PREFACE

In Karnataka as in the rest of the country, the 1991 Census of Population, the thirteenth Census as reckoned from the year 1872 was conducted in February-March, 1991 with the sunrise of 1st March, 1991 as the reference point of time. The provisional results based on the figurues compiled by the Census enumerators were released on April 8, 1991 for Karnakata State with the publication of "Paper I of 1991 - Karnataka" and another publication viz., "Supplement to Paper-1 of 1991 - Provisional Population Totals" was released later, on June 18, 1992. The final population figures for Karnataka State were released through a Brochure 'Final Population Totals : Scheduled Castes and Scheduled Tribes' on January 20, 1993.

The massive data collected in the Census are tabulated manually and also on the computer and the cross classified Census data, a wealth of valuable information on the demographic, social and economic facets of the people of the state are published through a number of volumes. Of these, Part II-A: General Population Tables - A series and Part II-B : Primary Census Abstract are the most important as they provided the basic population data of the 1991 Census based on full count.

For convenience, Part II-B is being published in two volumes viz., Part -II B (i) and Part-II B (ii). Part II-B(i) contains Primary Census Abstract for the General Population. Part II-B (ii) the present volume, presents the Primary Census Abstract for Scheduled Castes and Scheduled Tribes Population down to CD Blocks and town level.

Ms. Sobha Nambisan, IAS, the Director of Census Operations, Karnataka, (01.02.1989 to 26.02.1993) under whose supervision and guidance the entire 1991 Census operations were carried out deserves all credit for its success. She had to leave the Census Organisation to take up other important assignments with the State Government, before the volume could be sent to the press.

I gratefully acknowledge the valuable advice and guidance received from Sri. A.R. Nanda, IAS, former Registrar General, India, Dr. M. Vijayanunni, IAS, Registrar General, India, Sri, S.P. Sharma, Deputy Registrar General (C&T). I also thank Sri. V.P. Rushtagi, Deputy Director, Census Division (now Joint Director) and his colleagues who scrutinised the PCA tables.

The arduous task of scrutiny and compilation of Primary Census Abstract and preparation of write ups was accomplished in the Census and Tabulation Section by Sri. S.R. Raghavendra Rao, ADCO(T) assisted by Sri. V. Thippa Setty, Investigator and his team of zealous workers. I thank each one of them for their great assistance. The maps included in this volume were prepared under the guidance of Smt. Mangala, Senior Geographer. The translation of the write up portion from English to Hindi was done by Sri B.C. Das, Senior Hindi Translator of this Directorate. The Services of Sriyuths G.R. Suresh and N.K. Ravishankar, Data entry Operators, Grade 'B' who prepared the bilingual manuscript of the SC/ST PCA on the PC 286/386 installed in this Directorate are gratefully acknowledged. The names of officers under whose supervision and guidance the compilation were carried out in the Regional Tabulation Offices and the names of other members of the staff closely associated in bringing out this publication are given separately. I thank all of them.

I am also thankful to Sri. Venkatesan, State Informatics Officer and Sri P. Krishna Prasad, Principal Systems Analyst, National Informatics Centre and their colleagues for providing necessary help in the computerisation of the SC/ST Primary Census Abstract.

I gladly place on record my thanks to The Manager, Government of India Text Book Press, Mysore and other concerned officers/staff of the press for the personal attention they took at every stage of printing of this publication.

I hope this publication which presents the socio-economic aspects of the Census data for Scheduled Castes and Scheduled Tribes population will be useful to the administrators, planners, demographers, economists, researchers and other data users.

S. RAJENDRAN
Joint Director of Census Operations,
Karnataka

INTRODUCTION

The 1991 Census enumeration was conducted in Karnataka, as in the rest of the Country during February 9-28, 1991 with reference point of time as the sunrise of March 1, 1991. A revisional round was conducted between March 1-5, 1991 to update the population as at the sunrise on March 1, 1991. The 1991 census enumeration was infact the second phase of the 1991 Census Operations. The first phase namely the Houselisting Operations was held during April-May 1990. The third Economic Census sponsored by the Central Statistical Organisation, Government of India, was integrated with the Houselisting Operations. Thus, during the Houselisting Operations along with the Houselist schedule another schedule namely, Enterprise List also was canvassed on behalf of the Central Statistical Organisation.

The data collected through the Enterprise List were processed by the Central Statistical Organisation. The data collected through the Houselist have been tabulated and the H-Series tables which present data on houses and household amenities are published in Part-VII-Tables on Houses and Household Amenities, of the 1991 Census Publication Plan.

During the 1991 Census enumeration, two schedules namely, the Household Schedule and the Individual Slip were canvassed. Besides, on behalf of the Council of Scientific and Industrial Research (C.S.I.R.) a Post-Graduate Degree Holder and Technical Personnel Schedule, in the form of an inland letter addressed to C.S.I.R., also was issued by the Census Enumerator to each post-graduate and to those persons with a technical degree or technical diploma or certificate from the Industrial Training Institute (I.T.I.) with a request to fill up the Schedule and return the filled in schedule to the addressee (C.S.I.R.) by mail or to the enumerator. The data collected through this schedule in respect of these personnel were processed by that organisation. Specimen of each of these three above mentioned schedules is given in Annexure-1.

Immediately after the revisional round of the census enumeration, on the basis of the abstracts prepared by the enumerators for the enumeration blocks, population totals for various levels such as the taluk/CD Block, town, city, district etc., were quickly compiled with the objective of making available the population data to the data users with the least possible delay. On the basis of these figures the provisional population figures for the country were released on March 25, 1991 by the Registrar General and Census Commissioner, India followed by the Directors of Census Operations of the States/Union Territories (UTs).

For the State of Karnakata, two publications namely, Paper 1 of 1991 - Provisional Population Totals and subsequently, Supplement to Paper 1 of 1991 - Provisional Population Totals were brought out. The paper 1 of 1991 which was releaed on 8th April 1991 presented provisional figures of the population and literates by sex for the State and the districts, and for the cities/Urban Agglomerations having a population of one lakh and more. In the Supplement to paper 1 of 1991 provisional figures relating to (i) population and literates by sex down to taluk and town level and (ii) total workers, main workers and marginal workers and further distribution of main workers into cultivators, agricultural labourers, workers in Household industry and other workers were presented. This publication was released on 18th June 1992.

The Household Schedule and the Individual Slips filled in by the enumerators during the census enumeration were processed in the eight Regional Tabulation Offices established in the State. As in the 1981 census, the Individual Slip pads were retained intact without breaking them up and the Household Schedules were used to obtain the aggregated information about the households.

In the Regional Tabulation Offices, the Households Schedules and the Individual Slips were processed and the Primary Census Abstracts were compiled according to the procedure laid down in the "Manual for compilation of Primary Census Abstract". The procedure followed is briefly indicated below :

The first task that was done was to apply certain basic edit checks and match the information recorded in the Household Schedule and the Individual Slip to ensure consistency. The entries relating to Sl. No. and name, relationship to head, sex, age and marital status in the Household Schedule were verified and edited to ensure consistency. The entries against questions 1 to 5 of the Individual Slip were matched with these edited and corrected entries and were suitably corrected wherever necessary. Thereafter, entries against questions 6, 8, 9 and 10 of the Individual Slip, namely Mother tongue, Religion, whether S.C. or S.T. and Name of the Scheduled Caste/Tribe were edited and matched with the corresponding entries in the Household Schedule. If the entries in the Household Schedule were different from those in the Individual Slip, entries in the Household Schedule were corrected on the basis of the corresponding entries in the Individual Slips. The names of the Scheduled Castes (SC) and Scheduled Tribes (ST) were checked to ensure that they were in conformity with the names in the Presidential Order and the judgements of the Supreme Court or High Court with regard to the synonyms or equivalent names.

Similarly, the entries against question 11 (Literate/Illiterate) and economic questions 14 A to 15 B of the Individual Slip were edited and the Industrial category code was assigned to the main activity of the

workers in question 15 A. These edited entries in the individual slips were matched with the corresponding entries in the Household Schedule and the entries in the latter were corrected where necessary with reference to the entries in the former. The industrial Category Code was also copied in Column 33 of the Household Schedule where applicable from the individual slip. Thereafter, the totals in the Household Schedule i.e., the last line which gives the aggregated information about the household were edited and firmed up. Besides, population by sex in age-group (0-6) for total population, SC population and ST population, number of SC or ST members by sex and number of males and females in various industrial Categories based on entries in column 33 of the Household Schedule, marginal workers and non-workers were compiled in the Household Schedules for each household. The aggregated figures for the households in the Household Schedules were posted on to a Block Compilation Sheet and totals struck for the blocks. By means of Master Primary Census Abstract wherein the blockwise figures were posted against the corresponding villages or wards arranged in the order of the location codes, the figures for villages in case of rural areas and for the wards in case of urban areas were obtained. Finally Urban/Village Primary Census Abstract which presents village-wise data for the rural areas and ward-wise data for the urban units was compiled. The Urban/Village Primary Census Abstract at the C.D. Block level is presented in Part XII-District Census Hand Book of the 1991 Census Publication Plan.

The Primary Census Abstract data at the village/ward level have also been computerised and these data are available on the NICNET for the data users. This data can also be obtained by the data users from the Office of the Registrar General, India or from the Directorates of the census operations of the State/UTs on floppies or in the form of printouts.

The state Primary Census Abstract is abstracted from the Urban/Village Primary Census Abstract and presents figures for the general population for the State. District and C.D. Block with total, rural and urban break up and for towns, cities and urban agglomerations. Similarly, separate State Primary Census Abstracts are also prepared for Scheduled Castes Population and Scheduled Tribes Population. These Primary Census Abstracts referred to above are compiled by processing the Household Schedules and Individual Slips on a full count basis.

The Part-II of the Publication Plan of the 1991 Census presents the General Population Tables which are prepared on a full count basis. The part II is published in two parts namely, Part-II A - General Population Tables - A Series and Part-II B - Primary Census Abstract.

The Part II-A which contains Tables A-1 to A-5 and their Appendices is brought out as a separate publication.

The Part-II B for convenience is brought out in two volumes. The Part II-B (i), the predecessor to this volume contains the State Primary Census Abstract for the General Population. This volume, Part II-B (ii) presents the Primary Census Abstracts for the Scheduled Castes Population and the Scheduled Tribes Population.

The Primary Census Abstracts for Scheduled Castes/Scheduled Tribes, an innovation of the 1981 census are presented on the pattern of Primary Census Abstract for General Population with suitable modifications. In 1961 and 1971 such statistics were available in Table C- VIII : Part A/B : Classification by literacy and industrial category of workers and non-workers according to main activity among Scheduled Castes/Tribes and to some extent to Special Tables for Scheduled Castes/Scheduled Tribes.

The Primary Census Abstracts for Scheduled Castes and Scheduled Tribes presented separately in this volume gives the number of households with Scheduled Castes/Scheduled Tribes members, total population of Scheduled Castes/Scheduled Tribes, their population in the age-group (0-6), number of literates, main workers classified by 9 broad industrial categories, marginal workers and non-workers by sex.

Various terms and definitions adopted in the Census and used in the Primary Census Abstract for Scheduled Castes/Scheduled Tribes presented in this publication are described hereunder.

SCHEDULED CASTES AND SCHEDULED TRIBES

In the Indian censuses prior to 1931, information was collected and published for each caste or tribe separately. In the 1931 census, tabulation of data for individual communities was limited to : (i) Exterior castes (ii) Primitive castes and (iii) all other castes with the exception of (a) those whose members fell short of four per thousand of the total population and (b) those for which separate figures were deemed to be unnecessary by the local government.

