Primary Census Abstract data which helped us to bring out the Part B portion of the District Census Handbook of each district fairly quickly.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in early 1990 and continued till the middle of 1992. For operational convenience, the Village Directory format was divided into two portions, one relating to the area and land use particulars and the other relating to the amenities available in each village. The relevant formats were mailed to the Deputy Commissioners of Districts and Chief Secretaries of Zilla Parishads for obtaining the villagewise particulars. Similarly the Town Directory formats were mailed to the Deputy Commissioners and Commissioners of Corporations. The villagewise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1981 District Census Handbooks.

Since the Primary Census Abstract data was available on the computer, it was decided to publish the District Census Handbooks in two separate volumes, with Part B appearing in print first.

In the preparation of the District Census Handbooks the role of the Census Directorate is that of data collector. For accomplishing this task we have had the ready co-operation of the staff of different departments of the State Government. The cost of printing of the District Census Handbooks is borne by the Government of Karnataka.

I take this opportunity to offer my grateful thanks to all the officers and officials who have been actively involved in the compilation of this volume.

I am thankful to Shri A.Venkateshan, the State Informatics Officer, National Informatics Centre, Bangalore for all the assistance he and his staff members have rendered for computerisation of the data and for preparation of the camera ready copy of the manuscripts of Bidar District.

I am deeply grateful to Shri A.R.Nanda, I.A.S., the Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Shri M.K.Jain, the present Deputy Registrar General (SS) as well as to Mrs. Minati Ghosh, Deputy Registrar General (Map).

Lastly, I am thankful to the Government of Karnataka for having readily agreed to bear the cost of printing these District Census Handbook volumes and to the Director of Printing, Stationery and Publications for the keen interest he has evinced in bringing out these publications.

Bangalore,
Date: 16-11-1992

Sobha Nambisan
Director of Census Operations,
Karnataka.

ANALYTICAL NOTE

ANALYTICAL NOTE

Brief History of the District Census Handbook :-

The District Census Handbook series was, for the first time, included in the census publication programme at the 1951 census in order to satisfy the growing demand for micro-level data by the administrators, the planners and the other census data users. The District Census Handbooks sought to replace 'Part IV - Taluk Tables' and 'Part V - Village Tables' of the earlier censuses and to present the basic demographic and economic data in the form of 'Primary Census Abstract' in respect of each and every village and town within the jurisdiction of the district concerned. In addition, these volumes were to contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

At the 1961 census, the scope of the District Census Handbook was greatly enlarged by incorporating in it - (i) a descriptive account of the district, (ii) a set of non-census tables dealing with the administrative statistics of the district for a decade, (iii) taluk and town level census tables on economic and socio-cultural aspects and (iv) the village and urban (census enumeration block level) Primary Census Abstract containing the ninefold industrial classification of workers. In a somewhat general way, information on the availability of certain basic amenities in villages and towns, such as the sources of drinking water and educational institutions, was also presented in these volumes. These general guidelines were, by and large, followed in Karnataka too. However, the scope of the District Census Handbooks of 3 out of the then existing 19 districts, namely Bangalore, Dharwar and Mysore, was confined to the publication of the village-wise and urban (census enumeration block wise) Primary Census Abstract only.

The 1971 census witnessed an overall improvement in the matter of compilation as well as presentation of the data. A country-wide uniformity in approach and a comprehensive coverage are the hall marks of this series of publications. In 1971, the District Census Handbook was split up into three portions - (i) Part A - consisting of land use data on villages and also the data on the nature and extent of amenities and services available in the villages and towns of the district - presented in the form of Village Directory and Town Directory respectively, (ii) Part B - consisting of the Primary Census Abstract (including the nine-fold industrial classification of workers) for the district, the taluks, the towns, the villages and the census enumeration blocks in case of towns; and (iii) Part C - consisting of an analytical note based on an analysis of the census data as well as the non-census data included in the volume, a set of tables depicting the administrative statistics in minute detail, a set of statistical tables based on the census data in respect of the district and the constituent taluks and towns thereof besides a set of tables generated on the basis of the villagewise census data in association with the villagewise data on the availability of amenities. The main objective was to present a comprehensive and intelligible portrait of the district and an overview of the developmental programmes implemented in the district during the preceding decade. Publication of the District Census Handbooks was planned in such a way as to minimise the delay inherent in the compilation of a voluminous mass of data gathered from different sources. Accordingly, 'Part A', comprising the Village Directory and the Town Directory for the finalisation of which there was no apparent need to wait till the completion of the tabulation of the data gathered at the census, was to be published first and 'Part B', consisting of the Village/Urban Primary Census Abstract was to be released next. A lower priority was assigned to 'Part C' for the obvious reason that besides administrative statistics it was to include a set of socio- demographic and economic tables generated on the basis of the data gathered at the census and an analytical note prepared thereof. In Karnataka, however, 'Part A' and 'Part B' portions of the District Census Handbooks were combined together and published in a single volume for each district except Bangalore. In the case of Bangalore District, since it was felt that the size of such a combined volume would be unweildy, Part A and Part B were published separately. As regards 'Part C', compilation of data took more time than anticipated and, in addition, there was an inordinate delay in executing the printing job at the State Directorate of Printing. As a result, only a portion of Part C (depicting some of the census tables) relating to Bangalore District was published somewhat belatedly and the proposal to publish the remaining portion of Part C for Bangalore District as well as the entire portion of Part C for the other districts was finally abandoned.

Instead of witnessing an expansion as in the past two censuses the scope of the 1981 series of the District Census Handbooks was curtailed to a considerable extent in that it was confined to the publication of Village Directory, Town Directory and the Village/Urban Primary Census Abstract. Thus, at the initial stage itself there was no proposal to compile and publish the administrative statistics and the various socio-demographic and economic tables based on the census data, that is, the portion which constituted 'Part C' of the 1971 series. But for this change, the approach in 1981 regarding uniformity and comprehensiveness were very much the same as in 1971. In order to avoid delay in publication, as in the past, the District Census Handbook was proposed to be published in two parts, namely, 'Part A' consisting of the Village Directory and Town Directory and 'Part B' consisting of the Village/Urban Primary Census Abstract besides the Special Primary Census Abstracts at taluk/town level in respect of the Scheduled Castes and Scheduled Tribes population of the district.

At the 1981 census, the contents of the Village Directory and the Town Directory were slightly enlarged and the formats were restructured. In the Village Directory all the amenities except power supply were brought together under a broad heading with the provision that ' in case an amenity is not available in the referent village, the distance to the nearest place where that particular amenity is available may be indicated in broad ranges'. A new item ' approach to the village' was included. In the remarks column, a provision was made to report the number of copies of newspapers in circulation in the village as also the number of motor cars, the number of motor cycles and the number of tractors available in the village. Further, in order to examine whether there is any correlation between the availability of amenities and the population size of a village, an additional column was provided in the Village Directory to indicate the population and number of households. The contents of Part A were further enlarged by including two appendices, namely, a list of villages not having any amenities and a distribution of villages according to the proportions of Scheduled Castes and Scheduled Tribes in the total population of the village. The Town Directory formats were also modified by the addition of a few items such as class of town, population, Scheduled Castes and Scheduled Tribes population, decadal growth rate of population, working women's hostel, adult literacy classes/centres, storage system regarding drinking water supply etc., and also by providing for recording the information about the nearest place (and distance) having educational, medical and fire-fighting facilities in case such a facility is not available in the referent town. As compared to 1971, while one statement indicating religion-wise population of the town was dropped, another statement to provide information about the amenities available in notified slums in Class I and Class II towns was added. As regards the Primary Census Abstract of towns, the urban block-wise presentation of data was given up and details were presented only upto the level of Wards/Divisions. However, information on the number of persons belonging to Scheduled Castes and Scheduled Tribes was furnished for each census enumeration block within the town in the form of an appendix and an annexure thereto provided the description of the boundaries of each census enumeration block. Further, instead of the nine-fold classification of workers adopted at the 1971 census, on this occasion the classification was restricted to 4 categories. In Karnataka, in 1981 also, both Part A and Part B portions of the District Census Handbooks were published together in a single volume for each district. However, because of certain technical compulsions, all the information relating to Scheduled Castes and Scheduled Tribes was excluded from the main formats and was presented separately at the end in the form of a Supplement (separate booklets were brought out in the case of Bidar and Mandya Districts).

2. Scope of the 1991 District Census Handbooks :-

As in 1981, in 1991 too, the District Census Handbooks are proposed to be brought out in two portions, namely Part A consisting of the Village Directory and the Town Directory and Part B consisting of the Village/Urban ward-wise Primary Census Abstract in addition to the District Primary Census Abstract and the Special Primary Census Abstract in respect of the Scheduled Castes and Scheduled Tribes. Though, the scope of the 1991 series of the District Census Handbooks has, by and large, remained the same as in 1981, a few significant changes have been made in the Village Directory format as well as the Primary Census Abstract format. In Karnataka, unlike at the previous censuses, on this occasion, the 'Part A' and 'Part B' portions of the District Census Handbooks of each district are being brought out in separate volumes.

The manner of presentation of data has also undergone a significant change in that the Village Directory and the Primary Census Abstract data are presented according to the location of villages and towns within the jurisdiction of a Community Development Block rather than their location within a taluk*. In other words, the traditional practice of taluk-level presentation of data has now been givenup in preference to the Community Development Block level presentation of data which is considered as more meaningful in the present day context. Since C.D.Block is the lowest administrative unit for developmental planning, the choice of the C.D. Block as the unit for data presentation is expected to help the planners in formulating micro-level developmental plans. Another innovation at the 1991 census is the arrangements made for the dissemination of the data in collaboration with the National Informatics Centre through its country-wide computer network. In the published volumes of the District Census Handbooks, therefore, the computer codes assigned to the villages in the 1991 census and the corresponding codes in 1981 are presented so as to facilitate the data users who may prefer to use the data either from magnetic tapes or floppies.

(i) Village Directory :-

The Village Directory format adopted for the 1991 series has 18 columns. When examined with reference to the 1981 format it will be noticed that two columns have now been left out - while one of these columns refers to the 'staple food' the other refers to the 'remarks' under which, information about the places of religious, historical or archaeological interest in the village as also information about the number of copies of newspapers in circulation, the number of motor cars, motor-bicycles and tractors available in villages was published in 1981. As compared to 1981, there is no change in the scope and coverage of the information presented in the 18 columns of which 8 are devoted for amenities and 6 are meant for indicating the area of the village and the land use pattern. The remaining four columns are meant for indicating the location code and name of the village, total population and the number of households enumerated in the village and the name of the nearest town as also the distance to that town. The aspects covered under the amenities are : educational, medical, sources of drinking water supply, postal and telegraph, weekly market, communication, nature of approach road and power supply. Further, if a village did not have any educational facility at all, instead of merely reporting the fact and stopping at that, an indication of the distance (in ranges) that the villagers have to traverse to reach a place with educational facilities (at the basic level) is reported. The same procedure of reporting is adopted regarding medical facilities, drinking water supply, postal and communication as well as weekly market facilities. The distance ranges adopted for reporting are the same as in 1981, namely -5 km, 5 - 10 km and 10+km. In an explanatory note, which precedes the presentation of the Village Directory Statements, details about the abbreviations used under various columns are furnished.

The main agency which has furnished the villagewise information on amenities is the Zilla Parishad which in turn has collected the relevant particulars through its field formations, namely the Chief Executive Officers (i.e., the Block Development Officers) of the various *Taluk Panchayat Samitis*. These details were examined for consistency as well as with reference to the particulars reported in 1981 and cases of deterioration or of abnormal developments were referred back for reverification and rectification. For instance, as compared to 1981, for several villages, Wells and Tanks did not find a mention as a source of drinking water supply. When referred back, the concerned Chief Executive Officers clarified that in most of these cases, the drinking water wells of yester years have either dried up or fallen into disuse on account of the increasing number of borewells drilled in such villages and also because of the implementation of the National Rural Water Supply Scheme, the Mini-Water Supply Scheme and Accelerated Water Supply Scheme etc. So also regarding the availability of pucca approach road facility several instances of

In Karnataka, the "Taluk Panchayat Samiti" corresponds to the Community Development Block, and for the sake of maintaining uniformity with the all-India pattern, the term C.D.Block has been used throughout in the District Census Handbooks. The jurisdiction of a Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns.

deterioration were noticed. Such cases too were referred back so that the factual data may be verified again and reported for publication. Information about the number of educational institutions, nature of government run medical institutions and postal, phonocom and telegraph facilities as furnished by these officers have been cross-checked with the data obtained from the concerned Departments as well to ensure a higher level of reliability.

