FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations/ modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Govt./Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third part, Part C of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981, some new features alongwith the restructuring of the formats of Village and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of villages and towns (ward-wise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this Statement details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rates as all children below 7 years of age have been treated as illiterate at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Block-level presentation of data in the Village Directory and PCA instead of the traditional Tahsil/Taluk/PS level presentation. It is expected that the presentation of Village Directory and PCA data at C.D.Block level will help the planners in formulation of micro-level developmental plans, as the C.D.Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census along with the corresponding codes of 1981.

This publication is a joint venture of the State Govt./UT administration and the Census Organisation. The data have been collected and compiled under the direction of Ms. Sobha Nambisan, Director of Census Operations, Karnataka on behalf of the State Govt. administration which has borne the cost of printing. The task of planning, designing and coordination of the publication was initiated by Dr.K.P.Ittaman, former Deputy Registrar General (Social Studies) and Shri M.M.Dua, Joint Director. For the sake of uniformity in presentation of information/data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of Census/non-Census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K.Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri A.K.Singh, Deputy Director who was assisted by S/Shri V.K.Jain and Hariram, Investigators and staff. Technical guidance in the preparation of the maps was initially provided by Dr.B.K.Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi
June 11, 1992.

A.R.Nanda
Registrar General, India

PREFACE

In the foreword to the 1991 series of the District Census Handbooks, Sri A.R.Nanda, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain the salient data on the population for every village and town as revealed by the 1991 Census. They also contain a wealth of information regarding these villages and towns which, although not part of the population census, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information has also considerable importance in the context of planned development.

The District Census Handbook is therefore divided into two parts: Part A containing information regarding each village and town (Village Directory and Town Directory) which is not census data and part B which contains the data on the population collected during the 1991 Census - the Primary Census Abstract. The data published in Part B was collected in February 1991 at the time of the population census. This data was then manually tabulated in the Regional Tabulation Offices set up for the purpose. Subsequently, as a part of the countrywide project taken up in collaboration with the National Informatics Centre, the Primary Census Abstract data was computerised. The data for Part B of the District Census Handbook was therefore available on tape for the entire country by November 1992. Since the Primary Census Abstract data was available first on the computer, it was decided to publish the District Census Handbooks in two separate volumes, with Part B appearing in print first.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in early 1990 and continued till the middle of 1992. For operational convenience, the Village Directory format was divided into two portions, one relating to the area and land use particulars and the other relating to the amenities available in each village. The relevant formats were mailed to the Deputy Commissioners of Districts and Chief Secretaries of Zilla Parishads for obtaining the villagewise particulars. Similarly the Town Directory formats were mailed to the Deputy Commissioners and Commissioners of Corporations. The villagewise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1981 District Census Handbooks. The villagewise information, thus finalised was also computerised during 1992-93 at the National Informatics Centre, Bangalore as in the case of Primary Census Abstract.

The National Informatics Centre, Bangalore has undertaken to supply the camera ready copies for the District Census Handbooks and this may enable us to bring out the District Census Handbooks fairly early.

In the preparation of the District Census Handbooks the role of the Census Directorate is that of data collector. For accomplishing this task we have had the ready co-operation of the staff of different departments of the State Government. The cost of printing of the District Census Handbooks is borne by the Government of Karnataka.

I take this opportunity to offer my grateful thanks to all the officers and officials who have been actively involved in the compilation of this volume.

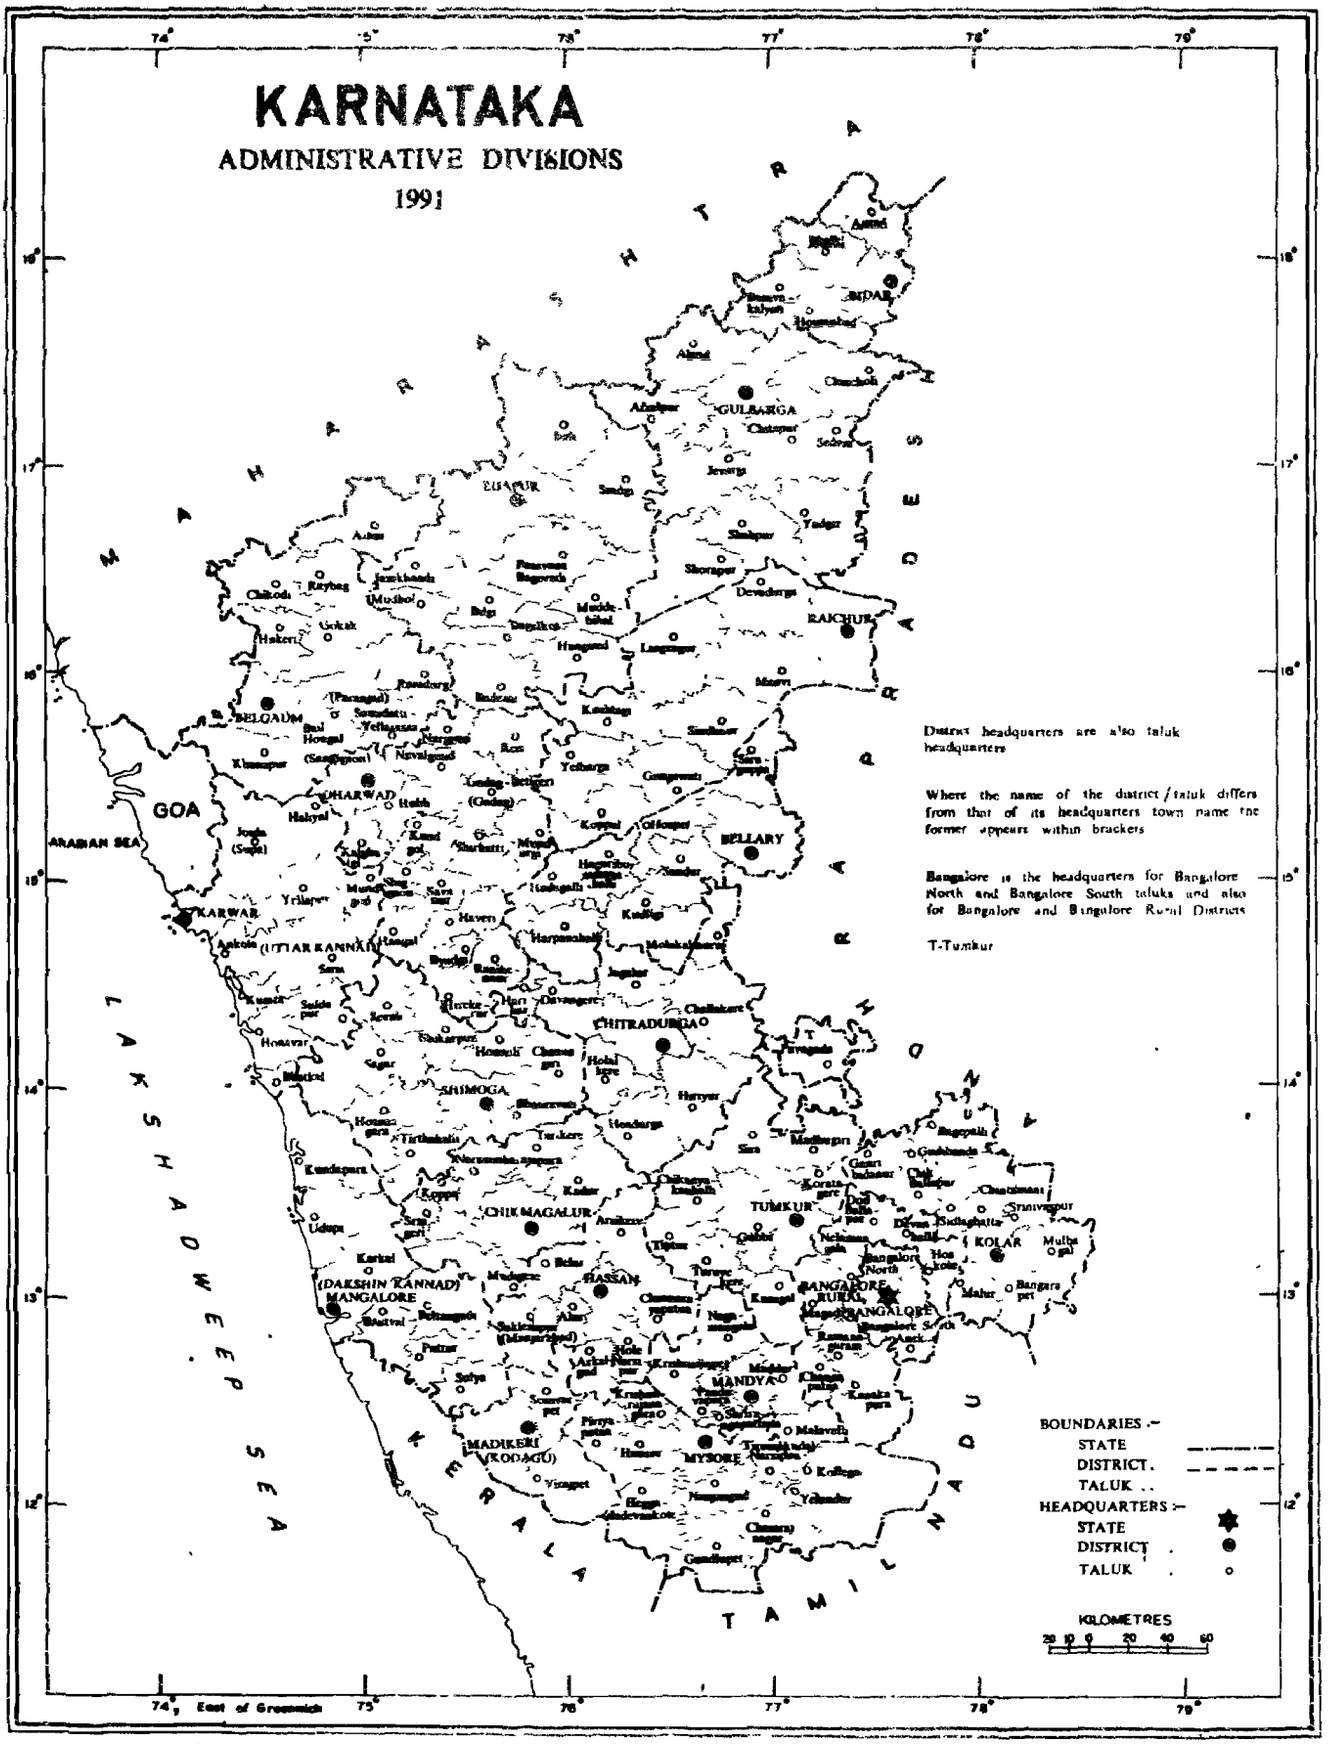

I am thankful to Shri A.Venkateshan, the State Informatics Officer, National Informatics Centre, Bangalore for all the assistance he and his staff members have rendered for computerisation of the data and for preparation of the camera ready copy of the manuscripts of all the Districts.

I am deeply grateful to Shri A.R.Nanda, I.A.S., the Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Shri M.K.Jain, the present Deputy Registrar General (SS) as well as to Mrs. Minati Ghosh, Deputy Registrar General (Map).

Lastly, I am thankful to the Government of Karnataka for having readily agreed to bear the cost of printing these District Census Handbook volumes and to the Director of Printing, Stationery and Publications for the keen interest he has evinced in bringing out these publications.