In the 1941 census, 'Group totals' were tabulated for Scheduled Castes/Tribes and Anglo-Indians. Separate totals were furnished only for a few selected individual tribes.

When preparation for the 1951 census was undertaken, the Government of India had already accepted the policy of official discouragement of community distinctions based on caste. They decided, therefore, that no general race, caste or tribe enquiries should be made but an enquiry should be made regarding race, caste or tribe only to the extent necessary for providing information relating to certain special group of people who are referred to in the Constitution of India. The relevant Articles are extracted below :

Scheduled Castes

341 (1) : The President may with respect to any

State, and where it is a State specified in Part-A or Part-B of the First Schedule, after consultation with the Governor or Rajpramukh thereof, by public notification, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of this Constitution be deemed to be Scheduled Castes in relation to that State.

341 (2) : Parliament may by law include in or exclude from the list of Scheduled Castes specified in a notification issued under clause (1) any caste, race or tribe, or part of or group within caste, race or tribe, but save as aforesaid a notification issued under the said clause shall not be varied by any subsequent notification.

Scheduled Tribes

342 (1) : The President may with respect to any State, and where it is a State specified in part A or Part B of the First Schedule, after consultation with the Governor or Rajpramukh thereof, by public notification, specify the tribes or tribal communities or parts of groups within tribes or tribal communities which shall for the purposes of this Constitution be deemed to be Scheduled Tribes in relation to that State.

342 (2) : Parliament may by law include in or exclude from the list of Scheduled Tribes specified in a notification issued under clause (1) any tribe or tribal community or part of group within any tribe or tribal community, but save as aforesaid a notification issued under the said clause shall not be varied by any subsequent notification.

From the 1951 census onwards the census questionnaire contains items of enquiry to ascertain whether the respondent belongs to a Scheduled Caste or a Scheduled Tribe and if yes, the name of the Scheduled Caste/Tribe to which he belongs with a view to collect information for discharging the Constitutional obligations towards these communities. In the Individual slip of the 1991 census as in the Individual slip of 1981 census, question 9 makes an enquiry about the Scheduled Caste or Scheduled Tribe status and question 10 about the name of the specific Scheduled Caste/Tribe.

The statutory lists of Scheduled Castes and Scheduled Tribes are notified in pursuance of Articles 341 and 342 of the Constitution. The list of Scheduled Castes and Scheduled Tribes were notified for the first time under the Constitution (Scheduled Castes) Order, 1950 and the Constitution (Scheduled Tribes) Order, 1950. These lists have been modified or amended or supplemented from time to time. On the reorganisation of the States, the Scheduled Castes and Scheduled Tribes lists (Modification), Order came into force from 29th October, 1956. Thereafter, a few orders specifying Scheduled Castes/Tribes in respect of a few individual States also came into force. Later, in 1976 the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act 1976, came into force. The main purpose of this Amendment Act was to remove area restrictions in respect of most of the Scheduled Castes and Scheduled Tribes.

With the passing of the Constitution (Scheduled Castes) Orders (Amendment) Act 1990, Scheduled Castes can belong to Hindu, Sikh or Buddhist religion. Earlier however, the religion of the Scheduled Castes could be one of the two religions viz., Hinduism or Sikhism. No such amendment was required in respect of Scheduled Tribes as they can belong to any religion.

The list of Scheduled Castes and Scheduled Tribes adopted for the 1991 census was as amended under the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976 (No. 108 dated the 18th September, 1976) and Constitution (Scheduled Castes) Orders (Amendment Act, 1990. Each enumerator was furnished with this list of Scheduled Castes and Scheduled Tribes to facilitate the enumerator to ascertain and to record the name of the Scheduled Caste or Scheduled Tribe correctly, after making necessary enquiries with the respondent. If the person enumerated belonged to a Scheduled Caste or a Scheduled Tribe, the name of the Scheduled Caste/Tribe was recorded as returned by him/her. If the person belonging to a Scheduled Caste or a Scheduled Tribe returned his/her caste or tribe by a synonym or generic name of a caste or a tribe, he/she was reckoned as Scheduled Caste or Scheduled Tribe only if the name found place in the list furnished to the enumerator. The general terms, like Harijan/Girijan or Achhut/Adivasi were not reckoned as belonging to Scheduled Caste or Scheduled Tribe as the case may be. In such cases the name of the caste/tribe, was ascertained fully and if that name found place in the list furnished to the enumerator he/she was treated as Scheduled Caste/Scheduled Tribe as the case may be. If a person merely claimed to be a Scheduled Caste or Scheduled Tribe, but said that he/she did not belong to any of the notified communities applicable to the area, as reflected in the list supplied to the enumerator, he/she was not reckoned as belonging to a Scheduled Caste or a Scheduled Tribe. Besides, for a person claiming to be a Scheduled Caste, by virtue of the above mentioned amendment he or she must have belonged to either Hindu or Sikh or Buddhist religion.

A list of Scheduled Castes and Scheduled Tribes applicable to Karnataka is given in Annexure-2.

Community Development Block

For the first time in the 1991 census the data in the Primary Census Abstract are presented for the Community Development Block (C.D. Block) instead of for the traditional revenue administrative unit viz., taluk. In Karnataka, the C.D. Blocks were converted into Taluk Panchayat Samithis under the Karnataka Zilla Parishads, Taluk Panchayat Samithis, Mandal Panchayats and Nyaya Panchayats Act, 1983 with effect from April 1st, 1987. However, in presenting the Primary Census Abstract the

term C.D. Block is used instead of Taluk Panchayat Samithi for the sake of uniformity and convenience.

In Karnataka, the C.D. Blocks or the Taluk Panchayat Samithis bear the same name as that of the revenue administrative taluks concerned and their jurisdiction is co-terminous with the taluks concerned but excludes places served by local bodies such as the Municipal Corporation, Municipal Councils, Sanitary Board, Notified Area Committee and Cantonment Board.

Rural and Urban Area

It has been the tradition in the census to present data by rural and urban areas. A revenue village which has definite surveyed boundary is considered the basic unit for the rural areas. In cases of forest tracts which do not form part of any revenue village, forest beats which have recognised boundaries, also are considered as the basic unit on par with the revenue village for the purposes of Census Operations. Where a portion of a revenue village is merged with a municipality, corporation etc., or submerged under an irrigation project, the remaining portion of the revenue village falling outside the municipality etc., or not submerged under an irrigation project is reckoned as a village for the census purposes.

For Census purposes, an urban area is defined as follows :

(a) All places with a municipality, corporation or cantonment board or notified town area ;

(b) All villages/compact project areas which satisfied the following criteria ;

  (i) A minimum population of 5,000

  (ii) Atleast 75 per cent of the male main workers engaged in non-agricultural pursuits :

  (iii) A population density of atleast 400 per sq. km.

(c) Discretion of the Director of census operations to include places though not satisfying the above criteria but had other distinct urban characteristics and to exclude certain areas which could not be considered as urban, in consultation with the State government.

The criteria for the urban unit adopted for the 1991 census are same as those adopted at the 1981 census.

Urban Agglomeration

The concept of Urban Agglomeration introduced at the 1971 Census to identify spatially contiguous Urban areas around a city or a statutory town and to present composite data for such urban spread is adopted for the 1991 census also as was done at the 1981 census. Large railway colonies, university campuses, military camps, industrial townships etc., situated outside but adjoining the statutory limits of a city or town may not qualify to be treated as towns in their own right but, as they are appendages of the city or town, forming a continuous urban spread together with the town, they are treated as outgrowths of the city or town and hence as urban. The town or city together with their outgrowths is treated as one urban unit and is called Urban Agglomeration. An Urban Agglomeration can be constituted in varying situations as indicated below :

(a) A city with continuous outgrowth (the part of outgrowth being outside the statutory limits but falling within the boundaries of the adjoining village or villages).

(b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a) ; or

(c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, *ashrams* etc,. These are called 'Institutional Households. There may be one member households, 2 member households or multimember households. For Census purposes, each of these types is regarded as a 'Household'.

All persons in all the households living in the census house including institutional households were enumerated between February 9, 1991 and February 28, 1991. On the night of February 28, 1991 all the houseless persons such as those who were found to be residing on the road side, pavements, in the hume pipes, under the stair cases or in the open, temples, *Mandaps*, platforms and the like were enumerated.

The total number of households with SC/ST members presented under column 4 of the Primary Census Abstract also includes the figures of those Institutional households and houseless households with SC or ST members as the case may be.

Similarly, the population figures presented in columns 5, 6 and 7 and figures presented in other columns of the Primary Census Abstract include figures of Institutional and Houseless Population also.

Literate : "A person who can both read and write" with understanding in any language is to be taken as literate. A person who can merely read but cannot write is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard".

The test that was applied for reading was the ability to read any portion of the printed matter in the enumerator's instruction booklet (provided the person was familiar with the language used in the booklet) and the test for writing was the ability to write a simple letter. Ability to merely sign one's name was not adequate to qualify a person as being able to write with understanding. If a person claimed to be literate in some other language with which the enumerator was not acquainted, the respondent's word was taken as correct. If other members of the household testified that the person being enumerated was a literate, it was accepted.

All children of the age of 6 years or less were treated as illiterates even if the child was going to a school and had picked up reading and writing a few odd words.

In the previous censuses, the children in age-group (0-4) were considered as illiterates by definition. At the time of preparation for the 1991 census, the Department of Education in the Ministry of Human Resources Development and the Planning Commission desired that in the 1991 census, Children in age-group (0-6) should be considered as illiterates since the ability to read and write with understanding is not generally achieved specially in the rural areas, until a child attains the age of 7 or more. Accordingly, in the 1991 census, Children of the age of 6 years or less were considered as illiterates even if the child was going to school and might have picked up reading and writing a few odd words.

The population figures of those so classified as illiterates by definition on the criterion of the age of the respondent i.e., Children in the age-group (0-6) are also presented in the Primary Census Abstract for the first time in the 1991 census. This is done to facilitate computation of actual literacy rates by excluding the population in age-group (0-6) from the total population.

The figures of Children in age-group (0-6) are presented under columns 8 to 10 of the Primary Census Abstract for SC/ST.

Economic Activity :

The Primary Census Abstract presented here generally follows the pattern adopted in the 1961 and 1971 censuses and the workers are classified into 9 industrial categories as indicated below :

Category	Description
I	Cultivators
II	Agricultural Labourers
III	Livestock, Forestry, Fishing, Hunting and Plantations, Orchards & allied activities
IV	Mining and Quarrying
V(a)	Manufacturing, Processing, Servicing and Repairs in Household Industry
V(b)	Manufacturing, Processing, Servicing and Repairs in other than Household Industry
VI	Construction
VII	Trade and Commerce
VIII	Transport, Storage & Communications and
IX	Other Services.

At the 1981 census, figures for categories III, IV, V(b), VI, VII, VIII and IX had not been separately given but had been clubbed and presented as Other Workers.

The information about the economic activity of the person was collected at the 1991 census through 3 questions having sub-parts contained in the Individual Slip and these questions are reproduced below.

14A Did you work any time at all last year ? — Yes / No (H/ST/D/R/B/I/O)

(Including unpaid work on farm or in family enterprise)

14B If 'Yes' in 14A, did you work for major part of last year ? — Yes (1) / No (2)

15A Main activity last year ? — 'Yes' in 14B (C/AL/HHI/OW) / 'No' in 14B (H/ST/D/R/B/I/O)

If HHI/OW in 15A

(i) Name of establishment .....