In case of uninhabited villages, i.e., villages which returned 'nil' population at the 1991 census count, except the name and the total area no other information is furnished. Instead of putting a dash under each column to indicate this fact, the word 'uninhabited' is printed along the line.

In order to facilitate easy reference, an alphabetical list of villages is given at the begining in respect of each C.D.Block. This list indicates the code numbers assigned to the villages for purposes of census enumeration as well as the computer codes assigned (at the stage of computerisation) as also the corresponding codes according to the 1981 census. At the end of the Village Directory the following appendices are given :- C.D. Block-wise abstract of amenities; list of villages not having any amenities except Drinking Water, land utilisation data in respect of non-municipal towns and distribution of villages according to the proportion of Scheduled Castes population and Scheduled Tribes population.

(ii) Town Directory :-

As in 1981, in 1991 too, there are seven statements which furnish information on the following aspects - growth history; physical aspects and locational particulars; municipal finance; civic and other amenities; civic amenities available in the notified slums of Class I and Class II towns; medical, educational, recreational and cultural facilities; and trade, commerce, industry and banking. The scope of the various column headings adopted in 1981 has remained unchanged in 1991. However, in Statement-I, slight modifications have been made to accomodate the 1991 census data - an additional column is provided for indicating the 1991 population and the growth rate registered by the town during the decade 1981-91. In Statement-I an additional column has been provided for indicating the name of the C.D.Block within the jurisdiction of which the referent town is located. It may be incidentally mentioned that, in Karnataka, the civic bodies functioning in the Statutory Towns do not fall within the administrative jurisdiction of the C.D.Blocks (i.e., Taluk Panchayat Samitis).

In the Town Directory statements, the towns are arranged in an alphabetical order of their names and the aggregate particulars about urban agglomerations if any in the district have also been furnished in the same order. Where an urban agglomeration includes two or more independent towns, the names of these constituent towns are shown in the correct sequence as per the alphabetical arrangement of their names. But, the details which ought to have been furnished in the subsequent columns have been skipped with a view to avoiding repetition. Instead, immediately after the name of the town, a cross reference is given by printing the message "see ..... urban agglomeration". The name of the core town of the urban agglomeration too appears at its correct sequence with the legend printed thereafter and immediately below that, i.e., in the next line the same name with the suffix urban agglomeration appears again without bearing any serial number. Against this name the cumulative totals for the urban agglomeration as a statistical unit are presented wherever such a procedure is relevant and meaningful. This line is then followed by those relating to the constituent towns of the urban agglomeration starting with the name of the core town and followed by the others arranged in an alphabetical order of their names. This procedure, it may be recalled, is the same as that adopted in 1971 as well as in 1981 and this enables one to have a fairly good assessment of the data relating to the smaller civic administrative units that form part of the larger unit and also of the aggregate data relating to the larger unit itself. In case there are 'outgrowths' which are not 'urban areas' in their own right, the particulars relating to such areas are merged with the data relating to the concerned core town. Such towns which have 'outgrowths' are marked out by an asterisk mark and for all purposes, the term 'town' would cover the core town as well as its outgrowths. In an appendix the names of the revenue villages which have been identified as outgrowths and the population thereof are indicated separately. In the case of villages certain parts of which are regarded as outgrowths while the other parts are considered as 'rural', the data relating to the outgrowths (i.e., the urban component) is included in the Town Directory statements and the data pertaining to the rest of the

portion retained in the rural frame appears in the Village Directory. In Statements II, III and VI where it is not relevant to combine the data for the urban agglomeration as a whole, the legend 'see the constituent towns' is printed against the name of the urban agglomeration instead of allowing the entire line to remain blank.

The particulars furnished in Statement I which deals with the growth history are entirely based on the current as well as the previous censuses. As such, this has been compiled in the Census Directorate without seeking information from the concerned civic bodies. The details presented in the remaining statements have been furnished mainly by the concerned civic authorities such as the Municipal Commissioners, Chief Officers of towns, Secretaries of Mandal Panchayats, Administrative Officers etc. Except for the information regarding municipal finance, most of the information on other apsects had to be gathered by the civic authorities from several offices and institutions located in the town through correspondence and or by deputing officials for the purpose. The particulars so furnished were scrutinised in the first stage and cases of abnormal variations as compared to the situation in 1980 and also inconsistencies were referred back to the reporting agency for reverification and rectification so as to ensure that the details now given in the Town Directory represent the factual position.

The scope of the information presented under various columns and the abbreviations used are explained in a note which precedes the presentation of the Town Directory statements.

(iii) Primary Census Abstract :-

The Primary Census Abstract is presented village-wise in the case of 'rural' areas and town-wise (upto ward or division level) in the case of urban areas. The outgrowths of a town are treated at par with a ward or division of the core town irrespective of the number of census enumeration blocks into which it is constituted. Within the district, the Community Development Blocks are arranged in the alphabetical order of their names in English and covered one after the other in that order. For each C.D.Block, the total figures with the rural-urban break-up is given first and this is followed by the village-wise data and then by the ward-wise data for the towns if any, within the jurisdiction of the C.D.Block. In the case of a village of which only a portion has been incorporated in a town or has been recognised as an outgrowth of a town, the details relating to only that portion which is not so incorporated or so recognised but has been retained in the rural frame is presented under various columns. The names of villages (and their respective areas) which are fully included in urban areas or have been recognised as outgrowths of towns for purposes of the 1991 Census(but are retained in the jurisdictional lists of the Survey and Settlement authorities) if any within the boundaries of the C.D.Block are indicated in the flyleaf which precedes the PCA statement for the C.D.Block

After presenting the PCA data for all the villages and towns covered by the C.D.Blocks in the district, the PCA data relating to all the urban areas of the district (i.e., statutory as well as non-statutory towns) are furnished. For this purpose, the towns/urban agglomerations are arranged in an ascending order of their location code numbers. And, for each town the ward or division-wise details are presented here.

In Karnataka, as already mentioned, the jurisdiction of a C.D.Block is coterminus with that of the Taluk of the same name, but excludes the areas incorporated in statutory towns and cities. By and large, a C.D.block corresponds to the rural areas of the taluk. However, if there are any non-municipal census towns and areas which have been identified as outgrowths of statutory towns within the jurisdiction of the taluk, then such towns and outgrowths are also regarded as lying within the jurisdiction of the concerned C.D.Block. The PCA particulars relating to such units are presented under the concerned C.D.Blocks against the urban category and are repeated again at the end under the caption 'District Urban'.

In the case of an urban agglomeration, the aggregate figures obtained by the addition of the data relating to the constituent towns and outgrowths thereof if any are presented against its name. Thereafter, the data for the constituent towns starting from the core town including the location code, are presented in a continuous sequence. In case a town has outgrowths (which are not towns in their own right) in the first line the aggregates relating to the core town as well as its outgrowths are given and

this is then followed by the details relating to the core town and the outgrowths separately. Each outgrowth is treated at par with a municipal ward or division while presenting the ward-wise PCA for towns.

3. Brief note on Census concepts :-

Census taking is a massive operation carried out in a short span of time with the active participation of a very large number of census enumerators. The reference moment for the 1991 census count is the sunrise of March 1, 1991. However, the enumeration of the population was spread over a period of 20 days from 9-2-1991 to 28-2-1991 followed by a revisional round from 1-3-1991 to 5-3-1991 for updating the population count with reference to the sunrise on March 1, 1991. The questionnaires canvassed by the enumerators, namely the Household Schedule and the Individual Slip are brief in their wordings and the concepts used for purposes of the 1991 Census Operations and the manner in which the schedules are to be filled in have been explained in a booklet entitled Instructions to Enumerators for filling up the Household Schedule and the Individual Slip. Some of the important concepts and the relevant explanations are indicated in the following paragraphs.

(i) **Urban areas** :- The definition adopted in 1961 and adhered to in 1971 as well as in 1981 (though with a slight modification regarding the classification of fishing and forestry) has been retained for the 1991 census also. According to this definition the urban areas include :

i) all places with a Municipality, Corporation, Cantonment Board or Notified Town Area Committees, etc.

ii) all other places which satisfy the following criteria :-

a) a minimum population of 5,000

b) atleast 75 per cent of the male working population engaged in non-agricultural pursuits and

c) a density of population of at least 400 per square kilometre (1000 per square mile)

d) all places which, though not satisfying the above criteria, had pronounced urban characteristics.

(ii) **Urban Agglomeration**: This concept, which replaced the concept of 'town-group' in 1971, has been retained for the 1991 census. It has been observed that very often railway colonies, university campuses, port areas, military camps and large residential colonies etc., come up quite adjacent to, but situated outside the statutory limits of cities and towns. Such areas may not by themselves qualify to be treated as towns. But if they form a continuous spread with the town they are outgrowths of the town and deserve to be treated as urban. Such towns together with their outgrowths have been treated as one urban unit called "urban agglomeration". An urban agglomeration may consist of :

a) A city with continuous outgrowth (the part of outgrowth being outside the statutory limits but falling within the boundaries of the adjoining village or villages);

b) One town with similar outgrowths or two or more adjoining towns with their outgrowths as in (a) ; or

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Geographical contiguity with the statutory limits of the core town is the main factor in determining whether or not a nearby satellite town or an outgrowth is to be included in the urban agglomeration. This is purely a statistical concept and for carrying out the actual census, the administrative jurisdictions of the city or the towns concerned as well as of the outgrowths have been kept quite intact. The data are presented for the urban agglomeration as a whole and also severally for each of the constituent units.

(iii) **Rural areas - i.e., villages** : Areas which are not classified as 'urban' according to the definition given above constitute the rural areas. The basic unit for rural areas is the revenue village which has definite surveyed boundaries. In the case of unsurveyed villages, the boundaries as determined by the local usage have been adopted. The revenue village may consist of a single nucleated settlement or comprise of several settlements or clusters of houses located at several places within the territorial limits of the village or the village may not be having any human

settlements at all (i.e., it may be totally uninhabited). The census village and the revenue village are identical in the matter of jurisdiction. However, there are a few exceptions to this general rule:

1) When the main settlement of the village with or without the surrounding open lands is constituted into an urban area, the remaining tracts of the revenue village are together treated as a separate unit for purposes of census i.e., the truncated portion itself is considered as an independent revenue village.

2) When outlying portions of certain revenue villages are incorporated into the limits of urban areas by a Government Notification such areas, whether populated or not, are excluded from the revenue village concerned and the village boundaries are redefined for census purposes.

3) Revenue villages which are completely incorporated in the limits of urban areas or else, are submerged completely under reservoir projects but are still retained in the jurisdictional lists of the Survey and Settlement authorities pending a resurvey and such other procedures, are taken note of as revenue villages but are omitted for census purposes i.e., these are not treated as census villages. Similarly, entire revenue villages, which have been identified as outgrowths of urban areas for purposes of 1991 census are treated not as census villages but as urban areas. The names of such villages, if any, in a Taluk/C.D.Block are indicated in a fly leaf.

4) If there are forest areas that do not form part of any of the revenue villages then such areas are identified clearly and the smallest administrative unit into which such forest areas are divided (eg.Forest Beat) is reckoned as the census village. A Forest Range may consist of several such census villages. (In Karnataka this phenomenon is noticeable only in Kollegal Taluk of Mysore District).