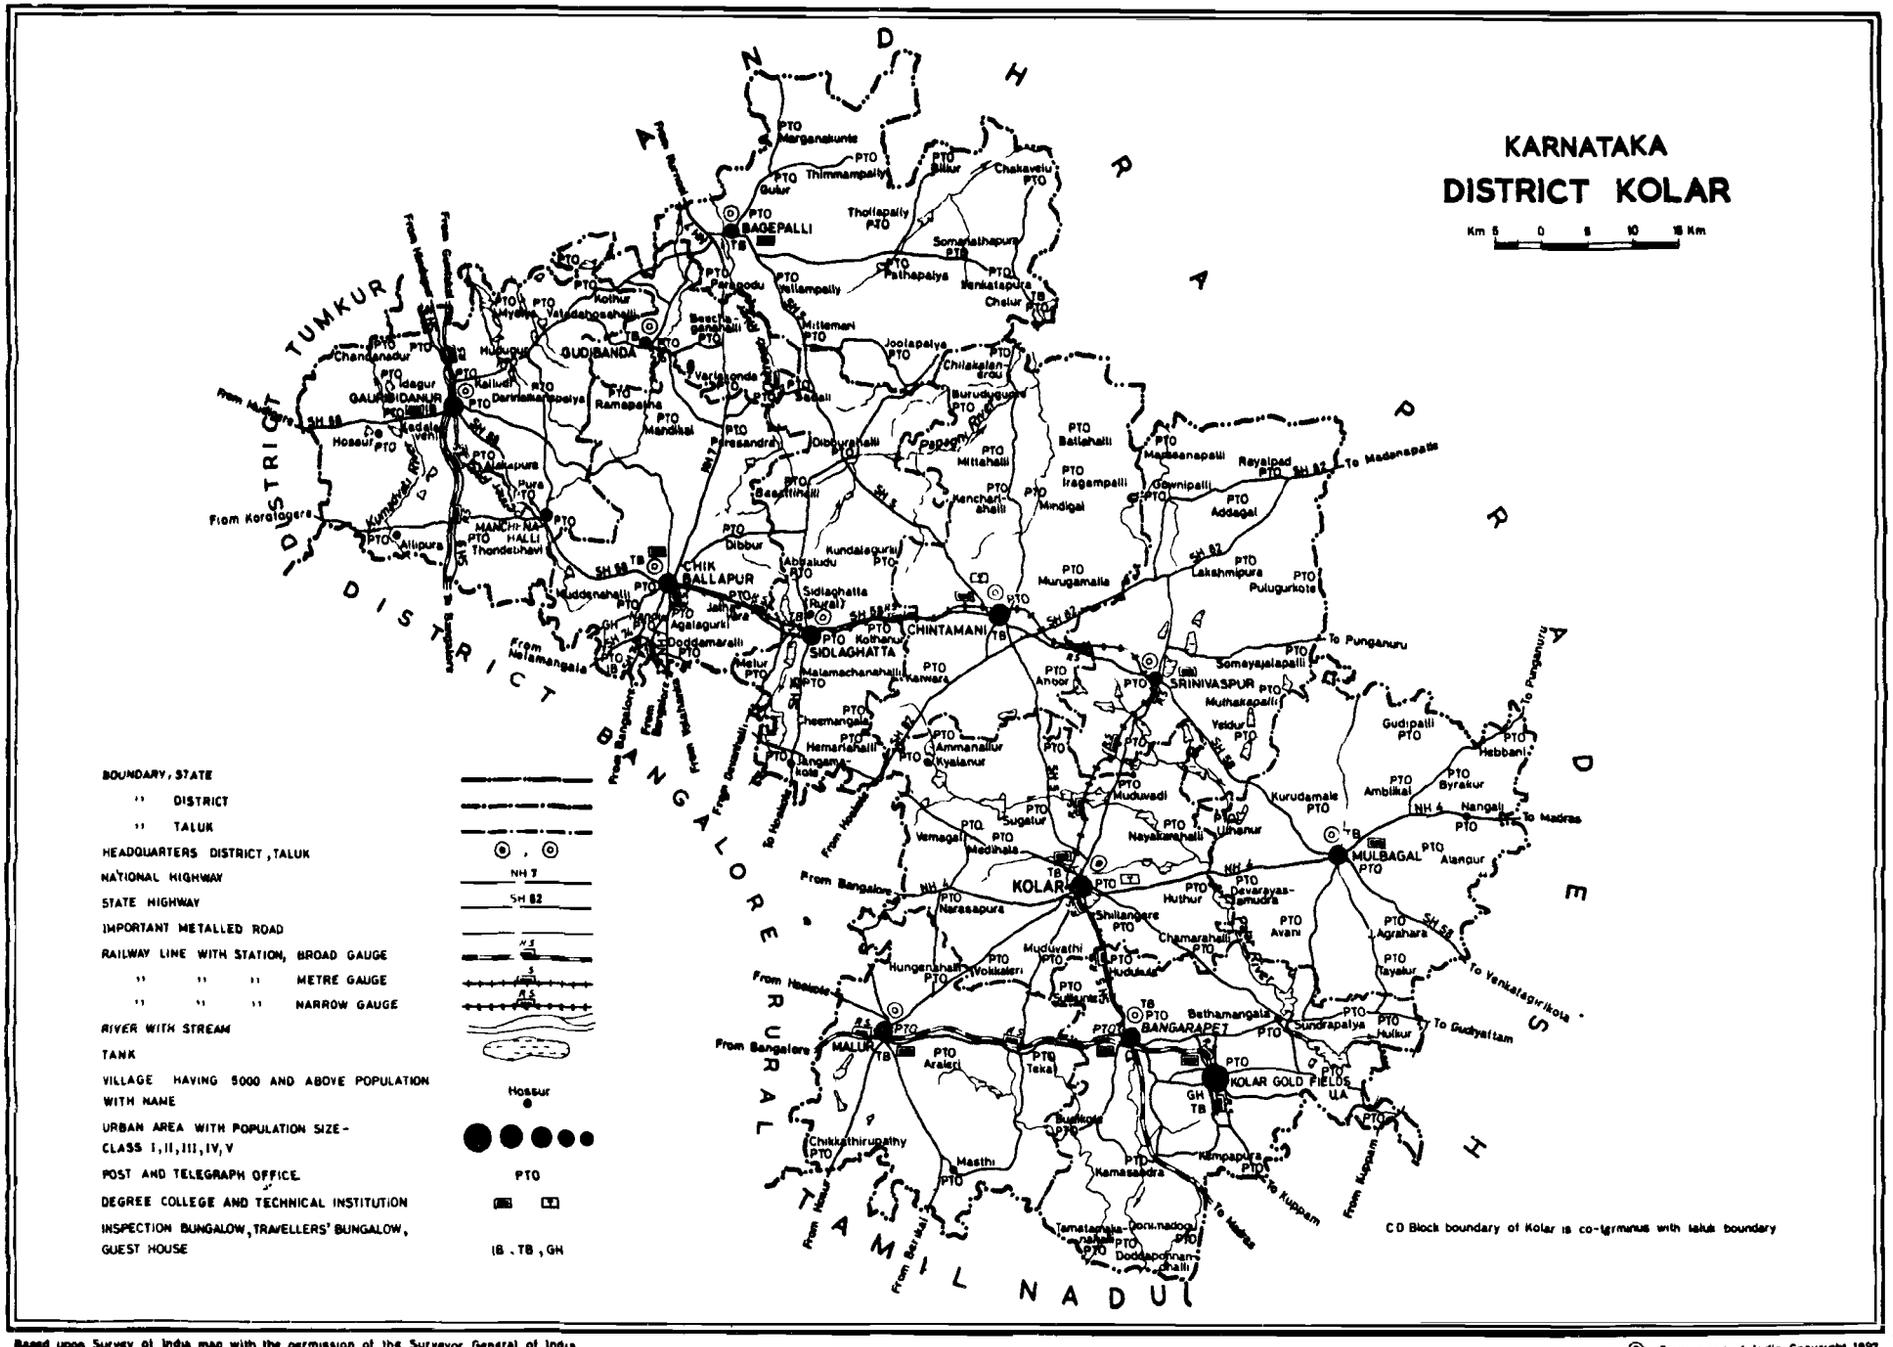

Bangalore,
Date: 16-11-1992

Sobha Nambisan
Director of Census Operations,

ANALYTICAL NOTE

Brief History of the District Census Handbook :-

The District Census Handbook series was, for the first time, included in the census publication programme at the 1951 census in order to satisfy the growing demand for micro-level data by the administrators, the planners and the other census data users. The District Census Handbooks sought to replace 'Part IV - Taluk Tables' and 'Part V - Village Tables' of the earlier censuses and to present the basic demographic and economic data in the form of 'Primary Census Abstract' in respect of each and every village and town within the jurisdiction of the district concerned. In addition, these volumes were to contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

At the 1961 census, the scope of the District Census Handbook was greatly enlarged by incorporating in it - (i) a descriptive account of the district, (ii) a set of non-census tables dealing with the administrative statistics of the district for a decade, (iii) taluk and town level census tables on economic and socio-cultural aspects and (iv) the village and urban (census enumeration block level) Primary Census Abstract containing the ninefold industrial classification of workers. In a somewhat general way, information on the availability of certain basic amenities in villages and towns, such as the sources of drinking water and educational institutions, was also presented in these volumes. These general guidelines were, by and large, followed in Karnataka too. However, the scope of the District Census Handbooks of 3 out of the then existing 19 districts, namely Bangalore, Dharwar and Mysore, was confined to the publication of the village-wise and urban (census enumeration block wise) Primary Census Abstract only.

The 1971 census witnessed an overall improvement in the matter of compilation as well as presentation of the data. A country-wide uniformity in approach and a comprehensive coverage are the hall marks of this series of publications. In 1971, the District Census Handbook was split up into three portions - (i) Part A - consisting of land use data on villages and also the data on the nature and extent of amenities and services available in the villages and towns of the district - presented in the form of Village Directory and Town Directory respectively, (ii) Part B - consisting of the Primary Census Abstract (including the nine-fold industrial classification of workers) for the district, the taluks, the towns, the villages and the census enumeration blocks in case of towns; and (iii) Part C - consisting of an analytical note based on an analysis of the census data as well as the non-census data included in the volume, a set of tables depicting the administrative statistics in minute detail, a set of statistical tables based on the census data in respect of the district and the constituent taluks and towns thereof besides a set of tables generated on the basis of the villagewise census data in association with the villagewise data on the availability of amenities. The main objective was to present a comprehensive and intelligible portrait of the district and an overview of the developmental programmes implemented in the district during the preceding decade. Publication of the District Census Handbooks was planned in such a way as to minimise the delay inherent in the compilation of a voluminous mass of data gathered from different sources. Accordingly, 'Part A', comprising the Village Directory and the Town Directory for the finalisation of which there was no apparent need to wait till the completion of the tabulation of the data gathered at the census, was to be published first and 'Part B', consisting of the Village/Urban Primary Census Abstract was to be released next. A lower priority was assigned to 'Part C' for the obvious reason that besides administrative statistics it was to include a set of socio - demographic and economic tables generated on the basis of the data gathered at the census and an analytical note prepared thereof. In Karnataka, however, 'Part A' and 'Part B' portions of the District Census Handbooks were combined together and published in a single volume for each district except Bangalore. In the case of Bangalore District, since it was felt that the size of such a combined volume would be unweildy, Part A and Part B were published separately. As regards 'Part C', compilation of data took more time than anticipated and, in addition, there was an inordinate delay in executing the printing job at the State

Directorate of Printing. As a result, only a portion of Part C (depicting some of the census tables) relating to Bangalore District was published somewhat belatedly and the proposal to publish the remaining portion of Part C for Bangalore District as well as the entire portion of Part C for the other districts was finally abandoned.

Instead of witnessing an expansion as in the past two censuses the scope of the 1981 series of the District Census Handbooks was curtailed to a considerable extent in that it was confined to the publication of Village Directory, Town Directory and the Village/Urban Primary Census Abstract. Thus, at the initial stage itself there was no proposal to compile and publish the administrative statistics and the various socio-demographic and economic tables based on the census data, that is, the portion which constituted 'Part C' of the 1971 series. But for this change, the approach in 1981 regarding uniformity and comprehensiveness were very much the same as in 1971. In order to avoid delay in publication, as in the past, the District Census Handbook was proposed to be published in two parts, namely, 'Part A' consisting of the Village Directory and Town Directory and 'Part B' consisting of the Village/Urban Primary Census Abstract besides the Special Primary Census Abstracts at taluk/town level in respect of the Scheduled Castes and Scheduled Tribes population of the district.

At the 1981 census, the contents of the Village Directory and the Town Directory were slightly enlarged and the formats were restructured. In the Village Directory all the amenities except power supply were brought together under a broad heading with the provision that 'in case an amenity is not available in the referent village, the distance to the nearest place where that particular amenity is available may be indicated in broad ranges'. A new item 'approach to the village' was included. In the remarks column, a provision was made to report the number of copies of newspapers in circulation in the village as also the number of motor cars, the number of motor cycles and the number of tractors available in the village. Further, in order to examine whether there is any correlation between the availability of amenities and the population size of a village, an additional column was provided in the Village Directory to indicate the population and number of households. The contents of Part A were further enlarged by including two appendices, namely, a list of villages not having any amenities and a distribution of villages according to the proportions of Scheduled Castes and Scheduled Tribes in the total population of the village. The Town Directory formats were also modified by the addition of a few items such as class of town, population, Scheduled Castes and Scheduled Tribes population, decadal growth rate of population, working women's hostel, adult literacy classes/centres, storage system regarding drinking water supply etc., and also by providing for recording the information about the nearest place (and distance) having educational, medical and fire-fighting facilities in case such a facility is not available in the referent town. As compared to 1971, while one statement indicating religion-wise population of the town was dropped, another statement to provide information about the amenities available in notified slums in Class I and Class II towns was added. As regards the Primary Census Abstract of towns, the urban block-wise presentation of data was given up and details were presented only upto the level of Wards/Divisions. However, information on the number of persons belonging to Scheduled Castes and Scheduled Tribes was furnished for each census enumeration block within the town in the form of an appendix and an annexure thereto provided the description of the boundaries of each census enumeration block. Further, instead of the nine-fold classification of workers adopted at the 1971 census, on this occasion the classification was restricted to 4 categories. In Karnataka, in 1981 also, both Part A and Part B portions of the District Census Handbooks were published together in a single volume for each district. However, because of certain technical compulsions, all the information relating to Scheduled Castes and Scheduled Tribes was excluded from the main formats and was presented separately at the end in the form of a Supplement (separate booklets were brought out in the case of Bidar and Mandya Districts).

2. Scope of the 1991 District Census Handbooks:

As in 1981, in 1991 too, the District Census Handbooks are proposed to be brought out in two portions, namely Part A consisting of the Village Directory and the Town Directory and Part B

consisting of the Village/Urban ward-wise Primary Census Abstract in addition to the District Primary Census Abstract and the Special Primary Census Abstract in respect of the Scheduled Castes and Scheduled Tribes. Though, the scope of the 1991 series of the District Census Handbooks has, by and large, remained the same as in 1981, a few significant changes have been made in the Village Directory format as well as the Primary Census Abstract format. In Karnataka, unlike at the previous censuses, on this occasion, the 'Part A' and 'Part B' portions of the District Census Handbooks of each district are being brought out in separate volumes.

The manner of presentation of data has also undergone a significant change in that the Village Directory and the Primary Census Abstract data are presented according to the location of villages and towns within the jurisdiction of a Community Development Block rather than their location within a taluk*. In other words, the traditional practice of taluk-level presentation of data has now been givenup in preference to the Community Development Block level presentation of data which is considered as more meaningful in the present day context. Since C.D.Block is the lowest administrative unit for developmental planning, the choice of the C.D. Block as the unit for data presentation is expected to help the planners in formulating micro-level developmental plans. Another innovation at the 1991 census is the arrangements made for the dissemination of the data in collaboration with the National Informatics Centre through its country-wide computer network. In the published volumes of the District Census Handbooks, therefore, the computer codes assigned to the villages in the 1991 census and the corresponding codes in 1981 are presented so as to facilitate the data users who may prefer to use the data either from magnetic tapes or floppies.

(i) Village Directory :

The Village Directory format adopted for the 1991 series has 18 columns. When examined with reference to the 1981 format it will be noticed that two columns have now been left out - while one of these columns refers to the 'staple food' the other refers to the 'remarks' under which, information about the places of religious, historical or archaeological interest in the village as also information about the number of copies of newspapers in circulation the number of motor cars, motor-bicycles and tractors available in villages was published in 1981. As compared to 1981, there is no change in the scope and coverage of the information presented in the 18 columns of which 8 are devoted for amenities and 6 are meant for indicating the area of the village and the land use pattern. The remaining four columns are meant for indicating the location code and name of the village, total population and the number of households enumerated in the village and the name of the nearest town as also the distance to that town. The aspects covered under the amenities are: educational, medical, sources of drinking water supply, postal and telegraph, weekly market, communication, nature of approach road and power supply. Further, if a village did not have any educational facility at all, instead of merely reporting the fact and stopping at that, an indication of the distance (in ranges) that the villagers have to traverse to reach a place with educational facilities (at the basic level) is reported. The same procedure of reporting is adopted regarding medical facilities, drinking water supply, postal and communication as well as weekly market facilities. The distance ranges adopted for reporting are the same as in 1981, namely -5 km, 5 - 10 km and 10+km. In an explanatory note, which precedes the presentation of the Village Directory Statements, details about the abbreviations used under various columns are furnished.

---

* *In Karnataka, the "Taluk Panchayat Samiti" corresponds to the Community Development Block, and for the sake of maintaining uniformity with the all-India pattern, the term C.D.Block has been used throughout in the District Census Handbooks. The jurisdiction of a Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns.*

The main agency which has furnished the villagewise information on amenities is the Zilla Parishad which in turn has collected the relevant particulars through its field formations, namely the Chief Executive Officers (i.e., the Block Development Officers) of the various *Taluk Panchayat Samitis*. These details were examined for consistency as well as with reference to the particulars reported in 1981 and cases of deterioration or of abnormal developments were referred back for reverification and rectification. For instance, as compared to 1981, for several villages, Wells and Tanks did not find a mention as a source of drinking water supply. When referred back, the concerned Chief Executive Officers clarified that in most of these cases, the drinking water wells of yester years have either dried up or fallen into disuse on account of the increasing number of borewells drilled in such villages and also because of the implementation of the National Rural Water Supply Scheme, the Mini-Water Supply Scheme and Accelerated Water Supply Scheme etc. So also regarding the availability of pucca approach road facility several instances of deterioration were noticed. Such cases too were referred back so that the factual data may be verified again and reported for publication. Information about the number of educational institutions, nature of government run medical institutions and postal, phonocom and telegraph facilities as furnished by these officers have been cross-checked with the data obtained from the concerned Departments as well to ensure a higher level of reliability.

In case of uninhabited villages, i.e., villages which returned 'nil' population at the 1991 census count, except the name and the total area no other information is furnished. Instead of putting a dash under each column to indicate this fact, the word 'uninhabited' is printed along the line.

In order to facilitate easy reference, an alphabetical list of villages is given at the begining in respect of each C.D.Block. This list indicates the code numbers assigned to the villages for purposes of census enumeration as well as the computer codes assigned (at the stage of computerisation) as also the corresponding codes according to the 1981 census. At the end of the Village Directory the following appendices are given:- C.D. Block-wise abstract of amenities; list of villages not having any amenities except Drinking Water, land utilisation data in respect of non-municipal towns and distribution of villages according to the proportion of Scheduled Castes population and Scheduled Tribes population.

(ii) Town Directory :

As in 1981, in 1991 too, there are seven statements which furnish information on the following aspects - growth history; physical aspects and locational particulars; municipal finance; civic and other amenities; civic amenities available in the notified slums of Class I and Class II towns; medical, educational, recreational and cultural facilities; and trade, commerce, industry and banking. The scope of the various column headings adopted in 1981 has remained unchanged in 1991. However, in Statement-I, slight modifications have been made to accomodate the 1991 census data - an additional column is provided for indicating the 1991 population and the growth rate registered by the town during the decade 1981-91. In Statement-I an additional column has been provided for indicating the name of the C.D.Block within the jurisdiction of which the referent town is located. It may be incidentally mentioned that, in Karnataka, the civic bodies functioning in the Statutory Towns do not fall within the administrative jurisdiction of the C.D.Blocks (i.e., Taluk Panchayat Samitis).

