FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations/ modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Govt./Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third part, Part C of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981, some new features alongwith the restructuring of the formats of Village and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of villages and towns (ward-wise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this Statement details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rates as all children below 7 years of age have been treated as illiterate at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Block-level presentation of data in the Village Directory and PCA instead of the traditional Tahsil/Taluk/PS level presentation. It is expected that the presentation of Village Directory and PCA data at C.D.Block level will help the planners in formulation of micro-level developmental plans, as the C.D.Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census along with the corresponding codes of 1981.

This publication is a joint venture of the State Govt./UT administration and the Census Organisation. The data have been collected and compiled under the direction of Ms. Sobha Nambisan, Director of Census Operations, Karnataka on behalf of the State Govt. administration which has borne the cost of printing. The task of planning, designing and coordination of the publication was initiated by Dr.K.P.Ittaman, former Deputy Registrar General (Social Studies) and Shri M.M.Dua, Joint Director. For the sake of uniformity in presentation of information/data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of Census/non-Census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K.Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri A.K.Singh, Deputy Director who was assisted by S/Shri V.K.Jain and Hariram, Investigators and staff. Technical guidance in the preparation of the maps was initially provided by Dr.B.K.Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi
June 11, 1992.

A.R.Nanda
Registrar General, India

PREFACE

In the foreword to the 1991 series of the District Census Handbooks, Sri A.R.Nanda, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain the salient data on the population for every village and town as revealed by the 1991 Census. They also contain a wealth of information regarding these villages and towns which, although not part of the population census, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information has also considerable importance in the context of planned development.

The District Census Handbook is therefore divided into two parts: Part A containing information regarding each village and town (Village Directory and Town Directory) which is not census data and part B which contains the data on the population collected during the 1991 Census - the Primary Census Abstract. The data published in Part B was collected in February 1991 at the time of the population census. This data was then manually tabulated in the Regional Tabulation Offices set up for the purpose. Subsequently, as a part of the countrywide project taken up in collaboration with the National Informatics Centre, the Primary Census Abstract data was computerised. The data for Part B of the District Census Handbook was therefore available on tape for the entire country by November 1992. Since the Primary Census Abstract data was available first on the computer, it was decided to publish the District Census Handbooks in two separate volumes, with Part B appearing in print first.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in early 1990 and continued till the middle of 1992. For operational convenience, the Village Directory format was divided into two portions, one relating to the area and land use particulars and the other relating to the amenities available in each village. The relevant formats were mailed to the Deputy Commissioners of Districts and Chief Secretaries of Zilla Parishads for obtaining the villagewise particulars. Similarly the Town Directory formats were mailed to the Deputy Commissioners and Commissioners of Corporations. The villagewise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1981 District Census Handbooks. The villagewise information, thus finalised was also computerised during 1992-93 at the National Informatics Centre, Bangalore as in the case of Primary Census Abstract.

The National Informatics Centre, Bangalore has undertaken to supply the camera ready copies for the District Census Handbooks and this may enable us to bring out the District Census Handbooks fairly early.

In the preparation of the District Census Handbooks the role of the Census Directorate is that of data collector. For accomplishing this task we have had the ready co-operation of the staff of different departments of the State Government. The cost of printing of the District Census Handbooks is borne by the Government of Karnataka.

I take this opportunity to offer my grateful thanks to all the officers and officials who have been actively involved in the compilation of this volume.

I am thankful to Shri A.Venkateshan, the State Informatics Officer, National Informatics Centre, Bangalore for all the assistance he and his staff members have rendered for computerisation of the data and for preparation of the camera ready copy of the manuscripts of all the Districts.

I am deeply grateful to Shri A.R.Nanda, I.A.S., the Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Shri M.K.Jain, the present Deputy Registrar General (SS) as well as to Mrs. Minati Ghosh, Deputy Registrar General (Map).

Lastly, I am thankful to the Government of Karnataka for having readily agreed to bear the cost of printing these District Census Handbook volumes and to the Director of Printing, Stationery and Publications for the keen interest he has evinced in bringing out these publications.

Bangalore,
Date: 16-11-1992

Sobha Nambisan
Director of Census Operations,
Karnataka.

ANALYTICAL NOTE

Brief History of the District Census Handbook :-

The District Census Handbook series was, for the first time, included in the census publication programme at the 1951 census in order to satisfy the growing demand for micro-level data by the administrators, the planners and the other census data users. The District Census Handbooks sought to replace 'Part IV - Taluk Tables' and 'Part V - Village Tables' of the earlier censuses and to present the basic demographic and economic data in the form of 'Primary Census Abstract' in respect of each and every village and town within the jurisdiction of the district concerned. In addition, these volumes were to contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

At the 1961 census, the scope of the District Census Handbook was greatly enlarged by incorporating in it - (i) a descriptive account of the district, (ii) a set of non-census tables dealing with the administrative statistics of the district for a decade, (iii) taluk and town level census tables on economic and socio-cultural aspects and (iv) the village and urban (census enumeration block level) Primary Census Abstract containing the ninefold industrial classification of workers. In a somewhat general way, information on the availability of certain basic amenities in villages and towns, such as the sources of drinking water and educational institutions, was also presented in these volumes. These general guidelines were, by and large, followed in Karnataka too. However, the scope of the District Census Handbooks of 3 out of the then existing 19 districts, namely Bangalore, Dharwar and Mysore, was confined to the publication of the village-wise and urban (census enumeration block wise) Primary Census Abstract only.

The 1971 census witnessed an overall improvement in the matter of compilation as well as presentation of the data. A country-wide uniformity in approach and a comprehensive coverage are the hall marks of this series of publications. In 1971, the District Census Handbook was split up into three portions - (i) Part A - consisting of land use data on villages and also the data on the nature and extent of amenities and services available in the villages and towns of the district - presented in the form of Village Directory and Town Directory respectively, (ii) Part B - consisting of the Primary Census Abstract (including the nine-fold industrial classification of workers) for the district, the taluks, the towns, the villages and the census enumeration blocks in case of towns; and (iii) Part C - consisting of an analytical note based on an analysis of the census data as well as the non-census data included in the volume, a set of tables depicting the administrative statistics in minute detail, a set of statistical tables based on the census data in respect of the district and the constituent taluks and towns thereof besides a set of tables generated on the basis of the villagewise census data in association with the villagewise data on the availability of amenities. The main objective was to present a comprehensive and intelligible portrait of the district and an overview of the developmental programmes implemented in the district during the preceding decade. Publication of the District Census Handbooks was planned in such a way as to minimise the delay inherent in the compilation of a voluminous mass of data gathered from different sources. Accordingly, 'Part A', comprising the Village Directory and the Town Directory for the finalisation of which there was no apparent need to wait till the completion of the tabulation of the data gathered at the census, was to be published first and 'Part B', consisting of the Village/Urban Primary Census Abstract was to be released next. A lower priority was assigned to 'Part C' for the obvious reason that besides administrative statistics it was to include a set of socio - demographic and economic tables generated on the basis of the data gathered at the census and an analytical note prepared thereof. In Karnataka, however, 'Part A' and 'Part B' portions of the District Census Handbooks were combined together and published in a single volume for each district except Bangalore. In the case of Bangalore District, since it was felt that the size of such a combined volume would be unweildy, Part A and Part B were published separately. As regards 'Part C', compilation of data took more time than anticipated and, in addition, there was an inordinate delay in executing the printing job at the State

Directorate of Printing. As a result, only a portion of Part C (depicting some of the census tables) relating to Bangalore District was published somewhat belatedly and the proposal to publish the remaining portion of Part C for Bangalore District as well as the entire portion of Part C for the other districts was finally abandoned.

Instead of witnessing an expansion as in the past two censuses the scope of the 1981 series of the District Census Handbooks was curtailed to a considerable extent in that it was confined to the publication of Village Directory, Town Directory and the Village/Urban Primary Census Abstract. Thus, at the initial stage itself there was no proposal to compile and publish the administrative statistics and the various socio-demographic and economic tables based on the census data, that is, the portion which constituted 'Part C' of the 1971 series. But for this change, the approach in 1981 regarding uniformity and comprehensiveness were very much the same as in 1971. In order to avoid delay in publication, as in the past, the District Census Handbook was proposed to be published in two parts, namely, 'Part A' consisting of the Village Directory and Town Directory and 'Part B' consisting of the Village/Urban Primary Census Abstract besides the Special Primary Census Abstracts at taluk/town level in respect of the Scheduled Castes and Scheduled Tribes population of the district.

At the 1981 census, the contents of the Village Directory and the Town Directory were slightly enlarged and the formats were restructured. In the Village Directory all the amenities except power supply were brought together under a broad heading with the provision that 'in case an amenity is not available in the referent village, the distance to the nearest place where that particular amenity is available may be indicated in broad ranges'. A new item 'approach to the village' was included. In the remarks column, a provision was made to report the number of copies of newspapers in circulation in the village as also the number of motor cars, the number of motor cycles and the number of tractors available in the village. Further, in order to examine whether there is any correlation between the availability of amenities and the population size of a village, an additional column was provided in the Village Directory to indicate the population and number of households. The contents of Part A were further enlarged by including two appendices, namely, a list of villages not having any amenities and a distribution of villages according to the proportions of Scheduled Castes and Scheduled Tribes in the total population of the village. The Town Directory formats were also modified by the addition of a few items such as class of town, population, Scheduled Castes and Scheduled Tribes population, decadal growth rate of population, working women's hostel, adult literacy classes/centres, storage system regarding drinking water supply etc., and also by providing for recording the information about the nearest place (and distance) having educational, medical and fire-fighting facilities in case such a facility is not available in the referent town. As compared to 1971, while one statement indicating religion-wise population of the town was dropped, another statement to provide information about the amenities available in notified slums in Class I and Class II towns was added. As regards the Primary Census Abstract of towns, the urban block-wise presentation of data was given up and details were presented only upto the level of Wards/Divisions. However, information on the number of persons belonging to Scheduled Castes and Scheduled Tribes was furnished for each census enumeration block within the town in the form of an appendix and an annexure thereto provided the description of the boundaries of each census enumeration block. Further, instead of the nine-fold classification of workers adopted at the 1971 census, on this occasion the classification was restricted to 4 categories. In Karnataka, in 1981 also, both Part A and Part B portions of the District Census Handbooks were published together in a single volume for each district. However, because of certain technical compulsions, all the information relating to Scheduled Castes and Scheduled Tribes was excluded from the main formats and was presented separately at the end in the form of a Supplement (separate booklets were brought out in the case of Bidar and Mandya Districts).

2. Scope of the 1991 District Census Handbooks:

As in 1981, in 1991 too, the District Census Handbooks are proposed to be brought out in two portions, namely Part A consisting of the Village Directory and the Town Directory and Part B

consisting of the Village/Urban ward-wise Primary Census Abstract in addition to the District Primary Census Abstract and the Special Primary Census Abstract in respect of the Scheduled Castes and Scheduled Tribes. Though, the scope of the 1991 series of the District Census Handbooks has, by and large, remained the same as in 1981, a few significant changes have been made in the Village Directory format as well as the Primary Census Abstract format. In Karnataka, unlike at the previous censuses, on this occasion, the 'Part A' and 'Part B' portions of the District Census Handbooks of each district are being brought out in separate volumes.

The manner of presentation of data has also undergone a significant change in that the Village Directory and the Primary Census Abstract data are presented according to the location of villages and towns within the jurisdiction of a Community Development Block rather than their location within a taluk*. In other words, the traditional practice of taluk-level presentation of data has now been givenup in preference to the Community Development Block level presentation of data which is considered as more meaningful in the present day context. Since C.D.Block is the lowest administrative unit for developmental planning, the choice of the C.D. Block as the unit for data presentation is expected to help the planners in formulating micro-level developmental plans. Another innovation at the 1991 census is the arrangements made for the dissemination of the data in collaboration with the National Informatics Centre through its country-wide computer network. In the published volumes of the District Census Handbooks, therefore, the computer codes assigned to the villages in the 1991 census and the corresponding codes in 1981 are presented so as to facilitate the data users who may prefer to use the data either from magnetic tapes or floppies.

(i) Village Directory :

The Village Directory format adopted for the 1991 series has 18 columns. When examined with reference to the 1981 format it will be noticed that two columns have now been left out - while one of these columns refers to the 'staple food' the other refers to the 'remarks' under which, information about the places of religious, historical or archaeological interest in the village as also information about the number of copies of newspapers in circulation, the number of motor cars, motor-bicycles and tractors available in villages was published in 1981. As compared to 1981, there is no change in the scope and coverage of the information presented in the 18 columns of which 8 are devoted for amenities and 6 are meant for indicating the area of the village and the land use pattern. The remaining four columns are meant for indicating the location code and name of the village, total population and the number of households enumerated in the village and the name of the nearest town as also the distance to that town. The aspects covered under the amenities are: educational, medical, sources of drinking water supply, postal and telegraph, weekly market, communication, nature of approach road and power supply. Further, if a village did not have any educational facility at all, instead of merely reporting the fact and stopping at that, an indication of the distance (in ranges) that the villagers have to traverse to reach a place with educational facilities (at the basic level) is reported. The same procedure of reporting is adopted regarding medical facilities, drinking water supply, postal and communication as well as weekly market facilities. The distance ranges adopted for reporting are the same as in 1981, namely -5 km, 5 - 10 km and 10+km. In an explanatory note, which precedes the presentation of the Village Directory Statements, details about the abbreviations used under various columns are furnished.