(ii) Nature of Industry, trade or service .....

(iii) Description of work .....

(iv) Class of worker.....

15B 'Yes' in 14B - Any other work any time last year? Yes (C/AL/HHI/OW)/No
'No' in 14B - Work done any time last year ? (C/AL/HHI/OW)

If HHI/OW in 15B

(i) Name of establishment .....
(ii) Nature of industry, trade or service .....
(iii) Description of work .....
(iv) Class of worker .....

16A If 'No' in 14A, seeking / available for work ? Yes (1)/ No(2)

16B If 'Yes' in 16A, have you ever worked before ? Yes (1)/No (2)

These economic questions of the 1991 census varied only slightly as compared to those adopted at the 1981 census. The concepts and definitions relating to economic questions in general and 'Work' in particular adopted in the 1981 census were retained for the sake of comparability. In order to ensure that the economic activities of persons, especially, women and children engaged in unpaid work on farm or in family enterprise is properly netted, the instructions to census enumerators were expanded and emphasis was laid on the need to ask probing questions regarding the work done at any time at all last year or in any of the seasons in the reference period in case of women and children. To make the scope of the question 14 A amply clear to the enumerator the words "including unpaid work on farm for in family enterprise" were incorporated in the Individual Slip itself.

The question on seeking/available for work was asked in the 1991 census in respect of non-workers only whereas this question was canvassed for both non-workers and marginal workers in the 1981 census. Further, in case of those seeking/available for work, a question whether they had ever worked before was asked to ascertain the number of fresh entrants to the labour force.

The economic questions were canvassed for every person irrespective of age or sex. Every person was asked whether he/she did work any time at all last year (Qn. 14A) i.e., during the reference period of one year preceding the date of enumeration and answer to this question was filled in. On the basis of the answer obtained for this question, the other questions viz., 14B, 15A, 15B and 16 were filled in as applicable. If the person reported that he/she did not work during the reference period of one year, the person was classified as a non-worker against 14A and Qns 16A and 16B were canvassed. On the other hand if the person had worked in the last year Qns. 14B, 15A and 15B were canvassed and details of work done by the persons were collected.

Definition of work :

Work was defined as participation in any economically productive activity. Such participation could be physical or mental in nature. Work involved not only actual work but also effective supervision and direction of work. It also included unpaid work on farm or in family enterprise.

Reference period :

In all the questions except Qn. 16B, the reference period was one year preceding the date of enumeration. Certain types of work such as agriculture, households industry like, *gur* making etc., are carried on either throughout the year or only during certain seasons or parts of the year, depending on the local circumstances. In such cases, the broad time span of the agricultural seasons preceding the date of enumeration was taken into consideration.

For Qn. 16B, the reference period was any time before one year preceding the date of enumeration.

Through Qn. 14A and 14B, it was sought to classify a person into one of the three main groups namely Main worker, Marginal worker and Non-worker.

Workers :

Those who had participated in any economically productive activity during the reference period irrespective of the quantum of their contribution to the economy were classified as workers.

Main Workers :

Main workers were those who had worked for the major part of the year preceding the date of the year preceding the date of enumeration i.e, those who were engaged in any economically productive activity for 183 days or more, or six months or more during the reference period of one year.

Marginal Workers :

Those who worked any time at all in the year preceding the date of enumeration but did not work for a major part of the year i.e., those who worked for less than 183 days or six months were classified as Marginal Workers.

As it was likely that a person might have worked in different capacities or had different economic activities during the year and the time spent in performing each different spells of economic activity might not be the same and there could even be breaks in between different types of work performed, probing questions were asked to elicit correct information.

In reckoning the work done, all different types of work done by the person in different capacities or different economic activities at different period of the year were taken into account and for determining whether a person worked for major part of the year i.e., 183 days and more, or for less than 183 days, the total aggregated period the person spent in doing the work even with breaks in between different spells of economic activities was computed, ignoring spells of inactivity, if any, in between the various activities. If the total period so computed fell short of 183 days, the person was classified as a marginal worker and on the otherhand if it was 183 days or more, the person was classified as Main Worker.

Through Qn.14A a person was classified either as a worker or non-worker after ascertaining whether a person has worked any time or had been non-worker throughout. For a person who had not worked at all during the reference period, one of the seven categories of non-workers viz., H/ST/D/R/B/I/O as applicable was entered against Qn. 14A after ascertaining how he or she spent his or her time. A person who had worked during the reference period viz., a worker, was further classified as a main worker or marginal worker in Qn.14B depending on whether the person worked for 183 days or more, or for less than 183 days during the year preceding the date of enumeration. For those who worked for major part of the year '1' was recorded against Qn.14B and details of the main activity in Qn15A and of any other work done if any, in Qn. 15B were entered. For those, who worked for less than 183 days, '2' was recorded against Qn. 14B and the main activity that is, one of the seven categories of the non-workers, as applicable, was entered against Qn.15A and details of the marginal work i.e., the economic activity performed for less than 183 days were recorded against Qn.15B.

Special emphasis had been laid down in the instructions issued to the enumerators for classifying a person as worker or non-worker in certain cases. How the classification was made in such cases is briefly indicated below.

A person who normally worked but was absent from work during the reference period on account of illness, holiday, temporary closure, strike etc., was treated as engaged in the work he/she would otherwise have been doing but for his/her temporary absence.

Persons under training such as apprentices, with or without stipends or wages were treated as workers.

A person who had merely been offered work but had not actually joined yet, was not treated as engaged in that work.

If a person was engaged in some economic activity, but at the same time attended also to some household chores or attended school, he/she was treated basically as a worker.

A person who merely received an income, such as a rent receiver or a pensioner who did not have to work for receiving the income, was not treated as economically active unless the person was also engaged for some part of the year in some economic activity. Similarly beggars, pensioners, receivers of agricultural or non-agricultural royalty or of rents or dividends who might be earning an income but who were not participating in any productive work were not treated as working.

A person who was engaged only in household duties and did no other productive work to augment the family resources was not considered as working. If however, this person engaged himself/herself in addition to the household duties in work such as rice pounding for sale or wages or in domestic services, for wages for others or mending cattle for wages or selling firewood or making and selling cowdung cakes or selling grass etc., or any other work including unpaid work in family enterprise or farm, the person was treated as a worker.

Production or making something by the member/s of the household solely for the domestic consumption and not for sale was not considered as work although such activity was productive according to the member/s of the household.

For an undertrial prisoner enumerated in a jail, the work he/she was doing before he/she was apprehended was recorded. But for convicts in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work was not recorded but 'I' was recorded. For census purposes, inmates of penal or charitable or mental institutions if detained for six months or more were treated as long term and 'I' was recorded for them.

A public or social service worker engaged in public service activity or a political worker engaged in furthering the political activity of his/her party was treated as worker. Such persons included members of Parliament, State Legislatures, Local Authorities, etc.

Workers, for purposes of recording the activity of the main worker in Qn. 15A, the activity of any other work done (other than one recorded against Qn. 15A, i.e. main activity) in Qn. 15B, and the activity of the marginal worker in Qn. 15B are classified into four broad Industrial Categories viz., C. AL, HHI and OW. These are briefly described below.

C : Cultivator :

For the purposes of census, a person was considered as cultivator if he or she was engaged either as employer, single worker or family worker in cultivation of land owned or held from private persons or institutions for payment in money, kind or share. Cultivation included supervision or direction of cultivation.

A person who had given out his/her land to another person or persons for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land, was not treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (agricultural labourer) was not treated as cultivator.

Cultivation involved ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc., and other crops such as sugar cane, groundnuts, tapioca etc., and pulses, raw jute and kindred fibre crop, cotton etc., and did not include fruit growing, vegetable growing or keeping orchards or groves or working on plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

AL : Agricultural Labourer :

A person who worked in an another person's land merely for wages in money, kind or share and had no risk in the cultivation was regarded as an agricultural labourer. An agricultural labourer had no right of lease or contract on land on which he/she worked.

HHI : Worker in Household Industry :

Household Industry was defined as an industry conducted by the head of the household himself/herself and/or by the members of the household, at home or within the village in rural areas and only within the precincts of the house where the household lived in urban area. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act.

The main criterion of a Household Industry was the participation of one or more members of a household. This criterion was applied in Urban areas too. Even if the industry was not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry was to be confined to the precincts of the house where the participants live. In Urban areas even if the members of the household ran an industry but at a place away from the precincts of their home, it was not considered as a Household Industry.

A Household Industry was one that was engaged in production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It did not include professions such as a Pleader, Doctor, Barber, Musician, Dancer, Waterman, Dhobi, Astrologer, etc., or merely trade or business, even if such activities were carried out at home by members of the household.

A list of few typical industries included in the instruction booklet issued to the enumerators is reproduced as Annexure-3.

OW : Other Workers :

All workers i.e., those who were engaged in some economic activity other than cultivation or agricultural labour or household industry were classified as "other workers-OW". The type of workers that come under this category of 'OW' included factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, etc.

Non-workers :

If an individual had not worked at all during the last year preceding the date of enumeration he or she was treated as a non-worker and 'NO' was recorded in Qn. 14A. For purposes of Qn. 14A, non-workers were categorised into one of the seven groups indicated below.

H : Household duties :

This category covered all persons who were engaged in unpaid household duties and who did no other work or had not done any work at all during the last one year.

ST : Students

This category covered all full time students including children attending school.

D : Dependents :

This category included all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age.. Even able bodied persons who could not be categorised in any other category of non-workers but were dependent on others were included in this category. However, if such persons who were dependent on others for subsistence were seeking work, they were categorised as 'O' rather than 'D'.

R : Retired persons or Rentiers :

A person retired from service and doing no other work, i.e. not employed again in some work or not engaged in some other work such as cultivation, business,

trade etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he/she did not have to work were covered under this category.

B : Beggars :

This category covered beggars, vagrants or persons without indication of source of income and those with unspecified sources of subsistence who were not engaged in any economically productive work.

I : Inmates of Institutions :

Convicts in jails or inmates of a penal, mental or charitable institutions, even if such persons performed some work such as carpentry, carpet weaving, vegetable growing etc., under compulsion in such institutions were classified under this category. But for an undertrial prisoner enumerated in jail, the work he/she was doing before he/she was apprehended was recorded. But for a long term undertrial prisoner or convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work was not recorded but 'I' was recorded. A person was considered as a 'long term' inmate if he or she was residing in such an institution for 6 months or more.

O : Other Non-Workers :

This category included all non-workers who were not covered under any of the above six categories but who were looking for work. A person who was merely spending his/her time at home as a dependent and was not doing any work and was not seeking any work was categorised as 'D' rather than 'O'. All persons irrespective of age and whether educated or not reporting that they were not engaged in any other activity but were seeking work were classified as 'O'.

Classification of Workers into Industrial Categories:

In the Individual Slips, the workers were classified into 4 broad groups, viz., C, AL, HHI and OW as described in the foregoing paras. However for purposes of preparing the Primary, Census Abstract 'Workers' were required to be classified into 9 Industrial Categories already mentioned.