(iv) **Census Enumeration Block** :- The smallest unit adopted for census taking is the Census Enumeration Block. Generally, the towns and cities are divided into wards or divisions and, wherever such units exist, their distinctive identities have been maintained. The geographical area comprised in each such ward or division or, the town in its entirety, is constituted into several blocks in such a way that every bit of land specifically stands included in one or the other enumeration block and also that there is no over-lapping of areas. In the urban areas, the Census Enumeration Blocks are constituted in such a way that each such Block contains about 120 households covering a population of about 600 persons. However, in view of the condition that each block should have clear-cut boundaries easily recognisable on the field, blocks which are either larger or smaller than the norm have also been constituted. In the case of non-municipal towns, if the town boundaries are not specifically notified, the jurisdiction of the entire revenue village concerned is regarded as the jurisdiction of the town as well. In the case of towns which are under the administration of Mandal Panchayats, the Panchayat jurisdiction need not necessarily be identical with the jurisdiction of the non-municipal census town.

In the case of villages, depending upon the population data based on the Houselisting Operations carried out during 1990, each village has been constituted into one or more number of Census Enumeration Blocks. The work-load norm for the rural areas is 150 households covering an approximate population of 750 persons. However, numerous Census Enumeration Blocks with below-norm population have been constituted and a single enumerator has quite often been entrusted with the enumeration work in 2 or more contiguous blocks so as to ensure that the aggregate population is quite close to the norm. Further, in each village care has been taken to ensure that no bit of land belonging to that village is left out of consideration while constituting the Blocks. Each hamlet or island, if any, found within the jurisdiction of the village - irrespective of its population size - has been constituted into a separate Block in order to maintain its geographical identity. Further, even the villages known to be uninhabited at the time of houselisting operations have been constituted into separate blocks. In other words, a complete coverage of the territorial jurisdiction of each and every village has been ensured.

(v) **Location Code Number** : Every State in the Country, every District in the State, every Taluk or

Town in the District, every C.D. Block (or its equivalent) in the District, every village in the taluk and every ward or division in the city or town and every enumeration block in the village or town is assigned a number in a particular order for carrying out the census enumeration. When these numbers are written side by side in the same order, starting from the State and separated by an oblique mark, the identity of any particular census enumeration block can be known quite easily. The numbers assigned are in Arabic numerals, except in the case of towns in which case Roman numerals have been adopted. For assigning the location code numbers the States in the Country, the Districts in the State, the Towns in the District and the Taluks/C.D.Blocks in the District are arranged in the alphabetical order of their names. The villages in a taluk are organised into revenue circles or hoblis for administrative purposes and each such unit will have a headquarter town or village. The identity of such units is maintained while assigning the location code numbers. Starting from the circle of which the Taluk Headquarters happens to be the Circle headquarters as well, the villages in its jurisdiction are serially numbered by proceeding in a clockwise direction or in a serpentine manner starting from the north-west corner. After exhausting all the villages in that circle, the villages of the adjacent circle are assigned numbers in the same manner. The numbering of villages run continuously for the Taluk through the different Circles or Hoblis.

The entire set of the 1991 census data relating to the village directory and the village/urban ward-wise PCA has been computerised. For this purpose a separate code structure has been developed. The computer codes assigned to the villages in each Taluk or C.D.Block are indicated in the alphabetical list of villages along with the corresponding location code numbers assigned for enumeration purposes. So also particulars about the codes assigned to towns are indicated in the alphabetical list of towns which precedes the presentation of the PCA statements in respect of the urban areas of the district.

(vi) **Building** : A building is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, worksheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-*cum*-residence, etc.

(vii) **Census House** : A 'census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

(viii) **Household** : A 'household' is a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of households having unrelated members are boarding houses, messes, hostels, residential hotels, rescue homes, jails, *ashramas* etc. These are called 'Institutional Households'. There may be one member households, 2 member households or multi-member households. For census purposes, each one of these types is regarded as a 'household'. If a group of persons who are unrelated to each other live in a census house but do not have their meals from the common kitchen, they would not constitute an institutional household. Each such person would be treated as a separate household. The important link in finding out whether there is a household or not is a common kitchen. There may be a household which does not have a house to live in and may temporarily dwell on the roadside pavement, in hume pipes, temples, *mantaps*, platforms etc., or move about from place to place resting underneath shade-bearing trees, pavements and verandahs of public or private buildings. Such households, referred to as 'Houseless Households' for census purposes, were enumerated on the night of February 28, 1991.

ix) **Criteria for enumeration of a person in a particular household :**

1) All those who normally stay and are present in that household during the entire period of enumeration i.e., from February 9 to February 28, 1991 (both days inclusive);

2) All those who are known to be normally residing and had actually stayed during a part of the enumeration period (February 9 - 28, 1991) but are not present at the time of the enumerator's visit ;

3) Also those who are known to be normally residing and are not present at the time of the enumerator's visit but are expected to return before February 28, 1991 and

4) Visitors who are present in the household censused and are away from the place(s) of their usual residence during the entire enumeration period. For the purpose of enumeration such visitors will be treated as normal residents of the household in which they are actually found during the enumeration period provided they have not been enumerated elsewhere.

(x) **Literate** : A person who can both read and write with understanding in any language is 'literate'. A person who can merely read but cannot write, is not 'literate'. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of the age of 6 years or less are treated as illiterate.

(xi) **Workers and Non-workers** : For census purposes 'work' is defined as 'participation in any economically productive activity'. Such participation may be physical or mental in nature and would involve not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise. The reference period for determining whether a person is a worker or a non-worker is the year i.e., the 365 days, preceding the date of enumeration. The criterion is liberal and, even a person who has participated in the production of goods and services for a very brief period is entitled to be categorised as a worker. Depending upon the nature of his or her activity during the reference period, every person enumerated at the census is classified as either a worker or a non-worker.

Among 'workers' however there are two categories :-

Main Workers : Those who have worked for a major part of the year i.e., for 183 days or more (6 months or more) during the reference period even though this may be in broken spells and in different occupations.

Marginal Workers : Those who have not worked for a major part of the year under reference i.e., those who have worked for less than six months (i.e., for less than 183 days) during the entire reference period.

In view of the past experience that women are often classified as non-workers because of non-reporting of their work or as those who have not worked for a major part of the year, special efforts have been made at the 1991 census for eliciting accurate information by asking probing questions.

In respect of main workers as also marginal workers, further details on the sector of economy in which they worked, the actual nature of work done by them, their employment status (i.e., employer, employee, unpaid family worker or own account single worker) have been gathered at the census.

Important terms such as cultivators, agricultural labourers and household industry are explained below.

a) **Cultivators**: For purposes of census, a person is working as a cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation as well. A person who has given out his or her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct the cultivation of land, will not be treated as 'cultivator'. Similarly, a person working in another person's land for wages in cash or kind or a combination of both will not be treated as ' cultivator '.

Cultivation involves ploughing, sowing and harvesting. For certain reasons, the growing of certain crops is not considered as cultivation and a person engaged in growing of such crops is not regarded as a cultivator. A person can be classified as cultivator or not, *only on the basis of the crops grown.*

The growing of the following crops is considered as cultivation -

1. Cereal and Millet crops : Paddy, wheat, jowar, bajra, maize, ragi, barley, etc.

2. Pulses : Arhar, gram, kesari, moong, masur, urd, etc.

3. Fibre crops : Raw cotton, jute, mesta, sunhemp and kindred crops.

4. Oil Seeds : Sesamum, ground-nut, rape seed, mustard, linseed, sunflower, castor, etc.

5. Cash crop : Sugarcane

The growing of the following crops *is not considered* as cultivation :-

1. Plantation crops : Tea, coffee, rubber, tobacco, pepper, cardamom, etc.

2. Edible nuts (other than groundnut) : Walnut, almond, cashewnut, etc.

3. Fruits : Bananas, apples, grapes, mangoes, oranges etc.

4. Coconut

5. Ganja, cinchona, opium and medicinal plants.

6. Betel nuts (areca)

7. Flowers

8. Roots and tubers, chillies and spices

9. Vegetables

10. Other crops not specifically included under cultivation.

b) **Agricultural Labourer** : A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation. The agricultural labourer has no right of lease or contract on the land on which he or she works.

c) **Household Industry** : Household Industry is defined as an industry conducted by the head of the household himself or herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in the case of urban areas. The larger proportion of workers in a household industry would consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify to be registered under the Indian Factories Act. Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. The goods produced should not be exclusively for consumption by the household itself but should be wholly or partly for sale.

d) **Other Workers** : All workers, i.e., those who have been engaged in some economic activity during the reference period of last one year, who are not Cultivators or Agricultural Labourers or workers in Household Industry were categorised as 'Other Workers' (OW) at the time of census enumeration and further details about the nature of industry, trade or service in which they were engaged were gathered by the enumerators. On the basis of this descriptive information, at the tabulation stage, each such worker has been further categorised as belonging to one or the other of the following Industrial Categories based on Revised National Industrial Classification - 1987.

III Workers in livestock, forestry, fishing, hunting, plantations, orchards and allied activities;

IV Workers in mining and quarrying activities;

V(b) Workers in manufacturing, processing, servicing and repairs which are carried on as other than household industry;

VI Workers in construction;

VII Workers in trade and commerce;

VIII Workers in transport, storage and communications, and

IX Workers in other services.

(xii) **Non-workers** : All those who have not at all participated in any economic activity during the reference period of one year preceding the date of enumeration are classified as non-workers.

Depending upon the manner in which such non-workers engaged themselves for most of the time during the reference period of one year they are classified into one or the other of the following six categories at the time of census enumeration itself. However, the Primary Census Abstract presented in this volume does not furnish details according to the categories of non-workers but indicates the total number of non-workers by sex.

a) Household duties : This covers all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year.

b) Students : This will cover all full-time students including children attending school.

c) Dependents : This category includes all dependents such as infants, children not attending school and permanently disabled from work because of illness or old age. Dependents will include even able bodied persons who cannot be categorised in any other category of non-workers but are dependent on others.

d) Retired Persons or Rentiers : A person who has retired from service and is doing no other work i.e., not employed again in some full time work or not engaged in some other work such as cultivation, business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he or she does not have to work, will come under this category.

e) Beggars : This will cover beggars, vagrants or cases such as persons without indication or source of income and those with unspecified sources of subsistence who are not engaged in any economically productive work.

f) Inmates of Institutions : This will cover convicts in jails or inmates of a penal, mental or charitable institution even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc., in such institutions. But an undertrial prisoner enumerated in a jail would be recorded for the work he or she was doing before he or she was apprehended. Similarly, a person temporarily in a hospital or similar institutions would be recorded for the kind of work he or she was doing before he or she was admitted into the hospital or institution. But, for a long-term undertrial prisoner or convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work would not be taken into consideration. A person will be considered as 'Long-term' inmate if he or she is in such an institution for 6 months or more.

4. Brief History of the District:

Bidar is a charming district - one of its charms being a very bracing climate practically throughout the district and for the greater part of the year. April and May are the hot months, but even during this hot weather period, the heat is often broken by sharp and sudden thunder showers. By early June the South-West Monsoon sets in with all its pleasant coolness and the weather is back to its bracing glory. The cold weather is never too cold and the rainfall is never excessive though its excessive variation is often the cause, symptom and malaise of severe droughts. One other aspect of its charm is that it is full of history - every village and town being replete with monuments, legends, stories of valour, romance of beautiful princesses, long forgotten battles, feuding military adventurers and even of social reform movements that shook the very foundation and structure of medieval Hinduism.