In the Town Directory statements, the towns are arranged in an alphabetical order of their names and the aggregate particulars about urban agglomerations if any in the district have also been furnished in the same order. Where an urban agglomeration includes two or more independent towns, the names of these constituent towns are shown in the correct sequence as per the alphabetical arrangement of their names. But, the details which ought to have been furnished in the subsequent columns have been skipped with a view to avoiding repetition. Instead, immediately after the name of the town, a cross reference is given by printing the message "see ..... urban agglomeration". The name of the core town of the urban agglomeration too appears at its correct sequence with the legend printed thereafter and immediately below that, i.e., in the next line the same name with the suffix urban agglomeration appears again without bearing any

serial number. Against this name the cumulative totals for the urban agglomeration as a statistical unit are presented wherever such a procedure is relevant and meaningful. This line is then followed by those relating to the constituent towns of the urban agglomeration starting with the name of the core town and followed by the others arranged in an alphabetical order of their names. This procedure, it may be recalled, is the same as that adopted in 1971 as well as in 1981 and this enables one to have a fairly good assessment of the data relating to the smaller civic administrative units that form part of the larger unit and also of the aggregate data relating to the larger unit itself. In case there are 'outgrowths' which are not 'urban areas' in their own right, the particulars relating to such areas are merged with the data relating to the concerned core town. Such towns which have 'outgrowths' are marked out by an asterisk mark and for all purposes, the term 'town' would cover the core town as well as its outgrowths. In an appendix the names of the revenue villages or areas which have been identified as outgrowths and the population thereof are indicated separately. In the case of villages certain parts of which are regarded as outgrowths while the other parts are considered as 'rural', the data relating to the outgrowths (i.e., the urban component) is included in the Town Directory statements and the data pertaining to the rest of the portion retained in the rural frame appears in the Village Directory. In Statements II, III and VI where it is not relevant to combine the data for the urban agglomeration as a whole, the legend 'see the constituent towns' is printed against the name of the urban agglomeration instead of allowing the entire line to remain blank.

The particulars furnished in Statement I which deals with the growth history are entirely based on the current as well as the previous censuses. As such, this has been compiled in the Census Directorate without seeking information from the concerned civic bodies. The details presented in the remaining statements have been furnished mainly by the concerned civic authorities such as the Municipal Commissioners, Chief Officers of towns, Secretaries of Mandal Panchayats, Administrative Officers etc. Except for the information regarding municipal finance, most of the information on other apsects had to be gathered by the civic authorities from several offices and institutions located in the town through correspondence and or by deputing officials for the purpose. The particulars so furnished were scrutinised in the first stage and cases of abnormal variations as compared to the situation in 1980 and also inconsistencies were referred back to the reporting agency for reverification and rectification so as to ensure that the details now given in the Town Directory represent the factual position.

The scope of the information presented under various columns and the abbreviations used are explained in a note which precedes the presentation of the Town Directory statements.

(iii) Primary Census Abstract :

The Primary Census Abstract is presented village-wise in the case of 'rural' areas and town-wise (upto ward or division level) in the case of urban areas. The outgrowths of a town are treated at par with a ward or division of the core town irrespective of the number of census enumeration blocks into which it is constituted. Within the district, the Community Development Blocks are arranged in the alphabetical order of their names in English and covered one after the other in that order. For each C.D.Block, the total figures with the rural-urban break-up is given first and this is followed by the village-wise data and then by the ward-wise data for the towns if any, within the jurisdiction of the C.D.Block. In the case of a village of which only a portion has been incorporated in a town or has been recognised as an outgrowth of a town, the details relating to only that portion which is not so incorporated or so recognised but has been retained in the rural frame is presented under various columns. The names of villages (and their respective areas) which are fully included in urban areas or have been recognised as outgrowths of towns for purposes of the 1991 Census (but are retained in the jurisdictional lists of the Survey and Settlement authorities) if any within the boundaries of the C.D.Block are indicated in the flyleaf which precedes the PCA statement for the C.D.Block

After presenting the PCA data for all the villages and towns covered by the C.D.Blocks in the district,

the PCA data relating to all the urban areas of the district (i.e., statutory as well as non-statutory towns) are furnished. For this purpose, the towns/urban agglomerations are arranged in an ascending order of their location code numbers. And, for each town the ward or division-wise details are presented here.

In Karnataka, as already mentioned, the jurisdiction of a C.D.Block is coterminus with that of the Taluk of the same name, but excludes the areas incorporated in statutory towns and cities. By and large, a C.D.Block corresponds to the rural areas of the taluk. However, if there are any non-municipal census towns and areas which have been identified as outgrowths of statutory towns within the jurisdiction of the taluk, then such towns and outgrowths are also regarded as lying within the jurisdiction of the concerned C.D.Block. The PCA particulars relating to such units are presented under the concerned C.D.Blocks against the urban category and are repeated again at the end under the caption 'District Urban'.

In the case of an urban agglomeration, the aggregate figures obtained by the addition of the data relating to the constituent towns and outgrowths thereof if any are presented against its name. Thereafter, the data for the constituent towns starting from the core town including the location code, are presented in a continuous sequence. In case a town has outgrowths (which are not towns in their own right) in the first line the aggregates relating to the core town as well as its outgrowths are given and this is then followed by the details relating to the core town and the outgrowths separately. Each outgrowth is treated at par with a municipal ward or division while presenting the ward-wise PCA for towns.

3. Brief note on Census concepts :

Census taking is a massive operation carried out in a short span of time with the active participation of a very large number of census enumerators. The reference moment for the 1991 census count is the sunrise of March 1, 1991. However, the enumeration of the population was spread over a period of 20 days from 9-2-1991 to 28-2-1991 followed by a revisional round from 1-3-1991 to 5-3-1991 for updating the population count with reference to the sunrise on March 1, 1991. The questionnaires canvassed by the enumerators, namely the Household Schedule and the Individual Slip are brief in their wordings and the concepts used for purposes of the 1991 Census Operations and the manner in which the schedules are to be filled in have been explained in a booklet entitled Instructions to Enumerators for filling up the Household Schedule and the Individual Slip. Some of the important concepts and the relevant explanations are indicated in the following paragraphs.

(i) **Urban areas** :- The definition adopted in 1961 and adhered to in 1971 as well as in 1981 (though with a slight modification regarding the classification of fishing and forestry) has been retained for the 1991 census also. According to this definition the urban areas include :

i) all places with a Municipality, Corporation, Cantonment Board or Notified Town Area Committees, etc.

ii) all other places which satisfy the following criteria :

a) a minimum population of 5,000

b) atleast 75 per cent of the male working population engaged in non-agricultural pursuits and

c) a density of population of at least 400 per square kilometre (1000 per square mile)

d) all places which, though not satisfying the above criteria, had pronounced urban characteristics.

(ii) **Urban Agglomeration**: This concept, which replaced the concept of 'town-group' in 1971, has been retained for the 1991 census. It has been observed that very often railway colonies, university campuses, port areas, military camps and large residential colonies etc., come up quite adjacent to, but situated outside the statutory limits of cities and towns. Such areas may not by themselves qualify to be treated as towns. But if they form a continuous spread with the town they are outgrowths of the town and deserve to be treated as urban. Such towns together with their outgrowths have been treated as one urban unit called "urban

agglomeration". An urban agglomeration may consist of :

a) A city with continuous outgrowth (the part of outgrowth being outside the statutory limits but falling within the boundaries of the adjoining village or villages);

b) One town with similar outgrowths or two or more adjoining towns with their outgrowths as in (a) ; or

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Geographical contiguity with the statutory limits of the core town is the main factor in determining whether or not a nearby satellite town or an outgrowth is to be included in the urban agglomeration. This is purely a statistical concept and for carrying out the actual census, the administrative jurisdictions of the city or the towns concerned as well as of the outgrowths have been kept quite intact. The data are presented for the urban agglomeration as a whole and also severally for each of the constituent units.

(iii) **Rural areas - i.e., villages** : Areas which are not classified as 'urban' according to the definition given above constitute the rural areas. The basic unit for rural areas is the revenue village which has definite surveyed boundaries. In the case of unsurveyed villages, the boundaries as determined by the local usage have been adopted. The revenue village may consist of a single nucleated settlement or comprise of several settlements or clusters of houses located at several places within the territorial limits of the village or the village may not be having any human settlements at all (i.e., it may be totally uninhabited). The census village and the revenue village are identical in the matter of jurisdiction. However, there are a few exceptions to this general rule:

1) When the main settlement of the village with or without the surrounding open lands is constituted into an urban area, the remaining tracts of the revenue village are together treated as a separate unit for purposes of census i.e., the truncated portion itself is considered as an independent revenue village.

2) When outlying portions of certain revenue villages are incorporated into the limits of urban areas by a Government Notification such areas, whether populated or not, are excluded from the revenue village concerned and the village boundaries are redefined for census purposes.

3) Revenue villages which are completely incorporated in the limits of urban areas or else, are submerged completely under reservoir projects but are still retained in the jurisdictional lists of the Survey and Settlement authorities pending a resurvey and such other procedures, are taken note of as revenue villages but are omitted for census purposes, i.e., these are not treated as census villages. Similarly, entire revenue villages, which have been identified as outgrowths of urban areas for purposes of 1991 census are treated not as census villages but as urban areas. The names of such villages, if any, in a Taluk/C.D.Block are indicated in a fly leaf.

4) If there are forest areas that do not form part of any of the revenue villages then such areas are identified clearly and the smallest administrative unit into which such forest areas are divided (eg.Forest Beat) is reckoned as the census village. A Forest Range may consist of several such census villages. (In Karnataka this phenomenon is noticeable only in Kollegal Taluk of Mysore District).

(iv) **Census Enumeration Block** : The smallest unit adopted for census taking is the Census Enumeration Block. Generally, the towns and cities are divided into wards or divisions and, wherever such units exist, their distinctive identities have been maintained. The geographical area comprised in each such ward or division or, the town in its entirety, is constituted into several blocks in such a way that every bit of land specifically stands included in one or the other enumeration block and also that there is no over-lapping of areas. In the urban areas, the Census Enumeration Blocks are constituted in such a way that each such Block contains about 120 households covering a population of about 600 persons. However, in view of the condition that

each block should have clear-cut boundaries easily recognisable on the field, blocks which are either larger or smaller than the norm have also been constituted. In the case of non-municipal towns, if the town boundaries are not specifically notified, the jurisdiction of the entire revenue village concerned is regarded as the jurisdiction of the town as well. In the case of towns which are under the administration of Mandal Panchayats, the Panchayat jurisdiction need not necessarily be identical with the jurisdiction of the non-municipal census town.

In the case of villages, depending upon the population data based on the Houselisting Operations carried out during 1990, each village has been constituted into one or more number of Census Enumeration Blocks. The work-load norm for the rural areas is 150 households covering an approximate population of 750 persons. However, numerous Census Enumeration Blocks with below-norm population have been constituted and a single enumerator has quite often been entrusted with the enumeration work in 2 or more contiguous blocks so as to ensure that the aggregate population is quite close to the norm. Further, in each village care has been taken to ensure that no bit of land belonging to that village is left out of consideration while constituting the Blocks. Each hamlet or island, if any, found within the jurisdiction of the village - irrespective of its population size - has been constituted into a separate Block in order to maintain its geographical identity. Further, even the villages known to be uninhabited at the time of houselisting operations have been constituted into separate blocks. In other words, a complete coverage of the territorial jurisdiction of each and every village has been ensured.

(v) **Location Code Number** : Every State in the Country, every District in the State, every Taluk or Town in the District, every C.D. Block (or its equivalent) in the District, every village in the taluk and every ward or division in the city or town and every enumeration block in the village or town is assigned a number in a particular order for carrying out the census enumeration. When these numbers are written side by side in the same order, starting from the State and separated by an oblique mark, the identity of any particular census enumeration block can be known quite easily. The numbers assigned are in Arabic numerals, except in the case of towns in which case Roman numerals have been adopted. For assigning the location code numbers the States in the Country, the Districts in the State, the Towns in the District and the Taluks/C.D.Blocks in the District are arranged in the alphabetical order of their names. The villages in a taluk are organised into revenue circles or hoblis for administrative purposes and each such unit will have a headquarter town or village. The identity of such units is maintained while assigning the location code numbers. Starting from the circle of which the Taluk Headquarters happens to be the Circle headquarters as well, the villages in its jurisdiction are serially numbered by proceeding in a clockwise direction or in a serpentine manner starting from the north-west corner. After exhausting all the villages in that circle, the villages of the adjacent circle are assigned numbers in the same manner. The numbering of villages run continuously for the Taluk through the different Circles or Hoblis.

The entire set of the 1991 census data relating to the village directory and the village/urban ward-wise PCA has been computerised. For this purpose a separate code structure has been developed. The computer codes assigned to the villages in each Taluk or C.D.Block are indicated in the alphabetical list of villages along with the corresponding location code numbers assigned for enumeration purposes. So also particulars about the codes assigned to towns are indicated in the alphabetical list of towns which precedes the presentation of the PCA statements in respect of the urban areas of the district.

(vi) **Building** : A building is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, worksheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-*cum*-residence, workshop-*cum*-residence, office-*cum*-residence, etc.

(vii) **Census House** : A 'census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

(viii) **Household** : A 'household' is a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of households having unrelated members are boarding houses, messes, hostels, residential hotels, rescue homes, jails, *ashramas* etc. These are called 'Institutional Households'. There may be one member households, 2 member households or multi-member households. For census purposes, each one of these types is regarded as a 'household'. If a group of persons who are unrelated to each other live in a census house but do not have their meals from the common kitchen, they would not constitute an institutional household. Each such person would be treated as a separate household. The important link in finding out whether there is a household or not is a common kitchen. There may be a household which does not have a house to live in and may temporarily dwell on the roadside pavement, in hume pipes, temples, *mantaps*, platforms etc., or move about from place to place resting underneath shade-bearing trees, pavements and verandahs of public or private buildings. Such households, referred to as 'Houseless Households' for census purposes, were enumerated on the night of February 28, 1991.

ix) **Criteria for enumeration of a person in a particular household :**

1) All those who normally stay and are present in that household during the entire period of enumeration i.e., from February 9 to February 28, 1991 (both days inclusive);

2) All those who are known to be normally residing and had actually stayed during a part of the enumeration period (February 9 - 28, 1991) but are not present at the time of the enumerator's visit ;

3) Also those who are known to be normally residing and are not present at the time of the enumerator's visit but are expected to return before February 28, 1991 and

4) Visitors who are present in the household censused and are away from the place(s) of their usual residence during the entire enumeration period. For the purpose of enumeration such visitors will be treated as normal residents of the household in which they are actually found during the enumeration period provided they have not been enumerated elsewhere.

(x) **Literate** : A person who can both read and write with understanding in any language is 'literate'. A person who can merely read but cannot write, is not 'literate'. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of the age of 6 years or less are treated as illiterate.

(xi) **Workers and Non-workers** : For census purposes 'work' is defined as 'participation in any economically productive activity'. Such participation may be physical or mental in nature and would involve not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise. The reference period for determining whether a person is a worker or a non-worker is the year i.e., the 365 days, preceding the date of enumeration. The criterion is liberal and, even a person who has participated in the production of goods and services for a very brief period is entitled to be categorised as a worker. Depending upon the nature of his or her activity during the reference period, every person enumerated at the census is classified as either a worker or a non-worker.

Among 'workers' however there are two categories:

Main Workers : Those who have worked for a major part of the year i.e., for 183 days or more (6 months or more) during the reference period even though this may be in broken spells and in different occupations.

Marginal Workers : Those who have not worked for a major part of the year under reference i.e., those who have worked for less than six months (i.e., for less than 183 days) during the entire reference period.