The categorisation of workers made by the enumerator in the Individual Slips as C, AL and HHI in Qn. 14A corresponded to Industrial Category I, II and V(a) of the Primary Census Abstract and hence required no further consideration. However, the workers, categorised as 'other workers' in Qn. 15A had to be identified with one of the other Industrial Categories. This was done in the Regional Tabulation Offices by referring to the information recorded in Qn.15A(ii). The Industrial Category Code III, IV, V(b), VI, VII, VIII or IX as the case may be so assigned was entered on the left side of the Qn. 15A in the Individual Slip and also copied in the dotted box in column 33 of the Household Schedules. On the basis of these codes copied in the Household Schedules, the number of persons assigned with different Industrial Category code by sex was compiled for each household in the Household Schedules and for each block, village or ward etc., following the procedure indicated earlier using Block Compilation Sheet, Master Primary Census Abstract etc.

To facilitate the assignment of the Industrial Category other than Cultivation and Agricultural Labour for the description available in Qn. 15A (ii) of the Individual Slip, a list of activities associated with each of the Industrial Categories III to IX had been included in the Manual for Compilation of Primary Census Abstract. This list is reproduced as Annexure-4.

In the 1981 census, though in the Primary Census Abstract, main workers were classified into only 4 groups as stated earlier, in the General Economic Tables, the workers were classified into 9 Industrial Categories. The classification of economic activities made under the 9 broad Industrial Categories has generally remained the same for the 1991 census as in 1981 but for one significant change which should be noted.

The workers in tailoring establishments earlier were categorised either as working in Household Industry V(a) or other than Household Industry V(b) under Manufacturing, Processing, Servicing and Repairs Category (V). However, in the 1991 Census, in consonance with the National Industrial Classification (NIC), 1987 wherein the tailoring establishments are brought under Personal Services and only the manufacture of textile garments and clothing accessories has been retained under 'Manufacturing', the workers in tailoring establishments were assigned to Other Services i.e., Industrial Category IX.

Earlier, 'Repair Services' were covered under "Manufacturing and Repair" of the National Industrial Classification, 1970 adopted for the 1971 and 1981 censuses. In the National Industrial classification, 1987 all 'Repair Services' except 'Repair of capital goods' have been shifted to a different section dealing with "Community Social and Personal Services". In this case however it was decided that though the NIC codes that would be assigned to the activities relate to Services, for comparability with the previous censuses, these activities would be assigned Industrial Category V. Accordingly, the Repair Services were assigned Industrial Category V (viz., V(a) or V(b) as the case may be) as in the 1981 census.

In the instructions issued to the enumeration personnel for the canvassing of Household Schedule and Individual Slip, tailoring was covered under Manufacturing, Processing, Servicing and Repairs i.e., Industrial Category V and accordingly this activity had been classified as either 'HHI' or 'OW' by the enumerators

depending on whether it was run on a household industry basis or otherwise. In accordance with the decision taken referred to above, all returns relating to tailoring activity irrespective of the classification made by the enumerator - either as 'HHI' or 'OW' - in the Individual Slip were reclassified as Category 'IX' - 'Other Services' in the Regional Tabulation Offices, at the time of processing the data for the Primary Census Abstract. However activities relating to 'Manufacture of textile garments and clothing accessories' which the enumerator had classified as OW according to the instructions given, were classified as V(b) viz., Manufacturing, Processing, Servicing and Repairs - Other than HHI, as this particular activity continued to be covered under manufacturing.

Publication of final figures of 1991 Census :

After the finalisation and computerisation of the Primary Census Abstract, the Registrar General & Census Commissioner, India, released the final population figures of the 1991 Census through publications indicated below :

1. Series I India - Final Population Totals
   Paper-I of 1992

2. Series I India - Final Population Totals
   Paper-2 of 1992
   Brief analysis of Primary Census Abstract

First of these two publications namely Paper - I of 1992 presented figures for Total Population, Total Scheduled Castes Population and Total Scheduled Tribes Population for the Country and States/UTs down to C.D. Block and town level.

A brochure viz., Final Population Totals, Scheduled Castes and Scheduled Tribes which gave final figures for the total population, Scheduled Castes and Scheduled Tribes Population was released for the State of Karnataka by this Directorate on 20th January 1993. The Paper-2 of 1992 released by the Registrar General and Census Commissioner, India, presented the Primary Census Abstract figures with a brief analysis. Further, another Publication, viz., Paper 1 of 1993 : Union Primary Census Abstract for Scheduled Castes and Scheduled Tribes was released by the Registrar General and Census Commissioner, India which presented Primary Census Abstract for Scheduled Castes/Tribes population for the Country and State/UTs. For Karnataka Part-II-B(i): Primary Census Abstract for General Population, the predecessor to this volume and this volume have been published as part of the Publication Plan of the 1991 Census.

ANNEXURE -3

LIST OF A FEW TYPICAL INDUSTRIES THAT CAN BE CONDUCTED ON A HOUSEHOLD INDUSTRY BASIS

Foodstuffs

Production of flour by village chakkis or flour mills : milling or dehusking of paddy; grinding of chillies, turmeric, etc.; production of gur, khandasari, boora, etc.; production of pickles, chutney, jams etc.; processing of cashewnuts; making of dried vegetables; manufacture of sweet-meats and bakery products; production of butter, ghee, etc.; slaughtering and preservation of meat and fish; fish curing; etc.; oil pressing ghani.

Beverages

Manufacture of country liquor, toddy; production of soda-water, ice, ice-cream, sharbats, etc.; processing of coffee, etc.

Tobacco Products

Manufacture of bidi, cigars, cheroots, tobacco, snuff, etc.

Textile Cotton

Cotton ginning, carding, pressing and baling, spinning, etc.; dyeing and bleaching of cloth; weaving in handlooms or powerlooms or manufacture of khadi; cloth printing; making of fishing nets, mosquito nets, cotton thread, rope, twine, etc.

Textile Jute, Wool or Silk

Similar type of production or processing as mentioned under Textile Cotton but pertaining to the material concerned.

Textile Miscellaneous

Making of durries, carpets, hosiery, embroidery work; lace garland making; manufacture of chrochet headgear; making of newar, bed covers, (curtains, pillow, pillow cases etc.); making of mattress, quilt, (rezai), etc.; making of namda felt, coconut fibre for upholstery, making of brushes, brooms, etc., from coconut fibres; coir spinning; manufacturing and repair of umbrellas; manufacture of dolls and toys (rags and cotton), etc.

Manufacture of Wood and Wood Products

Sawing and planing of wood, manufacture of wooden furniture, structural goods like beams, door and window frames, etc., wooden agricultural implements and their repair, wooden lacquerware, wooden toys, wood carving, sawdust and plaster figure making, inlay work; match splinters, plywood and veneers, etc.; making palm leaf mats, fans, umbrellas, etc.; baskets and broomsticks, caning of chairs; making of chicks and khas khas tatties; making of cart wheels, wooden sandals, etc.

Paper and Paper Products

Manufacture of pulp and paper by hand; making of envelops, paper made articles, card board boxes, paper flower, paper kites, toys, etc.

Printing and Publishing

Printing works, lithography, block-making, book binding, etc.

Leather and Leather Products

Flaying and processing of hides and skins; making leather footwear, wearing apparel of leather and fur; repair of shoes or other leather products.

Rubber, Petroleum and Coal Products

Vulcanising tyres and tubes; manufacture of chappals from torn tyres and other rubber footwear, manufacture of rubber products from natural and synthetic rubber.

Chemical and Chemical Products

Manufacture of toys, paints, colours, etc.; manufacture of matches, fireworks, perfume, cosmetics; manufacture of ayurvedic medicines, soap, plastic products, celluloid goods; manufacture of ink, candles, boot polish, etc.

Non-Metallic Mineral Products - other than Petroleum and Coal

Making of bricks, roofing tiles, sanitary fittings, cement statues, stone or marble carvings, manufacture of stone structurals, stone dressing and stone crushing, mica splitting and manufacture of other mica products; making of earthenware and pottery, crockery, glass beads and bangles, earthen toys; manufacture of glass products, etc.

Basic Metals and their Products except Machinery and Transport Equipment

Manufacture of iron arms and weapons and their service and repair, iron and steel furniture, brass, bell-metal utensils, aluminium utensils, tin utensils, copper utensils, etc.; nickeling and electroplating, blacksmithy, manufacture and repair of agricultural implements such as plough-share, etc.; making and repairing of locks and trunks; cuttlery; manufacture of scales, weights and measures and foundry industry etc.

Machinery (all kinds other than transport) and Electrical Equipment

Manufacture of small machine tools and parts ; repairing and servicing of fans, radios, domestic electrical appliances, etc.

Transport Equipment

Repairing and servicing of automobiles; manufacture of cycle parts, rickshaw parts, boats and barges; manufacture of animal- drawn and hand-drawn vehicles such as bullock carts, wheel barrow, etc.

Miscellaneous Manufacturing Industries

Repair of spectacles, photographic equipment; goldsmithy, silver filigree industry; gold covering work, bidriware, repair of musical instruments, fountain pens; making of cowdung cakes, manufacture of sports goods; repairing of petromax lights; making of buttons and beads from conchshell and horn goods.

ANNEXURE-4

Guideline for assigning industrial category

INDUSTRIAL CATEGORIES OTHER THAN CULTIVATORS AND AGRICULTURAL LABOURERS

III LIVESTOCK, FORESTRY, FISHING, HUNTING, PLANTATIONS, ORCHARDS AND ALLIED ACTIVITIES

Plantations

Growing of Roots, tubers, vegetables, singharas, chillies and spices (other than pepper, cardamom).

Floriculture and Horticulture including tree nurseries.

Fodder crops and agriculture products n.e.c.

Plantation of tea, coffee, rubber, tobacco, pepper, cardamom, coconut, arecanut, edible nut (excluding groundnut),

Fruits, ganja, cinchona, opium and plantations not elsewhere classified.

Livestock

Cattle breeding & rearing of goats, sheep, horse, camel, mule, pig, duck, hens, bees, silk worms and birds.

Collection of honey, production of milk, wool, eggs, cocoons and raw silk.

Agriculture Services

Destroying of pest & insects

Irrigation services

Grading of agricultural products or livestock

Soil conservation services

Harvesting and thrashing and agriculture services

Forestry

Cutting of trees, production of firewood, fuelwood, charcoal, gathering of gums, resins, lac, barks, herbs etc.

Forestry services n.e.c.

Fishing & collection of sea products

Hunting

IV. MINING AND QUARRYING

Mining of Coal, lignite, iron ore, copper etc. Extraction of petroleum, natural gas etc. and mining services.

V(b) MANUFACTURING, PROCESSING, SERVICING AND REPAIRS

Manufacture of bakery products, sugar products, salt, oil, blending of tea, preparation of meat, beverages, etc. *cotton, jute, wool, silk, leather & man made fibre textiles, wood and wood products, paper and its products,* printing & publishing, leather and leather products, fur, chemical products, rubber, plastic, petroleum and coal products, non-metallic mineral products, basic metal and alloys industries, machinery and equipment, transport equipment and parts, repair of capital goods such as ships/boats, aircrafts, agricultural equipment, machine

tools, industrial machine tools, electrical industrial machine and apparatus, locomotives and other rail/road equipment. Repair services such as repair of footwear, leather goods, household electrical appliances, T.V., V.C.R., Radio, refrigerator, watches, clocks, jewellery, motor vehicles, motor cycles, trucks, lorry, bicycles and cycle rickshaws.

VI. CONSTRUCTION

Construction and maintenance of buildings, roads, railways, bridges, pipelines and runways etc. Maintenance of power, telecommunications and transmission lines, waterways, canals, tanks, wells etc.