The area comprised in Bidar district has an impressive history of more than a thousand years. Basavakalyan, a taluk-headquarters town at present and Bidar city itself were seats of power in the past. From about the 6th century A.D. this part of the country was ruled by the Chalukyas of Badami until they were subdued in the mid-eighth century by the Rashtrakutas who established their capital at Malkhed located in the present Gulbarga district. The Rashtrakutas were however displaced by the Chalukyas in 973 A. D. Thereafter, the Chalukyas shifted their capital from Malkhed or Manyakheta, to Kalyani (i.e., Basavakalyan) and subsequently came to be known as the Chalukyas of Kalyani after the name of their capital. Among the Chalukyan rulers the most

famous monarch is Vikramaditya VI who introduced the Chalukya Vikrama Saka. He has the reputation of defeating the Cholas and plundering Kanchi, of helping the King of Malwa in regaining his lost territories and of extending his conquests as far as Bengal and Assam. The supremacy of Chalukyas over this part of the country lasted till about 1156, when Bijjala of the Kalachurya family, himself the Prime Minister and Commander-in-Chief of the Chalukyan Kingdom, usurped the throne. Bijjala's period is also well known to historians because his reign marked the revival of Shaivism and the founding of Veerashaiva faith by his own Prime Minister, the great social reformer Basaveshwara. Basavakalyan became a noted centre of an intense socio-religious movement. When the king himself became submerged under the all enveloping spiritual and moral power and influence of Basaveshwara, the forces of reaction too became quite vigorous. The pressure built up was so intense that Basaveshwara had to ultimately resign from his office and move out of the capital to his new abode at Kudalasangama. The socio-religious movement did not subside and very soon a flash point was reached. To the dismay of the king, two devout followers of Basaveshwara belonging to socially unequal communities, Madhuvayya and Haralayya, allowed their children to marry and thus transgressed the established custom. The reactionary forces ensured that these deviants were put to death by the King's decree. But immediately thereof the common people rose in an open rebellion in which the king himself was got killed. Bijjala was succeeded by his son Soyideva who ruled till 1176. Thereafter his brothers Sankama and Ahavamalla ruled for about 7 years and his youngest brother Singhana succeeded to the throne in the year 1183 assuming all the paramount titles of his predecessors. The same year he was overthrown and the kingdom was restored to Someshwara IV of the Chalukyan dynasty by Dandanayaka Barmarasa. The historical importance of Basavakalyan began to decline gradually and the Chalukyan power crumbled under the pressure of Hoysalas on the one hand and Yadavas of Devagiri on the other.

Bidar and its neighbourhood which formed part of the Chalukyan kingdom appears to have been taken over by the Kakatiyas of Warangal in the later half of the 11th century A.D. itself. In 1322 Muhammed-Bin-Tughlak defeated the Raja of Warangal and annexed Bidar also. Muhammed-Bin-Tughlak conferred the Government of Bidar with its dependencies on Nusrat Khan. Being unable to meet the financial commitment to the King, in 1345, Nursat Khan rebelled against Mohammed-Bin-Tughlak. But this rebellion was put down by Qutlugh Khan, the Governor of Daulatbad. In 1347, Ala-ud-din Hassan Shah Gangu Bahmani, the founder of the Bahamani dynasty captured Bidar and became the undisputed monarch of the entire Deccan region. He had his capital at Gulbarga and divided his vast kingdom into four provinces of which Bidar was one. During this period, Bidar flourished as a prominent town and seat of power. In 1422, Bidar was the venue of a conflict between the royalists supporting king Firoz who had suffered defeat at the hands of Vijayanagar and Warangal kings around this period and the supporters of his brother Prince Ahmed Shah. Ahmed Shah emerged successful and ascended the throne, The new king, struck by the climate of Bidar, built a new capital city naming it after himself as Ahmedabad-Bidar. For himself he built a large palace known as Takhat Mahal and had the famous turquoise throne of the Bahamanis installed in its magnificient Audience Hall. The paintings executed on the ceilings and walls of the tomb of King Ahmed Shah are considered as quite unique in India for beauty and elegance. Ala-ud-din, the son of Ahmed Shah, was in turn succeeded by Humayun the *Zalim*. Having ruled as a king for about 3 years and incurred the displeasure of his subjects, Humayun appointed his eight year old son as his successor even during his own life time. He appointed a council of Regency consisting of the Queen Mother, the famous statesman Khwaja Muhammed Gawan and Khwaja Jahan Turk to administer the State. During the later period of this regency, for a brief spell, Bidar was captured and occupied by Muhammed Khilji of Malwa. Nizam, the son of Humayun, on his return to the capital restored the damaged and half destroyed buildings to their original granduer. Khwaja Muhammed Gawan is remembered even to this day on account of the famous school he founded viz, the Madarasa at Bidar, the remnants of which are extant even to this day. He is also credited with introducing several welfare and reformatory measures during his tenure as the Prime Minister. During the later part of his career, however, owing to palace intrigues, he was charged with treason and put to death in 1481. The king was quick to realise his folly and he too died in 1482. From about 1490, Quasim Barid who became the Prime Minister held the king completely under his power and began to rule the kingdom and in 1492

he declared independence. But the king immediately made terms with him and confirmed him as the Prime Minister. Thereafter, the Bahamanis ceased to be a ruling dynasty even though King Muhamad Shah had four nominal successors after himself. Quasim Barid and his descendants ruled over their kingdom - known as the Barid Shahi Kingdom - including Bidar, till 1619 when Ibrahim Adil Shah II of Bijapur annexed this territory. Bidar remained as a part of Adil Shahi kingdom till 1656 when Aurangazeb wrested it for the Mughal empire. Bidar was then rechristened as Zafarabad and Mughal coins were issued in that name. Thenceforth Bidar became a provincial headquarters. In 1724, when Mir Kalan Khan was Governor of Bidar, Asaf Jah, the Subedar of the Deccan, declared independence. Thereafter Bidar formed part of the territory ruled by the Nizams of Asaf Jah dynasty and continued to be the seat of a Governor till about 1846. The system of administration through military Governors was given up in 1846 and the Nizam's dominions were organised into districts. Bidar then became the headquarters of a district under the administrative control of a Commissioner. During the British period of the Indian history, Bidar formed part of the Nizam's Dominions. After independence and the accession of the Nizam's territories to the Indian Union in 1948, Bidar district became part of the then Hyderabad State. Historically the District is thus seen to be a much annexed and occupied territory by a host of dynasties, kings, military adventurers and rebellious generals. Even as late as the Nizam's Government under British suzerainty, it was subjected to extremes of feudal exploitation with the host of 'Jagirs' and other private estates. Coupled with this, were the frequent droughts and famines that sapped the strength of its peasantry and chained it to the throes of poverty and backwardness.

5. Location and Physical Aspects :

Almost 700 kilometres from Bangalore, Bidar lies at the farthest north-eastern corner of Karnataka. Bifurcated and truncated during the re-organisation of States in 1956, it is today only a fraction of its vast expanse in the erstwhile State of Hyderabad. What remains today are only the former taluks of Bidar, Bhalki, Homnabad and Aurad, the taluks of Zahirabad and Narayankhed having been transferred to Andhra Pradesh and the taluks of Udgir, Ahmedpur and Nilanga having been included in the adjoining State of Bombay.

Present day Bidar covering an expanse of 5448 square kilometres of land lies between 17 degrees 35 minutes and 18 degrees 25 minutes North Latitudes and 76 degrees 42 minutes and 77 degrees 39 minutes east longitudes, with the districts of Nizamabad and Medak in Andhra Pradesh on the East and the districts of Nanded and Osmanabad in Maharashtra on the west. On the south lies the district of Gulbarga of Karnataka. Even today Bidar forms the tri-junction of the three principal cultures of the Deccan viz. Maharashtra, Andhra and Karnataka. This central position in the Deccan, had for long imparted to Bidar, the pre-eminent position in the history of the Deccan though to-day it presents a picture of centuries of neglect and ruin. Bidar town itself is located on the brink of a plateau about two hundred feet above the adjoining plains, thereby giving it a natural defence-difficult of access and attack in olden days.

The entire region forms part of the Deccan trap and is composed mainly of solidified lava. Manjara, a tributary of Godavari, is the main river of the district and its basin covers an area of 1989 square kilometres. Karanja is a tributary of Manjara and its basin covers an area of 2422 square kilometers. There are two smaller rivers called Mullamari and Goudarnala which belong to the Krishna basin and cover an area of 585 square kilometres. The rivers and rivulets are not navigable.

The average annual rainfall is around 900 millimetres and most of the precipitation occurs during the months of June, July, August and September. Generally, the number of rainy days and the amount of rainfall would be maximum during September. The climate is generally dry throughout the year. May is the hottest month with day temperatures reaching 42 degrees celsius mark on several days. December is the coldest month. The minimum day temperature does not normally sink below the 30 degrees celsius mark while the night temperature may some times go down to about 16 degrees celsius.

6. Administrative divisions and changes during the decade :-

Bidar district belongs to Gulbarga Division, which is one of the four administrative divisions into which the State is organised. The district has five taluks with their respective headquarters located at Aurad, Basavakalyan, Bhalki, Bidar and Homnabad. These taluks are grouped into two Sub-Divisions -

(a) Basavakalyan Sub-Division with its headquarters at Basavakalyan having jurisdiction over the taluks of Basavakalyan, Bhalki and Homnabad, (b) Bidar Sub-Division with its headquarters at Bidar having jurisdiction over the taluks of Bidar and Aurad. Except for the fact that a new Sub-Division named after Basavakalyan was created during the inter censal decade there has been no change in the jurisdiction of either the District as such or of its 5 constituent Taluks.

For channelising the rural development activities in the State, Zilla Parishads have been constituted in each district under the provisions of the Karnataka Zilla Parishad Act, 1985. In Bidar district just as there are 5 Taluks for Revenue Administration, there are 5 Taluk Panchayats for Development Administration. Each Taluk Panchayat is administered by a committee of elected representatives called the 'Taluk Panchayat Samiti' which is provided with the services of a Chief Executive Officer popularly known as the Block Development Officer. The jurisdiction of a Taluk Panchayat coincides with that of the Taluk of the same name but excludes the areas forming part of the statutory towns. Thus, since there is no statutory town in Aurad Taluk, the jurisdictions of Aurad Taluk and Aurad Taluk Panchayat are identical. In the other 4 Taluks, the jurisdictions of the Taluk Panchayats extend only over the villages of the corresponding taluks and excludes the statutory towns. In the case of Bidar Taluk however, the area incorporated in Bidar City is outside the purview of Bidar Taluk Panchayat. But the areas around the statutory limits of the city which have been identified as outgrowths of Bidar city for 1991 census purposes fall within the jurisdiction of the Taluk Panchayat.

Particulars about the number of villages and towns in each Taluk as listed for purposes of 1991 census and corresponnding information relating to the 1981 census are furnished in the following statement.

Statement showing the no. of villages/towns in each taluk of the District, decadal variations if any and reasons thereof.

Sl. No	Taluk	Total No. of Villages according to the list finalised for		No. of towns as per Census list	Reasons for variation in the No. of villages between 1981 and 1991 Census
		1981 Census	1991 Census		
1	2	3	4	5	6
1.	Aurad	149	149	--	--
2.	Basavakalyan	114	114	1	--
3.	Bhalki	122	122	1	--
4.	Bidar	148	137	1	Jangalkoi revenue village is fully incorporated in Bidar town; Hejjergi revenue village is fully submerged under Karanja Reservoir Project and the remaining 9 villages viz., 1. Aliabad, 2. Bag-e-Karanja, 3. Chidri, 4. Guller Haveli 5. Kumbarwada, 6. Mailur, 7. Mohillate-e-Gairabi, 8. Naubad and 9. Seri Champa are treated as 'urban' having been identified as the outgrowths of Bidar City.
5.	Homnabad	87	87	2	--
	TOTAL	620	609	5	

The municipal council which was carrying on the civic administration in Aurad Town in 1981 has since been dissolved and the civic administration is being looked after by a Mandal Panchayat. As a result, Aurad lost its status as a statutory town. Further, since Aurad did not satisfy the empirical tests for classifying a place as 'urban area' for 1991 census it has been declassified and included in the 1991 list of villages. The statutory limits of t e other towns in the district have not undergone any change during the inter censal decade. However in view of the recent developments around the statutory limits of Bidar City several adjoining areas have been identified as constituting the outgrowths of Bidar City. The entire cluster, i.e., the city and its outgrowths, has now been constituted into an urban agglomeration named after Bidar City. Particulars about the villages which are fully or partly included in urban areas of the district are given in the following statement.