In view of the past experience that women are often classified as non-workers because of non-reporting of their work or as those who have not worked for a major part of the year, special efforts have been made at the 1991 census for eliciting accurate information by asking probing questions.

In respect of main workers as also marginal workers, further details on the sector of economy in which they worked, the actual nature of work done by them, their employment status (i.e., employer, employee, unpaid family worker or own account single worker) have been gathered at the census.

Important terms such as cultivators, agricultural labourers and household industry are explained below.

a) **Cultivators**: For purposes of census, a person is working as a cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation as well. A person who has given out his or her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct the cultivation of land, will not be treated as 'cultivator'. Similarly, a person working in another person's land for wages in cash or kind or a combination of both will not be treated as ' cultivator'.

Cultivation involves ploughing, sowing and harvesting. For certain reasons, the growing of certain crops is not considered as cultivation and a person engaged in growing of such crops is not regarded as a cultivator. A person can be classified as cultivator or not, *only on the basis of the crops grown*. The growing of the following crops is considered as cultivation.

1. Cereal and Millet crops : Paddy, wheat, jowar, bajra, maize, ragi, barley, etc.
2. Pulses : Arhar, gram, kesari, moong, masur, urd, etc.
3. Fibre crops : Raw cotton, jute, mesta, sunhemp and kindred crops.
4. Oil Seeds : Sesamum, ground-nut, rape seed, mustard, linseed, sunflower, castor, etc.
5. Cash crop : Sugarcane

The growing of the following crops *is not considered* as cultivation :

1. Plantation crops : Tea, coffee, rubber, tobacco, pepper, cardamom, etc.
2. Edible nuts (other than groundnut) : Walnut, almond, cashewnut, etc.
3. Fruits : Bananas, apples, grapes, mangoes, oranges etc.
4. Coconut
5. Ganja, cinchona, opium and medicinal plants.
6. Betel nuts (areca)
7. Flowers
8. Roots and tubers, chillies and spices
9. Vegetables
10. Other crops not specifically included under cultivation.

b) **Agricultural Labourer** : A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation. The agricultural labourer has no right of lease or contract on the land on which he or she works.

c) **Household Industry** : Household Industry is defined as an industry conducted by the head of the household himself or herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in the case of urban areas. The larger proportion of workers in a household industry would consist of members of the household including the head. The industry

should not be run on the scale of a registered factory which would qualify to be registered under the Indian Factories Act. Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. The goods produced should not be exclusively for consumption by the household itself but should be wholly or partly for sale.

d) **Other Workers** : All workers, i.e., those who have been engaged in some economic activity during the reference period of last one year, who are not Cultivators or Agricultural Labourers or workers in Household Industry were categorised as 'Other Workers' (OW) at the time of census enumeration and further details about the nature of industry, trade or service in which they were engaged were gathered by the enumerators. On the basis of this descriptive information, at the tabulation stage, each such worker has been further categorised as belonging to one or the other of the following Industrial Categories based on Revised National Industrial Classification - 1987.

III Workers in livestock, forestry, fishing, hunting, plantations, orchards and allied activities;

IV Workers in mining and quarrying activities;

V(b) Workers in manufacturing, processing, servicing and repairs which are carried on as other than household industry;

VI Workers in construction;

VII Workers in trade and commerce;

VIII Workers in transport, storage and communications, and

IX Workers in other services.

(xii) **Non-workers** : All those who have not at all participated in any economic activity during the reference period of one year preceding the date of enumeration are classified as non-workers.

Depending upon the manner in which such non-workers engaged themselves for most of the time during the reference period of one year they are classified into one or the other of the following six categories at the time of census enumeration itself. However, the Primary Census Abstract presented in this volume does not furnish details according to the categories of non-workers but indicates the total number of non-workers by sex.

a) **Household duties** : This covers all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year.

b) **Students** : This will cover all full-time students including children attending school.

c) **Dependents** : This category includes all dependents such as infants, children not attending school and permanently disabled from work because of illness or old age. Dependents will include even able bodied persons who cannot be categorised in any other category of non-workers but are dependent on others.

d) **Retired Persons or Rentiers** : A person who has retired from service and is doing no other work i.e., not employed again in some full time work or not engaged in some other work such as cultivation, business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he or she does not have to work, will come under this category.

e) **Beggars** : This will cover beggars, vagrants or cases such as persons without indication or source of income and those with unspecified sources of subsistence who are not engaged in any economically productive work.

f) **Inmates of Institutions** : This will cover convicts in jails or inmates of a penal, mental or charitable institution even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc., in such institutions. But an undertrial prisoner enumerated in a jail would be recorded for the work he or she was doing before he or she was apprehended. Similarly, a person temporarily in a hospital or similar institutions would be recorded for the kind of work he or she was doing before he or she was admitted into the hospital or institution. But, for a long-term undertrial prisoner or convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work would not be taken into consideration. A person will be considered as 'Long-term' inmate if he or she is in such an institution for 6 months or more.

4. Brief History of the District*

Kolar is popularly known as the golden land of India, for it is at the famous Kolar Gold Fields of this district that gold mining was first undertaken in this country during modern times. Formerly Kolar was known variously as *Kolahala, Kuvalala* and *Kolala*. Of the numerous accounts prevailing about the origin of its name the following three deserve mention here.

According to a legend Kartaviryarjuna, son of Kritavirya, was ruling over a kingdom which included the area of the present Kolar district. Pleased by his penance and austerities, sage Dattatreya conferred on him a boon of thousand arms and other mighty powers. However, infatuated by his might and considering himself as invincible, Kartaviryarjuna soon began to oppress both human beings and the Gods alike. He is said to have humbled Ravana, the mighty king of Lanka. His contemporary, sage Jamadagni, the father of Parashurama, had in his care the celestial cow called *Surabhi* which had the miraculous powers of producing and supplying everything that her master desired. During the course of his hunting expeditions Kartaviryarjuna chanced to visit Jamadagni's *ashrama*. Jamadagni treated the guest king in a magnificent manner. This aroused the curiosity of the king to such an extent that he was not satisfied until the sage revealed to him the details about the cow in his possession and its powers. Kartaviryarjuna could not control his avarice and demanded the cow for himself. The sage refused to accede to this unholy demand whereupon Kartaviryarjuna used his might and took away the cow by force. Parashurama, having come to know of what had happened in the ashrama during his absence, attacked and killed Kartaviryarjuna. Consequent on the defeat and extermination of their king the confusion created among the ranks of Kartaviryarjuna echoed through the hills to the west of Kolar producing *Kolahala* (i.e., confused shouts and noise). The hills to the west of the town are called *Shata-Shringa Parvata*. The scenes of this story are laid on these hills and the surrounding parts. *Kolahala* or the chaos that resulted here after the death of Kartaviryarjuna gave its name *Kolahala* to the town.

According to another account the Gangas founded Kolar, made it their capital in the early Christian era and later shifted their capital to Talkad. The Gangas ruled a large region called the Gangavadi Ninety-six thousand in which was included Kolar and the surrounding areas also. The Ganga kings used the title *Kuvalalapuravareshwara*, i.e. the lords of great city of Kuvalala, till 11th century. According to the Kalinga Ganga inscription from Vishakhapatnam Gangya the progenitor of Gangas was succeeded by 18 kings. The 17th king, called *Kolahala* is said to have built this city and called it *Kolahala* after his own name.

There is yet another traditional account about the foundation of Kolar town and this relates to the period of Cholas. A herdsman called Kola is said to have discovered a hidden treasure at the place where the town now stands. When the king Uttama Chola came to know of this fact, with the view of confiscating the treasure thus discovered, he ordered Kola to go over to Kanchi. In the meantime, however, the king is said to have been warned against such a scheme in a dream by Renuka (consort of the sage Jamadagni) in the form of Kolahalamma. The king built a temple to pacify the Goddess Kolahalamma. Kola himself was brought back to Kolar and was invested with the authority of the Government. It is surmised that the name *Kolahala* might have been derived from *Kolahala* meaning 'Kola's plough', the implement with which Kola unearthed the hidden treasure by accident while ploughing. The local tradition also points out that the name might have been derived from the presiding deity of the temple in the town viz., Kolaramma. Whatever might be the legendary or historical accounts regarding the origin of its present name, it is certain from the above versions that Kolar town is an ancient one dating back to several centuries.

There are a number of places in this district which find a mention in epics and legends. Avani in Mulbagal taluk which is now identified with Avantikshetra is considered as one of the ten important sacred places in India. It is said that sage

**Source : Census of India 1981, District Census Handbook, Kolar District, Bangalore.*

Valmiki lived here and that it is here that Sita gave birth to Lava and Kusha. The Pandavas are also said to have spent a part of their exile in the district. Kaivara village in Chintamani taluk is identified with Ekachakrapura where Bhima killed Bakasura. Vidura of Mahabharata times is said to have lived at Vidurashwattha, the famous shrine on the banks of the North Pinakini, during the battle between Pandavas and Kauravas. The peepal tree which stands now at the shrine is said to have been planted by Vidura.

Historically, Mahavalis or Brihad-Banas were the earliest dynasty to be in possession of parts of Kolar area in the early Christian era. Inscriptions of these kings have been found in the taluks of Mulbagal, Srinivaspur, Bagepalli and Kolar. According to one such inscription their territory lay to the west of Andhra country and according to another it was "seven-and-a-half-lakh country".

The Bana kings lost their independence at the end of the 9th century when the Cholas overthrew them. However, Gangas of Mysore came into conflict with the Banas from about the first century itself. In about the 2nd century however the Gangas became masters of Kolar and ruled for nearly one thousand years. For about a century or more Kuvalala (Kolar) was the capital of the Gangas and Nandidurga was their principal fortress. In the 3rd century their capital was shifted to Talkad for strategic reasons. Thereafter, till about 840 A.D., Kolar receded to the background but remained a provincial town of some importance. Kolahala, one of the Ganga kings, is said to have built the city named Kolahala.

The Pallavas of Kanchi have left a few inscriptions in the district. They were the principal rivals of Gangas in the east. A few inscriptions of Vaidumba kings belonging to 10th and 11th centuries have also been found in Bangarapet, Bagepalli, Mulbagal and Chintamani taluks. Of the Nolamba line of kings a number of records are found in the district. Their kingdom was called Nolambavadi which comprised the present Chitradurga district and parts of the present Kolar district and Bangalore district. One inscription indicates that in the reign of Nolambadhiraja a tower was built to the temple at Nandi in 860 A.D. In about 950 A.D. a Vaidumba prince is said to have repaired a breached tank in the present Bethamangala village.

The Cholas, first under Rajaraja and then under Rajendra Chola, subdued the power of the Gangas by capturing Talkad. The important city of Kolahala or Kolar, together with the whole of the present Kolar district was thus subjugated by the Cholas. In accordance with their usual system they gave the name of *Nikarila Chola Mandalam* to the district. At a later period, in the 13th century, a descendant of the family of Chola-Gangas was ruling over certain parts around Kolar.

In about 1117 A.D. the Hoysalas captured Talkad and drove the Cholas out of Mysore. Thereafter the Chola dominion was for sometime restricted to the north-eastern parts of Kolar district where a few inscriptions of Vikrama Chola are found. One of these, dated in 1120, records the erection and consecration of the temple of Someshwara at Sugatur. According to an inscription of this time, Vishnuvardhana residing at Talkad and Kolalapur was ruling the Gangavadi Ninety-six-thousand including Kongu. A subordinate headquarters was set up at Kolar where Udayaditya the brother of Vishnuvardhana was stationed. After the death of Someshwara in 1254 A.D. the Hoysala kingdom came to be divided between his two sons. Kolar district was included in the Tamil provinces of the kingdom and was held by Ramanatha.

During the reign of Viraballala (1291-1342) however, the kingdom was reunited. But the later part of his rule witnessed the rapid decline of Hoysala power. When Malik Kafur invaded the Hoysala territory in 1310, Ballala managed to retain his kingdom. But, during the next invasion in 1327, the Hoysala capital at Halebidu suffered a total destruction. Viraballala was thus compelled to establish himself at a new capital. In one of the inscriptions Ballala-III is represented as securely seated on his throne at Hosavidu (the New Camp or capital as distinguished from Halebidu and Old Capital) which is identified with Hosur in Gauribidanur taluk.

By 1346, the Hoysala kingdom was practically absorbed by the Vijayanagara kingdom. Numerous inscriptions of the Vijayanagara kings, some of which are in Tamil, have been found in the district. Kolar happens to be one of the earliest districts to come under the rule of Vijayanagara monarchs. The earliest

inscription found here professes to be of the year 1336, that is, the year in which the kingdom was founded. Mulbagal appears to have been the Viceregal seat of the government during the Vijayanagara period.

During 15th and 16th centuries, the district was being administered by various chiefs who owed allegiance to Vijayanagara kings. After the fall of Vijayanagara in 1565 while some of the chiefs became independent a few in the southern parts of the kingdom continued to pay tributes to the representatives of the Vijayanagara monarchs stationed at Penugonda.

The chiefs of the Avati line established themselves at Chikkaballapur during the later days of the Vijayanagara period. In 1478 these Avati chiefs administered Chikkaballapur. With the consent of the Vijayanagara sovereign, they extended their territory by purchasing Sidlaghatta and strengthened their position by fortifying Nandihills, Kalavaradurga, Gudibanda and Itkaldurga. Until 1762 they ruled this territory without facing any severe challenge to their authority. But, in 1762 Haider Ali laid seige to the Chikkaballapur fort for three months at the end of which he withdrew by concluding a treaty. Subsequently, in the same year, Haider Ali defeated the chief and took possession of Chikkaballapur. On the capture of Nandidurga by the British in 1791 the territory was restored to the descendant of the Avati chief for a short period.

The Sugatur family was another important line of chiefs which ruled over parts of this district from about 1418. The founder of this line is one Timmegowda, son of Ranabairegowda, the founder of Avati line of chiefs. He was conferred with the titles of *Sugatura Nada Prabhu and Chikkaraya* by the Vijayanagara rulers. He repaired the fort of Kolar and gained possession of Mulbagal, Punganur and the adjacent parts.

Another minor ruling family that ruled over a part of the territory in Bagepalli taluk until the middle of the 18th century is that of the Nayakas of Gummanayakanapalya founded in about 1350. In about 1760 their territory was annexed by Haidar Ali.

In the middle of the 16th century, the district was in a disturbed state due to the incursions of some robber chiefs until it was subdued by Bijapur army and placed under the governorship of Shahji in 1639. Shahji put his son Sambaji in charge of Kolar. Sambaji was succeeded by his son Soorat Singh and later on by Venkoji or Eccoji. During this period, part of the district was conquered by Khasim Khan of the Moghuls and that territory was attached to the province of Sira for the next 70 years. The district next passed into the hands of the Marathas, of the Nawab of Cuddapah and then of Basalat Jung, chief of Adoni and brother of Nizam of Hyderabad. Kolar and Hoskote were ceded in 1761 to Haider Ali who regarded Kolar with particular interest as being the country of his own birth place. In 1768, the British captured Mulbagal and Kolar. In 1770 the Marathas seized the district, but it was again recovered by Haider Ali. In 1791 the British captured it under Lord Cornwallis but gave it back in 1792. With the fall of Tipu Sultan in 1799, the British established their suzerainty and restored the Kingdom to the Wodeyars of Mysore. Since then Kolar has been an integral part of Mysore i.e., Karnataka State.