Heating and air conditioning and sound proofing, timber works, painting and decorating work for constructions.

VII. TRADE AND COMMERCE

Wholesale and retail trades and restaurants and hotels.

Financing insurance, real estate and business services.

VIII. TRANSPORT, STORAGE AND COMMUNICATIONS

Land transport, water transport and air transport, services incidental to transport, storage and warehousing servicing, communication services.

IX OTHER SERVICES

Electricity, gas and water services, community, social and personal services. Activities not adequately defined.

A BRIEF NOTE ABOUT THE FIGURES

A number of statements which bring out the salient features about the distribution of Scheduled Castes and Scheduled Tribes population, their rural-urban residence, their proportion to total population, literacy rates, proportion of workers and non-workers etc., is presented at the end of this note. Notable features of the data presented in the PCA SC/ST and in these statements are indicated briefly below.

SCHEDULED CASTES POPULATION

Proportion to total population

In the total population of 44,977,201 in the State, those who have returned themselves as Scheduled Castes (SC) number 7,369,279, of which 3,756,069 are males and 3,613,210 are females. The Scheduled Castes population constitutes 16.38 per cent of the total population of the State. Among the districts, this proportion varies from as low as 6.52 per cent in Dakshin Kannad district to 25.73 per cent in Kolar district. Uttar Kannad is the only other district besides Dakshin Kannad wherein the SC population constitutes less than 10 per cent of the population of the district (7.54%). In as many as 13 districts the proportion of SC population is higher than the state average of 16.38 per cent, notable among them being Kolar (25.73%), Gulbarga (23.65%) and Bidar (20.71%).

Distribution among the districts

The proportion of SC population of the districts to the total SC population of the State or the share of the districts varies from a mere 0.80 per cent in Kodagu district which has the least population among the 20 districts of the State to 9.66 per cent in Bangalore, the most populous district in the State. However, it is to be noted that the SC population is not evenly distributed among the 20 districts of the State nor is distributed in proportion to the share of the total population of districts.

Rural - Urban distribution

Of the total SC population of 7,369,279 persons in the State as many as 5,645,186 persons were enumerated in rural areas while 1,724,093 persons were enumerated in urban areas in the 1991 census. Thus 76.60 per cent and 23.40 per cent of the total SC population of the state reside in rural and urban areas respectively. In the districts of the State also, with the lone exception of Bangalore district, a large chunk of the SC population resides in rural areas, its proportion to the total SC population of the districts concerned varying from 70.80 per cent (Dharwad district) to 89.44 per cent (Chikmagalur district). In Bangalore however, the district which has an exceptionally high proportion of over 86 per cent of its population living in urban areas, nearly 75 per cent of its SC population resides in urban areas.

Growth of Scheduled Castes Population 1981-91

The SC population which was 5,595,353 persons in 1981 has increased to 7,369,279 in 1991 registering a decadal growth rate of 31.70 per cent which is considerably higher than the growth rate for the total population (21.12%). This increase is reflected in the increase of the proportion of SC population in the tota population of the State from 15.07 per cent in 1981 to 16.38 per cent in 1991. The proportion of SC population in the population of the districts similarly has increased in all the districts except in Bangalore and Uttar Kannad districts.

In the State as a whole, the increase in the proportion of SC population between 1981 and 1991 is just 1.31 percentage points (PP) worked out as the difference in the proportion at the 1991 and 1981 censuses (i.e., 16.38% minus 15.07%). A higher increase than this is registered in only 9 districts of the State. These are Kodagu, Shimoga and the continuous districts of Bijapur, Dharwad, Bidar, Gulbarga, Raichur, Bellary and Chitradurga.

Literacy

In the SC Population of 5,945,703 in the age-group 7 years and above, literates account for 2,262,750 persons or 38.06 per cent. In the male and female SC population in the age-group 7 years and above. 49.69 per cent and 25.95 per cent respectively are literates. These rates are comparatively lower than the literacy rates for the total, male and female population of State viz., 56.04 per cent, 67.26 per cent and 44.34 per cent respectively.

The literacy rate among the districts varies from as low as 21.25 per cent in Raichur to 57.28 per cent in Bangalore District. In fact, there are only 8 districts which have registered a higher literacy rate than the State average for the SC population.

In the state as a whole the literacy rate for the female SC population (25.95%) is considerably lower than that for the male SC population (49.69%). This is so in all the districts.

In the state as a whole and in all the districts too, the literacy rate for the rural SC population is far less than that for the Urban SC population.

Workers

The crude work participation rate worked out as percentage of total workers (Total Main Workers + Total

Marginal Workers) for the Scheduled Castes Population is 44.66 per cent. The work participation rate (WPR) for male SC population is 52.40 per cent and that for female SC population is 36.62 per cent, an indication of higher participation of males in economically productive work.

The proportion of total main workers in male SC population (51.87%) is considerably higher than the corresponding proportion for female SC population (30.40%). On the otherhand, the proportion of marginal workers in the female SC population (6.22%) is higher than that of the male SC population (0.53%).

Among the districts the WPR of SC males varies from 47.41 per cent (Bijapur District) to 57.86 per cent (Kodagu District) as against State average of 52.40 per cent. The WPR for male SC population is lower than that state average in Bangalore and the five contiguous districts of the northern Karnataka viz., Belgaum, Dharwad, Bijapur, Gulbarga and Bidar.

The WPR for female SC population varies from 17.71 per cent (Bangalore district) to 47.60 per cent (Kodagu district) while the State average is 36.62 per cent. In 14 out of 20 districts in the State, it is more than the State average and in one district viz., Mandya, it is same as the State average. The five districts which have WPR for female population less than the State average are Bangalore, Bangalore Rural, Belgaum, Mysore and Uttar Kannad.

In the State as a whole, the proportion of workers in the various industrial categories to the total SC main workers varies from 1.71 per cent (in industrial categories V(a) and VIII to 49.87 per cent (in category II).

The industrial categories I (Cultivators) and II (Agricultural labourers) together account for 73.35 per cent of the total SC main workers. Both among male and female SC workers, participation in agricultural labour (Category II), comparatively is very high, with cultivation, (Category I) taking the second place. In the State as a whole and in all the districts except Dakshin Kannad, proportion of agricultural labourers in the main workers for SC females is higher than that of the corresponding proportion for SC males. In the district of Dakshin Kannad due to participation of females in manufacturing, processing etc., activities like Bidi rolling etc., the proportion of agricultural labourers among females is less than that for males.

The highest proportion of SC main workers in cultivation i.e., workers in categories I and II together is obtained in the district of Shimoga (84.88%) closely followed by Tumkur (84.78%). The lowest proportion is registered by the district of Bangalore (22.73%). This proportion is less than that for the State in six districts namely, Bangalore (22.73%), Belgaum (72.51%), Chikmagalur (63.24%), Dakshin Kannad (43.60%), Kodagu (28.22%) and Uttar Kannad (51.96%). Due to diverse economies of these districts, as in the case of total population of these districts, activities other than cultivation (categories I & II) account for a large proportion of SC main workers. Activities under manufacturing (Category V), Construction (Category VI), and Services (Category IX) in Bangalore, Belgaum and Dakshin Kannad, plantations (Category III) in Chikmagalur and Kodagu, plantations, forestry, fishing etc., (Category III) and Services (Category IX) in Uttar Kannad which account for comparatively high proportions of SC workers reflect diversity in the economic activities of the SC population in certain areas of the State.

Sex Ratio

The sex ratio in the SC population is 962. The sex ratio is considerably higher in rural areas (967) than in the Urban areas (944). The sex ratios for the total population of the State in the total, rural and urban areas being 960, 973 and 930 respectively, it will be seen that sex ratio in rural SC population is slightly less than that for the total population residing in rural areas.

The sex ratios for the main workers and for the various industrial categories indicate that the work participation of SC females is quite less in comparison to males and that it is only in agricultural labour (Category-II) the participation of females is quite high compared to other industrial categories. On the other hand, among marginal workers the sex ratios highlight significantly higher participation of SC females in work duration of which is less than 6 months or 183 days during the year.

The sex ratio is generally the highest in category-II i.e., agricultural labour as compared to other categories in all the districts except Bangalore, Chikmagalur, Dakshin Kannad, Hassan, Kodagu and Mysore. The activities which command a higher sex ratio in these districts are those of category-V(a) in Bangalore and Mysore, Category-III in Chikmagalur, Hassan and Kodagu and Category V(b) in Dakshin Kannad.

SCHEDULED TRIBES POPULATION

Proportion to total population

In the Total Scheduled Tribes (ST) population of 1,915,691 persons enumerated in the State, 976,744 are males and 938,947 are females. The ST population constitutes 4.26 per cent of the total population of the State (44,977,201). In the total population of the districts, the proportion of ST varies from as low as 0.73 per cent in Mandya district to as high as 14.60 per cent in Chitradurga district. The districts, which are noted for high proportion of ST population in their respective total populations, besides Chitradurga, are Bellary (8.82%), Bidar (8.30%), Kodagu (8.25%), Kolar (6.90%), Raichur (7.80%) and Tumkur (7.27%).

The distribution of ST population of the state, among the districts of the share of the districts varies considerably. The ST population in Chitradurga district accounts for 16.62 per cent of the population of the

State, which is the highest among the districts. The lowest share of 0.53 per cent is claimed by Uttar Kannad district.

Rural - Urban distribution

Of the 1,915,691 persons who have returned themselves as Scheduled Tribes, at the 1991 census 1,629,496 persons and 286,195 persons respectively resided in rural and urban areas. In other words 85.06 per cent and 14.94 per cent of the Scheduled Tribes population of the State live in rural and urban areas respectively. The rural residence in case of ST population, proportionwise is more predominant than in the case of the SC population or the total population of the State.

With the exception of Bangalore district, in all the districts of the State, ST population residing in rural areas account for a large proportion. In the district of Bangalore where, over 86 per cent of its total population resides in urban areas, the ST population residing in urban areas too accounts for a similarly high proportion.

Although the ST population has increased from 1,825,203 in 1981 to 1,915,691 in 1991, its proportion in the total population of the State has fallen from 4.91 per cent to 4.26 per cent and the decadal growth rate is just 4.96 per cent. It may be recalled that the ST population figures of 1981 census were presented along with a note to explain away the high returns viz., "Scheduled Tribe figures would appear to include high returns relating to certain communities with nomenclatures similar to those included in the list of Scheduled Tribes consequent on the removal of area restrictions". One of the reasons, on reflection, that could be advanced for the suppressed growth rate or the low proportion in 1991 as compared to that in 1981 is the supposed inclusion of high returns relating to certain communities with nomenclatures similar to those included in the list of Scheduled Tribes in the ST population of 1981 census. Due to an all time high increases in the ST population in 1981 for the reason indicated above and perhaps also due to the absence of this phenomenon wholly or partly in 1991 Census in some areas of the state, the decadal increase during 1981-91 appears to be low.

In the 7 contiguous districts of Belgaum, Uttar Kannad, Dharwad, Bijapur, Gulbarga, Raichur and Bellary in the north and in Mandya and Mysore in the south, the proportion of ST population has fallen between 1981 and 1991 censuses.

Literacy

The literacy rate for the ST population aged 7 years and above is 36.01 per cent. The literacy rates for the male and female ST population in age-group 7 years and above are 47.95 per cent and 23.57 per cent respectively.