Particulars of villages which are fully or partly included in Urban Areas of the District

7. Brief Analysis of Data

i) Area and population

With an area of 5448 square kilometres, Bidar district has returned a population of 1,255,799 persons at the 1991 Census. This population is unevenly distributed among 587 inhabited villages and 5 towns located within the jurisdiction of the 5 taluks into which the district is organised. In terms of geographical area, Aurad is the largest taluk and Bidar is the smallest taluk. However, in terms of population, Bidar is the largest taluk and accounts for 26.39 per cent of the total population of the district. Aurad taluk, on the other hand, happens to be the smallest and its share in the district total comes to 16.73 per cent only. The remaining 3 taluks of Bhalki, Homnabad and Basavakalyan respectively account for 17.75 per cent, 19.51 per cent and 19.62 per cent of the total population of the district.

ii) Rural - Urban composition :-

The rural-urban dichotomy highlights the numerical predominance of the rural population. At the 1991 Census, 1,010,096 persons, constituting as much as 80.43 per cent of the total population of the district, have been returned from the rural areas and the remaining 245,703 persons accounting for 19.57 per cent have been enumerated in the urban areas. Amongst the taluks, Aurad does not have any urban resident population at all. In other words, the entire population of Aurad taluk is 'rural'. On the other hand, in Bidar taluk those enumerated in urban areas constitute as much as 39.95 per cent. That is to say, the proportion of rural population in Bidar taluk is 60.05 per cent, a figure which is considerably lower than the district average. In the other 3 taluks of Basavakalyan, Bhalki and Homnabad the rural residents respectively account for 82.65 per cent, 87.94 per cent and 82.18 per cent. The jurisdiction of the Taluk Rural corresponds to that of the C.D.Block (i.e.Taluk Panchayat) of the same name. The following Table gives a Taluk-wise distribution of the rural population of the district by sex and also indicates the number of villages in each Taluk.

TABLE - 1 : POPULATION AND NUMBER OF VILLAGES, 1991

Sl. No	Name of C.D.Block/ Taluk Rural	Population of villages			No. of villages	
		Persons	Males	Females	Total	Inhabited
1	2	3	4	5	6	7
1.	Aurad	210040	106926	103114	149	149
2.	Basavakalyan	203592	102760	100832	114	113
3.	Bhalki	196042	99476	96566	122	120
4.	Bidar	199044	102161	96883	137	123
5.	Homnabad	201378	102517	98861	87	82
	DISTRICT	1010096	513840	496256	609	587

There are altogether 609 villages in the district and at the 1991 Census count 22 have returned a 'nil' population. As may be noticed from Table 1, fourteen out of these 22 uninhabited villages are found in Bidar taluk alone and 5 are found in Homnabad taluk. Among the taluks, Aurad has the largest number of inhabited villages, viz., 149 out of 587 or 25 per cent. At the other end, Homnabad has the smallest number of inhabited villages and accounts for just 14 per cent of the total number of villages in the district. In terms of population size also, Aurad is the largest taluk and accounts for 20.79 per cent of the rural population of the district. Though Homnabad has the smallest number of villages, its population is higher than that returned by the taluks of Bidar and Bhalki: while Homnabad contributes 19.94 per cent, Bidar and Bhalki contribute 19.70 per cent and 19.41 percent respectively to the total rural population of the district. The above Taluk-wise distribution shows that the range of variation is quite narrow.

Table 2, given below shows that the urban population of the district is unevenly distributed in 5 urban areas. All the 5 are statutory towns and while one among these, namely Bidar, is governed by a City Municipal Council, the others are governed by Town Municipal Councils. Bidar city has grown beyond its statutory limits and, for census purposes, it has been constituted into an urban agglomeration, by recognising the contiguous out-growths as forming part of the larger urban entity named, 'Bidar Urban agglomeration'. This unit alone accounts for 53.89 per

cent of the urban population of the district. Basavakalyan is the second largest urban unit and Chitgoppa the smallest. The population returned by these two towns respectively, constitute 17.40 per cent and 7.36 per cent of the urban population of the district.

TABLE - 2 : POPULATION AND NUMBER OF TOWNS, 1991

Sl. No	Name and Civic Administration Status of Town	Population		
		Persons	Males	Females
1	2	3	4	5
1	Basavakalyan (TMC)	42748	22209	20539

	DISTRICT	245703	129352	116351

* Includes Out-growths

iii) Additions of new towns, declassifications and or merger of old towns, 1981 - 91 :-

As may be seen from Table 3 there has not been any addition to the list of towns between 1981 and 1991. In fact, there has been a reduction in the number of town as a result of the declassification of 'Aurad' which was a statutory town in 1981 and had a population of 7971. In 1991 it is a village with 13659 inhabitants. During the decade the district has not witnessed any instances of merger or amalgamation of towns.

TABLE - 3 NEW TOWNS/TOWNS DECLASSIFIED, MERGED IN 1991 CENSUS

Name of Town	Population
1	2
(a) Added,	
- Nil -	- Nil -
(b) Declassified,	
Aurad	7971 (1981)
(c) Wholly merged	
- Nil -	- Nil -

iv) Decadal variation in population 1981-91 :-

A comparative idea about the decadal variation in the population of the district and its constituent taluks with the rural-urban break up may be had from the details presented in the following Table.

During the decade, the district has witnessed an addition of 260,108 persons. Among them, 191,821 persons (i.e., 73.75 per cent) and 68,287 persons (26.25 per cent) have respectively been returned from the rural and the urban areas. In all the taluks population has increased, though at different rates. Bidar taluk

TABLE - 4 : DECADAL CHANGE IN DISTRIBUTION OF POPULATION

Taluk	Population						Percentage Decadal Variation (1981-91)			Percentage of Urban Population	
	1981			1991							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1981	1991
1	2	3	4	5	6	7	8	9	10	11	12
1. Aurad	173789	165818	7971	210040	210040	-	20.86	26.67	-	4.59	-
2. Basavakalyan	200182	166884	33298	246340	203592	42748	23.06	22.00	28.38	16.63	17.35
3. Bhalki	182255	163428	18827	222918	196042	26876	22.31	19.96	42.75	10.33	12.06
4. Bidar	247906	169050	78856	331452	199044	132408	33.70	17.74	67.91	31.81	39.95
5. Homnabad	191559	153095	38464	245049	201378	43671	27.92	31.54	13.54	20.08	17.82
DISTRICT	995691	818275	177416	1255799	1010096	245703	26.12	23.44	38.49	17.82	19.57

tops the list with 33.70 per cent and Aurad holds the bottom-most place with just 20.86 per cent. The district as such has registered a growth rate of 26.12 per cent. This rate is considerably higher than the State average of 21.12 per cent.

The rural-urban classification shows that the rural sector, which accounts for the bulk of the population, has registered a decadal growth rate of 23.44 per cent. In contrast, the increase noticed in the case of ur an population is 38.49 per cent. The difference between these two rates is very large in Bidar taluk: as against a mere 17.74 per cent increase in the rural population the urban population has risen by 67.91 per cent. Homnabad taluk presents a different picture, for, in this case while the rural population has registered a growth rate of 31.54 per cent, the urban population has risen by a meagre 13.54 per cent. Unlike in 1981, Aurad Taluk does not have any urban population now. This is due to the fact that, Aurad, which was a statutory town in 1981 with a population of 7971, now stands declassified, for with the dissolution of the erstwhile municipality in 1986 it lost its statutory urban status and further the place did not satisfy the empirical criteria laid down for classifying a place as an 'urban area' for purposes of 1991 census. In this taluk the rural population has registered a decadal growth rate of 26.67 per cent - a rate significantly higher than the district average. However, even this above-average growth rate of Aurad compares poorly with the phenomenal growth of 31.54 per cent noticeable in Homnabad taluk.

v) Trends of urbanisation :-

The proportion of urban population to the total population, which is a measure of urbanisation, has moved up in the district from 17.82 per cent in 1981 to 19.57 per cent in 1991. This increase in the urban component compares favourably with the general trends of urbanisation noticeable in the State and the country. It may be seen from Table 4 that within the district, the proportion of urban population has increased by 8 percentage points in Bidar taluk, only marginally in the taluks of Bhalki and Basavakalyan and has decreased in the other two taluks. Urban component is now altogether absent in Aurad taluk as a consequence of the declassification of Aurad (the only town in existence in 1981) for purposes of 1991 census. In the case of Homnabad, which has two towns and both have gained in population during the decade, the proportion of urban population has moved down from 20.08 per cent to 17.82 per cent. Obviously in this taluk the conditions in the rural areas appear to have been more favourable for population growth.

In the matter of number of towns in the district, Bidar has suffered a setback - as against 6 towns in 1981, there are only 5 in 1991. On this count it is obvious that the progress of urbanisation has decelerated during the decade. At the same time, it is noteworthy that several areas outside the statutory limits of Bidar city have acquired urban characteristics and have therefore been identified as out-growths of Bidar though not as independent towns in their own right. During the decade, the population of Bidar has crossed the one lakh mark and the town has acquired the status of a city.

vi) Population size of villages :-

The rural population of the district is dispersed among 587 inhabited villages spread over 5 taluks. The average population of a village works out to 1721 persons. Among the taluks, Homnabad has the highest average of 2456 persons per village and is followed by Basavakalyan (1802 persons per village). Aurad, which has the largest number of inhabited villages, has the lowest average of 1410 persons per village. The average size of a village in the other two taluks, viz, Bidar and Bhalki, works out to 1618 persons and 1634 persons respectively. When the population of each village is considered it would be evident that in this district there are several villages with less than 500 persons each as also villages with a population of 5000 and more. The following table gives a taluk-wise (C.D.Blockwise) distribution of the villages by population size and needs no further elucidation.

TABLE - 5 : PERCENTAGE DISTRIBUTION OF VILLAGES BY POPULATION RANGES, 1991

Taluk / C.D.Block	No. & Percentage of inhabited Villages	No. and Percentage of Villages in each range (Figures in Parenthesis indicate percentage of Villages in each range)					
		Less tahn 200	200 - 499	500 - 1999	2000 - 4999	5000 - 9999	10,000 & above
1	2	3	4	5	6	7	8
1. Aurad	149	4	18	102	23	1	1
	(100.00)	(2.68)	(12.08)	(68.46)	(15.44)	(0.67)	(0.67)
2. Basavakalyan	113	4	10	64	31	3	1
	(100.00)	(3.54)	(8.85)	(56.64)	(27.43)	(2.66)	(0.88)
3. Bhalki	120	1	8	77	30	4	-
	(100.00)	(0.83)	(6.67)	(64.17)	(25.00)	(3.33)	
4. Bidar	123	1	12	79	28	3	-
	(100.00)	(0.81)	(9.76)	(64.23)	(22.76)	(2.44)	
5. Homnabad	82	-	2	46	26	7	1
	(100.00)	-	(2.44)	(56.10)	(31.71)	(8.53)	(1.22)
DISTRICT	587	10	50	368	138	18	3
	(100.00)	(1.70)	(8.52)	(62.69)	(23.51)	(3.07)	(0.51)

vii) Density of population :-

The overall density of population in Bidar district is 231 persons per square kilometre. In conformity with the general pattern, the urban areas of the district are more densely populated (3179 persons per sq.km) than the rural areas (188 persons per sq.km). Unlike in the case of urban areas where the number of units is just 5, in the case of villages the density of population is subject to wide variation. As with population, so with geographical area, the villages differ from each other to a considerable extent. Therefore, density is chosen as a convenient tool for comparative analysis.

TABLE - 6 : DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq.km)	Total No.of Villages in each density range	Percentage of Villages in each density range
1	2	3
- 10	1	0.17
11 - 20	3	0.51
21 - 50	5	0.85
51 - 100	33	5.61
101 - 200	323	55.03
201 - 300	165	28.11
301 - 500	41	6.98
500 +	16	2.73
Not known	-	-
TOTAL	587	100.00

A distribution of the 587 inhabited villages by density ranges which is presented below in Table 6, shows that the number of persons per square kilometre is 100 or less in the case of only 42 villages (17.16 per cent), lies in the range of 101 - 300 in the case of as many as 488 villages (83.13 per cent), lies between 301 - 500 in the case of 41 villages (6.98 per cent) and exceeds the 500 mark in only 16 villages (2.73 per cent). Population density in most of the villages of the district is thus seen to be quite moderate.

viii) Sex Ratio :-

Among the 1,255,799 persons enumerated in Bidar district at the 1991 census, 643,192 are males and 612,607 are females. The sex ratio, expressed as number of females per thousand males, for the district works out to 952. This figure is significantly lower than the average for the State which is 960. In 1981, it may be recalled, the position was quite the reverse - as against a State average of 963, Bidar district had returned a sex ratio of 968.