In Karnataka, the "Taluk Panchayat Samiti" corresponds to the Community Development Block, and for the sake of maintaining uniformity with the all-India pattern, the term C.D.Block has been used throughout in the District Census Handbooks. The jurisdiction of a Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns.

The main agency which has furnished the villagewise information on amenities is the Zilla Parishad which in turn has collected the relevant particulars through its field formations, namely the Chief Executive Officers (i.e., the Block Development Officers) of the various *Taluk Panchayat Samitis.* These details were examined for consistency as well as with reference to the particulars reported in 1981 and cases of deterioration or of abnormal developments were referred back for reverification and rectification. For instance, as compared to 1981, for several villages, Wells and Tanks did not find a mention as a source of drinking water supply. When referred back, the concerned Chief Executive Officers clarified that in most of these cases, the drinking water wells of yester years have either dried up or fallen into disuse on account of the increasing number of borewells drilled in such villages and also because of the implementation of the National Rural Water Supply Scheme, the Mini-Water Supply Scheme and Accelerated Water Supply Scheme etc. So also regarding the availability of pucca approach road facility several instances of deterioration were noticed. Such cases too were referred back so that the factual data may be verified again and reported for publication. Information about the number of educational institutions, nature of government run medical institutions and postal, phonocom and telegraph facilities as furnished by these officers have been cross-checked with the data obtained from the concerned Departments as well to ensure a higher level of reliability.

In case of uninhabited villages, i.e., villages which returned 'nil' population at the 1991 census count, except the name and the total area no other information is furnished. Instead of putting a dash under each column to indicate this fact, the word 'uninhabited' is printed along the line.

In order to facilitate easy reference, an alphabetical list of villages is given at the begining in respect of each C.D.Block. This list indicates the code numbers assigned to the villages for purposes of census enumeration as well as the computer codes assigned (at the stage of computerisation) as also the corresponding codes according to the 1981 census. At the end of the Village Directory the following appendices are given:- C.D. Block-wise abstract of amenities; list of villages not having any amenities except Drinking Water, land utilisation data in respect of non-municipal towns and distribution of villages according to the proportion of Scheduled Castes population and Scheduled Tribes population.

(ii) Town Directory :

As in 1981, in 1991 too, there are seven statements which furnish information on the following aspects - growth history; physical aspects and locational particulars; municipal finance; civic and other amenities; civic amenities available in the notified slums of Class I and Class II towns; medical, educational, recreational and cultural facilities; and trade, commerce, industry and banking. The scope of the various column headings adopted in 1981 has remained unchanged in 1991. However, in Statement-I, slight modifications have been made to accomodate the 1991 census data - an additional column is provided for indicating the 1991 population and the growth rate registered by the town during the decade 1981-91. In Statement-I an additional column has been provided for indicating the name of the C.D.Block within the jurisdiction of which the referent town is located. It may be incidentally mentioned that, in Karnataka, the civic bodies functioning in the Statutory Towns do not fall within the administrative jurisdiction of the C.D.Blocks (i.e., Taluk Panchayat Samitis).

In the Town Directory statements, the towns are arranged in an alphabetical order of their names and the aggregate particulars about urban agglomerations if any in the district have also been furnished in the same order. Where an urban agglomeration includes two or more independent towns, the names of these constituent towns are shown in the correct sequence as per the alphabetical arrangement of their names. But, the details which ought to have been furnished in the subsequent columns have been skipped with a view to avoiding repetition. Instead, immediately after the name of the town, a cross reference is given by printing the message "see ..... urban agglomeration". The name of the core town of the urban agglomeration too appears at its correct sequence with the legend printed thereafter and immediately below that, i.e., in the next line the same name with the suffix urban agglomeration appears again without bearing any

serial number. Against this name the cumulative totals for the urban agglomeration as a statistical unit are presented wherever such a procedure is relevant and meaningful. This line is then followed by those relating to the constituent towns of the urban agglomeration starting with the name of the core town and followed by the others arranged in an alphabetical order of their names. This procedure, it may be recalled, is the same as that adopted in 1971 as well as in 1981 and this enables one to have a fairly good assessment of the data relating to the smaller civic administrative units that form part of the larger unit and also of the aggregate data relating to the larger unit itself. In case there are 'outgrowths' which are not 'urban areas' in their own right, the particulars relating to such areas are merged with the data relating to the concerned core town. Such towns which have 'outgrowths' are marked out by an asterisk mark and for all purposes, the term 'town' would cover the core town as well as its outgrowths. In an appendix the names of the revenue villages or areas which have been identified as outgrowths and the population thereof are indicated separately. In the case of villages certain parts of which are regarded as outgrowths while the other parts are considered as 'rural', the data relating to the outgrowths (i.e., the urban component) is included in the Town Directory statements and the data pertaining to the rest of the portion retained in the rural frame appears in the Village Directory. In Statements II, III and VI where it is not relevant to combine the data for the urban agglomeration as a whole, the legend 'see the constituent towns' is printed against the name of the urban agglomeration instead of allowing the entire line to remain blank.

The particulars furnished in Statement I which deals with the growth history are entirely based on the current as well as the previous censuses. As such, this has been compiled in the Census Directorate without seeking information from the concerned civic bodies. The details presented in the remaining statements have been furnished mainly by the concerned civic authorities such as the Municipal Commissioners, Chief Officers of towns, Secretaries of Mandal Panchayats, Administrative Officers etc. Except for the information regarding municipal finance, most of the information on other apsects had to be gathered by the civic authorities from several offices and institutions located in the town through correspondence and or by deputing officials for the purpose. The particulars so furnished were scrutinised in the first stage and cases of abnormal variations as compared to the situation in 1980 and also inconsistencies were referred back to the reporting agency for reverification and rectification so as to ensure that the details now given in the Town Directory represent the factual position.

The scope of the information presented under various columns and the abbreviations used are explained in a note which precedes the presentation of the Town Directory statements.

(iii) Primary Census Abstract :

The Primary Census Abstract is presented village-wise in the case of 'rural' areas and town-wise (upto ward or division level) in the case of urban areas. The outgrowths of a town are treated at par with a ward or division of the core town irrespective of the number of census enumeration blocks into which it is constituted. Within the district, the Community Development Blocks are arranged in the alphabetical order of their names in English and covered one after the other in that order. For each C.D.Block, the total figures with the rural-urban break-up is given first and this is followed by the village-wise data and then by the ward-wise data for the towns if any, within the jurisdiction of the C.D.Block. In the case of a village of which only a portion has been incorporated in a town or has been recognised as an outgrowth of a town, the details relating to only that portion which is not so incorporated or so recognised but has been retained in the rural frame is presented under various columns. The names of villages (and their respective areas) which are fully included in urban areas or have been recognised as outgrowths of towns for purposes of the 1991 Census (but are retained in the jurisdictional lists of the Survey and Settlement authorities) if any within the boundaries of the C.D.Block are indicated in the flyleaf which precedes the PCA statement for the C.D.Block

After presenting the PCA data for all the villages and towns covered by the C.D.Blocks in the district,

the PCA data relating to all the urban areas of the district (i.e., statutory as well as non-statutory towns) are furnished. For this purpose, the towns/urban agglomerations are arranged in an ascending order of their location code numbers. And, for each town the ward or division-wise details are presented here.

In Karnataka, as already mentioned, the jurisdiction of a C.D.Block is coterminus with that of the Taluk of the same name, but excludes the areas incorporated in statutory towns and cities. By and large, a C.D.Block corresponds to the rural areas of the taluk. However, if there are any non-municipal census towns and areas which have been identified as outgrowths of statutory towns within the jurisdiction of the taluk, then such towns and outgrowths are also regarded as lying within the jurisdiction of the concerned C.D.Block. The PCA particulars relating to such units are presented under the concerned C.D.Blocks against the urban category and are repeated again at the end under the caption 'District Urban'.

In the case of an urban agglomeration, the aggregate figures obtained by the addition of the data relating to the constituent towns and outgrowths thereof if any are presented against its name. Thereafter, the data for the constituent towns starting from the core town including the location code, are presented in a continuous sequence. In case a town has outgrowths (which are not towns in their own right) in the first line the aggregates relating to the core town as well as its outgrowths are given and this is then followed by the details relating to the core town and the outgrowths separately. Each outgrowth is treated at par with a municipal ward or division while presenting the ward-wise PCA for towns.

3. Brief note on Census concepts :

Census taking is a massive operation carried out in a short span of time with the active participation of a very large number of census enumerators. The reference moment for the 1991 census count is the sunrise of March 1, 1991. However, the enumeration of the population was spread over a period of 20 days from 9-2-1991 to 28-2-1991 followed by a revisional round from 1-3-1991 to 5-3-1991 for updating the population count with reference to the sunrise on March 1, 1991. The questionnaires canvassed by the enumerators, namely the Household Schedule and the Individual Slip are brief in their wordings and the concepts used for purposes of the 1991 Census Operations and the manner in which the schedules are to be filled in have been explained in a booklet entitled Instructions to Enumerators for filling up the Household Schedule and the Individual Slip. Some of the important concepts and the relevant explanations are indicated in the following paragraphs.

(i) **Urban areas** :- The definition adopted in 1961 and adhered to in 1971 as well as in 1981 (though with a slight modification regarding the classification of fishing and forestry) has been retained for the 1991 census also. According to this definition the urban areas include :

i) all places with a Municipality, Corporation, Cantonment Board or Notified Town Area Committees, etc.

ii) all other places which satisfy the following criteria :

a) a minimum population of 5,000

b) atleast 75 per cent of the male working population engaged in non-agricultural pursuits and

c) a density of population of at least 400 per square kilometre (1000 per square mile)

d) all places which, though not satisfying the above criteria, had pronounced urban characteristics.

(ii) **Urban Agglomeration**: This concept, which replaced the concept of 'town-group' in 1971, has been retained for the 1991 census. It has been observed that very often railway colonies, university campuses, port areas, military camps and large residential colonies etc., come up quite adjacent to, but situated outside the statutory limits of cities and towns. Such areas may not by themselves qualify to be treated as towns. But if they form a continuous spread with the town they are outgrowths of the town and deserve to be treated as urban. Such towns together with their outgrowths have been treated as one urban unit called "urban

agglomeration". An urban agglomeration may consist of :

a) A city with continuous outgrowth (the part of outgrowth being outside the statutory limits but falling within the boundaries of the adjoining village or villages);

b) One town with similar outgrowths or two or more adjoining towns with their outgrowths as in (a) ; or

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Geographical contiguity with the statutory limits of the core town is the main factor in determining whether or not a nearby satellite town or an outgrowth is to be included in the urban agglomeration. This is purely a statistical concept and for carrying out the actual census, the administrative jurisdictions of the city or the towns concerned as well as of the outgrowths have been kept quite intact. The data are presented for the urban agglomeration as a whole and also severally for each of the constituent units.

(iii) **Rural areas - i.e., villages** : Areas which are not classified as 'urban' according to the definition given above constitute the rural areas. The basic unit for rural areas is the revenue village which has definite surveyed boundaries. In the case of unsurveyed villages, the boundaries as determined by the local usage have been adopted. The revenue village may consist of a single nucleated settlement or comprise of several settlements or clusters of houses located at several places within the territorial limits of the village or the village may not be having any human settlements at all (i.e., it may be totally uninhabited). The census village and the revenue village are identical in the matter of jurisdiction. However, there are a few exceptions to this general rule:

1) When the main settlement of the village with or without the surrounding open lands is constituted into an urban area, the remaining tracts of the revenue village are together treated as a separate unit for purposes of census i.e., the truncated portion itself is considered as an independent revenue village.

2) When outlying portions of certain revenue villages are incorporated into the limits of urban areas by a Government Notification such areas, whether populated or not, are excluded from the revenue village concerned and the village boundaries are redefined for census purposes.

3) Revenue villages which are completely incorporated in the limits of urban areas or else, are submerged completely under reservoir projects but are still retained in the jurisdictional lists of the Survey and Settlement authorities pending a resurvey and such other procedures, are taken note of as revenue villages but are omitted for census purposes i.e., these are not treated as census villages. Similarly, entire revenue villages, which have been identified as outgrowths of urban areas for purposes of 1991 census are treated not as census villages but as urban areas. The names of such villages, if any, in a Taluk/C.D.Block are indicated in a fly leaf.

4) If there are forest areas that do not form part of any of the revenue villages then such areas are identified clearly and the smallest administrative unit into which such forest areas are divided (eg.Forest Beat) is reckoned as the census village. A Forest Range may consist of several such census villages. (In Karnataka this phenomenon is noticeable only in Kollegal Taluk of Mysore District).