The district of Bangalore has registered the highest literacy rate (62.02%) for the ST population among the districts and is closely followed by Dakshin Kannad district (60.18%). The district of Kodagu, one of the top ranking districts when literacy rates for the total population and SC population are considered has registered a literacy rate of 25.47 per cent for the ST population which relegates it almost the lowest rank among the districts, the 18th rank. Including Kodagu there are 9 districts which have registered literacy rate lower than the state average and the region formed by the districts of Bidar, Gulbarga, Raichur and Bellary represents the area where literacy rates are far below the state average. Besides this regional disparity, there is considerable male-female differential in the literacy rates in the State as a whole and in all the districts.

The literacy rate for the ST population in the rural areas is generally lower than that in the urban areas. The literacy rates in the urban population of the districts is significantly high, surprisingly not in the sufficiently urbanised districts of Bangalore or Dakshin Kannad but, in Hassan district (73.84%).

Workers

The crude work participation rate (WPR) for ST population is 47.80 per cent. In the male and the female ST population it is 55.72 per cent and 39.56 per cent. Female ST main workers are far less than male ST main workers both in terms of absolute numbers and proportion to respective populations. On the other hand female ST marginal workers far exceed the male ST marginal workers in both these respects. As in the case of the State, the WPR for the female ST population is lesser than that for the male ST population in all the districts.

Among the Total ST main workers those working in cultivation i.e, in Industrial Categories I and II (i.e., cultivators and agricultural labourers respectively) account for 79.81 per cent. Similar proportion among male and female workers are 76.86 per cent and 85.12 per cent respectively. This high proportion for females is due to the fact that for a large number of females agricultural labour is the main activity. In fact in this category, not only in proportion but also in actual numbers female ST agricultural labourers (182,766) exceed male ST agricultural labourers (177,207). Among the other industrial categories the proportion to main workers is above 5 per cent only in category III in case of ST males. In case of ST females in all categories other than categories I and II, the proportion is less than 5 per cent. In all the districts except Bangalore, Chikmagalur, Dakshin Kannad and Kodagu, those engaged in cultivation (Categories I+II) account for a major share of the main workers.

In Bangalore district, workers in categories I and II together account for just 23.69 per cent of the total ST main workers which is the lowest among the districts. In this district economic activities other than those in the Primary Sector (i.e., those covered under categories I, II, III and IV) are more prominent and this is reflected in the

comparatively high proportion of workers engaged in these activities.

In the distri..ts of Chikmagalur, Dakshin Kannad and Kodagu, proportion of those in cultivation (Category I+II) is less than 50 per cent of the Total main workers. Chikmagalur and Kodagu being the main Coffee producing districts, large number of workers have found employment in Coffee plantations. In Dakshin Kannad district, Bidi rolling and such other activities undertaken by the female folk are responsible for lesser dependence on agricultural labour and a lesser proportion of those in agricultural labour.

Sex Ratio

The sex ratio in the Scheduled Tribes population of the States is 961. It is 965 and 939 in the rural and urban areas of the State.

The sex ratio, being less than 1,000 in all the districts, is in favour of males. Even in Dakshin Kannad district where the sex ratio for the total population is in favour of females, it is less than 1,000 for the ST population. However sex ratio for the ST population in Dakshin Kannad is the highest among the districts (996). In rural population of the districts, the highest sex ratio of 999, an almost balanced male-female ratio, is registered by the districts of Dakshin Kannad and Hassan. It is only in the Urban population of Kodagu district, sex ratio of 1131, definitely in favour of females, is observed.

The sex ratio for the total main workers indicates a lower participation in main work for ST females and on the other hand participation of ST females in marginal work is exceptionally high as compared to ST males.

The sex ratio among the main workers in the various industrial categories is the highest in category V(b) (1313) in the rural ST population and is the highest in category-II (871) in the Urban ST population. However, in the rural areas of the districts the sex ratio in category-II i.e., Agricultural labourer is generally the highest among the industrial categories. Exception to this are the districts of Belgaum, Chikmagalur, Dakshin Kannad, Hassan, Kodagu, Mandya and Uttar Kannad districts where the female participation in comparison to males is more in some other activity.

In the urban areas of the districts too generally, the sex ratio in category-II is high as compared to other categories. But actual number of workers being small, the sex ratio figures are not strictly comparable.

STATEMENT-I

Population of Scheduled Castes and Scheduled Tribes in each District, their proportion to total population and their Percentage distribution in Districts, 1991

State/ District		Scheduled Caste and Scheduled Tribe population as Percentage of Total Population	Scheduled Caste Population as Percentage of Total Population	Scheduled Tribe Population as Percentage of Total Population	Scheduled Caste population in each District as Percentage of Total SC Population of the State	Scheduled Tribe population in each District as Percentage of Total ST Population of the State

STATE PRIMARY CENSUS ABSTRACT FOR SCHEDULED CASTES POPULATION/SCHEDULED TRIBES POPULATION

Note :

General : The State Primary Census Abstract presents data for the State, district and Community Development Block (C.D. Block) by total, rural and urban residence and for Urban Agglomeration (UA), city, town and outgrowth (OG). Unlike in the previous censuses, this time, the data are presented for the CD Blocks instead of Revenue Taluks. In Karnataka C.D. Blocks were converted into Taluk Panchayat Samithis. However for the sake of uniformity, the term C.D. Block is used in the PCA. Revenue taluks and C.D. Blocks in Karnataka are coterminous but the latter do not include places statutorily notified under the Karnataka Municipalities Act and Karnataka Municipal Corporation Act, which are treated as 'towns' for the purposes of 1991 census. Thus in the PCA, only non-statutory towns and outgrowths are presented under the concerned C.D. Blocks. However data for all the towns, cities and UAs (along with their component units) in the district are presented separately under 'Total Urban'. Thus the PCA for each district presents data say, in three distinct parts viz.,

(i) data for the district by total, rural and urban residence.

(ii) data for each of the C.D. Blocks in the district by total, rural and urban residence along with that for the urban units, if any, belonging to the C.D. Block concerned viz., non-statutory towns and outgrowths and

(iii) data for all the Urban units in the district and the district urban total. The non-statutory towns and OGs are presented under the C.D. Block also besides presenting them under the district urban as otherwise it would not be possible to associate them with the C.D. Block concerned. The components of UA i.e., towns and outgrowths which appear under the C.D. Block can be identified with the concerned UA, figures for which are presented under the 'Total Urban' with the help of their location codes given under column 1 of the PCA. Further, in the Annexure, Total population, Scheduled Castes population and Scheduled Tribes population figures for the Revenue taluks and for the urban units falling within each of the taluk are presented . This will facilitate identification of the statutory towns and C.D. Blocks with the taluk concerned.

Location code : The codes given under column 1 of the State PCA for various units are the codes used for the computerisation of the PCA. These codes are given in the PCA for the convenience of the data users are computerised data can be accessed with these codes on the NICNET or in the data supplied by the census organisation in floppies etc.

The location codes used for various units are briefly explained below :

State :

States and Union Territories which are 32 in the country are given a two digit location code from 02 to 33. Code 01 is reserved for the country. Karnataka is assigned 11.

District :

This is a two digit numerical code starting from 01. The 20 districts in the state are arranged in alphabetical order and assigned location code starting from 01 and ending with 20.

C.D. Block :

All the C.D. Blocks in each of the districts are arranged in alphabetical order and assigned four digit numerical location code with zeros on either side and middle two digits representing different C.D. Blocks. For instance, the codes for the 1st, 2nd, 3rd..... 11th etc., C.D. Blocks in any district are given as 0010, 0020, 0030..... 0110 etc., respectively.

TOWN /CITY/ URBAN AGGLOMERATION :

I. Towns/Urban Agglomerations having population less than one lakh

(a) **Towns :** All towns having a population not exceeding one lakh in a district are arranged in alphabetical order and assigned 6 digit numerical code starting with 100000 of which 2nd and 3rd fields from left represent different towns. Thus 100000, 101000, 102000.....110000, 111000 etc., represent 1st, 2nd, 3rd.....11th, 12th etc., towns respectively in a district.

(b) **UAs :** (i) UAs having one town and one or more outgrowths is given a location code in continuation of the code given to the last town as at (a) above, as the town and its OGs together is considered as one unit. Thus, the code for such a UA which occupies say 13th place in the list of towns is 112000. The town in this UA is given 112001 while the associated outgrowths are given codes in continuation of this as 112002, 112003 and so on.

(ii) UAs having population not exceeding 1 lakh with two or more towns are assigned a 6 digit numerical code such as 200000, 210000,

220000 etc., with the 2nd digit from left indicating different UAs in the same district. The component towns and OGs are represent by codes as follows. If the UA code is 200000 (being the first UA in the district having atleast two component towns and population not exceeding 1 lakh) the code for the first component town (and OG if any) given, is 200001 whereas the 2nd, 3rd etc., component towns are given codes as 201000, 202000 etc.,

II. Cities/UAs having population of one lakh and above

Towns with one lakh population or more in census parlance are called cities. Cities and UAs having population of one lakh or more are arranged in alphabetical order and assigned a 6 digit numerical code starting from 300000. The City/UA in a district are given codes such as 300000, 310000 etc., with the 2nd digit from left denoting 1st, 2nd etc. City/UA in the district respectively. Different components in the UA are identified by the 3rd and 4th digit from left in the UA code. Here too, if a town has OGs the town and the associated OGs together are treated as one unit. If a UA is assigned code say, for instance, 300000 being the first UA in the district, then towns (or town with OGs together) are given codes such as 300100, 300200,.....301000..etc., which represent 1st, 2nd..... 10th components respectively. Where this code represents both the town and OGs, the town and the different associated OGs are separately identified by the last 2 digits of the code from right. For instance the first component of the UA i.e., the town and OG's together is given code 300100 and the town, the first OG, 2nd OG.....etc., of the town are assigned codes 300101., 300102, 300103..... etc., respectively.

Presentation of Units :

Under column 2, the names of the State/District /CD Block/Town /City/ UA OG are presented in the order as indicated earlier. The names of the districts formed after 1981 census are given in italics. Similarly names of the places which are treated as towns as such, for the first time at the 1991 census are given in italics.

The names of places which were classified as towns for the first time in 1981 census and continue as towns for the 1991 census also, are shown with an asterisk (*) on their left.

The following abbreviations given within brackets along with the names of the towns indicate the civic status of the towns.

CB	:	Cantonment Board
CMC	:	City Municipal Council
MC	:	Municipal Corporation
MP	:	Mandal Panchayat
NAC	:	Notified Area Committee
NMCT	:	Non Municipal Census Town
SB	:	Sanitary Board
TMC	:	Town Municipal Council.

Outgrowths of the towns/ cities in UA are denoted by OG given within brackets "(OG)".

Changes in jurisdiction :

Bangalore and Bangalore Rural Districts

A new district, namely, Bangalore Rural district was carved out of erstwhile Bangalore district after the 1981 census. The new district comprises of 8 taluks namely (i) Channapatna, (ii) Devanhalli (excluding Jala hobli), (iii) Dod Ballapur, (iv) Hoskote (excluding Bidarhalli hobli), (v) Kanakapura, (vi) Magadi (excluding Tavarekere hobli), (vii) Nelamangala (excluding Dasanapura hobli) and (viii) Ramanagaram, all of which together with the hoblis given in parenthesis formed part of erstwhile Bangalore district. Bangalore district thus comprises only 3 taluks viz., Anekal, Bangalore North and Bangalore South now as against 11 taluks in 1981.