Generally, the rural population, being more stable than its urban counterpart, has a more favourable sex ratio. In conformity with this general pattern, the rural areas of Bidar district too have a sex ratio of 966 as against a sex ratio of 899 noticeable in the urban areas. The town-wise population data discloses that the sex ratio for towns (see Table 7) varies between 846 in Bhalki and 980 in Chitgoppa. In Bidar, the most populous urban unit of the district,

the sex ratio is 886. The sex ratio in the remaining two towns of the district, namely Basavakalyan and Homnabad, is seen to be 925 and 931 respectively.

TABLE 7 : - SEX RATIO FOR TOWNS, 1991

Sl. No	Name and civic administration of Town	Number of Females per 1000 Males
1	2	3
1.	Basavakalyan (TMC)	925
2.	Bhalki (TMC)	846
3.	Bidar * (CMC)	886
4.	Chitgoppa (TMC)	980
5.	Homnabad (TMC)	931
	DISTRICT URBAN	899

* Includes the population of outgrowths

In the case of rural areas, as may be seen from Table 8, the sex ratio happens to be the highest in Basavakalyan taluk/C.D.Block (981) and the least in Bidar Taluk 948). Bhalki has the second highest sex ratio of 971 while the other two taluks of Aurad and Homnabad have an identical sex ratio of 964.

TABLE 8 :- SEX RATIO FOR RURAL POPULATION OF TALUKS/C.D.BLOCKS, 1991

Sl.No.	Name of Taluk/C.D.block	Number of females per 1000 males
1	2	3
1.	Aurad	964
2.	Basavakalyan	981
3.	Bhalki	971
4.	Bidar	948
5.	Homnabad	964
	DISTRICT RURAL	966

ix) Literacy :-

Out of the 1,255,799 persons enumerated in Bidar district, 255,989 are in the 0-6 age-group. Since all such children are *per se* treated as illiterate they are excluded while computing the literacy rate. Accordingly, since among those aged 7 years or upwards, 451,061 persons have returned themselves literate, the literacy rate for the district works out to 45.11 per cent - the sex-wise rates coming to 58.97 per cent and 30.53 per cent respectively for males and females. These rates are considerably lower than the State average of 56.04 per cent for total population and 67.26 per cent for males and 44.34 per cent for females. The literacy rates for the rural and urban areas of the district are 39.43 per cent and 68.02 per cent respectively. Within the rural category, as may be deduced from the following table, there are considerable variations amongst the 5 taluks (C.D.Blocks) as also between the male and female segments of the population.

TABLE - 9 : TALUK-WISE/C.D.BLOCK-WISE LITERACY RATES FOR RURAL POPULATION BY SEX, 1991
(Excluding population in the age group 0 - 6)

Sl. No.	Name of Taluk/C.D.Block	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1.	Aurad	39.51	53.01	25.48
2.	Basavakalyan	39.91	55.09	24.53
3.	Bhalki	44.05	59.66	28.01
4.	Bidar	34.83	48.10	20.79
5.	Homnabad	38.86	53.52	23.63
	District Rural	39.43	53.85	24.51

Among the 5 taluks/C.D.Blocks under consideration, while Bhalki has returned the highest literacy rates for both males and females, Bidar - the taluk within the jurisdiction of which the district headquarters town of Bidar is located - has returned the lowest rates. The behaviour of Bidar taluk (rural) belies the general expectations, for one would expect that under the favourable influence exerted by the city on the surrounding villages the literacy rate in such villages would move up - especially as compared to the villages located in the interior parts of the district.

The town-wise particulars presented in Table 10 shows that the literacy rate varies between 55.72 per cent in Chitgoppa and 74.35 per cent in Bidar. Sex-wise data, discloses that in the case of male literacy rate, Bidar tops the list with 83.62 per cent. Regarding female literacy too, Bidar has the highest rate of 63.76 per cent. Among the 5 towns, Chitgoppa which is the smallest town of the district, contains a relatively low proportion of literates in the male and female segments of population.

TABLE - 10 : LITERACY RATES FOR TOWNS, 1991
(Excluding the children in the age-group 0 - 6)

Sl. No	Name and Civic administration status of Town/U.A	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1.	Basavakalyan (TMC)	57.58	69.80	44.07
2.	Bhalki (TMC)	63.91	76.97	48.01
3.	Bidar (CMC) & OG	74.35	83.62	63.76
4.	Chitgoppa (TMC)	55.72	67.98	43.34
5.	Homnabad (TMC)	64.97	76.89	52.07
	DISTRICT URBAN	68.02	78.76	55.91

x) Scheduled Castes :-

According to the 1991 census, persons belonging to the Scheduled Castes in Bidar district constitute 20.71 per cent of the total population. This proportion is higher than the State average of 16.38 per cent. The Scheduled Castes are found in rural as well as urban areas. If the villages are classified according to proportion of Scheduled Castes population to the total population in each village the position would be as indicated in Table 11. Nine villages of the district do not have any Scheduled Caste population.

TABLE - 11 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES

Percentage range of Scheduled Castes population to total population	No. of Villages in each range	Percentage of Villages in each range
1	2	3
0 - 5	20	3.46
6 - 10	33	5.71
11 - 15	79	13.67
16 - 20	116	20 07
21 - 30	197	34.08
31 and above	133	23.01
ALL RANGES	578	100.00

It may be noticed from Table 12, which indicates the percentage of Scheduled Castes Population in the towns of the district that this percentage is the highest in Bhalki town (19.74 per cent) and the least in Chitgoppa (9.98 per cent). In Bidar, the urban area with the largest population, the Scheduled Castes account for 12.22 per cent. In the other towns of Basavakalyan and Homnabad respectively the Scheduled Castes constitute 11.34 per cent and 14.46 per cent. In the urban areas of the district as such the Scheduled Castes constitute 12.96 per cent of the total urban population.

TABLE - 12 :- PERCENTAGE OF SCHEDULED CASTES POPULATION IN TOWNS, 1991

Town	Total Population	Total Schedule Castes Population	Percentage of Scheduled Castes Population to Total Population
1	2	3	4
1. Basavakalyan	42748	4847	11.34
2. Bhalki	26876	5306	19.74
3. Bidar*	132408	16178	12.22
4. Chitgoppa	18090	1806	9.98
5. Homnabad	25581	3699	14.46
DISTRICT URBAN	245703	31836	12.96

* Includes the population of Outgrowths.

xi) Scheduled Tribes :-

According to the 1991 census, persons belonging to the Scheduled Tribes in Bidar district constitute 8.30 per cent of the total population. This proportion is very much higher than the State average of 4.26 per cent and indicates that the district has a heavy concentration of Scheduled Tribes. Among the 587 inhabited villages, 188 villages do not have any Scheduled Tribes population. A distribution of the 399 villages having Scheduled Tribes Population is given in Table 13 by proportion of Scheduled Tribes population to the Total population of the village.

TABLE - 13 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Tribes population to total population	No. of Villages in each range	Percentage of villages in each range
1	2	3
0 - 5	114	28.57
6 - 15	151	37.84
16 - 25	73	18.30
26 - 35	35	8.77
36 - 50	17	4.26
51 and above	9	2.26
ALL RANGES	399	100.00

In the case of urban areas, it is seen that the Scheduled Tribes constitute 2.35 per cent of the total urban population of the district. Town-wise particulars

given in Table 14, reveal that there is a relatively heavy concentration of the Scheduled Tribes in Homnabad Town, where they constitute as much as 5.68 per cent of the total population of the town. In Basavakalyan too the Scheduled Tribes are found in a significant number, for in this town their share in the total population comes to 2.94 per cent. The proportion of Scheduled Tribes population is 1.74 per cent in Bhalki and Chitgoppa and 1.72 per cent in Bidar.

TABLE - 14 : PERCENTAGE OF SCHEDULED TRIBES POPULATION IN TOWNS, 1991

Town	Total Population	Total Scheduled Tribes Population	Percentage of Scheduled Tribes Population to Total Population
1	2	3	4
1. Basavakalyan	42748	1255	2.94
2. Bhalki	26876	468	1.74
3. Bidar*	132408	2283	1.72
4. Chitgoppa	18090	314	1.74
5. Homnabad	25581	1453	5.68
DISTRICT	245703	5773	2.35

*Includes the population of outgrowths.

xii) Main workers , Marginal workers and Non-workers :-

As in 1981, at the 1991 census also, every person enumerated has been classified either as a main worker or as a marginal worker or as a non-worker at the time of enumeration itself. According to this classification, in Bidar district, 37.16 per cent are main workers, 2.71 per cent are marginal workers and the remaining 60.13 per cent are non-workers. A comparison with the corresponding figures for the State (which are 38.45 per cent, 3.54 per cent and 58.01 per cent respectively) shows that the proportion of workers in the population of Bidar district is slightly lower than the State average. The sex-wise details for the district indicate that among males, the main workers, the marginal workers and the non-workers constitute 48.63 per cent, 0.19 per cent and 51.18 per cent respectively. Among females these three categories respectively account for 25.10 per cent, 5.36 per cent and 69.54 per cent. Evidently the proportion of marginal workers in the male population is quite negligible whereas its magnitude is quite significant in the female population. It may be stated in passing that the proportion of main workers in the male population of the district is significantly lower than the State average (53.53 per cent). On the other hand, the proportion of main workers in the female population of the district is slightly higher than the State average (22.73 per cent).

Within the district there are differences in this regard between the rural population and the urban population as also amongst the various rural and urban administrative units. For instance, while main workers in the rural population constitute 40.02

TABLE - 15 : PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON WORKERS FOR RURAL POPULATION OF C.D.BLOCKS/TALUKS 1991

Sl No.	Name of the Taluk / C.D.Block	Percentage of											
		Main Workers to Total Population			Marginal Workers to Total Population			Total Workers to Total Population			Non - Workers to Total Population		
		P	M	F	P	M	F	P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1	Aurad	40.68	50.44	30.55	3.26	0.17	6.47	43.94	50.61	37.02	56.06	49.39	62.98
2	Basavakalyan	39.66	51.68	27.41	6.47	0.44	12.61	46.13	52.12	40.02	53.87	47.88	59.98
3	Bhalki	39.04	50.20	27.53	2.81	0.14	5.56	41.85	50.34	33.09	58.16	49.66	66.91
4	Bidar	40.73	51.07	29.84	1.54	0.15	3.00	42.27	51.22	32.84	57.73	48.78	67.16
5	Homnabad	39.96	49.12	30.45	2.26	0.20	4.40	42.22	49.32	34.85	57.78	50.68	65.15
	DISTRICT RURAL	40.02	50.51	29.17	3.28	0.22	6.45	43.30	50.73	35.62	56.70	49.27	64.38

per cent, their counterparts in the urban population account for just 25.38 per cent. This disparity is particularly noticeable in the case of female population: as against 29.17 per cent in the rural population, in the urban population they constitute just 7.79 per cent.

Table 15 presents a percentage distribution of the rural population of the district and its constituent C.D.Blocks by sex according to the categories of main workers, marginal workers and non-workers.

The proportion of main workers varies within a narrow range among the 5 units under consideration. On the other hand, the range of variation in the case of marginal workers is quite considerable - as against only 1.54 per cent of the population in Bidar C.D.Block, in Basavakalyan this proportion is as high as 6.47 per cent.

A percentage distribution of the urban population of the district and the constituent towns, by sex, according to the categories of main workers, marginal workers and non-workers is presented in Table 16 given below.

TABLE - 16 : PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON-WORKERS FOR TOWNS, 1991

Sl. No.	Name and Civic Administration Status of Town	Percentage of											
		Main Workers to Total Population			Marginal Workers to Total Population			Total Workers to Total Population			Non - Workers to Total Population		
		P	M	F	P	M	F	P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1	Basavakalyan (TMC)	27.63	45.72	8.07	0.51	0.11	0.95	28.14	45.83	9.02	71.86	54.17	90.98
2	Bhalki (TMC)	26.74	40.39	10.61	1.50	0.12	3.11	28.24	40.51	13.72	71.76	59.49	86.28
3	Bidar * (CMC)	23.86	39.42	6.30	0.13	0.04	0.23	23.99	39.46	6.53	76.01	60.54	93.47
4	Chitgoppa (TMC)	29.29	43.79	14.49	0.28	0.01	0.55	29.57	43.80	15.04	70.43	56.20	84.96
5	Homnabad (TMC)	25.32	42.27	7.12	0.16	0.02	0.32	25.48	42.29	7.44	74.52	57.71	92.56
	DISTRICT URBAN	25.38	41.21	7.79	0.36	0.06	0.69	25.74	41.27	8.48	74.26	58.73	91.52

* Includes Outgrowths.