(iv) **Census Enumeration Block :** The smallest unit adopted for census taking is the Census Enumeration Block. Generally, the towns and cities are divided into wards or divisions and, wherever such units exist, their distinctive identities have been maintained. The geographical area comprised in each such ward or division or, the town in its entirety, is constituted into several blocks in such a way that every bit of land specifically stands included in one or the other enumeration block and also that there is no over-lapping of areas. In the urban areas, the Census Enumeration Blocks are constituted in such a way that each such Block contains about 120 households covering a population of about 600 persons. However, in view of the condition that

each block should have clear-cut boundaries easily recognisable on the field, blocks which are either larger or smaller than the norm have also been constituted. In the case of non-municipal towns, if the town boundaries are not specifically notified, the jurisdiction of the entire revenue village concerned is regarded as the jurisdiction of the town as well. In the case of towns which are under the administration of Mandal Panchayats, the Panchayat jurisdiction need not necessarily be identical with the jurisdiction of the non-municipal census town.

In the case of villages, depending upon the population data based on the Houselisting Operations carried out during 1990, each village has been constituted into one or more number of Census Enumeration Blocks. The work-load norm for the rural areas is 150 households covering an approximate population of 750 persons. However, numerous Census Enumeration Blocks with below-norm population have been constituted and a single enumerator has quite often been entrusted with the enumeration work in 2 or more contiguous blocks so as to ensure that the aggregate population is quite close to the norm. Further, in each village care has been taken to ensure that no bit of land belonging to that village is left out of consideration while constituting the Blocks. Each hamlet or island, if any, found within the jurisdiction of the village - irrespective of its population size - has been constituted into a separate Block in order to maintain its geographical identity. Further, even the villages known to be uninhabited at the time of houselisting operations have been constituted into separate blocks. In other words, a complete coverage of the territorial jurisdiction of each and every village has been ensured.

(v) **Location Code Number** : Every State in the Country, every District in the State, every Taluk or Town in the District, every C.D. Block (or its equivalent) in the District, every village in the taluk and every ward or division in the city or town and every enumeration block in the village or town is assigned a number in a particular order for carrying out the census enumeration. When these numbers are written side by side in the same order, starting from the State and separated by an oblique mark, the identity of any particular census enumeration block can be known quite easily. The numbers assigned are in Arabic numerals, except in the case of towns in which case Roman numerals have been adopted. For assigning the location code numbers the States in the Country, the Districts in the State, the Towns in the District and the Taluks/C.D.Blocks in the District are arranged in the alphabetical order of their names. The villages in a taluk are organised into revenue circles or hoblis for administrative purposes and each such unit will have a headquarter town or village. The identity of such units is maintained while assigning the location code numbers. Starting from the circle of which the Taluk Headquarters happens to be the Circle headquarters as well, the villages in its jurisdiction are serially numbered by proceeding in a clockwise direction or in a serpentine manner starting from the north-west corner. After exhausting all the villages in that circle, the villages of the adjacent circle are assigned numbers in the same manner. The numbering of villages run continuously for the Taluk through the different Circles or Hoblis.

The entire set of the 1991 census data relating to the village directory and the village/urban ward-wise PCA has been computerised. For this purpose a separate code structure has been developed. The computer codes assigned to the villages in each Taluk or C.D.Block are indicated in the alphabetical list of villages along with the corresponding location code numbers assigned for enumeration purposes. So also particulars about the codes assigned to towns are indicated in the alphabetical list of towns which precedes the presentation of the PCA statements in respect of the urban areas of the district.

(vi) **Building** : A building is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, worksheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-*cum*-residence, workshop-*cum*-residence, office-*cum*-residence, etc.

(vii) **Census House** : A 'census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

(viii) **Household** : A 'household' is a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of households having unrelated members are boarding houses, messes, hostels, residential hotels, rescue homes, jails, *ashramas* etc. These are called 'Institutional Households'. There may be one member households, 2 member households or multi-member households. For census purposes, each one of these types is regarded as a 'household'. If a group of persons who are unrelated to each other live in a census house but do not have their meals from the common kitchen, they would not constitute an institutional household. Each such person would be treated as a separate household. The important link in finding out whether there is a household or not is a common kitchen. There may be a household which does not have a house to live in and may temporarily dwell on the roadside pavement, in hume pipes, temples, *mantaps*, platforms etc., or move about from place to place resting underneath shade-bearing trees, pavements and verandahs of public or private buildings. Such households, referred to as 'Houseless Households' for census purposes, were enumerated on the night of February 28, 1991.

ix) **Criteria for enumeration of a person in a particular household :**

1) All those who normally stay and are present in that household during the entire period of enumeration i.e., from February 9 to February 28, 1991 (both days inclusive);

2) All those who are known to be normally residing and had actually stayed during a part of the enumeration period (February 9 - 28, 1991) but are not present at the time of the enumerator's visit ;

3) Also those who are known to be normally residing and are not present at the time of the enumerator's visit but are expected to return before February 28, 1991 and

4) Visitors who are present in the household censused and are away from the place(s) of their usual residence during the entire enumeration period. For the purpose of enumeration such visitors will be treated as normal residents of the household in which they are actually found during the enumeration period provided they have not been enumerated elsewhere.

(x) **Literate** : A person who can both read and write with understanding in any language is 'literate'. A person who can merely read but cannot write, is not 'literate'. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of the age of 6 years or less are treated as illiterate.

(xi) **Workers and Non-workers** : For census purposes 'work' is defined as 'participation in any economically productive activity'. Such participation may be physical or mental in nature and would involve not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise. The reference period for determining whether a person is a worker or a non-worker is the year i.e., the 365 days, preceding the date of enumeration. The criterion is liberal and, even a person who has participated in the production of goods and services for a very brief period is entitled to be categorised as a worker. Depending upon the nature of his or her activity during the reference period, every person enumerated at the census is classified as either a worker or a non-worker.

Among 'workers' however there are two categories:

Main Workers : Those who have worked for a major part of the year i.e., for 183 days or more (6 months or more) during the reference period even though this may be in broken spells and in different occupations.

Marginal Workers : Those who have not worked for a major part of the year under reference i.e., those who have worked for less than six months (i.e., for less than 183 days) during the entire reference period.

In view of the past experience that women are often classified as non-workers because of non-reporting of their work or as those who have not worked for a major part of the year, special efforts have been made at the 1991 census for eliciting accurate information by asking probing questions.

In respect of main workers as also marginal workers, further details on the sector of economy in which they worked, the actual nature of work done by them, their employment status (i.e., employer, employee, unpaid family worker or own account single worker) have been gathered at the census.

Important terms such as cultivators, agricultural labourers and household industry are explained below.

a) **Cultivators**: For purposes of census, a person is working as a cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation as well. A person who has given out his or her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct the cultivation of land, will not be treated as 'cultivator'. Similarly, a person working in another person's land for wages in cash or kind or a combination of both will not be treated as ' cultivator'.

Cultivation involves ploughing, sowing and harvesting. For certain reasons, the growing of certain crops is not considered as cultivation and a person engaged in growing of such crops is not regarded as a cultivator. A person can be classified as cultivator or not, *only on the basis of the crops grown*. The growing of the following crops is considered as cultivation.

1. Cereal and Millet crops : Paddy, wheat, jowar, bajra, maize, ragi, barley, etc.
2. Pulses : Arhar, gram, kesari, moong, masur, urd, etc.
3. Fibre crops : Raw cotton, jute, mesta, sunhemp and kindred crops.
4. Oil Seeds : Sesamum, ground-nut, rape seed, mustard, linseed, sunflower, castor, etc.
5. Cash crop : Sugarcane

The growing of the following crops *is not considered* as cultivation :

1. Plantation crops : Tea, coffee, rubber, tobacco, pepper, cardamom, etc.
2. Edible nuts (other than groundnut) : Walnut, almond, cashewnut, etc.
3. Fruits : Bananas, apples, grapes, mangoes, oranges etc.
4. Coconut
5. Ganja, cinchona, opium and medicinal plants.
6. Betel nuts (areca)
7. Flowers
8. Roots and tubers, chillies and spices
9. Vegetables
10. Other crops not specifically included under cultivation.

b) **Agricultural Labourer** : A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation. The agricultural labourer has no right of lease or contract on the land on which he or she works.

c) **Household Industry** : Household Industry is defined as an industry conducted by the head of the household himself or herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in the case of urban areas. The larger proportion of workers in a household industry would consist of members of the household including the head. The industry

should not be run on the scale of a registered factory which would qualify to be registered under the Indian Factories Act. Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. The goods produced should not be exclusively for consumption by the household itself but should be wholly or partly for sale.

d) **Other Workers** : All workers, i.e., those who have been engaged in some economic activity during the reference period of last one year, who are not Cultivators or Agricultural Labourers or workers in Household Industry were categorised as 'Other Workers' (OW) at the time of census enumeration and further details about the nature of industry, trade or service in which they were engaged were gathered by the enumerators. On the basis of this descriptive information, at the tabulation stage, each such worker has been further categorised as belonging to one or the other of the following Industrial Categories based on Revised National Industrial Classification - 1987.

III Workers in livestock, forestry, fishing, hunting, plantations, orchards and allied activities;

IV Workers in mining and quarrying activities;

V(b) Workers in manufacturing, processing, servicing and repairs which are carried on as other than household industry;

VI Workers in construction;

VII Workers in trade and commerce;

VIII Workers in transport, storage and communications, and

IX Workers in other services.

(xii) **Non-workers** : All those who have not at all participated in any economic activity during the reference period of one year preceding the date of enumeration are classified as non-workers.

Depending upon the manner in which such non-workers engaged themselves for most of the time during the reference period of one year they are classified into one or the other of the following six categories at the time of census enumeration itself. However, the Primary Census Abstract presented in this volume does not furnish details according to the categories of non-workers but indicates the total number of non-workers by sex.

a) **Household duties** : This covers all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year.

b) **Students** : This will cover all full-time students including children attending school.

c) **Dependents** : This category includes all dependents such as infants, children not attending school and permanently disabled from work because of illness or old age. Dependents will include even able bodied persons who cannot be categorised in any other category of non-workers but are dependent on others.

d) **Retired Persons or Rentiers** : A person who has retired from service and is doing no other work i.e., not employed again in some full time work or not engaged in some other work such as cultivation, business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he or she does not have to work, will come under this category.

e) **Beggars** : This will cover beggars, vagrants or cases such as persons without indication or source of income and those with unspecified sources of subsistence who are not engaged in any economically productive work.

f) **Inmates of Institutions** : This will cover convicts in jails or inmates of a penal, mental or charitable institution even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc., in such institutions. But an undertrial prisoner enumerated in a jail would be recorded for the work he or she was doing before he or she was apprehended. Similarly, a person temporarily in a hospital or similar institutions would be recorded for the kind of work he or she was doing before he or she was admitted into the hospital or institution. But, for a long-term undertrial prisoner or convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work would not be taken into consideration. A person will be considered as 'Long-term' inmate if he or she is in such an institution for 6 months or more.

4. Brief History of the District*

Several places and rivers of Shimoga district find mention in Ramayan and Mahabharat. There are some palaeolithic remains occurring at this district, as well some neolithic sites in the Malnad and semi-Malnad areas suggesting the spread of the neolithic culture of the Tungabhadra valley. A few noted iron-age sites are also in the district. A Hoysala record dating the 13th century traced at Bandalike mentions the rule of the Nandas and Mauryas over the district. The Satavahana or Satakarni rule is attested by a Satakarni inscription at Malavalli and also by a later Kadamba inscription at Talagunda. The Chutus and after them the Pallavas of Kanchi were the feudatory chiefs under the Satavahanas. The Kadambas came after the Pallavas. About this time, the Gangas of Talakad were the lords of the eastern parts of the district. Other great dynasties which ruled over the district one after another were the Chalukyas of Badami, the Rashtrakutas, the Chalukyas of Kalyan, the Kalachuris, the Hoysalas and the Vijayanagara line of kings.

Under the reign of Harivarma of Kadamba dynasty one Bhanushakti, a Sendraka Chieftain was ruling over this district. During the sway of the Chalukyas of Badami from 500 A.D. to 757 A.D., the Santaras were the rulers of modern Humcha in about the seventh century. There is also a mention of a local chieftain Pogilisendraka - Maharaja in about 685 A.D. The Senavaras were the chiefs of Shikarpur - Sorab region for nearly 300 years from 700 A.D. to 1010 A.D. The sway of the Chalukyas of Kalyan lasted from 973 A.D. to 1162 A.D. and again from 1184 A.D. to 1200 A.D. During this period, the local chiefs in the district were the Sindas. In Honnali taluk many Sindas inscriptions are found. It appears that Belagutti in Honnali taluk was their capital. In taluks of Channagiri and Honnali, the Nolamba records have also been found. During the middle of the 13th century the Vanas ruled Kubatur, which is the Sorab taluk. During the Vijayanagara empire the feudatory chiefs of the district were the Keladi kings. The Keladi chiefs merit special mention in the annals of this district.