In the early 1800s, Purnaiya, the Regent and Dewan remodelled the system of administration in several aspects by organising the erstwhile Mysore State into three principal divisions to be administered by Subedars. During the reign of Krishnaraja Wodeyar-III, the State was divided into six divisions or Foujdaris. The present Kolar district was at that time included in Bangalore Foujdari. In 1834 when the British took over the administration to exercise direct rule through the Commissioners, the State was reconstituted into four divisions. Under this new arrangement Kolar district formed part of Bangalore division. In 1862-63 the State was again reorganised into 3 divisions and eight districts. Kolar district was included in Nandidurga division along with Tumkur district. After rendition of Mysore in 1881 the taluks of Gudibanda, Srinivaspur and Malur were abolished. In 1886, the taluks of Srinivaspur and Malur were re-established. Various changes have been effected since then in the administrative organisation of the district to suit the collection of revenue and other aspects of administration. In 1903, there were 3 revenue sub-divisions in Kolar district, their headquarters being located at Kolar and Chikkaballapur. Later, a new sub-taluk of Gudibanda was created by transferring 138 villages from Bagepalli taluk. In 1918, a new sub-division of

Chintamani was created. In 1922 the Chintamani sub-division was abolished. The taluks of Kolar and Bangarapet were put under the direct supervision of the Deputy Commissioner. Later, these two taluks were attached to the Kolar sub-division. Gudibanda was subsequently upgraded into a taluk. Exchange of villages took place between erstwhile Mysore State and the neighbouring Madras State under the Provinces and State (Absorption of Enclaves) Order 1950. Seven villages in Bangarapet taluk viz., Varadikoppa, Valagalakoppa, Byappareddihalli, Harakachinnapalli, Gollahalli, Hosapete and Chinnaradoddi and one village Koladasanapura of Malur taluk were transferred to the then Madras State. Similarly Araleri, Rayasandiram, Balanapalli and Ettakodi of Hosur taluk of Salem district were transferred to Malur taluk of Kolar district. Chintakuntapalli in Hindupur taluk of Ananthapur district of Andhra Pradesh was transferred to Gudibanda taluk of Kolar district. When the States in the Indian Union were reorganised as per the States Reorganisation Act, 1956 the new Mysore State (now Karnataka) was formed with the addition of areas of the adjoining States and 4 revenue divisions were formed for administrative convenience. Kolar district has since then been included in the Bangalore Division. At present the district has been divided into two revenue sub-divisions called Chikkaballapur and Kolar sub-divisions, the former consisting of six and the latter five taluks.

5. Location and Physical Aspects**

Kolar district is located in the southern *maidan* (plains) region of the State and happens to be the eastern-most district of the State. It is situated between 12 degree 46 minutes and 13 degree 58 minutes North Latitude and 77 degree 21 minutes and 78 degree 35 minutes East Longitude. The district, with an area of 8223 sq.kms., has its greatest length of about 135 km. from north to south with almost the same distance from east to west. The district is bounded by the districts of Bangalore and Tumkur on the west and on all other sides by the districts of the adjoining States of Andhra Pradesh and Tamil Nadu. On the north it is bounded by Anantapur district; on the east by Chittoor district of Andhra Pradesh and on the south by the districts of North Arcot and Dharmapuri of Tamil Nadu. There are no natural barriers such as rivers and mountains which separate this district from the other districts or other States. The district occupies the table land of Mysore bordering the eastern ghats. The general plateau surface is interrupted by a number of hills and peaks of varying heights, particularly in the north. The principal chain of mountains is the Nandidurga range which runs north from Nandi towards Penukonda and Dharmavaram of Andhra Pradesh. Nandidurga (1478 metres), Channakeshavabetta (1451 metres), Kalavaradurga (1447 metres) and Brahmagiri (1420 metres) are some of the important peaks of this range. Parallel to the Nandidurga range runs a line of hills which enters the district north of Gummanayakanapalya separating the valleys of Chitravati and Papaghni. Murugamale, Ambajidurga and Rahmandurga are some of the isolated peaks of this range. A third line of low hills consisting of mere rising ground or mounds which commences near Srinivaspur passes to the east of Kolar and extends to Kangundi-Kuppam and Palmaner ghats in Bangarpet taluk and beyond.

The rivers of the district are small and seasonal. Palar, North Pinakini and South Pinakini are the important rivers which originate in the elevated regions in the district. The tributaries flowing in the district are Arkavati, Chitravati, Nangihole, Kumar, Kushavati, Markandeya, Papaghni, Vrishabhavati and Vardamanhole. The main part of the Kolar district comprises the head of the Palar River System on the south and that of North Pinakini on the north. The central and eastern parts of the district forming the Palar valley are undulating and well-cultivated while there is a considerable depression in the valley of North Pinakini. The valley regions, which are not very deep, frequently benefit from soil erosion higher up and often have deeper and richer loams. The district owes its prosperity and development to the existence of thousands of ancient irrigation tanks. When surveyed from a height, the configuration of these tanks shows itself up as a characteristic feature of the landscape of the district.

**Source : Census of India 1981, District Census Handbook, Kolar District, Bangalore.*

The rock formations of the district belong to four groups viz.,

1) Dharwar schists, 2) Gneissic complex, 3) Dolerite dykes and 4) Laterite. The schist belt runs north and south and is composed almost entirely of dark horn blendic schists. The famous gold mines are situated in this schist belt. The gneiss complex consists of two phases of granite intrusions into the Dharwars. The older phase of intrusions are known as champion gneiss. The second epoch of intrusion consists of a complex of granite and granitic gneisses. Numerous dykes of dolerite run generally in two directions north-south and east-west. Lateritic masses are irregularly distributed in disconnected patches around Sidlaghatta, Srinivaspur, Jangamakote and Malur in the form of flat topped hills. The laterite is used for road metal. The Dharwar formation is rich in mineral deposits. The important minerals of the district are gold, graphitic clay, sillimanite, kaolin, limestone, feldspar, ochre, lime kankar, garnet and corundum. The various types of peninsular gneisses and basic dykes serve as good building and decorative stones.

In the district gold occurs chiefly in quartz which in turn occurs as veins and lenses in schists. More than 99% of the gold produced in this country comes from the mines at Kolar Gold Fields. In view of the importance of the gold mining industry of the district a brief historical review may not be out of place here. As early as the year 1885, the profitable extraction of gold was undertaken by private companies. In 1894-95, there were 13 companies that were engaged in this region in the mining of gold. In 1886-87 the initial output of gold was 16,325 ounces valued at Rs.8,88,606. Almost since the beginning 'John Taylor and Sons' was the prominent company that was engaged in this activity. Its management was in the hands of the British private enterprise till November 1956, when the management of the company passed into the hands of the then Government of Mysore. The gold-bearing lodes of Kolar Gold Fields lie in a narrow band of rocks of the Dharwar series. The band is about 80 km. in length reaching from Srinivaspur in the north to within a few kilometres of Krishnagiri in Tamil Nadu in the south and the width of the gold field area is about 5 km. The gold mines here are considered to be one of the deepest in the world. In 1962 the management of the mines was transferred to the Government of India when the Company became a Government of India Undertaking. Subsequently a Limited Company was constituted under the name Bharat Gold Mines (Ltd.). At present out of the three mines viz., Mysore Mines, Champion Reef Mines and Nandidurga Mines at Kolar Gold Fields the Mysore Mines has been working on a restricted scale on accout of lack of proved ore reserves. These mines which employ about 13,000 persons produced about 1562 kg. of gold valued at Rs.131.89 lakhs during 1980. Apart from gold, silver is also produced in the Kolar Gold Fields on a small scale.

Graphitic clay suited for foundry purposes occurs in Bangarapet taluk. The material is used for foundry facing and for preparing slate pencils. Corundum which is used for the manufacture of abrasive products is available in Gauribidanur taluk.

The soils on the high grounds are red and gravelly. The regions of laterite are intersected by numerous deep ravines which expose the underlying decomposed gneissic rocks. The soils in the valleys are usually loamy and good and are formed of the finer particles of the decomposed rocks washed down and deposited during the rains. In the eastern parts of the district there are patches of red and dark soils with a good deal of black cotton soils. The red loam region extends from south to north comprising Chikballapur, Sidlaghatta, Kolar, Malur and some parts of Bangarapet and Mulbagal taluks. The red loam soil is very easy for cultivation purposes and responds to good manure and other treatments. The soil is particularly suited for growing vegetables. Gravelly soil region is found in parts of Bangarapet, Kolar, Srinivaspur, Gudibanda and Chintamani taluks. Clay loam soil is found in the taluks of Gauribidanur, Chikballapur, and parts of Sidlaghatta and Bagepalli. These soils have good moisture-retentive capacity and allow deep furrowing and are suitable for paddy, sugarcane, chillies and tobacco cultivation.

The district is endowed with an agreeable climate. The year may be divided into four seasons. The dry season with a clear bright weather lasts from December to February. The period from March to May constitutes the hot season. South-west monsoon season lasts from June to October.

November is the month of retreating monsoons. May is generally the hottest month and the maximum temperature may sometimes go upto 40 degree celcius. December is the coolest month of the year. With the advance of the south-west monsoon into the district in early June the temperature decreases and throughout the monsoon season the weather is pleasant. There are two meteorological observatories in the district: one at Nandi Hills and the other at the Kolar Gold Fields. There are rain-guage stations in almost all the taluk and Hobli headquarters in the district. Rainfall is generally uniform except in the range of Nandi Hills in the north-western portion of the district. The average annual rainfall is 730.5 mm. and the precipitation during the south-west monsoon constitutes 69 per cent of the total annual rainfall. September is usually the month with the highest rainfall. But, at Nandi Hills the rainfall is higher in October than in September. On an average there are 47 rainy days in a year. This varies from 43 in Bagepalli to 54 in Chikballapur and 64 at the Nandi Hills. During April and May the district gets some rainfall accompanied by thunderstorms.

While speaking about rainfall it may not be out of place to mention that this district has all along been known for its frequent sufferings due to the vagaries of monsoon resulting in famine and scarcity conditions. In the closing years of the 18th century the district suffered from a dreadful famine. Again, during the invasion of Lord Cornwallis, many died of starvation. The decade following 1851 was one of misery as scarcity conditions followed year after year. The great famine of 1875-76 and 1876-77 proved most calamitous. In 1899 the rainfall was very scanty. During the 20th century also scarcity conditions from failure of rains have occurred now and then. The year 1908-09 was a bad one. The year 1923 witnessed drought and famine with the failure of south-west monsoon. From then on, the district has periodically suffered from partial failure of rains and consequent distress.

As there are no perennial rivers, the district is not affected by floods of any serious nature. The district has not witnessed the occurrence of any event of geographical or geophysical interest during the present century excepting a few earth tremors of low intensity and few rock bursts in the Kolar Gold Fields region.

6. Administrative Divisions and Jurisdictional Changes

Karnataka with four revenue divisions has Kolar district in the Bangalore Division. Kolar district comprises eleven taluks which are grouped into two sub-divisions. These sub-divisions have their headquarters at Kolar and Chikballapur consisting of five and six taluks respectively.

As per the 1991 census there are 3321 villages in the district as against 3325 in 1981, a reduction of four in the number. This is the result of categorisation of five revenue villages, namely, (1) Dodduru Karpanahalli Plantation, (2) Dasarahosahalli, (3) Kathihalli, (4) Chinkote and (5) Devaganhalli of Bangarapet taluk as urban units consequent on treating them as the outgrowths of BEML (NMCT) town which is one of the constituent units of Kolar Gold Fields Urban Agglomeration. Further, Maravehalli which had been treated as part of village Marabanahalli of Sidlaghatta taluk in 1981, has been treated as an independent village for the 1991 census on ascertaining the correct position from the revenue authorities. This district has the distinction of having the highest number of villages amongst the districts of the State. Out of the 3321 villages in the district, 2889 are inhabited and 432 are uninhabited according to 1991 census. Bangarpet taluk among the eleven taluks of the district, has 344, the highest number of inhabited villages while Gudibanda taluk has only 84 inhabited villages, which is the lowest.

In Srinivaspur taluk, Alampalli a hamlet situated on the border of Andhra Pradesh had been wrongly included as a hamlet of Kantampalli in the earlier censuses. This hamlet therefore was deleted from the list of villages of Srinivaspur taluk for the 1991 census operations.

The following statement shows the number of villages and towns in each taluk and the decadal variations, if any and reasons thereof.

Statement showing the number of villages/towns in each taluk of the District, decadal variations if any and reasons thereof

Sl.No.	Taluk	Total No. of Villages according to the list finalised for		No. of Towns as per 1991 census list	Reasons for variation in the No. of Villages between 1981 and 1991 census
		1981 Census	1991 Census		
1	2	3	4	5	6
1.	Bagepalli	228	228	1	-
2.	Bangarpet	389	384	4	Five revenue villages namely (1) Doddurukarpanahalli Plantation (2) Dasarahosahalli (3) Kathihalli (4) Chinkote (5) Devaganhalli have been treated as urban being the outgrowths of BEML (NMCT)
3.	Chikballapur	253	253	1	-
4.	Chintamani	407	407	1	-
5.	Gauribidanur	236	236	2	-
6.	Gudibanda	105	105	1	-
7.	Kolar	362	362	1	-
8.	Malur	364	364	1	-
9.	Mulbagal	345	345	1	-
10.	Sidlaghatta	289	290	1	Maravehalli an independent revenue village as per Land Records was regarded as part of Marabanahalli by revenue authorities and treated similarly for census purposes also in 1981. Now Maravehalli has been listed separately and included in the 1991 census list of villages as an independent village.
11.	Srinivaspur	347	347	1	-
	Total	3325	3321	15	-

There is no change in the number of towns, for 1991 census as it remains at fifteen even now. Of these, seven are Town Municipal Councils, one is a Non-municipal Census Town, two are City Municipal Councils, one is a Sanitary Board and four are Mandal Panchayats. Among the taluks, Bangarpet has the maximum number of four towns, Gauribidanur taluk consists of two towns and the rest have one town each.

The Government of Karnataka in its Notification No.HUD 93 TML 83 dated 21.1.86 upgraded the Kolar Town Municipality to City Municipality and also altered its limits by including a portion of village Kolar, Petechannanahalli, Harohalli, Sulthan Thippasandra and Keelukote in its limits.

Further, with effect from 20.1.86 Bagepalli, Gudibanda, Manchenahalli and Srinivaspur municipalities have been converted into Mandal Panchayats vide Government of Karnataka Notification No.RDP 237 VAC 85 of 17.1.1986.

A Zilla Parishad with its jurisdiction coterminus with the district and Taluk Panchayats with their jurisdiction coterminus with the taluks but in both the cases, excluding the areas of the statutory towns located in them have also come into existence with the enactment of the Karnataka Zilla Parishads, Taluk Panchayat Samithis, Mandal Panchayats and Nyaya Panchayats Act, 1983. All villages and places classified as census towns or outgrowths at the 1991 census come under the jurisdiction of the Taluk Panchayats. Taluk Panchayat is analogous to the unit more popularly known throughout the country as 'Community Development Block' (C.D.Block). In order to conform to the All India pattern, in presenting the 1991 census data, instead of the term 'Taluk Panchayat' the term 'C.D.Block' has been used in this volume.

Particulars regarding the villages, either fully or partly brought on to the urban fold are given in the following statement.

7. Brief Analysis of Data

(i) Area and Population

Kolar district comprises a geographical area of 8223 sq.km as reported by Surveyor General, India. The district accounts for 4.29 per cent of the total geographical area of the State and geographical areawise ranks 13th in size amongst the districts of the State.

The towns and urban agglomeration in the district, together account for an area of 113.23 sq.km. and of which more than 50 per cent is comprised in the Kolar Gold Fields Urban Agglomeration. Kolar Gold Field (SB) a constituent unit of this urban agglomeration, alone comprises of an area of 35.83 sq.km.

Among the taluks of the district, Bagepalli taluk is the largest in area with an area of 932.71 sq.km whereas, Gudibanda, smallest of the taluks in the district has little less than one fourth of the area (227.14 sq.km) of Bagepalli taluk. These figures highlights the disparity in the area of the taluks.

The district has a population of 2,216,889 persons of whom 1,128,316 or 50.90 per cent are males and 1,088,573 or 49.10 per cent are females. Kolar district ranks tenth in the descending order of population of the districts in the State. Kolar may be called as 'average district' in respect of population size as its population is about the same as the average population of the district obtained as the ratio of the total population of the State divided by the number of districts.