The above table indicates that the proportion of main workers declines as the population size of a unit increases. In Bidar, the unit with the largest population, the main workers constitute 23.86 per cent. But in Chitgoppa which has the smallest population, the main workers account for as much as 29.29 per cent. If the category of marginal workers is considered, it is noticed that it varies between a negligible 0.13 per cent in Bidar and significant 1.50 per cent in Bhalki.

PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE

The Primary Census Abstract furnishes, in a nutshell as it were, vital information on the basic demographic and economic composition of the population. This statement, referred to as PCA, summarises the whole mass of data gathered at the Census. The smallest geographical unit with a clearly defined boundary identifiable on the field that has been delineated for ensuring cent per cent coverage of the area under the jurisdiction of various administrative units is the Census Enumeration Block. The details gathered in the household schedules in respect of each and every person enumerated in each such block have been meticulously tabulated to prepare this Primary Census Abstract. The tabulation has been done entirely by manual processing of the data at the Regional Tabulation Offices. The village PCA is derived from the Block PCA and in case of urban areas, the Block PCA has yielded the ward and Town PCA. In turn, the Taluk (Rural) and Taluk (Urban) as well as Taluk (Total) PCA statements as well as the C.D.Block-wise PCA Statements are built up on the basis of Village-wise and Town-wise data. This process goes on until it yields the data for higher and higher administrative divisions, such as the District and the State, culminating at the apex in the form of a single line statement for the country. The entire edifice thus rests on the information contained in the household schedules filled up by the enumerator.

The District Primary Census Abstract is presented immediately after this Explanatory Note. This statement gives the aggregate figures for the district with the rural-urban break up, the aggregate figures for each C.D.Block (with the rural-urban break up) and the aggregate figures for each town/urban agglomeration within the district. It is important to note that the lowest unit for which the data are presented here is the C.D.Block and not the traditional taluk*. Thereafter the C.D.Blocks within the district are taken up one by one in the alphabetical order of their names. For each C.D.Block, an alphabetical list of villages (which indicates the code numbers assigned to villages in 1991 as well as the corresponding code numbers assigned in 1981) precedes the presentation of the village-wise PCA followed by the ward-wise PCA in respect of towns and outgrowths if any within the jurisdiction of the concerned C.D.Block. After thus exhausting all the C.D.Blocks in the district, the town/urban agglomerations are covered one by one in the ascending order of their location code numbers without regard to the fact whether any of these towns or portions thereof (eg. outgrowths) have already been covered under one or the other of the Community Development Blocks. As in 1981, on this occasion too, the PCA has been compiled separately in respect of the Scheduled Castes and Scheduled Tribes Population of the District. The District PCA for Scheduled Castes and for Scheduled Tribes are presented after the PCA for the urban areas. The pattern of presentation of data in these two statements is the same as that adopted for presentation of data in the District PCA.

It may be recalled that in Karnataka the term Community Development Block is not in vogue and that its equivalent is the Taluk Panchayat Samiti. The jurisdiction of each Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns. In other words, the administrative jurisdiction of a Taluk Panchayat Samiti covers all the villages of the Taluk (as listed out for the 1991 census) as also the villages or parts thereof which have been classified as non-municipal towns for purposes of the 1991 census and the revenue villages or portions thereof which have been identified as outgrowths of statutory towns and have therefore been excluded from the purview of Rural PCA. It is important to remember that in this statement, the particulars relating to the non-municipal towns (such as those administered by Mandal Panchayats) and those relating to the outgrowths (places which are not towns in their own right) are repeated - for these appear once below the concerned C.D.Block and again under the 'urban areas' of the district.

---

* *For purposes of comparison with 1981 data the Taluk wise District PCA with Rural - Urban breakup is given in Appendx I.*

The Primary Census Abstract has 21 main columns to furnish information about the name of the unit, area, number of occupied residential houses, number of households, population, number of persons in the age-group of 0-6, number of persons belonging to Scheduled Castes and Scheduled Tribes, number of literates, number of main workers and their distribution among nine industrial categories, number of marginal workers and the number of non-workers. In the District PCA, each column indicating the data on population characteristics is sub-divided into 3 columns in order to indicate the total as well as the sex-wise break-up whereas in the village/town PCA, each such column (with the exception of Total Population and Population in the 0-6 age group) is sub-divided into two columns to indicate the sex-wise break-up only.

It may be mentioned at this juncture that for each town/urban agglomeration in the district, information regarding the total population, Scheduled Castes Population and Scheduled Tribes Population of each census enumeration block as also the particulars regarding the boundaries of each Census Enumeration Block have been compiled and are kept for the census data users' reference in the Library of the Office of the Director of Census Operations, Karnataka.

COLUMN 1 : Location Code Number :- The location code number assigned to the village or the town as the case may be is entered in this column.

COLUMN 2 :- Name of Village/Town/Ward :- The name of the village or the town as finally adopted for the 1991 census purposes is entered in this column. The towns and cities are often divided into smaller geographical segments called wards, mohallas or divisions for purposes of administration. Such units bear distinctive locality names or specific numbers. It is this name or the number of the ward or its equivalent unit that is mentioned here in the case of towns.

Irrespective of whether a town is divided into administrative wards or not, every town is invariably constituted into territorial divisions for the conduct of civic elections. This delimitation of constituencies is done as an essential and preliminary process of civic elections scheduled to be held periodically. So, in some cases the name or number reported in this column refers to such territorial divisions and not to administrative divisions.

COLUMN 3 : Area of the Village in Hectares and of Town in Square Kilometres :- For the villages, the area is reported here in hectares upto two places of decimal and for the towns, as also the wards or divisions thereof, the area figures are furnished in square kilometres upto two places of decimal. It may be incidentally mentioned here that for none of the towns in the State, Ward/Division-wise area figures are available. If the area figures are not available for any reason, a dash (-) is entered in this column.

COLUMN 4 : Number of Occupied Residential Houses :- A 'Census House' could be wholly residential or partly residential or else completely non-residential according to the use to which it is put. All census houses enumerated as either wholly or partly residential at the time of the census count are added together to get the data for the block and from thence to derive the data for higher units. Houses found vacant at the time of the census count are not reckoned as occupied residential houses. The information for this column has been compiled from the Abridged Houselists.

COLUMN 5 : Number of Households :- This information too is compiled from the Abridged Houselists. The actual total number of households including the 'normal', 'institutional' and the 'houseless' that were enumerated at the census count is mentioned in this column. Generally, the number of households in any unit would be equal to or more than the occupied residential houses in that unit because of the houseless households that one may come across in that unit and also because of the occasional instances of two or more households sharing a common census house.

COLUMNS 6, 7 AND 8: Total Population (including Institutional and Houseless Population) :- The total population as on the reference date is furnished in column 6 while in the next two columns the sex-wise break-up is given. The institutional population refers to such of those who were enumerated in institutions like hostels, chummeries, hospitals, prisons etc. The houseless persons represent those who were enumerated on the night of 28th February 1991 at

the places where they were found at that time, provided they had not already been enumerated elsewhere.

COLUMNS 9, 10 and 11 : Population in the age group (0 - 6) :- The total number of children belonging to the age-group of 0-6 in the total population as also the number of males and females among them are reported under these three columns. This information is of considerable significance since all such children are regarded as illiterate at the 1991 Census.

COLUMNS 12 AND 13 : Scheduled Castes :- Number of males and females belonging to Scheduled Castes is indicated in these two columns. Whether a person belongs to a Scheduled Caste or not has been determined with reference to the List of Scheduled Castes in Karnataka according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No. 108 of 1976) (See Appendix). Scheduled Castes may belong to either the Hindu or the Sikh or the Buddhist religion.

COLUMNS 14 AND 15 : Scheduled Tribes :- Number of males and females belonging to Scheduled Tribes is reported under these columns. Whether a person belongs to a Scheduled Tribe or not has been determined with reference to the 'List of Scheduled Tribes in Karnataka' according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No.108 of 1976) (See Appendix for the list). Scheduled Tribes may belong to any religion.

COLUMNS 16 AND 17 : Literates :- Sex-wise break up of the total number of persons who are literate, irrespective of their levels of educational attainments is given in these two columns. By definition a literate is a person who can both read and write with understanding in any language. It is important to note that for purposes of the 1991 census by definition all children in the 0 - 6 age group are regarded as illiterate. Even if such a child is going to school and has picked up reading and writing a few odd words it is treated as illiterate.

COLUMNS 18 AND 19 : Total Main Workers :- A worker is a person who participates in economically productive work. The reference period for judging whether a person is a worker or not in the year preceding the day of enquiry. If a person had worked even for one day during this entire period he or she is entitled to be classified as a worker. If for any such worker the period of work is 183 days or more then that person is a main worker. On the other hand, if such period is less than 183 days then that worker is a marginal worker. In columns 18 and 19 the total number of main workers is furnished sex-wise and a sex-wise break up of these main workers according to the nine-fold 'industrial classification of workers' is presented in the next 20 columns i.e., from column 20 to column 39.

COLUMNS 20 AND 21 : Cultivators (Category- I) :- These two columns give out the number of male and female workers who satisfy the conditions laid down in the definition of a cultivator. A cultivator may be an employer, a single worker or an unpaid family worker. Participation in work may be by way of physical labour or by way of supervision and direction. The lands cultivated may be owned by the household or taken on lease for payment in money or kind or share in the produce. Cultivation, as already emphasised involves ploughing, sowing and harvesting and allied activities in the production of cereals and millet crops, pulses, raw jute and kindred fibres, sugarcane, tapioca and oil seeds.

COLUMNS 22 AND 23 : Agricultural Labourer (Category -II) :- A person who works in another person's land for wages in money or kind or share and does not have any lease or contract on the land on which he or she works is an agricultural labourer. In this case too, the crops grown on the lands are quite pertinent and the difference between a cultivator and an agricultural labourer lies in the fact that the former works on his own or leased in lands as an independent worker while the latter works for wages having no right whatsoever on the lands on which he works. The sex-wise break-up of such workers is given in these two columns.

COLUMNS 24 AND 25 : Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities (Category - III) :- A sex-wise break up of the workers who were mainly engaged in activities connected with livestock rearing, forestry and logging, hunting, fishing, plantations, orchards etc., is given under these columns.

COLUMNS 26 AND 27 : Mining and Quarrying (Category - IV) :- A sex-wise break up of the workers mainly engaged in activities connected with mining and quarrying is given under these columns.

COLUMNS 28 AND 29 : Manufacturing, Processing, Servicing and Repairs - Household Industry (Category - V[a]) :- Household industry belongs to the broad category of 'manufacturing, processing, servicing and repairs' and represents a particular sector therein. Household industry is generally conducted by the head of household himself or herself and or mainly by the members of the household, at home or within the village in the case of those dwelling in rural areas and only within the residential premises occupied by the household in the case of those living in urban areas. A person may be a labourer or a petty employee in the household industry run by some other household. By and large the household industry is carried on by individuals on a small scale with or without the assistance of family members all of whom work as unpaid family workers and the entire earnings are treated as family income.

COLUMNS 30 AND 31 : Manufacturing, Processing, Servicing and Repairs - Non-household Industry (Category - V[b]) :- A sex-wise break up of the workers who were engaged in manufacturing, processing, servicing and repair activities in establishments which do not qualify to be classified as household industry as defined above {category V(a)} is given here.

COLUMNS 32 AND 33 : Construction (Category-VI) :- Workers engaged in construction, maintenance, upkeep, repair and similar activities of buildings, roads, railways, bridges, dams, canals, electrical and water supply installations, communication systems etc., are shown under this category.