The Keladi chiefs rose in power during the later part of the Vijayanagar empire. These chiefs were known as the Nayakas of Keladi. Once Chandappa Nayaka founded this line in 1499 A.D., it lasted for about two and a half centuries and played a decisive role not only in this district but also in Karnataka. The title 'Nayaka' was bestowed by the Vijayanagara sovereign on Sadashiva, the son of Chandappa Nayaka. One of the king of this line Veerabhadra Nayaka moved his capital from Ikkeri to Bidnore in 1639 for strategic reasons. Shivappa Nayaka was a most distinguished ruler of the line, and he waged many wars with the Mysore kingdom. Somashekara Nayaka who ruled from 1663 A.D. to 1677 A.D. retaliated the Bijapur attack in 1664 A.D. One queen of the line Channammaji reigned for 20 years with great distinction. She gave asylum to Shivaji's son Rajaram and thus incurred the wrath of Aurangazeb the Mughal Emperor. Basavappa Nayaka I (1697-1714 A.D.) was a great ruler and author of 'Shivatathva Rathnakara', 'Suradruma' and 'Sookti Sudhakara' During the rule of Basappa Nayaka II (1739-1754 A.D.) the Marathas invaded Keladi territories for ransom. In 1763 A.D., Haidar Ali of Mysore after a sustained campaign annexed Keladi kingdom to Mysore.

In 1783 A.D., Tipu Sultan recovered Haidargarh and Bidnore from the English. After the fall of Tipu in 1799 A.D. the entire district became part of the Mysore kingdom. The revolts by Dhondia Wagh of Channagiri and one by Budi Basavappa Nayaka in 1830 A.D. were put down by the British and in 1831 A.D., the East India Company took over the government of Mysore from the Wodeyar family. In 1881 A.D., the Government was restored to the Wodeyars, and since then the history of the district is that of the Mysore State. The present district of Shimoga was part of the Nagar Faujdari during the early period of the Wodeyars of Mysore. In 1862 A.D., the district was included into Nagar Division, which was abolished in 1879 A.D. Prior to 1951 several changes like formation of sub-taluks, change of taluk headquarters, transfer of villages from one taluk to the other etc., took place.

* *Source : Census of India-1981, Series-9, Karnataka, District Census Handbook-Shimoga District.*

5. Location and Physical Aspects *

Area of the district is 10,553 square kilometres. It lies between latitudes 13 degrees 27 minutes north and 14 degrees 39 minutes north and longitudes 74 degrees 38 minutes east and 76 degrees 04 minutes east. The district is 153 km. in length from east to west and 129 km. from north to south. The district makes borders with Chikmagalur on the south; Dakshina Kannada on the south-west, Chitradurga on the east; Uttara Kannada on the north-west; Dharwad and Chitradurga on the north and north-east, The district lies in the mid-western part of the State of Karnataka.

Most of the district is mountainous, which is called the malnad. Here too much rainfall occur. The malnad area is spread in taluks Hosanagara, Sagar, Sorab and Tirthahalli. It is the western belt of the district. The belt is part of the Sahyadri mountain range which is also named as the Western Ghats. Three passes or ghats lead to the Dakshina Kannada, a coastal district. The transition zone or the semi-malnad area forms the middle belt of the district and includes Bhadravati, Shimoga and Shikarpur and some portions of Honnali taluk. The third belt is the maidan region, which is comprised of Channagiri, eastern parts of Honnali and areas of Bhadravati. In the semi-malnad region, the terrain is undulating or hilly and the rainfall is quite much. Moderate growth of vegetation is witnessed.

In the maidan region it is mainly plains and vegetation is seldom seen as the rainfall is comparatively low. It may be mentioned that the western belt of the district is made of tropical forests and wild mountains where nature at its best can be seen in its splendour. Otherwise the district is full of hills and noted peaks are Kodachadri (1343 metres MSL), Agastya Parvata or Billeshvara Betta (864 metres MSL), Govardhanagiri (848 metres MSL), Chandragutti (848 metres MSL), Karaledurga or Bhuavanagiri (969 metres MSL) and Kalvaranganabetta (1031 metres MSL).

The Tungabhadra and its constituents the Tunga and the Bhadra are chief rivers in the district. Other rivers of the district are Kumudwati (also called Chordi), Sharavati and Varada of which Kumudwati and Varada are the tributaries of the Tungabhadra. In Ramayana and Puranas the Tungabhadra river is mentioned as Pampa. Other minor rivulets and streams in the district are the Haridravati, Sharmanavati, the Kushavati, the Gargita, the Varahi and the Dandavati as well Nagarahalla, Yelavatadahalla, Gudvihalla, Kannanamanchalla and Kuppcholla.

Flora and fauna in the district vary from west to east in the district. While it is evergreen in the west, but it is scrub in the east. Trees in the west are of greater height and size. About one-fifth area of the district is under forest cover. Areca and coconut gardens abound in the district. Forests of the district are the natural habitate of such wild animals as the elephants, bisons, antelopes, sombers, some varieties of carnivora and other smaller creatures. There are two wild life sancturies in the district.

The climate of the district is more or less in accord with other bordering districts of the state. The climatic condition in the natural areas of the malnad, the semi-malnad and maidan varies but slightly. Summer is comparatively more severe in the maidan region. The district is characterised with heavy rains, which is particularly true of its malnad areas of the most important natural region of the district by size. In fact some of the most rainfed areas of the state are in this district. Most of the rains come during monsoon and the months of December, January and February are rainless.

6. Administrative Divisions and Jurisdictional Changes

The State is organised into four divisions for purposes of revenue and general administration. Shimoga district belongs to the Bangalore Revenue division. The district consists of 9 taluks which are grouped into two revenue sub-divisions. The talukwise distribution of the villages and towns is given in the statement below. Changes in the number of villages between 1981 and 1991, if any, and the reasons thereof are also indicated in the Statement.

**Source : District Census Handbook - 1981 - Shimoga District.*

Statement showing the number of villages in each taluk of the district as per the 1991 census as also 1981 census and reasons for variations, if any, and the number of towns as per 1991 census.

Sl No	Taluk	Total No of Villages according to the list finalised for		No of Towns as per 1991 census list	Reasons for variation in the No of Villages between 1981 and 1991 census
		1981 Census	1991 Census		
1	2	3	4	5	6
1	Bhadravati	160	153	2	The following seven erstwhile villages of 1981 are now treated as urban being the outgrowths of Bhadravati Urban Agglomeration and hence omitted from the 1991 census list of villages Of these four villages viz ,Kodihalli Kabalikatte Kanakatte and Seegebagi are outgrowths of Bhadravati Town and the remaining three villages viz Bommanakatte Kadadakatte and Kavalagundi are outgrowths of Bhadravati New Town
2	Channagiri	246	246	1	-
3	Honnali	168	168	2	-
4	Hosanagara	202	202	3	-
5	Sagar	240	238	2	Sannamane and Mangala Beesu which were partly included in Sagar town in 1981 are now reported to be fully incorporated in Sagar Municipality Hence omitted from the 1991 census list of villages
6	Shikarpur	178	175	2	Gabbur, Kanur and Haliyur, which were fully included in the urban limits of Shikarpur town were included in the 1981 census list of villages under the notion that certain areas of these villages are lying outside the municipal limits Now it is ascertained that these villages are fully inside the urban limits and hence omitted from the 1991 census list of villages
7	Shimoga	231	222	2	The following nine villages of 1981 are now treated as urban being the outgrowths of Shimoga Urban Agglomeration and hence omitted from the 1991 census list of villages 1 Shimoga 2 Mukkere, 3 Navile 4 Venkatapura, 5 Kallahalli, 6 Gopala, 7 Mandali, 8 Harige and 9 Islapura
8	Sorab	308	306	1	Two villages, viz , 1) Hunnavalli and Brahmanavada Talebylu which are not independent revenue villages but reported and listed so in 1981 census are now omitted from the 1991 census list of villages Hence the difference
9	Tirthahalli	247	247	1	-
	Total	1980	1957	16	

Particulars regarding the villages which are either fully or partly included in the limits of the 16 towns i.e., the urban areas of the district are given in the following statement.

Note :

* The remaining portion of this village i.e, 374.40 hectares are included in the urban limits of Bhadravati New Town.

@ The remaining portion of this village is treated as urban being the outgrowth of Bhadravati Town.

** The remaining portion of these villages are treated as urban being the Outgrowths of Shimoga City.

7. Brief Analysis of Data

(i) Area and Population

The district has an area of 10,553 sq.km. Among 9 taluks Sagar with an area of 1885.65 sq.km. is biggest. Other big taluks are Hosanagara (1419.07), Tirthahalli (1240.99), Channagiri (1207.68) and Sorab (1146.35) in that order Bhadravati with only 655.51 sq.km. of area is the smallest taluk followed by Honnali (862.18) and Shikarpur (888.79). Total population of the district in 1991 is 1,909,663. Most populous taluk is Channagiri (243,242) followed by Honnali (179,008) and Bhadravati (175,416). On the other hand, the least populous taluk is Hosanagara (95,012) followed by Tirthahalli (117,979) and Sagar (121,665).

(ii) Rural-Urban Composition

Out of 1,909,663 persons counted in 1991, rural dwellers are 1,403,421 and remaining 506,242 are urban residents. The share of rural and urban population is 73.49 and 26.51 per cent respectively. The corresponding shares for the State of Karnataka are 69.08 per cent and 30.92 per cent respectively. Thus the share of urban population is comparatively lower in the district. The share of rural population in various taluks also indicates the extent of urbanisation. The urbanisation is most extensive in Shimoga taluk where the share of rural population is less than 50 per cent. This share is between 50 to 70 per cent in taluks of Bhadravati and Sagar; between 70 to 80 per cent in Shikarpur; between 80 to 90 per cent in Honnali and exceeds 90 per cent in Sorab, Channagiri, Hosanagara and Tirthahalli. Table-1, presents a talukwise distribution of the rural population of the district and also indicates the number of villages in each unit.

Table 1 : Population and Number of Villages, 1991

Sl. No.	Name of C D Block/ Taluk-Rural	Population of Villages			No.of Villages	
		Persons	Males	Females	Total	Inhabited
1	2	3	4	5	6	7
1	Bhadravati	175416	89686	85730	153	146
2	Channagiri	243242	124631	118611	246	199
3.	Honnali	179008	91828	87180	168	146
4.	Hosanagara	95012	47102	47910	202	197
5.	Sagar	121665	61032	60633	238	233
6.	Shikarpur	149773	76552	73221	175	153
7.	Shimoga	167246	85625	81621	222	198
8.	Sorab	154080	78667	75413	306	268
9.	Tirthahalli	117979	57708	60271	247	245
	District Rural	1403421	712831	690590	1957	1785

The average rural population of a taluk in the district is 155,936. The average number of inhabited villages of a taluk of Shimoga district is 198. The taluks in which population exceeds the district average are Bhadravati, Channagiri, Honnali and Shimoga. The taluks in which inhabited villages are greater than the district average are Channagiri, Sagar, Sorab and Tirthahalli. The uninhabited villages are 172 and such villages constitute 8.79 per cent of the total number of villages. The number of depopulated villages are highest (47) in Channagiri taluk followed by Sorab (38), Shimoga (24), Honnali (22) and Shikarpur (22). When the number of uninhabited villages in a taluk is considered in relation to the total number of villages in the taluk the relative ranking of the taluks comes as under Channagiri (19.11 per cent), Honnali (13.10 per cent), Shikarpur (12.57 per cent), Sorab (12.42 per cent), Shimoga (10.81 per cent), Bhadravati (4.58 per cent), Hosanagara (2.48 per cent), Sagar (2.10 per cent) and Tirthahalli (0.81 per cent). Populated villages also vary from highest in case of Sorab taluk (268) to lowest in Bhadravati and Honnali the figure being 146 in both taluks. The number of populated villages is lower than the taluk average in Bhadravati, Honnali, Hosanagara and Shikarpur.

Among the taluks, most populous taluk with rural population is Channagiri and least populous is Hosanagara. The range of variation goes from 95,012 to 243,242. Apart from Channagiri other populous taluks are Honnali and Bhadravati. The population of these three taluks, viz., Channagiri, Honnali and Bhadravati, respectively constitute 17.33 per cent, 12.75 per cent and 12.50 per cent of the rural population of the district. The share of Hosanagara comes to 6.77 per cent. The urban population of the district is distributed among the 16 towns located within its jurisdiction. Townwise distribution of the urban population by sex is given in Table-2.

Table 2 : Population and Number of Towns, 1991

Sl. No.	Name and Civic Administration Status of Towns	Population		
		Persons	Males	Females
1	2	3	4	5
1	Bhadravati (TMC)	67019	34430	32589
2.	Bhadravati New Town (NAC)	82238	42337	39901
3.	Chakranagar Colony (NMCT)	1280	648	632
4.	Channagiri (MP)	14135	7353	6782
5.	Honnali (MP)	12632	6454	6178
6	Hosanagara (MP)	4608	2364	2244
7.	Jog Falls Notified Area (NAC)	13272	6756	6516
8.	Kumsi (MP)	5248	2665	2583
9	Mastikatte Colony (NMCT)	1814	949	865
10	Nyamati (MP)	8387	4330	4057
11.	Sagar (TMC)	42220	21619	20601
12.	Shikarpur (TMC)	26852	13804	13048
13.	Shimoga (CMC)	193028	100442	92586
14.	Siralkoppa (MP)	12127	6214	5913
15.	Sorab (MP)	8290	4279	4011
16.	Tirthahalli (TMC)	13092	6682	6410
	District Urban	506242	261326	244916

The population of towns varies between a minimum of 1280 persons in Chakranagar Colony (NMCT) and a maximum of 193028 persons in Shimoga. The average population of a town of Shimoga district comes to 31640 persons. Among the 16 towns of the district, Shimoga is the only one which has a population of more than one lakh and hence belongs to the Class I category of towns. The population of Shimoga town alone constitutes 38.13 per cent of the urban population of the district. The other towns which have an above-average population are Bhadravati New Town (82238), Bhadravati (67019) and Sagar (42220). The population of these 3 towns constitute 16.24 per cent, 13.24 per cent and 8.34 per cent respectively of the urban population of the district. Bhadravati New Town and Bhadravati belongs to Class II category of towns (50,000-99,000), Sagar belongs to Class III (20,000-49,000).