Jala hobli of Devanhalli Taluk and Dasanapura hobli of Nelamangala Taluk now form part of Bangalore North Taluk/CD Block. Thus, Hunasamaranahalli (OG) and Sugatta (OG) which belonged to Devanhalli (Jala hobli) and shown under Devanhalli Taluk in 1981 now appear under Bangalore North C.D. Block in the PCA.

Chikkabidarakallu of Dasanapura hobli of Nelamangala Taluk which was a rural unit in 1981 now appears as an OG under Bangalore North CD Block due to the said transfer.

Bidarahalli hobli of Hoskote Taluk and Tavarekere hobli of Magadi Taluk are now incorporated into Bangalore South Taluk/CD Block. Thus, Battarahalli (OG) and Medahalli (OG) and Kadugodi (NMCT) which were rural units in 1981 and belonged to Bidarahalli hobli of Hoskote Taluk in 1981 now appear under Bangalore South CD Block.

At the 1981 Census, data had been presented for "Bangalore (C) and Bangalore Development Authority". Now areas under the control of Bangalore Development Authority are treated as separate "Out growths". The units shown as "Bangalore (MC)" represents the jurisdiction of Bangalore City Corporation.

Kadenahalli (P), Krishnarajapura (P) and Dyavasandra (OG) which appeared as separate units in 1981 census now form part of I T I Notified Area.

Consequent on declassification of Kengeri TMC after the 1981 census, the three revenue villages comprised in the said municipal limits viz., Kengeri, Valagerehalli and Choodenapura are treated as out growths for the 1991 census.

Dakshin Kannad District :

The following urban units of 1981 census now form part of Mangalore (MC) in Dakshin Kannad District.

(a) **Towns**

(1)	Mangalore	(M)
(2)	Kankanady	(P)
(3)	Derebail	(P)
(4)	Padavu	(M)
(5)	Alape	(P) and
(6)	Kavuru	(P)

(b) Outgrowths

(1)	Boloor	(OG)
(2)	Kadri	(OG)
(3)	Jeppinamogru	(OG)
(4)	Maroli	(OG) and
(5)	Bangra Kulur	(OG)

Casba Bazar and Mangalore Thota which were treated as Outgrowths of Mangalore UA at the 1981 census are now substituted by "Bengare Area", as the area covered under the nomenclature Casba Bazar and Mangalore Thota previously, do not form part of any revenue village and is locally referred to as "Bengare Area".

PUBLICATION PLAN

The 1991 Census tables will be published in 33 separate series of volumes for All India and for each State and Union Territory.

The Publication series is as follows :

Series No.

1. INDIA

States

2.	Andhra Pradesh	3.	Arunachal Pradesh	4.	Assam
5.	Bihar	6.	Goa	7.	Gujarat
8.	Haryana	9.	Himachal Pradesh	10.	Jammu & Kashmir
11.	Karnataka	12.	Kerala	13.	Madhya Pradesh
14.	Maharashtra	15.	Manipur	16.	Meghalaya
17.	Mizoram	18.	Nagaland	19.	Orissa
20.	Punjab	21.	Rajasthan	22.	Sikkim
23.	Tamil Nadu	24.	Tripura	25.	Uttar Pradesh
26.	West Bengal				

Union Territories

27.	Andaman & Nicobar Islands	28.	Chandigarh	29.	Dadra & Nagar Haveli
30.	Daman & Diu	31.	Delhi	32.	Lakshadweep
33.	Pondicherry				

In each of these series (for all India and each State/Union Territory) the different series of tables (A series- General Population Tables, B-Series- General Economic Tables, etc.) will be brought out as different parts. Apart from these, District Census Handbooks will be published for each district in the country. These will contain the PCA data for the district, the village and town primary census abstract and the village and town directories. The latter comprise compilations of statistics, external to census relating to the villages and towns, which in conjunction with census data will be very useful to data users.

For all India and for each State and Union Territory, the census tabulations and reports will be published according to the following plan :

Part No. and Subject covered	Sub-part No. if any, and the topics covered
Part I-Administration Report (for Office use only)	Part I-A-Administration Report - Enumeration Part I-B-Administration Report - Tabulation
Part II- General Population Tables	Part II-A-General Population Tables - A Series Part II-B-Primary Census Abstract
Part III- General Economic Tables	Part III-A-B Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories. Part III-B-B Series tables of second stage which will be brought out on full count. The data relating HHI, OW, Marginal Workers and Non-Workers, seeking/ available for work will be entered on full count basis.
Part IV - Social and Cultural Tables	Part IV-A-C Series tables of first stage covering age, sex and marital status, composition of population, single year age returns, educational levels, school attendance and bilingualism. Part IV B-C Series tables covering mother tongue, religion of population and household composition.

Part V-Migration Tables	Part V -A-D-Series tables of first stage covering tables based on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories. Part V-B-D-Series Tables of second stage covering occupational classification of migrant workers. These tables are based on full count.
Part VI- Fertility Tables	F-Series tables of first stage which will be brought out on 10% sample in respect of major States and on full count in respect of smaller States and Union Territories.
Part VII - Tables on Houses and Household Amenities	H- Series tables covering census houses and the uses of which these are put, construction material of wall, roof and floor of the census houses occupied by households, tenure status of the house occupied and number of living rooms, household size, housing facilities like drinking water, electricity and toilet available to households and the fuel used by the household for cooking. These tables will also cover tables on Scheduled Castes and Scheduled Tribes. This volume will contain analytical notes also.
Part VIII - Special Tables on Scheduled Castes and Scheduled Tribes	This Part will contain SC and ST series of tables for Scheduled Castes and Scheduled Tribes respectively. The data relating to Scheduled Castes and Scheduled Tribes will be entered on full count basis in the third stage and SC/ST tables will be processed on the computer on full count. These will cover population of each Scheduled Caste/ Tribe, industrial categories of main and marginal workers, non-workers, seeking/available for work and those who never worked before, educational level, school attendance, age, sex and marital status, composition of Scheduled Castes and Scheduled Tribes. In addition to these, the fertility tables relating to SC/ST are also covered. These tables also cover for Scheduled Tribes, their composition by religion, mother tongue and bilingualism.

Part X	Ethnographic notes and special studies on Scheduled Castes and Scheduled Tribes
Part XI - Census Atlas	Union and State/Union Territory Census Atlases
Part XII - District Census Handbook	Part XII A-Village and Town Directory Part XII B-Village and Town wise Primary Census Abstract

The following special papers are also planned and will be published as and when they are ready as 1991 Census papers :

(a) Special studies taken up by the Directors of Census Operations
(b) Special Areas Surveys
(c) Special Tables for Standard Urban Areas
(d) Language Survey Reports
(e) Post Enumeration Check Report
(f) Age Tables
(g) Life Tables
(h) Reports on estimates of inter-censal birth and death rates using 1981-1991 life tables and age data
(i) Development of Vital Statistics in India

Besides these special papers, some monographs based on 1991 Census data on subjects of topical interest to be prepared by scholars will be brought out as 1991 Census monographs.

It is also proposed to carry out some special studies of 1991 Census data in collaboration with other organisations and the results of such studies will be published as occasional papers of the 1991 Census.