Bangarpet is the most populous taluk of the district with a population of 387,830 persons. As in the case of area Gudibanda taluk with a population of only 45,821 persons, occupies the last place among the taluks in respect of population size.

A rangewise distribution of the population of the taluks reveals that most of the taluks, i.e. 7 out of 11 fall in the population range 1.5 to 2.5 lakhs where as there is one taluk each in the range (i) less than 50,000 (Gudibanda), (ii) 1 to 1.5 lakh (Bagepalli), (iii) 2.5 to 3 lakh (Kolar) and (iv) above 3 lakh (Bangarpet).

(ii) Rural-Urban Composition

Of the total of 2,216,889 persons in the district 1,699,906 persons reside in rural areas and 516,983 reside in the urban areas.

Table 1 : Population and Number of Villages, 1991

	District Rural	1699906	863585	836321	3321	2889

The district has 3321 villages of which only 432 villages are uninhabited. 2889 villages have population as against the 2848 villages which had population in 1981. Bangarpet taluk has the highest number (352) of inhabited villages followed by Chintamani taluk (344), Kolar (323) and Mulbagal (311) while rest of the taluks have less than 300 inhabited villages each.

Among the taluks of the district Gauribidanur accounts for the highest share of rural population.

	District Urban	516983	264731	252252

* Includes Outgrowths.

The urban population is distributed among fifteen towns of the district with Kolar having the highest urban population of 83,287 persons (16.11 per cent). Kolar Gold Fields, Robertsonpet and Chintamani too are also big towns with population over 50,000 persons. Though Bagepalli, Gudibanda, Manchenahalli and Srinivaspur are converted as Mandal Panchayats they are continued as towns for 1991 census. Gudibanda and Manchenahalli are the two towns which have a population of less than 10,000.

K.G.F. Urban Agglomeration was, for the first time, formed in 1971. The constituent units of this agglomeration for the 1991 census are B.E.M.L.Nagar with its outgrowths, K.G.F (SB) and Robertsonpet (CMC). The population of this agglomeration itself constitutes 30.32 per cent of the urban population of the district.

(iii) Classification of new places and towns, declassification and/or merger of towns during the decade 1981-91

Kolar district has fifteen towns in its fold. Only ten among these are statutory ones, four are former municipalities converted into Mandal Panchayats and one is a non-municipal census town.

Five revenue villages Doddurukarpanhalli Plantation, Dasarahosahalli, Kathihalli, Chinkote, Devaganhalli of Bangarpet taluk have been treated as the outgrowths of BEML Nagar (NMCT) which is one of the constituent units of Kolar Gold Fields Urban Agglomeration. They are considered so because of their contiguity to the BEML Nagar and their urban characteristics they possess. These units have been thus considered as urban. But for these there has not been any significant change in rural-urban set up in the district. The number of towns in the district has remained the same as at the previous census.

Table 3 : New Towns/Towns Declassified, Merged in 1991 Census

Particulars	Name of Town	Population
1	2	3
(a) Added	Nil	-
(b) Declassified	Nil	-
(c) Wholly merged with other towns	Nil	-

(iv) Decadal variation in population 1981-1991

The population of the district has now risen to 2,216,889 from 1,905,492 in 1981 and has thus recorded an increase of 16.34 per cent. While the urban population has increased by 20.84 per cent the increase is by 15.04 per cent in the case of rural population of the district. Chikballapur and Malur taluks have shown a higher growth of more than 20.00 per cent as at the 1981 census. In eight of the eleven taluks in the district the decadal variation in urban population is more than that of the rural population.

As seen from the table given below the urban population in Bagepalli taluk has increased by more than half during the last decade. In the taluks of Gauribidanur, Malur, Mulbagal and Srinivaspur the decadal variation in urban population is more than thirty per cent.

Table 4 : Decadal change in distribution of Population

District	1905492	1477661	427831	2216889	1699906	576983	16.34	15.04	20.84	22.45	23.32

The rural population has increased by 15.04 per cent over the last decade. In Chikballapur taluk the percentage decadal variation of rural population is highest being 21.65 per cent. In Gauribidanur taluk it is just 9.84 per cent which is the lowest. Even in Bagepalli and Srinivaspur taluks there is a low growth of rural population.

As much as 23.32 per cent of the total population of the district spread over eleven taluks, lives in urban areas and this population is residing in 12 towns and one urban agglomeration. During the decade 1981-91 the urban population has increased by more than 50 per cent in Bagepalli taluk. Similarly in the taluks of Gauribidanur, Malur, Mulbagal and Srinivaspur the decadal variation is more than 30 per cent as compared to the decadal variation of urban population of the district which is just 20.84 per cent. In Bangarpet taluk the variation is as low as 8.39 per cent.

Bangarpet taluk among other taluks of the district has 47.26 per cent of its population living in urban areas and in Bagepalli taluk the percentage of urban population is just 8.46 per cent.

In the district as a whole, the urban population has increased by more than one fifths during the last ten years.

(v) Trends of Urbanisation

In the district as a whole, 516,983 persons live in the urban areas of the district. That is to say, more than one fourth of the total population of the district is urbanites, compared to the proportion of urban population of the district as per the previous census it is slightly more. But the pace of urbanisation is slow here compared to that of the State. The urban content of the State's population is 30.92 per cent whereas it is 23.32 per cent in the case of the district.

In 1981 census, 48.95 per cent of the population of Bangarpet taluk resided in urban areas. In 1991 census also the proportion of urban population remains the highest (47.26 per cent) among the taluks of the district. The other towns which have a decadal variation of more than 30.00 per cent are Gauribidanur, Malur, Mulbagal and Srinivaspur.

The percentage decadal variation in population of Bagepalli town is 55.70 per cent which is the highest among towns of the district. Though during the last decade the percentage variation of urban population is very high in Bagepalli taluk, compared to other taluks of the district, the proportion of urban population to the total population of the taluk is as low as 8.46 per cent.

During the decade 1981-91 the population of BEML Nagar (NMCT) has increased by 40.57 per cent while that of Kolar Gold Fields (SB) has declined by 6.69 per cent. This decline in population growth may possibly be attributed to the fact that the mining activity here has gradually come down considerably due to the fall in the output of gold. On setting up of a Public Sector Company, the Bharat Earth Movers Ltd., in the vicinity of KGF (SB) people have moved to BEML Nagar, an exclusive township built for the employees of the company, which was designated as a 'Census Town' in 1981 considering its separate enti

Census results show that during the last decade the population of BEML Nagar has increased by 40.57 per cent. This again may possibly be so because of the large scale employment opportunities available in the factory and the gradual development of the township.

Apart from this, the five revenue villages Dodduru Karpanhalli Plantation, Dasarahosahalli, Kathihalli, Chinkote and Devaganhalli, all of Bangarpet taluk which abut the boundary of BEML Nagar form a continuous urban growth. For purposes of 1991 census these are treated as outgrowths of BEML Nagar (NMCT) which is one of the constituent units of the Kolar Gold Fields Urban Agglomeration. Consequently therefore, the population which had been considered as 'Rural' in the last census has now come to the urban fold, a clear indication of the urbanisation of these places.

Owing to the location of Kolar Gold Fields Urban Agglomeration which has a population of over one lakh, in Bangarpet taluk, compared to other taluks of the district, this taluk has an highest urban content in its population. However, it is noticed that the population of KGF (SB) the bigger component of KGF Urban Agglomeration is slowly reducing whereas that of BEML Nagar (NMCT) is increasing. Kolar Gold Fields Urban Agglomeration

Table 5 : Percentage distribution of villages by population ranges, 1991

Taluk/C.D.Block	No. and Percentage of inhabited villages	No. and percentage of villages in each range (figures in paranthesis indicate percentage of villages in each range)					
		Less than 200	200 - 499	500 -1999	2000 - 4999	5000 - 9999	10,000 & above

	(100.00)	(18.59)	(37.31)	(41.22)	(2.60)	(0.28)	-

as such has registered an increase of mere 8.56 per cent during the decade 1981-91.

(vi) Population Size of Villages

Kolar district comprises 2889 inhabited villages as against 2848 in 1981.

As per 1991 census there are 2,216,889 persons in the district of whom 1,699,906 or 76.68 per cent live in villages. 863,585 of them are males and 836,321 are females.

The above table shows the percentage distribution of villages by population ranges in the taluks of the district.

Small and medium sized villages with population upto 2,000 account for 37.12 per cent of the total 2,889 inhabited villages in the district. A further examination shows that the villages with population size 200-499 and 500-1999 are more numerous than those in the population range less than 200. In all the taluks generally a similar distribution is observed. There are only 83 villages with population over 2000. It is significant to note that out of this, 26 villages are situated in Gauribidanur taluk.

(vii) Density of Population

Kolar district according to 1991 census has a population density of 270 per sq.km. as against 232 per sq.km. recorded in 1981. Thus the density of population in the district is higher than the overall density for the State (235 persons per sq.km.). Even the rural and urban densities are comparatively higher than those of the State. The density in rural areas of the district is 210 per sq.km., whereas the density in urban areas is 4566 per sq.km.

During the last decade, the population of both rural and urban areas has increased considerably and the density has therefore increased proportionately. Compared to urban areas, the rural areas of the district are sparsely populated.

Table-6 shows the distribution of villages according to the density ranges.

Table 6 : Distribution of villages by density ranges

Range of Density (population per sq.km)	Total no. of villages in each range	Percentage of villages in each range
1	2	3
0-10	56	1.94
11-20	38	1.32
21-50	93	3.22
51-100	245	8.48
101-200	893	30.91
201-300	715	24.75
301-500	608	21.05
501 & above	241	8.34
Not known	-	-
Total	2889	100.00

When the rural density of population is considered, Kolar among the taluks of the district, is the most densely populated taluk with a density of 256 per sq.km. followed by Bangarpet, Malur and Gauribidanur each of which has a density of population above that of the district. In other taluks, however, the density of population is much below that of the district. Bagepalli taluk has the lowest rural density of population (144 per sq.km) among the taluks.

When we look at the density of population in urban areas Sidlaghatta happens to be the most densely populated town of the district. Next to this are Gudibanda, Kolar, Robertsonpet, Mulbagal etc., in the descending order. Manchenahalli (MP) though covers an area of 6.44 sq.kms has a population of only 6454 persons. Its density of population is as low as 1002 per sq.km., the lowest in the district. Areawise, Gudibanda (MP) covers the smallest area of 0.64 sq.km. but its population is 7563. Accordingly therefore the density of population works out to 11,817 per sq.km.

Among the three constituent units of the Kolar Gold Fields Urban Agglomeration the density of population of Robertsonpet (CMC) is as high as 10,260 per sq.km whereas that of Kolar Gold Fields Urban Agglomeration is only 2697 per sq.km.

Kolar (CMC) is the most populous town in the district. Densitywise it ranks third in the district, the first and second places being held by Sidlaghatta (TMC) and Gudibanda (TMC).

From Table-6 it may be observed that villages with density ranging from 101 to 500 account for 76.71 per cent of the total villages in the district and in that the density range of 101-200 itself contains the higher number of villages (30.91 per cent) followed by the density range 201-300 with 715 villages. There are 241 villages with population density of over 500.

(viii) Sex Ratio

The sex ratio for the district is slightly higher than that of the State and the country. There are 965 females for every 1000 males in the district as against 971 during 1981. Thus there is a drop in the sex ratio in the population of the district.

Table 7 : Sex Ratio for Rural Population of C.D.Blocks, 1991

Sl.No.	Name of C.D.Block/Taluk	No. of females per 1000 males
1	2	3
1.	Bagepalli	953
2.	Bangarpet	984
3.	Chikballapur	961
4.	Chintamani	966
5.	Gauribidanur	945
6.	Gudibanda	965
7.	Kolar	969
8.	Malur	971
9.	Mulbagal	982
10.	Sidlaghatta	984
11.	Srinivaspur	972
	District Rural	968

In rural areas, however, the sex ratio is still high, the ratio being 968 females for every 1000 males.

The sex ratio in the rural population of the taluks varies from as low as 945 in Gauribidanur to as high as 984 in Bangarpet and Sidlaghatta taluks. In six out of 11 taluks of the district the sex ratio is higher than the overall sex ratio of the district (968).

Table-8 gives the sex ratio of the urban population in the district.

Table 8 : Sex Ratio for Towns, 1991

Sl. No.	Name and Civic Administration Status	No. of females per 1000 Males
1	2	3
1.	Bagepalli (MP)	915
2.	Bangarpet (TMC)	950
3.	B.E.M.L.Nagar (NMCT)*	877
4.	Chikballapur (TMC)	941
5.	Chintamani (TMC)	931
6.	Gauribidanur (TMC)	908
7.	Gudibanda (MP)	970
8.	Kolar (CMC)	960
9.	Kolar Gold Fields (SB)	1000
10.	Malur (TMC)	921
11.	Manchenahalli (MP)	966
12.	Mulbagal (TMC)	980
13.	Robertsonpet (CMC)	972
14.	Sidlaghatta (TMC)	937
15.	Srinivaspur (MP)	918
	District Urban	953

* Includes Outgrowths

In urban areas the sex ratio varies from 877, the lowest in BEML Nagar and its outgrowths to 1000 in KGF (SB) as against the overall sex ratio of 953 for the district.

The sex ratio of urban population of this district was 953 even at the 1981 census. In only six out of the fifteen towns in the district, the sex ratio is higher than the district average of 953.

(ix) Scheduled Castes

There are 570,400 persons who belong to various Scheduled Castes in the district. They form 25.73 per cent of the total population of the district. Of these, 455,560 persons are residing in rural areas or villages and 114,840 are residing in urban areas. The Scheduled Castes population constitutes 26.80 per cent of the total rural population and 22.21 per cent of the total urban population of the district.

There are 2647 villages in the district which have returned Scheduled Castes population.

Table-9 gives the rangewise distribution of these proportion of Scheduled Castes population to total population in the villages. It may be seen from this table that in slightly more than one third of the villages which have Scheduled Castes population, the proportion of Scheduled Castes population is less than 20 per cent. The villages which have more than 20 per cent of Scheduled Castes population account for slightly more than 65 per cent of the villages with Scheduled Castes population.

Table 9 : Proportion of Scheduled Castes Population to Total Population in villages, 1991

Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
0-5	137	5.18
6-10	201	7.59
11-15	269	10.16
16-20	308	11.64
21-30	650	24.56
31 & above	1082	40.88
All Ranges	2647	100.00

Among the taluks of the district Bangarpet taluk itself accounts for about one fourth of the district's Scheduled Castes population. This may be attributed to the heavy concentration of Scheduled Castes population in KGF Urban Agglomeration. Kolar is the other taluk which claim more than 10 per cent of the Scheduled Castes population of the district.

Table 10 : Percentage of Scheduled Castes Population in towns, 1991

Sl. No.	Name of Town	Total Population	Total Scheduled Castes Population	Percentage of Scheduled Castes Population to Total Population
1	2	3	4	5

11.	Manchenahalli (MP)	6454	1129	17.49
12.	Mulbagal (TMC)	35519	3768	10.61
13.	Robertsonpet (CMC)	68230	19962	29.26
14.	Sidlaghatta (TMC)	25177	2981	11.84
15.	Srinivaspur (MP)	16550	2084	12.59
	District Urban	516983	114840	22.21

*Includes Outgrowths.

So far as the urban areas of the district are concerned KGF (SB) known for its mining activity has a good concentration of the Scheduled Castes

population. As much as 47,230 persons out of the total population of 72,485 in KGF (SB) or 65.16 per cent of the population belong to Scheduled Castes. Also, this forms 41.13 per cent of the Scheduled Castes population of the district living in urban areas. The Scheduled Castes constitute a sizeable proportion of 29.26 per cent of the total population of Robertsonpet (CMC).