(iii) Classification of new places as towns, *de-classification and or merger of old towns* during the decade 1981-91.

Table 3 : New Towns/Towns Declassified, Merged in 1991 Census

Particulars	Name of Town	Population
1	2	3
(a) Added :	(i) Chakranagar Colony	1280 (1991 Census)
	(ii) Mastikatte Colony	1814 (1991 Census)
(b) Declassified	NIL	-
(c) Wholly merged with another town	NIL	-

(iv) Decadal variation in population

The population of Shimoga district has increased from 1656731 persons in 1981 to 1909663 persons in 1991. During the decade, the district has witnessed a net addition of 252932 persons. Most of this addition (68.35 per cent) is shared by the rural areas. An idea about the decadal variation in the population of the district and the taluk thereof with the rural-urban break-up may be had from the Table-4.

The population of Shimoga district has registered a decadal growth rate of 15.27 per cent. It may be noted that this growth rate is lower as compared to the State average which is 21.12 per cent. At the taluk level, the growth rate is seen to range between 1.39 per cent in Hosanagara and 24.77 per cent in Shimoga. Apart from Shimoga, the other taluks which have registered an above-average growth rate are : Shikarpur (22.90 per cent), Honnali (16.09 per cent), Sorab (15.72 per cent) and Channagiri (15.49 per cent). The rural population has increased at a relatively lower rate than its urban counterpart, viz., by 14.05 per cent as compared to 18.79 per cent. This trend is also noticed in the State. The decadal growth rates for the rural and urban segments of the population of the State are 17.66 per cent and 29.62 per cent respectively. However, at the taluk level, the same trend is not reflected in all the taluks. In taluks of Bhadravati,

Table 4 : Decadal change in distribution of Population

Taluk	Population						Percentage decadal variation (1981-91)			Percentage of urban population	
	1981			1991							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1981	1991
1	2	3	4	5	6	7	8	9	10	11	12
1. Bhadravati	288214	157608	130606	324673	175416	149257	12.65	11.30	14.28	45.32	45.97
2. Channagiri	222843	210974	11869	257377	243242	14135	15.50	15.29	19.09	5.33	5.49
3. Honnali	172306	153695	18611	200027	179008	21019	16.09	16.47	12.94	10.80	10.51
4. Hosanagara	101306	96745	4561	102714	95012	7702	1.39	-1.79	68.87	4.50	7.50
5. Sagar	160267	108343	51924	177157	121665	55492	10.54	12.30	6.87	32.40	31.32
6. Shikarpur	153582	120579	33003	188752	149773	38979	22.90	24.21	18 11	21.49	20.65
7. Shimoga	292968	136222	156746	365522	167246	198276	24.77	22.77	26.50	53.50	54.24
8. Sorab	140310	133624	6686	162370	154080.	8290	15.72	15 31	23.99	4.77	5.11
9. Tirthahalli	124935	112761	12174	131071	117979	13092	4 91	4.63	7.54	9.74	9.99
District Rural	1656731	1230551	426180	1909663	1403421	506242	15.27	14 05	18.79	25.72	26.51

Channagiri, Shimoga, Sorab and Tirthahalli the urban growth rates are higher than the rural ones. The difference between the growth rates experienced by the rural and urban areas is very large in Hosanagara taluk. In the taluks of Honnali, Sagar and Shikarpur the rural areas have registered a slightly higher growth rate than the corresponding urban areas. In the rural areas the growth rate is above the district average in the taluks of Channagiri, Honnali, Shikarpur, Shimoga and Sorab. The growth rate has been negative in Hosanagara taluk. In the case of urban population, the decadal growth rate is above the district average of 18.79 per cent in the taluks of Channagiri, Hosanagara, Shimoga and Sorab. The urban decadal growth rate is below the district average in the taluks of Bhadravati, Honnali, Sagar, Shikarpur and Tirthahalli.

(v) Trends of Urbanisation

In 1991 census, the proportion of urban population to the total population of Shimoga district is 26.51 per cent. In 1981, this proportion was slightly lower at 25.72 per cent. Thus the district of Shimoga has become a little more urbanised during the decade. Talukwise details show that the level of urbanisation is not uniform in the district. In 3 taluks namely Honnali, Sagar and Shikarpur there has been a slight reduction in urbanisation trends. During the decade, the number of towns has increased from 14 to 16.

(vi) Population size of villages

The rural population of Shimoga district is disbersed among 1785 inhabited villages spread over unevenly in 9 taluks. The average population of a village of this district as per 1991 census works out to 786 persons. Among the taluks, Honnali has the highest average of 1226 persons per village and that it is closely followed behind by Channagiri with 1222 and Bhadravati with 1202 persons per village. Shikarpur (979) and Shimoga (845) are the other taluks where the number of inhabitants per village is above the district average. The taluks where the number of inhabitants per village is below the district average are : Hosanagara (482), Tirthahalli (482), Sagar (522) and Sorab (575). Thus, it may be noted that there is much variation in the number of persons per village within the district and in its taluks. The distribution of the villages by population size-class is given in Table-5.

The proportion of small villages (with less than 500 inhabitants each), medium villages (with 500 to 1999 inhabitants each) and large villages (with a population of 2000 or more) is 47.67 per cent, 44.65 per cent and 7.68 per cent respectively. The table also reveals that there are very small villages (below 200) in all the 9 taluks of the district but very large villages (5000 or more) are not found in every taluk.

Table 5 : Percentage distribution of villages by population ranges, 1991

Taluk/C.D.Block	No. and Percentage of inhabited villages	No. and percentage of villages in each range (figures in paranthesis indicate percentage of villages in each range)					
		Less than 200	200 - 499	500 -1999	2000 - 4999	5000 - 9999	10,000 & above
1	2	3	4	5	6	7	8
1. Bhadravati	146	18	17	88	20	3	-
	(100.00)	(12.33)	(11.64)	(60.27)	(13.70)	(2.06)	-
2. Channagiri	199	21	35	110	29	4	-
	(100.00)	(10.55)	(17.59)	(55.28)	(14.57)	(2.01)	-
3. Honnali	146	16	16	92	20	2	-
	(100.00)	(10.96)	(10.96)	(63.01)	(13.70)	(1.37)	-
4. Hosanagara	197	50	70	73	4	-	-
	(100.00)	(25.38)	(35.53)	(37.06)	(2.03)	-	-
5. Sagar	233	66	88	70	9	-	-
	(100.00)	(28.33)	(37.77)	(30.04)	(3.86)	-	-
6. Shikarpur	153	21	27	90	15	-	-
	(100.00)	(13.73)	(17.65)	(58.82)	(9.80)	-	-
7. Shimoga	198	38	50	92	17	1	-
	(100.00)	(19.19)	(25.25)	(46.46)	(8.59)	(0.51)	-
8. Sorab	268	61	98	99	9	1	-
	(100.00)	(22.76)	(36.57)	(36.94)	(3.36)	(0.37)	-
9. Tirthahalli	245	61	98	83	3	-	-
	(100.00)	(24.90)	(40.00)	(33.88)	(1.22)	-	-
District Rural	1785	352	499	797	126	11	-
	(100.00)	(19.72)	(27.95)	(44.65)	(7.06)	(0.62)	-

Large villages (5000 or more) are found in only 5 taluks and the proportion of such villages is low. The proportion of very small villages in the taluk total varies between 10.55 per cent in Channagiri and 28.33 per cent in Sagar. As may be seen from Table-5, Shimoga district has no village with 10,000 or more inhabitants.

(vii) Density of population

The density of population in Shimoga district as per 1991 census is 181 persons per square kilometre. The density figures for the rural and urban areas of the district are 135 persons per sq.km. and 3210 persons per sq.km. respectively. The average density of population for Karnataka as per 1991 census is 235 persons per sq.km. The density figures for the rural and urban areas of the State are 166 and 3257 persons per sq.km. respectively. A distribution of the 1785 populated villages of the district by density ranges is shown in the Table-6.

Table 6 : Distribution of villages by density ranges

Range of Density (population per sq km)	Total no. of villages in each range	Percentage of villages in each range
1	2	3
0-10	53	2.97
11-20	53	2.97
21-50	207	11.60
51-100	425	23.81
101-200	512	28.68
201-300	259	14.51
301-500	174	9.75
500 +	102	5.71
Not known	-	-
All Ranges	1785	100.00

The above table shows that the villages having densities in the range of 101-200 persons per square kilometre constitute the single largest group followed by those having densities in the range of 51-100 persons and those with densities in the range of 201-300 per sq.km. respectively. These three density ranges together account for 67.00 per cent of the populated villages of the district. Against the district level rural density of 135 some of the taluks are having densities above this mark such as Bhadravati

(268), Honnali (208), Channagiri (201), Shikarpur (169) and Shimoga (156). The taluks where the densities are below the district rural level are Sorab (134), Tirthahalli (95), Hosanagara (67) and Sagar (65).

(viii) Sex Ratio

In the 1909663 persons enumerated in Shimoga district at the 1991 census, 974157 are males and the remaining 935506 are females. The sex ratio for the district works out to 960. The average sex ratio for the State is also 960. At the 1981 census the sex ratio in the district was 947 and it was quite lower than the corresponding rate of 963 for the State. The sex ratio has declined in the State as a whole, but in Shimoga district it has improved. This phenomenon assumes significance also if we take notice of the fact that at the All India level too the sex ratio has moved down from 933 in 1981 to 927 in 1991. In the district the rural areas have an average sex ratio of 969, while the rate is only 937 in urban areas. The sex ratio figures for the rural and urban areas of the district were 955 and 923 respectively at the 1981 census.

The sex ratio in the rural population (among the 9 taluks) of the district is not uniform, as may be seen from the talukwise data set-out in Table-7.

Table 7 : Sex Ratio for Rural Population of C.D.Blocks, 1991

Sl No	Name of C D Block/Taluk	No of females per 1000 males
1	2	3
1	Bhadravati	956
2	Channagiri	952
3	Honnali	949
4	Hosanagara	1017
5	Sagar	993
6	Shikarpur	956
7	Shimoga	953
8	Sorab	959
9	Tirthahalli	1044
	District Rural	969

At the taluk level, the sex ratio for rural areas vary between 949 in Honnali and 1044 in Tirthahalli. The taluks where the sex ratio is higher than the district rural average are : Tirthahalli (1044), Hosanagara (1017) and Sagar (993) The sex ratio is below the district average in taluks : Sorab (959), Bhadravati (956), Shikarpur (956), Shimoga (953), Channagiri (952) and Honnali (949).

In the towns of the district the average sex ratio is 937, but there is variation in this ratio by individual towns as the particulars presented in Table-8 reveals.

Table 8 : Sex Ratio for Towns, 1991

Sl No	Name and Civic Administration Status	No of females per 1000 Males
1	2	3
1	Bhadravati (TMC)	947
2	Bhadravati New town (NAC)	942
3	Chikkanagar Colony (NMCT)	975
4	Channagiri (MP)	922
5	Honnali (MP)	957
6	Hosanagara (MP)	919
7	Jog Falls Notified Area (NAC)	964
8	Kumsi (MP)	969
9	Mastikatte Colony (NMCT)	911
10	Nyamati (MP)	937
11	Sagar (TMC)	953
12	Shikarpur (TMC)	945
13	Shimoga (CMC)	922
14	Siralkoppa (MP)	952
15	Sorab (MP)	937
16	Tirthahalli (TMC)	959
	District Urban	937

The sex ratio is below the district average of 937 in three towns : Mastikatte Colony, Channagiri and Shimoga. It is as same in Nyamati and Sorab as the district average for the urban areas.

(ix) Scheduled Castes

In total population of 1909663 of Shimoga district, 337921 persons are of Scheduled Castes category in 1991. Of the total Scheduled Castes population in the district 279830 (82.81 per cent) are rural-residents and the remaining 58091 (17.19 per cent) are urban residents. The share of the Scheduled Castes is 17.70 per cent of the total population, 19.94 per cent of the rural population and 11.48 per cent of the urban population of the

district. If the villages are arranged by share of Scheduled Castes population in the total population of concerned villages, it may be seen that Scheduled Castes are inhabitants of 82.24 per cent of the inhabited villages of the district. The distribution of such villages is presented in the Table-9.