COLUMNS 34 AND 35 : Trade and Commerce (Category - VII) :- In these two columns the number of male and female workers engaged in wholesale or retail trade in goods or engaged in dealing with insurance, stocks and shares, banking and financial institutions etc., either as proprietors or in any other capacity are indicated.

COLUMNS 36 AND 37 : Transport, Storage and Communications (Category - VIII) :- A sex-wise breakup of the workers in establishments such as railways, road transport, transportation by water-ways or by air, postal and telegraphs, telecommunications etc., which are engaged in transport, storage and communication activities is given in these columns.

COLUMNS 38 AND 39 : Other Services (Category - IX) :- This residuary category includes employees of the Central and State Governments, local bodies and other organisations and institutions engaged in educational, scientific, medical and health services, religious and welfare services, community services, recreational services, personal services and other miscellaneous activities not covered in the 8 categories specified above.

COLUMNS 40 AND 41 : Marginal Workers :- Males and females who are workers but have worked for less than 183 days during the reference year are reported under these two columns. Such workers, irrespective of the economic sector in which they work, are considered together and reported here.

COLUMN 42 AND 43 : Non-workers :- Irrespective of age and sex, all those who are not economically active are non-workers and a sex-wise break-up of such persons is given in these two columns. The aggregate of the main workers, marginal workers and non-workers would be equal to the total population of that unit.

Note 1. The area figure for the district given under Column No.4 against "Total" represent "Geographical Area" and has been furnished by the Surveyor General, India. The figures for the urban areas are either those supplied by the concerned authorities of the towns or compiled in this Directorate on the basis of the records available pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by substracting the total urban area from the total area of the taluk/district. The total of the area figures of all the taluks in a district will not tally with the district figures (except for urban), because the former represent "Land use" area derived from the figures supplied by the Director of Survey Settlement and Land Records in Karnataka.

BIDAR C.D.BLOCK

Note :

The following revenue villages of Bidar Taluk which had been assigned location code numbers have since been classified as Outgrowths of Bidar City.

L.C.No	Name of the Village
16	Bag-E-Karanja
17	Aliabad
44	Mailur
45	Guller Haweli
46	Serichampa
49	Kumbarwada
54	Mohillate-E-Gairabi
116	Naubad
117	Chidri

Further, Jangalkoi which was assigned L.C.No. 57 was subsequently found to be fully incorporated in Bidar City. Hence these villages do not find a mention in the alphabetical list of villages as well as in the PCA statement. This explains the gap in location code numbers noticed in the list of villages and the PCA statement of Bidar C.D.Block. These units except Jangalkoi however appear in the urabn category as part of Bidar Urban Agglomeration.

APPENDIX II

List of Scheduled Castes and Scheduled Tribes as per the Scheduled Castes and Scheduled Tribes orders (Amendment) Act, 1976, (No. 108 of 1976 dated the 18th September, 1976) adopted for the 1991 Census.

SCHEDULED CASTES

1. Adi Andhra
2. Adi Dravida
3. Adi Karnataka
4. Adiya (in Coorg District)
5. Ager
6. Ajila
7. Anamuk
8. Aray Mala
9. Arunthathiyar
10. Arwa Mala
11. Baira
12. Bakad
13. Bant (in Belgaum, Bijapur, Dharwar and North Kanara districts)
14. Bakuda
15. Balagai
16. Bandi
17. Banjara, Lambani
18. Bathada
19. Beda Jangam, Budga Jangam
20. Bellara
21. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
22. Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Muchi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar
23. Bhovi
24. Bindla
25. Byagara
26. Chakkiliyan
27. Chalavadi, Chalvadi, Channayya
28. Chandala
29. Chenna Dasar, Holaya Dasar
30. Dakkal, Dokkalwar
31. Dakkaliga
32. Dhor, Kakkayya, Kankayya
33. Dom, Dombara, Paidi, Pano
34. Ellamalwar, Yellammalawandlu
35. Ganti Chores
36. Garoda, Garo
37. Godda
38. Gosangi
39. Halleer
40. Halsar, Haslar, Hulasvar, Halasvar
41. Handi Jogis
42. Hasla
43. Holar, Valhar
44. Holaya, Holer, Holeya
45. Holeya Dasari
46. Jaggali
47. Jambuvulu
48. Kadaiyan
49. Kalladi
50. Kepmaris
51. Kolupulvandlu
52. Koosa
53. Koracha
54. Korama
55. Kotegar, Metri

56. Kudumban
57. Kuravan
58. Lingader
59. Machala
60. Madari
61. Madiga
62. Mahar, Taral, Dhegu Megu
63. Mahyavanshi, Dhed, Vankar, Maru Vankar
64. Maila
65. Mala
66. Mala Dasari
67. Mala Hannai
68. Mala Jangam
69. Mala Masti
70. Mala Sale, Netkani
71. Mala Sanyasi
72. Mang, Matang, Minimadig
73. Mang Garudi, Mang Garodi
74. Manne
75. Masthi
76. Mavilan
77. Meghval, Menghvar
78. Moger
79. Mukri
80. Mundala
81. Nadia, Hadi
82. Nalkadaya
83. Nalakeyava
84. Nayadi
85. Pale
86. Pallan
87. Pambada
88. Panchama
89. Panniandi
90. Paraiyan, Paraya
91. Paravan
92. Raneyar
93. Samagara
94. Samban
95. Sapari
96. Sillekyathas
97. Sindhollu, Chindollu
98. Sudugadu Siddha
99. Thoti
100. Tirgar, Tirbanda
101. Valluvan

SCHEDULED TRIBES

1. Adiyan
2. Barda
3. Bavacha, Bamcha
4. Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
5. Chenchu, Chenchwar
6. Chodhara
7. Dubla, Talavia, Halpati
8. Gamit, Gamta, Gavit, Mavchi, Padvi, Valvi
9. Gond, Naikpod, Rajgond
10. Gowdalu
11. Hakkipikki
12. Hasalaru
13. Irular
14. Iruliga
15. Jenu Kuruba
16. Kadu Kuruba
17. Kammara (in South Kanara District and Kollegal Taluk of Mysore District)
18. Kaniyan, Kanyan (in Kollegal Taluk of Mysore

19. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
20. Kattunayakan
21. Kokna, Kokni, Kukna
22. Koli Dhor, Tokre Koli, Kolcha, Kolgha
23. Konda Kapus
24. Koraga
25. Kota
26. Koya, Bhine Koya, Rajkoya
27. Kudiya, Melakudi
28. Kuruba (in Coorg District)
29. Kurumans
30. Maha Malasar
31. Malaikudi
32. Malasar
33. Malayekandi
34. Maleru
35. Maratha (in Coorg District)
36. Marati (in South Kanara District)
37. Meda
38. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
39. Palliyan
40. Paniyan
41. Pardhi, Advichincher, Phanse Pardhi
42. Patelia
43. Rathawa
44. Sholaga
45. Soligaru
46. Toda
47. Varli
48. Vitolia, Kotwalia, Barodia
49. Yerava

NOTE: Names of districts as at the 1991 Census corresponding to those appearing in the list :-
Coorg : Kodagu; Dharwar : Dharwad; North Kanara : Uttar Kannad; South Kanara : Dakshin Kannad.

Appendix III - PUBLICATION PLAN

The 1991 Census tables will be published in 33 separate series of volumes for All - India and for each State and Union Territory. The publication series is as follows:

Series No.

1. India

STATES

2. Andhra Pradesh
3. Assam
4. Arunachal Pradesh
5. Bihar
6. Goa
7. Gujarat
8. Haryana
9. Himachal Pradesh
10. Jammu & Kashmir
11. Karnataka
12. Kerala
13. Madhya Pradesh
14. Maharashtra
15. Manipur
16. Meghalaya
17. Mizoram
18. Nagaland
19. Orissa
20. Punjab
21. Rajasthan
22. Sikkim
23. Tamil Nadu
24. Tripura
25. Uttar Pradesh
26. West Bengal

UNION TERRITORIES

27. Andaman & Nicobar Islands
28. Chandigarh
29. Dadra & Nagar Haveli
30. Delhi
31. Daman & Diu
32. Lakshadweep
33. Pondicherry

In each of these series (for all - India and each State/Union Territory) the different series of tables (A Series - General Population Tables, B - Series - General Economic Tables, etc.,) will be brought out as different Parts. Apart from these, District Census Handbooks will be published for each district in the country. These will contain the PCA data for the district, the village and town primary census abstract and the village and town directories. The latter comprise compilations of statistics, external to census relating to the villages and towns, which in conjunction with census data will be very useful to data users.

For all - India and for each State and Union Territory, the census tabulations and reports will be published according to the following plan:

Part No. and subject covered	Sub-part No. if any, and the topics covered
1	2
Part I - Administration Report (for Office use only)	Part I-A - Administration Report Enumeration

	Part I-B - Administration Report Tabulation
Part II - General Population Tables	Part II-A - General Population Tables - A-Series
	Part II-B - Primary Census Abstract
Part III - General Economic Tables	Part III-A - B-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
	Part III-B - B-Series tables of second stage which will be brought out on full count. The data relating HHI, OW, Marginal Workers and Non-workers seeking/available for work will be entered on full count basis.
Part IV - Social and Cultural Tables	Part IV-A - C-Series tables of first stage covering age, sex and marital status, composition of population, single year age returns, educational levels, school attendance and bilingualism.
	Part IV-B - C-Series tables covering mother tongue, religion of population and household composition.
Part V - Migration Tables	Part V-A - D-Series tables of first stage covering tables based on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
	Part V-B - D-Series tables of second stage covering occupational classification of migrant workers. These tables are based on full count.
Part VI - Fertility Tables	F-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
Part VII - Tables on Houses and Household Amenities	H - Series tables covering census houses and the uses to which these are put, construction material of wall, roof and floor of the census houses occupied by households, tenure status of the house occupied and number of living rooms, household size, housing facilities like drinking water, electricity and toilet available to households and the fuel used by the household for cooking. These tables will also cover tables on Scheduled Castes and Scheduled Tribes. This volume will contain analytical notes also.
Part VIII - Special Tables on Scheduled Castes and Scheduled Tribes	This part will contain SC and ST series of tables for Scheduled Castes and Scheduled Tribes respectively. The data relating to Scheduled Castes and Scheduled Tribes will be entered on full count basis in the third stage and SC/ST tables will be processed on the computer on full count. These will

	cover population of each Scheduled Caste/Tribe, industrial categories of main and marginal workers, non-workers seeking/available for work and those who never worked before, educational level, school attendance, age, sex and marital status, composition of Scheduled Castes and Scheduled Tribes. In addition to these, the fertility tables relating to SC/ST are also covered. These tables also cover for Scheduled Tribes, their composition by religion, mother tongue and bilingualism.
Part IX - Town Directory, Survey Report on Towns and Villages	Part IX - A - Town Directory
	Part IX - B - Survey Report on selected Towns
	Part IX - C - Survey Report on selected Villages
Part X	Ethnographic notes and special studies on Scheduled Castes and Scheduled Tribes
Part XI - Census Atlas	Union and State/Union Territory Census Atlases
Part XII - District Census Handbook	Part XII - A - Village and Town Directory
	Part XII - B - Village and Town wise Primary Census Abstract

The following special papers are also planned and will be published as and when they are ready as 1991 Census papers :

(a) Special studies taken up by the Directors of Census Operations

(b) Special Areas Surveys

(c) Special Tables for Standard Urban Areas

(d) Language Survey Reports

(e) Post Enumeration Check Report

(f) Age Tables

(g) Life Tables

(h) Reports on estimates of inter-censal birth and death rates using 1981-1991 life tables and age data

(i) Development of Vital Statistics in India

Besides these special papers, some monographs based on 1991 Census data on subjects of topical interest to be prepared by scholars will be brought out as 1991 Census monographs.

It is also proposed to carry out some special studies of 1991 Census data in collaboration with other organisations and the results of such studies will be published as occasional papers of the 1991 Census.

It is also proposed to disseminate census tabulations and the basic data in machine readable forms such as magnet tapes, diskettes, floppies, etc.

The District Census Handbooks will be available for sale at the Government Central Press, Bangalore and the other publications at the Office of the Director of Census Operations, Karnataka, Bangalore and the Manager of Publications, Civil Lines, New Delhi - 6.