More than one third of the Scheduled Castes population in the district pursue agriculture for their livelihood. As high as 81.34 per cent among them are main workers. Mining and manufacturing are other important activities in which they are mostly engaged.

As much as 17.21 per cent of the total Scheduled Castes population of the district, that is nearly one fifth, are in the age-group of (0-6) years who are treated as illiterates whether or not they have acquired the knowledge of reading and writing. Among the rest that is, those who are aged 7 plus years, 37.02 per cent are literates.

(x) Scheduled Tribes

In Kolar district 153,019 persons have returned themselves as belonging to Scheduled Tribes. They form 6.90 per cent of the total population of the district. The Scheduled Tribes population of the district in rural areas form 8.38 per cent of the total rural population, whereas those in urban areas form only 2.03 per cent of the total urban population of the district.

Table 11: Proportion of Scheduled Tribes Population to Total Population in Villages, 1991

Percentage range of Scheduled Tribes Population to total Population	No. of villages in each range	Percentage of villages in each range
1	2	3
0-5	478	32.69
6-15	443	30.30
16-25	205	14.02
26-35	114	7.80
36-50	89	6.09
51 & Above	133	9.10
All Ranges	1462	100.00

As many as 34,483persons or 22.54 per cent of the total Scheduled Tribes population of the district are in Gauribidanur taluk alone. Another 15.25 per cent are in Chintamani taluk. The rest are distributed among the other taluks of the district. Agriculture being the principal occupation of Scheduled Tribes population, they are mainly found in the rural parts of the district.

Of the 153,019 Scheduled Tribes population in the district as many as 142,496 (93.12 per cent) are residing in the rural areas or villages. Of the 2889 inhabited villages in the district, Scheduled Tribes have been returned from only 1462 or 50.00 per cent of the inhabited villages. The distribution of these villages according to percentage range of the proportion of Scheduled Tribes to total population of the villages is presented in Table-11. It may be seen that in nearly 63.00 per cent of these villages the proportion of Scheduled Tribes is less than 15.00 per cent. It may be noted that only in 133 villages the proportion of Scheduled Tribes population exceeds 50.00 per cent of total population. Townwise information furnished in Table-12 reveals that persons belonging to Scheduled Tribes are found in all the 15 towns of the district. Numerically, their number varies between 16 in Kolar Gold Fields (SB) and 2098 in Chintamani (TMC).

Table 12 : Percentage of Scheduled Tribes Population in Towns, 1991

Sl. No.	Name of Town	Total Population	Total Scheduled Tribes Population	Percentage of Scheduled Tribes Population to Total Population
1	2	3	4	5
1.	Bagepalli (MP)	12336	688	5.58
2.	Bangarpet (TMC)	29122	164	0.56
3.	B.E.M.L.Nagar (NMCT)*	16031	166	1.04
4.	Chikballapur (TMC)	47221	1261	2.67
5.	Chintamani (TMC)	50394	2098	4.16
6.	Gauribidanur (TMC)	25577	1882	7.36
7.	Gudibanda (MP)	7563	1102	14.57
8.	Kolar (CMC)	83287	1020	1.22

14.	Sidlaghatta (TMC)	25177	860	3.42
15.	Srinivaspur (MP)	16550	184	1.11
	District Urban	516983	10523	2.03

*Includes Outgrowths.

The percentage of Scheduled Tribes population to the total population is the highest in Gudibanda town with 14.57 per cent as against the district average of 2.03 per cent. In Gauribidanur (7.36 per cent), Bagepalli (5.58 per cent) and Manchenahalli (5.16 per cent) also the proportion of Scheduled Tribes to total population is more than 5.00 per cent.

There are 26,512 persons in the age-group (0-6 years) among the Scheduled Tribes population of the district. As many as 39,731 among the rest are literates giving a literacy rate of 31.47 per cent for the Scheduled Tribes.

(xi) Literacy

In the total population of 2,216,889 persons in the district there are 1,860,798 persons in the age-group 7 plus and of whom 938,777 persons are literates. The literacy rate therefore for the district thus works out to 50.45 per cent. The corresponding literacy rates for rural and urban areas are 43.16 per cent and 74.09 per cent respectively. The literacy rates for males and females in the rural population of the district are 56.79 per cent and 29.06 per cent respectively. The literacy rates for the rural population of the taluks are given in Table-13. The literacy rates in rural population of the taluks varies considerably from as low as 35.44 per cent in Bagepalli taluk to as high as 50.46 per cent in Kolar taluk. It may also be observed that female literacy rates are quite low compared to the literacy rates for males.

Table 13 : Literacy Rates for Rural Population of Taluks (C.D.Blocks) by sex, 1991
(Excluding children in the age-group 0-6)

Sl No	Name of Taluk/C D Block	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1	Bagepalli	35 44	48 29	21 99
2	Bangarpet	42 99	57 09	28 66
3	Chikballapur	44 27	57 43	30 54
4	Chintamani	43 27	56 79	29 25
5	Gauribidanur	42 28	54 77	29 05
6	Gudibanda	38 05	50 98	24 70
7	Kolar	50 46	65 36	35 01
8	Malur	42 63	55 64	29 17
9	Mulbagal	39 43	53 84	24 82
10	Sidlaghatta	45 08	55 11	31 49
11	Srinivaspur	44 87	59 33	29 99
	District Rural	43 16	56 79	29 06

Table-14 gives the literacy rates for the population of the towns. The literacy rates in the urban population of the district are comparatively higher than the literacy rates for the person, males and females in the rural population and the disparity between male and female literacy rates is less compared to that in the rural population. Among the towns Sidlaghatta (TMC) is noted for its lowest literacy rate (44.37 per cent). BEML Nagar has registered the highest literacy rate of 87.43 per cent.

Table 14 : Literacy Rates for towns, 1991
(excluding children in the age-group 0-6)

Sl No	Name and Civic Administration Status of Town	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5

	District Urban	74 09	81 63	66 15

*Includes Outgrowths.

As in 1981 this time too there is a wide gap between the male-female literacy rate. But the literacy rate has however, increased considerably over the last decade at all levels. At the district level, as it was at the previous census, the literacy rate is below that of the State.

(xii) Main Workers, Marginal Workers and Non-workers

In the district as a whole there are 962,584 persons who are classified as economically active or workers. They account for 43.42 per cent of the total population. As much as 64.53 per cent of the workers are males and the rest are females. In the working population, a majority or 91.58 per cent are main workers, and among the main workers nearly 70 00 per cent are males Though, those

who are engaged in marginal work in the district form a very small percentage, majority of the marginal workers are females who pursue one or the other gainful work.

There are 1,152,943 persons in the district who are non-workers. The proportion of non-workers is 52.09 per cent and 71.35 per cent in the total rural and urban populations respectively.

From Table-15 it may be seen that 47.91 per cent of the rural population is engaged in economically active work and of these 43.30 per cent are main workers. The percentage of working population in the rural population of the taluks is the highest in Gudibanda taluk with 52.49 per cent. The percentage of male and female workers is also comparatively higher in this taluk, being 59.54 per cent and 45.18 per cent respectively. Bagepalli and Chintamani are the other taluks where the proportion of total workers exceed 50.00 per cent of the total rural population.

The percentage of main workers in Kolar, Malur, Sidlaghatta and Srinivaspur taluks is below the district average of 43.30 per cent and among taluks of the district Kolar taluk has the lowest percentage of main workers in the rural population.

It is in Srinivaspur taluk that the percentage of marginal workers is the highest with 7.40 per cent.

The proportion of non-working population exceeds 50.00 per cent in majority of the taluks the highest being in Kolar taluk. As much as 65.85 per cent of the female population here are non-workers as against the district average of 62.06 per cent for the district. For obvious reasons, the proportion of workers in the female population is quite low compared to that of males and the difference in the proportion of workers in the male and female population varies from taluk to taluk.

Table-16 gives the percentage of main workers, marginal workers and non-workers among the urbanites of the district.

The proportion of workers in the urban population is comparatively less than that in the rural population. In particular it may be noted that proportion of female workers in urban areas is far less than that in the rural areas. In the urban areas of the district as a whole there are 148,101 workers of whom 145,441 are main workers and 2,660 are marginal workers. The main workers and marginal workers account for 28.13 per cent and 0.52 per cent of the urban population of the district. The percentage of workers in the towns vary from 19.41 per cent, the lowest in KGF (SB) to 35.60 per cent in Sidlaghatta (TMC).

*Includes Outgrowths.

There is a wide gap between the proportion of male and female workers in urban areas of the district unlike in the rural areas where more number of females participate in various economically productive work.

PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE

The Primary Census Abstract furnishes, in a nutshell as it were, vital information on the basic demographic and economic composition of the population. This statement, referred to as PCA, summarises the whole mass of data gathered at the Census. The smallest geographical unit with a clearly defined boundary identifiable on the field that has been delineated for ensuring cent per cent coverage of the area under the jurisdiction of various administrative units is the Census Enumeration Block. The details gathered in the household schedules in respect of each and every person enumerated in each such block have been meticulously tabulated to prepare this Primary Census Abstract. The tabulation has been done entirely by manual processing of the data at the Regional Tabulation Offices. The village PCA is derived from the Block PCA and in case of urban areas, the Block PCA has yielded the ward and Town PCA. In turn, the Taluk (Rural) and Taluk (Urban) as well as Taluk (Total) PCA statements as well as the C.D.Block-wise PCA Statements are built up on the basis of Village-wise and Town-wise data. This process goes on until it yields the data for higher and higher administrative divisions, such as the District and the State, culminating at the apex in the form of a single line statement for the country. The entire edifice thus rests on the information contained in the household schedules filled up by the enumerator.

The District Primary Census Abstract is presented immediately after this Explanatory Note. This statement gives the aggregate figures for the district with the rural-urban break up, the aggregate figures for each C.D.Block (with the rural-urban break up) and the aggregate figures for each town/urban agglomeration within the district. It is important to note that the lowest unit for which the data are presented here is the C.D.Block and not the traditional taluk*. Thereafter the C.D.Blocks within the district are taken up one by one in the alphabetical order of their names. For each C.D.Block, an alphabetical list of villages (which indicates the code numbers assigned to villages in 1991 as well as the corresponding code numbers assigned in 1981) precedes the presentation of the village-wise PCA followed by the ward-wise PCA in respect of towns and outgrowths if any within the jurisdiction of the concerned C.D.Block. After thus exhausting all the C.D.Blocks in the district, the town/urban agglomerations are covered one by one in the ascending order of their location code numbers without regard to the fact whether any of these towns or portions thereof (eg. outgrowths) have already been covered under one or the other of the Community Development Blocks. As in 1981, on this occasion too, the PCA has been compiled separately in respect of the Scheduled Castes and Scheduled Tribes Population of the District. The District PCA for Scheduled Castes and for Scheduled Tribes are presented after the PCA for the urban areas. The pattern of presentation of data in these two statements is the same as that adopted for presentation of data in the District PCA.

It may be recalled that in Karnataka the term Community Development Block is not in vogue and that its equivalent is the Taluk Panchayat Samiti. The jurisdiction of each Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns. In other words, the administrative jurisdiction of a Taluk Panchayat Samiti covers all the villages of the Taluk (as listed out for the 1991 census) as also the villages or parts thereof which have been classified as non-municipal towns for purposes of the 1991 census and the revenue villages or portions thereof which have been identified as outgrowths of statutory towns and have therefore been excluded from the purview of Rural PCA. It is important to remember that in this statement, the particulars relating to the non-municipal towns (such as those administered by Mandal Panchayats) and those relating to the outgrowths (places which are not towns in their own right) are repeated - for these appear once below the concerned C.D.Block and again under the 'urban areas' of the district.

* *For purposes of comparison with 1981 data the Taluk wise District PCA with Rural - Urban breakup is given in Appendx I.*

The Primary Census Abstract has 21 main columns to furnish information about the name of the unit, area, number of occupied residential houses, number of households, population, number of persons in the age-group of 0-6, number of persons belonging to Scheduled Castes and Scheduled Tribes, number of literates, number of main workers and their distribution among nine industrial categories, number of marginal workers and the number of non-workers. In the District PCA, each column indicating the data on population characteristics is sub-divided into 3 columns in order to indicate the total as well as the sex-wise break-up whereas in the village/town PCA, each such column (with the exception of Total Population and Population in the 0-6 age group) is sub-divided into two columns to indicate the sex-wise break-up only.

It may be mentioned at this juncture that for each town/urban agglomeration in the district, information regarding the total population, Scheduled Castes Population and Scheduled Tribes Population of each census enumeration block as also the particulars regarding the boundaries of each Census Enumeration Block have been compiled and are kept for the census data users' reference in the Library of the Office of the Director of Census Operations, Karnataka.

COLUMN 1 : Location Code Number :- The location code number assigned to the village or the town as the case may be is entered in this column.

COLUMN 2 :- Name of Village/Town/Ward :- The name of the village or the town as finally adopted for the 1991 census purposes is entered in this column. The towns and cities are often divided into smaller geographical segments called wards, mohallas or divisions for purposes of administration. Such units bear distinctive locality names or specific numbers. It is this name or the number of the ward or its equivalent unit that is mentioned here in the case of towns.

Irrespective of whether a town is divided into administrative wards or not, every town is invariably constituted into territorial divisions for the conduct of civic elections. This delimitation of constituencies is done as an essential and preliminary process of civic elections scheduled to be held periodically. So, in some cases the name or number reported in this column refers to such territorial divisions and not to administrative divisions.

COLUMN 3 : Area of the Village in Hectares and of Town in Square Kilometres :- For the villages, the area is reported here in hectares upto two places of decimal and for the towns, as also the wards or divisions thereof, the area figures are furnished in square kilometres upto two places of decimal. It may be incidentally mentioned here that for none of the towns in the State, Ward/Division-wise area figures are available. If the area figures are not available for any reason, a dash (-) is entered in this column.

COLUMN 4 : Number of Occupied Residential Houses :- A 'Census House' could be wholly residential or partly residential or else completely non-residential according to the use to which it is put. All census houses enumerated as either wholly or partly residential at the time of the census count are added together to get the data for the block and from thence to derive the data for higher units. Houses found vacant at the time of the census count are not reckoned as occupied residential houses. The information for this column has been compiled from the Abridged Houselists.

COLUMN 5 : Number of Households :- This information too is compiled from the Abridged Houselists. The actual total number of households including the 'normal', 'institutional' and the 'houseless' that were enumerated at the census count is mentioned in this column. Generally, the number of households in any unit would be equal to or more than the occupied residential houses in that unit because of the houseless households that one may come across in that unit and also because of the occasional instances of two or more households sharing a common census house.

COLUMNS 6, 7 AND 8: Total Population (including Institutional and Houseless Population):- The total population as on the reference date is furnished in column 6 while in the next two columns the sex-wise break-up is given. The institutional population refers to such of those who were enumerated in institutions like hostels, chummeries, hospitals, prisons etc. The houseless persons

represent those who were enumerated on the night of 28th February 1991 at the places where they were found at that time, provided they had not already been enumerated elsewhere.

COLUMNS 9, 10 and 11 : Population in the age group (0 - 6) :- The total number of children belonging to the age-group of 0-6 in the total population as also the number of males and females among them are reported under these three columns. This information is of considerable significance since all such children are regarded as illiterate at the 1991 Census.

COLUMNS 12 AND 13 : Scheduled Castes :- Number of males and females belonging to Scheduled Castes is indicated in these two columns. Whether a person belongs to a Scheduled Caste or not has been determined with reference to the List of Scheduled Castes in Karnataka according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No. 108 of 1976) (See Appendix). Scheduled Castes may belong to either the Hindu or the Sikh or the Buddhist religion.

COLUMNS 14 AND 15 : Scheduled Tribes :- Number of males and females belonging to Scheduled Tribes is reported under these columns. Whether a person belongs to a Scheduled Tribe or not has been determined with reference to the 'List of Scheduled Tribes in Karnataka' according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No.108 of 1976) (See Appendix for the list). Scheduled Tribes may belong to any religion.