Table 9 : Proportion of Scheduled Castes Population to Total Population in villages, 1991

Percentage range of Scheduled Castes population to total population	No of villages in each range	Percentage of villages in each range
1	2	3
0-5	306	20.84
6-10	272	18.53
11-15	201	13.69
16-20	166	11.31
21-30	188	12.81
31 and above	335	22.82
Total	1468	100.00

As many as 317 out of the 1785 inhabited villages of the district do not have any Scheduled Castes population. These villages are 17.76 per cent of total number of villages. The share of Scheduled Castes community is insignificant in yet another 306 villages where they form a proportion not exceeding 5 per cent. Anyhow in 35.63 per cent or in more than one-third of villages out of 1468 total villages where Scheduled Castes are living, there is a significant share of this community ranging from 21 per cent or still more. In the total of above 1468 villages in about one-third of villages (32.22 per cent) there is modest presence of this community which ranges from 6 per cent to 15 per cent. There is also a substantial share of this community in about 13 per cent of villages, where the range is 21 to 30 percentages. The distribution of Scheduled Castes in the towns of this district is presented in Table-10.

Table 10 : Percentage of Scheduled Castes Population in towns, 1991

Sl. No.	Name of Town	Total Population	Total Scheduled Castes Population	Percentage of Scheduled Castes Population to Total Population
1	2	3	4	5
1	Bhadravati (TMC)	67019	9161	13.67
2.	Bhadravati New town (NAC)	82238	13272	16.14
3.	Chakranagar Colony (NMCT)	1280	165	12.89
4	Channagiri (MP)	14135	1434	10.15
5	Honnali (MP)	12632	417	3.30
6	Hosanagara (MP)	4608	1127	24.46
7.	Jog Falls Notified Area (NAC)	13272	2431	18.32
8	Kumsi (MP)	5248	589	11.22
9.	Mastikatte Colony (NMCT)	1814	266	14.66
10	Nyamati (MP)	8387	723	8.62
11.	Sagar (TMC)	42220	3412	8.08
12.	Shikarpur (TMC)	26852	2222	8.27
13.	Shimoga (CMC)	193028	19652	10.18
14.	Siralkoppa (MP)	12127	1440	11.87
15	Sorab (MP)	8290	765	9.23
16	Tirthahalli (TMC)	13092	1015	7.75
	District Urban	506242	58091	11.47

It may be seen that the Scheduled Castes are found in varying number in all the towns of the district. The largest proportion of 24.46 per cent is in Hosanagara and lowest in Honnali at only 3.30 per cent. Towns in which this particular community is present more in proportion than 11.47 per cent are : Siralkoppa, Chakranagar, Bhadravati, Mastikatti Colony, Bhadravati New town, Jog Falls and Hosanagara. The towns in which the share is below the district level proportion are : Honnali, Tirthahalli, Sagar, Shikarpur, Nyamati, Sorab, Channagiri, Shimoga and Kumsi.

(x) Scheduled Tribes

In total population of 1909663 of Shimoga district Scheduled Tribes are 74106 in 1991. The proportion

of the Scheduled Tribes population to the total population of the district works out to 3.88 per cent. This figure is lower than the State average which is 4.26 per cent. Among the persons belonging to Scheduled Tribes in Shimoga district 64379 persons are residing in rural areas and 9727 persons are residing in urban areas. The proportion of the Scheduled Tribes population of the rural and urban segments of the population of the district are 4.59 per cent and 1.92 per cent respectively. The corresponding figures for the State are 5.24 per cent and 2.06 per cent respectively. If the villages of the district are classified by ranges according to the proportion of Scheduled Tribes to the total population of the concerned villages, the distribution of the villages would be as given in Table-11.

Table 11: Proportion of Scheduled Tribes Population to Total Population in Villages, 1991

Percentage range of Scheduled Tribes Population to total Population	No of villages in each range	Percentage of villages in each range
1	2	3
0-5	382	54 03
6-15	176	24 89

26-35	31	4 39
36-50	25	3 54
51 and above	21	2 97
All Ranges	707	100 00

The persons belonging to Scheduled Tribes are found in 707 villages out of the 1785 inhabited villages of the district. It means 39.61 per cent of the inhabited villages have Scheduled Tribes component in their population. The Scheduled Tribes form more than 50 per cent of population in 21 villages and account for 26 to 50 per cent of the population in 56 villages. It means in 4.31 per cent of total inhabited villages in the district are having the Scheduled Tribes as an important segment of the village community. As many as in 72 villages the Scheduled Tribes are between 16 to 25 per cent which is a worthwhile presence. But in majority of villages numbering 558 to be precise, the share of the community is below 16 per cent, which may be regarded to be the nominal share. The townwise distribution of the urban resident Scheduled Tribes population of the district is presented in the Table-12.

Table 12 : Percentage of Scheduled Tribes Population in Towns, 1991

Sl No	Name of Town	Total Population	Total Scheduled Tribes Population	Percentage of Scheduled Tribes Population to Total Population
1	2	3	4	5
1	Bhadravati (TMC)	67019	1043	1 56
2	Bhadravati New town (NAC)	82238	1504	1 83
3	Chakranagar Colony (NMCT)	1280	5	0 39
4	Channagiri (MP)	14135	670	4 74
5	Honnali (MP)	12632	152	1 20
6	Hosanagara (MP)	4608	32	0 69
7	Jog Falls Notified Area (NAC)	13272	226	1 70
8	Kumsi (MP)	5218	264	5 03

13	Shimoga (CMC)	193028	4285	2 22
14	Siralkoppa (MP)	12127	30	0 25
15	Sorab (MP)	8290	96	1 16
16	Tirthahalli (TMC)	13092	134	1 02
District Urban		506242	9727	1 92

It may be noted that persons belonging to the Scheduled Tribes are found to be residing in all the 16 towns of the district. The Scheduled Tribes component in the total population of the towns is above the district average of 1.92 per cent in 4 towns (and touches the highest figure of 5.97 per cent in the case of Nyamati) and it is well below this average in the remaining 12 towns including Shiralkoppa where it touches the lowest figure of 0.25 per cent. The numerical strength of the Scheduled Tribes community in the towns varies between a nominal 5 in Chakranagar Colony and a sizeable 4285 persons in Shimoga town. However,

the relative share of the Scheduled Tribes in Shimoga town is far below in comparison to some of other towns in which the numerical strength is comparatively lower to that observed in Shimoga town.

(xi) Literacy

There are 1909663 persons in Shimoga district. The total population age group 0-6 is 295043. Number of literate persons excluding age group 0 to 6 is 993542. The literacy rate in the district works out to 61.53 per cent. The sexwise details show that among males the literacy is 71.24 per cent much above the female literacy of 51.42 per cent. The corresponding literacy rates for the State as a whole are : 56.04 per cent for total population, 67.26 per cent for males and 44.34 per cent for females. The literacy rates returned by Shimoga district are well above in comparison to the overall averages for the State.

Among the 1180669 persons in rural pockets who are aged 7 years and upwards, 655002 are literates. Therefore, the rural literacy in the district is 55.48 per cent. Sexwise breakup further shows that the literacy rates for males and females works out to 66.38 per cent and 44.24 per cent respectively. The taluk level (i.e. C.D.Block level) data for rural population presented in Table-13, provide a comparative idea about the magnitude of inter taluk differences regarding the total as well as sex-wise literacy rates.

Table 13 : Literacy Rates for Rural Population of Taluks (C.D.Blocks) by sex, 1991 (Excluding children in the age-group 0-6)

Sl.No.	Name of Taluk/C.D.Block	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1.	Bhadravati	50.95	60.85	40.57
2.	Channagiri	52.97	63.84	41.52
3.	Honnali	52.48	65.30	38.99
4.	Hosanagara	60.09	71.13	49.30
5.	Sagar	59.34	71.56	47.05
6.	Shikarpur	52.05	63.26	40.31
7.	Shimoga	52.79	62.44	42.66
8.	Sorab	58.73	70.53	46.40
9.	Tirthahalli	67.17	76.26	58.59
	District Rural	55.48	66.38	44.24

Among the 9 taluks, Tirthahalli has returned the highest literacy rate of 67.17 per cent. Hosanagara taluk ranks next with 60.09 per cent literates. Literacy is above the district average in Sorab, Sagar, Hosanagara and Tirthahalli taluks. It is below the district level rate in Channagiri, Shimoga, Honnali, Shikarpur and Bhadravati. The literacy rate for males vary from 60.85 per cent in Bhadravati to 76.26 per cent in Tirthahalli. If the literacy rates for the female segment of the rural population of the taluks is examined, it is noticed that it varies between 38.99 per cent in Honnali and 58.59 per cent in Tirthahalli.

As in the case of rural areas, in the case of urban areas too there are noticeable variations in the literacy rates. The literacy rate for the urban population of the district (excluding 0-6 age group) works out to 78.01 per cent. The sex-wise break up shows that the literacy rates for the male and female segments of the urban population (excluding 0-6 age-group) are 84.23 per cent and 71.35 per cent respectively. Townwise literacy rates by sex are presented in the Table-14.

Table 14 : Literacy Rates for towns, 1991 (excluding children in the age-group 0-6)

Sl.No.	Name and Civic Administration Status of Town	Percentage of Literates		
		Persons	Males	Females
1	2	3	4	5
1.	Bhadravati (TMC)	75.49	82.45	68.11
2.	Bhadravati New town (NAC)	79.69	87.33	71.56
3.	Chakranagar Colony (NMCT)	87.31	91.84	82.59
4.	Channagiri (MP)	68.12	73.40	62.35
5.	Honnali (MP)	65.27	72.89	57.25
6.	Hosanagara (MP)	84.59	91.42	77.33
7.	Jog Falls Notified Area (NAC)	79.16	86.94	70.99
8	Kumsi (MP)	72.03	79.88	63.94
9.	Mastikatte Colony (NMCT)	89.99	94.20	85.56
10.	Nyamati (MP)	70.32	78.34	61.83
11.	Sagar (TMC)	83.37	89.10	77.32
12.	Shikarpur (TMC)	68.90	75.73	61.70
13.	Shimoga (CMC)	79.61	84.83	73.93
14	Shiralkoppa (MP)	71.66	77.42	65.57
15.	Sorab (MP)	78.58	84.80	72.00
16.	Tirthahalli (TMC)	86.53	91.82	81.02
	District Urban	78.01	84.23	71.35

Among the 16 towns, Mastikatte Colony has returned the highest literacy rate for the total population (excluding 0-6 age-group) (89.99 per cent) as well as the highest literacy rates for the male and female segments of the population of the town (excluding 0-6 age-group) viz., 94.20 per cent and 85.56 per cent respectively. It may be recalled in contrast that the lowest literacy rate is to be observed in Honnali town with 65.27 per cent. Chakranagar Colony holds the second place with the corresponding literacy rates of 87.31 per cent, 91.84 per cent and 82.59 per cent. Tirthahalli ranks next to Chakranagar Colony with the corresponding literacy rates of 86.53 per cent, 91.82 per cent and 81.02 per cent respectively. Shimoga which is the most populous town in the district has returned literacy rates at 79.61 per cent for total population, 84.83 per cent for male population and 73.93 per cent for female population. In case of males the literacy rates are in the range of 70 to 80 per cent in 6 towns, in the range of 80 to 90 per cent in further 6 towns and in the range of 90 to 95 per cent in respect of remaining 4 towns. In the case of females, the literacy rate lies between 55 per cent to 65 per cent in 5 towns, lies between 65 per cent to 75 per cent in 6 towns, lies between 75 per cent to 85 per cent in 4 towns and lies slightly beyond 85 per cent in only one town. The lowest female literacy of 57.25 per cent is in Honnali town and highest in Mastikatte Colony as mentioned above.

(xii) Main Workers, Marginal Workers and Non-Workers

In the total population of Shimoga district, 720984 persons are main workers, 59868 persons are marginal workers and the remaining 1128811 persons are non-workers. The main workers, the marginal workers and the non-workers respectively constitute 37.75 per cent, 3.14 per cent and 59.11 per cent of the total population of Shimoga district. This set of figures may be compared with the corresponding set of figures for the State which are 38.45 per cent (main workers), 3.54 per cent (marginal workers) and 58.01 per cent (non-workers). *An idea about the intra-district variations in the* proportions of main workers, marginal workers and non-workers among the males and females in the case of the rural-resident population may be had from the talukwise (i.e. C.D.Blockwise) details furnished in Table-15.

It may be noted that the male segment of the population has a higher proportion of male workers than the female segment and in turn has comparatively lower proportion of non-workers and marginal workers than female counter parts. The proportion of main workers is above the district average of 40.55 per cent in 5 taluks. It is highest

Table 15 : Percentage of Main Workers, Marginal Workers and Non-Workers for Rural Population of Taluks (C.D.Blocks), 1991

in Tirthahalli with 42.80 per cent. Sagar taluk comes a close second with a tally of 42.79 per cent. This proportion is lowest in Channagiri with 38.67 per cent. The range of variation among the taluks is quite moderate. Sexwise particulars reveal that in the case of male population, the proportion of main workers exceeds the 50 per cent mark in all the taluks and that it varies within a limited margin viz., between 54.67 per cent in Channagiri taluk and 60.11 per cent in Tirthahalli. If the proportion among females is examined it is noticed that the proportion of main workers varies between 19.81 per cent in Sorab and 26.72 per cent in Sagar. Among the nine taluks, Sorab is the only one which has returned a proportion of less than 20 per cent of main workers in its female population.