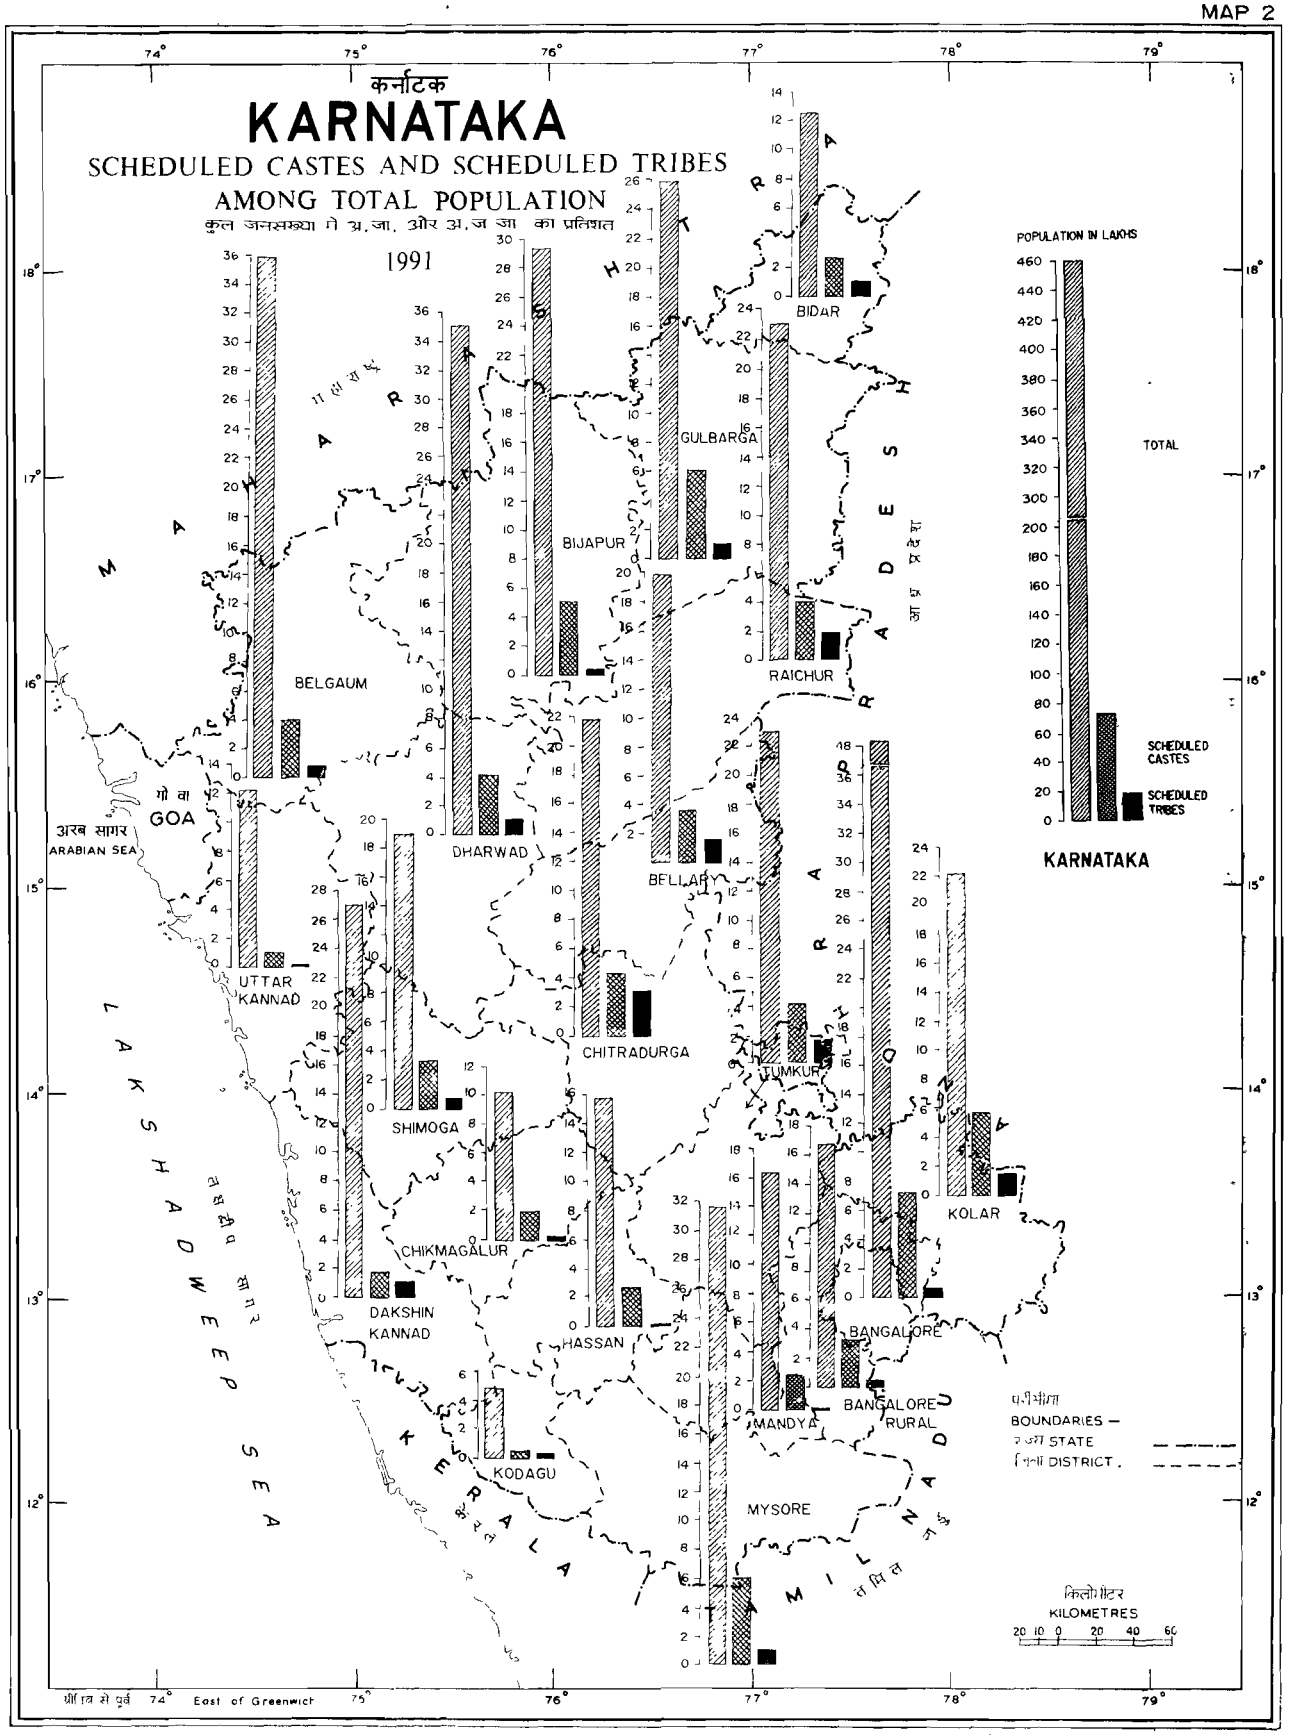

It is also proposed to disseminate census tabulations and the basic data in machine readable forms such as magnetic tapes, diskettes, floppies, etc.

The District Census Handbooks of Karnataka State will be available for sale at the Government Central Press, Bangalore. Other publications pertaining to Karnataka State will be available for sale at the Office of the Director of Census Operations, Karnataka, Bangalore and the Manager of Publications, Civil Lines, New Delhi-6.

MAPS

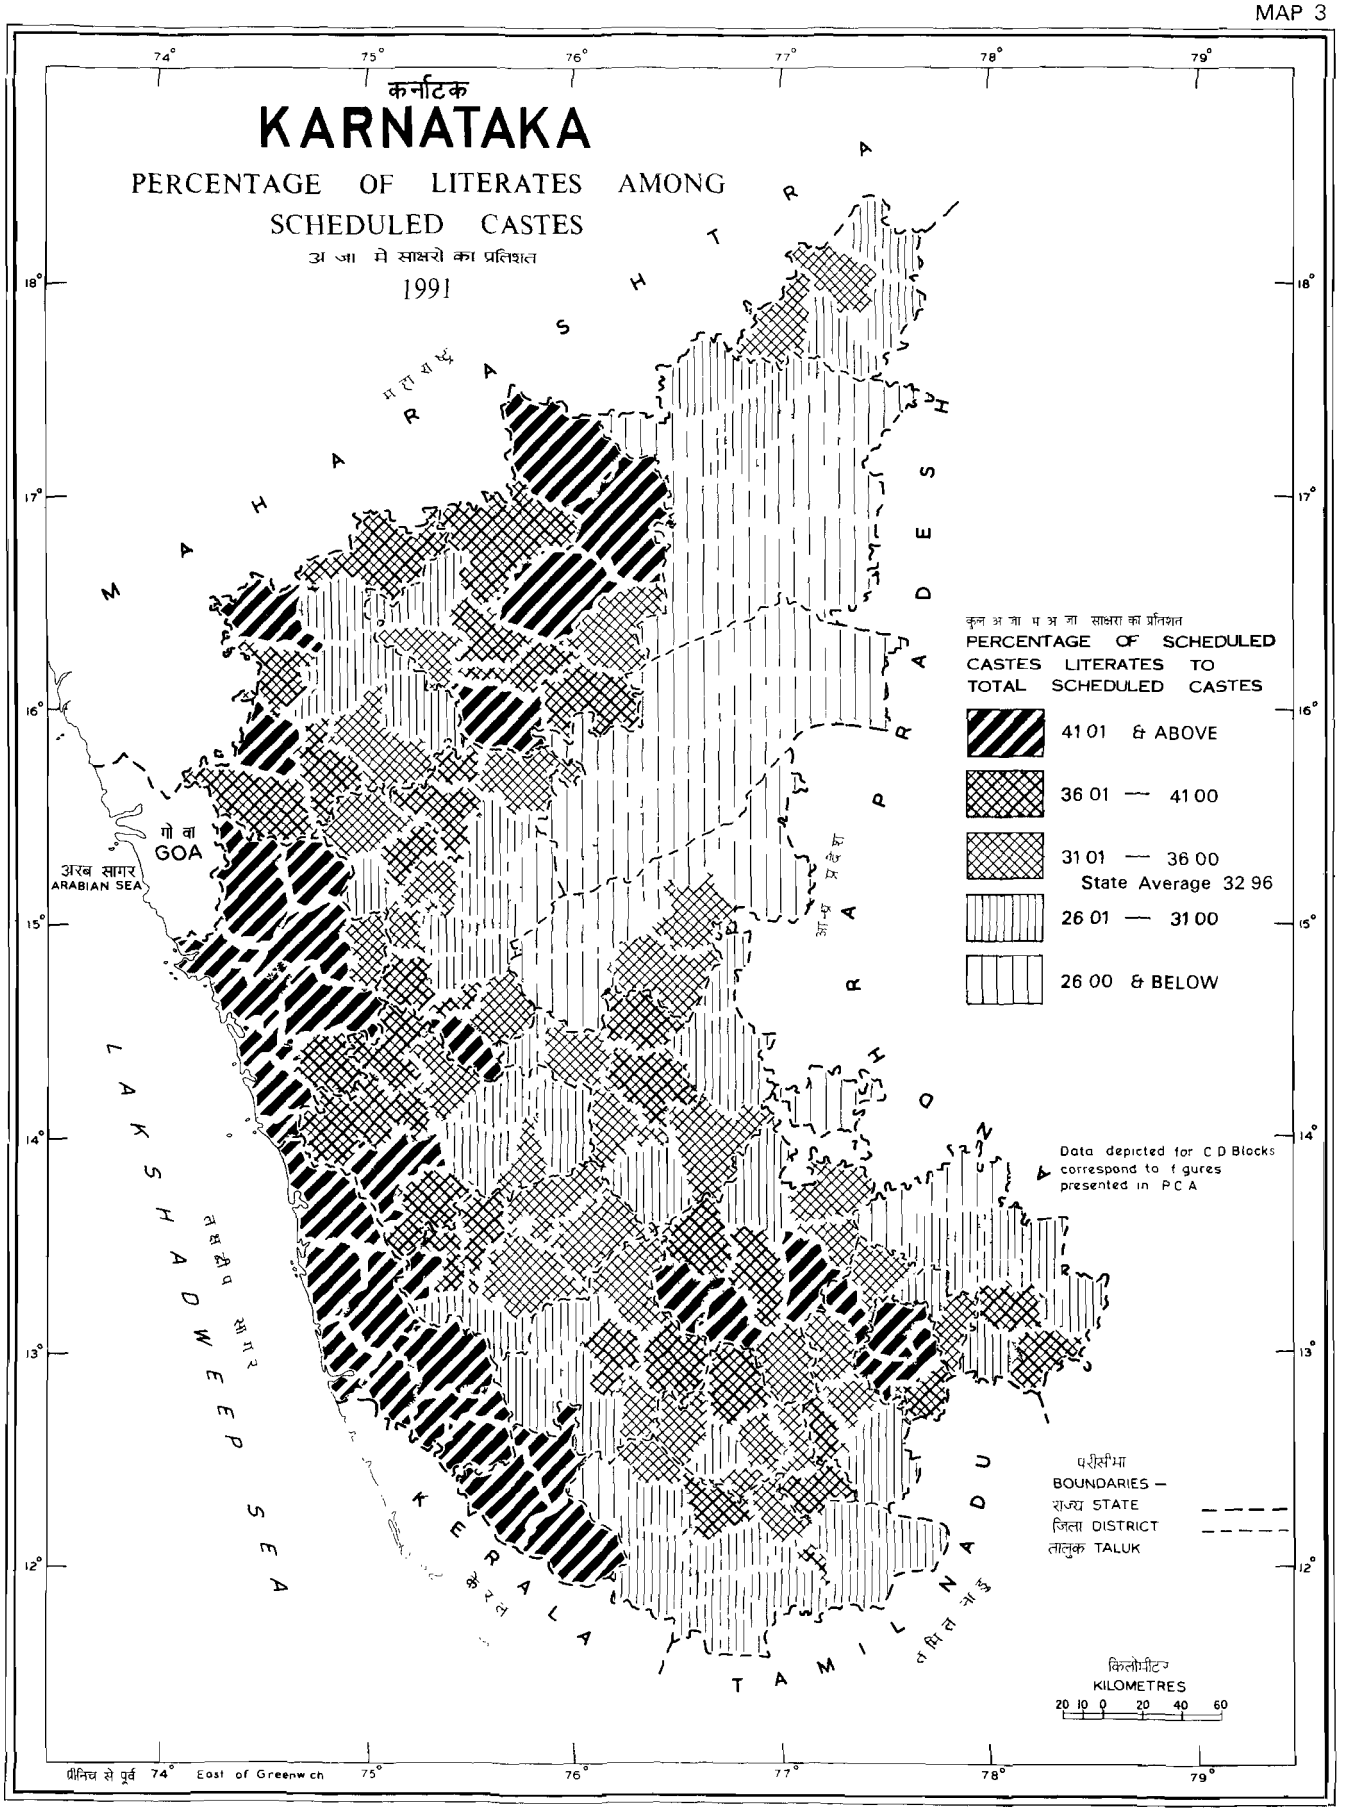

NOTE ON MAPS

In Karnataka, the boundaries of the CD Blocks and the revenue administrative taluks are same but the statutory towns situated within the taluk do not come under the jurisdiction of the CD Blocks. The data depicted for CD Blocks in the maps exclude data pertaining to statutory towns.