COLUMNS 16 AND 17 : Literates :- Sex-wise break up of the total number of persons who are literate, irrespective of their levels of educational attainments is given in these two columns. By definition a literate is a person who can both read and write with understanding in any language. It is important to note that for purposes of the 1991 census by definition all children in the 0 - 6 age group are regarded as illiterate. Even if such a child is going to school and has picked up reading and writing a few odd words it is treated as illiterate.

COLUMNS 18 AND 19 : Total Main Workers:- A worker is a person who participates in economically productive work. The reference period for judging whether a person is a worker or not in the year preceding the day of enquiry. If a person had worked even for one day during this entire period he or she is entitled to be classified as a worker. If for any such worker the period of work is 183 days or more then that person is a main worker. On the other hand, if such period is less than 183 days then that worker is a marginal worker. In columns 18 and 19 the total number of main workers is furnished sex-wise and a sex-wise break up of these main workers according to the nine-fold 'industrial classification of workers' is presented in the next 20 columns i.e., from column 20 to column 39.

COLUMNS 20 AND 21 : Cultivators (Category-I) :- These two columns give out the number of male and female workers who satisfy the conditions laid down in the definition of a cultivator. A cultivator may be an employer, a single worker or an unpaid family worker. Participation in work may be by way of physical labour or by way of supervision and direction. The lands cultivated may be owned by the household or taken on lease for payment in money or kind or share in the produce. Cultivation, as already emphasised involves ploughing, sowing and harvesting and allied activities in the production of cereals and millet crops, pulses, raw jute and kindred fibres, sugarcane, tapioca and oil seeds.

COLUMNS 22 AND 23 : Agricultural Labourer (Category -II) :- A person who works in another person's land for wages in money or kind or share and does not have any lease or contract on the land on which he or she works is an agricultural labourer. In this case too, the crops grown on the lands are quite pertinent and the difference between a cultivator and an agricultural labourer lies in the fact that the former works on his own or leased in lands as an independent worker while the latter works for wages having no right whatsoever on the lands on which he works. The sex-wise break-up of such workers is given in these two columns.

COLUMNS 24 AND 25 : Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities (Category - III) :- A sex-wise break up of the workers who were mainly engaged in activities connected with livestock rearing, forestry

and logging, hunting, fishing, plantations, orchards etc., is given under these columns.

COLUMNS 26 AND 27 : Mining and Quarrying (Category - IV) :- A sex-wise break up of the workers mainly engaged in activities connected with mining and quarrying is given under these columns.

COLUMNS 28 AND 29 : Manufacturing, Processing, Servicing and Repairs - Household Industry (Category - V[a]) :- Household industry belongs to the broad category of 'manufacturing, processing, servicing and repairs' and represents a particular sector therein. Household industry is generally conducted by the head of household himself or herself and or mainly by the members of the household, at home or within the village in the case of those dwelling in rural areas and only within the residential premises occupied by the household in the case of those living in urban areas. A person may be a labourer or a petty employee in the household industry run by some other household. By and large the household industry is carried on by individuals on a small scale with or without the assistance of family members all of whom work as unpaid family workers and the entire earnings are treated as family income.

COLUMNS 30 AND 31 : Manufacturing, Processing, Servicing and Repairs - Non-household Industry (Category - V[b]) :- A sex-wise break up of the workers who were engaged in manufacturing, processing, servicing and repair activities in establishments which do not qualify to be classified as household industry as defined above {category V(a)} is given here.

COLUMNS 32 AND 33 : Construction (Category-VI) :- Workers engaged in construction, maintenance, upkeep, repair and similar activities of buildings, roads, railways, bridges, dams, canals, electrical and water supply installations, communication systems etc., are shown under this category.

COLUMNS 34 AND 35 : Trade and Commerce (Category - VII) :- In these two columns the number of male and female workers engaged in wholesale or retail trade in goods or engaged in dealing with insurance, stocks and shares, banking and financial institutions etc., either as proprietors or in any other capacity are indicated.

COLUMNS 36 AND 37 : Transport, Storage and Communications (Category - VIII) :- A sex-wise breakup of the workers in establishments such as railways, road transport, transportation by water-ways or by air, postal and telegraphs, telecommunications etc., which are engaged in transport, storage and communication activities is given in these columns.

COLUMNS 38 AND 39 : Other Services (Category - IX) :- This residuary category includes employees of the Central and State Governments, local bodies and other organisations and institutions engaged in educational, scientific, medical and health services, religious and welfare services, community services, recreational services, personal services and other miscellaneous activities not covered in the 8 categories specified above.

COLUMNS 40 AND 41 : Marginal Workers :- Males and females who are workers but have worked for less than 183 days during the reference year are reported under these two columns. Such workers, irrespective of the economic sector in which they work, are considered together and reported here.

COLUMN 42 AND 43 : Non-workers :- Irrespective of age and sex, all those who are not economically active are non-workers and a sex-wise break-up of such persons is given in these two columns. The aggregate of the main workers, marginal workers and non-workers would be equal to the total population of that unit.

NOTE :

1. The area figure for the district given under column No.4 against "Total" represents "Geographical Area" and has been furnished by the Surveyor General India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D.Blocks/Taluks in the district will not tally with the district figures (except urban), because the area figures for C.D.Blocks/Taluks represent the land-use area based on villagewise area figures as reported by the Local Officers. The total area of the taluk may not tally with the aggregate of the areas of the villages listed for census purposes for it includes the area of the statutory as well as non-statutory towns, villages which may be fully submerged and reserve forests which may not form part of any revenue village, if any, within the jurisdiction of the concerned taluk. The total area of the C.D.Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2. Outgrowths of towns in urban agglomerations are denoted by letter "OG".

3. The following abbreviations have been used to indicate the Civic Administration Status of town :

MC : Municipal Corporation
CMC : City Municipal Council
TMC : Town Municipal Council
NAC : Notified Area Committee
CB : Cantonment Board
SB : Sanitary Board
MP : Mandal Panchayat
NMCT : Non-Municipal Census Town

BANGARAPET C.D.BLOCK

Note :

The following revenue villages of Bangarapet Taluk which had been assigned location code numbers have since been classified as Outgrowths of Kolar Gold Fields Urban Agglomeration.

L.C.No.	Name of Village
4.	Kattihalli
5.	Devganhalli
118.	Chinkote
119.	Dasarahosahalli
120.	Dodduru Karpanhalli (Plantation)

Hence these villages do not find a mention in the alphabetical list of villages as well as in the PCA Statement. This explains the gap in location code numbers noticed in the list of villages and the PCA Statement of Bangarapet C.D.Block. However these units appears in the urban category as part of Kolar Gold Fields Urban Agglomeration.

APPENDIX II

List of Scheduled Castes and Scheduled Tribes as per the Scheduled Castes and Scheduled Tribes orders (Amendment) Act, 1976, (No. 108 of 1976 dated the 18th September, 1976) adopted for the 1991 Census.

SCHEDULED CASTES

1. Adi Andhra
2. Adi Dravida
3. Adi Karnataka
4. Adiya (in Coorg District)
5. Ager
6. Ajila
7. Anamuk
8. Aray Mala
9. Arunthathiyar
10. Arwa Mala
11. Baira
12. Bakad
13. Bant (in Belgaum, Bijapur, Dharwar and North Kanara districts)
14. Bakuda
15. Balagai
16. Bandi
17. Banjara, Lambani
18. Bathada
19. Beda Jangam, Budga Jangam
20. Bellara
21. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
22. Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Muchi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar
23. Bhovi
24. Bindla
25. Byagara
26. Chakkiliyan
27. Chalavadi, Chalvadi, Channayya
28. Chandala
29. Chenna Dasar, Holaya Dasar
30. Dakkal, Dokkalwar
31. Dakkaliga
32. Dhor, Kakkayya, Kankayya
33. Dom, Dombara, Paidi, Pano
34. Ellamalwar, Yellammalawandlu
35. Ganti Chores
36. Garoda, Garo
37. Godda
38. Gosangi
39. Halleer
40. Halsar, Haslar, Hulasvar, Halasvar
41. Handi Jogis
42. Hasla
43. Holar, Valhar
44. Holaya, Holer, Holeya
45. Holeya Dasari
46. Jaggali
47. Jambuvulu
48. Kadaiyan
49. Kalladi
50. Kepmaris
51. Kolupulvandlu
52. Koosa
53. Koracha
54. Korama
55. Kotegar, Metri
56. Kudumban
57. Kuravan
58. Lingader
59. Machala
60. Madari
61. Madiga
62. Mahar, Taral, Dhegu Megu
63. Mahyavanshi, Dhed, Vankar, Maru Vankar
64. Maila
65. Mala
66. Mala Dasari
67. Mala Hannai
68. Mala Jangam
69. Mala Masti
70. Mala Sale, Netkani
71. Mala Sanyasi
72. Mang, Matang, Minimadig
73. Mang Garudi, Mang Garodi
74. Manne
75. Masthi

76. Mavilan
77. Meghval, Menghvar
78. Moger
79. Mukri
80. Mundala
81. Nadia, Hadi
82. Nalkadaya
83. Nalakeyava
84. Nayadi
85. Pale
86. Pallan
87. Pambada
88. Panchama
89. Panniandi
90. Paraiyan, Paraya
91. Paravan
92. Raneyar
93. Samagara
94. Samban
95. Sapari
96. Sillekyathas
97. Sindhollu, Chindollu
98. Sudugadu Siddha
99. Thoti
100. Tirgar, Tirbanda
101. Valluvan

SCHEDULED TRIBES

1. Adiyan
2. Barda
3. Bavacha, Bamcha
4. Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
5. Chenchu, Chenchwar
6. Chodhara
7. Dubla, Talavia, Halpati
8. Gamit, Gamta, Gavit, Mavchi, Padvi, Valvi
9. Gond, Naikpod, Rajgond
10. Gowdalu
11. Hakkipikki
12. Hasalaru
13. Irular
14. Iruliga
15. Jenu Kuruba
16. Kadu Kuruba
17. Kammara (in South Kanara District and Kollegal Taluk of Mysore District)
18. Kaniyan, Kanyan (in Kollegal Taluk of Mysore District)
19. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
20. Kattunayakan
21. Kokna, Kokni, Kukna
22. Koli Dhor, Tokre Koli, Kolcha, Kolgha
23. Konda Kapus
24. Koraga
25. Kota
26. Koya, Bhine Koya, Rajkoya
27. Kudiya, Melakudi
28. Kuruba (in Coorg District)
29. Kurumans
30. Maha Malasar
31. Malaikudi
32. Malasar
33. Malayekandi
34. Maleru
35. Maratha (in Coorg District)
36. Marati (in South Kanara District)
37. Meda
38. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
39. Palliyan
40. Paniyan
41. Pardhi, Advichincher, Phanse Pardhi
42. Patelia
43. Rathawa
44. Sholaga
45. Soligaru
46. Toda
47. Varli
48. Vitolia, Kotwalia, Barodia
49. Yerava

Appendix III - PUBLICATION PLAN

The 1991 Census tables will be published in 33 separate series of volumes for All - India and for each State and Union Territory. The publication series is as follows:

Series No.

1. INDIA

States

2. Andhra Pradesh
3. Arunachal Pradesh
4. Assam
5. Bihar
6. Goa
7. Gujarat
8. Haryana
9. Himachal Pradesh
10. Jammu & Kashmir
11. Karnataka
12. Kerala
13. Madhya Pradesh
14. Maharashtra
15. Manipur
16. Meghalaya
17. Mizoram
18. Nagaland
19. Orissa
20. Punjab
21. Rajasthan
22. Sikkim
23. Tamil Nadu
24. Tripura
25. Uttar Pradesh

32. Lakshadweep
33. Pondicherry

In each of these series (for all - India and each State/Union Territory) the different series of tables (A Series - General Population Tables, B - Series - General Economic Tables, etc.,) will be brought out as different Parts. Apart from these, District Census Handbooks will be published for each district in the country. These will contain the PCA data for the district, the village and town primary census abstract and the village and town directories. The latter comprise compilations of statistics, external to census relating to the villages and towns, which in conjunction with census data will be very useful to data users.

For all - India and for each State and Union Territory, the census tabulations and reports will be published according to the following plan:

Part No. and subject covered	Sub-part No. if any, and the topics covered
1	2
Part I - Administration Report (for Office use only)	Part I-A - Administration Report Enumeration
	Part I-B - Administration Report Tabulation
Part II - General Population Tables	Part II-A - General Population Tables - A-Series
	Part II-B - Primary Census Abstract
Part III - General Economic Tables	Part III-A - B-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
	Part III-B - B-Series tables of second stage which will be brought out on full count. The data relating HHI, OW, Marginal Workers and Non-workers seeking/available for work will be entered on full count basis.

Part IV - Social and Cultural Tables	Part IV-A - C-Series tables of first stage covering age, sex and marital status, composition of population, single year age returns, educational levels, school attendance and bilingualism.
	Part IV-B - C-Series tables covering mother tongue, religion of population and household composition.
Part V - Migration Tables	Part V-A - D-Series tables of first stage covering tables based on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
	Part V-B - D-Series tables of second stage covering occupational classification of migrant workers. These tables are based on full count.
Part VI - Fertility Tables	F-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
Part VII - Tables on Houses and Household Amenities	H - Series tables covering census houses and the uses to which these are put, construction material of wall, roof and floor of the census houses occupied by households, tenure status of the house occupied and number of living rooms, household size, housing facilities like drinking water, electricity and toilet available to households and the fuel used by the household for cooking. These tables will also cover tables on Scheduled Castes and Scheduled Tribes. This volume will contain analytical notes also.
Part VIII - Special Tables on Scheduled Castes and Scheduled Tribes	This part will contain SC and ST series of tables for Scheduled Castes and Scheduled Tribes respectively. The data relating to Scheduled Castes and Scheduled Tribes will be entered on full count basis in the third stage and SC/ST tables will be processed on the computer on full count. These will cover population of each Scheduled Caste/Tribe, industrial categories of main and marginal workers, non-workers seeking/available for work and those who never worked before, educational level, school attendance, age, sex and marital status, composition of Scheduled Castes and Scheduled Tribes. In addition to these, the fertility tables relating to SC/ST are also covered. These tables also cover for Scheduled Tribes, their composition by religion, mother tongue and bilingualism.
Part IX - Town Directory, Survey Report on Towns and Villages	Part IX - A - Town Directory
	Part IX - B - Survey Report on selected Towns
	Part IX - C - Survey Report on selected Villages

Part X	Ethnographic notes and special studies on Scheduled Castes and Scheduled Tribes
Part XI - Census Atlas	Union and State/Union Territory Census Atlases
Part XII - District Census Handbook	Part XII - A - Village and Town Directory
	Part XII - B - Village and Town wise Primary Census Abstract

The following special papers are also planned and will be published as and when they are ready as 1991 Census papers :

(a) Special studies taken up by the Directors of Census Operations

(b) Special Areas Surveys

(c) Special Tables for Standard Urban Areas

(d) Language Survey Reports

(e) Post Enumeration Check Report

(f) Age Tables

(g) Life Tables

(h) Reports on estimates of inter-censal birth and death rates using 1981-1991 life tables and age data

(i) Development of Vital Statistics in India

Besides these special papers, some monographs based on 1991 Census data on subjects of topical interest to be prepared by scholars will be brought out as 1991 Census monographs.

It is also proposed to carry out some special studies of 1991 Census data in collaboration with other organisations and the results of such studies will be published as occasional papers of the 1991 Census.

It is also proposed to disseminate census tabulations and the basic data in machine readable forms such as magnetic tapes, diskettes, floppies, etc.

The District Census Handbooks will be available for sale at the Government Central Press, Bangalore and the other publications at the Office of the Director of Census Operations, Karnataka, Bangalore and the Manager of Publications, Civil Lines, New Delhi - 6.