Marginal workers are found among males as well as females in the rural areas of all the 9 taluks. The proportion of marginal workers to total population varies between 1.27 per cent in Bhadravati and 6.05 per cent in Sagar. The average proportion of marginal workers in the male population is 0.53 per cent. The average proportion of marginal workers in the female population is 7.73 per cent, which is comparatively considerable. It may be noted that the incidence of marginal work is higher among the females than among males in all the taluks. Thus, in the rural areas of the district the workers constitute 44.62 per cent, 57.19 per cent among males and 31.63 per cent among females. This proportion varies between 42.57 per cent in Hosanagara and Sorab taluks and 48.84 per cent in Sagar taluk. The work

	District Total	30.02	49.46	9.28	0.54	0.27	0.82	30.56	49.73	9.40	69.44	50.27	89.90

participation rate among females varies between 27.10 per cent in Sorab and 37.14 per cent in Sagar. In the end, it may be seen from the above table that the non-workers constitute 55.38 per cent - 42.81 per cent among males and 68.37 per cent among females. Among the taluks extreme portions are held by Sagar (51.16 per cent) and jointly by Hosanagara and Sorab with 57.43 per cent each. The proportion of non-workers is lowest among males in Tirthahalli and highest in Channagiri. On the other hand, the proportion of non-workers is lowest among females in Sagar and highest in Sorab. A townwise percentage distribution of the urban population of the district by sex according to the categories of main workers, marginal workers and non-workers is presented in Table-16.

In the total urban population of the district the main workers, the marginal workers and the non-workers constitute 30.02 per cent, 0.54 per cent and 69.44 per cent respectively. The proportion of main workers to the total population of the town is above the district average in the case of 7 out of the 16 towns. Among the towns Nyamati (36.76 per cent) tops the list followed by Kumsi (35.33 per cent) and Honnali (32.57 per cent). This proportion is lowest in Jog Falls (24.56 per cent). In Shimoga town this proportion is 31.05 per cent. Sexwise break up shows that main workers among males are 49.46 per cent as against 9.28 per cent among females. The proportion of main workers among males varies between 40.26 per cent in Jog Falls and 57.55 per cent in Nyamati. Among females this proportion varies between 4.62 per cent in Mastikatte Colony and 15.84 per cent in Kumsi. It may be noted that although every town has reported marginal workers, but male marginal workers are not reported in 3 towns whereas female marginal workers are not reported in Chakranagar Colony town.

PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE

The Primary Census Abstract furnishes, in a nutshell as it were, vital information on the basic demographic and economic composition of the population. This statement, referred to as PCA, summarises the whole mass of data gathered at the Census. The smallest geographical unit with a clearly defined boundary identifiable on the field that has been delineated for ensuring cent per cent coverage of the area under the jurisdiction of various administrative units is the Census Enumeration Block. The details gathered in the household schedules in respect of each and every person enumerated in each such block have been meticulously tabulated to prepare this Primary Census Abstract. The tabulation has been done entirely by manual processing of the data at the Regional Tabulation Offices. The village PCA is derived from the Block PCA and in case of urban areas, the Block PCA has yielded the ward and Town PCA. In turn, the Taluk (Rural) and Taluk (Urban) as well as Taluk (Total) PCA statements as well as the C.D.Block-wise PCA Statements are built up on the basis of Village-wise and Town-wise data. This process goes on until it yields the data for higher and higher administrative divisions, such as the District and the State, culminating at the apex in the form of a single line statement for the country. The entire edifice thus rests on the information contained in the household schedules filled up by the enumerator.

The District Primary Census Abstract is presented immediately after this Explanatory Note. This statement gives the aggregate figures for the district with the rural-urban break up, the aggregate figures for each C.D.Block (with the rural-urban break up) and the aggregate figures for each town/urban agglomeration within the district. It is important to note that the lowest unit for which the data are presented here is the C.D.Block and not the traditional taluk*. Thereafter the C.D.Blocks within the district are taken up one by one in the alphabetical order of their names. For each C.D.Block, an alphabetical list of villages (which indicates the code numbers assigned to villages in 1991 as well as the corresponding code numbers assigned in 1981) precedes the presentation of the village-wise PCA followed by the ward-wise PCA in respect of towns and outgrowths if any within the jurisdiction of the concerned C.D.Block. After thus exhausting all the C.D.Blocks in the district, the town urban agglomerations are covered one by one in the ascending order of their location code numbers without regard to the fact whether any of these towns or portions thereof (eg. outgrowths) have already been covered under one or the other of the Community Development Blocks. As in 1981, on this occasion too, the PCA has been compiled separately in respect of the Scheduled Castes and Scheduled Tribes Population of the District. The District PCA for Scheduled Castes and for Scheduled Tribes are presented after the PCA for the urban areas. The pattern of presentation of data in these two statements is the same as that adopted for presentation of data in the District PCA.

It may be recalled that in Karnataka the term Community Development Block is not in vogue and that its equivalent is the Taluk Panchayat Samiti. The jurisdiction of each Taluk Panchayat Samiti is coterminus with that of the corresponding Taluk but excludes the statutory towns. In other words, the administrative jurisdiction of a Taluk Panchayat Samiti covers all the villages of the Taluk (as listed out for the 1991 census) as also the villages or parts thereof which have been classified as non-municipal towns for purposes of the 1991 census and the revenue villages or portions thereof which have been identified as outgrowths of statutory towns and have therefore been excluded from the purview of Rural PCA. It is important to remember that in this statement, the particulars relating to the non-municipal towns (such as those administered by Mandal Panchayats) and those relating to the outgrowths (places which are not towns in their own right) are repeated - for these appear once below the concerned C.D.Block and again under the 'urban areas' of the district.

* *For purposes of comparison with 1981 data the Taluk wise District PCA with Rural - Urban breakup is given in Appendx I.*

The Primary Census Abstract has 21 main columns to furnish information about the name of the unit, area, number of occupied residential houses, number of households, population, number of persons in the age-group of 0-6, number of persons belonging to Scheduled Castes and Scheduled Tribes, number of literates, number of main workers and their distribution among nine industrial categories, number of marginal workers and the number of non-workers. In the District PCA, each column indicating the data on population characteristics is sub-divided into 3 columns in order to indicate the total as well as the sex-wise break-up whereas in the village/town PCA, each such column (with the exception of Total Population and Population in the 0-6 age group) is sub-divided into two columns to indicate the sex-wise break-up only.

It may be mentioned at this juncture that for each town/urban agglomeration in the district, information regarding the total population, Scheduled Castes Population and Scheduled Tribes Population of each census enumeration Block as also the particulars regarding the boundaries of each Census Enumeration Block have been compiled and are kept for the census data users' reference in the Library of the Office of the Director of Census Operations, Karnataka.

COLUMN 1 : Location Code Number :- The location code number assigned to the village or the town as the case may be is entered in this column.

COLUMN 2 :- Name of Village/Town Ward :- The name of the village or the town as finally adopted for the 1991 census purposes is entered in this column. The towns and cities are often divided into smaller geographical segments called wards, mohallas or divisions for purposes of administration. Such units bear distinctive locality names or specific numbers. It is this name or the number of the ward or its equivalent unit that is mentioned here in the case of towns.

Irrespective of whether a town is divided into administrative wards or not, every town is invariably constituted into territorial divisions for the conduct of civic elections. This delimitation of constituencies is done as an essential and preliminary process of civic elections scheduled to be held periodically. So, in some cases the name or number reported in this column refers to such territorial divisions and not to administrative divisions.

COLUMN 3 : Area of the Village in Hectares and of Town in Square Kilometres :- For the villages, the area is reported here in hectares upto two places of decimal and for the towns, as also the wards or divisions thereof, the area figures are furnished in square kilometres upto two places of decimal. It may be incidentally mentioned here that for none of the towns in the State, Ward/Division-wise area figures are available. If the area figures are not available for any reason, a dash (-) is entered in this column.

COLUMN 4 : Number of Occupied Residential Houses :- A 'Census House' could be wholly residential or partly residential or else completely non-residential according to the use to which it is put. All census houses enumerated as either wholly or partly residential at the time of the census count are added together to get the data for the block and from thence to derive the data for higher units. Houses found vacant at the time of the census count are not reckoned as occupied residential houses. The information for this column has been compiled from the Abridged Houselists.

COLUMN 5 : Number of Households :- This information too is compiled from the Abridged Houselists. The actual total number of households including the 'normal', 'institutional' and the 'houseless' that were enumerated at the census count is mentioned in this column. Generally, the number of households in any unit would be equal to or more than the occupied residential houses in that unit because of the houseless households that one may come across in that unit and also because of the occasional instances of two or more households sharing a common census house.

COLUMNS 6, 7 AND 8: Total Population (including Institutional and Houseless Population):- The total population as on the reference date is furnished in column 6 while in the next two columns the sex-wise break-up is given. The institutional population refers to such of those who were enumerated in institutions like hostels, chummeries, hospitals, prisons etc. The houseless persons

represent those who were enumerated on the night of 28th February 1991 at the places where they were found at that time, provided they had not already been enumerated elsewhere.

COLUMNS 9, 10 and 11 : Population in the age group (0 - 6) :- The total number of children belonging to the age-group of 0-6 in the total population as also the number of males and females among them are reported under these three columns. This information is of considerable significance since all such children are regarded as illiterate at the 1991 Census.

COLUMNS 12 AND 13 : Scheduled Castes :- Number of males and females belonging to Scheduled Castes is indicated in these two columns. Whether a person belongs to a Scheduled Caste or not has been determined with reference to the List of Scheduled Castes in Karnataka according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No. 108 of 1976) (See Appendix). Scheduled Castes may belong to either the Hindu or the Sikh or the Buddhist religion.

COLUMNS 14 AND 15 : Scheduled Tribes :- Number of males and females belonging to Scheduled Tribes is reported under these columns. Whether a person belongs to a Scheduled Tribe or not has been determined with reference to the 'List of Scheduled Tribes in Karnataka' according to the Scheduled Castes and Scheduled Tribes (Amendment) Order 1976 (Act No.108 of 1976) (See Appendix for the list). Scheduled Tribes may belong to any religion.

COLUMNS 16 AND 17 : Literates :- Sex-wise break up of the total number of persons who are literate, irrespective of their levels of educational attainments is given in these two columns. By definition a literate is a person who can both read and write with understanding in any language. It is important to note that for purposes of the 1991 census by definition all children in the 0 - 6 age group are regarded as illiterate. Even if such a child is going to school and has picked up reading and writing a few odd words it is treated as illiterate.

COLUMNS 18 AND 19 : Total Main Workers:- A worker is a person who participates in economically productive work. The reference period for judging whether a person is a worker or not in the year preceding the day of enquiry. If a person had worked even for one day during this entire period he or she is entitled to be classified as a worker. If for any such worker the period of work is 183 days or more then that person is a main worker. On the other hand, if such period is less than 183 days then that worker is a marginal worker. In columns 18 and 19 the total number of main workers is furnished sex-wise and a sex-wise break up of these main workers according to the nine-fold 'industrial classification of workers' is presented in the next 20 columns i.e., from column 20 to column 39.

COLUMNS 20 AND 21 : Cultivators (Category-I) :- These two columns give out the number of male and female workers who satisfy the conditions laid down in the definition of a cultivator. A cultivator may be an employer, a single worker or an unpaid family worker. Participation in work may be by way of physical labour or by way of supervision and direction. The lands cultivated may be owned by the household or taken on lease for payment in money or kind or share in the produce. Cultivation, as already emphasised involves ploughing, sowing and harvesting and allied activities in the production of cereals and millet crops, pulses, raw jute and kindred fibres, sugarcane, tapioca and oil seeds.

COLUMNS 22 AND 23 : Agricultural Labourer (Category -II) :- A person who works in another person's land for wages in money or kind or share and does not have any lease or contract on the land on which he or she works is an agricultural labourer. In this case too, the crops grown on the lands are quite pertinent and the difference between a cultivator and an agricultural labourer lies in the fact that the former works on his own or leased in lands as an independent worker while the latter works for wages having no right whatsoever on the lands on which he works. The sex-wise break-up of such workers is given in these two columns.

COLUMNS 24 AND 25 : Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities (Category - III) :- A sex-wise break up of the workers who were mainly engaged in activities connected with livestock rearing, forestry

and logging, hunting, fishing, plantations, orchards etc., is given under these columns.

COLUMNS 26 AND 27 : Mining and Quarrying (Category - IV) :- A sex-wise break up of the workers mainly engaged in activities connected with mining and quarrying is given under these columns.

COLUMNS 28 AND 29 : Manufacturing, Processing, Servicing and Repairs - Household Industry (Category - V[a]) :- Household industry belongs to the broad category of 'manufacturing, processing, servicing and repairs' and represents a particular sector therein. Household industry is generally conducted by the head of household himself or herself and or mainly by the members of the household, at home or within the village in the case of those dwelling in rural areas and only within the residential premises occupied by the household in the case of those living in urban areas. A person may be a labourer or a petty employee in the household industry run by some other household. By and large the household industry is carried on by individuals on a small scale with or without the assistance of family members all of whom work as unpaid family workers and the entire earnings are treated as family income.

COLUMNS 30 AND 31 : Manufacturing, Processing, Servicing and Repairs - Non-household Industry (Category - V[b]) :- A sex-wise break up of the workers who were engaged in manufacturing, processing, servicing and repair activities in establishments which do not qualify to be classified as household industry as defined above {category V(a)} is given here.

COLUMNS 32 AND 33 : Construction (Category-VI) :- Workers engaged in construction, maintenance, upkeep, repair and similar activities of buildings, roads, railways, bridges, dams, canals, electrical and water supply installations, communication systems etc., are shown under this category.

COLUMNS 34 AND 35 : Trade and Commerce (Category - VII) :- In these two columns the number of male and female workers engaged in wholesale or retail trade in goods or engaged in dealing with insurance, stocks and shares, banking and financial institutions etc., either as proprietors or in any other capacity are indicated.

COLUMNS 36 AND 37 : Transport, Storage and Communications (Category - VIII) :- A sex-wise breakup of the workers in establishments such as railways, road transport, transportation by water-ways or by air, postal and telegraphs, telecommunications etc., which are engaged in transport, storage and communication activities is given in these columns.

COLUMNS 38 AND 39 : Other Services (Category - IX) :- This residuary category includes employees of the Central and State Governments, local bodies and other organisations and institutions engaged in educational, scientific, medical and health services, religious and welfare services, community services, recreational services, personal services and other miscellaneous activities not covered in the 8 categories specified above.

COLUMNS 40 AND 41 : Marginal Workers :- Males and females who are workers but have worked for less than 183 days during the reference year are reported under these two columns. Such workers, irrespective of the economic sector in which they work, are considered together and reported here.

COLUMN 42 AND 43 : Non-workers :- Irrespective of age and sex, all those who are not economically active are non-workers and a sex-wise break-up of such persons is given in these two columns. The aggregate of the main workers, marginal workers and non-workers would be equal to the total population of that unit.

NOTE :

1. The area figure for the district given under column No.4 against "Total" represents "Geographical Area" and has been furnished by the Surveyor General India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D.Blocks/Taluks in the district will not tally with the district figures (except urban), because the area figures for C.D.Blocks/Taluks represent the land-use area based on villagewise area figures as reported by the Local Officers. The total area of the taluk may not tally with the aggregate of the areas of the villages listed for census purposes for it includes the area of the statutory as well as non-statutory towns, villages which may be fully submerged and reserve forests which may not form part of any revenue village, if any, within the jurisdiction of the concerned taluk. The total area of the C.D.Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2. Outgrowths of towns in urban agglomerations are denoted by letter "OG".

3. The following abbreviations have been used to indicate the Civic Administration Status of town :

MC : Municipal Corporation
CMC : City Municipal Council
TMC : Town Municipal Council
NAC : Notified Area Committee
CB : Cantonment Board
SB : Sanitary Board
MP : Mandal Panchayat
NMCT : Non-Municipal Census Town

BHADRAVATI C.D.BLOCK

Note :

The following revenue villages of Bhadravati Taluk which had been assigned Location Code Numbers have since been classified as Outgrowths of Bhadravati Urban Agglomeration.

L.C.No.	Name of the Village
2.	Kadadakatte
14.	Sigebagi
16.	Kavalgundi
17.	Kodihalli
43.	Bommanakatte
145.	Kabalikatte
146.	Kanakatte

Hence these villages do not find a mention in the Alphabetical List of Villages as well as the Primary Census Abstract Statement. This explains the gap in the Location Code Numbers noticed in the List of Villages and the PCA Statement of Bhadravati C.D.Block. These units, however, appear in the urban category as part of Bhadravati Urban Agglomeration.

SHIMOGA C.D.BLOCK

Note :

The following revenue villages of Shimoga Taluk which had been assigned Location Code Numbers have since been classified as Outgrowths of Shimoga City.

L.C.No.	Name of the Village
1.	Shimoga
5.	Gopala
7.	Mandali
35.	Kallahalli
37.	Venkatapura
38.	Navile
39.	Mulkère
124.	Islapura
132.	Harige

Hence, these villages do not find a mention in the Alphabetical List of Villages as well as Primary Census Abstract Statement. This explains the gap in Location Code Numbers noticed in the List of Villages and PCA Statement of Shimoga C.D.Block.These units however appear in the urban category as part of Shimoga Urban Agglomeration.

APPENDIX II

List of Scheduled Castes and Scheduled Tribes as per the Scheduled Castes and Scheduled Tribes orders (Amendment) Act, 1976, (No. 108 of 1976 dated the 18th September, 1976) adopted for the 1991 Census.

SCHEDULED CASTES

1. Adi Andhra
2. Adi Dravida
3. Adi Karnataka
4. Adiya (in Coorg District)
5. Ager
6. Ajila
7. Anamuk
8. Aray Mala
9. Arunthathiyar
10. Arwa Mala
11. Baira
12. Bakad
13. Bant (in Belgaum, Bijapur, Dharwar and North Kanara districts)
14. Bakuda
15. Balagai
16. Bandi
17. Banjara, Lambani
18. Bathada
19. Beda Jangam, Budga Jangam
20. Bellara
21. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
22. Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Muchi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar
23. Bhovi
24. Bindla
25. Byagara
26. Chakkiliyan
27. Chalavadi, Chalvadi, Channayya
28. Chandala
29. Chenna Dasar, Holaya Dasar
30. Dakkal, Dokkalwar
31. Dakkaliga
32. Dhor, Kakkayya, Kankayya
33. Dom, Dombara, Paidi, Pano
34. Ellamalwar, Yellammalawandlu
35. Ganti Chores
36. Garoda, Garo
37. Godda
38. Gosangi
39. Halleer
40. Halsar, Haslar, Hulasvar, Halasvar
41. Handi Jogis
42. Hasla
43. Holar, Valhar
44. Holaya, Holer, Holeya
45. Holeya Dasari
46. Jaggali
47. Jambuvulu
48. Kadaiyan
49. Kalladi
50. Kepmaris
51. Kolupulvandlu
52. Koosa
53. Koracha
54. Korama
55. Kotegar, Metri
56. Kudumban
57. Kuravan
58. Lingader
59. Machala
60. Madari
61. Madiga
62. Mahar, Taral, Dhegu Megu
63. Mahyavanshi, Dhed, Vankar, Maru Vankar
64. Maila
65. Mala
66. Mala Dasari
67. Mala Hannai
68. Mala Jangam
69. Mala Masti
70. Mala Sale, Netkani
71. Mala Sanyasi
72. Mang, Matang, Minimadig
73. Mang Garudi, Mang Garodi
74. Manne
75. Masthi

76. Mavilan
77. Meghval, Menghvar
78. Moger
79. Mukri
80. Mundala
81. Nadia, Hadi
82. Nalkadaya
83. Nalakeyava
84. Nayadi
85. Pale
86. Pallan
87. Pambada
88. Panchama
89. Panniandi
90. Paraiyan, Paraya
91. Paravan
92. Raneyar
93. Samagara
94. Samban
95. Sapari
96. Sillekyathas
97. Sindhollu, Chindollu
98. Sudugadu Siddha
99. Thoti
100. Tirgar, Tirbanda
101. Valluvan

SCHEDULED TRIBES

1. Adiyan
2. Barda
3. Bavacha, Bamcha
4. Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
5. Chenchu, Chenchwar
6. Chodhara
7. Dubla, Talavia, Halpati
8. Gamit, Gamta, Gavit, Mavchi, Padvi, Valvi
9. Gond, Naikpod, Rajgond
10. Gowdalu
11. Hakkipikki
12. Hasalaru
13. Irular
14. Iruliga
15. Jenu Kuruba
16. Kadu Kuruba
17. Kammara (in South Kanara District and Kollegal Taluk of Mysore District)
18. Kaniyan, Kanyan (in Kollegal Taluk of Mysore District)
19. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
20. Kattunayakan
21. Kokna, Kokni, Kukna
22. Koli Dhor, Tokre Koli, Kolcha, Kolgha
23. Konda Kapus
24. Koraga
25. Kota
26. Koya, Bhine Koya, Rajkoya
27. Kudiya, Melakudi
28. Kuruba (in Coorg District)
29. Kurumans
30. Maha Malasar
31. Malaikudi
32. Malasar
33. Malayekandi
34. Maleru
35. Maratha (in Coorg District)
36. Marati (in South Kanara District)
37. Meda
38. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
39. Palliyan
40. Paniyan
41. Pardhi, Advichincher, Phanse Pardhi
42. Patelia
43. Rathawa
44. Sholaga
45. Soligaru
46. Toda
47. Varli
48. Vitolia, Kotwalia, Barodia
49. Yerava

Appendix III - PUBLICATION PLAN

The 1991 Census tables will be published in 33 separate series of volumes for All - India and for each State and Union Territory. The publication series is as follows:

Series No.

1. INDIA

States

2. Andhra Pradesh
3 Arunachal Pradesh
4. Assam
5. Bihar
6 Goa
7 Gujarat

In each of these series (for all - India and each State Union Territory) the different series of tables (A Series - General Population Tables, B Series General Economic Tables, etc.,) will be brought out as different Parts Apart from these, District Census Handbooks will be published for each district in the country These will contain the PCA data for the district, the village and town primary census abstract and the village and town directories. The latter comprise compilations of statistics, external to census relating to the villages and towns, which in conjunction with census data will be very useful to data users.

For all - India and for each State and Union Territory, the census tabulations and reports will be published according to the following plan.

Part No. and subject covered	Sub-part No. if any, and the topics covered
1	2
Part I - Administration Report (for Office use only)	Part I-A - Administration Report Enumeration
	Part I-B - Administration Report Tabulation
Part II - General Population Tables	Part II-A - General Population Tables - A-Series
	Part II-B - Primary Census Abstract
Part III - General Economic Tables	Part III-A - B-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
	Part III-B - B-Series tables of second stage which will be brought out on full count. The data relating HHI, OW, Marginal Workers and Non-workers seeking/available for work will be entered on full count basis.

Part IV - Social and Cultural Tables	Part IV-A - C-Series tables of first stage covering age, sex and marital status, composition of population, single year age returns, educational levels, school attendance and bilingualism.
	Part IV-B - C-Series tables covering mother tongue, religion of population and household composition.
Part V - Migration Tables	Part V-A - D-Series tables of first stage covering tables based on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
	Part V-B - D-Series tables of second stage covering occupational classification of migrant workers. These tables are based on full count.
Part VI - Fertility Tables	F-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
Part VII - Tables on Houses and Household Amenities	H - Series tables covering census houses and the uses to which these are put, construction material of wall, roof and floor of the census houses occupied by households, tenure status of the house occupied and number of living rooms, household size, housing facilities like drinking water, electricity and toilet available to households and the fuel used by the household for cooking. These tables will also cover tables on Scheduled Castes and Scheduled Tribes. This volume will contain analytical notes also.
Part VIII - Special Tables on Scheduled Castes and Scheduled Tribes	This part will contain SC and ST series of tables for Scheduled Castes and Scheduled Tribes respectively. The data relating to Scheduled Castes and Scheduled Tribes will be entered on full count basis in the third stage and SC/ST tables will be processed on the computer on full count. These will cover population of each Scheduled Caste/Tribe, industrial categories of main and marginal workers, non-workers seeking/available for work and those who never worked before, educational level, school attendance, age, sex and marital status, composition of Scheduled Castes and Scheduled Tribes. In addition to these, the fertility tables relating to SC/ST are also covered. These tables also cover for Scheduled Tribes, their composition by religion, mother tongue and bilingualism.
Part IX - Town Directory, Survey Report on Towns and Villages	Part IX - A - Town Directory
	Part IX - B - Survey Report on selected Towns
	Part IX - C - Survey Report on selected Villages

Part X	Ethnographic notes and special studies on Scheduled Castes and Scheduled Tribes
Part XI - Census Atlas	Union and State/Union Territory Census Atlases
Part XII - District Census Handbook	Part XII - A - Village and Town Directory
	Part XII - B - Village and Town wise Primary Census Abstract

The following special papers are also planned and will be published as and when they are ready as 1991 Census papers :

(a) Special studies taken up by the Directors of Census Operations

(b) Special Areas Surveys

(c) Special Tables for Standard Urban Areas

(d) Language Survey Reports

(e) Post Enumeration Check Report

(f) Age Tables

(g) Life Tables

(h) Reports on estimates of inter-censal birth and death rates using 1981-1991 life tables and age data

(i) Development of Vital Statistics in India

Besides these special papers, some monographs based on 1991 Census data on subjects of topical interest to be prepared by scholars will be brought out as 1991 Census monographs.

It is also proposed to carry out some special studies of 1991 Census data in collaboration with other organisations and the results of such studies will be published as occasional papers of the 1991 Census.

It is also proposed to disseminate census tabulations and the basic data in machine readable forms such as magnetic tapes, diskettes, floppies, etc.

The District Census Handbooks will be available for sale at the Government Central Press, Bangalore and the other publications at the Office of the Director of Census Operations, Karnataka, Bangalore and the Manager of Publications, Civil Lines, New Delhi - 6.
